

Catalog of Hymenoptera in America North of Mexico

Carl F. W. Muesebeck

This catalog is dedicated to our cherished colleague with affectionate regard
for his kindness and with admiration for his distinguished scholarly contributions to
our knowledge of North American Hymenoptera for more than half a century.

Catalog of Hymenoptera in America North of Mexico

Prepared cooperatively by
specialists on the various groups of Hymenoptera
under the direction of

Introduction

By

Karl V. Krombein,

Paul D. Hurd, Jr.,

and

David R. Smith

This catalog, which is an outgrowth of the highly successful Hymenoptera of America North of Mexico Synoptic Catalog (1951), including the first and second supplements (1958, 1967), provides simultaneously, by use of computer technology (Krombein, Mello and Crockett, 1974. Ent. Soc. Amer., Ann. 20 :24-29), a printed version as well as a computer-queriable data base of the basic systematic, biological, and morphological information on the order Hymenoptera as it occurs in America north of Mexico. While the format of the present catalog closely parallels that of the original catalog, every effort has been made to increase the information content to fulfill better the needs of the biological community. This has been accomplished chiefly by the introduction of textbook prose at most higher category levels, by the presentation of explanatory or descriptive comments as appropriate, and by the inclusion of more complete listings of citations to taxonomic, biological, and morphological literature at all hierarchical levels together with parenthetical annotations concerning the content for many of these citations. Similarly, the data about hosts, parasites, prey, predators, and pollen sources are covered more fully than in the original catalog. Since these data have been reported in various ways and under differing names in the primary literature, an

attempt has been made to organize this information and present it, usually, alphabetically even though sometimes such data have been recorded in the literature with scientific or vernacular names or both. Although many of these names have been checked for accuracy, no consistent attempt has been made to verify that the names agree with current usage or status. While those authors of zoological names are usually abbreviated in the citation of hosts, parasites, and the like, the authors of the scientific botanical names are not included. Elsewhere in the catalog, the last name of an author is cited in full, but without initials. Since the technology employed in the preparation of this catalog precluded the use of diacritical marks, these have been omitted and consequently, as in the case of the umlaut, a variant spelling has been substituted as appropriate.

The International Code of Zoological Nomenclature (1961) including the intent and preamble of the Code and of any pertinent opinions usually has been followed. Thus a name in current usage as determined by the code is employed, but mention is made, as appropriate, that an application is pending before the International Commission of Zoological Nomenclature.

An attempt has been made to record all the recent taxa, with their synonyms, described

from, or known to occur in, the political divisions of the conterminous United States, Canada, Alaska, and Greenland. Insofar as known, all species introduced from other countries and liberated in America north of Mexico for biological control purposes have been listed. Some of these have never been recovered and, apparently, were unsuccessful in establishing themselves. For each such species a statement has been included, following the distribution, that the species was liberated but did not become established.

As in the original catalog, the arrangement is systematic for species-groups and higher categories insofar as our present knowledge and the limitations of a linear arrangement permit. The generic and subgeneric concepts represented in this arrangement are based upon what are believed to be the correct type-species. In each instance the type-species is cited together with the authority for the selection. Where designations of type-species have been found to be invalid under the International Code of Zoological Nomenclature, new type-species designations, believed to be valid, are given in the catalog. Generic synonymy is included under the generic headings except where subgenera are recognized, in which cases such synonymy is given under the subgeneric names, and references to revisional or other papers are listed under the appropriate higher category.

The arrangement of species within genera, subgenera, and species groups is alphabetical. Where subspecies are recognized, the subspecific names are placed in alphabetical order under the species to which they belong; and varieties are listed under the particular species or subspecies in which they were described. In each case the specific, subspecific, or infrasubspecific, name is followed by an indication of the known distribution, and by brief statements, as appropriate, of preferred habitats or the like, hosts, parasites, prey, predators, or pollen sources. Much of

this information on synonymy, distribution, ecology, hosts, parasites, prey, and so forth has not been published previously. The type localities are usually recorded for those forms that are known only from the localities where the type specimens were obtained. Otherwise the distribution is usually shown by states and provinces, or by other means such as life zones.

Since unquestionably a catalog is indispensable in the support of systematic and other biological research, no effort has been spared toward making this catalog as useful as possible to all of the scientific community interested in these fascinating insects.

LITERATURE COVERAGE

All authors have attempted to include all pertinent references to synonyms, revisions, taxonomy, biology, and morphology beginning with 1758, the publication date of the 10th edition of "Systema Naturae" by Linnaeus. The cut-off dates vary for the several sections of the catalog and are as follows:

Symphyta through 1974;
Ichneumonoidea through 1976;
Chalcidoidea—Torymidae (except Agaoninae) and Encyrtidae through 1976; other families and Agaoninae through 1972;
Cynipoidea through 1972;
Evanioidea through 1976;
Pelecinoidea, Proctotrupoidea, and Ceraphronoidea through 1972;
Trigonaloidea through 1976;
Bethylloidea and Scolioidea through 1975;
Formicoidea through mid-1975;
Vespoidea, Pompiloidea, and Sphecoidea through 1975; and
Apoidea through 1976.

All authors have included some references subsequent to the dates listed above.

Abbreviations and Symbols

LITERATURE CITATIONS

The source for journal abbreviations is Whitlock, C., 1939, *Abbreviations used in the Department of Agriculture for titles of publications*, United States Department of Agriculture Miscellaneous Publication No. 337, 278 pages. Abbreviations for other titles and journals not found in Whitlock essentially follow the same format and abbreviations that she recommends. Book titles are usually shortened to omit irrelevant adjectives and include abbreviations, e.g.: Wheeler and Wheeler, 1963. The Ants of North Dakota, p. —, is cited as Wheeler and Wheeler, 1963. Ants of N. Dak., p. —. Certain lengthy non-serial titles are also abbreviated, e.g.: Say, 1824. *In Keating, Narr. Long's 2nd Exped.*, v. 2 (App.), p. —, rather than Say, 1824. *In Keating, Narrative of an Expedition to the Source of St. Peter's River, Lake Winnepack . . . , etc.* The titles are intended to be uniform throughout the catalog, but, in a work of this magnitude, there will naturally be some deviations. The abbreviations should be adequate to find the cited publication.

SYMBOLS AND ABBREVIATIONS

Certain symbols and abbreviations are frequently used in this catalog. Though there may be slight variations in some, they are generally as follows:

(!)—lapsus or misspelling of a scientific name.

“♀” = ♂ or “♂” = ♀—incorrect sex determination.

♀ (♂ misdet.) or ♂ (♀ misdet.)—only one of the sexes described belongs to the species catalogued.

♀—female.

♂—male.

♀—worker.

♀—soldier.

ab.—aberration.

app.—appendix.

cent.—central.

changed status—used after a species-group name to indicate a rank different from that previously accorded to it; not necessarily the same as new status.

desig.—designated; e.g., in type-species designation, “Desig. by Rohwer, 1911.”

e., east.—east, eastern.

emend.—emendation.

fasc.—fascicle.

fig., figs.—figure, figures.

h.—heft.

n. comb.—new combination; used after a species-group name to indicate a new generic assignment.

n. name—new name; used after a genus-group or species-group name to indicate a substitute name for a homonym.

N. name—New name; used after a bibliographic citation to indicate a previously proposed name.

Nom. nud.—Nomen nudum.

n. s.—new series.

n. status—new status; used where a taxon is here accorded a rank different from that which it had previously.

N. syn.—New synonymy; used to indicate a synonym newly proposed in this catalog.

n. no. north.—north, northern.

n.e., northeast.—northeast, northeastern.

n.w., northwest.—northwest, northwestern.

orig. desig.—original designation; used to indicate type-species designation.

p., pp.—page, pages.

pl., pls.—plate, plates.

preocc.—preoccupied; used after a genus-group or species-group name to indicate a homonym.

pt.—part.

revised status—revised status; used to denote a taxon that has been removed from synonymy.

ser.—series.

s., so., south.—south, southern.

s.e., southeast.—southeast, southeastern.

s.w., southwest.—southwest, southwestern.

sp., spp.—species.

ssp., sspp.—subspecies.

TAXONOMIC AND NOMENCLATURAL CHANGES

The catalog contains one undiagnosed new species in the Ichneumonidae, *Pterocormus clasma* Carlson, p. 521, proposed for the taxon misidentified as *Ichneumon canadensis* Cresson by Heinrich (1961).

The catalog contains one undiagnosed new

genus also in the Ichneumonidae, *Woldstedtius* Carlson, type-species *Bassus biguttatus* Gravenhorst, p. 719, proposed for *Syphoctonus* Foerster *sensu* Dasch (1964).

The following new names are proposed to replace preoccupied names:

Tenthredinidae

| | |
|---|-------|
| <i>Pachynematus gamus</i> Smith for <i>Pachynematus graminis</i> Marlatt (1896) | p. 58 |
| <i>Nematus attus</i> Smith for <i>Amauronematus dyari</i> Marlatt (1896) | p. 68 |
| <i>Amauronematus peralus</i> Smith for <i>Nematus pectoralis</i> Cresson (1880) | p. 80 |

Ichneumonidae

| | |
|--|--------|
| <i>Oedomopsis davisi</i> Carlson for <i>Trophon ? nasutus</i> Cresson (1868) | p. 366 |
| <i>Gelis cushmani</i> Carlson for <i>Hemiteles apantelis</i> Cushman (1927) | p. 405 |
| <i>Oresbius shumaginensis</i> Carlson for <i>Stiboscopus ferrugineus</i> Ashmead (1902) | p. 438 |
| <i>Pterocormus dyonymus</i> Carlson for <i>Ichneumon anomurus</i> Heinrich (1961) | p. 522 |
| <i>Casinaria affinisima</i> Carlson for <i>Casinaria affinis</i> Walley (1947) | p. 635 |

Pteromalidae

| | |
|---|--------|
| <i>Mesopolobus fuscipedes</i> Burks for <i>Platyterma fuscipes</i> Ashmead (1896) | p. 816 |
|---|--------|

Eurytomidae

| | |
|--|--------|
| <i>Harmolita ovatella</i> Burks for <i>Harmolita ovata</i> Phillips and Emery (1919) | p. 840 |
|--|--------|

Eulophidae

| | |
|---|--------|
| <i>Syntomosphyrum orgyiazele</i> Burks for <i>Tetrastichomyia orgyiae</i> Girault (1916) .. | p.1005 |
|---|--------|

Diapriidae

| | |
|--|--------|
| <i>Trichopria kiefferi</i> Muesebeck for <i>Diapria montana</i> Kieffer (1906) | p.1147 |
|--|--------|

Scionidae

| | |
|---|--------|
| <i>Trimorus contractus</i> Muesebeck for <i>Gryon flavipes</i> Ashmead (1893) | p.1162 |
|---|--------|

Ceraphronidae

| | |
|--|--------|
| <i>Aphanogmus harringtoni</i> Muesebeck for <i>Aphanogmus salicicola</i> Harrington (1899) | p.1190 |
|--|--------|

Megasilidae

| | |
|--|--------|
| <i>Deudrocerus obscurellus</i> Muesebeck for <i>Atritomus californicus</i> Kieffer (1906) .. | p.1194 |
|--|--------|

Masaridae

| | |
|--|--------|
| <i>Eiparagia richardsi</i> Bohart for <i>Psiloglossa simplicipes</i> Rohwer (1909) | p.1470 |
|--|--------|

Philanthidae

| | |
|--|--------|
| <i>Cerceris bolingeriana</i> Krombein for <i>Cerceris bolingeri</i> Scullen (1972) | p.1730 |
|--|--------|

Anthophoridae

| | |
|---|--------|
| <i>Triepelous mitchelli</i> Hurd for <i>Triepelous sublunatus</i> Mitchell (1962) | p.2094 |
|---|--------|

There are a number of other nomenclatural and taxonomic changes. These are considered of lesser bibliographic importance than the new names, so tabulations of them are deferred to Volume 3 which will also contain the indexes and a table of the number of

valid genera and species for each family and higher category. These nomenclatural and taxonomic changes are as follows:

A number of generic transfers are made. They are usually cited in the text as *xanthanum* (Saussure), n. comb. The authority

responsible for the transfer is the author of that section unless the name of another specialist is included.

There are also a number of instances where a taxon formerly considered to be a species is treated here as a subspecies of another taxon, or where a taxon formerly considered to be a subspecies is now raised to specific rank. The authority responsible for the change is the author of that section unless the name of another specialist is included. These are usually cited in the text as *clavatum johannis* (Richards), n. status or *alba* Rohwer, n. status.

The words—changed status—occasionally follow the author of a species-group name. This indicates that the taxon has a rank

different from that accorded it elsewhere. It is not the same as new status for it reflects a change which has already been published.

In a few taxa, the words—revised status—follow the author of a species-group name. This denotes a taxon which has been removed from synonymy.

There are a few new synonyms at the genus-group level and numerous new synonyms at the species-group level. These are indicated by the abbreviation N. syn. following the bibliographic citation of the new synonym. As noted above, the synonymy is to be attributed to the author of the section unless the name of another specialist appears in parentheses following the abbreviation N. syn.

Volume 3

It is intended that Volume 3 will contain separate indexes to the taxa of Hymenoptera, and to their hosts, parasites, prey, predators, and pollen and nectar sources. Preparation of the indexes has already begun, and we anticipate that the tapes for Linotron production will be sent to the Government Printing Office

during 1978. We will also include in Volume 3 a tabulation of the number of valid genera and species for each family and higher category, and lists of the nomenclatural and taxonomic changes other than the new names which are listed above.

Acknowledgments

Preparation of the catalog and funding for its publication have had the enthusiastic support of Porter M. Kier, Director, National Museum of Natural History (NMNH), Smithsonian Institution (SI) and of Lloyd V. Knutson, Chairman, Insect Identification and Beneficial Insect Introduction Institute, U.S. Depart-

ment of Agriculture. The catalog in its printed form could not have been achieved without their help, and we are most grateful that their assistance was available whenever we required it.

We are indebted to a host of cooperating hymenopterists for generous assistance which

has greatly enhanced the content and quality of the catalog. The aid furnished has involved such diverse activities as reviewing preliminary drafts of various sections, and providing new information on taxonomy, synonymy, distribution, and biology.

In the Symphyta, H. E. Milliron, formerly of the Biosystematics Research Institute (BRI), Agriculture Canada, Ottawa, reviewed parts of the manuscript and provided information, as did H. R. Wong, Northern Forest Research Centre, Edmonton, Alberta, for *Pristiphora* Latr. H. Greenbaum, University of Florida, Gainesville, furnished data on Florida sawflies.

The accuracy of host names in the Parasitica was checked by the following specialists: Smithsonian Institution—J. F. G. Clarke, D. R. Davis, W. D. Duckworth, T. L. Erwin, W. D. Field, and R. C. Froeschner; Systematic Entomology Laboratory (SEL), U. S. Department of Agriculture—D. C. Ferguson, R. J. Gagné, R. D. Gordon, A. B. Gurney, J. L. Herring, R. W. Hodges, J. M. Kingsolver, J. P. Kramer, A. S. Menke, D. M. Miller, L. M. Russell, C. W. Sabrosky, D. R. Smith, T. J. Spilman, M. B. Stoetzel, E. L. Todd, R. E. Warner, and R. E. White. D. M. Weisman (SEL) identified the remains of some lepidopterous larvae which served as hosts.

Specialists who were helpful in the Ichneumonoidea were: L. E. Caltagirone, University of California, Albany, and C. C. Loan (BRI), who reviewed parts of the manuscript on Braconidae; C. van Achterberg, Waarder, The Netherlands, W. R. M. Mason (BRI), R. D. Shenefelt, University of Wisconsin, Madison, and R. Wharton, University of California, Berkeley, who provided advice and information on Braconidae; H. K. and M. C. Townes, American Entomological Institute, Ann Arbor, Michigan, who provided information and advice on Ichneumonidae; and P. M. Marsh (SEL), who proofed the first-phase computer printouts for Mesochorinae, Diplazontinae, Oxytorinae and Orthocentrinae, and the third-phase edit for Ichneumoninae.

Z. Boucek, Commonwealth Institute of Entomology, London, and M. Graham, Oxford University, provided much information on Chalcidoidea, and D. P. Annecke, Plant Pro-

tection Research Institute, Pretoria, South Africa, advised on the placement of some species assigned erroneously to *Aphytus* Mayr. A special debt of gratitude is due C. F. W. Muesebeck who painstakingly proofed all edit phases of the computer printouts for Encyrtidae and Torymidae and all but the first-phase edits of all other families of Chalcidoidea.

D. B. Krombein provided welcome assistance by helping to proof the manuscripts and printouts for all superfamilies of aculeate wasps. F. D. Parker, Bee Biology and Systematics Laboratory, Utah State University, Logan, furnished biological data for a number of Utah wasps.

We are grateful to R. M. Bohart, University of California, Davis, for reviewing the manuscript on Chrysidae and for considerable other assistance which included information on new synonyms and distribution in the Elampinae and Chrysidiinae, and the assignment of taxa to species groups in *Chrysis* L. H. E. Evans, Colorado State University, Fort Collins, reviewed the section on Bethyidae.

In the Scolioidea, the late J. C. Bradley, Cornell University, Ithaca, New York, and J. G. Betrem, Deventer, The Netherlands, reviewed the manuscript on Scoliidae, and H. W. Allen, Moorestown, New Jersey, that on Tiphinae. W. E. Ferguson, San Jose State University, California, and C. E. Mickel, University of Arizona, Tucson, furnished information on synonymy and taxonomy of some Mutilidae.

R. R. Snelling, Los Angeles County Museum, California, and M. R. Smith, Arlington, Virginia, reviewed the section on Formicoidea. J. F. Watkins II, Baylor University, Waco, Texas, reviewed the section on Dorylinae, and A. C. Cole, University of Tennessee, Knoxville, that on *Pogonomyrmex* Mayr. A. Francoeur, University of Québec, Chicoutimi, provided information on the *fusca* group of *Formica* L.

O. W. Richards, British Museum (Natural History), London, and R. M. Bohart reviewed the entire manuscript for Vespoidea. J. van der Vecht, Putten, The Netherlands, recommended the systematic sequence adopted in the Eumenidae and reviewed the manuscript.

M. J. West-Eberhard, Universidad del Valle, Cali, Colombia, and R. R. Snelling reviewed the manuscript on Vespidae and supplied data on taxonomy and biology. J. E. Gillaspay, Texas A & I University, Kingsville, provided information on *Polistes* Latr.

H. E. Evans reviewed the manuscript on Pompilidae, and F. E. Kurczewski, University of Syracuse, N. Y., contributed some prey records.

R. M. Bohart and A. S. Menke generously made available a copy of their manuscript, "Sphecid Wasps of the World," which was most helpful in assembling the section on Sphecoidea; Menke, in addition, reviewed the catalog manuscript for this superfamily. Other specialists contributed data on the groups mentioned after their names: R. E. Coville, University of California, Berkeley (taxonomy and distribution of Trypoxyloninae); J. E. Gillaspay (Bembicinae); F. E. Kurczewski (biology of Larridae and Crabronidae); R. C. Miller, Cornell University (taxonomy, distribution, and biology of Crabronidae); W. J. Pulawski, Wroclaw, Poland (taxonomy and distribution of *Tachysphex* Kohl); and D. Vincent, University of Maryland, College Park (taxonomy and distribution of *Passaloecus* Shuck.).

E. G. Linsley, University of California, Berkeley, reviewed the entire manuscript on Apoidea and offered valuable suggestions. C. D. Michener, University of Kansas, Lawrence, discussed with the author of that section the biology and systematics of bees; many of his suggestions have been incorporated in the classification adopted. The following specialists have cooperated by contributing data on the groups specified after their names: G. E. Bohart, Bee Biology and Systematics Laboratory, Utah State University, Logan (taxonomy and biology of Apoidea); W. E. LaBerge, Illinois Natural History Survey, Urbana (taxonomy of Andrenidae and Anthophoridae); U. N. Lanham, University of Colorado, Boulder (taxonomy of Apoidea); M. A. Lieftinck, Rhenen, The Netherlands (taxonomy of Anthophoridae); A. Løken, University of Bergen, Norway (taxonomy of Apidae); T. B. Mitchell, North Carolina State University, Raleigh (taxonomy of Apoidea); J. S. Moure, Universidade

Federal do Paraná, Curitiba, Brazil (taxonomy of Apoidea); F. D. Parker (taxonomy and biology of Apoidea); J. G. Rozen, Jr., American Museum of Natural History, New York, New York (taxonomy and biology of Apoidea); R. R. Snelling (taxonomy of *Hylaeus* F.); R. W. Thorp, University of California, Davis (taxonomy and biology of Apidae); P. H. Timberlake, University of California, Riverside (taxonomy of Apoidea); and T. J. Zavortink, University of San Francisco, California (taxonomy of Anthophoridae).

C. W. Sabrosky (SEL) has been helpful to all of us in the discussion of abstruse nomenclatural problems. J. F. Gates Clarke (SI) participated patiently in philosophical discussions of a wide variety of subjects pertaining to the catalog. G. C. Steyskal (SEL) was the resource person for the grammar of scientific names and other linguistic matters.

Computerization of the catalog and its production by the computer-driven Linotron required the highly skilled technical expertise of specialists in computer storage and applications. James F. Mello, formerly Chief of the Data Processing (ADP) Program at NMNH, carefully analyzed the 1951 Hymenoptera Catalog and developed the data analysis matrix which governed entry of information into the computer. R. Creighton, Manager, Information Retrieval and Indexing Division, Office of Computer Services (OCS), SI, devised the programs for editing, arranging, querying, and displaying data from the manuscripts. J. J. Crockett, Manager, Software Systems and Program Maintenance (OCS), developed the program for conversion of the computerized data to special magnetic tapes capable of driving the Photo Typesetting Unit, the Mergenthaler Linotron 1010, in the Government Printing Office. T. G. Gautier, Chief (ADP), and D. Bridge, Operations Manager (ADP), maintained daily collaboration with the Editorial Board in assignment of clerical assistance, and production of the edit phases, merge files, and SELGPO printouts.

Finally, we are most grateful for the careful, accurate typing of the manuscripts for computer entry by the corps of dedicated clerk typists. R. M. Garlick served with the

program as principal typist from its inception until his reassignment in mid-1976 as a computer technician; he also trained the other assigned typists. P. R. Brown is currently the only typist assigned full time. Other typists who worked for varying lengths of time

during the six years of manuscript production and computer entry were: L. E. Back, L. M. Bybell, R. Cloyed, L. E. Hatton, M. Monahan, L. G. Oliver, J. Peabody, P. A. Sunkel, and M. F. Ward.

Order HYMENOPTERA

By KARL V. KROMBEIN AND PAUL D. HURD, JR.

The Hymenoptera is one of the largest orders of insects with more than 20,000 species in America north of Mexico, most of which are beneficial and many of which are of considerable economic importance to agriculture and forestry either as parasites or predators of pests or as pollinators of more than 100 commercially grown crops. Among the relatively few injurious Hymenoptera are the sawflies, some of which are serious defoliators or stem-borers of trees or crops.

Suborder SYMPHYTA

By DAVID R. SMITH

The suborder Symphyta, commonly known as sawflies and horntails, has also been recorded in the early literature under the names Chalastogastra, Sessiliventria, or Phyllophaga and Xylophaga. The suborder includes about 10,000 world species grouped into about 1,000 genera and 12 families. Representatives are found on all continents except for Antarctica, and they are also absent on many of the more isolated islands of the world such as Hawaii and many other Pacific islands. The most northern record is that for *Pachynematus parvilarbris* (Thomson) on Ward Hunt Island in Canada, 83° 05' N., and several species are found as far south as Tierra del Fuego. The North American fauna consists of around 1,000 species in 10 families. The two families that have no living representatives in North America are the Megalodontidae and Blasticotomidae, both of which are Palearctic, though the Blasticotomidae is represented in North America by the fossil species *Paremphytus ostentus* Brues from the Miocene of Florissant, Colorado. The Blasticotomidae contains only several species, very secretive and rarely found, the larvae of which bore in the stems of ferns. Living forms may yet be discovered on this continent. Other than the families discussed here, a number of fossil families have been described, most all from the Old World. These are Anaxyelidae, Gigasiricidae, Karatavitidae, Myrmicidae, Parapamphiliidae, Pararchexyelidae, Paroryssidae, Pseudosiricidae, Sepulcidae, Xyelotomidae, and Xyelydidae.

The common name sawfly, applied to members of most families, is derived from their flylike appearance and the sawlike female ovipositor which is used to cut open plant tissue for insertion of eggs. The name horntail is usually applied to members of the family Siricidae, the females of which have a long slender ovipositor. Adults of the suborder may be distinguished from other Hymenoptera by the abdomen which is broadly joined to the thorax, the trochanters which are always two-segmented and the hindwing which usually has three closed basal cells. The larvae of most sawflies are entirely different from other Hymenoptera larvae and are most often confused with those of Lepidoptera, though sawfly larvae lack crochets on the prolegs, have only one pair of ocelli, and normally have more than five pairs of prolegs. Some larvae, especially those modified for an internal existence, resemble the grublike larvae of other Hymenoptera but normally have a projection at the apex of the abdomen and vestiges of thoracic legs.

The higher classification of the Symphyta in most universal use at present is that proposed by Ross (1937) and Benson (1938). The suborder is divided into two major series, the Orthandria and Strophandria basically separated by the male genitalia which remains normal in the former but is turned 180° prior to eclosion in the latter. The Strophandria is expressed as the superfamily Tenthredinoidea. The Orthandria have been further divided on the basis of characters of the mesosternum and head capsule into three superfamilies, the Megalontoidea, Siricoidea, and Cephidoidea. Some authors have recognized the superfamily Xyloidea including only the family Xyelidae. This has some merit, as both positions of male genitalia are found, the orthan-

drous in the Macroxyelinae and strophanous in the Xyelinae.

All members of this suborder are phytophagous except for the family Orussidae which is parasitic on other wood-boring insects. Host plants and habits are various. Many larvae are external feeders on the foliage of the host, but others are leaf miners, gall formers on twigs, petioles, leaves, or buds, leaf-edge rollers, stem borers, wood borers, or petiole miners. Because of their plant feeding habits, many sawflies are pests of ornamental plants, agricultural crops, or forest stands. Their occurrence is normally local, but outbreaks in forests may be extensive, covering many thousands of acres and resulting in considerable growth loss or death of trees. Appearance in epidemic proportions is commonly sporadic, suddenly appearing for a year or more then practically disappearing for several years, probably being kept under control by their natural parasite-predator-disease complex. Some of the most destructive species are aliens which were accidentally introduced from abroad and found a vacuum for development without natural enemies. Many parasites have been introduced to help combat these pests. Some of the more important sawflies are those that feed on timber species, roses, apples, pears, peaches, and wheat and other grain crops. On the other hand, a few sawflies have been used beneficially, or at least have been attempted for use in the biological control of weeds. One species, *Ucona acaenae* Smith (= *Antholcus varinervis* of authors), was introduced into New Zealand from Chile in the early 1930's to help control the spread of *Acaena*. This attempt was only partially successful. Another species, *Priophorus morio* (Lepeletier), was released in Hawaii from the western United States to help control the spread of *Rubus* on the islands, but this attempt failed.

The life cycle of many sawflies follows a similar pattern, though with many variations. Adults of most species fly in spring and early summer and are very short-lived. It is difficult to keep individual adults alive in captivity for much more than a few days although the actual flight of a species may extend over several weeks or months. Some adults may not feed but some may feed on moisture, nectar and pollen of flowers, leaf pubescence, or other insects. The most productive areas for collecting are in vegetation on edges of rivers or streams, marshes, open and scrubby woodland, or undisturbed meadows. The catkins of willows and alders are especially productive for many groups. Oviposition is in the foliage, stems, twigs, or wood, and the eggs are most always inserted in the plant tissue though some Pamphiliidae may glue their eggs to the leaf surface. Larval feeding time varies, but usually lasts about two weeks. Many larvae, especially Diprionidae, feed gregariously at first but later disperse to other parts of the host. After feeding is completed the larva molts into a non-feeding stage called the prepupa or resting stage. The prepupa normally leaves the host in search of a site for pupation. This may be in a cell in the ground or litter, in a papery cocoon in the ground, in some other substance such as wood, stems of the host or nearby plants, or fruits of other plants. The prepupal stage differs morphologically from the feeding stages, especially in the shape of the mandibles and sometimes color pattern. Some larvae with spines loose these in the final molt. If there is a single generation, the prepupa will remain in its cocoon or cell the rest of the summer and pupate the following spring. However, depending on the species, latitude, or diapause requirements, there may be several generations a year, or it may take several years to complete the cycle.

The following references are to general articles on the Symphyta. Some, such as Maxwell, 1955, in morphology, pertain to many species and the reference is not repeated under each species. Under some species, such as *Pristiphora erichsonii* (Hartig), a listing of all biological references would take many more pages, and the references are selected or pertain to some recent synopsis which contains a good bibliography. Some of the new distribution records, hosts, and taxonomic changes are taken from unpublished notes. Only those taxonomic changes cited as being new have not before appeared in the literature.

I am indebted to several colleagues for reviewing parts of this section and or providing some of the information contained herein: H. E. Milliron, formerly with the Biosystematics Research Institute, Agriculture Canada, Ottawa and other authorities of the Institute for allowing study of their sawfly collection; H. R. Wong, Northern Forest Research Centre, Canadian Forestry Service Edmonton, Alberta, Canada; and H. Greenbaum, Department of Entomology, University of Arkansas Fayetteville.

Superfamily MEGALODONTOIDEA

Family XYELIDAE

A small family of primitive sawflies better represented in North America than in other parts of the northern hemisphere. Most of the family is associated with conifers; only members of the tribe Macroxyelini are associated with deciduous trees.

Revision: Ross, 1932. Ent. Soc. Amer., Ann. 25: 153-169 (Nearctic).

SUBFAMILY MACROXYELINAE

TRIBE XYELECIINI

Genus XYELECIA Ross

Xyelecia Ross, 1932. Ent. Soc. Amer., Ann. 25: 159.

Type-species: *Xyelecia nearctica* Ross. Orig. desig.

nearctica Ross. "Mont. and Colo.", Idaho, Oreg., Calif. Ecology: Larvae live in shoots. Host:

Abies spp.

Xyelecia nearctica Ross, 1932. Ent. Soc. Amer., Ann. 25: 160. ♀.

Taxonomy: Smith, 1964. Pan-Pacific Ent. 40: 54-56 (male). — Smith, 1967. Ent. Soc. Amer., Ann. 60: 381-382 (larva).

TRIBE MACROXYELINI

Genus MACROXYELA Kirby

Macroxyela Kirby, 1882. List Hym. Brit. Mus. v. 1, p. 351.

Type-species: *Xyela ferruginea* Say. Orig. desig.

Protoxyela MacGillivray, 1912. Canad. Ent. 44: 295.

Type-species: *Xyela aenia*(!) Norton. Orig. desig.

Larvae of this genus feed on the leaves of deciduous trees.

Revision: Ross, 1932. Ent. Soc. Amer., Ann. 25: 164-166.

aenea (Norton). La., Mo., Tex.

Xyela aenea Norton, 1872. Amer. Ent. Soc., Trans. 4: 86. ♂.

bicolor MacGillivray. Ohio, Ill.

Macroxyela bicolor MacGillivray, 1912. Canad. Ent. 44: 294. ♂.

Macroxyela bicolor var. *harti* Ross, 1932. Ent. Soc. Amer., Ann. 25: 166. ♂.

ferruginea (Say). Ont. and Mass. s. to Va. w. to Nebr., Kans. and Okla.; one record from Moscow, Idaho. Host: *Ulmus*.

Xyela ferruginea Say, 1824. In Keating, Narr. Long's 2nd Exped. v.2, (App.), p. 310. ♀.

Xyela infuscata Norton, 1861. Boston Soc. Nat. Hist., Proc. 8: 224. ♂.

Macroxyela obsoleta MacGillivray, 1912. Canad. Ent. 44: 294. ♀.

Macroxyela distincta MacGillivray, 1912. Canad. Ent. 44: 295. ♀.

Taxonomy: Smith, 1967. Ent. Soc. Amer., Ann. 60: 379-380 (larva).

Biology: Garlick, 1923. Canad. Ent. 55: 256-257.

Genus MEGAXYELA Ashmead

Megaxyela Ashmead, 1898. Psyche 8: 214.

Type-species: *Xyela major* Cresson. Orig. desig.

Odontophyes Konow, 1899. Wien. Ent. Ztg. 18: 42.

Type-species: *Pleroneura aviingrata* Dyar. Monotypic.

Paraxyela MacGillivray, 1912. Canad. Ent. 44: 294.

Type-species: *Xyela tricolor* Norton. Orig. desig.

Larvae of this genus feed on the leaves of deciduous trees.

Revision: Ross, 1932. Ent. Soc. Amer., Ann. 25: 161-164.

bicoloripes (Rohwer). Pa., Va., Miss.

Odontophyes bicoloripes Rohwer, 1924. Ent. Soc. Wash., Proc. 26: 215. ♀.

major (Cresson). N. Y. to Fla. w. to Kans., Okla., Tex. Host: *Carya illinoiensis*.

Xyela major Cresson, 1880. Amer. Ent. Soc., Trans. 8: 34. ♀, ♂.

Odontophyes ferruginea Bridwell, 1906. Ent. News 17: 94. ♀.

Megaxyela langstoni Ross, 1936. Ent. News 47: 131. ♀, ♂. N. syn.

Taxonomy: Smith, 1967. Ent. Soc. Amer., Ann. 60: 380-381 (larva).

tricolor (Norton). N. Y., Ill., Kans. Host: *Carya, Juglans cinerea*.

Xyela tricolor Norton, 1862. Ent. Soc. Phila., Proc. 1: 114. ♂.

Pleroneura aviingrata Dyar, 1898. Psyche 8: 213. ♀, larva. N. syn.

Taxonomy: Smith, 1967. Ent. Soc. Amer., Ann. 60: 381 (larva).

Family PAMPHILIIDAE

Commonly called webspinning sawflies, the larvae live solitarily or socially in a web or in a rolled leaf held by silk. The subfamily Cephalciinae is associated with conifers, and the subfamily Pamphilinae is associated with deciduous trees or shrubs. Adults of most species are large, dorsoventrally flattened insects, and are sometimes common around the flowers of their host plants in the spring.

Taxonomy: Klima, 1937. In Hedicke, Hym. Cat., pt. 3, 84 pp. (catalog). —Benson, 1945. Roy.

Ent. Soc. London, Proc. Ser. B: Taxonomy 14: 25-33 (generic classification, world).

SUBFAMILY CEPHALCIINAE

Members of this subfamily are associated with conifers. There are two tribes and one, the Cephalciini, occurs in North America; the other, Caenolydini, is Palaearctic.

TRIBE CEPHALCIINI

Genus CEPHALCIA Panzer

Cephalcia Jurine, 1801. Intell. Blatt Litt.-Ztg. Erlangen 1: 163. Suppressed, Internatl. Comm. Zool. Nomencl. Op. 135, 1939.

Cephalcia Panzer, 1805. Faunae Ins. German. heft 86, pls. 8, 9.

Type-species: *Cephalcia arvensis* Panzer. Desig. by Rohwer, 1911.

Cephaleia Jurine, 1807. Nouv. Meth. Class. Hym. Dipt. 67, t. 2, f. 7.

Liolyda Ashmead, 1898. Canad. Ent. 30: 209.

Type-species: *Lyda frontalis* Westwood. Orig. desig.

Revision: Middlekauff, 1958. Calif. Univ., Pubs., Ent. 14: 132-149. —Eidt, 1969. Canad. Ent. Soc., Mem. No. 59, 56 pp. (taxonomy, morphology, larval descriptions, life histories for most of North American species).

californica Middlekauff. Alta., Mont., Wyo., B. C., Calif. Host: *Pinus contorta*, *P. ponderosa*. *Cephalcia californica* Middlekauff, 1958. Calif. Univ., Pubs., Ent. 14: 135. ♀.

distincta (MacGillivray). Newfoundland to N. Y., w. to Ont. and Mich. Host: *Abies balsamea*, *Tsuga canadensis*.

Lyda olympia MacGillivray, 1893. Canad. Ent. 25: 243. ♂.

burkei Middlekauff. Calif. Host: *Pinus radiata*.

Acantholyda (Itycorsia) burkei Middlekauff, 1958. Calif. Univ., Pubs., Ent. 14: 108. ♀, ♂.

chicoutimiensis (Huard). Ont., Que. Host: *Picea mariana*; *Pinus banksiana*(?).

Lyda chicoutimiensis Huard, 1879. Nat. Canad. 11: 149. ♀.

Taxonomy: Comeau, 1957. Nat. Canad. 84: 29 (nomenclature).

circumcincta (Klug). N. B., Que., Pa., Ga., Fla. Host: *Pinus banksiana*, *P. clausa*.

Lyda circumcincta Klug, 1808. Mag. Gesell. Naturf. Freunde Berlin 2: 279. ♀.

crocina Middlekauff. Idaho, Calif. Host: *Pinus muricata*, *P. sabiniana*.

Acantholyda (Itycorsia) crocina Middlekauff, 1958. Calif. Univ., Pubs., Ent. 14: 113. ♀, ♂.

depressa Middlekauff. Ariz.

Acantholyda (Itycorsia) depressa Middlekauff, 1958. Calif. Univ., Pubs., Ent. 14: 115. ♂.

floridana Greenbaum. North. Fla. Host: *Pinus elliottii* var. *elliottii*, *P. clausa*(?).

Acantholyda (Itycorsia) floridana Greenbaum, 1975. Fla. Ent. 58: 47-51. ♀, larva.

luteomaculata (Cresson). N. B. to Conn. w. to Ohio and Minn. Host: *Pinus banksiana*, *P. strobus*, *P. sylvestris*.

Lyda luteomaculata Cresson, 1880. Amer. Ent. Soc., Trans. 8: 28. ♀.

maculiventris (Norton). Labrador s. to N. C., w. to Wyo., B. C. and Calif. Ecology:

Widespread. Host: *Abies balsamea*, *Picea glauca*, *P. mariana*(?), *Pinus strobus*(?).

Lyda maculiventris Norton, 1869. Amer. Ent. Soc., Trans. 2: 333. ♂.

Itycorsia nivea Rohwer, 1910. Canad. Ent. 42: 92. ♀.

Acantholyda ferruginea Felt, 1917. Canad. Ent. 49: 192. ♂.

nigripes (Cresson). Nev., Oreg., Calif.

Lyda nigripes Cresson, 1880. Amer. Ent. Soc., Trans. 8: 28. ♂.

nigrita (Cresson). Nev., Calif.

Lyda nigrita Cresson, 1880. Amer. Ent. Soc., Trans. 8: 30. ♂.

ochrocerata (Norton). Que. to Pa. w. to Wis.

Lyda ochrocerata Norton, 1869. Amer. Ent. Soc., Trans. 2: 332. ♀, ♂.

ruficeps (Harrington). Que. s. to N. C. and w. to Minn.; B. C. Host: *Pinus banksiana*, *P. contorta*, *P. resinosa*.

Pamphilus ruficeps Harrington, 1893. Canad. Ent. 25: 62. ♀.

terminalis (Cresson). Colo., Nev., Wash., Oreg., Calif.

Lyda terminalis Cresson, 1880. Amer. Ent. Soc., Trans. 8: 29. ♀.

Itycorsia ballista MacGillivray, 1923. Ill. Univ., Bul. 20(50): 19. ♀.

thalictra Middlekauff, Tex., N. Mex. Host: *Pinus edulis*(?).

Acantholyda (Itycorsia) thalictra Middlekauff, 1958. Calif. Univ. Pubs., Ent. 14: 126. ♀.
verticalis (Cresson). Minn., Nebr., and Colo. w. to B. C. and Calif. Host: *Pinus contorta*, *P. monticola*, *P. ponderosa*, *P. radicans*.

Lyda verticalis Cresson, 1880. Amer. Ent. Soc., Trans. 8: 26. ♀.

Lyda similis Cresson, 1880. Amer. Ent. Soc., Trans. 8: 27. ♀.

Lyda montivaga Cresson, 1880. Amer. Ent. Soc., Trans. 8: 28. ♂.

Lyda rufiventris Cresson, 1880. Amer. Ent. Soc., Trans. 8: 29. ♂.

Itycorsia luteopicta Rohwer, 1910. Canad. Ent. 42: 92. ♀.

zappei (Rohwer). Que. to N. J. w. to Mich. Host: *Pinus austriaca*, *P. rigida*, *P. strobus*.

Itycorsia zappei Rohwer, 1920. U. S. Natl. Mus., Proc. 57: 209. ♀, ♂.

SUBFAMILY PAMPHILIINAE

Members of this subfamily are associated with deciduous trees and shrubs. The Nearctic species of Neurotomini are confined to plants of the family Rosaceae. There are two tribes, and both tribes are Holarctic.

TRIBE NEUROTOMINI

Genus NEUROTOMA Konow

Neurotoma Konow, 1897. K. K. Naturhist. Hofmus., Ann. 12: 18.

Type-species: *Tenthredo flaviventris* Retzius. Desig. by Rohwer, 1910.

Neurotoma subg. *Gongylocorsia* Konow, 1897. K. K. Naturhist. Hofmus., Ann. 12: 19.

Type-species: *Lyda mandibularis* Zaddach. Monotypic.

Gongylocorsia(!) Ashmead, 1898. Canad. Ent. 30: 208.

Revision: Middlekauff, 1940. Canad. Ent. 72: 201-206 (adults and larvae). —Middlekauff, 1958. Calif. Univ. Pubs., Ent. 14: 149-158.

crataegi Middlekauff. Mass., N. Y., Mich., Ill., Wis., Man. Host: *Crataegus succulenta*, *C. brainerdi*.

Neurotoma crataegi Middlekauff, 1940. Canad. Ent. 72: 202. ♀.

fasciata (Norton). Que. to Fla. w. to Wis. and Mo. Host: *Prunus serotina*, *P. pennsylvanica*.

Lyda fasciata Norton, 1862. Ent. Soc. Phila., Proc. 1: 200. ♀.

Biology: Pearsall, 1902. Canad. Ent. 34: 214-216.

inconspicua (Norton). Que. and Mass. to Pa. w. to S. Dak., Mont. and B. C., Ark. and Kans.

Host: *Prunus americana*, *P. cerasus*, *P. besseyi*, *P. davidiana*, *P. domestica*, *P. nana*, *P. nigra*, *P. pennsylvanica*, *P. virginiana*, and probably other species of *Prunus*. Plum web-spinning sawfly.

Lyda inconspicua Norton, 1869. Amer. Ent. Soc., Trans. 2: 350. ♀.

Lyda spoliata Williams, 1896. S. Dak. Agr. Expt. Sta., Bul. 48: 14-17. ♀, ♂.

Lyda rufipes Marlatt, 1896. In Williams, S. Dak. Agr. Expt. Sta., Bul. 48: 17. ♀, ♂.

Biology: Severin, 1920. S. Dak. State Ent. Tech. Bul. 1, 53 pp. —Severin, 1920. S. Dak. Agr. Expt. Sta., Bul. 190: 224-251.

willi Middlekauff. N. Y., Pa. Host: *Crataegus* sp.(?). An adult collection record.

Neurotoma willi Middlekauff, 1958. Calif. Univ. Pubs., Ent. 14: 158. ♂.

Taxonomy: Middlekauff, 1965. N. Y. Ent. Soc., Jour. 73: 238 (female, distribution, host).

TRIBE PAMPHILIINI

Genus PAMPHILIUS Latreille

Pamphilius Latreille, 1802. Hist. Nat. Crust. Ins., v. 8, p. 303.

Type-species: *Tenthredo sylvatica* Linnaeus. Monotypic.

Lyda Fabricius, 1804. Systema Piezatorum, p. 43.

Type-species: *Tenthredo sylvatica* Linnaeus. Desig. by Curtis, 1831.

Anoplolyda Costa, 1894. Prosp. Imen. Ital., v. 3, p. 233.

Type-species: *Lyda alternans* Costa. Desig. by Rohwer, 1910.

Kelidoptera Konow, 1897. K. K. Naturhist. Hofmus., Ann. 12: 20.

Type-species: *Lyda maculipennis* Stein. Monotypic.

Bactroceros Konow, 1897. K. K. Naturhist. Hofmus., Ann. 12: 21.

Type-species: *Tenthredo vafer* Linnaeus. Desig. by Rohwer, 1910.

Pseudocephaleia Zirngiebl, 1937. Embrit. Strand 60. Geburtst. Festschr. (Riga) 3: 339.

Type-species: *Pseudocephalcia brachycerus* Zirngiebl. Monotypic.

Pamphilus subg. *Onycholyda* Takeuchi, 1938. Tenthredo 2: 218.

Type-species: *Pamphilus sulphureipes* Kirby. Orig. desig.

Since this section was completed, Benes (1972) defined the genera of the Pamphiliini. He recognized four genera: *Pseudocephaleia* Zirngiebl, *Kelidoptera* Konow, *Pamphilus* Latreille, and *Onycholyda* Takeuchi. The latter two genera are found in North America, and, of the species listed below in *Pamphilus*, the following would belong in *Onycholyda*: *amplectus*, *excavatus*, *luteicornis*, *multisignatus*, *nigrithibialis*, *quebecensis*, *rufofasciatus*, and *silkensis*. These species that belong in *Onycholyda* are the ones that are found in couplets 2 to 9 and 24 to 31 in Middlekauff's (1964) key.

Revision: Middlekauff, 1964. Calif. Univ., Pubs., Ent. 38: 1-80.

Taxonomy: Benes, 1972. Acta Ent. Bohem. 69: 378-395 (generic classification of the Pamphiliini). —Benes, et al., 1973. Bul. Zool. Nomencl. 30: 95-96 (request for designation of *Pamphilus viriditibialis* Takeuchi as type-species of *Onycholyda* Takeuchi).

amplectus (Fabricius). Maine to Fla. w. to Ill. and Tex. Host: *Rubus*.

Lyda amplexa Fabricius, 1804. Systema Piezatorum, p. 46.

Lyda plagiata Klug, 1808. Mag. Gesell. Naturf. Freunde Berlin, 2: 278. ♀.

Lyda insignis Brischke and Zaddach, 1865. Phys. Okonom. Gesell. Konigsberg., Schr. 6: 179. ♂.

burquei (Provancher). Que., Ont., Va.

Lyda burquei Provancher, 1878. Nat. Canad. 10: 204. ♀.

cinctetus Harrington. Que., N. Y., Ont., Mich., Wis.

Pamphilus cinctetus Harrington, 1893. Canad. Ent. 25: 62. ♀.

excavatus (Norton). Que. to Va. w. to Minn.; B. C. Host: *Cornus stolonifera*.

Lyda excavata Norton, 1869. Amer. Ent. Soc., Trans. 2: 337. ♂.

greenei Rohwer. Conn., Pa., Mich.

Pamphilus greenei Rohwer, 1913. U. S. Natl. Mus., Proc. 45: 273. ♀.

infuscatus Middlekauff. Maine, Que., Ont., Alta., B. C. Host: *Populus tremuloides*.

Pamphilus infuscatus Middlekauff, 1964. Calif. Univ., Pubs., Ent. 38: 24. ♀, ♂.

luteicornis (Norton). N. S. and N. B. s. to Fla. w. to Ill., Minn. and Alta. Host: *Rubus*.

Lyda luteicornis Norton, 1869. Amer. Ent. Soc., Trans. 2: 339. ♀.

Lyda harringtoni Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym. p. 17. ♀.

Pamphilus ocellatus Rohwer, 1910. Canad. Ent. 42: 218. ♀.

Pamphilus rubi Rohwer, 1910. Canad. Ent. 42: 219. ♀.

Pamphilus dentatus MacGillivray, 1912. Canad. Ent. 44: 297. ♀, ♂.

Pamphilus fletcheri MacGillivray, 1912. Canad. Ent. 44: 298. ♀, ♂.

Biology: Fletcher, 1900. Rpt. Ent. Bot. Dom. Expt. Farm Ottawa, Sess. Paper 8a: 180-181 (multisignata, nec Norton). —Walden, 1913. Conn. (State) Agr. Expt. Sta., Ann. Rpt., 36: 236-240 (dentatus). —Britton, 1913. Jour. Econ. Ent. 6: 197-199 (dentatus).

multisignatus (Norton). Ont., Mich., Ill. w. to Colo., N. Mex., and B. C.

Lyda multisignata Norton, 1864. Ent. Soc. Phila., Proc. 3: 15. ♀.

Lyda cavifrons Cresson, 1865. Ent. Soc. Phila., Proc. 4: 246. ♂.

Lyda multicincta(?) Norton, 1869. Amer. Ent. Soc., Trans. 2: 332.

Bactroceros pugnax Rohwer, 1908. N. Y. Ent. Soc., Jour. 16: 103. ♀. Preocc.

Anoployda saeva Rohwer, 1910. Canad. Ent. 42: 218. N. name.

nigrithibialis Rohwer. Que. to N. C. w. to S. D., Colo., and Alta.

Pamphilus nigrithibialis Rohwer, 1912. U. S. Natl. Mus., Proc. 43: 205. ♂.

Pamphilus transversus MacGillivray, 1912. Canad. Ent. 44: 297. "♀" = ♂.

ochreipes (Cresson). Que. to N. C. and Ala., w. to Alaska and B. C. Host: *Viburnum opulus*.

Lyda ochreipes Cresson, 1880. Amer. Ent. Soc., Trans. 8: 30. ♀.

- Lyda perplexa* Cresson, 1880. Amer. Ent. Soc., Trans. 8: 31. ♀.
 Biology: Lindquist and Harnden, 1970. Canad. Ent. 102: 95-97.
- ocreatus* (Say). Que. to N. C. w. to Ill., Man., Minn. Host: *Corylus*, *Cornus*(?).
Lyda ocreata Say, 1836. Boston Jour. Nat. Hist. 1: 222. ♀.
 Biology: Dyar, 1895. Ent. News 6: 199-200 (with larva description).
- pacificus* (Norton). Colo., Idaho, w. to B. C. and Calif. Host: *Rosa californica*.
Lyda pacifica Norton, 1869. Amer. Ent. Soc., Trans. 2: 338. ♀.
Lyda melliventris Cresson, 1880. Amer. Ent. Soc., Trans. 8: 32. ♂.
 Biology: Middlekauff, 1964. Calif. Univ. Pubs., Ent. 38: 41-42.
- palachei* (Ashmead). Alaska (Kodiak).
Bactroceros palachei Ashmead, 1902. Wash. Acad. Sci., Proc. 4: 254. ♀.
pallimaculus (Norton). Que. to Ga., w. to Colo. and B. C. Host: *Rosa*(?). An adult collection record.
Lyda pallimacula Norton, 1869. Amer. Ent. Soc., Trans. 2: 337. ♀.
Lyda pallidimacula Dalla Torre, 1894. Cat. Hym., v. 1, p. 435. Emend.
persicum MacGillivray. Que. to Fla. w. to Minn., Nebr., Tex. Ecology: A pest of peach. Host: *Prunus persica*, *Prunus serotina*.
Pamphilus persicum MacGillivray, 1907. Canad. Ent. 39: 308. ♀.
Pamphilus perseae Rohwer, 1926. In Leonard, Cornell Univ. Agr. Expt. Sta., Mem. 101: 872. Emend.
Pamphilus persicus Klima, 1937. Hym. Cat., pt. 3, p. 45. Emend.
Pamphilus unalatus MacGillivray, 1920. Brooklyn Ent. Soc., Bul. 15: 112. ♀.
 Biology: Walden, 1907. U. S. Dept. Agr., Bur. Ent. Bul. 67: 85-87. — Walden, 1908. Conn. (State) Agr. Expt. Sta., Ann. Rpt., pp. 285-300.
 Morphology: Crampton, 1919. Ent. Soc. Wash., Proc. 21: 219 (genitalia).
- phyllisae* Middlekauff. N. B. to N. C. w. to Ill. and Minn. Host: *Quercus rubra*.
Pamphilus phyllisae Middlekauff, 1964. Calif. Univ., Pubs., Ent. 38: 49. ♀, ♂.
 Biology: Eidt and Nichols, 1970. Canad. Ent. 102: 53-63.
- pullatus* (Cresson). Newfoundland to Va., w. to Ill., Mo. Host: *Viburnum dentatum*.
Lyda pullata Cresson, 1880. Amer. Ent. Soc., Trans. 8: 31. ♀.
quebecensis (Provancher). Que. to N. C., w. to Mich.
Lyda quebecensis Provancher, 1878. Nat. Canad. 10: 205. ♀.
rileyi (Cresson). Conn. to W. Va., w. to Mich., Iowa, Mo. Host: *Amelanchier*.
Lyda rileyi Cresson, 1880. Amer. Ent. Soc., Trans. 8: 32. ♀.
Pamphilus subcavifrons Rohwer, 1910. Canad. Ent. 42: 219. ♂.
rufofasciatus (Norton). Newfoundland to Ga. w. to Minn., Man., Colo., Alta.; Siberia.
Lyda rufo-fasciata Norton, 1869. Amer. Ent. Soc., Trans. 2: 340. ♀.
Lyda rufocincta Cresson, 1880. Amer. Ent. Soc., Trans. 8: 32. ♂.
 Taxonomy: Benes, 1972. Acta Ent. Bohem. 69: 388 (in *Onycholyda*; a holartic sp.).
- semicinctus* (Norton). Que. to N. C. w. to Tenn. and Ind. Host: *Amelanchier canadensis*, *Amelanchier* sp., *Pyrus malus*, *Prunus virginiana*. Some may not represent true hosts.
Lyda semicincta Norton, 1862. Ent. Soc. Phila., Proc. 1: 144. ♀.
- sitkensis* (Kincaid). Idaho, Nev., Alaska, B. C., Wash., Oreg., Calif. Host: *Rubus parviflorus*, *R. vitifolius*, and probably other species of *Rubus*.
Bactroceros sitkensis Kincaid, 1900. Wash. Acad. Sci., Proc. 2: 344. ♀.
Pamphilus fulvifrons Rohwer, 1910. Canad. Ent. 42: 218. ♀.
Pamphilus fortuitus MacGillivray, 1923. Ill. Univ., Bul. 20(50): 27. ♀.
 Biology: Middlekauff, 1964. Calif. Univ., Pubs., Ent. 38: 62-63.
- uniunguis* Middlekauff. N. C., Man., Minn.
Pamphilus uniunguis Middlekauff, 1964. Calif. Univ., Pubs., Ent. 38: 65. ♀.
- vernalis* Middlekauff. Man., Nebr.
Pamphilus vernalis Middlekauff, 1964. Calif. Univ., Pubs., Ent. 38: 66. ♀.

UNPLACED TAXA OF PAMPHILIIDAE

Lyda canadensis Norton, 1869. Amer. Ent. Soc., Trans. 2: 336. ♂. No locality given.
Tarpa scripta Say, 1824. In Keating, Narr. Long's 2nd Exped., v. 2, (App.), p. 312. N. W. T. and
Ark.

Superfamily TENTHREDINOIDEA

Family PERGIDAE

This is a highly diversified and large family in the Neotropical and Australian regions. Only one genus is found for certain in North America north of Mexico.

Taxonomy: Benson, 1938. Roy. Ent. Soc. London, Trans. 87: 376-382 (key to subfamilies of world).

SUBFAMILY ACORDULECERINAE

Genus ACORDULECERA Say

Acordulecera Say, 1836. Boston Jour. Nat. Hist. 1: 209.

Type-species: *Acordulecera dorsalis* Say. Monotypic.

Thulea Say, 1836. Boston Jour. Nat. Hist. 1: 213.

Type-species: *Thulea nigra* Say. Monotypic.

Perantherix Westwood, 1874. Thesaurus Ent. Oxon., p. 109.

Type-species: *Perantherix pumilio* Westwood. Monotypic.

Acorduleceros Konow, 1898. Ent. Nachr. 24: 250.

This genus is confined to the New World where the largest number of species are found in South America. In the United States and Canada, species of this genus are most abundant in the eastern deciduous forests though several species are found as far west as Arizona. These western forms have not been identified and are not listed below. The adults are small with short, six-segmented antennae, and the larvae feed externally on the foliage of the host plants.

dorsalis Say. Que. to Fla. w. to Iowa, Okla., Tex. Host: *Quercus*, *Carya*, *Juglans*, *Castanea*.

Either a species highly variable in coloration or a species complex.

Acordulecera dorsalis Say, 1836. Boston Jour. Nat. Hist. 1: 209. ♀, ♂.

Acordulecera saginata Provancher, 1882. Nat. Canad. 13: 290. ♀.

Acorduleceros biclinius Konow, 1898. Ent. Nachr. 24: 253. ♀.

Acordulecera media MacGillivray, 1908. Canad. Ent. 40: 168. ♀.

Acordulecera minima MacGillivray, 1908. Canad. Ent. 40: 168. ♀.

Acordulecera maxima MacGillivray, 1908. Canad. Ent. 40: 168. ♀.

Acordulecera maura MacGillivray, 1908. Canad. Ent. 40: 168. ♀.

Acordulecera marina MacGillivray, 1908. Canad. Ent. 40: 170. ♂.

Acordulecera munda MacGillivray, 1908. Canad. Ent. 40: 169. ♀.

Acordulecera antennata Rohwer, 1912. U. S. Natl. Mus., Proc. 43: 246. ♂. N. syn.

Acordulecera foveata Rohwer, 1912. U. S. Natl. Mus., Proc. 43: 247. ♀, ♂.

Acordulecera erythrogastra Rohwer, 1912. U. S. Natl. Mus., Proc. 43: 248. ♀. N. syn.

Acordulecera parva Rohwer, 1912. U. S. Natl. Mus., Proc. 43: 248. ♂. N. syn.

Acordulecera caryae Rohwer, 1912. U. S. Natl. Mus., Proc. 43: 248. ♀, ♂.

- Acordulecera nigrita* Rohwer, 1912. U. S. Natl. Mus., Proc. 43: 249. ♀. N. syn.
Acordulecera portiae Rohwer, 1912. U. S. Natl. Mus., Proc. 43: 249. ♀.
Acordulecera basirufa Rohwer, 1912. U. S. Natl. Mus., Proc. 43: 250. ♀. N. syn.
Acordulecera flavipes Rohwer, 1912. U. S. Natl. Mus., Proc. 43: 250. ♀.
Acordulecera nigritarsis Rohwer, 1912. U. S. Natl. Mus., Proc. 43: 250. ♀.
Acordulecera quercus Rohwer, 1912. U. S. Natl. Mus., Proc. 43: 251. ♀. N. syn.
Acordulecera hectoriae Rohwer, 1917. U. S. Natl. Mus., Proc. 53: 157. ♀. N. syn.
Acordulecera meleca MacGillivray, 1921. Brooklyn Ent. Soc., Bul. 16: 23. ♂.
Acordulecera musta MacGillivray, 1921. Brooklyn Ent. Soc., Bul. 16: 23. ♂.
- maculata** MacGillivray. N. Y., Pa., Ill.
Acordulecera maculata MacGillivray, 1908. Canad. Ent. 40: 169. ♀, ♂.

Acordulecera mellina MacGillivray, 1908. Canad. Ent. 40: 169. ♀.
Acordulecera mixta MacGillivray, 1908. Canad. Ent. 40: 169. ♀, ♂.
- pellucida** (Konow). Mass. and Pa. w. to Nebr., Kans., Tex.
Acorduleceros pellucidus Konow, 1898. Ent. Nachr. 24: 253. ♀.
Acordulecera minuta MacGillivray, 1908. Canad. Ent. 40: 169. ♀.
Acordulecera scutellata Rohwer, 1912. U. S. Natl. Mus., Proc. 43: 247. ♀, ♂. N. syn.

Taxonomy: Smith, 1973. Ent. Soc. Wash., Proc. 75: 30.

SUBFAMILY LOBOCERATINAE

Genus SKELOSYZYGNIA Malaise

Skelosyzygna Malaise, 1935. Ent. Tidskr. 56: 161.

Type-species: *Skelosyzygna spinipes* Malaise. Orig. desig.

The single species in this genus was recorded from Texas; this is a dubious record for this Brazilian form.

spinipes Malaise. "Tex."; Brazil (Rio de Janeiro).

Skelosyzygna spinipes Malaise 1935. Ent. Tidskr. 56: 161. ♂.

Taxonomy: Conde, 1939 Deut. Ent. Gesell., Mitt. 9: 49 ("Tex." record).

Family ARGIDAE

This family is cosmopolitan. It is the second largest sawfly family, with over 800 species. The tropical regions of the world contain the largest number of species, over 100 species of *Argo* alone having been described from tropical Africa. Over 300 species of the family have been described from the Neotropical Region, even though the fauna there is virtually unexplored. In America north of Mexico, the greater number of species is found in the southwestern United States. Hosts and habits are various, but most species feed externally on the foliage of the host plant in the larval stage. Only one North American species is known to be a leafminer, *Schizocerella pilicornis* (Holmgren) in purslane.

Taxonomy: Benson, 1938. Roy. Ent. Soc. London, Trans. 87: 371-375 (key to subfamilies, world). — Malaise, 1941. Ent. Tidskr. 62: 131-140 (key to world genera). — Wong, 1951. Ont. Ent. Soc., 82nd Ann. Rpt., p. 53 (cocoon). — Benson, 1963. Ann. and Mag. Nat. Hist. (13) 5: 631 (tribes of Arginae and genera of Scobinini). — Smith, 1969. Amer. Ent. Soc., Trans. 95: 439-457 (Nearctic genera). — Smith, 1972. Amer. Ent. Soc., Trans. 98: 163-184 (N. Amer. larvae).

SUBFAMILY ARGINAE

Genus ARGE Schrank

Cryptus Jurine, 1801. Intell. Blatt. Litt.-Ztg. Erlangen, v. 1, p. 163. Suppressed by Internat. Comm. Zool. Nomencl., Op. 135, 1936.

Arge Schrank, 1802. Fauna Boica, p. 209.

Type-species: *Tenthredo enodis* Linnaeus. Desig. by Rohwer, 1911.

Hylotoma Latreille, 1802. Hist. Nat. Crust. Ins., v. 3, p. 302.

Type-species: *Tenthredo rosae* Linnaeus. Monotypic.

Corynia Imhof and Labram, 1836. Ins. Schweiz., p. 23.

Type-species: *Corynia rosarum* Imhof and Labram. Desig. by Rohwer, 1911.

Acanthoptenos Ashmead, 1898. Canad. Ent. 30: 212.

Type-species: *Acanthoptenos weithii* Ashmead. Orig. desig.

Rhopalospiria Enderlein, 1920. Gesell. f. Naturf. Freunde, Sitzber. 9: 116. N. syn.

Type-species: *Rhopalospiria rubiginosa* (Beauvois). Orig. desig.

A large genus not represented only in the Neotropical and Australian regions. This is the most widespread genus in North America and is found from Canada and Alaska south to northern Mexico. The larvae feed on the foliage of their hosts. Several of the segregates below are species complexes, the taxonomy of which is yet to be worked out.

abdominalis (Leach). Ga., Fla.

Hylotoma abdominalis Leach, 1817. Zool. Misc., v. 3, p. 123. ♀.

borealis (Kirby). N. B., Maine, Mass., Ont. (St. Martin Falls, Hudson's Bay).

Hylotoma borealis Kirby, 1882. List Hym. Brit. Mus., v. 1, p. 66. ♀.

caerulea (Dalla Torre). Maine to Md.

Hylotoma coerulescens Norton, 1864. Ent. Soc. Phila., Proc. 3: 5. ♀. Preocc. by Latreille, 1805.

Hylotoma caerulea Dalla Torre, 1894. Cat. Hym., v. 1, p. 327. N. name.

clavicornis (Fabricius). Newfoundland to Alaska s. to Ga., N. Mex., Calif.; Holarctic (?).

Ecology: Widespread. Host: *Amelanchier*, *Azalea*, *Betula*, *Carpinus*, *Corylus*, *Crataegus*, *Prunus*, *Salix*. A species complex.

Tenthredo clavicornis Fabricius, 1793. Ent. System., v. 2, p. 108. ♀.

Hylotoma virescens Klug, 1814. Mag. Gesell. Naturf. Freunde Berlin 6: 296. ♀, ♂.

Hylotoma MacLeayi Leach, 1817. Zool. Misc., v. 3, p. 122. ♀.

Hylotoma analis Leach, 1817. Zool. Misc., v. 3, p. 123. ♂.

Hylotoma mellina Cresson, 1880. Amer. Ent. Soc., Trans. 8: 3. ♀.

Hylotoma cyra Kirby, 1882. List Hym. Brit. Mus., v. 1, p. 66. ♀.

Hylotoma mentzeliae Cockerell, 1898. Ann. and Mag. Nat. Hist. (7)2: 456. N. syn.

Acanthoptenos weithii Ashmead, 1898. Canad. Ent. 30: 212.

Arge inops Konow, 1906. Ztschr. System. Hym. Dipt. 6: 181. ♂.

Hylotoma nigrescens Rohwer, 1909. Canad. Ent. 41: 13. ♂. N. syn.

Hylotoma onerosa MacGillivray, 1923. Psyche 30: 80. ♀, ♂.

Hylotoma sparta MacGillivray, 1923. Ill. Univ., Bul. 20(50): 18. ♀, ♂.

Arge criddlei Garlick, 1927. Canad. Ent. 59: 182. ♀, ♂.

Arge imitans Garlick, 1927. Canad. Ent. 59: 182. ♀, ♂.

Biology: Jack, 1891. Psyche 6: 11 (*macleayi*). — Will, 1947. Pa. Acad. Sci., Proc. 16: 47-49 (*macleayi*). — Will, 1959. Pa. Acad. Sci., Proc. 33: 219 (*macleayi*).

coccinea (Fabricius). Conn. to Fla. w. to Tex. Host: *Rhus* spp.

Hylotoma coccinea Fabricius, 1804. Systema Piezatorum, p. 24.

Tenthredo rubiginosa Beauvois, 1805. Ins. Afr. Amer., v. 2, p. 98. ♀. N. syn.

Hylotoma miniata Klug, 1814. Mag. Gesell. Naturf. Freunde Berlin 6: 298. ♂.

Hylotoma rubra Klug, 1814. Mag. Gesell. Naturf. Freunde Berlin 6: 299. ♀.

Hylotoma erythrosoma Leach, 1817. Zool. Misc., v. 3, p. 124. ♀. N. syn.

Hylotoma scutellata Lepetier, 1823. Monog. Tenthred., p. 47.

Hylotoma sphinx Kirby, 1882. List Hym. Brit. Mus., v. 1, p. 68. ♂. N. syn.

humeralis (Beauvois). Maine to Fla. w. to Minn., Kans., Tex. Host: Poison-ivy.

Tenthredo humeralis Beauvois, 1805. Ins. Afr. Amer., v. 2, p. 99. ♀.

Hylotoma sanguinea Klug, 1814. Mag. Gesell. Naturf. Freunde Berlin 6: 299. ♀.

Hylotoma scutellata Say, 1836. Boston Jour. Nat. Hist. 1: 211. ♀. N. syn.

Hylotoma grandis Rohwer, 1909. Canad. Ent. 41: 14. ♂. N. syn.

ochropus (Gmelin). Ont.; Europe to Siberia, Middle East. Introduced (?) into N. Amer. Host: *Rosa*.

Tenthredo ochropus Gmelin, 1790. In Linnaeus, Syst. Nat., Ed. 13, v. 1, pt. 5, p. 2657.

Taxonomy: Malaise and Benson, 1934. Archiv for Zool. 26A: 7-8, 13 (=*rosae* of authors, nec Linnaeus).

pectoralis (Leach). Maine to Fla. w. to Ont., Sask., Mich., Ill., Mo., Tex. Host: *Alnus*, *Betula*, *Corylus*, *Crataegus*, *Salix*. Birch sawfly. Probably a species complex.
Hylotoma pectoralis Leach, 1817. Zool. Misc., v. 3, p. 124. ♀.
Hylotoma dulcicaria Say, 1824. In Keating, Narr. Long's 2nd Exped., (App.). p. 314. ♀.
Arge salicis Rohwer, 1912. U. S. Natl. Mus., Proc. 43: 206. ♀, ♂.

Biology: Schwarz, 1909. Ent. Soc. Wash., Proc. 11: 106-108. — Wong, 1954. Canad. Ent. 86: 154. — Smirnoff, 1971. Ent. Soc. Quebec, Ann. 16: 86-88 (protozoan parasite).

scapularis (Klug). Maine to Fla. w. to Ont., Minn., Mo., Tex. Host: *Alnus*, *Betula*, *Quercus*, *Ulmus*. Probably a species complex.
Hylotoma scapularis Klug, 1814. Mag. Gesell. Naturf. Freunde Berlin 6: 299. ♂.
Hylotoma xanthothorax Leach, 1817. Zool. Misc., v. 3, p. 124. ♀.
Hylotoma calcanea Say, 1836. Boston Jour. Nat. Hist. 1: 211.

Biology: Jack, 1891. Psyche 6: 11.

spiculata (MacGillivray). Ariz.; Mexico.
Hylotoma spiculata MacGillivray, 1907. Canad. Ent. 39: 308. ♀.

SUBFAMILY ATOMACERINAE

Genus ATOMACERA Say

Atomacera Say, 1836. Boston Jour. Nat. Hist. 1: 212.

Type-species: *Atomacera debilis* Say. Desig. by Malaise, 1937.

Micrage Ashmead, 1898. Canad. Ent. 30: 213.

Type-species: *Atomacera ruficollis* Norton. Orig. desig.

Brauniola Konow, 1899. Ent. Nachr. 25: 312.

Type-species: *Brauniola triculenta* Konow. Monotypic.

Spegazzinella Jorgensen, 1913. Buenos Aires Mus. Nac. de Hist. Nat., An. 25: 260.

Type-species: *Spegazzinella ovata* Jorgensen. Monotypic.

Argina Forsius, 1925. Arkiv for Zool. 17A: 2. Preocc.

Type-species: *Argina nubilipennis* Forsius. Monotypic.

Arginella Forsius, 1926. Notulae Ent. 5: 207. N. name for *Argina*.

A genus distributed throughout most of the New World but more highly developed in the tropics. Larvae feed on the foliage of the host plant.

Revision: Malaise, 1942. Ent. Tidskr. 63: 107-110 (Neotropical species). — Smith, 1969. Amer. Ent. Soc., Trans. 95: 440-446 (Nearctic species).

debilis Say. Ont., Mass. to Fla. w. to Minn., Kans., Ark. Host: *Desmodium canadense*, *D. glutinosum*, and probably other species; *Lespedeza*.

Atomacera debilis Say, 1836. Boston Jour. Nat. Hist. 1: 212. ♂.

Atomacera ruficollis Norton, 1864. Ent. Soc. Phila., Proc. 3: 6. ♀.

Atomacera desmodii Dyar, 1900. N. Y. Ent. Soc., Jour. 8: 26. ♀, ♂. Larva.

Taxonomy: Smith, 1972. Amer. Ent. Soc., Trans. 98: 167 (larva).

Biology: Dyar, 1900. N. Y. Ent. Soc., Jour. 8: 26. — Weiss and Lott, 1923. Ent. News 34: 167. — Lindquist and Trinell, 1965. Canad. Ent. 97: 181-184.

decepta Rohwer. Conn. to Fla. w. to Mo., Tex. Host: *Hibiscus militaris*, *H. moscheutos* hybrid.
Atomacera decepta Rohwer, 1911. U. S. Natl. Mus., Proc. 41: 382. ♀.

Taxonomy: Smith, 1972. Amer. Ent. Soc., Trans. 98: 167 (larva).

Biology: Dyar, 1900. N. Y. Ent. Soc., Jour. 8: 26 (*ruficollis*, nec Norton). — Tippins, 1965. Jour. Econ. Ent. 58: 161.

ebena Smith. S. Ariz.

Atomacera ebena Smith, 1969. Amer. Ent. Soc., Trans. 95: 445. ♀.

SUBFAMILY STERICHTIPHORINAE

Genus STERICHTIPHORA Billberg

Sterictiphora Billberg, 1820. Enum. Ins. Mus. Billberg, p. 99.

Type-species: *Hylotoma furcata* Fabricius. Monotypic.

Schizocerus Berthold, 1827. Nat. Fam. Thier., p. 441.

Type-species: *Hylotoma furcata* Villers. Desig. by Westwood, 1840.

Cyphona Dahlbom, 1835. Conspectus Tentred., Siricid., Oryssin. Scan., p. 8.

Type-species: *Hylotoma furcata* Villers. Desig. by Rohwer, 1911.

A small Holarctic genus. Larvae feed on the foliage of the host plants most of which appear to be species of *Prunus*.

Revision: Smith, 1969. Amer. Ent. Soc., Trans. 95: 446-455.

cruenta Smith. Maine to N. C. w. to Mich. Host: *Prunus pennsylvanicus*.

Sterictiphora cruenta Smith, 1969. Amer. Ent. Soc., Trans. 95: 450. ♀.

maura (Cresson). Utah, Nev., Oreg., Calif. Host: *Prunus*

Schizocera maura Cresson, 1880. Amer. Ent. Soc., Trans. 8: 3. ♂.

prunivora (Dyar). Maine s. to N. Y., Pa. Host: *Prunus, Amelanchier*.

Schizocerus prunivorus Dyar, 1897. N. Y. Ent. Soc., Jour. 5: 23. larva.

sericea (Norton). Maine to N. J., Pa. w. to Ill.

Schizocerus sericeus Norton, 1867. Amer. Ent. Soc., Trans. 1: 55. ♀.

serotina Smith. Maine to Va. Host: *Prunus serotina*.

Sterictiphora serotina Smith, 1969. Amer. Ent. Soc., Trans. 95: 452. ♀, ♂.

Taxonomy: Smith, 1972. Amer. Ent. Soc., Trans. 98: 169 (larva).

transversa Smith. Md., Alta., Alaska.

Sterictiphora transversa Smith, 1969. Amer. Ent. Soc., Trans. 95: 454. ♀.

Genus APROSTHEMA Konow

Aprosthemia Konow, 1899. Ent. Nachr. 25: 149.

Type-species: *Hylotoma brevicornis* Fallen. Desig. by Rohwer, 1911.

Lyrola Ross, 1937. Ill. Biol. Monog. 15(2): 55.

Type-species: *Schizocera brunnicornis* Cresson. Orig. desig.

A small Holarctic genus with two Nearctic representatives, both of which are found in western North America.

Revision: Smith, 1971. Amer. Ent. Soc., Trans. 97: 546-549.

breviantennatum Smith. Oreg., Calif.

Aprosthemia breviantennatum Smith, 1971. Amer. Ent. Soc., Trans. 97: 546. ♀, ♂.

brunniventre (Cresson). Wash., Oreg., Nev., Calif. Host: *Hosackia*.

Schizocera brunnicornis Cresson, 1880. Amer. Ent. Soc., Trans. 8: 2. ♀, ♂.

Schizocera tristis Cresson, 1880. Amer. Ent. Soc., Trans. 8: 52. ♀, ♂.

Schizocera tristis var. *jumipennis* Dyar, 1893. Canad. Ent. 25: 195. ♀, ♂, larva.

Taxonomy: Smith, 1972. Amer. Ent. Soc., Trans. 98: 170 (larva).

Biology: Dyar, 1893. Canad. Ent. 25: 195.

Genus NEOPTILIA Ashmead

Neoptilia Ashmead, 1898. Canad. Ent. 30: 213.

Type-species: *Neoptilia mexicana* Ashmead. Orig. desig.

Pseudocyphona Ashmead, 1898. Canad. Ent. 30: 211.

Type-species: *Pseudocyphona mexicana* Ashmead. Orig. desig.

Rhagonyx Konow, 1903. Ztschr. System. Hym. Dipt. 3: 108.

Type-species: *Rhagonyx lituratus* Konow. Monotypic.

A small genus known only from southwestern United States south to Ecuador.

Revision: Smith, 1971. Amer. Ent. Soc., Trans. 97: 537-543.

malvacaeum (Cockerell). Tex., N. Mex., Ariz.; Mexico. Host: *Althaea rosea, Malvastrum, Malva, Sphaeralcea*.

Nematoneura malvacaeum Cockerell, 1894. U. S. Dept. Agr., Insect Life 7: 253. ♀, ♂.

Taxonomy: Smith, 1972. Amer. Ent. Soc., Trans. 98: 179 (larva).

Biology: Cockerell, 1894. U. S. Dept. Agr., Insect Life 7: 251-253.
tora Smith. S. Tex.
Neoptilia tora Smith, 1971. Amer. Ent. Soc., Trans. 97: 540. ♀, ♂.

Genus PTENUS Kirby

Ptenos Norton, 1872. Amer. Ent. Soc., Trans. 4: 77. Preocc. by Gray, 1843.
 Type-species: *Ptenos niger* Norton. Desig. by Rohwer, 1911.
Ptenus Kirby, 1882. List Hym. Brit. Mus., v. 1, p. 51. N. name.
Ptenellus Malaise, 1937. Ent. Tidskr. 58: 56.
 Type-species: *Ptenos nigripictus(?)* Norton. Orig. desig.

This genus is found only in the New World and is distributed from southwestern United States to northern South America.

Revision: Smith, 1970. Amer. Ent. Soc., Trans. 96: 79-101.

apulatus Greenbaum. Ariz.

Ptenus apulatus Greenbaum, 1975 (1974). Pan-Pacific Ent. 50: 423-425. ♀.

bicolor Smith. Tex.; Mexico. Host: *Acacia farnesiana*.

Ptenus bicolor Smith, 1970. Amer. Ent. Soc., Trans. 96: 83. ♀, ♂.

Taxonomy: Smith, 1972. Amer. Ent. Soc., Trans. 98: 176 (larva).

imus Smith. Tex.; Mexico.

Ptenus imus Smith, 1970. Amer. Ent. Soc., Trans. 96: 84. ♀.

jocus Smith. Ariz. (Patagonia Mts.).

Ptenus jocus Smith, 1970. Amer. Ent. Soc., Trans. 96: 86. ♀.

magnus Smith. W. Tex., N. Mex., Ariz.

Ptenus magnus Smith, 1970. Amer. Ent. Soc., Trans. 96: 86. ♀, ♂.

modestius Smith. Tex., Ariz., s. Calif. Host: Adults collected from mesquite.

Ptenus modestius Smith, 1970. Amer. Ent. Soc., Trans. 96: 88. ♀, ♂.

nigropictus (Norton). Miss., La., Tex. Host: *Acacia angustissima*, *Desmanthus(?)*.

Ptenus nigropictus Norton, 1872. Amer. Ent. Soc., Trans. 4: 77. ♂.

parvus Smith. W. Tex., Ariz. Host: Adults collected from *Acacia*.

Ptenus parvus Smith, 1970. Amer. Ent. Soc., Trans. 96: 92. ♀, ♂.

patulus Smith. Ariz.

Ptenus patulus Smith, 1970. Amer. Ent. Soc., Trans. 96: 94. ♀, ♂.

texanus (Norton). Tex.; Mexico.

Ptilia texana Norton, 1869. Amer. Ent. Soc., Trans. 2: 367. ♂.

Ptenus niger Norton, 1872. Amer. Ent. Soc., Trans. 4: 77. ♂.

torridus Smith. Ariz.

Ptenus torridus Smith, 1970. Amer. Ent. Soc., Trans. 96: 96. ♀.

vanus Smith. N. Mex., Ariz.; Mexico.

Ptenus vanus Smith, 1970. Amer. Ent. Soc., Trans. 96: 96. ♀, ♂.

vargus Smith. Tex.; Mexico.

Ptenus vargus Smith, 1970. Amer. Ent. Soc., Trans. 96: 98. ♀.

Genus SCHIZOCERELLA Forsius

Schizocerella Forsius, 1927. Notulae Ent. 7: 19.

Type-species: *Schizocerella axillaris* Forsius. Orig. desig.

Sofus Malaise, 1937. Ent. Tidskr. 58: 137.

Type-species: *Schizocera pilicornis* Holmgren. Orig. desig.

Sterictiphora subg. *Leston* Ross, 1937. Ill. Biol. Monog. 15(2): 54.

Type-species: *Schizocerus zabriskei* Webster and Mallery. Orig. desig.

Taxonomy: Benson, 1963. Ann. and Mag. Nat. Hist. (13) 5: 631. —Smith, 1971. Ar. Soc., Trans. 97: 543-546.

pilicornis (Holmgren). N. Y. and Ont. to Fla. w. to Wash., Oreg., Calif. and to Argentina.

Ecology: Leafminer. A larva of this species may mine a *Portulaca* leaf, leave it, and then mine a succession of leaves before becoming full grown. The mature larva pupates in the soil. Host: *Portulaca*. Introduced into Australia.

Schizocera pilicornis Holmgren, 1868. Eug. Resa I, Zool. I, Ins. p. 391. ♀, ♂.

Schizoceros lateralis Konow, 1899. Buenos Aires Mus. Nac. de Hist. Nat., An. 6: 404. ♀.

Shizocerus zabriskiei Webster and Malley, 1900. Canad. Ent. 32: 51.

Schizocerus sericeiformis Rohwer, 1908. N. Y. Ent. Soc., Jour. 16: 112. ♂.

Schizocerus lineatus Rohwer, 1909. Canad. Ent. 41: 12. ♀.

Schizocerus collaris Rohwer, 1909. Canad. Ent. 41: 13. ♀.

Schizocerus johnsoni MacGillivray, 1909. Canad. Ent. 41: 403. ♀.

Schizocerella axillaris Forsius, 1927. Notulae Ent. 7: 19.

Schizocerella scapularis Forsius, 1927. Notulae Ent. 7: 19. ♀.

Taxonomy: Smith, 1972. Amer. Ent. Soc., Trans. 98: 171 (larva).

Biology: Webster and Malley, 1900. Canad. Ent. 32: 51-54. —Garlick, 1922. Canad. Ent. 54: 240. —Force, 1965. Calif. Dept. Agr. Bul., v. 54, pp. 157-160.

Genus SPHACOPHILUS Provancher

This genus is found only in the New World, where most of its representatives are found from southwestern United States to South America. A few species extend north through the central plains region to central Canada.

Revision: Smith, 1971. Amer. Ent. Soc., Trans. 97: 549-580.

Genus SPHACOPHILUS Subgenus SPHACOPHILUS Provancher

Sphacophilus Provancher, 1889. Addit. Corr. Faune Ent. Canada Hym., Sup., p. 427.

Type-species: *Sphacophilus crawii* Provancher. Monotypic.

crawii Provancher. Idaho, Oreg. s. to N. Mex., Ariz., Calif.

Sphacophilus crawii Provancher, 1889. Addit. Corr. Faune Ent. Canada Hym., Sup., p. 427. ♀.

invitus (Cresson). Wash. s. to Colo., Ariz., Calif.

Schizocera invita Cresson, 1880. Amer. Ent. Soc., Trans. 8: 3. ♀.

Genus SPHACOPHILUS Subgenus LITOCOLUS Smith

Sphacophilus subg. *Litocolus* Smith, 1971. Amer. Ent. Soc., Trans. 97: 556.

Type-species: *Atomacera cellularis* Say. Orig. desig.

Known hosts for this subgenus are members of the plant family Convolvulaceae.

apiculus Smith. S. Ariz.

Sphacophilus (*Litocolus*) *apiculus* Smith, 1971. Amer. Ent. Soc., Trans. 97: 556. ♀.

cellularis (Say). Conn. to Fla. w. to Ont., Minn., Nebr., Ark. Host: *Ipomoea*, *Convolvulus*.

Atomacera cellularis Say, 1836. Boston Jour. Nat. Hist. 1: 213. ♀.

Schizocerus ebenus Norton, 1867. Amer. Ent. Soc., Trans. 1: 55. ♂.

Schizocerus privatus Norton, 1867. Amer. Ent. Soc., Trans. 1: 56. ♀.

Taxonomy: Smith, 1972. Amer. Ent. Soc., Trans. 98: 174 (larva).

Biology: Riley and Howard, 1888. U. S. Dept. Agr., Insect Life 1: 43-45. —Marlatt, 1892. U. S. Dept. Agr., Insect Life 5: 24-27.

orthius Smith. Ariz.

Sphacophilus (*Litocolus*) *orthius* Smith, 1971. Amer. Ent. Soc., Trans. 97: 558. ♀.

orus Smith. Ariz.

Sphacophilus (*Litocolus*) *orus* Smith, 1971. Amer. Ent. Soc., Trans. 97: 559. ♀, ♂.

partitus Smith. Ariz. (Chiricahua Mts.).

Sphacophilus (*Litocolus*) *partitus* Smith, 1971. Amer. Ent. Soc., Trans. 97: 560. ♀.

quixus Smith. Tex., Ariz. Host: *Ipomoea*(?).

Sphacophilus (*Litocolus*) *quixus* Smith, 1971. Amer. Ent. Soc., Trans. 97: 561. ♀, ♂.

Genus SPHACOPHILUS Subgenus CEOCOLUS Smith

Sphacophilus subg. *Ceocolus* Smith, 1971. Amer. Ent. Soc., Trans. 97: 562.
Type-species: *Schizocerus abdominalis* Cresson. Orig. desig.

Known hosts for species of this subgenus are members of the plant family Leguminosae. These sawflies appear to be most common in the prairie regions of central North America.

abdominalis (Cresson). N. C.; S. Dak., Ill. w. to Colo., N. Mex. Host: *Psoralea*.

Schizocerus abdominalis Cresson, 1865. Ent. Soc. Phila., Proc. 4: 243. ♂.

albicosta Smith. Idaho, Wash., Oreg. Host: *Psoralea*.

Sphacophilus (*Ceocolus*) *albicosta* Smith, 1971. Amer. Ent. Soc., Trans. 97: 563. ♀, ♂.
apios (Ross). N. C., Ill., Kans. Host: *Desmodium*, *Psoralea*.

Sterictiphora apios Ross, 1933. Ent. Soc. Wash., Proc. 35: 13. ♀, ♂, larva.

Sterictiphora apios form *atrescens* Ross, 1933. Ent. Soc. Wash., Proc. 35: 14. ♀, ♂.

Biology: Ross, 1933. Ent. Soc. Wash., Proc. 35: 13-19.

argutus Smith. Ariz. (Tucson Mts.).

Sphacophilus (*Ceocolus*) *argutus* Smith, 1971. Amer. Ent. Soc., Trans. 97: 566. ♀.

crenus Smith. W. Tex.

Sphacophilus (*Ceocolus*) *crenus* Smith, 1971. Amer. Ent. Soc., Trans. 97: 567. ♀, ♂.

dissensus Smith. Ariz. (Indian Pine).

Sphacophilus (*Ceocolus*) *dissensus* Smith, 1971. Amer. Ent. Soc., Trans. 97: 568. ♀.

hamus Smith. S. Ariz.

Sphacophilus (*Ceocolus*) *hamus* Smith, 1971. Amer. Ent. Soc., Trans. 97: 568. ♀, ♂.

memmonius Smith. S. Calif. (Algadones Sand Dune, Imperial Co.).

Sphacophilus (*Ceocolus*) *memmonius* Smith, 1971. Amer. Ent. Soc., Trans. 97: 570. ♀.

nigriceps (Konow). Man., Minn., Ill. w. to Alta., Wyo., Colo., N. Mex., Tex. Host: *Petalostemum*.

Brachyphathus nigriceps Konow, 1906. Ztschr. System. Hym. Dipt. 6: 251. ♀.

Schizocerus nortoni Rohwer, 1909. Canad. Ent. 41: 11. ♂.

Taxonomy: Smith, 1972. Amer. Ent. Soc., Trans. 98: 175 (larva).

oblatus Smith. N. Mex., Ariz.

Sphacophilus (*Ceocolus*) *oblatus* Smith, 1971. Amer. Ent. Soc., Trans. 97: 576. ♀.

plumiger (Klug). N. C., Ga., Fla. Host: *Petalostemum*.

Hylotoma plumiger Klug, 1814. Mag. Gesell. Naturf. Freunde Berlin 6: 306. ♀. "New York" (?)

Cryptus Klugii Leach, 1817. Zool. Misc., v. 3, p. 125. ♀, ♂.

Taxonomy: Smith, 1973. Ent. Soc. Wash., Proc. 75: 28-29.

Family CIMBICIDAE

These are large, robust sawflies, and the larvae are all external leaf feeders. The family is found in most of the world except for the Ethiopian and Australian regions and contains about 130 species.

Taxonomy: Benson, 1938. Roy. Ent. Soc. London, Trans. 87: 369-372 (key to world subfamilies). — Townes, 1962. U. S. Natl. Mus., Bul. 216, p. 67 (Clavellariidae).

SUBFAMILY ABIINAE

Genus ZARAEA Leach

Zaraea Leach, 1817. Zool. Misc., v. 3, p. 113.

Type-species: *Tenthredo fasciata* Linnaeus. Monotypic.

Members of this Holarctic genus are associated with the plant family Caprifoliaceae.

americana Cresson. Quebec to Alaska s. to Pa., Nebr., N. Mex., Calif. Ecology: Widespread.

Host: *Symporicarpus*, *Lonicera*.

Zaraea americana Cresson, 1880. Amer. Ent. Soc., Trans. 8: 1. ♀.

Biology: Britton, 1925. Conn. Agr. Expt. Sta., Bul. 265: 341. —Kieffer, 1933. Jour. Econ. Ent. 26: 293. —Middlekauff, 1956. Jour. Econ. Ent. 49: 701.

inflata Norton. Mass. to Pa. w. to Nebr., Colo. Host: *Lonicera*. Honeysuckle sawfly.

Zaraea inflatus Norton, 1861. Boston Soc. Nat. Hist., Proc. 8: 151. ♀.

Abia caprifolium Norton, 1867. Amer. Ent. Soc., Trans. 1: 46. ♀.

Biology: Thomas, 1881. Tenth Rpt., State Ent. Ill. 1880 p. 66.

kennicotti (Norton). N. Y., Ill., Mo., Kans., Tex.

Abia Kennicotti Norton, 1867. Amer. Ent. Soc., Trans. 1: 47. ♀, ♂.

lonicerae (Linnaeus). N. Y. to Md. w. to Ohio; Europe. Introduced into N. Amer. Host:

Lonicera, *Symporicarpus*.

Tenthredo lonicerae Linnaeus, 1758. Syst. Nat., Ed. 10, p. 559.

Abia nigricornis Leach, 1817. Zool. Misc., v. 3, p. 113. ♀, ♂.

Taxonomy: Benson, 1946. Ent. Monthly Mag. 82: 101-102.

SUBFAMILY CIMBICINAE

Genus TRICHIOSOMA Leach

Trichiosoma Leach, 1817. Zool. Misc., v. 3, p. 108.

Type-species: *Tenthredo lucorum* Linnaeus. Desig. by Curtis, 1825.

A Holarctic genus with about 20 species. Adults are large and densely hairy sawflies and may girdle twigs of their host plant with their powerful mandibles. This genus is in need of study. Adults show extreme variation in color and external structure and a thorough study will be necessary to determine the correct status of the segregates listed below.

aleutianum Cresson. Alaska (Aleutian Islands).

Trichiosoma triangulum var. *aleutiana* Cresson, 1880. Amer. Ent. Soc., Trans. 8:1. ♀.

arcticum Kirby. N. W. T. (Ft. Simpson, MacKenzie R.).

Trichiosoma arcticum Kirby, 1882. List Hym. Brit. Mus., v. 1, p. 10. ♂.

lanuginosum Norton. Calif.

Trichiosoma lanuginosum Norton, 1867. Amer. Ent. Soc., Trans. 1: 44. ♀.

triangulum Kirby. Que. to Alaska s. to Pa., Colo., Calif. Ecology: Widespread. Host: *Alnus*,

Betula, *Populus*, *Fraxinus*, *Prunus*, *Salix*.

Trichiosoma triangulum Kirby, 1837. Fauna Bor.-Amer., v. 4, p. 254.

Abia cerasi Fitch, 1857. N. Y. State Agr. Soc., Trans. 1856, 16: 385.

Trichiosoma bicolor Norton, 1861. Boston Soc. Nat. Hist., Proc. 8: 150. ♂.

Trichiosoma crassum Kirby, 1882. List Hym. Brit. Mus., v. 1, p. 11. ♀.

Trichiosoma Taylori Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 20. ♀, ♂.

Trichiosoma confusum MacGillivray, 1916. Conn. State Geol. and Nat. Hist. Survey Bul. 22: 103. ♀, ♂.

Trichiosoma spicatum MacGillivray, 1916. Conn. State Geol. and Nat. Hist. Survey Bul. 22: 103. ♂.

Trichiosoma confundum MacGillivray, 1923. Canad. Ent. 55: 161. ♀.

Genus CIMBEX Olivier

Crabro Geoffroy, 1762. Hist. Abregee des Insectes, v. 2, p. 261. Suppressed by Internatl. Comm. Zool. Nomencl., Op. 144, 1936. Publication unavailable for nomenclatorial purposes, Internatl. Comm. Zool. Nomencl., Op. 228, 1954.

Type-species: *Crabro humeralis* Fourcroy. Desig. by Bradley, 1919.

Clavellarius Olivier, 1789. Encycl. Meth., Dict. Ins., v. 4, p. 22. Suppressed by Internatl. Comm. Zool. Nomencl., Op. 216, 1954.

Type-species: *Tenthredo lutea* Linnaeus. Desig. by Latreille, 1810.

Cimbex Olivier, 1790. Encycl. Meth., Dict. Ins., v. 5, p. 762. N. name for *Clavellarius* Olivier.

Clavellaria Lamarck, 1801. Systeme Anim. Sans Vert., p. 264. Emend.

A Holarctic genus with about 17 species whose members are the largest of sawflies. Adults have large, powerful mandibles with which they may sometimes girdle the twigs of their host. Members of this genus show considerable variation in color and structure, and an intensive study is required to determine the validity of the segregates listed below.

Taxonomy: Ross and Burke (!), 1947. Bul. Zool. Nomencl., pp. 201-202 (status of the name *Clavellarius* Olivier, 1789).

americana Leach. Newfoundland to Alaska s. to N. C., Colo., Oreg. Ecology: Widespread.

Host: *Acer*, *Alnus*, *Betula*, *Ostrya*, *Populus*, *Prunus*, *Salix*, *Tilia*, *Ulmus*. Elm sawfly.

Cimbex hudsonica Kirby, 1882. List. Hym. Brit. Mus., v. 1, p. 8. ♀.

Family DIPRIONIDAE

A small family found in the coniferous forests of the Northern Hemisphere with about 91 world species in 11 genera. Though more common in the cool northern regions, representatives are found as far south as north Africa, Pakistan, north India, Thailand, El Salvador, and Cuba. Hosts are restricted to conifers; consequently, they are commonly called conifer sawflies. Larvae defoliate the host, and sporadic outbreaks may occur in forest stands resulting in loss of growth and sometimes tree mortality. Many are also a nuisance in plantations, nurseries, and ornamental plantings. All larvae feed on the needles except for those of *Augomonoctenus libocedri* Rohwer which feeds in the developing cones of incense cedar. In addition to the foliage, some may also feed on the tender bark of new twigs. Most larvae are gregarious at first but later disperse on the tree in search of new food. Overwintering is either as an egg in the needles or as a prepupa in a cocoon in the forest litter. Adults are short-lived and are most easily obtained by rearing. Depending on the species and sometimes the latitude, there may be from one to five generations a year; however, sometimes it takes more than one year to complete a life cycle. Diapause is common in many species.

Because this is an economically important group, literature references are numerous. The literature cited here for many species is not complete and would take many more pages. Some early literature, especially prior to 1943, is not reliable because the taxonomy has changed to such an extent that it is impossible to tell to which species the articles refer. The taxonomy of some groups, *Neodiprion* in particular, is still fluxuous.

Taxonomy: Benson, 1939. *Bul. Ent. Res.* 30: 339-342 (genera of world). —Benson, 1945. *Bul. Ent. Res.* 36: 163-164 (world classification). —Gussakovskii, 1947. *Faune de L'URSS, Ins. SUBFAMILY MONOCTENINAE

Larvae of this subfamily feed on Cupressaceae.

Genus MONOCTENUS Dahlbom

Monocetus Dahlbom, 1835. *Conspectus Tenthred., Siricid., Oryssin. Scand.*, p. 7.

Type-species: *Tenthredo juniperi* Linnaeus. Monotypic.

A small holarctic genus with about 10 species. The genus also extends into Mexico.

fulvus (Norton). Ont., Ill., Kans., Okla., Tex. Host: *Juniperus virginiana*.

Lophyrus fulvus Norton, 1872. *Amer. Ent. Soc., Trans.* 4: 86. ♀.

Lophyrus (Monocetus) juniperi Marlatt, 1888. *Kans. Acad. Sci., Trans.* 10: 82. ♀, ♂.

Preocc. by Linnaeus, 1758.

Monocetus unicolor Marlatt, 1890. *Ent. Soc. Wash., Proc.* 2: 125. N. name for *jupiperi* Marlatt.

Biology: Marlatt, 1888. *Kans. Acad. Sci., Trans.* 10: 80-82. —Smith, 1943. *Kans. State Bd. Agr., Rpt.* 62: 385.

melliceps (Cresson). Mass., Ont.

Lophyrus melliceps Cresson, 1880. *Amer. Ent. Soc., Trans.* 8: 26. ♀.

suffusus (Cresson). Que., Maine, Mass., Conn., Ont., N. Y. Host: *Juniperus virginiana*, *Thuja occidentalis*.

Lophyrus suffusus Cresson, 1880. Amer. Ent. Soc., Trans. 8: 26. ♀.

Monocetenus juniperinus MacGillivray, 1894. Canad. Ent. 26: 328. ♀. N. syn.

Biology: Britton, 1925. Conn. (State) Agr. Expt. Sta., Bul. 265: 336. —Brown, 1940. Canada Dept. Agr., Forest Ins. Survey, 4th Ann. Rpt. for 1939, p. 18.

Genus AUGOMONOCETENUS Rohwer

Augomonoctenus Rohwer, 1918. Ent. Soc. Wash., Proc. 20: 81.

Type-species: *Augomonoctenus libocedrii* Rohwer. Orig. desig.

An exclusively North American genus, where it is found in Oregon, California, and Arizona. The Arizona species is unidentified.

libocedrii Rohwer. Oreg., Calif. Ecology: Larvae feed inside cones. Host: *Libocedrus decurrens*.

Augomonoctenus libocedrii Rohwer, 1918. Ent. Soc. Wash., Proc. 20: 81. ♀.

Biology: Middlekauff, 1967. Pan-Pacific Ent. 43: 272.

pilosus Middlekauff. Calif. (Cholame, San Luis Obispo Co.).

Augomonoctenus pilosus Middlekauff, 1967. Pan-Pacific Ent. 43: 272. ♀.

SUBFAMILY DIPRIONINAE

Larvae of this subfamily feed on Pinaceae.

Genus ZADIPRION Rohwer

Neodiprion subg. *Zadiprion* Rohwer, 1918. Ent. Soc. Wash., Proc. 20: 83.

Type-species: *Diprion grandis* Rohwer. Orig. desig.

A small genus of four or five species, two of which are found in the United States, the others in Mexico.

Revision: Middleton, 1931. Ent. Soc. Wash., Proc. 33: 165-170. —Smith, 1971. Ent. Soc. Wash., Proc. 73: 187-197.

Taxonomy: Smith, 1974. Ent. Soc. Wash., Proc. 76: 415 (key to spp.).

rohweri (Middleton), Colo., N. Mex., Utah, Nev., Calif. Host: *Pinus monophylla*, *P. edulis*.

Neodiprion (*Zadiprion*) *rohweri* Middleton, 1931. Ent. Soc. Wash., Proc. 33: 166. ♀, ♂.

townsendi (Cockerell). S. Dak., Nebr., Colo., N. Mex., Ariz. Host: *Pinus ponderosa*.

Lophyrus townsendi Cockerell, 1898. Ann. and Mag. Nat. Hist. (ser. 7) 2: 457. ♀.

Diprion grandis Rohwer, 1912. U. S. Natl. Mus., Proc. 43: 208. ♀, ♂.

Biology: Swenk, 1911. Nebr. Agr. Expt. Sta., Ann. Rpt. 24, pp. 1-33 ("bull pine sawfly").

Genus NEODIPRION Rohwer

Neodiprion Rohwer, 1918. Ent. Soc. Wash., Proc. 20: 83.

Type-species: *Lophyrus lecontei* Fitch. Orig. desig.

All species of *Neodiprion* are found in North America. The only Palaearctic species, *N. servifer*, was accidentally introduced. In North America, representatives of this genus are found as far south as El Salvador. *Neodiprion* contains most of the destructive species of Diprionidae in North America. Damage is caused by larval defoliation of valuable timber species in forest stands, plantations, and ornamental plantings. Outbreaks occur sporadically, sometimes over extensive areas and result in loss of growth and occasionally tree mortality. Life cycles differ between species. In general, oviposition is in the needles of the host and the larvae feed gregariously at first but later spread out in search of new food. Feeding may be on the new or old growth, or both. Mature larvae go into the ground and spin a tough, papery cocoon in which they pupate. Overwintering is either as an egg in the foliage or in a cocoon in the ground, and there may be from one to five generations per year depending on the species and climate.

The taxonomy of this genus is based on female genitalia, though in many cases it is necessary to have larvae and accompanying biological data for correct determination. Determination of a single stage is sometimes not possible. Characters have not been found for separation of males. A number of confusing species complexes remain to be studied, and the listing below is not so clear-cut as it appears. Some complexes may represent a single species with a number of geographic or food plant races or may represent a number of separate species units. Complications arise when apparently similar larvae produce different adults and different larvae produce similar adults. Further taxonomic work on *Neodiprion* will have to involve studies of all stages and biologies of each form from different parts of their ranges. Those who encounter *Neodiprion* in the field are urged to rear adults, keep associated larvae of each instar, and take notes on their life cycles.

Biology: Hetrick, 1956. *Forest Sci.* 2: 182. — Baker, 1972. U. S. Dept. Agr., *Misc. Pub.* 1175, p. 450 (hosts).

lecontei (Fitch). N. B., Que., Ont. to Fla. w. to Minn., Mo., Ark., Tex. Ecology: Larvae feed on many species of native and exotic pines, but adults oviposit only on hard pines. This species shows a preference for trees less than 15 ft. high and is often a problem in nurseries and plantations. Larvae may feed on the tender bark of young twigs as well as on pine needles. Host: *Pinus banksiana*, *P. sylvestris*, *P. clausa*, *P. echinata*, *P. elliottii*, *P. palustris*, *P. resinosa*, *P. rigida*, *P. taeda*, *P. virginiana* are preferred hosts. The following are sometimes attacked when growing with the preferred hosts: *Pinus contorta*, *P. densiflora*, *P. monticola*, *P. mugo*, *P. nigra*, *P. ponderosa*, *P. strobus*, *P. thunbergii*, *Cedrus deodara*, *Larix laricina*, *Picea abies*, *Thuja occidentalis*. Redheaded pine sawfly.

UNPLACED TAXA OF NEODIPRION ROHWER

Two of the following species were described from males. Because the taxonomy of *Neodiprion* is based primarily on females, they cannot be placed.

abdominalis (Say), n. comb. "North-west Territory."

Lophyrus abdominalis Say, 1824. In Keating, Narr. Long's 2nd Exped., v. 2 (App.), p. 315. ♀.

edwardsii (Norton). Calif.

Lophyrus edwardsii Norton, 1869. Amer. Ent. Soc., Trans. 2: 330. ♂.

hypomelas (Rohwer). Colo.

Lophyrus hypomelas Rohwer, 1908. N. Y. Ent. Soc., Jour. 16: 113. ♂.

Genus DIPRION Schrank

Pteronus Jurine, 1801. Intell. Blatt. Litt-Ztg. Erlangen, v. 1, p. 163. Suppressed by

Internat. Comm. Zool. Nomencl., Op. 157, 1936.

Diprion Schrank, 1802. Fauna Bioca, v. 2, p. 209.

Type-species: *Tenthredo pini* Linnaeus. Desig. by Rohwer, 1910.

Lophyrus Latreille, 1802. Hist. Nat. Crust. Ins., v. 3, p. 302. Preocc. by Poli, 1791.

Type-species: *Tenthredo pini* Linnaeus. Monotypic.

Anachoreta Gistel, 1848. Naturgesch. Thierr. f. hoh. Schul., p. 9. N. name for *Lophyrus* Latreille.

Cristiger Gistel, 1848. Naturgesch. Thierr. f. hoh. Schul., p. 144.

Type-species: *Tenthredo pini* Linnaeus. Monotypic.

A Palaearctic genus of five or six species, one of which has been introduced into North America.

similis (Hartig). Que., Maine, Ont. to Va. w. to Minn., Ind.; Europe. Introduced, first recorded in Conn. in 1914, probably entering on imported nursery stock. Host: *Pinus banksiana*, *P. cembra*, *P. divaricata*, *P. flexilis*, *P. montana*, *P. monticola*, *P. mugho*, *P. resinosa*, *P. rigida*, *P. strobus*, *P. sylvestris*, *P. taeda*, *P. virginiana*, and many other pines in Europe. Introduced pine sawfly.

Morphology: Mertins and Coppel, 1972. Ent. Soc. Amer., Ann. 65: 33-38 (abdominal glands in female).

Genus GILPINIA Benson

Gilpinia Benson, 1939. Bul. Ent. Res. 30: 341.

Type-species: *Lophyrus polytomus* Hartig. Orig. desig.

A Palaearctic genus of about 24 species, two of which have been introduced into North America. In Asia, representatives of this genus are found as far south as Pakistan, northern India, and Thailand. In many references, the species below have been assigned to the genus *Diprion*.

frutetorum (Fabricius). Que., Maine, Ont. s. to N. J., Pa.; Europe to Siberia. Accidentally introduced, first found in Mass. and R. I. in 1923. Host: *Pinus sylvestris*, *P. resinosa* are favored, but also found on *Pinus banksiana*, *P. strobus*, *P. mugho*, *P. nigra*, and *P. cembra* in North America, and other pines in Eurasia.

Tenthredo frutetorum Fabricius, 1793. Ent. System., v. 2, p. 111.

Morphology: Reeks, 1937. Canad. Ent. 69: 257-264 (adult).

Family TENTHREDINIDAE

This is the largest sawfly family with over 5,000 world species. Representatives of the Tenthredinidae are found in all regions of the world, but it is a dominant family only in the Northern Hemisphere where their predominance increases northwards. Most members of this family are cylindrical, wasplike insects ranging in size from 2.5 mm. to about 15 mm. in length. Most have nine-segmented antennae though some have fewer and some more. Habits and host plants are diverse. Most larvae feed externally on the foliage of the host plant, but some are leafminers, gallformers, or shootborers. Most larvae are caterpillarlike.

The division of the family into subfamilies has always been controversial, and there are nearly as many different arrangements as authors. There are current differences between North American and European workers. Eight subfamilies are utilized in this catalog, most of the units being the same as those previously recognized in the North American literature. Most are readily separated on the basis of wing venational differences.

For general references to this family, see those listed under Suborder Symphyta.

SUBFAMILY SELANDRIINAE

Members of this subfamily are associated with ferns, grasses, and sedges. The Selandriinae are poorly represented in the northern regions of the world, but it is one of the dominant groups in the tropics; for example, nearly 200 species have been described from the Americas south of the United States.

Revision: Smith, 1969. U. S. Dept. Agr. Tech. Bul. 1398, 48 pp. (Nearctic species).

Taxonomy: Malaise, 1963. Ent. Tidskr. 84: 159-215 (key to world genera).

TRIBE STRONGYLOGASTRINI

Genus ERIOCAMPIDEA Ashmead

Eriocampidea Ashmead, 1898. Canad. Ent. 30: 256.

Type-species: *Eriocampidea arizonensis* Ashmead. Orig. desig.

Cockerellonus MacGillivray, 1908. Canad. Ent. 40: 365.

Type-species: *Cockerellonus occidentalis* MacGillivray. Orig. desig.

A small genus found from southwestern United States into Mexico.

arizonensis Ashmead. N. Mex., Ariz.; Mexico.

Eriocampidea arizonensis Ashmead, 1898. Canad. Ent. 30: 256. ♀.

Cockerellonus occidentalis MacGillivray, 1908. Canad. Ent. 40: 365. ♀ (?).

Genus HEMITAXONUS Ashmead

Hemitaxonus Ashmead, 1898. Canad. Ent. 30: 311.

Type-species: *Taxonus dubitatus* Norton. Orig. desig.

Epitaxonus MacGillivray, 1908. Canad. Ent. 40: 365.

Type-species: *Taxonus albodopictus* Norton. Orig. desig.

Sahlbergia Forsius, 1910. Meddel. Soc. Fauna et Flora Fenn. 36: 49.

Type-species: *Sahlbergia struthiopteridis* Forsius. Monotypic.

Larvae of this holarctic genus feed on ferns. Mature larvae may bore into soft wood or other substances where they pupate or overwinter.

Revision: Smith, 1966. Ent. Soc. Wash., Proc. 68: 113-120.

albidopictus (Norton). N. S., N. B., Que. to Ala. w. to Minn., Iowa. Host: *Onoclea sensibilis*.

Taxonus albido-pictus Norton, 1868. Amer. Ent. Soc., Trans. 2: 213. ♀, ♂.

floridella Ross. Ga., Fla.

Selandria floridana MacGillivray, 1895. Canad. Ent. 27: 281. ♂. Preocc. by Cresson, 1880.

Selandria (Aneugmenus) flavipes var. *floridella* Ross, 1930. Canad. Ent. 62: 189. N. name for *floridana* MacGillivray.

padi (Linnaeus). B. C., Wash., Oreg.; Europe to Siberia, N. Africa, Asia Minor. Probably introduced. Host: *Pteridium aquilinum*.

Tenthredo padi Linnaeus, 1761. Fauna Suecica, Ed. 2, p. 390.

Tenthredo (Allantus) stramineipes Klug, 1818. Mag. Gesell. Naturf. Freunde Berlin 8: 75. ♀, ♂.

Tenthredo (Emphytus) coronata Klug, 1818. Mag. Gesell. Naturf. Freunde Berlin 8: 276. ♀.

Tenthredo albipes Lepeletier, 1823. Monog. Tenthred., p. 105.

Selandria rufulatarsis Brulle, 1832. Exped. Moree, Zool., v. 2, p. 394. ♀.

Selandria analis Thomson, 1871. Hym. Scand., v. 1, p. 239. ♀.

Selandria cereipes Vollenhoven, 1873. Tijdschr. v. Ent. 16: 13.

Selandria vollenhoveni Gribodo, 1880. Soc. Ent. Ital., Bul. 12: 7.

Selandria bimaculata Cobelli, 1892. Verh. Ges. Wien. 42: 71. ♂.

Selandria oglobleni Dovnar-Zapsolskii, 1930. Rev. Russe d'Ent. 24: 90. ♀.

Selandria urbis Ross, 1930. Canad. Ent. 62: 186. ♀.

Taxonomy: Benson, 1968. Brit. Mus. (Nat. Hist.) Ent., Bul. 22: 134.

scutellatus Smith. Ariz.; Mexico. Ecology: Adults collected from ferns.

Anengmenus scutellatus Smith, 1969. U. S. Dept. Agr. Tech. Bul. 1398, p. 28. ♀, ♂.

Genus BIRKA Malaise

Birka Malaise, 1944. Arkiv for Zool. 35A: 4.

Type-species: *Tenthredo (Allantus) cinereipes* Klug. Orig. desig.

European species of this genus feed on grasses and sedges.

nordica Smith. Man., Alta., Yukon, Alaska, B. C.

Birka nordica Smith, 1969. U. S. Dept. Agr., Tech. Bul. 1398, p. 29. ♀, ♂.

Genus NESOSELANDRIA Rohwer

Nesoselandria Rohwer, 1910. U. S. Natl. Mus., Proc. 37: 657.

Type-species: *Paraselandria imitatrix* Ashmead. Orig. desig.

Neobusarbia Takeuchi, 1928. Formosa Nat. Hist. Soc., Trans. 18: 40.

Type-species: *Neobusarbia flavipes* Takeuchi. Orig. desig.

Melisandra Benson, 1939. Ent. Monthly Mag. 75: 110.

Type-species: *Selandria morio* (Fabricius) Enslin. Orig. desig.

Most species of this genus are found in Asia.

morio (Fabricius). Que., N. H., N. Y., Ont., B. C.; Europe to Siberia, Japan.

Tenthredo morio Fabricius, 1781. Species Insectorum, v. 1, p. 414.

Tenthredo ulni Schrank, 1802. Fauna Boica, p. 237.

Tenthredo (Selandria) tristis Lepeletier, 1823. Monog. Tenthred., p. 106. ♀, ♂.

Emphytus infuscatus Eversmann, 1847. Soc. Imp. Nat. Moscou, Bul. 20: 29. ♀.

Selandria Fabricii Konow, 1885. Wien. Ent. Ztg. 4: 300.

Aneugmenus brunneus Magretti, 1886. Soc. Ent. Ital., Bol. 18: 25.

Genus EUSTROMBOCEROS Rohwer

Stromboceros subg. *Eustromboceros* Rohwer, 1911. U. S. Natl. Mus., Proc. 41: 394.

Type-species: *Stromboceros (Eustromboceros) melanopterus* Rohwer. Orig. desig.

Stromboceros subg. *Proststromboceros* Rohwer, 1912. U. S. Natl. Mus., Proc. 43: 235.

Type-species: *Stromboceros (Eustromboceros) melanopterus* Rohwer. Orig. desig.

A small genus found from Arizona to Central America.

Taxonomy: Smith, 1971. Amer. Ent. Soc., Trans. 97: 532-533.

rufocaudatus Smith. S. Ariz.

Eustromboceros rufocaudatus Smith, 1969. U. S. Dept. Agr., Tech. Bul. 1398, p. 30. ♂.

Genus STROMBOCERIDEA Rohwer

Stromboceros subg. *Stromboceridea* Rohwer, 1911. U. S. Natl. Mus., Proc. 41: 392.

Type-species: *Stromboceros (Stromboceridea) pilosulus* Rohwer. Orig. desig.

Petersiana Jorgensen, 1913. Buenos Aires Mus. Nac. de Hist. Nat., An. 24: 278.

Type-species: *Petersianiana!* niveana Jorgensen. Monotypic.

Goniocerus Malaise, 1942. Ent. Tidskr. 63: 93 N. syn.

Type-species: *Stromboceros albilabris* Konow. Orig. desig.

This is a rather large genus found from southern Arizona to northern Argentina.

nigricans (Norton). S. Ariz. to Guatemala.

Strongylaster nigricans Norton, 1868. Amer. Ent. Soc., Trans. 2: 223. ♀, ♂.

Selandria curialis Cresson, 1880. Amer. Ent. Soc., Trans. 8: 15. ♀.

Stromboceros (Eustromboceros) leucostomus Rohwer, 1911. U. S. Natl. Mus., Proc. 41: 395.

♀.

Taxonomy: Smith, 1971. Amer. Ent. Soc., Trans. 97: 526 (lectotype for *nigricans*).

TRIBE SELANDRIINI

Genus BRACHYTHOPS Haliday

Coryna Lepeletier and Serville, 1825. Encycl. Meth., Ins., v. 10, p. 567. Preocc. by Bosc, 1802.

Type-species: *Tenthredo scapularis* Lepeletier and Serville. Desig. by Rohwer, 1911.

Brachythops Haliday, 1839. In Curtis, Brit. Ent., v. 16, p. 764.

Type-species: *Brachythops seminigra* Haliday. Monotypic.

Paraselandria Ashmead, 1898. Canad. Ent. 30: 255.

Type-species: *Selandria flavens* Klug. Orig. desig.

Selandriidea Rohwer, 1911. U. S. Natl. Mus., Proc. 41: 388.

Type-species: *Selandria vanduzeei* Rohwer. Orig. desig.

Pseudoselandria MacGillivray, 1914. Canad. Ent. 46: 103.

Type-species: *Pseudoselandria oxalata* MacGillivray Orig. desig.

A small holarctic genus closely related to the Palaearctic *Selandria* Leach. Larvae of this genus feed on sedges.

flavens (Klug). Labrador to Alaska s. to N. Y., Wis., Colo.; Europe to Siberia. Host: *Carex*.

Tenthredo (Allantus) flavens Klug, 1818. Mag. Gesell. Naturf. Freunde Berlin 8: 48. ♀, ♂.

Tenthredo (Coryna) scapularis Lepeletier and Serville, 1825. Encycl. Meth. Ins., v. 10, p. 567. ♀.

Phyllostoma puella Fallen, 1829. Monog. Tenthred. Suec., p. 30. ♀, ♂.

Brachythops seminigra Haliday, 1839. In Curtis, Brit. Ent., v. 16, p. 764.

Selandria flavescens Thomson, 1870. Opusc. Ent., 2nd Fasc., p. 291.

Selandria decolorata Cresson, 1880. Amer. Ent. Soc., Trans. 8: 15. ♂.

Selandriidea vanduzeei Rohwer, 1911. U. S. Natl. Mus., Proc. 41: 388. ♀, ♂.

Selandria flavens var. *flavior* Enslin, 1913. Deut. Ent. Ztschr., Beih., p. 144.

Pseudoselandria oxalata MacGillivray, 1914. Canad. Ent. 46: 103. ♀.

wuestneii (Konow). Que., N. W. T., Man., Alta., Yukon, Alaska; Europe. Host: *Carex*.

Selandria wustneii Konow, 1885. Wien. Ent. Ztg. 4: 122. ♀, ♂.

TRIBE ADELESTINI

Genus ADELESTA Ross

Adelesta Ross, 1937. Ill. Biol. Monog. 15(2): 68.

Type-species: *Selandria nova* Norton. Orig. desig.

The single species in this genus is found in North America only.

nova (Norton). N. S., N. B., Que., Maine.

Selandria nova Norton, 1867. Amer. Ent. Soc., Trans. 1: 254. ♀.

TRIBE HEPTAMELINI

Genus HEPTAMELUS Haliday

Melicerta Stephens, 1835. Illus. Brit. Ent., v. 7, p. 94. Preocc. by Schrank, 1803.

Type-species: *Melicerta ochroleuca* Stephens. Monotypic.

Heptamelus Haliday, 1855. Nat. Hist. Rev., v. 2, p. 60.

Type-species: *Melicerta ochroleuca* Stephens. Monotypic.

Caenoneura Thomson, 1870. Opusc. Ent., 2nd Fasc., p. 270.

Type-species: *Caenoneura dahlii* Thomson. Monotypic.

Most species of this genus are found in Asia.

ochroleucus (Stephens). B. C. (Squamish, Diamond Head Trail); Europe, Japan. Ecology:

Larva bores downward in stems of ferns. Host: *Athyrium*, *Polypodium*, and *Blechnum*.

These hosts were recorded in Europe.

Melicerta ochroleuca Stephens, 1835. Illus. Brit. Ent., v. 7, p. 95.

Caenoneura dahlbomi Thomson, 1870. Opusc. Ent., 2nd Fasc., p. 271. ♀.

SUBFAMILY DOLERINAE

The two genera in this subfamily are both widespread throughout the subarctic and temperate regions of the Northern Hemisphere; one species is known from Uganda. *Dolerus* contains about 125 and *Loderus* about 16 world species. Larvae feed on horsetails, grasses, sedges, and rushes. A few species may be of importance when feeding in cultivated crops. Adults fly early in the spring and are found in their host-plant communities, on nearby flowers such as those of *Crataegus* and *Prunus*, or on willow catkins. Some may feed on the sap of sugar maple. There is normally a single generation a year, and mature larvae overwinter in an earthen cell in the ground. Species of this subfamily can be collected in large numbers. The time of emergence of the adults can be accurately predicted, yet, very little biological work has been done. Larvae for so few species have been associated that it is impossible to identify them beyond genus.

Revision: Ross, 1931. Ill. Biol. Monog. 12(3): 1-116.

Taxonomy: Ross, 1935. Ent. Soc. Wash., Proc. 37: 88-93. — Benson, 1956. Roy. Ent. Soc. London, Proc., Ser. B: Taxonomy 25: 55-63. — Benson, 1962. Brit. Mus. (Nat. Hist.) Ent., Bul. 12: 388-389 (holarctic species).

Genus DOLERUS Panzer

Dolerus Jurine, 1801 (May). Intell. Blatt. Litt.-Ztg. Erlangen, v. 1, p. 163. Suppressed by Internat. Comm. Zool. Nomencl. Op. 135, 1939.

Type-species: *Tenthredo gonager* Fabricius. Desig. by Latreille, 1810.

Dolerus Panzer, 1801 (September). Faunae Ins. German., heft 82, pl. 11.

Type-species: *Dolerus pedestris* Panzer. Monotypic.

Dosytheus Leach, 1817. Zool. Misc., v. 3, p. 127.

Type-species: *Tenthredo eglanteriae* Fabricius. Desig. by Brulle, 1846.

SPECIES GROUP UNICOLOR

asper Zaddach. Mass., Conn., Mich., Ind., S. Dak., Alaska; Europe, Siberia. Host: Cyperaceae and Gramineae.

Dolerus asper Zaddach, 1859. Programm Friedr. Col. Konigsberg, p. 21. ♂.

Dolerus tectus MacGillivray, 1914. Canad. Ent. 66: 104. ♀, ♂.

Dolerus asper megapteroides Muche, 1964. Reichenbachia 4: 31-33. ♀ (male misdet.).

borealis MacGillivray. Idaho, Wash., Oreg.

Dolerus borealis MacGillivray, 1893. Canad. Ent. 25: 238. ♀.

Dolerus nominatus MacGillivray, 1923. Insecutor Inscitiae Menstruus 11: 34. ♀.

illini Ross. Mass., N. Y. w. to Alta., S. Dak., Colo. Ecology: Adults collected in *Equisetum*, *Eleocharis*, and *Carex* habitats.

Dolerus illini Ross, 1931. Ill. Biol. Monog. 12(3): 39. ♀, ♂.

Dolerus illini var. *rufilobus* Ross, 1931. Ill. Biol. Monog. 12(3): 41. ♂.

nativus MacGillivray. Colo., Oreg.

Dolerus nativus MacGillivray, 1923. Insecutor Inscitiae Menstruus 11: 32. ♂.

Dolerus nectarinus MacGillivray, 1923. Insecutor Inscitiae Menstruus 11: 33. ♂.

neocollaris **narratus** MacGillivray. B. C., Idaho, Wash., Oreg.

Dolerus narratus MacGillivray, 1923. Canad. Ent. 55: 65. ♀, ♂.

Dolerus nocuus MacGillivray, 1923. Insecutor Inscitiae Menstruus 11: 34. ♀.

neocollaris **neocollaris** MacGillivray. Que., N. Y. w. to Mont., Nebr., Colo.

Dolerus neocollaris MacGillivray, 1908. Canad. Ent. 40: 127. ♀, ♂.

Dolerus fugax MacGillivray, 1908. Canad. Ent. 40: 127. ♀.

nitens Zaddach. N. H. to Md., w. to Mich., Ohio, Ill., Wash., Oreg.; Europe. Ecology: Probably grasses and sedges are hosts; adults sometimes swept from cultivated grass crops. Host: *Festuca* sp.

Dolerus coracinus Stephens, 1835. Illus. Brit. Ent., v. 7, p. 87. Preocc. by Klug, 1814.

Dolerus nitens Zaddach, 1859. Programm Friedr. Col. Konigsberg, p. 16. ♀, ♂.

Dolerus anthracinus Thomson, 1871. Hym. Scand., v. 1, p. 291. Preocc. by Klug, 1814.

SUBFAMILY SUSANINAE

Revision: Smith, 1969. Ent. Soc. Wash., Proc. 71: 13-23.

Genus SUSANA Rohwer and Middleton

Susana Rohwer and Middleton, 1932. Ent. Soc. Wash., Proc. 34: 93.

Type-species: *Susana cupressi* Rohwer and Middleton. Orig. desig.

Members of this exclusively North American genus feed on plants of the family Cupressaceae.

annulata Smith. Calif. (San Mateo Co., Marin Co.). Ecology: Adults collected from *Cupressus macrocarpa*.

Susana annulata Smith, 1969. Ent. Soc. Wash., Proc. 71: 22. ♀, ♂.

cupressi Rohwer and Middleton. S. Calif. Host: *Cupressus*.

Susana cupressi Rohwer and Middleton, 1932. Ent. Soc. Wash., Proc. 34: 94. ♀, ♂.

fuscalis Wong and Milliron. B. C. Host: *Juniperus scopulorum*.

Susana fuscalis Wong and Milliron, 1972. Canad. Ent. 104: 1025-1026. ♀, larva.

juniperi (Rohwer). N. Mex. (Las Vegas Hot Springs). Host: *Juniperus*.

Platycampus juniperi Rohwer, 1911. U. S. Natl. Mus., Proc. 41: 386. ♀.

oregonensis Smith. Idaho, Nev., Oreg. Host: *Juniperus*.

Susana oregonensis Smith, 1969. Ent. Soc. Wash., Proc. 71: 21. ♀.

punctata Smith. Calif. (Inyo Co.). Ecology: Adult collected from *Juniperus*.

Susana punctata Smith, 1969. Ent. Soc. Wash., Proc. 71: 19. ♀.

rufa Smith. N. Mex., Ariz. (Chiricahua Mts.).

Susana rufa Smith, 1969. Ent. Soc. Wash., Proc. 71: 21. ♀.

SUBFAMILY NEMATINAE

The Nematinae are a large and diverse group, especially in habits and host plants. It is the dominant sawfly group in the arctic and subarctic regions of the world where they comprise nearly the entire sawfly fauna. Their abundance decreases rapidly southward and only a few species extend into Mexico. Only two species, both *Pristiphora*, are known from South America.

Larval habits range from free leaf feeders to gall formers, others are leaf edge rollers, leaf miners, and some live and feed inside the fruits of rosaceous plants. The taxonomy of many groups is imperfectly known and few have been recently studied. Because of their abundance in the arctic region, many represent holarctic species, and a worker is met with the major obstacle of having to become familiar with the innumerable forms described from Eurasia. Variation is another factor since the extreme arctic climate may influence major morphological and color differences within species. For example, females of *Amauronematus abnormis* (Holmgren) are normally brachypterous, but females with normal wings also exist. Some of the gall forming groups apparently contain species complexes where there are practically no adequate morphological characters for species separation and where identity may have to be based on specific host records and accompanying biological information. Extensive field work and knowledge of the world fauna will be essential to the study of most groups, and such facilities are not available to most taxonomists.

Revision: Marlatt, 1896. U. S. Dept. Agr. Div. Ent. Tech. Ser. 3, 135 pp.

Biology: Marlatt, 1895. Ent. Soc. Wash., Proc. 3: 263-267 (notes on some gall forming species).

TRIBE CLADIINI

Revision: Rohwer and Middleton, 1922. U. S. Natl. Mus., Proc. 60: 1-46 (also biology).

—Smith, 1974. Amer. Ent. Soc., Trans. 100: 1-28.

Genus CLADIUS Illiger

Cladius Illiger, 1807. Mag. Insektenk. 6: 190.

Type-species: *Tenthredo diffornis* Panzer. Desig. by Latreille, 1810.

Only one of several species of this holarctic genus is found in North America.

diffornis (Panzer). N. S., Que. to B. C. s. to Va., Ky., Mo., Calif.; Europe to Siberia. Ecology:

Widespread, common on cultivated roses. Host: *Rosa*. Bristly rose slug.

Tenthredo diffornis Panzer, 1799. Faunae Ins. German. 6: 62.

Nematus crassicornis Stephens, 1835. Illus. Brit. Ent., v. 7, p. 28.

Tenthredo (Cladius) isomera Harris, 1835. In Hitchcock, Rpt. Geol. Mineral. Bot. Zool. Mass., p. 583. Nom. nud.

Cladius isomerus Norton, 1861. Boston Soc. Nat. Hist., Proc. 8: 223. ♀.

Cladius gracilicornis Konow, 1884. Deut. Ent. Ztschr. 28: 314. ♀, ♂.

Cladius major Cobelli, 1892. Zool.-Bot. Gesell. Wien, Verh. 42: 70. ♀.

Biology: Murtfeldt, 1890. U. S. Dept. Agr., Ent. Bul. 22: 78. —Chittenden, 1908. U. S. Dept. Agr., Bur. Ent. Circ. 105, 6 pp. —Middleton, 1922. In Rohwer and Middleton, U. S. Natl. Mus., Proc. 60: 13. —Middleton, 1922. U. S. Dept. Agr., Farmers' Bul. 1252, 4 pp.

Genus PRIOPHORUS Dahlbom

Nematus subg. *Priophorus* Dahlbom, 1835. Conspectus Tenthred., Siricid., Oryssin., Scand., p. 4.

Type-species: *Priophorus pilicornis* Dahlbom. Desig. by Rohwer, 1911.

Stevensia Brulle, 1846. In Lepeletier, Hist. Nat. Ins., Hym., v. 4, p. 667. No species included.

Type-species: *Priophorus varines*(!) Lepeletier. Desig. by Rohwer, 1922. Rohwer must have meant *Pristiphora varipes* Lepeletier.

betulae Rohwer. Newfoundland to N. Y. w. to Alta., S. Dak. Host: *Betula*.

Priophorus betulae Rohwer, 1922. In Rohwer and Middleton, U. S. Natl. Mus., Proc. 60: 27. ♀, ♂.

infuscatus (MacGillivray). Ont., N. H., N. Y. w. to Mich., Ill. Host: *Salix*, *Populus*(?).

Craterocercus infuscatus MacGillivray, 1916. Conn. State Geol. and Nat. Hist. Survey Bul. 22: 106. ♀.

Trichiocampus pacatus MacGillivray, 1921. Ent. News 32: 48. ♀.

Trichiocampus paetus MacGillivray, 1921. Ent. News 32: 48. ♀.

Trichiocampus palliolatus MacGillivray, 1921. Ent. News 32: 49. ♀.

Priophorus salicivorus Rohwer, 1922. In Rohwer and Middleton, U. S. Natl. Mus., Proc. 60: 29. ♀, ♂.

morio (Lepeletier). N. B. to B. C. s. to Pa., Mich., Mont., Calif.; Europe to Siberia. Ecology: Widespread. Host: *Rubus*. Introduced into New Zealand and Tasmania; attempted introduction into Hawaii from Oreg. and Calif. to aid in biological control of *Rubus*. *Cladius morio* Lepeletier, 1823. Monog. Tenthred., p. 58. ♀, ♂.

Nematus brullei Dahlbom, 1835. Conspectus Tenthred., Siricid., Oryssin. Scand., p. 7.

Cladius tener Zaddach, 1859. Programm Friedr. Col. Konigsberg, p. 11. ♀.

Cladius tristis Zaddach, 1859. Programm Friedr. Col. Konigsberg, p. 11. ♀, ♂.

Priophorus rubivorus Rohwer, 1922. In Rohwer and Middleton, U. S. Natl. Mus., Proc. 60: 28. ♀.

Priophorus montanus Rohwer, 1922. In Rohwer and Middleton, U. S. Natl. Mus., Proc. 60: 31. ♀.

Priophorus rubi Rohwer, 1922. In Rohwer and Middleton, U. S. Natl. Mus., Proc. 60: 32. ♀.

Biology: Essig and Hoskins, 1944. Calif. Dept. Agr., Ext. Serv. Cir. 87: 37. —Smith and Kido, 1949. Hilgardia 19: 43-54. —Nakao, 1967. Hawaii. Ent. Soc., Proc. 19: 339.

pallipes (Lepeletier). Newfoundland to Alaska s. to Va., Tenn., Ill., Colo., Oreg.; Eurasia. Ecology: Widespread. Host: *Prunus*, *Crataegus*, *Alnus*.

Tenthredo albipes Fallen, 1808. Svenska Ventensk. Akad., Handl. 29: 110. Preocc. by Geoffroy, 1785.

Cladius pallipes Lepeletier, 1823. Monog. Tenthred., p. 59. ♀, ♂.

Cladius luteiventris Dahlbom, 1836. Prodrom. Hym. Scand., p. 102.

Aulacomerus lutescens Lintner, 1888. Ins. N. Y. Rpt. 4: 44. ♀, ♂.

Platycampus victoria MacGillivray, 1920. Canad. Ent. 52: 61. ♀.

Biology: Middleton, 1922. In Rohwer and Middleton, U. S. Natl. Mus., Proc. 60: 7. — Viereck, 1925. Canad. Ent. 57: 43. — Beique, 1961. Canad. Ent. 93: 1085-1097. — Smirnoff and Beique, 1959. Canad. Ent. 91: 379-381 (polyhedral disease).

TRIBE NEMATINI

Genus HOPLOCAMPA Hartig

Hoplocampa Hartig, 1837. Fam. Blattwespen und Holzwespen, nebst Einleitung Naturgesch. Hym., p. 276.

Type-species: *Tenthredo (Allantus) brevis* Klug. Desig. by Rohwer, 1911.

Macgillivraya Ashmead, 1898. Canad. Ent. 30: 257. Preocc. by Forbes, 1852.

Type-species: *Macgillivraya oregonensis* Ashmead. Orig. desig.

Macgillivrayella Ashmead, 1899. In Smith, Ins. of N. J., p. 606. N. name for *Macgillivraya*.

Larvae of this holarctic genus live and feed inside the fruits of Rosaceae. Species that attack cultivated crops such as cherries, pears, and apples may be serious pests. Adults emerge in the spring when their host plant is in bloom and the females oviposit in the ovaries. Sometimes adults can be collected in large numbers from their host blossoms. The larvae feed in the developing fruit of the host, the fruit usually falling off when the larvae mature. The larvae enter the ground where they overwinter. All species are single brooded.

Revision: Rohwer, 1911. U. S. Dept. Agr. Bur. Ent. Tech. Ser. 20(4): 139-148. — Ross, 1943. Amer. Ent. Soc., Trans. 69: 61-92 (as *Holocampa* (!)).

Taxonomy: Benson, 1968. Brit. Mus. (Nat. Hist.) Ent. Bul. 22: 199 (key to three species groups).

Biology: Bird, 1927. Ent. Soc. Amer., Ann. 20: 481-487.

alpestris Rohwer. Alta, Mont., Colo., B. C., Wash. Ecology: Adults collected from *Amelanchier* flowers.

Hoplocampa (Hoplocampa) alpestris Rohwer, 1911. U. S. Dept. Agr. Bur. Ent. Tech. Ser. 20(4): 142. ♀, ♂.

bioculata Rohwer. Colo., Utah, Idaho, B. C., Wash., Oreg., Calif. Ecology: Adults collected from *Amelanchier* flowers.

cordleyi MacGillivray. Oreg., Calif.

Craterocercus cordleyi MacGillivray, 1923. Ill. Univ. Bul. 20(50): 9. ♀.

fraternalis (Norton). N. H. to Pa. w. to Wis., Ill., Kans., Tex. Host: *Quercus alba*.

Hemichroa fraternalis Norton, 1872. Amer. Ent. Soc., Trans. 4: 81. ♂.

Craterocercus quercivorus Rohwer, 1918. Ent. Soc. Wash., Proc. 20: 164. ♀, ♂.

Craterocercus cervinus MacGillivray, 1923. Ill. Univ. Bul. 20(50): 9. ♀.

Craterocercus circulus MacGillivray, 1923. Ill. Univ. Bul. 20(50): 9. ♀.

furcatus Smith. Conn., N. J., Ill.

Craterocercus furcatus Smith, 1969. Ent. Soc. Wash., Proc. 71: 160. ♀.

obtusus (Klug). Conn. to Fla. w. to Ill., Kans., Ark., Tex. Host: *Quercus alba, Q. coccinea*.

Tenthredo (Allantus) obtusa Klug, 1814. Mag. Gesell. Naturf. Freunde Berlin 8: 55. ♀.

Hemichroa albidovaria Norton, 1872. Amer. Ent. Soc., Trans. 4: 81. ♀.

Hemichroa phytophagica Dyar, 1898. N. Y. Ent. Soc., Jour. 6: 125. ♀, larva.

Craterocercus floridanus Rohwer, 1912. U. S. Natl. Mus., Proc. 43: 238. ♀, ♂.

Genus PLATYCAMPUS Schiodte

Leptopus Hartig, 1837. Fam. Blattwespen und Holzwespen, nebst Einleitung Naturgesch. Hym., p. 184. Preocc. by Mayer, 1835.

Type-species: *Nematus (Leptopus) hypogastricus* Hartig. Monotypic.

Platycampus Schiodte, 1839. Mag. Zool. (ser. 2) 1: 20, footnote; pl. 6-10. N. name for *Leptopus* Hartig.

Erasmius Gistel, 1848. Naturgesch. Thierr. f. hoh Schul, p. 9. N. name for *Leptopus* Hartig.

Camponiscus Newman, 1869. Entomologist 4: 215.

Type-species: *Camponiscus healei* Newman. Monotypic.

A small holarcetic genus with two North American representatives.

albostigmus (Rohwer). N. S., Maine to Alaska s. to N. Y., Mich., Minn., Colo., Nev., Wash. Ecology: Widespread.

Camponiscus albostigmus Rohwer, 1908. N. Y. Ent. Soc., Jour. 16: 105. ♀.

americanus (Marlatt). Que., Maine to Alaska s. to Pa., N. Mex., Idaho. Ecology: Widespread. Host: *Populus*.

Camponiscus americanus Marlatt, 1896. Canad. Ent. 28: 251. ♀, ♂.

Camponiscus smithi Rohwer, 1908. N. Y. Ent. Soc., Jour. 16: 105. ♀.

Platycampus vierecki MacGillivray, 1920. Canad. Ent. 52: 60. ♀.

Genus ANOPLONYX Marlatt

Anoplonyx Marlatt, 1896. U. S. Dept. Agr. Div. Ent. Tech. Ser. 3: 18.

Type-species: *Nematus pectoralis* Lepeletier. Desig. by Rohwer, 1911.

Marlattia Ashmead, 1898. Canad. Ent. 30: 287.

Type-species: *Hemicroa laricis* Marlatt. Orig. desig.

Larvae of this holarctic genus feed on *Larix*.

Taxonomy: Wong, 1955. Canad. Ent. 87: 224-227 (larvae). — Woods, 1962. Ent. Soc. Brit. Columbia, Proc. 59: 17 (species in B. C.).

canadensis Harrington. Newfoundland to Maine w. to Yukon, n. B. C., Sask., Minn. Host: *Larix laricina*.

Anoplonyx canadensis Harrington, 1902. Canad. Ent. 34: 94. ♀.

Platycampus (Anoplonyx) itascus Rohwer and Middleton, 1932. Ent. Soc. Wash., Proc. 34: 96. ♂.

laricivorus (Rohwer and Middleton). Mont., B. C., Idaho. Host: *Larix occidentalis*.

Platycampus (Anoplonyx) laricivorus Rohwer and Middleton, 1932. Ent. Soc. Wash., Proc. 32: 95. ♀, ♂.

luteipes (Cresson). Newfoundland to Maine, N. H. w. to Yukon, n. B. C., Minn., Ill. Host: *Larix laricina*.

Dineura luteipes Cresson, 1880. Amer. Ent. Soc., Trans. 8:11. ♂.

Hemicroa laricis Marlatt, 1896. Canad. Ent. 28: 257. ♀.

Biology: Reeks and Smith, 1945. Acad. Nat. 2:11.

Morphology: Bracken, 1961. Canad. Ent. 93: 573-593.

occidens Ross. Mont., B. C., Idaho, Oreg. Host: *Larix occidentalis*.

Platycampus (Anoplonyx) laricis Rohwer and Middleton, 1932. Ent. Soc. Wash., Proc. 34: 95. ♀, ♂. Preocc. by Marlatt, 1896.

Anoplonyx occidens Ross, 1937. Ill. Biol. Monog. 15(2): 82. N. name.

Genus ADELOMOS Ross

Adelomos Ross, 1935. Canad. Ent. 67: 201.

Type-species: *Adelomos cleone* Ross. Orig. desig.

cleone Ross. Ky., Ill.

Adelomos cleone Ross, 1935. Canad. Ent. 67: 202. ♀.

Genus NEOPAREOPHORA MacGillivray

Neopareophora MacGillivray, 1908. Canad. Ent. 40: 289.

Type-species: *Neopareophora martini* MacGillivray. Orig. desig.

Dineuridea Rohwer, 1912. U. S. Natl. Mus., Proc. 43: 240.

Type-species: *Marlattia erythrothorax* Rohwer. Orig. desig.

A small Nearctic genus with several unidentified species in addition to those listed below.

Revision: Ross, 1935. Canad. Ent. 67: 204-205.

erythrothorax (Rohwer). Fla. (Jacksonville).

Marlattia erythrothorax Rohwer, 1911. U. S. Natl. Mus., Proc. 41: 385. ♀.

litura (Klug). N. B., Que. to Va. w. to Ill. Ecology: First instar larvae feed inside the buds, subsequent instars feed on the leaves. Host: *Vaccinium*, especially low-bush blueberry.

Dineura litura Klug, 1814. Mag. Gesell. Naturf. Freunde Berlin 8: 83. ♀.

Dineura linitus Norton, 1867. Amer. Ent. Soc., Trans. 1: 240. ♀.

Dineura lateralis Norton, 1867. Amer. Ent. Soc., Trans. 1: 240. ♀.

Neopareophora martini MacGillivray, 1908. Canad. Ent. 40: 289. ♀.

Biology: Maxwell, 1953. Canad. Ins. Pest Rev. 31(1): 100. — Neilson, 1955. Canad. Ent. 87: 356-357. — Neilson, 1958. Canad. Ent. 90: 229-234.

Genus NEMATINUS Rohwer

Nematinus Rohwer, 1911. U. S. Dept. Agr., Bur. Ent. Tech. Ser. 20: 99.
Type-species: *Tenthredo abdominalis* Panzer. Orig. desig.

A holarctic genus which is found in North America from N. S. to Alaska south to N. Y., Mich., S. Dak., Colo., and Calif. This genus has not been studied, and the following is merely a list of the described species with their type localities.

ochreatus (Rohwer). N. B. (St. John).

Pteronus ochreatus Rohwer, 1910. U. S. Natl. Mus., Proc. 38: 198. ♀.

oronus (Kincaid). Alaska (Yukatay Bay).

Pachynematus oronus Kincaid, 1900. Wash. Acad. Sci., Proc. 2: 347. ♀.

pontanioides (Marlatt). Oreg. (Mt. Hood).

Nematus pontanioides Marlatt, 1896. U. S. Dept. Agr., Div. Ent. Tech. Ser. 3: 89. ♀.

unicolor (Dyar). N. Y. (Keene Valley). Host: *Betula alba*.

Nematus unicolor Dyar, 1895. Amer. Ent. Soc., Trans. 22: 308. Larva. Dyar's description precedes that of Marlatt, 1896; previous listings give Marlatt as author.

Genus PACHYNEMATUS Konow

Pachynematus Konow, 1890. Deut. Ent. Ztschr., pp. 233, 238, 246.

Type-species: *Nematus capreae* Panzer. Desig. by Rohwer, 1911.

Known hosts for this genus in North America are grasses, sedges, and dock. Some species in Europe also feed on Salicaceae and Coniferae. Several species reared from wheat and other grain crops may be of economic importance. So far as is known, the grass feeding species are single brooded with the flight and feeding activities occurring early in the spring. Some of the species on sedges apparently have several generations a year. Very little biological work has been done. The taxonomy of this genus is almost entirely based on males. Females of a number of species cannot be separated; consequently, the lists of unplaced taxa below. Larvae are commonly collected, but so few have been associated with the adults that it is impossible to identify them except to genus.

Taxonomy: Ross, 1945. Ent. Soc. Wash., Proc. 47: 105-120 (key to N. Amer. species).

—Benson, 1948. Ent. Monthly Mag. 84: 58-65 (British species). —Benson, 1962. Brit. Mus. (Nat. Hist.) Ent., Bul. 12: 405-406 (holarctic species). —Benson, 1963. Roy. Ent. Soc. London, Proc., Ser. B: Taxonomy 32: 162-164 (*Rumicis* group).

SPECIES GROUP CLITELLATUS

anolita Ross. Kans., Tex., Mont., Colo. Host: Wheat.

Pachynematus apicalis Marlatt, 1896. U. S. Dept. Agr., Div. Ent. Tech. Ser. 3: 107. ♂.

Preocc. in *Pachynematus apicalis* Hartig.

Pachynematus anolita Ross, 1951. In Muesebeck et. al., U. S. Dept. Agr., Agr. Monog. 2: 39. N. name for *apicalis* Marlatt.

auratus Marlatt. N. Y., Ohio, Ind., Ill., Iowa, Kans., Mont.

Pachynematus auratus Marlatt, 1896. U. S. Dept. Agr., Div. Ent. Tech. Ser. 3: 99. ♀, ♂.

clibrichellus (Cameron). N. H. to Alaska; arctic Eurasia. Host: *Carex*.

Nematus clibrichellus Cameron, 1878. Fauna Scotland, v. 1, p. 32. ♂.

Nematus Thomsoni Cameron, 1882. Ent. Soc. London, Trans., p. 540. ♀, ♂.

Nematus clibrichensis Cameron, 1885. Monog. Brit. Phytophagous Hym., v. 2, p. 88. ♂.

Pachynematus pubescens Marlatt, 1896. U. S. Dept. Agr., Div. Ent. Tech. Ser. 3: 100. ♀.

Pachynematus gotarius Kincaid, 1900. Wash. Acad. Sci., Proc. 2: 348. ♂.

Pachynematus venustus MacGillivray, 1921. Calif. Acad. Sci., Proc. (ser. 4) 11(14): 190. ♀, ♂.

Pachynematus vernus MacGillivray, 1921. Calif. Acad. Sci., Proc. (ser. 4) 11(14): 191. ♂.

clitellatus (Lepeletier). Labrador, Que.; Europe. Introduced ?. Host: Gramineae.

Tenthredo capreae Panzer, 1799. Faunae Ins. German., v. 6, p. 65, t. 8. Preocc. by Linnaeus, 1758.

Nematus clitellatus Lepeletier, 1823. Monog. Tenthred., p. 62. ♀.

Nematus trisignatus Foerster, 1854. Naturh. Ver. Rheinlande, Verh. 11: 292. ♀.

clypeatus Marlatt. Man., Minn., Alta., Mont.

Pachynematus clypeatus Marlatt, 1896. U. S. Dept. Agr., Div. Ent. Tech. Ser. 3: 102. ♀.

excisus (Thomson). Greenland; arctic Europe.

Nematus excisus Thomson, 1862. Svenska Vetensk. Akad., Ofvers. Forh. 19: 628. ♀.

extensicornis (Norton). Maine, Ont. to Md. w. to Alta., Mont., Wyo., Colo.; Europe. Host: Wheat, probably other Gramineae.

Nematus extensicornis Norton, 1861. Boston Soc. Nat. Hist. Proc. 8: 159. ♂.

Nematus marylandicus Norton, 1864. Ent. Soc. Phila., Proc. 3: 7. ♀.

Nematus aureopectus Norton, 1867. Amer. Ent. Soc., Trans. 1: 219. ♀.

Pachynematus affinis Marlatt, 1896. U. S. Dept. Agr., Div. Ent. Tech. Ser. 3: 97. ♀, ♂.

Pachynematus tritici Marlatt, 1896. U. S. Dept. Agr., Div. Ent. Tech. Ser. 3: 106. ♂.

Pachynematus foveolatus Konow, 1903. Ztschr. System. Hym. Dipt. 3: 379. ♀, ♂.

Pachynematus truncatus Benson, 1948. Ent. Monthly Mag. 84: 62. ♂.

jamesi Ross. Colo., Utah.

Pachynematus jamesi Ross, 1945. Ent. Soc. Wash., Proc. 47: 112. ♂.

kirbyi (Dahlbom). Que. to Alaska s. to Maine, Pa., Ill., Iowa, S. Dak., Mont.; Europe to Siberia.

Ecology: Widespread. Host: *Carex*.

Nematus kirbyi Dahlbom, 1835. Clavis Hym. Syst., p. 40. ♂.

Nematus flaviventris Hartig, 1840. Stettin Ent. Ztg. 1: 24.

Nematus diaphanus Eversmann, 1847. Soc. Nat. Moscou, Bul. 20: 19.

Nematus unbpennius Eversmann, 1847. Soc. Nat. Moscou, Bul. 20: 20.

Nematus turgidus Zaddach, 1875. Phys. Okonom. Gesell. Konigsberg, Schr. 16: 82.

Nematus staudus Cresson, 1880. Amer. Ent. Soc., Trans. 8: 10. ♀.

Pachynematus zaddachi Konow, 1903. Ztschr. System. Hym. Dipt. 3: 377. ♀, ♂.

Pachynematus infumatus Marlatt, 1896. U. S. Dept. Agr., Div. Ent. Tech. Ser. 3: 107. ♂.

Pachynematus refractorius MacGillivray, 1921. N. Y. Ent. Soc., Jour. 29: 31. ♀.

muscus Ross. Oreg., Calif.

Pachynematus muscus Ross, 1945. Ent. Soc. Wash., Proc. 47: 114. ♂.

Taxonomy: Middlekauff, 1955. Pan-Pacific Ent. 31: 196.

moerens (Foerster). Alta, Alaska; Europe. Host: Gramineae.

Nematus moerens Foerster, 1854. Naturh. Ver. Rheinlande, Verh. 11: 294. ♀.

Nematus pleuralis Thomson, 1862. Ofvers. Svensk. Vet. Akad., Forh. 19: 628.

Pachynematus falonus Ross, 1945. Ent. Soc. Wash., Proc. 47: 113. ♂.

nevadensis Marlatt. Nev.

Pachynematus nevadensis Marlatt, 1896. U. S. Dept. Agr., Div. Ent. Tech. Ser. 3: 110. ♂.

nigritibialis Rohwer. N. Y., Mich., Ohio, Ill., Nebr., Kans.

Pachynematus nigritibialis Rohwer, 1909. Canad. Ent. 41: 17. ♀.

painteri Ross. Kans., Idaho. Host: Wheat.

Pachynematus painteri Ross, 1945. Ent. Soc. Wash., Proc. 47: 115. ♀, ♂.

parvilabris (Thomson). N. W. T., Greenland; arctic Europe. Specimen collected on Ward Hunt Is., 83° 05' N. May be the most northerly sawfly found.

Nematus parvilabris Thomson, 1862. Ofvers. Svensk. Vet. Akad., Forh. 19: 638. ♀, ♂.

Pachynematus inopinatus Lindqvist, 1949. Notulae Ent. 28: 82.

Pachynematus abstrusus Lindqvist, 1949. Notulae Ent. 28: 83.

setator Ross. N. Y., Ind., Ill., Oreg. Host: *Festuca*.

Pachynematus setator Ross, 1945. Ent. Soc. Wash., Proc. 47: 113. ♂.

Biology: Kamm, 1975. Environ. Ent. 4: 312-314 (in Oreg.).

smithae Ross. N. H.; Europe.

Pachynematus smithae Ross, 1945. Ent. Soc. Wash., Proc. 47: 116. ♂.

sporax Ross. Sask., Idaho, Wash., Oreg., Calif. Host: Wheat.

Pachynematus sporax Ross, 1945. Ent. Soc. Wash., Proc. 47: 115. ♂.

Taxonomy: Middlekauff, 1955. Pan-Pacific Ent. 31: 196-198 (female).

Biology: Armitage, 1954. Calif. Dept. Agr., Bul. 54: 73.

thoracicus Marlatt.

Pachynematus thoracicus Marlatt, 1896. U. S. Dept. Agr., Div. Ent. Tech. Ser. 3: 108. ♂.
uvator Ross, Utah, B. C., Wash.

Pachynematus uvator Ross, 1945. Ent. Soc. Wash., Proc. 47: 114. ♂.

UNPLACED TAXA OF GROUP CLITELLATUS

The following species were described from females. Because species separation of *Pachynematus* is based mostly on males, they can not be placed as yet.

absyrtus MacGillivray, Oreg.

Pachynematus absyrtus MacGillivray, 1923. Ill. Univ. Bul. 20(50): 27. ♀.

academus MacGillivray, Oreg.

Pachynematus academus MacGillivray, 1923. Ill. Univ. Bul. 20(50): 27. ♀.

ater (MacGillivray), Wash.

Messa ater MacGillivray, 1893. Canad. Ent. 25: 238. ♀.

coloradensis Marlatt, Colo.

Pachynematus coloradensis Marlatt, 1896. U. S. Dept. Agr., Div. Ent. Tech. Ser. 3: 101. ♀.

ebenus (Cresson), Colo.

Aulacomerus ebeneus Cresson, 1880. Amer. Ent. Soc., Trans. 8: 10. ♀.

gamus Smith, n. name. Nev.

Pachynematus graminis Marlatt, 1896. U. S. Dept. Agr., Div. Ent. Tech. Ser. 3: 101. ♀.

Preocc. in *Pachynematus* by Cameron, 1874.

hoodi Marlatt, Oreg. (Mt. Hood).

Pachynematus hoodi Marlatt, 1896. U. S. Dept. Agr., Div. Ent. Tech. Ser. 3: 104. ♀.

luteipes (Cresson), n. comb. Nev.

Nematus luteipes Cresson, 1880. Amer. Ent. Soc., Trans. 8: 6. ♀.

pleuricus (Norton), Colo.

Nematus pleuricus Norton, 1867. Amer. Ent. Soc., Trans. 1: 208. ♀.

robinsonae (Rohwer), Colo.

Lygaeonematus robinsonae Rohwer, 1915. U. S. Natl. Mus., Proc. 49: 212. ♀.

stigmatus (Norton), Mass.

Tenthredo (Nematus) stigmatus Harris, 1835. In Hitchcock, Rpt. Geol. Mineral. Bot. Zool.

Mass., p. 583. Nom. nud.

Nematus stigmatus Norton, 1861. Boston Soc. Nat. Hist., Proc. 8: 161. ♀.

SPECIES GROUP VAGUS

aurantiacus Marlatt. Que. to N. Y. w. to Alta., Mont., Ill. Host: *Carex*.

Pachynematus aurantiacus Marlatt, 1896. U. S. Dept. Agr., Div. Ent. Tech. Ser. 3: 95. ♀.
 ♂.

Pachynematus punctulatus Marlatt, 1896. U. S. Dept. Agr., Div. Ent. Tech. Ser. 3: 103. ♀.

Pachynematus allegatus MacGillivray, 1923. Canad. Ent. 55: 162. ♀.

corniger (Norton). Newfoundland to Ga. w. to Minn., Kans. Host: *Carex*.

Nematus corniger Norton, 1861. Boston Soc. Nat. Hist., Proc. 8: 159. ♂.

Nematus subalbatus Norton, 1864. Ent. Soc. Phila., Proc. 3: 7. ♀.

Pachynematus repertus MacGillivray, 1921. N. Y. Ent. Soc., Jour. 29: 31. ♀.

Pachynematus remissus MacGillivray, 1921. N. Y. Ent. Soc., Jour. 29: 32. ♀. Synonymy of *remissus* may be questionable.

montivagus Marlatt. N. H.

Pachynematus montivagus Marlatt, 1896. U. S. Dept. Agr., Div. Ent. Tech. Ser. 3: 101. ♀.

obductus (Hartig). Mass. to B. C. s. to N. Y., Colo., Nev., Greenland; Iceland, Europe to Siberia. Ecology: Widespread. Host: Gramineae.

Nematus obductus Hartig, 1837. Fam. Blattwespen und Holzwespen, nebst Einleitung Naturgesch. Hym., p. 201. ♀. ♂.

Nematus conductus Ruthe, 1859. Stettin Ent. Ztg. 20: 306. ♀.

Nematus graminis Cameron, 1874. Ent. Monthly Mag. 10: 221. ♀.

Nematus palliventris Cresson, 1880. Amer. Ent. Soc., Trans. 8: 5. ♀.

Pachynematus boulderensis Rohwer, 1920. U. S. Natl. Mus., Proc. 57: 218. ♀.

rufocinctus MacGillivray, Conn.

Pachynematus rufocinctus MacGillivray, 1916. Conn. State Geol. and Nat. Hist. Survey Bul. 22: 117. ♀, ♂.

vagus (Fabricius). Ont. to Alta., Idaho s. to N. Y., Ill., Minn., Mont.; Europe to Siberia. Ecology: Widespread. Host: *Carex*, *Salix*.

Tenthredo vaga Fabricius, 1781. Species Insectorum, v. 1, p. 415.

Nematus leucogaster Hartig, 1840. Stettin Ent. Ztg. 1: 23.

Nematus inconspicuus Kirby, 1882. List Hym. Brit. Mus., v. 1, p. 141. ♀.

Pachynematus corticosus MacGillivray, 1901. N. Y. State Mus. Bul. 47: 584. ♀.

Pachynematus roscidus MacGillivray, 1901. N. Y. Ent. Soc., Jour. 29: 31. ♀.

UNPLACED TAXA OF GROUP VAGAS

abdominalis Marlatt. Wash.

Pachynematus abdominalis Marlatt, 1896. U. S. Dept. Agr., Div. Ent. Tech. Ser. 3: 104. ♀.

carolinensis Marlatt. N. C.

Pachynematus carolinensis Marlatt, 1896. U. S. Dept. Agr., Div. Ent. Tech. Ser. 3: 109. ♂.

koebelei Marlatt. Oreg.

Pachynematus koebelei Marlatt, 1896. U. S. Dept. Agr., Div. Ent. Tech. Ser. 3: 108. ♂.

robustiformis Rohwer. Colo.

Pachynematus robustiformis Rohwer, 1908. N. Y. Ent. Soc., Jour. 16: 108. ♀.

robustus Marlatt. Mont.

Pachynematus robustus Marlatt, 1896. U. S. Dept. Agr., Div. Ent. Tech. Ser. 3: 102. ♀.

SPECIES GROUP RUMICIS

freyi Lindqvist. N. W. T., Yukon; Europe to Siberia.

Pachynematus freyi Lindqvist, 1949. Notulae Ent. 28: 81. ♀.

rumicis (Linnaeus). Man., Alaska; Iceland; Europe to Siberia. Host: *Rumex*.

Tenthredo rumicis Linnaeus, 1758. Syst. Nat., Ed. 10, v. 1, p. 559.

Nematus flavipennis Cameron, 1876. Ent. Monthly Mag. 12: 189. ♀.

Genus PIKONEMA Ross

Pikonema Ross, 1937. Ill. Biol. Monog. 15(2): 86.

Type-species: *Nematus dimmockii* Cresson. Orig. desig.

Larvae of this Nearctic genus feed on species of *Picea*.

Revision: Ross, 1938. Ent. Soc. Wash., Proc. 40: 17-20 (adults and larvae).

Taxonomy: Wong, 1951. Ont. Ent. Soc., Ann. Rpt. 1951, p. 65 (cocoons).

alaskensis (Rohwer). Newfoundland to Alaska s. to Mass., Mich., Minn., Wyo., Idaho, B. C.

Ecology: Widespread. Host: *Picea canadensis*, *P. engelmannii*, *P. excelsa*, *P. glauca*, *P. mariana*, *P. rubens*, *P. pungens*, *P. sitchensis*, *P. abies*. Yellowheaded spruce sawfly.

Pachynematus alaskensis Rohwer, 1911. U. S. Natl. Mus., Proc. 41: 387. ♀, ♂.

Pachynematus piceae Rohwer, 1911. U. S. Natl. Mus., Proc. 41: 387. ♀, ♂.

Biology: Brown, 1938. Ont. Ent. Soc., Ann. Rpt. 1937, p. 14. —Nash, 1939. Jour. Econ. Ent. 32: 330-334. —Brown, 1941. Canad. Dept. Agr., Pub. 712, p. 6. —Schaffner, 1943. Jour.

Forestry 41: 585. —Reeks and Smith, 1945. Acad. Nat. 2: 11. —Bradley, 1951. Canad. Ent. 83: 130. (parasites). —Wilson, 1962. U. S. Dept. Agr., Forest Pest Leaflet 69, 4 pp.

dimmockii (Cresson). Newfoundland to N. W. T., B. C. s. to N. B., N. H., Man., Colo., Wyo., Idaho. Ecology: Widespread. Host: *Picea canadensis*, *P. engelmannii*, *P. glauca*, *P. mariana*, *P. rubens*, *P. sitchensis*, *P. abies*. Greenheaded spruce sawfly.

Nematus dimmockii Cresson, 1880. Amer. Ent. Soc., Trans. 8: 6. ♀.

Nematus ochreatus Harrington, 1889. Canad. Ent. 21: 95. ♀.

Biology: Brown, 1938. Ont. Ent. Soc., Ann. Rpt. 1937, p. 14. —Brown, 1941. Canad. Dept. Agr., Pub. 712, p. 6. —Reeks and Smith, 1945. Acad. Nat. 2: 11.

ruralis (Cresson). Oreg., Calif., Nev.

Nematus ruralis Cresson, 1880. Amer. Ent. Soc., Trans. 8: 5. ♀.

Genus EITELIUS Kontuniemi

Eitelius Kontuniemi, 1966. Ann. Ent. Fenn. 31: 46.

Type-species: *Pachynematus dentatus* Lindqvist. Orig. desig.

Prior to 1967, the species below was placed in the genus *Micronematus* Konow which is now a synonym of *Pristiphora*.

Taxonomy: Wong, 1967. Canad. Ent. 99: 1101-1104.

gregarius (Marlatt). N. S., Mass., Conn., N. J. Host: *Salix*.

Pachynematus gregarius Marlatt, 1896. Canad. Ent. 28: 256. ♀, ♂.

Pachynematus rarus MacGillivray, 1921. N. Y. Ent. Soc., Jour. 29: 30. ♀.

Pontania decrepita MacGillivray, 1921. N. Y. Ent. Soc., Jour. 29: 33. ♀.

Genus PRISTIPHORA Latreille

Pristiphora Latreille, 1810. Consid. Generales Crust. Arachn. Ins., p. 294.

Type-species: *Pteronus testaceus* Jurine. Orig. desig.

Diphadnus Hartig, 1837. Fam. Blattwespen und Holzwespen, nebst Einleitung Naturgesch. Hym., p. 225.

Type-species: *Nematus fuscicornis* Hartig. Desig. by Rohwer, 1911.

Lygaeonematus Konow, 1890. Deut. Ent. Ztschr., pp. 233, 238, 247.

Type-species: *Nematus pini* Retzius. Desig. by Rohwer, 1911.

Micronematus Konow, 1890. Deut. Ent. Ztschr., pp. 233, 239, 248.

Type-species: *Nematus pullus* Foerster. Desig. by Rohwer, 1911.

Gymnonychus Marlatt, 1896. U. S. Dept. Agr., Div. Ent. Tech. Ser. 3: 122.

Type-species: *Gymnonychus californicus* Marlatt. Orig. desig.

Neotomostethus MacGillivray, 1908. Canad. Ent. 40: 290.

Type-species: *Neotomostethus hyalinus* MacGillivray. Orig. desig.

Pristiphora subg. *Sale* Ross, 1937. Ill. Biol. Monog. 15(2): 85. Preocc. by Walker, 1867.

Type-species: *Nematus chloreas* Norton. Orig. desig.

Lygaeonematus subg. *Lygaeotus* Lindqvist, 1952. Notulae Ent. 32: 82. Invalid, type-species not designated.

Lygaeonematus subg. *Lygaeophora* Lindqvist, 1952. Notulae Ent. 32: 82. Invalid, type-species not designated.

A large, nearly cosmopolitan genus with diverse host plants. Two species from southern Brazil are the only known South American Nematinae. Several phyletic lines are evident in this genus which will eventually allow separation into more convenient species groupings.

Revision: Marlatt, 1896. U. S. Dept. Agr. Div. Ent. Tech. Ser. 3: 113-125.

Taxonomy: Benson, 1962. Brit. Mus. (Nat. Hist.) Ent., Bul. 12: 394-396 (holarctic species).

abbreviata (Hartig). Ont., Conn. to Va. w. to Wis., Kans., Colo., Utah; B. C., Wash., Oreg., Calif.; Europe. Ecology: A pest of pear trees. Larva feeds on foliage. Introduced. Host: *Pyrus communis*. California pearslug.

Nematus abbreviatus Hartig, 1837. Fam. Blattwespen und Holzwespen, nebst Einleitung Naturgesch. Hym., p. 205. ♀.

Gymnonychus californicus Marlatt, 1896. U. S. Dept. Agr., Div. Ent. Tech. Ser. 3: 122. ♀.

Taxonomy: Smith, 1967. Ent. Soc. Wash., Proc. 69: 92 (distribution). —Wong, 1967. Canad. Ent. 99: 1101 (compared with species of *Eitelius*).

Biology: Nougaret, Davidson, and Newcomer, 1916. U. S. Dept. Agr., Bul. 438, 24 pp.

Morphology: Zocchi, 1948. Bol. Ent. Bologna 17: 225-232 (external structure of adult and larva).

acidovalva Wong. N. B., Que. w. to B. C., Calif. Host: *Salix*.

Pristiphora acidovalva Wong, 1969. Canad. Ent. 101: 970. ♀, ♂.

Biology: Lindquist and Miller, 1969. Canad. Ent. 101: 973-975 (also description of larva).

aphanta Wong and Ross. Que., Ont., N. Y.

Pristiphora aphanta Wong and Ross, 1960. Canad. Ent. 92: 196. ♀.

aquilegiae (Vollenhoven). Ont.; Europe. Introduced. Host: *Aquilegia*.

Nematus aquilegiae Vollenhoven, 1866. Tidskr. v. Ent. 11: 202. ♀.

Biology: McNay, 1963. Canad. Ins. Pest Rev. 41: 103. — McNay, 1964. Phytoprotection 45: 91. *banksii* Marlatt. N. Y. to N. C.; Wyo. Host: *Vaccinium*.

Pristiphora banksii Marlatt, 1896. U. S. Dept. Agr. Div. Ent. Tech. Ser. 3: 117. ♀ (male misdet.).

bivittata (Norton). Prince Edward Is., N. B. w. to B. C. s. to N. C., Ill., Iowa, Oreg. Ecology: Widespread. Host: *Spiraea*.

Nematus bivittatus Norton, 1861. Boston Soc. Nat. Hist., Proc. 8: 158. ♀.

Nematus luteolus Norton, 1867. Amer. Ent. Soc., Trans. 1: 200. ♂.

Pachynematus occidentalis Marlatt, 1896. U. S. Dept. Agr., Div. Ent. Tech. Ser. 3: 109. ♂.

Pristiphora dyari Marlatt, 1896. U. S. Dept. Agr., Div. Ent. Tech. Ser. 3: 118. ♀. N. syn.

Pristiphora koebeliae Marlatt, 1896. U. S. Dept. Agr., Div. Ent. Tech. Ser. 3: 119. ♀.

Pristiphora occidentalis Marlatt, 1896. U. S. Dept. Agr., Div. Ent. Tech. Ser. 3: 121. ♂.

Preocc. by *occidentalis* Marlatt on p. 109 of same publication.

Periclista patchi MacGillivray, 1923. Ill. Univ. Bul. 20(50): 29. ♀.

Biology: Neilson, 1958. Canad. Ent. 90: 229-234.

borea (Konow). Labrador, Que. w. to Alaska, B. C.; Europe. Host: *Betula*, *Salix*.

Lygaeonematus boreus Konow, 1904. Ztschr. System. Hym. Dipt. 4: 253. ♀, ♂.

Nematus astutus Cameron, 1885. Monog. Brit. Phytophagous Hym., v. 2, p. 77. ♀.

Synonymy may be questionable.

Pachynematus lapponicus Enslin, 1916. Deut. Ent. Ztschr., Beih., p. 463. ♀, ♂.

Taxonomy: Benson, 1962. Brit. Mus. (Nat. Hist.) Ent., Bul. 12: 395.

breadalbanensis (Cameron). Que., N. W. T., Man., Colo., Alta., Yukon, Alaska, B. C.; Europe.

Nematus breadalbanensis Cameron, 1882. London Ent. Soc., Trans., p. 531.

Nematus Whitei Cameron, 1878. Fauna Scotland, v. 1, p. 35. ♂. Synonymy may be questionable.

Lygaeonematus tromsoensis Kiaer, 1898. Tromsøe Mus. Aarsh. 19: 48.

Lygaeonematus corpulentus Konow, 1904. Ztschr. System. Hym. Dipt. 4: 252. ♀, ♂.

Lygaeonematus arctica Enslin, 1916. Deut. Ent. Ztschr., Beih., p. 514. ♀, ♂.

cadma Wong and Ross. Ont., Sask., Alaska, B. C. Host: *Betula*.

Pristiphora cadma Wong and Ross, 1960. Canad. Ent. 92: 198. ♀.

carolinensis Marlatt. N. C.

Pristiphora carolinensis Marlatt, 1896. U. S. Dept. Agr., Div. Ent. Tech. Ser. 3: 120. ♂.
Possibly belongs in *Pachynematus*.

chlorea (Norton). N. B. to Fla. w. to Man., Oreg., Tex. Host: *Quercus*.

Nematus chloreas Norton, 1867. Amer. Ent. Soc., Trans. 1: 221. ♀.

Nematus pallifrons Cresson, 1880. Amer. Ent. Soc., Trans. 8: 6. ♂.

Nematus decoratus Provancher, 1888. Addit. Corr. Faune Ent. Canada Hym., p. 349. ♂.

Pteronus quercus Marlatt, 1896. U. S. Dept. Agr., Div. Ent. Tech. Ser. 3: 67. ♀. Preocc. in *Pristiphora* by Hartig, 1837.

Nematus pergandei Marlatt, 1896. U. S. Dept. Agr., Div. Ent. Tech. Ser. 3: 90. ♀.

Amauronematus vacalus MacGillivray, 1923. Ill. Univ. Bul. 20(50): 6. ♀. N. syn.

cincta Newman. Newfoundland w. to N. W. T., Alaska s. to Ala., Tenn., Mich., Minn., Colo., B. C.; Europe. Ecology: Widespread. Host: *Betula*, *Vaccinium*, *Salix*.

Pristiphora cincta Newman, 1837 (January). Ent. Mag. 4: 259.

Nematus quercus Hartig, 1837 (March). Fam. Blattwespen und Holzwespen, nebst Einleitung Naturgesch. Hym., p. 188.

Tenthredo borealis Zetterstedt, 1838. Ins. Lapponica 1: 353. ♀.

Nematus idiota Norton, 1867. Amer. Ent. Soc., Trans. 1: 177. ♂.

Nematus identidem Norton, 1867. Amer. Ent. Soc., Trans. 1: 177. ♀.

Pristiphora hoodii Marlatt, 1896. U. S. Dept. Agr. Div. Ent. Tech. Ser. 3: 119. ♀. Synonymy questionable.

Pristiphora coloradensis Marlatt, 1896. U. S. Dept. Agr. Div. Ent. Tech. Ser. 3: 121. ♂.

Synonymy questionable.

Pristiphora idiotiformis Rohwer, 1910. U. S. Natl. Mus., Proc. 38: 199. ♀.

Pristiphora cincta ab. *nigriventris* Hellen, 1943. Notulae Ent. 23: 71

- Biology: Neilson, 1958. Canad. Ent. 90: 229-234 (*idiota* on *Vaccinium*).
coactula (Ruthe). Labrador w. to N. W. T., Alaska; Colo.; Europe. Host: *Salix*, *Vaccinium*(?).
Nematus coactulus Ruthe, 1859. Stettin. Ent. Ztg. 20: 307. ♀.

- geniculata* (Hartig). Newfoundland, Ont. s. to W. Va.; Europe to Siberia. Introduced. Host: *Sorbus*. Mountain ash sawfly.
- Nematus geniculatus* Hartig, 1840. Stettin Ent. Ztg. 1: 26. ♀.
- Nematus cheilon* Zaddach, 1883. Phys. Okonom. Gesell. Konigsberg, Schr. 24: 145. ♀, ♂.
- Biology: Schaffner, 1936. Jour. Econ. Ent. 29: 469. —Forbes and Daviault, 1964. Canad. Ent. 96: 1117-1133. —Smirnoff, 1968. Jour. Invert. Path. 10: 436-437 (virus disease).
- gronblomi* (Lindqvist). Alaska; N. Europe.
- Lygaeotus gronblomi* Lindqvist, 1952. Notulae Ent. 32: 101. ♀, ♂.
- huckseana* Wong and Ross. B. C.
- Pristiphora hucksena* Wong and Ross, 1960. Canad. Ent. 92: 104. ♀.
- hyalina* (MacGillivray). N. Y.
- Neotomostethus hyalinus* MacGillivray, 1908. Canad. Ent. 40: 290. ♀.
- jocularis* Cresson. Oreg., Nev.
- Pristiphora jocularis* Cresson, 1880. Amer. Ent. Soc., Trans. 8: 3. ♀, ♂.
- labradoris* (Norton). Labrador, Ont., N. W. T., Man., Alta., Yukon.
- Nematus labradoris* Norton, 1867. Amer. Ent. Soc., Trans. 1: 196. ♀.
- lata* (Cresson). Oreg., Nev.
- Nematus latus* Cresson, 1880. Amer. Ent. Soc., Trans. 8: 4. ♀.
- lativentris* (Thomson). N. W. T., Man., Alaska; Europe.
- Nematus lativentris* Thomson, 1871. Hym. Scand., v. 1, p. 99. ♀, ♂.
- Nematus scoticus* Cameron, 1881. Ent. Soc. London, Proc., p. 365. ♀.
- Nematus extremus* Holmgren, 1883. Ent. Tidskr. 4: 148. ♀, ♂.
- Pristiphora buccoda* Kincaid, 1900. Wash. Acad. Sci., Proc. 2: 350. ♀.
- Lygaeonematus apicala* Konow, 1904. Ztschr. System. Hym. Dipt. 4: 254. ♀, ♂. Synonymy of *apicala* may be questionable.
- Taxonomy: Benson, 1962. Brit. Mus. (Nat. Hist.) Ent., Bul. 12: 395.
- leechi* Wong and Ross. Mont., Idaho, B. C., Wash. Host: *Larix occidentalis*.
- Pristiphora leechi* Wong and Ross, 1960. Canad. Ent. 92: 193. ♀, ♂.
- lena* Kincaid. Newfoundland to N. W. T., Alaska; Wyo., Colo. Host: *Picea*.
- Pristiphora lena* Kincaid, 1900. Wash. Acad. Sci., Proc. 2: 351. ♂.
- maura* Rohwer. Que., N. W. T., Yukon, Alaska, Man., Alta., Colo.
- Pristiphora maura* Rohwer, 1908. N. Y. Ent. Soc., Jour. 16: 109. ♂.
- melanocarpa* (Hartig). Que., N. W. T., Yukon, Alaska, Man.; Europe. Host: *Betula*.
- Nematus melanocarpus* Hartig, 1840. Stettin Ent. Ztg. 1: 27. ♀.
- Nematus wustneii* Stein, 1885. Wien. Ent. Ztg. 4: 304. ♀, ♂.
- Pristiphora ortingia* Kincaid, 1900. Wash. Acad. Sci., Proc. 2: 349. ♀. N. syn.
- micronematica* Malaise. N. W. T., Man.; Europe to Siberia. Host: *Salix*.
- Pristiphora micronematica* Malaise, 1932. Arkiv for Zool. 23A: 58. ♀.
- Lygaeonematus (Lygaeophora) leucostoma* Lindqvist 1952. Notulae Ent. 32: 108. ♀, ♂.

Taxonomy: Benson, 1962. Brit. Mus. (Nat. Hist.) Ent., Bul. 12: 394. — Lindqvist, 1971.
Notulae Ent. 51: 128-129.

mollis (Hartig). Labrador to N. W. T., Alaska s. to N. C., Colo.; Europe. Host: *Vaccinium*.
Nematus mollis Hartig, 1837. Fam. Blattwespen und Holzwespen, nebst Einleitung
Naturgesch. Hym., p. 201.

Pachynematus orarius Kincaid, 1900. Wash. Acad. Sci., Proc. 2: 348. ♀.

Pachynematus penegalensis Enslin, 1911. Deut. Ent. Ztschr. 2: 176. ♀.

Lygaeonematus mollis var. *alibipes* Lindqvist, 1942. Notulae Ent. 22: 107.

Lygaeonematus mollis var. *rufonotata* Lindqvist, 1942. Notulae Ent. 22: 107.

Pachynematus kontkanenii Lindqvist, 1960. Notulae Ent. 40: 35. ♀.

nigra Marlatt. Wash.

Pristiphora nigra Marlatt, 1896. U. S. Dept. Agr., Div. Ent. Tech. Ser. 3: 114. ♀.

paedida (Konow). Alaska; Europe to Siberia.

Lygaeonematus paedidus Konow, 1904. Ztschr. System. Hym. Dipt. 4: 253.

Pristiphora kamtchatica Malaise, 1932. Arkiv for Zool. 23A: 56. ♀, ♂.

pallidiventris (Fallen). Labrador to Alaska s. to Md., Mich., Iowa, Calif.; Europe to Japan.
Ecology: Widespread. Host: *Rubus*, *Geum*, *Potentilla*, and other Rosaceae. These hosts
were recorded in Europe.

Nematus pallidiventris Fallen, 1808. Svenska Vetensk. Akad., Handl. 29: 120. ♀.

Pristiphora myosotidis Stephens, 1835. Illus. Brit. Ent., v. 7, p. 25.

Nematus ephippiger Hartig, 1840. Stettin Ent. Ztg. 1: 24. ♀.

Nematus flavicornis Tischbein, 1846. Stettin Ent. Ztg. 7: 77. ♀.

Nematus nigricans Eversmann, 1847. Soc. Nat. Moscou, Bul. 20: 16. ♀.

Nematus caudalis Eversmann, 1847. Soc. Nat. Moscou, Bul. 20: 16. ♂.

Nematus breviusculus Eversmann, 1847. Soc. Nat. Moscou, Bul. 20: 17. ♀.

Nematus gemellus Foerster, 1854. Naturh. Ver. Rheinlande, Verh. 11: 425. ♀.

Nematus cirrhostomus Zaddach, 1882. Phys. Okonom. Gesell. Konigsberg., Schr. 23: 195. ♀.

Pristiphora zella Rohwer, 1909. Canad. Ent. 41: 20. ♀. N. syn.

Pristiphora pallicoza Rohwer, 1910. U. S. Natl. Mus., Proc. 38: 200. ♀. N. syn.

Pristophora(?) xanthotrichela Rohwer, 1913. U. S. Natl. Mus., Proc. 45: 281. ♀. N. syn.

Pristiphora pallidiventris var. *haemorrhoidalis* Enslin, 1916. Deut. Ent. Ztschr., Beih., p. 526. ♀, ♂.

Pristiphora pallidiventris var. *stigmatica* Enslin, 1916. Deut. Ent. Ztschr., Beih., p. 526. ♀.

Pristiphora ostiaria MacGillivray, 1920. Canad. Ent. 52: 236. ♀, ♂. N. syn.

Nematus (*Pristiphora*) *pallidiventris* var. *flaviapex* Hellen, 1948. Notulae Ent. 28: 45.

Nematus (*Pristiphora*) *pallidiventris* var. *nigrofemoratus* Hellen, 1948. Notulae Ent. 28: 45.

paloma Wong and Ross. N. Y. to Fla. w. to Ill.

Pristiphora paloma Wong and Ross, 1960. Canad. Ent. 92: 196. ♀.

parbeta Wong and Ross. Man., Alaska. Host: *Betula papyrifera*.

Pristiphora parbeta Wong and Ross, 1960. Canad. Ent. 92: 198. ♂.

pseudocoactula (Lindqvist). Man. (Churchill); Europe.

Lygaeonematus (*Lygaeonematus*) *pseudocoactula* Lindqvist, 1952. Notulae Ent. 32: 115. ♀, ♂.

relativa Norton. N. W. T.

Pristiphora relativa Norton, 1867. Amer. Ent. Soc., Trans. 1: 177. ♀.

reuteri (Lindqvist). Maine, N. H., Man.; Europe. Host: *Salix*.

Lygaeonematus (*Lygaeophora*) *reuteri* Lindqvist, 1960. Notulae Ent. 40: 33. ♀, ♂.

Taxonomy: Benson, 1962. Brit. Mus. (Nat. Hist.) Ent., Bul. 12: 395. — Vikberg, 1966. Ann. Ent. Fenn. 32: 252-253 (larva).

rufipes Lepeletier. Newfoundland to B. C. s. to N. C., Tenn. Mo., Utah, Calif.; Europe to Siberia. Ecology: Widespread. Host: *Ribes*.

Pristiphora pallipes Lepeletier, 1823. Monog. Tenthred., p. 60. ♀. Preocc. in *Pristiphora* by Fallen, 1808.

Pristiphora rufipes Lepeletier, 1823. Monog. Tenthred., p. 60. ♀.

Pristiphora fusca Lepeletier, 1823. Monog. Tenthred., p. 60. ♂.

- Tenthredo (Nematus) pallicornis* Harris, 1835. In Hitchcock, Rpt. Geol. Mineral. Bot. Zool. Mass., p. 583. Nom. nud.
- Tenthredo (Nematus) labrata* Harris, 1835. In Hitchcock, Rpt. Geol. Mineral. Bot. Zool. Mass., p. 583. Nom. nud.
- Nematus appendiculatus* Hartig, 1837. Fam. Blattwespen und Holzwespen, nebst Einleitung Naturgesch. Hym., p. 202. ♀.
- Nematus (Diphadnus) fuscicornis* Hartig, 1837. Fam. Blattwespen und Holzwespen, nebst Einleitung Naturgesch. Hym., p. 225. ♀.
- Nematus catharticus* Foerster, 1854. Naturh. Ver. Rheinlande, Verh. 11: 325. ♀.
- Nematus pallicornis* Norton, 1861. Boston Soc. Nat. Hist., Proc. 8: 160. ♀.
- Nematus pallicornis* var. *labratus* Norton, 1861. Boston Soc. Nat. Hist., Proc. 8: 160. ♀.
- Nematus vitreipennis* Kawall, 1864. Soc. Nat. Moscou, Bul. 37: 295. ♀.
- Pristiphora grossulariae* Walsh, 1866. Pract. Ent. 1: 123. ♀, ♂. larva.
- Nematus peletieri* Andre, 1880. Spec. Hym. Eur. Alg. 1: 5. ♀.
- Nematus pumilus* Zaddach, 1883. Phys. Okonom. Gesell. Konigsberg., Schr. 24: 172. ♂.
- Nematus hypobalius* Zaddach, 1884. Phys. Okonom. Gesell. Konigsberg., Schr. 25: 154. ♀.
- Nematus ghillianii* Costa, 1894. Prosp. Imen. Ital. 3: 73.
- Biology: Miles, 1932. Bul. Ent. Res. 23: 10-15.
- serrula* Wong and Ross. Maine, N. H., B. C., Wash., Oreg., Calif.
Pristiphora serrula Wong and Ross, 1960. Canad. Ent. 92: 196. ♀.
- siskiyouensis* Marlatt. N. S. to N. W. T., Yukon, Alaska s. to Va., Wis., Calif. Ecology: Widespread. Host: *Betula*, *Alnus*
Pristiphora siskiyouensis Marlatt, 1896 U. S. Dept. Agr. Div. Ent. Tech. Ser. 3: 116. ♀, ♂.
- Pristiphora betulavora Rohwer, 1920. U. S. Natl. Mus., Proc. 57: 219. ♀, ♂.
- Taxonomy: Middleton, 1922. U. S. Natl. Mus., Proc. 61: 24 (larva).
- Biology: Wong, 1954. Canad. Ent. 86: 154.
- staudingeri* (Ruthe). Labrador to Alaska s. to Man., Colo., Alta.; Europe to Siberia. Host: *Salix*.
Nematus staudingeri Ruthe, 1859. Stettin Ent. Ztg. 20: 306. ♀, ♂.
- Nematus circularis* Kincaid, 1900. Wash. Acad. Sci., Proc. 2: 350. ♀. N. syn.
- Pristiphora hyperborea Malaise, 1921. Ent. Tidskr. 42: 11. ♀, ♂.
- Pristiphora asperatus Benson, 1935. Roy. Ent. Soc. London, Trans. 83: 36. ♀, ♂.
- sycophanta* Walsh. Labrador to Alaska s. to Conn., Va., Mo., Colo., Oreg. Ecology: Widespread. Host: *Salix*.
Pristiphora sycophanta Walsh, 1866. Ent. Soc. Phila., Proc. 6: 263. ♀.
- Pristiphora tibialis Norton, 1867. Amer. Ent. Soc., Trans. 1: 76. ♀.
- Nematus trivialis* Kirby, 1882. List Hym. Brit. Mus., v. 1, p. 140. Unnecessary n. name for *tibialis* Norton.
- Pristiphora murtfeldtiae Marlatt, 1896. U. S. Dept. Agr., Div. Ent. Tech. Ser. 3: 117. ♀.
- Pristiphora anakia Kincaid, 1900. Wash. Acad. Sci., Proc. 2: 350. ♀. N. syn.
- valvangula* Wong and Ross. N. Y. (?)
Pristiphora valvangula Wong and Ross, 1960. Canad. Ent. 92: 194. ♂.
- venatta* Wong and Ross. Idaho.
Pristiphora venatta Wong and Ross, 1960. Canad. Ent. 92: 196. ♀.

Genus CROESUS Leach

- Croesus* Leach, 1817. Zool. Misc., v. 3, p. 129.
Type-species: *Tenthredo septentrionalis* Linnaeus. Monotypic.
- A small holarctic genus characterized by the enlarged, flattened hind basitarsus. Larvae feed externally on the foliage of the host plant.
- Revision: Benson, 1963. Ent. Tidskr. 84: 25 (world species groups). —Smith, 1972. Ent. Soc. Wash., Proc. 74: 169-180 (Nearctic species, adults and larvae).
- castaneae* Rohwer. N. Y., Pa., Md., Va., Ky. Host: *Castanea dentata*.
Croesus castaneae Rohwer, 1915. U. S. Natl. Mus., Proc. 49: 213. ♀, ♂.

Taxonomy: Middleton, 1922. U. S. Natl. Mus., Proc. 61: 14 (larva).

curvarius Smith. Conn. Host: *Corylus*.

Croesus curvarius Smith, 1922. Ent. Soc. Wash., Proc. 74: 175. ♀, larva.

latitarsus Norton. Que. to Fla. w. to Alaska, B. C., Utah. Host: *Betula*. Dusky birch sawfly. *Craesus(?) latitarsus* Norton, 1862. Ent. Soc. Phila., Proc. 1: 199. ♀.

Biology: Jack, 1888. Psyche 5: 41. — Brown, 1940. Canad. Dept. Agr., Forest Ins. Survey 4th Ann. Rpt., p. 16. — Wong, 1954. Canad. Ent. 86: 154.

varus (Villaret). Que. (Montreal); Europe. Introduced (?). Host: *Alnus*.

Nematus varus Villaret, 1832. Soc. Ent. France, Ann. 1: 306. ♂.

Taxonomy: Buckle, 1930. Canad. Ent. 62: 21 (record of only known specimen taken in N. Amer.).

Genus NEMATUS Panzer

Nematus Panzer, 1801. Faune Ins. German., heft 82, pl. 10.

Type-species: *Tenthredo (Nematus) lucida* Panzer. Monotypic.

Hypolaepus Kirby, 1882. List Hym. Brit. Mus., v. 1, p. 324.

Type-species: *Hypolaepus abbotti* Kirby. Monotypic.

Holcocneme Konow, 1890. Deut. Ent. Ztschr., pp. 233, 238, 246.

Type-species: *Tenthredo crassa* Fallen. Desig. by Rohwer, 1911.

Pteronidea Rohwer, 1911. U. S. Dept. Agr. Bur. Ent. Tech. Ser. 20: 98.

Type-species: *Nematus ventralis* Say. Orig. desig.

A large holarctic genus associated with various trees and shrubs. The larvae are external leaf feeders.

Revision: Marlatt, 1896. U. S. Dept. Agr., Div. Ent. Tech. Ser. 3: 44-75, 87-90.

Taxonomy: Benson, 1962. Brit. Mus. (Nat. Hist.) Ent., Bul. 12: 404-405 (holarctic species).

SPECIES GROUP ABBOTTI

abbottii (Kirby). Ont. to Ga. w. to Wis., Ill. Host: *Robinia*.

Hypolaepus abbotti Kirby, 1882. List Hym. Brit. Mus., v. 1, p. 324. ♀.

crassus (Fallen). N. W. T. (Mackenzie River, Reindeer Depot); Eurasia. Host: *Betula*, *Populus*, *Salix*, *Rumex*. These hosts recorded in Europe.

Tenthredo crassa Fallen, 1808. Svenska Vetensk. Akad., Handl. 29: 106.

Nematus sulcipes Hartig, 1840. Stettin Ent. Ztg. 1: 23. ♀, ♂.

Nematus longispinus Kriechbaumer, 1885. Correspbl. Naturh. Ver. Regensburg 39: 13.

laticulus (Norton). N. Y. to N. C. w. to Wis., S. Dak., Ill.

Croesus laticulus Norton, 1869. Amer. Ent. Soc., Trans. 2: 368. ♀.

Nematus procidentius Rohwer, 1912. U. S. Natl. Mus., Proc. 43: 245. ♂.

Amauronematus rufipes Marlatt, 1896. U. S. Dept. Agr., Div. Ent. Tech. Ser. 3: 78. ♂.

SPECIES GROUP VENTRALIS

chalceus (Marlatt). Mont., Alaska, B. C., Wash. Host: *Salix*(?), *Alnus*(?).

Amauronematus chalceus Marlatt, 1896. U. S. Dept. Agr., Div. Ent. Tech. Ser. 3: 84. ♀.

erratus (MacGillivray). Maine, Man., Alaska. Host: *Populus*.

Pteronidea erratus MacGillivray, 1923. N. Y. Ent. Soc., Jour. 31: 170. ♀.

exactus (MacGillivray). Maine.

Pteronidea exactus MacGillivray, 1920. Canad. Ent. 52: 235. ♂.

Amauronematus vanus MacGillivray, 1921. N. Y. Ent. Soc., Jour. 29: 27. ♀.

Amauronematus venaticus MacGillivray, 1921. N. Y. Ent. Soc., Jour. 29: 29. ♂.

fulvircus Provancher. Que. to N. Y. w. to Alta., Colo. Host: *Salix*, *Populus*(?).

Nematus fulvircus Provancher, 1882. Nat. Canad. 13: 291. ♀.

Messa salicis Ashmead, 1890. Colo. Biol. Assoc., Bul. 1: 15. Preocc. in *Nematus* by Linnaeus, 1758.

Nematus salicicola Dalla Torre, 1894. Cat. Hym., v. 1, p. 257. N. name for *salicis* Ashmead.

Pteronidea evanida MacGillivray, 1920. Canad. Ent. 52: 233. ♀, ♂.

hudsonii magnus Dyar. Maine to N. J. w. to Alaska, Man., Ill., Tex. Host: *Populus*.

Nematus Hudsonii magnus Dyar, 1895. Amer. Ent. Soc., Trans. 23: 306. ♀, larva. This name is available under Article 26(A) of the Internat'l. Code Zool. Nomencl.

Pteronus populi Marlatt, 1896. U. S. Dept. Agr., Div. Ent. Tech. Ser. 3: 59. ♀.

Pteronus hudsonii Marlatt, 1896. U. S. Dept. Agr., Div. Ent. Tech. Ser. 3: 59. ♀. Emend.

Pteronus lombardae Marlatt, 1896. U. S. Dept. Agr., Div. Ent. Tech. Ser. 3: 73. ♂.

Pteronidea edure MacGillivray, 1920. Canad. Ent. 52: 233. ♀.

Pteronidea effusa MacGillivray, 1920. Canad. Ent. 52: 233. ♀.

Pteronidea effeta MacGillivray, 1920. Canad. Ent. 52: 234. ♀.

Pteronidea emerita MacGillivray, 1920. Canad. Ent. 52: 234. ♀.

Pteronidea erudita MacGillivray, 1920. Canad. Ent. 52: 234. ♀.

iridescentis Cresson. Mont., Wyo., Utah w. to B. C., Wash., Oreg., Calif.; Mexico. Host: *Salix*.

Nematus iridescentis Cresson, 1880. Amer. Ent. Soc., Trans. 8: 5. ♂.

Pteronus occidentalis Marlatt, 1896. U. S. Dept. Agr., Div. Ent. Tech. Ser. 3: 48. ♀. N. syn.

limbatus Cresson. N. B., Que. to Pa. w. to Sask., Ohio. Host: *Salix, Populus*.

Nematus limbatus Cresson, 1880. Amer. Ent. Soc., Trans. 8: 8. ♀.

Pteronus harringtoni Marlatt, 1896. U. S. Dept. Agr., Div. Ent. Tech. Ser. 3: 53. ♀, ♂.

Pteronus fylesi Marlatt, 1896. U. S. Dept. Agr., Div. Ent. Tech. Ser. 3: 54. ♀, ♂.

ventralis Say. Que. to N. C. w. to Alta., Mont., Colo. Host: *Salix*. Willow sawfly.

Nematus ventralis Say, 1824. In Keating, Narr. Long's 2nd Exped., v. 2 (App.), p. 315. ♀.

Nematus surutus Fitch, 1856. N. Y. Agr. Soc., Trans. 3: 315. ♀.

Pteronus latus Marlatt, 1896. U. S. Dept. Agr., Div. Ent. Tech. Ser. 3: 48. ♀. Preocc. by *Nematus latus* Cresson, 1880.

Hypolaepus viereckii Bradley, 1903. Canad. Ent. 35: 47. ♀.

Pteronidea edita MacGillivray, 1920. Canad. Ent. 52: 235. ♂.

Biology: Howard, 1888. U. S. Dept. Agr., Insect Life 1: 33-37. — Rohwer, 1915. Ent. Soc. Wash., Proc. 17: 197 (mating habits).

Morphology: Judd, 1955. Ont. Ent. Soc., 85th Ann. Rpt. 1954, p. 32 (anatomy and histology of digestive tract of larva).

SPECIES GROUP ATRICEPS

atriceps (Marlatt). Wis., Colo., Utah w. to B. C., Wash., Oreg., Calif.

Pteronus atriceps Marlatt, 1896. U. S. Dept. Agr., Div. Ent. Tech. Ser. 3: 52. ♀.

Pteronus californicus Marlatt, 1896. U. S. Dept. Agr., Div. Ent. Tech. Ser. 3: 60. ♀. N. syn.

auratus (Marlatt). Wash., Oreg., Calif.

Pteronus auratus Marlatt, 1896. U. S. Dept. Agr., Div. Ent. Tech. Ser. 3: 60. ♀.

Amauronematus coquilletti Marlatt, 1896. U. S. Dept. Agr., Div. Ent. Tech. Ser. 3: 84. ♀. N. syn.

coloradensis (Marlatt). Alta., Mich., N. Dak., Ariz. w. to Oreg., Calif.

Pteronus coloradensis Marlatt, 1896. U. S. Dept. Agr., Div. Ent. Tech. Ser. 3: 52. ♀, ♂.

SPECIES GROUP ERYTHROGASTER

carpini (Marlatt). Conn., N. Y., N. J., Fla. Host: *Carpinus*.

Pteronus carpini Marlatt, 1898. Canad. Ent. 30: 303. ♀.

corylus Cresson. Mass. to Md. w. to Mich., Ill. Host: *Corylus*.

Nematus corylus Cresson, 1880. Amer. Ent. Soc., Trans. 8: 8. ♀.

Pteronus coryli Konow, 1905. In Wytsman, Gen. Ins., v. 29, p. 55. Emend.

erythrogaster Norton. Que. to Fla. w. to Minn., Ill. Host: *Alnus*.

Nematus erythrogaster Norton, 1865. Ent. Soc. Phila., Proc. 4: 8. ♀.

Pteronus dyari Marlatt, 1896. U. S. Dept. Agr., Div. Ent. Tech. Ser. 3: 58. ♀, ♂.

Pteronidea pulchella Rohwer, 1913. U. S. Natl. Mus., Proc. 45: 279. ♀.

Pteronidea alnivora Rohwer, 1920. U. S. Natl. Mus., Proc. 57: 213. ♀, ♂.

Taxonomy: Middleton, 1922. U. S. Natl. Mus., Proc. 61: 22 (larva).

latifasciatus Cresson. N. B. to Pa. w. to Ont., Mich. Host: *Betula*.

Nematus latifasciatus Cresson, 1880. Amer. Ent. Soc., Trans. 8: 7. ♀.

Nematus rufocinctus Harrington, 1893. Canad. Ent. 25: 58. ♀. N. syn.

SPECIES GROUP MAGNUS

magnus (Marlatt). Que., Maine. Host: *Salix*.

Pteronus magnus Marlatt, 1896. U. S. Dept. Agr., Div. Ent. Tech. Ser. 3: 67. ♀.

SPECIES GROUP OLIGOSPILOS

attus Smith, n. name. Que., Maine to N. Y. and Mich. Host: *Populus*.

Amauronematus dyari Marlatt, 1896 (October). Canad. Ent. 28: 255. ♀, ♂. Preocc. by

Pteronus dyari Marlatt, 1896 (February), U. S. Dept. Agr., Div. Ent. Tech. Ser. 3: 58.

costillensis (Rohwer). Colo.

Pteronus costillensis Rohwer, 1908. N. Y. Ent. Soc., Jour. 16: 106. ♀.

effrenatus (MacGillivray). Alaska.

Pteronidea effrenatus MacGillivray, 1923. N. Y. Ent. Soc., Jour. 31: 171. ♀.

excavatus (Marlatt), n. comb. No. Amer., locality unknown.

Amauronematus excavatus Marlatt, 1896. U. S. Dept. Agr., Div. Ent. Tech. Ser. 3: 85. ♀.

excessus (MacGillivray). Alaska.

Pteronidea excessus MacGillivray, 1923. N. Y. Ent. Soc., Jour. 31: 170. ♀.

currani Ross. B. C. Oreg. Host: *Populus*.

Pteronidea nigriventris Curran, 1926. Canad. Ent. 58: 233. ♀, ♂. Preocc. in *Nematus* by Holmgren, 1883.

Pteronus rivularis Kincaid, 1900. Wash. Acad. Sci., Proc. 2: 358. ♂.

Genus PONTANIA Costa

Pontania Costa, 1859. Fauna del Regno di Napoli, Imen., pt. 3, p. 20.

Type-species: *Nematus gallicola* Stephens. Desig. by Marlatt, 1896.

Larvae of this large, holarctic genus form closed, pea-shaped or bean-shaped galls on the leaves of *Salix* or *Populus*. This genus is in need of revision, and the following is primarily a list of the described species and their type localities except for the work by Benson (1960). Though Benson (1960) established species groups, many of the North American forms have not been studied adequately to permit such an arrangement.

Revision: Marlatt, 1896. U. S. Dept. Agr., Div. Ent. Tech. Ser. 3: 20-43.

Taxonomy: Benson, 1960. Brit. Mus. (Nat. Hist.) Ent., Bul. 8: 369-384. — Benson, 1962. Brit. Mus. (Nat. Hist.) Ent., Bul. 12: 403-404 (holarctic species).

Biology: Smith, 1970. Ent. Soc. Amer., Ann. 63: 36-51.

Morphology: Smith, 1968. Ent. Soc. Amer., Ann. 61: 1389-1407.

agilis (Cresson). Nev.

Nematus agilis Cresson, 1880. Amer. Ent. Soc., Trans. 8: 9. ♂.

arctica (MacGillivray). N. W. T., Yukon, Alaska, Man. Ecology: Forms leaf galls. Host: *Salix reticulata*.

Genus PHYLLOCOLPA Benson

Phyllocolpa Benson, 1960. Ent. Monthly Mag. 96: 60.

Type-species: *Nematus leucapsis* Tischbein. Orig. desig.

Larvae of this holarctic genus live in rolled leaves or rolled leaf edges of *Salix* or *Populus*. This genus is in need of study. The following is mostly a list of described species with their type localities without regard to possible synonymy. Benson (1960) established two species groups.

Revision: Marlatt, 1896. U. S. Dept. Agr., Div. Ent. Tech. Ser. 3: 24-30 (*Pontania*, Group I).

—Ross, 1929. Ent. Soc. Wash., Proc. 31: 91-97 (Marlatt's Group I of *Pontania*).

Taxonomy: Benson, 1960. Brit. Mus. (Nat. Hist.) Ent., Bul. 8: 380-381 (section A of *Pontania*). —Benson, 1962. Brit. Mus. (Nat. Hist.) Ent., Bul. 12: 403 (holarctic species).

Biology: Smith, 1970. Ent. Soc. Amer., Ann. 63: 36-51.

Morphology: Smith, 1968. Ent. Soc. Amer., Ann. 61: 1389-1407.

acuminata (Marlatt). Mich.

Pontania acuminata Marlatt, 1896. U. S. Dept. Agr., Div. Ent. Tech. Ser. 3: 32. ♀.

acutiserra (Lindqvist). Man. (Churchill); Lapland, Scotland. Host: *Salix*.

Pontania acutiserra Lindqvist, 1949. Notulae Ent. 28: 66. ♀, ♂.

Biology: Vikberg, 1970. Ann. Ent. Fenn. 36: 11 (in Finland).

agama (Rohwer). Calif.

Pontania agama Rohwer, 1912. U. S. Natl. Mus., Proc. 43: 242. ♀.

Pontania foveata Rohwer, 1912. U. S. Natl. Mus., Proc. 43: 243. ♀.

bozemani (Cooley). Sask., Alta., Mont. Host: *Populus*. Poplar leaffolding sawfly.

Pontania bozemani Cooley, 1903. Canad. Ent. 35: 197. ♀, ♂.

Biology: Cooley, 1903. Mont. Agr. Expt. Sta. Bul. 46: 113-118.

coriacea (Benson). Alta. (Lake Louise); Scandinavia, Switzerland. Host: *Salix*.

Nematus (*Pontania*) *coriacea* Benson, 1953. Ent. Monthly Mag. 89: 150. ♀, ♂.

Biology: Vikberg, 1970. Ann. Ent. Fenn. 36: 12 (in Finland).

cressoni (Marlatt). Wash.

Pontania cressoni Marlatt, 1896. U. S. Dept. Agr., Div. Ent. Tech. Ser. 3: 26. ♀.

excavata (Marlatt). Colo., Alaska, Calif.; Europe to Siberia. Ecology: Larva lives in rolled leaf edge. Host: *Salix petandra*.

Pontania excavata Marlatt, 1896. U. S. Dept. Agr., Div. Ent. Tech. Ser. 3: 30. ♀, ♂.

Pontania megacephala Rohwer, 1908. Canad. Ent. 40: 47. ♂.

Pontania tundra Kincaid, 1900. Wash. Acad. Sci., Proc. 2: 352. ♀, ♂.
- utensis** (Rohwer), n. comb. Colo.
Pontania utensis Rohwer, 1908. N. Y. Ent. Soc., Jour. 16: 107. ♀.

Genus EUURA Newman

Two subgenera have been proposed, *Euura* for those species whose larvae form stem, twig, or petiole galls on *Salix*, and *Gemmura* for those species whose larvae form bud galls on *Salix*. This genus is in need of study. The following is primarily a list of described species with their type localities without regard to possible synonymy. According to Smith (1968) conventional use of morphological characters for species separation is impossible in this group and identification may have to be based on specific host data and biological information; therefore, the exact identity of many of the described species may never be known.

Revision: Rohwer, 1909. N. Y. Ent. Soc., Jour. 17: 7-25.

Taxonomy: Benson, 1962. Brit. Mus. (Nat. Hist.) Ent., Bul. 12: 402-403 (holarctic species).

—Smith, 1968. Ent. Soc. Amer., Ann. 61: 1389-1407 (Calif. species).

Biology: Smith, 1968. Ent. Soc. Amer., Ann. 61: 1389-1407. —Smith, 1970. Ent. Soc. Amer., Ann. 63: 36-51.

Morphology: Smith, 1968. Ent. Soc. Amer., Ann. 61: 1389-1407. —Smith, 1972. Int. Jour. Ins. Morph. and Embryol. v. 1, 1: 321-365 (external genitalia of *Euura*).

Genus EUURA Subgenus EUURA Newman

Euura Newman, 1837 (January). Ent. Mag. 4: 259.

Type-species: *Euura gallae* Newman. Desig. by Rohwer, 1911.

Nematus subg. *Cryptocampus* Hartig, 1837 (March). Fam. Blattwespen und Holzwespen, nebst Einleitung Naturgesch. Hym., p. 221.

Type-species: *Nematus (Cryptocampus) medullaris* Hartig. Desig. by Rohwer, 1911.

albiricta Cresson. Nev.

Euura albiricta Cresson, 1880. Amer. Ent. Soc., Trans. 8: 4. ♀.

atra (Jurine). N. B., Que., Ont., Alta.; Europe. Ecology: Attacks many of the narrow-leaved willows. Host: *Salix repens*, *S. viminalis*, *S. fragilis*, *S. purpurea*, *S. babylonica*, *S. alba* var. *vitellina*.

Pteronus ater Jurine, 1807. Nouv. Meth. Class. Hym., p. 6, fig. 6b. ♀.

Cryptocampus angustus Hartig, 1837. Fam. Blattwespen und Holzwespen, nebst Einleitung Naturgesch. Hym., p. 222.

Euura nigra Provancher, 1888. Addit. Corr. Faune Ent. Canada Hym., p. 346. ♀. Preocc. by Norton, 1867.

Biology: MacCall and Titus, 1972. Canada Dept. Environment, Forestry Service, Bi-Monthly Research Notes 28: 8.

bakeri (Rohwer). Calif. Ecology: Produces a stem gall. Host: *Salix*.

Cryptocampus bakeri Rohwer, 1910. Canad. Ent. 42: 51. ♀, ♂.

bebbiana (Rohwer). Colo. Ecology: Produces a stem gall. Host: *Salix* ? *bebbiana*.

Cryptocampus bebbiana Rohwer, 1909. N. Y. Ent. Soc., Jour. 17: 18. ♀, ♂.

breweriae Smith. (inner Coast Ranges, Yolo Co., Napa Co.). Ecology: Produces a stem gall. Host: *Salix breweri*.

Euura (Euura) breweriae Smith, 1968. Ent. Soc. Amer., Ann. 61: 1405. ♀, ♂, gall.

cooperae Cockerell. N. Mex. Ecology: Produces a stem gall on narrow-leaved willow. Host: *Salix*.

Euura (Euura) cooperae Cockerell, 1901. Ann. and Mag. Nat. Hist. (ser. 7) 7: 337. ♀.

cosensis Rohwer. Ont. Ecology: Produces a petiole gall. Host: *Salix humilis*.

Euura cosensis Rohwer, 1915. U. S. Natl. Mus., Proc. 49: 213. ♀, ♂.

exiguiae Smith. Calif. (north of Transverse Ranges up to 750m.). Ecology: Produces a stem gall. Host: *Salix exiguae*.

Euura (Euura) exiguae Smith, 1968. Ent. Soc. Amer., Ann. 61: 1402. ♀, ♂, gall.

geyeriana Smith. Oreg. (Klamath Co.), and probably s. in Calif. Sierras. Ecology: Produces a stem gall. Host: *Salix geyeriana*.

Euura (Euura) geyeriana Smith, 1968. Ent. Soc. Amer., Ann. 61: 1405. ♀, ♂, gall.

lasiolepis Smith. Calif. (Monterey Co. to Mendocino Co. west to Sierra Nevada). Ecology: Makes a stem gall. Host: *Salix lasiolepis*.

Euura (Euura) lasiolepis Smith, 1968. Ent. Soc. Amer., Ann. 61: 1406. ♀, ♂, gall.

lemoniae Smith. Calif. (Sierra Nevada and adjacent ranges from Mt. Lassen and s.). Ecology: Produces a stem gall. Host: *Salix lemonii*.

Euura (Euura) lemoniae Smith, 1968. Ent. Soc. Amer., Ann. 61: 1406. ♀, ♂, gall.

macgillivrayi (Rohwer). Colo. Ecology: Produces a stem gall. Host: *Salix luteosericea*.

Cryptocampus macgillivrayi Rohwer, 1909. N. Y. Ent. Soc., Jour. 17: 16. ♀, ♂.

maura (Rohwer). Colo. Ecology: Adult collected from *Salix*.

Cryptocampus maura Rohwer, 1909. N. Y. Ent. Soc., Jour. 17: 23. ♀, ♂.

minuta MacGillivray. Iowa.

Euura minuta MacGillivray, 1914. Canad. Ent. 46: 366. ♀.

moenia MacGillivray. Oreg.

Euura moenia MacGillivray, 1923. Ill. Univ. Bul. 20(50): 17. ♀, ♂.

nigrella Rohwer. Ont.

Euura nigrella Rohwer, 1912. U. S. Natl. Mus., Proc. 43: 241. ♀.

nigra Norton. Labrador.

Euura orbitalis var. *nigra* Norton, 1867. Amer. Ent. Soc., Trans. 1: 71. ♀.

orbitalis Norton. Conn., N. Y. Ecology: Adults collected from *Salix*.

Euura orbitalis Norton, 1862. Ent. Soc. Phila., Proc. 1: 144. ♀, ♂.

pallistigmus (Rohwer). N. B.

Cryptocampus pallistigmus Rohwer, 1910. U. S. Natl. Mus., Proc. 38: 200. ♀, ♂.

parva Rohwer. Colo.

Euura parva Rohwer, 1908. Canad. Ent. 40: 176. ♀.

perdita Rohwer. Colo. Ecology: Produces galls. Host: *Salix*.

Euura perdita Rohwer, 1909. Canad. Ent. 41: 20. ♀, ♂.

propinqua (Rohwer). N. Mex. Ecology: Produces a stem gall. Host: *Salix*.

Cryptocampus propinqua Rohwer, 1909. N. Y. Ent. Soc., Jour. 17:24. ♂.

salicicola Smith. Ill. Ecology: Produces a stem gall. Host: *Salix alba*.

Euura salicicola Smith, 1879. North Amer. Ent. 1: 41. ♀, ♂.

scouleriana Smith. Calif. (Sierra Nevada and adjacent ranges from Mt. Shasta southward).

Ecology: Produces a stem gall. Host: *Salix scouleriana*.

Euura (Euura) scouleriana Smith, 1968. Ent. Soc. Amer., Ann. 61: 1406. ♀, ♂, gall.

serissimae Rohwer. Ont. Ecology: Produces a petiole gall. Host: *Salix serissima*.

Euura serissimae Rohwer, 1912. U. S. Natl. Mus., Proc. 43: 240. ♀.

s-gemma Walsh. Ill. Ecology: Produces twig galls. Host: *Salix humilis*.

Euura s. gemma Walsh, 1866. Ent. Soc. Phila., Proc. 6: 250. ♀, ♂, gall, larva.

Euura genuina Norton, 1867. Amer. Ent. Soc., Trans. 1: 79. ♀, ♂, gall.

s-nodus Walsh. Ont., Mich., Ohio, Ill. Ecology: Produces a stem gall. Host: *Salix interior*.

Euura s. nodus Walsh, 1866. Ent. Soc. Phila., Proc. 6: 253. ♂.

Cryptocampus salicis-nodus Dalla Torre, 1894. Cat. Hym., v. 1, p. 278. Emend.

Cryptocampus nodus Konow, 1905. In Wytsman, Gen. Ins., v. 29, p. 51. Emend.

Biology: Judd, 1954. Canad. Ent. 86: 542-546.

s-ovum Walsh. N. Y., Ill. Ecology: Produces a twig gall. Host: *Salix*.

Euura s. ovum Walsh, 1866. Ent. Soc. Phila., Proc. 6: 252. ♀, ♂, gall.

Euura perturbans Walsh, 1866. Ent. Soc. Phila., Proc. 6: 254. ♀, ♂, gall.

Euura salicis-ovum Thomas, 1881. State Ent. Ill. Rpt. 10: 69. gall, larva.

s-ovulum Walsh. Ill. Ecology: Produces a stem gall. Host: *Salix humilis*.

Euura s. ovulum Walsh, 1866. Ent. Soc. Phila., Proc. 6: 253. gall, larva.

Cryptocampus salicis-ovulum Dalla Torre, 1894. Cat. Hym., v. 1, p. 278. Emend.

Genus EUURA Subgenus GEMMURA Smith

Euura subg. *Gemmura* Smith, 1968. Ent. Soc. Amer., Ann. 61: 1401.

Type-species: *Cryptocampus mucronatus* Hartig. Orig. desig.

brachycarpe Rohwer. Colo.

Euura brachycarpe Rohwer, 1908. Canad. Ent. 40: 176. ♀, ♂.

lanatae Malaise. Man. (Churchill), Alta (Lake Louise); n. Europe. Ecology: Produces bud galls.

Host: *Salix lanata*, *S. calcicola*.

Euura lanatae Malaise, 1920. Ent. Tidskr. 40: 105. ♀, ♂.

mucronata (Hartig). Man. (Churchill), Alaska; Europe. Ecology: Larva feeds inside buds of many species of willow. Host: *Salix*.

Nematus (Cryptocampus) mucronatus Hartig, 1837. Fam. Blattwespen und Holzwespen, nebst Einleitung Naturgesch. Hym., p. 223. ♀, ♂.

Euura nigrifascia Cameron, 1885. Monog. Brit. Phytophagous Hym., v. 2, p. 214.

Euura insularis Kincaid, 1900. Wash. Acad. Sci., Proc. 2: 352. ♀, ♂.

Taxonomy: Benson, 1962. Brit. Mus. (Nat. Hist.) Ent., Bul. 12: 402.

Genus AMAURONEMATUS Konow

Amauronematus Konow, 1890. Deut. Ent. Ztschr., pp. 233, 237, 246.

Type-species: *Nematus fallax* Lepeletier. Desig. by Rohwer, 1911.

Pontoprista Malaise, 1921. Ent. Tidskr. 42: 12.

Type-species: *Pontoprista suavis* var. *fusca* Malaise. Desig. by Ross, 1937.

A large holarctic genus common in the arctic and subarctic regions. This genus is in need of study. Several phyletic lines are evident which will eventually allow more convenient species groupings.

Taxonomy: Benson, 1962. Brit. Mus. (Nat. Hist.) Ent., Bul. 12: 396-402 (holarctic species).
abnormis (Holmgren). Baffin Is., N. W. T., Alaska; n. Europe, Switzerland, Siberia. Females are commonly brachypterous.

Nematus abnormis Holmgren, 1883. Ent. Tidskr. 4: 148. ♀.

Amauronematus tolli Konow, 1907. E. Zoologie 1: 20.

Amauronematus aulatus MacGillivray, 1919. Rpt. Canad. Arctic Exped. 1913-1918, v. 3G, p. 16G.

Taxonomy: Benson, 1962. Brit. Mus. (Nat. Hist.) Ent., Bul. 12: 401.
amentorum (Foerster). N. H. to Oreg. s. to Va., Mich., Wis., Colo.; Greenland; Iceland; Europe to Siberia. Ecology: Widespread. Larva feeds on catkins. Host: *Salix*.

Nematus amentorum Foerster, 1854. Naturh. Ver. Rheinlande, Verh. 11: 337. ♀.

Nematus suavis Ruthe, 1859. Stettin Ent. Ztg. 20: 308.

Pontania atra Marlatt, 1896. U. S. Dept. Agr., Div. Ent. Tech. Ser. 3: 37. ♀. N. syn.

Amauronematus whitneyi Rohwer, 1920. U. S. Natl. Mus., Proc. 57: 216. ♀.

xanthus Rohwer. Nebr.

Amauronematus xanthus Rohwer, 1909. Canad. Ent. 41: 18. ♀.

Genus DECANEMATUS Malaise

Decanematus Malaise, 1931. Arkiv for Zool. 23A: 31.

Type-species: *Decanematus longiserre* Malaise. Orig. desig.

A small genus found in northern Canada and northern Europe.

Revision: Wong, 1968. Canad. Ent. 100: 84-86.

dulichus Wong. N. W. T. (Reindeer Depot, MacKenzie Delta).
Decanematus dulichus Wong, 1968. Canad. Ent. 100: 84. ♀.

TRIBE PSEUDODINEURINI

Genus PSEUDODINEURA Konow

Dolerus subg. *Pelmatopus* Hartig, 1837. Fam. Blattwespen und Holzwespen, nebst Einleitung Naturgesch. Hym., p. 244. Preocc. by Fischer de Waldheim, 1824.

Type-species: *Dolerus (Pelmatopus) minutus* Hartig. Monotypic.

Pseudodineura Konow, 1885. Wien. Ent. Ztg. 4: 297.

Type-species: *Tenthredo (Allantus) parvula* Klug. Desig. by Rohwer, 1911.

Phyllopus Hering, 1934. Internat. Ent. Ztschr. 28: 353. N. name for *Pelmatopus* Hartig.

Several unidentified species are known from western United States.

parva (Norton). Maine to Pa. w. to Ill. Ecology: Leafminer. Host: *Hepatica*.
Dineura parvus Norton, 1867. Amer. Ent. Soc., Trans. 1: 241. ♂.

Genus KERITA Ross

Kerita Ross, 1937. Ill. Biol. Monog. 15 (2): 80.

Type-species: *Kerita fidala* Ross. Orig. desig.

An unidentified species is also known from the western United States.

fidala Ross. Ill. Ecology: A leafminer. Host: *Mertensia*.

Kerita fidala Ross, 1937. Ill. Biol. Monog. 15 (2): 80. ♀.

TRIBE PRISTOLINI

Revision: Wong, 1968. Canad. Ent. 100: 1049-1057.

Genus PRISTOLA Ross

Pristola Ross, 1945. Pan-Pacific Ent. 21: 153.

Type-species: *Pristola macnabi* Ross. Orig. desig.

clarki Wong. Colo. (Echo Lake, Mt. Evans, 10,600 ft.).

Pristola clarki Wong, 1968. Canad. Ent. 100: 1050. ♀, ♂.

macnabi Ross. Newfoundland, N. H., Man., Alta., B. C., Idaho, Oreg. Ecology: Larva lives in berries. Host: *Vaccinium membranaceum*.

Pristola macnabi Ross, 1945. Pan-Pacific Ent. 21: 154. ♀, ♂.

Genus MELASTOLA Wong

Melastola Wong, 1968. Canad. Ent. 100: 1053.

Type-species: *Gymnonychus resinicolor* Marlatt. Orig. desig.

ferruginosa Wong. Alaska, B. C., Wash.

Melastola ferruginosa Wong, 1968. Canad. Ent. 100: 1054. ♀, ♂.

resinicolor (Marlatt). Alaska.

Gymnonychus resinicolor Marlatt, 1896. U. S. Dept. Agr., Div. Ent. Tech. Ser. 3: 125. ♀.

Pachynematus sahlbergi Konow, 1908. Ztschr. System. Hym. Dipt. 8: 83. ♀.

UNPLACED TAXA OF NEMATINAE

The following species are of questionable generic assignment due to inadequate descriptions and inaccessibility, loss, or poor condition of type material. Three species described by Cameron from northern Mexico are included; though not strictly within the scope of this Catalog, they undoubtedly represent southern extensions of northern species.

Hoplocampa atriceps Kirby, 1882. List Hym. Brit. Mus., v. 1, p. 168. Ga.

Nematus calais Kirby, 1882. List Hym. Brit. Mus., v. 1, p. 144. ♀. Arctic America, MacKenzie River.

Nematus castaneus Kirby, 1882. List Hym. Brit. Mus., v. 1, p. 147. ♀. Hudson Bay, Canada, St. Martin's Falls, Albany River.

- Nematus crassus* Eschscholtz, 1822. Entomographien, p. 213. Isle of Unalaska, Alaska. Preocc. by Fallen, 1808; see *obtusus* Kirby.
- Nematus extraneus* Kirby, 1882. List Hym. Brit. Mus., v. 1, p. 142. ♀. Hudson Bay, Canada, St. Martin's Falls, Albany River.
- Nematus fallax* Norton, 1867. Amer. Ent. Soc., Trans. 1: 198. ♂. Labrador. Preocc. by Lepeletier, 1823; see *nortonii* Dalla Torre.
- Nematus hudsonicus* Norton, 1867. Amer. Ent. Soc., Trans. 1: 207. ♀. Fort Good Hope, MacKenzie River, N. W. T., Canada.

- Nematus satkatchewan* Norton, 1867. Amer. Ent. Soc., Trans. 1: 200. ♀. "Lake Sathkatchewan."
- Nematus sumptus* Norton, 1867. Amer. Ent. Soc., Trans. 1: 207. ♂. Maine.
- Nematus vertebratus* Say, 1836. Boston Jour. Nat. Hist. 1: 218. ♀. Ind.

SUBFAMILY HETERARTHINAE

Most of these sawflies are small black insects, among the smallest of the Tenthredinidae. Larvae of the Caliroini feed externally, skeletonizing the foliage of the host, and larvae of the Heterarthrini and Fenusini are all leafminers.

Revision: Smith, 1971. U. S. Dept. Agr., Tech. Bul. 1420, 84 pp. (adults and larvae of Nearctic species). —Smith, 1973. Ent. Soc. Wash., Proc. 75: 337-345 (Neotropical species).

Taxonomy: Smith, 1967. Ent. Soc. Wash., Proc. 69: 277-284 (review of subfamily in N. Amer.).

TRIBE CALIROINI

Genus ENDELOMYIA Ashmead

Endelomyia Ashmead, 1898. Canad. Ent. 30: 256.

Type-species: *Selandria rosae* Harris. Orig. desig.

aethiops (Fabricius). Que., Conn. to Va. w. to B. C., Oreg.; Europe. Ecology: Widespread; a common pest of cultivated roses. Host: *Rosa*. Rose-slug.

Tenthredo aethiops Fabricius, 1781. Species Insectorum, v. 1, p. 416.

Tenthredo (Selandria) atratula Dahlbom, 1835. Conspectus Tenthred., Sircid., Oryssin. Scand., p. 10.

Selandria rosae Harris, 1841. Rpt. Ins. Mass. Injurious to Veg., p. 380.

- Eriocampa Livonensis* Gimmerthal, 1844. Stettin Ent. Ztg. 5: 38. ♀.
Eriocampa nitida Tischbein, 1846. Stettin Ent. Ztg. 7: 113.
Tenthredo (Selandria) dolosa Eversmann, 1847. Soc. Nat. Moscou, Bul. 20: 33. ♀.
Selandria soror Vollenhoven, 1869. Tijdschr. v. Ent. 12: 123.
Eriocampa testaceipes Cameron, 1874. Ent. Monthly Mag. 11: 128. ♂.
Poecilosoma nigricolle Cameron, 1882. Monog. Brit. Phytophagous Hym., v. 1, p. 218.

Genus CALIROA Costa

- Caliroa Costa*, 1859. Fauna del Regno di Napoli, Imen., pt. 3, p. 59.
 Type-species: *Caliroa sebetta* Costa. Monotypic.
Eriocampoides Konow, 1890. Deut. Ent. Ztschr., p. 239.
 Type-species: *Tenthredo limacina* Retzius. Desig. by MacGillivray, 1909.
Periclistoptera Ashmead, 1898. Canad. Ent. 30: 255.
 Type-species: *Monostegia alba* Norton. Orig. desig.

Larvae of this genus are sluglike in appearance and feed on the underside of the foliage of the host. Host records not listed below are *Acer*, *Ceanothus*, and *Cotoneaster*, all from larvae that cannot be identified. Larvae have not been associated with adults for many species and are all very similar; therefore, adults are needed in most cases for species determination.

annulipes (Klug). Ont.; Europe. Host: *Betula papyrifera*.

Tenthredo (Allantus) annulipes Klug, 1814. Mag. Gesell. Naturf. Freunde Berlin 8: 70.

cerasi (Linnaeus). Que., Ont. to Fla. w. to B. C., Wash., Oreg., Calif., N. Mex.; Eurasia; Africa; Argentina, Chile, Uruguay; Australia, Tasmania, New Zealand; China. Ecology: Widespread; most commonly a pest of pear trees. Probably native to Europe and introduced to other parts of the world, including N. Amer., by commerce. Host: *Pyrus*, *Prunus*, *Crataegus*, *Sorbus*, and probably many other Rosaceae. Pear-slug.

Tenthredo cerasi Linnaeus, 1758. Syst. Nat., Ed. 10, p. 557.

Tenthredo limacina Retzius, 1783. Genera et Species Insectorum, p. 73.

Tenthredo cerasi Peck, 1799. Mass. Agr. Rpt., p. 9.

Tenthredo (Allantus) adumbrata Klug, 1814. Mag. Gesell. Naturf. Freunde Berlin 8: 64. ♀.

Caliroa laudata MacGillivray, 1909. Canad. Ent. 41: 356. ♀.

Caliroa laciniata MacGillivray, 1909. Canad. Ent. 41: 357. ♀.

Biology: Peck, 1799. Mass. Agr. Rpt., p. 9. — Harris, 1841. Rpt. Ins. Mass. Injurious to Veg., p. 383. — Winchell, 1865. Boston Soc. Nat. Hist., Proc. 9: 321-325. — Riley, 1870. Amer. Ent. and Bot. 2: 296. — Marlatt, 1897. U. S. Dept. Agr., Cir. 26 (ser. 2), 7 pp. — Webster, 1912. N. Y. Ent. Soc., Jour. 20: 125-130 (number of moults). — Webster, 1912. Iowa Agr. Expt. Sta., Bul. 130: 167-193. — Wilson, 1913. Oreg. Agr. Expt. Sta., Rpt. for 1911-12, pp. 217. — Ewing, 1917. Ent. Soc. Amer., Ann. 10: 330-336 (parthenogenesis). — Britton, 1921. Conn. (State) Agr. Expt. Sta., Bul. 226: 199-201. — Miles, 1935. Ann. Appl. Biol. 22: 116-133. — Carl, 1972. Ztschr. Angew. Ent. 71: 58-83.

distincta Smith. B. C., Oreg., Nev., Calif.

Caliroa distincta Smith, 1971. U. S. Dept. Agr., Tech. Bul. 1420, p. 17. ♀.

fasciata (Norton). Ont., Maine to Va. w. to Iowa, Ill. Host: *Quercus velutina*, *Q. palustris*, *Q. rubra*, and probably other oaks.

Selandria fasciata Norton, 1864. Ent. Soc. Phila., Proc. 3: 9. ♀.

floridana Smith. Fla.

Caliroa floridana Smith, 1971. U. S. Dept. Agr., Tech. Bul. 1420, p. 19. ♀.

hyalina Smith. Oreg. Ecology: Adults collected from cherry.

Caliroa hyalina Smith, 1971. U. S. Dept. Agr. Tech. Bul. 1420, p. 19. ♀, ♂.

labrata MacGillivray. Alta., B. C., Oreg., Nev., Calif. Host: *Salix*.

Caliroa labrata MacGillivray, 1909. Canad. Ent. 41: 360. ♂.

liturata MacGillivray. Conn. to Fla. w. to Mont., Colo., La. Host: *Prunus*, peach, and plum.

Caliroa liturata MacGillivray, 1909. Canad. Ent. 41: 349. ♀.

Caliroa lineata MacGillivray, 1909. Canad. Ent. 41: 350. ♀.

Caliroa loricata MacGillivray, 1909. Canad. Ent. 41: 351. ♀.

Caliroa (Ericampoides) amygdalina Rohwer, 1911. Ent. News 22: 263. ♀, ♂.

Biology: Cushman, 1911. U. S. Dept. Agr., Bur. Ent. Bul. 97: 91-102.

lobata MacGillivray. Vt. to Va. w. to Iowa. Tex. Host: *Quercus palustris*, *Q. velutina*, and probably other oaks.

Caliroa lobata MacGillivray, 1909. Canad. Ent. 41: 355. ♀.

lorata MacGillivray. Maine to Ala. w. to Wis. Host: *Castanea dentata*.

Caliroa lorata MacGillivray, 1909. Canad. Ent. 41: 355. ♀.

Eriocampoides castaneae Rohwer, 1917. U. S. Natl. Mus., Proc. 53: 152. ♀.

lunata MacGillivray. Newfoundland to Va. w. to Mich., Ill., Tex.

Caliroa lunata MacGillivray, 1909. Canad. Ent. 41: 353. ♀.

Caliroa lata MacGillivray, 1909. Canad. Ent. 41: 361. ♀.

nysiae Smith. Pa. to Ga. w. to Miss. Host: *Nyssa sylvatica*.

Caliroa nysiae Smith, 1971. U. S. Dept. Agr., Tech. Bul. 1420, p. 25. ♀, ♂.

obsoleta (Norton). Ont., Mass. to Ga. w. to Minn., Iowa, Ill. Host: *Quercus alba*, *Q. stellata*, *Q. prinus*, and probably other oaks.

Selandria obsoleta Norton, 1867. Amer. Ent. Soc., Trans. 1: 254. ♀.

Selandria quercus alba Norton, 1867. Amer. Ent. Soc., Trans. 1: 258. ♀, ♂.

Selandria quercus-alba Cresson, 1880. Amer. Ent. Soc., Trans. 8: 60. Emend.

Eriocampoides quercus Konow, 1905. In Wytsman, Gen. Ins., v. 29, p. 74. Emend.

petiolata Smith. Pa., Md., Va. Host: *Quercus palustris*.

Caliroa petiolata Smith, 1971. U. S. Dept. Agr., Tech. Bul. 1420, p. 28. ♀, ♂.

queruscoccinea (Dyar). Maine to N. C. w. to Minn., Ill., Mo., La. Host: *Quercus coccinea*, *Q. velutina*, *Q. palustris*, *Q. alba*, and probably other oaks.

Monostegia quercus-coccinea Dyar, 1894. Canad. Ent. 26: 42. ♀, larva.

TRIBE HETERARTHINI

Genus HETERARTHUS Stephens

Phyllotoma Fallen, 1829. Monog. Tenthred. Suec., p. 25. Preocc. by Leach, 1819.

Type-species: *Phyllotoma vagans* Fallen. Desig. by Rohwer, 1911.

Heterarthrus Stephens, 1835. Illus. Brit. Ent., v. 7, p. 94.

Type-species: *Tenthredo (Emphytus) ochropoda* Klug. Monotypic.

Decatria Stephens, 1835. Illus. Brit. Ent., v. 7, p. 94.

Type-species: *Decatria fuscipennis* Stephens. Monotypic.

Druida Newman, 1838. Ent. Mag. 5: 484.

Type-species: *Druida parviceps* Newman. Monotypic.

Heterarthrus Cameron, 1882. Monog. Brit. Phytophagous Hym., v. 1, p. 282. Emend.

Phlebatrophia MacGillivray, 1909. Canad. Ent. 41: 345.

Type-species: *Phlebatrophia mathesoni* MacGillivray. Monotypic.

This genus is Palaearctic with one introduced species in North America. All larvae are leaf-miners.

nemoratus (Fallen). Newfoundland, N. S., N. B., Que., Maine, N. H., Mass., N. Y., Ont.; Europe.

Ecology: A leafminer. Introduced, first found at Pictou, N.S. in 1908. Host: *Betula*.

Hylotoma nemorata Fallen, 1808. Svenska Vetensk. Akad., Handl. 29: 47.

Phyllotoma nemoralis Fallen, 1829. Monog. Tenthred. Suec., p. 35.

Fenusia parviceps Newman 1837. Ent. Mag. 4: 261.

Phyllotoma tenella Zaddach, 1859. Programm Friedr. Col. Konigsberg, p. 28. ♀.

Phlebatrophia mathesoni MacGillivray, 1909. Canad. Ent. 41: 345. ♀.

Biology: Pierson, 1929. Jour. Econ. Ent. 22: 588-594. —Pierson, Taylor, and Wilkins, 1930.

Maine Forest Service, Cir. 1, 8 pp. —Glasgow, 1932. Jour. Econ. Ent. 25: 693-695.

—Pierson and Brower, 1936. Maine Forest Service and Hardwood Assoc., Bul. 11, 37 pp.

—Gobeil, 1937. Prov. de Quebec Min. des Terre et Forêts, Bul. 1, 7 pp. —Lindquist, 1959.

Canad. Ent. 91: 625-627.

TRIBE FENUSINI

Genus METALLUS Forbes

Metallus Forbes, 1885. State Ent. Ill. Rpt. 14: 87.

Type-species: *Metallus rubi* Forbes. Monotypic.

Entodecta Konow, 1886. Wien. Ent. Ztg. 5: 184.

Type-species: *Tenthredo (Allantus) pumila* Klug. Desig. by MacGillivray, 1909.

Polybates MacGillivray, 1909. Ent. Soc. Amer., Ann. 2: 264.

Type-species: *Polybates slossonae* MacGillivray. Monotypic.

bensonii Smith. N. Y. B. C.

Metallus bensonii Smith, 1971. U. S. Dept. Agr., Tech. Bul. 1420, p. 34. ♀.

capitalis (Norton). Newfoundland to N. Y. w. to Ill.; Alaska, B. C., Oreg. Ecology: A leafminer.
Host: *Rubus*.

Selandria capitalis Norton, 1867. Amer. Ent. Soc., Trans. 1: 247. ♀.

Entodecta humilis Konow, 1908. Ztschr. System. Hym. Dipt. 8: 84. ♀.

Polybates slossonae MacGillivray, 1909. Ent. Soc. Amer., Ann. 2: 265. ♀.

Polybates secundus Rohwer, 1910. U. S. Natl. Mus., Proc. 38: 202. ♀.

rohweri MacGillivray. N. S., Maine to Fla. w. to Ont., Wis., Ill., Mo. Ecology: A leafminer.
Host: *Rubus*.

Metallus rubi Forbes, 1885. State Ent. Ill. Rpt. 14: 87. ♂. Preocc. by Boie, 1848.

Metallus rohweri MacGillivray, 1909. Ent. Soc. Amer., Ann. 2: 267. ♀.

Metallus bethunei MacGillivray, 1914. Canad. Ent. 46: 366. ♀, ♂.

Biology: Houghton, 1908. Ent. News 19: 212-216 (*capitalis*, not Norton). —Houghton, 1910. Del. Col. Agr. Expt. Sta., Bul. 87: 3-15 (*capitalis*, not Norton). —Daniel, 1928. N. Y. State Agr. Expt. Sta., Tech. Bul. 133: 3-38.

Genus MESSA Leach

Messa Leach, 1817. Zool. Misc., v. 3, p. 126.

Type-species: *Tenthredo hortulana* Klug. Monotypic.

Fenusella Enslin, 1914. Deut. Ent. Ztschr., Beih., p. 270.

Type-species: *Fenusula Wustneii* Konow. Orig. desig.

Melanobates MacGillivray, 1916. Conn. State Geol. and Nat. Hist. Survey, Bul. 22: 158.

Type-species: *Parabates leucostomus* Rohwer. Monotypic.

hortulana (Klug). Mass.; Europe. Ecology: A leafminer. Introduced (?). Host: *Populus*.

Tenthredo (Emphytus) hortulana Klug, 1814. Mag. Gesell. Naturf. Freunde Berlin 8: 276. ♀.

Phaenusa doederleinii Destefani, 1883. Nat. Sicil. 3: 12. ♀, ♂.

Phaenusa ticinensis Magretti, 1886. Soc. Ent. Ital., Bul. 18: 25. ♀.

leucostoma (Rohwer). N. B., Minn., Iowa, Colo., Alta., Wash., Oreg., Calif. Ecology: Adults collected from *Populus*.

Parabates leucostoma Rohwer, 1910. U. S. Natl. Mus., Proc. 38: 202. ♀.

Blennocampa amara MacGillivray, 1923. Canad. Ent. 55: 161. ♀.

nana (Klug). Maine, Mass., N. Y., Ont.; Europe. Ecology: A leafminer. Introduced, first recorded from Maine in 1967. Host: *Betula*.

Tenthredo (Allantus) nana Klug, 1814. Mag. Gesell. Naturf. Freunde Berlin 8: 72.

Tenthredo intercus Zetterstedt, 1838. Ins. Lapp., v. 1, p. 340.

Fenusula quercus Cameron, 1885. Monog. Brit. Phytophagous Hym., v. 2, p. 222.

Biology: Lindquist and Thomson, 1970. Canad. Ent. 102: 108-111.

populifoliella (Townsend). N. B. to Conn. w. to Man., S. Dak., Colo., N. Mex., Ariz., Calif.
Ecology: A leafminer. Host: *Populus*.

Blennocampa populifoliella Townsend, 1893. Canad. Ent. 25: 304.

Scolionoeura populi Marlatt, 1895. Ent. Soc. Wash., Proc. 3: 235. ♀, ♂.

Scolionoeura luteopicta Rohwer, 1911. U. S. Natl. Mus., Proc. 3: 235. ♀, ♂.

Biology: Townsend, 1892. U. S. Dept. Agr., Insect Life 4: 26-27 (Cottonwood leafminer).

—Townsend, 1892. Zoe 3: 234-236 (Tineidae ? larvae). —Underwood and Titus, 1968.

Canad. Ent. 100: 407-411. —Brown and Eads, 1969. Jour. Econ. Ent. 62: 672-674.

Fenusia wuestneii (Konow). Que. to Alaska s. to Colo., Calif.; Europe. Ecology: A leafminer. Host: *Salix*.

Fenusia wustneii Konow, 1894. Wien. Ent. Ztg. 13: 91. ♀, ♂.

Fenusia alaskana Kincaid, 1900. Wash. Acad. Sci. Proc. 2: 345. ♂.

Genus SETABARA Ross

Parabates MacGillivray, 1909. Ent. Soc. Amer., Ann. 2: 262. Preocc.

Type-species: *Parabates histrionicus* MacGillivray. Orig. desig.

Setabara Ross, 1951. In Muesebeck, et al., U. S. Dept. Agr., Agr. Monog. 2: 31. N. name.

A monotypic genus found only in western North America.

histrionica (MacGillivray). Colo., Idaho, Nev., Wash., Oreg., Calif. Ecology: Adults collected from *Prunus*.

Parabates histrionicus MacGillivray, 1909. Ent. Soc. Amer., Ann. 2: 263. ♀.

Genus BIDIGITUS Smith

Bidigitus Smith, 1967. Ent. Soc. Wash., Proc. 69: 280.

Type-species: *Profenusia platani* Burks. Orig. desig.

platani (Burks). Calif. Ecology: A leafminer. Host: *Platanus racemosa*.

Profenusia platanae(!) Burks, 1957. Ent. News 68: 207. ♀, ♂.

Biology: Brown and Eads, 1965. Calif. Agr. Expt. Sta., Bul. 818: 14, 22-32.

Genus PROFENUSA MacGillivray

Profenusia MacGillivray, 1914. Canad. Ent. 46: 364.

Type-species: *Profenusia collaris* MacGillivray. Monotypic.

Gunnea Malaise, 1964. Ent. Tidskr. 85: 33.

Type-species: *Tenthredo pygmaea* Klug. Orig. desig.

alumna (MacGillivray). Maine to Va. w. to Wis., Ill. Ecology: A leafminer. Host: *Quercus rubra* and probably other oaks. References to *alumna* as a leafminer of *Betula* are actually *thomsoni* (Konow).

Messa alumna MacGillivray, 1923. Ill. Univ. Bul. 20(50): 23. ♀.

Messa amica MacGillivray, 1923. Ill. Univ. Bul. 20(50): 23. ♂.

Messa appota MacGillivray, 1923. Ill. Univ. Bul. 20(50): 24. ♂.

Profenusia mainensis Smith, 1966. Ent. Soc. Amer., Ann. 59: 720. ♀, larva.

canadensis (Marlatt). Que., Ont. to D. C. w. to Iowa, Mo., Ark. Ecology: A leafminer. Host: *Crataegus*, to a lesser extent *Prunus*.

Scolioneura canadensis Marlatt, 1895. Ent. Soc. Wash., Proc. 3: 235. ♀.

Profenusia collaris MacGillivray, 1914. Canad. Ent. 46: 364. ♀, ♂.

Biology: Parrott and Fulton, 1915. N. Y. Agr. Expt. Sta., Bul. 411: 551-580. —Parrott and Fulton, 1915. Jour. Agr. Res. 5: 519-528. —Hamilton, 1943. N. Y. Agr. Expt. Sta., Bul. 703: 59-61. —Hamilton, 1950. Jour. Econ. Ent. 43: 694-696.

inspirata (MacGillivray). Oreg., Nev., Calif. Ecology: A leafminer. Host: *Quercus*.

Parabates inspiratus MacGillivray, 1909. Ent. Soc. Amer., Ann. 2: 264. ♀.

lucifex (Ross). Maine, Ont., N. Y., Ill. Ecology: Leafminer. Host: *Quercus alba*, *Q. macrocarpa*.

Fenusia lucifer Ross, 1936. Ill. State Acad. Sci., Trans. 29: 266. ♀.

Biology: Lindquist and Jackson, 1965. Canad. Dept. Forestry, Bimonthly Prog. Rpt. 21(4): 1.

thomsoni (Konow). Que., Maine, Vt., Conn., Ont., Man.; Ecology: A leafminer. Introduced.

Host: *Betula*.

Fenusia thomsoni Konow, 1886. Wien. Ent. Ztg. 5: 270. ♀.

Biology: Lindquist, 1959. Canad. Ent. 91: 625-627 (*alumna*, not MacGillivray). — Watson, 1959. Canad. Ent. 91: 618-625 (*alumna* not MacGillivray). — Martin, 1960. Canad. Ent. 92: 376-384.

Genus NEFUSA Ross

Nefusa Ross, 1951. In Muesebeck et al., U. S. Dept. Agr., Agr. Monog. 2, p. 31.
Type-species: *Nefusa anita* MacGillivray. Orig. desig.

The single species in this genus is known only from North America.

ambigua (Norton). Que., Maine to Tenn. w. to Wis. Ecology: A leafminer. Host: *Viola*.
Fenusia ambiguus Norton, 1867. Amer. Ent. Soc., Trans. 1: 225. ♂.
Messa anita MacGillivray, 1923. Ill. Univ. Bul. 20(50): 23. ♀.

Biology: Shaw, 1940. Jour. Econ. Ent. 33: 951 (*Fenusia* sp.).

Genus PROLATUS Smith

Prolatus Smith, 1967. Ent. Soc. Wash., Proc. 69: 282.
Type-species: *Prolatus artus* Smith. Orig. desig.

A monotypic genus known only from western North America.

artus Smith. Oreg.
Prolatus artus Smith, 1967. Ent. Soc. Wash., Proc. 69: 283. ♀, ♂ (?).

Genus FENUSA Leach

Fenusia Leach, 1817. Zool. Misc., v. 3, p. 126.
Type-species: *Tenthredo (Emphytus) pumila* Klug. Monotypic.

Kaliostysphinga Tischbein, 1846. Stettin Ent. Ztg. 7: 79.

Type-species: *Kaliostysphinga dohrnii* Tischbein. Monotypic.

Aphadnurus Costa, 1859. Fauna del Regno di Napoli, Imen., pt. 3, p. 40.

Type-species: *Aphadnurus tantillus* Costa. Monotypic.

Caliosysphinga Konow, 1905. In Wytsmann, Gen. Ins., v. 29, p. 89. Emend.

Kaliofenus Viereck, 1910. N. J. State Mus., Ann. Rpt. 1909, p. 591.

Type-species: *Fenusia ulmi* Sundevall. Monotypic.

A genus of several species most of which are holarctic though two of them were probably introduced into this continent.

dohrnii (Tischbein). Newfoundland to Pa. w. to B. C., Oreg., Utah., N. Mex.; Europe; Japan; S. Africa. Ecology: A widespread leafminer. Host: *Alnus*. European alder leafminer.

Kaliostysphinga dohrnii Tischbein, 1846. Stettin Ent. Ztg. 7: 80.

Fenusia curtis Norton, 1861. Ent. Soc. Phila., Proc. 1: 199. ♀.

Phaenusa melanopoda Cameron, 1876. Glasgow Nat. Hist. Soc., Proc. 3: 6.

Fenusia nigricans Thomson, 1870. Opusc. Ent., 2nd Fasc., p. 271.

Fenella westwoodii Cameron, 1882. Monog. Brit. Phytophagous Hym., v. 1, p. 289.

Biology: Slingerland, 1905. N. Y. (Cornell) Agr. Expt. Sta. Bul. 233: 49-62. — Frankenhuizen, 1970. Ent. Ber. 30: 49-52 (in Netherlands).

pusilla (Lepeletier). Newfoundland to Md. w. to Ont., Minn., Iowa; Wash., Oreg.; Europe.
Ecology: A leafminer. Introduced, first reported in Conn. in 1925. Host: *Betula*. Birch leafminer.

Tenthredo (Emphytus) pumila Klug, 1814. Mag. Gesell. Naturf. Freunde Berlin 8: 277.
Preocc.

Dolerus (Fenusia?) pusillus Lepeletier, 1823. Monog. Tenthred., p. 120.

Tenthredo pygmaea Zetterstedt, 1838. Ins. Lapp., v. 1, p. 340. ♀, ♂.

Aphadnurus tantillus Costa, 1859. Fauna del Regno di Napoli, Imen., pt. 3, p. 41. ♂.

Fenusia fuliginosa Healy, 1869. Entomologist 4: 225-227.

Fenusia minima Brischke, 1883. Schrift. Naturf. Gesell. Danzig 4: 264. ♀.

Biology: Britton, 1925. Conn. (State) Agr. Expt. Sta. Bul. 265: 340. — Friend, 1931. Jour. Econ. Ent. 24: 171-177. — Friend, 1933. Conn. (State) Agr. Expt. Sta. Bul. 348: 291-364. — Cheng and LeRoux, 1965. Ent. Soc. Quebec, Ann. 10: 173-188. — Schread, 1971. Conn. (State) Agr. Expt. Sta. Bul. 693: 5-19. — Cheng and LeRoux, 1970. Canad. Ent. 102: 995-1002 (factors in survival of immature stages).

ulmi Sundevall. Que., Ont., Mass., N. Y., Mich.; Europe. Ecology: A leafminer. Introduced. Host: *Ulmus*. Elm leafminer.

Fenusia ulmi Sundevall, 1844. Skand. Naturf. Forhandl., p. 249.

Fenusia intermedia Thomson, 1871. Hym. Scand., v. 1, p. 186. ♀.

Messa alsia MacGillivray, 1923. Ill. Univ. Bul. 20(50): 22. ♀.

Biology: Felt, 1898. N. Y. State Mus., Bul. 5(23): 237 (an elm leafminer). — Slingerland, 1905. N. Y. (Cornell) Agr. Expt. Sta. Bul. 233: 49-62.

Genus FENELLA Westwood

Fenella Westwood, 1840. Introduct. Modern Class. Ins., v. II, p. 54.

Type-species: *Fenella nigrita* Westwood. Monotypic.

Melinia Costa, 1859. Fauna del Regno di Napoli, Imen., pt. 3, p. 41.

Type-species: *Melinia minutissima* Costa. Desig. by Rohwer, 1911.

Paraphyllotoma Forsius, 1930. Notulae Ent. 10: 103.

Type-species: *Paraphyllotoma judaica* Forsius Orig. desig.

Taxonomy: Benson, 1953. Roy. Ent. Soc. London, Proc., Ser. B: Taxonomy 22: 136-138 (key to European species).

nigrita Westwood. Conn., Ont., Mich.; Europe. Ecology: A leafminer. Introduced (?). Host:

Potentilla, *Agrimonia*. *Agrimonia* was recorded as a host-plant in Europe.

Fenella nigrita Westwood, 1840. Introduct. Modern Class. Ins., v. II, p. 54.

SUBFAMILY BLENNOCAMPINAE

A diverse subfamily with various hosts. Most of these sawflies are small to medium, stout insects. Most larvae are external leaf feeders, and adults fall and feign death when disturbed.

Revision: Smith, 1969. U. S. Dept. Agr., Tech. Bul. 1397, 179 pp. (adults and larvae of Nearctic species).

TRIBE LYCAOTINI

Revision: Smith, 1973. Pan-Pacific Ent. 49: 93-101 (S. Amer.).

Taxonomy: Benson, 1966. Roy. Ent. Soc. London, Proc., Ser. B: Taxonomy 35: 75-77 (key to world genera).

Genus BLENNOGENERIS MacGillivray

Blennogeneris MacGillivray, 1923. Ill. Univ. Bul. 20(50): 8.

Type-species: *Blennocampa typicella* MacGillivray. Monotypic.

Lycaotella Ross, 1932. Canad. Ent. 64: 41.

Type-species: *Selandria (Hoplocampa) spissipes* Cresson. Orig. desig.

coloradensis (Rohwer). Man., Colo., Idaho, Utah, Wash.

Lycaota coloradensis Rohwer, 1911. U. S. Natl. Mus., Proc. 41: 384.

gittinsi Smith. Idaho, Wash.

Blennogeneris gittinsi Smith, 1969. U. S. Dept. Agr. Tech. Bul. 1397, p. 24. ♀.

spissipes (Cresson). Ont., Minn., Colo. w. to B. C., Wash., Oreg., Calif. Ecology: Larva lives in terminal bud gall. Host: *Symporicarpos*.

Selandria (Hoplocampa) spissipes Cresson, 1880. Amer. Ent. Soc., Trans. 8: 14. ♀.

Selandria (Hoplocampa) lenis Cresson, 1880. Amer. Ent. Soc., Trans. 8: 14. ♂.

Lycaota brunneri Rohwer, 1908. N. Y. Ent. Soc., Jour. 14: 104. ♀. N. syn.

Lycaota spissipes brunneus Rohwer, 1911. U. S. Natl. Mus., Proc. 41: 384. ♀.

Blennocampa typicella MacGillivray, 1923. Ill. Univ. Bul. 20(50): 8. ♂.

Biology: Ross, 1932. Canad. Ent. 64: 42-44.

Genus LYCAOTA Konow

Lycaota Konow, 1903. Ztschr. System. Hym. Dipt. 3: 147.

Type-species: *Selandria sodalis* Cresson. Desig. by Rohwer, 1911.

bouquetensis Smith. S. Calif.

Lycaota bouquetensis Smith, 1969. U. S. Dept. Agr., Tech. Bul. 1397, p. 29. ♀.

janetae Smith. Oreg., Calif. Ecology: Adult collected from *Symporicarpos*.

Lycaota janetae Smith, 1969. U. S. Dept. Agr., Tech. Bul. 1397, p. 29. ♀, ♂.

sodalis (Cresson). Sask., Colo., Utah w. to B. C., Wash., Oreg.

Selandria sodalis Cresson, 1880. Amer. Ent. Soc., Trans. 8: 14. ♀.

Lycaota fusca Rohwer, 1908. Canad. Ent. 40: 180. ♂.

TRIBE TOMOSTETHINI**Genus TOMOSTETHUS Konow**

Tomostethus Konow, 1886. Wien. Ent. Ztg. 5: 184, 214.

Type-species: *Tenthredo nigrita* Fabricius. Desig. by Rohwer, 1911.

A small holarctic genus.

multicinctus (Rohwer). Mass., Ont. to N. C. w. to S. Dak., Kans., Okla., Tex.; Oreg., Calif. Host:

Fraxinus americana, *F. oregonia*. Brown-headed ash sawfly.

Monophasmus multicinctus Rohwer, 1909. Canad. Ent. 41: 90. ♂.

Biology: Sasscer, 1911. Ent. Soc. Wash., Proc. 13: 107-110. — Langford and McConnell, 1935. Jour. Econ. Ent. 28: 208-210. — MacNay, 1957. Canad. Ins. Pest Rev. 35: 184. — Armitage, 1950. Calif. Dept. Agr., Bul. 39: 183.

Genus TETHIDA Ross

Tethida Ross, 1937. Ill. Biol. Monog. 15(2): 96.

Type-species: *Tenthredo cordigera* Beauvois. Orig. desig.

This genus contains a single North American species.

cordigera (Beauvois). N. B., Que. to Fla. w. to Sask., Mont., S. Dak., Nebr., Kans., Tex. Host:

Fraxinus americana, *F. nigra*, *F. pennsylvanica*. Black-headed ash sawfly.

Tenthredo cordigera Beauvois, 1809. Ins. Afr. Amer., p. 97. ♀.

Tenthredo (*Selandria*) *barda* Harris, 1835. In Hitchcock, Rpt. Geol. Mineral. Bot. Zool. Mass., p. 583. Nom. nud.

Tenthredo bardus Say, 1836. Boston Jour. Nat. Hist. 1: 218. ♀.

Selandria dubia Cresson, 1865. Ent. Soc. Phila., Proc. 4: 244. ♀.

Biology: Osborne, 1884. Canad. Ent. 16: 148-152. — Osborne, 1884. Ont. Ent. Soc., Ann. Rpt. 15: 32-34. — Packard, 1890. U. S. Ent. Comm. Rpt. 4 (Bul. 7, rev.), p. 544.

TRIBE PHYMATOCERINI**Genus PHYMATOCERA Dahlbom**

Tenthredo subg. *Phymatocera* Dahlbom, 1835. Conspectus Tenthred., Siricid., Oryssin. Scand., p. 11.

Type-species: *Tenthredo* (*Allantus*) *aterrima* Klug. Monotypic.

Pectinia Brulle, 1846. In Lepeletier, Hist. Nat. Ins., Hym., p. 664.

Type-species: *Tenthredo* (*Allantus*) *aterrima* Klug. Orig. desig.

Melanoselandria Ashmead, 1900. In Smith, N. J. State Bd. Agr. Ann. Rpt. 27: 606. Nom. nud.

Hypargyricus MacGillivray, 1908. Canad. Ent. 40: 290.

Type-species: *Hypargyricus infuscatus* MacGillivray. Orig. desig.

Melanoselandria MacGillivray, 1909. Canad. Ent. 41: 404.

Type-species: *Melanoselandria zabriskiei* MacGillivray. Monotypic.

Species of this holarctic genus are associated with Liliaceae.

fumipennis (Norton). Que. to Ala. w. to Wis., Ill., Mo. Host: *Smilacina*.

Selandria fumipennis Norton, 1861. Boston Soc. Nat. Hist., Proc. 8: 222. ♀, ♂.

offensa (MacGillivray). Que., Maine to B. C. s. to Ont., Ill., Colo., Utah, Calif. Host: *Smilacina*.

Paracharactus offensus MacGillivray, 1923. Ill. Univ. Bul. 20(50): 28. ♀.

racemosae Smith. Que. to N. C. w. to Wis., Ill.; B. C. Ecology: Adults collected from *Smilacina*(?), *Polygonatum*(?).

Phymatocera racemosae Smith, 1969. U. S. Dept. Agr., Tech. Bul. 1397, p. 49. ♀, ♂.

similata (MacGillivray). Ont., N. Y. to B. C. s. to Mich., Ill., Iowa, Nebr., Colo., Utah, Calif. Host: *Smilacina*.

Rhadinoceraea similata MacGillivray, 1908. Canad. Ent. 40: 290. ♀.

Hypargyricus infuscatus MacGillivray, 1908. Canad. Ent. 40: 290. ♀.

Rhadinoceraea lucida Rohwer, 1912. U. S. Natl. Mus., Proc. 43: 229. ♀.

smilacinae Smith. Que. to Va. w. to Wis., Ill. Ecology: Adults collected from *Smilacina* and *Polygonatum*.

Phymatocera smilacinae Smith, 1969. U. S. Dept. Agr., Tech. Bul. 1397, p. 55. ♀, ♂.

UNPLACED TAXA OF PHYMATOCERA DAHLBOM

ruscula (MacGillivray). Oreg. (Marys Peak).

Monophadnus rusculus MacGillivray, 1923. Psyche 30: 80. ♂.

zabriskiei (MacGillivray). No locality.

Melanoselandria zabriskiei MacGillivray, 1909. Canad. Ent. 41: 404.

Genus PARACHARACTUS MacGillivray

Paracharactus MacGillivray, 1908. Canad. Ent. 40: 292.

Type-species: *Paracharactus obscuratus* MacGillivray. Orig. desig.

Dicrostema Benson, 1952. Handb. Ident. Brit. Ins., v. 6, pt. 2(b), p. 101.

Type-species: *Selandria gracilicornis* Zaddach. Orig. desig.

A small holartic genus. Adults are most commonly collected by sweeping grasses and sedges.

montivagus (Cresson). Mont., Idaho, Wash., Oreg., Nev., Calif.

Selandria montivaga Cresson, 1880. Amer. Ent. Soc., Trans. 8: 13. ♀.

Selandria sclesta Cresson, 1880. Amer. Ent. Soc., Trans. 8: 14. ♂.

niger (Harrington). Que., Maine to Md. w. to Minn., Iowa, Kans. Host: *Carex*.

Phymatocera nigra Harrington, 1889. Canad. Ent. 21: 96. ♀.

Monophadnus distinctus MacGillivray, 1908. Canad. Ent. 40: 291. ♀.

Tomostethus nortonii MacGillivray, 1908. Canad. Ent. 40: 291. ♀.

rudis (Norton). Que., Maine to Ga. w. to Sask., S. Dak., Colo.

Selandria rudis Norton, 1861. Boston Soc. Nat. Hist., Proc. 8: 221. ♀.

Selandria rufula Norton, 1861. Boston Soc. Nat. Hist., Proc. 8: 221. ♂.

Paracharactus obscuratus MacGillivray, 1908. Canad. Ent. 40: 293. ♀.

Genus RHADINOCERAEA Konow

Species of this holartic genus are associated with Liliaceae and Iridaceae.

Genus RHADINOCERAEA Subgenus RHADINOCERAEA Konow

Rhadinoceraea Konow, 1886. Wien. Ent. Ztg. 5: 184, 211.

Type-species: *Tenthredo (Allantus) micans* Klug. Desig. by Rohwer, 1911.

brysonensis Smith. Calif. (Bryson).

Rhadinoceraea (Rhadinoceraea) brysonensis Smith, 1969. U. S. Dept. Agr., Tech. Bul. 1397, p. 67. ♀.

ctenidium Smith. Calif. (Mt. Pinos, Kern Co., 8900 ft.).

Rhadinoceraea (Rhadinoceraea) ctenidium Smith, 1969. U. S. Dept. Agr., Tech. Bul. 1397, p. 67. ♀.

nigra (Rohwer). S. Calif. Host: *Calochortus venustus*.

Paracharactus niger Rohwer, 1912. U. S. Natl. Mus., Proc. 43: 231. ♀.

utahensis Smith. N. Utah.

Rhadinoceræa (Rhadinoceræa) utahensis Smith, 1969. U. S. Dept. Agr., Tech. Bul. 1397, p. 70. ♀, ♂.

Genus RHADINOCERÆA Subgenus VERATRA Smith

Rhadinoceræa subg. *Veratra* Smith, 1969. U. S. Dept. Agr. Tech. Bul. 1397, p. 70.

Type-species: *Selandria nubilipennis* Norton. Orig. desig.

aldrichi (MacGillivray). Alta., Idaho, B. C., Wash., Oreg., Nev., Calif. Host: *Veratrum*.

Parephora aldrichi MacGillivray, 1923. Ill. Univ. Bul. 20(50): 28. ♀, ♂.

insularis (Kincaid). Alaska, B. C. Wash., Oreg., Calif. Host: *Veratrum*.

Monophadnus insularis Kincaid, 1900. Wash. Acad. Sci., Proc. 2: 346. ♂.

jacintensis Smith. S. Calif.

Rhadinoceræa (Veratra) jacintensis Smith, 1969. U. S. Dept. Agr., Tech. Bul. 1397, p. 75. ♀, ♂.

nubilipennis (Norton). N. B., Que. s. to N. C. Host: *Veratrum*.

Selandria nubilipennis Norton, 1867. Amer. Ent. Soc., Trans. 1: 252. ♀, ♂.

Neoparephora scelestæ MacGillivray, 1908. Canad. Ent. 40: 289. ♀.

Monophadnus planus MacGillivray, 1921. Brooklyn Ent. Soc., Bul. 16: 23. ♂. Preocc. by Klug, 1814.

Monophadnus vapularis Benson, 1930. Entomologist 63: 107. N. name for *planus* MacGillivray.

Genus LAGONIS Ross

Lagonis Ross, 1937. Ill. Biol. Monog. 15(2): 99.

Type-species: *Selandria nevadensis* Cresson. Orig. desig.

A small genus known from western North America and east Asia.

nevadensis (Cresson). Alta., Wyo., Utah w. to B. C., Wash., Oreg., Calif. Host: *Sambucus*.

Selandria nevadensis Cresson, 1880. Amer. Ent. Soc., Trans. 8: 13. ♀.

Paracharactus leucostomus Rohwer, 1912. U. S. Natl. Mus., Proc. 43: 230. ♀.

Genus MONOPHADNUS Hartig

Tenthredo subg. *Monophadnus* Hartig, 1837. Fam. Blattwespen und Holzwespen, nebst Einleitung Naturgesch. Hym., p. 271.

Type-species: *Tenthredo albipes* Gmelin. Desig. by Ashmead, 1898.

Monophadnus subg. *Doderia* Malaise, 1935. Ent. Tidskr. 56: 167.

Type-species: *Tenthredo (Allantus) spinolae* Klug. Orig. desig.

aqualis MacGillivray. Ont., Maine to Md. w. to Alta., Colo. Host: *Ranunculus*.

Monophadnus aqualis MacGillivray, 1908. Canad. Ent. 40: 292. ♀.

Monophadnus plicatus MacGillivray, 1908. Canad. Ent. 40: 292. ♀, ♂.

Monophadnus transversus MacGillivray, 1908. Canad. Ent. 40: 292. ♀.

Monophadnus truncatus Rohwer, 1912. U. S. Natl. Mus., Proc. 43: 232. ♀.

assaracus MacGillivray. Oreg.

Monophadnus assaracus MacGillivray, 1923. Ill. Univ. Bul. 20(50): 26. ♂.

bakeri Smith. Md., Va., Ill., Mont., Kans.

Monophadnus bakeri Smith, 1969. U. S. Dept. Agr., Tech. Bul. 1397, p. 86. ♀.

californicus (Rohwer). Oreg., Calif. Host: *Ranunculus*.

Neocharactus californicus Rohwer, 1909. Canad. Ent. 41: 89. ♀.

Monophadnoides conductus MacGillivray, 1923. Ill. Univ. Bul. 20(50): 24. ♀.

contortus (MacGillivray). Mont., Idaho, B. C. Oreg., Calif.

Monophadnoides contorta MacGillivray, 1923. Psyche 30: 78. ♀.

Monophadnus aeratus MacGillivray, 1923. Psyche 30: 79. ♂.

Aphanisus obsitus MacGillivray, 1923. Ill. Univ. Bul. 20(50): 7. ♀.

Aphanisus occiduus MacGillivray, 1923. Ill. Univ. Bul. 20(50): 7. ♀.

lattini Smith. N. H., Mass., Conn., Wis., Man., Minn.

Monophadnus lattini Smith, 1969. U. S. Dept. Agr., Tech. Bul. 1397, p. 91. ♀, ♂.

pallescens (Gmelin). Newfoundland to N. Y. w. to Mich.; B. C.; Europe. Introduced (?). Host:

Ranunculus. The host was recorded in Europe.

Tenthredo albipes Gmelin, 1790. In Linnaeus, Syst. Nat., Ed. 13, p. 2667. Preocc. by Geoffroy, 1785.

Tenthredo pallescens Gmelin, 1790. In Linnaeus, Syst. Nat., Ed. 13, p. 2668.

Selandria tiliae Norton, 1861. Boston Soc. Nat. Hist., Proc. 8: 221. ♀.

Monophadnus bipunctatus MacGillivray, 1908. Canad. Ent. 40: 292. ♀.

Monophadnus furvus Benson, 1930. Entomologist 63: 107. Unnecessary n. name for *bipunctata* MacGillivray, but also preocc. by Konow, 1898.

Genus STETHOMOSTUS Benson

Stethomostus Benson, 1939. Ent. Monthly Mag. 75: 111.

Type-species: *Tenthredo fuliginosa* Schrank. Orig. desig.

fuliginosus (Schrank). N. S., Que. to Md. w. to Mich.; Europe; Japan. Introduced (?). Host: *Ranunculus*.

Tenthredo fuliginosa Schrank, 1781. Enum. Ins. Austriae, p. 334.

Tenthredo (Selandria) fuscus Lepeletier, 1823. Monog. Tenthred., p. 106. ♂.

Tenthredo (Selandria) fraxini Lepeletier, 1823. Monog. Tenthred., p. 106. ♀, ♂.

Monophadnus fukaii Rohwer, 1910. U. S. Natl. Mus., Proc. 39: 108. ♀, ♂.

Genus EUTOMOSTETHUS Enslin

Tomostethus subg. *Eutomostethus* Enslin, 1914. Deut. Ent. Ztschr., Beih., p. 286.

Type-species: *Tenthredo luteiventris* Klug. Orig. desig.

Tomostethus subg. *Atomostethus* Enslin, 1914. Deut. Ent. Ztschr., Beih. p. 287.

Type-species: *Tenthredo ephippium* Panzer. Orig. desig.

Tomostethopsis Sato, 1928. Insecta Matsumurana 2: 178.

Type-species: *Tomostethopsis metallicus* Sato. Orig. desig.

Forsia Malaise, 1932. Arkiv for Zool. 23: 29.

Type-species: *Forsia tomostethi* Malaise. Orig. desig.

Most of the species of this genus are found in Asia.

ephippium (Panzer). Newfoundland, N. S., Que., Ont. s. to Md.; Tex.; B. C., Wash.; Europe, N. Africa, Asia Minor. Introduced (?). Host: *Poa* and other Gramineae. Hosts recorded in Europe.

Tenthredo ephippium Panzer, 1798. Faunae Ins. German., heft 52, pl. 5. ♀.

Selandria inhabilis Norton, 1861. Boston Soc. Nat. Hist., Proc. 8: 220. ♀.

luteiventris (Klug). N. S., Que. to Md. w. to Mich.; Alta., B. C., Wash., Oreg.; Europe. Ecology: Larva bores in sterile shoots of *Juncus* until last instar when it emerges and feeds externally, according to European observations. Introduced (?). Host: *Juncus*.

Tenthredo luteiventris Klug, 1814. Mag. Gesell. Naturf. Freunde Berlin 8: 56.

Tenthredo (Selandria) fuscipennis Lepeletier, 1823. Monog. Tenthred. p. 107. ♀, ♂.

TRIBE BLENNOCAMPINI

Genus ARDIS Konow

Ardis Konow, 1886. Wien. Ent. Ztg. 5: 184, 188.

Type-species: *Tenthredo (Allautus) bipunctata* Klug. Desig. by Rohwer, 1911.

Valco Ross, 1937. Ill. Biol. Monog. 15(2): 99.

Type-species: *Selandria irrogata* Cresson. Orig. desig.

A small holarctic genus associated with roses.

atrata (Harrington). B. C., Wash., Oreg., Calif. Ecology: Adults collected from *Rosa*.

Monophadnus atratus Harrington, 1894. Canad. Ent. 26: 193. ♂.

Monophadnoidea circina MacGillivray, 1923. Ill. Univ. Bul. 20(50): 24. ♂.

Paracharactus obtentus MacGillivray, 1923. Ill. Univ. Bul. 20(50): 28. ♀.

brunniniventris (Hartig). Maine to N. W. T. s. to N. C., Ill., N. Mex., Calif.; Europe to Siberia, Japan. Ecology: Widespread. Larva bores and feeds in shoots of wild and cultivated roses. Host: *Rosa*. Previous reports of *Ardis sulcata* (Cameron) in N. Amer. were based on a misidentification and pertain to this species.

Tenthredo (Allantus) bipunctata Klug, 1814. Mag. Gesell. Naturf. Freunde Berlin 8: 215.
♀. Preocc. by Muller, 1776.

Tenthredo (Monophadnus) brunniniventris Hartig, 1837. Fam. Blattwespen und Holzwespen, nebst Einleitung Naturgesch. Hym., p. 274. ♀.

Selandria irrigata Cresson, 1880. Amer. Ent. Soc., Trans. 8: 13. ♀.

Aphanisus odoratus MacGillivray, 1908. Canad. Ent. 40: 296. ♀.

Aphanisus parallelus MacGillivray, 1923. Ill. Univ. Bul. 20(50): 7. ♀.

Taxonomy: Smith, 1965. Pan-Pacific Ent. 41: 9-10 (synonymy). —Smith, 1966. Ent. Soc. Amer., Ann. 59: 1292 (larva separated from related species).

Biology: Eide, 1948. Jour. Econ. Ent. 41: 819-821. —Middlekauff, 1958. Pan-Pacific Ent. 34: 202.

Genus MONARDIS Enslin

Monardis Enslin, 1914. Deut. Ent. Ztschr., Beih., p. 284.

Type-species: *Tenthredo plana* Klug. Monotypic.

pulla Smith. Sask. to Colo., Utah and w. to B. C.

Monardis pulla Smith, 1969. U. S. Dept. Agr., Tech. Bul. 1397, p. 114. ♀.

Genus APAREOPHORA Sato

Apareophora Sato, 1928. Insecta Matsumurana 2: 185.

Type-species: *Apareophora forsythiae* Sato Orig. desig.

This small genus is found in east Asia and North America.

dyari (Benson). N. B. to N. Y. and Ont. Host: *Spiraea salicifolia*.

Blennocampa spiraeae Dyar, 1895. Canad. Ent. 27: 194. ♀, ♂, larva. Preocc. by Brischke and Zaddach, 1883.

Blennocampa dyari Benson, 1930. Entomologist 63: 107. N. name.

Biology: Dyar, 1895. Canad. Ent. 27: 194.

rossi Smith. Maine w. to Wis., Minn.

Apareophora rossi Smith, 1969. U. S. Dept. Agr., Tech. Bul. 1397, p. 118. ♀, ♂.

Genus EUPAREOPHORA Enslin

Eupareophora Enslin, 1914. Deut. Ent. Ztschr., Beih., p. 283.

Type-species: *Blennocampa exarmata* Thomson. Monotypic.

Only two species are known, the type-species from Europe and the species below.

parca (Cresson). N. B. to Md. w. to Sask., N. Dak., Iowa, Kans., Tex.; Oreg., Calif. Host.

Fraxinus pennsylvanica, *F. nigra*, *F. americana*, *F. oregonia*, *Carya illinoensis*, *Chionanthus*(?).

Selandria parca Cresson, 1880. Amer. Ent. Soc., Trans. 8: 13. ♂.

Periclista chionanthi Dyar, 1898. N. Y. Ent. Soc., Jour. 6: 132. ♀, larva.

Monophadnus minutus MacGillivray, 1908. Canad. Ent. 40: 291. ♀.

Pareophora guana MacGillivray, 1923. Ill. Univ. Bul. 20(50): 28. ♂.

Pareophora guara MacGillivray, 1923. Brooklyn Ent. Soc., Bul. 18: 54. ♀.

Biology: Packard, 1890. U. S. Ent. Comm. Rpt. 5 (Bul. 7, rev.), p. 545 (*Selandria* sp.).

Genus PERICLISTA Konow

Larvae of this genus feed on the foliage of *Quercus* and *Carya*. The genus is holarctic as well as being found in Chile and southern Argentina.

Revision: Stannard, 1949. Amer. Ent. Soc., Trans. 75: 7-42.

Genus PERICLISTA Subgenus PERICLISTA Konow

Periclista Konow, 1886. Wien. Ent. Ztg. 5: 184, 186.

Type-species: *Tenthredo (Allantus) lineolata* Klug. Desig. by Rohwer, 1911.

Mogerus MacGillivray, 1895. Canad. Ent. 27: 281. Unnecessary n. name for *Periclista* Konow.

Isodyctium Ashmead, 1898. In Dyar, N. Y. Ent. Soc., Jour. 6: 127.

Type-species: *Mogerus caryiculus* Dyar. Orig. desig.

Apericlista Enslin, 1914. Deut. Ent. Ztschr. Beih., p. 265.

Type-species: *Tenthredo albipennis* Zaddach. Orig. desig.

Neoclista Malaise, 1964. Ent. Tidskr. 85: 22.

Type-species: *Periclista andrei* Konow. Orig. desig.

Cornaria Malaise, 1964. Ent. Tidskr. 85: 22.

Type-species: *Cornaria fumipennis* Malaise. Monotypic.

Taxonomy: Benson, 1968. Brit. Mus. (Nat. Hist.) Ent., Bul. 22: 152-153 (key to European species).

SPECIES GROUP LINEOLATA

albicollis (Norton). Maine, Ont. to Va. w. to Man., Iowa, Kans., Okla., Tex. Host: *Quercus alba*, *Q. ilicifolia*, *Q. macrocarpa*, *Q. rubra*, *Q. velutina*.

Selandria albicollis Norton, 1872. Amer. Ent. Soc., Trans. 4: 85. ♂.

Periclista mutabilis Konow, 1904. Ztschr. System. Hym. Dipt. 4: 241. ♀, ♂.

Periclista quercus Rohwer, 1912. U. S. Natl. Mus., Proc. 43: 232. ♀, ♂.

linea Stannard. Oreg., Calif. Host: *Quercus agrifolia*.

Periclista linea Stannard, 1949. Amer. Ent. Soc., Trans. 75: 19. ♀, ♂.

Biology: Beer, 1955. Kans. Ent. Soc., Jour. 28: 19-26 (also description of larva).

media (Norton). N. H., Mass. to Fla. w. to Man., Wis., Iowa. Host: *Quercus alba*.

Selandria media Norton, 1864. Ent. Soc. Phila., Proc. 3: 9. ♀, ♂.

Selandria (Hoplocampa) floridana Cresson, 1880. Amer. Ent. Soc., Trans. 8: 12. ♂.

Periclista purpuridorsum Dyar, 1898. N. Y. Ent. Soc., Jour. 6: 129. ♀, ♂.

Periclista confusa MacGillivray, 1908. Canad. Ent. 40: 291. ♀.

Periclista similaris Rohwer, 1917. U. S. Natl. Mus., Proc. 53: 155. ♀.

Taxonomy: Middleton, 1922. U. S. Natl. Mus., Proc. 61: 4-6 (larva, *similaris*).

naranga Stannard. Calif.

Periclista naranga Stannard, 1949. Amer. Ent. Soc., Trans. 75: 20. ♀.

spicula Stannard. Calif.

Periclista spicula Stannard, 1949. Amer. Ent. Soc., Trans. 75: 21. ♂.

SPECIES GROUP MELANOCEPHALA

bipartita (Cresson). Mass. to Fla. w. to Mo., Tex. Host: *Quercus coccinea*.

Selandria (Blennocampa) bipartita Cresson, 1880. Amer. Ent. Soc., Trans. 8: 12. ♂.

Mogerus emarginatus MacGillivray, 1895. Canad. Ent. 25: 281. ♂.

Isodyctium murtfeldtiae Dyar, 1898. N. Y. Ent. Soc., Jour. 6: 135. ♀.

diluta (Cresson). Maine, Ont. to Fla. w. to Wis., Kans., Tex. Host: *Quercus alba*, *Q. prinus*.

Selandria (Monophadnus) diluta Cresson, 1880. Amer. Ent. Soc., Trans. 8: 12. ♀.

Isodyctium subgregarium Dyar, 1898. N. Y. Ent. Soc., Jour. 6: 134. ♀, ♂.

Taxonomy: Smith, 1969. U. S. Dept. Agr., Tech. Bul. 1397, p. 127 (male).

entella MacGillivray. Oreg., Calif. Ecology: Adults collected from *Quercus*.

Periclista entella MacGillivray, 1923. Ill. Univ. Bul. 20(50): 29. ♂.

Taxonomy: Smith, 1969. U. S. Dept. Agr., Tech. Bul. 1397, p. 128 (female).

marginicollis (Norton). Conn., Ont. to Fla. w. to Iowa, Kans., Okla., Tex. Host: *Carya*, *Quercus alba*(?).

Tenthredo (Allantus) marginicollis Harris, 1835. In Hitchcock, Rpt. Geol. Mineral. Bot.

Zool. Mass., p. 583. Nom. nud.

Selandria marginicollis Norton, 1861. Boston Soc. Nat. Hist., Proc. 8: 220. ♀.

Mogerus caryiculus Dyar, 1897. N. Y. Ent. Soc., Jour. 5: 193. ♀, ♂.

- Isidycium(!) atratum* MacGillivray, 1908. Canad. Ent. 40: 290. ♀.
Periclista hicoriae Rohwer, 1917. U. S. Natl. Mus., Proc. 53: 154. ♀.
Periclista xanthognatha Rohwer, 1917. U. S. Natl. Mus., Proc. 53: 156. ♀.
Periclista plesia Rohwer, 1920. U. S. Natl. Mus., Proc. 57: 211. ♀.
Periclista pecanivora Rohwer, 1920. U. S. Natl. Mus., Proc. 57: 212. ♀.

Taxonomy: Middleton, 1922. U. S. Natl. Mus., Proc. 61: 2-4 (larva). —Smith, 1969. U. S. Dept. Agr., Tech. Bul. 1397, p. 129 (larva).

rileyi (Cresson). Fla., Ill., Mo., Tex.

- Selandria (Monophadnus) rileyi* Cresson, 1880. Amer. Ent. Soc., Trans. 8: 13. ♀.
Isodyctium floridense Dyar, 1898. N. Y. Ent. Soc., Jour. 6: 134. ♀.

stannardi Smith. Iowa, Tex.

- Periclista stannardi* Smith, 1969. U. S. Dept. Agr., Tech. Bul. 1397, p. 130. ♀.

sulfurana Stannard. N. Y., Mich., Ill., Iowa. Host: *Quercus*.

- Periclista sulfurana* Stannard, 1949. Amer. Ent. Soc., Trans. 75: 28. ♀, ♂.

SPECIES GROUP CALIFORNICA

californica Rohwer. Calif.

- Periclista californica* Rohwer, 1917. U. S. Natl. Mus., Proc. 53: 154. ♀.

electa MacGillivray. Oreg., Calif. Ecology: Adults collected from *Quercus*.

- Periclista electa* MacGillivray, 1923. Psyche 30: 80. ♂.

vergorba Stannard. Calif.

- Periclista vergorba* Stannard, 1949. Amer. Ent. Soc., Trans. 75: 32. ♀.

Genus PERICLISTA Subgenus NEOCHARACTUS MacGillivray

Neocharactus MacGillivray, 1908. Canad. Ent. 40: 293.

Type-species: *Neocharactus bakeri* MacGillivray. Monotypic.

Aphanisus MacGillivray, 1908. Canad. Ent. 40: 295.

Type-species: *Aphanisus lobatus* MacGillivray. Orig. desig.

bakeri (MacGillivray). Calif. Ecology: Adults collected from *Quercus agrifolia*.

- Neocharactus bakeri* MacGillivray, 1908. Canad. Ent. 40: 293. ♂.

Periclista leucostoma Rohwer, 1909. Canad. Ent. 41: 397. ♀, ♂.

inaequidens (Norton). N. H. to Md. w. to Wis., Ill., Tex. Host: *Quercus alba*.

- Selandria inaequidens* Norton, 1872. Amer. Ent. Soc., Trans. 4: 84. ♀.

Isodyctium infrequens Dyar, 1898. N. Y. Ent. Soc., Jour. 6: 134. ♀.

pallipes (Provancher). Calif. Ecology: Adults collected from *Quercus agrifolia*, *Q. wislizenii*.

- Monophadnus pallipes* Provancher, 1895. Nat. Canad. 22: 80. ♀, ♂.

Periclista occidentalis Rohwer, 1909. Canad. Ent. 41: 398. ♀, ♂.

subtruncata Dyar. N. Y. to Fla. w. to Ill., Tex. Host: *Quercus coccinea*.

- Tenthredo (Allantus) labiata* Klug, 1818. Mag. Gesell. Naturf. Freunde Berlin 8: 73. ♀.

Preocc. by Geoffroy, 1785.

Periclista subtruncata Dyar, 1898. N. Y. Ent. Soc., Jour. 6: 131. ♀.

Aphanisus lobatus MacGillivray, 1908. Canad. Ent. 40: 295. ♀.

Aphanisus muricatus MacGillivray, 1908. Canad. Ent. 40: 296. ♀.

Genus MONOPHADNOIDES Ashmead

Monophadnoides Ashmead, 1898. Canad. Ent. 30: 253.

Type-species: *Monophadnus rubi* Harris. Orig. desig.

Claremontia Rohwer, 1909. Canad. Ent. 41: 397.

Type-species: *Claremontia typica* Rohwer. Orig. desig.

Monophadnus subg. *Pseudomonophadnus* Malaise, 1935. Ent. Tidskr. 56: 167.

Type-species: *Tenthredo geniculata* Hartig. Orig. desig.

Monophadnus subg. *Pseudoblenoocampus* Malaise, 1935. Ent. Tidskr. 56: 167.

Type-species: *Tenthredo (Allantus) tenuicornis* Klug. Orig. desig.

A holarctic genus mostly associated with Rosaceae though the host for only one North American species is known.

- atratus* (MacGillivray). N. W. T. (Norman Wells), Alaska s. to Oreg.
Blennocampa atrata MacGillivray, 1893. Canad. Ent. 25: 239. ♀.
Erythraspides ashmeadi Kincaid, 1900. Wash. Acad. Sci., Proc. 2: 345. ♀, ♂.
conspiculatus MacGillivray. N. S., Ont. s. to N. C., Tenn.
Monophadnoïdes conspiculata MacGillivray, 1908. Canad. Ent. 40: 293. ♀.
geniculatus (Hartig). Labrador to N. W. T. s. to Ga., Ark., Tex., Colo., Calif.; Europe and Asia.
Ecology: Widespread. Host: *Rubus*. An extremely variable species in N. Amer.
Raspberry sawfly.
Tenthredo geniculatus Hartig, 1837. Fam. Blattwespen und Holzwespen, nebst Einleitung Naturgesch. Hym., p. 274.
Selandria (Hoplocampa) rubi Harris, 1845. In Darling, New Haven Hort. Soc., Trans., p. 13.

TRIBE CERATULINI

Genus CERATULUS MacGillivray

Ceratulus MacGillivray, 1908. Canad. Ent. 40: 454.

Type-species: *Ceratulus spectabilis* MacGillivray. Orig. desig.

Only a single species is known for this genus.

spectabilis MacGillivray. Tex. Host: *Cissus incisa*.

Ceratulus spectabilis MacGillivray, 1908. Canad. Ent. 40: 454. ♀, ♂.

TRIBE WALDHEIMIINI

Genus WALDHEIMIA Brulle

Waldheimia Brulle, 1846. In Lepeletier, Hist. Nat. Ins. Hym., p. 665.

Type-species: *Tenthredo brasiliensis* Lepeletier. Orig. desig.

Zarca Cameron, 1878. Ent. Soc. London, Trans. p. 142.

Type-species: *Zarca apicalis* Cameron. Monotypic.

Parazara Ashmead, 1898. In Dyar, N. Y. Ent. Soc., Jour. 6: 128. N. syn.

Type-species: *Parazara fumipennis* Ashmead. Orig. desig.

Calozara Ashmead, 1898. In Dyar, N. Y. Ent. Soc., Jour. 6: 129. N. syn.

Type-species: *Selandria fascipennis* Norton. Orig. desig.

A large genus found from southwestern United States to Argentina. Of the more than 70 described species, only one reaches north of Mexico.

Revision: Malaise, 1949. Arkiv for Zool. 42A: 33-58 (key to species).

bedeae Smith. S. Ariz.; Mexico.

Waldheimia bedeae Smith, 1969. U. S. Dept. Agr., Tech. Bul. 1397, p. 156. ♀.

Genus ERYTHRASPIDES Ashmead

Erythraspides Ashmead, 1898. In Dyar, N. Y. Ent. Soc., Jour. 6: 128.

Type-species: *Tenthredo pygmaea* Say. Orig. desig.

A small genus found also in Mexico and Central America.

carbonarius (Cresson). Maine, Ont. to Ga. w. to Sask., Colo., Tex. Host: *Oenothera*.

Selandria carbonaria Cresson, 1880. Amer. Ent. Soc., Trans. 8: 12. ♀.

Selandria parva Cresson, 1880. Amer. Ent. Soc., Trans. 8: 12. ♂.

Blennocampa abjecta MacGillivray, 1921. Brooklyn Ent. Soc., Bul. 16: 22. ♀.

Blennocampa absonta MacGillivray, 1921. Brooklyn Ent. Soc., Bul. 16: 22. ♂.

vitis (Harris). N. H. to Fla. w. to Iowa, Ark., La. Host: *Vitis*. Grape sawfly.

Tenthredo pygmaea Say, 1824. In Keating, Narr. Long's 2nd Exped. (App.) p. 318. ♀, ♂.

Preocc. by Klug, 1814.

Tenthredo (*Selandria*) *vitis* Harris, 1835. In Hitchcock, Rpt. Geol. Mineral. Bot. Zool.

Mass., p. 586. Nom. nud.

Selandria vitis Harris, 1841. Rpt. Ins. Mass. Injurious to Veg., Ed. 1, p. 378.

Selandria caryae Norton, 1869. In Packard, Guide Study Ins., p. 224. Adults only, larvae are *Eriocampa juglandis* (Fitch).

Biology: Horsfall, 1929. Ent. News 40: 174-177.

Genus HALIDAMIA Benson

Halidamia Benson, 1939. Ent. Monthly Mag. 75: 111.

Type-species: *Blennocampa affinis* (Fallen). Orig. desig.

The single species in this genus was probably introduced into North America.

affinis (Fallen). Conn. to Md. w. to Ont., Wis.; Europe. Probably introduced. Host: *Galium*.
Host recorded in Europe.

Hylotoma affinis Fallen, 1807. Svenska Vetensk. Akad., Handl. 28: 207.

Hylotoma assimilis Fallen, 1807. Svenska Vetensk. Akad., Handl. 28: 204. ♀.

Tenthredo (Allantus) hyalina Klug, 1814. Mag. Gesell. Naturf. Freunde Berlin 8: 58. ♀.
Blennocampa formosella Costa, 1882. Rend. Accad. Sci. fis Napoli, p. 198.

SUBFAMILY ALLANTINAE

Members of this subfamily are associated with various plants. Some hosts are strawberries, raspberries, roses, violets, and dogwood. After feeding is completed, larvae of many species bore into fruits, wood, or other suitable substances for pupating or overwintering. The occurrence of larvae in these secondary hosts is sometimes more significant if in cultivated fruits or structural wood, but it is purely incidental depending on their proximity to the true host plant. Adults of this subfamily are medium to large sawflies and may be either rather stout or elongated.

TRIBE ERIOCAMPINI

Genus PSEUDOSIOBLA Ashmead

Pseudosiobia Ashmead, 1898. Canad. Ent. 30: 308.

Type-species: *Allantus excavatus* Norton. Orig. desig.

cephalanthi Rohwer. Mass., N. Y., Mo. Host: *Cephalanthus occidentalis*.

Pseudosiobia cephalanthi Rohwer, 1911. U. S. Natl. Mus., Proc. 41: 404. ♂.

excavata (Norton). Maine to Fla. w. to Ill., Tex. Host: *Cephalanthus*.

Allantus excavatus Norton, 1862. Ent. Soc. Phila., Proc. 1: 143. ♀.

Siobia robusta Kirby, 1882. List Hym. Brit. Mus., v. 1, p. 253. ♀.

Taxonus floridanus Provancher, 1888. Addit. Corr. Faune Ent. Canada Hym., p. 352. ♂.

Genus ERIOCAMPA Hartig

Eriocampa Hartig, 1837. Fam. Blattwespen und Holzwespen, nebst Einleitung

Naturgesch. Hym., p. 279.

Type-species: *Tenthredo ovata* Linnaeus. Desig. by Rohwer, 1911.

Eriocampa subg. *Brachycampa* Zirngiebel, 1956. Munchen Ent. Gesell. Mitt. 46: 326.

Type-species: *Eriocampa dorpatica* Konow. Orig. desig.

juglandis (Fitch). N. B., Que., Ont. to N. C. w. to Minn., Nebr. Host: *Juglans*.

Tenthredo (Allantus) obesa Harris, 1835. In Hitchcock, Rpt. Geol. Mineral. Bot. Zool.

Mass., p. 583. Nom. nud.

Selandria? *juglandis* Fitch, 1857. N. Y. State Agr. Soc., Trans. 16: 467. Larva.

Allantus obesus Norton, 1860. Boston Jour. Nat. Hist. 7: 260. ♂.

Sciapteryx rotundata Norton, 1867. Amer. Ent. Soc., Trans. 1: 242. ♀.

Eriocampa rotundiformis Rohwer, 1909. Canad. Ent. 41: 16. ♂.

ovata (Linnaeus). Que., Mass., N. Y., Ont., B. C., Wash.; Europe. Probably introduced independently into east and west N. Amer. Host: *Alnus rubra*.

Tenthredo ovata Linnaeus, 1761. Fauna Suecica, Ed. 2, p. 392.

Tenthredo gossypina Retzius, 1783. Genera et Species Insectorum, p. 72.

Tenthredo leucogona Schrank, 1802. Fauna Boica, v. 2, p. 251.

Biology: Bouchard, 1961. Ent. Soc. Quebec, Ann. 6: 69-80. — Borden and Dean, 1971. Ent. Soc. Brit. Columbia, Proc. 68: 26-28 (in B. C.).

Morphology: Hsin, 1935. Ztschr. Angew. Ent. 22: 253-294 (epidermal glands of larva).

Genus DIMORPHOPTERYX Ashmead

Dimorphopteryx Ashmead, 1898. Canad. Ent. 30: 308.

Type-species: *Allantus pinguis* Norton. Orig. desig.

Revision: Rohwer, 1915. U. S. Natl. Mus., Proc. 48: 445-448.

Taxonomy: Middleton, 1915. U. S. Natl. Mus., Proc. 48: 497-501 (larvae).

abnormis Rohwer. Ont., Maine to N. C. w. to Sask., Mont., Ill. Host: *Prunus*, *Pyrus*, *Amelanchier*, *Crataegus*.

Dimorphopteryx abnormis Rohwer, 1911. U. S. Natl. Mus., Proc. 41: 406. ♀, ♂.

Dimorphopteryx desidiosus MacGillivray, 1923. Ill. Univ. Bul. 20(50): 10. ♀.

Dimorphopteryx ithacus MacGillivray, 1923. Ill. Univ. Bul. 20(50): 10. ♀.

Dimorphopteryx salinus MacGillivray, 1923. Ill. Univ. Bul. 20(50): 11. ♀.

autumnalis Rohwer. Va., Wis. Host: *Quercus*.

Dimorphopteryx autumnalis Rohwer, 1915. U. S. Natl. Mus., Proc. 48: 447. ♀.

Dimorphopteryx quercivora Rohwer, 1915. U. S. Natl. Mus., Proc. 48: 448. ♂.

melanognathus Rohwer. Newfoundland to Va. w. to Ont., Mich. Host: *Betula papyrifera*.

Dimorphopteryx melanognathus Rohwer, 1910. U. S. Natl. Mus., Proc. 38: 205. ♀.

Dimorphopteryx enucleatus MacGillivray, 1923. Ill. Univ. Bul. 20(50): 10. ♀.

Dimorphopteryx scopolous MacGillivray, 1923. Ill. Univ. Bul. 20(50): 12. ♀.

Biology: Dyar, 1895. Amer. Ent. Soc., Trans. 22: 311 (*pinguis*, not Norton). —Dyar, 1897. N. Y. Ent. Soc., Jour. 8: 199 (*pinguis*, not Norton).

pinguis (Norton). N. S., P. E. I., N. B., Que. to Va. w. to Sask., Colo. Host: *Alnus*, *Betula*.

Allantus pinguis Norton, 1860. Boston Jour. Nat. Hist. 7: 244. ♀.

Sciapteryx punctum Provancher, 1878. Nat. Canad. 10: 72. ♂.

Dimorphopteryx pinguis errans Rohwer, 1911. U. S. Natl. Mus., Proc. 41: 406. ♀, ♂.

Dimorphopteryx coloradensis Rohwer, 1915. U. S. Natl. Mus., Proc. 49: 206. ♀.

Dimorphopteryx oronis MacGillivray, 1923. Ill. Univ. Bul. 20(50): 11. ♀.

Dimorphopteryx morsei MacGillivray, 1923. Ill. Univ. Bul. 20(50): 11. ♀.

Biology: Wong, 1954. Canad. Ent. 86: 154.

virginicus Rohwer. Pa., Ohio s. to Ga. Host: *Castanea dentata*.

Dimorphopteryx pinguis virginica Rohwer, 1911. U. S. Natl. Mus., Proc. 41: 406. ♀, ♂.

Dimorphopteryx castaneae Rohwer, 1915. U. S. Natl. Mus., Proc. 48: 447. ♀, ♂.

TRIBE EMPRIINI

Genus EMPRIA Lepeletier

Empria Lepeletier, 1828. Encycl. Meth., Dict. Ins., p. 571.

Type-species: *Dolerus* (*Empria*) *pallimacula* Lepeletier. Desig. by Brulle, 1846.

Poecilostoma Dahlbom, 1835. Conspectus Tenthred., Siricid., Oryssin. Scand., p. 13.

Type-species: *Tenthredo guttatum* Fallen. Desig. by Rohwer, 1911.

Prosercis Gistel, 1848. Naturgesch. Thierr. f. hoh. Schul., p. 10. Unnecessary n. name for *Poecilostoma*.

Poecilosoma Thomson, 1870. Opusc. Ent. 2: 265. Emend. of *Poecilostoma*. Preocc. by Huebner, 1819, and four others.

Poecilostomidea Ashmead, 1898. Canad. Ent. 30: 256.

Type-species: *Emphytus maculatus* Norton. Orig. desig.

Tetratneura Ashmead, 1898. Canad. Ent. 30: 256.

Type-species: *Selandria ignotus* Norton. Orig. desig.

Tetraneura Konow, 1905. In Wytsman, Gen. Ins., v. 29, pp. 102, 171. Emend. Preocc. by Hartig, 1814.

Parataxonius MacGillivray, 1908. Canad. Ent. 40: 367.

Type-species: *Taxonius multicolor* Norton. Orig. desig.

Leucempria Enslin, 1913. Deut. Ent. Ztschr., Beih., p. 187.

Type-species: *Tenthredo candidata* Fallen. Orig. desig.

Empria subg. *Triempria* Enslin, 1914. Deut. Ent. Ztschr., Beih., p. 213.

Type-species: *Empria tridens* Konow. Orig. desig.

Species of this holarctic genus show considerable color variation; consequently the long list of synonymies under some species. This genus also extends into Mexico.

Revision: Ross, 1936. Pan-Pacific Ent. 12: 172-178.

alpina Benson, N. W. T., B. C.; Europe. Host: *Salix* spp.

Empria alpina Benson, 1938. Soc. Brit. Ent., Trans. 5: 190, 195. ♀, ♂.

candidata (Fallen). Que., Maine, N. H., N. W. T., Man., Alta., Yukon, B. C. Alaska; Europe to Siberia. Host: *Betula*.

Tenthredo candidata Fallen, 1807. Svenska Vetensk. Akad., Handl. 28: 105.

Tenthredo (*Allantus*) *repanda* Klug, 1814. Mag. Gesell. Naturf. Freunde Berlin 8: 77. ♀.

Taxonomy: Benson, 1962. Brit. Mus. (Nat. Hist.) Ent., Bul. 12: 390 (distribution).

coryli (Dyar). N. H., N. Y. w. to Wis., Iowa, Mo. Host: *Corylus*.

Harpiphorus maculatus var. *coryli* Dyar, 1897. N. Y. Ent. Soc., Jour. 5: 194. ♀, larva.

Empria mellipes Rohwer, 1910. Canad. Ent. 42: 175. ♀.

Empria caetrata MacGillivray, 1911. Canad. Ent. 43: 305. ♀.

Biology: Dyar, 1897. N. Y. Ent. Soc., Jour. 5: 194.

ignota (Norton). Maine to Pa. w. to Alaska, B. C., Wash., Oreg., Calif. Ecology: Widespread.

Adult captured from *Salix*.

Selandria ignotus Norton, 1867. Amer. Ent. Soc., Trans. 1: 257. ♀.

Monostegia kincaidi MacGillivray, 1893. Canad. Ent. 25: 239. ♀.

Empria calda MacGillivray, 1911. Canad. Ent. 43: 307. ♀.

Empria cata MacGillivray, 1911. Canad. Ent. 43: 307. ♂.

Empria castigata MacGillivray, 1911. Canad. Ent. 43: 309. ♀.

Empria casca MacGillivray, 1911. Canad. Ent. 43: 310. ♀.

Empria evecta MacGillivray, 1911. Canad. Ent. 43: 310. ♀.

Empria confirmata MacGillivray, 1911. Canad. Ent. 43: 341. ♀.

Empria concitata MacGillivray, 1911. Canad. Ent. 43: 342. ♂.

Empria culpata MacGillivray, 1911. Canad. Ent. 43: 343. ♀.

Empria cerina MacGillivray, 1921. Psyche 28: 34. ♀, ♂.

Empria cirrha MacGillivray, 1923. Ill. Univ. Bul. 20(50): 16. ♀.

Empria cithara MacGillivray, 1923. Ill. Univ. Bul. 20(50): 17. ♀.

improba (Cresson). Maine, Ont. w. to N. W. T., Alaska, B. C., Oreg., Colo., Calif. Ecology:

Widespread. Adults collected from *Salix*.

Emphytus improbus Cresson, 1880. Amer. Ent. Soc., Trans. 8: 11. ♀.

Empria salicis Rohwer, 1910. Canad. Ent. 42: 174. ♀, ♂.

Empria contexta MacGillivray, 1911. Canad. Ent. 43: 345. ♀.

maculata (Norton). Newfoundland to N. C. w. to Alaska, B. C., Oreg., Calif. Ecology:

Widespread; recorded from nearly every state in its range. Sometimes a pest of cultivated strawberries. Host: *Fragaria*, *Potentilla*, *Rubus*.

Emphytus maculatus Norton, 1861. Boston Soc. Nat. Hist., Proc. 8: 157. ♀, ♂.

Poecilostoma convexa MacGillivray, 1909. Canad. Ent. 41: 402. ♀.

Empria distincta Rohwer, 1910. Canad. Ent. 42: 173. ♀.

Empria submaculata Rohwer, 1910. Canad. Ent. 42: 174. ♀, ♂.

Empria melanostoma Rohwer, 1910. Canad. Ent. 42: 175. ♀, ♂.

Genus PHRONTOSOMA MacGillivray

Phrontosoma MacGillivray, 1908. Canad. Ent. 40: 366.

Type-species: *Phrontosoma atrum* MacGillivray. Orig. desig.

A small, exclusively North American genus. One unidentified species extends the distribution of this genus to western United States.

belfragei (Cresson). Mass. to Pa. w. to Ont., Wis., Kans., Tex. Ecology: Adults collected from *Cornus*.

Selandria belfragei Cresson, 1880. Amer. Ent. Soc., Trans. 8: 15. ♀.

Caliroa nortonia MacGillivray, 1894. Canad. Ent. 24: 324. ♂.

Phrontosoma atrum MacGillivray, 1908. Canad. Ent. 40: 367. ♂.

Phrontosoma daeckei MacGillivray, 1908. Canad. Ent. 40: 367. ♀.

Phrontosoma collaris MacGillivray, 1908. Canad. Ent. 40: 367. ♀.

Genus MONOSOMA MacGillivray

Monsoma(!) MacGillivray, 1908. Canad. Ent. 40: 368.

Type-species: *Taxonus inferentia* Norton. Orig. desig.

Monosoma Viereck, 1910. N. J. State Mus., Ann. Rpt. 1909, p. 583. Emend.

A small genus with two species, one Nearctic the other Palaearctic.

inferentia (Norton). Newfoundland to N. C. w. to Minn., Ill. Host: *Alnus*.

Poecilostoma inferentia Norton, 1868. Amer. Ent. Soc., Trans. 2: 224. ♂.

Strongylogaster albosectus Provancher, 1878. Nat. Canad. 10: 168. ♀.

Monopachnus lineatus Kirby, 1882. List Hym. Brit. Mus., v. 1, p. 177. ♀. A questionable synonym.

Monosoma inferentia var. *andronosa* Ross, 1932. Canad. Ent. 64: 249. ♀.

Genus MONOSTEGIA Costa

Monostegia Costa, 1859. Fauna del Regno di Napoli, Imen., pt. 3, p. 60.

Type-species: *Tenthredo (Allantus) luteola* Klug. Desig. by Ross, 1951.

Poecilosoma subg. *Nematoceros* Konow, 1896. Wien. Ent. Ztg. 15: 52, 54.

Type-species: *Tenthredo (Allantus) luteola* Klug. Monotypic.

abdominalis (Fabricius) Que., Ont. to N. J., Pa. w. to Ohio; Europe to Siberia. Probably introduced. Host: *Lysimachia nummularia*, *L. vulgaris*, *L. terrestris*, *Anagallis*.

Tenthredo abdominalis Fabricius, 1798. Sup. Ent. System., p. 216. ♀.

Tenthredo (Allantus) luteola Klug, 1814. Mag. Gesell. Naturf. Freunde Berlin 8: 48.

Monostegia martini MacGillivray, 1908. Canad. Ent. 40: 366. ♀.

Monostegia nearctica Rohwer, 1912. U. S. Natl. Mus., Proc. 43: 209. ♀, ♂.

Biology: Price, 1970. Canad. Ent. 102: 491-495.

Genus AMETASTEGIA Costa

Ametastegia Costa, 1882. Accad. delle Sci. Fis. e Mat. Napoli, Rend. 21(10): 198.

Type-species: *Ametastegia fulvipes* Costa. Monotypic.

Aonodyctium Ashmead, 1898. Canad. Ent. 30: 309. No included species.

Type-species: *Strongylogaster abnormis* Provancher. Desig. by Rohwer, 1911.

Protemphytus Rohwer, 1909. Canad. Ent. 41: 92.

Type-species: *Emphytus coloradensis* Weldon. Monotypic.

Emphytina Rohwer, 1911. U. S. Natl. Mus., Proc. 41: 399.

Type-species: *Emphytina pulchella* Rohwer. Orig. desig.

Simplemphytus MacGillivray, 1914. Canad. Ent. 46: 363.

Type-species: *Simplemphytus pacificus* MacGillivray. Monotypic.

Unitaxonus MacGillivray, 1921. Psyche 28: 32.

Type-species: *Unitaxonus repentinus* MacGillivray. Orig. desig.

Species of this holartic genus feed on herbaceous plants. On maturing, larvae bore into soft substances to form a pupal cell. This secondary host may be apples, other fruits, soft wood, or pith of other plants. Such records as hosts for species of this genus do not constitute the true host on which the larvae feed.

Revision: Ross, 1937. Arb. über Morph. u. Taxonom. Ent. 4: 84-91.

aperta (Norton). Newfoundland to N. C. w. to Mich., Colo.

Tenthredo (Emphytus) aperta Harris, 1835. In Hitchcock, Rpt. Geol. Mineral. Bot. Zool. Mass., p. 583. Nom. nud.

Emphytus apertus Norton, 1861. Boston Nat. Hist. Soc., Proc. 8: 155. ♀.

Emphytus leucostoma Rohwer, 1908. N. Y. Ent. Soc., Jour. 16: 110. ♀. Preocc. by Costa, 1890.

Emphytina plesia Rohwer, 1911. U. S. Natl. Mus., Proc. 41: 402. N. name.

articulata (Klug). Que., Maine to Fla. w. to Minn., Iowa, Ark., Tex. Host: *Rumex*, *Polygonum*.

Tenthredo (Emphytus) articulatus Klug, 1814. Mag. Gesell. Naturf. Freunde Berlin 8: 284. ♂.

Dolerus inornatus Say, 1824. In Keating, Narr. Long's 2nd Exped., v. 2, (App.) p. 319. ♀.

Emphytus halitus MacGillivray, 1923. Ill. Univ. Bul. 20(50): 14. ♀.

Taxonomy: Smith, 1973. Ent. Soc. Wash., Proc. 75: 29.

coloradensis (Weldon). Labrador, Colo., Alta., B. C., Oreg., Calif.

Emphytus coloradensis Weldon, 1907. Canad. Ent. 39: 304. ♂.

Emphytus hiulcus MacGillivray, 1923. Ill. Univ. Bul. 20(50): 15. ♀.

equiseti (Fallen). Que., Maine to N. C. w. to Alaska, Oreg.; Europe to Siberia. Ecology: Widespread. Host: *Rumex*, *Polygonum*.

Tenthredo equiseti Fallen, 1808. Svenska Vetensk. Akad., Handl. 29: 60.

Aphilodyctium rubripes nigritarsis Rohwer, 1911. U. S. Natl. Mus., Proc. 41: 408. ♀, ♂.

Taxonus inclinatus MacGillivray, 1923. Psyche 30: 78. ♂.

TRIBE ALLANTINI

Genus ALLANTUS Panzer

Allantus Panzer, 1801. Faunae Ins. German., heft 82, pl. 12.

Type-species: *Tenthredo (Allantus) togatus* Panzer. Monotypic.

Emphytus Klug, 1813. Mag. Gesell. Naturf. Freunde Berlin 7: 273.

Type-species: *Tenthredo cincta* Linnaeus. Desig. by Curtis, 1833.

This is a much larger genus in the Palaearctic region. Three of the seven North American forms were introduced.

Revision: Ross, 1937. Arb. über Morph. u. Taxonom. Ent. 4: 91.

Taxonomy: Wong, 1966. Canad. Ent. 98: 852-854.

albolabris (Rohwer). Sask., Alaska, B. C., Wash., Oreg.

Emphytus mellipes var. *albolabris* Rohwer, 1917. U. S. Natl. Mus., Proc. 53: 152. ♀.

Emphytus gemitus MacGillivray, 1923. N. Y. Ent. Soc., Jour. 31: 163. ♀.

basalis (Klug). Newfoundland, N. Y., Tenn.; Europe to Siberia, China. Introduced. Host: *Rosa*.

Tenthredo (Emphytus) basalis Klug, 1814. Mag. Gesell. Naturf. Freunde Berlin 8: 282. ♂.

cinctus (Linnaeus). Newfoundland to Va. w. to B. C., Wash.; Europe to Siberia. Ecology:

Widespread; most commonly a pest of cultivated roses. Introduced (?). Host: *Rosa*, *Fragaria*. Curled rose sawfly.

Tenthredo cinctus Linnaeus, 1758. Syst. Nat., Ed. 10, v. 1, p. 557.

Tenthredo togatus Zetterstedt, 1838. Ins. Lapp., v. 1, p. 342. ♀, ♂.

Dolerus cingulatus Blanchard, 1840. Hist. Nat. Ins., v. 3, p. 240.

Emphytus neglectus Zaddach, 1859. Programm Friedr. Col. Konigsberg, p. 27. ♂.

Emphytus cinctipes Norton, 1867. Amer. Ent. Soc., Trans. 1: 229. ♀, ♂.

Biology: Jack, 1889. Psyche 5: 279. — Britton, 1916. Conn. (State) Agr. Expt. Sta., Ann. Rpt. 1915, pt. 2, pp. 185-186. — Middleton, 1922. U. S. Dept. Agr., Farmers' Bul. 1252, 4 pp. — McNay, 1958. Canad. Ins. Pest Rev. 36: 141 (on strawberry).

Morphology: Will, 1933. Pa. Acad. Sci., Proc. 7: 30-32 (wing venation variations).

mellipes (Norton). N. B., Que. to Fla. w. to Alta., Colo. Host: *Fragaria*.

Tenthredo (Emphytus) mellipes Harris, 1835. In Hitchcock, Rpt. Geol. Mineral. Bot. Zool. Mass., p. 583. Nom. nud.

Emphytus mellipes Norton, 1861. Boston Soc. Nat. Hist., Proc. 8: 155. ♀.

Emphytus gillettei MacGillivray, 1902. In Johnson, Colo. Expt. Sta., Ann. Rpt. 15: 113. ♀.

Biology: Johnson, 1902. Colo. Expt. Sta., Ann. Rpt. 15: 113-114.

nigritibialis Rohwer. N. J., Va; Siberia, China. Possibly introduced. Host: *Rosa*(?). May be only a color form of *cinctus* (L.).

Allantus cinctus nigritibialis Rohwer, 1911. U. S. Natl. Mus., Proc. 41: 407. ♀. Described from specimens intercepted in New Jersey from Hong Kong.

umbonatus Wong, Ont., Man., Sask., Alta. Host: *Betula*.

Allantus umbonatus Wong, 1966. Canad. Ent. 98: 852. ♀.

viennensis (Schrank). N. Y. (Tompkins Co.); Europe. Introduced. Host: *Rosa*, *Rubus*.

Tenthredo Viennensis Schrank, 1781. Enum. Ins. Austr., p. 331.

Taxonomy: Smith, 1975. Coop. Econ. Ins. Rpt. 25 (10): 163-165 (first U. S. record).

Biology: Kartasheva, 1964. Zasch. Rast. ot Vred. i Boleznei 9 (10): 41-42. — Scheibelreiter, 1973. Ztschr. Angewandte Ent. 72: 243-244.

Genus MACREMPHYTUS MacGillivray

Macremphytus MacGillivray, 1908. Canad. Ent. 40: 368.

Type-species: *Harpiphorus varianus* Norton. Orig. desig.

Larvae of this North American genus feed on *Cornus* species of the osier dogwood group. After feeding, larvae sometimes bore into wood to form pupal cells.

lovetti MacGillivray. Alta., Mont., B. C., Idaho, Oreg. Ecology: Adults collected from *Cornus*.

Macremphytus lovetti MacGillivray, 1923. Psyche 30: 77. ♀.

semicornis (Say). Newfoundland to N. Y. w. to B. C. (Terrace), Man., Minn., Ill. Host: *Cornus*.

Emphytus semicornis Say, 1836. Boston Jour. Nat. Hist. 1: 220. ♀.

Macremphytus bicornis MacGillivray, 1923. Ill. Univ. Bul. 20(50): 21. ♀.

tarsatus (Say). N. B., Que. to Fla. w. to Minn., Ill., Kans., Tex. Host: *Cornus* sp., *C. alternifolia*.

Tenthredo (Emphytus) tarsata Harris, 1835. In Hitchcock, Rpt. Geol. Mineral. Bot. Zool. Mass., p. 583. Nom. nud.

Emphytus tarsatus Say, 1836. Boston Jour. Nat. Hist. 1: 220. ♀.

Emphytus bollii Norton, 1872. Amer. Ent. Soc., Trans. 4: 80. ♀.

Harpiphorus intermedius Dyar, 1900. N. Y. Ent. Soc., Jour. 8: 30. ♀, larva.

testaceus (Norton). Maine, Ont. to Ga. w. to Man., Minn., Colo. Host: *Cornus* sp., *C. stolonifera*, *C. candidissima*.

Emphytus (Harpiphorus) testaceus Norton, 1861. Boston Soc. Nat. Hist., Proc. 8: 156. ♀.

Emphytus (Harpiphorus) varianus Norton, 1861. Boston Soc. Nat. Hist., Proc. 8: 156. ♀, ♂.

Emphytus (Harpiphorus) versicolor Norton, 1867. Amer. Ent. Soc., Trans. 1: 230. ♀.

Biology: Jack, 1889. Garden and Forest 2: 520. — Riley and Howard, 1890. U. S. Dept. Agr., Insect Life 2: 239-243. — Will, 1944. Pa. Acad. Sci., Proc. 18: 48. — Will, 1959. Pa. Acad. Sci., Proc. 33: 214.

Morphology: Kreiger, Gilvert, and Wilkinson, 1970. Jour. Econ. Ent. 63: 1322-1323 (microsomal mixed-function oxidase activity).

Genus TAXONUS Hartig

Taxonus Hartig, 1837. Fam. Blattwespen und Holzwespen, nebst Einleitung Naturgesch.

Hym., p. 297.

Type-species: *Tenthredo (Allantus) nitida* Klug. Desig. by Rohwer, 1911.

Ermilia Costa, 1859. Fauna del Regno di Napoli, Imen., pt. 3, p. 106.

Type-species: *Ermilia pulchella* Costa. Monotypic.

Strongylagastoidea Ashmead, 1898. Canad. Ent. 30: 308.

Type-species: *Allantus apicalis* Say. Orig. desig.

Parasiobia Ashmead, 1898. Canad. Ent. 30: 308.

Type-species: *Allantus rufocinctus* Norton. Orig. desig.

Hypotaxonus Ashmead, 1898. Canad. Ent. 30: 311.

Type-species: *Allantus pallipes* Say. Orig. desig.

This genus is better represented in east Asia and eastern North America than in other parts of the world. Judging from the few records, plants of the Rosaceae serve as hosts.

borealis MacGillivray. Newfoundland to N. C., Tenn. w. to Mich., Wis.

Taxonus borealis MacGillivray, 1895. Canad. Ent. 27: 78. ♀.

epicera (Say). N. H., Ont. to N. C. w. to Wis., Ill. Kans., Tex.

Allantus epicera Say, 1836. Boston Jour. Nat. Hist. 1: 216. ♂.

pallicoxus (Provancher). N. S., N. B., Que. to Va. w. to Alta., Ill. Host: *Fragaria*.

Tenthredo (Taxonus) unicinctus Norton, 1862. Boston Soc. Nat. Hist., Proc. 9: 119. ♀, ♂.

Preocc. by Brulle, 1832.

Strongylogaster pallicoxus Provancher, 1885. Addit. Corr. Faune Ent. Canada Hym., p. 11. ♀, ♂.

Strongylagastoidea pallidicoxis Dalla Torre, 1894. Cat. Hym., v. 1, p. 137. Emend.

Strongylagastoidea rufocinctana MacGillivray, 1923. Ill. Univ. Bul. 20(50): 31. ♀.

pallicornis (Norton). Que., Maine, Ont. to Fla. w. to Wis., Ill., La. Host: *Rubus*.

Strongylagaster pallidicornis Norton, 1868. Amer. Ent. Soc., Trans. 2: 216. ♀.

pallipes (Say). N. H. to Ga., Ala. w. to Mich., Ill.

Allantus pallipes Say, 1823. West. Quart. Rptr. 2: 72.

Strongylagaster pallidipes Dalla Torre, 1894. Cat. Hym., v. 1, p. 137. Emend.

Strongylagastoidea rufula MacGillivray, 1923. Ill. Univ. Bul. 20(50): 32. ♀.

proximus (Provancher). Que., Maine, Ont. s. to Ga.

Strongylagaster proximus Provancher, 1885. Addit. Corr. Faune Ent. Canada Hym., p. 12. ♀.

Strongylagastoidea rufinervia MacGillivray, 1923. Ill. Univ. Bul. 20(50): 31. ♀.

rufocinctus (Norton). Que., Maine, Ont. to N. C. w. to Minn., Ill., Ark.

Allantus rufocinctus Norton, 1860. Boston Jour. Nat. Hist. 7: 248. ♀, ♂.

Taxonus (Parasiobia) rufocinctus virginicus Rohwer, 1911. U. S. Natl. Mus., Proc. 41: 405. ♀.

Strongylagastoidea unicinctella MacGillivray, 1923. Ill. Univ. Bul. 20(50): 33. ♀.

spiculatus (MacGillivray). Maine to N. C., Tenn. w. to Ohio, W. Va.

Strongylagastoidea spiculata MacGillivray, 1908. Canad. Ent. 40: 369. ♀.

terminalis (Say). N. S., N. B., Que., Ont. to Fla. w. to Minn., Ill., Tex.

Tenthredo terminalis Say, 1824. In Keating, Narr. Long's 2nd Exped., v. 2 (App.), p. 318. ♀, ♂.

Tenthredo (Allantus) melisoma Harris, 1835. In Hitchcock, Rpt. Geol. Mineral. Bot. Zool.

Mass., p. 583. Nom. nud.

Allantus apicalis Say, 1836. Boston Jour. Nat. Hist. 1: 216.

Allantus abdominalis Norton, 1860. Boston Jour. Nat. Hist. 7: 238. ♀, ♂.

Allantus melloso Norton, 1860. Boston Jour. Nat. Hist. 7: 287. ♀, ♂.

Strongylagaster rufoculus MacGillivray, 1894. Canad. Ent. 26: 327. ♀.

Strongylagastoidea confusa MacGillivray, 1908. Canad. Ent. 40: 369. ♀.

Strongylagastoidea shermani MacGillivray, 1923. Ill. Univ. Bul. 20(50): 32. ♀.

SUBFAMILY TENTHREDININAE

This subfamily contains most of the larger and more colorful members of the Tenthredinidae. Though commonly collected, hosts and life histories are known for very few species.

Taxonomy: Benson, 1959. Roy. Ent. Soc. London, Proc., Ser. B: Taxonomy 28: 121-127 (tribes).

TRIBE PERINEURINI

Genus LEUCOPELMONUS MacGillivray

Leucopelmonus MacGillivray, 1916. Conn. State Geol. and Nat. Hist. Survey Bul. 22: 83.

Type-species: *Leucopelmonus annulatus* MacGillivray. Monotypic.

annulicornis (Harrington). Newfoundland, Que., Ont. s. to N. C.

Tenthredo confusus Norton, 1869. Amer. Ent. Soc., Trans. 2: 241. ♂. Preocc. by Lepeletier, 1823.

Tenthredopsis? annulicornis Harrington, 1893. Canad. Ent. 25: 61. ♀, ♂.

Perineura turbata Rohwer, 1911. U. S. Natl. Mus., Proc. 41: 408. ♀, ♂.

Leucopelmonus annulatus MacGillivray, 1916. Conn. State Geol. and Nat. Hist. Survey, Bul. 22: 83. ♀.

TRIBE SCIAPTERYGINI

Genus ZASCHIZONYX Ashmead

Zaschizonyx Ashmead, 1898. Canad. Ent. 30: 257.

Type-species: *Hoplocampa montana* Cresson. Orig. desig.

Opisthoneura Ashmead, 1898. Canad. Ent. 30: 287.

Type-species: *Opisthoneura Crevecoeurii* Ashmead. Orig. desig.

Revision: Ross, 1929. Canad. Ent. 61: 272-273.

Taxonomy: Benson, 1959. Roy. Ent. Soc. London, Proc., Ser. B: Taxonomy 28: 127.

montana (Cresson). Ont., Minn., Ill., Iowa, Mo. w. to B. C., Wash., Calif. Host:

Symphoricarpos.

Selandria montana Cresson, 1865. Ent. Soc. Phila., Proc. 4: 244. ♀.

Selandria (Hoplocampa) gentilis Cresson, 1880. Amer. Ent. Soc., Trans. 8: 14. ♂.

Opisthoneura Crevecoeurii Ashmead, 1898. Canad. Ent. 30: 287.

Zaschizonyx(!) montana var. *drabula* Ross, 1929. Canad. Ent. 61: 272. ♀.

Zaschizonyx(!) montana subsp. *occidentalis* Ross, 1929. Canad. Ent. 61: 272. ♀.

pluricincta (Norton), Ariz., Calif.

Macrophya pluricinctus Norton, 1862. Boston Soc. Nat. Hist., Proc. 9: 118. ♀, ♂.

Macrophya albipes Provancher, 1895. Nat. Canad. 22: 95. ♀, ♂. Preocc. by Geoffroy, 1785.

Labidea doanei Rohwer, 1909. Canad. Ent. 41: 91. ♀.

Macrophya provancheri Rohwer, 1909. Canad. Ent. 41: 328. N. name for *albipes* Provancher.

Macrophya nigricornis Rohwer, 1909. Canad. Ent. 41: 329. ♀, ♂.

Macrophya occidentalis Rohwer, 1909. Canad. Ent. 41: 330. ♂.

Macrophya bakeri Rohwer, 1909. Canad. Ent. 41: 331. ♂.

Macrophya truncata Rohwer, 1909. Canad. Ent. 41: 331. ♀, ♂.

Macrophya pluricinctella Rohwer, 1909. Canad. Ent. 41: 332. ♀.

Macrophya multicincta Rohwer, 1909. Canad. Ent. 41: 333. ♀.

Macrophya melanostoma Rohwer, 1909. Canad. Ent. 41: 333. ♀.

Macrophya napensis Rohwer, 1911. U. S. Natl. Mus., Proc. 41: 410. ♀.

Morphology: Matsuda, 1957. Kans. Ent. Soc., Jour. 30: 99-108 (head).

TRIBE TENTHREDOPSINI

Genus AGLAOSTIGMA Kirby

Aglaostigma Kirby, 1882. List Hym. Brit. Mus., v. 1, p. 325.

Type-species: *Aglaostigma eburneiguttatum* Kirby. Monotypic.

Laurentia Costa, 1890. Accad. delle Sci. Fis. e Mat. Napoli, Rend. (ser. 2) 4: 173. Preocc. by Ragonot, 1888.

Type-species: *Laurentia craverii* Costa. Monotypic.

Bivena MacGillivray, 1894. Canad. Ent. 24: 328.

Type-species: *Bivena maria* MacGillivray. Orig. desig.

Homoeoneura Ashmead, 1898. Canad. Ent. 30: 313.

Type-species: *Pachyprotasis delta* Provancher. Orig. desig.

Neopus Viereck, 1910. In Smith, N. J. State Mus., Ann. Rpt. 1909, p. 585.

Type-species: *Tenthredo quatuordecimpunctatus* Norton. Orig. desig.

Macrophyopsis Enslin, 1913. Deut. Ent. Ztschr., Beih., p. 128.

Type-species: *Macrophyia nebulosa* Andre. Orig. desig.

Astochus MacGillivray, 1914. Canad. Ent. 46: 107.

Type-species: *Astochus fletcheri* MacGillivray. Orig. desig.

Kincaidia MacGillivray, 1914. Canad. Ent. 46: 107.

Type-species: *Tenthredopsis ruficornata* MacGillivray. Orig. desig.

Parallomma Malaise, 1933. Ent. Tidskr. 54: 53.

Type-species: *Rhogogaster lichtwardti* Konow. Orig. desig.

Neurosiobia Conde, 1935. Notulae Ent. 14: 79.

Type-species: *Neurosiobia malaisei* Conde. Orig. desig.

Laurentina Malaise, 1937. Rev. d'Ent. Franc. 4: 44.

Type-species: *Laurentina ruficornis* Malaise. Orig. desig.

Revision: Ross, 1943. Ent. Soc. Wash., Proc. 45: 79-84.

dilutum (Cresson). Calif.

Tenthredo diluta Cresson, 1880. Amer. Ent. Soc., Trans. 8: 24. ♀.

quatuordecimpunctatum (Norton). Que., Maine, Ont. s. to N. C. Host: *Podophyllum peltatum*.

Tenthredo 14-punctatus Norton, 1862. Ent. Soc. Phila., Proc. 1: 143. ♀, ♂.

rubens (Cresson). Idaho, Nev. B. C., Wash., Oreg., Calif.

Tenthredo rubens Cresson, 1880. Amer. Ent. Soc., Trans. 8: 24. ♂.

Tenthredo Edwardsii Cresson, 1880. Amer. Ent. Soc., Trans. 8: 24. ♀.

Tenthredo atravenus MacGillivray, 1895. Canad. Ent. 27: 283. ♂.

Astochus fletcheri MacGillivray, 1914. Canad. Ent. 46: 108. ♀.

Astochus aldrichi MacGillivray, 1914. Canad. Ent. 46: 137. ♀.

Tenthredo racilia MacGillivray, 1923. N. Y. Ent. Soc., Jour. 31: 112. ♂.

Tenthredo refractaria MacGillivray, 1923. N. Y. Ent. Soc., Jour. 31: 113. ♀.

ruficornum (MacGillivray). Wash., Oreg.

Tenthredopsis ruficornata MacGillivray, 1893. Canad. Ent. 25: 242. ♀.

semiluteum (Norton). Que., Maine to S. C. w. to Mont., Iowa, Kans. Host: *Impatiens biflora*.

Tenthredo semiluteus Norton, 1862. Boston Soc. Nat. Hist., Proc. 9: 121. ♀, ♂.

Pachyprotasis delta Provancher, 1878. Nat. Canad. 10: 108. ♀.

Bivena maria MacGillivray, 1894. Canad. Ent. 26: 328. ♀.

jocosa (Provancher). Que., N. H., Mass., Man.

Tenthredo jocosa Provancher, 1882. Nat. Canad. 13: 298. ♀.

Harpiphorus variipictus Harrington, 1889. Canad. Ent. 21: 96. ♀.

Aglaostigma dentatum Ross, 1943. Ent. Soc. Wash., Proc. 45: 82. ♀, ♂.

veedee Ross. Calif.

Aglaostigma veedee Ross, 1943. Ent. Soc. Wash., Proc. 45: 81. ♀, ♂.

TRIBE TENTHREDININI

Genus LAGIUM Konow

Lagium Konow, 1904. Ztschr. System. Hym. Dipt. 4: 246.

Type-species: *Tenthredo atrovioletaceum* Norton. Orig. desig.

Revision: Rohwer, 1912. U. S. Natl. Mus., Proc. 43: 213.

atroviolaceum (Norton). Que. to Va. w. to Wis., Ill., Kans. Host: *Sambucus*.

Tenthredo (Allantus) atroviolacea Harris, 1835. In Hitchcock, Rpt. Geol. Mineral. Bot. Zool. Mass., p. 583. Nom. nud.

Allantus atroviolaceus Norton, 1860. Boston Jour. Nat. Hist. 7: 255. ♀, ♂.

Tenthredo atroviolacea var. *peratra* Dyar, 1897. N. Y. Ent. Soc., Jour. 5: 192. ♂, larva.

Lagium angulabre Rohwer, 1912. U. S. Natl. Mus., Proc. 43: 215. ♂.

Lagium planifrons Rohwer, 1912. U. S. Natl. Mus., Proc. 43: 216. ♀, ♂.

tardum (Norton). Mass. to Ga. w. to Wis., Ill., Kans.

Tenthredo (Allantus) tarda Harris, 1835. In Hitchcock, Rpt. Geol. Mineral. Bot. Zool. Mass., p. 583. Nom. nud.

Allantus tardus Norton, 1860. Boston Jour. Nat. Hist. 7: 246. ♀, ♂.

Lagium erythrogaster Rohwer, 1912. U. S. Natl. Mus., Proc. 43: 214. ♀.

Genus RHOGOGASTER Konow

Rhogogaster Konow, 1884. Deut. Ent. Ztschr. 28: 257.

Type-species: *Tenthredo viridis* Linnaeus. Desig. by Rohwer, 1911.

Rhogogaster Konow, 1885. Wien. Ent. Ztg. 4: 123. Emend.

Primarily a Palaearctic genus with only four species in North America. Three of the six species groups separated by Benson (1965) are represented on this continent.

Revision: Ross, 1943. Pan-Pacific Ent. 19: 129-136.

Taxonomy: Benson, 1965. Roy. Ent. Soc. London, Proc., Ser. B: Taxonomy 34: 105-112 (world species and species groups).

SPECIES GROUP LATERARIA

addenda (Cresson). Mont. and Colo. w. to B. C., Wash., Oreg., Calif.

Tenthredo addenda Cresson, 1880. Amer. Ent. Soc., Trans. 8: 23. ♀.

Tenthredo vittatipes Cresson, 1880. Amer. Ent. Soc., Trans. 8: 24. ♂.

Rhogogaster truncatus Rohwer, 1912. U. S. Natl. Mus., Proc. 43: 211. ♀.

Rhogogaster pitohatus Rohwer, 1912. U. S. Natl. Mus., Proc. 43: 211. ♀.

lateraria (Cresson). Alta., Mont., Nev. w. to B. C., Wash., Oreg., Calif.

Tenthredo lateraria Cresson, 1880. Amer. Ent. Soc., Trans. 8: 23. ♀.

Tenthredo retosta MacGillivray, 1923. N. Y. Ent. Soc., Jour. 31: 109. ♂.

SPECIES GROUP CALIFORNICA

californica (Norton). Que. to Yukon s. to N. Y., Man., N. Mex., Utah, Calif.; Norway. Host:

Populus balsamifera, *P. tremuloides*.

Tenthredo californicus Norton, 1862. Ent. Soc. Phila., Proc. 1: 198. ♀.

Tenthredopsis Evansii Harrington, 1889. Canad. Ent. 21: 98. ♀.

Tenthredo ripula MacGillivray, 1923. N. Y. Ent. Soc., Jour. 31: 109. ♂.

Rhogogaster polaris Lindqvist, 1964. Notulae Ent. 44: 121. ♂.

Taxonomy: Benson, 1965. Roy. Ent. Soc. London, Proc. Ser. B: Taxonomy 34: 108.

SPECIES GROUP VIRIDIS

viridis (Linnaeus). Yukon and Alaska s. to Man., Mont., Calif.; Eurasia, Japan. Host: *Salix*, *Populus*, *Alnus*, *Ranunculus*, *Filipendula*, *Stellaria*, *Circaeae*. These hosts recorded in Europe.

Tenthredo viridis Linnaeus, 1758. Syst. Nat., Ed. 10, v. 1, p. 557. ♀.

Rhogogaster ruga MacGillivray, 1923. Canad. Ent. 55: 160. ♀.

Rhogogaster respectus MacGillivray, 1923. N. Y. Ent. Soc., Jour. 31: 165. ♀.

Rhogogaster similis Lindqvist, 1958. Notulae Ent. 38: 68.

Taxonomy: Benson, 1963. Notulae Ent. 43: 137-138 (wear and damage of saws).

Morphology: Zaewilichowska, 1953. Polski Pismo Ent. 23: 114-128 (innervation and sense organs in wings).

Genus ISCHYROCERAEA Kiaer

Ischyroceraea Kiaer, 1898. Tromsoe Mus. Aarsh. 19: 68.

Type-species: *Ischyroceraea hyperborea* Kiaer. Monotypic.

The species below is sometimes given in the genus *Eniscia* Thomson, 1870. However, the only valid type-species designation of *Eniscia* is *Tenthredo consobrina* Klug as designated by Rohwer, 1911. Because of this *Eniscia* is a synonym of *Sciapteryx* Stephens, 1835, a Palaearctic genus.

Taxonomy: Smith, 1974. Coop. Econ. Ins. Rpt. 24 (35): 707-710 (first N. Amer. record).

arctica (Thomson). Alaska (Umiat); Siberia, Scandinavia.

Eniscia arctica Thomson, 1870. Opusc. Ent. 2: 300.

Ischyroceraea hyperborea Kiaer, 1898. Tromsoe Mus. Aarsh. 19: 68.

Genus TENTHREDO Linnaeus

Tenthredo Linnaeus, 1758. Syst. Nat., Ed. 10, v. 1, p. 343.

Type-species: *Tenthredo scrophulariae* Linnaeus. Desig. by Latreille, 1810.

Labidia Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 21.

Type-species: *Labidia columbiana* Provancher. Monotypic.

Parastasis Kirby, 1881. Ent. Monthly Mag. 18: 107.

Type-species: *Parastasis indica* Kirby. Monotypic.

Rethrax Cameron, 1899. Manchester Lit. Phil. Soc., Mem. and Proc. 43: 33.

Type-species: *Rethrax carinata* Cameron. Monotypic.

Fethalia Cameron, 1902. Bombay Nat. Hist. Soc., Trans. 14: 439.

Type-species: *Fethalia nigra* Cameron. Monotypic.

Clydostomus Konow, 1908. Ztschr. System. Hym. Dipt. 8: 19.

Type-species: *Clydostomus cestatus* Konow. Desig. by Rohwer, 1911.

Tenthredella Rohwer, 1910. U. S. Natl. Mus., Proc. 39: 117.

Type-species: *Tenthredo atra* Linnaeus. Orig. desig.

Zamacrophya Rohwer, 1912. U. S. Natl. Mus., Proc. 39: 221.

Type-species: *Zamacrophya nigrilabris* Rohwer. Orig. desig.

Probably the largest sawfly genus, with over 700 described world species. Adults are large and many are brightly colored. They are commonly found on flowers of various plants where they feed on nectar and pollen and may also be factors in pollination. Adults are also predaceous on other arthropods. Hosts and biologies are known for very few species. European authors have devised their own species groups within the genus; however, until the North American forms are studied in relation to the world fauna, the species groups below are retained from previous catalogs.

Taxonomy: Rohwer, 1912. U. S. Natl. Mus., Proc. 43: 225-226 (key to species of *Labidia* [originalis group]). —Smulyan, 1923. Boston Soc. Nat. Hist., Proc. 36: 385-465 (New England species).

SPECIES GROUP ORIGINALIS

anomocera Rohwer. Alta., Wyo., Colo. w. to B. C., Oreg., Calif.

Tenthredo (Labidia) anomocerus Rohwer, 1912. U. S. Natl. Mus., Proc. 43: 223. ♀.

Tenthredo (Labidia) alienatus Rohwer, 1912. U. S. Natl. Mus., Proc. 43: 224. ♀.

Tenthredo (Labidia) anomus Rohwer, 1912. U. S. Natl. Mus., Proc. 43: 225. ♀.

devia (Konow). Alaska (Aleutian Islands to Popof Is.); Japan, N. Siberia to N. Europe.

Allantus devius Konow, 1900. Ent. Nachr. 26: 124. ♀.

Allantus heraclei Kincaid, 1900. Wash. Acad. Sci., Proc. 2: 364. ♀, ♂. Preocc. by Rudow, 1872.

Allantus alaskanus Enslin, 1910. Rev. Russe d'Ent. 10: 371. N. name for *heraclei* Kincaid.

Taxonomy: Benson, 1959. Roy. Ent. Soc. London, Proc., Ser. B: Taxonomy 28: 98.

maxima (Norton). Alta., Mont., Wyo., Colo., N. Mex. w. to Wash., Oreg., Calif.

Allantus unicinctus Norton, 1864. Ent. Soc. Phila., Proc. 3: 9. ♀, ♂. Preocc. by Brulle, 1832.

Allantus maximus Norton, 1867. Amer. Ent. Soc., Trans. 1: 263. ♀.

Allantus unicinctulus Dalla Torre, 1894. Cat. Hym., v. 1, p. 80. N. name for *unicinctus* Norton.

ocampa Ross. Ariz.; Mexico.

Zamacrophyia nigrilabris Rohwer, 1912. U. S. Natl. Mus., Proc. 43: 222. ♀, ♂. Preocc. by Friwaldozky, 1876.

Tenthredo ocampa Ross, 1951. In Muesebeck, et al., U. S. Dept. Agr., Agr. Monog. 2: 71. N. name for *nigrilabris* Rohwer.

opima (Cresson). Colo. w. to B. C., Wash., Oreg., Calif.

Allantus opimus Cresson, 1880. Amer. Ent. Soc., Trans. 8: 15. ♀, ♂.

Labidia Columbiana Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 21. ♂.

Tenthredo (Labidia) opimus coloradensis Rohwer, 1912. U. S. Natl. Mus., Proc. 43: 224. ♀.

originalis (Norton). Labrador s. to N. Y.

Allantus originalis Norton, 1867. Amer. Ent. Soc., Trans. 1: 261. ♀.

retura Ross. Nev., Calif.

Allantus nigriceps Cresson, 1880. Amer. Ent. Soc., Trans. 8: 16. ♀, ♂. Preocc. by Spinola, 1851.

Tenthredo retura Ross, 1951. In Muesebeck, et al., U. S. Dept. Agr., Agr. Monog. 2: 71. N. name for *nigriceps* Cresson.

subnigriceps (Rohwer). N. Mex., Utah w. to Wash., Oreg., Calif.

Allantus subnigriceps Rohwer, 1909. Canad. Ent. 41: 148. ♀.

SPECIES GROUP PICEOCINTA

piceocincta (Norton). Ont. to Alaska s. to N. H., N. Y., B. C., Wash.

Allantus piceocinctus Norton, 1860. Boston Jour. Nat. Hist. 7: 249. ♀.

Allantus cogitans Provancher, 1878. Nat. Canad. 10: 163. ♀.

Tenthredo basilaris Provancher, 1878. Nat. Canad. 10: 196. ♀. Preocc. by Say, 1824.

Tenthredo hudsoni Kirby, 1882. List Hym. Brit. Mus., v. 1, p. 318. ♀. A questionable synonym.

Allantus robustus Provancher, 1885. Addit. Corr. Faune Ent. Canada Hym., p. 8. ♀.

Tenthredo ruficoxa Provancher, 1885. Addit. Corr. Faune Ent. Canada Hym., p. 14. ♀.

Tenthredo ventricus MacGillivray, 1895. Canad. Ent. 27: 284. ♂.

Tenthredo sicatus MacGillivray, 1900. Canad. Ent. 32: 179. ♂.

Tenthredo lunatus MacGillivray, 1900. Canad. Ent. 32: 180. ♀.

Tenthredo harrimani Kincaid, 1900. Wash. Acad. Sci., Proc. 2: 363. ♀.

Tenthredo cynthia Enslin, 1912. Arch. f. Naturgesch. 6: 105. N. name for *basilaris* Provancher.

Tenthredo neoslossoni MacGillivray, 1914. Canad. Ent. 46: 138. ♀.

Tenthredo yuasi MacGillivray, 1920. Brooklyn Ent. Soc., Bul. 15: 112. ♀.

Tenthredo smetica MacGillivray, 1920. Brooklyn Ent. Soc., Bul. 15: 113. ♀.

Tenthredo reputinella MacGillivray, 1923. Ill. Univ. Bul. 20(50): 33. ♂.

SPECIES GROUP BASILARIS

basilaris Say. N. S., N. B., Que. to N. C. w. to Alta., Minn., Colo., N. Mex.

Tenthredo (Allantus) coronatus Harris, 1835. In Hitchcock, Rpt. Geol. Mineral. Bot. Zool. Mass., p. 583. Nom. nud.

Tenthredo basilaris Say, 1824. In Keating, Narr. Long's 2nd Exped. (App.) p. 316. ♀.

Allantus universus MacGillivray, 1923. Ill. Univ. Bul. 20(50): 6. ♀.

Tenthredo rumina MacGillivray, 1923. Canad. Ent. 55: 160. ♀.

fernaldii MacGillivray. Maine, Ont. to Pa. w. to Minn., Colo.

Allantus dubius Norton, 1860. Boston Jour. Nat. Hist. 7: 241. ♀. Preocc. by Strom, 1768.

Tenthredo fernaldii MacGillivray, 1900. Canad. Ent. 32: 177. ♀.

perplexa MacGillivray. Alaska s. to Oreg.

Tenthredo perplexus MacGillivray, 1897. N. Y. Ent. Soc., Jour. 5: 104. ♀.

Tenthredo commata Konow, 1908. Ztschr. System Hym. Dipt. 8: 90. ♀, ♂.

Tenthredo rabula MacGillivray, 1923. N. Y. Ent. Soc., Jour. 31: 112. ♂.

Tenthredo rima MacGillivray, 1923. N. Y. Ent. Soc., Jour. 31: 110. ♂.

SPECIES GROUP OLIVACEA

olivacea Klug. Yukon, Alaska; Europe to Siberia.

Tenthredo (Allantus) olivacea Klug, 1814. Mag. Gesell Naturf. Freunde Berlin 8: 193. ♀, ♂.

Tenthredo dissimulans Kincaid, 1900. Wash. Acad. Sci., Proc. 2: 363. ♀, ♂.

Rhogogastera respersus MacGillivray, 1923. N. Y. Ent. Soc., Jour. 31: 165. ♂.

SPECIES GROUP RUFOPECTA

mellicoxa Provancher. Ont. to Va. w. to Minn., W. Va.

Tenthredo mellicoxa Provancher, 1878. Nat. Canad. 10: 198. ♀, ♂.

repleta MacGillivray. Wash., Oreg.

Tenthredo repleta MacGillivray, 1923. N. Y. Ent. Soc., Jour. 31: 111. ♀, ♂.

rufopecta (Norton). N. B. to N. C. w. to Wis.

Allantus rufopectus Norton, 1860. Boston Jour. Nat. Hist. 7: 255. ♀, ♂.

rurigena MacGillivray. N. B., Que., Ont. to N. Y. w. to Minn., Colo.

Tenthredo lineata Provancher, 1878. Nat. Canad. 10: 198. ♀. Preocc. by Christ, 1791.

Tenthredo rurigena MacGillivray, 1923. Ill. Univ. Bul. 20(50): 36. ♀.

SPECIES GROUP PECTORALIS

associata Enslin. Calif.

Allantus limbatus Cresson, 1880. Amer. Ent. Soc., Trans. 8: 17. ♀. Preocc. by Klug, 1814.

Tenthredo associata Enslin, 1912. Arch. f. Naturgesch. 6: 103. N. name for *limbatus*

Cresson.

Tenthredo cryptella Ross, 1951. In Muesebeck, et al., U. S. Dept. Agr., Agr. Monog. 2: 73.

N. name for *limbatus* Cresson.

pectoralis Norton. Idaho, Colo. w. to Alaska, B. C., Wash., Oreg., Calif.

Tenthredo pectoralis Norton, 1864. Ent. Soc. Phila., Proc. 3: 11. ♂.

Tenthredo variegatus Norton, 1864. Ent. Soc. Phila., Proc. 3: 12. ♂. A questionable synonym.

Allantus afflictus Cresson, 1880. Amer. Ent. Soc., Trans. 8: 17. ♀, ♂.

Allantus nevadensis Cresson, 1880. Amer. Ent. Soc., Trans. 8: 17. ♀, ♂.

Allantus occidaneus Cresson, 1880. Amer. Ent. Soc., Trans. 8: 18. ♀.

Tenthredo parvula Cresson, 1880. Amer. Ent. Soc., Trans. 8: 22. ♂. Preocc. by Lepeletier, 1823.

Tenthredo lateralba MacGillivray, 1897. N. Y. Ent. Soc., Jour. 5: 108. ♀.

Tenthredo aldrichi MacGillivray, 1900. Canad. Ent. 32: 183. ♀.

Tenthredo atracostus MacGillivray, 1900. Canad. Ent. 32: 183. ♀.

Tenthredo nigrifascia MacGillivray, 1900. Canad. Ent. 32: 184. ♀.

Tenthredo savagei MacGillivray, 1900. Canad. Ent. 32: 184. ♀.

Tenthredo coenobita Enslin, 1912. Arch. f. Naturgesch. 6: 104. N. name for *parvula* Cresson.

Tenthredo remissa MacGillivray, 1923. N. Y. Ent. Soc., Jour. 31: 114. ♂.

Tenthredo reperta MacGillivray, 1923. N. Y. Ent. Soc., Jour. 31: 115. ♀.

Tenthredo replata MacGillivray, 1923. N. Y. Ent. Soc., Jour. 31: 115. ♀.

Tenthredo reticentia MacGillivray, 1923. N. Y. Ent. Soc., Jour. 31: 114. ♀.

Tenthredo refra MacGillivray, 1923. N. Y. Ent. Soc., Jour. 31: 167. ♀.

Tenthredo rota MacGillivray, 1923. Ill. Univ. Bul. 20(50): 34. ♀.

Tenthredo ruinosa MacGillivray, 1923. Ill. Univ. Bul. 20(50): 36. ♀.

Tenthredo ruta MacGillivray, 1923. Ill. Univ. Bul. 20(50): 37. ♀.

SPECIES GROUP ANGULIFERA

angulifera (Norton). N. B., Que. to Pa. w. to Mich., Ohio.

Allantus angulifer Norton, 1860. Boston Jour. Nat. Hist. 7: 252. ♀, ♂.

carolina (Rohwer). N. C., Ohio.

Tenthredella carolina Rohwer, 1913. U. S. Natl. Mus., Proc. 45: 275. ♀.

dissimilis (Norton). Maine, N. Y.

Allantus dissimilis Norton, 1860. Boston Jour. Nat. Hist. 7: 250. ♀.

Tenthredo bilineatus MacGillivray, 1895. Canad. Ent. 27: 282. ♀.

fisheri (Rohwer). N. J., Md., Va., Ill.

Tenthredella fisheri Rohwer, 1913. U. S. Natl. Mus., Proc. 45: 276. ♀.

glacialis (Ross). Ill.

Tenthredella glacialis Ross, 1931. Ent. Soc. Amer., Ann. 24: 110. ♀, ♂.

lobata (Norton). N. Y. to N. C. w. to Wis.

Allantus lobatus Norton, 1860. Boston Jour. Nat. Hist. 7: 253. ♀.

mantha Ross. Conn. w. to Wis., Ill.

Tenthredella lobata maculosa Smulyan, 1915. Canad. Ent. 47: 324. ♀, ♂. Preocc. by Lepetier, 1823.

Tenthredo mantha Ross, 1951. In Muesebeck, et al., U. S. Dept. Agr., Agr. Monog. 2: 73. N. name.

SPECIES GROUP LEUCOSTOMA

cinctitibialis Norton. N. H., N. Y. w. to Alta.

Tenthredo cinctitibialis Norton, 1869. Amer. Ent. Soc., Trans. 2: 239. ♀.

Tenthredo decorata Provancher, 1878. Nat. Canad. 10: 200. ♀. A questionable synonym.

erythromera Provancher. Que., S. Dak., Colo. w. to Alaska, B. C., Wash., Oreg., Calif.

Tenthredo erythromera Provancher, 1885. Addit. Corr. Faune Ent. Canada Hym., p. 13. ♀.

Tenthredo atrocoerulea Provancher, 1885. Addit. Corr. Faune Ent. Canada Hym., p. 13. ♀.

Tenthredo nigricostata Provancher, 1885. Addit. Corr. Faune Ent. Canada Hym., p. 14. ♀.

Tenthredo terminalis Provancher, 1885. Addit. Corr. Faune Ent. Canada Hym., p. 14. ♂.

Preocc. by Smith, 1878.

Tenthredo nigrisoma Harrington, 1894. Canad. Ent. 26: 195. ♀. Preocc.

Tenthredo chaonica Enslin, 1912. Arch. f. Naturgesch. 6: 105. N. name for *terminalis* Provancher.

Tenthredo regula MacGillivray, 1923. N. Y. Ent. Soc., Jour. 31: 166. ♀.

Tenthredo requieta MacGillivray, 1923. N. Y. Ent. Soc., Jour. 31: 167. ♀.

fraternalis (Ross). Alta., B. C.

Tenthredella fraternalis Ross, 1931. Ent. Soc. Amer., Ann. 24: 113. ♀.

fumipennis Norton. Calif.

Tenthredo fumipennis Norton, 1869. Amer. Ent. Soc., Trans. 2: 236. ♂.

leucostoma Kirby. N. S. to Pa. w. to Alta., S. Dak., Colo.

Tenthredo rufipes Say, 1824. In Keating, Narr. Long's 2nd Exped. (App.) p. 317. ♀. Preocc. by Linnaeus, 1758.

Tenthredo leucostoma Kirby, 1837. Fauna Bor.-Amer., v. 4, p. 256.

Tenthredo rufofasciata Norton, 1864. Ent. Soc. Phila., Proc. 3: 15. ♂.

Taxonomy: Benson, 1962. Brit. Mus. (Nat. Hist.) Ent., Bul. 12: 392 (Possibly a geographical race of *Tenthredo atra* Linnaeus, a widespread species in Eurasia).

mellipes Rohwer. Colo.

Tenthredo mellipes Rohwer, 1909. Canad. Ent. 41: 105. ♀.

nigritibialis MacGillivray. Wash.

Tenthredo nigritibialis MacGillivray, 1897. N. Y. Ent. Soc., Jour. 5: 107. ♂.

nimbipennis Cresson. Md., Ill., Ark., Tex.

Tenthredo nimbipennis Cresson, 1872. Amer. Ent. Soc., Trans. 4: 155. ♀.

remea MacGillivray. Oreg.

Tenthredo remea MacGillivray, 1923. N. Y. Ent. Soc., Jour. 31: 107. ♀.

Tenthredo remora MacGillivray, 1923. N. Y. Ent. Soc., Jour. 21: 108. ♂.

ruficollis Harrington. B. C.

Tenthredo ruficollis Harrington, 1894. Canad. Ent. 26: 195. ♀.

ruma MacGillivray. Pa.

Tenthredo ruma MacGillivray, 1923. Ill. Univ. Bul. 20(50): 36. ♂.

subcoerulea Eschscholtz. Que. to Alaska s. to Fla., Colo., Calif. Ecology: Widespread.

Tenthredo subcoerulea Eschscholtz, 1822. Entomographien, p. 91.

Allantus flavomarginis Norton, 1860. Boston Jour. Nat. Hist. 7: 254. ♀.

Tenthredo melanosoma Harrington, 1894. Canad. Ent. 26: 194. ♀.

Tenthredo pallipunctus MacGillivray, 1895. Canad. Ent. 27: 282. ♀. A questionable synonym.

Tenthredo sahlbergii Konow, 1908. Ztschr. System. Hym. Dipt. 8: 91. ♀, ♂.

SPECIES GROUP OCCIDENTALIS

bella Cresson. Colo.

Tenthredo bella Cresson, 1880. Amer. Ent. Soc., Trans. 8: 21. ♀.

occidentalis Cresson. Ont. (?), Wyo., Colo.

Tenthredo occidentalis Cresson, 1880. Amer. Ent. Soc., Trans. 8: 23. ♀.

Tenthredo vapidula Kirby, 1882. List Hym. Brit. Mus., v. 1, p. 315. ♀, ♂. A questionable synonym.

Tenthredo ferrugineipes var. *pikei* Rohwer, 1909. Canad. Ent. 41: 107. ♀.

Tenthredo varifrons Rohwer, 1909. Canad. Ent. 41: 110. ♂. A questionable synonym.

subrufescens Kirby. Ont.

Tenthredo subrufescens Kirby, 1882. List Hym. Brit. Mus., v. 1, p. 311. ♀.

SPECIES GROUP GRANDIS

color Klug. Labrador, N. B., N. H. w. to Alaska; Europe, Asia Minor, Siberia. Host: *Viburnum*, *Salix*, *Rosa*, *Corylus*, *Sorbus*. These hosts recorded in Europe.

Tenthredo (Allantus) color Klug, 1814. Mag. Gesell. Naturf. Freunde Berlin 8: 182. ♀, ♂.

Tenthredo eburneifrons Kirby, 1882. List Hym. Brit. Mus., v. 1, p. 306. ♀.

Tenthredo nigricollis Kirby, 1882. List Hym. Brit. Mus., v. 1, p. 308. ♀.

Taxonomy: Benson, 1962. Brit. Mus. (Nat. Hist.) Ent., Bul. 12: 392 (*Tenthredo livida* of American authors, not Linnaeus).

grandis (Norton). N. B., Que., Ont. s. to N. C.

Allantus grandis Norton, 1860. Boston Jour. Nat. Hist. 7: 239. ♀.

Tenthredo antennata Kirby, 1882. List Hym. Brit. Mus., v. 1, p. 308. ♀.

Tenthredo dubitatus MacGillivray, 1897. N. Y. Ent. Soc., Jour. 5: 103. ♂.

SPECIES GROUP VERTICALIS

borealis Kirby. Ont., N. Y. w. to Alta., Minn.

Tenthredo cingulata Provancher, 1878. Nat. Canad. 10: 196. ♀. Preocc.

Tenthredo borealis Kirby, 1882. List Hym. Brit. Mus., v. 1, p. 318. ♀.

Tenthredo rutila MacGillivray 1923. Canad. Ent. 55: 160. ♀.

verticalis Say. N. B., Que., Ont. to N. C. w. to Minn.

Tenthredo verticalis Say, 1824. In Keating, Narr. Long's Exped. (App.) p. 317. ♀.

Tenthredo causatus MacGillivray, 1900. Canad. Ent. 32: 178. ♂.

Tenthredo rubripes MacGillivray, 1900. Canad. Ent. 32: 178. ♂.

SPECIES GROUP SEMIRUFA

attracta Norton. "English River."

Tenthredo attractus Norton, 1869. Amer. Ent. Soc., Trans. 2: 240. ♀.

concessa Norton. Ont. to Pa. w. to Alta., S. Dak., Mont., Colo. Host: *Betula*.

Allantus tricolor Norton, 1860. Boston Jour. Nat. Hist. 7: 247. ♀. Preocc.

Tenthredo concessus Norton, 1869. Amer. Ent. Soc., Trans. 2: 238. ♀.

Tenthredo barnstoni Kirby, 1882. List Hym. Brit. Mus., v. 1, p. 314. ♀, ♂. A questionable synonym.

Tenthredo cressoni Kirby, 1882. List Hym. Brit. Mus., v. 1, p. 315. ♀.

Tenthredo uniformis Kirby, 1882. List Hym. Brit. Mus., v. 1, p. 317. ♀.

Tenthredella rohweri Smulyan, 1915. Canad. Ent. 47: 323. N. name for *tricolor* Norton.

Tenthredella tricolor var. *savanna* Ross, 1931. Ent. Soc. Amer., Ann. 24: 116. ♀.

Biology: Dyar, 1895. Amer. Ent. Soc., Trans. 12: 312.

eximia Norton. Maine to N. J. w. to Alta., Colo.

Tenthredo eximus Norton, 1869. Amer. Ent. Soc., Trans. 2: 231. ♀, ♂.

Tenthredo pallicoxa Provancher, 1878. Nat. Canad. 10: 201. ♀. A questionable synonym.

Tenthredo nova MacGillivray, 1897. N. Y. Ent. Soc., Jour. 5: 105. ♀.

ferrugineipes Cresson. Idaho, Colo., N. Mex. w. to Alaska, B. C., Oreg., Calif.

Tenthredo ferrugineipes Cresson, 1880. Amer. Ent. Soc., Trans. 8: 22. ♀.

Tenthredo sectilis Cresson, 1880. Amer. Ent. Soc., Trans. 8: 22. ♀.

Tenthredo luteipes Cresson, 1880. Amer. Ent. Soc., Trans. 8: 21. ♀. A questionable synonym.

Tenthredo terminatus MacGillivray, 1895. Canad. Ent. 27: 283. ♀.

Tenthredo aequalis MacGillivray, 1895. Canad. Ent. 27: 284. ♀.

Tenthredo rubrisomnus MacGillivray, 1900. Canad. Ent. 32: 181. ♀.

Tenthredo retinencia MacGillivray, 1923. N. Y. Ent. Soc., Jour. 31: 166. ♀.

Tenthredo rubrica MacGillivray, 1923. Ill. Univ. Bul. 20(50): 35. ♀.

lacticincta Cresson. Nev., Calif.

Tenthredo lacticincta Cresson, 1880. Amer. Ent. Soc., Trans. 8: 21. ♀, ♂.

olivatipes MacGillivray. Wash., Calif.

Allantus interruptus Norton, 1867. Amer. Ent. Soc., Trans. 1: 263. ♂. Preocc. by Fabricius, 1804.

Tenthredo olivatipes MacGillivray, 1900. Canad. Ent. 32: 180. ♀.

Tenthredo asella Enslin, 1912. Arch. f. Naturgesch. 6: 103. N. name for *interruptus* Norton.

ornaticeps (Cresson). Nev., Calif.

Allantus ornaticeps Cresson, 1880. Amer. Ent. Soc., Trans. 8: 16. ♀, ♂.

pallicola MacGillivray. N. H., Alta, N. Mex.

Tenthredo pallicola MacGillivray, 1895. Canad. Ent. 27: 80. ♀.

Tenthredo pallicola var. *beulahensis* Rohwer, 1909. Canad. Ent. 41: 108. ♀.

pleuralis Cresson. Colo.

Tenthredo pleuralis Cresson, 1865. Ent. Soc. Phila., Proc. 4: 245. ♀, ♂.

Tenthredo utensis Rohwer, 1909. Canad. Ent. 41: 109. ♀.

rabida MacGillivray. Oreg.

Tenthredo rabida MacGillivray, 1923. N. Y. Ent. Soc., Jour. 31: 110. ♀.

ralla MacGillivray. Oreg.

Tenthredo ralla MacGillivray, 1923. N. Y. Ent. Soc., Jour. 31: 111. ♀.

reduvia MacGillivray. Oreg.

Tenthredo reduvia MacGillivray, 1923. N. Y. Ent. Soc., Jour. 31: 108. ♀.

Tenthredo rabiosa MacGillivray, 1923. N. Y. Ent. Soc., Jour. 31: 112. ♀.

resima MacGillivray. Oreg.

Tenthredo resima MacGillivray, 1923. N. Y. Ent. Soc., Jour. 31: 109. ♀.

rupeola Cresson. Nev.

Tenthredo rupeola Cresson, 1880. Amer. Ent. Soc., Trans. 8: 23. ♂.

rubicunda MacGillivray. N. H.

Tenthredo rubicunda MacGillivray, 1923. Ill. Univ. Bul. 20(50): 34. ♀.

semirufa Norton. N. H. to N. C. w. to Idaho, Colo. Host: *Betula*.

Allantus signatus Norton, 1860. Boston Jour. Nat. Hist. 7: 247. ♀. Preocc. by Scopoli, 1763.

Tenthredo semirufa Norton, 1864. Ent. Soc. Phila., Proc. 3: 12. ♀.

Tenthredo semirubra Norton, 1864. Ent. Soc. Phila., Proc. 3: 14. ♀.

Tenthredo thora Kirby, 1882. List Hym. Brit. Mus., v. 1, p. 310. ♀, ♂. A questionable synonym.

Tenthredo remota MacGillivray, 1895. Canad. Ent. 27: 81. ♀.

Tenthredo junghansii MacGillivray, 1900. Canad. Ent. 32: 179. ♀.

Tenthredo denotata Enslin, 1912. Arch. f. Naturgesch. 6: 105. Unnecessary n. name for *basilaris* MacGillivray, 1897.

Tenthredo ruina MacGillivray, 1923. Ill. Univ. Bul. 20(50): 36. ♀.

Tenthredo rusticana MacGillivray, 1923. Ill. Univ. Bul. 20(50): 37. ♀.

Tenthredo russa MacGillivray, 1923. Ill. Univ. Bul. 20(50): 37. ♀.

Taxonomy: Dyar, 1897. N. Y. Ent. Soc., Jour. 5: 19 (larva and host of *remota* MacGillivray). variata Norton. Colo., Wash.

Tenthredo variata Norton, 1864. Ent. Soc. Phila., Proc. 3: 12. ♀, ♂.

Tenthredo capitatus MacGillivray, 1897. N. Y. Ent. Soc., Jour. 5: 108. ♀.

varipicta Norton. Alaska s. to Nev., Calif.

Tenthredo varipictus Norton, 1868. Amer. Ent. Soc., Trans. 2: 234. ♀.

Tenthredo scaevola Cresson, 1880. Amer. Ent. Soc., Trans. 8: 20. ♀.

Tenthredo magnifica MacGillivray, 1893. Canad. Ent. 25: 240. ♀.

Tenthredo linipes MacGillivray, 1897. N. Y. Ent. Soc., Jour. 5: 104. ♂.

SPECIES GROUP SECUNDA

nortoni (Smulyan). Mass., N. Y., N. J.

Tenthredo angulatus Norton, 1864. Ent. Soc. Phila., Proc. 3: 13. ♂. Preocc. by Westwood, 1838.

Tenthredella nortoni Smulyan, 1915. Canad. Ent. 47: 321. ♂.

relativa Rohwer. Nebr.

Tenthredo relativus Rohwer, 1909. Canad. Ent. 41: 108. ♀.

rhammisia MacGillivray. B. C., Wash., Oreg.

Tenthredo rhammisia MacGillivray, 1923. Ill. Univ. Bul. 20(50): 33. ♀.

rutata MacGillivray. N. J.

Tenthredo rutata MacGillivray, 1923. Ill. Univ. Bul. 20(50): 38. ♀.

secunda MacGillivray. N. H., Mass., N. Y., Ont.

Tenthredo secundus MacGillivray, 1897. N. Y. Ent. Soc., Jour. 5: 105. ♀.

Tenthredo simulatus MacGillivray, 1897. N. Y. Ent. Soc., Jour. 5: 105. ♀.

stricklandi (Ross). Alta., Idaho, Alaska, Oreg.

Tenthredella stricklandi Ross, 1931. Ent. Soc. Amer., Ann. 24: 117. ♀, ♂.

vellosa Ross. Conn.

Tenthredo formosus Norton, 1864. Ent. Soc. Phila., Proc. 3: 14. ♀, ♂. Preocc. by Klug, 1814.

Tenthredo vellosa Ross, 1951. In Muesebeck, et al., U. S. Dept. Agr., Agr. Monog. 2: 77. N. name.

SPECIES GROUP XANTHA

macgillivrayi (Smulyan). N. B., Que., Vt. w. to Alta.

Tenthredella macgillivrayi Smulyan, 1915. Canad. Ent. 47: 323. ♀.

mellina (Norton). Maine.

Allantus mellinus Norton, 1860. Boston Jour. Nat. Hist. 7: 248. ♀, ♂.

obscuripennis Cresson. Oreg., Nev., Calif.

Tenthredo obscuripennis Cresson, 1880. Amer. Ent. Soc., Trans. 8: 20. ♀.

Tenthreda rubella Cresson, 1880. Amer. Ent. Soc., Trans. 8: 22. ♂.

prosopa Stannard. N. Y. to Ga.

Tenthredo prosopa Stannard, 1947. Ent. Soc. Amer., Ann. 40: 434. ♀, ♂.

redimacula MacGillivray. N. H., Ont.

Tenthredo vittata Kirby, 1882. List Hym. Brit. Mus., v. 1, p. 319. ♀. Preocc. by Kriechbaumer, 1869.

Tenthredo redimacula MacGillivray, 1895. Canad. Ent. 27: 78. ♀.

Tenthredo consoma Enslin, 1912. Arch. f. Naturgesch. 6: 105. N. name for *vittata* Kirby.

xantha Norton. Maine, Ont. to Alaska s. to Minn., N. Mex., S. Dak., Utah, Calif. Ecology:

Widespread. Host: *Rubus*(?).

Tenthredo xanthus Norton, 1864. Ent. Soc. Phila., Proc. 3: 13. ♀.

Tenthredo ruficolor Norton, 1868. Amer. Ent. Soc., Trans. 2: 228. ♀.

Tenthredo nupera Cresson, 1880. Amer. Ent. Soc., Trans. 8: 22. ♂. A questionable synonym.

Tenthredo castanea Kirby, 1882. List Hym. Brit. Mus., v. 1, p. 319. ♀.

Allantus rubricus Provancher, 1885. Addit. Corr. Faune Ent. Canada Hym., p. 9. ♀.

Tenthredo reliqua MacGillivray, 1923. N. Y. Ent. Soc., Jour. 31: 168. ♀.

Tenthredo resticula MacGillivray, 1923. N. Y. Ent. Soc., Jour. 31: 168. ♀.

Biology: Smith and Kido, 1949. Hilgardia 19: 54 (host).

SPECIES GROUP BIGEMINA

bigemina (Dyar). B. C. s. to Nev., Calif.

Allantus annularis Norton, 1867. Amer. Ent. Soc., Trans. 1: 262. ♀, ♂. Preocc. by Schrank, 1776.

Allantus elegantulus Cresson, 1880. Amer. Ent. Soc., Trans. 8: 17. ♀, ♂. Preocc. by Fallen, 1808.

Labidia opimus var. *bigeminus* Dyar, 1893. Canad. Ent. 25: 195. ♀.

Tenthredo obliquatus MacGillivray, 1897. N. Y. Ent. Soc., Jour. 5: 105. ♀, ♂.

Tenthredo elegantula oregonia Rohwer, 1911. U. S. Natl. Mus., Proc. 41: 411. ♀.

Tenthredo admeta Enslin, 1912. Arch. f. Naturgesch. 6: 103. N. name for *annularis* Norton.

Tenthredo arethusa Enslin, 1912. Arch. f. Naturgesch. 6: 103. N. name for *elegantulus* Cresson.

UNPLACED TAXA OF TENTHREDO LINNAEUS

Most of the species in the following list were described from males and belong to groups in which it is impossible to identify this sex with any degree of certainty.

alpestris Rohwer. Colo.

Tenthredo alpestris Rohwer, 1909. Canad. Ent. 41: 146. ♂.

auraria Konow. Alaska (Ft. Wrangel).

Tenthredo auraria Konow, 1899. Ent. Nachr. 25: 7. ♀.

bivittata Kincaid. Alaska.

Tenthredo bivittata Kincaid, 1900. Wash. Acad. Sci., Proc. 2: 364. ♀.

cinctitibialis abdominalis (Smulyan), n. comb. N. H.

Tenthredella cinctitibialis abdominalis Smulyan, 1915. Canad. Ent. 47: 324. ♀. Preocc. by Fabricius, 1798.

discrepans Norton. Ont.

Tenthredo discrepans Norton, 1868. Amer. Ent. Soc., Trans. 2: 235. ♂.

divergens Rohwer. Colo.

Tenthredo divergens Rohwer, 1909. Canad. Ent. 41: 112. ♂.

diversiceps Rohwer. N. B.

Tenthredo diversiceps Rohwer, 1910. U. S. Natl. Mus., Proc. 38: 208. ♂.

frigida MacGillivray. N. H., Wash.

Tenthredo frigida MacGillivray, 1895. Canad. Ent. 27: 80. ♂.

hyalina MacGillivray. N. Y.

Tenthredo hyalina MacGillivray, 1897. N. Y. Ent. Soc., Jour. 5: 108. ♂. Preocc.

hypoleuca Rohwer. Colo.

Tenthredo hypoleuca Rohwer, 1909. Canad. Ent. 41: 147. ♂.

juga Konow. Alaska.

Tenthredo juga Konow, 1908. Ztschr. System. Hym. Dipt. 8: 89. ♀.

lovetti Benson. Oreg.

Tenthredo rustica MacGillivray, 1923. N. Y. Ent. Soc., Jour. 31: 113. ♂. Preocc. by Linnaeus, 1758.

Tenthredo lovetti Benson, 1930. Entomologist 63: 107. N. name.

magnata MacGillivray. Wash.

Tenthredo magnatus MacGillivray, 1897. N. Y. Ent. Soc., Jour. 5: 107. ♂.

messica MacGillivray. Wash.

Tenthredo messica MacGillivray, 1897. N. Y. Ent. Soc., Jour. 5: 107. ♂.

messicaeformis Rohwer. Colo.

Tenthredo messicaeformis Rohwer, 1909. Canad. Ent. 41: 147. ♂.

mimula Cresson. Colo.

Tenthredo mimula Cresson, 1880. Amer. Ent. Soc., Trans. 8: 23. ♂.

morosa Cresson. Colo.

Tenthredo morosa Cresson, 1880. Amer. Ent. Soc., Trans. 8: 23. ♂.

mutans Norton. Canada.

Tenthredo mutans Norton, 1869. Amer. Ent. Soc., Trans. 2: 236. ♂.

nigricoxi MacGillivray. Wash.

Tenthredo nigricoxi MacGillivray, 1900. Canad. Ent. 32: 181. ♂.

pallipectis MacGillivray. Wash.

Tenthredo pallipectis MacGillivray, 1897. N. Y. Ent. Soc., Jour. 5: 106. ♂.

refluua MacGillivray. Oreg.

Tenthredo refluua MacGillivray, 1923. N. Y. Ent. Soc., Jour. 31: 111. ♂.

reposita MacGillivray. Oreg.

Tenthredo reposita MacGillivray, 1923. N. Y. Ent. Soc., Jour. 31: 116. ♂.

reputina MacGillivray. Oreg.

Tenthredo reputina MacGillivray, 1923. N. Y. Ent. Soc., Jour. 31: 114. ♂.

resegmina MacGillivray. Oreg.

Tenthredo resegmina MacGillivray, 1923. N. Y. Ent. Soc., Jour. 31: 115. ♂.

restricta MacGillivray. Oreg.

Tenthredo restricta MacGillivray, 1923. N. Y. Ent. Soc., Jour. 31: 110. ♂.

resupina MacGillivray. Oreg.

Tenthredo resupina MacGillivray, 1923. N. Y. Ent. Soc., Jour. 31: 113. ♂.

retroversa MacGillivray. Alaska.

Tenthredo retroversa MacGillivray, 1923. N. Y. Ent. Soc., Jour. 31: 164. ♂.

rotula MacGillivray. N. Y.

Tenthredo rotula MacGillivray, 1923. Ill. Univ. Bul. 20(50): 34. ♂.

rudicula MacGillivray. Maine.

Tenthredo rudicula MacGillivray, 1923. Ill. Univ. Bul. 20(50): 35. ♀.

rufescens (Norton). Maine.

Allantus rufescens Norton, 1860. Boston Jour. Nat. Hist. 7: 245. ♀.

rufostigma MacGillivray. Idaho.

Tenthredo rufostigma MacGillivray, 1895. Canad. Ent. 27: 283. ♂.

rusticula MacGillivray. Alaska.

Tenthredo rusticula MacGillivray, 1923. N. Y. Ent. Soc., Jour. 31: 166. ♂.

sectiliformis Rohwer. Colo.

Tenthredo sectiliformis Rohwer, 1909. Canad. Ent. 41: 145. ♀.

slossonii MacGillivray. N. H.

Tenthredo slossonii MacGillivray, 1900. Canad. Ent. 32: 179. ♂.

stigmata MacGillivray. Wash.

Tenthredo stigmatus MacGillivray, 1897. N. Y. Ent. Soc., Jour. 5: 108. ♂.

suavis Cresson. Nev.

Tenthredo suavis Cresson, 1880. Amer. Ent. Soc., Trans. 8: 21. ♂.

titusi Rohwer. Colo.

Tenthredo titusi Rohwer, 1909. Canad. Ent. 41: 111. ♂.

varians Norton. Canada.

Tenthredo varians Norton, 1868. Amer. Ent. Soc., Trans. 2: 235. ♂.

ventralis (Say). Ark.

Allantus ventralis Say, 1823. West. Quart. Rptr. 2: 71.

zelmira Rohwer. Colo.

Tenthredo zelmirus Rohwer, 1909. Canad. Ent. 41: 109. ♂.

zetes Kirby. Ont.

Tenthredo zetes Kirby, 1882. List Hym. Brit. Mus., v. 1, p. 312. ♂.

TRIBE MACROPHYINI

Genus MACROPHYA Dahlbom

Tenthredo subg. *Macrophya* Dahlbom, 1835. Conspectus Tenthred., Siricid., Oryssin. Scand., p. 11.

Type-species: *Tenthredo rusticus* Linnaeus Desig. by Westwood, 1840. *T. rusticus* in sense of authors at that time.

Zalagium Rohwer, 1912. U. S. Natl. Mus., Proc. 43: 216.

Type-species: *Zalagium clypeatum* Rohwer. Orig. desig.

A large holarctic genus. Little is known of the hosts and biologies for most species.

Taxonomy: Middleton, 1922. U. S. Natl. Mus., Proc. 61: 6-11 (larvae). — Ross, 1931. Ent. Soc.

Amer., Ann. 24: 119-128 (species with white apical antennal segments). — Malaise and Benson, 1934. Arkiv for Zool. 26A: 4-5 (*Tenthredo rustica* L. is Argidae; *T. rusticus* auct., nec Linnaeus = *Macrophya montana* (Scopoli)).

alba MacGillivray. Que. to Pa. w. to Wis., Ind.

Macrophya pulchella alba MacGillivray, 1895. Canad. Ent. 27: 285. ♀, ♂.

Macrophya zonata Konow, 1899. Wien. Ent. Ztg. 18: 44. Unnecessary N. name for *alba*.

annulipes Cresson. Nev., Calif.

Macrophya annulipes Cresson, 1880. Amer. Ent. Soc., Trans. 8: 18. ♀.

bifasciata (Say). Conn. to Fla. w. to Okla., Tex.

Tenthredo (Allantus) media Harris, 1835. In Hitchcock, Rpt. Geol. Mineral. Bot. Zool. Mass., p. 583. Nom. nud.

Allantus bifasciatus Say, 1823. West. Quart. Rptr. 2: 72. ♀.

Macrophya medius Norton, 1861. Boston Soc. Nat. Hist., Proc. 9: 118.

Macrophya texana Cresson, 1880. Amer. Ent. Soc., Trans. 8: 52. ♀, ♂.

Macrophya zabriskieei Rohwer, 1912. U. S. Natl. Mus., Proc. 43: 218. ♀, ♂.

castaneae Rohwer. Va. Host: *Castanea dentata*.

Macrophya castaneae Rohwer, 1917. U. S. Natl. Mus., Proc. 53: 151. ♂.

cinctula (Norton). Conn. to Ga. w. to Minn., Ill.

Tenthredo atroviolacea var. *cinctulus* Norton, 1869. Amer. Ent. Soc., Trans. 2: 240. ♀.

Allantus dejectus Norton, 1860. Boston Jour. Nat. Hist. 7: 249. ♂. A questionable synonym.

Macrophya abbotii Kirby, 1882. List Hym. Brit. Mus., v. 1, p. 269. ♂.

Zalagium clypeatum Rohwer, 1912. U. S. Natl. Mus., Proc. 43: 217. ♂.

coquilletti (Rohwer). Calif.

Sciapteryx coquilletti Rohwer, 1912. U. S. Natl. Mus., Proc. 43: 212. ♀, ♂.

fascialis Norton. N. Y. to Md. w. to Mich., Ill.

Macrophya fascialis Norton, 1867. Amer. Ent. Soc., Trans. 1: 276. ♀.

Macrophya fascialis var. *puello* Ross, 1931. Ent. Soc. Amer., Ann. 24: 123. ♀, ♂.

flavicoxae (Norton). N. B., Ont. to Ga. w. to Alta., Wis.

Allantus flavicoxae Norton, 1860. Boston Jour. Nat. Hist. 7: 258. ♀.

Allantus incertus Norton, 1860. Boston Jour. Nat. Hist. 7: 258. ♂.

Selandria canadensis Provancher, 1885. Addit. Corr. Faune Ent. Canada Hym., p. 7. ♀.

Macrophya flavicoxis Dalla Torre, 1894. Cat. Hym., v. 1, p. 52. Emend.

formosa (Klug). Mass. to Fla. w. to Ohio.

Tenthredo (Allantus) formosa Klug, 1814. Mag. Gesell. Naturf. Freunde Berlin 8: 115. ♀.

Allantus bicinctus Norton, 1860. Boston Jour. Nat. Hist. 7: 241. ♀, ♂.

fumator Norton. Colo., Idaho w. to B. C., Wash., Oreg., Calif.

Macrophya fumator Norton, 1867. Amer. Ent. Soc., Trans. 1: 279. ♀.

Macrophya maura Cresson, 1880. Amer. Ent. Soc., Trans. 8: 18. ♀.

Macrophya jugosa Cresson, 1880. Amer. Ent. Soc., Trans. 8: 18. ♀.

Macrophya bicolorata Cresson, 1880. Amer. Ent. Soc., Trans. 8: 18. ♀.

Macrophya funatrix Kirby, 1882. List Hym. Brit. Mus., v. 1, p. 275. Misspelling ?.

Synairema pacifica Provancher, 1885. Addit. Corr. Faune Ent. Canada Hym. p. 15. ♀.

Perineura kincaidia MacGillivray, 1895. Canad. Ent. 27: 7. ♀.

Macrophya obrussa MacGillivray, 1923. Ill. Univ. Bul. 20(50): 22. ♂.

goniphora (Say). N. Y. to Ga., Ala.

Allantus goniphorus Say, 1836. Boston Jour. Nat. Hist. 1: 216. ♀, ♂.

intermedia (Norton). Conn., N. Y. w. to Wis., Nebr., Mo.

Allantus intermedius Norton, 1860. Boston Jour. Nat. Hist. 7: 242. ♀, ♂.

Macrophya simillima Rohwer, 1917. Ent. News 28: 265. ♀, ♂.

- nebraskensis* Rohwer. Nebr.
Macrophya sambuci Rohwer, 1909. Canad. Ent. 41: 15. ♀. Preocc. by Latreille, 1805.
Macrophya nebraskensis Rohwer, 1912. U. S. Natl. Mus., Proc. 43: 220. N. name.
- nigra* (Norton). N. H. to Ala. w. to Ill., Kans.
Allantus niger Norton, 1860. Boston Jour. Nat. Hist. 7: 239. ♀.
- nigristigma* Rohwer. Conn., Pa., W. Va. Host: *Hicoria*.
Macrophya nigristigma Rohwer, 1912. U. S. Natl. Mus., Proc. 43: 219. ♀.
Macrophya melanopleura MacGillivray, 1914. Canad. Ent. 46: 139. ♀.
- Taxonomy: Middleton, 1922. U. S. Natl. Mus., Proc. 61: 9 (larva).
- pulchella* (Klug). Ont., Conn. to Va. w. to Wis., Nebr., Colo., Miss. Host: *Aster*, *Solidago*, *Rudbeckia*.
Tenthredo (Allantus) pulchella Klug, 1814. Mag. Gesell. Naturf. Freunde Berlin 8: 121. ♂.
Allantus flavolineatus Norton, 1860. Boston Jour. Nat. Hist. 7: 259. ♀, ♂.
Macrophya lineata Norton, 1867. Amer. Ent. Soc., Trans. 1: 269. ♀.
Macrophya zoe Kirby, 1882. List Hym. Brit. Mus., v. 1, p. 270. ♀.
Macrophya crassicornis Provancher, 1888. Addit. Corr. Faune Ent. Canada Hym., p. 352. ♂. A questionable synonym.
Macrophya lineatana Rohwer, 1912. U. S. Natl. Mus., Proc. 43: 220. ♀.
Macrophya confusa MacGillivray, 1914. Canad. Ent. 46: 139. ♀.
- pulchelliformis* Rohwer. Nebr.
Macrophya pulchelliformis Rohwer, 1909. Canad. Ent. 41: 15. ♂.
- pulcherrima* Kirby. Fla.
Macrophya pulcherrima Kirby, 1882. List Hym. Brit. Mus., v. 1, p. 275. ♂.
- pumila* Norton. Alaska s. to Calif.
Macrophya pumilus Norton, 1867. Amer. Ent. Soc., Trans. 1: 272. ♂.
Macrophya oregonia Cresson, 1880. Amer. Ent. Soc., Trans. 8: 19. ♀.
Macrophya obaereta MacGillivray, 1923. Ill. Univ. Bul. 20(50): 21. ♀.
Macrophya oregonia var. *dukiae* Ross, 1931. Ent. Soc. Amer., Ann. 24: 122. ♀, ♂.
- punctatumalbum* (Linnaeus). Ont.; Europe to Caucasus. Introduced (?). Host: *Fraxinus*, *Ligustrum*. Hosts recorded in Europe.
Tenthredo punctatum album Linnaeus, 1767. Syst. Nat., Ed. 12, p. 924.
Tenthredo erythropus Schrank, 1776. Beitr. z. Naturgesch., p. 86.
- subviolacea* Cresson. Calif.
Macrophya subviolacea Cresson, 1880. Amer. Ent. Soc., Trans. 8: 18. ♀.
- succincta* Cresson. Conn., N. Y. to Ga. w. to Sask., Mont., Kans., Tex.
Macrophya succincta Cresson, 1880. Amer. Ent. Soc., Trans. 8: 19. ♀.
Macrophya xanthonota Rohwer, 1912. U. S. Natl. Mus., Proc. 43: 218. ♀.
- trisyllaba* (Norton). N. B., Que. to Md. w. to Alta., Wis., Ill., Ala. Host: *Sambucus*.
Tenthredo (Allantus) trisyllabus Harris, 1835. In Hitchcock, Rpt. Geol. Mineral. Bot. Zool. Mass., p. 583. Nom. nud.
Allantus trisyllabus Norton, 1860. Boston Jour. Nat. Hist. 7: 238. ♀.
Macrophya trisyllabus var. *sinannula* Ross, 1931. Ent. Soc. Amer., Ann. 24: 127. ♀, ♂.
- Taxonomy: Dyar, 1897. N. Y. Ent. Soc., Jour. 5: 192 (larva). — Middleton, 1922. U. S. Natl. Mus., Proc. 61: 8 (larva).
- etrosula* (Norton). N. H. to Va. w. to Minn., Ill.
Tenthredo (Allantus) retrosula Harris, 1835. In Hitchcock, Rpt. Geol. Mineral. Bot. Zool. Mass., p. 583. Nom. nud.
Allantus retrosula Norton, 1860. Boston Jour. Nat. Hist. 7: 244. ♀.
Macrophya albifacies Kirby, 1882. List Hym. Brit. Mus., v. 1, p. 271. ♀.
Macrophya dyari Rohwer, 1911. U. S. Natl. Mus., Proc. 41: 410. ♀.
Macrophya ornata MacGillivray, 1914. Canad. Ent. 46: 139. ♀.
- varia* (Norton). N. B., Que. to N. Y. w. to Man., Minn., Ill.
Allantus varius Norton, 1860. Boston Jour. Nat. Hist. 7: 240. ♀.
Macrophya eurythmia Norton, 1867. Amer. Ent. Soc., Trans. 1: 276. ♀, ♂.
Macrophya nidonea MacGillivray, 1895. Canad. Ent. 27: 77. ♂.
Macrophya varius var. *festana* Ross, 1931. Ent. Soc. Amer., Ann. 24: 124. ♀.

- Macrophya varius* var. *nordicola* Ross, 1931. Ent. Soc. Amer., Ann. 24: 125. ♀, ♂.
zonalis Norton. Que. to Md. w. to Minn.
Macrophya zonalis Norton, 1864. Ent. Soc. Phila., Proc. 3: 11. ♀.

UNPLACED TAXA OF MACROPHYA DAHLBOM

The names in the following list fall into a difficult complex previously known as the Epinota complex. The species are merely listed without regard to possible synonymy.

albilabris Harrington. Ont. (Ottawa).

Macrophya albilabris Harrington, 1893. Canad. Ent. 25: 60. ♂.

albomaculata (Norton). Maine, Conn. Host: *Viburnum*(?).

Allantus albomaculata Norton, 1860. Boston Jour. Nat. Hist. 7: 256. ♀, ♂.

bellula MacGillivray. N. J.

Macrophya bellula MacGillivray, 1923. Brooklyn Ent. Soc., Bul. 18: 55. ♀.

bilineata MacGillivray. Conn., Ill. Host: *Viburnum*(?).

Macrophya bilineata MacGillivray, 1916. Conn. State Geol. and Nat. Hist. Survey, Bul. 16: 96. ♀.

cassandra Kirby. N. Y.

Macrophya cassandra Kirby, 1882. List Hym. Brit. Mus., v. 1, p. 273. ♀.

cesta (Say). U. S.

Allantus cestus Say, 1836. Boston Jour. Nat. Hist. 1: 216. ♀, ♂.

contaminata Provancher. Canada.

Macrophya contaminata Provancher, 1878. Nat. Canad. 10: 105. ♀.

Macrophya fuscoterminata Rohwer, 1911. U. S. Natl. Mus., Proc. 41: 410. ♀.

epinota (Say). N. H. to Va. w. to Kans., Colo. Host: *Sambucus*.

Tenthredo (Allantus) sambuci Harris, 1833. In Hitchcock, Rpt. Geol. Mineral. Bot. Zool. Mass., p. 586. Nom. nud.

Allantus epinotus Say, 1836. Boston Jour. Nat. Hist. 1: 215. ♀, ♂.

Taxonomy: Middleton, 1922. U. S. Natl. Mus., Proc. 61: 6 (larva).

errans Rohwer. Pa.

Macrophya errans Rohwer, 1911. U. S. Natl. Mus., Proc. 41: 411. ♀.

externa (Say). Mo., Kans. Host: *Carya*.

Allantus externus Say, 1823. West. Quart. Rptr., p. 72. ♀.

externiformis Rohwer. Wis.

Macrophya externiformis Rohwer, 1912. U. S. Natl. Mus., Proc. 43: 220. ♀.

fistula MacGillivray. N. Y.

Macrophya fistula MacGillivray, 1920. Brooklyn Ent. Soc., Bul. 15: 114. ♀.

flaccida MacGillivray. N. Y.

Macrophya flaccida MacGillivray, 1920. Brooklyn Ent. Soc., Bul. 15: 113. ♀.

flieta MacGillivray. N. Y.

Genus PACHYPROTASIS Hartig

Pachyprotasis Hartig, 1837. Fam. Blattwespen und Holzwespen, nebst Einleitung

Naturgesch. Hym., p. 295.

Type-species: *Tenthredo rapae* Linnaeus. Desig. by Westwood, 1840.

Lithracia Cameron, 1902. Bombay Nat. Hist. Soc., Jour. 14: 441.

Type-species: *Lithracia flavipes* Cameron. Monotypic.

This genus is better represented in Eurasia. Only a single holarctic species is found in North America.

rapae (Linnaeus). Newfoundland to Alaska s. to N. C., Tenn., Mo., N. Mex., Calif.; Europe to Siberia. Ecology: Widespread. Host: *Solidago*, *Scrophularia*, *Betonica*, *Fraxinus*,

Antirrhinum. These hosts recorded in Europe.

Tenthredo rapae Linnaeus, 1767. Syst. Nat., Ed. 12, p. 926.

Tenthredo nigrofasciata Eschscholtz, 1822. Entomographien, p. 96. A questionable synonym.

Macrophya (Pachyprotasis) omega Norton, 1867. Amer. Ent. Soc., Trans. 1: 280. ♀, ♂.

Synairema Americana Provancher, 1885. Canad. Ent. 17: 50. ♀.

Mass., p. 583. Nom. nud.

Emphytus platycerus Say, 1836. Boston Jour. Nat. Hist. 1: 220. ♂. Ind.

Superfamily SIRICOIDEA

Family SYNTEXIDAE

Taxonomy: Benson, 1935. Ann. and Mag. Nat. Hist., ser. 10, 16: 536. — Ross, 1937. Ill. Biol. Monog. 15(2): 110 (Syntectidae). — Klima, 1937. In Hedicke, Hym. Cat., pt. 2, p. 53 (catalog).

Genus SYNTEXIS Rohwer

Syntexis Rohwer, 1915. Ent. Soc. Wash., Proc. 17: 115.

Type-species: *Syntexis libocedrii* Rohwer. Orig. desig.

libocedrii Rohwer. Idaho (?), Oreg., Calif. Ecology: Larvae are wood borers. Host: *Libocedrus decurrens*, *Juniperus occidentalis*, and *Thuja plicata*(?).

Syntexis libocedrii Rohwer, 1915. Ent. Soc. Wash., Proc. 17: 115. ♀.

Taxonomy: Middlekauff, 1964. Pan-Pacific Ent. 40: 257 (male, host, distribution).

—Middlekauff, 1975 (1974). Pan-Pacific Ent. 50: 288-290 (larva).

Biology: Wickman, 1967. Ent. Soc. Amer., Ann. 60: 1291-1294. —Westcott, 1971. Pan-Pacific Ent. 47: 310 (hosts, distribution).

Family SIRICIDAE

Larvae of this family are wood borers, members of the Siricinae in coniferous trees and those of the Tremicinae in angiosperm trees. The North American species are not known to attack sound trees, only those that have been weakened or recently felled. Fire damaged trees are particularly attractive to adults for oviposition, and large populations may build up in recent burns. The boring of the larvae reduces the quality of lumber and the emergence of the adults may damage buildings where they may bore through plaster walls, carpeting, and hardwood floors to exit. In Europe, *Urocerus gigas gigas* (L.) has been reported to cut through metal and lead telephone cables. Because of their habits, some species have been spread by commerce to many parts of the world, and it is not uncommon to find them out of their normal range.

The family is cosmopolitan except perhaps for South America. About 85 species in 9 genera are known from the world. The common names horntails or woodwasps are sometimes used for this family.

Revision: Bradley, 1913. Jour. Ent. and Zool. 5: 1-36 (N. Amer. species). —Benson, 1943. Bul. Ent. Res. 34: 27-51 (world genera). —Middlekauff, 1960. Calif. Ins. Survey, Bul. 6(4): 59-77 (Calif. species).

Taxonomy: Johnson, 1928. Boston Soc. Nat. Hist., Bul. 49: 2-7 (New England species). —Hedicke, 1938. Hym. Cat., pt. 6, 32 pp. (world catalog). —Benson, 1938. Roy. Ent. Soc.

Genus ERIOTREMEX Benson

Eriotremex Benson, 1943. Bul. Ent. Res. 34: 42.

Type-species: *Tremex smithi* Cameron. Orig. desig.

This genus of about 10 species is found in southeast Asia. The single species taken in the United States is undoubtedly an introduction.

Taxonomy: Benson, 1943. Bul. Ent. Res. 34: 42 (key to spp.). —Maa, 1949. Notes d'Ent. Chinoise (Mus. Heude) 13: 127-134, 175-176. —Maa, 1956. Hawaii. Ent. Soc., Proc. 16: 91-92 (key to females).

formosanus (Matsumura). Ala. (Covington Co., Coffee Co.); Formosa; Indochina. Ecology: In Ala., emerged from firewood (water-oak tree) in home. Accidentally introduced.
Tremex formosanus Matsumura, 1912. Thous. Ins. Japan, Sup., v. 4, p. 21, pl. 43, fig. 12. ♀.

Family XIPHYDRIIDAE

Larvae of this family are wood borers in dead or dying angiosperm trees. Healthy trees and sound wood are not attacked. Adults sometimes emerge from firewood brought into homes, consequently arousing concern. The family is cosmopolitan with about 82 species in 22 genera; only one genus is found in North America.

Family ORUSSIDAE

Larvae of this family are believed to be parasites of wood boring insects, particularly beetle larvae. *Guiglia schauinslandi* (Ashmead) of New Zealand has been documented as a parasite of the siricid, *Sirex noctilio* (Fabricius). Adults are most commonly collected from standing or downed dead trees on which they have a characteristic upward and downward or back and forth running pattern. The family is cosmopolitan and contains about 66 species in 14 genera with the bulk of the species found in the tropical regions.

Type-species: *Ophrynopus andrei* Konow. Desig. by Rohwer, 1911.

Ophrynella Ross, 1937. Ill. Biol. Monog. 15(2): 113.

Type-species: *Oryssus nigricans* Cameron. Orig. desig.

This genus contains 7 Neotropical species, one of which reaches Texas. An unidentified species has been collected in Arizona.

nigricans (Cameron). Tex.; Guatemala.

Oryssus nigricans Cameron, 1883. Biol. Cent.-Amer., Hym. v. 1, p. 69. ♀.

Genus KULCANIA Benson

Kulcania Benson, 1935. Rhodesian Mus., Occ. Papers No. 4, pp. 2, 5.

Type-species: *Ophrynopus costaricensis* Bischoff. Orig. desig.

An unidentified species belonging to this genus has been collected in Florida.

Superfamily CEPHOIDEA

Family CEPHIDAE

The Cephidae are called stem sawflies because of the habit of the larvae which bore and feed in grass stems, berry canes, or stems or twigs of various shrubs or trees. Those species whose hosts are cultivated grains may be serious pests. The adults are slender, cylindrical, ichneumon-like insects and may be found around the host plant. Adults of Cephini are commonly attracted to yellow flowers in the vicinity of the host. About 13 genera and 100 species are recognized for the world, most of which are Palaearctic.

Revision: Ries, 1937. Amer. Ent. Soc., Trans. 63: 259-324 (Nearctic species). — Middlekauff, 1969. Calif. Ins. Surv., Bul. 11: 1-18 (keys to Nearctic genera and species; emphasis on Calif. species).

Type-species: *Cephus politissimus* Costa. Monotypic.

Peronistilomorphus Pic, 1916. Echange 33: 381.

Type-species: *Peronistilomorphus berytensis* Pic. Monotypic.

Cephus subg. *Fossulocophus* Pic, 1917. Echange 34: 2.

Type-species: *Cephus (Fossulocophus) cintriventris* Pic. Monotypic.

Pseudocephus Dovnar-Zapolskii, 1931. Mus. Zool. Acad. Sci. Leningrad, Ann. 32: 47.

Type-species: *Cephus pulcher* Tischbein. Orig. desig.

Of the 25 to 30 world species only 2 are found in North America and one of these is an introduction. Larvae bore in the stems of grasses and may be serious pests in cultivated grain crops.

cinctus Norton. Man., Mich., Ohio, Mo., Ark. w. to Alta., Wash., Oreg., Calif. Ecology: Most serious crop damage is in the wheat growing areas of the north central states and south central provinces. The preferred host is wheat, but to a lesser extent spring rye, barley, and timothy; also native grasses. Host: *Triticum aestivum*, *Secale cereale*, *Hordeum vulgare*, *Phleum pratense*, *Agropyron*, *Beckmannia*, *Bromus*, *Calamagrostis*, *Calamovilfa*, *Deschampsia*, *Elymus*, *Festuca*, *Stipa*. One or more species in the preceding genera may be suitable hosts. Wheat stem sawfly.

Cephus cinctus Norton, 1872. Amer. Ent. Soc., Trans. 4: 86. ♂.

Cephus occidentalis Riley and Marlatt, 1891. U. S. Dept. Agr., Insect Life 4: 177. ♀, ♂.

Cephus graenicheri Ashmead, 1898. Canad. Ent. 30: 182. ♀, ♂.

Suborder APOCRITA

By KARL V. KROMBEIN

This suborder includes a vast and diverse assemblage of species-level taxa, and many more genus- and family-level taxa than does the suborder Symphyta. Other names used in the past for the suborder include Petioliventres or Petiolata, Chistogastra and Heterophaga. Common names applied to the major groups of Apocrita include braconid and ichneumonid wasps, chalcid flies or wasps, gall wasps, ants, true wasps and bees. The first three groups are sometimes placed in the Division Parasitica or Terebrantia, and the latter three in the Division Aculeata. More detailed information is included under the divisional headings.

There are several important characters separating the Apocrita from the Symphyta. The apparent thorax is separated from the apparent abdomen by a constriction. What appears to be the thorax actually consists of the true thorax to which is fused the first abdominal segment (propodeum); the apparent thorax is sometimes termed the mesosoma or alitrunk. What appears to be the entire abdomen is termed the gaster or metasoma. The venation, especially that of the hind wing, is reduced in size and has fewer veins and cells than in Symphyta. The larvae are maggot-like and apodous; some have fleshy pseudopods on the thorax or abdomen which assist in very limited locomotion but which are not homologous with the thoracic prolegs found in most sawflies.

The majority of larval Apocrita, including the most primitive, are entomophagous. However, phytophagy has developed independently in many higher groups such as some Chalcidoidea, most Cynipoidea, a few Vespoidea and the Apoidea.

There are some fifteen times as many Apocrita recorded from North America as Symphyta. However, it is virtually certain that this ratio will be substantially increased in the future when the smaller Parasitica are more thoroughly collected and studied.

Taxonomy: Rasnitsyn, 1975. Akad. Nauk SSSR, Palaeont. Inst., Trans. 147: 1-132, 8 pls.
(Mesozoic Apocrita). — Rasnitsyn, 1975. Akad. Nauk SSSR, Zool. Zhur. 54: 848-860, 1 pl.
(early evolution).

Division PARASITICA

By PAUL M. MARSH AND ROBERT W. CARLSON

The divisional name applies to those groups of nonsocial Apocrita in which the ovipositor always retains the function of egg placement (i.e. is never modified to be only a stinging organ) and in which the species: (1) are usually ectoparasites or endoparasites of other insects or spiders, and, less frequently, phytophagous; (2) are never provisioners of nests; and (3) are mostly incapable of stinging human beings. The latter fact appears to result largely from the relative smallness of most Parasitica; they generally are not physically capable of piercing the human epidermis with the ovipositor. However, collectors of Ichneumonidae know by experience that a significant proportion of the species above median ichneumonid size are capable of stinging humans. Whether any Parasitica of families other than Ichneumonidae are capable of stinging humans is unknown to us, but it seems likely that a few of the largest Braconidae would have this capability. Probably all or nearly all females of Parasitica, when grasped in ways that do not restrict abdominal movement, make reflexive stinging movements; similar defensive movements are also made by males of at least some species. Some of the ectoparasitic members of this division have stings which paralyze the host permanently, and the stings of ectoparasitic species in general are more venomous than those of endoparasitic species (see Iwata, 1976). However, there are presumably numerous species of both types which do not have venomous stings.

The dividing point between the divisions Parasitica and Aculeata is rendered arbitrary by the fact that the latter includes numerous ectoparasitic species (but no endoparasitic ones) as well as by the fact that there are no differences in biology or structure which apply to all the members of either group. Recognition of the two groups is a matter of tradition and convenience.

The habits and life histories of Parasitica are too diverse to be delved into here. Limited discussions will be found in the introductions for some of the genera and supergeneric taxa.

Superfamily ICHNEUMONOIDEA

By PAUL M. MARSH AND ROBERT W. CARLSON

Present data on numbers of species ranks the Ichneumonoidea as the largest superfamily of Hymenoptera. It includes the bulk of the larger Parasitica, most ichneumonoids being over 5 mm in length and a few being longer than 50 mm. A greater percentage of Ichneumonoidea than other Parasitica have the ovipositor conspicuously exposed, but, on the other hand, a very significant portion of Ichneumonoidea have ovipositors that protrude scarcely or not at all beyond the median dorsal extremities of the apical tergites. Townes (1975) discussed the Hymenoptera (mostly Ichneumonoidea) with the longest ovipositors; he cited a species of "*Iphiaulax*?" (Braconidae) with an ovipositor 14 times the length of the body.

The distinguishing characters of Ichneumonoidea are: the usual fusion of the costal and subcostal veins of the fore wing; the long antennae, which are usually more than 14-segmented; and the 2-segmented hind trochanters (the other trochanters usually also being 2-segmented). The characters are for the most part shared by the Braconidae, Aphidiidae, Hybrizontidae, Ichneumonidae, and Stephanidae, the five families here considered to comprise the Ichneumonoidea. In the case of the Stephanidae, however, there is some question about the correctness of placement in the Ichneumonoidea (see Townes, 1969, p. 3). The larval head capsule of stephanids is considerably different from those of other ichneumonoid families (personal commun., J. R. T. Short, 1976), and in stephanids the costa and subcosta are more distinctly separated than in other ichneumonoid families. Nevertheless, we believe it best to leave the Stephanidae in the Ichneumonoidea until further studies are made.

The Aphidiidae and Hybrizontidae are sometimes treated as subfamilies of Braconidae (see van Achterberg, 1976). Some early 19th Century authors referred to the combination of the latter three groups as the "Ichneumonidum adscitorum" (?unauthentic Ichneumonidae) which they distinguished from the "Ichneumonidum genuinorum" (genuine Ichneumonidae). The distinction largely resulted from Jurine's (1807) classification of the veins and cells of hymenopterous fore wings and his provision of terms for some of the veins and cells (e.g. "nervi recurrentes"). Eady (1974) provided an excellent discussion of the way in which the Jurinean system of wing vein and cell nomenclature was modified and expanded by those who adopted Jurine's ideas. He reviewed the systems of wing vein nomenclature which are currently used for Braconidae and compared them with usages for Aphidiidae, Ichneumonidae, and other Hymenoptera. He proposed an "interim method [in order] to overcome the more frequently voiced objections to ... [the Comstock-Needham] system without adding to the confusion or obstructing progress toward uniformity."

It was apparently by mutual agreement that Gravenhorst (1819) and Nees ab Esenbeck (1819) decided to specialize on the Ichneumonidorum genuinorum and Ichneumonidorum adscitorum, respectively. In the papers referred to, they simultaneously outlined their plans for the monographs which are here cited in the sections to which they pertain. Thunberg (1822, 1824) chose to

ignore the revolutionary advances in classification made possible by the work of Jurine and reverted to lumping all of the Ichneumonoidea under the generic name *Ichneumon* (see introduction to Ichneumonidae). Consequently, Thunberg's work was largely ignored prior to Roman's (1912) study of his type specimens.

The actual number of species in the Ichneumonoidea can only be estimated. The Braconidae contains about 2,000 described species in North America and about 10,000 worldwide; the Ichneumonidae about 3,000 in North America and about 15,000 worldwide. However, the total number of species is estimated to be 60,000 worldwide in the Ichneumonidae (Townes, 1969, p. 7) and 40,000 in the Braconidae.

Except for Hybrizontidae and Stephanidae, the families of Ichneumonoidea occur in all zoogeographical regions and in all terrestrial habitats. In the Ichneumonidae the Western Palearctic fauna is best known followed by the Nearctic, whereas the reverse seems to be true for the Braconidae. As in the case of Chalcidoidea, most of our knowledge of the Ichneumonoidea has been derived from species of economic importance to agriculture. For the vast majority of species, there is little or no knowledge of biology.

The ichneumonoids are parasitic on nearly all groups of insects as well as on spiders, and all stages of these hosts are attacked. Aphidiidae, many Braconidae, and possibly Hybrizontidae (hosts of latter unknown) attack paurometabolous insects, while no paurometabolous hosts are known for Ichneumonidae or Stephanidae. The only ichneumonoids which attack adults of holometabolous insects are certain euphorine and blacine Braconidae. Aside from the limitations which have been mentioned, large numbers of Ichneumonoidea are polyphagous and the limits of the host range seem to be related more to the host habitat than to the taxonomy of the host.

The only families of Ichneumonoidea which are known to include hyperparasitic species are Ichneumonidae and Braconidae, but only a very few Braconidae could be regarded as hyperparasitic (i.e. a few Euphorinae which attack adult Ichneumonidae). The fact that hyperparasitism is much more prevalent in the Ichneumonidae than in the Braconidae is explained largely (but not in the case of mesochorine and eucerotine Ichneumonidae) by the fact that certain Ichneumonidae have the habit of attacking hosts which are confined within silken cocoons (e.g. sawfly prepupae, ichneumonid prepupae, spider eggs, chrysopid eggs, etc.), while this habit has not developed among Braconidae. Further discussion of host relations is deferred to the introductions to the various taxa.

Family BRACONIDAE

By PAUL M. MARSH

This is a large and important group of mostly primary parasites. They are closely allied with the Ichneumonidae and can be distinguished by the absence of the second recurrent vein in the forewing. The classification used in this catalog departs somewhat from the former catalog but is, nevertheless, a conservative arrangement and is based on studies made by Telenga (1952), Tobias (1967) and Copek (1969, 1970). This arrangement reflects as much as possible relationships among the groups with respect to morphology—larval as well as adult—and biology. The subfamilies Doryctinae, Braconinae, Exothecinae and Rogadinae form a morphologically similar group of unspecialized Braconidae called the Cyclostomi in reference to the circular opening formed by the clypeus and mandibles. The Doryctinae, Braconinae and Exothecinae are ectoparasites of cryptic host larvae, usually permanently paralyzing the host, and are considered to be the most primitive groups. The Rogadinae, which are endoparasites of lepidopterous larvae, represent the transition from external to internal parasitism which is exhibited by the

remainder of the Braconidae, or the Acyclostomi.

The subfamilies are arranged in this catalog essentially in phylogenetic order from the least specialized to the most specialized. However, within each subfamily the genera are arranged in alphabetical order as are the species within each genus. The names used for the hosts are the latest acceptable names which were available at the time the manuscripts were prepared. Where a North American species occurs in other geographical areas, only the North American hosts for that parasite are listed.

SUBFAMILY DORYCTINAE

This subfamily is probably the most primitive group of the Braconidae. Most species are ectoparasites of wood boring beetle larvae, but a few attack lepidopterous larvae and sawfly larvae. Although the subfamily represents a large and rather homogeneous group of genera, it has been divided into several subfamilies and tribes by past workers. It is treated here as defined by Marsh (1965, 1967, 1970) which includes the subfamily Spathiinae of the previous catalog.

Genus ALLORHOGAS Gahan

Allorhogas Gahan, 1912. Ent. Soc. Wash., Proc. 14: 3.

Type-species: *Allorhogas gallicola* Gahan. Orig. desig.

Host records indicate that some species of *Allorhogas* are associated with gall making insects, particularly cynipids on oaks. However, no definite host associations have been made with these galls and it is likely that the hosts are insects other than the gall makers themselves. One species has been reared from a cerambycid.

Taxonomy: Shenefelt and Marsh, 1976. Hym. Cat., part 13, p. 1265-1267 (cat. World spp.).

arizonensis (Ashmead). Ariz. Ecology: Reared from cynipid gall on oak.

Bracon (?) *arizonensis* Ashmead, 1889 (1888). U. S. Natl. Mus., Proc. 11: 616 ♀, ♂.

bruesi (Muesebeck and Walkley). Mass.

Acrisis americanus Brues, 1907. Wis. Nat. Hist. Soc., Bul. 5: 160. ♂. Preocc. in *Miocolus* by Ashmead, 1894.

Miocolus bruesi Muesebeck and Walkley, 1951. U. S. Dept. Agr., Agr. Monog. 2, p. 182. N. name for *americanus* Brues.

Taxonomy: Muesebeck, 1964. Ent. Soc. Wash., Proc. 66: 88.

gallicola Gahan. Mass., Conn., Md., Va. Ecology: Reared from galls of *Neuroterus*

quercusbatalatus (Fitch), *Callirhytis seminosa* (Bass.), and "old horned gall on pin oak."

Allorhogas gallicola Gahan, 1912. Ent. Soc. Wash., Proc. 14: 4. ♀, ♂.

pallidiceps (Perkins). Fla.; Hawaii, South Pacific Islands, Southeast Asia, India, South Africa.

Ecology: Frequently reared from wood crates on ships. This species was probably accidentally introduced into North and South America. Host: *Oeme rigida* (Say).

Xylotrechus quadripes Chev., *Chlorophorus annularis* F.

Ischiogonus pallidiceps Perkins, 1910. Fauna Haw. 2 (6): 684. ♀, ♂.

Doryctes strioliger Kieffer, 1921. Inst. Sci. Saigon, Bul. Agr. 3: 134. ♀, ♂.

Monolexis brugirouxi Cheesman, 1928. Ann. and Mag. Nat. Hist. (10) 1: 185. ♀.

Taxonomy: Marsh, 1973. Wash. Acad. Sci., Jour. 63: 69.

Genus APTENOBRACON Marsh

Aptenobracon Marsh, 1965. Ent. Soc. Amer., Ann. 58: 675.

Type-species: *Aptenobracon formicoides* Marsh. Orig. desig.

formicoides Marsh. Va., Ga., Kans., Tex. Host: *Mordellistena* sp. on *Vernonia interior* Sm., *Trichobaris texana* Lec., "goldenrod galls."

Aptenobracon formicoides Marsh, 1965. Ent. Soc. Amer., Ann. 58: 675. ♀, ♂.

Genus CALLIHORMIUS Ashmead

Callihormius Ashmead, 1900. U. S. Natl. Mus., Proc. 23: 148.

Type-species: *Pambolus bifasciatus* Ashmead. Orig. desig.

Revision: Marsh, 1966. Ent. Soc. Wash., Proc. 68: 240-246 (No. Amer. spp.).

bifasciatus (Ashmead). Maine s. to Fla., w. to Mo. and Tex.; Calif. Host: *Anthaxia viridicornis* (Say), *Mastogenius subcyaneus* (Lec.), *Xylotrechus quadrimaculatus* (Hald.).

Pambolus bifasciatus Ashmead, 1892. Psyche 6: 289. ♀, ♂.

stigmatus Marsh. N. J., Fla., La., Tex. Ecology: Reared from buprestid in avocado.

Callihormius stigmatus Marsh, 1966. Ent. Soc. Wash., Proc. 68: 243. ♀, ♂.

texanus Marsh. Fla., Tex.

Callihormius texanus Marsh, 1966. Ent. Soc. Wash., Proc. 68: 245. ♀.

wernerii Marsh. Ariz.

Callihormius wernerii Marsh, 1966. Ent. Soc. Wash., Proc. 68: 246. ♀.

Genus CURTISELLA Spinola

Curtisella Spinola, 1853. Accad. Sci. Torino, Mem. 13: 30.

Type-species: *Curtisella pimploides* Spinola. Monotypic.

Neorhyssa Szepilgeti, 1902. Termes. Fuzetek 25: 57.

Type-species: *Neorhyssa nigra* Szepilgeti. Monotypic.

Lissophrymnus Cameron, 1911. Timehri (3)1: 312.

Type-species: *Lissophrymnus annulicaudus* Cameron. Monotypic.

Subcurtisella Roman, 1924. Arkiv f. Zool. 16: 33.

Type-species: *Subcurtisella waterstoni* Roman. Monotypic.

Polystenoides Muesebeck, 1950. Ent. Soc. Wash., Proc. 52: 79.

Type-species: *Polystenoides lignicola* Muesebeck. Orig. desig.

Taxonomy: Roman, 1924. Arkiv f. Zool. 16: 38. — Marsh, 1971. Ent. Soc. Amer., Ann. 64: 844.

— Marsh, 1973. Wash. Acad. Sci., Jour. 63: 70. — Shenefelt and Marsh, 1976. Hym. Cat., part 13, p. 1373-1374 (cat. World spp.).

lignicola (Muesebeck). Pa., Md., N. C.

Polystenoides lignicola Muesebeck, 1950. Ent. Soc. Wash., Proc. 52: 79. ♀, ♂.

Genus DENDROSOTER Wesmael

Dendrosoter Wesmael, 1838. Nouv. Mem. Acad. Sci. Bruxelles 11: 137.

Type-species: *Bracon protuberans* Nees. Monotypic.

Bracon subg. *Eurybolum* Ratzeburg, 1848. Ichn. d. Forstins., v. 2, p. 32.

Type-species: *Bracon (Eurybolum) curtisi* Ratzeburg. Desig. by Viereck, 1914.

Caenopachys Foerster, 1862. Naturh. Ver. Rheinlande, Verh. 19: 239.

Type-species: *Bracon (Eurybolum) hartigii* Ratzeburg. Orig. desig.

Revision: Muesebeck, 1938. Ent. Soc. Wash., Proc. 40: 281-287 (No. Amer. spp.). — Nixon, 1939. Roy. Ent. Soc. London, Proc. (B) 8: 1-11 (Indian and African spp.). — Telenga, 1941. Fauna U. S. S. R., v. 5, n. 3, pp. 72-80, 388-389 (some Eur. spp.).

Taxonomy: Shenefelt and Marsh, 1976. Hym. Cat., part 13, p. 1269-1276 (cat. World spp.).
chansleri Marsh. N. Mex.

Dendrosoter chansleri Marsh, 1967. Ent. Soc. Wash., Proc. 69: 246. ♀.

integer Muesebeck. Idaho, Oreg., Calif. Host: *Phloeosinus cupressi* Hopk., *P. setosus* Bruck, *P. vandykei* Swaine, *Scolytus praeceps* Lec.

Dendrosoter integer Muesebeck, 1938. Ent. Soc. Wash., Proc. 40: 287. ♀, ♂.

protuberans (Nees). Va., Ohio, Mich., Wis., Mo., Colo.; Europe. Introduced from France. Host: *Scolytus multistriatus* (Marsham).

Bracon protuberans Nees, 1834. Hym. Ichn. Aff. Monog., v. 1, p. 121. ♀.

Taxonomy: Marsh, 1967. Ent. Soc. Wash., Proc. 69: 246.

Biology: Russo, 1938. Lab. Ent. Agr. Portici, Bol. 2: 244-255 (in Italy). — Kennedy, 1970. Ent. Soc. Amer. Ann. 63: 351-358.

scaber Muesebeck. Mont., N. Mex., Ariz., Oreg., Calif. Host: *Cylindrocopturus longulus* (Lec.), *Pityophthorus* sp.

Dendrosoter scaber Muesebeck, 1938. Ent. Soc. Wash., Proc. 40: 286. ♀, ♂.

scolytivorus (Viereck and Rohwer). S. Dak., Colo., Idaho, Ariz., Calif. Host: *Ips confusus* (Lec.), *I. oregonensis* (Fitch).

Caenopachys scolytivorus Viereck and Rohwer, 1913. In Rohwer, U. S. Natl. Mus., Proc. 45: 536. ♂.

sulcatus Muesebeck. N. Y. s. to Fla., w. to Wis. and Tex. Host: *Dendroctonus frontalis* Zimm., *Ips avulsus* (Eichh.), *I. grandicollis* (Eichh.).

Dendrosoter sulcatus Muesebeck, 1938. Ent. Soc. Wash., Proc. 40: 284. ♀, ♂.

Genus DORYCTES Haliday

Doryctes Haliday, 1836. Ent. Mag. 4: 43.

Type-species: *Bracon oblitteratus* Nees. Desig. by Erichson, 1837. The type-species of *Doryctes* is in the sense of Nees, not Haliday.

Ischiogonus Wesmael, 1838. Nouv. Mem. Acad. Sci. Bruxelles 11: 125.

Type-species: *Ischiogonus erythrogaster* Wesmael. Desig. by Viereck, 1914.

Udamolcus Enderlein, 1920 (1918). Arch. f. Naturgesch. 84(A)(11): 142.

Type-species: *Udamolcus herero* Enderlein. Orig. desig.

Pristodoryctes Kieffer, 1921. Inst. Sci. Saigon, Bul. Agr. 3: 133.

Type-species: *Pristodoryctes striativentris* Kieffer. Monotypic.

Paradoryctes Granger, 1949. Inst. Sci. Madagascar, Mem. (A) 2: 102.

Type-species: *Paradoryctes coraxalis* Granger. Orig. desig.

Revision: Nixon, 1939. Ann. and Mag. Nat. Hist. (11) 3: 481-506 (Indian and African spp.).

— Telenga, 1941. Fauna U. S. S. R., v. 5, n. 3, pp. 92-108, 392-395 (some Eur. spp.). — Marsh, 1969 (1968). Amer. Ent. Soc., Trans. 94: 379-405 (No. Amer. spp.).

Taxonomy: Marsh, 1973. Wash. Acad. Sci., Jour. 63: 70. — Shenefelt and Marsh, 1976. Hym. Cat., part 13, p. 1277-1295 (cat. World spp.).

anatolikus Marsh. Que. s. to Fla., w. to Minn. and N. Mex. Host: *Agrilus bilineatus* (Weber), *Dendroctonus frontalis* Zimm., *Neoclytus acuminatus* (F.).

Doryctes anatolikus Marsh, 1969 (1968). Amer. Ent. Soc., Trans. 94: 384. ♀, ♂.

brachynervus Marsh. Ariz., Nev., Wash., Oreg., Calif. Host: *Chrysobothris caurina* Horn.

Doryctes brachynervus Marsh, 1969 (1968). Amer. Ent. Soc., Trans. 94: 386. ♀, ♂.

buoculus Marsh. D. C., N. C.

Doryctes buoculus Marsh, 1969 (1968). Amer. Ent. Soc., Trans. 94: 388. ♀.

californicus Marsh. Alta., Calif.

Doryctes californicus Marsh, 1969 (1968). Amer. Ent. Soc., Trans. 94: 388. ♀, ♂.

erythromelas (Brulle). No. Amer. Host: *Neoclytus acuminatus* (F.).

Syngaster erythromelas Brulle, 1846. In Lepeletier, Hist. Nat. Ins. Hym., v. 4, p. 458. ♂.

Syngaster rufiventris Brulle, 1846. In Lepeletier, Hist. Nat. Ins. Hym., v. 4, p. 458. ♀.

Bracon radiatus Cresson, 1872. Amer. Ent. Soc., Trans. 4: 185. ♀.

Bracon disjunctus Cresson, 1872. Amer. Ent. Soc., Trans. 4: 186. ♀.

Syngaster rugosus Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 122. "♂" = ♀.

Doryctes apacheus Viereck, 1907. Amer. Ent. Soc., Trans. 33: 383. ♂.

Doryctes femurrubrum Viereck, 1907. Amer. Ent. Soc., Trans. 33: 384. ♀.

eucrinus Marsh. Calif.

Doryctes eucrinus Marsh, 1969 (1968). Amer. Ent. Soc., Trans. 94: 391. ♀, ♂.

exhalans (Say). Ind.

Bracon exhalans Say, 1828. Contrib. Maclur. Lyc. Phila. 1: 77. Holotype lost; possibly same species as *erythromelas* (Brulle).

fartus (Provancher). Canada, Alaska, northern U. S.

Syngaster fartus Provancher, 1880. Nat. Canad. 12: 163. ♀.

Syngaster macilentis Provancher, 1880. Nat. Canad. 12: 163. ♀, ♂.

Syngaster atripes Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 122. ♀.

Rhogas rugosulus Provancher, 1888. Addit. Corr. Faune Ent. Canada Hym., p. 374. ♀.

Rhysipolis? bifornia Ashmead, 1893. Canad. Ent. 25: 68. ♀, ♂.

infuscus Marsh. Mass., Pa., Ark.

Doryctes infuscus Marsh, 1969 (1968). Amer. Ent. Soc., Trans. 94: 394. ♀.

macrocaudus Marsh. Mass. s. to N. C., w. to Mich. and Iowa.

Doryctes macrocaudus Marsh, 1969 (1968). Amer. Ent. Soc., Trans. 94: 394. ♀, ♂.

maculipennis Rohwer. Ariz., Calif. Host: *Agrilus angelicus* Horn, *Anthaxia* sp., *Chramesus* sp.

Doryctes maculipennis Rohwer, 1919. Ent. Soc. Wash., Proc. 21: 7. ♀, ♂.

pacificus (Provancher). Mont., B. C. s. to Calif. Host: *Dicerca* sp.

Phylax pacificus Provancher, 1885. Canad. Ent. 17: 117. ♀.

Phylax niger Provancher, 1885. Canad. Ent. 17: 117. ♂.

pyrrhus Marsh. Utah, Wash., Calif.

Doryctes pyrrhus Marsh, 1969 (1968). Amer. Ent. Soc., Trans. 94: 398. ♀, ♂.

rufipes (Provancher). Southern Canada, northern U. S. Host: *Agrilus anxius* Gory, *A. cephalicus* Lec., *Astylopsis macula* (Say), *Callidium violaceum* L., *Xylotrechus quadrimaculatus* (Hald.).

Phylax rufipes Provancher, 1880. Nat. Canad. 12: 175. ♀.

slossonae Marsh. Que., N. H., Man.

Doryctes slossonae Marsh, 1969 (1968). Amer. Ent. Soc., Trans. 94: 400. ♀, ♂.

Genus DORYCTINUS Roman

Doryctinus Roman, 1910. Ent. Tidskr. 31: 122.

Type-species: *Exothecus rugulosus* Cresson. Orig. desig.

Taxonomy: Marsh, 1968. Ent. Soc. Wash., Proc. 70: 112.

marshi Greenbaum. Fla.

Doryctinus marshi Greenbaum, 1975. Fla. Ent. 58: 213. ♀.

rugulosus (Cresson). Tex.

Exothecus rugulosus Cresson, 1872. Amer. Ent. Soc., Trans. 4: 190. ♀.

Doryctes texanus Ashmead, 1889 (1888). U. S. Natl. Mus., Proc. 11: 627. ♀.

Genus ECPHYLUS Foerster

Ecpylus Foerster, 1862. Naturh. Ver. Rheinlande, Verh. 19: 237.

Type-species: *Bracon silesiacus* Ratzeburg. Orig. desig.

Sactopus Ashmead, 1900. U. S. Natl. Mus., Proc. 23: 146.

Type-species: *Sactopus schwarzi* Ashmead. Orig. desig.

Paraecphylus Ashmead, 1900. U. S. Natl. Mus., Proc. 23: 147.

Type-species: *Paraecphylus websteri* Ashmead. Orig. desig.

Sycosoter Picard and Lichtenstein, 1917. Soc. Ent. France, Bul. 16: 285.

Type-species: *Sycosoter lavagnei* Picard and Lichtenstein. Orig. desig.

Revision: Telenga, 1941. Fauna U. S. S. R., v. 5, n. 3, pp. 49-54, 383-384 (some Eur. spp.).

— Marsh, 1965. Ent. Soc. Amer., Ann. 58: 678-690 (No. Amer. spp.). — Hedqvist, 1967. Ent. Tidskr. 88: 66-71 (some Eur. spp.).

Taxonomy: Muesebeck, 1935. Ent. Soc. Wash., Proc. 37: 21-22. — Shenefelt and Marsh, 1976. Hym. Cat., part 13, p. 1344-1352 (cat. World spp.).

Biology: Russo, 1938. Lab. Ent. Agr. Portici, Bol. 2: 287-307 (*Ecphylus sileseacus* (Ratz.) in Italy). — Marsh, 1965. Ent. Soc. Amer., Ann. 58: 679-680.

arcuatus Muesebeck. Idaho, Oreg., Calif. Host: *Scolytus subscaber* Lec., *S. ventralis* Lec. *Ecphylus arcuatus* Muesebeck, 1935. Ent. Soc. Wash., Proc. 37: 23. ♀, ♂.

bicolor Rohwer. Wyo., B. C., Wash., Calif. Host: *Pityogenes knechteli* Swaine. *Ecphylus bicolor* Rohwer, 1913. U. S. Natl. Mus., Proc. 45: 540. ♀. *Ecphylus pityogeni* Marsh, 1965. Ent. Soc. Amer., Ann. 58: 690. Nom. nud.

californicus Rohwer. Mont., Idaho, Wash., Oreg., Calif. Host: *Phloeosinus cupressi* Hopk., *P. punctatus* Lec., *P. sequoiae* Hopk., *P. setosus* Bruck., *P. swainei* Bruck., *P. vandykei* Swaine, *Pseudohylesinus nebulosus* (Lec.), *Scolytus* sp., *S. laricis* Blkm., *S. unispinosus* Lec.

Ecphylus californicus Rohwer, 1913. U. S. Natl. Mus., Proc. 45: 539. ♀.

chramesi Marsh. Tex., Ariz. Host: *Chramesus* sp. The original description states that this species was reared from *Chramesus robiniae* but this is apparently a manuscript species name.

Ecphylus chramesi Marsh, 1965. Ent. Soc. Amer., Ann. 58: 689. ♀, ♂.

costaricensis Matthews. Md., D. C.; Costa Rica. Host: *Styphlosoma granulatum* Blandf. (in Costa Rica).

Ecphylus costaricensis Matthews, 1969. Ga. Ent. Soc., Jour. 4:117. ♀, ♂.

flavus Marsh. Miss., La. Host: *Lycus* sp., *Xylobiops basilaris* (Say).

Ecphylus flavus Marsh, 1965. Ent. Soc. Amer., Ann. 58:687. ♀, ♂.

hicorniae Rohwer. N. Y., Pa., N. C. Host: *Scolytus quadrispinosus* Say.

Ecphylus hicorniae Rohwer, 1919. Canad. Ent. 51:161. ♀, ♂.

hubbardi Rohwer. Ariz.

Ecphylus hubbardi Rohwer, 1913. U. S. Natl. Mus., Proc. 45:538. ♀.

hypothinemii Ashmead. Mass., Ohio, W. Va., Tex., Colo., N. Mex., Ariz., Wash., Calif. Host: *Hypothenemus* sp., *Pityophthorus* sp., *P. hopkinsi* (Blkm.).

Ecphylus hypothinemii Ashmead, 1896. Amer. Ent. Soc., Trans. 23: 215. ♀, ♂.

Paraecphylus websteri Ashmead, 1900. U. S. Natl. Mus., Proc. 23: 147. ♀.

kansensis Marsh. Kans.

Ecphylus kansensis Marsh, 1965. Ent. Soc. Amer., Ann. 58: 682. ♀.

leechi Marsh. Calif. Host: *Pseudodipityophthorus pubipennis* (Lec.).

Ecphylus leechi Marsh, 1965. Ent. Soc. Amer., Ann. 58: 681. ♀, ♂.

leptosulcus Marsh. Ohio, W. Va., N. C. Host: *Pityophthorus* sp., *P. liquidambarus* Blkm., *Pseudodipityophthorus minutissimus* (Zimm.), *P. pruinosis* (Eichh.).

Ecphylus leptosulcus Marsh, 1965. Ent. Soc. Amer., Ann. 58: 683. ♀, ♂.

lepturgi Rohwer. N. C., Kans., N. Mex., Nev. Host: *Pityophthorus* sp., *Urgleptes facetus* (Say).

Ecphylus lepturgi Rohwer, 1913. U. S. Natl. Mus., Proc. 45: 540. ♀.

lycti Rohwer. Fla., Tex., Calif. Host: *Leperisinus californicus* Swaine, *Lycus* sp., *L. planicollis* Lec., *Synoxylon* sp.

Ecphylus lycti Rohwer, 1913. U. S. Natl. Mus., Proc. 45: 538. ♀.

nigriceps Ashmead. W. Va.

Ecphylus nigriceps Ashmead, 1896. Amer. Ent. Soc., Trans. 23: 216. ♀.

oputilus Marsh. Fla. Host: *Pityophthorus* sp.

Ecphylus oputilus Marsh, 1965. Ent. Soc. Amer., Ann. 58: 683. ♀, ♂.

pacificus Marsh. S. Dak. s. to Colo., w. to Oreg. and Calif. Host: *Cryphalus pubescens* Hopk.

Pityogenes knechteli Swaine, *Pityophthorus* sp., *P. carmeli* Swaine.

Ecphylus pacificus Marsh, 1965. Ent. Soc. Amer., Ann. 58: 686. ♀, ♂.

Genus GLYPTOCOLASTES Ashmead

- Glyptocolastes* Ashmead, 1900. U. S. Natl. Mus., Proc. 23: 142.
 Type-species: *Glyptocolastes texanus* Ashmead. Orig. desig.
Glyptodoryctes Ashmead, 1900. U. S. Natl. Mus., Proc. 23: 144.
 Type-species: *Heterospilus carya* Ashmead. Orig. desig.
 Revision: Marsh, 1968. Ent. Soc. Wash., Proc. 70: 107-110.

carya (Ashmead). N. Y. s. to Fla., w. to Mich. and Tex. Host: *Scobicia bidentata* (Horn).
Heterospilus carya Ashmead, 1896. Amer. Ent. Soc., Trans. 23: 214. ♀, ♂.
Hormiopterus claripennis Brues, 1907. Wis. Nat. Hist. Soc., Bul. 5: 61. ♀.

texanus Ashmead, Tex., Ariz. Host: *Dendrobiella quadrispinosa* (Lec.).
Glyptocolastes texanus Ashmead, 1900. U. S. Natl. Mus., Proc. 23: 142. ♀, ♂.

Genus HECABOLUS Curtis

- Hecabolus* Curtis, 1834. Brit. Ent., v. 11, p. 507.
 Type-species: *Hecabolus sulcatus* Curtis. Orig. desig.
Anisopelma Wesmael, 1838. Nouv. Mem. Acad. Sci. Bruxelles 11: 134.
 Type-species: *Anisopelma belgicum* Wesmael. Monotypic.
 Taxonomy: Shenefelt and Marsh, 1976. Hym. Cat., part 13, p. 1354-1357 (cat. World spp.).

sulcatus Curtis. Fla., Colo., Ariz., Calif.; Europe. Probably adventive. Host: *Acmaeodera* sp.
Hecabolus sulcatus Curtis, 1834. Brit. Ent., v. 11, p. 507. ♀.
Anisopelma belgicum Wesmael, 1838. Nouv. Mem. Acad. Sci. Bruxelles 11: 135. ♀.

Genus HETEROSPILUS Haliday

- Rogas* subg. *Heterospilus* Haliday, 1836. Ent. Mag. 4: 40, 46.
 Type-species: *Rogas (Heterospilus) quaestor* Haliday. Monotypic.

Bracon subg. *Synodus* Ratzeburg, 1848. Ichn. d. Forstins., v. 2, p. 31. Preocc. by Gronovius, 1763, and Latreille, 1828.
 Type-species: *Bracon incompletus* Ratzeburg. Monotypic.
Caenophanes Foerster, 1862. Naturh. Ver. Rheinlande, Verh. 19: 236. N. name for *Synodus* Ratzeburg.
Telebolus Marshall, 1888. In Andre, Spec. Hym. Eur. Alg., v. 4, p. 202.
 Type-species: *Telebolus corsicus* Marshall. Monotypic.
Kareba Cameron, 1904. Invert. Pac. 1: 50.
 Type-species: *Kareba flavipes* Cameron. Desig. by Viereck, 1914.
Anacatostigma Enderlein, 1920 (1918). Arch. f. Naturgesch. 84(A)(11): 131.
 Type-species: *Anacatostigma paradoxum* Enderlein. Orig. desig.

A predominately Western Hemisphere genus with a large number of species, most of which are undescribed. Most species, where records are available, are parasites of coleopterous larvae, but a few species attack lepidopterous larvae, and one Holarctic species is a parasite of sawfly larvae.

Revision: Fischer, 1960. *Polskie Pismo Ent.* 30: 33-64 (Eur. spp.).

Taxonomy: Marsh, 1969. *Ent. Soc. Wash., Proc.* 71: 210-214 (lectotype desig. No. Amer. spp.).

—Marsh, 1973. *Wash. Acad. Sci., Jour.* 63: 70. —Shenefelt and Marsh, 1976. *Hym. Cat.*, part 13, p. 1298-1313 (cat. World spp.).

aciculatus (Provancher). Calif.

Macrocentrus aciculatus Provancher, 1888. *Addit. Corr. Faune Ent. Canada Hym.*, p. 380. ♀.

anobiidivorus Muesebeck. Fla. Host: *Falsogastrallus librinocens* (Fish.).

Heterospilus anobiidivorus Muesebeck, 1939. *Ent. Soc. Wash., Proc.* 41: 62. ♀.

anthaxiae (Ashmead). Pa. s. to Fla., w. to Wis. and Iowa. Host: *Agrius* sp., *Anthaxia viridicornis* (Say).

Caenophanes anthaxiae Ashmead, 1893. *Canad. Ent.* 25: 77. ♀, ♂.

appalachicola (Viereck). Kans.

Diachasma appalachicola Viereck, 1905. *Kans. Acad. Sci., Trans.* 19: 272. ♀.

atratus (Ashmead). Colo., Calif.

Caenophanes atrata Ashmead, 1890. *Colo. Biol. Assoc., Bul.* 1: 16. ♀, ♂.

atriceps (Ashmead). Md., Va., S. C., Fla., Mo.

Caenophanes atriceps Ashmead, 1893. *Canad. Ent.* 25: 76. ♀.

beaticatus (Provancher). N. Y. s. to Va., w. to Ont. and Minn. Host: *Clytus ruricola* (Oliv.), *Xyletinus peltatus* (Harr.).

Syngaster beaticatus Provancher, 1880. *Nat. Canad.* 12: 162. ♀.

bruchi Viereck. Md. s. to Fla., w. to Iowa and Tex. Host: *Amblycerus robiniae* (F.), *Bruchus sp.*, *Gibbobruchus mimus* (Say).

Heterospilus bruchi Viereck, 1910 (1909). *Ent. Soc. Wash., Proc.* 11: 210. ♀, ♂.

cephi Rohwer. N. Y., Pa., Ont.; Europe. Host: *Cephus pygmaeus* (L.).

Heterospilus cephi Rohwer, 1925. *Wash. Acad. Sci., Jour.* 15: 178. ♀, ♂.

Heterospilus basifurcatus Fischer, 1960. *Polskie Pismo Ent.* 30: 38. ♀.

Taxonomy: Marsh, 1973. *Wash. Acad. Sci., Jour.* 63: 70.

Biology: Hill and Smith, 1931. *Jour. Agr. Res.* 43: 597-609.

chittendenii (Ashmead). Va.

Caenophanes chittendenii Ashmead, 1893. *Canad. Ent.* 25: 77. ♀, ♂.

consimilis (Ashmead). U. S.

Caenophanes consimilis Ashmead, 1893. *Canad. Ent.* 25: 75. ♀.

etiellae Rohwer. Fla.; Puerto Rico. Host: *Etiella zinckenella* (Treat.), *Fundella pellucens* Zell.

Heterospilus etiellae Rohwer, 1925. *Wash. Acad. Sci., Jour.* 15: 179. ♀, ♂.

eurostae Viereck. Conn., Pa. Ecology: Reared from galls of *Eurosta solidaginis* (Fitch).

Heterospilus eurostae Viereck, 1917 (1916). *Conn. State Geol. and Nat. Hist. Survey, Bul.* 22: 238. ♀.

flavicollis (Ashmead). D. C., Va.

Caenophanes flavicollis Ashmead, 1893. *Canad. Ent.* 25: 75. ♀.

floridanus (Ashmead). Fla.

Caenophanes floridanus Ashmead, 1893. *Canad. Ent.* 25: 76. ♀.

hylotrupidis (Ashmead). W. Va. Host: *Semanotus ligneus* (F.).

Caenophanes hylotrupidis Ashmead, 1893. *Canad. Ent.* 25: 78. ♀, ♂.

koebelei (Ashmead). Calif. Host: *Prodorus aenescens* Riley, *P. marginatus* Riley, *Tegeticula maculata* (Riley). All of these hosts are from the stems or pods of *Yucca*.

Caenophanes Koebelei Ashmead, 1893. *Canad. Ent.* 25: 77. ♀, ♂.

languria (Ashmead). Que. s. to Fla., w. to Mich., Colo., and Tex. Host: *Languria erythrocephalus* Blatch.

Caenophanes languria Ashmead, 1893. *Canad. Ent.* 25: 77. ♀, ♂.

- leptostyli** Rohwer. Maine, N. Y., Pa., Va., N. C. Host: *Amniscus collaris* Hald.
Heterospilus leptostyli Rohwer, 1913. U. S. Natl. Mus., Proc. 45: 536. ♀, ♂.
- liopodis** (Brues). Mass., Md. Host: *Sternidius alpha* (Say).
Coeloides liopodis Brues, 1910. Wis. Nat. Hist. Soc., Bul. 8: 79. ♀.
- longicaudus** (Ashmead). Mass. s. to Fla., Ala., and Miss. Host: *Xyletinus peltatus* (Harr.).
Caenophanes longicandus Ashmead, 1893. Canad. Ent. 25: 75. ♀.
- melanocephalus** Rohwer. Tex. Host: *Olycella junctolineella* (Hulst), *Pseudoschinia elautalis* (Grote).
Heterospilus melanocephalus Rohwer, 1925. Wash. Acad. Sci., Jour. 15: 181. ♀.
- melleus** (Ashmead). Md., Fla. Host: *Eteobalea sernotella* (Chamb.), *Gnorimoschema gallaeasteriella* (Kell.).
Caenophanes melleus Ashmead, 1893. Canad. Ent. 25: 77. ♀, ♂.
- mordellistena** Viereck. Ont., Ohio. Host: *Mordellistena andreae ustulata* Lec.
Heterospilus mordellistena Viereck, 1911. U. S. Natl. Mus., Proc. 39: 403. ♀.
- pityophthori** (Ashmead). Va., W. Va. Host: *Pityophthorus* sp.
Rhysalus pityophthori Ashmead, 1893. Canad. Ent. 25: 69. ♀.
Caenophanes pityophthori Ashmead, 1893. Canad. Ent. 25: 78. ♂.
- prodoi** (Riley). N. C., Ky., Mo., La., Kans., Tex., Ariz. Host: *Prodoxus quinquepunctellus* (Chamb.).
Erothecus prodoxi Riley, 1880. Amer. Ent. 3: 156. ♀, ♂.
- prosopidis** Viereck. La., Okla., Tex., Ariz., Wash., Calif.; Mexico. Host: *Acanthoscelides daleae* Johnson, A. horni (Pic), *Algarobius prosopis* (Lec.).
Heterospilus prosopidis Viereck, 1910. U. S. Natl. Mus., Proc. 38: 381. ♀, ♂.
- scolyticida** (Ashmead). N. Y. s. to N. C. Host: *Scolytus quadrispinosus* Say.
Lysiternis scolyticida Ashmead, 1893. Canad. Ent. 25: 74. ♀.
Heterospilus blackmanni Rohwer, 1919. Canad. Ent. 51: 161. ♀, ♂.
- Taxonomy: Marsh, 1973. Wash. Acad. Sci., Jour. 63: 71.
- selandriae** (Ashmead). U. S. Host: *Catiroa cerasi* (L.) (?).
Rhysalus (?) selandriae Ashmead, 1889 (1888). U. S. Natl. Mus., Proc. 11: 629. ♀.
- shoshonea** (Viereck). Wyo.
Doryctomorpha shoshonea Viereck, 1907. Amer. Ent. Soc., Trans. 33: 382. ♀.
- striatus** Muesebeck and Walkley. Md., Va., Fla., Iowa.
Caenophanes aciculatus Ashmead, 1893. Canad. Ent. 25: 76. ♀, ♂. Preocc. by Provancher, 1888.
Heterospilus striatus Muesebeck and Walkley, 1951. U. S. Dept. Agr., Agr. Monog. 2, p. 180. N. name for *aciculatus* Ashmead.

Genus HISTEROMERUS Wesmael

Histeromerus Wesmael, 1838. Nouv. Mem. Acad. Sci. Bruxelles 11: 63.

Type-species: *Histeromerus mystacinus* Wesmael. Monotypic.

canadensis Ashmead. Que. s. to N. C., w. to Ont. and Minn.; B. C. Host: *Anobium punctatum* DeG., *Hemicoelus carinatus* (Say), *Lyctus* sp.
Histeromerus canadensis Ashmead, 1891. Canad. Ent. 23: 7. ♀.

Genus LELUTHIA Cameron

Leluthia Cameron, 1887. Biol. Cent.-Amer., Hym., v. 1, p. 392.

Type-species: *Leluthia mexicana* Cameron. Desig. by Viereck, 1914.

Russellia Muesebeck, 1950. Ent. Soc. Wash., Proc. 52: 78. Preocc. by Vargas, 1943.

Type-species: *Heterospilus ? astigma* Ashmead. Orig. desig.

Russellella Muesebeck and Walkley, 1951. U. S. Dept. Agr., Agr. Monog. 2, p. 178. N. name for *Russellia* Muesebeck.

Revision: Marsh, 1967. Ent. Soc. Wash., Proc. 69: 359-364 (No. Amer. spp.).

- astigma* (Ashmead). Que., Pa., Md., W. Va., Va., N. C., Ohio, Iowa, Okla., Tex., Wyo., Utah, Ariz., Calif.; Mexico. Host: *Agrilus* sp., *A. difficilis* Gory, *A. politus* (Say).
Heterospilus? *astigma* Ashmead, 1896. Amer. Ent. Soc., Trans. 23: 215. ♂.
- floridensis* Marsh. Fla. Host: *Cryptorhynchus fallax* Lec.
Leluthia floridensis Marsh, 1967. Ent. Soc. Wash., Proc. 69: 362. ♀, ♂.
- mexicana* Cameron. Okla., Tex., N. Mex., Ariz., Calif.; Mexico.
Leluthia mexicana Cameron, 1887. Biol. Cent.-Amer., Hym., v. 1, p. 392. ♀.
Russellia prosopidis Muesebeck, 1950. Ent. Soc. Wash., Proc. 52: 78. ♀, ♂.

Genus LIOBRACON Szepligeti

Liobracon Szepligeti, 1901. Termes. Fuzetek 24: 361.

Type-species: *Liobracon singularis* Szepligeti. Monotypic.

Parabinarea Brues, 1912. Ent. Soc. Amer., Ann. 5: 210.

Type-species: *Parabinarea manni* Brues. Monotypic.

Hyboderia Enderlein, 1920 (1918). Arch. f. Naturgesch. 84(A)(11): 134.

Type-species: *Hyboderia collare* Enderlein. Orig. desig.

Triderodon Enderlein, 1920 (1918). Arch. f. Naturgesch. 84(A)(11): 136.

Type-species: *Triderodon hoffmanni* Enderlein. Orig. desig.

Taxonomy: Marsh, 1970. Ent. Soc. Wash., Proc. 72: 313-317. —Shenefelt and Marsh, 1976.

Hym. Cat., part 13, p. 1316-1318 (cat. World spp.).

aquilonius Marsh. Tex.; Mexico, Guatemala.

Liobracon aquilonius Marsh, 1970. Ent. Soc. Wash., Proc. 72: 314. ♀, ♂.

Genus MONOLEXIS Foerster

Monolexis Foerster, 1862. Naturh. Ver. Rheinlande, Verh. 19: 237.

Type-species: *Monolexis fuscicornis* Foerster. Orig. desig.

Taxonomy: Marsh, 1965. Ent. Soc. Amer., Ann. 58: 677-678. —Shenefelt and Marsh, 1976.

Hym. Cat., part 13, p. 1358-1360 (cat. World spp.).

fuscicornis Foerster. Cosmopolitan. Host: *Lycetus brunneus* (Steph.), *L. linearis* (Goeze), *L. planicollis* Lec., *Trogoxylon parallelolipedum* (Melsh.).

Monolexis fuscicornis Foerster, 1862. Naturh. Ver. Rheinlande, Verh. 19: 237.

Anisopelma lycti Cresson, 1880. Amer. Ent. 3: 24. ♀, ♂.

Anisopelma utilis Cresson, 1880. Amer. Ent. 3: 24. ♀, ♂.

Anisopelma minima Cresson, 1880. Amer. Ent. 3: 24. ♀.

Genus ODONTOBRACON Cameron

Odontobracon Cameron, 1887. Biol. Cent.-Amer., Hym., v. 1, p. 384.

Type-species: *Odontobracon nigriceps* Cameron. Desig. by Viereck, 1914.

Revision: Marsh, 1970. Pan-Pacific Ent. 46: 277-282 (No. Amer. spp.).

Taxonomy: Shenefelt and Marsh, 1976. Hym. Cat., part 13, p. 1365-1366 (cat. World spp.).
californicus Rohwer, Calif.

Odontobracon californicus Rohwer, 1917. U. S. Natl. Mus., Proc. 53: 169. ♀, ♂.

cellulus Marsh. Tex., N. Mex., Ariz., Calif.; Mexico.

Odontobracon cellulus Marsh, 1970. Pan-Pacific Ent. 46: 279. ♀, ♂.

grandis Ashmead. Ariz.; Baja Calif.

Odontobracon grandis Ashmead, 1894. Calif. Acad. Sci., Proc. 4: 122. ♀.

montanus Cameron. N. C. s. to Fla., w. to Tex.; Central America.

Odontobracon montanus Cameron, 1887. Biol. Cent.-Amer., Hym., v. 1, p. 384. ♀.

Odontobracon crassiventris Cameron, 1887. Biol. Cent.-Amer., Hym., v. 1, p. 384. ♀.

nigriceps Cameron. Mass. s. to Fla., w. to Wis., Utah, and Ariz.; Mexico, Guatemala. Host:

Elaphidionoides villosum (F.), *Oncideres cingulata* (Say), *O. rhodosticta* (Bates).

Odontobracon nigriceps Cameron, 1887. Biol. Cent.-Amer., Hym., v. 1, p. 385. ♀.

Odontobracon elaphidiovorus Rohwer, 1917. U. S. Natl. Mus., Proc. 53: 168. ♀, ♂.

oemeovorus Rohwer. Pa., Md., Fla., Ala., Mich., Ill., Tex. Host: *Oeme rigida* (Say).
Odontobracon oemeovorus Rohwer, 1917. U. S. Natl. Mus., Proc. 53: 167. ♀.

Genus ONTSIRA Cameron

Ontsira Cameron, 1900. Manchester Lit. and Phil. Soc., Mem. and Proc. 44: 89.

Type-species: *Ontsira reticulata* Cameron. Monotypic.

Doryctes subg. *Doryctodes* Hellen, 1927. Acta Soc. Fauna Flora Fenn. 56: 40.

Type-species: *Rogas imperator* Haliday. Orig. desig.

Revision: Marsh, 1966. Amer. Ent. Soc., Trans. 92: 503-517 (No. Amer. spp. as genus *Doryctodes*).

Taxonomy: Fahringer, 1930. Opusc. Bracon., v. 3, p. 144. — Telenga, 1941. Fauna U. S. S. R., v. 5, n. 3, p. 85-92, 389-392. — Marsh, 1973. Wash. Acad. Sci. Jour. 63: 71. — Shenefelt and Marsh, 1976. Hym. Cat., part 13, p. 1322-1327 (cat. World spp.).

antica (Wollaston). N. H. s. to W. Va.; Europe.

Clinocentrus anticus Wollaston, 1858. Ann. and Mag. Nat. Hist. (3) 1: 24. ♀.

Doryctes gallicus Reinhard, 1865. Berlin. Ent. Ztschr. 9: 248. ♀, ♂.

Doryctes incertus Ashmead, 1889 (1888). U. S. Natl. Mus., Proc. 11: 627. ♀.

carinata (Ashmead). Mass., D. C., Va., Iowa, Mo., Ark., S. Dak., Kans.

Rhyssalus carinatus Ashmead, 1889 (1888). U. S. Natl. Mus., Proc. 11: 630. ♂.

imperator (Haliday). No. Amer.; Europe.

Rogas imperator Haliday, 1836. Ent. Mag. 4: 46. ♀.

Ischiogonus zonatus Wesmael, 1838. Nouv. Mem. Acad. Sci. Bruxelles 11: 127. ♀.

Bracon praecisus Ratzeburg, 1852. Ichn. d. Forstins., v. 3, p. 36. ♀.

Syngaster cingulatus Provancher, 1880. Nat. Canad. 12: 162. ♀.

krombeini (Marsh). Md., Mich., Ohio, Ky., Mo., Ark.

Doryctodes krombeini Marsh, 1966. Amer. Ent. Soc., Trans. 92: 511. ♀.

mellipes (Ashmead). Que. s. to Fla., w. to Ont. and Mo. Host: *Callidium* sp.

Doryctes mellipes Ashmead, 1889 (1888). U. S. Natl. Mus., Proc. 11: 627. ♀.

occipitalis (Marsh). Calif.

Doryctodes occipitalis Marsh, 1966. Amer. Ent. Soc., Trans. 92: 512. ♀, ♂.

tuberculata (Marsh). Md., D. C., Va., Ga., Ky., Tenn. Host: *Nyctobates* sp.

Doryctodes tuberculatus Marsh, 1966. Amer. Ent. Soc., Trans. 92: 514. ♀, ♂.

wasbaueri (Marsh). Wash., Calif.

Doryctodes wasbaueri Marsh, 1966. Amer. Ent. Soc., Trans. 92: 515. ♀, ♂.

Genus PAMBOLIDEA Ashmead

Pambolidea Ashmead, 1900. U. S. Natl. Mus., Proc. 23: 147.

Type-species: *Pambolidea yuma* Ashmead. Orig. desig.

Revision: Marsh, 1965. Ent. Soc. Amer., Ann. 58: 674-675.

barberi Marsh. Tex.; Mexico. Host: *Xylobiops texanus* (Horn).

Pambolidea barberi Marsh, 1965. Ent. Soc. Amer., Ann. 58: 674. ♀, ♂.

yuma Ashmead. Tex., Ariz. Host: *Micracis* sp.

Pambolidea yuma Ashmead, 1900. U. S. Natl. Mus., Proc. 23: 147. ♂.

Genus PEDINOTUS Szeppligeti

Pedinotus Szeppligeti, 1902. Termes. Fuzetek 25: 56.

Type-species: *Pedinotus brasiliensis* Szeppligeti. Monotypic.

Goniogmus Enderlein, 1920 (1918). Arch. f. Naturgesch. 84(A)(11): 139.

Type-species: *Goniogmus ferrugineus* Enderlein. Orig. desig.

Taxonomy: Marsh, 1970. Ent. Soc. Wash., Proc. 72: 315-317.

ferrugineus (Enderlein). Tex.; Mexico.

Goniogmus ferrugineus Enderlein, 1920 (1918). Arch. f. Naturgesch. 84(A)(11): 139. ♀.

Genus PIOSCELUS Muesebeck and Walkley

Pioscelus Muesebeck and Walkley, 1951. U. S. Dept. Agr., Agr. Monog. 2, p. 180.Type-species: *Hedysomus wichiitus* Viereck. Orig. desig.*borealis* (Ashmead). Ont.*Caenophanes borealis* Ashmead, 1891. Canad. Ent. 23: 2. ♀.

Taxonomy: Marsh, 1973. Wash. Acad. Sci., Jour. 63: 71.

wichitius (Viereck). Md., Fla., Ohio, Tenn., Miss., Wis., Ill., Iowa, Kans. Ecology: "reared from eggs of cicada." This record needs to be confirmed.

Hedysomus wichiitus Viereck, 1907. Amer. Ent. Soc., Trans. 33: 404. ♂.*Heterospilus beameri* Rohwer, 1925. Wash. Acad. Sci., Jour. 15: 177. ♀, ♂.

Genus PTESIMOGASTER Marsh

Ptesimogaster Marsh, 1965. Ent. Soc. Amer., Ann. 58: 691.Type-species: *Ptesimogaster parkeri* Marsh. Orig. desig.

Taxonomy: Matthews and Marsh, 1969. Ent. Soc. Wash., Proc. 71: 94-98.

gundlachi (Cresson). Fla.; West Indies.*Stenophasmus gundlachi* Cresson, 1865. Ent. Soc. Phila., Proc. 4: 85. ♀.*Stenophasmus cubensis* Cresson, 1865. Ent. Soc. Phila., Proc. 4: 86. ♀.*Stenophasmus pusillus* Cresson, 1865. Ent. Soc. Phila., Proc. 4: 87. ♂.*parkeri* Marsh. Tex., Ariz., Mexico.*Ptesimogaster parkeri* Marsh, 1965. Ent. Soc. Amer., Ann. 58: 693. ♀, ♂.

Genus RHACONOTUS Ruthe

Rhaconotus Ruthe, 1854. Stettin. Ent. Ztg. 15: 349.Type-species: *Rhaconotus aciculatus* Ruthe. Monotypic.*Hedysomus* Foerster, 1862. Naturh. Ver. Rheinlande, Verh. 19: 238.Type-species: *Hedysomus elegans* Foerster. Orig. desig.*Hormiopterus* Giraud, 1869. Soc. Ent. France, Ann. (4) 9: 478.Type-species: *Hormiopterus Ollivieri* Giraud. Monotypic.*Rhadinogaster* Szepligeti, 1908. Leyden Mus., Notes 29: 223.Type-species: *Rhadinogaster testacea* Szepligeti. Desig. by Viereck, 1914.*Euryphrymnus* Cameron, 1910. Wien. Ent. Ztg. 29: 100.Type-species: *Euryphrymnus testaceiceps* Cameron. Monotypic.

Revision: Nixon, 1941. Ann. and Mag. Nat. Hist. (11) 7: 473-503 (Indian and Afr. spp., redescr. of type-species). —Telenga, 1941. Fauna U. S. S. R., v. 5, n. 3, p. 68-70, 387 (some Eur. spp.). —Granger, 1949. Inst. Sci. Madagascar, Mem. (A)2: 126-137 (Madag. spp.). —Marsh, 1976. Ent. Soc. Wash., Proc. 78: 389-403 (No. Amer. spp.).

Taxonomy: Marsh, 1973. Wash. Acad. Sci., Jour. 63: 72. —Shenefelt and Marsh, 1976. Hym. Cat., part 13, p. 1334-1343 (cat. World spp.).

atratus Marsh. N. H., Mass., N. Y., Md., Mich., Minn.*Rhaconotus atratus* Marsh, 1976. Ent. Soc. Wash., Proc. 78: 392. ♀, ♂.*badius* Marsh. Ind., Nebr., Alta., Wash.*Rhaconotus badius* Marsh, 1976. Ent. Soc. Wash., Proc. 78: 393. ♀.*barri* Marsh. Idaho. Ecology: Reared from *Eurotia lanata* Moq. infested with *Acmaeodera immaculata* Horn.*Rhaconotus barri* Marsh, 1976. Ent. Soc. Wash., Proc. 78: 394. ♀, ♂.*brevicaudus* Marsh. Mass., Ont.*Rhaconotus brevicaudus* Marsh, 1976. Ent. Soc. Wash., Proc. 78: 395. ♀.*canadensis* Marsh. Sask.*Rhaconotus canadensis* Marsh, 1976. Ent. Soc. Wash., Proc. 78: 396. ♀, ♂.

- cressoni* Muesebeck and Walkley. Md. s. to Fla., w. to Kans., Nev., and Calif.; Mex. Host: *Cylindrocopturus adspersus* (Lee.), *Lixus scrobicollis* Boh.
Hormius? *aciculatus* Cresson, 1872. Amer. Ent. Soc., Trans. 4: 190. ♀. Preocc. by Ruthe, 1854.
Rhaconotus cressoni Muesebeck and Walkley, 1951. U. S. Dept. Agr., Agr. Monog. 2, p. 181. N. name for *aciculatus* Cresson.
fasciatus (Ashmead). Md. s. to Fla., w. to Iowa and Tex. Host: *Conotrachelus* sp., *Lixus concavus* Say.
Hormiopterus fasciatus Ashmead, 1893. Amer. Ent. Soc., Trans. 20: 43. ♀.
graciliformus (Viereck). Md. s. to Fla., w. to Iowa, Colo., and Ariz.; N. Dak., Alta.
Hormiopterus graciliformus Viereck, 1911. U. S. Natl. Mus., Proc. 40: 183. ♀, ♂.
phalarus Marsh. Tex.
Rhaconotus phalarus Marsh, 1976. Ent. Soc. Wash., Proc. 78: 401. ♀.

Genus RHOPTROCENTRUS Marshall

- Rhoptrocentrus* Marshall, 1897. In Andre, Spec. Hym. Eur. Alg., v. 5 bis, p. 99.
 Type-species: *Rhoptrocentrus piceus* Marshall. Monotypic.
piceus Marshall. Pa. s. to Fla.; Calif.; Europe. Host: *Hylotrupes bajulus* (L.).
Rhoptrocentrus piceus Marshall, 1897. In Andre, Spec. Hym. Eur. Alg., v. 5 bis, p. 100. ♀.

Genus SPATHIUS Nees

- Spathius* Nees, 1818. Nova Acta Acad. Caes. Leop. Car. 9: 301.
 Type-species: *Cryptus clavatus* Panzer. Monotypic.
Stenophasmus Smith, 1859. Linn. Soc. London, Jour., Zool. 3: 169.
 Type-species: *Stenophasmus ruficeps* Smith. Monotypic.
Euspathius Foerster, 1862. Naturh. Ver. Rheinlande, Verh. 19: 236. Emend.
Rhacospathius Cameron, 1905. Spolia Zeylanica 3: 86.
 Type-species: *Rhacospathius striolatus* Cameron. Monotypic.
 Revision: Nixon, 1943. Roy. Ent. Soc. London, Trans. 93: 173-456 (Old World spp.).
 —Matthews, 1970. Amer. Ent. Inst., Contr. 4(5): 1-86 (No. Amer. spp.).
 Taxonomy: Shenefelt and Marsh, 1976. Hym. Cat., part 13, p. 1386-1424 (cat. World spp.).
aphenges Matthews. Alta., Idaho, B. C., Wash., Oreg., Calif. Host: *Conophthorus coniperda* (Schwarz), *Ips latidens* (Lee.), *Phloeotribus lecontei* Schedl, *Scolytus abietis* Blkm.
Spathius aphenges Matthews, 1970. Amer. Ent. Inst., Contr. 4(5): 51. ♀, ♂.
benefactor Matthews. Que. s. to N. C., w. to N. Dak. and Kans. Host: *Hylurgopinus rufipes* (Eichh.), *Leperisinus aculeatus* (Say), *Magdalis armicollis* (Say), *M. barbata* (Say), *M. inconspicua* Horn, *Saperda tridentata* Oliv., *Scolytus multistriatus* (Marsham), *S. rugulosus* Ratz. This species has been studied extensively under the name *canadensis* Ashmead. According to Matthews (1970), all references to *Spathius* reared from elm refer to *benefactor*, not to *canadensis*.
Spathius benefactor Matthews, 1970. Amer. Ent. Inst., Contr. 4(5): 61. ♀, ♂.
 Biology: Kaston, 1937. Conn. Agr. Expt. Sta., Bul. 396, p. 351-353. —Kaston, 1939. Conn. Agr. Expt. Sta., Bul. 420, p. 33-35. —Robert, 1951. Assoc. Canad.-Fr. Adv. Sci., Ann. 17: 139-140.
 —Robert, 1961 (1960). Ent. Soc. Que., Ann. 6: 122-143. All references are to *canadensis* Ashmead.
brachyurus Ashmead. Que. s. to N. C., w. to Wis. and Tenn. Host: *Dryocoetes autographus* (Ratz.), *Pissodes approximatus* Hopk., *P. strobi* (Peck).
Rhopalophorus fasciatus Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 129. ♀. Preocc. by Walker, 1874.
Spathius abdominalis Riley, 1890. In Riley and Howard, U. S. Dept. Agr., Insect Life 2: 350. Nom. nud.
Spathius brevicaudus Ashmead, 1892. In Hopkins, U. S. Dept. Agr., Insect Life 4: 258. Nom. nud.
Spathius brachyurus Ashmead, 1893. Canad. Ent. 25: 73. ♀.

- Spathius dignus* Muesebeck and Walkley, 1951. U. S. Dept. Agr., Agr. Monog. 2, p. 169. N.
name for *fasciatus* Provancher.
- brevipalpus** Matthews. N. C., S. C., Tex.
Spathius brevipalpus Matthews, 1970. Amer. Ent. Inst., Contr. 4 (5): 29. ♀.
- brunneus** Ashmead. Md., W. Va., Fla. Host: *Agrilus fallax* Say, *Scolytus muticus* Say.
Spathius brunneus Ashmead, 1893. Canad. Ent. 25: 72. ♀.
- calligaster** Matthews. Que. s. to S. C., w. to Ill. Host: *Melasis pectinicornis* Melsh.
Spathius calligaster Matthews, 1970. Amer. Ent. Inst., Contr. 4(5): 35. ♀, ♂.
- canadensis** Ashmead. Canada and northern U. S. s. to N. C., S. Dak., and Wash. Host:
Cryphalus sp., *Dryocoetes autographus* (Ratz.), *Ips pini* (Say), *Orthotomicus caelatus* (Eichh.), *Pityophthorus balsameus* Blkm., *Polygraphus rufipennis* (Kirby), *Scolytus piecae* (Swaine). Host records for *canadensis* reared from elm apparently all refer to *benefactor* Matthews.
- Spathius canadensis* Ashmead, 1891. Canad. Ent. 23: 2. ♀.
- Spathius clavipennis* (?) Ashmead, 1892. In Hopkins, U. S. Dept. Agr., Insect Life 4: 257.
Nom. nud.
- Spathius claripennis* Ashmead, 1893. Canad. Ent. 25: 72. ♂.
- Spathius tomici* Ashmead, 1893. Canad. Ent. 25: 71. ♀, ♂.
- comes** Matthews. N. S. and Que. s. to Md., w. to Wis. Host: *Chrysobothris pusilla* Cast.,
Melanophila fulvoguttata (Harr.).
- Spathius comes* Matthews, 1970. Amer. Ent. Inst., Contr. 4(5): 59. ♀, ♂.
- elegans** Matthews. Que. s. to Fla., w. to Ont. and Ala.; Nebr., Kans., Wash. Ecology: Reared

- Spathius elegans* Matthews, 1970. Amer. Ent. Inst., Contr. 4(5): 39. ♀, ♂.
- evansi** Matthews. Que. s. to Fla., w. to Wyo. and N. Mex.
Spathius evansi Matthews, 1970. Amer. Ent. Inst., Contr. 4(5): 42. ♀, ♂.
- exarator** (Linnaeus). Mass., Conn.; Europe.
Ichneumon exarator Linnaeus, 1758. Syst. Nat., 10th ed., v. 1, p. 564.
- floridanus** Ashmead. Que. s. to Fla., w. to Ont., Kans., and Tex. Host: *Chrysobothris* sp., *C. femorata* (Oliv.), *Magdalisa olyra* (Herbst), *Xylotrechus colonus* (F.).
Spathius floridanus Ashmead, 1893. Canad. Ent. 25: 71. ♀.
- honestor** (Say). Ind.
Bracon honestor Say, 1828. Contrib. Maclur. Lyc. Phila. 1: 78. Holotype lost. Original
description indicates that this species is probably a *Spathius* but there are no further
statements that would help place the species.
- impus** Matthews. Que. s. to Fla., w. to Mich. and La. Host: *Phloeosinus* sp., *P. canadensis*
Swaine, *P. dentatus* (Say).
Spathius impus Matthews, 1970. Amer. Ent. Inst., Contr. 4(5): 56. ♀, ♂.
- laflammei** Provancher. Que. s. to N. C., w. to Wis. and Kans. Host: *Magdalisa olyra* (Herbst).
Spathius Laflammei Provancher, 1880. Nat. Canad. 12: 164. ♀.
- longipetiolatus** Ashmead. Fla.
Spathius longipetiolatus Ashmead, 1893. Canad. Ent. 25: 70. ♂.
- marshi** Matthews. Que., N. Y., Pa., Md., Va., Mich., Tenn., Ill., Iowa, Kans.
Spathius marshi Matthews, 1970. Amer. Ent. Inst., Contr. 4(5): 30. ♀, ♂.
- pallidus** Ashmead. Mass. s. to Ga., w. to Tex. Host: *Dendroctonus frontalis* Zimm., *Ips avulsus* (Eichh.), *I. grandicollis* (Eichh.), *Pissodes approximatus* Hopk., *P. nemorensis* Germ.
Spathius pallidus Ashmead, 1893. Canad. Ent. 25: 74. ♀.
- parvulus** Matthews. S. Dak., Colo., N. Mex. Host: *Ips* sp.
Spathius parvulus Matthews, 1970. Amer. Ent. Inst., Contr. 4(5): 55. ♀, ♂.
- sequoiae** Ashmead. Alta. s. to N. Mex., w. to Alaska and Calif. Host: *Alniphagus aspericollis* Lec., *Cryphalus pubescens* Hopk., *Dendroctonus obesus* (Mann.), *D. pseudotsugae* Hopk., *Lechriops californicus* (Lec.), *Phloeosinus punctatus* Lec., *P. sequoiae* Hopk., *Pissodes* sp., *Pseudohylesinus nebulosus* (Lec.), *P. sericeus* (Mann.), *Scolytus* sp., *S. laricis* Blkm., *S. tsugae* Swaine, *S. unispinosus* Lec., *S. ventralis* Lec.
Spathius sequoiae Ashmead, 1889 (1888). U. S. Natl. Mus., Proc. 11: 625. ♀.
Spathius californicus Ashmead, 1893. Canad. Ent. 25: 70. ♂.

Spathius brunneri Viereck, 1912. U. S. Natl. Mus., Proc. 42: 627. ♀.

Biology: Deyrup, 1975. Conif. For. Biome, Ecosystem Anal. Stu., Univ. Wash., Bul. 6, p. 76-77.

simillimus Ashmead. N. B. s. to Va., w. to Wis. Host: *Agrilus anxius* Gory, *A. bilineatus* (Weber), *Phymatodes aereum* (Newman).

Spathius simillimus Ashmead, 1893. Canad. Ent. 25: 73. ♀, ♂.

stigmatus Matthews. Que. s. to Va., w. to Ont. and Ill.; Tex. Host: *Magdalis olyra* (Herbst), *Xylotinus politus* (Say).

Spathius stigmatus Matthews, 1970. Amer. Ent. Inst., Contr. 4(5): 32. ♀, ♂.

trifasciatus Riley. N. Y. s. to N. C.; Miss., Mo., Kans., Tex. Host: *Scolytus quadrispinosus* Say.

Spathius trifasciatus Riley, 1873. Ins. Mo. Ann. Rpt. 5: 106. ♀, ♂.

Spathius unifasciatus Ashmead, 1893. Canad. Ent. 25: 72. ♀.

Genus STENOCORSE Marsh

Stenocorse Marsh, 1968. Ent. Soc. Wash., Proc. 70: 110.

Type-species: *Glyptocolastes bruchivorus* Crawford. Orig. desig.

Taxonomy: Marsh, 1968. Ent. Soc. Wash., Proc. 70: 110-112.

bruchivora (Crawford). Tex., Ariz.; Mexico, Canal Zone, Peru, Hawaii. Host: *Acanthoscelides quadridentatus* (Schaeffer), *Algarobius prosopis* (Lec.), *Megacerus* sp., *Mimosestes sallaei* (Sharp).

Glyptocolastes bruchivorus Crawford, 1909. Ent. Soc. Wash., Proc. 11: 203. ♀, ♂.

SUBFAMILY BRACONINAE

Most species of this large subfamily are external parasites of lepidopterous and coleopterous larvae, but a few attack dipterous and sawfly larvae. The group is very much in need of study, particularly the genera from a world-wide viewpoint.

Genus ATANYCOLIMORPHA Viereck

Atanycolimorpha Viereck, 1913. U. S. Natl. Mus., Proc. 44: 557.

Type-species: *Atanycolimorpha winnemanae* Viereck. Orig. desig.

alaskensis (Ashmead). Alaska.

Bracon alaskensis Ashmead, 1889 (1888). U. S. Natl. Mus., Proc. 11: 615. ♀.

croceiventris (Cresson). Colo.

Bracon croceiventris Cresson, 1865. Ent. Soc. Phila., Proc. 4: 301. ♂.

dissitus (Cresson). Ga., Ark., S. Dak., Tex., Wyo., Colo., Utah, Oreg.

Bracon dissitus Cresson, 1865. Ent. Soc. Phila., Proc. 4: 300. ♀.

Bracon orbitalis Cresson, 1872. Amer. Ent. Soc., Trans. 4: 184. ♀, ♂.

montanensis (Ashmead). Mont.

Bracon montanensis Ashmead, 1889 (1888). U. S. Natl. Mus., Proc. 11: 615. ♀.

provancheri (Dalla Torre). Que., Conn., N. Y., N. J., Md., La., Ark.

Bracon inquisitor Provancher, 1880. Nat. Canad. 12: 138. ♀. Preocc. by Erichson, 1848.

Bracon provancheri Dalla Torre, 1898. Cat. Hym., v. 4, p. 285. New name for *inquisitor*

Provancher.

Atanycolimorpha winnemanae Viereck, 1913. U. S. Natl. Mus., Proc. 44: 557. ♀.

Genus ATANYCOLUS Foerster

Atanycolus Foerster, 1862. Naturh. Ver. Rheinlande, Verh. 19: 238.

Type-species: *Ichneumon denigrator* Linnaeus. Orig. desig.

Coelobracon Dalla Torre, 1898. Cat. Hym., v. 4, p. 295.

Type-species: *Ichneumon denigrator* Linnaeus. Desig. by Muesebeck and Walkley, 1951.

Melanobracon Ashmead, 1900. U. S. Natl. Mus., Proc. 23: 138.

Type-species: *Bracon simplex* Cresson. Orig. desig.

Atanycolidea Viereck, 1912. U. S. Natl. Mus., Proc. 42: 617.

Type-species: *Bracon rugosiventris* Ashmead. Orig. desig.

Species in this genus are external parasites of coleopterous larvae, particularly Cerambycidae and Buprestidae.

- cephi* (Gahan). Minn., Iowa, N. Dak., Mont., southwest. Canada. Host: *Cephus cinctus* Nort.
Microbracon cephii Gahan, 1918. Ent. Soc. Wash., Proc. 20: 19. ♀, ♂.
 Biology: Nelson and Farstad, 1953. Canad. Ent. 85: 103-107. — Holmes, et al., 1963. Canad. Ent. 95: 113-126.
- cerambycidiphagus* (Muesebeck). Pa., Ont., Mich., Wis., Mo. Host: *Dectes texanus* Lec., *Oberea* sp., *O. praelonga* Casey, *O. tripunctata* (Swed.).
Microbracon cerambycidiphagus Muesebeck, 1925. U. S. Natl. Mus., Proc. 67 (8): 76. ♀, ♂.
- cinctus* (Provancher). Canada.
Phylax cinctus Provancher, 1880. Nat. Canad. 12: 175. ♂.

connecticutorum (Viereck). Conn.

Microbracon connecticutorum Viereck, 1917 (1916). Conn. State Geol. and Nat. Hist. Survey, Bul. 22, p. 209.

cockii Ashmead. Mich.

Bracon cockii Ashmead, 1889 (1888). U. S. Natl. Mus., Proc. 11: 624. ♂.

cryptorhynchi (Muesebeck). Mass. Host: *Cryptorhynchus lapathi* (L.).

Microbracon cryptorhynchi Muesebeck, 1931. U. S. Natl. Mus., Proc. 79 (16): 16. ♀, ♂.

curtus (Provancher). Que., Ont., Mich., Minn., Okla., Idaho, Ariz.

Phylax curtus Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 130. ♀, ♂.

cuscutea Muesebeck. D. C. Host: *Smicronyx tychooides* Lec.

Bracon cuscuteae Muesebeck, 1967. Ent. News 78: 138. ♀, ♂.

cushmani (Muesebeck). Pa. s. to Fla., w. to Colo. and Tex.; Ariz., Calif.; Virgin Isl., West Indies. Host: *Acrobasis caryae* Grote, *A. caryivorella* Rag., *A. hebecella* Hulst, *A. indigenella* (Zell.), *Choristoneura fumiferana* (Clem.), *Desmia funeralis* (Hbn.), *Dioryctria disclusa* Heinr., *Grapholitha prunivora* (Walsh), *Mesocondyla gastralis* (Guen.), *Psorosina hammondi* (Riley), *Rhyacionia frustrana* (Comst.).

Habrobracon variabilis Cushman, 1914. Ent. Soc. Wash., Proc. 16: 103. ♀, ♂. Preocc. by Provancher, 1888.
Microbracon cushmani Muesebeck, 1925. U. S. Natl. Mus., Proc. 67 (8): 29. N. name for *variabilis* Cushman.

erucarum (Cushman). Okla., Mont., Wyo., Colo., Idaho, Utah, Ariz., Oreg., Calif. Host: *Barbara colfaxiana taxifoliella* (Busck), *Euxoa* sp.

Habrobracon erucarum Cushman, 1920. U. S. Natl. Mus., Proc. 58: 291. ♀, ♂.

furtivus Fyles. Que. s. to N. C., w. to Iowa. Host: *Gnorimoschema gallaeasteriella* (Kell.), *G. gallaesolidaginis* (Riley).

Bracon furtivus Fyles, 1892. Canad. Ent. 24: 35. ♀.

Bracon fungicola Ashmead, 1894. Cincinnati Soc. Nat. Hist., Jour. 17: 46. ♀.

Biology: Miller, 1963. Ohio Jour. Sci. 63: 73.

gastroideae Ashmead. Mass., N. Y., Pa., Ohio, Ont., Mich., Ill., Minn., Iowa, S. Dak., Kans., Tex., Colo., Calif. Host: *Gastrophysa cyanea* Melsh.

Bracon gastroideae Ashmead, 1889 (1888). U. S. Natl. Mus., Proc. 11: 617. ♂.

gelechiae Ashmead. No. Amer.; West Indies, Bermuda, India. Host: *Anacampsis fragariella* Busck, *Ancylis comptana fragariae* (W. and R.), *Anthophila pariana* (Clerck), *Archips argyrosphilus* (Wlkr.), *Argyrotania citrana* (Fern.), *Chionodes hibiscella* (Busck), *Cnephacia longana* (Haw.), *Coleophora malivorella* Riley, *Desmia funeralis* (Hbn.), *Dichomeris marginella* (F.), *Dioryctria disclusa* Heinr., *D. reniculella* (Grote), *Elasmopalpus lignosellus* (Zell.), *Epiblema strenuum* (Wlkr.), *Exoteleia dodecella* (L.), *Gelechia* sp., *Grapholitha molesta* (Busck), *Heliodines nyctaginella* Gibson, *Keiferia inconspicua* (Murtf.), *Ostrinia nubilalis* (Hbn.), *Papaipema* sp., *Paralobesia viteana* (Clem.), *Pectinophora gossypiella* (Saund.), *Phthorimaea operculella* (Zell.), *Psiloscoris quercicella* Clem., *Psorosina hammondi* (Riley), *Pterophorus periscelidactylus* Fitch, *Pyrausta signatalis* (Wlkr.), *Rhyacionia buoliana* (Schiff.), *R. bushnelli* (Busck), *Sparganothis sulphurana* (F.), *Spilonota ocellana* (D. and S.), *Stegasta bosqueella* (Chamb.), *Thymelicus lineola* (Ochs.).

Bracon gelechiae Ashmead, 1889 (1888). U. S. Natl. Mus., Proc. 11: 623. ♀, ♂.

Bracon notaticollis Ashmead, 1889 (1888). U. S. Natl. Mus., Proc. 11: 624.

Habrobracon johannseni Viereck, 1912. U. S. Natl. Mus., Proc. 42: 622. ♀.

Habrobracon tetralophae Viereck, 1912. U. S. Natl. Mus., Proc. 42: 623. ♀.

Habrobracon diversicolor Viereck, 1912. Ent. News 32: 174. ♀.

Biology: Poos, 1928. Ent. Soc. Wash., Proc. 30: 149. —Gupta, 1951. Nature 168: 793.

—Narayanan and Rao, 1955. Beitr. z. Ent. 5: 36-60. —Wester, 1956. Ent. Soc. Wash., Proc. 58: 284. —Ahmad and Muzaffar, 1976. Entomophaga 21: 235-238.

Morphology: Narayanan and Rao, 1955. Beitr. z. Ent. 5: 286-293 (female reproductive system).

- gemmaecola** (Cushman). Mass., Conn., N. J., Md., Va., Fla., Ohio, Tenn., Mo., Ark., N. Dak., S. Dak., Nebr., Tex., Mont., Colo., Ariz. Host: *Rhyacionia buoliana* (Schiff.), *R. frustrana* (Comst.), *R. bushnelli* (Busck), *R. neomericana* (Dyar), *R. subtropica* Miller.
- Microbracon gemmaecola* Cushman, 1927. Jour. Agr. Res. 34: 740. ♀, ♂.
- geraei** (Muesebeck). N. J., Fla., Ohio, Iowa, Ark., S. Dak., Kans., Ariz. Host: *Geraeus* sp., *Trichobaris* sp.
- Microbracon geraei* Muesebeck, 1925. U. S. Natl. Mus., Proc. 67 (8): 74. ♀, ♂.
- gossypii** Muesebeck. S. C., Ga., Fla., Miss., Ark., La., Tex. Host: *Anthonomus grandis* Boh.

kirkpatricki (Wilkinson). Tex., Ariz.; Africa. Introduced from Kenya. Liberated in Tex. and Ariz. but not known to be established. Host: *Anthonomous grandis* Boh., *Pectinophora gossypiella* (Saund.).

Microbracon kirkpatricki Wilkinson, 1927. Bul. Ent. Res. 18: 33. ♀, ♂.

Biology: Cross, et al., 1969. Jour. Econ. Ent. 62: 448-454. —Bryan, et al., 1971. Jour. Econ. Ent. 64: 1236-1241. —Engroff and Watson, 1975. Ent. Soc. Amer., Ann. 68: 1121-1125.

konkopoti (Viereck). Conn.

Microbracon konkopoti Viereck, 1917 (1916). Conn. State Geol. and Nat. Hist. Survey, Bul. 22, p. 207.

laemosacci (Muesebeck). Ariz. Host: *Laemosaccus* sp.

Microbracon laemosacci Muesebeck, 1925. U. S. Natl. Mus., Proc. 67 (8): 56. ♀, ♂.

laspeyresiae (Walley). Ont., Ga. Host: *Laspeyresia caryana* (Fitch).

Microbracon laspeyresiae Walley, 1935. Canad. Ent. 67: 58. ♀, ♂.

lineatellae (Fischer). Calif. (?); Middle East. Introduced from Lebanon. Liberated in Calif. but not known to be established. Host: *Anarsia lineatella* Zell.

Habrobracon lineatellae Fischer, 1968. Pflanzenschutz-Berichte 37: 98. ♀, ♂.

Biology: Laing and Caltagirone, 1969. Canad. Ent. 101: 135-142.

lissogaster Muesebeck. Mont. Host: *Cephus cinctus* Nort.

Bracon lissogaster Muesebeck, 1953. Ent. Soc. Wash., Proc. 55: 150. ♀, ♂.

Biology: Somsen and Luginbill, 1956. U. S. Dept. Agr., Tech. Bul. 1153, p. 1-7.

lutus Provancher. Que. s. to N. C., w. to Ont., Iowa, and Tenn. Host: *Achatodes zae* (Harr.), *Archanaea oblonga* (Grote), *Epiblema scudderianum* (Clem.), *Hendecaneura shawiana* (Kearf.), *Lixus scrobicollis* Boh., *Papaipema lysimachiae* Bird, *P. nebris* (Guen.).

Bracon lutus Provancher, 1880. Nat. Canad. 12: 142. ♀.

Bracon lizi Ashmead, 1893. Canad. Ent. 25: 67. ♀.

mellitor Say. No. Amer.; Hawaii. Host: *Acrobasis vaccinii* Riley, *Anthonomus albopilosus* Dietz, *A. eugenii* Cano, *A. fulvus* Lec., *A. grandis* Boh., *A. signatus* Say, *A. squamosus* Lec., *Craponius inaequalis* (Say), *Chalcodermus aeneus* Boh., *Conotrachelus nenuphar* (Hbst.), *Cylas formicarius elegantulus* (Sum.), *Elasmopalpus lignosellus* Zell., *Frumenta nundinella* (Zell.), *Grapholita molesta* (Busck), *Homocosoma electellum* (Hulst), *Hypera nigrirostris* (F.), *Laspeyresia caryana* (Fitch), *Lemna collaris* Say, *Mompha stellella* Busck, *Ostrinia nubilalis* (Hbn.), *Paralobesia viteana* (Clem.), *Pectinophora gossypiella* (Saund.), *Platyptilia* sp., *Rhinocyllus conicus* (Froel.), *Rhyacionia adana* Heinr., *R. frustrana* (Comst.), *Rhynchites bicolor* (F.), *Smicraulax tuberculatus* Pierce, *Smicronyx constrictus* (Say), *S. scalpis* (Lec.), *Sparganothis sulphurana* (F.), *Stibadium spumosum* Grote, *Tachypterellus quadrigibbus* (Say), *Tyloderma foveolata* (Say).

Bracon mellitor Say, 1836. Boston Jour. Nat. Hist. 1: 256. ♂.

Bracon xanthostigma Cresson, 1865. Ent. Soc. Phila., Proc. 4: 303. ♀.

Bracon vernoniae Ashmead, 1889 (1888). U. S. Natl. Mus., Proc. 11: 619. ♀ (♂ misdet.).

Bracon anthonomi Ashmead, 1893. U. S. Dept. Agr., Insect Life 5: 185. ♂.

Microbracon pembertoni Bridwell, 1919 (1918). Hawaii. Ent. Soc., Proc. 4: 115. ♀, ♂.

Biology: Folsom, 1936. Jour. Econ. Ent. 29: 111-116. —Adams, Cross, and Mitchell, 1969. Jour. Econ. Ent. 62: 889-895. —McGovern and Cross, 1974. Ent. Soc. Amer., Ann. 67: 520-521. —Barfield, Bottrell, and Smith, 1977. Environ. Ent. 6: 133-137.

meromyzae Gahan. Del., Md., Ohio, Mich., Minn., Iowa, Ark., N. Dak., S. Dak., Kans., Idaho, Utah, Ariz., Calif. Host: *Meromyza americana* Fitch.

Bracon (Tropidobracon) meromyzae Gahan, 1913. U. S. Natl. Mus., Proc. 46: 432. ♀, ♂.

metacomet (Viereck). Conn.

Microbracon metacomet Viereck, 1917 (1916). Conn. State Geol. and Nat. Hist. Survey, Bul. 22, p. 208. ♀.

montowesi (Viereck). Maine, Conn., Pa., N. J., Ont. Host: *Anchylopera platanana* Clem., *Caulocampus acericaulis* (MacG.), *Paraclemensia acerfoliella* (Fitch).

Microbracon montowesi Viereck, 1917 (1916). Conn. State Geol. and Nat. Hist. Survey, Bul. 22, p. 208. ♀, ♂.

- nanus* Provancher. Canada, Ind., Iowa, Kans.
Braccon natus Provancher, 1880. Nat. Canad. 12: 143. ♀, ♂.
- nevadensis* Ashmead. Idaho, Ariz., Wash., Oreg., Calif. Host: *Chrysobothris deleta* Lec., *Synanthedon bibionipennis* (Bdvl.).
Braccon nevadensis Ashmead, 1889 (1888). U. S. Natl. Mus., Proc. 11: 623. ♀.
- niger* (Provancher). Que.
Opius niger Provancher, 1888. Addit. Corr. Faune Ent. Canada Hym., p. 381. ♀.
- nigridorsum* Ashmead. Ont., Mich., Iowa, S. Dak.
Braccon nigridorsum Ashmead, 1891. Canad. Ent. 23: 2. ♀.
- nigropectus* Provancher. Canada, Vt., Mass., Ohio, Iowa, Ark.
Braccon nigropectus Provancher, 1880. Nat. Canad. 12: 143. ♀.
- nitidulus* Dalla Torre. Canada, Maine, Idaho. Host: *Pissodes* sp.
Braccon nitidus Provancher, 1883. Nat. Canad. 14: 16. ♀, ♂. Preocc. by Smith, 1858.
Braccon nitidulus Dalla Torre, 1898. Nat. Canad. v. 4, p. 280. N. name for *nitidus* Provancher.
- nuperus* Cresson. Ont., U. S. except New England; Mexico. Host: *Homoeosoma electellum* (Hulst), *Isophrictis* sp., *Orellia ruficauda* (F.), *Polychrosis rhoifructana* Kearf. This species has also been recorded as being reared from *Herina frondescensiae* (L.), a european species, *Neaspilota achilleae* Johnson, and *Orthoris crotchii* Lec., all of which need to be confirmed.
Braccon nuperus Cresson, 1872. Amer. Ent. Soc., Trans. 4: 187. ♀.
Braccon minimus Cresson, 1872. Amer. Ent. Soc., Trans. 4: 187. ♀, ♂.
Braccon politus Provancher, 1888. Addit. Corr. Faune Ent. Canada Hym., p. 373. ♂.
- oenotherae* (Muesebeck). Mass., N. J., Md., Va., Ga., Ohio, Tenn., Ont., Minn., Nebr., Tex., Calif. Host: *Mompha eloisella* (Clem.).
Microbracon oenotherae Muesebeck, 1925. U. S. Natl. Mus., Proc. 67 (8): 62. ♀, ♂.
- palliventris* (Provancher). Mass., N. Y., Ohio, Ont., Mich., Oreg. Host: *Epilema strenuum* (Wlk.).
Phylax palliventris Provancher, 1880. Nat. Canad. 12: 174. ♀.
Braccon auripes Provancher, 1888. Addit. Corr. Faune Ent. Canada Hym., p. 372. ♀.
Zele pallidiventris Dalla Torre, 1898. Cat. Hym., v. 4, p. 78. Emend.
- papaipemae* (Gahan). N. Y., Mich., Minn. Host: *Papaipema frigida* (Smith).
Microbracon papaipemae Gahan, 1922. U. S. Natl. Mus., Proc. 61: 4. ♀.
- pascuensis* Shenefelt. Mich., Kans., Tex.
Braccon pascuensis Shenefelt, 1944. Kans. Ent. Soc., Jour. 17: 74. ♀, ♂.
- piceiceps* Viereck. Kans.
Braccon piceiceps Viereck, 1905. Kans. Acad. Sci., Trans. 19: 268. ♂.
- piger* Wesmael. Oreg., Calif.; Europe. Introduced from France. Host: *Cneephasia* sp., *Etiella zinckenella* (Treit.).
Braccon piger Wesmael, 1838. Nouv. Mem. Acad. Sci. Bruxelles 11: 48. ♀.
- Biology: Parker, 1951. U. S. Dept. Agr., Tech. Bul. 1036, p. 8-11. — Clausen, 1956. U. S. Dept. Agr., Tech. Bul. 1139, p. 87.
- pini* (Muesebeck). N. S., N. B., Que., Maine, Vt., N. H., Mass., Conn., N. Y., Pa., Va., Ont., Mich., Alta., Mont., Colo., Idaho, B. C., Wash., Oreg., Calif. Host: *Cylindrocopturus furnissi* Buch., *C. longulus* (Lec.), *Pissodes fasciatus* Lec., *P. strobi* (Peck), *P. schwarzi* Hopk., *P. terminalis* Hopping, *Podapion gallicola* Riley.
Microbracon pini Muesebeck, 1925. U. S. Natl. Mus., Proc. 67 (8): 52. ♀, ♂.
- Biology: Taylor, 1929. Ent. Amer. 10: 1-12. — Deyrup, 1975. Conif. For. Biome Ecosystem Anal. Stud., Univ. of Wash., Bul. 6, pp. 81-83.
- pityophthori* (Muesebeck). N. Mex. Host: *Pityophthorus* sp.
Microbracon pityophthori Muesebeck, 1925. U. S. Natl. Mus., Proc. 67 (8): 55. ♀.
- platynotae* (Cushman). Ga., La., Tex., Calif.; Mexico. Host: *Heliothis zea* (Boddie), *Lineodes integra* (Zell.), *L. interrupta* Zell., *Pectinophora gossypiella* (Saund.), *Pilemia periusalis* (Wlk.), *Platynota stultana* Wlsm.
Habrobracon platynotae Cushman, 1914. Ent. Soc. Wash., Proc. 16: 104. ♀, ♂.

podunkorum (Viereck). Conn., Va., Ohio, Mich., Iowa, Mo. Host: *Aristotelia absconditella* (Wlkr.).

Microbracon podunkorum Viereck, 1917 (1916). Conn. State Geol. and Nat. Hist. Survey, Bul. 22, p. 207.

politiventris (Cushman). N. S. s. to Va., w. to B. C. and Calif.; La. Host: *Ancylis comptana fragariae* (W. and R.), *Archips rosanus* (L.), *Argyrotaenia pinatubana* (Kearf.), *A. velutinana* (Wlkr.), *Choristoneura conflictana* (Wlkr.), *C. fumiferana* (Clem.), *C. occidentalis* Freem., *C. parallela* (Rob.), *C. pinus* Freem., *C. rosaceana* (Harr.), *Conotrachelus nenuphar* (Hbst.), *Dioryctria reniculella* (Grote), *Grapholitha molesta* (Busck), *Pandemis lamprosana* (Rob.), *Paralobesia viteana* (Clem.), *Rhyacionia buoliana* (Schiff.).

Habrobracon politiventris Cushman, 1919. U. S. Natl. Mus., Proc. 55: 517. ♀.

Biology: McKnight, 1971. Ent. Soc. Amer., Ann. 64: 620-624.

psilocorsi (Viereck). Md., Tex. Host: *Argalea cristifasciella* (Chamb.).

Microbracon psilocorsi Viereck, 1912. U. S. Natl. Mus., Proc. 42: 143. ♀, ♂.

punctatus (Muesebeck). N. Y., Pa., Md., N. C., Ga., Fla., Mich., Wis., Ill., Ala., Iowa, Ark., La., Tex. Host: *Anthonomus nubilis* Lec., *Cylas formicarius elegantulus* (Sum.), *Endalus celatus* Burke, *Faustinus cubae* (Boh.). Also recorded from *Listronotus oregonensis* Lec. which needs to be confirmed.

Microbracon punctatus Muesebeck, 1925. U. S. Natl. Mus., Proc. 67 (8): 24. ♀.

pygmaeus Provancher. South. Canada, U. S. Host: *Argyrotaenia citrana* (Fern.), *Coleophora innotabilis* Braun, *C. loricella* Hbn., *C. leucochrysella* Clem., *C. malivorella* Riley, *C. pruniella* Clem., *C. serratella* (L.), *C. volckei* Heinr.

Bracon pygmaeus Provancher, 1880. Nat. Canad. 12: 144. ♀, ♂.

Bracon juncei Ashmead, 1889 (1888). U. S. Natl. Mus., Proc. 11: 619. ♀, ♂.

Bracon trifolii Ashmead, 1889 (1888). U. S. Natl. Mus., Proc. 11: 622. ♂.

Bracon kansensis Viereck, 1905. Kans. Acad. Sci., Trans. 19: 268. ♀.

Microbracon coleophorae Rohwer, 1915. U. S. Natl. Mus., Proc. 49: 231. ♀, ♂.

Microbracon massasoiti Viereck, 1917 (1916). Conn. State Geol. and Nat. Hist. Survey, Bul. 22, p. 207.

Biology: Doner, 1934. Ent. Soc. Amer., Ann. 27: 435-442.

pyralidiphagus (Muesebeck). N. J. s. to Fla.; Mich., La., Tex., Colo., Ariz.

Microbracon pyralidiphagus Muesebeck, 1925. U. S. Natl. Mus., Proc. 67 (8): 34. ♀.

quinnipiacorum (Viereck). Conn., N. J., Pa., Md., Va., Fla., Mich., Ind., Tenn., Iowa, Ark., S. Dak., Tex., Ariz.

Microbracon quinnipiacorum Viereck, 1917 (1916). Conn. State Geol. and Nat. Hist. Survey, Bul. 22, p. 207.

radicis Shenefelt. Wis. Host: *Hylobius radicis* Buch.

Bracon radicis Shenefelt, 1960. Canad. Ent. 92: 872. ♀, ♂.

rhyacioniae (Muesebeck). Que. w. to Sask.; N. Dak., S. Dak., Nebr., Mont., Colo., N. Mex., Ariz., Idaho, Calif. Host: *Barbara colfaxiana* (Kearf.), *Dioryctria auranticella* (Grote), *Eucosma recissioriana* Heinr., *E. tocullionana* Heinr., *Laspeyresia youngana* (Kearf.), *Rhyacionia frustrana* (Comst.), *R. bushnelli* (Busck), *R. neomexicana* (Dyar).

Microbracon rhyacioniae Muesebeck, 1931. U. S. Natl. Mus., Proc. 79 (16): 15. ♀, ♂.

rhyssoptani Ashmead. Ohio, Ill. Host: *Rhysomatus annectans* Casey, *R. lineaticollis* (Say).

Bracon rhyssoptani Ashmead, 1894. Cincinnati Soc. Nat. Hist., Jour. 17: 46. ♂.

rosaceani Muesebeck. Oreg. Host: *Choristoneura rosaceana* (Harr.).

Bracon rosaceani Muesebeck, 1963. Ent. News 74: 160. ♀, ♂.

rudbeckiae (Muesebeck). Iowa, Ark., N. Dak., Kans., Tex., N. Mex., Ariz. Host: *Anthonomus squamosus* Lec.

Microbracon rudbeckiae Muesebeck, 1925. U. S. Natl. Mus., Proc. 67 (8): 45. ♀, ♂.

rufomarginatus Ashmead. W. Va.

Bracon rufomarginatus Ashmead, 1893. Canad. Ent. 25: 68. ♀.

- sanninoideae** (Gahan). Ont. s. to Ga., w. to Wis., Kans., and Ark. Host: *Alcathoe caudata* (Harr.), *Podosesia syringae fraxini* Lugg., *Synanthedon exitiosa* (Say), *S. rhododendri* (Beut.).
- Microbracon sanninoideae* Gahan, 1917. U. S. Natl. Mus., Proc. 53: 196. ♀, ♂.
- scanticorum** (Viereck). Conn., Ill.
- Microbracon scanticorum* Viereck, 1917 (1916). Conn. State Geol. and Nat. Hist. Survey, Bul. 22, p. 207.
- sesiae** (Muesebeck). Conn., N. Y., Colo. Host: *Janus integer* (Nort.), *Synanthedon tipuliformis* (Clerck).
- Microbracon sesiae* Muesebeck, 1925. U. S. Natl. Mus., Proc. 67 (8): 53. ♀, ♂.
- sphenophori** (Muesebeck). Mo., Ark. Host: *Sphenophorus callosus* (Oliv.).
- Microbracon sphenophori* Muesebeck, 1925. U. S. Natl. Mus., Proc. 67 (8): 25. ♀, ♂.
- sulcifrons** (Ashmead). Colo.
- Microbracon sulcifrons* Ashmead, 1890. Colo. Biol. Assoc., Bul. 1: 15. ♂.
- tachypteri** (Muesebeck). N. Y., W. Va., Wis., Kans., Colo. Host: *Tachypterellus cossors cerasi* List, *T. quadrigibbus* (Say), *T. q. magnas* List.
- Microbracon tachypteri* Muesebeck, 1925. U. S. Natl. Mus., Proc. 67 (8): 68. ♀.
- tenuiceps** (Muesebeck). Que. s. to Va. and Tenn., w. to Ont. and Kans.; Tex., Idaho, Nev., Wash. Host: *Hypera meles* (F.), *H. nigrirostris* (F.).
- Microbracon tenuiceps* Muesebeck, 1925. U. S. Natl. Mus., Proc. 67 (8): 46. ♀.
- tenuis** Muesebeck and Walkley. Alaska.
- Macrodycetum politum* Ashmead, 1902. Wash. Acad. Sci., Proc. 4: 252. ♀. Preocc. by Provancher, 1888.
- Microbracon ashmeadi* Muesebeck, 1925. U. S. Natl. Mus., Proc. 67 (8): 42. N. name for *politum* Ashmead; preocc. by Morrison, 1917.
- Bracon tenuis* Muesebeck and Walkley, 1951. U. S. Dept. Agr., Agr. Monog. 2, p. 168. N. name for *ashmeadi* Muesebeck.
- terebella** Wesmael. N. Y., Pa., Ohio; Europe. Host: *Cephus cinctus* Nort., *C. pygmaeus* (L.), *Trachelus tabidus* (F.). This species was also introduced into Ont., N. Dak., and Mont. from Europe but apparently not established.
- Bracon terebella* Wesmael, 1838. Nouv. Mem. Acad. Sci. Bruxelles 11: 57. ♀.
- Biology: Salt, 1931. Bul. Ent. Res. 22: 527-534.
- thurberiphagae** (Muesebeck). Tex., Ariz.; Mexico, West Indies. Host: *Ancylostomia stercorea* (Zell), *Anthonomus grandis thurberiae* Pierce, *Thurberiphaga diffusa* (Barnes).
- Microbracon thurberiphagae* Muesebeck, 1925. U. S. Natl. Mus., Proc. 67 (8): 54. ♀, ♂.
- Biology: Bennett, 1960. Bul. Ent. Res. 50: 747-749.
- tychii** (Muesebeck). Utah, Idaho, Calif. Host: *Etiella zinckenella* (Treit.), *Tychius lineellus* Lec., *T. semisquamatus* Lec.
- Microbracon tychii* Muesebeck, 1925. U. S. Natl. Mus., Proc. 67 (8): 51. ♀, ♂.
- uncas** (Viereck). Conn.
- Microbracon uncas* Viereck, 1917 (1916). Conn. State Geol. and Nat. Hist. Survey, Bul. 22, p. 208.
- variabilis** (Provancher). Que. s. to Ga., w. to Minn. and Tex.; Idaho. Host: *Acrobasis caryae* Grote, *A. rubrifasciella* Pack., *Blastodacna* sp., *Conotrachelus nenuphar* (Hbst.), *Paralobesia viteana* (Clem.), *Tachypterellus quadrigibbus* (Say), *T. q. magnas* List.
- Opius variabilis* Provancher, 1888. Addit. Corr. Faune Ent. Canada Hym., p. 382. ♂.
- Bracon tortricicola* Ashmead, 1889 (1888). U. S. Natl. Mus., Proc. 11: 621. ♀.
- Biology: Nickels, Pierce, and Pinkney, 1950. U. S. Dept. Agr., Tech. Bul. 1011, p. 9-12.
—Balduf, 1968. Ent. Soc. Amer., Ann. 61: 467-468.
- wawequa** (Viereck). Conn.
- Microbracon wawequa* Viereck, 1917 (1916). Conn. State Geol. and Nat. Hist. Survey, Bul. 22, p. 206.
- xanthonotus** Ashmead. N. H., Va., Minn., Colo., N. Mex., Idaho, Utah, Ariz., Wash., Oreg., Calif. Host: *Malacosoma californicum* (Pack.), *M. c. fragile* (Stretch), *M. c.*

pluviale (Dyar), *M. c. recenseo* Dyar, *M. constrictum* (Hy. Edw.), *M. disstria* Hbn., *Orygia leucostigma* (Smith), *O. pseudotsugata* (McD.), *O. vetusta* (Bdvl.), *Sabulodes caberatae* (Gn.).
Bracon xanthonotus Ashmead, 1889 (1888). U. S. Natl. Mus., Proc. 11: 618. ♀, ♂.
Bracon (Habrobracon) hopkinsi Viereck, 1910. U. S. Natl. Mus., Proc. 38: 380. ♀, ♂.
Habrobracon mali Viereck, 1913. U. S. Natl. Mus., Proc. 44: 641. ♀, ♂.

Biology: McKenzie, 1935. Calif. Agr. Expt. Sta., Bul. 592, p. 20-21.

Genus COELOIDES Wesmael

Coeleoides Wesmael, 1838. Nouv. Mem. Acad. Sci. Bruxelles 11: 59.

Type-species: *Coeleoides scolyticida* Wesmael. Desig. by Shenefelt, 1943.

Syntomomelus Kokujev, 1902. Rev. Russ. d'Ent. 3: 163.

Type-species: *Syntomomelus rossicus* Kokujev. Monotypic.

Habrobraconidea Viereck, 1912. U. S. Natl. Mus., Proc. 43: 578.

Type-species: *Habrobraconidea bicoloripes* Viereck. Orig. desig.

Coeloidina Viereck, 1921. U. S. Natl. Mus., Proc. 59: 133.

Type-species: *Coeleoides melanotus* Wesmael. Orig. desig.

Cerobracaon Viereck, 1926. Canad. Ent. 58 (3): 54.

Type-species: *Bracon secundus* Dalla Torre. Orig. desig.

Species are external parasites of larvae of wood boring Coleoptera.

brunneri Viereck. Mont. s to N. Mex., w. to Wash. and Calif. Host: *Dendroctonus pseudotsugae* Hopk. Other host records need to be confirmed.

Coeleoides brunneri Viereck, 1911. U. S. Natl. Mus., Proc. 41: 293. ♀, ♂.

Coeleoides scolyti Cushman, 1931. Wash. Acad. Sci., Jour. 21: 303. ♀, ♂.

Biology: Ryan, 1962. Ent. Soc. Amer., Ann. 55: 403-409. — Ryan and Rudinsky, 1962. Canad. Ent. 94: 748-763. — Ryan, 1963. Ent. Soc. Amer., Ann. 56: 639-648. — Richerson and Borden, 1971. Entomophaga 16: 95-99. — Richerson and Borden, 1972. Canad. Ent. 104: 1235-1250, 1877-1881. — Deyrup, 1975. Conif. For. Biome Ecosystem Anal. Stud., Univ. of Wash., Bul. 6, p. 87-90.

Morphology: Richerson, Borden, and Hollingdale, 1972. Canad. Jour. Zool. 50: 909-913 (antenna).

crocator (Kirby). No. Amer. ("lat. 65").

Bracon crocator Kirby, 1837. Fauna Bor.-Amer., v. 4, p. 261. ♀.

dendroctoni Cushman. Que.; S. Dak. s. to Ariz., w. to B. C. and Calif.; Alaska. Host:

Dendroctonus obesus (Mann.), *D. ponderosae* Hopk., *D. rufipennis* (Kby.), *Ips confusus* (Lec.), *I. emarginatus* (Lec.), *I. oregonis* (Eichh.), *I. perturbatus* (Eichh.), *I. pilifrons* Swaine, *Orthothonicus caelatus* (Eichh.).

Coeleoides dendroctoni Cushman, 1931. Wash. Acad. Sci., Jour. 21: 303. ♀, ♂.

Biology: De Leon, 1935. Ent. Soc. Amer., Ann. 28: 411-424. — Reid, 1963. Canad. Ent. 95: 233-235. — Deyrup, 1975. Conif. For. Biome Ecosystem Anal. Stud., Univ. of Wash., Bul. 6, p. 90.

Morphology: De Leon, 1934. N. Y. Ent. Soc., Jour. 42: 297-317.

pissodis (Ashmead). N. S. and N. B. s. to Ga., w. to Tex.; Ont., Wis., Minn., Wyo. Host:

Dendroctonus frontalis Zimm., *Ips calligraphus* (Germar), *I. grandicollis* (Eichh.),

Pissodes approximatus Hopk., *P. nemorensis* Germar, *P. strobi* (Peck).

Bracon pissodis Ashmead, 1889 (1888). U. S. Natl. Mus., Proc. 11: 617. ♀.

Habrobraconidea bicoloripes Viereck, 1912. U. S. Natl. Mus., Proc. 43: 579. ♀.

Biology: Taylor, 1929. Ent. Amer. 10: 22-26.

promontorii (Dalla Torre). Canada, N. H., Pa.

Bracon striatus Provancher, 1880. Nat. Canad. 12: 140. ♂. Preocc. by Brulle, 1846.

Bracon promontorii Dalla Torre, 1898. Cat. Hym., v. 4, p. 285. N. name for *striatus* Provancher.

rufovariegatus (Provancher). Canada.

Bracon rufovariegatus Provancher, 1880. Nat. Canad. 12: 142. ♀, ♂.

scolytivorus (Cresson). Que. s. to N. C.; Mo. Host: *Neoclytus acuminatus* (F.), *Scolytus quadrispinosus* Say.

Bracon scolytivorus Cresson, 1873. In Riley, Ins. Mo., Ann. Rpt. 5: 106. ♀, ♂.

Bracon longicaudus Provancher, 1880. Nat. Canad. 12: 142. ♀, ♂. Preocc. by Brulle, 1846.
Bracon canadensis Dalla Torre, 1898. Cat. Hym., v. 4, p. 261. N. name for *longicaudus* Provancher.

secundus (Dalla Torre). Que., Maine, N. H., N. C., Minn. Host: *Pissodes dubius* Rand.

Bracon nigripes Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 121. ♀, ♂.
Preocc. by Brulle, 1846.

Bracon secundus Dalla Torre, 1898. Cat. Hym., v. 4, p. 288. N. name for *nigripes* Provancher.

vancouverensis (Dalla Torre). B. C.

Bracon striatus Provancher, 1888. Addit. Corr. Faune Ent. Canada Hym., p. 432. ♂.
Preocc. by Brulle, 1846.

Bracon vancouverensis Dalla Torre, 1898. Cat. Hym., v. 4, p. 293. N. name for *striatus* Provancher.

Genus COMPSOBRACON Ashmead

Compsobracon Ashmead, 1900. U. S. Natl. Mus., Proc. 23: 138.

Type-species: *Exothecus magnificus* Ashmead. Orig. desig.

Macronura Szeppligeti, 1906. Mus. Nat. Hung., Ann. 4: 581.

Type-species: *Iphiaulax mirabilis* Szeppligeti. Desig. by Viereck, 1914.

magnificus (Ashmead). Tex.

Exothecus magnificus Ashmead, 1889 (1888). U. S. Natl. Mus., Proc. 11: 624. ♀.

Genus CYANOPTERUS Haliday

Cyanopterus Haliday, 1835. Ent. Mag. 3: 22.

Type-species: *Ichneumon flavator* Fabricius. Monotypic.

Bracambus Szeppligeti, 1896. Termes. Fuzetek 19: 168.

Type-species: *Ichneumon flavator* Fabricius. Monotypic.

Coeloidimorpha Viereck, 1913. U. S. Natl. Mus., Proc. 44: 558.

Type-species: *Bracon (Melanobracon) webbi* Viereck. Orig. desig.

laevis (Provancher). Que., Maine, Pa., Ga., Mich., Miss., Minn., Mont., Calif.

Bracon laevis Provancher, 1880. Nat. Canad. 12: 138. ♀.

Bracon (Melanobracon) webbi Viereck, 1909. U. S. Dept. Agr. Bur. Ent., Bul. 58: 54. ♀.

Genus IPHIAULAX Foerster

Iphiaulax Foerster, 1862. Naturh. Ver. Rheinlande, Verh. 19: 234.

Type-species: *Bracon impostor* Scopoli. Orig. desig.

Ipobracon Dalla Torre, 1898. Cat. Hym., v. 4, p. 296.

Type-species: *Bracon nigrator* Zetterstedt. Desig. by Muesebeck and Walkley, 1951.

Digonogastra Viereck, 1912. U. S. Natl. Mus., Proc. 42: 621.

Type-species: *Bracon epicus* Cresson. Orig. desig.

Monogonogastra Viereck, 1912. U. S. Natl. Mus., Proc. 42: 625.

Type-species: *Bracon atripectus* Ashmead. Orig. desig.

Iphiaulacidea Fahringer, 1926. Opusc. Bracon., v. 1, p. 189.

Type-species: *Bracon impostor* Scopoli. Desig. by Muesebeck and Walkley, 1951.

agrili (Ashmead). Que. and N. B. s. to Ga., w. to N. Dak. and Ariz. Host: *Agrilus* sp., *Oberea praelonga* Casey.

Bracon agrili Ashmead, 1889 (1888). U. S. Natl. Mus., Proc. 11: 612. ♀, ♂.

americanus Provancher. Que., N. Y., Pa., Va.

Iphiaulax americanus Provancher, 1888. Addit. Corr. Faune Ent. Canada Hym., p. 371. ♀.

atripectus (Ashmead). Calif.

Bracon atripectus Ashmead, 1889 (1888). U. S. Natl. Mus., Proc. 11: 614. ♀.

augustus Viereck. Conn.

Iphiaulax (Monogonogastra) augustus Viereck, 1917 (1916). Conn. State Geol. and Nat. Hist. Survey, Bul. 22, p. 210. ♀.

cinnabarinus Viereck. Tex., N. Mex., Ariz.

Iphiaulax cinnabarinus Viereck, 1905. Kans. Acad. Sci., Trans. 19: 286. ♀.

epicus (Cresson). Fla., Mich., Ill., Iowa, Ark., Tex., Ariz.

Bracon epicus Cresson, 1872. Amer. Ent. Soc., Trans. 4: 183. ♀.

erythrogaster (Brulle). Pa.

Bracon erythrogaster Brulle, 1846. In Lepeletier, Hist. Nat. Ins. Hym., v. 4, p. 401. ♀.

erythrus (Viereck). Tex., N. Mex., Ariz., Calif.

Vipio erythrus Viereck, 1905. Kans. Acad. Sci., Trans. 19: 284. ♂.

eurygaster (Brulle). Maine, Conn., N. Y., Pa., N. J., Mich., Ind., S. Dak. Host: *Saperda concolor* Lec.

Bracon eurygaster Brulle, 1846. In Lepeletier, Hist. Nat. Ins. Hym., v. 4, p. 400. ♀.

faustus (Cresson). Kans., Tex., Ariz.; Mexico. Host: *Ataxia* sp., *A. hubbardi* Fish.

Bracon faustus Cresson, 1872. Amer. Ent. Soc., Trans. 4: 185. ♀.

koebelia (Ashmead). Calif.

Bracon koebelia Ashmead, 1889 (1888). U. S. Natl. Mus., Proc. 11: 613. ♂.

manteri Nettleton. Ga., Fla., Ala., Miss. Host: *Oiketicus abbottii* Grote, *Thyridopteryx ephemeraeformis* (Haw.).

Iphiaulax manteri Nettleton, 1938. Ent. Soc. Amer., Ann. 31: 15. ♀, ♂.

melanogaster Viereck. Kans.

Iphiaulax melanogaster Viereck, 1905. Kans. Acad. Sci., Trans. 19: 270. ♀.

militaris Viereck. Pa., N. J., Md., Kans.

Iphiaulax militaris Viereck, 1905. Kans. Acad. Sci., Trans. 19: 269. ♀.

orbita (Brulle). D. C.

Bracon orbita Brulle, 1846. In Lepeletier, Hist. Nat. Ins. Hym., v. 4, p. 399. ♀.

ornatus (Provancher). Canada.

Bracon ornatus Provancher, 1880. Nat. Canad. 12: 141. ♀, ♂.

Iphiaulax decoratus(!) Provancher, 1888. Addit. Corr. Faune Ent. Canada Hym., p. 371.

palliventris (Cresson). Mich., "Colo. Terr."

Bracon palliventris Cresson, 1865. Ent. Soc. Phila., Proc. 4: 301. ♀.

Bracon palliventris Dalla Torre, 1898. Cat. Hym., v. 4, p. 282. Emend.

perepicus Viereck. Tex., N. Mex., Ariz.

Iphiaulax perepicus Viereck, 1905. Kans. Acad. Sci., Trans. 19: 285. ♀.

propinquus Viereck. Ariz.

Iphiaulax propinquus Viereck, 1905. Kans. Acad. Sci., Trans. 19: 286. ♀.

rugiceps (Cresson). Tex.

Bracon rugiceps Cresson, 1872. Amer. Ent. Soc., Trans. 4: 184. ♀.

sanguineus (Provancher). Ariz., Calif.

Bracon sanguineus Provancher, 1888. Addit. Corr. Faune Ent. Canada Hym., p. 372. ♀.

Genus VIPIO Latreille

Vipio Latreille, 1804. Nouv. Dict. Hist. Nat. 24: 173.

Type-species: *Ichneumon desertor* Fabricius. Desig. by Foerster, 1862.

Glyptomorpha Holmgren, 1868. Eug. Resa II, Zool. 1, Ins., p. 427.

Type-species: *Glyptomorpha ferruginea* Holmgren. Monotypic.

Pseudovipio Szepligeti, 1896. Termes. Fuzetek 19: 230.

Type-species: *Bracon inscriptor* Nees. Desig. by Viereck, 1914.

Euvipio Szepligeti, 1904. In Wytsmann, Gen. Ins., v. 22, p. 14.

Type-species: *Euvipio rufa* Szepligeti. Monotypic.

Zavipio Viereck, 1914. U. S. Natl. Mus., Bul. 83: 156.

Type-species: *Vipio marshalli* Schmiedeknecht. Orig. desig.

belfragei (Cresson). Ga., Ind., Ill., Mo., Tex. Host: *Sphenophorus cariosus* (Oliv.).

Bracon belfragei Cresson, 1872. Amer. Ent. Soc., Trans. 4: 186. ♀.

- coloradensis* Ashmead. Mont., Wyo., Colo., N. Mex., Idaho, Utah, Ariz.
Vipio coloradensis Ashmead, 1889 (1888). U. S. Natl. Mus., Proc. 11: 611. ♀.
- croceus* (Cresson). "Colo. Terr."
Bracon croceus Cresson, 1865. Ent. Soc. Phila., Proc. 4: 302. ♀.
- moneilemae* Gahan. Utah, Calif.; Mexico. Host: *Moneilema* sp.
Vipio moneilemae Gahan, 1930. U. S. Natl. Mus., Proc. 77 (8): 3. ♀, ♂.
- piceipictus* Viereck. Kans.
Vipio piceipictus Viereck, 1905. Kans. Acad. Sci., Trans. 19: 269. ♀.
- rugator* (Say). N. J. s. to Fla., w. to Wis., Kans., and Tex.; Mexico.
Bracon rugator Say, 1836. Boston Jour. Nat. Hist. 1: 251. ♀.
Bracon majoritus Cresson, 1872. Amer. Ent. Soc., Trans. 4: 186. ♀.
Bracon novitus Cresson, 1872. Amer. Ent. Soc., Trans. 4: 186. ♂.
- schwarzii* (Ashmead). Ga., Fla., Mich., Iowa.
Bracon Schwarzii Ashmead, 1889 (1888). U. S. Natl. Mus., Proc. 11: 615. ♀.
- texanus* (Cresson). S. C., Tenn., Iowa, Tex.
Bracon texanus Cresson, 1872. Amer. Ent. Soc., Trans. 4: 187. ♀.
- uniformis* (Cresson). "Colo. Terr."
Bracon uniformis Cresson, 1865. Ent. Soc. Phila., Proc. 4: 302. ♀.

SUBFAMILY EXOTHECINAE

The genera in this group were included in the Rogadinae in the previous catalog although they were placed in a distinct subfamily by earlier workers. Separation from the Rogadinae appears justified since the Exothecinae are apparently external parasites of lepidopterous, coleopterous, and sawfly larvae, the Rogadinae being internal parasites of lepidopterous larvae. The genera included here are in need of revision and the generic placement of the North American species which follows should be considered only provisional until a thorough study is made of the group.

Taxonomy: Shenefelt, 1975. Hym. Cat., part 12, p. 1115-1163 (cat. World spp.).

TRIBE EXOTHECINI

Genus ACRYSIS Foerster

- Acrisia* Foerster, 1862. Naturh. Ver. Rheinlande, Verh. 19: 236.
 Type-species: *Acrisia gracilicornis* Foerster. Orig. desig.
Euchasmus Marshall, 1888. In Andre, Spec. Hym. Eur. Alg., v. 4, p. 210.
 Type-species: *Euchasmus exiguis* Marshall. Monotypic.
Episigalpus Ashmead, 1900. U. S. Natl. Mus., Proc. 23: 125.
 Type-species: *Episigalpus minutissimus*(!) Ashmead. Orig. desig.
 Taxonomy: Muesebeck, 1935. Ent. Soc. Wash., Proc. 37: 175-177 (No. Amer. spp.). — Marsh, 1965. Ent. Soc. Amer., Ann. 58: 690. — Shenefelt and Marsh, 1976. Hym. Cat., part 13, p. 1343-1344 (cat. World spp.).
americana (Ashmead). Pa., Mich., Ind.
Pygostolus americanus Ashmead, 1894. Cincinnati Soc. Nat. Hist., Jour. 17: 47. "♂" = ♀.
minutissima (Ashmead). Wis., Ill., La., S. Dak.
Episigalpus minutissimus(!) Ashmead, 1900. U. S. Natl. Mus., Proc. 23: 125. ♀.

Genus ALLOBRACON Gahan

- Allobracon* Gahan, 1915. U. S. Natl. Mus., Proc. 49: 94.
 Type-species: *Diachasma pilosipes* Ashmead. Orig. desig.

One undescribed species in North America.

Genus COLASTES Haliday

- Colastes* Haliday, 1833. Ent. Mag. 1: 266.
 Type-species: *Colastes braconius* Haliday. Monotypic.
Exothecus Wesmael, 1838. Nouv. Mem. Acad. Sci. Bruxelles 11: 73.

Type-species: *Erothecus affinis* Wesmael. Desig. by Foerster, 1862.

The synonymy of *Erothecus* with *Colastes* needs to be confirmed by examination of the type-species. There is no doubt, however, that many species associated with *Colastes* at present are not congeneric with the type-species.

Taxonomy: Shenefelt, 1975. Hym. Cat., part 12, p. 1115-1122 (cat. World spp.).

alaskensis (Ashmead). Alaska.

Erothecus alaskensis Ashmead, 1902. Wash. Acad. Sci., Proc. 4: 252.

orchesiae (Ashmead). Mich., Iowa. Host: *Orchesia castanea* Melsh.

Rhysipolis orchesiae Ashmead, 1889 (1888). U. S. Natl. Mus., Proc. 11: 625. ♀.

polypori Mason. Que., Man., Wis. Ecology: Reared from the shelf fungus *Polyporus betulinus* on birch.

Colastes polypori Mason, 1968. Canad. Ent. 100: 715. ♀, ♂.

NOMINA NUDA IN COLASTES HALIDAY

Colastes basalis Ashmead, 1899. In Smith, Ins. of N. J., p. 597.

Colastes microrhopalae Riley, 1890. In Riley and Howard, U. S. Dept. Agr., Insect Life 2: 351.

Genus GNAPTODON Haliday

Opius subg. *Gnaptodon* Haliday, 1837. Ent. Mag. 4: 220.

Type-species: *Bracon pumilio* Nees. Monotypic.

Diraphus Wesmael, 1838. Nouv. Mem. Acad. Sci. Bruxelles 11: 89.

Type-species: *Diraphus pygmaeus* Wesmael. Monotypic.

This genus has traditionally been placed in the Opiinae, but Tobias (1967) and Capek (1970) have placed it with the Exothecini, which appears to be correct. Morphologically, the genus resembles other genera in this tribe. Species are internal parasites of leaf mining lepidopterous larvae and are apparently restricted to the family Nepticulidae.

Revision: Fischer, 1965. Polskie Pismo Ent. 35: 168-182 (No. Amer. spp.). —Fischer, 1967.

Beitr. z. Ent. 17: 969-973 (No. and So. Amer. spp.).

Taxonomy: Tobias, 1967. Ent. Obozr. 46: 661. —Capek, 1970. Canad. Ent. 102: 861, 871.

—Fischer, 1971. Index World Opinae, p. 127-128 (cat. World spp.). —Shenefelt, 1975. Hym. Cat., part 12, p. 1123-1125 (cat. World spp.).

Type-species: *Rogas luteus* Nees. Desig. by Foerster, 1862.

Triraphis Ruthe, 1855. Stettin. Ent. Ztg. 16: 292.

Type-species: *Exothecus discolor* Ruthe. Monotypic.

- Taxonomy: Shenefelt, 1975. Hym. Cat., part 12, p. 1206-1209 (cat. World spp.).
discoideum (Cresson). N. Y., Pa., N. J., Md., D. C., Fla., Mich., Ill.

Aleiodes discoideus Cresson, 1869. Amer. Ent. Soc., Trans. 2: 380. ♀.

eupoeyae Ashmead. Fla. Host: *Alarodia slossoniae* (Pack.).

Pelecystoma eupoeyae(!) Ashmead, 1897. Canad. Ent. 29: 113. ♀.

harrisinae (Ashmead). Pa., Va., N. C., Fla., Ark., Tex.; Mexico, Cuba. Host: *Harrisina americana* (Guer.), *Lithacodes fasciola* (H.-S.).

Rhogas harrisinae Ashmead, 1889 (1888). U. S. Natl. Mus., Proc. 11: 632. ♂.

Genus PETALODES Wesmael

Petalodes Wesmael, 1838. Nouv. Mem. Acad. Sci. Bruxelles 11: 123.

Type-species: *Petalodes unicolor* Wesmael. Monotypic.

Taxonomy: Walley, 1941. Canad. Ent. 73: 213-215. —Shenefelt, 1975. Hym. Cat., part 12, p. 1209-1211 (cat. World spp.).

palmatus Walley. Ont., Wis., Minn., Utah, B. C., Calif. Host: *Nycteola cinereana* N. and D. *Petalodes palmatus* Walley, 1941. Canad. Ent. 73: 214. ♀.

ufei Walley. B. C., Nev., Calif. Host: *Ufeus plicatus* Grote.

Petalodes ufei Walley, 1941. Canad. Ent. 73: 215. ♀, ♂.

Genus POLYSTENIDEA Viereck

Polystenidea Viereck, 1911. U. S. Natl. Mus., Proc. 40: 186.

Type-species: *Polystenidea parksi* Viereck. Orig. desig.

metacomet Viereck. Conn.

Polystenidea metacomet Viereck, 1911. U. S. Natl. Mus., Proc. 40: 187. ♀.

Polystenidea metacomet Viereck, 1917 (1916). Conn. State Geol. and Nat. Hist. Survey, Bul. 22, p. 238. ♀.

parksi Viereck. Ill., La., Kans., Okla., Tex.

Polystenidea parksi Viereck, 1911. U. S. Natl. Mus., Proc. 40: 186. ♂.

Genus ROGAS Nees

Rogas Nees, 1818. Nov. Act. Acad. Caes. Leop. Car. 9: 306.

Type-species: *Ichneumon testaceus* Fabricius. Desig. by Curtis, 1834.

Rhogas Agassiz, 1846. Nomencl. Zool., Index Univ., p. 325. Emend.

Neburtha Walker, 1860. Ann. and Mag. Nat. Hist. (3) 5: 310.

Type-species: *Neburtha macropodides* Walker. Monotypic.

Campocentrus Kriechbaumer, 1894. Berl. Ent. Ztschr. 39: 61.

Type-species: *Campocentrus testaceus* Kriechbaumer. Monotypic.

Taxonomy: Shenefelt, 1975. Hym. Cat., part 12, p. 1215-1256 (cat. World spp.).

atricornis Cresson. S. Dak., Kans., Tex., Ariz. Host: *Protoleucania* sp.

Rogas atricornis Cresson, 1872. Amer. Ent. Soc., Trans. 4: 188. ♀.

autographae Viereck. Idaho, Wash., Oreg., Calif. Host: *Autographa californica* (Speyer).

Rhogas autographae Viereck, 1910. U. S. Natl. Mus., Proc. 38: 381. ♀, ♂.

borealis Thomson. Greenland; Europe.

Rogas (Aleiodes) borealis Thomson, 1891. Opusc. Ent. 16: 1679. ♀.

burrus (Cresson). Conn., Ill., S. Dak.; Mexico. Host: *Acronicta hasta* Guen., *A. lobeliae* Guen.

Aleiodes burrus Cresson, 1869. Amer. Ent. Soc., Trans. 2: 381. ♀, ♂.

carinatus (Ashmead). Tex.

Rhysipolis carinatus Ashmead, 1889 (1888). U. S. Natl. Mus., Proc. 11: 625. ♂.

cerurae Ashmead. Calif. Host: *Cerura* sp.

Rhogas cerurae Ashmead, 1889 (1888). U. S. Natl. Mus., Proc. 11: 634. ♀, ♂.

cockerelli Viereck. Kans.

Rhogas cockerelli Viereck, 1905. Kans. Acad. Sci., Trans. 19: 266. ♂.

femoratus (Cresson). W. Va.

Aleiodes femoratus Cresson, 1869. Amer. Ent. Soc., Trans. 2: 382. ♀.

fulvus (Cresson). Canada.

Aleiodes fulvus Cresson, 1869. Amer. Ent. Soc., Trans. 2: 381. ♀, ♂.

- fumipennis* (Cresson). N. H., Mass., Conn., N. Y., Del., Mich., Ohio, Tenn., Wis., Ill., Miss., Iowa, Mo. Host: *Cressonia juglandis* (Smith).
- Aleiodes fumipennis* Cresson, 1869. Amer. Ent. Soc., Trans. 2: 378. ♀.
- geometrae* Ashmead. Iowa, Mo., N. Dak., S. Dak. Host: *Paleacrita vernata* (Peck).
- Rhogas geometrae* Ashmead, 1889 (1888). U. S. Natl. Mus., Proc. 11: 633. ♂.
- granulatus* DeGant. Ohio, Mich.
- Rhogas granulata* DeGant, 1930. Ent. Soc. Wash., Proc. 32: 163. ♀.
- graphicus* Cresson. Iowa, S. Dak., Kans., Tex., Wyo., Colo., N. Mex., Ariz.
- Rhogas graphicus* Cresson, 1872. Amer. Ent. Soc., Trans. 4: 188. ♂.
- harrimani* Ashmead. Alaska.
- Rhogas harrimani* Ashmead, 1902. Wash. Acad. Sci., Proc. 4: 253. ♂.
- hyphantriae* Gahan. N. B., Maine. Host: *Hyphantria cunea* (Drury).
- Rhogas hyphantriae* Gahan, 1922. U. S. Natl. Mus., Proc. 61 (24): 1. ♀, ♂.
- Biology: Bogavac, 1955. Plant Prot. (Belgrade), No. 32, p. 17-30. —Tadic, 1959. Internat. Congr. Crop Prot., Proc. 4, v. 1, p. 874.
- Morphology: Dustan, 1922. Acadian Ent. Soc., Proc. 8: 84-89.
- indianensis* Muesebeck and Walkley. Ind.
- Bracon rugulosus* Say, 1836. Boston Jour. Nat. Hist. 1: 255. Preocc. by Nees, 1812.
- Rhogas indianensis* Muesebeck and Walkley, 1951. U. S. Dept. Agr., Agr. Monog. 2, p. 171. N. name for *rugulosus* Say.
- indicus* Cameron. Alaska.
- Rhogas indicus* Cameron, 1910. Wien. Ent. Ztg. 29: 3. ♂.
- Taxonomy: Mather, 1957. Zool. Soc. Calcutta, Proc., Mookerjee Mem. Vol., p. 350.
- indiscretus* Reardon. New England(?); India. Liberated in New England but not known to be established. Introduced from India. Host: *Lymantria dispar* (L.).
- Rhogas indiscretus* Reardon, 1970. Ent. Soc. Wash., Proc. 72: 473. ♀, ♂.
- Biology: Reardon, et al., 1973. Environ. Ent. 2: 125-126.
- laphygmae* Viereck. Ga., Fla., La., Tex.; Cuba, Nicaragua. Host: *Pseudaletia unipuncta* (Haw.), *Spodoptera exigua* (Hbn.), *S. frugiperda* (Smith), *S. ornithogalli* (Guen.).
- Rhogas laphygmae* Viereck, 1912. U. S. Natl. Mus., Proc. 43: 581. ♀.
- mandibularis* Cresson. Ohio, Ga., Ill., Miss., Iowa, Ark., Kans., Tex.
- Rhogas mandibularis* Cresson, 1872. Amer. Ent. Soc., Trans. 4: 188. ♂.
- melleus* (Cresson). Mass.
- Aleiodes melleus* Cresson, 1896. Amer. Ent. Soc., Trans. 2: 382. ♂.
- molestus* Cresson. Ark., La., S. Dak., Tex., Wyo., Utah. Host: *Autographa* sp., *Pseudoplusia includens* (Wlk.), *Trichoplusia ni* (Hbn.).
- Rhogas molestus* Cresson, 1872. Amer. Ent. Soc., Trans. 4: 188. ♀.
- nigricoxis* Viereck. N. Mex.
- Rhogas nigricoxis* Viereck, 1903. Amer. Ent. Soc., Trans. 29: 97. ♂.
- nolophanae* Ashmead. Del. s. to N. C. and La., w. to Minn., S. Dak., and Kans. Host: *Balsa malana* (Fitch), *Plathypena scabra* (F.).
- Rhogas nolophanae* Ashmead, 1889 (1888). U. S. Natl. Mus., Proc. 11: 634. ♀.
- Biology: Lenta and Pedigo, 1974. Ent. Soc. Amer., Ann. 67: 678-680.
- perplexus* Gahan. Tex., N. Mex., Ariz., Calif. Host: *Heliothis zea* (Boddie), *Peridroma saucia* (Hbn.), *Trichoplusia ni* (Hbn.).
- Rhogas perplexus* Gahan, 1917. U. S. Natl. Mus., Proc. 53: 205. ♀, ♂.
- platypterygis* Ashmead. Va., Iowa, Md., La. Host: *Drepana arcuata* Wlkr.
- Rhogas platypterygis* Ashmead, 1889 (1888). U. S. Natl. Mus., Proc. 11: 633. ♀, ♂.
- politiceps* Gahan. N. C. s. to Fla., w. to Tex. Host: *Anicla infecta* (Ochs.), *Pseudaletia unipuncta* (Haw.).
- Rhogas politiceps* Gahan, 1917. U. S. Natl. Mus., Proc. 53: 206. ♀, ♂.
- pubescens* Ashmead. Wis., Ill.
- Rhogas pubescens* Ashmead, 1889 (1888). U. S. Natl. Mus., Proc. 11: 632. ♂.

quebecensis Provancher. Que. Ind., S. Dak.

Rogas quebecensis Provancher, 1880. Nat. Canad. 12: 145. ♀.

rileyi (Cresson). N. J., Del., Ohio, Mo., Kans.

Aleiodes Rileyi Cresson, 1869. Amer. Ent. Soc., Trans. 2: 382. ♀, ♂.

rufocoxalis Gahan. S. Dak., Colo., Ariz., Calif. Host: *Autoplusia egena* (Guen.), *Peridroma saucia* (Hbn.), *Trichoplusia ni* (Hbn.).

Rogas rufocoxalis Gahan, 1917. U. S. Natl. Mus., Proc. 53: 207. ♀, ♂.

sanctihyacinthi Provancher. Que.

Rogas Sancti-Hyacinthi Provancher, 1880. Nat. Canad. 12: 146. ♀.

scrutator (Say). U. S., south. Canada. Host: *Choreutis augustella* Clarke, *Ichthyura inclusa* Hbn.

Bracon scrutator Say, 1836. Boston Jour. Nat. Hist. 1: 254. ♀, ♂.

Aleiodes canadensis Cresson, 1869. Amer. Ent. Soc., Trans. 2: 380. ♀.

simillimus Ashmead. N. H., S. C., Fla., Ark.

Rhogas simillimus Ashmead, 1889 (1888). U. S. Natl. Mus., Proc. 11: 633. ♂.

stigmator (Say). Canada, north. U. S. Host: *Acronicta americana* Harr., *A. dactylina* (Grote), *A. hastulifera* (Smith), *A. oblinita* (Smith), *Alsophila pometaria* (Harr.), *Malacosoma americanum* (F.), *Smyra henrici* Grote.

Bracon stigmator Say, 1824. In Keating, Narr. Long's 2nd Exped. 2: App. p. 323.

Aleiodes intermedius Cresson, 1869. Amer. Ent. Soc., Trans. 2: 380. ♀, ♂.

terminalis (Cresson). Canada, U. S. Host: *Amathes smithi* (Snell.), *Nephelodes emmedonia violans* Guen., *Pseudaletia unipuncta* (Haw.), *Spodoptera frugiperda* (Smith), *S. ornithogalli* (Guen.).

Aleiodes terminalis Cresson, 1869. Amer. Ent. Soc., Trans. 2: 379. ♀, ♂.

Biology: Pennington, 1916. Jour. Econ. Ent. 9: 401-406.

texanus (Cresson). Mich., Tex.

Aleiodes texanus Cresson, 1869. Amer. Ent. Soc., Trans. 2: 378. ♀.

waldeni (Viereck). Conn.

Aleiodes waldeni Viereck, 1917 (1916). Conn. State Geol. and Nat. Hist. Survey, Bul. 22, p. 236. ♂.

NOMINA NUDA IN ROGAS NEES

Rhogas desmiae Ashmead, 1890. In Riley and Howard, U. S. Dept. Agr., Insect Life 3: 352.

Rhogas fuscicaudus Viereck, 1909. In Withington, Kans. Acad. Sci., Trans. 22: 329.

Rhogas plecypterygia Ashmead, 1905. In Nason, Ent. News 16: 298.

Genus TETRASPHEAROPYX Ashmead

Tetraspheax Ashmead, 1889 (1888). U. S. Natl. Mus., Proc. 11: 634.

Type-species: *Rogas pilosus* Cresson. Monotypic.

pilosus (Cresson). Fla., Tex.; Mexico.

Rogas pilosus Cresson, 1872. Amer. Ent. Soc., Trans. 4: 189. ♀.

Genus YELICONES Cameron

Yelicones Cameron, 1887. Biol. Cent.-Amer., Hym., v. 1, p. 387.

Type-species: *Yelicones violaceipennis* Cameron. Desig. by Viereck, 1914.

Rhopalotoma Cameron, 1911. Timehri 1: 318.

Type-species: *Rhopalotoma crassitarsis* Cameron. Monotypic.

Pectenopius Fischer, 1961. Naturhist. Mus. Wien., Ann. 64: 156.

Type-species: *Pectenopius paradoxus* Fischer. Orig. desig.

Taxonomy: Shenefelt, 1975. Hym. Cat., part 12, p.1261-1262 (cat. World spp.).

delicatus (Cresson). N. Y. s. to Fla., w. to Kans. and Tex. Host: *Caristanus decoloralis* (Wlkr.), *Nephopteryx uvinella* (Rag.), *Psorosina hammondi* (Riley).

Rogas delicatus Cresson, 1872. Amer. Ent. Soc., Trans. 4: 189. ♂.

SUBFAMILY METEORIDEINAE

Taxonomy: Capek, 1965 (1964). 12th Internat. Cong. Ent., Proc., p. 98-99. —Tobias, 1967. Ent. Obozr. 46: 662. —Capek, 1969. Ent. Soc. Wash., Proc. 71: 307.

Genus METEORIDEA Ashmead

Meteoridea Ashmead, 1900. U. S. Natl. Mus., Proc. 23: 129.

Type-species: *Meteoridea longiventris* Ashmead. Orig. desig.

Benama Nixon, 1946. Bul. Ent. Res. 32: 98.

Type-species: *Benama hutsoni* Nixon. Orig. desig.

Until 1965, this genus was placed in the tribe *Diospilini*, subfamily *Helconinae*. It was placed in its own subfamily by Capek (1965) on the basis of morphology and biology. Species of *Meteoridea* parasitize larvae of Lepidoptera but pupation takes place within the host pupal case, which is unique among braconid parasites of lepidopterous larvae.

Taxonomy: Shenefelt and Muesebeck, 1957. Ent. Soc. Wash., Proc. 59: 129-130. —Capek, 1965 (1964). 12th Intl. Cong. Ent., Proc., p. 98-99. —Shenefelt, 1970. Hym. Cat., part 5, p. 215-216. (cat. World spp.).

compressiventris Shenefelt and Muesebeck. Wis.

Meteoridea compressiventris Shenefelt and Muesebeck, 1957. Ent. Soc. Wash., Proc. 59: 131. ♀.

longiventris Ashmead. Fla.

Meteoridea longiventris Ashmead, 1900. U. S. Natl. Mus., Proc. 23: 129.

SUBFAMILY HELCONINAE

Host records indicate that species in this group are internal parasites of wood-boring coleopterous larvae.

Taxonomy: Shenefelt, 1970. Hym. Cat., part 5, p. 177-220 (cat. World spp.). —Watanabe, 1972. Insecta Matsumurana 35: 11-16 (review World genera).

TRIBE HELCONINI

Revision: Tobias, 1967. Zool. Inst. Acad. Sci. U. S. S. R., Trans. 41: 222-238 (some Eur. spp.). —Watanabe, 1972. Insecta Matsumurana 35: 1-11 (Jap. spp.).

Genus EUMACROCENTRUS Ashmead

Eumacrocentrus Ashmead, 1900. U. S. Natl. Mus., Proc. 23: 120.

Type-species: *Helcon americanus* Cresson. Orig. desig.

americanus (Cresson). Canada, Conn., N. Y., Pa., Md., W. Va., Va., Mich.

Helcon americanus Cresson, 1873. Canad. Ent. 5: 84. ♀.

Petalodes(?) *americanus* Ashmead, 1889 (1888). U. S. Natl. Mus., Proc. 11: 631. ♂.

Genus HELCON Nees

Helcon Nees, 1814 (1812). Mag. Gesell. Naturf. Freunde Berlin 6: 216.

Type-species: *Helcon tardator* Nees. Desig. by Lepeletier and Serville, 1825. There is a question whether Lepeletier and Serville (1825. In Olivier, Encycl. Method. 10: 42) actually designated *Helcon tardator* as the type-species. However, Westwood (1839) also designated *tardator* as the type-species of *Helcon*.

Gymnoscelus Foerster, 1862. Naturh. Ver. Rheinlande, Verh. 19: 255.

Type-species: *Helcon tardator* Nees. Orig. desig.

Edyia Cameron, 1905. Straits Branch Roy. Asiatic Soc., Jour. 44: 108. Cameron spelled the generic name *Ediya* on page 108 and *Edyia* on page 109 of the above publication, which appeared in July, 1905. In August, 1905 (Ann. and Mag. Nat. Hist. (7) 16: 159) Cameron again described the genus spelling the name *Edyia*, which is now the accepted spelling.

Type-species: *Edyia annulicornis* Cameron. Monotypic.

Coelostephanus Kieffer, 1911. Soc. Ent. de France, Ann. 80: 232.

Type-species: *Coelostephanus rufus* Kieffer. Monotypic.

Revision: Fahringer, 1933. *Ztschr. f. Angew. Ent.* 20: 307-323 (Eur. spp.). —Watanabe, 1972. *Insecta Matsumurana* 35: 2-3 (Jap. spp.)

Taxonomy: Shenefelt, 1970. *Hym. Cat.*, part 5, p. 192-196 (cat. World spp.).

fulvipes Cresson. Alta., Mont., Colo., Utah, B. C., Wash., Oreg., Calif. Host: *Xylotrechus undulatus* (Say).

Helcon fulvipes Cresson, 1865. *Ent. Soc. Phila.*, Proc. 4: 292. ♀.

pedalis Cresson. Canada; Maine s. to N. C.; Wis., Utah, Wash., Oreg. Host: *Callidium antennatum* Newm., *Neoclytus muricatus* (Kby.), *Xylotrechus annosus* (Say).

Helcon pedalis Cresson, 1873. *Canad. Ent.* 5: 85. ♀, ♂.

texanus Cresson. Tex.

Helcon texanus Cresson, 1872. *Amer. Ent. Soc., Trans.* 4: 179. ♀.

yukonensis (Ashmead). Ohio, Idaho, Wash., Oreg., Alaska.

Gymnoscelis yukonensis Ashmead, 1889 (1888). *U. S. Natl. Mus., Proc.* 11: 656. ♀.

Genus WROUGHTONIA Cameron

Wroughtonia Cameron, 1899. *Manchester Lit. and Phil. Soc., Mem. and Proc.* 43: 56.

Type-species: *Wroughtonia cornuta* Cameron. Monotypic.

Helconidea Viereck, 1914. *U. S. Natl. Mus., Bul.* 83: 67.

Type-species: *Helcon aequator* Nees. Orig. desig.

Duportia Kieffer, 1921. *Inst. Sci. Saigon, Bul. Agr.* 3: 131.

Type-species: *Duportia cincticornis* Kieffer. Orig. desig.

Revision: Watanabe, 1972. *Insecta Matsumurana* 35: 3-7 (Jap. spp., generic synonymy).

Taxonomy: Shenefelt, 1970. *Hym. Cat.*, part 5, p. 196-201 (cat. World spp.). —Marsh, 1974. *Ent. Soc. Wash., Proc.* 70: 287.

borealis (Cresson). Maine, N. Y., Pa., Va., N. C., S. C. Host: *Obrium maculatum* (Oliv.).

Helcon borealis Cresson, 1873. *Canad. Ent.* 5: 83. ♂.

castaneae (Viereck). Conn., N. C., Ga.

Helcon castaneae Viereck, 1912. *U. S. Natl. Mus., Proc.* 42: 623. ♀, ♂.

ferruginea (Brues). Pa. s. to Ga.; Ala., Tex., Colo. Host: *Neoclytus acuminatus* (F.).

Phymatodes varius (F.), *Xylobiops basilaris* (Say).

Helcon ferruginea Brues, 1907. *Wis. Nat. Hist. Soc., Bul.* 5: 158. ♀.

frigida (Cresson). Mont., Idaho, B. C., Wash., Oreg., Calif.

Helcon frigidus Cresson, 1873. *Canad. Ent.* 5: 84. ♀.

grandis (Ashmead). La.

Helcon grandis Ashmead, 1889 (1888). *U. S. Natl. Mus., Proc.* 11: 655. ♀.

ligator (Say). Que. s. to Fla., w. to Ont., N. Dak., and Tex.; Oreg. Host: *Agrius anxius* Gory, *A. egenus* Gory, *Clytoleptus albofasciatus* (L. and G.), *Magdalisc armicollis* (Say), *Neoclytus acuminatus* (F.), *Obrium maculatum* (Oliv.), *O. rufulum* Gahan, *Xylotrechus colonus* (F.), *X. quadrimaculatus* (Hald.).

Bracon ligator Say, 1824. *In Keating, Narr. Long's 2nd Exped.*, v. 2, p. 323. ♀.

Helcon dentipes Brulle, 1846. *In Lepeletier, Hist. Nat. Ins. Hym.*, v. 4, p. 479. ♀.

Helcon albipennis Cresson, 1873. *Canad. Ent.* 5: 83. ♂.

necydalis (Cushman). Idaho, B. C., Wash., Oreg., Calif. Host: *Leptura oblitterata* Hald., *Necydalis laevicollis* Lec.

Helconidea necydalis Cushman, 1931. *U. S. Natl. Mus., Proc.* 79: 10. ♀, ♂.

occidentalis (Cresson). Que., N. B., Maine, N. H., W. Va., N. C., Ont., Mich., Wis., Colo., Idaho, Nev., B. C., Wash., Oreg., Calif. Host: *Semanotus litigiosus* (Casey), *S. ligneus* (F.), *Tetropium cinnamopteron* Kby., *T. velutinum* Lec.

Helcon occidentalis Cresson, 1865. *Ent. Soc. Phila.*, Proc. 4: 292. ♂.

Helcon tetrapodii Ashmead, 1892. *In Hopkins, U. S. Dept. Agr., Insect Life* 4: 252. Nom. nud.

TRIBE CENOCOELIINI

Genus CENOCOELIUS Westwood

Cenocoelius Westwood, 1840. *Introd. Mod. Classif. Ins.*, v. 2, Gen. Synop., p. 62.

Type-species: *Cenocoelius flavifrons* Westwood. Monotypic.

Capitonius Brulle, 1846. *In Lepeletier, Hist. Nat. Ins. Hym.*, v. 4, p. 544.

Type-species: *Capitonius bifasciatus* Brulle. Monotypic.

Laccophrys Foerster, 1862. *Naturh. Ver. Rheinlande, Verh.* 19: 257.

Type-species: *Laccophrys magdalini* Foerster. Orig. desig.

Aulacodes Cresson, 1865. *Ent. Soc. Phila., Proc.* 4: 8.

Type-species: *Aulacodes nigriventris* Cresson. Monotypic.

Lestricus Reinhard, 1865. *Berlin. Ent. Ztschr.* 9: 265.

Type-species: *Alysia rubriceps* Ratzeburg. Desig. by Muesebeck and Walkley, 1951.

Promachus Cresson, 1887. *Amer. Ent. Soc., Trans., Sup. Vol.*, p. 61.

Type-species: *Promachus sanguineiventris* Ashmead. Desig. by Viereck, 1914.

Revision: Rohwer, 1914. *Canad. Ent.* 46: 316-322 (No. Amer. spp. in genus *Capitonius*).

Taxonomy: Shenefelt, 1970. *Hym. Cat.*, part 5, p. 178-185 (cat. World spp.).

ashmeadii Dalla Torre. Que. s. to Fla., w. to Ont., S. Dak. and Tex. Host: *Hyperplatys aspera* (Say), *H. maculata* Hald., *Neoclytus acuminatus* (F.), *Sternidius alpha alpha* (Say), *S. a. vicinus* (Hald.), *S. cinereus* (Lec.), *S. fascicularis* (Harr.), *Urgleptes facetus* (Say), *U. signatus* (Lec.).

Capitonius rubriceps Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 135. ♀. Preocc. by Ratzeburg, 1844.

Promachus rubriceps Ashmead, 1889 (1888). U. S. Natl. Mus., Proc. 11: 653. ♂. Preocc. by Ratzeburg, 1844.

Cenocoelius Ashmeadii Dalla Torre, 1898. Cat. Hym., v. 4, p. 72. N. name for *rubriceps* Ashmead.

Capitonius provancheri Rohwer, 1914. *Canad. Ent.* 46: 321. N. name for *rubriceps* Provancher.

caryae (Rohwer). N. J., Pa., N. C., Mo. The original description states that this species is probably parasitic on *Synoxylon* in hickory. This record needs to be confirmed.

Capitonius caryae Rohwer, 1914. *Canad. Ent.* 46: 318. ♀.

erythrogaster (Rohwer). N. Y., Pa., W. Va., N. C. Host: *Saperda discoidea* F.

Capitonius erythrogaster Rohwer, 1914. *Canad. Ent.* 46: 317. ♀.

leptostyli (Rohwer). Pa., Md., Va., N. C., Iowa. Host: *Leptostylus* sp., *Urgleptes signatus* (Lec.).

Capitonius leptostyli Rohwer, 1914. *Canad. Ent.* 46: 319. ♂.

nigrisoma (Rohwer). N. C., S. C., Ga., Miss., La., Tex. Ecology: Frequently associated with *Dendroctonus frontalis* Zimm.

Capitonius nigrisoma Rohwer, 1914. *Canad. Ent.* 46: 320. ♀, ♂.

sanguineiventris (Ashmead). Ohio, Mich., Wis., Mo. Host: *Agrilus horni* Kerr, *Oberea schaumii* Lec.

Promachus sanguineiventris Ashmead, 1889 (1888). U. S. Natl. Mus., Proc. 11: 653. ♀. *saperdae* (Ashmead). Que. s. to Md., w. to S. Dak. and Tex. Host: *Saperda candida* F., *S. discoidea* F., *S. tridentata* Oliv.

Promachus saperdae Ashmead, 1889 (1888). U. S. Natl. Mus., Proc. 11: 653.

Coenocelius(!) politifrons Viereck, 1905. Kans. Acad. Sci., Trans. 29: 279. ♂.

tenuicornis (Rohwer). Fla.

Capitonius tenuicornis Rohwer, 1914. *Canad. Ent.* 46: 321. ♀.

TRIBE DIOSPILINI

This group is very much in need of study and many of the North American species are probably wrongly placed in their present genera.

Genus BAEACIS Foerster

Baeacis Foerster, 1878. *Naturh. Ver. Rheinlande, Verh.* 35: 70.

Type-species: *Aspiginus abietis* Ratzeburg. Desig. by Viereck, 1914.

One undescribed species occurs in North America.

Genus DIOSPILUS Haliday

Diospilus Haliday, 1833. Ent. Mag. 1: 262.

Type-species: *Diospilus oleraceus* Haliday. Monotypic.

Allochromus Marshall, 1902. Agr. Prat. Pays Chauds 1: 643.

Type-species: *Allochromus trimeroderi* Marshall. Monotypic.

Taxonomy: Shenefelt, 1970. Hym. Cat., part 5, p. 208-214 (cat. World spp.).
californicus Rohwer. Calif.

Diospilus californicus Rohwer, 1917. U. S. Natl. Mus., Proc. 53: 164. ♀.

curticaudus Gahan. La.; Mex. Host: *Altica litigata* Fall.

Diospilus curticaudus Gahan, 1927. U. S. Natl. Mus., Proc. 71 (4): 1. ♀.

fomitidis Mason. Que., Ont., Man., Sask. Host: *Dorcatoma falli* White.

Diospilus fomitidis Mason, 1968. Canad. Ent. 103: 719. ♀, ♂.

neoclyti Rohwer. Colo. Host: *Neoclytus caprae* (Say).

Diospilus neoclyti Rohwer, 1917. U. S. Natl. Mus., Proc. 53: 165. ♂.

washingtonensis Rohwer. Wash. Host: *Zilora hispida* Lec.

Diospilus washingtonensis Rohwer, 1917. U. S. Natl. Mus., Proc. 53: 163. ♀.

Genus DYSCOЛЕTES Westwood

Dyscolus Haliday, 1837 (1836). Ent. Mag. 4: 39. Preocc. by Dejean, 1831.

Type-species: *Dyscolus lancifer* Haliday. Monotypic.

Dyscoletes Westwood, 1840. Introd. Mod. Classif. Ins., v. 2, Gen. synop., p. 62. N. name for *Dyscolus* Haliday.

Revision: Mason, 1976. Canad. Ent. 108: 855-858.

canadensis Mason. Vt., N. Y., N. C., Ont., Alta., Idaho, B. C., Alaska. Host: *Boreus brumalis* Fitch.

Dyscoletes canadensis Mason, 1976. Canad. Ent. 108: 856. ♀, ♂.

Genus TAPHAEUS Wesmael

Taphaeus Wesmael, 1835. Nouv. Mem. Acad. Sci. Bruxelles 9: 189.

Type-species: *Taphaeus irregularis* Wesmael. Desig. by Viereck, 1914.

Anostenus Foerster, 1862. Naturh. Ver. Rheinlande, Verh. 19: 257.

Type-species: *Taphaeus irregularis* Wesmael. Orig. desig.

Polydrusus (Gahan). N. Y. Host: *Polydrusus impressifrons* Gyll.

Diospilus polydrusus Gahan, 1916. N. Y. Agr. Expt. Sta. Geneva, Tech. Bul. 56, p. 23. ♀.

Taxonomy: Marsh, 1974. Ent. Soc. Wash., Proc. 76: 287.

SUBFAMILY ZELEINAE

This group has been placed in the Macrocentrinae and in the Helconinae by various workers. I have chosen to follow Tobias (1967) in giving it subfamily rank. The genus *Zemiotics* was recently taken out of synonymy with *Meteorus* by Mason (1973) and placed as a distinct genus related to *Zele*. The subfamily name correctly spelled *Zelinae* is preoccupied in the Hemiptera. The basis for the present spelling, *Zeleinæ*, is a precedent set by Opinion 140 of the International Commission of Zoological Nomenclature, 1943. Species are solitary endoparasites of lepidopterous larvae.

Taxonomy: Tobias, 1967. Ent. Obozr. 46: 661.

Genus ZELE Curtis

Zele Curtis, 1832. Brit. Ent., v. 9, p. 415.

Type-species: *Zele testaceator* Curtis. Orig. desig.

Phylax Wesmael, 1835. Nouv. Mem. Acad. Sci. Bruxelles 9: 159. Preocc. by Dahl, 1823.

Type-species: *Rogas annulicornis* Nees. Desig. by Westwood, 1840.

Homolobus Foerster, 1862. Naturh. Ver. Rheinlande, Verh. 19: 256.

Type-species: *Phylax discolor* Wesmael. Orig. desig.

Phylacter Reinhard, 1863. Berlin. Ent. Ztschr. 7: 248. N. name for *Phylax* Wesmael.

Taxonomy: Shenefelt, 1970. Hym. Cat., part 5, p. 220-227 (cat. World spp.).

mellea (Cresson). No. Amer. Host: *Agrotis venerabilis* Wlk., *Amathes smithi* (Snell.), *Feltia subterranea* (F.), *Spodoptera frugiperda* (J. E. Sm.), *S. ornithogalli* (Guen.). Other records need confirmation.

Phylax melleus Cresson, 1872. Amer. Ent. Soc., Trans. 4: 178. ♀.

Zele crassicalcaratus Viereck, 1905. Kans. Acad. Sci., Trans. 19: 259. ♂.

Taxonomy: Marsh, 1974. Ent. Soc. Wash., Proc. 76: 287.

truncator Say. Ind. Type lost; exact placement uncertain.

Bracon truncator Say, 1828. Contrib. Macrur. Lyc. Phila. 1: 78.

Genus ZEMIOTES Foerster

Zemioetes Foerster, 1862. Naturh. Ver. Rheinlande, Verh. 19: 253.

Type-species: *Perilitus albitarsis* Nees. Orig. desig.

Taxonomy: Fischer, 1957. Opusc. Zool., n. 3, p. 1-5 (key to Eur. spp.). — Mason, 1973. Ent. Soc. Wash., Proc. 75: 213-215 (generic reinstatement and transfer).

alaskensis (Ashmead). Canada, N. C., Alaska. Host: *Eupithecia* sp.

Dyscoletes alaskensis Ashmead, 1902. Wash. Acad. Sci., Proc. 4: 247. ♂.

crassifemur (Muesebeck). Ill., S. Dak., Kans., Tex.

Meteorus crassifemur Muesebeck, 1939. Ent. Soc. Wash., Proc. 41: 84. ♀.

levis (Muesebeck). Wyo., N. Mex., Calif.

Meteorus levis Muesebeck, 1923. U. S. Natl. Mus., Proc. 63: 11. ♀.

maximus (Muesebeck). Maine s. to Ga., w. to Minn., Colo., and Tex.

Meteorus maximus Muesebeck, 1923. U. S. Natl. Mus., Proc. 63: 13. ♀.

niveitarsis (Cresson). N. S. s. to Ga., w. to Ont. and Tenn.; Alaska, Oreg. Host: *Acrobasis betulella* Hulst, *A. comptoniella* Hulst, *A. ostryella* Ely, *A. rubrifasciella* Pack., *A. secundella* Ely, *A. sylviella* Ely, *Nephopteryx subcaesiella* (Clem.), *N. virgatella* (Clem.), *Rheumaptera hastata* (L.).

Perilitus niveitarsis Cresson, 1872. Canad. Ent. 4: 81. ♀, ♂.

pallitarsis (Cresson). Que. s. to Va.; Ohio, Mich.

Perilitus pallitarsis Cresson, 1872. Canad. Ent. 4: 81. ♂.

reticulatus (Muesebeck). Newfoundland, Maine, N. H., Idaho, Alaska, B. C., Wash., Calif. Host: *Semiothisa granitata* (Gn.), *S. sexmaculata* (Pack.).

Meteorus reticulatus Muesebeck, 1923. U. S. Natl. Mus., Proc. 63: 14. ♀, ♂.

SUBFAMILY MACROCENTRINAE

Genus MACROCENTRUS Curtis

Macrocentrus Curtis, 1833. Ent. Mag. 1: 187.

Type-species: *Macrocentrus bicolor* Curtis. Monotypic.

Amicroplus Foerster, 1862. Naturh. Ver. Rheinlande, Verh. 19: 256.

Type-species: *Bracon collaris* Spinola. Orig. desig.

Chaonia Cresson, 1865. Ent. Soc. Phila., Proc. 4: 59. Preocc. by Stephens, 1828. N. syn.

Type-species: *Chaonia xanthostigma* Cresson. Desig. by Viereck, 1914.

Hymenochaonia Dalla Torre, 1898. Wien. Ent. Ztg. 17: 100. N. name for *Chaonia* Cresson. N. syn.

Fhogra Cameron, 1901. New Zeal. Inst., Trans. 33: 104.

Type-species: *Fhogra rubromaculata* Cameron. Monotypic.

Leptozele Cameron, 1910. Tijdschr. v. Ent. 53: 52.

Type-species: *Leptozele trimaculatus* Cameron. Monotypic.

Dolichozele Viereck, 1911. U. S. Natl. Mus., Proc. 40: 182.

Type-species: *Dolichozele koebelei* Viereck. Monotypic.

Metapleurodon Enderlein, 1920. Arch. f. Naturgesch. 84 (A) (11): 213.

Type-species: *Macrocentrus ceylonicus* Enderlein. Orig. desig.

Paniscozele Enderlein, 1920. Arch. f. Naturgesch. 84 (A) (11): 214.

Type-species: *Paniscozele sumatrana* Enderlein. Orig. desig.

Pachymerella Enderlein, 1920. Arch. f. Naturgesch. 84 (A) (11): 217.

Type-species: *Pachymerella maculicora* Enderlein. Orig. desig.

All species are endoparasites of lepidopterous larvae, and the gregarious forms are apparently polyembryonic. Species are frequently caught in light traps.

Revision: Muesebeck, 1932. U. S. Natl. Mus., Proc. 80 (23): 1-55 (No. Amer. spp.). —Eady and Clark, 1964. Ent. Gaz. 15: 97-127 (Eur. spp.).

Taxonomy: Shenefelt, 1969. Hym. Cat., part 4, p. 143-174 (cat. World spp.).

affinis Muesebeck. N. H., N. Y., Mich., Minn., Utah, Idaho.

Macrocentrus affinis Muesebeck, 1932. U. S. Natl. Mus., Proc. 80 (23): 42. ♀.

ancylivorus Rohwer. No. Amer. Host: *Acleris oxyccocana* (Pack.), *Anacampsis* sp., *Ancylis comptana fragariae* (W. and R.), *Canarsia* sp., *Epiblema strenuana* (Wlkr.), *Exartema sericorana* Wlsm., *Grapholitha molesta* (Busck), *Halisidota ingens* Hy. Edw., *Homoeosoma electellum* (Hulst), *Melissopus latiferranus* (Wlsm.), *Paralobesia viteana* Clem., *Phalonia hospes* Wlsm., *Phthorinaea operculella* (Zell.), *Rhyacionia frustrana* (Comst.), *Sparganothis sulphurana* (F.), *Stegasta bosquella* (Chamb.). This species is one of the more important parasites of the oriental fruit moth (*Grapholitha molesta*) and the strawberry leafroller (*Ancylis comptana fragariae*).

Macrocentrus aencylivorus Rohwer, 1923. Ent. Soc. Wash., Proc. 25: 168. ♀, ♂.

Biology: Fink, 1926. Jour. Agr. Res. 12: 1121-1134. —Daniel, 1932. N. Y. State Agr. Expt. Sta., Tech. Bul. 187, p. 3-101. —Haeussler, 1932. Jour. Agr. Res. 45: 79-100. —Garman and Brigham, 1933. Conn. Agr. Expt. Sta., Bul. 356: 73-116. —Finney, Flanders and Smith, 1947. Hilgardia 17: 437-483. —Allen, 1962. U. S. Dept. Agr., Tech. Bul. 1265, p. 15-24. —Putnam, 1963. Canad. Ent. 95: 1022-1023. The references listed above are only a few of the important ones that have been published. For a complete list of references, see Shenefelt (1969. Hym. Cat., part 4, p. 144-146).

atratus Muesebeck. P. E. I. s. to Fla.; Wis., Iowa, Ariz., B. C.

Macrocentrus atratus Muesebeck, 1932. U. S. Natl. Mus., Proc. 80 (23): 23. ♀.

bradleyi Daniel. N. S., Mich.

Macrocentrus bradleyi Daniel, 1933. Canad. Ent. 65: 25. ♀.

canarsiae Muesebeck. Mass., N. Y., Ont., Ohio, Mich., Iowa, Ark., Kans., S. Dak. Host: *Canarsia* sp., *Psorosina hammondi* (Riley).

Macrocentrus canarsiae Muesebeck, 1932. U. S. Natl. Mus., Proc. 80 (23): 26. ♀.

Macrocentrus insularis Muesebeck, 1932. U. S. Natl. Mus., Proc. 80 (23): 27. ♀.

cerasivoranae Viereck. Canada, U. S. Host: *Archips argyrospilus* (Wlkr.), *A. cerasivoranus* (Fitch), *A. fervidanus* (Clem.), *A. infumatanus* (Zell.).

Macrocentrus cerasivoranae Viereck, 1912. U. S. Natl. Mus., Proc. 42: 623. ♀, ♂.

clypeatus Muesebeck. N. H. s. to Va.; Mich., Calif.

Macrocentrus clypeatus Muesebeck, 1932. U. S. Natl. Mus., Proc. 80 (23): 28. ♀, ♂.

crambi (Ashmead). N. H., Mass., N. Y., Pa., N. J., Del., Md., Va., Fla., Tenn., Ind., Ill., Ark., La., S. Dak. Host: *Crambus mutabilis* Clem., *C. triseptus* (Wlkr.), *C. zeellus* Fern.

Amicoplus(!) crambi Ashmead, 1894. Cincinnati Soc. Nat. Hist., Jour. 17: 48. ♂.

crambivorus Viereck. Canada s. to Fla., w. to Idaho. Host: *Chrysoteuchia topiaria* (Zell.), *Crambus caliginosellus* Clem., *C. triseptus* (Wlkr.).

Macrocentrus (Amicoplus) crambivorus Viereck, 1911. U. S. Natl. Mus., Proc. 40: 183. ♀, ♂.

Macrocentrus (Amicoplus) plesius Viereck, 1913. U. S. Natl. Mus., Proc. 44: 556. ♀, ♂.

crassipes Muesebeck. Que., Vt., N. Y., Ont., Sask., Alta., Mont. Host: *Crymodes devastator* (Brace).

Macrocentrus crassipes Muesebeck, 1932. U. S. Natl. Mus., Proc. 80 (23): 13. ♀, ♂.

crocidophorae Muesebeck. N. C., S. C., La. Host: *Crocidophora pustuliferalis* Led.

Macrocentrus crocidophorae Muesebeck, 1932. U. S. Natl. Mus., Proc. 80 (23): 22. ♂.

- cuniculus** Walley. N. B., Ont., Wis., Man., S. Dak., Sask., Mont., Colo., Idaho, Calif. Host: *Petrova albicapitana albicapitana* (Busck), *P. a. arizonensis* (Heinr.), *P. metallica* (Busck).
- Macrocentrus cuniculus* Walley, 1933. Canad. Ent. 65: 260. ♀.
- delicatus** Cresson. Que. s. to Fla., w. to Man. and Tex. Host: *Aristotelia absconditella* (Wlkr.), *Caristianus* sp., *Chionodes* sp., *Epiblema strenuum* (Wlkr.), *E. tripartitanum* (Zell.), *Episimus argutanus* (Clem.), *Euzophera ostricolorella* Hulst, *Grapholitha molesta* (Busck), *G. tristrigana* (Clem.), *Gretchenia boliana* (Sling.), *Hendecaneura shawiana* (Kearf.), *Laspeyresia pomonella* (L.), *Ostrinia nubilalis* (Hbn.), *Papaipema nebris* (Guen.), *Proteoterae willingana* (Kearf.), *Rhopobota naevana* (Hbn.), *Tetralopha scorealis* (Led.), *T. subcanalis* (Wlkr.). This species is a common parasite of the oriental fruit moth (*Grapholitha molesta*) and the ragweed borer (*Epiblema strenuum*).
- Macrocentrus delicatus* Cresson, 1872. Amer. Ent. Soc., Trans. 4: 178. ♀, ♂.
- Biology: Allen, 1962. U. S. Dept. Agr., Tech. Bul. 1265, p. 19, 24-25.
- dioryctriae** Muesebeck. Md. s. to Fla.; Miss., Ark. Host: *Dioryctria abietella* (D. and S.), *D. amatella* (Hulst), *D. clarioralis* (Wlkr.), *D. disclosa* Hein., *Eucosma* sp.
- Macrocentrus dioryctriae* Muesebeck, 1967. Fla. Ent. 50: 60. ♀, ♂.
- exartemae** Walley. Que., Maine, N. J., Ont. Host: *Choristoneura rosaceana* (Harr.), *Exartema cornanum* Heinr., *E. fascianum* Clem., *E. footinanum* (Fern.), *E. valdanum* McD.
- Macrocentrus exartemae* Walley, 1932. Canad. Ent. 64: 183. ♀.
- Macrocentrus grandii* Goidanich. Holarctic. Introduced from France, Japan and Korea. Host: *Ostrinia nubilalis* (Hbn.). This species, which is an important parasite of the European corn borer, was incorrectly identified in early introductions to North America as *Macrocentrus gifuensis* Ashmead.
- Macrocentrus grandii* Goidanich, 1937. Inst. Ent. Univ. Bologna, Bol. 9: 196. ♀.
- Taxonomy: Eady and Clark, 1964. Ent. Gaz. 15: 121-122.
- Biology: Parker, 1931. U. S. Dept. Agr., Tech. Bul. 230, p. 1-63 (as *gifuensis* Ashmead). — Clausen, 1956. U. S. Dept. Agr., Tech. Bul. 1139, p. 113 (as *gifuensis* Ashmead).
- gravitarsis** Muesebeck. N. Mex., Oreg., Calif. Host: *Halisidota argentata* Pack., *H. ingens* Hy. Edw.
- Macrocentrus gravitarsis* Muesebeck, 1938. Ent. Soc. Wash., Proc. 40: 170. ♀.
- impressus** Muesebeck. N. S. s. to Fla., w. to Ont., Wis. Host: *Psilocorsis cryptolechiella* (Chamb.), *P. reflexella* Clem.
- Macrocentrus impressus* Muesebeck, 1932. U. S. Natl. Mus., Proc. 80 (23): 24. ♀.
- incompletus** Muesebeck. Sask. s. to Kans. and N. Mex., w. to Alta., Oreg., and Ariz. Host: *Euzoa auxiliaris* (Grote).
- Macrocentrus incompletus* Muesebeck, 1932. U. S. Natl. Mus., Proc. 80 (23): 12. ♀, ♂.
- infumatus** Muesebeck. Mich. Host: *Schoenobius melinellus* (Clem.). The original description of *infumatus* lists *Schoenobius melinellus* only as probably being the host.
- Macrocentrus infumatus*(!) Muesebeck, 1938. Ent. Soc. Wash., Proc. 40: 172. ♂.
- innitorum** Walley. N. W. T. (Baffin Isl.; Keewatin Dist.).
- Macrocentrus innitorum* Walley, 1936. Canad. Ent. 68: 187. ♀, ♂.
- instabilis** Muesebeck. Vt. s. to Fla., w. to Ont. and Tex.; Wash. Host: *Acrobasis betulella* Hulst, *A. caryae* Grote, *A. caryivorella* Rag., *A. hebesella* Hulst, *A. juglandis* (LeB.), *A. nuxvorella* Nuennig, *A. rubrifasciella* Pack., *Coleophora malivorella* Riley, *Grapholitha molesta* (Busck), *Homaledra sabalella* (Chamb.), *Laspeyresia caryana* (Fitch), *L. pomonella* (L.), *Rhyacionia rigidana* (Fern.).
- Macrocentrus instabilis* Muesebeck, 1932. U. S. Natl. Mus., Proc. 80 (23): 34. ♀, ♂.

- Biology: Nickels, Pierce, and Pinkney, 1950. U. S. Dept. Agr., Tech. Bul. 1011, p. 8-9. — Allen, 1962. U. S. Dept. Agr., Tech. Bul. 1265, p. 26. — Baldwin, 1968. Ent. Soc. Amer., Ann. 61: 466.
- iridescent** French. Que. s. to Mass., w. to B. C. and Calif. Host: *Archips argyrospila* (Wlkr.), *A. cerasivorana* (Fitch), *A. rosana* (L.), *Cheimophila salicella* (Hbn.), *Choristoneura conflictana* (Wlkr.), *C. fractivittana* (Clem.), *C. fumiferana* (Clem.), *C. rosaceana* (Harr.).

- Ennomos subsignarius* (Hbn.), *Harpapteryx frustrella* (Wlsm.), *H. xylostella* (L.),
Spilonota ocellana (D. and S.).
- Macrocentrus iridescent* French, 1880. Canad. Ent. 12: 43. ♀, ♂.
- Macrocentrus amicroploides* Viereck, 1912. U. S. Natl. Mus., Proc. 43: 579. ♀, ♂.
- longicornis* Provancher. Que., Mich., Ohio, Minn.
- Macrocentrus longicornis* Provancher, 1880. Nat. Canad. 12: 173. ♂.
- marginator** (Nees). Holarctic. Host: *Gretchenia bolliana* (Sling.), *Laspeyresia cupressana* (Kearf.), *Podosesia syringae fraxini* (Lugger), *Synanthedon americana* (Beut.), *S. castaneae* Busck, *S. exitiosa* (Say), *S. pictipes* (G. and R.), *S. tipuliformis* (Clerck), *Zeiraphera ratzburgiana* Sax.
- Bracon marginator* Nees, 1812 (1811). Gesell. Naturf. Freunde Berlin, Mag. 5: 14. ♀.
- Macrocentrus aegeriae* Rohwer, 1915. Ent. Soc. Wash., Proc. 17: 56. ♀.
- Taxonomy: Eady and Clark, 1964. Ent. Gaz. 15: 113.
- mellipes* Provancher. Que., Mont., B. C.
- Macrocentrus mellipes* Provancher, 1880. Nat. Canad. 12: 172. ♀.
- nigridorsis** Viereck. Que. and N. S. s. to D. C., w. to B. C. and Calif. Host: *Archips purpurana* (Clem.), *Choristoneura conflictana* (Wlkr.), *C. parallelella* (Rob.), *Clepis melaleucana* (Wlkr.), *C. persicana* (Fitch), *Exartema fasciatum* Clem., *E. inornatum* Clem., *Gnorimoschema* sp., *Pyrausta* sp., *Sciaphila duplex* (Wlsm.), *Sparganothis* sp.
- Macrocentrus nigridorsis* Viereck, 1924. Canad. Ent. 56: 68. ♀, ♂.
- Macrocentrus harrisi* DeGant, 1930. Ent. Soc. Wash., Proc. 32: 164. ♀.
- nigripectus** Muesebeck. Mass., N. J. Host: *Ancylis* sp.
- Macrocentrus nigripectus* Muesebeck, 1932. U. S. Natl. Mus., Proc. 80 (23): 31. ♀, ♂.
- nuperus** Cresson. Md., Ga., Tex., Ariz. Host: *Desmia funeralis* (Hbn.).
- Macrocentrus nuperus* Cresson, 1872. Amer. Ent. Soc. Trans. 4: 178. ♀.
- pallisteri** DeGant. Mass. s. to Fla., w. to Ont. and Tex.; Alta., Ariz., Calif. Host: *Epiblema obfuscana* Dyar, *E. otiosanum* (Clem.), *E. scudderianum* (Clem.), *E. strenuum* (Wlkr.), *Grapholitha molesta* (Busck), *Ostrinia nubilalis* (Hbn.). The last host mentioned above was listed as questionable in the original catalog.
- Macrocentrus paediscae* Riley, 1891. U. S. Dept. Agr., Insect Life 3: 59. Nom. nud.
- Macrocentrus pallisteri* DeGant, 1930. Ent. Soc. Wash., Proc. 32: 65. ♀.
- pectoralis** Provancher. Que. s. to N. C.; Ohio, S. Dak.
- Macrocentrus pectoralis* Provancher, 1880. Nat. Canad. 12: 173. ♂.
- Macrocentrus fuscipennis* Muesebeck, 1932. U. S. Natl. Mus., Proc. 80 (23): 43. ♀.
- peronea** Muesebeck. Newfoundland, Que., N. B., Maine, Ont., Minn. Host: *Acleris variana* (Fern.), *Archippus packardianus* (Fern.), *Argyrotaenia occulta* Freem., *Choristoneura fumiferana* (Clem.).
- Macrocentrus peroneae* Muesebeck, 1932. U. S. Natl. Mus., Proc. 80 (23): 17. ♀.
- pulchripennis** Muesebeck. Idaho, Utah.
- Macrocentrus pulchripennis* Muesebeck, 1932. U. S. Natl. Mus., Proc. 80 (23): 40. ♀.
- pyraustae** Viereck. Mass., Conn., N. Y., Md., Mich., Mo. Host: *Macrobottys pertextalis* (Led.), *M. theseusalis* (Wlkr.). The type series for this species is recorded as being only an apparent parasite of *Macrobottys theseusalis*.
- Macrocentrus pyraustae* Viereck, 1917 (1916). Conn. State Geol. and Nat. Hist. Survey, Bul. 22, p. 220. ♀.
- reticulatus** Muesebeck. Md. s. to Fla. and Ala.; Mich., Ill.
- Macrocentrus reticulatus* Muesebeck, 1932. U. S. Natl. Mus., Proc. 80 (23): 25. ♀.
- robustus** Muesebeck. Mass., N. Y., N. J., Fla. Host: *Ostrinia nubilalis* (Hbn.), *Tetralopha robustella* Zell.
- Macrocentrus robustus* Muesebeck, 1932. U. S. Natl. Mus., Proc. 80 (23): 29. ♀, ♂.
- seminiger** Muesebeck. Utah, Ariz., Calif.
- Macrocentrus seminiger* Muesebeck, 1932. U. S. Natl. Mus., Proc. 80 (23): 41. ♀.
- terminalis** (Ashmead). N. H. s. to N. J., w. to Minn. and Mo.; Alta.
- Zele terminalis* Ashmead, 1889 (1888). U. S. Natl. Mus., Proc. 11: 652. ♂.

texanus Muesebeck. Ga., Fla., Kans., Tex., Ariz.; Mexico.

Macrocentrus texanus Muesebeck, 1932. U. S. Natl. Mus., Proc. 80 (23): 49. ♀.

uniformis Provancher. N. S. s. to Fla., w. to Man. and Kans. Host: *Alypia langtoni* Coup., *A. octomaculata* (F.), *Anavitrinella pampinaria* (Gn.), *Caripeta angustiorata* (Wlk.), *Plathypena scabra* (F.), *Psychomorpha epimenis* (Drury), *Semiothisa granitata* (Gn.).

Macrocentrus uniformis Provancher, 1880. Nat. Canad. 12: 173. ♀.

utilis Muesebeck. Md., Fla., Ind., Ala., Iowa, Kans. Host: *Ostrinia obumbratalis* (Ld.).

Macrocentrus utilis Muesebeck, 1932. U. S. Natl. Mus., Proc. 80 (23): 35. ♀, ♂.

NOMINA NUDA IN MACROCENTRUS CURTIS

Macrocentrus atriceps Cresson, 1909. In Tucker, Kans. Acad. Sci., Trans. 22: 293.

Macrocentrus gelechiae Ashmead, 1890. In Riley and Howard, U. S. Dept. Agr., Insect Life 3: 59.

Macrocentrus solidaginis Ashmead, 1890. In Riley and Howard, U. S. Dept. Agr., Insect Life 3: 59.

SUBFAMILY AGATHIDINAE

The genera in this subfamily form a rather homogeneous and uniform group. Between 1917 and 1945, this subfamily went under the name Braconinae due to nomenclatural problems with the type-species of *Cremnops* and *Bracon*. In 1945, use of the name Agathidinae was made possible by the International Commission in its Opinion 162.

All species are endoparasites of lepidopterous larvae.

Revision: Muesebeck, 1927. U. S. Natl. Mus., Proc. 69 (16): 1-73 (No. Amer. spp., as subfamily Braconinae).

Taxonomy: Gahan, 1917. U. S. Natl. Mus., Proc. 53: 197. — Hincks, 1943. Entomologist 76: 221-222. — Marsh, 1961. Ent. Soc. Amer., Ann. 54: 852 (key No. Amer. genera). — Shenefelt, 1970. Hym. Cat., part 6, p. 307-428 (cat. World spp.).

Genus AENIGMOSTOMUS Ashmead

Aenigmostomus Ashmead, 1900. U. S. Natl. Mus., Proc. 23: 128.

Type-species: *Microdus longipalpus* Cresson. Orig. desig.

longipalpus (Cresson). Mass., Ga., Mich., Ind., Ill., Mo., N. Dak., S. Dak., Nebr., Kans., Wyo., Colo., Idaho, Utah, Wash.

Microdus? *longipalpus* Cresson, 1865. Ent. Soc. Phila., Proc. 4: 299. ♀.

Genus AGATHIRSIDA Westwood

Agathirsia Westwood, 1882. Tijdschr. Ent. 25: 20.

Type-species: *Agathirsia rufula* Westwood. Desig. by Viereck, 1914.

Agathona Westwood, 1882. Tijdschr. Ent. 25: 22.

Type-species: *Agathona sericans* Westwood. Monotypic.

Paragathis Ashmead, 1889 (1888). U. S. Natl. Mus., Proc. 11: 638.

Type-species: *Microdus thoracicus* Cresson. Monotypic.

Revision: Muesebeck, 1927. U. S. Natl. Mus., Proc. 69 (16): 12-15 (U. S. spp.).

Taxonomy: Shenefelt, 1970. Hym. Cat., part 6, p. 310-311 (cat. World spp.).

cressoni Muesebeck and Walkley. Tex., Colo., N. Mex.

Microdus thoracicus Cresson, 1872. Amer. Ent. Soc., Trans. 4: 181. ♀, ♂. Preocc. in

Microdus by Nees, 1834.

Agathirsia cressoni Muesebeck and Walkley, 1951. In Muesebeck, et al., U. S. Dept. Agr., Agr. Monog. 2, p. 116. N. name for *thoracicus* Cresson.

nigricauda (Viereck). Tex., Colo., N. Mex., Ariz.

Crassomicrodus nigricaudus Viereck, 1905. Kans. Acad. Sci., Trans. 19: 288. ♂.

testacea Muesebeck. Tex., N. Mex., Ariz., Nev., Calif.; Mex. Host: *Acontia cretata* (G. and R.).

This host, reported by Bibby (1961. Jour. Econ. Ent. 54: 331) needs to be confirmed.

Agathirsia testacea Muesebeck, 1927. U. S. Natl. Mus., Proc. 69 (16): 13. ♀.

Genus AGATHIS Latreille

Agathis Latreille, 1804. *Nouv. Dict. Hist. Nat.*, v. 24, p. 173. No species included.

Type-species: *Agathis malvacearum* Latreille. Subsequent monotypy. First included species, by Latreille, 1805, *Hist. Nat. Crust. Ins.* 13: 125.

Bassus Fabricius, 1804. *Systema Piezatorum*, p. 93.

Type-species: *Ichneumon calculator* Fabricius. Desig. by Curtis, 1825.

Microdus Nees, 1814 (1812). *Mag. Gesell. Naturf. Freunde Berlin* 6: 184.

Type-species: *Ichneumon calculator* Fabricius. Desig. by Westwood, 1839.

Diplozon? Haliday, 1833. *Ent. Mag.* 1: 263.

Type-species: *Ichneumon calculator* Fabricius. Monotypic.

Microdus subg. *Therophilus* Wesmael, 1837. *Nouv. Mem. Acad. Sci. Bruxelles* 10: 15.

Type-species: *Microdus (Therophilus) conspicuus* Wesmael. Desig. by Viereck, 1914.

Cenostomus Foerster, 1862. *Naturh. Ver. Rheinlande, Verh.* 19: 246.

Type-species: *Cenostomus lugubris* Foerster. Orig. desig.

Eumicrodus Foerster, 1862. *Naturh. Ver. Rheinlande, Verh.* 19: 247. N. name for *Microdus* Nees.

Agathielia Szepligeti, 1902. *Termes. Fuzetek* 25: 73.

Type-species: *Agathielia pedunculata* Szepligeti. Monotypic.

Metriosoma Szepligeti, 1902. *Termes. Fuzetek* 25: 74.

Type-species: *Metriosoma munda* Szepligeti. Monotypic.

Neomicrodus Szepligeti, 1908. *Mus. Nat. Hungarici*, Ann. 6: 421.

Type-species: *Neomicrodus boliviensis* Szepligeti. Monotypic.

Lissagathis Cameron, 1911. *Nova Guinea* 9 (Zool. 2) Hym., p. 245.

Type-species: *Lissagathis bicarinata* Cameron. Monotypic.

Bassus subg. *Aerophilopsis* Viereck, 1913. *U. S. Natl. Mus., Proc.* 44: 555.

Type-species: *Bassus (Aerophilopsis) erythrogaster* Viereck. Orig. desig.

Ioxia Enderlein, 1920 (1918). *Arch. f. Naturgesch.* 84 (A) (11): 199.

Type-species: *Ioxia faceta* Enderlein. Orig. desig.

Alabagrus Enderlein, 1920 (1918). *Arch. f. Naturgesch.* 84 (A) (11): 203.

Type-species: *Alabagrus citreistigma* Enderlein. Orig. desig.

Ditropia Enderlein, 1920 (1918). *Arch. f. Naturgesch.* 84 (A) (11): 210.

Type-species: *Ditropia strigata* Enderlein. Orig. desig.

Liptyia Enderlein, 1920 (1918). *Arch. f. Naturgesch.* 84 (A) (11): 210.

Type-species: *Liptyia rufiventris* Enderlein. Orig. desig.

Agathellina Enderlein, 1920 (1918). *Arch. f. Naturgesch.* 84 (A) (11): 211.

Type-species: *Agathellina columbiana* Enderlein. Orig. desig.

Revision: Muesebeck, 1927. *U. S. Natl. Mus., Proc.* 69 (16): 22-70 (No. Amer. spp.). —Telenga, 1955. *Fauna U.S.S.R.*, v. 5, n. 4, p. 244-267 (Eur. spp.).

abdominalis (Muesebeck). Mich., Fla., S. Dak., La., Tex., Colo., Ariz.

Bassus abdominalis Muesebeck, 1927. *U. S. Natl. Mus., Proc.* 69 (16): 35. ♀, ♂.

aciculata (Ashmead). Tex., Ariz.

Microdus aciculatus Ashmead, 1889 (1888). *U. S. Natl. Mus., Proc.* 11: 639. ♀, ♂.

acrobasisidis (Cushman). N. J. s. to Fla.; Miss., La., N. Dak., Kans., Tex., Colo., N. Mex. Host:

Acrobasis caryae Grote, *A. caryivorella* Rag., *A. evanescensella* Dyar, *A. exsulella*

(Zell.), *A. juglandis* (Le B.), *A. nuxvorella* Neunzig, *A. peplifera* Dyar, *A. stigmella*

Dyar, *Blastodacna curvilineella* (Chamb.), *Choristoneura fumiferana* (Clem.), *C. houstonana* (Grote), *Laspeyresia ingens* Heinr., *Rhyacionia frustrana* (Comst.).

Bassus acrobasisidis Cushman, 1920. *U. S. Natl. Mus., Proc.* 58: 289. ♀, ♂.

Biology: Nickels, Pierce and Pinkney, 1950. *U. S. Dept. Agr., Tech. Bul.* 1011, p. 6-8.

agilis (Cresson). Que. s. to Fla., w. to Alta. and Tex. Host: *Acleris minutana* Rob., *Archips cerasivoranus* (Fitch), *A. servidiana* (Clem.), *A. infumatana* (Zell.), *A. rileyana* (Grote), *Aristotelia absconditella* Wlkr., *Epiblema strenuana* (Wlkr.), *Homona*

- fervidana* Wlkr., *Microbotys theseusalis* (Wlkr.), *Ostrinia nubilalis* (Hbn.), *O. obumbratalis* (Ld.), *Pyrausta futilalis* (Ld.), *Spilonota ocellana* (D. and S.).
- Microdus agilis* Cresson, 1873. Canad. Ent. 5: 52. ♀.
Agathis quaesitor Provancher, 1880. Nat. Canad. 12: 176. ♀.
- annulipes** (Cresson). No. Amer. Host: *Acrobasis* sp., *Anacampsis innocuella* (Zell.), *Ancylis comptana* (Froel.), *Archips semiferanus* (Wlkr.), *Coelostathma discopunctana* Clem.(?), *Choristoneura conflictana* (Wlkr.), *Eumarozia malachitana* (Zell.), *Grapholitha interstinctana* (Clem.), *Laspeyresia caryana* (Fitch), *Paralobesia viteana* Clem., *Proteoteras moffatiana* Fern., *Sciaiphila duplex* (Wlsm.), *Strepsicrates smithiana* (Wlsm.).
- Microdus annulipes* Cresson, 1873. Canad. Ent. 5: 53. ♀.
Microdus earinoides Cresson, 1873. Canad. Ent. 5: 54. ♀.
Microdus grapholithae Ashmead, 1889 (1888). U. S. Natl. Mus., Proc. 11: 639. ♀.
Microdus albocinctus Ashmead, 1889 (1888). U. S. Natl. Mus., Proc. 11: 639. ♀.
Bassus waldeni Viereck, 1917 (1916). Conn. State Geol. and Nat. Hist. Survey, Bul. 22, p. 229. ♀.
- atripes** Cresson. Colo., N. Mex., Utah, Idaho, Nev., Ariz., B. C., Wash., Calif.
Agathis atripes Cresson, 1865. Ent. Soc. Phila., Proc. 4: 296. ♂.
- azygos** (Viereck). S. Dak., Kans., Tex., Ariz.
Lytopylus azygos Viereck, 1905. Kans. Acad. Sci., Trans. 19: 267. ♀.
Microdus agathoides Viereck, 1905. Kans. Acad. Sci., Trans. 19: 277. ♀.
- bakeri** (Muesebeck). Mich., Minn., Colo., Alaska, Wash., Calif.
Bassus bakeri Muesebeck, 1927. U. S. Natl. Mus., Proc. 69 (16): 42. ♀.
- binominata** Muesebeck. Que. and Ont. s. to Va. Host: *Choristoneura fumiferana* (Clem.), *Coleophora laricella* Hbn., *Coleotechnites coniferella* Kearn., *C. piceaella* (Kearn.), *Epiblema desertana* (Zell.), *Epinotia nanana* (Treits.), *Petrova comstockiana* (Fern.), *Phalonia rutilana* Hbn., *Rhyacionia buoliana* (Schiff.).
- Microdus bicolor* Provancher, 1880. Nat. Canad. 12: 179. ♀. Preocc. by Brulle, 1846.
Agathis binominata Muesebeck, 1958. In Krombein, U. S. Dept. Agr., Agr. Monog. 2, Sup. 1, p. 26. N. name for bicolor Provancher.
- brevicornis** (Muesebeck). Man., Idaho, Utah, Oreg., Nev., Calif.
Bassus brevicornis Muesebeck, 1927. U. S. Natl. Mus., Proc. 69 (16): 56. ♀, ♂.
- buttricki** (Viereck). Maine s. to Fla., w. to S. Dak., Colo., and Tex. Host: *Acrobasis rubrifasciella* Pack., *Homoeosoma electellum* (Hulst.), *Isophrictis* sp., *Phalonia rutilana* Hbn., *P. straminoides* Grote, *P. voxvana* Kearn.
Bassus (Lytopylus) buttricki Viereck, 1917 (1916). Conn. State Geol. and Nat. Hist. Survey, Bul. 22, p. 229. ♀.
- calcarata** (Cresson). Que. s. to Fla.; Ont., Minn., Wis., Mich., Mo., Tex. Host: *Acrobasis betulella* Hulst., *A. caryalbella* Ely, *A. caryivorella* Rag., *A. comptoniella* Hulst., *A. indiginella* (Zell.), *A. minimella* Rag., *A. rubrifasciella* Pack., *A. stigmella* Dyar, *Croesia albicomana* (Clem.), *Epimus argutulus* (Clem.), *Exartema permandanum* Clem., *E. sericorana* Wlsm., *Psilocorsis* sp., *Sparganothis sulphurana* (F.).
- Microdus calcaratus* Cresson, 1873. Canad. Ent. 5: 51. ♀.
- Biology: Balduf, 1966. Ent. Soc. Amer., Ann. 59: 1038-1049.
- californica** (Muesebeck). Idaho, Oreg., Calif.
Bassus californicus Muesebeck, 1927. U. S. Natl. Mus., Proc. 69 (16): 64. ♀, ♂.
- cincta** (Cresson). Que. s. to Fla., w. to N. Dak. and Kans.; Oreg. Host: *Acleris* sp., *Anacampsis fragariella* Busck, *Argyrotela velutiana* (Wlkr.), *Chrysopora hermannella* (F.), *Cnephiasia longana* (Haw.), *Coleophora alniella* Heinr., *C. atlantica* Heinr., *C. cinerella* Chamb., *C. fuscedinella* Zell., *C. laricella* Hbn., *C. salicivorella* McD., *C. tiliaefoliella* Clem., *C. ulmifoliella* McD., *Dichomeris ligulella* (Hbn.), *Grapholitha molesta* (Busck.), *Homadaula anisocentra* (Merg.), *Nephopteryx* sp., *Platynota idaeusalis* (Wlkr.), *Scrobipalpa atriplicella* (Rosler).
- Microdus cinctus* Cresson, 1873. Canad. Ent. 5: 53. ♀, ♂.
Microdus pimplaoides Viereck, 1905. Kans. Acad. Sci., Trans. 19: 276. ♂.

- Bassus winkleyi* Viereck, 1917 (1916). Conn. State Geol. and Nat. Hist. Survey, Bul. 22, p. 229. ♀.
- coleophorae** (Rohwer). Conn., Pa., Va., W. Va., Idaho. Host: *Coleophora laricella* Hbn., *C. leucochrySELLA* Clem., *C. malivorella* Riley.
- Bassus coleophorae* Rohwer, 1915. U. S. Natl. Mus., Proc. 49: 230. ♀.
- Bassus pyrifolii* Viereck, 1917 (1916). Conn. State Geol. and Nat. Hist. Survey, Bul. 22, p. 229. ♀.
- conspicua** (Wesmael). Mass., Conn., Pa., Del., Md., Va., W. Va., Ind.; Europe. Host: *Grapholitha molesta* (Busck), *Laspesyeria pomonella* (L.). Introduced also into Wash. from Del. but apparently not established.
- Microdus (Therophilus) conspicuus* Wesmael, 1837. Nouv. Mem. Acad. Sci. Bruxelles 10: 17. ♀, ♂.
- Earinus zonatus* Marshall, 1885. Roy. Ent. Soc. London, Trans. 1885: 268. ♂.
- Bassus carpocapsae* Cushman, 1915. U. S. Natl. Mus., Proc. 48: 508. ♀.
- crassicornis** (Muesebeck). Fla., Iowa.
- Bassus crassicornis* Muesebeck, 1927. U. S. Natl. Mus., Proc. 69 (16): 43. ♀.
- cupressi** Muesebeck and Walkley. N. Mex., Idaho, Calif.
- Bassus parvus* Muesebeck, 1932. Wash. Acad. Sci., Jour. 22: 331. ♀, ♂. Preocc. by Viereck, 1903.
- Agathis cupressi* Muesebeck and Walkley, 1951. In Muesebeck, et al., 1951, U. S. Dept. Agr., Agr. Monog. 2, p. 119. N. name for *parvus* Muesebeck.
- difficilis** (Muesebeck). N. C., Ga., Fla., Miss., Ark., La., Tex. Host: *Acrobasis indigenella* (Zell.), *Nephopteryx crassifasciella* Rag., *N. subcaesiella* (Clem.), *N. uvinaella* (Rag.).
- Bassus difficilis* Muesebeck, 1927. U. S. Natl. Mus., Proc. 69 (16): 46. ♀, ♂.
- dimidiator** (Nees). Que. s. to D. C., w. to Ont. and Mo.; Alta., Wash., Oreg.; Europe. Host: *Acleris variana* (Fern.), *Archips cerasivoranus* (Fitch), *Spilonota ocellana* (D. and S.). This species is a common parasite of the eyespotted bud moth, *Spilonota ocellana*, in Europe and North America; several more hosts have been recorded in the literature for North America (under the name *laticinctus* Cresson) but most need to be confirmed.
- Microdus dimidiator* Nees, 1834. Hym. Ichn. Aff. Monog., v. 1, p. 146. ♀.
- Microdus laticinctus* Cresson, 1873. Canad. Ent. 5: 53. ♂.
- Microdus ocellanae* Richardson, 1913. Canad. Ent. 45: 211. ♀.
- Taxonomy: Sadava and Miller, 1967. Canad. Ent. 99: 441 (syn. of *laticinctus*).
- Biology: Silvestri, 1922. Lab. Zool. Agr. Portici, Bol. 16: 272. —Dondale, 1954. Canad. Ent. 86: 40-44 (as *laticinctus*). —Stultz, 1954. Canad. Ent. 86: 96-98 (as *laticinctus*).
- discolor** (Cresson). Mass. s. to Fla., w. to Mich., Iowa and Tex. Host: *Ancylis comptana* (Fröel.), *Lineodes interrupta* (Zell.).
- Microdus discolor* Cresson, 1873. Canad. Ent. 5: 52. ♀, ♂.
- Bassus brittoni* Viereck, 1917 (1916). Conn. State Geol. and Nat. Hist. Survey, Bul. 22, p. 229. ♀.
- diversa** (Muesebeck). Conn., N. Y., N. J., Va., Mich., Ohio, Ind.; Japan. Introduced from Japan. Host: *Grapholitha molesta* (Busck).
- Bassus diversus* Muesebeck, 1933. Ent. Soc. Wash., Proc. 35: 48. ♀.
- Biology: Clausen, 1956. U. S. Dept. Agr., Tech. Bul. 1139, p. 72-73. —Allen, 1962. U. S. Dept. Agr., Tech. Bul. 1256, p. 30-31.
- erythrogaster** (Viereck). Conn. s. to Ga., w. to Mich., Kans., and La. Host: *Epiblema strenuana* (Wlkr.).
- Bassus (Aerophilopsis) erythrogaster* Viereck, 1913. U. S. Natl. Mus., Proc. 44: 555. ♂.
- festiva** Muesebeck. N. Y., N. J.; China, India. Introduced from China. Host: *Grapholitha molesta* (Busck), *G. pruinivora* (Walsh).
- Agathis festiva* Muesebeck, 1953. Ent. Soc. Wash., Proc. 55: 149. ♀, ♂.
- Biology: Allen, 1962. U. S. Dept. Agr., Tech. Bul. 1265, p. 31-34.
- floridana** (Muesebeck). Fla.
- Bassus floridanus* Muesebeck, 1927. U. S. Natl. Mus., Proc. 69 (16): 31. ♂.

gibbosa (Say). No. Amer. Host: *Coleophora* sp., *Keiferia inconspicuella* (Murtf.), *Mompha eloisella* Clem., *M. stellella* Busck, *Papaipema nebris* f. *nitela* (Guen.), *Phthorimaea operculella* (Zell), *Stomopteryx* sp., *Strobisia iridipennella* Clem.

Bassus gibbosus Say, 1836. Boston Jour. Nat. Hist. 1: 250. ♀.

Biology: Odebiyi and Oatman, 1972. Ent. Soc. Amer., Ann. 65: 1104-1114.

imitata (Cresson). Mass., N. Y.

Microdus imitatus Cresson, 1873. Canad. Ent. 5: 51. ♀.

immaculata (Gahan). La., Tex. Host: *Symmetrischema striatella* (Murtf.)?. Host needs to be confirmed.

Bassus immaculatus Gahan, 1919. U. S. Natl. Mus., Proc. 55: 118. ♀.

laticeps (Muesebeck). Mass., D. C., Tex., Ariz.

Bassus laticeps Muesebeck, 1927. U. S. Natl. Mus., Proc. 69 (16): 53. ♀.

malivorellae Shenefelt. Maine, W. Va. Host: *Coleophora malivorella* Riley.

Bassus brevicauda Muesebeck, 1932. Wash. Acad. Sci., Jour. 22: 332. ♀. Preocc. by Reinhard, 1867.

Agathis malivorellae Shenefelt, 1970. Hym. Cat., part 6, p. 342. N. name for *brevicauda* Muesebeck.

marginatifrons (Muesebeck). Ala.

Bassus marginatifrons Muesebeck, 1927. U. S. Natl. Mus., Proc. 69 (16): 30. ♀.

metzneriae Muesebeck. Que., N. H., Mass., Conn., N. Y., Ohio, Mich., N. Dak. Host: *Metzneria lappella* (L.).

Agathis metzneriae Muesebeck, 1967. In Juhala, Ent. Soc. Amer., Ann. 60: 95. ♀, ♂.

Biology: Juhala, 1967. Ent. Soc. Amer., Ann. 60: 95-97.

nigricoxa (Provancher). Ont., N. B., N. Y., N. J., Pa., Mich.

Microdus nigricoxus Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 138. ♀.

nigripes Cresson. Mass., Fla.; N. Dak. s. to Kans. and N. Mex., w. to Alta., Wash., Oreg., and Calif. Host: *Phaneta bucephaloidea* (Wlsm.).

Agathis nigripes Cresson, 1865. Ent. Soc. Phila., Proc. 4: 297. ♀.

Agathis nigriceps Provancher, 1895. Nat. Canad. 22: 96. ♀.

Agathis wyomingensis Viereck, 1905. Kans. Acad. Sci., Trans. 19: 284. ♀.

nigrotrochanterica (Viereck). Ga., Fla., Kans., Ariz.

Microdus nigrotrochantericus Viereck, 1905. Kans. Acad. Sci., Trans. 19: 275. ♀.

ninanae (Muesebeck). Ariz., Calif. Host: *Laspeyresia ninana* (Dyar).

Bassus ninanae Muesebeck, 1927. U. S. Natl. Mus., Proc. 69 (16): 48. ♀, ♂.

nucicola (Muesebeck). Wash., Oreg., Calif. Host: *Melissopus latiferranus* (Wlsm.).

Bassus nucicola Muesebeck, 1940. Ent. Soc. Wash., Proc. 42: 91. ♀, ♂.

Biology: Dohanian, 1942. Jour. Econ. Ent. 35: 386-387.

perforator Provancher. Que. s. to D. C., w. to Alta. and S. Dak.

Agathis perforator Provancher, 1880. Nat. Canad. 12: 177. ♀.

Agathis femorator Provancher, 1880. Nat. Canad. 12: 177. ♀.

Braccon (Agathis) sassacus Viereck, 1917 (1916). Conn. State Geol. and Nat. Hist. Survey, Bul. 22, p. 231. ♀, ♂.

Braccon (Agathis) bradfordensis Viereck, 1917 (1916). Conn. State Geol. and Nat. Hist. Survey, Bul. 22, p. 231. ♂.

petiolata (Muesebeck). N. Mex.

Bassus petiolatus Muesebeck, 1932. Wash. Acad. Sci., Jour. 22: 332. ♀, ♂.

pini (Muesebeck). Maine s. to Va. and Ohio. Host: *Evetria* sp., *Petrova comstockiana* (Fern.).

P. houseri Miller, *Rhyacionia frustrana* (Comst.).

Bassus pini Muesebeck, 1940. Ent. Soc. Wash., Proc. 42: 92. ♀.

- Biology: Miller, 1953. Ohio Jour. Sci. 53: 62.
- pumila* (Ratzeburg). P. E. I. s. to Pa., w. to Ont. and Wis.; Mont., Idaho; Europe. Introduced from Europe. Host: *Coleophora laricella* Hbn.
- Microdus pumilus* Ratzeburg, 1844. Ichn. d. Forstins., v. 1, p. 57. ♀, ♂.
- Biology: Dowden, 1962. U. S. Dept. Agr., Agr. Handb. 226, p. 47.
- quebecensis* (Provancher). Que.
- Microdus quebecensis* Provancher, 1880. Nat. Canad. 12: 178. ♀.
- reticulata* (Muesebeck). Ill., Mo., Kans.
- Bassus reticulatus* Muesebeck, 1932. Wash. Acad. Sci., Jour. 22: 332. ♀, ♂.
- rubripes* Cresson. Mass. s. to Fla., w. to Ont. and La.; Wyo., Idaho, Calif. Host: *Coleophora cratipennella* Clem., *Grapholitha molesta* (Busek).
- Agathis rubripes* Cresson, 1872. Amer. Ent. Soc., Trans. 4: 183. ♀.
- rufofemorata* (Muesebeck). Ohio, Fla., Iowa, Ark., Nebr., Kans.
- Bassus rufofemoratus* Muesebeck, 1927. U. S. Natl. Mus., Proc. 69 (16): 36. ♀.
- rugareolata* (Viereck). Conn.
- Bassus rugareolatus* Viereck, 1917 (1916). Conn. State Geol. and Nat. Hist. Survey, Bul. 22, p. 229. ♂.
- sancta* (Say). Mass. s. to Fla., w. to Mich., Nebr., and Tex. Host: *Macrobotys pertextalis* (Led.).
- Bassus sanctus* Say, 1836. Boston Jour. Nat. Hist. 1: 249. ♀.
- semirubra* Brulle. Pa.
- Agathis semi-rubra* Brulle, 1846. In Lepeletier, Hist. Nat. Ins. Hym., v. 4, p. 494. ♂.
- simillima* (Cresson). Mass. s. to Fla., w. to Ont., S. Dak., and Kans.; Wash. Host: *Epiblema carolinana* (Wlsm.), *E. obfuscum* Dyar, *E. otiosanum* (Clem.), *E. scudderianum* (Clem.), *E. strenuanum* (Wlkr.), *Grapholitha tristrigana* Clem., *Papaipema nebris* (Guen.).
- Microdus simillimus* Cresson, 1873. Canad. Ent. 5: 51. ♀, ♂.
- spiracularis* (Muesebeck). U. S.; Mex. Host: *Cogia hippalus outis* (Skin.), *Erynnis zarucco* (Luc.), *Gesta gesta* (H.-S.), *Systasea palverulenta* (Feld.).
- Bassus spiracularis* Muesebeck, 1927. U. S. Natl. Mus., Proc. 69 (16): 38. ♀.
- stigmatera* (Cresson). Fla., La.; West Indies, So. Amer. Introduced from Argentina. Host: *Diatraea saccharalis* (F.).
- Microdus stigmaterus* Cresson, 1865. Ent. Soc. Phila., Proc. 4: 65. ♀, ♂.
- Microdus diatraeae* Turner, 1918. Bul. Ent. Res. 9: 82. ♀.
- Microdus crossi* Brethes, 1927. Rev. Indus. Agr. Tucuman 17: 163. ♀.
- Alabagrus citreistigma* Enderlein, 1920 (1918). Arch. f. Naturgesch. 84: 203. ♀.
- Biology: Myers, 1932. Roy. Ent. Soc. London, Trans. 80: 125-126. —Jaynes, 1933. U. S. Dept. Agr., Tech. Bul. 363, p. 18-19. —Wilson, 1941. Fla. Ent. 24: 55-57.
- tenuiceps* (Muesebeck). Ariz.
- Bassus tenuiceps* Muesebeck, 1927. U. S. Natl. Mus., Proc. 69 (16): 47. ♀, ♂.
- terminata* (Cresson). S. Dak., Nebr., Okla., Tex., Colo. Host: *Isophrictis* sp., *Pyroderces rileyi* (Wlsm.).
- Microdus terminatus* Cresson, 1865. Ent. Soc. Phila., Proc. 4: 298. ♂.
- Orgilus terminalis* Ashmead, 1889 (1888). U. S. Natl. Mus., Proc. 11: 640. ♂.
- Microdus terminator* Dalla Torre, 1898. Cat. Hym., v. 4, p. 136. Emend.
- texana* (Cresson). N. Y. s. to Fla., w. to Kans. and Tex. Host: *Microthyris anomalis* (Guen.), *Pachyzancla thesiusalis* Wlkr., *Pantographa limata* G. and R., *Pilema periusalis* (Wlkr.), *Pilocrocis ramentalis* (Led.), *P. tripunctata* (F.)?, *Sylepta silicalis* (Gn.), *Syngamia haemorrohoidalis* (Guen.).
- Microdus texanus* Cresson, 1872. Amer. Ent. Soc., Trans. 4: 181. ♂.
- Biology: Needham, 1955. Ecology 36: 349-350.
- tibiator* Provancher. Canada and U. S. except southeast. states.
- Agathis tibiator* Provancher, 1880. Nat. Canad. 12: 177. ♀.
- Agathis parvus* Viereck, 1903. Amer. Ent. Soc., Trans. 29: 96. ♀, ♂.
- Bracon* (*Agathis*) *solidaginis* Viereck, 1917 (1916). Conn. State Geol. and Nat. Hist. Survey, Bul. 22, p. 231. ♂.

unicolor (Schrottky). Calif.; Argentina. Liberated in Calif. but not known to be established.
 Introduced from Argentina. Host: *Phthorimaea operculella* (Zell).
Orgilus unicolor (Schrottky), 1902. Mus. Nac. Hist. Nat. B. Aires, An. 8: 102. ♀.
Agathis unicolorata Shenefelt, 1970. Hym. Cat., part 6, p. 364. Unnecessary n. name for
unicolor Schrottky.

usitata (Gahan). Mass. Host: *Acrobasis vaccinii* Riley.
Bassus usitatus Gahan, 1919. U. S. Natl. Mus., Proc. 55: 119. ♀, ♂.
verticalis (Cresson). Tex.
Microdus verticalis Cresson, 1872. Amer. Ent. Soc., Trans. 4: 182. ♀.

NOMINA NUDA IN AGATHIS LATREILLE

Microdus johnsoni Ashmead, 1900 (1899). In Smith, Ins. of N. J., p. 592.
Microdus latianulipes Ashmead, 1902. In Slosson, Ent. News 13: 6.
Microdus solidaginis Ashmead, 1900 (1899). In Smith, Ins. of N. J., p. 592.
Microdus tortricus Ashmead, 1890. In Riley and Howard, U. S. Dept. Agr., Insect Life 3: 17.
Microdus tricoloripes Ashmead, 1902. In Slosson, Ent. News 13: 6.

Genus CRASSOMICRODUS Ashmead

Crassomicrodus Ashmead, 1900. U. S. Natl. Mus., Proc. 23: 128.
 Type-species: *Microdus fulvescens* Cresson. Orig. desig.

Epimicrodus Ashmead, 1900. U. S. Natl. Mus., Proc. 23: 129.
 Type-species: *Microdus divisus* Cresson. Orig. desig. Cited as *diversus* by Ashmead.

Revision: Muesebeck, 1927. U. S. Natl. Mus., Proc. 69 (16): 15-22 (U. S. spp.).

Taxonomy: Shenefelt, 1970. Hym. Cat., part 6, p. 380-382 (cat. World spp.).

apicipennis Muesebeck. Iowa, Mo., Tex., Mont., Wyo., Oreg., Calif.
Crassomicrodus apicipennis Muesebeck, 1927. U. S. Natl. Mus., Proc. 69 (16): 18. ♀, ♂.

divisus (Cresson). Mass. s. to Fla., w. to Ont., Colo., and Ariz.

Microdus divisus Cresson, 1873. Canad. Ent. 5: 52. ♂.

Orgilus rileyi Ashmead, 1889 (1888). U. S. Natl. Mus., Proc. 11: 640. ♀.

Microdus diversus (!) Cresson: Ashmead, 1900. U. S. Natl. Mus., Proc. 23: 129.

fulvescens (Cresson). Kans. and Tex., w. to Wash. and Calif.; Mexico.

Microdus fulvescens Cresson, 1865. Ent. Soc. Phila., Proc. 4: 297. ♀.

medius (Cresson). Iowa, Kans., Tex., Colo., N. Mex., Ariz., Idaho, Wash.

Microdus medius Cresson, 1865. Ent. Soc. Phila., Proc. 4: 298. ♂.

muesebecki Marsh. Nev., Calif.

Crassomicrodus muesebecki Marsh, 1960. Pan-Pacific Ent. 36: 153. ♀, ♂.

nigriceps (Cresson). Tex., Colo., Calif.

Microdus nigriceps Cresson, 1872. Amer. Ent. Soc., Trans. 4: 182. ♀.

nigrithorax Muesebeck. Colo., Nev., Calif.; Mexico.

Crassomicrodus nigrithorax Muesebeck, 1927. U. S. Natl. Mus., Proc. 69 (16): 17. ♀, ♂.

pallens (Cresson). Mass. s. to Fla., w. to Ill. and Tex.; Calif.

Microdus pallens Cresson, 1873. Canad. Ent. 5: 53. ♂.

Genus CREMNOOPS Foerster

Cremnops Foerster, 1862. Naturh. Ver. Rheinlande, Verh. 19: 246.

Type-species: *Agathis deflagrator* Nees. Orig. desig.

Bracon of authors, not Fabricius refers to *Cremnops* Foerster. See Opinion 162, International Commission on Zoological Nomenclature, 1945.

Revision: Morrison, 1917. U. S. Natl. Mus., Proc. 52: 305-343 (No. Amer. spp.). — Marsh, 1961. Ent. Soc. Amer., Ann. 54: 851-861 (No. Amer. spp.).

Taxonomy: Shenefelt, 1970. Hym. Cat., part 6, p. 382-391 (cat. World spp.).
ashmeadi (Morrison). Md., Ky., Ind., Ill., Minn., Iowa, S. Dak., Kans., Alta.

Bracon ashmeadi Morrison, 1917. U. S. Natl. Mus., Proc. 52: 329. ♀, ♂.

- californicus** (Morrison). Wyo. s. to N. Mex., w. to Wash. and Calif.
Braccon californicus Morrison, 1917. U. S. Natl. Mus., Proc. 52: 331. ♀.
Braccon aionos Shenefelt, 1937. Canad. Ent. 69: 205. ♀.
- comstocki** (Morrison). Que. s. to Fla., w. to Alta., Idaho, and Tex.
Braccon comstocki Morrison, 1917. U. S. Natl. Mus., Proc. 52: 323. ♀, ♂.
- crassifemur** (Muesebeck). Tex., N. Mex., Ariz., Calif., Mexico.
Braccon crassifemur Muesebeck, 1927. U. S. Natl. Mus., Proc. 69 (16): 9. ♂.
- haematodes** (Brulle). Pa. s. to Fla., w. to Colo. and Ariz.; Oreg., Calif. Host: *Loxostege rontalis* (Guen.).
Agathis haematodes Brulle, 1846. In Lepeletier, Hist. Nat. Ins. Hym., v. 4, p. 502. ♀.
Agathis liberator Brulle, 1846. In Lepeletier, Hist. Nat. Ins. Hym., v. 4, p. 502. ♀. N. syn.
Agathis meabilis Cresson, 1872. Amer. Ent. Soc., Trans. 4: 183. ♀, ♂.
- kelloggii** (Morrison). Nev., Calif.
Braccon kelloggii Morrison, 1917. U. S. Natl. Mus., Proc. 52: 327. ♀, ♂.
Braccon discoidea Morrison, 1917. U. S. Natl. Mus., Proc. 52: 329. Citation of an Ashmead manuscript name.
- melanoptera** Ashmead. Wash., Oreg., Nev., Calif.; Baja Calif., Mexico.
Cremnops melanoptera Ashmead, 1894. Calif. Acad. Sci., Proc. (2) 4: 125. ♂.
- montrealensis** (Morrison). Que. and N. S. s. to N. C. and Ala., w. to Sask. and Tex. Host:
Evergestis straminalis Hbn.
Braccon montrealensis Morrison, 1917. U. S. Natl. Mus., Proc. 52: 326. ♀, ♂.
- nigrosternum** (Morrison). No. Amer.
Braccon nigrosternum Morrison, 1917. U. S. Natl. Mus., Proc. 52: 322. ♀.
Braccon szepligetii Morrison, 1917. U. S. Natl. Mus., Proc. 52: 334. ♀, ♂.
- shenefelti** Marsh. Nev., Calif.
Cremnops shenefelti Marsh, 1961. Ent. Soc. Amer., Ann. 54: 857. ♀, ♂.
- slossonae** (Morrison). Fla. Host: *Epicorsia mellinalis* (Hbn.).
Braccon slossonae Morrison, 1917. U. S. Natl. Mus., Proc. 52: 318. ♀.
- virginiensis** (Morrison). No. Amer.
Braccon virginianus Morrison, 1917. U. S. Natl. Mus., Proc. 52: 341. ♀, ♂.
- vulgaris** (Cresson). No. Amer. Host: *Loxostege commixtalis* (Wlkr.), *L. rontalis* (Guen.), *L. sticticalis* (L.).
Agathis vulgaris Cresson, 1865. Ent. Soc. Phila., Proc. 4: 295. ♀.
Agathis media Cresson, 1865. Ent. Soc. Phila., Proc. 4: 295. ♂.
Agathis exoratus Cresson, 1872. Amer. Ent. Soc., Trans. 4: 182. ♂.
- Biology: Simmonds, 1947. Bul. Ent. Res. 38: 145-155.
- washingtonensis** (Shenefelt). Nebr., Colo., Idaho, Utah, B. C., Wash., Oreg., Nev., Calif.
Braccon washingtonensis Shenefelt, 1937. Canad. Ent. 69: 206. ♀, ♂.

Genus EARINUS Wesmael

- Microdus** subg. *Earinus* Wesmael, 1837. Nouv. Mem. Acad. Sci. Bruxelles 10: 8.
 Type-species: *Microdus nitidulus* Nees. Desig. by Muesebeck and Walkley, 1951.
- Diatmetus** Foerster, 1862. Naturh. Ver. Rheinlande, Verh. 19: 246.
 Type-species: *Bassus gloriatorius* Panzer. Orig. desig.
- Taxonomy: Shenefelt, 1970. Hym. Cat., part 6, p. 404-408 (cat. World spp.).
- limitaris** (Say). Que. and N. S. s. to Va., w. to B. C. and Calif. Host: *Grapholitha* sp.,
Xylomyges dolosa Grote.
Bassus limitaris Say, 1835. Boston Jour. Nat. Hist. 1: 250. ♀.
- zeirapherae** Walley. Newfoundland w. to Alaska and B. C.; Va., Mich., N. Mex., Oreg., Calif.
 Host: *Acleris hudsoniana* (Wlkr.), *Choristoneura rosaceana* (Harr.), *Rhyacionia adana* Heinr., *Zeiraphera griseana* (Hbn.), *Z. canadensis* M. and F.
Earinus zeirapherae Walley, 1935. Canad. Ent. 67: 55. ♀, ♂.

Genus MEGAGATHIS Kriechbaumer

Megagathis Kriechbaumer, 1894. Berlin. Ent. Ztschr. 39: 311.

Type-species: *Megagathis natalensis* Kriechbaumer. Monotypic.

Adiathlipsis Enderlein, 1920 (1918). Arch. f. Naturgesch. 84 (A) (11): 194.

Type-species: *Adiathlipsis fasciata* Enderlein. Orig. desig.

Taxonomy: Shenefelt, 1970. Hym. Cat., part 6, p. 419-422 (cat. World spp.).
cressoni (Cameron). Tex.; Mexico, Cent. Amer., West Indies.

Agathis albitalis Cresson, 1865. Ent. Soc. Phila., Proc. 4: 63. ♀, ♂. Preocc. in *Agathis* by Spinola, 1840.

Agathis cressoni Cameron, 1887. Biol. Cent.-Amer., Hym., v. 1, p. 398. N. name for *albitalis* Cresson.

Genus ZELOMORPHA Ashmead

Neophylax Ashmead, 1900. U. S. Natl. Mus., Proc. 23: 119. Preocc. by M'Lachlan, 1871.

Type-species: *Neophylax snyderi* Ashmead. Orig. desig.

Zelomorpha Ashmead, 1900. U. S. Natl. Mus., Proc. 11: 129.

Type-species: *Zelomorpha arizonensis* Ashmead. Orig. desig.

Ahngeria Kokujev, 1902. Ent. Obozr. 2: 6.

Type-species: *Ahngeria transcaspia* Kokujev. Monotypic.

Xanthomicrodus Cameron, 1904. Rec. Albany Mus. 1: 157.

Type-species: *Xanthomicrodus iridipennis* Cameron. Monotypic.

Lisitheria Cameron, 1904. Entomologist 37: 306.

Type-species: *Lisitheria nigricornis* Cameron. Monotypic.

Spilomicrodus Cameron, 1911. Timehri (3) 1: 323.

Type-species: *Spilomicrodus nigriceps* Cameron. Monotypic.

Caenophylax Schulz, 1911. Zool. Ann. 4: 88. N. name for *Neophylax* Ashmead.

Zelomorpha subg. *Zelomorphidae* Viereck, 1912. U. S. Natl. Mus., Proc. 42: 630.

Type-species: *Zelomorpha* (*Zelomorphidae*) *melanota* Viereck. Orig. desig.

Taxonomy: Shenefelt, 1970. Hym. Cat., part 6, p. 425-427 (cat. World spp.).
arizonensis Ashmead. Tex., N. Mex., Ariz., Calif.; Baja Calif., Mexico.

Zelomorpha arizonensis Ashmead, 1900. U. S. Natl. Mus., Proc. 23: 129.

fascipennis (Cresson). Fla.; Cuba.

Microdus fascipennis Cresson, 1865. Ent. Soc. Phila., Proc. 4: 65. ♀.

SUBFAMILY OPIINAE

Most of the recent literature on the Opiinae has been published by Fischer and the arrangement of the subfamily presented here follows that of Fischer (1973). All species are solitary endoparasites of dipterous larvae with pupation occurring in the host puparium. Records of lepidopterous and coleopterous hosts are doubtful and need to be confirmed.

Revision: Gahan, 1915. U. S. Natl. Mus., Proc. 49: 63-95 (No. Amer. spp.). —Fischer, 1964.

Polskie Pismo Ent. 34: 197-530 (No. Amer. spp.). —Fischer, 1965. Polskie Pismo Ent. 35: 3-212 (No. Amer. spp.).

Taxonomy: Fischer, 1971. Index World Opiinae, 189 p. (cat. World spp.). —Fischer, 1973. Das Tierreich, lief. 91, p. 55-61 (keys to World tribes and genera).

TRIBE ADEMONINI

Taxonomy: Fischer, 1973. Das Tierreich, lief 91, p. 59-60 (key to genera).

Genus ADEMON Haliday

Ademon Haliday, 1833. Ent. Mag. 1: 266.

Type-species: *Ademon descrescens* Haliday. Monotypic.

Lytacra Foerster, 1862. Naturh. Ver. Rheinlande, Verh. 19: 258.

Type-species: *Lytacra stygia* Foerster. Orig. desig.

Giardinaia Destefani Perez, 1902. Zool. Jahrb., Abt. f. Syst. 15: 631.

Type-species: *Giardinaia urinator* Destefani Perez. Monotypic.

Analostania Viereck, 1916. Biol. Soc. Wash., Proc. 29: 165.

Type-species: *Analostania tenuipes* Viereck. Orig. desig.

Species of this genus are parasites of aquatic leaf mining Diptera and are apparently restricted to the genus *Hydrellia*.

Revision: Fischer, 1965. Polskie Pismo Ent. 35: 197-208 (No. Amer. spp.).

Taxonomy: Fischer, 1971. Index World Opiinae, p. 18-19 (cat. World spp.).

Biology: Destefani Perez, 1902. Zool. Jahrb., Abt. f. Syst. 15: 625-634. —Rimsky-Korsakov, 1933. Handb. Biol. Arbeitsmethoden, Abt. 9, Teil 7, p. 255. —Burghele, 1959. Univ. C. I. Parhon, Ann. Ser. St. Naturii 22: 143-169.

niger (Ashmead). N. Y., D. C., Va., Mich., Wis., Ill., Minn., Utah. Host: *Hydrellia* sp.

Clinocentrus niger Ashmead, 1895. Ill. State Lab. Nat. Hist., Bul. 4: 276. ♂.

TRIBE DESMIOSTOMATINI

Taxonomy: Fischer, 1973. Das Tierreich, ließ. 91, p. 61 (key to genera).

Genus DESMIOSTOMA Foerster

Desmiostoma Foerster, 1862. Naturh. Ver. Rheinlande, Verh. 19: 260.

Type-species: *Opius parvulus* Wesmael. Orig. desig.

Taxonomy: Fischer, 1967. Ztschr. Arbeit. Osterr. Entom. 19: 64. —Fischer, 1973. Das Tierreich, ließ. 91, p. 567.

additivum (Fischer). Que., N. Y., Cal.

Opius (*Opius*) *additivum* Fischer, 1965. Polskie Pismo Ent. 35: 5. ♂.

parvulum (Wesmael). N. Y., N. C., S. C., Tenn., Mich., Minn., Sask., Ariz., B. C., Wash., Calif.; Europe. Host: *Agromyza* sp., *Liriomyza propepusilla* (Frost).

Opius parvulus Wesmael, 1835. Nouv. Mem. Acad. Sci. Bruxelles 9: 139. ♀, ♂.

Opius (*Opius*) *nudiscutum* Fischer, 1964. Polskie Pismo Ent. 34: 373. ♀, ♂.

Genus DORYCTOBRACON Enderlein

Doryctobracon Enderlein, 1920 (1918). Arch. f. Naturgesch. 84 (A) (11): 144.

Type-species: *Doryctobracon conjugens* Enderlein. Orig. desig.

Parachasma Fischer, 1967. Beitr. Neotr. Fauna 5: 7.

Type-species: *Opis zeteki* Muesebeck. Orig. desig.

Taxonomy: Fischer, 1967. Beitr. Neotr. Fauna 5: 7-11 (in *Parachasma*). —Fischer, 1971.

Index World Opiinae, p. 36-38 (cat. World spp., in *Parachasma*).

anastrephilum (Marsh), n. comb. Fla. Host: *Anastrepha interrupta* Stone, *A. suspensa* (Loew).

Parachasma anastrephilum Marsh, 1970. Fla. Ent. 53: 31. ♀, ♂.

cereus (Gahan), n. comb. Fla.; Mexico, Panama, Trinidad, Brazil. Introduced from Trinidad.

Host: *Anastrepha suspensa* (Loew).

Opis cereus Gahan, 1919, Ent. Soc. Wash., Proc. 21: 169. ♂.

TRIBE OPIINI

Taxonomy: Fischer, 1973. Das Tierreich, lief. 91, p. 60 (key to subtribes and genera).

SUBTRIBE BIOSTERINA

Genus BIOSTERES Foerster

Biosteres Foerster, 1862. Naturh. Ver. Rheinlande, Verh. 19: 259.

Type-species: *Bracon carbonarius* Nees. Orig. desig.

Zetetes Foerster, 1862. Naturh. Ver. Rheinlande, Verh. 19: 258. Preocc. by Cabanis, 1860.

Type-species: *Zetetes ultor* Foerster. Orig. desig.

Chilotrichia Foerster, 1862. Naturh. Ver. Rheinlande, Verh. 19: 258.

Type-species: *Opis blandus* Haliday. Orig. desig.

Stenospilus Foerster, 1862. Naturh. Ver. Rheinlande, Verh. 19: 259.

Type-species: *Stenospilus vagator* Foerster. Orig. desig.

Rhabdospilus Foerster, 1862. Naturh. Ver. Rheinlande, Verh. 19: 259.

Type-species: *Opis placidus* Haliday. Orig. desig.

Opiellus Ashmead, 1900. Canad. Ent. 32: 368. N. name for *Zetetes* Foerster.

Celiestella Cameron, 1903. Ztschr. Syst. Hym. Dipt. 3: 343.

Type-species: *Celiestella testaceipes* Cameron. Monotypic.

Diachasmimorpha Viereck, 1913. U. S. Natl. Mus., Proc. 44: 641.

Type-species: *Diachasmimorpha comperei* Viereck. Orig. desig.

Revision: Fischer, 1965. Polskie Pismo Ent. 35: 115-155 (N. Amer. spp. as subgenus of *Opis*).

Taxonomy: Fischer, 1967. Abt. Zool. Bot. Landsmus. Joanneum Graz, Mitt. 26: 159 (resurrection to generic rank). —Fischer, 1971. Index World Opiinae, p. 19-32 (cat. World spp.). —Fischer, 1973. Das Tierreich, lief. 91, p. 485-486 (synonymy, subgenera).

aletes Fischer. Oreg.

Biosteres aletes Fischer, 1970. Polskie Pismo Ent. 40: 763. ♀.

anthomyiae (Ashmead). Conn., N. Y., N. J., Mich., Ill., Minn., Colo., Idaho. Host: *Pegomya bicolor* (Wied.), *P. hyoscyami* *hyoscyami* (Panz.).

Opis anthomyiae Ashmead, 1889 (1888). U. S. Natl. Mus., Proc. 11: 654. ♀.

Opis (Desmiostoma) novaangliae Viereck, 1917 (1916). Conn. State Geol. and Nat. Hist. Survey, Bul. 22, p. 183. ♀.

argos Fischer. S. C., Wash.

Biosteres argos Fischer, 1970. Polskie Pismo Ent. 40: 766. ♀, ♂.

californicus (Fischer). Calif.

Opis (Biosteres) californicus Fischer, 1865. Polskie Pismo Ent. 35: 140. ♀.

carbonarius (Nees). Ont., Minn., Colo., Alaska, Yukon, B. C., Wash., Calif.; Europe.

Bracon carbonarius Nees, 1834. Hym. Ichn. Aff. Monog., v. 1, p. 58. ♀, ♂.

Opis procerus Wesmael, 1835. Nouv. Mem. Acad. Sci. Bruxelles 9: 156. ♂.

Opis impressus Wesmael, 1835. Nouv. Mem. Acad. Sci. Bruxelles 9: 157. ♂.

Taxonomy: van Achterberg, 1975. Ent. Ber. 35: 175-176.

distractus (Fischer). Wyo.

Opis (Biosteres) distractus Fischer, 1965. Polskie Pismo Ent. 35: 119. ♂.

- foveolatus** (Ashmead). Mass. s. to Md., w. to S. Dak. Host: *Pegomya* sp., *P. hyoscyami hyoscyami* (Panz.).

- stonehamensis** Fischer. Que.
- Biosteres stonehamensis* Fischer, 1970. Polskie Pismo Ent. 40: 771. ♀, ♂.

Genus DIACHASMA Foerster

Diachasma Foerster, 1862. Naturh. Ver. Rheinlande, Verh. 19: 259.

Type-species: *Opius fulgidus* Haliday. Orig. desig.

Bathystomus Foerster, 1862. Naturh. Ver. Rheinlande, Verh. 19: 235.

Type-species: *Bathystomus xanthopus* Foerster. Orig. desig.

Atoreuteus Foerster, 1862. Naturh. Ver. Rheinlande, Verh. 19: 241.

Type-species: *Atoreuteus striatus* Foerster. Orig. desig.

Revision: Fischer, 1965. Polskie Pismo Ent. 35: 155-165 (No. Amer. spp., as subgenus of *Opius*).

Taxonomy: Fischer, 1967. Abt. Zool. Bot. Landsmus. Joanneum Graz, Mitt. 26: 159 (resurrection to generic rank). — Fischer, 1971. Index World Opiinae, p. 33-36 (cat. World spp.).

alloeum (Muesebeck). Que., N. B., Maine, Conn., N. Y., Pa., Fla., Ont., Mich., Wis., Minn. Host: *Rhagoletis mendax* Curran, *R. pomonella* (Walsh).

Opius alloeus Muesebeck, 1956. Ent. News 67: 101. ♀, ♂.

Biology: Boush and Baerwald, 1967. Ent. Soc. Amer., Ann. 60: 865-866.

columbica (Fischer). S. C.

Opius (Diachasma) columbica Fischer, 1965. Polskie Pismo Ent. 35: 158. ♂.

ferrugineum (Gahan). Ont. s. to N. J.; Fla., S. Dak. Host: *Rhagoletis cingulata cingulata* (Loew), *R. fausta* (O. S.).

Opius ferrugineus Gahan, 1915. U. S. Natl. Mus., Proc. 49: 75. ♀, ♂.

Taxonomy: Muesebeck, 1956. Ent. News 67: 99-101.

muliebre (Muesebeck). Wash., Oreg., Calif. Host: *Rhagoletis* sp., *R. cingulata indifferens* Curran.

Opius muliebris Muesebeck, 1956. Ent. News 67: 100. ♀.

nigrifactum (Fischer). Wis.

Opius (Diachasma) nigrifactus Fischer, 1965. Polskie Pismo Ent. 35: 163. ♂.

SUBTRIBE OPIINA

Genus EURYTENES Foerster

Eurytenes Foerster, 1862. Naturh. Ver. Rheinlande, Verh. 19: 259.

Type-species: *Opius abnormis* Wesmael. Orig. desig.

Taxonomy: Fischer, 1965. Polskie Pismo Ent. 35: 165-167.

abnormis (Wesmael). S. C., Ont., Minn., Sask., N. Dak., Mont.; Europe.

Opius abnormis Wesmael, 1835. Nouv. Mem. Acad. Sci. Bruxelles 9: 117. ♀, ♂.

Genus OPIUS Wesmael

Opius Wesmael, 1835. Nouv. Mem. Acad. Sci. Bruxelles 9: 115.

Type-species: *Opius pallipes* Wesmael. Desig. by Muesebeck and Walkley, 1951.

Psyllalia Walker, 1860. Ann. and Mag. Nat. Hist. (3) 5: 311.

Type-species: *Psyllalia testacea* Walker. Monotypic.

Xynobius Foerster, 1862. Naturh. Ver. Rheinlande, Verh. 19: 235.

Type-species: *Xynobius pallipes* Foerster. Orig. desig.

Holconotus Foerster, 1862. Naturh. Ver. Rheinlande, Verh. 19: 259. Preocc. by Agassiz, 1854.

Type-species: *Opius comatus* Wesmael. Orig. desig.

Apodesmia Foerster, 1862. Naturh. Ver. Rheinlande, Verh. 19: 259.

Type-species: *Apodesmia taeniata* Foerster. Orig. desig.

Allotyptus Foerster, 1862. Naturh. Ver. Rheinlande, Verh. 19: 259.

Type-species: *Opius irregularis* Wesmael. Orig. desig.

Phaedrotoma Foerster, 1862. Naturh. Ver. Rheinlande, Verh. 19: 260.

Type-species: *Phaedrotoma depeculator* Foerster. Orig. desig.

Eutrichopsis Foerster, 1862. Naturh. Ver. Rheinlande, Verh. 19: 260.

- Type-species: *Eutrichopsis munda* Foerster. Orig. desig.
Therobolus Foerster, 1862. Naturh. Ver. Rheinlande, Verh. 19: 260.
- Type-species: *Opius ruficeps* Wesmael. Orig. desig.
Hypocynodus Foerster, 1862. Naturh. Ver. Rheinlande, Verh. 19: 260.
- Type-species: *Opius crassipes* Wesmael. Orig. desig.
Cryptonastes Foerster, 1862. Naturh. Ver. Rheinlande, Verh. 19: 260.
- Type-species: *Cryptonastes versus* Foerster. Orig. desig.
Hypolabis Foerster, 1862. Naturh. Ver. Rheinlande, Verh. 19: 260.
- Type-species: *Opius pallipes* Wesmael. Orig. desig.
Biophthora Foerster, 1862. Naturh. Ver. Rheinlande, Verh. 19: 260.
- Type-species: *Opius bajulus* Haliday. Orig. desig.
Nosopoea Foerster, 1862. Naturh. Ver. Rheinlande, Verh. 19: 260.
- Type-species: *Opius cingulatus* Wesmael. Orig. desig.
Utetes Foerster, 1862. Naturh. Ver. Rheinlande, Verh. 19: 261.
- Type-species: *Opius testaceus* Wesmael. Orig. desig.
Misophthora Foerster, 1862. Naturh. Ver. Rheinlande, Verh. 19: 266.
- Type-species: *Misophthora laevigata* Foerster. Orig. desig.
Aclisis Foerster, 1862. Naturh. Ver. Rheinlande, Verh. 19: 267.
- Type-species: *Aclisis isomera* Foerster. Orig. desig.
Aulonotus Ashmead, 1900. Canad. Ent. 32: 368. N. name for *Holconotus* Foerster.
- Mesostoma* Cameron, 1905. Tijdschr. Ent. 48: 42.
- Type-species: *Mesostoma testaceipes* Cameron. Monotypic.
Tolbia Cameron, 1907. Linn. Soc. London, Trans. (2) 12: 84.
- Type-species: *Tolbia scaevolae* Cameron. Monotypic.
Brachycentrus Szepligeti, 1907. Mus. Natl. Hist. Nat. Paris, Bul. 1907: 35. Preocc. by Curtis, 1834.
- Type-species: *Brachycentrus minutus* Szepligeti. Monotypic.
Hexaulax Cameron, 1910. Soc. Ent. 25: 25.
- Type-species: *Hexaulax ruficeps* Cameron. Monotypic.
Baeocentrum Schulz, 1911 (1909). Zool. Ann. 4: 65. N. name for *Brachycentrus* Szepligeti.
- Eristerna* Viereck, 1913. U. S. Natl. Mus., Proc. 46: 362.
- Type-species: *Eristerna* *leucotanaria* Viereck. Orig. desig.
Neopiuss Gahan, 1917. U. S. Natl. Mus., Proc. 53: 203.
- Type-species: *Neopiuss carinaticeps* Gahan. Orig. desig.
- Fischer (1973) has recently established several subgenera for the genus *Opius*. However, since this was done only for the Palaearctic groups, I was unable to assign the Nearctic species to their proper subgenera.
- Revision: Fischer, 1964. Polskie Pismo Ent. 34: 197-530 (No. Amer. spp.). —Fischer, 1965. Polskie Pismo Ent. 35: 3-212 (No. Amer. spp.).

Opius (Opius) weemsi Fischer, 1964. Polskie Pismo Ent. 34: 446. ♀, ♂.

UNPLACED TAXON OF OPIINAE

Trigonospilus hopkinsi Ashmead, 1901. U. S. Natl. Mus., Proc. 23: 134. Type lost, exact generic placement uncertain.

SUBFAMILY ALYSIINAE

This subfamily, sometimes called the "exodont braconids," is characterized by widely spaced mandibles with teeth that curve outward and do not touch when closed. The hosts are dipterous larvae with pupation taking place within the host puparium. Most North American genera and species are unstudied.

Taxonomy: Griffiths, 1964. Beitr. z. Ent. 14: 830-832. —Shenefelt, 1974. Hym. Cat., part 11, p. 937-1113 (cat. World spp.).

TRIBE DACNUSINI

Griffiths (see references below) has studied the European species but also made extensive revisions of the World genera. Most of the described North American species are placed in the genera below according to his concepts.

Hosts are restricted to the dipterous family Agromyzidae.

Taxonomy: Griffiths, 1964. *Beitr. z. Ent.* 14: 823-913 (includes diagnoses and key to World genera). —Griffiths, 1966. *Beitr. z. Ent.* 16: 551-605, 775-951. —Griffiths, 1967. *Beitr. z. Ent.* 17: 654-696. —Griffiths, 1968. *Beitr. z. Ent.* 18: 5-152.

Biology: Griffiths, 1964. *Beitr. z. Ent.* 14: 823-913. —Griffiths, 1966. *Beitr. z. Ent.* 16: 551-605, 775-951. —Griffiths, 1967. *Beitr. z. Ent.* 17: 654-696. —Griffiths, 1968. *Beitr. z. Ent.* 18: 5-152.

Genus CHAENUSA Haliday

Alysia subg. *Chaenusa* Haliday, 1839. *Hym. Brit.*, fasc. 2, p. 19.

Type-species: *Bracon conjugens* Nees. Monotypic.

Chorebidea Viereck, 1914. *U. S. Natl. Mus., Bul.* 83: 32.

Type-species: *Alysia (Chorebus) nereidum* Haliday. Orig. desig.

Chorebidea Nixon, 1943. *Ent. Monthly Mag.* 79: 28. Preocc. by Viereck, 1914.

Type-species: *Alysia (Chorebus) naudum* Haliday. Orig. desig.

Chorebidella Riegel, 1950. *Ent. News* 61: 125.

Type-species: *Chorebidella bergi* Riegel. Orig. desig.

Taxonomy: Griffiths, 1964. *Beitr. z. Ent.* 14: 847-848, 859 (generic syn. and diag.).

—Shenefelt, 1974. *Hym. Cat.*, part 11, p. 1030-1033 (cat. World spp.).

bergi (Riegel). Conn., N. Y., Mich., Minn., Kans. Host: *Hydrellia ascita* Cress., *H. cruralis* Coq.
Chorebidella bergi Riegel, 1950. *Ent. News* 61: 128. ♀, ♂.

quadriceps (Ashmead). N. Y.

Brachystropha quadriceps Ashmead, 1901. *N. Y. State Mus., Bul.* 47: 587. ♂.

Genus CHOREBUS Haliday

Chorebus Haliday, 1833. *Ent. Mag.* 1: 264.

Type-species: *Bassus affinis* Nees. Desig. by Viereck, 1914. The type-species is in the sense of Haliday 1833, not 1839.

Ametria Foerster, 1862. *Naturh. Ver. Rheinlande, Verh.* 19: 274.

Type-species: *Alysia (Dacnusa) uliginosa* Haliday. Orig. desig.

Gyrocampa Foerster, 1862. *Naturh. Ver. Rheinlande, Verh.* 19: 276.

Type-species: *Bassus affinis* Nees. Orig. desig.

Stiphrocera Foerster, 1862. *Naturh. Ver. Rheinlande, Verh.* 19: 276.

Type-species: *Stiphrocera nigricornis* Foerster. Orig. desig.

Type-species: *Alysia petiolata* Nees. Orig. desig.

Etriptes Nixon, 1943. *Ent. Monthly Mag.* 79: 30.

Type-species: *Alysia (Dacnusa) talaris* Haliday. Orig. desig.

Paragyrocampa Tobias, 1962. *Akad. Nauk. U. S. S. R. Trudy Zool. Inst.* 31: 119.

Type-species: *Paragyrocampa ophthalmica* Tobias. Orig. desig.

Taxonomy: Griffiths, 1964. *Beitr. z. Ent.* 14: 848-852, 859-860 (generic syn., diag.). —Griffiths, 1968. *Beitr. z. Ent.* 18: 113-136 (key to some Eur. spp.). —Shenefelt, 1974. *Hym. Cat.*, part 11, p. 1033-1070 (cat. World spp.).

agromyzae (Gahan). Del., Ind. Host: *Phytobia (Poemyza) angulata* (Loew).

Dacnusa agromyzae Gahan, 1913. *Canad. Ent.* 45: 153. ♀, ♂.

alaskensis (Ashmead). Alaska.

Gyrocampa alaskensis Ashmead, 1902. *Wash. Acad. Sci., Proc.* 4: 242. ♀.

aquaticus Muesebeck. Minn., Calif. Host: *Hydrellia griseola* (Fallen).

Chorebus aquaticus Muesebeck, 1950. *Ent. Soc. Wash., Proc.* 52: 77. ♀, ♂.

astigmus (Ashmead). N. Y.

Rhizarcha astigma Ashmead, 1901. N. Y. State Mus., Bul. 47: 587. ♀, ♂.

confusus (Ashmead). Mich.

Dacnusa confusa Ashmead, 1889 (1888). U. S. Natl. Mus., Proc. 11: 650. ♂.

crassitelus (Provancher). Ont., Mich., Iowa.

Dacnusa crassitelus Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 148. ♀.

flavocinctus (Ashmead). D. C., Tenn.

Dacnusa flavocincta Ashmead, 1889 (1888). U. S. Natl. Mus., Proc. 11: 651. ♂.

gracilis (Nees). Ont., B. C.; Europe. Introduced from England. Host: *Psila (Chamaepsila) rosae* (F.).

Alysia gracilis Nees, 1834. Hym. Ichn. Aff. Monog., v. 1, p. 257. ♀, ♂.

harringtoni (Ashmead). Alaska.

Rhizarcha harringtoni Ashmead, 1902. Wash. Acad. Sci., Proc. 4: 242. ♂.

iridicolus (Gahan). Pa., Fla. Host: *Phytobia (Dizygomyza) thompsoni* Frick. The host was misident. as *laterella* Zett.

Dacnusa iridicola Gahan, 1919. U. S. Natl. Mus., Proc. 55: 115. ♀.

laeviceps (Cresson). Tex.

Dacnusa laeviceps Cresson, 1872. Amer. Ent. Soc., Trans. 4: 191. ♀.

minimus (Cresson). Tex.

Dacnusa minima Cresson, 1872. Amer. Ent. Soc., Trans. 4: 191. ♂.

parvus (Provancher). Que.

Rhigitaster parvus Provancher, 1883. Nat. Canad. 14: 18. ♀.

rondanii (Giard). Mass.; Europe. Host: *Ophiomyia simplex* (Loew).

Dacnusa rondanii Giard, 1904. Soc. Ent. de France, Bul. 87: 181.

Dacnusa galba Nixon, 1944. Ent. Monthly Mag. 80: 90, 93. ♂.

Taxonomy: Griffiths, 1967. Beitr. z. Ent. 17: 669-671.

sachemellus (Viereck). Conn.

Dacnusa sachemella Viereck, 1917 (1916). Conn. State Geol. and Nat. Hist. Survey, Bul. 22, p. 213. ♀.

spatulatus (Provancher). Ont.

Dacnusa spatulata Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 149. ♂.

Genus COELINIDEA Viereck

Coelinidea Viereck, 1913. U. S. Natl. Mus., Proc. 44: 555.

Type-species: *Stephanus niger* Nees. Orig. desig.

Eriocoelinus Viereck, 1913. U. S. Natl. Mus., Proc. 44: 555.

Type-species: *Coelinus longulus* Ashmead. Orig. desig.

Taxonomy: Griffiths, 1964. Beitr. z. Ent. 14: 844-847, 857-858 (generic syn., diag., considered as subgenus of *Coelinus* Nees). —Shenefelt, 1974. Hym. Cat., part 11, p. 1070-1074 (cat. World spp.).

ferruginea Gahan. Ont. s. to Mo., w. to Alta., Oreg., and Ariz. Host: *Meromyza americana* Fitch.

Coelinidea ferruginea Gahan, 1913. U. S. Natl. Mus., Proc. 46: 434. ♀, ♂.

hopkinsii (Ashmead). N. S. and Que. s. to Va., w. to Man., Colo., and Tex.

Coelinus Hopkinsii Ashmead, 1893. Canad. Ent. 25: 79. ♀.

linearis (Provancher). Que.

Microctonus linearis Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 127. ♀.

longula (Ashmead). Colo.

Coelinus longulus Ashmead, 1889 (1888). U. S. Natl. Mus., Proc. 11: 651. ♂.

meromyzae (Forbes). Maine s. to Md., w. to Oreg. and Calif. Host: *Meromyza americana* Fitch.

Coelinus meromyzae Forbes, 1884 (1883). Noxious Ins. Ill., Rpt. 13: 26. ♀, ♂.

Coelinus nigripes Ashmead, 1890. Colo. Biol. Assoc., Bul. 1: 19. ♂. N. syn.

oecom Viereck, Conn.

Coeleinidea oecom Viereck, 1917 (1916). Conn. State Geol. and Nat. Hist. Survey, Bul. 22, p. 212. ♂.

Genus DACNUSA Haliday

Alysia subg. *Dacnusa* Haliday, 1833. Ent. Mag. 1: 264.

Type-species: *Bracon areolaris* Nees. Desig. by Muesebeck and Walkley, 1951.

Aphanta Foerster, 1862. Naturh. Ver. Rheinlande, Verh. 19: 273.

Type-species: *Aphanta hospita* Foerster. Orig. desig.

Agonia Foerster, 1862. Naturh. Ver. Rheinlande, Verh. 19: 274.

Type-species: *Alysia (Dacnusa) abdita* Haliday. Orig. desig.

Pachysema Foerster, 1862. Naturh. Ver. Rheinlande, Verh. 19: 274.

Type-species: *Alysia (Dacnusa) macrospila* Haliday. Orig. desig.

Brachystropha Foerster, 1862. Naturh. Ver. Rheinlande, Verh. 19: 274.

Type-species: *Brachystropha monticola* Foerster. Orig. desig.

Tanystropha Foerster, 1862. Naturh. Ver. Rheinlande, Verh. 19: 275.

Type-species: *Tanystropha haemarrhoa* Foerster. Orig. desig.

Rhizarcha Foerster, 1862. Naturh. Ver. Rheinlande, Verh. 19: 275.

Type-species: *Bracon areolaris* Nees. Orig. desig.

Liposcia Foerster, 1862. Naturh. Ver. Rheinlande, Verh. 19: 276.

Type-species: *Liposcia discolor* Foerster. Orig. desig.

Radiolaria Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 154.

Type-species: *Radiolaria clavata* Provancher. Monotypic.

Taxonomy: Griffiths, 1964. Beitr. z. Ent. 14: 853-854, 860-861 (generic syn., diag.). —Griffiths, 1966. Beitr. z. Ent. 16: 892-899 (key to Eur. spp.). —Shenefelt, 1974. Hym. Cat., part 11, p. 1081-1100 (cat. World spp.).

clavata (Provancher). Que.

Radiolaria clavata Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 155. ♀.

dubiosa (Ashmead). Alaska.

Liposicia dubiosa Ashmead, 1902. Wash. Acad. Sci., Proc. 4: 243. ♂.

oscinidis Ashmead. Mo. Ecology: Found with *Oscinias* sp. on honeysuckle.

Dacnusa oscinidis Ashmead, 1889 (1888). U. S. Natl. Mus., Proc. 11: 650. ♀.

scaptomyzae Gahan. N. Y., Md., D. C. Host: *Scaptomyza flaveola* (Meig.).

Dacnusa scaptomyzae Gahan, 1913. Canad. Ent. 45: 150. ♀, ♂.

NOMINA NUDA IN DACNUSA HALIDAY

Pachysema americana Ashmead, 1905. In Nason, Ent. News 16: 293.

Tanystropha americana Ashmead, 1899. In Smith, Ins. of N. J., p. 586.

Dacnusa illinoiensis Ashmead, 1905. In Nason, Ent. News 16: 293.

Rhizarcha nigripes Ashmead, 1902. In Slosson, Ent. News 13: 321.

Rhizarcha rubricincta Ashmead, 1905. In Nason, Ent. News 16: 293.

Dacnusa smithii Ashmead, 1899. In Smith, Ins. of N. J., p. 586.

Genus EXOTELA Foerster

Exotela Foerster, 1862. Naturh. Ver. Rheinlande, Verh. 19: 274.

Type-species: *Exotela cyclogaster* Foerster. Orig. desig.

Mesora Foerster, 1862. Naturh. Ver. Rheinlande, Verh. 19: 275.

Type-species: *Alysia (Dacnusa) glivipes* Haliday. Orig. desig.

Torela Nixon, 1943. Ent. Monthly Mag. 79: 29.

Type-species: *Alysia (Dacnusa) glivipes* Haliday. Orig. desig.

Antrusa Nixon, 1943. Ent. Monthly Mag. 79: 30.

Type-species: *Dacnusa melanocera* Thompson. Orig. desig.

One undescribed species occurs in North America.

Taxonomy: Griffiths, 1964. Beitr. z. Ent. 14: 854-855, 862 (generic syn., diag.). —Griffiths,

1966. Beitr. z. Ent. 16: 588-589, 876-878 (key to Eur. spp.). —Shenefelt, 1974. Hym. Cat., part 11, p. 1101-1105 (cat. World spp.).

Genus SYMPHYA Foerster

Aenone Haliday, 1838. Ent. Mag. 5: 214. Preocc. by Lamarck, 1818.

Type-species: *Sigalphus mandibularis* Nees. Desig. by Westwood, 1839.

Oenone Haliday, 1839. Hym. Brit. 2: 3. Emend. Preocc. by Lamarck, 1818.

Symphya Foerster, 1862. Naturh. Ver. Rheinlande, Verh. 19: 273.

Type-species: *Sigalphus mandibularis* Nees. Orig. desig.

Taxonomy: Rohwer, 1914. Ent. News 25: 168-172 (No. Amer. spp.). —Griffiths, 1964. Beitr. z.

Ent. 14: 858-859 (generic syn., diag.). —Shenefelt, 1974. Hym. Cat., part 11, p. 1109-1111
(cat. World spp.).

agromyzae Rohwer. Conn. N. Y., D. C. Host: *Phytobia pruinosa* (Coq.).

Sympha(!) agromyzae Rohwer, 1914. Ent. News 25: 171. ♀.

belfragei (Ashmead). Tex.

Oenone belfragei Ashmead, 1889 (1888). U. S. Natl. Mus., Proc. 11: 649. ♀, ♂.

lucida Rohwer. Wash.

Sympha(!) lucida Rohwer, 1914. Ent. News 25: 169. ♂.

nigricornis Rohwer. Colo.

Sympha(!) nigricornis Rohwer, 1914. Ent. News 25: 170. ♀.

portlandica Rohwer. Minn., Oreg.

Sympha(!) portlandica Rohwer, 1914. Ent. News 25: 170. ♂.

sericea (Provancher). Ont., W. Va., Mich.

Oenone sericea Provancher, 1888. Addit. Corr. Faune Ent. Canada Hym., p. 394. ♀.

TRIBE ALYSIINI

Taxonomy: Fischer, 1971. Polskie Pismo Ent. 41: 22-25 (key to World genera).

Genus ALYSIA Latreille

Alysia Latreille, 1804. Nouv. Dict. Hist. Nat., v. 24, p. 173.

Type-species: *Ichneumon manducator* Panzer. Monotypic.

Cechenus Illiger, 1807. In Rossi, Fauna Etrusca, v. 2, p. 54.

Type-species: *Ichneumon manducator* Panzer. Monotypic.

Bassus Nees, 1814 (1812). Mag. Gesell. Naturf. Freunde Berlin 6: 201.

Type-species: *Ichneumon manducator* Panzer. Desig. by Muesebeck and Walkley, 1951.

Epiclista Foerster, 1862. Naturh. Ver. Rheinlande, Verh. 19: 264.

Type-species: *Epiclista erythrogaster* Foerster. Orig. desig.

Goniarcha Foerster, 1862. Naturh. Ver. Rheinlande, Verh. 19: 265.

Type-species: *Alysia lucicola* Haliday. Orig. desig.

Anarcha Foerster, 1862. Naturh. Ver. Rheinlande, Verh. 19: 265.

Type-species: *Anarcha notabilis* Foerster. Orig. desig.

Strophaea Foerster, 1862. Naturh. Ver. Rheinlande, Verh. 19: 265.

Type-species: *Alysia rufidens* Nees. Orig. desig.

Revision: Fischer, 1971. Polskie Pismo Ent. 41: 25-59 (some Eur. spp.).

Taxonomy: Fischer, 1971. Polskie Pismo Ent. 41: 25 (generic syn.). —Shenefelt, 1974. Hym.

Cat., part 11, p. 939-955 (cat. World spp.).

altilcola (Ashmead). Que., Colo., B. C., Oreg., Calif.

Pentapleura altilcola Ashmead, 1890. Colo. Biol. Assoc., Bul. 1: 18. ♀.

amabilis Dalla Torre. "North America."

Alysia fuscipennis Brulle, 1846. In Lepeletier, Hist. Nat. Ins., Hym., v. 4, p. 516. ♂.

Preocc. by Haliday, 1838.

Alysia amabilis Dalla Torre, 1898. Cat. Hym., v. 4, p. 44. N. name for *fuscipennis* Brulle.

cariosa Marsh. Tex., Ariz. Ecology: Found with carrion-infesting flies.

Alysia cariosa Marsh, 1968. Ent. Soc. Wash., Proc. 70: 209. ♀, ♂.

Biology: Lindquist, 1932. Jour. Econ. Ent. 25: 414-415 (as *Alysia ridibunda* Say). —Roberts, 1935. Jour. Agr. Res. 50: 481-484 (as *Alysia ridibunda* Say). —Lindquist, 1940. Ent. Soc. Amer., Ann. 33: 104-112 (as *Alysia ridibunda* Say).

coxalis (Ashmead). Alaska.

Anarcha coxalis Ashmead, 1902. Wash. Acad. Sci., Proc. 4: 241. ♂.

fossulata Provancher. Alaska, Calif. Host: Blow flies.

Alysia fossulata Provancher, 1888. Addit. Corr. Faune Ent. Canada Hym., p. 391. ♀.

Biology: Roberts, 1935. Jour. Agr. Res. 50: 484.

lucens Provancher. Canada.

Alysia lucens Provancher, 1881. Nat. Canad. 12: 202. ♀.

manducator (Panzer). Europe; Greenland.

Ichneumon manducator Panzer, 1799. Faune Ins. German., heft 72, no. 4. ♀.

micans (Viereck). N. Mex.

Anarcha micans Viereck, 1903. Amer. Ent. Soc., Trans. 29: 93. ♀.

ridibunda Say. Ont. s. to Fla., w. to Kans. and Tex. Host: *Oxysarcodexia ventricosa* (Wulp); dung-feeding flies. All references to *Alysia ridibunda* Say as a parasite of carrion-feeding flies refer to *Alysia cariosa* Marsh.

Alysia ridibunda Say, 1828. Contrib. Maclur. Lyc. Phila. 1: 77. ♂.

Opius macrocephalus Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 123. ♀.

Taxonomy: Burgess and Wingo, 1968. Ent. Soc. Wash., Proc. 70: 207. —Marsh, 1968. Ent. Soc. Wash., Proc. 70: 208-209.

Biology: Burgess and Wingo, 1968. Ent. Soc. Wash., Proc. 70: 204-208 (host indicated as *Ravinia assidua* (Wlkr.) which is a misident. of *Oxysarcodexia ventricosa* (Wulp)).

Genus APHAERETA Foerster

Aphaereta Foerster, 1862. Naturh. Ver. Rheinlande, Verh. 19: 264.

Type-species: *Alysia cephalotes* Haliday. Orig. desig.

Trichesia Provancher, 1881. Nat. Canad. 12: 203.

Type-species: *Trichesia auripes* Provancher. Monotypic.

Trinaria Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 149.

Type-species: *Trinaria pilicornis* Provancher. Monotypic.

Aphaerete Dalla Torre, 1898. Cat. Hym., v. 4, p. 41. Emend.

Revision: Fischer, 1966. Reichenbachia 6: 155-173 (No. Amer. spp.).

Taxonomy: Shenefelt, 1974. Hym. Cat., part 11, p. 956-964 (cat. World spp.).

colei Marsh. Mass., Conn., Pa. Host: *Aulacigaster leucopeza* (Meig.).

Aphaereta colei Marsh, 1969. Ent. Soc. Wash., Proc. 71: 418. ♀, ♂.

dipterica Fischer. Newfoundland, Md. Ecology: Found with "Diptera in shell of snail."

Aphaereta dipterica Fischer, 1966. Reichenbachia 6: 156. ♀, ♂.

excavata McComb. Ga. Host: *Sarcophaga* sp.

Aphaereta excavata McComb, 1960. Ent. News 71: 176. ♀, ♂.

genevensis Fischer. N. Y. Host: Dryomyzidae?

Aphaereta genevensis Fischer, 1966. Reichenbachia 6: 161. ♀, ♂.

ithacensis Fischer. N. Y.

Aphaereta ithacensis Fischer, 1966. Reichenbachia 6: 162. ♀, ♂.

juddi Fischer. Ont., Mich., Ohio. Ecology: In "puparium in snail."

Aphaereta juddi Fischer, 1966. Reichenbachia 6: 164. ♀, ♂.

masoni McComb. Ont., Utah, Idaho. Host: *Cordilura* sp.

Aphaereta masoni McComb, 1960. Ent. News 71: 177. ♀, ♂.

muesebecki Marsh. Va., Ky., S. C., Ga., Fla., Miss., Ark. Host: *Fannia canalicularis* (L.),

Musca domestica L.

Aphaereta muesebecki Marsh, 1969. Ent. Soc. Wash., Proc. 71: 417. ♀, ♂.

Aphaereta soronastes Mason, 1971. Ent. Soc. Wash., Proc. 73: 139. ♀, ♂.

pallipes (Say). North America; Hawaii. Host: *Atrichomelina pubera* (Loew), *Blaesoxipha kellyi* (Aldr.), *Calycomyza jucunda* (Wulp), *Haematobia irritans* (L.), *Helicobia rapax* (Wlkr.), *Hylemya antiqua* (Meig.), *H. brassicae* (Bouche), *H. platura* (Meig.), *Lucilia* sp., *Musca autumnalis* DeG., *M. domestica* L., *Muscina assimilis* (Fallen), *Orthiellia caesarion* (Meig.), *Oryxarcodexia ventricosa* (Wulp), *Ravinia derelicta* (Wlkr.), *R. latisetosa* Parker, *R. lherminieri* (Rob.-Desv.), *R. querula* (Wlkr.), *Sarcophaga aldrichi* Parker, *S. houghi* Aldr., *Tritoza flexa* (Wied.).

Alysia pallipes Say, 1828. Contrib. Macrur. Lyc. Phila. 1: 77.

Trichesia auripes Provancher, 1881. Nat. Canad. 12: 203. ♀, ♂.

Tinaria pilicornis Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 149. ♀.

Aphaereta muscae Ashmead, 1889 (1888). U. S. Natl. Mus., Proc. 11: 646. ♀, ♂.

Aphaereta californica Ashmead, 1889 (1888). U. S. Natl. Mus., Proc. 11: 647. ♀.

Aphaereta oscinidias Ashmead, 1889 (1888). U. S. Natl. Mus., Proc. 11: 647. ♀.

Aphaereta pallidipes Dalla Torre, 1898. Cat. Hym., v. 4, p. 42. Emed.

Aphaereta delosa Viereck, 1905. Kans. Acad. Sci., Trans. 19: 283. ♀, ♂.

Aphaereta subtricarinata Viereck, 1905. Kans. Acad. Sci., Trans. 19: 283. ♀.

Aphaereta pegomyiae Brues, 1907. Extr. MS. Rpt. Minn. State Ent., p. 4. ♀, ♂.

Aphaereta sarcophagae Gahan, 1914. U. S. Natl. Mus., Proc. 48: 158. ♀, ♂.

Taxonomy: McComb, 1958. Ent. Soc. Wash., Proc. 60: 223-224.

Biology: Salkeld, 1959. Canad. Ent. 91: 93-97. — Hauser and Wingo, 1967. Jour. Econ. Ent. 60: 731-733. — Thomas and Wingo, 1968. Jour. Econ. Ent. 61: 148-152.

Morphology: Salkeld, 1959. Canad. Ent. 91: 93-97 (larvae).

scirpi Fischer. Mich. Host: Diptera, unknown species in *Scirpus occidentalis* Chase.

Aphaereta scirpi Fischer, 1966. Reichenbachia 6: 170. ♀, ♂.

varipedis Fischer. N. Y., Va., W. Va. Host: *Cordilura varipes* (Wlkr.).

Aphaereta varipedis Fischer, 1966. Reichenbachia 6: 171. ♀, ♂.

Genus ASOBARA Foerster

Asobara Foerster, 1862. Naturh. Ver. Rheinlande, Verh. 19: 267.

Type-species: *Alysia tabida* Nees. Orig. desig.

Spanista Foerster, 1862. Naturh. Ver. Rheinlande, Verh. 19: 267.

Type-species: *Spanista rufescens* Foerster. Orig. desig.

Taxonomy: Fischer, 1971. Polskie Pismo Ent. 41: 68. — Shenefelt, 1974. Hym. Cat., part 11, p. 964-966 (cat. World spp.).

fungicola (Ashmead). Conn., Ohio, Ill.

Phaenocarpa (*Spanista*) *fungicola* Ashmead, 1894. Cincinnati Soc. Nat. Hist., Jour. 17: 49.

♂.

Asobara lineata Viereck, 1917 (1916). Conn. State Geol. and Nat. Hist. Survey, Bul. 22, p. 213. ♀.

tabida (Nees). Conn., Pa.; Europe. Host: *Drosophila melanogaster* Meig.

Alysia tabida Nees, 1834. Hym. Ichn. Aff. Monog., v. 1, p. 252. ♀.

Spanista rufescens Foerster, 1862. Naturh. Ver. Rheinlande, Verh. 19: 267.

Alysia anomala Thomson, 1895. Opusc. Ent., fasc. 20, p. 2290. ♀.

Genus ASPILOTA Foerster

Aspilota Foerster, 1862. Naturh. Ver. Rheinlande, Verh. 19: 268.

Type-species: *Alysia ruficornis* Nees. Orig. desig.

Dinotrema Foerster, 1862. Naturh. Ver. Rheinlande, Verh. 19: 268.

Type-species: *Dinotrema erythropa* Foerster. Orig. desig.

Spanomeris Foerster, 1862. Naturh. Ver. Rheinlande, Verh. 19: 268.

Type-species: *Spanomeris pullo* Foerster. Orig. desig.

Dipiesta Foerster, 1862. Naturh. Ver. Rheinlande, Verh. 19: 268.

Type-species: *Alysia compressa* Haliday. Orig. desig.

Panerema Foerster, 1862. Naturh. Ver. Rheinlande, Verh. 19: 263.

Type-species: *Panerema inops* Foerster. Orig. desig.

Scotioneurus Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 152, 156.

Type-species: *Scotioneurus stenostigma* Provancher. Desig. by Gahan, 1913.

Revision: Fischer, 1969. Acta Ent. Mus. Natl. Pragae 38: 91-114. —Fischer, 1969. Ent. Soc. Wash., Proc. 71: 361-368. —Fischer, 1969. Portici Lab. Ent. Agr., Bol. 27: 55-78. —Fischer, 1969. Osterr. Akad. Wiss. Math.-Nat. Kl., Sitzber. 178: 243-259. —Fischer, 1969. Redia 51: 187-209. —Fischer, 1970. Naturhist. Mus. Wien, Ann. 74: 91-127. All above references are to No. Amer. spp.

Taxonomy: Fischer, 1969. Acta Ent. Mus. Natl. Pragae 38: 91 (generic syn.). —Shenefelt, 1974. Hym. Cat., part 11, p. 966-982 (cat. World spp.).

acutistigma Fischer. Alaska.

Aspilota acutistigma Fischer, 1969. Redia 51: 191. ♂.

alexanderi Fischer. Newfoundland.

Aspilota alexanderi Fischer, 1969. Acta Ent. Mus. Natl. Pragae 38: 100. ♂.

angusticornis Fischer. Newfoundland, Md., Colo.

Aspilota angusticornis Fischer, 1969. Acta Ent. Mus. Natl. Pragae 38: 102. ♀, ♂.

armillariae Fischer. D. C., Va. Ecology: Bred from the fungi *Armillaria mellea* (Vahl ex Fr.)

Kummar and *Clitocybula* (probably *Clitocybe*).

Aspilota armillariae Fischer, 1969. Redia 51: 194. ♀.

astigma (Provancher). Que., Pa., Md., Mich., Colo.

Alysia astigma Provancher, 1883. Nat. Canad. 14: 18. ♀.

Aspilota astigma Provancher, 1888. Addit. Corr. Faune Ent. Canada Hym., p. 393. ♀.

astoriensis Fischer. Ore.

Aspilota astoriensis Fischer, 1969. Redia 51: 196. ♀.

bakeri Fischer. Mass.

Aspilota bakeri Fischer, 1969. Redia 51: 199. ♀.

brachybasis Fischer. Md.

Aspilota brachybasis Fischer, 1969. Portici Lab. Ent. Agr., Bol. 27: 60. ♀.

bucculatricis Fischer. Newfoundland, Maine.

Aspilota bucculatricis Fischer, 1969. Portici Lab. Ent. Agr., Bol. 27: 60. ♀.

capitata Fischer. Md.

Aspilota capitata Fischer, 1969. Osterr. Akad. Wiss. Math.-Nat. Kl., Sitzber. 178: 245. ♀.

caudatula Fischer. Md., Ga., Mich., Wis., Ill., Kans., Colo.

Aspilota caudatula Fischer, 1969. Osterr. Akad. Wiss. Math.-Nat. Kl., Sitzber. 178: 247. ♀,
♂.

claricornis Fischer. Fla., Colo.

Aspilota claricornis Fischer, 1969. Osterr. Akad. Wiss. Math.-Nat. Kl., Sitzber. 178: 249. ♀.

clayensis Fischer. Fla.

Aspilota clayensis Fischer, 1969. Acta Ent. Mus. Natl. Pragae 38: 103. ♀.

columbiana Viereck. Kans.

Aspilota columbiana Viereck, 1905. Kans. Acad. Sci., Trans. 19: 282. ♀.

communis Fischer. Maine, Mass., Ill.

Aspilota communis Fischer, 1969. Osterr. Akad. Wiss. Math.-Nat. Kl., Sitzber. 178: 250. ♀,
♂.

compressigaster Fischer. Md.

Aspilota compressigaster Fischer, 1969. Ent. Soc. Wash., Proc. 71: 363. ♀.

convexula Fischer. Colo.

Aspilota convexula Fischer, 1970. Naturhist. Mus. Wien, Ann. 74: 109. ♂.

cultrata Fischer. Md.

Aspilota cultrata Fischer, 1970. Naturhist. Mus. Wien, Ann. 74: 111. ♀.

curtibasis Fischer. Md.

Aspilota curtibasis Fischer, 1970. Naturhist. Mus. Wien, Ann. 74: 113. ♀.

disstriae Fischer. Vt.

Aspilota disstriae Fischer, 1969. Acta Ent. Mus. Natl. Pragae 38: 105. ♀.

- divergens** Fischer. W. Va., Mich.
Aspilota divergens Fischer, 1970. Naturhist. Mus. Wien, Ann. 74: 95. ♀.
- dreisbachi** Fischer. Mich., Ill.
Aspilota dreisbachi Fischer, 1969. Acta Ent. Mus. Natl. Pragae 38: 107. ♀.
- ephemera** Viereck, Conn.
Aspilota ephemera Viereck, 1917 (1916). Conn. State Geol. and Nat. Hist. Survey, Bul. 22, p. 213. ♂.
- fasciatae** Fischer. N. J., Md., Colo. Host: *Phalacrotophora epeirae* (Brues). Original description states host as *Phora fasciata* which is a misidentification of *Phalacrotophora epeirae*.
Aspilota fasciatae Fischer, 1970. Naturhist. Mus. Wien, Ann. 74: 99. ♀, ♂.
- floridensis** Shenefelt. Fla.
Aspilota cubiceps Fischer, 1969. Acta Ent. Mus. Natl. Pragae 38: 92. ♀. Preocc. by Bischoff, 1932.
Aspilota floridensis Shenefelt, 1974. Hym. Cat., part 11, p. 972. N. name for *cubiceps* Fischer.
- foliformis** Fischer. Ala.
Aspilota foliformis Fischer, 1969. Acta Ent. Mus. Natl. Pragae 38: 108. ♀.
- foutsi** Fischer. Md.
Aspilota foutsi Fischer, 1970. Naturhist. Mus. Wien, Ann. 74: 115. ♀.
- girlanda** Fischer. N. Y.
Aspilota girlanda Fischer, 1970. Naturhist. Mus. Wien, Ann. 74: 118. ♂.
- insularis** Fischer. B. C.
Aspilota insularis Fischer, 1969. Ent. Soc. Wash., Proc. 71: 365. ♀.

Aspilota sinibasis Fischer, 1969. Portici Lab. Ent. Agr., Bol. 27: 72. ♀.
sitkensis (Ashmead). Alaska.

Delocarpa sitkensis Ashmead, 1902. Wash. Acad. Sci., Proc. 4: 242. ♀.
smithi Fischer. N. J.

Aspilota smithi Fischer, 1969. Redia 51: 206. ♀, ♂.

stenostigma (Provancher). Mass., Md., Ont., Wis.

Scotoneurus stenostigma Provancher, 1886. Addit. Corr. Faune. Ent. Canada Hym., p. 157.
 ♀.

subcompressa (Ashmead). Calif.

Adelura subcompressa Ashmead, 1889 (1888). U. S. Natl. Mus., Proc. 11: 647. ♀.

subcubicus Fischer. Md.

Aspilota subcubicus Fischer, 1969. Acta Ent. Mus. Natl. Pragae 38: 112. ♀, ♂.

supramedia Fischer. Va.

Aspilota supramedia Fischer, 1969. Portici Lab. Ent. Agr., Bol. 27: 76. ♀.

sylvatae Fischer. Iowa. Ecology: "Reared from larva in rotting *Collybia radicata*."

Aspilota sylvatae Fischer, 1969. Osterr. Akad. Wiss. Math.-Natur. Kl., Sitzber. 178: 256. ♀.
 ♂.

Genus DAPSILARTHRA Foerster

Dapsilarthra Foerster, 1862. Naturh. Ver. Rheinlande, Verh. 19: 267.

Type-species: *Alysia apii* Curtis. Orig. desig.

Adelura Foerster, 1862. Naturh. Ver. Rheinlande, Verh. 19: 267. Preocc. by Bonapart, 1854.

Type-species: *Alysia florimela* Haliday. Orig. desig.

Opisenda Foerster, 1862. Naturh. Ver. Rheinlande, Verh. 19: 266.

Type-species: *Opisenda tenuicornis* Foerster. Orig. desig.

Grammospila Foerster, 1862. Naturh. Ver. Rheinlande, Verh. 19: 269.

Type-species: *Alysia isabella* Haliday. Orig. desig.

Adelurola Strand, 1928 (1926). Arch. Naturgesch. 92 (A) (8): 51. N. name for *Adelura* Foerster.

Neocarpa Fischer, 1966. Naturh. Mus. Wien, Ann. 69: 185.

Type-species: *Neocarpa amplidens* Fischer. Orig. desig.

Taxonomy: Fischer, 1971. Polskie Pismo Ent. 41: 76.

americana (Brues). Wis.

Orthostigma americana Brues, 1907. Wis. Nat. Hist. Soc., Bul. 5: 59. ♀.

Taxonomy: Fischer, 1973. Naturh. Mus. Wien, Ann. 77: 256-258 (redescri.).
barthii (Brues). Wis. Host: *Temnostoma bombylans* (F.).

Asobara barthii Brues, 1907. Wis. Nat. Hist. Soc., Bul. 5: 57. ♀, ♂.

Taxonomy: Fischer, 1973. Naturh. Mus. Wien, Ann. 77: 258-260 (redescri.).
rufiventris (Nees). Calif.

Bassus rufiventris Nees, 1814 (1812). Mag. Gesell. Naturf. Freunde Berlin 6: 213. ♀.

Alysia (*Alysia*) *flaviventris* Haliday, 1838. Ent. Mag. 5: 240. ♀.

Alysia (*Phaenocarpa*) *gracilicornis* Thomson, 1895. Opusc. Ent., fasc. 20, p. 2283. ♀, ♂.

Genus DINOSTIGMA Fischer

Dinostigma Fischer, 1966. Naturhist. Mus. Wien, Ann. 69: 182.

Type-species: *Dinostigma muesebecki* Fischer. Orig. desig.

muesebecki Fischer. Pa.

Dinostigma muesebecki Fischer, 1969. Naturhist. Mus. Wien, Ann. 69: 183. ♀.

Genus GLYPHOGASTER Muesebeck and Walkley

Glyphogaster Muesebeck and Walkley, 1951. In Muesebeck et al., U. S. Dept. Agr., Agr. Monog. 2, p. 148.

Type-species: *Acrobela tachinae* Ashmead. Orig. desig.

tachinae (Ashmead). Maine, N. H., Conn.

Acrobela tachinae Ashmead, 1898 (1897). Ent. Soc. Wash., Proc. 4: 170. ♀.

Genus HOPLITALYSIA Ashmead

Hoplitalyisia Ashmead, 1900. U. S. Natl. Mus., Proc. 23: 105.

Type-species: *Hoplitalyisia slossonae* Ashmead. Orig. desig.

slossonae Ashmead. W. Va., Fla., Tex.

Hoplitalyisia slossonae Ashmead, 1900. U. S. Natl. Mus., Proc. 23: 105.

Genus IDIASTA Foerster

Idiasta Foerster, 1862. Naturh. Ver. Rheinlande, Verh. 19: 265.

Type-species: *Alysia maritima* Haliday. Orig. desig.

Rhacalsysia Cameron, 1910. Wien. Ent. Ztg. 29: 9.

Type-species: *Rhacalsysia rufobalteata* Cameron. Monotypic.

Taxonomy: Konigsmann, 1960. Beitr. z. Ent. 10: 624-654. —Shenefelt, 1974. Hym. Cat., part 11, p. 993-995 (cat. World spp.).

longicornis (Provancher). Ont.

Rhopalophorus longicornis Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 129. ♀.

Alysia completa Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 147. ♀.

macrocera Ashmead. N. H., Ont., Mich., Colo., B. C.

Idiasta macrocera Ashmead, 1891. Canad. Ent. 23: 5. ♂.

provancheri (Dalla Torre). Que.

Alysia nigriceps Provancher, 1881. Nat. Canad. 12: 203. ♀. Preocc. by Cresson, 1865.

Alysia provancheri Dalla Torre, 1898. Cat. Hym., v. 4, p. 48. N. name for *nigriceps* Provancher.

Genus OENONOGASTRA Ashmead

Oenonogastra Ashmead, 1900. U. S. Natl. Mus., Proc. 23: 105.

Type-species: *Mesocrina microrhopalae* Ashmead. Orig. desig.

microrhopalae (Ashmead). N. Y. s. to Fla., w. to Iowa and Tex. Host: *Calycomyza ipomaeae* (Frost). The record of *Microrhopala xerene* (Newn.) (Coleoptera) as a host is undoubtedly an error.

Mesocrina microrhopalae Ashmead, 1896. Amer. Ent. Soc., Trans. 23: 217. ♂.

Taxonomy: Fischer, 1967. Naturhist. Mus. Wien, Ann. 70: 128-130 (redescri.).

Genus ORTHOSTIGMA Ratzeburg

Orthostigma Ratzeburg, 1844. Ichn. d. Forstins., v. 1, p. 53.

Type-species: *Aphidius flavipes* Ratzeburg. Monotypic.

Ichnocarpa Foerster, 1862. Naturh. Ver. Rheinlande, Verh. 19: 268.

Type-species: *Alysia pumila* Nees. Orig. desig.

Delocarpa Foerster, 1862. Naturh. Ver. Rheinlande, Verh. 19: 268.

Type-species: *Delocarpa praedo* Foerster. Orig. desig.

Revision: Fischer, 1969. Acta Ent. Mus. Natl. Pragae 38: 82-90 (No. Amer. spp.).

Taxonomy: Shenefelt, 1974. Hym. Cat., part 11, p. 997-1001 (cat. World spp.).

crassinervis (Fischer), n. comb. Mo.

Aspilota crassinervis Fischer, 1969. Acta Ent. Mus. Natl. Pragae 38: 94. ♂.

dyari Fischer. B. C.

Orthostigma dyari Fischer, 1969. Acta Ent. Mus. Natl. Pragae 38: 83. ♀.

monotonum Fischer. Md.

Orthostigma monotonum Fischer, 1969. Acta Ent. Mus. Natl. Pragae 38: 85. ♀.
ovalis (Provancher). Que.

Rhitigaster ovalis Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 146. ♀.

prebblei Fischer. N. S.

Orthostigma prebblei Fischer, 1969. Acta Ent. Mus. Natl. Pragae 38: 87. ♀.

sculleni Fischer. Oreg.

Orthostigma sculleni Fischer, 1969. Acta Ent. Mus. Natl. Pragae 38: 88. ♀.

sheldoni (Fischer), n. comb. N. Y., N. J., Md., Colo.

Aspilota sheldoni Fischer, 1969. Acta Ent. Mus. Natl. Pragae 38: 95. ♀, ♂.

terryvillensis (Fischer), n. comb. Conn.

Aspilota terryvillensis Fischer, 1969. Acta Ent. Mus. Natl. Pragae 38: 97. ♀.

Genus PENTAPLEURA Foerster

Pentapleura Foerster, 1862. Naturh. Ver. Rheinlande, Verh. 19: 264.

Type-species: *Bassus pumilo* Nees. Orig. desig.

Gnathospila Fischer, 1966. Naturhist. Mus. Wien, Ann. 69: 210.

Type-species: *Gnathospila quadridens* Fischer. Orig. desig.

Taxonomy: Fischer, 1971. Polskie Pismo Ent. 41: 126-130 (Eur. spp.). — Shenefelt, 1974. Hym. Cat., part 11, p. 1001-1003 (cat. World spp.).

foveolata Viereck. Conn.

Pentapleura foveolata Viereck, 1917 (1916). Conn. State Geol. and Nat. Hist. Survey, Bul. 22, p. 213. ♂.

quadridens (Fischer). Colo.

Gnathospila quadridens Fischer, 1966. Naturhist. Mus. Wien, Ann. 69: 210. ♀.

triticaphis (Fitch). N. Y., Colo., Calif.

Toxares triticaphis Fitch, 1861 (1860). N. Y. State Agr. Soc., Trans. 20: 840.

Genus PHAENOCARPA Foerster

Phaenocarpa Foerster, 1862. Naturh. Ver. Rheinlande, Verh. 19: 267.

Type-species: *Alysia picinervis* Haliday. Orig. desig.

Homophyla Foerster, 1862. Naturh. Ver. Rheinlande, Verh. 19: 266.

Type-species: *Alysia pullata* Haliday. Orig. desig.

Mesothesis Foerster, 1862. Naturh. Ver. Rheinlande, Verh. 19: 266.

Type-species: *Mesothesis bicolor* Foerster. Orig. desig.

Asynaphes Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 150.

Type-species: *Asynaphes aciculata* Provancher. Desig. by Viereck, 1914.

Kahlia Ashmead, 1900. U. S. Natl. Mus., Proc. 23: 107.

Type-species: *Kahlia flavipes* Ashmead. Orig. desig.

Holcalysia Cameron, 1905 (not 1910). Entomologist 38: 268.

Type-species: *Holcalysia testaceipes* Cameron. Monotypic.

Stiralyssia Cameron, 1910. Wien. Ent. Ztg. 29: 7.

Type-species: *Stiralyssia testaceiventris* Cameron. Monotypic.

Revision: Papp, 1966. Acta Zool. Acad. Sci. Hung. 12: 133-144 (Afr. spp.). — Papp, 1967.

Reichenbachia 8: 139-157 (Orient. spp.). — Papp, 1968. Beitr. z. Ent. 18: 569-603 (some Eur. spp.). — Papp, 1969. Acta Zool. Acad. Sci. Hung. 15: 379-389 (Neotr. spp.). — Fischer, 1970.

Ztschr. f. Angew. Ent. 57: 409-498 (Eur. spp.). — Fischer, 1974. Polskie Pismo Ent. 44: 103-230 (some No. Amer. spp.). — Fischer, 1975. Polskie Pismo Ent. 45: 279-356 (remainder of No. Amer. spp.).

Taxonomy: Shenefelt, 1974. Hym. Cat., part 11, p. 1003-1017 (cat. World spp.).

aciculata (Provancher). Ont.

Asynaphes aciculata Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 150. ♀.

acutinotum Fischer. Md.

Phaenocarpa acutinotum Fischer, 1974. Polskie Pismo Ent. 44: 109. ♀.

- amara** Fischer. N. Y., Md., D. C., N. C., S. C., Calif., Alaska.
Phaenocarpa amara Fischer, 1975. Polskie Pismo Ent. 45: 283. ♀, ♂.
- angustifossa** Fischer. Labrador, Mich.
Phaenocarpa angustifossa Fischer, 1975. Polskie Pismo Ent. 45: 286. ♀, ♂.
- antichaetae** Fischer. N. Y. Host: *Antichaeta melanosoma* Melander.
Phaenocarpa antichaetae Fischer, 1974. Polskie Pismo Ent. 44: 112. ♀, ♂.
- aristarchi** Fischer. Md.
Phaenocarpa aristarchi Fischer, 1974. Polskie Pismo Ent. 44: 114. ♂.
- astigmatica** Fischer. N. C., Wash.
Phaenocarpa astigmatica Fischer, 1974. Polskie Pismo Ent. 44: 119. ♀.
- basirufa** Fischer. N. C.
Phaenocarpa basirufa Fischer, 1974. Polskie Pismo Ent. 44: 122. ♀, ♂.
- bellatrix** Fischer. N. Mex., Alaska.
Phaenocarpa bellatrix Fischer, 1975. Polskie Pismo Ent. 45: 288. ♀, ♂.
- benjaminica** Fischer. N. C.
Phaenocarpa benjaminica Fischer, 1974. Polskie Pismo Ent. 44: 125. ♀.
- brachyptera** Fischer. Ill., Calif.
Phaenocarpa brachyptera Fischer, 1974. Polskie Pismo Ent. 44: 127. ♀, ♂.
- brevicauda** (Provancher). Que., Va., Mich., Iowa, N. Dak., S. Dak., Colo. Host: *Ravinia (Chaetoravinia) assidua* (Wlkr.).
Asynaphes brevicauda Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 150. ♀.
- bruesi** Marsh. Minn. Host: *Hylemya brassicae* (Bouche).
Mesocrina pegomyiae Brues, 1907. Extr. MS. Rpt. Minn. State Ent., p. 3. Preocc. by Marshall, 1898.
- Phaenocarpa bruesi** Marsh, 1974. In Shenefelt, Hym. Cat., part 11, p. 1005. N. name for *pegomyiae* Brues.
- Taxonomy: Fischer, 1973. Naturh. Mus. Wien, Ann. 77: 252 (redescri.).
- brunnicornis** Fischer. Mich.
Phaenocarpa brunnicornis Fischer, 1974. Polskie Pismo Ent. 44: 132. ♀.
- californica** Fischer. Calif., Alaska.
Phaenocarpa californica Fischer, 1974. Polskie Pismo Ent. 44: 134. ♀, ♂.
- caudata** (Provancher). Ont.
Alysia caudata Provancher, 1881. Nat. Canad. 12: 202. ♀.
- cellularis** Fischer. N. Y. s. to N. C., w. to Mich.
Phaenocarpa cellularis Fischer, 1974. Polskie Pismo Ent. 44: 137. ♀, ♂.
- cephalotes** Fischer. Ont.
Phaenocarpa cephalotes Fischer, 1975. Polskie Pismo Ent. 45: 291. ♂.
- collorufa** Fischer. N. H.
Idiolexis collaris Ashmead, 1902. In Slosson, Ent. News 13: 321. Nom. nud.
Phaenocarpa collarufa Fischer, 1974. Polskie Pismo Ent. 44: 140. ♀.
- compressigaster** Fischer. Oreg.
Phaenocarpa compressigaster Fischer, 1974. Polskie Pismo Ent. 44: 142. ♀.
- conjuncta** Fischer. Wash.
Phaenocarpa conjuncta Fischer, 1974. Polskie Pismo Ent. 44: 145. ♂.
- convergens** Fischer. Alaska.
Phaenocarpa convergens Fischer, 1974. Polskie Pismo Ent. 44: 147. ♀.
- convexinotum** Fischer. Alaska.
Phaenocarpa convexinotum Fischer, 1975. Polskie Pismo Ent. 45: 293. ♂.
- costata** Fischer. Va., N. C.
Phaenocarpa costata Fischer, 1974. Polskie Pismo Ent. 44: 150. ♀, ♂.
- costulata** Fischer. Mich., Oreg., Alaska.
Phaenocarpa costulata Fischer, 1974. Polskie Pismo Ent. 44: 152. ♀, ♂.
- curvata** Fischer. Mich.
Phaenocarpa curvata Fischer, 1974. Polskie Pismo Ent. 44: 155. ♂.

curvicurrents Fischer. Alaska.

Phaenocarpa curvicurrents Fischer, 1975. *Polskie Pismo Ent.* 45: 295. ♂.

differentiata Fischer. Alaska.

Phaenocarpa differentiata Fischer, 1975. *Polskie Pismo Ent.* 45: 298. ♀, ♂.

disjuncta Fischer. Pa., Md., Va., Mich.

Phaenocarpa disjuncta Fischer, 1974. *Polskie Pismo Ent.* 44: 157. ♀, ♂.

distinguenda Fischer. Colo.

Phaenocarpa distinguenda Fischer, 1974. *Polskie Pismo Ent.* 44: 160. ♂.

distributa Fischer. Que., N. Y., Pa., Mich.

Phaenocarpa distributa Fischer, 1974. *Polskie Pismo Ent.* 44: 162. ♀, ♂.

divergens Fischer. N. Y., Va., Ky., B. C., Calif.

Phaenocarpa divergens Fischer, 1975. *Polskie Pismo Ent.* 45: 301. ♀, ♂.

divisa Fischer. Md.

Phaenocarpa divisa Fischer, 1974. *Polskie Pismo Ent.* 44: 166. ♀.

drosophilae Fischer. Alaska. Host: *Drosophila melanogaster* Meig.

Phaenocarpa drosophilae Fischer, 1975. *Polskie Pismo Ent.* 45: 303. ♀, ♂.

excisa Fischer. S. C.

Phaenocarpa excisa Fischer, 1974. *Polskie Pismo Ent.* 44: 168. ♂.

fervida Fischer. Wash., Oreg., Calif.

Phaenocarpa fervida Fischer, 1975. *Polskie Pismo Ent.* 45: 306. ♀, ♂.

flammea Fischer. Colo.

Phaenocarpa flammea Fischer, 1975. *Polskie Pismo Ent.* 45: 309. ♂.

gaspeensis Fischer. Que.

Phaenocarpa gaspeensis Fischer, 1974. *Polskie Pismo Ent.* 44: 171. ♂.

hicorniae Fischer. Pa.

Phaenocarpa hornicoriae Fischer, 1974. *Polskie Pismo Ent.* 44: 173. ♀.

horribilis Fischer. Colo.

Phaenocarpa horribilis Fischer, 1974. *Polskie Pismo Ent.* 44: 176. ♂.

huronensis Fischer. Mich.

Phaenocarpa huronensis Fischer, 1975. *Polskie Pismo Ent.* 45: 311. ♀.

idolica Fischer. N. C.

Phaenocarpa idolica Fischer, 1975. *Polskie Pismo Ent.* 45: 314. ♀, ♂.

incerta Fischer. N. Y., S. C., Calif., Alaska.

Phaenocarpa incerta Fischer, 1975. *Polskie Pismo Ent.* 45: 317. ♀, ♂.

indistincta Fischer. Que., Mich., Alaska.

Phaenocarpa indistincta Fischer, 1974. *Polskie Pismo Ent.* 44: 178. ♀, ♂.

josephi Fischer. Alaska.

Phaenocarpa josephi Fischer, 1975. *Polskie Pismo Ent.* 45: 320. ♀.

kansensis Shenefelt. Kans.

Kahlia flavipes Ashmead, 1900. U. S. Natl. Mus., Proc. 23: 107. Preocc. by Haliday, 1838.

Phaenocarpa kansensis Shenefelt, 1974. Hym. Cat., part, 11, p. 1009. N. name for *flavipes*

Ashmead.

Phaenocarpa ashmeadi Fischer, 1974. *Polskie Pismo Ent.* 44: 117. N. name for *flavipes*

Ashmead.

Taxonomy: Fischer, 1973. *Naturh. Mus. Wien, Ann.* 77: 245 (redesc.).

kinleyensis Fischer. Alaska.

Phaenocarpa kinleyensis Fischer, 1974. *Polskie Pismo Ent.* 44: 181. ♀.

laevisulcata Fischer. Alaska.

Phaenocarpa laevisulcata Fischer, 1974. *Polskie Pismo Ent.* 44: 183. ♀.

leopoldi Fischer. N. C., Alaska.

Phaenocarpa leopoldi Fischer, 1974. *Polskie Pismo Ent.* 44: 186. ♀, ♂.

leptura Fischer. N. Y., Md., W. Va., Alta.

Phaenocarpa leptura Fischer, 1975. *Polskie Pismo Ent.* 45: 322. ♀, ♂.

- lyra** Fischer. Alaska.
Phaenocarpa lyra Fischer, 1975. Polskie Pismo Ent. 45: 325. ♀.
- mallochi** Fischer. Md., Va.
Phaenocarpa mallochi Fischer, 1974. Polskie Pismo Ent. 44: 189. ♀, ♂.
- mediolobata** Fischer. Alaska.
Phaenocarpa mediolobata Fischer, 1975. Polskie Pismo Ent. 45: 327. ♀.
- naubinwayensis** Fischer. Mich.
Phaenocarpa naubinwayensis Fischer, 1974. Polskie Pismo Ent. 44: 191. ♂.
- nigrata** Fischer. Colo., Ariz., Calif., Alaska.
Phaenocarpa nigrata Fischer, 1975. Polskie Pismo Ent. 45: 330. ♂.
- notaulica** Fischer. Colo., Alaska.
Phaenocarpa notaulica Fischer, 1975. Polskie Pismo Ent. 45: 333. ♀, ♂.
- novomexicana** Fischer. N. Mex.
Phaenocarpa novomexicana Fischer, 1975. Polskie Pismo Ent. 45: 335. ♀, ♂.
- orion** Fischer. N. H., Mich., Minn., Alaska.
Phaenocarpa orion Fischer, 1975. Polskie Pismo Ent. 45: 338. ♀, ♂.
- pentagona** Fischer. Md., Oreg., Alaska.
Phaenocarpa pentagona Fischer, 1974. Polskie Pismo Ent. 44: 196. ♂.
- periculosa** Fischer. Mich., Alaska.
Phaenocarpa periculosa Fischer, 1974. Polskie Pismo Ent. 44: 199. ♀.
- pincervis** (Haliday). N. Y., Md., D. C., S. C., Mich., Iowa, Kans., Colo., Idaho, Ariz., Oreg., Calif., Alaska; Europe.
Alysia (*Alysia*) *pincervis* Haliday, 1838. Ent. Mag. 5: 233. ♀.
Phaenocarpa americana Ashmead, 1889 (1888). U. S. Natl. Mus., Proc. 11: 648. ♀.
- pilioculata** Fischer. Alaska.
Phaenocarpa pilioculata Fischer, 1974. Polskie Pismo Ent. 44: 204. ♀.
- puberae** Fischer. Sask. Host: *Cordilura pubera* L.
Phaenocarpa puberae Fischer, 1974. Polskie Pismo Ent. 44: 207. ♀.
- raptatrix** Fischer. Oreg.
Phaenocarpa raptatrix Fischer, 1974. Polskie Pismo Ent. 44: 210. ♀.
- reticulata** Fischer. Colo.
Phaenocarpa reticulata Fischer, 1974. Polskie Pismo Ent. 44: 212. ♀.
- rossata** Fischer. Mass.
Phaenocarpa rossata Fischer, 1974. Polskie Pismo Ent. 44: 215. ♀.
- rubriceps** (Provancher). Que., Calif.
Alysia rubriceps Provancher, 1883. Nat. Canad. 14: 18. ♂.
Phaenocarpa rubricepes(!) Provancher, 1888. Addit. Corr. Faune Ent. Canada Hym., p. 392. ♀.
- rugipars** Fischer. N. Y.
Phaenocarpa rugipars Fischer, 1975. Polskie Pismo Ent. 45: 343. ♀.
- sculptata** Fischer. Colo.
Phaenocarpa sculptata Fischer, 1975. Polskie Pismo Ent. 45: 345. ♂.
- signicauda** Fischer. Alaska.
Phaenocarpa signicauda Fischer, 1975. Polskie Pismo Ent. 45: 348. ♀.
- sinefovea** Fischer. S. C.
Phaenocarpa sinefovea Fischer, 1975. Polskie Pismo Ent. 45: 350. ♀, ♂.
- studiatia** Fischer. Alaska.
Phaenocarpa studiatia Fischer, 1975. Polskie Pismo Ent. 45: 353. ♀.
- supramedia** Fischer. Newfoundland, Fla.
Phaenocarpa supramedia Fischer, 1974. Polskie Pismo Ent. 44: 217. ♂.
- tenebrosa** Fischer. Colo., N. Mex., Ariz., Oreg.
Phaenocarpa tenebrosa Fischer, 1974. Polskie Pismo Ent. 44: 220. ♀, ♂.
- umbrinervis** Fischer. Alaska.
Phaenocarpa umbrinervis Fischer, 1974. Polskie Pismo Ent. 44: 223. ♀.

varipedis Fischer. W. Va. Host: *Cordilura (Achaetella) varipes* (Wlkr.).
Phaenocarpa varipedis Fischer, 1974. Polskie Pismo Ent. 44: 225. ♀, ♂.

Genus PNEUMOSEMA Fischer

Pneumosema Fischer, 1966. Naturhist. Mus. Wien, Ann. 69: 207.
 Type-species: *Pneumosema stigmaticum* Fischer. Orig. desig.

stigmaticum Fischer. N. Y., W. Va.

Pneumosema stigmaticum Fischer, 1966. Naturhist. Mus. Wien, Ann. 69: 208. ♀, ♂.

Genus SYNALDIS Foerster

Synaldis Foerster, 1862. Naturh. Ver. Rheinlande, Verh. 19: 273.
 Type-species: *Bassus concolor* Nees. Orig. desig.

Revision: Fischer, 1967. Polskie Pismo Ent. 37: 431-478 (No. Amer. spp.).

Taxonomy: Shenefelt, 1974. Hym. Cat., part 11, p. 1020-1024 (cat. World spp.).
acutidens Fischer. Mich.

Panerema thoracica Ashmead, 1899. In Smith, Ins. of N. J., p. 585.

SUBFAMILY SIGALPHINAE

This is a small group of genera that have been previously included in the subfamily Cheloninae because of the first three abdominal terga which form a solid carapace. However, the articulation between the first two abdominal terga is movable in the Sigalphinae. The biology is not known in detail but hosts are apparently lepidopterous larvae.

Taxonomy: De Saeger, 1948. Explor. Parc Natl. Albert, Mission G. F. de Witte, fasc. 53, p. 63-64 (key to genera). — Tobias, 1967. Ent. Obozr. 46: 659. — Shenefelt, 1973. Hym. Cat., part 10, p. 931-935 (cat. World spp.).

Genus SIGALPHUS Latreille

Sigalphus Latreille, 1802. Hist. Nat. Crust. Ins., v. 3, p. 327.

Type-species: *Ichneumon irrator* Fabricius. Desig. by Viereck, 1914.

Biology: Cushman, 1913. Ent. Soc. Wash., Proc. 15: 157-160.

SUBFAMILY CHELONINAE

This is a distinctive group of braconids characterized by the rigid abdominal carapace formed by the fusion of the first three terga. The Triaspidae have been associated with the Cheloninae on the basis of their similar abdominal structure, but their biologies, larval morphology and wing venation are all very different.

Species of the Cheloninae are typical egg-larval parasites of Lepidoptera, the adult ovipositing in the host egg but the parasite larva completing its development in the host larva.

Taxonomy: Tobias, 1967. Ent. Obozr. 46: 657. —Capek, 1970. Canad. Ent. 102: 859.
—Shenefelt, 1973. Hym. Cat., part 10, p. 813-931 (cat. World spp.).

Genus ASCOGASTER Wesmael

Chelonus (Microchelonus) caulicola McComb, 1968 (1967). Md. Agr. Expt. Sta., Bul. A-149, p. 35. ♀, ♂.

cautus Cresson La., Tex., Ariz.; Baja Calif., Mex., Cent. Amer.

Chelonus cautus Cresson, 1872. Amer. Ent. Soc., Trans. 4: 180. "♀" = ♂.

Chelonus albobasilaris Ashmead, 1894. Calif. Acad. Sci., Proc. (2) 4: 123. ♂.

Chelonus nucleolus Viereck, 1905. Kans. Acad. Sci., Trans. 19: 287. ♀.

ceanothi McComb. Ont. Host: *Bucculatrix ceanothella* Braun.

Chelonus (Microchelonus) ceanothi McComb, 1968 (1967). Md. Agr. Expt. Sta., Bul. A-149, p. 38. ♀, ♂.

cephelanthi McComb. Tex. Host: *Phalonia cephalanthana* Heinr.

Chelonus (Microchelonus) cephelanthi McComb, 1968 (1967). Md. Agr. Expt. Sta., Bul. A-149, p. 39. ♀.

chrysogaster McComb. Iowa.

Chelonus (Microchelonus) chrysogaster McComb, 1968 (1967). Md. Agr. Expt. Sta., Bul. A-149, p. 39. ♂.

clypealis McComb. Ill., Iowa.

Chelonus (Microchelonus) clypealis McComb, 1968 (1967). Md. Agr. Expt. Sta., Bul. A-149, p. 40. ♂.

cneaphiae McComb. Wash., Oreg. Host: *Cnephacia* sp.

Chelonus (Microchelonus) cneaphiae McComb, 1968 (1967). Md. Agr. Expt. Sta., Bul. A-149, p. 42. ♀, ♂.

conformis McComb. Wis.

Chelonus (Microchelonus) conformis McComb, 1968 (1967). Md. Agr. Expt. Sta., Bul. A-149, p. 43. ♀, ♂.

confusus McComb. S. Dak., Tex.

Chelonus (Microchelonus) confusus McComb, 1968 (1967). Md. Agr. Expt. Sta., Bul. A-149, p. 44. ♀, ♂.

convexus McComb. Calif.

Chelonus (Microchelonus) convexus McComb, 1968 (1967). Md. Agr. Expt. Sta., Bul. A-149, p. 45. ♀, ♂.

cosmopteridis McComb. Md. Host: *Cosmopterix* sp.

Chelonus (Microchelonus) cosmopteridis McComb, 1968 (1967). Md. Agr. Expt. Sta., Bul. A-149, p. 46. ♀.

crassus McComb. Fla.

Chelonus (Microchelonus) crassus McComb, 1968 (1967). Md. Agr. Expt. Sta., Bul. A-149, p. 46. ♀, ♂.

cushmani McComb. Va., Mo.

Chelonus (Microchelonus) cushmani McComb, 1968 (1967). Md. Agr. Expt. Sta., Bul. A-149, p. 47. ♀, ♂.

cylindricus McComb. Wyo., Colo., Idaho, B. C., Wash.

Chelonus (Microchelonus) cylindricus McComb, 1968 (1967). Md. Agr. Expt. Sta., Bul. A-149, p. 48. ♀, ♂.

declivus McComb. Que.

Chelonus (Microchelonus) declivus McComb, 1968 (1967). Md. Agr. Expt. Sta., Bul. A-149, p. 49. ♀.

- disjunctus** McComb. Md.
Chelonus (Microchelonus) disjunctus McComb, 1968 (1967). Md. Agr. Expt. Sta., Bul. A-149, p. 50. ♂.
- disparilis** McComb. Colo., Utah, Nev., B. C., Oreg., Calif.
Chelonus (Microchelonus) disparilis McComb, 1968 (1967). Md. Agr. Expt. Sta., Bul. A-149, p. 52. ♀, ♂.
- doliocephalus** McComb. S. Dak., Mont., N. Mex., Ariz., Nev., Oreg., Calif.
Chelonus (Microchelonus) doliocephalus McComb, 1968 (1967). Md. Agr. Expt. Sta., Bul. A-149, p. 53. ♀, ♂.
- dreisbachi** McComb. Mass., N. Y., Pa., N. J., Md., Va., N. C., Mich., Ill.
Chelonus (Microchelonus) dreisbachi McComb, 1968 (1967). Md. Agr. Expt. Sta., Bul. A-149, p. 54. ♀, ♂.
- egregicolor** Viereck. N. H. s. to D. C., w. to S. Dak. and Kans. Host: *Laspeyresia pomonella* (L.), *Pyrausta fulialis* (Led.).
Chelonus egregicolor Viereck, 1905. Kans. Acad. Sci., Trans. 19: 278. ♂.
 Biology: Schaffner, 1959. U. S. Dept. Agr., Misc. Pub. 767, p. 64.
- elasmopalpi** McComb. Ga.; Jamaica. Host: *Elasmopalpus lignosellus* (Zell.).
Chelonus (Microchelonus) elasmopalpi McComb, 1968 (1967). Md. Agr. Expt. Sta., Bul. A-149, p. 56. ♀, ♂.
- empherus** McComb. Fla.
Chelonus (Microchelonus) empherus McComb, 1968 (1967). Md. Agr. Expt. Sta., Bul. A-149, p. 57. ♀, ♂.
- eucosmae** McComb. N. Y., N. J., Ont., Mich., Wis. Host: *Eucosma derelicta* Heinr.
Chelonus (Microchelonus) eucosmae McComb, 1968 (1967). Md. Agr. Expt. Sta., Bul. A-149, p. 58. ♀, ♂.
- euphorbiae** McComb. Ariz., Calif.
Chelonus (Microchelonus) euphorbiae McComb, 1968 (1967). Md. Agr. Expt. Sta., Bul. A-149, p. 60. ♀.
- eximius** McComb. Que. s. to Md. and Ohio. Host: *Coleotechnites piceaella* (Kearf.), *Phalonia rutilana* Hbn.
Chelonus (Microchelonus) eximius McComb, 1968 (1967). Md. Agr. Expt. Sta., Bul. A-149, p. 60. ♀, ♂.
- fissus** Provancher. Que., Ont., Conn.
Chelonus fissus Provancher, 1880. Nat. Canad. 12: 199. ♂.
- flavomarginalis** McComb. Fla.
Chelonus (Microchelonus) flavomarginalis McComb, 1968 (1967). Md. Agr. Expt. Sta., Bul. A-149, p. 62. ♂.
- fulgidus** McComb. Conn., Ill.
Chelonus (Microchelonus) fulgidus McComb, 1968 (1967). Md. Agr. Expt. Sta., Bul. A-149, p. 62. ♀.
- fumidus** McComb. Calif.
Chelonus (Microchelonus) fumidus McComb, 1968 (1967). Md. Agr. Expt. Sta., Bul. A-149, p. 63. ♀.
- fuscipennis** McComb. N. S., Maine, Mass., N. Y., Md., Ont., Mich., Wis., N. Dak., Colo.
Chelonus (Microchelonus) fuscipennis McComb, 1968 (1967). Md. Agr. Expt. Sta., Bul. A-149, p. 64. ♀, ♂.
- gossypicola** McComb. Tex. Host: *Pectinophora gossypiella* (Saund.).
Chelonus (Microchelonus) gossypicola McComb, 1968 (1967). Md. Agr. Expt. Sta., Bul. A-149, p. 65. ♀, ♂.
- gracilariae** McComb. B. C. Host: *Caloptilia murtfeldtella* (Busck).
Chelonus (Microchelonus) gracilariae McComb, 1968 (1967). Md. Agr. Expt. Sta., Bul. A-149, p. 67. ♀, ♂.
- gracilis** McComb. Alta., Oreg., Calif.
Chelonus (Microchelonus) gracilis McComb, 1968 (1967). Md. Agr. Expt. Sta., Bul. A-149, p. 68. ♀, ♂.

- grapholithae** McComb. Tex. Host: *Grapholitha packardi* (Zell.).
Chelonus (Microchelonus) grapholithae McComb, 1968 (1967). Md. Agr. Expt. Sta., Bul. A-149, p. 69. ♀, ♂.
- hadrogaster** McComb. N. Dak., Idaho.
Chelonus (Microchelonus) hadrogaster McComb, 1968 (1967). Md. Agr. Expt. Sta., Bul. A-149, p. 70. ♀, ♂.
- heliovae** Gupta. La., Tex.; India. Liberated in La. and Tex. but not established. Introduced from India. Host: *Pectinophora gossypiella* (Saund.).
Chelonus heliovae Gupta, 1955. Agra Univ. Jour. Res. 4: 209. ♀, ♂.
- hoppingi** (Viereck). B. C.
Chelonella hoppingi Viereck, 1925. Canad. Ent. 57: 71. ♀, ♂.
- hurdi** McComb. Calif.
Chelonus (Microchelonus) hurdi McComb, 1968 (1967). Md. Agr. Expt. Sta., Bul. A-149, p. 73. ♀.
- hyalinus** McComb. Tex.
Chelonus (Microchelonus) hyalinus McComb, 1968 (1967). Md. Agr. Expt. Sta., Bul. A-149, p. 74. ♀, ♂.
- improcerus** McComb. Calif.
Chelonus (Microchelonus) improcerus McComb, 1968 (1967). Md. Agr. Expt. Sta., Bul. A-149, p. 75. ♀.
- insolitus** McComb. Man. Host: *Carposina niponensis ottawana* Kearn.
Chelonus (Microchelonus) insolitus McComb, 1968 (1967). Md. Agr. Expt. Sta., Bul. A-149, p. 76. ♀, ♂.
- insuetus** McComb. Que., Ont.
Chelonus (Microchelonus) insuetus McComb, 1968 (1967). Md. Agr. Expt. Sta., Bul. A-149, p. 77. ♀, ♂.
- isolatus** McComb. P. E. I., Wis.
Chelonus (Microchelonus) isolatus McComb, 1968 (1967). Md. Agr. Expt. Sta., Bul. A-149, p. 78. ♀, ♂.
- keiferiae** McComb. Va. Host: *Keiferia inconspicuella* (Murtf.).
Chelonus (Microchelonus) keiferiae McComb, 1968 (1967). Md. Agr. Expt. Sta., Bul. A-149, p. 79. ♀, ♂.
- krombeini** McComb. Mass., Pa., Md., Ont.
Chelonus (Microchelonus) krombeini McComb, 1968 (1967). Md. Agr. Expt. Sta., Bul. A-149, p. 80. ♀.
- laevifrons** Cresson. Colo.
Chelonus laevifrons Cresson, 1865. Ent. Soc. Phila., Proc. 4: 294. "♂" = ♀.
- lavernae** Ashmead. N. J., Ont., Ohio, Ill., Mo., Ala. Host: *Mompha eloisella* Clem.
Chelonus lavernae Ashmead, 1889 (1888). U. S. Natl. Mus., Proc. 11: 635. ♂.
- leptogaster** McComb. Wyo., Calif.
Chelonus (Microchelonus) leptogaster McComb, 1968 (1967). Md. Agr. Expt. Sta., Bul. A-149, p. 83. ♀.
- longipalpis** McComb. Ind., Ill.
Chelonus (Microchelonus) longipalpis McComb, 1968 (1967). Md. Agr. Expt. Sta., Bul. A-149, p. 84. ♀, ♂.
- marshi** McComb. Calif.
Chelonus (Microchelonus) marshi McComb, 1968 (1967). Md. Agr. Expt. Sta., Bul. A-149, p. 85. ♀, ♂.
- masoni** McComb. Calif.
Chelonus (Microchelonus) masoni McComb, 1968 (1967). Md. Agr. Expt. Sta., Bul. A-149, p. 86. ♀, ♂.
- mccombi** Marsh. Tex.
Chelonus (Microchelonus) aberrans McComb, 1968 (1967). Md. Agr. Expt. Sta., Bul. A-149, p. 15. ♀, ♂. Preocc. by Tobias, 1964.

- Chelonus (Microchelonus) mccombi* Marsh, 1974. Ent. Soc. Wash., Proc. 76: 285. N. name for *aberrans* McComb.
- medicaginis** McComb. Alta., S. Dak., Colo.
Chelonus (Microchelonus) medicaginis McComb, 1968 (1967). Md. Agr. Expt. Sta., Bul. A-149, p. 87. ♀.
- minimus** Cresson. Tex.
Chelonus minimus Cresson, 1872. Amer. Ent. Soc., Trans. 4: 181. ♀.
- montanus** McComb. Calif.
Chelonus (Microchelonus) montanus McComb, 1968 (1967). Md. Agr. Expt. Sta., Bul. A-149, p. 89. ♀, ♂.
- nanus** Provancher. Canada.
Chelonus nanus Provancher, 1881. Nat. Canad. 12: 200. ♀, ♂.
- niger** McComb. Pa.
Chelonus (Microchelonus) niger McComb, 1968 (1967). Md. Agr. Expt. Sta., Bul. A-149, p. 90. ♀, ♂.
- nigripennis** Ashmead. D. C.
Chelonus nigripennis Ashmead, 1889 (1888). U. S. Natl. Mus., Proc. 11: 635. ♂.
- pallidus** Ashmead. Md.
Chelonus pallidus Ashmead, 1889 (1888). U. S. Natl. Mus., Proc. 11: 635. "♀" = ♂.
- paradoxus** McComb. Wis.
Chelonus (Microchelonus) paradoxus McComb, 1968 (1967). Md. Agr. Expt. Sta., Bul. A-149, p. 91. ♀.
- paululus** McComb. Fla.
Chelonus (Microchelonus) paululus McComb, 1968 (1967). Md. Agr. Expt. Sta., Bul. A-149, p. 92. ♀, ♂.
- pecki** McComb. Sask.
Chelonus (Microchelonus) pecki McComb, 1968 (1967). Md. Agr. Expt. Sta., Bul. A-149, p. 93. ♂.
- pectinophorae** Cushman. Tex.?; Korea, China, Japan, Formosa. Liberated in Tex. but not established. Introduced from Japan. Host: *Pectinophora gossypiella* (Saund.).
Chelonus (Chelonella) pectinophorae Cushman, 1931. U. S. Natl. Mus., Proc. 79 (14): 11. ♀, ♂.
Chelonella nitobei Sonan, 1932. Nat. Hist. Soc. Formosa, Trans. 22: 74. ♀, ♂.
- periplocae** McComb. Calif. Host: *Periploca nigra* Hodges.
Chelonus (Microchelonus) periplocae McComb, 1968 (1967). Md. Agr. Expt. Sta., Bul. A-149, p. 96. ♀.
- Biology: Koehler and Tauber, 1964. Jour. Econ. Ent. 57: 566.
- petrovae** McComb. S. Dak., Nebr., Idaho, Calif. Host: *Eucosma recissoriana* Heinr., *Rhyacionia bushnelli* (Busck).
Chelonus (Microchelonus) petrovae McComb, 1965. Ent. News 76: 179. ♀, ♂.
- phthorimaeae** Gahan. N. J., Va., La., Tex., Colo., Idaho, Oreg., Calif.; Mex., Bermuda. Host: *Keiferia inconspicuella* (Murtf.), *Phthorimaea operculella* (Zell.), *Tildenia gudmannella* (Wlsm.).
Chelonus phthorimaeae Gahan, 1917. U. S. Natl. Mus., Proc. 53: 199. ♀, ♂.
- Biology: Graf, 1917. U. S. Dept. Agr., Bul. 427, p. 40-41 (as *shoshoneanorum* Viereck).
- plesius** (Viereck). B. C.
Chelonella plesius Viereck, 1925. Canad. Ent. 57: 72. ♂.
- ponderosae** McComb. Ariz.
Chelonus (Microchelonus) ponderosae McComb, 1968 (1967). Md. Agr. Expt. Sta., Bul. A-149, p. 99. ♀, ♂.
- procericornis** McComb. Calif.
Chelonus (Microchelonus) procericornis McComb, 1968 (1967). Md. Agr. Expt. Sta., Bul. A-149, p. 100. ♀.

- prolaticornis** McComb. P. E. I.
Chelonus (Microchelonus) prolaticornis McComb, 1968 (1967). Md. Agr. Expt. Sta., Bul. A-149, p. 101. ♀.
- proteus** Gahan. Md. Host: *Periploca gleditschiaeella* (Chamb.).
Chelonus (Chelonella) proteus Gahan, 1919. U. S. Natl. Mus., Proc. 55: 116. ♀, ♂.
- prunicola** McComb. Calif. Host: *Leucoptera* sp., *Paraleucoptera heinrichi* Jones.
Chelonus (Microchelonus) prunicola McComb, 1968 (1967). Md. Agr. Expt. Sta., Bul. A-149, p. 103. ♀, ♂.
- punctatus** McComb. Calif.
Chelonus (Microchelonus) punctatus McComb, 1968 (1967). Md. Agr. Expt. Sta., Bul. A-149, p. 104. ♀, ♂.
- punctipennis** McComb. Ont.
Chelonus (Microchelonus) punctipennis McComb, 1968 (1967). Md. Agr. Expt. Sta., Bul. A-149, p. 106. ♀, ♂.
- quadriiceps** McComb. Minn., S. Dak., Colo., Alaska.
Chelonus (Microchelonus) quadriiceps McComb, 1968 (1967). Md. Agr. Expt. Sta., Bul. A-149, p. 107. ♀, ♂.
- recurvariae** McComb. N. H., Pa., Ohio, Ont., Mich., Wis. Host: *Exoteleia dodecella* (L.), *E. pinifoliella* (Chamb.), *Petrova albicapitana* (Busek), *Recurvaria* sp.
Chelonus (Microchelonus) recurvariae McComb, 1968 (1967). Md. Agr. Expt. Sta., Bul. A-149, p. 108. ♀, ♂.
- rubiginis** McComb. La.
Chelonus (Microchelonus) rubiginis McComb, 1968 (1967). Md. Agr. Expt. Sta., Bul. A-149, p. 109. ♀, ♂.
- rufiscapus** Provancher. Que., P. E. I., N. S., Mass., N. Y., Va., N. C., Ont., Mich., Ind., Wis., Ill., S. Dak., B. C.
Chelonus rufiscapus Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 144. ♀.
- saileri** McComb. Yukon, Alaska.
Chelonus (Microchelonus) saileri McComb, 1968 (1967). Md. Agr. Expt. Sta., Bul. A-149, p. 111. ♀, ♂.
- salicis** McComb. Calif. Host: *Batrachedra salicipomonella* Clem.
Chelonus (Microchelonus) salicis McComb, 1968 (1967). Md. Agr. Expt. Sta., Bul. A-149, p. 112. ♀, ♂.
- sculleni** McComb. Oreg.
Chelonus (Microchelonus) sculleni McComb, 1968 (1967). Md. Agr. Expt. Sta., Bul. A-149, p. 113. ♀.
- severini** McComb. S. Dak.
Chelonus (Microchelonus) severini McComb, 1968 (1967). Md. Agr. Expt. Sta., Bul. A-149, p. 114. ♀, ♂.
- shenefelti** McComb. Wis.
Chelonus (Microchelonus) shenefelti McComb, 1968 (1967). Md. Agr. Expt. Sta., Bul. A-149, p. 116. ♀, ♂.
- shoshoneanorum** Viereck. Colo.
Chelonus shoshoneanorum Viereck, 1911. U. S. Natl. Mus., Proc. 39: 402. ♀.
- similis** McComb. Calif.
Chelonus (Microchelonus) similis McComb, 1968 (1967). Md. Agr. Expt. Sta., Bul. A-149, p. 117. ♀, ♂.
- spinosis** McComb. N. J., Ohio.
Chelonus (Microchelonus) spinosus McComb, 1968 (1967). Md. Agr. Expt. Sta., Bul. A-149, p. 118. ♀, ♂.
- subtuberculatus** McComb. Sask., Colo., Yukon.
Chelonus (Microchelonus) subtuberculatus McComb, 1968 (1967). Md. Agr. Expt. Sta., Bul. A-149, p. 119. ♀, ♂.

suturalis McComb. Colo.

Chelonus (Microchelonus) suturalis McComb, 1968 (1967). Md. Agr. Expt. Sta., Bul. A-149, p. 120. ♀, ♂.

tenuicornis McComb. Md., Va.

Chelonus (Microchelonus) tenuicornis McComb, 1968 (1967). Md. Agr. Expt. Sta., Bul. A-149, p. 121. ♀.

teretiventris McComb. N. Dak., Colo.

Chelonus (Microchelonus) teretiventris McComb, 1968 (1967). Md. Agr. Expt. Sta., Bul. A-149, p. 122. ♀, ♂.

tuberculatus McComb. N. Mex.

Chelonus (Microchelonus) tuberculatus McComb, 1968 (1967). Md. Agr. Expt. Sta., Bul. A-149, p. 123. ♀.

vulgaris McComb. S. Dak.

Chelonus (Microchelonus) vulgaris McComb, 1968 (1967). Md. Agr. Expt. Sta., Bul. A-149, p. 124. ♀.

walkleyae McComb. S. Dak.

Chelonus (Microchelonus) walkleyae McComb, 1968 (1967). Md. Agr. Expt. Sta., Bul. A-149, p. 124. ♀, ♂.

NOMINA NUDA IN CHELONUS PANZER

Chelonus biannularis Ashmead, 1900 (1899). In Smith, Ins. of N. J., p. 591.

Chelonus corrugatus Harris, 1862. In Cresson, Ent. Soc. Phila., Proc. 1: 211.

Chelonus dislocatus Harris, 1862. In Cresson, Ent. Soc. Phila., Proc. 1: 211.

Genus PHANEROTOMA Wesmael

Phanerotoma Wesmael, 1838. Nouv. Mem. Acad. Sci. Bruxelles 11: 165.

Type-species: *Chelonus dentatus* Panzer. Desig. by Westwood, 1839.

Phanerogaster Wesmael, 1838. Nouv. Mem. Acad. Sci. Bruxelles 11: 165. Emend.

Phaenotoma Ashmead, 1894. Linn. Soc. London, Jour., Zool. 25: 123. Misspelling.

Sulydus du Buysson, 1897. Soc. Ent. France, Ann. 66: 354.

Type-species: *Sulydus marshalli* du Buysson. Monotypic.

Neophanerotoma Szepligeti, 1908. Notes Leyden Mus. 29: 227.

Type-species: *Phanerotoma orientalis* Szepligeti. Desig. by Viereck, 1914.

Phanerotomina Shestakov, 1930. Ent. Obozr. 24: 100.

Type-species: *Phanerotomina gussakovskii* Shestakov. Orig. desig.

Taxonomy: Shenefelt, 1973. Hym. Cat., part 10, p. 909-928 (cat. World spp.).

erythrocephala Rohwer. Ga., Wis., Mont., Colo., N. Mex., Calif. Host: *Hedulia injectiva* Heinr., *Laspeyresia piperana* (Kearf.), *L. toreuta* (Grote).

Phanerotoma erythrocephala Rohwer, 1917. U. S. Natl. Mus., Proc. 53: 166. ♀, ♂.

fasciata Provancher. Newfoundland, Ont. s. to Fla. and Tex., w. to N. W. T., B. C. and Oreg.

Host: *Acrobasis caryaef* Grote, *Grapholitha interstinctana* (Clem.), *G. molesta* (Busck), *G. packardi* (Zell.), *Laspeyresia anaranjada* Miller, *L. caryana* (Fitch), *L. ingens* Heinr., *L. nigricana* (Steph.), *L. pomonella* (L.), *Melissopus latiferreanus* (Wlsm.). Prior to 1951, this species was frequently misidentified as *tibialis* (Haldeman).

Phanerotoma fasciata Provancher, 1881. Nat. Canad. 12: 200. ♀.

Biology: Allen, 1962. U. S. Dept. Agr., Tech. Bul. 1265, p. 40-41.

flavitestacea Fischer. Calif.; Israel, Yugoslavia, North Africa, Spain. Introduced from Israel.

Host: *Ectomyelois ceratoniae* (Zell.), *Paramyelois transitella* (Wlkr.).

Phanerotoma flavitestacea Fischer, 1959. Acta Mus. Maced. Sci. Nat. 6: 18. ♀, ♂.

Biology: Biliotti and Daumal, 1971. Zool. Ecol. Anim., Ann. 1: 379-394.

franklini Gahan. N. S. and Que. s. to Fla., w. to Ill. and Tex.; Calif. Host: *Acrobasis vaccinii* Riley.

Phanerotoma franklini Gahan, 1917. U. S. Natl. Mus., Proc. 53: 200. ♀, ♂.

- grapholithae** Muesebeck, Conn., N. Y., N. J., Md., Va.; Japan, Korea, China. Introduced from Japan. Host: *Grapholita molesta* (Busck), *G. prunivora* (Walsh), *Laspeyresia pomonella* (L.).
- Phanerotoma grapholithae* Muesebeck, 1933. Ent. Soc. Wash., Proc. 35: 50. ♀, ♂.
- inopinata** Caltagirone. Calif.; Mexico, Baja Calif. Host: *Paramyelois transitella* (Wlkr.).
- Phanerotoma inopinata* Caltagirone, 1965. Pan-Pacific Ent. 41: 17. ♀, ♂.
- laspeyresiae** Rohwer. Mich., Mont., Idaho., B. C., Oreg., Calif. Host: *Hedulia injectiva* Heinr., *Laspeyresia miscitata* Heinr., *L. piperana* (Kearf.), *L. toreuta* (Grote).
- Phanerotoma laspeyresiae* (?) Rohwer, 1915. U. S. Natl. Mus., Proc. 49: 230. ♂.
- longicauda** Walley. N. S. and Que. s. to Fla., w. to Alta. and Tex.; Ariz., Calif.; Baja Calif. Host: *Carposina* sp.
- Phanerotoma longicauda* Walley, 1951. Canad. Ent. 83: 306. ♀, ♂.
- planifrons** (Nees). Calif.; Europe, North Africa, West and Central Asia, Siberia, Korea, Japan. Introduced from Hungary. Host: *Etiella zinckenella* (Treit.), *Grapholita molesta* (Busck).
- Sigalpus planifrons* Nees, 1816 (1813). Gesell. Naturf. Freunde Berlin, Mag. 7: 259.
- Taxonomy: Watanabe, 1940. Insecta Matsumurana 14: 88-89.
- Biology: Parker, 1951. U. S. Dept. Agr., Tech. Bul. 1036, p. 12-16. — Clausen, 1956. U. S. Dept. Agr., Tech. Bul. 1139, p. 121.
- recurvariae** Cushman. Conn., Pa., Fla., Ont., Mich., Wis. Host: *Recurvaria nanella* (Hbn.), *Spiilonota ocellana* (D. and S.).
- Phanerotoma recurvariae* Cushman, 1914. Ent. Soc. Wash., Proc. 16: 78. ♀, ♂.
- Biology: Sadava and Miller, 1967. Canad. Ent. 99: 436-442.
- rhyacioniae** Cushman. Md., Va., Ark., La., Miss. Host: *Rhyacionia frustrana* (Comst.).
- Phanerotoma rhyacioniae* Cushman, 1927. Jour. Agr. Res. 34: 740. ♀, ♂.
- thapsina** Walley. Fla., Tex., Ariz., Calif.; Mexico, Baja Calif.
- Phanerotoma thapsina* Walley, 1951. Canad. Ent. 83: 305. ♀, ♂.
- tibialis** (Haldeman). Que., Maine, Conn., Pa., Del., Fla., Ont., Mich., Tenn., Ala., Wis., Ill., Minn., Ark., Kans., Tex.; Antigua. Host: *Acrobasia betulella* Hulst, *A. caryae* Grote, *A. caryivorella* Rag., *A. rubrifasciella* Pack., *A. sylviella* Ely, *Tetralopha asperatella* (Clem.).
- Sigalpus tibialis* Haldeman, 1849. Acad. Nat. Sci. Phila., Proc. 4: 203. ♀.
- Phanerotoma noctivaga* Marshall, 1885. Roy. Ent. Soc. London, Trans. 1885: 112. ♀, ♂.
- Biology: Balduf, 1968. Ent. Soc. Amer., Ann. 61: 466-467.
- toreutae** Caltagirone. Mich., Wis. Host: *Laspeyresia toreuta* (Grote).
- Phanerotoma toreutae* Caltagirone, 1967. Pan-Pacific Ent. 43: 126. ♀, ♂.
- Biology: Harbo and Kraft, 1969. Ent. Soc. Amer., Ann. 62: 214-220.

SUBFAMILY ADELIINAE

Genus *ADELIUS* Haliday

Adelius Haliday, 1833. Ent. Mag. 1: 262.

Type-species: *Adelius subfasciatus* Haliday. Monotypic.

Acaelius Haliday, 1834. Ent. Mag. 2: 231. Emend.

Acoelius Haliday, 1834. Ent. Mag. 2: 539. Emend.

Pleiomerus Wesmael. 1837. Nouv. Mem. Acad. Sci. Bruxelles 10: 67.

Type-species: *Adelius subfasciatus* Haliday. Monotypic.

Anomopterus Rohwer, 1914. Psyche 21: 80.

Type-species: *Anomopterus fascipennis* Rohwer. Orig. desig.

Myriola Shestakov, 1932. Zool. Anz. 99: 259.

Type-species: *Myriola gussakovskii* Shestakov. Monotypic.

This group, which is distinctive both morphologically and biologically, has been included in the Microgastrinae in the past. Recent workers (Capek, 1965; Nixon, 1965; Tobias, 1967) have

proposed a separate subfamily for *Adelius*, and a few related genera, which has affinities with the Cheloninae as well as the Microgastrinae. Hosts are larvae of leaf mining microlepidoptera.

Revision: Muesebeck, 1922. U. S. Natl. Mus., Proc. 61 (15): 12-14 (No. Amer. spp.). —Telenga, 1955. Fauna U. S. S. R., v. 5, n. 4, p. 15-19 (some Eur. spp.).

Taxonomy: Capek, 1965. 12th Internat. Cong. Ent., London, Proc. 1964, p. 98. —Nixon, 1965. Brit. Mus. (Nat. Hist.) Ent., Bul., Sup. 2, p. 8-10. —Tobias, 1967. Ent. Obozr. 46: 658. —Shenefelt, 1973. Hym. Cat., part 7, p. 670-675 (cat. World spp.).

coloradensis Muesebeck, Ill., La., Colo.

Adelius coloradensis Muesebeck, 1922. U. S. Natl. Mus., Proc. 61 (15): 14. ♂.

fasciipennis (Rohwer) Va., Wis. Host: *Ectoedemia phleophaea* Busck.

Anomopterus fasciipennis Rohwer, 1914. Psyche 21: 80. ♀, ♂.

nigripectus Muesebeck. Ind. Host: Leaf miner in poplar.

Adelius nigripectus Muesebeck, 1922. U. S. Natl. Mus., Proc. 61 (15): 13. ♂.

SUBFAMILY MICROGASTRINAE

All species of this, the largest subfamily of the Braconidae, are internal parasites of lepidopterous larvae. Some of the most important species in biological control belong to this group.

Revision: Muesebeck, 1922. U. S. Natl. Mus., Proc. 61 (15): 6-76 (No. Amer. spp.).

Taxonomy: Nixon, 1965. Brit. Mus. (Nat. Hist.) Ent., Bul., Sup. 2, p. 1-13. —Tobias, 1967. Ent. Obozr. 46: 657. —Capek, 1970. Canad. Ent. 102: 856-858.

TRIBE MICROGASTRINI

Revision: Nixon, 1965. Brit. Mus. (Nat. Hist.) Ent., Bul., Sup. 2, p. 6-284 (key World genera).

Genus APANTELES Foerster

Apanteles Foerster, 1862. Naturh. Ver. Rheinlande, Verh. 19: 245.

Type-species: *Microgaster obscura* Nees. Orig. desig.

Cotesia Cameron, 1891. Manchester Lit. and Phil. Soc., Mem. and Proc. (4) 4: 185.

Type-species: *Cotesia flavipes* Cameron. Monotypic.

Pseudapanteles Ashmead, 1898 (1897). Ent. Soc. Wash., Proc. 4: 166.

Type-species: *Pseudapanteles annulicornis* Ashmead. Desig. by Viereck, 1911.

Protopanteles Ashmead, 1898 (1897). Ent. Soc. Wash., Proc. 4: 166.

Type-species: *Protopanteles ephyrae* Ashmead. Desig. by Viereck, 1914.

Urogaster Ashmead, 1898 (1897). Ent. Soc. Wash., Proc. 4: 166.

Type-species: *Urogaster vulgaris* Ashmead. Desig. by Viereck, 1914.

Parapanteles Ashmead, 1900. U. S. Natl. Mus., Proc. 23: 131.

Type-species: *Apanteles aletiae* Riley. Orig. desig.

Glyptapanteles Ashmead, 1904. U. S. Natl. Mus., Proc. 28: 147.

Type-species: *Glyptapanteles maniae* Ashmead. Monotypic.

Cryptapanteles Viereck, 1910. Ent. Soc. Wash., Proc. 11: 209.

Type-species: *Cryptapanteles rileyanus* Viereck. Orig. desig.

Xestapanteles Cameron, 1910 (1909). Ztschr. f. Naturw. 81: 447.

Type-species: *Xestapanteles latianulatus* Cameron. Monotypic.

Apanteles subg. *Dolichogenidea* Viereck, 1911. U. S. Natl. Mus., Proc. 40: 173.

Type-species: *Apanteles* (*Dolichogenidea*) *banksi* Viereck. Orig. desig.

Stenopleura Viereck, 1911. U. S. Natl. Mus., Proc. 40: 187.

Type-species: *Apanteles sesamiae* Cameron. Orig. desig.

Allapanteles Brethes, 1915. Buenos Aires Mus. Nac. de Hist. Nat., An. 27: 404.

Type-species: *Allapanteles cecidiptae* Brethes. Monotypic.

Revision: Muesebeck, 1921. U. S. Natl. Mus., Proc. 58: 483-576 (No. Amer. spp.). —Wilkinson, 1928. Bul. Ent. Res. 19: 79-146 (Indo-Austral. spp.). —Wilkinson, 1932. Roy. Ent. Soc. London, Trans. 80: 301-344 (Afr. spp.). —Telenga, 1955. Fauna U. S. S. R., v. 5, n. 4, p. 21-147 (Eur. spp.).

Taxonomy: Nixon, 1965. Brit. Mus. (Nat. Hist.) Ent., Bul., Sup. 2, p. 17-25 (key to spp. groups). —Shenefelt, 1972. Hym. Cat., part 7, p. 429-668 (cat. World spp.).

absonus Muesebeck. Newfoundland, Ont., Maine, Wis., Minn., Man., Alta., Mont., Colo., N. Mex., Idaho, Utah, B. C. Wash., Oreg. Host: *Acleris variana* (Fern.), *Archippus packardianus* (Fern.), *Argyrotaenia dorsalana* (Dyar), *Choristoneura fumiferana* (Clem.), *C. occidentalis* Freem., *Diorystria reniculella* (Grote), *Epinotia nanana* (Treits.), *Griselda radicana* Heinr., *Taniva albolineana* (Kearf.), *Zeiraphera canadensis* M. and F., *Z. griseana* (Hbn.), *Z. fortunana* (Kearf.), *Z. improbana* (Wlkr.).
Apanteles absonus Muesebeck, 1965. Ent. News 76: 71. ♀, ♂.

Taxonomy: Mason, 1974. Canad. Ent. 106: 1098-1100.

acaodus (Provancher). Maine, Mass., R. I., Conn., N. Y., Va., Ont., Mich., Wis. Host: *Hydria pruinivora* (Ferg.), *H. undulata* (L.).

Microgaster acaodus Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 142. ♀, ♂.

Apanteles hydriae Muesebeck, 1921. U. S. Natl. Mus., Proc. 58: 561. ♀, ♂.

aciculatus (Ashmead). Mo., Tex.; West Indies, Cent. Amer.

Urogaster aciculatus Ashmead, 1900. Roy. Ent. Soc. London, Trans. 1900: 289. ♂.

Pseudapanteles sanctivincenti Ashmead, 1900. Roy. Ent. Soc. London, Trans. 1900: 291. ♀, ♂. Preocc. by Ashmead, 1900: 279.

Apanteles thoracicus Muesebeck, 1921. U. S. Natl. Mus., Proc. 58: 534. N. name for *sanctivincenti* Ashmead, 1900: 291.

acrobasisidis Muesebeck. Md., Fla., Miss. Host: *Acrobasis caryaef* Grote (?), *Gretchenella bolliana* (Sling.).

Apanteles acrobasisidis Muesebeck, 1921. U. S. Natl. Mus., Proc. 58: 509. ♀.

acronyctae (Riley). N. H. s. to N. J., w. to Ont. and Mo.; Colo., Calif. Host: *Acronicta dactylina* (Grote), *A. leporina* (L.) (?), *A. lepusculina* Gn., *A. oblinita* (Smith), *Meronlonche lupini* (Grote), *Orygia leucostigma* (Smith) (?).

Microgaster acronyctae Riley, 1870. Ins. Mo., Ann. Rpt. 2: 120.

Apanteles acronyctae Riley, 1881. Acad. Sci. St. Louis, Trans. 4: 312. ♂.

Apanteles orgyiae Ashmead, 1893. Ohio Expt. Sta., Bul. 1: 159. ♀.

agricola Viereck. Conn., N. C.

Apanteles (Protaapanteles) agricola Viereck, 1917 (1916). Conn. State Geol. and Nat. Hist. Survey, Bul. 22, p. 192. ♀.

alaskensis (Ashmead). Mich., B. C., Calif., Alaska. Host: *Gabriola dyari* Tay., *Oporinia autumnata* (Gn.).

Protaapanteles alaskensis Ashmead, 1902. Wash. Acad. Sci., Proc. 4: 247. ♀, ♂.

aletiae Riley. Fla., Ala.; West Indies. Host: *Alabama argillacea* (Hbn.), *Gonodonta nutrix* (Cram.).

Apanteles aletiae Riley, 1881. Acad. Sci. St. Louis, Trans. 4: 296, 298, 306. ♀, ♂.

algonquinorum Viereck. Conn.

Apanteles (Protaapanteles) algonquinorum Viereck, 1917 (1916). Conn. State Geol. and Nat. Hist. Survey, Bul. 22, p. 196.

alticola (Ashmead). N. B., Maine, N. H., Colo., Utah, Idaho, Oreg., Calif., Alaska. Host:

Amathes collaris (G. and R.), *Diarsia rosaria* (Grote), *Euxoa ochrogaster* (Gn.).

Protaapanteles alticola Ashmead, 1902. Wash. Acad. Sci., Proc. 4: 248. ♂.

alyppiae Muesebeck. Conn., N. Y. Host: *Alypia octomaculata* (F.).

Apanteles alyppiae Muesebeck, 1922. U. S. Natl. Mus., Proc. 61 (15): 18. ♀, ♂.

americanus (Lepeletier). Fla., Miss., Okla., Tex., Ariz. Host: *Erinnys ello* (L.), *Manduca* sp.

Microgaster americanus Lepeletier, 1825. Encycl. Meth. Ins. 10: 42. ♀, ♂.

Microgaster flaviventris Cresson, 1865. Ent. Soc. Phila., Proc. 4: 66. ♀.

Apanteles mexicanus Ashmead, 1895. Calif. Acad. Sci., Proc. 5: 545. ♀, ♂.

ammalonis Muesebeck. N. J. Host: *Cycnia tenera* Hbn.

Apanteles ammalonis Muesebeck, 1926. U. S. Natl. Mus., Proc. 69 (7): 8. ♀, ♂.

angaleti Muesebeck. La. (?), Tex. (?); India, Sumatra. Liberated in La. and Tex. but not established. Introduced from India. Host: *Pectinophora gossypiella* (Saund.).

Apanteles angaleti Muesebeck, 1954. Lab. Zool. Gen. Agr. Portici, Bol. 33: 61. ♀, ♂.

- anisotae* Muesebeck. N. B. s. to Md.; Ont. Host: *Anisota senatoria* (Smith), *A. stigma* (F.), *A. s. fuscosa* Ferg., *Dryocampa rubicunda* (F.).
Apanteles anisotae Muesebeck, 1921. U. S. Natl. Mus., Proc. 58: 555. ♀.
- argynnidis* Riley. Mass., N. Y., N. J., D. C., W. Va., Ky., Ill., Tex. Host: *Epargyreus clarus* (Cram.), *Erynnis tristis tatus* (Edw.), *E. zarucco funeralis* (S. and B.), *Speyeria cybele* (F.).
Apanteles argynnidis Riley, 1889. In Scudder, Butterflies East. U. S., p. 1904. ♀.
- aristoteliae* Viereck. N. B. s. to Pa., w. to Ont., Wash., and Calif.; La., Ariz. Host: *Ancylis comptana fragariae* (W. and R.), *Argyrotaea citrana* (Fern.), *Aristotelia fungivorella* (Chamb.), *Aroga trialbamaculella* (Chamb.), *Choristoneura fumiferana* (Clem.), *Dioryctria reniculella* (Grote), *Filatima persicaeella* (Murtf.), *Gelechia* sp.
Apanteles (Apanteles) aristoteliae Viereck, 1912. U. S. Natl. Mus., Proc. 42: 613. ♂.
Apanteles (Apanteles) gelechiae Viereck, 1912. U. S. Natl. Mus., Proc. 42: 615. ♀.
- Biology: Basinger, 1938. *Hilgardia* 11: 661-663.
- atalantae* (Packard). Mass., Pa., N. J., W. Va., Ont., Mich., Wis., Iowa, Mo., Minn., N. Dak., Sask., Alta., Colo., Tex. Host: *Nymphalis antiopa* (L.), *N. milberti* (Godt.), *Polygonia* sp., *Vanessa atalanta* (L.).
Microgaster atalantae Packard, 1881 (1880). Boston Soc. Nat. Hist., Proc. 21: 28. ♀, ♂.
- autographae* Muesebeck. Newfoundland, Que., Md., Va., S. C., Ga., Fla., Mich., La., S. Dak., Tex., Colo., Oreg. Host: *Autographa* sp., *Autoplusia egena* (Gn.), *Pseudaletia unipuncta* (Haw.), *Pseudoplusia includens* (Wlk.), *Rachiplusia ou* (Gn.), *Spodoptera frugiperda* (Sm.), *Trichoplusia ni* (Hbn.).
Apanteles autographae Muesebeck, 1921. U. S. Natl. Mus., Proc. 58: 547. ♀.
- baldufi* Muesebeck. N. Y., N. C., Ont., Mich., Minn. Host: *Acrobasis betulella* Hulst, *A. rubrifasciella* Pack., *A. secundella* Ely.
Apanteles baldufi Muesebeck, 1968. In Balduf, Ent. Soc. Amer., Ann. 61: 463. ♀, ♂.
- Biology: Balduf, 1968. Ent. Soc. Amer., Ann. 61: 464-465.
- banksi* Viereck. N. Y., Pa., Md., D. C., Va., Mich., Minn.
Apanteles (Dolichogenidea) banksi Viereck, 1911. U. S. Natl. Mus., Proc. 40: 173. ♀.
- bedelliae* Viereck. Conn. s. to Va., w. to Ont., Kans., and La.; Utah, Ariz., Calif. Host: *Anomis erosa* Hbn., *Bedellia minor* Busck, *B. somnulentella* (Zell.), *Coleotechnites thujaeella* Kearf., *Cosmopterix* sp., *Lithocolletis tremuloidiella* Braun, *Paraleucoptera albella* (Chamb.).
Apanteles (Protapaneles) bedelliae, Viereck. 1911. U. S. Natl. Mus., Proc. 40: 174. ♀, ♂.
- betheli* Viereck. Colo. Host: *Argyresthia* sp.(?).
Apanteles (Apanteles) betheli Viereck, 1910. U. S. Natl. Mus., Proc. 39: 402. ♀, ♂.
- bucculatricis* Muesebeck. Calif. Host: *Bucculatrix albertella* Busck, *B. thurberiella* (Busck).
Apanteles bucculatricis Muesebeck, 1921. U. S. Natl. Mus., Proc. 58: 502. ♀, ♂.
- bushnelli* Muesebeck. N. C., Fla., Iowa, S. Dak., Nebr., Mont., Calif. Host: *Dioryctria abietella* (D. and S.), *D. clarioralis* (Wlk.), *D. disclosa* Heinr., *Rhyacionia bushnelli* (Busck), *R. pasadenana* (Kearf.).
Apanteles bushnelli Muesebeck, 1933. Ent. Soc. Wash., Proc. 35: 196. ♀, ♂.
- cabreratae* Muesebeck. Oreg., Calif. Host: *Sabulodes caberata* (Gn.).
Apanteles cabreratae Muesebeck, 1956. Pan-Pacific Ent. 32: 26. ♀, ♂.
- cacoeciae* Riley. U. S., Ont., Que. Host: *Acrobasis caryae* Grote, *Archips argyrosipilus* (Wlk.), *A. cerasivoranus* (Fitch), *A. semiferanus* (Wlk.), *Epiblema scudderianum* (Clem.), *Epinotia* sp., *Exartema valdanum* McD., *Gnorimoschema gallaesolidaginis* (Riley), *Grapholita molesta* (Busck), *Sciaphila duplex* (Wlsm.).
Apanteles cacoeciae Riley, 1881. Acad. Sci. St. Louis, Trans. 4: 305. ♀, ♂.
Pseudapanteles gallaediplopi Ashmead, 1899. In Smith, Ins. of N. J., p. 593. Nom. nud.
- caffreyi* Muesebeck. Tex., Ariz.; Mexico, West Indies, Cent. Amer., Colombia.
Apanteles caffreyi Muesebeck, 1921. U. S. Natl. Mus., Proc. 58: 540. ♀, ♂.
- californicus* Muesebeck. Que., Ont., Alta., B. C., Idaho, Oreg., Calif. Host: *Coleotechnites* sp., *C. gibsonella* Kaurf., *C. milleri* (Busck), *Epinotia meritana* Heinr., *Eucosma bobana* Kaurf.
Apanteles californicus Muesebeck, 1921. U. S. Natl. Mus., Proc. 58: 511. ♀, ♂.

- Biology: Telford, 1961. Jour. Econ. Ent. 54: 347-355. —Stark, 1961. Canad. Jour. Zool. 39: 894.
- canarsiae* Ashmead. Conn. s. to Ga., w. to Ont. and Kans.; Calif. Host: *Acrobasis betulella* (Hulst), *Ancylis comptana* (Froel.), *Argyraenia velutinana* (Wlkr.), *Desmia funeralis* (Hbn.), *Dioryctria reniculella* (Grote), *Psorosina hammondi* (Riley).
- Apanteles canarsiae* Ashmead, 1898. Ent. Soc. Wash., Proc. 4: 127. ♀, ♂.
- Apanteles (Apanteles) housatannuckorum* Viereck, 1917 (1916). Conn. State Geol. and Nat. Hist. Survey, Bul. 22, p. 189, 198.
- Apanteles (Apanteles) maquinnae* Viereck, 1917 (1916). Conn. State Geol. and Nat. Hist. Survey, Bul. 22, p. 190, 199. ♀.
- carduicola* (Packard). Mass. Host: *Cynthia cardui* (L.).
- Microgaster carduicola* Packard, 1881 (1880). Boston Soc. Nat. Hist., Proc. 21: 27. ♀, ♂.
- carpatus* (Say). Cosmopolitan. Host: *Nititinea fuscipunctella* (Haw.), *Phercoeca utrella* (Wlsm.), *Tineodes despacta* Meyr., *T. pellionella* (L.), *Tineola biselliella* (Hum.), *Trichophaga tapetzella* (L.).
- Microgaster carpata* Say, 1836. Boston Jour. Nat. Hist. 1: 263. ♀.
- Protapanteles hawaiiensis* Ashmead, 1901. Fauna Hawaii. 1: 362. ♀.
- Urogaster solitarius* Ashmead, 1901. Ent. Soc. London, Trans. 1900, p. 287. ♀. Preocc. by Ratzburg, 1844.
- Apanteles piceoventris* Muesebeck, 1921. U. S. Natl. Mus., Proc. 58: 515. N. name for *solitarius* Ashmead.
- Apanteles igae* Watanabe, 1932. Insecta Matsumurana 7: 97. ♀.
- Biology: Fallis, 1942. Canad. Jour. Res., Sect. D, Zool. Sci. 20: 13-19. —Key and Common, 1959. Austral. Jour. Zool. 7: 64.
- cassianus* Riley. Ill., Tex., Colo. Host: *Colias eurytheme* Bdvly., *Eurema nicippe* (Cram.).
- Apanteles cassianus* Riley, 1881. Acad. Sci. St. Louis, Trans. 4: 307. ♀, ♂.
- cerurae* Muesebeck. Conn., N. J. Host: *Cerura* sp., *C. scitiscrima* Wlkr.
- Apanteles cerurae* Muesebeck, 1926. U. S. Natl. Mus., Proc. 69 (7): 15. ♀, ♂.
- charadrae* Muesebeck. D. C. Host: *Charadra deridens* (Guen.).
- Apanteles charadrae* Muesebeck, 1921. U. S. Natl. Mus., Proc. 58: 567. ♀, ♂.
- choreuti* Viereck. N. J., Va., N. C., S. C., Fla., Iowa, Tex. Host: *Choreutis carduiella* Kearf., *Desmia funeralis* (Hbn.), *Dichomeris* sp., *Hellula undalis* (F.).
- Apanteles (Pseudapanteles) choreuti* Viereck, 1912. U. S. Natl. Mus., Proc. 42: 627. ♀, ♂.
- cinctiformis* Viereck. N. Y. s. to Va., w. to Ont. and N. Dak.
- Apanteles (Protapanteles) cinctiformis* Viereck, 1911. U. S. Natl. Mus., Proc. 40: 176. ♀.
- cingiliae* Muesebeck. N. S., Que., Mass., Ont. Host: *Cingilia catenaria* (Drury), *Enypia griseata* Grossb., *E. venata* (Grote), *Eupithecia gibsonata* Tay., *Nepytia canosaria* (Wlkr.).
- Apanteles cingiliae* Muesebeck, 1931. U. S. Natl. Mus., Proc. 79 (16): 6. ♀, ♂.
- clavatus* (Provancher). Canada; Maine s. to S. C., w. to Wis. and Ark.; Oreg., Calif. Host: *Archips argyrospilus* (Wlkr.), *Epinotia subviridis* Heinr., *Etiella zinckenella* (Treit.), *Grapholita molesta* (Busck).
- Microgaster clavatus* Provancher, 1881. Nat. Canad. 12: 196. ♀, ♂.
- clisiocampae* Ashmead. N. H., Conn., N. Y., N. J. Host: *Malacosoma americanum* (F.).
- Apanteles clisiocampae* Ashmead, 1903. In Fiske, N. H. Col. Agr. Expt. Sta., Tech. Bul. 6: 229. ♀.
- Biology: Fiske, 1903. N. H. Col. Agr. Expt. Sta., Tech. Bul. 6: 214-216.
- cockerelli* Muesebeck. Mich., Iowa, Mo., S. Dak., Nebr., Tex., N. Mex., Idaho, Oreg., Calif. Host: *Isophrictus* sp.
- Apanteles cockerelli* Muesebeck, 1921. U. S. Natl. Mus., Proc. 58: 524. ♀.
- compressiventris* Muesebeck. Baffin Isl., Que., N. H., N. W. T.; Europe. Host: *Phragmatobia fuliginosa* (L.).
- Apanteles compressiventris* Muesebeck, 1921. U. S. Natl. Mus., Proc. 58: 535. ♀, ♂.
- compressus* Muesebeck. N. H., R. I., Mass. Host: *Hypoprepia* sp.
- Apanteles compressus* Muesebeck, 1919. Canad. Ent. 51: 114. ♀, ♂.

- conanchetorum** Viereck. N. S. s. to S. C., w. to Ont., S. Dak., and Kans. Host: *Lorostegemanalis* (Led.), *L. ranta* (Guen.), *Pholisora catullus* (F.).
- Apanteles* (*Apanteles*) *conanchetorum* Viereck, 1917 (1916). Conn. State Geol. and Nat. Hist. Survey, Bul. 22: 199. ♀.
- congestiformis** Viereck. Alaska.
Apanteles (*Protaapanteles*) *congestiformis* Viereck, 1923. No. Amer. Fauna 46: 230. ♀, ♂.
- congregatus** (Say). No. Amer., Cent. Amer., So. Amer., West Indies. Host: *Ceratomia catalpae* (Bdvl.), *Darapsa myron* (Cram.), *D. versicolor* (Harr.), *Dolba hylaeus* (Drury), *Eumorpha achemon* (Drury), *E. pandorus* (Hbn.), *Hemaris diffinis* (Bdvl.), *Lapara bombycoides* Wlk., *Manduca quinquemaculata* (Haw.), *M. sexta* (L.), *Paratrema plebeja* (F.), *Sphecodina abbotti* (Swains.), *Sphinx chersis* (Hbn.), *S. kalmiae* Smith, *Trichoplusia ni* (Hbn.).
- Microgaster congregata* Say, 1836. Boston Jour. Nat. Hist. 1: 262. ♂.
- Microgaster utilis* French, 1880. Canad. Ent. 12: 42. ♀, ♂.
- Apanteles* (*Protaapanteles*) *augustus* Viereck, 1917 (1916). Conn. State Geol. and Nat. Hist. Survey, Bul. 22: 187, 194. ♀.
- Biology: Gilmore, 1938. Jour. Econ. Ent. 31: 712-715. — Worth, 1939. Ent. News 50: 137-141. — Fulton, 1940. Ent. Soc. Amer., Ann. 33: 240. — Lawson, 1959. Ent. Soc. - consimilis** Viereck. Que. s. to Fla., w. to Man.; Miss., Tex.
Microgaster lateralis Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 141. ♀.
 Preocc. by Haliday, 1834.
- Apanteles* (*Pseudapanteles*) *consimilis* Viereck, 1911. U. S. Natl. Mus., Proc. 40: 177. ♀.
- crambi** Weed. Md., Ohio, Ky., Tenn., Ill., Mo., Ark., S. Dak. Host: *Crambus mutabilis* Clem., *C. triseptus* (Wlk.), *C. zeellus* Fern.
- Apanteles crambi* Weed, 1887. Ill. State Lab. Nat. Hist., Bul. 3, p. 8. ♀.
- crassicornis** (Provancher). Que. s. to Md., w. to Ont. and Iowa; Kans., Ariz.
Microgaster crassicornis Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 142. ♀.
- cyaniridis** Riley. Que., W. Va., Ill., Minn., Iowa, Utah. Host: *Celastrina argiolus pseudargiolus* (Bdvl. and Lec.), *Incisalia henrici* (G. and R.), *Philotes battatooides bernardino* B. and McD.
- Apanteles cyaniridis* Riley, 1889. In Seudder, Butterflies East. U. S., p. 1903. ♀.
- dakotae** Muesebeck. S. Dak., Idaho.
Apanteles dakotae Muesebeck, 1921. U. S. Natl. Mus., Proc. 58: 525. ♀.
- delicatus** Howard. Conn. N. Y., D. C. Host: *Orgyia leucostigma* (Smith).
Apanteles delicatus Howard, 1897. U. S. Dept. Agr., Bur. Ent. Tech. Ser. 5: 24, 55. "♂" = ♀.
- depressariae** Muesebeck. N. S., Maine. Host: *Depressaria pastinacella* (Dup.).
Apanteles depressariae Muesebeck, 1931. U. S. Natl. Mus., Proc. 79 (16): 3. ♀, ♂.
- depressus** Viereck. Ind.
Apanteles (*Stenopleura*) *depressus* Viereck, 1912. U. S. Natl. Mus., Proc. 43: 582. ♀, ♂.
- diacrisiae** Gahan. Del. s. to S. C., w. to Kans. and La. Host: *Dasychira basiflava* (Pack.), *Diacrisia virginica* (F.), *Estigmene acrea* (Drury), *Hyphantria cunea* (Drury), *Orgyia definita* (Pack.), *O. leucostigma* (Sm.).
Apanteles diacrisiae Gahan, 1917. U. S. Natl. Mus., Proc. 53: 198. ♀, ♂.
- diatraeae** Muesebeck. Tex., Ariz.; Mexico, Cent. and So. Amer., West Indies. Host: *Diatraea grandiosella* Dyar, *D. lineolata* (Wlk.), *D. saccharalis* (F.).
Apanteles diatraeae Muesebeck, 1921. U. S. Natl. Mus., Proc. 58: 520. ♀, ♂.
- Biology: Davis, 1944. U. S. Dept. Agr., Tech. Bul. 871, p. 1-19.
- dignus** Muesebeck. Fla., Calif.; Mexico, West Indies, Hawaii. Host: *Keiferia lycopersicella* (Wlsm.), *Tildenia gudmannella* (Wlsm.).
Apanteles dignus Muesebeck, 1938. Ent. Soc. Wash., Proc. 40: 203. ♀, ♂.
- Biology: Cardona and Oatman, 1971. Ent. Soc. Amer., Ann. 64: 996-1007.

- disputabilis* (Ashmead). Kans., Tex.; West Indies, Brazil.
Urogaster disputabilis Ashmead, 1900. Ent. Soc. London, Trans. 2: 286. ♀, ♂.
- diversus* Muesebeck and Walkley. Conn. Host: *Acronicta oblinita* (Smith).
Apanteles coralis Muesebeck, 1926. U. S. Natl. Mus., Proc. 69 (7): 13. ♀, ♂. Preocc. by Szepligeti, 1911.
- Apanteles diversus* Muesebeck and Walkley, 1951. In Muesebeck, et al., U. S. Dept. Agr., Agr. Monog. 2, p. 127. N. name for *coralis* Muesebeck.
- dolichocephalus* Muesebeck. Va., Mich., Ill.
Apanteles dolichocephalus Muesebeck, 1921. U. S. Natl. Mus., Proc. 58: 503. ♀.
- edwardsii* Riley. Conn., Ohio, Mich., Minn., Iowa, Mo., Colo. Host: *Vanessa atalanta* (L.).
Apanteles edwardsii Riley, 1889. In Scudder, Butterflies East. U. S., p. 1901. ♀.
- electrae* Viereck. B. C. s. to Calif. and Tex. Host: *Agapema galbina* (Clem.), *Automeris io* (F.), *Coloradia pandora* Blake, *Dirphia* sp., *Hemileuca burnsi* Wats., *H. chinatiensis* (Tinkham), *H. eglanterina* (Bdvl.), *H. electra* Wright, *H. hera* (Harr.), *H. nevadensis* Stretch, *H. oliviae* Ckll., *H. tricolor* (Pack.).
Apanteles (Protaapanteles) electrae Viereck, 1912. U. S. Natl. Mus., Proc. 42: 145. ♀, ♂.
- empretiae* Viereck. Mass. s. to Fla., w. to Mo. and La. Host: *Euclea delphinii* Bdvl., *Lithacodes fasciola* (H.-S.), *Parasa chloris* (H.-S.), *Sibine stimulea* (Clem.).
Apanteles (Protaapanteles) empretiae Viereck, 1913. U. S. Natl. Mus., Proc. 44: 562. ♀, ♂.
Apanteles (Apanteles) sibinidus Rohwer, 1915. U. S. Natl. Mus., Proc. 49: 227. ♀, ♂.
- Biology: Schaffner, 1959. U. S. Dept. Agr., Misc. Pub. 767: 60.
- ensiger* (Say). Maine s. to Fla., w. to Ont. and La.; Colo. Host: *Crambus mutabilis* Clem., *C. zeillus* Fern., *Loxostege* sp.
Microgaster ensiger Say, 1836. Boston Jour. Nat. Hist. 1: 260. ♀ (♂ misdet.).
Microgaster femurnigrum Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 142. "♀" = ♂.
- Apanteles trachynotus* Viereck, 1912. U. S. Natl. Mus., Proc. 42: 616. ♂.
Apanteles nippuckorum Viereck, 1917 (1916). Conn. State Geol. and Nat. Hist. Survey, Bul. 22, p. 200.
- enypiae* Mason. B. C. Host: *Enypia griseata* Grossb., *E. moillietti* Blkmr., *E. venata* (Grote).
Apanteles enypiae Mason, 1959. Canad. Ent. 91: 47. ♀, ♂.
- epiblemae* Muesebeck. Del., Ga., Fla., Miss., Ark., Kans., Calif. Host: *Bactra verutana* Zell., *Epiblema strenuana* (Wlkr.), *Grapholitha molesta* (Busck).
Apanteles epiblemae Muesebeck, 1935. Wash. Acad. Sci., Jour. 25: 280. ♀, ♂.
- epinotiae* Viereck. Maine s. to Fla., w. to N. Dak. and Tex.; Ariz. Host: *Acrobasis caryivorella* Rag., *Episimus argutanus* (Clem.), *Grapholitha molesta* (Busck), *Gypsonoma salicicola* (Clem.), *Homoeosoma electellum* (Hulst), *Laspeyresia caryana* (Fitch), *Phalonia* sp., *Pterophorus periscelidactylus* Fitch, *Rhyacionia* sp., *Tetralopha robustella* Zell.
Apanteles (Apanteles) epinotiae Viereck, 1912. U. S. Natl. Mus., Proc. 42: 614. ♂.
- Biology: Satterthwaite, 1948. Jour. Econ. Ent. 41: 730. —Nickels et al., 1950. U. S. Dept. Agr., Tech. Bul. 1011: 4-6. —Allen, 1962. U. S. Dept. Agr., Tech. Bul. 1256: 34-35.
- etiellae* Viereck. Pa., Va., Iowa, Ark., Kans., Tex., Colo., N. Mex., Wash., Calif., Mexico. Host: *Canarsia* sp., *Etiella zincenella* (Treit.), *Olycella junctolineella* (Hulst), *Psorosina hammondi* (Riley), *Ufa rubedenella* (Zell).
Apanteles (Pseudapanteles) etiellae Viereck, 1911. U. S. Natl. Mus., Proc. 40: 178. ♂.
Apanteles iselyi Cushman, 1919. Ent. Soc. Wash., Proc. 21: 120. ♀, ♂.
- euchaetus* Ashmead. N. H., Mass., N. Y., Va., Mich., Ill., Tex. Host: *Euchaetis egle* (Drury).
Apanteles euchaetus Ashmead, 1897. Ent. Soc. Wash., Proc. 4: 159. ♀, ♂.
- euphydryidis* Muesebeck. Maine, N. Y., N. J., Md. Host: *Euphydryas phaeton* (Drury).
Apanteles euphydryidis Muesebeck, 1921. U. S. Natl. Mus., Proc. 58: 564. ♀, ♂.
- feltiae* Viereck. Mich., Ohio, Ind., Minn., Iowa, N. Dak., S. Dak., Sask., Utah, Ariz., Idaho, Calif. Host: *Aristotelia absconditella* (Wlkr.), *Ostrinia obumbratalis* (Lcd.).
Apanteles (Protaapanteles) feltiae Viereck, 1912. U. S. Natl. Mus., Proc. 42: 625. ♀.

- fiskei** Viereck. Mass., Wis., Mont., Wyo., Oreg. Host: *Dasychira basiflava* (Pack.), *D. plagiata* (Wlkr.).
Apanteles (Prota panteles) fiskei Viereck, 1910. U. S. Natl. Mus., Proc. 38: 379. ♀, ♂.
- flaviconchae** Riley. Maine s. to Va., w. to Minn. and Tex.; Ida., Utah, Ariz., Wash. Host:
Anthocaris midea (Hbn.), *Autographa* sp., *Cotias eurytheme* Bdvl., *C. philodice* (Godart),
Plathypena scabra (F.), *Pseudaletia unipuncta* (Haw.).
Apanteles limenitidis form **flaviconchae** Riley, 1881. Acad. Sci. St. Louis, Trans. 4: 308.
- Taxonomy:** Muesebeck, 1947. Pan-Pacific Ent. 23: 21-22.
- Biology:** Muesebeck, 1947. Pan-Pacific Ent. 23: 21-22.
- flavicornis** Riley. Mo., Tex. Host: *Erynnis juvenalis* (F.).
Apanteles flavicornis Riley, 1889. In Scudder, Butterflies East. U. S., p. 1905. ♀, ♂.
- flavipes** (Cameron). Fla.; China, Asia, Austr., So. Pac., Mauritius, Madagascar. Introduced from India. Host: *Diatraea saccharalis* (F.).
Cotesia flavipes Cameron, 1891. Manchester Lit. and Phil. Soc., Mem. and Proc. (4) 4: 185.
“♀” = ♂.
Apanteles nonagriae Olliff, 1893. Agr. Gaz. N. S. Wales 4: 376, 381. ♀, ♂.
Apanteles (Stenopleura) simplicis Viereck, 1913. U. S. Natl. Mus., Proc. 44: 645. ♀, ♂.
Apanteles flavatus Ishida, 1915. Kanshe Meichu Chosa Hokoku 1: 97.
- Biology:** Gifford and Mann, 1967. Jour. Econ. Ent. 60: 44-47.
- flavovariatus** Muesebeck. Mich., S. Dak., Oreg. Host: *Isia isabella* (Smith).
Apanteles flavovariatus Muesebeck, 1921. U. S. Natl. Mus., Proc. 58: 528. ♀, ♂.
- floridanus** Muesebeck. Fla. Host: *Leucania latiuscula* H.-S.
Apanteles floridanus Muesebeck, 1921. U. S. Natl. Mus., Proc. 58: 537. ♀, ♂.
- forbesi** Viereck. Mass. s. to Fla., w. to N. Dak. and Kans.; Ariz., Oreg. Host: *Feltia* sp.,
Laciniopalpa renigera (Steph.), *L. stricta* (Wlkr.), *Pseudaletia unipuncta* (Haw.).
Apanteles (Apanteles) forbesi Viereck, 1910. Ent. Soc. Wash., Proc. 11: 208. ♀, ♂.
- fulvipes** (Haliday). Greenland; Europe.
Microgaster fulvipes Haliday, 1834. Ent. Mag. 2: 249. ♀, ♂.
- fumiferanae** Viereck. North. U. S., south. Canada. Host: *Acleris variana* (Fern.),
Choristoneura fumiferana (Clem.), *C. lambertiana* (Busck), *C. occidentalis* Freem., *C. pinus* Freem., *C. viridis* Freem., *Dioryctria abietella* (D. and S.), *D. reniculella* (Grote),
Epinotia nanana (Treit.), *Taniva albolineana* (Kearf.), *Thymelicus lineola* Ochs.,
Zeiraphera canadensis M. and F., *Z. fortunana* (Kearf.), *Zelleria haimbachi* Busck.
Apanteles (Apanteles) fumiferanae Viereck, 1912. U. S. Natl. Mus., Proc. 42: 139. ♀, ♂.
- Taxonomy:** Mason, 1974. Canad. Ent. 106: 1088-1092.

Morphology: Marchal-Segault, 1974. Soc. Ent. France, Ann. 10: 987-993 (larvae).

gordii Muesebeck. Maine, Conn. Host: *Darapsa pholus* (Cram.), *Sphinx gordius* Cram.

Apanteles gordii Muesebeck, 1926. U. S. Natl. Mus., Proc. 69 (7): 9. ♀.

griffini Viereck. Que. s. to Fla., w. to S. Dak. and Tex.; Wash. Host: *Agrotis gladiaria* Morr., *Euxoa auxiliaris* (Grote), *Feltia ducens* (Wlk.), *F. subterranea* (F.), *Spodoptera ornithogalli* (Guen.).

Apanteles (Protaapanteles) griffini Viereck, 1911. U. S. Natl. Mus., Proc. 40: 177. ♀, ♂.

hadena Muesebeck. N. J., Mich. Host: *Grapholitha* sp., *Phosphila turbulenta* Hbn.

Apanteles hadenae Muesebeck, 1926. U. S. Natl. Mus., Proc. 68 (7): 14. ♀, ♂.

halisidotae Muesebeck. Maine, Mass. Host: *Halisidota maculata* (Harr.).

Apanteles halisidotae Muesebeck, 1931. U. S. Natl. Mus., Proc. 79 (16): 5. ♀, ♂.

halli (Packard). Greenland, N. W. T.

Microgaster Halli Packard, 1877. Amer. Nat. 11: 52.

harrisinae Muesebeck. Conn., Fla., Ariz., Calif. Host: *Harrisina americana* (Guer.), *H. brillians* B. and McD.

Apanteles harrisinae Muesebeck, 1953. Ent. Soc. Wash., Proc. 55: 150. ♀, ♂.

Biology: Schaffner, 1959. U. S. Dept. Agr., Misc. Pub. 767, p. 60. — Clausen, 1961. Hilgardia 31: 613-638.

harti Viereck. D. C., Mich., Ohio, Tenn., Wis., Iowa. Host: *Ostrinia obumbratalis* (Led.), *O. penitalis* (Grote).

Apanteles harti Viereck, 1910. Ent. Soc. Wash., Proc. 11: 209. ♀, ♂.

hemileucae Riley. Mass., Conn., N. Y., Fla., Minn., Mo., Kans., Oreg. Host: *Automeris io* (F.), *Hemileuca maia* (Drury).

Apanteles congregatus var. *hemileucae* Riley, 1881. Acad. Sci. St. Louis, Trans. 4: 309.

herbertii Ashmead. Fla.; West Indies. Host: *Hystalea nysius* Cram.

Apanteles herbertii Ashmead, 1900. Roy. Ent. Soc. London, Trans. 1900: 279. ♀.

hesperidivorus Viereck. Mass., Conn., Fla., Mo., La., Okla., Ariz., Calif. Host: *Atalopedes campestris* (Bdvl.), *Erynnis* sp., *E. tristis* (Bdvl.), *Hylephila phyleus* (Drury).

Apanteles (Protaapanteles) hesperidivorus Viereck, 1912. U. S. Natl. Mus., Proc. 42: 626. ♀, ♂.

homoeosomae Muesebeck. S. Dak., Mo., Tex., Wash.; Cuba. Host: *Homoeosoma electellum* (Hulst).

Apanteles homoeosomae Muesebeck, 1933. Ent. Soc. Wash., Proc. 35: 193. ♀, ♂.

hyphantriae Riley. U. S., Canada; Mexico, Europe. Host: *Homadaula anisocentra* (Meyr.).

Hyphantria cunea (Drury), *H. textor* (Harr.), *Orgyia leucostigma* (Smith).

Apanteles hyphantriae Riley, 1887. U. S. Dept. Agr., Ann. Rpt. for 1886, p. 533. ♀.

Biology: Tothill, 1922. Canada Dept. Agr., Tech. Bul. (n. s.) 3, p. 76-88. — Tadic, 1958 (1956). 10th Internat. Congr. Ent., Proc. 4: 859-861.

impunctatus Muesebeck. La. Host: *Diatraea saccharalis* (F.).

Apanteles impunctatus Muesebeck, 1933. Ent. Soc. Wash., Proc. 35: 194. ♀, ♂.

insignis Muesebeck. B. C., Calif. Host: *Playtyptilia acanthodactyla* (Hbn.), *P. pica* (Wlsm.), *P. punctidactyla* (Haw.).

Apanteles insignis Muesebeck, 1938. Ent. Soc. Wash., Proc. 40: 201. ♀, ♂.

junoniae Riley. Mo., Kans. Host: *Junonia coenia* (Hbn.).

Apanteles junoniae Riley, 1889. In Scudder, Butterflies East. U. S., p. 1907. ♂.

- koebelei** Riley. Idaho, Calif. Host: *Euphydryas chalcedona* (D. and H.), *E. editha* (Bdvl.), *E. e. monoensis* G., *E. e. nubigena* (Behr.), *Melitaea leanira* (F. and F.), *M. neumoegeni* Skin., *Nymphalis californica* (Bdvl.).
- Apanteles koebelei* Riley, 1889. In Scudder, Butterflies East. U. S., p. 1904. ♀, ♂.
- lacteicolor** Viereck. New England, east. Canada; Europe. Introduced from Europe. Host: *Acronicta hasta* Guen., *Hyphantria cunea* (Drury), *Nygma phaeorrhoea* (Donov.), *Lymantria dispar* (L.).
- Apanteles (Apanteles) lacteicolor* Viereck, 1911. U. S. Natl. Mus., Proc. 40: 475. ♀, ♂.

Protapaneles ephryae Ashmead, 1898 (1897). Ent. Soc. Wash., Proc. 4: 163. ♂.
- papaipemae** Muesebeck. Mass., N. Y., Ohio, Iowa, Kans. Host: *Bellura obliqua* (Wlkr.).
Papaipema maritima Bird, *P. nebris* (Guen.), *P. stenoscelis* (Dyar).
Apanteles papaipemae Muesebeck, 1921. U. S. Natl. Mus., Proc. 58: 526. ♀, ♂.
- paralechiai** Muesebeck. N. B. s. to N. J., w. to Ont. and Wis.; Tenn., Utah, Calif. Host:
Argyresthia freyella Wlsm., *A. thuiella* (Pack.), *Coleotechnites thujaeella* Kearf.,
Exotelia pinipholiella (Chamb.).
Apanteles paralechiai Muesebeck, 1931. U. S. Natl. Mus., Proc. 79 (16): 2. ♀, ♂.
- paranthrenidis** Muesebeck. N. Y., Pa., Ohio, D. C., Fla., Miss., Tex., Utah, Calif.; Mexico. Host:
Paranthrene asilipennis (Bdvl.), *P. dollii* (Neum.), *P. robiniae* (Hy. Edw.), *Prionoxystus* sp.
Apanteles paranthrenidis Muesebeck, 1921. U. S. Natl. Mus., Proc. 58: 506. ♀, ♂.
- parastichtidis** Muesebeck. Canada; Maine, Tenn., Mich. Host: *Choristoneura conflictana* (Wlkr.)?, *Enargia decolor* (Wlkr.), *Hydriomena divisaria* (Wlkr.), *H. renunciata* (Wlkr.), *Sunira bicolorago* (Guen.).
Apanteles parastichtidis Muesebeck, 1921. U. S. Natl. Mus., Proc. 58: 541. ♀.
- petrovae** Walley. Newfoundland, N. B., Que., S. C., Ont., Wis., Minn., N. Dak., Alta., Mont., B. C., Calif. Host: *Barbara colfaxiana* (Kearf.), *Choristoneura fumiferana* (Clem.), *C. pinus* Freem., *Dioryctria auranticella* (Grote), *D. reniculella* (Grote), *Petrova albicapitana* (Busck), *P. pallipennis* McD., *Rhyacionia frustrana* (Comst.), *Zeiraphera canadensis* M. and F.
Apanteles petrovae Walley, 1937. Canad. Ent. 69: 189. ♀.
- Taxonomy: Mason, 1974. Canad. Ent. 106: 1101-1102.
- phigaliae** Muesebeck. N. B., Mass., Ont. Host: *Phigalia titea* Cram.
Apanteles phigaliae Muesebeck, 1919. Canad. Ent. 51: 113. ♀, ♂.
- phlyctaeniae** Muesebeck. Ohio, Ill. Host: *Phlyctaenia coronata tertialis* (Guen.)?.
Apanteles phlyctaeniae Muesebeck, 1929. Ent. Soc. Wash., Proc. 31: 118. ♀, ♂.

- phobetri** Rohwer. Newfoundland w. to Alta.; Mass., N. J., Md., Va., N. C., Ky., Ind., Ill., 1^o.
 Dak., Kans. Host: *Acronicta americana* Harr., *Apantesis* sp., *Halisidota caryaef* (Farr.),
H. harrisii Walsh, *H. tessellaris* (Smith), *Panthea acronyctoides* (Wlkr.), *Phobetron*
pitheciun (A. and S.).
- Apanteles (Protaapanteles) phobetri* Rohwer, 1915. U. S. Natl. Mus., Proc. 49: 228. ♀.
- pholisorae** Riley. Md., D. C., S. C., Ill., Mo., Kans., Tex. Host: *Pholisora catullus* (F.),
Staphylus mazana hayhursti (Edw.).
- Apanteles pholisoriae* Riley, 1889. In Scudder, Butterflies East. U. S., p. 1909. ♀.
- phthorimaeae** Muesebeck. La. Host: *Keiferia inconspicuella* (Murtf.).
- Apanteles phthorimaeae* Muesebeck, 1921. U. S. Natl. Mus., Proc. 58: 509. ♀.
- plathypenae** Muesebeck. Ont. s. to N. Y. and Ohio, w. to B. C. and Wash. Host: *Anagrapha*
falcifera (Kirby), *Autographa californica* (Speyer), *A. precatonis* (Gn.), *Plathypena*
scabra (F.), *Rachiplusia ou* (Gn.), *Scotogramma trifolii* (Rott.).
- Apanteles plathypenae* Muesebeck, 1921. U. S. Natl. Mus., Proc. 58: 546. ♀, ♂.
- plesius** Viereck. N. J., Mich., Wis. Host: *Sparganothis pettitana* (Rob.).
- Apanteles (Apanteles) plesius* Viereck, 1912. U. S. Natl. Mus., Proc. 42: 615. ♀.
- podunkorum** Viereck. Conn., Va., W. Va., Ohio. Host: *Ostrinia obumbratalis* (Led.), *Pyrausta*
futilalis (Led.).
- Apanteles (Stenopleura) podunkorum* Viereck, 1912. U. S. Natl. Mus., Proc. 43: 583. ♀.
- politus** Riley. Va., Fla., Ill., Mo. Host: *Scolecocampa liburna* (Geyer).
- Apanteles politus* Riley, 1881. Acad. Sci. St. Louis, Trans. 4: 307. ♀, ♂.
- polychrosidis** Viereck. N. B. and Que. s. to Fla., w. to Ont., S. Dak., and Kans.; Wash., Oreg.,
 Alaska. Host: *Anacampsis innocuella* (Zell.), *Archips argyrospilus* (Wlkr.), *A.*
cerasivorus (Fitch), *A. rosanus* (L.), *Argyrotaenia citrana* (Fern.), *A. juglandana*
 (Fern.), *Bucculatrix pomifoliella* Clem., *Caloptilia superbifrontella* Clem.,
Choristoneura conflictana (Wlkr.), *C. fumiferana* (Clem.), *C. pinus* Freeman, *C.*
rosaceana (Harr.), *Grapholita molesta* (Busck), *Nephopteryx celtidella* (Hulst), *N.*
subcaesiella (Clem.), *Paralobesia lituriodendrana* Kearf., *P. viteana* (Clem.).
- Apanteles (Apanteles) polychrosidis* Viereck, 1912. U. S. Natl. Mus., Proc. 42: 615. ♀, ♂.
- porthetriae** Muesebeck. N. H. (?), Mass. (?); Palearctic Region. Liberated in N. H. and Mass.
 but not established. Introduced from Europe. Host: *Lymantria dispar* (L.).
- Apanteles porthetriae* Muesebeck, 1928. Ent. Soc. Wash., Proc. 30: 8. ♀, ♂.
- Biology: Raffa, 1977. Environ. Ent. 6: 57-59 (alternative hosts).
- praesens** Muesebeck. Calif.; Hawaii (introduced). Host: *Anacamptodes fragilaria* (Grossb.).
- Apanteles praesens* Muesebeck, 1947. Pan-Pacific Ent. 23: 23. ♀, ♂.
- pseudoglossae** Muesebeck. Md., Mich., Minn. Host: *Epizetus lubricalis* Geyer.
- Apanteles pseudoglossae* Muesebeck, 1921. U. S. Natl. Mus., Proc. 58: 512. ♀, ♂.
- pterophori** Muesebeck. Mass. Host: *Oidaematophorus homodactylus* (Wlkr.).
- Apanteles pterophori* Muesebeck, 1926. U. S. Natl. Mus., Proc. 69 (7): 6. ♀, ♂.
- pyralidis** Muesebeck. Md., D. C., Va., N. C., Ohio, Tenn., Wis., Iowa, Mo., Ark., S. Dak. Host:
Lozosteges rontalis (Guen.), *Nomophila nearctica* Munroe, *Pyrausta futilalis* (Led.).
- Apanteles pyralidis* Muesebeck, 1921. U. S. Natl. Mus., Proc. 58: 551. ♀, ♂.
- pyraustae** Viereck. Conn., Va., Ont., Mo. Host: *Atteva punctella* (Cram.), *Pyrausta futilalis*
 (Led.).
- Apanteles (Protaapanteles) pyraustae* Viereck, 1912. U. S. Natl. Mus., Proc. 42: 626. ♀, ♂.
- pyrophilae** Muesebeck. Mass., R. I., Conn., Ont. Host: *Amphydra pyramidoides* Gn.
- Apanteles pyrophilae* Muesebeck, 1926. U. S. Natl. Mus., Proc. 69 (7): 11. ♀, ♂.
- renaulti** Mason. N. B., N. S., Que., Ont., Wis. Host: *Coleotechnites gibsonella* (Kearf.), *C.*
piceella (Kearf.).
- Apanteles renaulti* Mason, 1974. Canad. Ent. 106: 1100. ♀, ♂.
- robiniae** (Fitch). N. Y. Host: *Sinope robiniae* (Fitch).
- Microgaster robiniae* Fitch, 1859 (1858). N. Y. State Agr. Soc., Trans. 18: 836. ♀, ♂.

- rohweli** Muesebeck. N. B. s. to Va., w. to Ont. and Minn. Host: *Acrobasis rubrifasciella* Pack., *Argyresthia* sp., *Lithocelletis tremuloidiella* Braun, *Neurobathia strigifinitella* (Clem.).
Apanteles (Pseudapanteles) nigripes Rohwer, 1914 (1913). Ent. Soc. Wash., Proc. 15: 187.
"δ" = ♀. Preocc. by Ratzeburg, 1844.
- Apanteles rohweli* Muesebeck, 1921. U. S. Natl. Mus., Proc. 58: 550. N. name for *nigripes* Rohwer.
- rubecula** Marshall. Mo., B. C., Calif.; Europe. Host: *Pieris protodice* Bdvl. and Lec., *P. rapae* (L.).
Apanteles rubecula Marshall, 1885. Roy. Ent. Soc. London, Trans. 1885: 175. ♀.
Biology: Wilkinson, 1966. Jour. Econ. Ent. 59: 1012-1013. —Parker, 1971. Jour. Econ. Ent. 64: 721-735. —Parker, 1972. Environ. Ent. 1: 153-156.
- rufocoalis** Riley. N. S. s. to Fla.; Mo., Tenn., La., Tex. Host: *Leucania latuscula* H.-S., *Nephelodes emmedonia* form *violans* Guen., *Pseudaletia unipuncta* (Haw.).
Apanteles congregatus var. *rufocoalis* Riley, 1881. Acad. Sci. St. Louis, Trans. 4: 310.
- salalicus** Mason. Colo., Oreg., Calif. Host: *Caloptilia rhoifoliella* (Chamb.), *Cnephiasia longana* (Haw.), *Lithocelletis gaultheriella* Wlsm.
Apanteles salalicus Mason, 1959. Canad. Ent. 91: 42. ♀.
- salicifoliellae** Mason. Ont. Host: *Lithocelletis salicifoliella* Chamb.
Apanteles salicifoliellae Mason, 1959. Canad. Ent. 91: 43. ♀, ♂.
- sarrothriparae** Weed. Maine s. to Va., w. to Ont. and Mo. Host: *Ichthyura albosigma* (Fitch), *I. inclusa* Hbn., *Nycteola frigidana* (Wlkr.).
Apanteles sarrothriparae Weed, 1887. Ill. State Lab. Nat. Hist., Bul. 3: 6. ♀, ♂.
- schaffneri** Muesebeck. Pa., N. J., Del., Va., Tex. Host: *Euclea delphinii* Bdvl., *Parasa* sp., *Proliimacodes badia* (Hbn.).
Apanteles schaffneri Muesebeck, 1931. U. S. Natl. Mus., Proc. 79 (16): 4. ♀.
- schizurae** Ashmead. Canada; N. H. s. to Fla., w. to Wis., Mo., and Miss.; Calif. Host:
Heterocampa guttivitta (Wlkr.), *Schizura concinna* (Smith), *S. unicornis* (Smith).
Apanteles schizurae Ashmead, 1898. Ent. Soc. Wash., Proc. 4: 162. ♀, ♂.
- scitulus** Riley. N. H. s. to Fla., w. to Ont., Nebr., and Tex. Host: *Acronicta brumosa* Guen., *A. oblinita* (Smith), *Anomogyna elatima* (Gn.), *Dasychira basiflava* (Pack.), *D. plagiata* (Wlkr.), *Diacrisia virginica* (F.), *Pseudoplusia includens* (Wlkr.), *Simyra henrici* (Grote).
Apanteles congregatus var. *scitulus* Riley, 1881. Acad. Sci. St. Louis, Trans. 4: 310.
Apanteles emarginatus Riley, 1889. In Scudder, Butterflies East. U. S., p. 1906. ♀, ♂.
Preocc. by Nees, 1834.
- Apanteles parorgyiae* Ashmead, 1898. Ent. Soc. Wash., Proc. 4: 161. ♀, ♂.
Cryptapanteles rileyanae Viereck, 1910 (1909). Ent. Soc. Wash., Proc. 11: 210. N. name for *emarginatus* Riley.
- scutellaris** Muesebeck. Fla., Tex., Ariz., Calif.; Hawaii, Bulgaria. Host: *Keiferia lycopersicella* (Busck), *Phthorimaea operculella* (Zell).
Apanteles scutellaris Muesebeck, 1921. U. S. Natl. Mus., Proc. 58: 533. ♀, ♂.
Biology: Graf, 1917. U. S. Dept. Agr., Bul. 427, p. 43 (as *Apanteles* sp.; this is *scutellaris* rather than *dignus* as listed in first supplement of original catalog).
- sesiae** Viereck. N. J., Va., D. C., Fla., Ind., Ark., Kans., Tex. Host: *Synanthedon scitula* (Harr.).
Apanteles (Pseudapanteles) sesiae Viereck, 1912. U. S. Natl. Mus., Proc. 42: 146. ♀, ♂.
- smerinthi** Riley. Maine, N. H., Mass., N. J., D. C., Ont., Ind., Mo., Tex., Calif. Host: *Ipimorpha pleonectusa* Grote, *Paonias excaecata* (Smith), *Smerinthus cerisyi* Kirby, *S. jamaicensis* (Drury).
Apanteles smerinthi Riley, 1881. Acad. Sci. St. Louis, Trans. 4: 311. ♀, ♂.
- solenobiae** Walley. Que., Pa. Host: *Solenobia walshella* Clem.
Apanteles solenobiae Walley, 1935. Canad. Ent. 67: 59. ♀.
- sorghilliæ** Muesebeck. Mo., Ark., Tex. Host: *Celama sorghilliæ* (Riley).
Apanteles sorghilliæ Muesebeck, 1933. Ent. Soc. Wash., Proc. 35: 195. ♀, ♂.
- stigmatophoræ** Gahan. Md. Host: *Periploca gleditschiælla* (Chamb.).
Apanteles stigmatophoræ Gahan, 1919. U. S. Natl. Mus., Proc. 55: 120. ♀, ♂.

- starki* Mason. Alta., Mont., Utah, Idaho, Nev., B. C. Host: *Coleotechnites milleri* (Busek), C. *starki* (Freem.), *Eucosma recissoriana* Heinr.
- Apanteles starki* Mason, 1960. Canad. Ent. 92: 140. ♀, ♂.
- subandinus** Blanchard. Calif.; Argentina. Host: *Phthorimaea operculella* (Zell.).
Apanteles subandinus Blanchard, 1947. Arthropoda 1: 20. ♀.
- teleae** Muesebeck. Conn., Pa., Md. Host: *Anthraea polyphemus* (Cram.), *Citheronia regalis* (F.).
Apanteles teleae Muesebeck, 1926. U. S. Natl. Mus., Proc. 67 (7): 12. ♀.
- terminalis** Gahan. N. Y. s. to Fla., w. to Iowa, Colo., and Tex. Host: *Crambus* sp., *C. mutabilis* Clem.
Apanteles (Pseudapanteles) terminalis Gahan, 1912. Ent. Soc. Wash., Proc. 14: 2. ♀, ♂.
- theclae** Riley. D. C. s. to Ga., w. to Colo. and Calif.; Idaho; Mexico. Host: *Everes comyntas* (Godt.), *Plebejus icarioides* (Bdv.), *Strymon melinus* (Hbn.), *Thecla* sp.
Apanteles theclae Riley, 1881. Acad. Sci. St. Louis, Trans. 4: 308. ♀, ♂.
- thompsoni** Lyle. East. Canada, U. S. (?); Palaearctic Region. Liberated in Mass., N. Y., Ohio, Mich., and Ont. but not established. Introduced from Europe. Host: *Ostrinia nubilalis* (Hbn.).
Apanteles thompsoni Lyle, 1927. Bul. Ent. Res. 17: 415. ♀.
- thujae** Muesebeck. Maine, Ont. Host: *Argyresthia thuiella* (Pack.), *Coleotechnites thujaeella* Kearn.
Apanteles thujae Muesebeck, 1935. Wash. Acad. Sci. Jour. 25: 281. ♀, ♂.
- thurberiae** Muesebeck. Tex., Ariz.; Trinidad, Colombia. Host: *Thurberiphaga diffusa* (Barnes).
Apanteles thurberiae Muesebeck, 1921. U. S. Natl. Mus., Proc. 58: 507. ♀, ♂.
- tischeriae** Viereck. Conn., Del., D. C., Ohio, Wis., Mo., Kans. Host: *Argyrotaenia velutinana* (Wlk.), *Parornix geminatella* (Pack.), *Tischeria malifoliella* (Clem.).
Apanteles (Apanteles) tischeriae Viereck, 1912. U. S. Natl. Mus., Proc. 42: 140. ♀, ♂.
- tmetocerae** Muesebeck. N. S. Host: *Spilonota ocellana* (D. and S.).
Apanteles tmetocerae Muesebeck, 1921. U. S. Natl. Mus., Proc. 58: 560. ♀, ♂.
- unicolor** (Curtis). "Arctic regions of No. Amer."
Microgaster unicolor Curtis, 1835. Descr. Insects J. C. Ross 2nd Voyage Northwest Passage, App. p. LXII. ♂.
- victoriae** Muesebeck. B. C.
Apanteles victoriae Muesebeck, 1921. U. S. Natl. Mus., Proc. 58: 531. ♀.
- websteri** Muesebeck. N. B., Ohio (?), N. C., Ark. Host: *Protoboarmia porcelaria* (Gn.).
Apanteles websteri Muesebeck, 1921. U. S. Natl. Mus., Proc. 58: 539. ♀, ♂.
- xylinus** (Say). Que. s. to Fla., w. to Alta. and N. Mex. Host: *Amathes c-nigrum* (L.), *Peridroma saucia* (Hbn.).
Microgaster xylinus Say, 1836. Boston Jour. Nat. Hist. 1: 262. ♀.
Apanteles (Protapanteles) cushmani Viereck, 1912. U. S. Natl. Mus., Proc. 42: 144. ♂.
Apanteles (Protapanteles) oxyacanthoidis Viereck, 1912. U. S. Natl. Mus., Proc. 43: 581. ♀.
Apanteles (Protapanteles) lanificus Viereck, 1917 (1916). Conn. State Geol. and Nat. Hist. Survey, Bul. 22, p. 196.
- yakutatensis** Ashmead. Que., Utah, Idaho, Wash., Oreg., Calif., Alaska. Host: *Amathes c-nigrum* (L.), *Autographa californica* (Speyer), *Autoplusia egena* (Guen.).
Apanteles yakutatensis Ashmead, 1902. Wash. Acad. Sci., Proc. 4: 249. ♀.
- Apanteles (Protapanteles) hyslopi* Viereck, 1910. U. S. Natl. Mus., Proc. 38: 379. ♀, ♂.
- zizaniae** Muesebeck. Del., D. C. Host: *Diatraea* sp.
Apanteles zizaniae Muesebeck, 1957. Ent. News 68: 22. ♀, ♂.

NOMINA NUDA IN APANTELES FOERSTER

- Apanteles alamedensis* Ashmead, 1902. In Chittenden, Bur. Ent., U. S. Dept. Agr., Bul. 33, p. 58.
- Apanteles algonquinius* Ashmead, 1905. In Nason, Ent. News 16: 295.
- Urogaster carinaria* Ashmead, 1905. In Nason, Ent. News 16: 296.
- Apanteles catalpae* Riley, 1906. In Burgess, Bur. Ent., U. S. Dept. Agr., Bul. 60, p. 73.
- Apanteles columbianus* Ashmead, 1905. In Nason, Ent. News 16: 296.

Apanteles cramboides Ashmead, 1905. In Nason, Ent. News 16: 296.

Apanteles eupetheciae Ashmead, 1905. In Nason, Ent. News 16: 296.

Apanteles eupitheciae Ashmead, 1900. In Graenicher, Wis. Nat. Hist. Soc., Bul. 1: 80.

Apanteles nasoni Ashmead, 1905. In Nason, Ent. News 16: 296.

Apanteles notodontae Ashmead, 1897. In Slosson, Ent. News 8: 237.

Apanteles pergandei Ashmead, 1905. In Grossbeck, Ent. News 16: 133.

Apanteles rapae Ashmead, 1931. In Clausen, U. S. Dept. Agr., Cir. 168, p. 73.

Apanteles rileyanus Ashmead, 1906. In Sanderson, Bur. Ent., U. S. Dept. Agr., Bul. 59, p. 35.

UNPLACED TAXON OF APANTELES FOERSTER

Microgaster oleracea Taylor, 1860. American Agriculturist 19: 301. ♀. Host: *Pontia oleracea* Harris (=*Pieris*). The illustration which accompanies the description is not adequate in identifying this species. However, certain statements in the description and the fact that the author compares the species with *glomeratus* indicates that this species is probably the same as *Apanteles glomeratus* (L.), a parasite of *Pieris oleracea* Harr.

Genus DIRRHOPE Foerster

Dirrhope Foerster, 1851. Naturh. Ver. Rheinlande, Verh. 8: 79.

Type-species: *Dirrhope rufa* Foerster. Monotypic.

Dirrhopa Schulz, 1906. Spolia Hym., p. 138. Emend.

The exact relationships of this genus are not clearly understood and it has been placed with the Microgastrinae by Muesebeck (1936) and Tobias (1967), and with the Adeliinae by Telenga (1955) and Capek (1970).

Taxonomy: Muesebeck, 1936 (1935). Ent. Soc. Wash., Proc. 37: 173-174. —Telenga, 1955.

Fauna U. S. S. R., v. 5, n. 4, p. 14. —Tobias, 1967. Ent. Obozr. 46: 657. —Capek, 1969. Ent. Soc. Wash., Proc. 71: 309. —Capek, 1970. Canad. Ent. 102: 870.

americana Muesebeck. Va., Mich., Tex. Host: *Ectoedemia phleophaga* Busck.

Dirrhope americana Muesebeck, 1936 (1935). Ent. Soc. Wash., Proc. 37: 174. ♀, ♂.

Genus HYPOMICROGASTER Ashmead

Hypomicrogaster Ashmead, 1898 (1897). Ent. Soc. Wash., Proc. 4: 166. No included species.

Type-species: *Microgaster zonaria* Say. Desig. by Ashmead, 1900.

Revision: Muesebeck, 1922. U. S. Natl. Mus., Proc. 61 (15): 20-26 (No. Amer. spp. in *Microgaster*). —Nixon, 1965. Brit. Mus. (Nat. Hist.) Ent., Bul. Sup. 2, p. 208-229 (World spp.).

Taxonomy: Shenefelt, 1973. Hym. Cat., part 9, p. 687-692 (cat. World spp.).

ecdytolophae (Muesebeck). N. S. s. to Fla., w. to Ont., Nebr., and Tex.; Cent. Amer., West Indies. Host: *Arogalea cristifasciella* (Chamb.), *Caloptilia elongella* (L.), *Coleotechnites piceaella* (Kearf.), *Ecdytolophes insiticiana* Zell., *Grapholita molesta* (Busck), *Laspeyresia caryana* (Fitch), *L. pomonella* (L.), *Nephopteryx uvinella* (Rag.), *Ostrinia obumbratalis* (Led.), *Psorosina hammondi* (Riley), *Walshia amorphella* Clem.

Microgaster ecdytolophae Muesebeck, 1922. U. S. Natl. Mus., Proc. 61 (15): 24. ♀, ♂.

Taxonomy: Marsh, 1974. Ent. Soc. Wash., Proc. 76: 285.

Biology: Brandhorst, 1962. Ent. Soc. Amer., Ann. 55: 477. —Allen, 1962. U. S. Dept. Agr., Tech. Bul. 1265, p. 36.

schizurae (Muesebeck), n. comb. Maine, Mass., Pa., N. J., D. C., Mich., Ohio, Minn., Ark., N. Dak., Kans. B. C. Host: *Heterocampa manteo* (Dbldy.), *Schizura concinna* (Smith), *S. leptinoides* (Grote), *S. unicornis* (Smith).

Microgaster schizurae Muesebeck, 1922. U. S. Natl. Mus., Proc. 61 (15): 30. ♀, ♂.

tiro (Reinhard). Newfoundland, P. E. I.; Europe. Host: *Cnephacia virguareana* (Treit.).

Microgaster tiro Reinhard, 1880. Deut. Ent. Ztschr. 24: 357. ♀, ♂.

- zonaria* (Say). Mass. s. to Va., w. to Wis. and Colo.; Fla., La., Canada. Host: *Coleotechnites piceella* (Kearf.), *C. thujaeella* Kearf., *Laspeyresia pomonella* (L.), *Neoerastria caduca* (Grote), *Plathypena scabra* (F.).
Microgaster zonaria Say, 1836. Boston Jour. Nat. Hist. 1: 263. ♀.
Microgaster cinctus Provancher, 1881. Nat. Canad. 12: 196. ♀.
Protopanteles recurvariae Ashmead, 1903. N. Y. Ent. Soc., Jour. 11: 144. ♀.

Genus MICROGASTER Latreille

- Microgaster* Latreille, 1804. Nouv. Dict. Hist. Nat., v. 24, p. 175.
Type-species: *Ichneumon deprimator* Fabricius. Desig. by Latreille, 1810.
Liganira Walker, 1860. Ann. and Mag. Nat. Hist. (3) 5: 308.
Type-species: *Microgaster detractus* Walker. Monotypic.
Microgaster subg. *Hygroplitis* Thomson, 1895. Opusec. Ent., fasc. 20, p. 2238, 2244.
Type-species: *Microgaster russata* Haliday. Desig. by Viereck, 1914.
Diolcogaster Ashmead, 1900. In Smith, Ins. of N. J., p. 594.
Type-species: *Microgaster brevicauda* Provancher. Monotypic.
Zadiolcogaster Viereck, 1913. U. S. Natl. Mus., Proc. 46: 366.
Type-species: *Zadiolcogaster anomus* Viereck. Orig. desig.
Microgaster subg. *Lissogaster* Bengtsson, 1926. Ent. Tidskr. 47: 64.
Type-species: *Microgaster politus* Marshall. Desig. by Muesebeck and Walkley, 1951.
Revision: Muesebeck, 1922. U. S. Natl. Mus., Proc. 61 (15): 20-43 (No. Amer. spp.). — Nixon, 1968. Brit. Mus. (Nat. Hist.) Ent., Bul. 22: 33-72 (some World spp.).
Taxonomy: Nixon, 1965. Brit. Mus. (Nat. Hist.) Ent., Bul. Sup. 2, p. 7. — Shenefelt, 1973.
Hym. Cat., part 9, p. 692-737 (cat. World spp.).

brevicauda Provancher. Que.

- Microgaster brevicaudus* Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 140.
♀.

brittoni Viereck. Mass., Conn., N. Y., Ga., Ohio, Ont., Mich., Wis., Minn., Iowa.
Microgaster (Microgaster) brittoni Viereck, 1917 (1916). Conn. State Geol. and Nat. Hist. Survey, Bul. 22, p. 201.

canadensis Muesebeck. N. S. w. to B. C.; Maine, Mass., N. Y., Mich., Colo., Oreg., Calif. Host:
Achatodes zae (Harr.), *Acleris variana* (Fern.), *Agonopterix posticella* (Wlsm.),
Anacampsis innocuella (Zell.), *Ancylis comptana fragariae* (W. and R.), *Archips argyrosphilus* (Wlkr.), *A. rosanus* (L.), *Choristoneura fumiferana* (Clem.), *Croesia albicomana* (Clem.), *Epinotia sollicitana* (Wlkr.), *Sciaphila duplex* (Wism.),
Sparganothis diluticostana (Wlsm.), *Stilpnota salicis* (L.).

Microgaster canadensis Muesebeck, 1922. U. S. Natl. Mus., Proc. 61 (15): 38. ♀, ♂.
congregatiformis Viereck. Mass., Conn., N. Y., N. J., Ont., Mich., Minn., Mont. Host:

Endothenia hebesana (Wlkr.).

- Microgaster (Microgaster) congregatiformis* Viereck, 1917 (1916). Conn. State Geol. and Nat. Hist. Survey, Bul. 22, p. 202.

diaphaniae Muesebeck. Fla.; Cent. and So. Amer. Host: *Diaphania indica* (Saund.).

- Microgaster diaphaniae* Muesebeck, 1958. U. S. Natl. Mus., Proc. 107: 414. ♀, ♂.

epagoges Gahan. Vt. s. to S. C., w. to Ont. and Mo.; Colo., B. C., Oreg. Host: *Acleris chalybeana* (Fern.), *Anacampsis fragariella* Busck, *A. rhoifruetella* (Clem.), *Archips argyrosphilus* (Wlkr.), *A. griseus* (Rob.), *A. rosanus* (L.), *A. semiferanus* (Wlkr.), *Argyrotaenia velutinana* (Wlkr.), *Choristoneura obsoletana* (Wlkr.), *Platynota flavedana* Clem., *Ostrinia penitalis* (Grote), *Rhyacionia frustrana* (Comst.), *Sparganothis pectinana* (Rob.), *S. putmanana* Freem., *S. sulphurana* (F.), *S. tristriata* Kearf.

- Microgaster epagoges* Gahan, 1917. U. S. Natl. Mus., Proc. 53: 197. ♀, ♂.

Biology: Schaffner, 1949. U. S. Dept. Agr., Misc. Pub. 767, p. 62.

femoralamericanus Shenefelt. Idaho, Wash., Oreg., Calif.

- Microgaster femoralis* Muesebeck, 1922. U. S. Natl. Mus., Proc. 61 (15): 39. ♀, ♂. Preocc. by Bouche, 1834.

- Microgaster femoralamericanus* Shenefelt, 1973. Hym. Cat., part 9, p. 706. N. name for *femoralis* Muesebeck.
- gelechiae* Riley. Que. s. to Va., w. to Ont., N. Dak., and Mo.; La. Host: *Gnorimoschema gallaeasterella* (Kell.), *G. gallaesolidaginis* (Riley).
- Microgaster gelechiae* Riley, 1869. Ins. Mo., Ann. Rpt. 1: 178. ♀, ♂.
- Biology: Judd, 1962. Amer. Micros. Soc., Trans. 81: 204.
- gelechiae trichotaphae* Walley. Ont. Host: *Trichotaphe levissella* Fyles.
- Microgaster gelechiae* var. *trichotaphae* Walley, 1932. Canad. Ent. 64: 186. ♂.
- harnedi* Muesebeck. Mass., Va., S. C., Mich., Ohio, Ind., Miss., Mo., Wash. Host: *Diatraea* sp., *Macrobotys pertextalis* (Led.), *Ostrinia obumbratalis* (Led.), *Pachyzancla thestealis* (Wlk.).
- Microgaster harnedi* Muesebeck, 1922. U. S. Natl. Mus., Proc. 61 (15): 23. ♀.
- hospes* Marshall. Maine, N. Y., N. J., Md., Va., Ont., Ohio, Iowa, Kans., Colo., Utah; Europe. Host: *Ancylis comptana* (Forel), *A. c. fragariae* (W. and R.), *Argyresthia calliphanes* Meyr.
- Microgaster hospes* Marshall, 1885. Roy. Ent. Soc. London, Trans. 1885: 257. ♀, ♂.
- Microgaster comptanae* Viereck, 1911. U. S. Natl. Mus., Proc. 39: 403. ♀.
- leechi* Walley. Mass., Pa., Md., Fla., Ont., Mich., Ohio, Minn., B. C., Oreg. Host: *Macrobotys pertextalis* (Led.).
- Microgaster leechi* Walley, 1935. Canad. Ent. 67: 57. ♀.
- melligaster* Provancher. Que. s. to N. Y.; Ont., Mich., Iowa.
- Microgaster melligaster* Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 143. ♀.
- Microgaster rubricorpus* Provancher, 1888. Addit. Corr. Faune Ent. Canada Hym., p. 386. "♀" = ♂.
- novicius* Marshall. Conn., Minn.; Europe. Host: *Swammerdamia heroldella* Hbn.
- Microgaster novicius* Marshall, 1885. Roy. Ent. Soc. London, Trans. 1885: 252. ♀, ♂.
- Microgaster swammerdamiae* Muesebeck, 1922. U. S. Natl. Mus., Proc. 61 (15): 37. ♀, ♂.
- pantographae* Muesebeck. Maine, Mass., N. Y., Va., Ont., Mich., Ohio, Ill., Iowa, Mo. Host: *Argyrotaenia velutinana* (Wlk.), *Fascista cercerisella* (Chamb.), *Pantographa limata* (G. and R.).
- Microgaster pantographae* Muesebeck, 1922. U. S. Natl. Mus., Proc. 61 (15): 34. ♀.
- peroneae* Walley. Canada; Maine, D. C., Ohio, Wash., Alaska. Host: *Acleris gloverana* (Wlsm.), *A. logiana* (L.), *A. variana* (Fern.), *Archips argyrospilus* (Wlk.), *Sparganothis pettitana* (Rob.).
- Microgaster peroneae* Walley, 1935. Canad. Ent. 67: 56. ♀, ♂.
- phthorimaeae* Muesebeck. Wash., Oreg., Calif. Host: *Amorbia essigana* Busck, *Anacampsis fragiella* Busck, *Aristotelia rhoisella* Busck, *Ephestides gilvescentella* Rag., *Pthorimaea operculella* (Zell.), *Platynota stultana* (Wlsm.), *Udea rubigalis* (Gn.).
- Microgaster phthorimaeae* Muesebeck, 1922. U. S. Natl. Mus., Proc. 61 (15): 40. ♀, ♂.
- Biology: Graf, 1917. U. S. Dept. Agr., Bul. 427, p. 44-45 (as *Microgaster* sp.).
- scopelosomae* Muesebeck. Mass. Host: *Eupsilia devia* (Grote).
- Microgaster scopelosomae* Muesebeck, 1926. U. S. Natl. Mus., Proc. 69 (7): 17. ♀, ♂.
- tibialis* Nees. East. Canada, U. S. (?); Europe. Liberated in Mass., N. Y., Ohio, Mich., and Ont. but not established. Introduced from Europe. Host: *Ostrinia nubilalis* (Hbn.).
- Microgaster tibialis* Nees, 1834. Hym. Ichn. Affin. Monog., v. 1, p. 168. ♀, ♂.
- Microgaster luctuosus* Haliday, 1834. Ent. Mag. 2: 239. ♂.
- Microgaster messorius* Haliday, 1834. Ent. Mag. 2: 239. ♀, ♂.
- Microgaster pluto* Morley, 1936. Entomologist 69: 211. ♀.

NOMEN NUDUM IN MICROGASTER LATREILLE

Microgaster xylinoides Ashmead, 1895. In Webster, Canad. Ent. 27: 68.

Genus MICROPLITIS Foerster

Microplitis Foerster, 1862. Naturh. Ver. Rheinlande, Verh. 19: 245.

Type-species: *Microgaster sordipes* Nees. Orig. desig.

Dapsilota Cameron, 1906. *Bombay Nat. Hist. Soc., Jour.* 17: 101.

Type-species: *Dapsilota testaceipes* Cameron. Monotypic.

Revision: Muesebeck, 1922. U. S. Natl. Mus., Proc. 61 (15): 43-72 (No. Amer. spp.). —Nixon, 1970. *Brit. Mus. (Nat. Hist.) Ent.*, Bul. 25: 1-30 (some Eur. spp.).

Taxonomy: Shenefelt, 1973. *Hym. Cat.*, part 9, p. 737-767 (cat. World spp.).

alaskensis Ashmead. Canada, Alaska, north. U. S. s. to N. Y., Mo., and Ariz. Host: *Autographa californica* (Spey.), *A. precatonis* (Gn.), *Dargida procincta* (Grote), *Plusia* sp., *Pseudaletia unipuncta* (Haw.), *Rachiplusia ou* (Gn.), *Trichoplusia ni* (Hbn.).

Microplitis alaskensis Ashmead, 1902. *Wash. Acad. Sci., Proc.* 4: 249. ♀.

Biology: Guppy and Miller, 1970. *Canad. Ent.* 102: 1331.

autographae Muesebeck. Ida., N. Mex., Ariz. Host: *Autographa californica* (Spey.).

Microplitis autographae Muesebeck, 1922. U. S. Natl. Mus., Proc. 61 (15): 54. ♀, ♂.

bradleyi Muesebeck. Alta., Utah, B. C., Oreg., Calif. Host: *Amphipyra tragopoginis* (L.), *Feralia jocosa* (Gn.).

Microplitis bradleyi Muesebeck, 1922. U. S. Natl. Mus., Proc. 61 (15): 70. ♀.

brassicae Muesebeck. Nebr., Tex., Colo., N. Mex., Ariz., Calif. Host: *Autographa californica* (Spey.), *Trichoplusia ni* (Hbn.).

Microplitis brassicae Muesebeck, 1922. U. S. Natl. Mus., Proc. 61 (15): 60. ♀, ♂.

carteri Walley. Alta.

Microplitis carteri Walley, 1932. *Canad. Ent.* 64: 185. ♂.

ceratomiae Riley. Que. and N. S. s. to D. C., w. to Oreg. and N. Mex. Host: *Ceratomia amyntor* (Geyer), *Manduca sexta* (L.), *Paonias excaecata* (Smith), *Sphinx drupiferarum* (Smith), *S. gordius* Cram., *S. kalmiae* Smith.

Microplitis ceratomiae Riley, 1881. *Acad. Sci. St. Louis, Trans.* 4: 303. ♀, ♂.

Microplitis waldeni Viereck, 1917 (1916). *Conn. State Geol. and Nat. Hist. Survey, Bul.* 22, p. 204.

coactus Lundbeck. Greenland. Host: *Noctua* sp.

Microplitis coactus Lundbeck, 1896. *Vid. Medd. Naturh. Foren. Kjobenhavn*, p. 243. ♀.

coloradensis Muesebeck. Mich., Minn., Colo.

Microplitis coloradensis Muesebeck, 1922. U. S. Natl. Mus., Proc. 61 (15): 49. ♂.

confusus Muesebeck. N. B., N. Y., Md., Ont., Mich., Ind., Minn., N. Dak., Tex. Host: *Eucirrhoedea pampina* (Gn.).

Microplitis confusus Muesebeck, 1922. U. S. Natl. Mus., Proc. 61 (15): 69. ♀, ♂.

crenulatus (Provancher). Que., Mass., Mich.

Microgaster crenulatus Provancher, 1888. *Addit. Corr. Faune Ent. Canada Hym.* p. 387.
"♀" = ♂.

croceipes (Cresson). N. J. s. to Ga., w. to Utah, and Ariz.; Oreg. Host: *Heliothis subflexa* (Guen.), *H. virescens* (F.), *H. zea* (Boddie).

Microgaster croceipes Cresson, 1872. *Amer. Ent. Soc., Trans.* 4: 183. ♀.

Microplitis nigripennis Ashmead, 1905. In Quaintance and Brues, U. S. Dept. Agr., Bur. Ent. Bul. 50, p. 122.

Biology: Lewis, 1970. *Ent. Soc. Amer., Ann.* 63: 67-70. —Jones and Lewis, 1971. *Jour. Ins. Physiol.* 17: 921-927. —Barras, 1972. *Comp. Biochem. Physiol.* 43B: 941-947. —Vinson and Lewis, 1972. *Jour. Ins. Physiol.* 18: 2123-2124. —Dahlman and Vinson, 1975. *Comp. Biochem. Physiol.* 52B: 465-468. —Edson and Vinson, 1977. *Jour. Ins. Physiol.* 23: 5-8.

feltiae Muesebeck. Ind. s. to S. C. and Ala., w. to N. Dak., Wash., and Calif. Host: *Agrotis gladiaria* Morr., *A. epsilon* (Hufn.), *Feltia dicens* Wlkr., *F. subterranea* (F.), *Lacinipolia renigera* (Steph.), *Peridroma saucia* (Hbn.).

Microplitis feltiae Muesebeck, 1922. U. S. Natl. Mus., Proc. 61 (15): 46.

Microgaster(?) feltiae Muesebeck, 1922. U. S. Natl. Mus., Proc. 61 (15): 62. ♂.

Biology: Putler and Thewke, 1970. *Ent. Soc. Amer., Ann.* 63: 645-648.

- gortynae** Riley. N. Y., Pa., Va., Ohio, Miss., Wis., Iowa, Mo., Colo., Oreg. Host: *Achatodes zea* (Harr.), *Hydroecia immanis* Grote, *Papaipema nebris* (Guen.). *P. pertincta* Dyar.
- Microplitis gortynae* Riley, 1881. Acad. Sci. St. Louis, Trans. 4: 304. ♀, ♂.
- Biology: Balduf, 1929. Ohio Jour. Sci. 29: 219. — Decker, 1935. Iowa St. Col. Jour. Sci. 9: 571-572.
- hyphantriae** Ashmead. Mass., N. Y., N. J., Md., Fla., Ont., Mich., Ohio, Ind., Ill., Mo., Ark., N. Dak., Tex. Host: *Acronicta furcifera* Guen., *A. hasta* Guen., *A. interrupta* Guen., *Hyphantria cunea* (Drury), *Xyloea* sp.
- Microplitis hyphantriae* Ashmead, 1898. Ent. Soc. Wash., Proc. 4: 164. ♀, ♂.
- kewleyi** Muesebeck. Que. s. to D. C., w. to Ont. and Mo.; Calif. Host: *Agrotis ipsilon* (Hufn.), *Amathes bicarnea* (Guen.), *Euxoa* sp.
- Microplitis kewleyi* Muesebeck, 1922. U. S. Natl. Mus., Proc. 61 (15): 51. ♀, ♂.
- laticinctus** Muesebeck. Que., Mass., N. Y., D. C., Ohio, Ala., Ill., Minn., Iowa.
- Microplitis laticinctus* Muesebeck, 1922. U. S. Natl. Mus., Proc. 61 (15): 67. ♀, ♂.
- latistigma** Muesebeck. Md.
- Microplitis latistigma* Muesebeck, 1922. U. S. Natl. Mus., Proc. 61 (15): 63. ♀.
- longicauda** Muesebeck. Colo., Idaho, Nev., Oreg., Calif.
- Microplitis longicaudus* Muesebeck, 1922. U. S. Natl. Mus., Proc. 61 (15): 57. ♀.
- mamestrae** Weed. Mass., Conn., N. Y., N. J., Mich., Ohio, Wis., Ill., N. Mex., Utah. Host: *Ceramica picta* (Harr.).
- Microplitis mamestrae* Weed, 1887. Ill. State Lab. Nat. Hist., Bul. 3: 2. ♀.
- maturus** Weed. Que. s. to Fla., w. to Ont., S. Dak., and La. Host: *Caenurgina erechtea* (Cram.), *Drasteria* sp.
- Microplitis maturus* Weed, 1888. Amer. Ent. Soc., Trans. 15: 294. ♀, ♂.
- Microplitis cincta* Ashmead, 1891. Canad. Ent. 23: 3. ♂.
- Microgaster tuckeri* Viereck, 1905. Kans. Acad. Sci., Trans. 19: 274. ♀.
- mediator** (Haliday). Greenland; Europe.
- Microgaster mediator* Haliday, 1834. Ent. Mag. 2: 235. ♀, ♂.
- Microgaster dorsalis* Nees, 1834. Hym. Ichn. Affin. Monog., v. 1, p. 170. ♂.
- Microgaster fulvicornis* Wesmael, 1837. Nouv. Mem. Acad. Sci. Bruxelles 10: 44. ♀, ♂.
- Microplitis medianus* Ruthe, 1860. Berlin. Ent. Ztschr. 4: 127. ♀.
- melianae** Viereck. Ont., N. Y., Ohio, Tenn., Mich., Ill., Minn., Iowa, Kans. Host: *Faronta diffusa* (Wlkrr.), *Heliothis zea* (Boddie), *Pseudaletia unipuncta* (Haw.).
- Microplitis melianae* Viereck, 1911. U. S. Natl. Mus., Proc. 40: 185. ♂.
- montanus** Muesebeck. Nev., Calif. Host: *Catocala verrilliana* Grote.

Genus MIRAX Haliday

Mirax Haliday, 1833. Ent. Mag. 1: 263.

Type-species: *Mirax rufilabris* Haliday. Monotypic.

Centistidea Rohwer, 1914. Psyche 21: 81.

Type-species: *Centistidea ectoedemiae* Rohwer. Orig. desig.

The exact relationships of this genus are not clearly understood. Telenga (1955) and Capek (1970) place it with the Adeliniae, but Tobias (1967) and Nixon (1965) place it in the Microgastriinae, the latter author suggesting a separate tribal position. Hosts are lepidopterous leaf miners.

Revision: Muesebeck, 1922. U. S. Natl. Mus., Proc. 61 (15): 10-12 (No. Amer. spp.).

Taxonomy: Telenga, 1955. Fauna U. S. S. R., v. 5, n. 4, p. 19. —Nixon, 1965. Brit. Mus. (Nat. Hist.) Ent., Bul. Sup. 2, p. 8. —Tobias, 1967. Ent. Obozr. 46: 657. —Capek, 1969. Ent. Soc. SUBFAMILY ICHNEUTINAE

TRIBE ICHNEUTINI

Species in this group are solitary endoparasites of sawfly larvae; oviposition takes place in the host egg but the parasite cocoon is formed within the host cocoon.

Taxonomy: Shenefelt, 1973. Hym. Cat., part 9, p. 805-812 (cat. World spp.).

Genus ICHNEUTES Nees

Ichneutes Nees, 1816 (1813). Mag. Gesell. Naturf. Freunde Berlin 7: 275.

Type-species: *Ichneutes reunitor* Nees. Monotypic.

alaskensis Ashmead. Alaska.

Ichneutes alaskensis Ashmead, 1902. Wash. Acad. Sci., Proc. 4: 251. ♂.

bicarinatus (Ashmead). Ont.

Opius bicarinatus Ashmead, 1891. Canad. Ent. 23: 4. ♂.

bicolor Cresson. Mass., Mich., Minn., Mont. Host: *Pristiphora erichsonii* (Htg.).

Ichneutes bicolor Cresson, 1872. Canad. Ent. 4: 230. ♀.

fulvipes Cresson. Ill., Mich., Alta., Colo., Nev., Calif. Host: *Euura* sp.

Ichneutes fulvipes Cresson, 1872. Canad. Ent. 4: 231. ♂.

pikonematis Mason. Maine, Minn., Canada. Host: *Pikonema alaskensis* (Roh.).

Ichneutes pikonematis Mason, 1968. Canad. Ent. 100: 721. ♀, ♂.

popofensis Ashmead. Alaska.

reunitor Nees. Alaska; Europe.

Ichneutes reunitor Nees, 1816 (1813). Mag. Gesell. Naturf. Freunde Berlin 7: 276. ♀, ♂.

Genus ICHNEUTIDEA Ashmead

Ichneutidea Ashmead, 1900. U. S. Natl. Mus., Proc. 23: 133.

Type-species: *Ichneutes abdominalis* Cresson. Orig. desig.

Proteropoides Viereck, 1909. Ent. Soc. Wash., Proc. 11: 42.

Type-species: *Proteropoides hertzogi* Viereck. Orig. desig.

abdominalis (Cresson). Fla., Iowa, Kans., Tex., Mont., Calif. Host: *Sphacophilus plumiger* (Klug).

Ichneutes abdominalis Cresson, 1872. Amer. Ent. Soc., Trans. 4: 179. ♀.

proteroptoides Viereck. Que. s. to Fla., w. to S. Dak., Colo., and Tex.; Mexico. Host:

Schizocerella pilicornis (Holmgren).

Ischneutidea(!) proteroptoides Viereck, 1905. Kans. Acad. Sci., Trans. 19: 274. ♀.

Ichneutidea secunda Rohwer, 1908. Ent. News 19: 419. ♀.

Proteropoides hertzogi Viereck, 1909. Ent. Soc. Wash., Proc. 11: 42. ♀.

Genus PROTEROPS Wesmael

Proterops Wesmael, 1835. Nouv. Mem. Acad. Sci. Bruxelles 9: 201.

Type-species: *Proterops nigripennis* Wesmael. Monotypic.

californicus Cresson. Wyo., Calif.

Proterops californicus Cresson, 1873. Canad. Ent. 5: 69. ♂.

TRIBE MUESEBECKIINI

The genera in this tribe were previously associated with the Microgastrinae, but Mason (1969) has shown that they are morphologically similar to the Ichneutinae. Host records indicate that species are parasites of leaf mining lepidopterous larvae.

Taxonomy: Mason, 1969. Ent. Soc. Wash., Proc. 71: 263-278 (key to World genera).

Genus MUESEBECKIA Mason

Muesebeckia Mason, 1957. Canad. Ent. 89: 355.

Type-species: *Muesebeckia eximius* Mason. Orig. desig.

Revision: Mason, 1969. Ent. Soc. Wash., Proc. 71: 265-274.

eximia Mason. Que., Ont., N. C.

Muesebeckia eximius Mason, 1957. Canad. Ent. 89: 355. ♀, ♂.

Genus OLIGONEURUS Szepligeti

Oligoneurus Szepligeti, 1902. Termes. Fuzetek 25: 77.

Type-species: *Oligoneurus concolor* Szepligeti. Monotypic.

One undescribed species occurs in North America.

Genus PAROLIGONEURUS Muesebeck

Paroligoneurus Muesebeck, 1931. U. S. Natl. Mus., Proc. 79 (16): 7.

Type-species: *Paroligoneurus johnsoni* Muesebeck. Orig. desig.

Taxonomy: Shenefelt, 1973. Hym. Cat., part 9, p. 681-682 (cat. World spp.).

johnsoni Muesebeck. Mass., N. J., S. C., Fla. Host: *Nepticula* sp.

Paroligoneurus johnsoni Muesebeck, 1931. U. S. Natl. Mus., Proc. 79 (16): 8. ♀.

SUBFAMILY BLACINAE

The genera included here are in need of considerable study and the arrangement below is a very conservative one. There are distinct differences in morphology and biologies among these genera, some showing affinities with the Helconinae, others with the Agathidinae. Nearly all of the North American genera are unstudied.

TRIBE BLACINI

This tribe constitutes the least homogeneous group of genera in the Blacinae. The biologies of *Blacus* species are not well established; van Achterberg (1976 (1975)) places this and related genera as a tribe of the Helconinae. Species of *Centistes*, *Pygostolus*, and *Syrhizus* are internal parasites of adult Coleoptera and have been placed in a separate subfamily by Capek (1969).

Revision: van Achterberg, 1976 (1975). Tijdschr. Ent. 118: 159-323.

Genus BLACUS Nees

Genus BLACUS Subgenus BLACUS Nees

Blacus Nees, 1818. Nov. Act. Acad. Caes. Leop. Car. 9: 306.

Type-species: *Bracon humilis* Nees. Desig. by Westwood, 1839.

Miocolus Foerster, 1862. Naturh. Ver. Rheinlande, Verh. 19: 237.

Type-species: *Miocolus pallipes* Foerster. Orig. desig.

Goniocormus Foerster, 1862. Naturh. Ver. Rheinlande, Verh. 19: 254.

Type-species: *Blacus paganus* Haliday. Orig. desig.

Taxonomy: Shenefelt, 1969. Hym. Cat., part 4, p. 15-26 (cat. World spp.). — Haeselbarth, 1973. Staatsaml. Munchen, Veroffentl. 16: 69-170 (Eur. and Cent. Asian spp.). — van Achterberg, 1976 (1975). Tijdschr. Ent. 118: 174-176 (key to subgenera).

evanidus Martin. Tex.

Aliolus evanidus Martin, 1956. Canada Dept. Agr. Pub. 965, p. 37. ♂.

fiskei (Rohwer). Pa., N. J., Md., Va., N. C. Host: *Cossonus* sp., *Glipa octopunctata* (F.).

Triaspis fiskei Rohwer, 1913. U. S. Natl. Mus., Proc. 45: 535. ♀.

independens Martin. Miss.

Aliolus independens Martin, 1956. Canada Dept. Agr. Pub. 965, p. 46. ♀.

marginalis Martin. N. Y., Va., Md., W. Va., Ohio, Mich., Tenn.

Aliolus marginalis Martin, 1956. Canada Dept. Agr. Pub. 965, p. 57. ♀, ♂.

patei Martin. N. S. s. to S. C.; Ont., Ohio.

Aliolus patei Martin, 1956. Canada Dept. Agr. Pub. 965, p. 55. ♀, ♂.

stanleyi Martin. Miss., Tex.

Aliolus stanleyi Martin, 1956. Canada Dept. Agr. Pub. 965, p. 53. ♀, ♂.

stictopleurus Martin. Pa., N. C., Mich., Miss. Host: *Obrium rufulum* Gah.

Aliolus stictopleurus Martin, 1956. Canada Dept. Agr. Pub. 965, p. 52. ♀, ♂.

tomoxiae (Rohwer). Pa., Md., D. C., Va., Mich., Kans. Host: *Tomoxia lineella* Lec.

Allodorus tomoxiae Rohwer, 1915. Ent. Soc. Wash., Proc. 17: 55. ♀, ♂.

tridentatus Martin. Ariz.

Aliolus tridentatus Martin, 1956. Canada Dept. Agr. Pub. 965, p. 30. ♀.

trilobatus (Say). Md., W. Va., Va., Mich., Ind.

Bracon (Aliolus) trilobatus Say, 1836. Boston Jour. Nat. Hist. 1: 259. ♂.

UNPLACED TAXA OF ALIOLUS SAY

Bracon (Aliolus) thoracicus Say, 1836. Boston Jour. Nat. Hist. 1: 260. Preoccupied in *Triaspis* by *thoracicus* Nees, 1812.
Triapsis sayi Muesebeck and Walkley, 1951. In Muesebeck, et al., U. S. Dept. Agr., Agr. Monog. 2, p. 114. N. name for *thoracicus* Say.

Genus ALLODORUS Foerster

Allodorus Foerster, 1862. Naturh. Ver. Rheinlande, Verh. 19: 242.

Type-species: *Sigalpus semirugosus* Nees. Orig. desig.

Taxonomy: Mason, 1974. Ent. Soc. Wash., Proc. 76: 241.

calyptoides (Martin). Wis.

Aliolus calyptoides Martin, 1956. Canada Dept. Agr. Pub. 965, p. 31. ♀.

crassigaster (Provancher). Que., N. B., Maine, Pa., Wis., Minn., Alta., Idaho, B. C., Wash., Oreg. Host: *Pissodes dubius* Rand, *P. fasciatu*s Lec., *P. strobi* Peck.

Brachistes crassigaster Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 132. ♀, ♂.

Brachistes strigitergum Cushman, 1930 (1929). U. S. Natl. Mus., Proc. 76 (25): 15. ♀. N.

Biology: Deyrup, 1975. Conif. For. Biome Ecosystem Anal. Stud., Univ. of Wash., Bul. 6, pp. 73-74.

definitus (Muesebeck). Oreg., Calif. Host: *Conophthorus ponderosae* Hopk., *Ernobius* sp.

Eubadizon difinitum Muesebeck, 1957. Brooklyn Ent. Soc., Bul. 52: 53. ♀, ♂.

ernobii (Muesebeck). Oreg., Calif. Host: *Ernobius* sp.

Eubadizon ernobii Muesebeck, 1957. Brooklyn Ent. Soc., Bul. 52: 51. ♀, ♂.

Genus EUBAZUS Nees

This genus is restricted to those species which have a short abdomen and are parasites of Coleoptera larvae, as defined by Mason (1974).

Genus EUBAZUS Subgenus EUBAZUS Nees

Eubazus Nees, 1814 (1812). Mag. Gesell. Naturf. Freunde Berlin 6: 214.

Type-species: *Eubazus pallipes* Nees. Desig. by Viereck, 1914.

Eubadizon Nees, 1834. Hym. Ichn. Aff. Monog., v. 1, p. 233. Emend.

Eubadizus Nees, 1834. Hym. Ichn. Aff. Monog., v. 1, p. 233. Emend.

Taxonomy: Mason, 1974. Ent. Soc. Wash., Proc. 76: 239.

electus (Muesebeck). B. C., Oreg., Calif. Host: *Phymatodes* sp.

Eubadizon electum Muesebeck, 1957. Brooklyn Ent. Soc., Bul. 52: 54. ♀.

pallipes Nees. N. Y., Pa., N. J., W. Va., Mich., Wis., Ill.; Europe.

Eubazus pallipes Nees, 1814 (1812). Mag. Gesell. Naturf. Freunde Berlin 6: 215. ♀ (♂ misdet.).

Eubadizon coxalis Nees, 1834. Hym. Ichn. Aff. Monog., v. 1, p. 235. ♂.

Helcon (Eubadizon) semistriatus Haliday, 1835. Ent. Mag. 3: 131. ♂.

Eubadizon americanus Cresson, 1872. Canad. Ent. 4: 230. ♀.

phymatodis (Ashmead). N. Y., Md., D. C., Va., Mich., Ill. Host: *Phymatodes amoenus* (Say).

Eubadizon phymatodis Ashmead, 1889 (1888). U. S. Natl. Mus., Proc. 11: 644. ♀.

Genus EUBAZUS Subgenus BRACHISTES Wesmael

Brachistes Wesmael, 1835. Nouv. Mem. Acad. Sci. Bruxelles 9: 109.

Type-species: *Brachistes ruficoxis* Wesmael. Desig. by Foerster, 1862.

Taxonomy: Mason, 1974. Ent. Soc. Wash., Proc. 76: 240.

atricornis (Ashmead). Calif.

Ganychorus atricornis Ashmead, 1889 (1888). U. S. Natl. Mus., Proc. 11: 645. ♀, ♂.

- major** (Cresson). Canada, Va., Ohio, Ind., Ill. Host: *Magdalais barbita* (Say).
Calyptus major Cresson, 1872. Canad. Ent. 4: 228. ♀.
- orchesiae** (Ashmead). Conn., N. Y., Md., D. C., Ga., Mich., Ill., Iowa. Host: *Bolitotherus cornutus* (Panz.). *Orchesia castanea* Melsh.
Ganychorus orchesiae Ashmead, 1889 (1888). U. S. Natl. Mus., Proc. 11: 645. ♀.
- rotundiceps** (Cresson). Que. s. to Md., w. to Ont., N. Dak., and Iowa. Host: *Magdalais armicollis* (Say), *M. barbita* (Say), *M. olyra* (Hbst.).
Calyptus rotundiceps Cresson, 1872. Canad. Ent. 4: 228. ♂.
Calyptus magdalais Cresson, 1878. Psyche 2: 189. ♀, ♂.
Eubadizon submucronatus Provancher, 1880. Nat. Canad. 12: 171. ♀, ♂.
Brachistes magdali Brues, 1910. Wis. Nat. Hist. Soc., Bul. 8: 50. ♀, ♂.
- salicicola** (Muesebeck). Calif. Host: *Dorytomus* sp.
Eubadizon salicicola Muesebeck, 1957. Brooklyn Ent. Soc., Bul. 52: 55. ♀, ♂.

Genus NEALIOLUS Mason

Nealiolus Mason, 1974. Ent. Soc. Wash., Proc. 76: 241.

Type-species: *Sigalphus curculionis* Fitch. Orig. desig.

- acutulus** (Martin). N. Y.
Aliolus acutulus Martin, 1956. Canada Dept. Agr. Pub. 965, p. 19. ♀.
- auriculatus** (Martin). Colo.
Aliolus auriculatus Martin, 1956. Canada Dept. Agr. Pub. 965, p. 21. ♀, ♂.
- collaris** (Brues). Fla., Ark., Kans., Tex., N. Mex. Host: *Conotrachelus nenuphar* (Hbst.).
Calyptus collaris Brues, 1907. Wis. Nat. Hist. Soc., Bul. 5: 159. ♀.
- crassipes** (Martin). Pa., Md., S. C.
Aliolus crassipes Martin, 1956. Canada Dept. Agr. Pub. 965, p. 35. ♀, ♂.
- curculionis** (Fitch). Que. s. to Fla., w. to Ont., Nebr., and Calif. Host: *Anthonomus grandis* Boh., *Coccotorus scutellaris* (Lec.), *Conotrachelus nenuphar* (Hbst.), *Craponius inaequalis* (Say), *Cylindrocopturus adspersus* (Lec.), *Hyperodes texana* Stockton, *Listronotus oregonensis* (Lec.), *Magdalais armicollis* (Say), *Rhinocyllus conicus* (Froel.), *Tyloderma foveolata* Say. Shenefelt (1970) uses the name *tibiator* (Cresson) for this species under the false assumption that *Sigalphus curculionis* Fitch (1859) is preoccupied by *Sigalphus curculionum* Hartig (1847, presently in the genus *Eubadizon*).
Sigalphus curculionis Fitch, 1859. Country Gentleman 14: 221. ♀.
Calyptus tibiator Cresson, 1872. Canad. Ent. 4: 229. ♂.
Aliolus inaratus Martin, 1956. Canada Dept. Agr. Pub. 965, p. 38. ♂.
- Biology: Armstrong, 1958. Canad. Ent. 90: 16-17.
- mexicanus** (Cresson). Colo., N. Mex., Ariz.; Mexico.
Calyptus mexicanus Cresson, 1872. Canad. Ent. 4: 229. ♂.
- rufus** (Riley). N. Y. s. to Fla., w. to Ont. and Tex. Host: *Anthonomus grandis* Boh., *Conotrachelus nenuphar* (Hbst.), *Tyloderma foveolata* Say.
Sigalphus curculionis var. *rufus* Riley, 1871. Ins. Mo. Ann. Rpt. 3: 27. ♀.

Genus SCHIZOPRYMNUS Foerster

Schizoprymnus Foerster, 1862. Naturh. Ver. Rheinlande, Verh. 19: 242.

Type-species: *Sigalphus obscurus* Nees. Orig. desig.

- Taxonomy: Martin, 1956. Canada Dept. Agr. Pub. 965, p. 98-101 (treated as subgenus of *Triaspis*). —Shenefelt, 1970. Hym. Cat., part 5, p. 274-281 (cat. World spp.).
- americanus** Ashmead. Tex.
Schizoprymnus americanus Ashmead, 1889 (1888). U. S. Natl. Mus., Proc. 11: 636. ♀.
- brevipennis** (Melander and Brues). Mass.
Chelonus brevipennis Melander and Brues, 1903. Biol. Bul. 5: 20. ♀.
- phillipsi** Viereck. Mich., Ind. Host: *Mordellistena andreae ustulata* Lec.
Schizoprymnus phillipsi Viereck, 1911. U. S. Natl. Mus., Proc. 39: 401. ♀, ♂.

texanus (Cresson). N. H., W. Va., Ohio, Ont., Mich., Ill., Tex., Utah, Calif. Ecology: Reared from gall on *Solidago*.

Sigalphus texanus Cresson, 1872. Amer. Ent. Soc., Trans. 4: 179. "♀" = ♂.

Genus TRIASPIS Haliday

Helcon subg. *Triaspis* Haliday, 1835. Ent. Mag. 3: 124.

Type-species: *Sigalphus caudatus* Nees. Desig. by Viereck, 1912.

Muiriella Fullaway, 1919. Roy. Asiatic Soc., Straits Branch, Jour. 80: 47.

Type-species: *Muiriella concisa* Fullaway. Orig. desig.

Revision: Martin, 1956. Canada Dept. Agr. Pub. 965, p. 64-97 (No. Amer. spp.).

Taxonomy: Shenefelt, 1970. Hym. Cat., part 5, p. 281-301 (cat. World spp.).

abditiva Martin. N. Y., S. Dak.

Triaspis (Triaspis) abditiva Martin, 1956. Canada Dept. Agr. Pub. 965, p. 76. ♀, ♂.

aequoris Martin. Kans.

Triaspis (Triaspis) aequoris Martin, 1956. Canada Dept. Agr. Pub. 965, p. 92. ♀.

aquila Martin. Que.

Triaspis (Triaspis) aquila Martin, 1956. Canada Dept. Agr. Pub. 965, p. 85. ♂.

halidayi Martin. S. Dak.

Triaspis (Triaspis) halidayi Martin, 1956. Canada Dept. Agr. Pub. 965, p. 89. ♂.

kurtogaster Martin. N. Y. s. to Ga., w. to Ont. and La. Host: *Anthonomus grandis* Boh., *Chalcodermus annus* Boh., *C. collaris* Horn., *Conotrachelus nenuphar* Hbst., *Curculio sp.*, *Otiorrhynchus ovatus* (L.).

Triaspis (Triaspis) kurtogaster Martin, 1956. Canada Dept. Agr. Pub. 965, p. 90. ♀.

laticarinata Martin. B. C.

Triaspis (Triaspis) laticarinata Martin, 1956. Canada Dept. Agr. Pub. 965, p. 94. ♀, ♂.

magnafovea Martin. N. S., Ont., Mich., Ill., Alta.

Triaspis (Triaspis) magnafovea Martin, 1956. Canada Dept. Agr. Pub. 965, p. 70. ♀, ♂.

matercula Martin. S. Dak.

Triaspis (Triaspis) matercula Martin, 1956. Canada Dept. Agr. Pub. 965, p. 68. ♀.

ocellulata Martin. N. Y., Ont. Host: Ash seed weevil.

Triaspis (Triaspis) ocellulata Martin, 1956. Canada Dept. Agr. Pub. 965, p. 87. ♀, ♂.

odontochila Martin. N. Y., Va., Mich., La. Host: *Podapion gallicola* Riley.

Triaspis (Triaspis) odontochila Martin, 1956. Canada Dept. Agr. Pub. 965, p. 83. ♀, ♂.

pissodis Viereck. Mont., Wyo., Idaho, Wash., Oreg., Calif. Host: *Cylindrocopturus furnissi*

Buch., *C. longulus* (Lec.), *Pissodes* sp.

Triaspis pissodis Viereck, 1912. U. S. Natl. Mus., Proc. 42: 628. ♀, ♂.

rectangulata Martin. S. Dak., Colo., Utah, Idaho.

Triaspis (Triaspis) rectangulata Martin, 1956. Canada Dept. Agr. Pub. 965, p. 74. ♀, ♂.

stenochila Martin. Kans.

Triaspis (Triaspis) stenochila Martin, 1956. Canada Dept. Agr. Pub. 965, p. 78. ♀.

stenogaster Martin. Colo.

Triaspis (Triaspis) stenogaster Martin. 1956. Canada Dept. Agr. Pub. 965, p. 72. ♀, ♂.

stictostiba Martin. Canada. Host: *Bruchus rufimanus* Boh.

Triaspis (Triaspis) stictostiba Martin, 1956. Canada Dept. Agr. Pub. 965, p. 82. ♀.

stilpnogaster Martin. Wis., Idaho, Calif.

Triaspis (Triaspis) stilpnogaster Martin, 1956. Canada Dept. Agr. Pub. 965, p. 66. ♀.

thoracica (Curtis). Canada (?), U. S. (?): Europe, Asia, So. Amer., Austr. Liberated in B. C., Pa., N. C., Ont., Idaho, Oreg., and Calif. but not known to be established. Introduced from Europe. Host: *Bruchus brachialis* Fab., *B. pisorum* (L.), *B. rufimanus* Boh.

Sigalphus thoracicus Curtis, 1860. Farm Insects, p. 365. ♀.

virginensis (Ashmead). Pa., N. J., Md., D. C., Va., Ohio, Ark. Host: *Rhynchaenus pallicornis* (Say).

Centistes virginiensis Ashmead, 1889 (1888). U. S. Natl. Mus., Proc. 11: 655. ♀.

xanthochila Martin. Ont.

Triaspis (Triaspis) xanthochila Martin, 1958. Canad. Ent. 90: 191. ♀.

Genus UROSIGALPHUS Ashmead

Revision: Crawford, 1914. Insecutor Inscitiae Menstruus 2: 22-27 (No. Amer. spp.). — Martin, 1956. Canada Dept. Agr. Pub. 965, p. 102-137 (No. Amer. spp.). — Gibson, 1972. Ent. Soc. Amer., Misc. Pub. 8: 85-157 (No. and Cent. Amer. spp.).

Taxonomy: Shenefelt, 1970. Hym. Cat., part 5, p. 302-305 (cat. World spp.).

Genus UROSIGALPHUS Subgenus BRUCHIUROSIGALPHUS Gibson

Urosigalpus subg. *Bruchiurosigalpus* Gibson, 1972. Ent. Soc. Amer., Misc. Pub. 8: 94.

Type-species: *Urosigalpus bruchi* Crawford. Orig. desig.

bruchi Crawford. La., Tex., Ariz.; Hawaii, Mexico. Host: *Algarobius prosopis* (Lec.), *Amblycerus robiniae* (F.), *Mimosestes sallaei* (Sharp).

Urosigalpus bruchi Crawford, 1907. N. Y. Ent. Soc., Jour. 15: 181. ♀, ♂.

bruchivorus Crawford. Ariz., Calif. Host: *Algarobius prosopis* (Lec.), *Neltumius arizonensis* (Sch.).

Urosigalpus bruchivorus Crawford, 1914. Insecutor Inscitiae Menstruus 2: 25. ♀, ♂.

Urosigalpus arizonensis Crawford, 1914. Insecutor Inscitiae Menstruus 2: 25. ♀, ♂.

Urosigalpus truncatus Martin, 1956. Canada Dept. Agr. Pub. 965, p. 122. ♀.

ignotus Gibson. Calif.

Urosigalpus (Bruchiurosigalpus) ignotus Gibson, 1972. Ent. Soc. Amer., Misc. Pub. 8: 98. ♀.

neobruchi Gibson. Kans., Tex., Ariz.; Mexico. Host: *Acanthoscelides quadridentatus* (Sch.), *Algarobius prosopis* (Lec.), *Amblycerus robiniae* (F.), *Merobruchus* sp.

Urosigalpus (Bruchiurosigalpus) neobruchi Gibson, 1972. Ent. Soc. Amer., Misc. Pub. 8: 99. ♀, ♂.

salsola Gibson. Tex., Ariz.

Urosigalpus (Bruchiurosigalpus) salsola Gibson, 1972. Ent. Soc. Amer., Misc. Pub. 8: 100. ♀, ♂.

Genus UROSIGALPHUS Subgenus MICROUROSIGALPHUS Gibson

Urosigalpus subg. *Microurosigalpus* Gibson, 1972. Ent. Soc. Amer., Misc. Pub. 8: 87.

Type-species: *Urosigalpus femoratus* Crawford. Orig. desig.

acutulus Gibson. Colo., Ariz.

Urosigalpus (Microurosigalpus) acutulus Gibson, 1972. Ent. Soc. Amer., Misc. Pub. 8: 89. ♀, ♂.

breviovipositorus Gibson. Kans., Tex., Colo., N. Mex., Ariz.; Mexico.

Urosigalpus (Microurosigalpus) breviovipositorus Gibson, 1972. Ent. Soc. Amer., Misc. Pub. 8: 90. ♀, ♂.

femoratus Crawford. Conn. s. to Ga., w. to S. Dak. and Ariz.; Mexico. Host: *Anthonomus grandis* Boh., *Tyloderma foveolata* Say.

Urosigalpus femoratus Crawford, 1914. Insecutor Inscitiae Menstruus 2: 26. ♀, ♂.

Urosigalpus mohawkorum Viereck, 1917 (1916). Conn. State Geol. and Nat. Hist. Survey, Bul. 22, p. 234. ♀.

iowensis Gibson. Ill., Iowa, Nebr., Kans., N. Mex., Utah, Ariz.

Urosigalpus (Microurosigalpus) iowensis Gibson, 1972. Ent. Soc. Amer., Misc. Pub. 8: 92. ♀, ♂.

neomexicanus Crawford. Iowa, Mo., Ark., Tex., Colo., N. Mex., Ariz.

Urosigalpus neomexicanus Crawford, 1914. Insecutor Inscitiae Menstruus 2: 26. ♀, ♂.

Genus UROSIGALPHUS Subgenus NEOUROSIGALPHUS Gibson

Urosigalpus subg. *Neourosigalpus* Gibson, 1972. Ent. Soc. Amer., Misc. Pub. 8: 122.

Type-species: *Urosigalpus robustus* Ashmead. Orig. desig.

- hubbardi** Crawford. Ariz., Calif. Host: *Cylindrocopturus longulus* (Lec.).
Urosigalpus hubbardi Crawford, 1914. Insecutor Inscitiae Menstruus 2: 23. ♂.
Urosigalpus pini Cushman, 1922. U. S. Natl. Mus., Proc. 60 (21): 26. ♂.
- neopunctifrons** Gibson. Ariz; Mexico.
Urosigalpus (Neurosigalpus) neopunctifrons Gibson, 1972. Ent. Soc. Amer., Misc. Pub. 8: 125. ♀, ♂.
- nigripes** Crawford. Ariz.
Urosigalpus nigripes Crawford, 1914. Insecutor Inscitiae Menstruus 2: 24. ♀.
- otidocephali** Cushman. Pa., N. C. Host: *Myrmex myrmex* (Hbst.).
Urosigalpus otidocephali Cushman, 1922. U. S. Natl. Mus., Proc. 60 (21): 25. ♂.
- punctifrons** Crawford. N. Mex., Ariz; Mexico.
Urosigalpus punctifrons Crawford, 1914. Insecutor Inscitiae Menstruus 2: 24. ♂.
- robustus** Ashmead. Mass., Conn., N. J., Md., D. C., Va., Mich., Wis., Ark.
Urosigalpus robustus Ashmead, 1889 (1888). U. S. Natl. Mus., Proc. 11: 638. ♀.
Urosigalpus wampanoagorum Viereck, 1917 (1916). Conn. State Geol. and Nat. Hist. Survey, Bul. 22, p. 234. ♀.

Genus UROSIGALPHUS Subgenus PARAUROSIGALPHUS Gibson

- Urosigalpus* subg. *Paraurosigalpus* Gibson, 1972. Ent. Soc. Amer., Misc. Pub. 8: 128.
 Type-species: *Urosigalpus (Paraurosigalpus) dakotaensis* Gibson. Orig. desig.
clarus Gibson. N. J., Md.
Urosigalpus (Paraurosigalpus) clarus Gibson, 1972. Ent. Soc. Amer., Misc. Pub. 8: 129. ♀, ♂.
- dakotaensis** Gibson. Iowa, S. Dak., Nebr.
Urosigalpus (Paraurosigalpus) dakotaensis Gibson, 1972. Ent. Soc. Amer., Misc. Pub. 8: 130. ♀, ♂.
- novissimus** Gibson. Kans.
Urosigalpus (Paraurosigalpus) novissimus Gibson, 1972. Ent. Soc. Amer., Misc. Pub. 8: 131. ♂.
- rugosocorpus** Gibson. Ariz.
Urosigalpus (Paraurosigalpus) rugosocorpus Gibson, 1972. Ent. Soc. Amer., Misc. Pub. 8: 132. ♂.

Genus UROSIGALPHUS Subgenus UROSIGALPHUS Ashmead

- Urosigalpus* Ashmead, 1889 (1888). U. S. Natl. Mus., Proc. 11: 637.
 Type-species: *Urosigalpus armatus* Ashmead. Orig. desig.
Rhyssosigalpus Cameron, 1904. Amer. Ent. Soc., Trans. 30: 260.
 Type-species: *Rhyssosigalpus rugosus* Cameron. Monotypic.
- anthonomi** Crawford. Tex.; Mexico. Host: *Anthonomus grandis* Boh., *Chalcodermus aeneus* Boh.
Urosigalpus anthonomi Crawford, 1907. Canad. Ent. 39: 133. ♀, ♂.
- armatus** Ashmead. Md., W. Va., Va., Tenn. Host: *Curculio caryatrypes* (Boh.).
Urosigalpus armatus Ashmead, 1889 (1888). U. S. Natl. Mus., Proc. 11: 637. ♀, ♂.
- barberi** Crawford. Pa. s. to Fla., w. to Wis. and N. Mex. Host: *Curculio* spp. in acorns, *C. pardalis* (Chitt.).
Urosigalpus barberi Crawford, 1914. Insecutor Inscitiae Menstruus 2: 23. ♀.
- confusor** Gibson. Tex., Ariz.
Urosigalpus (Urosigalpus) confusor Gibson, 1972. Ent. Soc. Amer., Misc. Pub. 8: 106. ♀, ♂.
- crassisculptus** Cushman. Pa., Mich., Wis., Ill. Host: *Curculio neocorylus* Gibson.
Urosigalpus crassisculptus Cushman, 1922. U. S. Natl. Mus., Proc. 60 (21): 23. ♂.
- curculionis** Gibson. Que. s. to N. C., w. to Wis. and Ark. Host: *Curculio nasicus* (Say), *C. strictus* (Casey).
Urosigalpus (Urosigalpus) curculionis Gibson, 1972. Ent. Soc. Amer., Misc. Pub. 8: 108. ♀, ♂.

- donnae** Gibson. Conn. s. to Fla., w. to Wis. and Ark. Host: *Curculio proboscideus* F.
Urosigalphus (Urosigalphus) donnae Gibson, 1972. Ent. Soc. Amer., Misc. Pub. 8: 110. ♀,
♂.
- floridaensis** Gibson. Fla.
Urosigalphus (Urosigalphus) floridaensis Gibson, 1972. Ent. Soc. Amer., Misc. Pub. 8: 111.
♀.
- forbesi** Martin. Que. s. to Ga., w. to Wis. and Tex. Host: *Curculio* sp., *C. sulcatulus* (Casey).
Urosigalphus forbesi Martin, 1956. Canada Dept. Agr. Pub. 965, p. 118. ♀.
- muesebecki** Gibson. N. J., S. C., Ga., Ky., Tenn., Wis., Iowa, Ill. Host: *Curculio longidens* Chitt., *C. orthorhynchus* (Chitt.).
Urosigalphus (Urosigalphus) muesebecki Gibson, 1972. Ent. Soc. Amer., Misc. Pub. 8: 115.
♀, ♂.
- neoarmatus** Gibson. Colo.
Urosigalphus (Urosigalphus) neoarmatus Gibson, 1972. Ent. Soc. Amer., Misc. Pub. 8: 116.
♀.
- nigrescens** Martin. Ariz.
Urosigalphus nigrescens Martin, 1956. Canada Dept. Agr. Pub. 965, p. 115. ♂.
- pardus** Gibson. Calif. Host: *Curculio pardus* Chitt.
Urosigalphus (Urosigalphus) pardus Gibson, 1972. Ent. Soc. Amer., Misc. Pub. 8: 119. ♀,
♂.
- rubidus** Gibson. W. Va.
Urosigalphus (Urosigalphus) rubidus Gibson, 1972. Ent. Soc. Amer., Misc. Pub. 8: 119. ♀.
- rufus** Gibson. Ala. Host: *Curculio* sp.
Urosigalphus (Urosigalphus) rufus Gibson, 1972. Ent. Soc. Amer., Misc. Pub. 8: 120. ♀.
- subtropicus** Gibson. Ga., Fla., Miss., N. Mex. Host: *Curculio sulcatulus* (Casey).
Urosigalphus (Urosigalphus) subtropicus Gibson, 1972. Ent. Soc. Amer., Misc. Pub. 8: 121.
♀, ♂.

TRIBE ORGILINI

Species in this group are internal parasites of lepidopterous larvae.

Taxonomy: Muesebeck, 1970. Smithson. Contrib. Zool. n. 30, p. 1-2 (key to genera of subfamily Orgilinae).

Genus CHARMON Haliday

Charmon Haliday, 1833. Ent. Mag. 1: 262.

Type-species: *Charmon cruentatus* Haliday. Monotypic.

Provancheria Ashmead, 1900. U. S. Natl. Mus., Proc. 23: 109.

Type-species: *Eubadizon gracilis* Provancher. Orig. desig.

Taxonomy: Mason, 1974. Ent. Soc. Wash., Proc. 76: 235-245.

extensor (Linnaeus). Holarctic. Host: *Ancylis comptana fragariae* (W. and R.), *Choristoneura murinana* (Hbn.), *Depressaria pastinacella* (Dup.), *Epinotia lindana* (Fern.), *E. nigricana* (H.-S.), *E. pusillana* Peyer, *Grapholita molesta* (Busck), *Laspeyresia pomonella* (L.), *Spilonota lariciana* Heinemann, *Zeiraphera griseana* (Hbn.), *Z. rufimitrana* (H.-S.).

Ichneumon extensor Linnaeus, 1758. Syst. Nat., Ed. 10, p. 564.

Charmon cruentatus Haliday, 1833. Ent. Mag. 1: 262.

Eubadizon pectoralis Nees, 1834. Hym. Ichn. Aff. Monog., v. 1, p. 236. ♀.

Eubadizon pleuralis Cresson, 1872. Canad. Ent. 4: 230. ♀, ♂.

Biology: Capek, 1956. Biologia 11: 602. — Allen, 1962. U. S. Dept. Agr., Tech. Bul. 1265, p. 27-29.

gracilis (Provancher). Canada, Maine, N. H., Mass., Wis., Minn., Oreg., Calif. Host: *Actelis variana* (Fern.), *Archips* sp., *Choristoneura fumiferana* (Clem.), *Coleotechnites*

apicitripunctella (Clem.), *C. milleri* (Busch), *C. piceaella* Kearf., *C. starki* (Freem.),
Dioryctria reniculella (Grote), *Eucordylea ducharmeii* Freem.
Eubadizon gracilis Provancher, 1880. Nat. Canad. 12. 171. ♀.

Genus MICROTYPUS Ratzeburg

Microtypus Ratzeburg, 1848. Ichn. d. Forstins., v. 2, p. 47.

Type-species: *Microtypus wesmaeli* Ratzeburg. Monotypic.

Taxonomy: Shenefelt, 1970. Hym. Cat., part 5, p. 264-266 (cat. World spp.).

dioryctriæ Rohwer. Calif. Host: *Dioryctria auranticella* (Grote).

Microtypus dioryctriæ Rohwer, 1920. U. S. Natl. Mus., Proc. 57: 227. ♀, ♂.

Genus ORGILUS Haliday

Orgilus Haliday, 1833. Ent. Mag. 1: 262.

Type-species: *Microdus obscurator* Nees. Monotypic.

Ischiurus Wesmael, 1837. Nouv. Mem. Acad. Sci. Bruxelles 10: 20.

Type-species: *Microdus obscurator* Nees. Desig. by Muesebeck and Walkley, 1951.

Macropalpus Ratzeburg, 1844. Ichn. d. Forstins., v. 1, p. 56.

Type-species: *Eubadizon leptcephalus* Hartig. Monotypic.

Oresimus Ashmead, 1900. U. S. Natl. Mus., Proc. 23: 123.

Type-species: *Eubadizon maculiventris* Cresson. Monotypic.

Orgilomorpha Ashmead, 1900. U. S. Natl. Mus., Proc. 23: 129.

Type-species: *Ganychorus gelechiae* Ashmead. Monotypic.

Orgilus subg. *Ischiolus* Hellen, 1958. Soc. Fauna Flora Fennica. Fauna Fennica 4, p. 34.

Type-species: *Microgaster rugosus* Nees. Monotypic.

Species are endoparasites of lepidopterous larvae.

Revision: Muesebeck, 1970. Smithsn. Contrib. Zool., n. 30, 104 p. (No. Amer. spp.).

Taxonomy: Shenefelt, 1970. Hym. Cat., part 5, p. 252-263 (cat. World spp.).

ablusus Muesebeck. Ont., Minn.

Orgilus ablusus Muesebeck, 1970. Smithsn. Contrib. Zool., n. 30, p. 11. ♀.

absonus Muesebeck. Nev., Calif.

Orgilus absonus Muesebeck, 1970. Smithsn. Contrib. Zool., n. 30, p. 12. ♀, ♂.

agrestis Muesebeck. Alta., Oreg.

Orgilus agrestis Muesebeck, 1970. Smithsn. Contrib. Zool., n. 30, p. 13. ♀.

alacer Muesebeck. Nebr., Colo.

Orgilus alacer Muesebeck, 1970. Smithsn. Contrib. Zool., n. 30, p. 13. ♀.

anthracinus Muesebeck. Que., N. W. T., B. C.

Orgilus anthracinus Muesebeck, 1970. Smithsn. Contrib. Zool., n. 30, p. 14. ♀, ♂.

arcticus Muesebeck. Labrador, Yukon.

Orgilus arcticus Muesebeck, 1970. Smithsn. Contrib. Zool., n. 30, p. 15. ♀, ♂.

balsamea Muesebeck. Que., N. S., N. B., Maine, N. Y., W. Va., Ont., Mich., Wis. Host:

Coleotechnites sp., *C. piceaella* (Kearf.), *Evagora* sp., *Zetraphera* sp.

Orgilus balsamea Muesebeck, 1970. Smithsn. Contrib. Zool., n. 30, p. 17. ♀, ♂.

boharti Muesebeck. Calif. Host: *Crambus* sp.

Orgilus boharti Muesebeck, 1970. Smithsn. Contrib. Zool., n. 30, p. 17. ♀, ♂.

buccatus Muesebeck. N. Y.

Orgilus buccatus Muesebeck, 1970. Smithsn. Contrib. Zool., n. 30, p. 18. ♀.

burksi Muesebeck. N. C.

Orgilus burksi Muesebeck, 1970. Smithsn. Contrib. Zool., n. 30, p. 18. ♀.

californicus (Provancher). Calif. Host: *Phthorimaea operculella* (Zell.).

Eubadizon californicus Provancher, 1888. Addit. Corr. Faune Ent. Canada Hym., p. 383.
♀.

capsicola Muesebeck. Tex. Host: *Symmetrischema capsicum* (B. and P.).

Orgilus capsicola Muesebeck, 1970. Smithsn. Contrib. Zool., n. 30, p. 20. ♀, ♂.

cerinus Muesebeck. Ariz.

Orgilus cerinus Muesebeck, 1970. Smithsn. Contrib. Zool., n. 30, p. 21. ♀.

cinctus Muesebeck. Mass., N. Y.

Orgilus cinctus Muesebeck, 1970. Smithsn. Contrib. Zool., n. 30, p. 21. ♀.

citus Muesebeck. Que., Labrador, Ont., N. Dak.

Orgilus citus Muesebeck, 1970. Smithsn. Contrib. Zool., n. 30, p. 22. ♀, ♂.

clivicola Muesebeck. Colo.

Orgilus clivicola Muesebeck, 1970. Smithsn. Contrib. Zool., n. 30, p. 23. ♀.

cognatus Muesebeck. Utah.

Orgilus cognatus Muesebeck, 1970. Smithsn. Contrib. Zool., n. 30, p. 24. ♀.

coleophorae Muesebeck. Que. and N. S. s. to Va., w. to Ont. and Iowa; Alaska. Host:

Coleophora cretaticostella Clem., *C. fuscedinella* Zell., *C. laricella* Hbn., *C. monardella*

McD., *C. ulmifoliella* McD., *C. umbratica* Braun, *Coleotechnites thujaella* Kearf.

Orgilus coleophorae Muesebeck, 1970. Smithsn. Contrib. Zool., n. 30, p. 24. ♀, ♂.

coloradensis Muesebeck. Colo.

Orgilus coloradensis Muesebeck, 1970. Smithsn. Contrib. Zool., n. 30, p. 25. ♀, ♂.

compactus Muesebeck. Oreg.

Orgilus compactus Muesebeck, 1970. Smithsn. Contrib. Zool., n. 30, p. 26. ♀.

comptanae Muesebeck. Que. s. to Fla.; Ill., Miss. Host: *Ancylis comptana* (Froel.).

Orgilus comptanae Muesebeck, 1970. Smithsn. Contrib. Zool., n. 30, p. 27. ♀, ♂.

conflictanae Muesebeck. Colo. Host: *Choristoneura conflictana* (Wlkr.).

Orgilus conflictanae Muesebeck, 1970. Smithsn. Contrib. Zool., n. 30, p. 28. ♀.

consuetus Muesebeck. Md., W. Va., N. C., Fla., Ont., Mich., Wis., Ill., La., N. Dak. Host:

Laspeyresia caryana (Fitch), *Valentinia glandulella* (Riley).

Orgilus consuetus Muesebeck, 1970. Smithsn. Contrib. Zool., n. 30, p. 28. ♀.

coracinus Muesebeck. Calif.

Orgilus coracinus Muesebeck, 1970. Smithsn. Contrib. Zool., n. 30, p. 29. ♀.

cristatus Muesebeck. Calif.

Orgilus cristatus Muesebeck, 1970. Smithsn. Contrib. Zool., n. 30, p. 30. ♀.

cuneatus (Provancher). Que.

Blacus cuneatus Provancher, 1888. Addit. Corr. Faune Ent. Canada Hym., p. 383. ♀.

detectiformis Viereck. Que. and N. B. s. to Ga., w. to Ont., S. Dak., and Iowa. Host: *Crambus trisectus* (Wlkr.).

Orgilus detectiformis Viereck, 1917 (1916). Conn. State Geol. and Nat. Hist. Survey, Bul. 22, p. 226. ♂.

detectus Provancher. Que.

Orgilus detectus Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 139. ♀.

dioryctriae Gahan. Colo., Calif. Host: *Choristoneura lambertiana ponderosana* Obraz.,

Coleotechnites milleri (Busck), *Dioryctria auranticella* (Grote).

Orgilus dioryctriae Gahan, 1919. U. S. Natl. Mus., Proc. 55: 121. ♀, ♂.

disscrepans Muesebeck. Ariz.

Orgilus disscrepans Muesebeck, 1970. Smithsn. Contrib. Zool., n. 30, p. 34. ♀, ♂.

disparilis Muesebeck. Conn., D. C., Fla.

Orgilus disparilis Muesebeck, 1970. Smithsn. Contrib. Zool., n. 30, p. 35. ♀, ♂.

dissidens Muesebeck. Maine, N. Y., Ont.

Orgilus dissidens Muesebeck, 1970. Smithsn. Contrib. Zool., n. 30, p. 35. ♀.

dolosus Muesebeck. Ont.

Orgilus dolosus Muesebeck, 1970. Smithsn. Contrib. Zool., n. 30, p. 36. ♀.

dreisbachi Muesebeck. Nebr., Okla., Ariz.

Orgilus dreisbachi Muesebeck, 1970. Smithsn. Contrib. Zool., n. 30, p. 37. ♀, ♂.

ejuncidus Muesebeck. Maine.

Orgilus ejuncidus Muesebeck, 1970. Smithsn. Contrib. Zool., n. 30, p. 38. ♀.

- elasmopalpi** Muesebeck. N. C., S. C., Ga., Fla., Okla., Tex.; Jamaica. Host: *Diatraea saccharalis* (F.), *Elasmopalpus lignosellus* Zell.
- Orgilus elasmopalpi* Muesebeck, 1970. Smithsn. Contrib. Zool. n. 30, p. 38. ♀.
- erythropus** Muesebeck. Utah.
- Orgilus erythropus* Muesebeck, 1970. Smithsn. Contrib. Zool., n. 30, p. 39. ♀.
- exilis** Muesebeck. Oreg.
- Orgilus exilis* Muesebeck, 1970. Smithsn. Contrib. Zool., n. 30, p. 40. ♀.
- fallax** Muesebeck. Calif.
- Orgilus fallax* Muesebeck, 1970. Smithsn. Contrib. Zool., n. 30, p. 41. ♀.
- femoralis** Muesebeck. N. Dak., Colo., Idaho.
- Orgilus femoralis* Muesebeck, 1970. Smithsn. Contrib. Zool., n. 30, p. 42. ♀.
- ferus** Muesebeck. Mont., N. Mex., Idaho, Utah, Wash., Calif. Host: *Aroga websteri* Clarke.
- Orgilus ferus* Muesebeck, 1970. Smithsn. Contrib. Zool. n. 30, p. 42. ♀, ♂.
- fictus** Muesebeck. Pa., Mich.
- Orgilus fictus* Muesebeck, 1970. Smithsn. Contrib. Zool., n. 30, p. 43. ♀.
- fisheri** Muesebeck. Conn.
- Orgilus fisheri* Muesebeck, 1970. Smithsn. Contrib. Zool., n. 30, p. 44. ♀.
- frigidus** Muesebeck. N. W. T.
- Orgilus frigidus* Muesebeck, 1970. Smithsn. Contrib. Zool., n. 30, p. 45. ♀.
- fulgens** Muesebeck. Md., Mich.
- Orgilus fulgens* Muesebeck, 1970. Smithsn. Contrib. Zool., n. 30, p. 45. ♂.
- gelechiae** (Ashmead). Que. and N. S. s. to Fla., w. to Ont. and Tex. Host: *Bucculatrix* sp., *Caloptilia* sp., *Cameraria hamadryadella* (Clem.), *Evippe prunifoliella* Chamb., *Lithocletis* sp., *L. cincinnatiella* Chamb.
- Ganychorus?* *gelechiae* Ashmead, 1889 (1888). U. S. Natl. Mus., Proc. 11: 645. ♀.
- Eubadizon lithocletididis* Viereck, 1912. U. S. Natl. Mus., Proc. 42: 622. ♀.
- gelechiavorus** Cushman. N. J., Va., Fla., Ky., Ala., Iowa, Ark., Tex. Host: *Aroga trialbamaculella* (Chamb.), *Grapholitha molesta* (Busck), *Laspeyresia caryana* (Fitch).
- Orgilus gelechiavora* Cushman, 1920. U. S. Natl. Mus., Proc. 58: 291. ♀.
- glacialis** Muesebeck. Alaska.
- Orgilus glacialis* Muesebeck, 1970. Smithsn. Contrib. Zool., n. 30, p. 48. ♀.
- gracilis** (Brues). Man., Minn., N. Dak.
- Blacus gracilis* Brues, 1908. Wis. Nat. Hist. Soc., Bul. 6: 55. ♀.
- gramineus** Muesebeck. Alta.
- Orgilus gramineus* Muesebeck, 1970. Smithsn. Contrib. Zool., n. 30, p. 49. ♀.
- grapholithae** Muesebeck. Oreg. Host: *Grapholitha conversana* Wlsm.
- Orgilus grapholithae* Muesebeck, 1970. Smithsn. Contrib. Zool., n. 30, p. 50. ♀, ♂.
- hyalinus** Muesebeck. Alta.
- Orgilus hyalinus* Muesebeck, 1970. Smithsn. Contrib. Zool., n. 30, p. 51. ♂.
- imitator** Muesebeck. Tex., Oreg., Calif.; Mexico.
- Orgilus imitator* Muesebeck, 1970. Smithsn. Contrib. Zool., n. 30, p. 52. ♀, ♂.
- immarginatus** Muesebeck. Ill., Fla., Miss. Host: *Acrobasis juglandis* (LeB.), *Gretchenella bolliana* (Sling.), *Laspeyresia caryana* (Fitch).
- Orgilus immarginatus* Muesebeck, 1970. Smithsn. Contrib. Zool., n. 30, p. 52. ♀, ♂.
- impiger** Muesebeck. Idaho, Utah, Nev., Calif.
- Orgilus impiger* Muesebeck, 1970. Smithsn. Contrib. Zool., n. 30, p. 53. ♀.
- indagator** Muesebeck. Que., Mich., Ind., Minn., Iowa. Host: *Trichotaphe levisella* Fyles.
- Orgilus indagator* Muesebeck, 1967. Ent. News 78: 135. ♀, ♂.
- infrequens** Muesebeck. Mass., Va., Fla., Tex.
- Orgilus infrequens* Muesebeck, 1970. Smithsn. Contrib. Zool., n. 30, p. 54. ♀.
- inopinus** Muesebeck. Iowa, Ark., N. Dak.
- Orgilus inopinus* Muesebeck, 1970. Smithsn. Contrib. Zool., n. 30, p. 55. ♀, ♂.
- insularis** Muesebeck. P. E. I., Ont.
- Orgilus insularis* Muesebeck, 1970. Smithsn. Contrib. Zool., n. 30, p. 55. ♀.

- intermedius** Muesebeck. Md., Va., Iowa.
Orgilus intermedius Muesebeck, 1970. Smithsn. Contrib. Zool., n. 30, p. 56. ♀, ♂.
- invictus** Muesebeck. Labrador.
Orgilus invictus Muesebeck, 1970. Smithsn. Contrib. Zool., n. 30, p. 57. ♀.
- laeviventris** (Cresson). Tex.
Ischius laeviventris Cresson, 1872. Amer. Ent. Soc., Trans. 4: 182. ♂.
- lateralis** (Cresson). Que. s. to Fla., w. to Ont. and Tex.; Ariz., Calif.; Mexico. Host: *Acrobasis caryae* Grote, *A. comptoniella* Hulst, *A. indigenella* (Zell.), *A. juglandis* (LeB.), *Choristoneura fumiferana* (Clem.), *Coleotechnites juniperella* (Kearf.), *C. mackiei* (Keifer), *C. piceella* (Kearf.), *C. thujaella* Kearf., *Coleophora* sp., *C. laticornella* Clem., *C. ulmifoliella* McD., *Mompha* sp., *Nephopterix subfuscella* (Rag.), *Petrova albicapitana* Busck.
- Eubadizon lateralis* Cresson, 1872. Canad. Ent. 4: 229. ♂.
Orgilus kearfotti Ashmead, 1903. N. Y. Ent. Soc., Jour. 11: 144. ♂.
- Biology: Nickels, Pierce and Pinkney, 1950. U. S. Dept. Agr., Tech. Bul. 1011, p. 12 (as *Orgilus maculiventris*).
- lautus** Muesebeck. Mich.
Orgilus laetus Muesebeck, 1970. Smithsn. Contrib. Zool., n. 30, p. 59. ♀.
- lepidus** Muesebeck. Calif. (?); Argentina, Uruguay. Liberated in Calif. but not known to be established. Introduced from Argentina and Uruguay. Host: *Phthorimaea operculella* (Zell.).
Orgilus lepidus Muesebeck, 1967. Ent. Soc. Wash., Proc. 69: 177. ♀, ♂.
- Biology: Oatman, Platner and Greany, 1969. Ent. Soc. Amer., Ann. 62: 1407-1414. —Greany and Oatman, 1972. Ent. Soc. Amer., Ann. 65: 375-383.
- levis** Muesebeck. Fla.
Orgilus levius Muesebeck, 1970. Smithsn. Contrib. Zool., n. 30, p. 60. ♂.
- lissus** Muesebeck. Calif.
Orgilus lissus Muesebeck, 1970. Smithsn. Contrib. Zool., n. 30, p. 61. ♀.
- longiceps** Muesebeck. East. U. S. (?); Japan. Liberated in eastern U. S. but not known to be established. Introduced from Japan. Host: *Grapholita molesta* Busck.
Orgilus longiceps Muesebeck, 1933. Ent. Soc. Wash., Proc. 35: 52. ♀, ♂.
- lunaris** Muesebeck. Idaho, Calif.
Orgilus lunaris Muesebeck, 1970. Smithsn. Contrib. Zool., n. 30, p. 61. ♀.
- macrurus** Muesebeck. Que., N. Y., Md., W. Va., Va., Ont., Colo.
Orgilus macrurus Muesebeck, 1970. Smithsn. Contrib. Zool., n. 30, p. 62. ♀, ♂.
- maculiventris** (Cresson). Mass., Va., Fla., La., Tex. Host: *Antaeotricha humilis* (Zell.).
Eubadizon maculiventris Cresson, 1872 Amer. Ent. Soc., Trans. 4: 178. ♂.
- medicaginis** Muesebeck. Tex., N. Mex., Ariz., Calif.; Mexico.
Orgilus medicaginis Muesebeck, 1970. Smithsn. Contrib. Zool., n. 30, p. 64. ♀, ♂.
- melioppis** Muesebeck. Oreg., Calif. Host: *Melissopus latiferranus* (Wlsm.).
Orgilus melioppis Muesebeck, 1970. Smithsn. Contrib. Zool., n. 30, p. 65. ♀, ♂.
- mellipes** (Say). W. Va., Va., Fla., Mich., Ind., Ala., Ill., Mo., La. Host: *Keiferia inconspicuella* (Murtf.), *Phthorimaea operculella* (Zell.).
Microgaster mellipes Say, 1836. Boston Jour. Nat. Hist. 1: 261. ♂.
Eubadizon incognitus Ashmead, 1889 (1888). U. S. Natl. Mus., Proc. 11: 644. ♀.
- mimicus** Muesebeck. Calif.
Orgilus mimicus Muesebeck, 1970. Smithsn. Contrib. Zool., n. 30, p. 67. ♀.
- modicus** Muesebeck. Ga., Fla., Ark., La., Okla., Tex. Host: *Stegasta bosquella* (Chamb.).
Orgilus modicus Muesebeck, 1970. Smithsn. Contrib. Zool., n. 30, p. 68. ♀, ♂.
- momphae** Muesebeck. N. Y., Pa., N. J., Va., Ont., Mich., Ohio, Minn. Host: *Mompha eloisella* Clem.
Orgilus momphae Muesebeck, 1970. Smithsn. Contrib. Zool., n. 30, p. 68. ♀, ♂.
- monticola** Muesebeck. Idaho.
Orgilus monticola Muesebeck, 1970. Smithsn. Contrib. Zool. n. 30, p. 69. ♀.

morulus Muesebeck. Que.*Orgilus morulus* Muesebeck, 1970. Smithsn. Contrib. Zool., n. 30, p. 70. ♀.*mundus* Muesebeck. Colo.*Orgilus mundus* Muesebeck, 1970. Smithsn. Contrib. utahensis Muesebeck. Utah.

Orgilus utahensis Muesebeck, 1970. Smithsn. Contrib. Zool., n. 30, p. 88. ♀.

validus Muesebeck. Utah.

Orgilus validus Muesebeck, 1970. Smithsn. Contrib. Zool., n. 30, p. 89. ♂.

vallis Muesebeck. Calif.

Orgilus vallis Muesebeck, 1970. Smithsn. Contrib. Zool., n. 30, p. 90. ♀, ♂.

walleyi Muesebeck. Que., N. Y., Ont., Mich., Okla. Host: *Stegasta bosqueella* (Chamb.).

Orgilus walleyi Muesebeck, 1970. Smithsn. Contrib. Zool. n. 30, p. 91. ♀, ♂.

zonalis Muesebeck. Ind. Host: *Aristotelia absconditella* (Wlkr.).

Orgilus zonalis Muesebeck, 1970. Smithsn. Contrib. Zool., n. 30, p. 92. ♀, ♂.

Genus STANTONIA Ashmead

Stantonia Ashmead, 1904. U. S. Natl. Mus., Proc. 28: 146.

Type-species: *Stantonia flava* Ashmead. Monotypic.

Mimagathis Enderlein, 1905. Zool. Anz. 28: 450.

Type-species: *Mimagathis ashmeadi* Enderlein. Desig. by Viereck, 1914.

Taxonomy: Muesebeck, 1970. Smithsn. Contrib. Zool., n. 30, p. 1. — Shenefelt, 1970. Hym.

Cat., part 5, p. 263-264, 266-268 (cat. World spp.).

carpocapsae Muesebeck. Va., N. C., Ky., Tex. Host: *Desmia funeralis* (Hbn.), *Eustixia pupula* Hbn., *Harrisonia americana* (Guer.), *Laspeyresia pomonella* (L.).

Stantonia carpocapsae Muesebeck, 1938. Ent. Soc. Wash., Proc. 40: 90. ♀.

UNPLACED TAXON OF BLACINAE

Blacus(?) longicaudus Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 133. ♀.

SUBFAMILY NEONEURINAE

Species in this small group are internal parasites of ants and are rarely collected.

Revision: Muesebeck, 1922. U. S. Natl. Mus., Proc. 61 (15): 3-6 (No. Amer. spp.).

Genus ELASMOSOMA Ruthe

Elasmosoma Ruthe, 1858. Berlin. Ent. Ztschr. 2: 7.

Type-species: *Elasmosoma berolinensa* Ruthe. Monotypic.

Paramirax Ashmead, 1895. Ent. Soc. Wash., Proc. 3: 281.

Type-species: *Paramirax schwarzi* Ashmead. Monotypic.

Revision: Huddleston, 1976. Mus. Natl. Hung., Ann. Hist.-Nat. 68: 215-225.

bakeri Ashmead. Va., Iowa, Colo., N. Mex., Idaho, Calif.

Elasmosoma bakeri Ashmead, 1895. Ent. Soc. Wash., Proc. 3: 282. ♂.

pergandei Ashmead. Ont. s. to D. C.; N. Dak., Kans., Colo., Wash.; Mongolia. Host:

Camponotus castaneus (Latr.), *Formica integra* Nyl., *F. subsericea* Say.

Elasmosoma pergandei Ashmead, 1895. Ent. Soc. Wash., Proc. 3: 283. ♀.

petulans Muesebeck. Md., Ohio, Wyo. Host: *Formica rubicunda* Emery.

Elasmosoma petulans Muesebeck, 1941. Brooklyn Ent. Soc., Bul. 36: 200. ♀.

schwarzi (Ashmead). Pa., Md., D. C., Ga., Ind. Host: *Formica schaufussi* Mayr, *Polyergus lucidus* Mayr.

Paramirax schwarzi Ashmead, 1895. Ent. Soc. Wash., Proc. 3: 283. ♀.

vigilans Cockerell. Wis., Colo. Host: *Formica subpolita* Mayr.

Elasmosoma vigilans Cockerell, 1909. Ent. Soc. Wash., Proc. 10: 168. ♀.

Genus NEONEURUS Haliday

Neoneurus Haliday, 1838. Ent. Mag. 5: 213. No species included.

Type-species: *Neoneurus halidaii* Marshall. Subsequent monotypy. First included species by Marshall, 1897. Ent. Mon. Mag. 8: 149.

Eclites Foerster, 1862. Naturh. Ver. Rheinlande, Verh. 19: 244.

Type-species: *Eclites clypeatus* Foerster. Orig. desig.

One undescribed species occurs in North America.

SUBFAMILY EUPHORINAE

This is the most specialized group of the Braconidae. Although the adult and larval morphology is rather homogenous, the subfamily can be divided into two groups from the viewpoint of biology: the Meteorini, most of which are parasites of lepidopterous larvae, and the Euphorini and Cosmophorini, which are parasites of nymphs and adult insects of various orders. Tobias (1965, 1966) has studied this group and included several other subfamilies and genera. However, his arrangement apparently groups together some rather unrelated elements and is, therefore, not followed in this catalog.

Revision: Muesebeck, 1936. U. S. Dept. Agr., Misc. Pub. 241, 38 p. (World genera, No. Amer. spp.).

Taxonomy: Tobias, 1965. Ent. Obozr. 44: 841-865. — Tobias, 1966. Ent. Obozr. 45: 612-633 (key to World genera). — Shenefelt, 1969. Hym. Cat., part 4, p. 4-137 (cat. World spp.).

TRIBE METEORINI

Genus METEORUS Haliday

Perilitus subg. *Meteorus* Haliday, 1835. Ent. Mag. 3: 24.

Type-species: *Ichnemon pendulator* Latreille. Desig. by Westwood, 1839.

Protelus Foerster, 1862. Naturh. Ver. Rheinlande, Verh. 19: 253.

Type-species: *Bracon chrysopthalmus* Nees. Orig. desig.

Saprotichus Holmgren, 1868. Eug. Ress. I, Zool. I, Ins., p. 430.

Type-species: *Saprotichus chinensis* Holmgren. Desig. by Viereck, 1914.

Pachythecus Cameron, 1912. Soc. Ent. 27: 84.

Type-species: *Pachythecus ruficeps* Cameron. Desig. by Viereck, 1914.

Most species are endoparasites of larvae of Lepidoptera, but a few parasitize larvae of Coleoptera.

Revision: Muesebeck, 1923. U. S. Natl. Mus., Proc. 63: 1-44 (No. Amer. spp.).

Taxonomy: Tobias, 1966. Ent. Obozr. 45: 615-617. — Shenefelt, 1969. Hym. Cat., part 4, p. 48-101 (cat. World spp.).

acronyctae Muesebeck. Colo., N. Mex., Utah, Ariz. Host: *Acroneicta* sp., *Halisdioda* sp., *H. ingens* Hy. Edw., *Hyphantria cunea* (Drury).

Meteorus acronyctae Muesebeck, 1923. U. S. Natl. Mus., Proc. 63: 35. ♀, ♂.

angustipennis Muesebeck. Mass., Conn., N. Y., Pa., N. J., Md., W. Va., Ohio, Tenn., Iowa.

Meteorus angustipennis Muesebeck, 1923. U. S. Natl. Mus., Proc. 63: 19. ♀, ♂.

argyrotaeniae Johansen. Conn., Wis., N. Mex., B. C., Wash., Oreg., Calif., Alaska. Host: *Acleris gloverana* (Wlsm.), *A. variana* (Fern.), *Archips argyrospilus* (Wlkr.), *Argyrotaenia citrana* (Fern.), *Spilonota ocellana* (D. and S.).

Meteorus argyrotaeniae Johansen, 1949. Ent. Soc. Amer., Ann. 42: 319. ♀.

arizonensis Muesebeck. N. Mex., Ariz.

Meteorus arizonensis Muesebeck, 1923. U. S. Natl. Mus., Proc. 63: 34. ♀, ♂.

autographae Muesebeck. Newfoundland s. to Fla., w. to Wis. and La. Host: *Acleris variana* (Fern.), *Agrotis ipsilon* (Hufn.), *Alsophila pomonaria* (Harr.), *Anticarsia gemmatalis* Hbn., *Autographa* sp., *A. biloba* (Steph.), *Autoplusia egena* (Guen.), *Colias eurytheme* Bdyl., *Evergestis straminalis* Hbn., *Heliothis zea* (Boddie), *Orygia leucostigma* (Sm.), *Peridroma saucia* (Hbn.), *Plathypena scabra* (F.), *Pseudaletia unipuncta* (Haw.), *Pseudoplusia includens* (Wlkr.), *Spodoptera eridania* (Cram.), *S. exigua* (Hbn.), *S. frugiperda* (Sm.), *S. ornithogalli* (Guen.), *Trichoplusia ni* (Hbn.), *Udea rubigalis* (Guen.).

Meteorus autographae Muesebeck, 1923. U. S. Natl. Mus., Proc. 63: 30. ♀, ♂.

bakeri Cook and Davis. N. B. s. to N. C., w. to Sask. and Utah; Wash. Host: *Dasychira plagiata* (Wlkr.), *Halisdioda argentata* Pack., *Hyphantria cunea* (Drury), *H. textor* (Harr.).

Meteorus bakeri Cook and Davis, 1891. Mich. Agr. Expt. Sta., Bul. 73: 9. ♂.

- betulinii** Mason. Que., Pa., Md., Mich., Man. Host: *Orchesia* sp.
Meteorus betulinii Mason, 1968. Canad. Ent. 100: 717. ♀, ♂.
- campestris** Viereck. U. S. and Canada. Host: *Dioryctria reniculella* (Grote), *Loxostege commixtalis* (Wlk.), *L. sticticalis* (L.), *Ostrinia nubilalis* (Hbn.), *O. penitalis* (Grote), *Phlyctaenia coronata tertialis* (Guen.), *Pyrausta futilalis* (Led.), *Sparganothis saracana* Kearf.
- Meteorus campestris* Viereck, 1905. Kans. Acad. Sci. Trans. 19: 281. ♀.
Meteorus loxostegei Viereck, 1911. U. S. Natl. Mus., Proc. 39: 401. ♂.
- Biology: Simmonds, 1947. Bul. Ent. Res. 38: 373-379.
- cingiliae** Muesebeck. N. B., Maine, N. H., Mass., R. I., N. Y., Ont. Host: *Cingilia catenaria* (Drury).
Meteorus cingiliae Muesebeck, 1926. U. S. Natl. Mus., Proc. 69: 3. ♀, ♂.
- clinophthalmicus** Shenefelt. Wis.
Meteorus clinophthalmicus Shenefelt, 1961. Ent. Soc. Wash., Proc. 63: 276. ♀, ♂.
- cognatus** Muesebeck. Que., Mich., Calif.
Meteorus cognatus Muesebeck, 1939. Ent. Soc. Wash., Proc. 41: 84. ♀.
- communis** (Cresson). North. U. S. s. to N. C., Colo. and Calif.; Canada; Alaska. Host:
Amphyptera pyramidoides Gn., *Dargida procincta* (Grote), *Eupsilia sidus* (Gn.),
Grapholitha sp., *Lithophane bethunei* (G. and R.), *L. laticinerea* Grote, *Malacosoma americanum* (F.), *Orthosia hibisci* (Gn.), *O. revicta* (Morr.), *Pseudaletia unipuncta* (Haw.).
Perilitus communis Cresson, 1872. Canad. Ent. 4: 82. ♀, ♂.
Perilitus intermedius Cresson, 1872. Canad. Ent. 4: 82. ♀.
Meteorus petiolariferus Viereck, 1917 (1916). Conn. State Geol. and Nat. Hist. Survey, Bul. 22, p. 223. ♂.
Meteorus pretiosus Viereck, 1917 (1916). Conn. State Geol. and Nat. Hist. Survey, Bul. 22, p. 223. ♂.
- datanae** Muesebeck. Maine, Mass., Conn., Pa., N. J., N. C. Host: *Datana angusii* G. and R., *D. integerrima* G. and R., *D. ministra* (Drury).
Meteorus datanae Muesebeck, 1923. U. S. Natl. Mus., Proc. 63: 38. ♀.
- dimidiatus** (Cresson). U. S. and Canada. Host: *Desmia funeralis* (Hbn.), *E pizeuxis* sp.,
Platynota flavedana Clem., *P. idaeusalis* (Wlk.), *P. stultana* Wlsm., *Xenotemna pallorula* (Rob.).
Perilitus dimidiatus Cresson, 1872. Canad. Ent. 4: 83. ♀, ♂.
Meteorus noctivagus Viereck, 1905. Kans. Acad. Sci. Trans. 19: 281. ♀.
- euschauiae** Muesebeck. Colo., N. Mex., Ariz., Wash.; Mexico. Host: *Halisidota argentata* Pack., *H. ingens* Hy. Edw.
Meteorus euschauiae Muesebeck, 1923. U. S. Natl. Mus., Proc. 63: 37. ♀, ♂.
- fumipennis** Muesebeck. Ark., Ariz., B. C., Wash., Calif.
Meteorus fumipennis Muesebeck, 1923. U. S. Natl. Mus., Proc. 63: 20. ♀.
- hicorniae** Muesebeck. Pa., Ohio.
Meteorus hornicoriae Muesebeck, 1923. U. S. Natl. Mus., Proc. 63: 25. ♀.
- humilis** (Cresson). South. Canada and north. U. S. s. to Va. and N. Mex. Host: *Nemapogon granellus* (L.), *Nemapon oregonellus* (Busck), *Orchesia castanea* Melsh., *Platydema ellipticum* (F.).
Perilitus humilis Cresson, 1872. Canad. Ent. 4: 84. ♀.
Perilitus robustus Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 125. ♀.
Meteorus orchesiae Ashmead, 1889 (1888). U. S. Natl. Mus., Proc. 11: 643. ♀, ♂.
Meteorus agilis Viereck, 1903. Amer. Ent. Soc., Trans. 29: 94. ♀, ♂.
- hyphantriae** Riley. U. S. and Canada; Mexico. Host: *Acronicta* sp., *Alsophila pometaria* (Harr.), *Caenurgina erechtea* (Cram.), *Dasychira plagiata* (Wlk.), *Faronta diffusa* (Wlk.), *Halisidota argentata* Pack., *Hemileuca maia* (Drury), *Hyphantria cunea* (Drury), *Hypsoropha hormos* Hbn., *Malacosoma americanum* (F.), *M. disstria* Hbn., *Nepytia canosaria* (Wlk.), *Olethreutes* sp., *Orygia leucostigma* (Sm.), *O. pseudotsugata* McD., *Paleacrita vernata* (Peck), *Perispasta caeculalis* Zell., *Thymelicus lineola* Ochs.

- vitticollis** (Holmgren). Calif.
- Saprotichus vitticollis* Holmgren, 1868. Eug. Resa I., Zool. I., Ins., p. 431. ♂.

NOMINA NUDA IN METEORUS HALIDAY

- Meteorus areolatus* Ashmead, 1902. In Slosson, Ent. News 13: 321.
- Meteorus brevicandus* Ashmead, 1890. In Riley and Howard, U. S. Dept. Agr., Insect Life 3: 57.
- Sapotrichus johnsonii* Ashmead, 1900 (1899). In Smith, Ins. N. J., p. 589.
- Meteorus niger* Ashmead, 1902. In Slosson, Ent. News 13: 321.
- Meteorus notodontae* Riley, 1890. In Riley and Howard, U. S. Dept. Agr., Insect Life 3: 57.

TRIBE EUPHORINI

Members of this tribe are chiefly endoparasites of adult insects, but the species of some groups parasitize nymphs of Heteroptera and Psocoptera.

Biology: Muesebeck, 1963. Ent. Soc. Wash., Proc. 65: 306. — Tobias, 1965. Ent. Obozr. 44: 841-865.

Genus ARIDELUS Marshall

Aridelus Marshall, 1887. Ent. Soc. London, Trans., p. 66.

Type-species: *Aridelus bucephalus* Marshall. Monotypic.

Helorimorpha Schmiedeknecht, 1907. Hym. Mitteleuropas, p. 523.

Type-species: *Helorimorpha egregia* Schmiedeknecht. Monotypic.

Stictometeorus Cameron, 1909. Soc. Ent. 24: 9.

Type-species: *Stictometeorus rufus* Cameron. Monotypic.

Erythrometeorus Cameron, 1911. Timehri (Ser. 3) 1: 317.

Type-species: *Erythrometeorus reticulatus* Cameron. Monotypic.

Scipolabia Enderlein, 1920. Arch. f. Naturgesch. 84 (A) (11): 220.

Type-species: *Scipolabia reticulata* Enderlein. Orig. desig.

Species of this genus are parasites of nymphs and adults of Pentatomidae.

Revision: Muesebeck, 1936. U. S. Dept. Agr., Misc. Pub. 241, p. 6-8 (No. Amer. spp.). — Papp, 1965. Acta Zool. Hung. 11: 181-201 (World spp.).

Taxonomy: Shenefelt, 1969. Hym. Cat., part 4, p. 11-15 (cat. World spp.).

fisheri (Viereck). Pa. s. to Ga., w. to Kans. and Tex. Host: *Euschistus servus euschistoides* (Voll.).

Helorimorpha fisheri Viereck, 1909. Ent. News 20: 290. ♀, ♂.

melanderi (Brues). Mass., N. Y., Pa., Md., Mich., Tenn.

Helorimorpha melanderi Brues, 1908. Ent. News 19: 363. ♀.

nigrithorax Muesebeck. Conn., Va., S. C., Tenn., Tex.

Aridelus nigrithorax Muesebeck, 1936. U. S. Dept. Agr., Misc. Pub. 241, p. 8. ♀.

Genus CHRYSOPOPHTHORUS Goidanich

Chrysopophthorus Goidanich, 1948. Ist. Ent. Univ. Bologna, Bol. 17: 83.

Type-species: *Chrysopophthorus chrysopimanicis* Goidanich. Orig. desig.

Parasitic on adults of *Chrysopa*.

Revision: Mason, 1964. Canad. Ent. 96: 1005-1017 (World spp.).

Taxonomy: Shenefelt, 1969. Hym. Cat., part 4, p. 29-30 (cat. World spp.).

americanus Mason. Mass., N. Y., Md., Va., Ohio, Mich., Ill., Tenn., Ark., La., Ariz., Calif. Host: *Chrysopa carnea* Stephens.

Chrysopophthorus americanus Mason, 1964. Canad. Ent. 96: 1012. ♀, ♂.

Genus CRYPTOXILOS Viereck

Cryptoxilos Viereck, 1911. U. S. Natl. Mus., Proc. 40: 180.

Type-species: *Cryptoxilos dichromorphus* Viereck. Orig. desig.

Meager host records indicate species are parasites of adult Scolytidae.

Taxonomy: Muesebeck, 1936. U. S. Dept. Agr., Misc. Pub. 241, p. 9-10. — Shenefelt, 1969.

Hym. Cat., part 4, p. 30 (cat. World spp.).

convergens Muesebeck. D. C., W. Va., Va., N. C. Host: *Phloeotribus frontalis* (Oliv.).

Euphorus phloeotribi Ashmead, 1893. In Chittenden, U. S. Dept. Agr., Insect Life 5: 249.

Nomen nudum.

Cryptoxilos convergens Muesebeck, 1936. U. S. Dept. Agr., Misc. Pub. 241, p. 9. ♀, ♂.

Genus EUPHORIELLA Ashmead

Euphoriella Ashmead, 1900. U. S. Natl. Mus., Proc. 23: 116.

Type-species: *Labeo incertus* Ashmead. Orig. desig.

Parasites of Psocoptera. In all known examples, the early instar nymph is parasitized and the mature parasite larva emerges from a mature host nymph or adult.

Revision: Loan and New, 1972 (1971). Ent. Soc. Ont., Proc. 102: 92-108 (No. Amer. spp.).

Taxonomy: Muesebeck, 1936. U. S. Dept. Agr., Misc. Pub. 241, p. 25-27 (some No. Amer. spp.). —Shenefelt, 1969. Hym. Cat., part 4, p. 34-35 (cat. World spp.).

criddlei Loan and New. Ont.

Euphoriella criddlei Loan and New, 1972 (1971). Ent. Soc. Ont., Proc. 102: 105. ♀, ♂.
foutsii Loan and New. Md., Iowa.

Euphoriella foutsii Loan and New, 1972 (1971). Ent. Soc. Ont., Proc. 102: 102. ♀, ♂.
hyalopsocidis Loan and New. Ont. Host: *Hyalopsocus striatus* (Wlkr.).

Euphoriella hyalopsocidis Loan and New, 1972 (1971). Ent. Soc. Ont., Proc. 102: 105. ♀, ♂.
incerta (Ashmead). Fla.

Labeo incertus Ashmead, 1887. Ent. Amer. 3: 74. "♀" = ♂.

kaladarensis Loan and New. Ont.

Euphoriella kaladarensis Loan and New, 1972 (1971). Ent. Soc. Ont., Proc. 102: 96. ♀, ♂.

nixonii Loan and New. Maine.

Euphoriella nixonii Loan and New, 1972 (1971). Ent. Soc. Ont., Proc. 102: 95. ♂.

pacifica Muesebeck. Calif.

Euphoriella pacifica Muesebeck, 1936. U. S. Dept. Agr., Misc. Pub. 241, p. 26. ♀.

pallidifacia Loan and New. Que.

Euphoriella pallidifacia Loan and New, 1972 (1971). Ent. Soc. Ont., Proc. 102: 104. ♀, ♂.

solidaginis Loan and New. Ont.

Euphoriella solidaginis Loan and New, 1972 (1971). Ent. Soc. Ont., Proc. 102: 100. ♀, ♂.

sommermanae Muesebeck. Conn. Host: *Anomopsocus amabilis* (Walsh).

Euphoriella sommermanae Muesebeck, 1956. Ent. Soc. Wash., Proc. 58: 148. ♀, ♂.

Biology: Sommerman, 1956. Ent. Soc. Wash., Proc. 58: 149-152 (lists numerous species of nymphal and adult psocids from which she reared Hymenoptera, probably braconids, but only the one species listed above was definitely associated with *Euphoriella sommermanae*).

Genus HOLDAWAYELLA Loan

Holdawayella Loan, 1967. Ent. Soc. Amer., Ann. 60: 241.

Type-species: *Holdawayella tingiphaga* Loan. Orig. desig.

Parasitic on nymphs and adults of Tingidae, particularly the genus *Corythucha* Stål.

Biology: Loan, Gerber, and Reid, 1971. Canad. Ent. 103: 1273-1284.

juglandis Loan. Ont. Host: *Corythucha juglandis* (Fitch). This parasite is bisexual and apparently restricted to *C. juglandis* on *Juglans* sp.

Holdawayella juglandis Loan, 1971. Canad. Ent. 103: 1274. ♀, ♂.

tingiphaga Loan. Ont. Host: *Corythucha coryli* O. and D., *C. heidemanni* Drake, *C. pruni* O. and D., *C. ulmi* O. and D. This parasite is parthenogenetic and shows an apparent field preference for *C. heidemanni*.

Holdawayella tingiphaga Loan, 1967. Ent. Soc. Amer., Ann. 60: 241. ♀.

Genus LEIOPHRON Nees

Leiophron Nees, 1818. Nova Acta Acad. Leop. Carol. 9: 103. No species included.

Type-species: *Leiophron apicalis* Curtis. Desig. by Viereck, 1914. Desig. from three species first included by Haliday, 1833, Ent. Mag. 1: 263.

Euphorus Nees, 1834. Hym. Ichn. Aff. Monog., v. 2, p. 360.

Type-species: *Euphorus pallicornis* Nees. Monotypic.

Euphoriana Gahan, 1913. U. S. Natl. Mus., Proc. 46: 433.

Type-species: *Euphoriana uniformis* Gahan. Orig. desig.

Parasitic on nymphs of Miridae.

Revision: Muesebeck, 1936. U. S. Dept. Agr., Misc. Pub. 241: 28-33 (some No. Amer. spp.).

—Richards, 1967. Roy. Ent. Soc. London, Trans. 119: 171-186 (some Eur. spp.). —Loan,

1974. Roy. Ent. Soc. London, Trans. 126: 222-238 (Eur. spp.). —Loan, 1975 (1974). Nat. Canad. 101: 824-834 (No. Amer. spp.).
- Taxonomy:** Muesebeck, 1958. U. S. Natl. Mus., Proc. 107: 410-412. —Shenefelt, 1969. Hym. Cat., part 4, p. 33-48 (cat. World spp.). —Loan and Bilewicz-Pawinska, 1973. Environ. Ent. 2: 271-278. —Loan, 1974. Roy. Ent. Soc. London, Trans. 126: 222 (syn. of *Euphoriana*).
- Biology:** Loan, 1975 (1974). Nat. Canad. 101: 822-824.
- birdi** Loan. Maine, N. Y., Pa.
Leiophron birdi Loan, 1975 (1974). Nat. Canad. 101: 826. ♂.
- borealis** Loan. Ont.
Leiophron borealis Loan, 1975 (1974). Nat. Canad. 101: 826. ♂.
- brevipetiolatus** Loan. Colo.
Leiophron brevipetiolatus Loan, 1975 (1974). Nat. Canad. 101: 831. ♂.
- cephalicus** (Provancher). Ont., Colo.
Microctonus cephalicus Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 127. ♂.
Euphorus spiniscapus Muesebeck, 1936. U. S. Dept. Agr., Misc. Pub. 241, p. 30. ♀.
 Taxonomy: Loan, 1975 (1974). Nat. Canad. 101: 830.
- compressus** Loan. Calif.
Leiophron compressus Loan, 1975 (1974). Nat. Canad. 101: 828. ♂.
- fumipennis** Loan. Que.
Leiophron fumipennis Loan, 1975 (1974). Nat. Canad. 101: 832. ♂.
- fuscipennis** Loan. La.
Leiophron fuscipennis Loan, 1975 (1974). Nat. Canad. 101: 829. ♀.
- grohi** Loan. Maine, Ont.
Leiophron grohi Loan, 1975 (1974). Nat. Canad. 101: 829. ♂.
- lygivora** (Loan). Ont. Host: *Lygus lineolaris* (P. de B.).
Euphoriana lygivora Loan, 1970 (1969). Ent. Soc. Ont., Proc. 100: 193. ♀.
- maculipennis** (Ashmead). Fla., Ont. Host: *Diaphnocoris chloronotus* (Say).
Sierola maculipennis Ashmead, 1887. Ent. Amer. 3: 75. ♀.
- muesebecki** (Loan). Ont. Host: *Lopidea marginalis* (Reut.).
Euphoriana muesebecki Loan, 1970. Ent. Soc. Wash., Proc. 72: 441. ♀, ♂.
- occipitalis** (Muesebeck). Idaho, Ariz., Calif.
Euphorus occipitalis Muesebeck, 1936. U. S. Dept. Agr., Misc. Pub. 241, p. 29. ♀.
- pallidipennis** Loan. Ariz.
Leiophron pallidipennis Loan, 1975 (1974). Nat. Canad. 101: 830. ♀.
- provancheri** Loan. Tex.
Leiophron provancheri Loan, 1975 (1974). Nat. Canad. 101: 831. ♀.
- rufipennis** Loan. Ont., Nebr.
Leiophron rufipennis Loan, 1975 (1974). Nat. Canad. 101: 833. ♂.
- scitulus** (Cresson). Ill.
Euphorus scitulus Cresson, 1872. Canad. Ent. 4: 227. ♀.
- trygonotylidis** Loan. Ont. Host: *Trygonotylus coelestium* (Kirkaldy).
Leiophron trygonotylidis Loan, 1975 (1974). Nat. Canad. 101: 834. ♀, ♂.
- tuberculatus** (Muesebeck). N. H., Ky., Ga., Fla.
Euphorus tuberculatus Muesebeck, 1936. U. S. Dept. Agr., Misc. Pub. 241, p. 31. ♀, ♂.
- uniformis** (Gahan). Widely distributed in U. S. Host: *Lygus elisus* Van Duzee, *L. hesperus* Knight, *L. lineolaris* (P. de B.), *L. pratensis* (L.).
Euphoriana uniformis Gahan, 1913. U. S. Natl. Mus., Proc. 46: 433. ♀, ♂.
- Biology:** Clancy and Pierce, 1966. Jour. Econ. Ent. 59: 853-858.

Genus MICROCTONUS Wesmael

Microctonus Wesmael, 1835. Nouv. Mem. Acad. Sci. Bruxelles 9: 54.
 Type-species: *Perilitus aethiops* Nees. Desig. by Foerster, 1862.

Gamosecus Provancher, 1880. Nat. Canad. 12: 167.

Type-species: *Gamosecus mellinus* Provancher. Desig. by Viereck, 1914.

Parasitic on adult Coleoptera, particularly Chrysomelidae and Curculionidae.

Revision: Muesebeck, 1936. U. S. Dept. Agr., Misc. Pub. 241: 14-20 (some No. Amer. spp.).

Taxonomy: Loan, 1969. Ent. Soc. Wash., Proc. 71: 404-416 (key to No. Amer. spp.).

—Shenefelt, 1969. Hym. Cat., part 4, p. 101-115 (cat. World spp.). —Loan, 1975.

Entomophaga 20: 31-41 (Haliday types).

Biology: Smith, 1953. Ohio Jour. Sci. 53: 173-176 (host list). —Loan, 1969. Ent. Soc. Wash., Proc. 71: 409-410 (host list).

aethiopoides Loan. Maine s. to Va., w. to Ont. and Ohio; Calif.; Europe. Introduced from France. Host: *Hypera meles* (F.), *H. nigrirostris* (F.), *H. postica* (Gyll.), *H. rumicis* (L.), *Sitona crinitus* Hbst., *S. hispidulus* (F.).

Microctonus aethiopoides Loan, 1975. Entomophaga 20: 33. ♀, ♂. According to Loan (1975), this species has been incorrectly identified as *aethiops* (Nees); most literature on *aethiops* in North America apparently refers to *aethiopoides* Loan.

Taxonomy: Fuester, 1970. Ent. Soc. Amer., Ann. 63: 1777-1778 (larval distinction).

Biology: Loan and Holdaway, 1961. Canad. Ent. 92: 1057-1079. —Coles and Putler, 1963. Jour. Econ. Ent. 56: 609-610. —Brunson and Coles, 1968. U. S. Dept. Agr., Prod. Res. Rpt. 101, p. 4 (distr., releases, recoveries). —Day, et al., 1971. Jour. Econ. Ent. 64: 190-193 (distr.). —Dysart and Day, 1976. U. S. Dept. Agr., Prod. Res. Rpt. 167, p. 4-5 (releases and recoveries). —Abu and Ellis, 1976. Environ. Ent. 5: 1040-1042.

Morphology: Loan and Holdaway, 1961. Canad. Ent. 93: 1059-1065.

alticae Loan. Oreg. Host: *Altica bimarginata* Say.

Microctonus alticae Loan, 1969. Ent. Soc. Wash., Proc. 71: 414. ♀.

barri Loan. Idaho.

Microctonus barri Loan, 1969. Ent. Soc. Wash., Proc. 71: 413. ♀.

blapstini Loan. Ont. Host: *Blapstinus metallicus* (F.).

Microctonus blapstini Loan, 1967. Ent. Soc. Amer., Ann. 60: 231. ♀, ♂.

Biology: Loan, 1967. Ent. Soc. Amer., Ann. 60: 238-239.

carabivorus Muesebeck. Md., Va., Tenn., Mich., Wis., Iowa, Idaho. Host: *Galerita* sp.

Microctonus carabivorus Muesebeck, 1936. U. S. Dept. Agr., Misc. Pub. 2, p. 16. ♀, ♂.

colesi Drea. Vt., Mass., R. I., Conn., N. Y., Pa., N. J., Del., Md., W. Va., Va., N. C., Ohio. Host: *Hypera postica* (Gyll.).

Microctonus colesi Drea, 1968. Ent. News 79: 98. ♀, ♂.

Taxonomy: Fuester, 1970. Ent. Soc. Amer., Ann. 63: 1777-1778 (larval distinction).

Biology: Brunson and Coles, 1968. U. S. Dept. Agr., Prod. Res. Rpt. 101, p. 4-5 (releases, recoveries as *Microctonus* sp.). —Day, et al., 1971. Jour. Econ. Ent. 64: 191-193 (distr.). —Dysart and Day, 1976. U. S. Dept. Agr., Prod. Res. Rpt. 167, p. 4 (releases and recoveries).

crepidoderae Loan. Ont. Host: *Crepidodera* spp.

Microctonus crepidoderae Loan, 1967. Ent. Soc. Amer., Ann. 60: 230. ♀, ♂.

Biology: Loan, 1967. Ent. Soc. Amer., Ann. 60: 239-240.

cucumeridis Loan. Ont. Host: *Epitrix cucumeris* (Harr.).

Microctonus cucumeridis Loan, 1969. Ent. Soc. Wash., Proc. 71: 412. ♀.

disonychae Loan. Ont. Host: *Disonycha triangularis* (Say).

Microctonus disonychae Loan, 1967. Ent. Soc. Amer., Ann. 60: 233. ♀, ♂.

Biology: Loan, 1967. Ent. Soc. Amer., Ann. 60: 237-238.

eleodis (Viereck). Mich., Minn.; Sask. s. to Kans. and N. Mex., w. to Alta., Oreg. and Calif. Host: *Eleodes extricata* (Say), *E. hispilabris* (Say), *E. obsoleta* (Say), *E. opaca* (Say), *E.*

- suturalis* (Say), *E. tricostata* (Say), *E. vandykei* Blaisdell, *Embaphion muricatum* (Say),
E. planum Horn.
- Perilitus eleodis* Viereck, 1913. U. S. Natl. Mus., Proc. 44: 561. ♀, ♂.
- epitricis* (Viereck). N. J. s. to N. C., w. to Ont., Kans., and La.; B. C. Host: *Epitrix cucumeris* (Harr.), *E. fasciata* Blatchley, *E. hirtipennis* (Melsh.).
- Perilitus epitricis* Viereck, 1912. U. S. Natl. Mus., Proc. 42: 625. ♀, ♂.
- Biology: Loan, 1967. Ent. Soc. Amer., Ann. 60: 236-237.
- gastrophysae* (Ashmead). D. C., Va., S. C. Host: *Gastrophysa cyanea* Melsh., *G. viridula* (DeGeer).
- Perilitus gastrophysae* Ashmead, 1889 (1888). U. S. Natl. Mus., Proc. 11: 641. ♀.
- glyptosceli* Loan, Klein and Coppel. Wis. Host: *Glyptoscelis pubescens* (F.).
- Microctonus glyptosceli* Loan, Klein and Coppel, 1969. Ent. Soc. Wash., Proc. 71: 230. ♀, ♂.
- invictus* Muesebeck. Ariz., Calif. Host: *Trigonoscuta* sp.
- Microctonus invictus* Muesebeck, 1961. Brooklyn Ent. Soc., Bul. 56: 59. ♀, ♂.
- loani* Mason. N. B., Que., Ont. Host: *Altica ambiens alni* Harr., *A. corni* Woods, *Calligrapha philadelphica* (L.).
- Microctonus loani* Mason, 1968. Canad. Ent. 100: 726. ♀.
- longitarsi* Loan. Ont. Host: *Longitarsus melanurus* (Melsh.).
- Microctonus longitarsi* Loan, 1969. Ent. Soc. Wash., Proc. 71: 411. ♀, ♂.
- mellinus* (Provancher). Mass., Md., D. C., Va., Ga., Fla., Mich., Tenn., Canada.
- Gamosecus mellinus* Provancher, 1880. Nat. Canad. 12: 168. ♀.
- muesebecki* Loan. Ont. Host: *Paria thoracica* (Melsh.).
- Microctonus muesebecki* Loan, 1967. Ent. Soc. Amer., Ann. 60: 234. ♀, ♂.
- Biology: Loan, 1967. Ent. Soc. Amer., Ann. 60: 240.
- nigritus* (Provancher). N. B., Que., Mich., Man. Host: *Altica ambiens alni* (Harr.).
- Perilitus nigritus* Provancher, 1888. Addit. Corr. Faune Ent. Canada Hym., p. 379. ♂.
- pachylobii* Muesebeck. Ga., Fla., Ark., La. Host: *Pachylobius picivorus* (Germar).
- Microctonus pachylobii* Muesebeck, 1961. Brooklyn Ent. Soc., Bul. 56: 58. ♀, ♂.
- psylliodis* Loan. Ont. Host: *Psylliodes punctulata* Melsh.
- Microctonus psylliodis* Loan, 1969. Ent. Soc. Wash., Proc. 71: 410. ♀, ♂.
- pusillae* Muesebeck. Colo., Ariz., Idaho, Wash. Host: *Epitrix subcrinita* Lec., *Phyllotreta pusilla* Horn.
- Microctonus pusillae* Muesebeck, 1936. U. S. Dept. Agr., Misc. Pub. 241, p. 20. ♀, ♂.
- Biology: Chittenden and Marsh, 1920. U. S. Dept. Agr., Bul. 902, p. 13 (as *Perilitus epitricis* Viereck).
- sitonae* Mason. Ont. Host: *Sitona scissifrons* Say.
- Microctonus sitonae* Mason, 1960. Canad. Ent. 92: 436. ♀, ♂.
- Biology: Loan, 1963. Ent. Soc. Amer., Ann. 56: 605-611.
- stelleri* Loan. U. S. (?) France. Liberated in Vt., Mass., N. Y., Pa., N. J., Del., Md., Va., Mich., Ill., Ky., Wis. and Colo. but not known to be established. Introduced from France. Host: *Hypera postica* (Gyll.).
- Microctonus stelleri* Loan, 1972. Canad. Ent. 104: 1446. ♀, ♂.
- Biology: Drea, et al., 1972. Canad. Ent. 104: 1447-1456. — Dysart and Day, 1976. U. S. Dept. Agr., Prod. Res. Rpt. 167, p. 6 (releases).
- vittatae* Muesebeck. U. S., south. Canada; Hawaii, Japan, Korea. Host: *Phyllotreta bipustulata* (F.), *P. cruciferae* (Goeze), *P. sinuata* (Steph.), *P. striolata* (F.).
- Microctonus vittatae* Muesebeck, 1936. U. S. Dept. Agr., Misc. Pub. 241, p. 19. ♀.

NOMEN NUDUM IN MICROCTONUS WESMAEL

Microctonus dorsalis Ashmead, 1895. In Slosson, Ent. News 6: 317.

Genus MYOCEPHALUS Marshall

Myiocephalus Marshall, 1897. In Andre, Spec. Hym. Eur. Alg., v. 5 bis, p. 218.

Type-species: *Microctonus boops* Wesmael. Monotypic.

Spilomma Morley, 1909. Ent. Monthly Mag. 45: 211.

Type-species: *Spilomma falconivibrans* Morley. Monotypic.

Hosts for this genus are not known, but one European species was associated with nests of the ant genus *Formica*.

Taxonomy: Muesebeck, 1936. U. S. Dept. Agr., Misc. Pub. 241: 21. —Shenefelt, 1969. Hym. Cat., part 4, p. 115-116 (cat. World spp.).

boops (Wesmael). Holarctic.

Microctonus boops Wesmael, 1835. Nouv. Mem. Acad. Sci. Bruxelles 9: 59. ♀.

Gamocampus laticeps Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 126. ♀.
Aphidius hedini Fahringer, 1929. Arkiv. fur Zool. 21 (A): 2. ♂.

Taxonomy: Muesebeck, 1936. U. S. Dept. Agr., Misc. Pub. 241, p. 22. —Stary, 1959. Beitr. Ent. 9: 187-188.

Genus PERILITUS Nees

Perilitus Nees, 1818. Nov. Acta Acad. Caes. Leop. Car. 9: 302.

Type-species: *Bracon rutilis* Nees. Desig. by Westwood, 1840.

Dinocampus Foerster, 1862. Naturh. Ver. Rheinlande, Verh. 19: 252.

Type-species: *Bracon terminatus* Nees. Orig. desig.

Species in this genus are parasitic on adult Coleoptera, particularly Coccinellidae and Chrysomelidae. Tobias (1965) treats *Dinocampus* as a distinct genus.

Taxonomy: Muesebeck, 1936. U. S. Dept. Agr., Misc. Pub. 241, p. 11-13 (No. Amer. spp.).

—Tobias, 1965. Ent. Obozr. 44: 842 (restored *Dinocampus*). —Shenefelt, 1969. Hym. Cat., part 4, p. 30-33, 117-122 (cat. World spp.).

Biology: Jackson, 1928. Zool. Soc. London, Proc. 1928: 597-630 (biol. of *rutilis* (Nees) in Europe). —Smith, 1953. Ohio Jour. Sci. 53: 175-176 (host list).

coccinellae (Schrank). Cosmopolitan. Host: *Adonia variegata* (Goeze), *Coccinella californica*

Mann., *C. novemnotata* Hbst., *C. quinquepunctata* L., *C. septempunctata* L., *C. trifasciata juliana* Muls., *Coleomegilla maculata fuscilabris* (Muls.), *C. m. maculata* (DeGeer), *C. m. lengi* Timb., *Cycloueda sanguinea* (L.), *Halyzia quattuordecimguttata* (L.), *Hippodamia convergens* Guer.

Ichneumon coccinellae Schrank, 1802. Fauna Boica, v. 2, p. 310. ♀.

Bracon terminatus Nees, 1812 (1811). Mag. Gesell. Naturf. Freunde Berlin 5: 26. ♀, ♂.

Euphorus sculptus Cresson, 1872. Canad. Ent. 4: 227. ♀.

TRIBE COSMOPHORINI

Host records indicate that species are solitary endoparasites of adult Coleoptera. This tribe is composed of one Holarctic genus which has been placed in various groups, including its own subfamily. Most authors have placed it in the Euphorinae where it probably represents the most highly specialized group of the Braconidae.

Genus COSMOPHORUS Ratzeburg

Cosmophorus Ratzeburg, 1848. Ichn. d. Forstins., v. 2, p. 71.

Type-species: *Cosmophorus klugii* Ratzeburg. Monotypic.

Cosmophorus subg. *Cosmophorinus* Viereck, 1925. Canad. Ent. 57: 73.

Type-species: *Cosmophorus hopkinsii* Ashmead. Desig. by Muesebeck and Walkley, 1951.

Revision: Hedqvist, 1955. Ent. Tidskr. 76: 92-98 (Eur. spp.). — Capek, 1958. Acta Ent. Mus. Natl. Pragae 32: 151-169 (Eur. spp.).

pityophthori Rohwer. Colo., Idaho, Wash., Calif. Host: *Pityophthorus nitidulus* (Mann.).

Cosmophorus pityophthori Rohwer, 1917. U. S. Natl. Mus., Proc. 53: 163. ♀, ♂.

Family APHIDIIDAE

By PAUL M. MARSH

The family Aphidiidae is the only group in the parasitoid Hymenoptera (other than the chalcid Aphelininae genera *Aphelinus*, *Mesidius* and *Mesidiopsis*) which has aphids as its primary hosts. The family is closely related to the subfamily Euphorinae of the Braconidae and, until recently, has been classified as a subfamily of the Braconidae. However, most workers in this group classify the Aphidiidae as a distinct family, and I have chosen to follow this arrangement.

Two catalogs to the species of the World have recently been published: M. Mackauer and P. Stary (1967. Index of Entomophagous Insects; Hym. Ichneumonoidea, World Aphidiidae. Le Francois, Paris. 195 pp.), and M. Mackauer (1968. In Ferriere and van der Vecht (ed.), Hymenopterorum Catalogus (nova editio), part 3, Aphidiidae. Junk, The Hague. 103 pp.). Except for a few cases, I have followed the systematic arrangement of Mackauer (1968) in preparing the North American catalog which follows. Both catalogs mentioned above contain a complete list of references to taxonomy and biology and a complete list of aphid hosts for each species. In the North American catalog below, I have listed only selected references, and the reader is referred to the above publications for further references. Also, only those aphid hosts which occur in North America have been listed for each parasite species.

Revision: Gahan, 1911. Md. Agr. Expt. Sta., Bul. 152: 147-200 (No. Amer. forms). — Smith, 1944. The Aphidiinae of North America. Ohio State Univ. Contr. Zool. Ent. No. 6, xii + 154 pp. (No. Amer. forms).

Taxonomy: Stary, 1960. Acta Soc. Ent. Cech. 57: 238-252 (genera). — Mackauer, 1961. Beitr. z. Ent. 11: 96-154 (review British Museum types). — Mackauer, 1961. Beitr. z. Ent. 11: 792-803 (subfamilies, tribes, genera). — Mackauer, 1963. Canad. Ent. 95: 921-935 (review Baker types). — Mackauer and Stary, 1967. Index World Aphidiidae, pp. 1-195 (cat. World spp. and hosts). — Mackauer, 1968. Hym. Cat., part 3, pp. 1-103 (cat. World spp. and hosts). — Marsh, 1971. Ent. Soc. Amer., Ann. 64: 848-849 (key to No. Amer. genera).

Biology: Stary, 1966. Aphid Parasites of Czechoslovakia. Junk, The Hague. 242 pp. (particularly chapters VI-XIV, pp. 96-222 for a general summary of aphid parasite biology).

SUBFAMILY EPHEDRINAE

All species of this subfamily are solitary endoparasites of adult and larval aphids. Pupation is inside the mummified host aphid. The subfamily is cosmopolitan in distribution.

Genus EPHEDRUS Haliday

Aphidius subg. *Ephedrus* Haliday, 1833. Ent. Mag. 1: 261, 485.

Type-species: *Bracon plagiator* Nees. Monotypic.

Elassus Wesmael, 1835. Nouv. Mem. Acad. Sci. Bruxelles 9: 85.

Type-species: *Aphidius parcicornis* Nees. Monotypic.

Revision: Gahan, 1911. Md. Agr. Expt. Sta., Bul. 152: 157-159 (No. Amer. spp.). —Stelfox, 1941. Roy. Irish Acad., Proc. 46: 125-142 (Irish spp.). —Smith, 1944. Genus TOXARES Haliday

Aphidius subg. *Trionyx* Haliday, 1833. Ent. Mag. 1: 261, 487. Preocc. by Geoffroy (1809) and Oken (1816).

Type-species: *Aphidius* (*Trionyx*) *deltiger* Haliday. Monotypic.

Toxares Haliday, 1840. In Westwood, Intro. Mod. Class. Ins., vol. 2, Generic synopsis. p. 65. New name for *Trionyx* Haliday.

Teronyx Haldeman, 1842. Acad. Nat. Sci. Phila., Proc. 1: 191. New name for *Trionyx* Haliday.

A Holarctic genus composed of two species, only one of which is found in North America. The host range is not clearly defined but it is possibly restricted to the subfamily Aphidiinae.

deltiger (Haliday). Canada. Host: *Acyrthosiphon caraganae* (Cholod.), *Dysaphis plantaginea* (Pass.), *Myzus certus* (Wlk.), *M. persicae* (Sulzer).

Aphidius (*Trionyx*) *deltiger* Haliday, 1833. Ent. Mag. 1: 487. ♀, ♂.

Ephedrus flaveolus Györfi, 1958. Acta Zool. Hung. 4: 131. ♂.

SUBFAMILY PRAINAE

Genus PRAON Haliday

Aphidius subg. *Praon* Haliday, 1833. Ent. Mag. 1: 261, 483.

Type-species: *Bracon exoletus* Nees. Monotypic.

Bracon subg. *Achoristus* Ratzeburg, 1852. Ichn. d. Forstins., v. 3, p. 31.

Type-species: *Bracon* (*Achoristus*) *aphidiiformis* Ratzeburg. Monotypic.

Aphidaria Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 152.

Type-species: *Aphidaria simulans* Provancher. Monotypic.

Species in this genus are solitary endoparasites of larval and adult aphids. Pupation is in a separate cocoon underneath the dead host aphid. The genus occurs in the Holarctic and Oriental Regions.

SUBFAMILY APHIDIINAE

All species are solitary endoparasites of larval and adult aphids, and pupation is inside the mummified host. The subfamily is cosmopolitan in distribution.

TRIBE APHIDIINI

SUBTRIBE LYSIPHLEBINA

Genus LYSIPHLEBUS Foerster

Genus LYSIPHLEBUS Subgenus LYSIPHLEBUS Foerster

Lysiphlebus Foerster, 1862. Naturh. Ver. Rheinlande, Verh. 19: 248.

Type-species: *Bracon dissolutus* Nees. Monotypic.

Members of the typical subgenus are not known in North America.

Genus LYSIPHLEBUS Subgenus ADIALYTUS Foerster

Adialytus Foerster, 1863. Naturh. Ver. Rheinlande, Verh. 19: 249.

Type-species: *Adialytus tenuis* Foerster. Orig. desig.

The host range is apparently restricted to aphids in the subfamilies Chaitophorinae and Thelaxinae (Aphididae).

Taxonomy: Stary, 1960. Acta Soc. Ent. Cech. 57: 244 (redescription). —Stary, 1966. Aphid Parasites of Czechoslovakia, pp. 80-92 (Eur. spp., in *Lysiphlebus*). —Mackauer, 1968. Hym. Cat., part 3, pp. 23-24 (cat. World spp., host list). —Stary, 1975. Annot. Zool. Bot., n. 105, p. 1-9.

arvicola Stary. Canada; Europe.

Taxonomy: Mackauer, 1960. Portici Lab. Ent. Agr., Bol. 18: 244-249. — Mackauer, 1960. Beitr. z. Ent. 10: 612-617.

Biology: Sekhar, 1957. Ent. Soc. Amer., Ann. 50: 370-375. — Sekhar, 1959. Curr. Sci. 28: 333-335. — Sekhar, 1960. Canad. Jour. Zool. 38: 593-603. — Schlinger and Hall, 1960. Ent. Soc. Amer., Ann. 53: 407-409. — Mackauer and Stary, 1967. Index World Aphidiidae, pp. 45-46 (host list).

- utahensis** (Smith). Idaho, Utah, Calif. Host: *Macrosiphoniella coweni* (Hunter).
Aphidius (Lysiphlebus) utahensis Smith, 1944. Aphidiinae of North America, p. 83. ♀, ♂.
viburnaphis (Fitch). N. Y. Considered as probably conspecific with *testaceipes* (Cresson) by Mackauer (1960. Portici Lab. Ent. Agr., Bol. 18: 253). Two syntypes in poor condition are in the U. S. National Museum.
Prion viburnaphis Fitch, 1855 (1854). Agr. Soc. State N. Y., Trans. 14: 841.

SUBTRIBE PROTAPHIDIINA

Genus CHAETOPAUESIA Mackauer

Chaetopaezia Mackauer, 1967. Entomophaga 12: 141.

Type-species: *Chaetopaezia talis* Mackauer. Orig. desig.

crassicornis (Ashmead). Ont.

Aphidius crassicornis Ashmead, 1891. Canad. Ent. 23: 5. ♂.

talis Mackauer. Ont.

Aphidius brevicornis Ashmead, 1891. Canad. Ent. 23: 6. ♀. Nomen nudum.

Chaetopaezia talis Mackauer, 1967. Entomophaga 12: 142. ♀.

Genus PAUESIA Quilis

Panesia Quilis, 1931. Eos 7: 67.

Type-species: *Panesia albuferensis* Quilis. Orig. desig.

Aphidius subg. *Paraphidius* Stary, 1958. Acta Faun. Ent. Mus. Natl. Pragae 3: 91. New name for *Protaphidius* Ashmead of authors, not Ashmead, 1900.

Type-species: *Aphidius californicus* Ashmead. Orig. desig.

The genus *Panesia* corresponds to Section II, Pinicolae, of the genus *Aphidius* Nees as defined by Haliday (1834. Ent. Mag. 2: 95). Prior to 1958, the species in *Panesia* were included in various genera besides *Aphidius*: Szepiglieti (1904. In Wytsman, Gen. Ins., fasc. 22, p. 185) placed these species in the genus *Coelonotus* Foerster; Smith (1944. Aphidiinae of North America, pp. 37-49) placed them in *Aphidius* (*Protaphidius*) Ashmead; *Coelonotus* Foerster as used by Thompson (1895. Opusc. Ent. 20: 2334) is a misspelling of *Coelonotus* Foerster. Hosts are restricted to aphids of the subfamily Lachninae. *P. albuferensis* Quilis, 1931, type-species of the genus, is now considered to be a synonym of *Aphidius unilachni* Gahan, 1926.

Revision: Smith, 1944. Aphidiinae of North America, pp. 37-49 (No. Amer. spp.). — Stary, 1960. Acta Faun. Ent. Mus. Natl. Pragae 6: 5-44 (Eur. spp.). — Watanabe and Takada, 1965. Insecta Matsumurana 28: 1-17 (Jap. spp.).

Taxonomy: Fahringer, 1937. Festschr. E. Strand 3: 240-245 (key Eur. spp.). — Mackauer 1961. Beitr. z. Ent. 11: 106-108. — Mackauer, 1968. Hym. Cat., part 3, pp. 31-39 (cat. World spp.).

Biology: Mackauer and Stary, 1967. Index World Aphidiinae, pp. 48-58 (host list).

bicolor (Ashmead). N. J. s. to Fla.; Ohio, Wis. Host: *Cinara cronartii* T. and P., *C. pergandei* (Wilson), *C. pini* (L.), *C. strobi* (Fitch).

Aphidius bicolor Ashmead, 1889 (1888). U. S. Natl. Mus., Proc. 11: 658. ♀.

Aphidius (*Protaphidius*) *scorpinicus* Smith, 1944. Aphidiinae of North America, p. 45. ♀, ♂.

californica (Ashmead). Va., Ont., Ohio, S. Dak., Alta., B. C., Calif. Host: *Schizolachnus piniradiatae* (Davidson), *S. parvus* (Wilson).

Aphidius californicus Ashmead, 1889 (1888). U. S. Natl. Mus., Proc. 11: 660. ♀.

gillettei (Gahan). S. C., Ky., La., Ark., Colo. Host: *Cinara* sp.

Aphidius gillettei Gahan, 1911. Md. Agr. Expt. Sta., Bul. 152: 171. ♀.

juniperaphidis (Gahan). Ohio, Colo., Idaho, B. C. Host: *Cinara juniperi* (DeG.), *C. occidentalis* (David.), *C. pulverulens* (G. and P.).

Aphidius juniperaphidis Gahan, 1911. Md. Agr. Expt. Sta., Bul. 152: 174. ♀, ♂.

macrogaster (Ashmead). Ont. Host: *Cinara abieticola* (Cholod.).

Aphidius macrogaster Ashmead, 1891. Canad. Ent. 23: 5. ♂.

nigrovaria (Provancher). Calif. Host: *Cinara* sp.

Aphidius nigrovarius Provancher, 1888. Addit. Corr. Faune Ent. Canada Hym., p. 396. ♀.

pinaphidis (Ashmead). Fla., La. Host: *Cinara australis* (Ashmead), *C. longispinosa* Tissot.

Aphidius pinaphidis Ashmead, 1889 (1888). U. S. Natl. Mus., Proc. 11: 659. Nomen nudum.

Aphidius pinaphidis Ashmead, 1891. Canad. Ent. 23: 6. ♀, ♂.

ponderosae (Muesebeck). B. C., Calif. Host: *Cinara* sp.

Aphidius (*Protaphidius*) *ponderosae* Muesebeck, 1958. Ent. News 69: 141. ♀, ♂.

procephali (Ashmead). Pa., D. C., Va., N. C., Ohio, Minn., Nebr., Wash. Host: *Cinara pergandei* (Wilson), *C. abieticola* (Cholod.).

Aphidius procephali Ashmead, 1889 (1888). U. S. Natl. Mus., Proc. 11: 659. ♂.

Aphidius (Protaphidius) prociphali Ashmead: Muesebeck and Walkley, 1951. U. S. Dept. Agr., Agr. Monog. 2, p. 93. Unjustified emendation.

salignae (Watanabe). Western U. S. (teste Mackauer, 1968. Hym. Cat., part 3, p. 37). Host: *Tuberolachnus salignus* (Gmelin).

Aphidius salignae Watanabe, 1939. Insecta Matsumurana 13: 81. ♀, ♂.

takomaensis (Smith). Md., Va., N. C., Sask., Colo. Host: *Cinara hottesi* (G. and P.), *C. ponderosae* (Wms.).

Aphidius (Protaphidius) takomaensis Smith, 1944. Aphidiinae of North America, p. 46. ♀, ♂.

varigata (Smith). Colo., B. C., Calif. Host: *Cinara canatra* H. and B., *C. fornacula* Hottes, *C. hottesi* (G. and P.).

Aphidius (Protaphidius) varigatus Smith, 1944. Aphidiinae of North America, p. 47. ♀.

xanthothera (Smith). East. Canada, N. C., S. C., Ala., Ark., Okla. Host: *Cinara carolina* Tissot, *C. pergandei* (Wilson), *C. pinea* (Mord.), *C. strobi* (Fitch), *C. walsoni* Tissot.

Aphidius (Protaphidius) xanthotherus Smith, 1944. Aphidiinae of North America, p. 48. ♀, ♂.

Genus XENOSTIGMUS Smith

Aphidius subg. *Xenostigmus* Smith, 1944. Aphidiinae of North America, p. 36.

Type-species: *Aphidius bifasciatus* Ashmead. Orig. desig.

bifasciatus (Ashmead). Canada, Md., Va., N. C., S. C., Fla., Nebr., Okla., Tex., Utah, Wash., Calif. Host: *Cinara australis* (Ashm.), *C. carolina* Tissot, *C. hottsei* (G. and P.), *C. pseudotaxifoliae* Palmer, *C. taedae* Tissot.

Aphidius bifasciatus Ashmead, 1891. Canad. Ent. 23: 6. ♀.

SUBTRIBE APHIDIINA

Genus EUAPHIDIUS Mackauer

Aphidius subg. *Euaphidius* Mackauer, 1961. Beitr. z. Ent. 11: 110.

Type-species: *Aphidius pterocommae* Ashmead. Orig. desig.

A small Holarctic genus whose host range is apparently restricted to Chaitophorinae and primitive Aphidiinae, mainly *Pterocomma* species.

Taxonomy: Mackauer, 1961. Beitr. z. Ent. 11: 801 (raised to generic status).

cingulatus (Ruthe). Greenland, N. B., Mass., D. C., Mich., Ohio, Iowa, Utah, N. Mex., Calif., Europe, Iran. Host: *Pterocomma bicolor* (Oest.), *P. populeum* (Kalt.), *P. populifoliae* (Fitch), *P. salicis* (L.), *P. smithiae* (Monell).

Aphidius cingulatus Ruthe, 1859. Stettin. Ent. Ztg. 20: 315. ♀, ♂.

Aphidius gregarius Marshall, 1872. Ent. Monthly Mag. 9: 123. ♀, ♂.

Aphidius pterocommae Ashmead, 1889 (1888). U. S. Natl. Mus., Proc. 11: 659. ♂.

Aphidius lachni Ashmead, 1889 (1888). U. S. Natl. Mus., Proc. 11: 660. ♀, ♂.

Aphidius pterocommae Marshall, 1896. In Andre, Spec. Hym. Eur. Alg., v. 5, p. 578. ♀.

setiger Mackauer. Canada; Europe. Host: *Periphyllus lyropictus* (Kessler), *P. testudinaceus* (Fernie).

Euaphidius setiger Mackauer, 1961. Portici Lab. Ent. Agr., Bol. 19: 273. ♀, ♂.

Genus APHIDIUS Nees

Incubus Schrank, 1802. Fauna Boica 2: 315. Suppressed by Internat. Comn. Zool.

Nomencl. Opinion 284, 1954.

Type-species: *Ichneumon aphidum* L. Monotypic.

Aphidius Nees, 1818. Nova Acta Acad. Caes. Leop. Car. 9: 302.

Type-species: *Aphidius avenae* Haliday. Desig. by Internat. Comn. Zool. Nomencl., Opinion 284, 1954.

Theracmion Holmgren, 1872. Ofvers. K. Vet. Akad., Forh. 29: 99.

Type-species: *Theracmion arcticus* Holmgren. Monotypic.

A cosmopolitan genus of which many species are of doubtful identity. Host range is wide but mainly in the Aphidiidae.

nigripes Ashmead. N. B. s. to N. C., w. to Minn. and Kans.; B. C. Wash., Calif. Host:

Acyrthosiphon solani (Kalt.), *Amphorophora* sp., *Aphis nasturtii* Kalt., *Dactynotus ambrosiae* (Thomas), *D. erigeronensis* (Thomas), *Macrosiphum albifrons* Essig, *M. avenae* (F.), *M. creelii* Davis, *M. euphorbiae* (Thomas), *M. liriodendri* (Monell), *M. rosae* (L.), *Myzus persicae* (Sulzer). Exact host range not established, but apparently a preference for *Macrosiphum* spp. Earlier associations of this species under the name *pulcher* Baker or *ervi pulcher* as a parasite of the pea aphid apparently all refer to *pisivorus* Smith. Specimens used by Smith (1941) to describe *rosae* Haliday in No. Amer. are actually *nigripes*.

Aphidius nigripes Ashmead, 1901. N. Y. State Mus., Bul. 47: 588. ♂.

Aphidius pulcher Baker, 1909. Pomona Jour. Ent. 1: 24. ♀. N. syn.

Taxonomy: Smith, 1941. Aphidiinae of No. Amer. p. 71 (as *rosae* Hal.). —Mackauer, 1963.

Canad. Ent. 95: 931-932 (as *pulcher*). —Stary, 1974. Ztschr. f. Angew. Ent. 77: 141-171 (as *pulcher*).

Biology: Schlinger, 1960. Jour. Econ. Ent. 53: 151-154. —Shands, et al., 1965. Maine Agr. Expt. Sta., Bul. T19: 1-77. —Sullivan and van den Bosch, 1971. Ent. Soc. Amer., Ann. 64: 389-394.

obscuripes Ashmead. Ont. s. to S. C., w. to N. Dak. and Colo.; Wash., Oreg. Host: *Aphis nasturtii* Kalt., *Acyrthosiphon solani* (Kalt.), *Macrosiphum euphorbiae* (Thomas), *M. avenae* (F.), *Rhopalosiphum fitchii* (Sand.), *R. padi* (L.).

Aphidius obscuripes Ashmead, 1889 (1888). U. S. Natl. Mus., Proc. 11: 660. ♀, ♂.

ohioensis Smith. N. B., Ohio, Tenn., Ark., Kans., Idaho, Ariz., B. C., Wash., Calif. Host:

Dactynotus ambrosiae (Thomas), *D. rudbeckiae* (Fitch), *D. anomala* (H. and F.), *D. erigeronensis* (Thomas), *D. illini* (H. and F.), *Macrosiphum euphorbiae* (Thomas).

Aphidius (Aphidius) ohioensis Smith, 1944. Aphidiinae of North America, p. 63. ♀, ♂.

picipes (Nees). N. J. ?; Europe. Liberated in N. J. but not known to be established. Introduced from Europe. Host: *Myzus persicae* (Sulzer).

Bracon picipes Nees, 1811. Gesell. Naturf. Freunde Berlin, Mag. 5: 28. ♀.

pisivorus Smith. No. Amer. Host: *Acyrthosiphon pisum* (Harris). Exact host range is not established for this species; earlier records of hosts other than the pea aphid apparently refer to *nigripes* Ashm. This species has erroneously been considered a synonym of *pulcher*; also, most of the specimens used by Smith (1941) to describe *nigripes* are actually *pisivorus*.

Aphidius pisivorus Smith, 1941. Ent. Soc. Amer., Ann. 34: 537. ♀, ♂.

Taxonomy: Smith, 1941. Aphidiinae of No. Amer., p. 60 (as *nigripes* in part). —Mackauer and Finlayson, 1967. Canad. Ent. 99: 1066-1070 (as *ervi pulcher*). —Stary, 1974, Ztschr. f. Angew. Ent. 77: 141-171.

Biology: Cooke, 1963. U. S. Dept. Agr., Tech. Bul. 1287: 1-48 (as *pulcher*). — Mackauer and Finlayson, 1967. Canad. Ent. 99: 1066-1070 (as *ervi pulcher*). — Berry, 1969. Ent. Soc. Amer., Ann. 62: 1185-1189.

polygonaphis (Fitch). Que., N. B. s. to Fla. and La., w. to Wis. and Kans.; Utah. Host: *Dactynotus ambrosiae* (Thomas), *D. rudbeckiae* (Fitch), *D. luteola* (Wms.), *D. taraxaci* (Kalt.), *Macrosiphum euphorbiae* (Thomas), *M. liriodendri* (Monell). *Praon polygonaphis* Fitch, 1855 (1854). N. Y. State Agr. Soc., Trans. 14: 840. ♀. *Aphidius canadensis* Provancher, 1881. Nat. Canad. 12: 204. ♀. *Aphidius obscurus* Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 152. ♂. *Aphidius pallidus* Ashmead, 1889 (1888). U. S. Natl. Mus., Proc. 11: 661. ♀. *Aphidius nigriceps* Ashmead, 1891. Canad. Ent. 23: 6. ♂. *Lysiphebus succineus* Viereck, 1904. Kans. Acad. Sci., Trans. 19: 282. ♀.

propinquus Ashmead. Colo., Idaho, Calif., Alaska.

Aphidius propinquus Ashmead, 1902. Wash. Acad. Sci., Proc. 4: 245. ♂. *Aphidius frigidus* Ashmead, 1902. Wash. Acad. Sci., Proc. 4: 246. ♀, ♂.

ribis Haliday. Northern U. S., southern Canada; Europe. Host: *Cryptomyzus ribis* (L.).

Aphidius (Aphidius) ribis Haliday, 1834. Ent. Mag. 2: 104. ♀.

Lysiphebus ribaphidis Ashmead, 1889 (1888). U. S. Natl. Mus., Proc. 11: 664. ♀.

Aphidius scobiosae Marshall, 1896. In Andre, Spec. Hym. Eur. Alg., v. 5, p. 596. ♀, ♂.

Aphidius ribis Ashmead, 1898. Ent. Soc. Wash., Proc. 4: 167. ♀, ♂.

Biology: Wheeler, 1923. Ent. Soc. Amer., Ann. 16: 1-29. — Mackauer, 1958. Ztschr. f. Angew. Ent. 43: 282-285. — Schlinger and Hall, 1960. Ent. Soc. Amer., Ann. 53: 407.

rosae Haliday. Holarctic. Host: *Macrosiphum rosae* (L.), *M. liriodendri* (Monell).

Aphidius (Aphidius) rosae Haliday, 1834. Ent. Mag. 2: 97. ♀, ♂.

Aphidius rosarum Nees, 1834. Hym. Ichn. Aff. Monog., v. 1, p. 19. ♀, ♂.

Aphidius xanthostoma Bouche, 1834. Naturgesch. d. Ins. v. 1, p. 163. ♀, ♂.

Aphidius cancellatus Buckton, 1876. Monog. Brit. Aphides, v. 1, p. 111. ♀.

rubifolii Mackauer. B. C. Host: *Masonaphis maxima* Mason.

Aphidius rubifolii Mackauer, 1968. Ent. Soc. B. C., Jour. 65: 34. ♀, ♂.

salicis Haliday. N. B., Ont., Calif.; Palearctic. Host: *Cavariella aegopodii* (Scopoli), *C. pastinaceae* (L.), *Hyadaphis foeniculi* (Pass.).

Aphidius (Aphidius) salicis Haliday, 1834. Ent. Mag. 2: 102. ♀, ♂.

Aphidius restrictus Nees, 1834. Hym. Ichn. Aff. Monog., v. 1, p. 22. ♀.

Aphidius duodecimarticulatus Ratzeburg, 1852. Ichn. d. Forstins., v. 3, p. 62. ♀.

Aphidius dauci Marshall, 1896. In Andre, Spec. Hym. Eur. Alg., v. 5, p. 601. ♀, ♂.

schimitscheki (Stary). B. C., Oreg.; Europe. Host: *Elatobium abietinum* Wlkr.

Lysaphidus schimitscheki Stary, 1960. Polskie Pismo Ent. 30: 363. ♀, ♂.

Biology: von Scheller, 1963. Ztschr. f. Angew. Ent. 51: 258-284 (bionomics, as *Aphidius (Lysiphebus)* sp.). — Kloft, et al., 1964. Ztschr. f. Angew. Ent. 55: 180-181 (geographical distribution).

sicarius Mackauer. N. B.; Palearctic. Host: *Betulaphis quadrituberculata* (Kalt.), *Calaphis* sp.

Aphidius sicarius Mackauer, 1961. Portici Lab. Ent. Agr., Bol. 19: 281. ♀, ♂.

Lysaphidus callipterinellae Takada, 1966. Insecta Matsumurana 28: 129. ♀, ♂.

smithi Sharma and Subba Rao. Apparently widely distributed in U. S. and Canada; India, Pakistan. Introduced from India. Host: *Acyrthosiphon pisum* (Harris), *Myzus persicae* (Sulzer) (in laboratory). Exact host range not established.

Aphidius (Aphidius) smithi Sharma and Subba Rao, 1959 (1958). Indian Jour. Ent. 20: 183. ♀, ♂.

Taxonomy: Mackauer and Finlayson, 1967. Canad. Ent. 99: 1070-1072. — Stary, 1974. Ztschr. f. Angew. Ent. 77: 141-171.

NOMINA NUDA IN APHIDIUS NEES

Aphidius fletcheri Ashmead, 1900. In Fletcher, Ent. Soc. Ont., Rpt. 30: 107.
Aphidius washingtonensis Ashmead, 1900. In Johnson, Can. Ent. 32: 60.

Genus LYSAPHIDUS Smith

Aphidius subg. *Lysaphidus* Smith, 1944. Aphidiinae of North America, p. 72.
Type-species: *Aphidius (Lysaphidus) adelocarinus* Smith. Orig. desig.

Revision: Smith, 1944. Aphidiinae of North America, pp. 72-76 (No. Amer. spp.). —Stary, 1960. Polskie Pismo Ent. 30: 357-366 (Eur. spp.). —Stary, 1966. Aphid Parasites of Czechoslovakia, pp. 88-89 (Czech. spp.). —Takada, 1966. Insecta Matsumurana 38: 127-130 (Jap. spp.).

Taxonomy: Mackauer, 1968. Hym. Cat., part 3, pp. 59-60 (cat. World spp.).

Biology: Mackauer and Stary, 1967. Index World Aphidiidae, pp. 82-85 (host list).

adelocarinus (Smith). Idaho, Utah, Calif. Host: *Capitophorus shepherdiae* G. and B., *Pleotrichophorus glandulosus* (Kalt.), *Pseudoeopameibaphis glauca* G. and P., *P. xenotrichus* K. and S.

Aphidius (Lysaphidus) adelocarinus Smith, 1944. Aphidiinae of North America, p. 73. ♀, ♂.

multiarticulatus (Ashmead). Ind., Okla.

Lysiphlebus multiarticulatus Ashmead, 1889 (1888). U. S. Natl. Mus., Proc. 11: 664. ♂.

ramithyrus (Smith). Utah, Calif. Host: *Pleotrichophorus gregarius* (Knowl.), *P. pseudoglandulosus* (Palmer).

Apdiidius (Aphidius) ramithyrus Smith, 1944. Aphidiinae of North America, p. 75. ♀, ♂.

rosaphidis (Smith). N. B., N. J., N. C., Ohio. Host: *Chaetosiphon* sp., *C. fragaefolii* (Ckll.), *C. potentillae* (Wlk.), *C. thomasi* H. R. L.

Aphidius (Lysaphidus) rosaphidis Smith, 1944. Aphidiinae of North America, p. 75. ♀, ♂.

Genus DIAERETIELLA Stary

Diaeretiella Stary, 1960. Acta Soc. Ent. Cechosl. 57: 242.

Type-species: *Aphidius rapae* M'Intosh. Orig. desig.

Prior to 1960, species in *Diaeretiella* were included mainly in *Aphidius* Nees and *Diaeretus* Foerster. At the present, the genus is composed of one cosmopolitan species.

Taxonomy: Stary, 1960. Acta Soc. Ent. Cechosl. 57: 238-239, 242-243. —Stary, 1961. Acta Ent. Mus. Natl. Pragae 34: 383-397. —Mackauer, 1961. Beitr. z. Ent. 11: 801. —Mackauer, 1964. Beitr. z. Ent. 14: 53-58.

rapae (M'Intosh). Cosmopolitan. Host: *Aphis craccivora* Koch, *A. fabae* Scop., *A. gossypii* Glover, *A. nasturtii* Kalt., *A. pomi* DeG., *A. rumicis* L., *Brachycolus asparagi* Mord., *Brachycaudus helichrysi* (Kalt.), *B. rumexicolens* (Patch), *Brevicoryne brassicae* (L.), *Capitophorus* sp., *Dactynotus* sp., *Diuraphis noxioides* (Mord.), *Hayhurstia atriplicis* (L.), *Hyadaphis foeniculi* (Pass.), *Lipaphis erysimi* (Kalt.), *Macrosiphum euphorbiae* (Thomas), *Myzus cerasiferae* (Wlk.), *M. persicae* (Sulzer), *Protaphis* sp., *Rhopalosiphum fitchii* (Sand.), *R. maidis* (Fitch), *R. padi* (L.), *Schizaphis graminum* (Rond.). This is one of the more important economic species in the Aphidiidae. Although it has a wide host

range, including most species of Aphidiidae but with a preference for the *Myzus-Brachycaudus* series, it is largely responsible for the natural control of its main host, the cabbage aphid, *Brevicoryne brassicae* (L.).

TRIBE TRIOXINI

SUBTRIBE MONOCTONINA

Genus MONOCTONUS Haliday

Genus MONOCTONUS Subgenus MONOCTONUS Haliday

Aphidius subg. *Monoctonus* Haliday, 1833. Ent. Mag. 1: 487.

Type-species: *Aphidius (Monoctonus) caricis* Haliday. Monotypic.

Monoctonus subg. *Paramonoctonus* Stary, 1959. Acta Soc. Ent. Cechosl. 56: 238.

Type-species: *Monoctonus (Paramonoctonus) angustivalvus* Stary. Orig. desig.

This genus includes Section I, Falcigeri, of the genus *Aphidius* Nees as defined by Haliday (1834. Ent. Mag. 2: 94). These parasites seem to prefer the smaller host instars in the Aphidoidea, mainly subfamily Aphidinae.

Revision: Smith, 1944. Aphidiinae of North America, pp. 33-34 (No. Amer. spp.). —Stary, 1959. Acta Soc. Ent. Cechosl. 56: 237-250 (Eur. spp.). —Stary, 1966. Aphid Parasites of Czechoslovakia, pp. 70-72 (Czech. spp.). —Stary and Schlinger, 1967. Rev. Far East Asian Aphidiidae, pp. 77-81 (East Asian spp.).

Taxonomy: Mackauer, 1959. Senckenberg. Biol. 40: 179-180 (subgenera). —Mackauer, 1968. Hym. Cat., part 3, pp. 63-66 (cat. World spp.). —Stary and Smith, 1976. Ent. Soc. Wash., Proc. 78: 171-175 (distr., hosts, nomenclature).

Biology: Mackauer and Stary, 1967. Index World Aphidiidae, pp. 89-92 (host list).

caricis (Haliday). Maine, N. C., Minn., N. Dak., Wash.; Europe. Host: *Aulacorthrum solani* (Katl.), *Pseudacaudella rubida* (Börner).

Aphidius (Monoctonus) caricis Haliday, 1833. Ent. Mag. 1: 261. ♀, ♂.

crepidis (Haliday). N. B., Que.; Europe. Host: *Nasonovia ribisnigri* (Mosley).

Aphidius (Aphidius) crepidis Haliday, 1834. Ent. Mag. 2: 94. ♀, ♂.

Aphidius tuberculatus Wesmael, 1835. Nouv. Mem. Acad. Sci. Bruxelles 9: 80. ♀.

Monoctonus paludum Marshall, 1896. In Andre, Spec. Hym. Eur. Alg., v. 5, p. 548. ♀.

Biology: Griffiths, 1960. Bul. Ent. Res. 51: 303-319. —Griffiths, 1961. Bul. Ent. Res. 52: 147-163. —Mackauer, 1962. Canad. Ent. 94: 1089-1093.

nervosus (Haliday). Mich., Oreg., Calif., Alaska; Europe, Asia. Host: *Acyrthosiphon pisum* (Harris), *Amphorophora rubitozica* Knowl., *Aphis rumicis* L., *Macrosiphum californicum* (Clarke), *M. euphorbiae* (Thomas), *Masonaphis grindeliae* Wms., *Myzus ornatus* Laing, *M. persicae* (Sulzer), *Rhopalosiphum padi* (L.), *Sitobion fragariae* (Wlk.).

Aphidius (Monoctonus) nervosus Haliday, 1833. Ent. Mag. 1: 488. ♀, ♂.

Aphidius paulensis Ashmead, 1902. Wash. Acad. Sci. Proc. 4: 246. ♀, ♂.

Monoctonus secundus Viereck, 1915. Calif. State Comm. Hort. Monthly Bul. 4: 28. ♀, ♂.

Taxonomy: Stary, 1974. Ztschr. Angew. Ent. 75: 212-224.

Biology: Calvert and van den Bosch, 1972. Ent. Soc. Amer., Ann. 65: 422-432, 773-779 (host range and specificity, biology, as *paulensis*). —Calvert, 1973. Ent. Soc. Amer., Ann. 66: 28-33 (host selection, as *paulensis*).

Genus MONOCTONUS Subgenus HARKERIA Haliday

Harkeria Cameron, 1900. Ann. Mag. Nat. Hist. 6: 537.

Type-species: *Harkeria rufa* Cameron. Monotypic.

rufus (Cameron). Maine, Pa.; Europe.

Harkeria rufa Cameron, 1900. Ann. Mag. Nat. Hist. 6: 538. ♀.

Taxonomy: Stary and Smith, 1976. Ent. Soc. Wash., Proc. 78: 173-174.

SUBTRIBE TRIOXINA

Genus BOREOGALBA Mackauer

Boreogalba Mackauer, 1962. Canad. Ent. 94: 1107.

Type-species: *Boreogalba gladifer* Mackauer. Orig. desig.

gladifer Mackauer. Northeastern Canada, Alaska.

Boreogalba gladifer Mackauer, 1962. Canad. Ent. 94: 1108. ♀.

Genus TRIOXYS Haliday

Genus TRIOXYS Subgenus BETULOXYS Mackauer

Trioxys subg. *Betuloxys* Mackauer, 1960. Beitr. z. Ent. 10: 139.

Type-species: *Trioxys compressicornis* Ruthe. Orig. desig.

compressicornis Ruthe. Eastern Canada; Europe. Host: *Euceraphis* sp., *E. punctipennis* (Zett.).

Trioxys compressicornis Ruthe, 1859. Stett. Ent. Ztg. 20: 314. ♀.

Far East Asian Aphidiidae, pp. 107-128 (East Asian spp.). All these references are to revisions of species as part of the genus *Trioxys* Haliday.

Taxonomy: Mackauer, 1960. Beitr. z. Ent. 10: 141-148 (subgenera). — Mackauer, 1961. Beitr. z. Ent. 11: 802 (raised to generic status). — Mackauer, 1965. Canad. Ent. 97: 225-231 (notes on No. Amer. spp.). — Mackauer, 1968. Hym. Cat., part 3, pp. 75-80 (cat. World spp.).

Biology: Mackauer and Stary, 1967. Index World Aphidiidae, pp. 102-109 (host list).

angelicae mediterraneus (Mackauer). Calif. ?; Middle East. Liberated in Calif. but not known to be established. Introduced from Israel and Lebanon. Host: *Aphis craccivora* Koch, *A. fabae* Scop., *A. gossypii* Glover, *Toxoptera aurantii* (Fonsc.).

Trioxys (*Binodoxys*) *angelicae mediterraneus* Mackauer, 1960. Beitr. z. Ent. 10: 142 (in part), ♀, ♂. According to Mackauer and Stary (1967. Index World Aphidiidae, p. 104) part of the original type series of this species included *angelicae granatensis* (Quilis) which is restricted to the western Mediterranean area.

carolinensis (Smith). Eastern Canada, Mass., N. C. Host: *Aphis oenotherae* Oestl., *A. pomi* DeG.

Trioxys (*Trioxys*) *carolinensis* Smith, 1944. Aphidiinae of North America, p. 89. ♀, ♂. *communis* (Gahan). Calif. ?; Asia. Liberated in Calif. but not known to be established.

Introduced from Taiwan. Host: *Aphis gossypii* Glover, *Rhopalosiphum* sp.

Trioxys communis Gahan, 1927. U. S. Natl. Mus., Proc. 70: 4. ♀, ♂.

coruseanigrans (Gahan). Colo., Idaho, Utah. Host: *Macrosiphoniella coweni* (Hunter), *M. jonesi* (G. and P.), *M. frigidae* (Oestl.).

Trioxys coruseanigrans Gahan, 1911. Md. Agr. Expt. Sta., Bul. 152: 195. ♀.

cupressicola (Gahan). Calif. Host: *Siphonaphrophia cupressi* (Swain), *S. gravida* (Knowl.).

Trioxys cupressicola Gahan, 1919. U. S. Natl. Mus., Proc. 55: 116. ♀, ♂.

nearctaphidis Mackauer. N. J. Host: *Nearctaphis bakeri* (Cowen).

Binodoxys nearctaphidis Mackauer, 1965. Canad. Ent. 97: 229. ♀, ♂.

palmerae (Smith). Colo. Host: *Macrosiphum mentzeliae* Wilson.

Trioxys (*Trioxys*) *palmerae* Smith, 1944. Aphidiinae of North America, p. 94. ♀, ♂.

rhagii (Ashmead). N. J., Ont., Mich. Host: *Dactynotus atripes* (G. and P.).

Trioxys rhagii Ashmead, 1889 (1888). U. S. Natl. Mus., Proc. 11: 670. ♀.

Genus ACANTHOCAUDUS Smith

Trioxys subg. *Acanthocaudus* Smith 1944. Aphidiinae of North America, p. 96.

Type-species: *Trioxys* (*Acanthocaudus*) *tissoti* Smith. Orig. desig.

The host range of this Nearctic genus is apparently restricted to the aphid genus *Dactynotus* Rafinesque.

- Revision: Smith, 1944. Aphidiinae of North America, pp. 96-98.
- Taxonomy: Mackauer, 1960. Beitr. z. Ent. 10: 138. — Mackauer, 1961. Ztschr. f. Parasitenk. 20: 586-587.

- tissoti* (Smith). Eastern Canada, Fla. Host: *Dactynotus rudbeckiae* (Fitch), *D. russellae* H. R. L.
- Trioxys (Acanthocaudus) tissoti* Smith, 1944. Aphidiinae of North America, p. 96. ♀, ♂.

Family HYBRIZONTIDAE

By PAUL M. MARSH

The one genus and two species which comprise this family in North America were placed in the family Braconidae under the subfamily Paxylommatae in the original catalog. Authors who have published on this group are nearly evenly divided as to whether it should be given family or subfamily status, but I have chosen to treat it as a distinct family.

These wasps are relatively rare and their host relationships have not been satisfactorily established. They are found associated with ants and may be ant parasites; however, one record suggests parasitism of aphids.

Revision: Watanabe, 1946. Matsumushi 1: 24-31 (for World).

Taxonomy: Foerster, 1862. Naturh. Ver. Rheinlande, Verh. 19: 247 (key to genera).

Genus HYBRIZON Fallen

Hybrizon Fallen, 1813. Spec. Nov. Hym. Disp. Meth., p. 19. No species.

Type-species: *Hybrizon latebricola* Nees. By subsequent monotypy.

Paxylomma Brebisson, 1825. In Lepeletier and Serville, Encycl. Meth., Ins. v. 10, p. 23.

Type-species: *Paxylomma buccatum* Brebisson. Monotypic.

Plancus Curtis, 1833. Ent. Mag. 1: 188.

Type-species: *Plancus apicalis* Curtis. Monotypic.

Eurypterna Foerster, 1862. Naturh. Ver. Rheinlande, Verh. 19: 247.

Type-species: *Paxylomma cremieri* Romand. Orig. desig.

Eupachylomma Ashmead, 1894. Ent. Soc. Wash., Proc. 3: 58.

Type-species: *Wesmaelia rileyi* Ashmead. Orig. desig.

Ogkosoma Haupt, 1913. Ent. Gesell. Halle, Mitt. 5-7: 52.

Type-species: *Ogkosoma schwarzi* Haupt. Monotypic.

The names *Paxyloma*, *Paxylomme*, *Paxylomma*, *Paxylloma*, and *Pachylomma*, used by various authors, are all to be considered emendations of *Paxylomma*.

flavocinctus (Ashmead), n. comb. Va.

Eupachylomma flavocincta Ashmead, 1894. Ent. Soc. Wash., Proc. 3: 59. ♂.

rileyi (Ashmead), n. comb. D. C., Va., Mich., Ind., Iowa. Host: *Schizaphis graminum* (Rond.).

Wesmaelia rileyi Ashmead, 1889 (1888). U. S. Natl. Mus., Proc. 11: 641. ♀.

Family ICHNEUMONIDAE

By ROBERT W. CARLSON

Most of the members of this large family are parasites of holometabolous insects. A few species or groups of species parasitize spiders (egg sacs, spiderlings, or adults) or egg sacs of pseudoscorpions. No identified Ichneumonidae are known to be primary parasites of paurometabolous insects (cf. Clancy and Pierce, 1966). Further discussion of host relations is deferred to the introductions pertaining to genera or supergeneric categories. General information on the biology, host selection, or ecology of Ichneumonidae can be found in the discussions of Cushman (1926), Clausen (1940), Townes and Townes (1951, p. 184-185), and Townes (1958, 1962). Additional biological references were cited by Sachtleben (1962c).

According to the estimate of Townes (1969, p. 6) the Nearctic fauna of Ichneumonidae includes slightly more than 8000 species, only 35 percent of which had been described. Of the 27 currently recognized subfamilies, only the Agriotypinae and Collyriinae have no species native to North America (one species of Collyriinae was introduced from Europe).

I have attempted to include most of the species known to have been released in North America for purposes of biological control. In a few cases, I knew from voucher material or had other reasons to suspect that the identifications which had been published in reference to releases were incorrect. When I lacked the information necessary for correcting the identifications of such species, they were excluded from the catalog. None of the species thus excluded are known to be established.

Lists of species synonymy for species not confined to America north of Mexico are as complete as I could make them. No synonyms were intentionally excluded by virtue of having been described from areas outside the geographic scope of this catalog.

Distributions given for species are self-explanatory. In the catalog of Townes and Townes (1951) numerous species which are not particularly common in collections, and some which actually are rather scarce, were cited as having distributions such as "transcont. in Transit. and U. Austr. Zones." Except in a very few cases, distributions of the latter type have been replaced by lists of states and provinces or by bracketing distributions such as: Que. w. to s. B. C., s. to n. Fla., N. Mex., and s. Calif.

In giving the geographic distributions of genera or supergeneric categories, and in some other discussions, I have used the terms Nearctic and Neotropic in reference to distributions in America north of Mexico and south of the United States, respectively. No alternatives were feasible.

Lists of hosts are arranged so that names of taxa belonging to the same family are in alphabetical sequence. The names of the families themselves would have been a very worthwhile addition, and their inclusion would not have been incompatible with the process of computerization. It is hoped that inclusion of them will be allowed in future editions of the catalog.

Although he did not refer to them by number (except on p. 49), Townes, (1969, p. 15-18) discussed the manner in which Opinions 157 and 159 of the International Commission on Zooligical Nomenclature came to be published by Hemming (1945). I have looked into the various

aspects of these cases and have found that Townes' statements about their history are correct (see Hemming, 1943). I also learned that Opinion 135, which pertains to suppression of the names of Jurine which were validated in 1801 (including *Cryptus*), has no validity on the same grounds. However, in 1973 I discovered that Opinion 135 is of no consequence with respect to the homonymy of *Cryptus* Fabricius (1804) because the latter would be preoccupied by *Cryptus* Panzer (1804) if *Cryptus* Jurine (1801) had been suppressed. The fact that Panzer's usage of the name *Cryptus* predates the Fabrician usage is demonstrated by Fabricius' (1804, p. 35) citation of fascicle 88 of Panzer's "Faunae insectorum Germaniae", wherein Panzer (1804) validated the name *Cryptus segmentarius*, which is the type-species of *Cryptus* Jurine by subsequent monotypy and which is a synonym of *Arge rustica* (Linnaeus). After pondering this matter for a considerable time, I decided to use the name *Cryptus* Fabricius in the present catalog in spite of its homonymy for the following reasons: (1) the name *Cryptus* Jurine was never applied more than sparingly to sawflies of the genus *Arge* for a variety of reasons, the principal ones being the obscurity of the publication in which *Cryptus* Jurine (1801) appeared and the fact that most authors thought the name had been validated only by Jurine (1807) and treated it either as a junior homonym of *Cryptus* Fabricius or a junior synonym of *Hylotomma* (itself a junior synonym of *Arge*); (2) neither *Cryptus* Jurine nor *Cryptus* Panzer are likely to be hereafter treated as available names by specialists working on Symphyta; (3) the historic significance of the names *Cryptus* and *Cryptinae* for ichneumonology is secondary only to that of *Ichneumon* and Ichneumonidae.

Fitton and Gauld (1976, p. 249) apparently made independent discovery of the Fabrician citation of Panzer (1804, fasc. 88), and opted in favor of the group name Hemitelinae. I am not certain that the latter will gain wide acceptance among ichneumonid workers, a question which also influenced my decision in favor of *Cryptus* and *Cryptinae*. In any event, the paper of Fitton and Gauld did not appear until after the computerization of my manuscript for the *Cryptinae*, and it is not feasible for me to now alter my decision.

I have applied the names *Ichneumon* and *Pimpla* according to the type-species designations of Curtis (1828 and 1839, respectively). I regard application of the names *Pimpla* Fabricius (1804) and Pimplini to *Coccygomimus* and *Echthromorphini*, respectively (in accordance with the illegal Opinion 159), as a nomenclatural absurdity of incredible magnitude. Fabricius placed no species of *Coccygomimus* in *Pimpla*; he invariably placed them in *Cryptus* in 1804. Thus *Ichneumon instigator* Fabricius (the type-species of *Pimpla* according to Opinion 159) was not one of the species which Fabricius had included in *Pimpla*.

I regard *Ephialtes* Schrank (1802, p. 316) as an available name. Schrank's partial misidentification of the type-species (see his p. 269-270 description of *Ichneumon compuncator linnaeus*) makes it a case analogous to that of his genus *Paniscus* (see introductory discussion of *Netelia*), except for the fact that *Paniscus* is suppressed as a junior synonym of *Ophion*.

Questions of synonymy of supergeneric names have here been decided in favor of the oldest available supergeneric names having type-genera which are currently valid (i.e. not suppressed as junior objective or subjective synonyms). The resultant usage is largely in agreement with that in the paper by Fitton and Gauld (1976) on the ichneumonid supergeneric names other than those of Ichneumoninae. The most noteworthy differences between their usages and mine pertain to Ephialtini (not used here), Pimplini, and names based upon *Cryptus*.

The following is a discussion of some of the most important publications on Ichneumonidae pertinent to studies of the Nearctic fauna; to a limited extent, some of the authors are also discussed. Biographical data on these and additional authors who published on Ichneumonidae were compiled by Sachtleben (1962b, p. 720-726).

The first real specialist to study Ichneumonidae was Gravenhorst (my reference to him as an ichneumonid specialist should not be misconstrued; he is also well known for his taxonomic work on certain Coleoptera, and he published on subjects other than entomology). In 1815 Gravenhorst published the first sizeable taxonomic paper that dealt strictly with Ichneumonidae. In 1819 he published a conspectus (i.e. outline) of the 1829 work that is the foundation for modern ichneumonology. The appearance of the latter work was preceded by Gravenhorst's (1820) paper on the ichneumonids of the Italian Piedmont and by Thunberg's (1822, 1824) revision of "Ichneumonidea," (Ichneumonoidea, Gasteruptiidae, and Aulacidae). Thunberg's revision was based largely upon Fabricius (1804), but the nine generic names which Fabricius had proposed for the species Thunberg treated were suppressed by Thunberg as synonyms of *Ichneumon*. This resulted in much homonymy, and Thunberg proposed many replacement names. Fortunate-

ly, most of the replacement names are unavailable by virtue of having been proposed to replace senior homonyms.

Gravenhorst (1829), on the other hand, attempted to redefine the Fabrician genera of Ichneumonidae and give them phyletic meaning by excluding all but a few of the originally included species and adding others. With the exception of *Gelis* Thunberg (1827), Gravenhorst also utilized the generic names which had been proposed by other authors who had preceded him. Although Gravenhorst's generic nomenclature was not altogether sound with respect to present rules (see Townes, 1969, p. 10), many of the nomenclatural problems which surfaced in the early part of the 20th Century were not caused by anything Gravenhorst did (although he is culpable in the cases of *Bassus* and *Xorides*), and could not have been avoided by anything he could have foreseen. In the case of *Pimpla*, Gravenhorst (1819) did not indicate the precise group of species for which he would use the name in his familial (our generic) sense; therefore, Curtis (1828) could not have known that his choice of type-species would not agree with Gravenhorst's (1829) usage.

Townes (1959) described the general condition of the Gravenhorst collection. Additional information on the collection and its labeling were published by Townes (1965).

Foerster (1868) was the next person to publish a major work dealing with the entire family. All of the 489 genera newly described in his 1868 paper had no included species. Foerster intended that his generic names would apply to the European fauna, but the first included species, European or otherwise became the only ones eligible for selection as type-species. In many cases the type-species fixation was by subsequent monotypy (*Internat. Code Zool. Nomencl.*, art. 69 [A] [ii] [2]). Perkins (1962) dealt with the type-species of the Foerster genera, and except for the few cases in which corrections are made here or elsewhere, or in which species have been referred to Foerster genera since 1962, the type-species I have cited are those cited by Perkins.

Holmgren, Cresson, and Provancher were contemporaries who between 1855 and 1890 published many descriptions of new species of Ichneumonidae, and, in the case of Holmgren, many new genera also. The majority of the new species described by Cresson are Nearctic. Cresson's (1887) synopsis of Hymenoptera of America north of Mexico included keys to the subfamilies and genera of Ichneumonidae and a catalog of the species and their synonyms. Cresson (1916) published a list of species he had described, and he indicated which single specimen was to be regarded as the type for each; thus he selected lectotypes for those cases in which he had described a species from more than one specimen. His 1916 paper also included a list of all the papers he had published on Hymenoptera, but there is no published list which excludes those that do not involve Ichneumonidae. Cresson's (1928) paper (published posthumously) on the types of other authors concerns only those to be found in the collection at the Academy of Natural Sciences of Philadelphia. Therefore, in cases where all the type material of a given species was not deposited at the A. N. S. P., Cresson's citations of individual specimens may not constitute lectotype selection. It is apparent, however, that they were accepted as such by Townes (1944, 1945) and in cases where only one syntype (or only one syntype from the locality indicated as the type locality) was deposited at the A. N. S. P., Townes may technically be the lectotype selector.

Provancher dealt mostly with the Fauna of Canada, most particularly with that of Quebec. He published most of his original descriptions in "Le Naturaliste canadien," but in 1883 published a compilation of them. Additions and corrections to the ichneumonid parts of this 1883 compilation were published by Provancher (1886, 1888, 1889). Gahan and Rohwer (1917, 1918) selected lectotypes for many of Provancher's Hymenoptera (except bees). Barron (1975) restudied the Ichneumonidae in the Provancher collections. He located some types not found by Gahan and Rohwer and in some cases rejected lectotypes that Gahan and Rohwer had selected. In most cases, Barron's grounds for rejecting particular Gahan and Rohwer lectotypes seem valid, but in a number of the cases there was no proof that the Gahan and Rohwer lectotypes had not been syntypes. In those cases (which I discuss under the species in question) I have regarded the Gahan and Rohwer lectotypes as being valid. Barron discussed Provancher's life, collections, and methodology; he also tabulated Provancher's publications on Ichneumonidae (p. 414).

Holmgren dealt mainly with the fauna of Sweden, but did describe six species from California (Holmgren, 1869a) and seven from Greenland (Holmgren, 1869b, 1872). According to information published by Persson (1971) all of the California species were probably collected in the vicinity of San Francisco.

Thomson published on Ichneumonidae between 1783 and 1897, mostly in his "Opuscula en-

tomologica"; the latter has continuous pagination, but is in most other respects a serial publication, and in this catalog I have bibliographically treated it as such. Thomson was an important adopter of Foerster names. In adopting them, however, he often altered their terminations (see Perkins, 1962, p. 387-390). The Thomson spellings have most recently been treated as emendations (see Walkley, 1958, p. 57; Perkins, 1962, p. 387; Townes, 1969, p. 13-14), and I have cited them as such in this catalog. However, Thomson never cited the original spellings in any of these cases, and although it is obvious in most cases that his spellings were deliberate, they technically should be treated as lapses. Thomson was good at finding characters for distinguishing genera, and also seems to have been very talented at distinguishing closely related species. His ability in the latter respect, at least, seems to have been much greater than that of any of his contemporaries who worked on Ichneumonidae. The weaknesses in Thomson's work stem from the fact that he apparently never traveled to study the collections even of prior Scandinavian workers (e.g. Holmgren, Thunberg, Woldstedt), but instead ignored their names (i.e. in the case of Thunberg) or attempted to identify their species from their descriptions. Many of Thomson's errors in the identification of the species of others are being corrected in current papers.

Ashmead published on Ichneumonidae between 1888 and 1906. His 1900 treatment of the Ichneumonoidea was hastily contrived and full of errors. It is based largely upon the generic keys of Foerster and, with respect to Ichneumonidae, is significant mostly for its fixation of some type-species and for the validation of new generic and specific names. Some of the names validated by Ashmead (1900) were discussed by Cushman (1942). Crawford (1900) published a list of Ashmead's entomological papers and an index to the generic names of Ashmead; there is no published list of only those Ashmead papers which involve Ichneumonidae.

The ichneumonid part (1901-1902) of Dalla Torre's catalog of Hymenoptera is, for the most part, bibliographically accurate and nearly complete. Those inaccuracies which are found in his catalog appear to have resulted from the fact that he either did not have all of the primary literature available to him or did not have time to check it. He cannot be faulted on either account, but those who can feasibly check his cataloging of older works probably would be wise in doing so.

Viereck published a significant number of papers on Ichneumonidae and other Hymenoptera between 1902 and 1928, but is probably best known for his publications on the type- species of Ichneumonoidea (1914, 1921) and the Hymenoptera of Connecticut (1917, with other collaborating authors). His work on the ichneumonoid type-species was based largely upon Dalla Torre's catalog; some of his oversights of first inclusions of species in ichneumonid genera of Foerster could have been avoided if he had studied Dalla Torre's catalog more carefully. Viereck was not a careful worker, however, and the characters he used for distinguishing what he called genera and species were poorly chosen. Consequently, his 1917 treatment of the Ichneumonidae in Hymenoptera of Connecticut has served only to befuddle or mislead those who have attempted to use it. Apparently, there is no published list of Viereck's publications.

Roman (Sweden) and Cushman (U. S. A.) were specialists who published numerous papers on Ichneumonidae over periods of time that were largely overlapping (1903-1940 and 1913-1947, respectively). I have cited below the four taxonomic papers of Cushman (1921 [with Gahan], 1922, 1928, 1942) which deal with Ichneumonidae in a more or less general fashion. A complete listing of Cushman's publications was given by Townes (1957).

Roman (1912, 1932, 1936) published important papers on ichneumonid type specimens of Thunberg and Linnaeus. His papers on the Ichneumonidae of Greenland are some of the most recent ones on the subject; these and other papers on Greenland Ichneumonidae were cited by Sachtleben (1962c, p. 923). Sachtleben (1962a, p. 171-173) listed most of Roman's papers on Ichneumonidae.

The Nearctic catalog of Ichneumonidae by Townes (1944, 1945) differs from the present catalog in showing all the published generic combinations for each species and in citing type localities and type repositories. Those types of Viereck cited in that catalog as being at the Conn. Agr. Expt. Sta. have since been transferred to the U. S. Natl. Museum. Other corrections to the 1944-1945 catalog of Townes were given by Townes (1973, p. 359-369).

The Nearctic catalog of Townes and Townes (1951) did not cite either the nomina nuda which had been cited in synonymy by Townes (1944, 1945) or those he had left unplaced (1945, p. 768-770). The nomina nuda are reinserted here because they have some historic significance, that significance being greatest when they pertain to specimens which subsequently became types of valid names.

Short's (1959, 1970) study of final-instar larvae was more complete and detailed than that of Beirne (1941), and therefore seems to have had a greater impact upon the classification of Ichneumonidae. Although some specialists who work primarily with adults have recently incorporated larval studies into their taxonomic revisions, information about larvae has come chiefly from scientists, like Dr. Short, who are larval specialists. I believe that the information they have published has in some cases been misused by those who specialize in study of adult specimens. The latter sometimes accord as great a significance to structural characters of the head sclerites of final-instar larvae as to the sum total of the adult structural characters which have been studied. For example, Townes (1969, p. 28-29) based his assertion that Ichneumoninae and Cryptinae (=his Gelineae) are unrelated upon differences between the known larvae of the two groups. Townes believed the fact that "these two subfamilies ... resemble each other to a remarkable degree" ... "to be the result of hunting [for] hosts on foot," a habit shared by many members of both groups, but not all the members of either. The Ichneumoninae are internal pupal and larval-pupal parasites of Lepidoptera, while most of the Cryptinae are presumed to be external parasites of a variety of hosts, including Lepidoptera. The known larvae of these two groups differ accordingly. Because internal parasitism must evolve from external parasitism (or vice versa), I believe that it is illogical to regard the known larval differences as evidence indicating that the Ichneumoninae and Cryptinae are unrelated. I hope that this and similar questions are to be addressed in Dr. Short's revised and greatly expanded work on larvae which is nearly ready for publication (personal commun., J. R. T. Short, 1977).

Sachtleben's (1962a) bibliography of of Palearctic Ichneumonidae is an extremely valuable tool for those interested in the taxonomy or biology of Ichneumonidae. Additions and corrections to this bibliography were published by Sachtleben (1962b, p. 726-731), and Sachtleben (1962c) provided a set of subject indices to the bibliography (e.g. indices to papers on morphology, ecology, physiology, parasitization of individually listed hosts, various taxonomic categories, etc.). It seems likely that in compiling this set of papers Sachtleben would not have found time for verifying dates of publication; this seems to be borne out by my observation regarding dates for various papers of Holmgren, for some of which I have established dates (i.e. years) of publication later than those cited by Sachtleben.

Much new species synonymy was published in the catalogs of Townes, Townes, and Gupta (1961), Townes, Momoi, and Townes (1965) and Townes and Townes (1966, 1973); some improvements in generic and supergeneric classification were also made, particularly in the 1961, 1965, and 1966 catalogs. Many additional changes in classification were made by Townes (1969, 1970a, 1970b, 1971) in his treatment of the genera of the world (except Ichneumoninae). The fact that these works on the genera have been of great importance to the present catalog will be obvious from the fact that I have largely adopted Townes' arrangement of genera and supergeneric categories. However, the arrangement of the taxa in any classification is superficial matter of secondary importance, and the ultimate value of Townes' volumes on the genera stems from the great amount of new and old real information that they have brought together.

Townes' (1969) estimate of the number of extant ichneumonid species as slightly fewer than 60,500 is rather frequently cited in publication and conversation. In a recent conversation I was told of an anonymous coleopterist who has estimated the size of the Curculionidae to be "100,000 to 250,000" species, and I have also heard claims that the Noctuidae and Chalcidoidea may exceed the Ichneumonidae in size. The fact that no persons have yet assembled the collections or the knowledge of them to allow them to make size estimates of the Noctuidae, Chalcidoidea, or Curculionidae that they are willing to publish would seem to attest to the ability and dedication of both of the Towneses. Uncertainties about the absolute and relative sizes of the groups mentioned will outlive those presently wondering about them. However, our present speculations serve to remind us that the number of persons working on the various aspects of systematics and biology of the taxa in any large insect group is far fewer than the number which can possibly satisfy the demand for information about those taxa.

Genus SCAMBUS Hartig

Revision: Walley, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 14-79.

Genus SCAMBUS Subgenus ENDROMOPODA Hellen

Endromopoda Hellen, 1939. Notulae Ent. 19: 56.

Type-species: *Pimpla melanopyga* Gravenhorst. Orig. desig.

detritus (Holmgren). N. B. to s. B. C., s. to Ohio and Calif.; Europe. Host: *Cephus cinctus* Nort., *C. pygmaeus* (L.), *Trachelus tabidus* (F.).
Pimpla detrita Holmgren, 1860. Svenska Vetensk.-Akad. Handl. (ser. 4), 3(10): 23. ♂, ♀.

Biology: Salt, 1931. Bul. Ent. Res. 22: 519-526. — Holmes, 1953. Canad. Ent. 85: 339.

lithocolletidis (Ashmead). Calif. Host: *Lithocolletis* sp. This is a new subgeneric placement. The host was reared from *Grindelia robusta* Nutt.

Pimpla lithocolletidis Ashmead, 1890 (1889). U. S. Natl. Mus., Proc. 12: 447. ♂.

productus Walley. N. S., s. to R. I., w. to Alaska and Calif.

Scambus (Endromopoda) productus Walley, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 23. ♂, ♀.

rubescens Walley. Western N. Y., w. to Sask., s. to Kans. and Wyo.

Scambus (Endromopoda) rubescens Walley, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 19. ♂, ♀.

Genus SCAMBUS Subgenus LISSOSCAMBUS Walley

Scambus subg. *Lissoscambus* Walley, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 25.

Type-species: *Scambus (Lissoscambus) arizonensis* Walley. Orig. desig.

arizonensis Walley. Colo., Ariz.; Mexico.

Scambus (Lissoscambus) arizonensis Walley, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 25. ♂, ♀.

Genus SCAMBUS Subgenus ATELEOPHADNUS Cameron

Ateleophadnus Cameron, 1905. Invertebrata Pacifica 1: 127.

Type-species: *Ateleophadnus bicarinata* Cameron. Monotypic.

deceptor Walley. Que., s. to N. Y., w. to B. C. and Colo.

Scambus (Ateleophadnus) deceptor Walley, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 35. ♂, ♀.

- granulosus** Walley. N. S., s. to S. C., w. to N. W. T. and Calif. Host: *Mompha eloisella* (Clem.).
Scambus (Atelophadnus) granulosus Walley, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 31. ♂, ♀.
- pterophori** (Ashmead). Northern N. S., s. to S. C., w. to Alaska and Calif. Host: *Periploca ceanothiella* (Cosens), *Gnorimoschema gallaeasteriella* (Kell.), *G. gallaesolidaginuss* (Riley), *Mompha eloisella* (Clem.), *Achatodes zee* (Harris), *Ancylis comptana* (Froel.), *Epiblema otiosanum* (Clem.), *E. scudderianum* (Clem.), *E. strenuuanum* (Wlk.), *Grapholita molesta* (Bsk.), *Laspeyresia pomonella* (L.), *Proteoteras aesculana* Riley, *Platyptilia carduidactyla* (Riley), *P. williamsi* (Grin.), *Ostrinia nubilalis* (Hbn.), *Mononychus vulpeculus* (F.), *Ametastegia glabrata* (Fallen).
- Pimpla pterophori* Ashmead, 1890 (1889). U. S. Natl. Mus., Proc. 12: 445. ♀.
Colpomeria littoralis Davis, 1898 (1897). Amer. Ent. Soc., Trans. 24: 367. ♂.
Atelophadnus bicarinata Cameron, 1905. Invertebrata Pacifica 1: 128. ♀.
- Biology: Vinal and Caffrey, 1919. Mass. Agr. Expt. Sta., Bul. 189: 58. —Leiby, 1922. N. Y. Ent. Soc., Jour. 30: 93. —Cushman, 1926. Ent. Soc. Wash., Proc. 28: 33. —Wilder, 1927. Psyche 34: 227-229. —Balduf, 1929. Ohio Jour. Sci. 29: 224-226.
- Genus SCAMBUS Subgenus SCAMBUS Hartig**
- Scambus* Hartig, 1838. Jahresber. Fortschr. Forstwiss. Forstl. Naturk. 1: 267.
 Type-species: *Scambus sagax* Hartig. Desig. by Viereck, 1914.
- Tromera* Foerster, 1868. Naturh. Ver. Rheinlande, Vehr. 25: 164.
 Type-species: *Pimpla pomorum* Ratzeburg. Monotypically included and desig. by Schmiedeknecht, 1888.
- Epiurus* Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 164. Preocc. by Rafinesque, 1815.
 Type-species: *Pimpla calobata* Gravenhorst. Here desig. from two species included by Woldstedt, 1877 (1876).
- Troctocerus* Woldstedt, 1877 (1876). Acad. Imp. des Sci. St. Petersburg, Bul. 22: 296.
 Type-species: *Troctocerus elegans* Woldstedt. Monotypic.
- Pseudopoemenia* Kiss, 1924. Siebenbuerg. Ver. Naturw., Verh. u. Mitt. 72-74: 91.
 Type-species: *Pseudopoemenia annulata* Kiss. Monotypic.
- annulatus* (Kiss), N. S., Que., N. H., N. W. T., Alaska and B. C.; Europe. Host: *Spilonota ocellana* (D. and S.). This species had been misidentified as *Scambus nucum* (Ratzeburg), a synonym of *planatus* Hartig, which is not known from North America.
Pseudopoemenia annulata Kiss, 1924. Siebenbuerg. Ver. Naturw., Verh. u. Mitt. 72-74: 92. ♂.
Pimpla lativentris Ulbricht, 1926. Konowia 5: 51. ♂, ♀. Preocc. by Rudow, 1881.
Pimpla trilobata Keler, 1937. Prace Wydz. Chorob. Roslin Panst. Inst. Nauk. Gosp. Wiejsk. w Bydgoszczy 16: 11. ♂, ♀.
- Taxonomy: Oehlke, 1966. Beitr. z. Ent. 16: 189.
- aplopappi* (Ashmead). Nebr., Colo., N. Mex., Idaho, Ariz., Wash., Calif. Host: *Coleotechnites milleri* (Bsk.), *Etiella zinckenella* (Treit.), *Rhyacionia frustrana bushnelli* (Bsk.), *R. neomexicana* (Dyar), *Stomopteryx nigrella* (Cham.).
Pimpla aplopappi Ashmead, 1890 (1889). U. S. Natl. Mus., Proc. 12: 446. ♂.
Scambus ectrivorus Rohwer, 1915. U. S. Natl. Mus., Proc. 49: 225. ♀.
- atrocoxalis* (Ashmead). Newfoundland (Labrador), N. W. T., Alta, Yukon, Alaska; Sweden.
Epiurus atrocoxalis Ashmead, 1902. Wash. Acad. Sci., Proc. 49: 225. ♂, ♀.
- brevicornis* (Gravenhorst). Newfoundland (Labrador) s. to N. J., w. to Alaska and Calif.; Greenland; Europe. Host: *Anthophila pariana* (Clerck), *Choristoneura rosaceana* (Harris), *Laspeyresia nigricana* (Steph.), *Laspeyresia* sp., *Parlobesia viteana* (Clem.), *Spilonota ocellana* (D. and S.).
Pimpla brevicornis Gravenhorst, 1829. Ichn. Europaea, v. 3, p. 211. ♂, ♀.
Pimpla nigricaposa Thomson, 1877. Opusc. Ent. 8: 755. ♂, ♀.
Pimpla punctiventris Thomson, 1877. Opusc. Ent. 8: 756. ♂, ♀.
Pimpla (*Epiurus*) *balearica* Kriechbaumer, 1894. Ann. Hist. Nat. Madrid 23: 248. ♀.
Epiurus bicoloripes Ashmead, 1902. Wash. Acad. Sci., Proc. 4: 201. ♀.

Phthorimus anomalus Morley, 1905. Ent. Soc. London, Trans. 53: 420. ♀.

Pimpla euphrantiae Schmiedeknecht, 1914. Ztschr. f. Angew. Ent. 1: 452. ♂, ♀.

Pimpla ameformis Keler, 1937. Prace Wydz. Chorob. Roslin Panst. Inst. Nauk. Gosp. Wiejsk. w Bydgoszczy 16: 10. ♂, ♀.

Biology: Stuart, 1957. Bul. Ent. Res. 48: 477-488.

buolianae (Hartig). Europe. Introduced in Ontario in 1956 and 1958, but apparently without becoming established. Host: *Rhyacionia buoliana* (D. and S.).

Pimpla Buolianae Hartig, 1838. Jahresber. Fortschr. Forstswiss. Forstl. Naturk. 1: 267. ♂, ♀.

Pimpla flavotrochanterata Pfeffer, 1913. Ver. f. Vaterland. Naturk. in Wuerttemb., Jahresh. 69: 314. ♀.

Biology: Leius, 1960. Canad. Ent. 92: 371. —Leius, 1961. Canad. Ent. 93: 1079. —Leius, 1962. Canad. Ent. 94: 1078. —Leius, 1963. Canad. Ent. 95: 202.

canadensis Walley. Northern Que., s. to N. S. and Maine, w. to Alaska and Calif. Host: *Glypta fumiferanae* (Vier.), *Choristoneura conflictana* (Wlk.).

Scambus (Scambus) canadensis Walley, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 38. ♂, ♀.

decorus Walley. N. S. and Que., s. to Mich., w. to Alaska and Wash. Host: *Amorbia humerosa* (Clem.), *Choristoneura fumiferana* (Clem.), *Coleophora pruniella* Clem., *C. fuscedinella* Zell., *Microsetis stippae* (Hbn.), *Gracilaria* sp., *Paraclemensia acerifoliella* (Clem.), *Phalonia rutilana* (Hbn.), *Spilonota ocellana* (D. and S.).

Scambus (Scambus) decorus Walley, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 38. ♂, ♀.

dioryctriæ Walley. Sask., Alta. Host: *Dioryctria reniculella* (Grt.).

Scambus (Scambus) dioryctriæ Walley, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 61. ♂, ♀.

foliae (Cushman). Austria. Introduced in Maine, apparently without becoming established because of small number of individuals released (50 mated females). Host: *Heterarthrus nemoratus* (Fallen).

Epiurus foliae Cushman, 1938. Wash. Acad. Sci., Jour. 28: 27. ♂, ♀.

Biology: Dowden, 1941. U. S. Dept. Agr., Tech. Bul. 757: 8, 9, 11, 16-20.

hispanae (Harris). N. S. s. to Ala., w. to Alaska and Calif. Host: *Acrobasis betulella* Hulst, *A. comptoniella* Hulst, *A. rubrifasciella* Pack., *Anacampsis innocuella* (Zell.), *Dryocampa rubicunda* (F.), *Anthophila pariana* (Clerck), *Archips rosanus* (L.), *Choristoneura fumiferana* (Clem.), *C. pinus* Free, *Coleophora pruniella* Clem., *Episimus argutanus* (Clem.), *Exartema connectum* McD., *Hedia variegana* (Hbn.), *Acleris minuta* (Rob.), *Grapholitha molesta* (Bsk.), *Tigrioides bicolor* (Grt.), *Malacosoma disstria* Hbn., *Psilocorsis* sp., *Spilonota ocellana* (D. and S.), *Tischeria* sp., *Thyridopteryx ephemeraeformis* (Haw.), *Rhyacionia buoliana* (D. and S.), *Heterarthrus nemoratus* (Fallen), *Metallus rohweli* MacG., *Anoplitus inaequalis* (Weber), *A. rosea* (Weber), *Arthrochlamys bebbiana* Brown, *Xenochalepus dorsalis* (Thun.), *Hyposoter fugitivus* (Say).

Ichneumon Hispae Harris, 1833. In Hitchcock, Rpt. Geol. Mineral. Bot. Zool. Mass., p. 587. Nomen nudum.

Ichneumon hispae Harris, 1835. Boston Soc. Nat. Hist., Jour. 1: 149-150. ♀.

Pimpla indagatrix Cresson, 1870. Amer. Ent. Soc., Trans. 3: 146. ♂.

Pimpla minuta Weed, 1887. Ill. State Lab. Nat. Hist., Bul. 3: 41. ♂.

Pimpla gossypii Ashmead, 1890 (1889). U. S. Natl. Mus., Proc. 12: 445. ♀.

Scambus (Scambus) tecumseh Viereck, 1917. Conn. State Geol. and Nat. Hist. Survey Bul. 22: 320. ♀. N. syn. In Walley's revision of *Scambus* this name is incorrectly applied to a species for which no name is apparently available.

- subtilis* Walley. Oreg., Nev., Calif. *Scambus (Scambus) subtilis* Walley, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 47. ♀.
- transgressus* (Holmgren). Idaho, s. B. C., Wash., Oreg., Calif. Host: *Grapholitha packardi* (Zell.), *Acleris variana* (Fern.), *Archips rosanaus* (L.), *Choristoneura occidentalis* Free., *Anthophila pariana* (Clem.), *Coleophora laricella* (Hbn.). *Pimpla transgressus* Holmgren, 1869 (1868). Eug. Resa, pt. 2 (Zool.), sect. 1 (Ins.), p. 405. ♀.
- Epiurus innominatus* Viereck, 1912. U. S. Natl. Mus., Proc. 42: 149. ♀.

Genus SCAMBUS Subgenus ERYTHROSCAMBUS Walley

- Scambus* subg. *Erythroscambus* Walley, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 77.
- Type-species: *Pimpla hirticauda* Provancher. Orig. desig.
- hirticauda* (Provancher). Ariz., B. C., Wash., Calif. Host: *Lithoclellis felinelle* Hein., *Setiostoma fernaldella* Riley, *Gracillaria* sp. *Pimpla hirticauda* Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 116. ♀. Provancher erroneously gave the type locality as Ontario, but Walley (1960) established that Victoria, B. C. is the actual type locality.

Genus CALLIEPHIALTES Ashmead

- Calliephialtes* Ashmead, 1900. U. S. Natl. Mus., Proc. 23: 54.
- Type-species: *Pimpla xanthothorax* Ashmead. Monotypic and orig. desig.

ferrugineus Cushman. Southern Fla.; Puerto Rico, Cuba. Host: *Hypsipyla grandella* (Zell.), *Pectinophora gossypiella* (Sdr.). The specimens upon which these host records are based are from Puerto Rico.

Calliephiales ferrugineus Cushman, 1940. U. S. Natl. Mus., Proc. 88: 362. ♀.

grapholithae (Cresson). Mass., s. to Fla., w. to Mich. and Texas. Host: *Acrobasis hebescella* Hulst, *A. juglandis* (LeB.), *A. rubrifasciella* Pack., *Carmena texana* (Hy. Ed.)?, *Laspeyresia caryana* (Fitch), *Meskea dyspteraria* Grt., *Stagmatophora ceanothiella* Cos., *Thyridopteryx ephemeraeformis* (Haw.), *Megalopyge opercularis* (J. E. S.).
Pimpla grapholithae Cresson, 1890. In Hamilton, Ent. News 1: 50. ♂, ♀.
Pimpla xanthothorax Ashmead, 1890 (1889). U. S. Natl. Mus., Proc. 12: 446. ♀.

Biology: Hamilton, 1890. Ent. News 1: 49 —Nickels, Pierce, and Pinkney, 1950. U. S. Dept. Agr., Tech. Bul. 1011: 12-14.

Morphology: Peck, 1937. Canad. Jour. Res., Sect. D (Zool. Sci.) 15: 248, 249, 252.

notandus (Cresson). Southern Que., s. to Fla., w. to s. B. C. and Calif. Host: *Epiblema desertanum* (Zell.), *E. scudderianum* (Clem.), *E. strenuum* (Wlk.), "Gelechia" sp., *Gnorimoschema baccharisella* Bsk., *G. gallaeasteriella* (Kell.), *G. gallaesolidaginiis* (Riley), *Walshia "amorphella"* Clem.

Pimpla notanda Cresson, 1870. Amer. Ent. Soc., Trans. 3: 148. ♂, ♀.

Biology: Riley, 1877. Mo. State Ent., Ann. Rept. 9: 98. —Leiby, 1922. N. Y. Ent. Soc., Jour. 30: 93.

thurberiae Cushman. Southeastern N. Mex., Ariz.; Mexico, Costa Rica. Host: *Anthonomus grandis thurberiae* Pierce, *Disholcaspis* sp., *Acrobasis nuxvorella* Neun., *Antron plumbeum* (Weld).

Calliephiales thurberiae Cushman, 1915. Ent. Soc. Wash., Proc. 17: 132. ♂, ♀.

Genus PIMPLA Fabricius

Pimpla Fabricius, 1804. Systema piezatorum, p. 112.

Type-species: *Ichneumon manifestator* Linnaeus. Desig. by Curtis, 1828. Members of this genus parasitize aculeate Hymenoptera which nest in wood. My reasons for using the name *Pimpla* rather than *Ephialtes* for this genus are given in the introductory discussion of the Ichneumonidae.

brevis (Morley). Que., Ont., Man., Sask., Alta.; Europe. Host: *Megachile* sp., *M. inermis* Prov., *M. nivalis* Friese.

Ephialtes brevis Morley, 1914. Rev. Ichn. Brit. Mus., v. 3, p. 23. ♀.

decumbens Townes. Iowa, Colo., B. C., Calif.

Pimpla decumbens Townes, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 102. ♂, ♀.

macra (Cresson). N. Y., Colo., Oreg., Calif. Host: *Passaloecus* sp. The host record given by Townes and Townes as "*N. brevicornis*" is a mistake for *Dendroctonus brevicomis* LeC., the pupal cells of which harbored the true host, *Passaloecus* sp.

Ephialtes macer Cresson, 1868. Canad. Ent. 1: 35. ♀.

spatulata Townes. Que. s. to N. C., w. to B. C. and Calif.; Europe. Host: *Euodynerus* sp., *Ancistrocerus lineativentris* Cameron.

Pimpla spatulata Townes, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 106. ♂, ♀.

Genus LIOTRYPHON Ashmead

Liogaster Kriechbaumer, 1890. Ent. Nachr. 16: 297. Preocc. by Meyer, 1844.

Type-species: *Liogaster longulus* Kriechbaumer. Monotypic.

Liotryphon Ashmead, 1900. Canad. Ent. 30: 368. New name for *Liogaster* Kriechbaumer.

Apistes Seyrig, 1927. Eos 3: 221. Preocc. by Fischer, 1823; Cuvier, 1829.

Type-species: *Apistes perversus* Seyrig. Monotypic. The type-species is regarded as a synonym of *Liotryphon ruficollis* (Desvignes).

Apistephiales Seyrig, 1928. Eos 4: 380. N. name for *Apistes* Seyrig.

Neoephialtes Constantineanu and Pisica, 1970. An. Stiintifice Universitatii "Al. I. Cuza" din Iasi, sect. II (Stiinte Nat.) a. Biol. Mong. 2: 18.

Type-species: *Neoephialtes foveolatus* Constantineanu and Pisica. Monotypic and orig. desig.

arcticus (Roman). N. W. T., Alaska; Siberia.

Ephialtes arcticus Roman, 1926 (1914). Acad. Imp. des Sci. St. Petersburg, Mem., ser. 8 (cl. Phys. Math.) 29 (7): 6. ♀.

caudatus (Ratzeburg). Europe. Introduced in California in 1904 and 1905 and in the eastern U. S. A. in 1935 and 1936, apparently without becoming permanently established. Host: *Laspeyresia pomonella* (L.).

Pimpla caudata Ratzeburg, 1848. Ichn. d. Forstins., v. 2, p. 92. ♀.

Ephialtes brevivalvis Hensch, 1929; 1930. Konowia 8: 159; 9: 75, 249. ♂, ♀.

Neoephialtes foveolatus Constantineanu and Pisica, 1970. Stiintifice Universitatii "Al. I. Cuza" din Iasi, sect. II (Stiinte Nat.) a. Biol. Monog. 2: 19. ♀.

Taxonomy: Perkins, 1939. Bul. Ent. Res. 30: 307-308.

Biology: Whitaker, 1907. Calif. State Comm. Hort., Bien. Rpt. 2: 231-235.

coracinus (Townes). N. Y., N. J., Md., N. C., Tex.

Apistephialtes coracinus Townes, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 99. ♂, ♀.

dentatus (Townes). Colo., Alta., B. C., Oreg., Calif. Host: *Enoclerus sphegus* (F.), *Thanasimus nigriventris* (LeC.).

Apistephialtes dentatus Townes, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 97. ♂, ♀.

laspeyresiae (Uchida). Japan. Introduced in N. J. from 1934-1936, apparently without becoming established. Host: *Grapholitha molesta* (Bsk.).

Ephialtes laspeyresiae Uchida, 1932. Insecta Matsumurana 6: 160. ♂, ♀.

Biology: Allen, Holloway, and Haeussler, 1940. U. S. Dept. Agr. Cir. 561: 48.

masoni (Townes). Ont., Man., N. W. T., Alta., Alaska, Yukon.

Apistephialtes masoni Townes, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 93. ♀.

nucicola (Cushman). Colo., N. Mex., Ariz., B. C. s. to Calif. Ecology: May parasitize lepidopterous inquilines in the galls of the Hymenoptera listed as hosts. Host: *Andricus* sp., *Atrusca* sp., *Disholcaspis eldoradensis* (Beut.), *Pontania* sp., *Gnorimoschema baccharisella* Bsk., *Laspeyresia pomonella* (L.), *Periploca ceanothiella* (Cosens), *Proteoteras arizonae* Kft., *Walshia amorphella* Clem., *Melissopus latiferreanus* (Wlsm.). *Calliphialtes nucicola* Cushman, 1931. U. S. Natl. Mus., Proc. 79 (14): 5. ♂, ♀.

petulcus (Cresson). Tex.; Mexico.

Pimpla petulca Cresson, 1872. Amer. Ent. Soc., Trans. 4: 165. ♀.

punctulatus (Ratzeburg). Europe. Introduced in Idaho (year unknown), without attempts at recovery; lacking evidence to the contrary, it is here presumed to be unestablished.

Host: *Laspeyresia pomonella* (L.). Other hosts are known, but that listed was the target species for the introduction in Idaho.

Pimpla punctulata Ratzeburg, 1848. Ichn. d. Forstins., v. 2, p. 90. ♀.

Ephialtes extensor Taschenberg, 1863. Ztschr. Gesam. Naturw. Halle 21: 255. ♂, ♀. This is the name which was applied to the material imported to Idaho.

Ephialtes discolor Brischke, 1880. Naturf. Gesell. Danzig, Schr. (n. s.) 4 (4): 110. ♂, ♀.

Liochaster longulus Kriechbaumer, 1890. Ent. Nachr. 16: 297. ♀.

Ephialtes macrurus Habermehl, 1916. Ztschr. f. Wiss. Insektenbiol. 12: 163. ♀. Preocc. by Thomson, 1895.

Ephialtes teuer Hensch, 1929; 1930. Konowia 8: 140; 9: 75, 245. ♂, ♀.

Ephialtes vernalis Hensch, 1929; 1930. Konowia 8: 152; 9: 76. ♂.

Ephialtes gracilentus Hensch, 1930. Konowia 9: 75. Nomen nudum.

Taxonomy: Perkins, 1939. Bul. Ent. Res. 30: 307-308.

Biology: Lyngnes, 1960. Norsk Ent. Tidsskr. 11: 122-134.

- variaticipes* (Provancher). Que., N. H. s. to Md., W. Va., w. to Minn. Host: *Canarsia ulmiarrosorella* (Clem.), *Laspeyresia pomonella* (L.), *Grapholithe molesta* (Bsk.).
Ephialtes variaticipes Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 114. ♂.
Pimpla stultus Davis, 1898 (1897). Amer. Ent. Soc., Trans. 24: 367. ♂.
Calliphialtes benefactor Cushman, 1931. U. S. Natl. Mus., Proc. 79 (14): 6. ♂, ♀.

Genus TOWNESIA Ozols

Townesia Ozols, 1962. Latvijas Ent. 6: 12.

- Type-species: *Ephialtes tenuiventris* Holmgren. Monotypic and orig. desig.
tenuiventris (Holmgren). Que. s. to Md., w. to B. C. and Calif.; Eurasia. Ecology: Known to parasitize aculeate Hymenoptera which nest in wood as well as sawflies which occupy abandoned pupal cells of Coleoptera in the bark of trees, particularly *Pinus*. Host: *Trypoxylon figulinum* (L.), *Chelostoma maxillosum* (L.), *Xiphydria* sp., *Strongylaster* sp., *S. lineata* (Christ). Except for *Xiphydria* sp., the preceding host records are European. The record for *Xiphydria* sp. needs confirming, and the host record given in the revision of Townes and Townes (1960) as *Melanophila consputa* LeC. appears to be incorrect according to card file data pertaining to the specimen in question.
Ephialtes tenuiventris Holmgren, 1859. Svenska Vetensk. Akad., Ofvers. af ... Forhandl. 16: 123. Nomen nudum.
Ephialtes tenuiventris Holmgren, 1860. Svenska Vetensk.- Akad., Handl. (ser. 4) 3 (10): 14. ♂, ♀.
Ephialtes geniculatus Brischke, 1864. Phys. Oekonom. Gesell. Koenigsberg, Schr. 5: 179. ♂. Uncertain syn.
Ephialtes pusio Walsh, 1873. Acad. Sci. St. Louis, Trans. 3: 111. ♀.
Ephialtes antefurcalis Thomson, 1877. Opusc. Ent. 8: 741. ♀.
Ephialtes pacificus Harrington, 1894. Canad. Ent. 26: 242. ♂, ♀.
Ephialtes incertus Hensch, 1929; 1930. Konowia 8: 149; 9: 76. ♂.
Ephialtes gracilis Hensch, 1930. Konowia 9: 76. Nomen nudum.

Biology: Welke, 1966. Beitr. z. Ent. 9: 261-263.

Genus ANASTELGIS Townes

Anastelgis Townes, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 109. Type-species: *Anastelgis terminalis* Townes. Orig. desig.

terminalis Townes. Wash., Calif.

Anastelgis terminalis Townes, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 110. ♂, ♀.

Genus DOLICHOMITUS Smith

Closterocerus Hartig, 1847. Naturw. Ver. Harz, Ber., 1846-1847, p. 18. Preocc. by Westwood, 1833.

Type-species: *Closterocerus sericeus* Hartig. Monotypic.

Dolichomitus Smith, 1877. Zool. Soc. London, Proc., p. 411.

Type-species: *Dolichomitus longicauda* Smith. Monotypic.

Mesoephialtes Schmiedeknecht, 1906. Opusc. Ichn., v.3, p. 1014.

Type-species: *Mesoephialtes coracinus* Schmiedeknecht. Monotypic. The type-species is regarded as a subspecies of *Dolichomitus zonatus* (Cresson).

Diclosterocerus Viereck, 1914. U. S. Natl. Mus. Bul. 83: 45. New name for *Closterocerus* Hartig.

Ichneumon subg. *Exeristoidea* Viereck, 1924. Canad. Ent. 56: 202.

Type-species: *Ichneumon* (*Exeristoidea*) *watsoni* Viereck. Orig. desig.

Tuberculephialtes Ozols, 1962. Latvijas Ent. 6: 19.

Type-species: *Ichneumon* *tuberculatus* Geoffroy. Orig. desig.

Members of this genus parasitize woodborers, usually Coleoptera. Ideally, the name *Ephialtes* would apply to this genus (see introductory discussion of the family).

aciculatus (Hellen). Que., Yukon, B. C., Europe. Host: *Tetropium gabrieli* Weise. This is a European host record.

Ephialtes aciculatus Hellen, 1915. Soc. pro Fauna et Flora Fenn., Acta 40: 25. ♀.
Ephialtes nodosus Gyorfi, 1941. Erdeszeti Kiserletek 43: 237, 247. "♂" = ♀.

Morphology: Noskiewicz and Chudoba, 1951. Polski Pismo Ent. 21: 43-46, 57-58.

buccatus Townes. Colo., B. C., Oreg.

Dolichomitus buccatus Townes, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 141. ♀.

californicus Townes. Colo., N. Mex., Ariz., Idaho, Utah, B. C. s. to Calif. Host: *Oeme costata* LeC., *Semanotus ligneus* (F.).

Dolichomitus californicus Townes, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 146. ♂, ♀.

cephalotes (Holmgren). Que., Sask., Alta.; Europe.

Ephialtes cephalotes Holmgren, 1859. Svenska Vetensk.-Akad. Ofvers. af ... Forhandl. 16: 123. Nomen nudum.

Ephialtes cephalotes Holmgren, 1860. Svenska Vetensk.-Akad. Handl. (ser. 4) 3 (10): 13. ♀.
Ephialtes longicauda Mocsary, 1897. Termes. Fuzetek 20: 644. ♀. Preocc. in
Dolichomitus by Smith, 1877.

Ichneumon (Exeristoidae) watsoni Viereck, 1924. Canad. Ent. 56: 202. ♀.

cuspidatus Townes. Calif. Host: *Monochamus maculosus* Hald.

Dolichomitus cuspidatus Townes, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 120. ♂, ♀.

dolichosoma (Viereck). Pa., Md., N. C., S. C., Ga., Ala., Kans., Colo. Ecology: Parasitizes woodborers of angiosperms.

Ephialtes dolichosoma Viereck, 1912. U. S. Natl. Mus., Proc. 42: 637. ♀.

flexilis Townes. Man., N. W. T., Yukon.

Dolichomitus flexilis Townes, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 142. ♀.

foxleei Townes. N. S. w. to B. C., s. to Colo. and Calif. Host: *Acanthocinus* sp.

Dolichomitus foxleei Townes, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 145. ♀.

imperator (Kriechbaumer). N. S. s. to Tenn., w. to Alaska and Calif; Eurasia. Host: *Asemum nitidum* LeC., *Xylotrechus* sp., *Monochamus* sp.

Ephialtes imperator Kriechbaumer, 1854. Stettin. Ent. Ztg. 15: 156. ♀.

Ephialtes occidentalis Cresson, 1865. Ent. Soc. Phila., Proc. 4: 269. ♀.

irritator (Fabricius). Maine s. to Ga., w. to Minn. and Tex. Host: *Anoplodera proxima* (Say), *Astyleiopus variegatus* (Hald.), *Elaphidionoides incertus* (New.), *E. villosus* (F.), *Graphisurus* sp., *G. fasciatus* (DeG.), *Megacyllene caryaee* (Gah.), *M. robiniae* (Forst.), *Obrium rufulum* Gah., *Pachyta lamed* (L.), *Saperda discoidea* F., *Stenocorus lineatus* (Oliv.), *Xylotrechus annosus* (Say), *Melandrya striata* Say, *Synchroa punctata* New., *Cryptorhynchus lapathi* (L.), *Chrysobothris* sp., *Synanthedon tipuliformis* (Clerck).

Ichneumon irritator Fabricius, 1775. Systema Ent., p.336. ♀.

Biology: Chittenden, 1893. U. S. Dept. Agr., Insect Life 5: 257. —MacAndrews, 1933. Ent. Soc. Ontario, Ann. Rpt. 63: 50.

Morphology: Pratt, 1939. Ent. Soc. Amer., Ann. 32: 735, 737.

messor perlongus (Cresson). N. B. s. to Va., w. to B. C. and Calif. Host: *Buprestis confluenta* Say, *Saperda calcarata* Say, *Saperda inornata* Say, *Xylocrius agassizi* (LeC.). D. *messor messor* Gravenhorst is European.

Ephialtes perlongus Cresson, 1870. Amer. Ent. Soc., Trans. 3: 143. ♂.

Ephialtes gigas Walsh, 1873. Acad. Sci. St. Louis, Trans. 3: 110. ♀.

Dolichomitus messor sparsus Townes, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 132, 133. ♂, ♀. N. syn.

populneus (Ratzeburg). Ont., Sask., Colo., Wash.; Europe. Host: *Saperda populnea* (L.). This host is recorded from Europe, but one North American specimen has been reared from an unknown borer in *Populus* sp.

Ephialtes populneus Ratzeburg, 1848. Ichn. d. Forstins, v. 2, p. 100. ♂, ♀.
Ephialtes abbreviatus Thomson, 1877. Opusc. Ent. 8: 740. ♂, ♀.

Taxonomy: Hinz, 1961. Deut. Ent. Ztschr. (N. F.) 8: 254-255.

pterelas (Say). N. B. s. to S. C., w. to B. C. and Oreg.; Europe.

Ichneumon (Pimpla) pterelas Say, 1829. Contrib. Maclurian Lyceum to Arts and Sci. 1: 71. ♀.

Ephialtes discrepans Hensch, 1929; 1930. Konowia 8: 145; 9: 74. ♂.

Taxonomy: Cushman and Gahan, 1921. Ent. Soc. Wash., Proc. 23: 166.

pygmaeus (Walsh). N. H. s. to N. C., w. to B. C. and Calif. Host: *Plectrura spinicauda* Mann.
Ephialtes pygmaeus Walsh, 1873. Acad. Sci. St. Louis, Trans. 3: 111. ♀.

sericeus (Hartig). N. B., Que., Ont., Alaska, Yukon, B. C.; Europe. Host: *Tetropium cinnamopterum* Kby.

Closterocerus sericeus Hartig, 1847. Naturw. Ver. Harz, Ber. 1846-1847, p. 18. ♂.

taeniatus Townes. Ariz., Calif. Host: *Chrysobothris edwardsii* Horn.

Dolichomitus taeniatus Townes, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 118. ♂, ♀.

terebrans nubilipennis (Viereck). N. S. s. to N. C., w. to B. C. and Calif. Host: *Pissodes dubius* Rand., *P. engelmanni* Hopk., *P. fasciatus* LeC., *P. fraseri* Hopk., *P. rotundatus* LeC. D. *terebrans terebrans* (Ratzeburg) occurs in Europe.

Exeristes nubilipennis Viereck, 1912. U. S. Natl. Mus., Proc. 42: 638. ♀.

Exeristes hyalinipennis Viereck, 1912. U. S. Natl. Mus., Proc. 42: 638. ♀.

Biology: Taylor, 1929. Ent. Amer. 10: 26-30, 68.

tuberculatus tuberculatus (Geoffroy). N. B. s. to N. Y., w. to Alaska and Oreg.; Europe, northern Asia (excluding Japan). Host: *Hylobius pinicola* (Coup.), *Monochamus* sp., *M. scutellatus* (Say). A second subspecies, *D. t. jezoensis* (Uchida), occurs in Japan.

Ichneumon tuberculatus Geoffroy, 1785. In Fourcroy, Ent. Parisiensis, v. 2, p. 385. ♀.

Ichneumon leucopterus Gmelin, 1790. In Linnaeus, Syst. Nat., Ed. 13, p. 2699. ♂ ? Uncertain syn.

Ichneumon hyalinus Gmelin, 1790. In Linnaeus, Syst. Nat., Ed. 13, p. 2700. ♀. Uncertain syn.

Ichneumon crispus Christ, 1791. Naturgesch. Class. Nomencl. Ins., p. 364. ♀. Uncertain syn.

Ichneumon fluctuans Christ, 1791. Naturgesch. Class. Nomencl. Ins., p. 365. ♀. Uncertain syn.

Ephialtes parallelus Thomson, 1888. Opusc. Ent. 12: 1248. ♀.

Ephialtes dentiventris Hellen, 1915. Soc. Fauna et Flora Fenn., Acta 40: 29. ♀. Uncertain syn.

Ephialtes pfefferi Habermehl, 1918. Ztschr. f. Wiss. Insektenbiol. 13: 165. ♀.

Biology: Stroiny, 1951. Polskie Pismo Ent. 21: 140-144.

vitticus Townes. Que. s. to Pa., w. to Wis. and Kans.

Dolichomitus vitticus Townes, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 148. ♂, ♀.

Genus ACROPIMPLA Townes

Selenaspis Roman, 1910. Ent. Tidskr. 31(2-3): 191. Preocc. by Bleeker, 1858; Leonardi, 1898.

Type-species: *Hemipimpla alboscutellaris* Szepligeti. Orig. desig.

Acropimpla Townes, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 159.

Type-species: *Charitopimpla leucostoma* Cameron. Orig. desig. Walkley (1967); *In*

Krombein and Burks, U. S. Dept. Agr., Agr. Monog. 2, sup. 2, p. 68) states that *Acropimpla* must have the same type-species as *Selenaspis*, but this is incorrect

because Townes did not expressly propose *Acropimpla* as a replacement name for *Selenaspis*.

alboricta (Cresson). Newfoundland (Labrador) s. to S. C., w. to Alaska and Calif. Host: *Acrobasis betulella* Hulst, *Anacampsis* sp., *Archips argyrospilus* (Wlk.), *Argyrotaenia pinatubana* (Kft.), *Choristoneura fumiferana* (Clem.), *C. rosaceana* (Harris), *Episimus argutanus* (Clem.), *Gracilaria rhoifoliella* Chamb., *Pandemis limitata* (Rob.).

Pantographa limata G. and R., *Spilonota ocellana* (D. and S.), *Zotheeca tranquilla* Grt. *Pimpla alboricta* Cresson, 1870. Amer. Ent. Soc. Trans. 3: 147. ♂.
Pimpla investigatrix Walsh, 1873. Acad. Sci. St. Louis, Trans. 3: 142. ♀.

Biology: Cushman, 1926. Ent. Soc. Wash., Proc. 28: 33.

pronexus Townes. N. B. s. to N. Y., w. to B. C. and Wyo. Host: *Glypta fumiferanae* (Vier.).
Acropimpla pronexus Townes, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 161. ♀.

Genus GREGOPIMPLA Momoi

Gregopimpla Momoi, 1965. In Townes, Momoi, and Townes, Amer. Ent. Inst., Mem. 5: 601.
Type-species: *Pimpla kuwanae* Viereck. Orig. desig.

According to Momoi (1965), members of this genus are usually gregarious parasites of Lepidoptera which spin cocoons.

inquisitor (Scopoli). Europe. Introduced in Ont. in 1955 for control of the native *Choristoneura fumiferana* (Clem.). Only a small number of individuals (38) were released, which would seem to have precluded establishment.

Ichneumon inquisitor Scopoli, 1763. Ent. Carn., p. 286. ♀.

Ichneumon scanicus Geoffroy, 1785. In Fourcroy, Ent. Parisiensis, v. 2, p. 416. ♀.

Ichneumon albipes Gmelin, 1790. In Linnaeus, Syst. Nat., Ed. 13, v. 1, p. 2701. ♂.

Ichneumon variegatus Gmelin, 1790. In Linnaeus, Syst. Nat., Ed. 13, v. 1, p. 2701. ♂.

Preocc. by Schrank, 1785.

Ichneumon aurifrons Gmelin, 1790. In Linnaeus, Syst. Nat., Ed. 13, v. 1, p. 2702. ♀.

Ichneumon annulatus Gmelin, 1790. In Linnaeus, Syst. Nat., Ed. 13, v. 1, p. 2702. ♀.

Ichneumon pennator Fabricius, 1793. Ent. System., v. 2, p. 171. ♀. Preocc. by Fabricius, 1793, p. 155.

Ichneumon pinnator Thunberg, 1822; 1824. Acad. Imp. des Sci. St. Petersburg, Mem. 8: 274; 9: 348. N. name for *I. pennator* Fabricius, 1793, p. 155.

Pimpla flavipes Gravenhorst, 1829. Ichn. Europaea, v. 3, p. 197. ♂.

Pimpla pini Hartig, 1838. Jahresber. Fortschr. Forstw. 1: 253. ♂, ♀.

Pimpla pudibunda Ratzelburg, 1848. Ichn. d. Forstins., v. 2, p. 167. ♂, ♀.

Pimpla inquisitor Schulz, 1906. Spolia Hym., p. 104. Emend.

Genus ISEROPUS Foerster

Iseropus Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 164.

Type-species: *Ichneumon graminellae* Schrank. By subsequent monotypy from inclusion by Woldstedt, 1877. The type-species is considered to be a synonym of *Iseropus stercorator* (F.).

Cnemopimpla Cameron, 1903. Entomologist 36: 159.

Type-species: *Cnemopimpla pilosa* Cameron. Monotypic.

Members of this genus are gregarious parasites of insects (usually Lepidoptera) which spin flimsy cocoons. One to twenty adults may emerge from one host cocoon.

californiensis Cushman. Colo., N. Mex., Calif. Host: *Malacosoma californicum californicum* (Pack.), *M. c. fragile* Stretch, *M. c. pluviale* Dyar, *Malacosoma* sp.

Iseropus californiensis Cushman, 1940. Ent. Soc. Wash., Proc. 42: 58. ♂, ♀. In his key, Cushman used the variant spelling "californicus."

- coelebs* (Walsh). N. B. s. to Fla., w. to Minn. and Tex. Host: *Orgyia leucostigma* (J. E. S.), *Orgyia* sp., *Malacosoma americanum* (F.), *M. disstria* Hbn., "Olene" sp., *Metallus rohwieri* MacG.
Ichneumon inquisitor Say, 1829. Contrib. Maclurian Lyceum to Arts and Sci. 1: 71. ♀.
 Preocc. by Scopoli, 1763.
Pimpla coelebs Walsh, 1873. Acad. Sci. St. Louis, Trans. 3: 141. ♂.
Pimpla inquisitorilla Dalla Torre, 1901. Cat. Hym., v. 3, p. 435. N. name for *I. inquisitor* Say.
- Biology: Howard, 1897. U. S. Dept. Agr., Div. Ent. Bul. 7: 16. —Howard, 1897. U. S. Dept. Agr., Div. Ent. Tech. Ser. 5: 8-17, 23, 31, 54. —Howard, 1898. Ent. Soc. Ont., Ann. Rept. 28: 88. —Fiske, 1903. N. H. Agr. Expt. Sta., Tech. Bul. 6: 198-200. —Cushman, 1926. Ent. Soc. Wash., Proc. 28: 33. —Schaffner and Griswold, 1934. U. S. Dept. Agr., Misc. Pub. 188: 143.
- Morphology: Peck, 1937. Canad. Jour. Res., Sect. D (Zool. Sci.) 15: 245-246. —Pratt, 1939. Ent. Soc. Amer., Ann. 32: 735.
- stercorator orgyiae* (Ashmead). N. S. s. to Md., w. to Alaska and Calif. Host: *Choristoneura rosaceana* (Harr.), *Ctenucha virginica* (Charp.), *Halisidota* sp., *Orgyia* sp., *O. leucostigma* (J. E. S.), *O. vetusta* (Bdv.), *Malacosoma* sp., *M. disstria* Hbn., *Simyra henrici* (Grt.). *Iseropus stercorator stercorator* (Fabricius) occurs in Europe.
Pimpla orgyiae Riley, 1891. In Riley and Howard, U. S. Dept. Agr., Insect Life 3: 462. Nomen nudum.
Itcoplectis (!) *orgyiae* Ashmead, 1896. Amer. Ent. Soc., Trans. 23: 213. ♀.
Pimpla (*Epiurus*) *brunneifrons* Viereck, 1909. Ent. News 20: 291. ♂, ♀.
Iseropus brunneifrons septentrionalis Cushman, 1940. Ent. Soc. Wash., Proc. 42: 56. ♂, ♀.
- Biology: Patch, 1921. Maine Agr. Expt. Sta., Bul. 302: 318. (as *coelebs*, misdet.).

Genus TROMATOBIA Foerster

- Tromatobia* Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 164.
 Type-species: *Pimpla variabilis* Holmgren. Desig. by Ashmead, 1900 from ten species included by Schmiedeknecht, 1888.
Austropimpla Brethes, 1913. Buenos Aires, Mus. Nac. de Hist. Nat., An. 24: 40.
 Type-species: *Austropimpla huebrichi* Brethes. Monotypic and orig. desig. Members of this genus are gregarious parasites of spider egg cocoons.
- notator* (Fabricius). N. C., Ga., Fla.; Cuba, Puerto Rico, Haiti, Guyana? Host: *Argiope argentata* (F.), *Glyptocranium cornigerum* (Hentz). The species was reared from the latter host in Fla., from the former in Puerto Rico.
Pimpla notator Fabricius, 1804. Systema Piezatorum, p. 115. ♀.
Clistopyga? *lateralis* Cresson, 1865. Ent. Soc. Phila., Proc. 4: 34. ♂, ♀.
Ephialtes Cressoni Dewitz, 1881. Berlin. Ent. Ztschr. 25: 205. ♀.
Pimpla notatrix Schulz, 1906. Spolia Hym., p. 104. Emend.
- ovivora* (Bohemian). N. S. s. to S. C., w. to Alaska and Calif.; Mexico, Hawaii, Europe, n. Asia.
 Host: *Araneus diadema* L., *A. solitarius* (Emrtn.), *Argiope avara* Thor., *A. argentata* (F.), *Cyrtophora californiensis* Keys.
Pimpla ovivora Boheman, 1821. Svenska Vetensk.-Akad. Handl. (ser. 3) 9: 336. ♂, ♀.
Ichneumon vexatorius Thunberg, 1822; 1824. Acad. Imp. des Sci. St. Petersburg, Mem. 8: 281; 9: 368. [female].
Ichneumon armillatorius Thunberg, 1822; 1824. Acad. Imp. des Sci. St. Petersburg, Mem. 8: 281; 9: 368. [male].
Pimpla angens Gravenhorst, 1829. Ichn. Europaea, v. 3, p. 162. ♂, ♀.
Pimpla scriptifrons Cresson, 1870. Amer. Ent. Soc., Trans. 3: 148. ♀.

Apechitis rugulosa Morley, 1914. Rev. Ichn. Brit. Mus., v. 3, p. 34. ♀.

Biology: Nielsen, 1923. Ent. Meddel. 14: 194-195. — Shaw, 1930. N. Y. Ent. Soc., Jour. 38: 465. *rufopectus* (Cresson). Maine s. to Fla., w. to Iowa and Tex. Host: *Argiope aurantia* (Lucas), *A. trifasciata* (Forsk.), *Epeira* sp. Townes (1960) treated *rufopectus* as a subspecies of *ovivora*, but the geographical range of *ovivora* extends throughout most of that of *rufopectus*. Morphological and biological differences discussed by Townes also indicate that these two taxa should be treated as separate species.

Pimpla rufopectus Cresson, 1870. Amer. Ent. Soc., Trans. 3: 148. ♀.

Biology: Champlain, 1922. Psyche 29: 97.

Morphology: Pratt, 1939. Ent. Soc. Amer., Ann. 32: 735.

variabilis (Holmgren). N. S. s. to Fla., w. to Alaska and Calif.; Europe; n. Asia.

Pimpla abdominalis Brulle, 1846. In Lepeletier, Hist. Nat. Ins. Hym., v. 4, p. 99. ♂.
Preocc. by Gravenhorst, 1829.

Pimpla variabilis Holmgren, 1856 (1854). Svenska Vetensk.-Akad. Handl. 75: 88. ♂, ♀.

Pimpla rufovariata Cresson, 1870. Amer. Ent. Soc., Trans. 3: 149. ♀.

Polysphincta cingulata Provancher, 1875. Nat. Canad. 3: 141. ♀.

Pimpla epeirae Bignell, 1893. Ent. Monthly Mag. 29: 37. ♂, ♀.

Pimpla rufovariegata (!) Dalla Torre, 1901. Cat. Hym., v. 3, p. 448. Lapsus for *rufovariata* Cresson.

Pimpla Hibernica Morley, 1908. Ichn. Britannica, v. 3, p. 60. ♂, ♀.

Pimpla variabilis var. *ruficoxa* Kokujev, 1913. Russ. Ent. Obozr. (Rev. Russe d'Ent.) 13: 167. ♀.

Polysphincta forsiusi Hellen, 1915. Soc. pro Fauna et Flora Fenn., Acta 40: 45. ♂, ♀.

Tromatobia sapporensis Uchida, 1928. Hokkaido Imp. Univ., Faculty Agr., Jour. 25: 54. ♂, ♀.

zonata (Davis). Mass. s. to Fla., w. to Ohio, Ill., and Tex. Host: *Epeira undata* (Oliv.).

Clistopyga zonata Davis, 1895. Ent. News 6: 198. ♀.

Biology: Hubbell, 1932. Ent. Soc. Amer. Ann. 35: 504.

Genus ZAGLYPTUS Foerster

Zaglyptus Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 166.

Type-species: *Polysphincta varipes* Gravenhorst. By subsequent monotypy from inclusion by Woldstedt, 1877.

Members of this genus parasitize spider egg cocoons and adults, sometimes simultaneously.

Biology: Nielsen, 1935. Ent. Meddel. 19: 206-215.

arizonicus Townes. Ariz.

Zaglyptus arizonicus Townes, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 192. ♀.

pictilis Townes. Ga., Ala., Fla.; Cuba?

Zaglyptus pictilis Townes, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 194. ♂, ♀.

varipes incompletus (Cresson). N. S. s. to Fla., w. to Alaska and Calif. *Z. varipes varipes* (Gravenhorst) occurs in Europe.

Pimpla incompleta Cresson, 1870. Amer. Ent. Soc., Trans. 3: 147. ♀.

Pimpla animosa Cresson, 1872. Amer. Ent. Soc., Trans. 4: 165. ♀.

Polysphincta Rubricapensis Provancher, 1873. Nat. Canad. 5: 470. ♀.

Cylloceria Lemoinei Provancher, 1873. Nat. Canad. 5: 471. ♂.

Polysphincta pimpoidea Walsh, 1873. Acad. Sci. St. Louis, Trans. 3: 145. ♀.

Polysphincta rufigaster Ashmead, 1890 (1889). U. S. Natl. Mus., Proc. 12: 447. ♀.

Polysphincta spinosa Davis, 1898 (1897). Amer. Ent. Soc., Trans. 24: 368. ♀.

Genus CLISTOPYGA Gravenhorst

Clistopyga Gravenhorst, 1829. Ichn. Europaea, v. 3, p. 132.

Type-species: *Ichneumon incitator* Fabricius. Desig. by Westwood, 1840.

Ichneumonoglypta Blanchard, 1941. Soc. Ent. Argentina, Rev. 11: 9.

Type-species: *Ichneumonoglypta lopez-richinii* Blanchard. Monotypic and orig. desig.

Hymenomacropyga Uchida, 1941. Insecta Matsumurana 15 (3): 116.

Type-species: *Hymenomacropyga latifrontalis* Uchida. Monotypic and orig. desig.

The systematic position of *Clistopyga* within the Pimplinae has been unsettled. Meager evidence seems to indicate that *Clistopyga* spp. are parasitic upon egg sacs of species of spiders which place their egg sacs in crevices. Townes (1960) seems to have given special emphasis to this fact in removing *Clistopyga* from the Polysphinctini and placing it, along with *Tromatobia* and *Zaglyptus*, marginally within the Pimplini.

Biology: Nielsen, 1929. Ent. Meddel. 16: 366-368.

alutaria Townes. Ont., Del., N. C., Fla., Wis.

Clistopyga alutaria Townes, 1960. In Townes and Townes, U. S. Natl. Mus., Bul. 216 (pt. 2): 200. ♂, ♀.

atrata Cushman. Ariz., Oreg., Calif.

Clistopyga atrata Cushman, 1921. U. S. Natl. Mus., Proc. 60 (4): 14. ♂, ♀.

canadensis Provancher. N. S. s. to Pa., w. to Alta. and Colo.; Europe.

Polysphincta acuta Provancher, 1880. Nat. Canad. 12: 44. ♀.

Clistopyga Canadensis Provancher, 1880. Nat. Canad. 12: 46. ♀.

Clistopyga sauberi Brauns, 1898. Ver. Freunde Naturgesch. Mecklenburg, Arch. 51: 70. ♀.

maculifrons Cushman. Mass. s. to N. C., w. to Minn. and Tex.

Clistopyga maculifrons Cushman, 1921. U. S. Natl. Mus., Proc. 60 (4): 12. ♀.

manni Cushman. N. Mex., B. C., Calif. Host: *Ageleopsis* sp.; salticid spider.

Clistopyga manni Cushman, 1921. U. S. Natl. Mus., Proc. 60 (4): 12. ♀.

nigrifrons Cushman. B. C., Calif. Host: Spider eggs. Notes in the U. S. Natl. Mus. indicate that Cushman's type-specimens were definitely reared from the egg sac of a spider, although the specimens are labeled as "on spider nest."

Clistopyga nigrifrons Cushman, 1921. U. S. Natl. Mus., Proc. 60 (4): 11. ♀.

recurva (Say). N. J. s. to Fla., w. to Mo. and Tex.

Anomalon recurvus Say, 1836. Boston Jour. Nat. Hist. 1: 243. ♂, ♀.

Clistopyga annulipes Cresson, 1870. Amer. Ent. Soc., Trans. 3: 150. ♀.

Clistopyga pulchripicta Ashmead, 1890 (1889). U. S. Natl. Mus., Proc. 12: 448. ♀.

Genus ALOPHOSTERNUM Cushman

Alophosternum Cushman, 1933. U. S. Natl. Mus., Proc. 82: 7.

Type-species: *Alophosternum foliicola* Cushman. Monotypic and orig. desig.

foliicola Cushman. Maine, Mass., Calif. Host: *Xenochalepus dorsalis* (Thun.), *Cameraria aceriella*? Clem., *C. coryliella* (Chamb.), *Paraclemensia acerifoliella* (Fitch).

Alophosternum foliicola Cushman, 1933. U. S. Natl. Mus., Proc. 82: 8. ♂, ♀.

TRIBE POLYSPHINCTINI

Members of this tribe are parasitic upon spiders. The larvae feed externally and solitarily, extracting the "juices" of an individual spider which remains active until the polysphinctine larva matures.

Biology: Nielsen, 1928-1937. Ent. Meddel. 14: 137-205 (1928); 16: 152-155 (1928), 366-368 (1929); 19: 192-215 (1935); 20: 25-28 (1937).

Genus DREISBACHIA Townes

Laufzia Tosquinet, 1903. Soc. Ent. de Belg., Mem. 10: 381. Preocc. by Simon, 1889.

Type-species: *Laufzia mira* Tosquinet. Monotypic.

Dreisbachia Townes, 1962. Ent. Soc. Wash., Proc. 64 (1): 38. N. name for *Laufzia* Tosquinet.

navajo (Townes). Ariz.; Honduras. Ecology: Found along streams at an elevation of 5000 ft. in Arizona; a spider of the genus *Pisaurina* was common along these streams.

Laufelia navajo Townes, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 223. ♂, ♀.

slossonae (Davis). N. B. s. to N. C., w. to Alaska and Calif.

Polysphincta slossonae Davis, 1895. In Slosson, Ent. News 6: 317. Nomen nudum.

Polysphincta slossonae Davis, 1898 (1897). Amer. Ent. Soc., Trans. 24: 368. ♀.

Genus SCHIZOPYGA Gravenhorst

Schizopyga Gravenhorst, 1829. Ichn. Europaea, v. 3, p. 125.

Type-species: *Schizopyga podagraria* Gravenhorst. Desig. by Westwood, 1840.

Several recent publications erroneously state that this genus was described monotypically.

frigida Cresson. Maine s. to N. C., w. to B. C. and Calif.; Europe.

Schizopyga frigida Cresson, 1870. Amer. Ent. Soc., Trans. 3: 159. ♀.

Schizopyga atra Kriechbaumer, 1887. Ent. Nachr. 14: 87. ♂, ♀.

Polysphincta pontiaci Viereck, 1917. Conn. State Geol. and Nat. Hist. Survey Bul. 22: 317. ♂.

pulchra Walley. Mass., Ont., N. Y., N. J., N. C., Mich., Minn., B. C. Ecology: Occurs in marshy places. This species appears to be closely related to the European *Schizopyga circulator* (Panzer). Future study may show that *pulchra* is only a subspecies of *circulator*.

Schizopyga pulchra Walley, 1936. Canad. Ent. 68: 20. ♀.

Genus ZABRACHYPIUS Cushman

Zabracypus Cushman, 1920. U. S. Natl. Mus., Proc. 58: 37.

Type-species: *Zabracypus primus* Cushman. Monotypic and orig. desig.

primus Cushman Md., Va., N. C., Ohio, N. Dak., Alta., B. C., Mont., Ariz.

Zabracypus primus Cushman, 1920. U. S. Natl. Mus., Proc. 58: 37. ♀.

Genus ACRODACTYLA Haliday

Barypus Haliday, 1837. In Curtis, Guide Arrangement Brit. Ins., ed. 2, p. 94. Nomen nudum.

Acrodactyla Haliday, 1839 (1838). Ann. Nat. Hist. 2: 117.

Type-species: *Pimpla (Acrodactyla) degener* Haliday. Desig. by Westwood, 1840.

Sympylus Foerster, 1871. Naturh. Ver. Rheinlande, Verh. 28: 105. Preocc. by Dallas, 1851.

Type-species: *Sympylus hadroductylus* Foerster. Orig. desig.

Polemophthorus Schulz, 1911. Zool. Ann. (Wuerzburg). 4: 22. N. name for *Sympylus* Foerster.

degener (Haliday). Maine s. to N. C., w. to Alaska and Calif.; Europe. Host: *Leptyphantes obscurus* (Blackwall), *L. zebrinus* (Menge), *Microneta viaria* (Blackwall), *Pityohyphantes phrygianus* (C. L. K.). These hosts were recorded in Europe.

Pimpla (Acrodactyla) degener Haliday, 1839 (1838). Ann. Nat. Hist. 2: 117. ♂, ♀.

Acrodactyla degenera Schulz, 1906. Spolia Hym., p. 103. Emend.

Taxonomy: Sedivy, 1972. Acta Ent. Mus. Natl. Pragae 38: 73-79.

Biology: Morley, 1913. Ichn. Britannica, v. 3, p. 133-134. — Nielson, 1923. Ent. Meddel. 14: 163-170 (here misdet. as "*Polysphincta pallipes*").

jubata Townes. Colo., Yukon, Wash.

Acrodactyla jubata Townes, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 231. ♀.

ocellata Townes. Que., Maine, N. H., Conn., N. Y., Md., N. C., Mich. Host: *Pityohyphantes phrygianus* (C. L. K.).

Acrodactyla ocellata Townes, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 232. ♂, ♀.

Genus COLPOMERIA Holmgren

Colpomeria Holmgren, 1859. Svenska Vetensk.-Akad., Ofvers af ... Forhandl. 16: 126.
 Type-species: *Colpomeria laevigata* Holmgren. Monotypic. Townes has most recently been treating *Colpomeria* as a synonym of *Acrodactyla*, apparently because of the structural intermediacies of one Formosan species, *C. orientalis* (Cushman). Except in *C. orientalis*, females of this genus have a prominent tooth on the front femur and a weaker one (sometimes vestigial) on the middle femur. The femoral teeth seem significant enough to warrant recognition of *Colpomeria* as a distinct genus; it also has secondary distinguishing features found only in a few species of *Acrodactyla*.

quadrisculpta (Gravenhorst). N. S. s. to Ga, w. to Alaska and Calif.; Eurasia. Host:

Tetragnatha laboriosa Hentz, *T. obtusa* C. L. K. In North America *quadrisculpta* is known to have been reared only from *T. laboriosa*.

Ichnemon quadrisculptus Gravenhorst, 1820. R. Accad. delle Sci. Torino, Mem. 24: 378. ♂.

Colpomeria laevigata Holmgren, 1859. Svenska Vetensk.-Akad., Ofvers. af ... Forhandl. 16: 127. ♂, ♀.

Glypta mellithorax Riley, 1891. In Riley and Howard, U. S. Dept. Agr., Insect Life 3: 463. Nomen nudum.

Zaglyptus kincaidii Ashmead, 1894. U. S. Dept. Agr., Insect Life 6: 260. ♂, ♀.

Panteles mellithorax Ashmead, 1900 (1899). In Smith, N. J. State Bd. Agr., Ann. Rpt. 27, Sup., p. 575. Nomen nudum.

Polysphincta albocoxalis Ashmead, 1902. In Slosson, Ent. News 13: 320. Nomen nudum.

Colpomeria mellithorax Cushman, 1920. U. S. Natl. Mus., Proc. 58: 19. ♀. The type locality is D. C.; on page 10 of the paper in which he described *mellithorax*, Cushman quoted notes which presumably pertain to the cocoon of the holotype of *mellithorax*, not to the female of *Toxophoroides scitulus* (Cresson).

Taxonomy: Aubert, 1969. Ichn. Ouest-Pal. et Leurs Hotes, pt. 1, p. 70.

Biology: Nielsen, 1937. Ent. Meddel. 20: 25-27. — Capener, 1938. Soc. Brit. Ent., Jour. 1: 209-210. — Howell, 1972. Entomophaga 17: 5-7.

Genus ERUGA Townes

Eruga Townes, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 238.

Type-species: *Eruga lineata* Townes. Orig. desig.

atrata Townes. Oreg., Ariz.; Mexico.

Eruga atrata Townes, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 238. ♂, ♀.

lineata Townes. Que. s. to N. C., w. to B. C. and Calif.

Eruga lineata Townes, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 239. ♂, ♀.

rufa Townes. Md., S. C., Mo. Host: *Frontinella communis* Hentz.

Eruga rufa Townes, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 240. ♂, ♀.

Genus PIOGASTER Perkins

Piogaster Perkins, 1958. Entomologist 91: 263.

Type-species: *Piogaster rugosa* Perkins. Orig. desig. The type-species is considered to be a synonym of *P. pilosator* (Aubert).

maculata Townes. Calif.

Piogaster maculata Townes, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 241. ♀.

Genus OXYRRHEXIS Foerster

Oxyrrhexis Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 166.

Type-species: *Cryptus carbonator* Gravenhorst. Monotypically included and desig. by Schmiedeknecht, 1888.

carbonator texana (Cresson). Que. s. to Va., w. to B. C. and Calif. Host: *Steatoda borealis* (Hentz). *O. carbonator carbonator* occurs in Europe.

Polysphincta texana Cresson, 1870. Amer. Ent. Soc., Trans. 3: 149. ♀.

Polysphincta vicina Provancher, 1873. Nat. Canad. 5: 470. ♂.

Polysphincta bicarinata Davis, 1898 (1897). Amer. Ent. Soc., Trans. 24: 368. ♂. Preocc. by Riley, 1871.

Taxonomy: Cushman, 1920. U. S. Natl. Mus., Proc. 58: 22.

Genus POLYSPHINCTA Gravenhorst

Polysphincta Gravenhorst, 1829. Ichn. Europaea, v. 3, p. 112.

Type-species: *Polysphincta tuberosa* Gravenhorst. Desig. by Westwood, 1840.

Ephialtomorpha Ashmead, 1906. In Slosson, Ent. News 17: 324. Nomen nudum.

Revision: Cushman, 1920. U. S. Natl. Mus., Proc. 58: 20-28.

albipes Cresson. Southern N. Y. s. to Fla., w. to Kans.

Polysphincta albipes Cresson, 1880. In Comstock, U. S. Dept. Agr., Ann. Rpt. for 1879, p. 208. ♂. The type specimen of *albipes* is lost, and the species had been of somewhat uncertain identity since being originally described from Florida. A female from Florida in the U. S. Natl. Mus. collection agrees with the original description except in having the head ferruginous instead of black. A paratype of *eboripes* Townes from Kansas approaches the Florida specimen in coloration and agrees very well structurally. I doubt that *eboripes* deserves subspecific distinction, and, therefore, it is synonymized below.

Polysphincta eboripes Townes, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 254. ♂, ♀. N. syn.

burgessii Cresson. N. S. s. to Md., w. to B. C., Oreg., and Colo.

Polysphincta Burgessii Cresson, 1870. Amer. Ent. Soc., Trans. 3: 149. ♂.

Polysphincta rufopectus Provancher, 1875. Nat. Canad. 7: 140. ♀.

Polysphincta (*Polysphincta*) *venatrix* DeGant, 1933. U. S. Natl. Mus., Proc. 82: 4. ♀.

koebeliae Howard. Wash. Calif. Host: *Episeta* sp.

Polysphincta (*Zaglyptus*) *koebeliae* Howard, 1892. Ent. Soc. Wash., Proc. 2: 293. ♀.

limata Cresson. P. E. I. s. to N. C., w. to B. C., Oreg., and Colo.

Polysphincta limata Cresson, 1870. Amer. Ent. Soc., Trans. 3: 150. ♀.

tuberosa bruneti Provancher. Que. s. to N. Y., w. to Alaska and Calif. *P. tuberosa tuberosa* occurs in Europe and northern Asia.

Polysphincta Bruneti Provancher, 1873. Nat. Canad. 5: 471. ♀. Barron (1975) rejected the lectotype selected by Gahan and Rohwer (1918) and gave data for the specimen he regarded as the holotype.

Polysphincta brunetii Dalla Torre, 1901. Cat. Hym., v. 3, p. 401. Emend.

Ephialtomorpha slossonae Ashmead, 1906. In Slosson, Ent. News 17: 324. Nomen nudum.

Polysphincta (*Polysphincta*) *elongata* Cushman, 1920. U. S. Natl. Mus., Proc. 58: 25. ♀.

Taxonomy: Gahan and Rohwer, 1918. Canad. Ent. 50: 169. — Barron, 1975. Nat. Canad. 102: 437.

Genus ACROTAPHUS Townes

Acrotaphus Townes, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 256.

Type-species: *Epimecis wiltii* Cresson. Orig. desig.

wiltii (Cresson). Maine s. to Fla., w. to Man. and Tex. Host: *Neoscona arabesca* (Walck.).

Epimecis Wiltii Cresson, 1870. Amer. Ent. Soc., Trans. 3: 143. ♀.

Biology: Shannon, 1913. Ent. Soc. Wash., Proc. 15: 162. — Gordh, 1971. Kans. Ent. Soc., Jour. 44: 171-172.

Genus SINARACHNA Townes

Sinarachna Townes, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 258.

Type-species: *Polysphincta pallipes* Holmgren. Orig. desig.

anomala (Holmgren). N. S. s. to Fla., w. to Alaska and Calif.; Mexico, Europe. Host: *Dictyna foliacea* (Hentz).

Polysphincta anomala Holmgren, 1860. Svenska Vetensk.-Akad. Handl. (ser. 4) 3: 34. ♀.

Polysphincta picticollis Thomson, 1888. Opusc. Ent. 12: 1254. ♂, ♀.

Polysphincta dictynae Howard, 1888. U. S. Dept. Agr., Insect Life 1: 107. ♂.

Polysphincta minutula Davis, 1898 (1897). Amer. Ent. Soc., Trans. 24: 369. ♀.

Zatypota anomala meridionator Aubert, 1960. Soc. Linn. de Lyon, Bul. Mens. 29: 32. ♀. N. syn. Described from a single female from southern France.

Zatypota anomala meridionator Aubert, 1961 (1960). Vie et Milieu 11: 656. ♀. Second description of *anomala meridionator* as a new subspecies based on same unique specimen.

pallipes strigis (Howard). Maine s. to N. C., w. to Alaska and Calif. Host: *Epeira foliata* (Geoff.). *S. pallipes pallipes* occurs in Europe.

Polysphincta (Zatypota) strigis Howard, 1892. Ent. Soc. Wash., Proc. 2: 291. ♀.

Genus ZATYPOTA Foerster

Zatypota Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 166.

Type-species: *Ichneumon percontatorius* Mueller. Desig. by Viereck, 1914 from five species included by Schmiedeknecht, 1888.

Polysphinctopsis Habermehl, 1917. Ztschr. f. Wiss. Insektenbiol. 13: 167.

Type-species: *Polysphincta eximia* Schmiedeknecht. Monotypic. This type-species is considered to be a synonym of *Z. albicoxa* (Walker).

Lycorinopsis Haupt, 1954. Deut. Ent. Ztschr. (N. F.) 1 (1-11): 110.

Type-species: *Lycorinopsis rhombifer* Haupt. Orig. desig.

Revision: Cushman, 1920. U. S. Natl. Mus., Proc. 58: 29-36.

alborhombarta (Davis). Va., Fla., Ariz.; Mexico.

Clistopyga alborhombarta Davis, 1895. Ent. News 6: 198. ♀.

arizonica Townes. Ariz.

Zatypota arizonica Townes, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 271. ♂.

bohemani (Holmgren). Mont., B. C.; Europe.

Polysphincta Bohemani Holmgren, 1860. Svenska Vetensk.-Akad. Handl. (ser. 4) 3: 30. ♀.

Polysphincta bohemani Dalla Torre, 1901. Cat. Hym., v. 3, p. 401. Emend.

cingulata Townes. N. S. s. to Ga., w. to Wis. and Colo.

Zatypota cingulata Townes, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 270. ♂.

crassipes Townes. S. C.

Zatypota crassipes Townes, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 278. ♀.

exilis Townes. Que., N. H.

Zatypota exilis Townes, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 269. ♀.

favosa Townes. Calif.

Zatypota favosa Townes, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 269. ♀.

luteipes Townes. Maine, Mass., Ont., Md., N. C.

Zatypota luteipes Townes, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 277. ♂, ♀.

nigriceps (Walsh). N. S. s. to Fla., w. to B. C. and Calif.

Polysphincta nigriceps Walsh, 1873. Acad. Sci. St. Louis, Trans. 3: 144. ♂, ♀.

Polysphincta nigrita Walsh, 1873. Acad. Sci. St. Louis, Trans. 3: 144. ♂. Uncertain syn.

Clistopyga nigrocephala Davis, 1898 (1897). Amer. Ent. Soc., Trans. 24: 369. ♂.

Polysphincta (Zatypota) braucheri Cushman, 1920. U. S. Natl. Mus., Proc. 58: 33. ♂, ♀.

Polysphincta (Zatypota) californiensis Cushman, 1920. U. S. Natl. Mus., Proc. 58: 34. ♀.

Polysphincta (Zatypota) crosbyi Cushman, 1920. U. S. Natl. Mus., Proc. 58: 35. ♂, ♀.

parva (Cresson). Que. s. to N. C., w. to Wis.

Glypta parva Cresson, 1870. Amer. Ent. Soc., Trans. 3: 155. ♀.

patellata Townes. B. C. s. to Calif.

Zatypota patellata Townes, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 268. ♂, ♀.

percontatoria (Mueller). Que. and Ont. s. to N. Y. and Ohio, w. to Alaska and Calif.; Europe.

Host: *Araneus cucurbitinus* Clerck, *Meta segmentata* Clerck, *Theridium denticulatum* Walck., *T. varians* Hahn. These hosts are recorded from Europe.

Ichneumon percontatorius Mueller, 1776. Zool. Danicae Prodromus, p. 154. ♀. The neotype designated by Aubert (1969) violates every provision in the Code regarding neotype selection and is therefore invalid. Aubert (1972) contended that usage of the name *percontatoria* by Townes (1960) and Oehlke (1967) violates the principle of first revisor. However, Townes (1960) stated that he applied the name according to the interpretation of Gravenhorst (1829), and certainly there is no logical basis for regarding Schmiedeknecht (1907) as first revisor as did Aubert (1972).

Polysphincta gracilis Holmgren, 1860. Svenska Vetensk.-Akad. Handl. (ser. 4) 3: 32. ♂, ♀.

Polysphincta scutellaris Holmgren, 1860. Svenska Vetensk.-Akad. Handl. (ser. 4) 3: 33. ♂.

Polysphincta pulchrator Thomson, 1877. Opusc. Ent. 8: 757. ♂. The female lectotype selected by Aubert is invalid, and therefore this synonymy remains uncertain.

Polysphincta theridii Howard, 1892. Ent. Soc. Wash., Proc. 2: 292. ♂.

Polysphincta granulosa Davis, 1898 (1897). Amer. Ent. Soc., Trans. 24: 369. ♀.

Lycorinopsis decorata Haupt, 1954. Deut. Ent. Ztschr. (N. F.) 1: 110. ♀.

Lycorinopsis rhombifer Haupt, 1954. Deut. Ent. Ztschr. (N. F.) 1: 110. ♀.

Taxonomy: Gravenhorst, 1829. Ichn. Europaea, v. 3, p. 120-122. —Schmiedeknecht, 1907.

Opusc. Ichn., v. 3, p. 1172. —Townes, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 276. —Aubert, 1969. Ichn. Ouest-Pal. et leurs Hotes, pt. 1, p. 77. —Aubert, 1972. Ent. Scand. 3: 10.

Biology: Nielsen, 1923. Ent. Meddel. 14: 170-172.

walleyi Townes. Que., Maine, Mass., Ont., Mich.

Zatypota walleyi Townes, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 272. ♂, ♀.

TRIBE ECHTHROMORPHINI

In addition to the three nearly worldwide genera which occur in North America, this tribe includes five others, the largest and best known of these being *Xanthopimpla*, of the Old- and New-World tropics, and *Echthromorpha*, which is chiefly Indo-Australian. Species of Echthromorphini are usually internal parasites of pupae of Lepidoptera, but species of *Itoplectis* and, to a lesser extent, *Coccycgominus* sometimes parasitize Symphyta or Ichneumonoidea which spin cocoons in leaf litter or exposed situations.

Revision: Cushman, 1920. U. S. Natl. Mus., Proc. 58: 327-362 (Nearctic spp.). —Townes, 1940. Ent. Soc. Amer., Ann. 33: 283-323 (eastern Nearctic spp.). —Perkins, 1941. Roy. Ent. Soc., London, Trans. 91: 637-659 (British spp.).

Biology: Townes, 1939. Brooklyn Ent. Soc., Bul. 34: 29-30 (protective odors).

Morphology: Townes, 1940. Ent. Soc. Amer., Ann. 33: 285-287. (tarsal claws). —Obertel, 1960. Brno Moravské Mus. Casopis, Vedy Přírodní 45: 195-202 (male genitalia and postgenital sclerites).

Genus ITOPLECTIS Foerster

Itoplectis Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 164.

Type-species: *Ichneumon scanicus* Villers. Desig. by Viereck, 1914 from two species included by Woldstedt, 1877.

Nesopimpla Ashmead, 1906. U. S. Natl. Mus., Proc. 30: 180.

Type-species: *Nesopimpla naranyae* Ashmead. Monotypic.

Exeristoides Uchida, 1928. Hokkaido Imp. Univ., Faculty Agr., Jour. 25: 51.

Type-species: *Pimpla spectabilis* Matsumura. Monotypic and orig. desig. The type-species is considered to be a subspecies of *I. alternans* (Gravenhorst).

Revision: Porter, 1970. Acta Zool. Lilloana 26 (6): 65-103 (S. Amer. spp.).

behrensi (Cresson). Calif. Host: *Phryganidia californica* Pack. *I. behrensi* is not known to occur north of Marin Co., Calif.

Pimpla behrensi Cresson, 1879 (1878). Acad. Nat. Sci. Phila., Proc. 30: 377. ♂, ♀.

conquisitor (Say). N. S. s. to Fla., w. to B. C. and Ariz. Host: *Hyaloscotes pithoepora* (Dyar), *Oiketicus abbotti* Grt., *Thyridopteryx ephemeraeformis* (Haw.), *Coleophora frischella* (L.), *C. pruniella* Clem., *Epermenia cicutella* Kft., *Anacampsis innoxula* (Zell.), *Dichomeris marginella* (F.), *Choristoneura conflictana* (Wlk.), *C. fumiferana* (Clem.), *Choristoneura lambertiana* (Bsk.), *C. pinus* Free., *Aphelia alleniana* (Fern.), *Archips argyrospilus* (Wlr.), *A. cerasivoranus* (Fitch), *A. georgianus* (Wlk.), *A. rileyanus* (Grt.), *Argyrotaenia cockerellana* (Kft.) *A. pinatubana* (Kft.), *A. velutinana* (Wlk.), *Acleris hastiana* (L.), *A. minuta* (Rob.), *Cnephaea virgaureana* Treit., *Sparaganothis pettitana* (Rob.), *S. flavidana* (Fern.), *Xenotemna pallorana* Rob., *Ancylis comptana* (Froel.), *A. c. fragariae* (W. and R.), *Evoria hemidesma* (Zell.), *Paralobesia viteana* (Clem.), *Rhyacionia buoliana* (D. and S.), *R. frustrana* (Com.), *R. frustrana bushnelli* (Bsk.), *Spilonota ocellana* (D. and S.), *Pterophorus periscelidactylus* Fitch, *Acrobasis betulella* Hulst, *A. caryovorella* Rag., *A. juglandis* (LeB.), *A. kearfottella* Dyar, *A. rubrifasciella* Pack., *Dioryctria reniculella* (Grt.), *Diaphania hyalinata* (L.), *Ostrinia nubilalis* (Hbn.), *Cingilia catenaria* (Drury), *Lambdina fervidalis athasaria* (Wlk.), *L. fiscellaria fiscellaria* (Gn.), *Ennomos subsignarius* (Hbn.), *Nematomampa filamentaria* Gn., *Rheumaptera hastata* (L.), *Dryocampa rubicunda rubicunda* (F.), *Malacosoma americanum* (F.), *M. disstria* Hbn., *M. californicum fragile* (Stretch), *Dasychira plagiata* (Wlk.), *Lymantia dispar* (L.), *Orgyia antiqua* (L.), *O. leucostigma* (J. Genus EPHIALTES Schrank

Ephialtes Schrank, 1802. Fauna Boica, v. 2, p. 316. Some authors regard *Ephialtes* Schrank as an unavailable name by virtue of Opinion 159 of the Internat. Comm. of Zool. Nomenclature, but I do not regard Opinion 159 as valid for reasons discussed in the introduction to the family.

Type-species: *Ichneumon compunctor* Linnaeus. Monotypic.

Apechthis Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 164.

Type-species: *Ichneumon rufatus* Gmelin. Desig. by Ashmead, 1900 (as "Pimpla rubata [!] Gravenhorst") from two species included by Woldstedt, 1877.

Apechthis Thomson, 1889. Opusc. Ent. 12: 1410. Emend.

Taiwatheronia Sonan, 1936. Nat. Hist. Soc. Formosa, Trans. 26: 256.

Type-species: *Taiwatheronia mahasenae* Sonan. Monotypic and orig. desig. The type-species is regarded as a synonym of *Ephialtes taiwanus* (Uchida).

Parapechthis Blanchard, 1936. Soc. Cient. Argentina, An. 122: 404.

Type-species: *Parapechthis bazani* Blanchard. Monotypic and orig. desig.

Taxonomy: Townes, 1957. Ent. Soc. Wash., Proc. 59: 118-119.

annulicornis annulicornis (Cresson). Que. s. to N. C., w. to Alta. and Tex. Host:

Choristoneura fumiferana (Clem.), *C. rosaceana* (Harris). Contrary to the description and key in the revision of the Pimplinae by Townes and Townes (1960), a significant proportion of the males of this subspecies have white marks on the mesoscutum.

Pimpla annulicornis Cresson, 1870. Amer. Ent. Soc., Trans. 3: 147. ♂, ♀.

annulicornis componotus (Davis), n. status. Idaho, N. Mex., B. C., Oreg., Calif. Host: *Orygia antiqua* (L.), *O. leucostigma* (J. E. S.), *O. pseudotsugata* McD., *Neophasia menapia* (F. and F.).

Pimpla componotus Davis, 1898 (1897). Amer. Ent. Soc., Trans. 24: 367. ♂.

Ephialtes pacificus Cushman, 1920. U. S. Natl. Mus., Proc. 58: 353. ♂, ♀. N. syn. Preocc. in *Ephialtes* by Harrington, 1894; Cushman, 1920. Townes (1960) treated *pacificus* as a species distinct from *componotus* on the basis of male color characteristics (he considered the female of *componotus* unknown) which do not even work for Cushman's type series of *pacificus*, which were from a single locality (Portland, Oreg.). Other specimens in the U. S. Natl. Mus. collection further indicate the need for placing *pacificus* as a synonym of *componotus* and the need for placing *componotus* as a subspecies of *annulicornis*.

ontario (Cresson). Newfoundland (Labrador) s. to N. Y., w. to Alaska and Calif. Host:

Choristoneura conflictana (Wlk.), *C. fumiferana* (Clem.), *C. pinus* Free., *Lambdina fiscellaria* (Gn.), *Neptynia canosaria* (Wlk.).

Pimpla Ontario Cresson, 1870. Amer. Ent. Soc., Trans. 3: 146. ♂.

Biology: Ryan, 1971. Ent. Soc. Amer., Ann. 64: 205-208. — Ryan and Medley, 1972. Ent. Soc. Amer., Ann. 65: 172-177.

Morphology: Peck, 1937. Canad. Jour. Res., Sect. D (Zool. Sci.) 15: 248.

picticornis (Cresson). N. S. s. to N. C., w. to B. C. and Calif. Host: *Choristoneura conflictana* (Wlk.), *C. rosaceana* (Harris), *Sciaphila* sp., *Spilonota ocellana* (D. and S.).
Pimpla picticornis Cresson, 1870. Amer. Ent. Soc., Trans. 3: 146. ♂.
Apechthis ornatalus Walley, 1929. Canad. Ent. 68: 190. ♂.

quadridentatus (Thomson). Europe; n. Asia. Introduced, but not established, in Ont. and Que. in 1948, 1949, and 1956 for control of the native *Choristoneura fumiferana* (Clem.).

Ichneumon resinator (!) Thunberg, 1822; 1824. Acad. Imp. des Sci. St. Petersburg, Bul. 8: 275; 9: 349. Lapsus for and misidentification of *Ichneumon resinellae* Linnaeus, which is a braconid now placed in the genus *Macrocentrus*.

Pimpla quadridentata Thomson, 1877. Opusc. Ent. 8: 749. ♂, ♀.

Taxonomy: Townes, 1965. Polskie Pismo Ent. 35: 411.

rufatus (Gmelin). Europe; n. Asia. Introduced, but not established, in Ont. in 1950 for control of the native *Choristoneura fumiferana* (Clem.).

Ichneumon rufatus Gmelin, 1790. In Linnaeus, Syst. Nat., Ed. 13, v. 1, p. 2684. ♀.

Pimpla flavonotata Holmgren, 1860. Svenska Vetensk.-Akad. Handl. (ser. 4) 3 (10): 19. ♂, ♀.

Pimpla rufithorax Strobl, 1901. Naturw. Ver. f. Steiermark, Mitt. 38: 11. ♀.

Genus COCCYGMIMUS Saussure

Coccygomimus Saussure, 1890. In Grandidier, Hist. Madagascar, v. 20, Hym. 1, pl. 14, fig. 12.

Type-species: *Coccygomimus madecassus* Saussure. Monotypic.

Habropimpla Cameron, 1900. Manchester Lit. and Phil. Soc., Mem. and Proc. 44: 96.

Type-species: *Habropimpla bilineata* Cameron. Monotypic.

Lissotheronia Cameron, 1905. Spolia Zeylanica 3: 139.

Type-species: *Lissotheronia flavipes* Cameron. Monotypic.

Phytodiaeetoides Morley, 1913. Fauna Brit. India, ... Hym., v. 3, p. 221.

Type-species: *Phytodiaeetoides megaera* Morley. Monotypic and orig. desig. The type-species is considered to be a synonym of *Coccygomimus flavipalpis* (Cameron).

Pimplidea Viereck, 1914. U. S. Natl. Mus., Proc. 83: 117.

Type-species: *Pimpla pedalis* Cresson. Monotypic and orig. desig.

Coelopimpla Brethes, 1916. Buenos Aires, Mus. Nac. de Hist. Nat., An. 27: 402.

Type-species: *Coelopimpla amadei* Brethes. Monotypic and orig. desig. The type-species is considered to be a synonym of *Coccygomimus sumichrasti* (Cresson).

Liotheronia Enderlein, 1919. Gesell. f. Naturf. Freunde z. Berlin, Sitzber. f. 1919, p. 147.

Type-species: *Liotheronia kriegeri* Enderlein. Monotypic and orig. desig. The type-species is considered to be a synonym of *Coccygomimus aztecus* (Cresson).

Dihyboplax Enderlein, 1919. Gesell. f. Naturf. Freunde z. Berlin, Sitzber. f. 1919, p. 148.

Type-species: *Dihyboplax flavipennis* Enderlein. Monotypic and orig. desig.

Neogabunia Brethes, 1927. Ent. Mitt. 16: 322.

Type-species: *Neogabunia paulistana* Brethes. Monotypic. The type-species is considered to be a synonym of *Coccygomimus tomyris* (Schrottky).

Pimpla subg. *Opodactyla* Seyrig, 1932. Acad. Malagache, Mem. 11: 60.

Type-species: *Pimpla (Opodactyla) waterloti* Seyrig. Monotypic and orig. desig.

Pimpla subg. *Oxypimpla* Noskiewicz and Chudoba, 1951. Polskie Pismo Ent. 21: 42, 56.

Type-species: *Ichneumon turionellae* Linnaeus. Monotypic.

The name *Pimpla* has frequently been applied to this genus. My reasons for not doing so here are given in the introductory discussion of the family.

Revision: Porter, 1970. Studia Ent. 13: 1-192. (S. Amer. spp.).

aequalis (Provancher). N. S. s. to Fla., w. to Minn. and Tex. Host: *Thyridopteryx ephemeraeformis* (Haw.), *Grapholitha molesta* (Bsk.), *Laspeyresia pomonella* (L.), *Paralobesia viteana* (Clem.), *Coleophora fuscedinella* Zell., *Acrobasis indiginella* (Zell.), *Dichomeris "marginella"* (F.), *Coryphista meadi* (Pack.), *Tolype velleda* (Stoll).

Pimpla aequalis Provancher, 1880. Nat. Canad. 12: 36. ♀.

Meniscus Ashmeadii Provancher, 1888. Addit. Corr. Faune Ent. Canada Hym., p. 430. ♀.
Pimpla conquistor var. *rufuscula* Davis, 1898 (1897). Amer. Ent. Soc., Trans. 24: 368. ♀.

Biology: Breakley, 1930. Ent. Soc. Amer., Ann. 23: 187.

annulipes (Brulle). N. S. s. to Fla., w. to Minn. and Tex. Host: *Podosmia syringae* (Harris), *Syanthedon pictipes* (G. and R.), *S. pyri* (Harris), *Grapholitha molesta* (Bsk.), *Laspeyresia nigricana* (Steph.), *L. pomonella* (L.), *Rhyacionia buoliana* (D. and S.), *Gretchenia bolliana* (Sling.), *Acrobasis caryaef* Grt., *A. indiginella* (Zell.), *Salebriaria tenebrosella* (Hulst).
Pimpla annulipes Brulle, 1846. In Lepeletier, Hist. Nat. Ins. Hym., v. 4, p. 102. ♀.
Pimpla inflata Townes, 1940. Ent. Soc. Amer., Ann. 33: 306. ♂, ♀.

aquilonius (Cresson). Newfoundland (insular) s. to N. C., w. to Alaska and Calif.; Eurasia. Host: *Coleophora fuscedinella* Zell., *Psilocorsis cryptolechiella* (Cham.), *Lambdina fiscellaria fiscellaria* (Gn.), *Spilonota ocellana* (D. and S.), *Rheumaptera hastata* (L.). Townes (1960) has recognized a number of subspecies which he separated very unsatisfactorily and which do not make sense zoogeographically; therefore, they are not recognized here.

Pimpla aquilonia Cresson, 1870. Amer. Ent. Soc., Trans. 3: 145. ♂.

Pimpla flavicoxis Thomson, 1877. Opusc. Ent. 8: 747. ♂.

varians Townes. Colo., N. Mex., Ariz., B. C., Wash., Oreg., Calif. Host: *Laspeyresia pomonella* (L.).

Coccygomimus varians Townes, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 333. ♀. The male of the species was not identified with certainty.

TRIBE THERONIINI

Townes (1969) included the genera *Perithous*, *Delomerista*, and *Pseudorhyssa* in this tribe. Because the placement of these genera in the Theroniini was only provisional and because the name *Delomeristini* (Hellen, 1915) has priority over the name *Theroniini* (Cushman and Rohwer, 1920), the aforementioned genera are here placed in the Delomeristini. The genera of Theroniini occurring in North America are *Theronia* and *Neotheronia*, the latter being treated by Townes (1969) as a subgenus of *Theronia*. Because the division between *Neotheronia* and *Theronia* is not at all arbitrary, they are here treated as separate genera. The species of *Neotheronia* and *Theronia* are usually primary or secondary parasites of the pupae of Lepidoptera.

Genus THERONIA Holmgren

Revision: Gupta, 1962. Pacific Ins. Monogr. 4: 1-142 (Indo-Australian spp.).

Genus THERONIA Subgenus THERONIA Holmgren

Theronia Holmgren, 1859. Svenska Vetensk.-Akad., Ofvers af ... Forhandl. 16: 123.

Type-species: *Pimpla flavicans* (Fabricius). Monotypic. The type species is regarded as a synonym of *Theronia atlantae* (Poda).

Pseudacoenites Kriechbaumer, 1892. Ent. Nachr. 18: 219.

Type-species: *Pseudacoenites moravicus* Kriechbaumer. Monotypic. The type-species is regarded as a synonym of *T. hilaris laevigata* (Tschech.).

atalantae fulvescens (Cresson). N. B. s. to Va., w. to B. C. and Calif. Ecology: Adult females of this subspecies are known to hibernate, but it is not known that the subspecies overwinters exclusively in this way. Host: *Choristoneura fumiferana* (Clem.), *Ennomos subsignarius* (Hbn.), *Lambdina somniaria* (Hulst), *Nepytiia phantasmaria* (Stkr.), *Oreta rosea* (Wlk.), *Malacosoma americanum* (F.), *M. californicum fragile* (Stretch), *M. disstria* Hbn., *Dasychira plagiata* (Wlk.), *Lymantria dispar* (L.), *Orgyia leucostigma* (J. E. S.), *O. pseudotsugata* McD., *Nygma phaeorhoa* (Don.), *Leucoma salicis* (L.), *Hyalophora cecropia* (L.), *Nymphalis californica* (Bdv.), *Neophasia menapia* (F. and F.), *Enicospilus americanus* (Christ), *Gambrus extrematis* (Cr.), *Hyposoter fugitivus* (Say), *Itolectus conqueritor* (Say). *T. atalantae atalantae* (Poda) occurs in Europe. *Pimpla fulvescens* Cresson, 1865. Ent. Soc. Phila., Proc. 4: 268. ♂. *Theronia rufescens* (!) Taylor, 1884. Canad. Ent. 16: 92. *Theronia fulvescens* var. *mellipennis* Viereck, 1903. In Skinner, Amer. Ent. Soc., Trans. 29: 88. ♀. *Theronia atalantae* var. *americana* Krieger, 1906. Ztschr. System. Hym. Dipt. 6: 240. ♂, ♀.

Genus NEOTHERONIA Krieger

Neotheronia Krieger, 1899. Naturf. Gesell. Leipzig, Sitzber. 14-15: 119.

Type-species: *Theronia tollecta* Cresson. Orig. desig. *T. tollecta* is regarded as a subspecies of *Neotheronia nigrolineata* (Brulle).

Epimecoideus Ashmead, 1900. U. S. Natl. Mus., Proc. 23: 52.

Type-species: *Epimecoideus apicalis* Ashmead. Monotypic and orig. desig.

Acrocremnus Brethes, 1926. Nunquam Otiosus-V (Buenos Aires), p. 7.

Type-species: *Acrocremnus apicipennis* Brethes. Monotypic.

bicincta floridana (Townes). Southern Ga., Fla. Host: *Tromatobia rufopectus* (Cr.).

Neotheronia bicincta bicincta (Cresson) occurs in Cuba, and a third subspecies, *N. b. nubecularia* (Dewitz), occurs in Puerto Rico.

Theronia bicincta floridana Townes, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 362. ♂, ♀.

septentrionalis Krieger. Md. s. to Fla., w. to Mo., e. Okla., and La.

Neotheronia septentrionalis Krieger, 1905. Ztschr. System. Hym. Dipt. 5: 305. ♂.

Neotheronia winnemanna Viereck, 1913. U. S. Natl. Mus., Proc. 44: 567. ♀.

TRIBE DELOMERISTINI

The genera in this tribe may be related to those in the Theroniini, but the evidence is not conclusive. Neither is there conclusive evidence that the genera here placed in the Delomeristini are related to each other.

Genus PERITHOUS Holmgren

The species of *Perithous* are parasites or hyperparasites of Sphecidae which nest in canes or twigs.

Genus PERITHOUS subgenus PERITHOUS Holmgren

Perithous Holmgren, 1859. Svenska Vetensk.-Akad., Ofvers af ... Forhandl. 16: 123.

Type-species: *Ephialtes albicinctus* Gravenhorst. Desig. by Viereck, 1914.

divinator (Rossi). Que. s. to Conn. and Pa., w. to Wis.; Europe. Adventive. Host: *Pemphredon lethifer* (Shuck.), *P. lugubris* (F.), *Passaloecus gracilis* (Curt.), *Psenulus pallipes* (Pzr.), *Trypoxyton figulum* (L.), *Omalus auratus* (L.). Except for *Pemphredon lethifer*, which is recorded as a host in both North America and Europe, these hosts are recorded only in Europe. *P. (P.) divinator* appears to have entered the northeastern U. S. A. before 1931.

Ichneumon divinator Rossi, 1790. Fauna Etrusca, v. 2, p. 48. ♀.

Genus PERITHOUS Subgenus HYBOMISCHOS Baltazar

Perithous subg. *Hybomischos* Baltazar, 1961. Natl. Inst. Sci. Tech., Manila, Monog. 7: 49.

Type-species: *Perithous (Hybomischos) galbus* Baltazar. Orig. desig.

septemcinctarius (Thunberg). Mich.; Europe. Adventive. Host: *Pemphredon* spp., *Psen* (*Mimumesa*) *dahlbomi* (Wesm.), *Psenulus fuscipennis* (Dahl.). These hosts are recorded in Europe. One female was recently found in a spider web in Ann Arbor, Mich. by Torgerson (1972).

Ichneumon septemcinctarius Thunberg, 1822; 1824. Acad. Imp. des Sci. St. Petersburg, Mem. 8: 280; 9: 363. ♀.

Ephialtes varius Gravenhorst, 1829. Ichn. Europaea, v. 3, p. 254. ♂, ♀.

Perithous brunnescens Koornneef, 1951. Ent. Ber. 13: 249. ♀. Synonymy uncertain.

Perithous exiguum Haupt, 1954. Deut. Ent. Ztschr. 1: 108. ♀.

Perithous septemcinctarius meridionator Aubert, 1963. Vie et Milieu 14: 849. ♂, ♀. Syn.?

Taxonomy: Torgerson, 1972. Great Lakes Ent. 5: 99.

Genus DELOMERISTA Foerster

Delomerista Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 164.

Type-species: *Pimpla mandibularis* Gravenhorst. Monotypically included and desig. by Schmiedeknecht, 1888.

Delomerista spp. have most often been reared from cocoons of sawflies, but they may also parasitize Lepidoptera.

Revision: Walkley, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 362-367.

Morphology: Morris, Cameron, and Jepson, 1937. Bul. Ent. Res. 28: 360-361. (larvae).

borealis Walkley. Que., Colo., N. W. T., Yukon, Alaska.

Delomerista borealis Walkley, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 370. ♀.

gelida Walkley. Que. s. to Pa., w. to Alaska and Calif.

Delomerista gelida Walkley, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 366. ♀.

japonica diprionis Cushman. N. S. s. to N. C., w. to Alaska and Calif. Host: *Diprion similis* (Htg.), *Gilpinia frutetorum* (F.), *G. hercyniae* (Htg.), *Neodiprion lecontei* (Fitch), *N. nanulus nanulus* Schedl, *N. pratti banksianae* Roh., *N. sertifer* (Geoff.), *N. tsugae* Midd. The subspecies *japonica* Cushman occurs in Japan.

Delomerista diprionis Cushman, 1939. Wash. Acad. Sci., Jour. 29: 398. ♂, ♀.

Biology: Furniss and Dowden, 1941. Jour. Econ. Ent. 34: 49-51. —Griffiths, 1960. Canad. Ent. 92: 656.

Morphology: Finlayson, 1960. Canad. Ent. 92: 25-26 (larva).

laevis (Gravenhorst). Que., Maine, N. H., N. W. T., Tex.?, Alaska; Europe. Aubert (1969, 1972) stated that *D. laevis* (Thomson) is a species distinct from *laevis*, but gave no indication that he had ever studied the holotype of *laevis*.

Pimpla laevis Gravenhorst, 1829. Ichn. Europaea, v. 3, p. 180. ♀.

Pimpla texana Cresson, 1870. Amer. Ent. Soc., Trans. 3: 145. ♀. The holotype is recorded from Texas, probably in error.

Pimpla laevifrons Thomson, 1877. Opusc. Ent. 8: 750. ♂, ♀.

Pimpla laevifrons (!) Schmiedeknecht, 1888. Zool. Jahrb., Abt. f. System., Geog., u. Biol. Tiere 3: 534.

Pimpla levifrons Dalla Torre, 1901. Cat. Hym., v. 3, p. 438. Emend.

Pimpla levifrons Dalla Torre, 1901. Cat. Hym. v. 3, p. 439. Emend.

Taxonomy: Oehlke, 1966 (1965). Beitr. z. Ent. 15: 816. —Aubert, 1969. Ich. Ouest-Pal. et Leurs Hotes, pt. 1, p. 98-99. —Aubert, 1972. Ent. Scand. 3: 10.

lepteces Walkley. Que., Colo., Alaska.

Delomerista lepteces Walkley, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 368. ♀.

novita (Cresson). Que. s. to Va., w. to B. C. and Calif. Host: *Macremphytus* sp., *Diprion similis* (Htg.), *Acrobasis rubrifasciella* Pack., *Exartema olivaceanum* Riley, *Eublemma minima* (Gn.), *Mononychus vulpeculus* (F.). Hosts other than sawflies need verification. *Pimpla novita* Cresson, 1870. Amer. Ent. Soc., Trans. 3: 146. ♀.

Morphology: Finlayson, 1967. Canad. Ent. 99: 1247 (larva).

Pfankuchi Brauns. U. S. (unknown locality); Europe. The origin of the specimen bearing Hopkins W. Va. No. 5928 is unknown.

Delomerista Pfankuchi Brauns, 1905. Ztschr. System. Hym. Dipt. 5: 131. ♀.

Genus PSEUDORHYSSA Merrill

Pseudorhyssa Merrill, 1915. Amer. Ent. Soc., Trans. 41: 150.

Type-species: *Pseudorhyssa sternata* Merrill. Monotypic and orig. desig.

Revision: Kerrich, 1966. Entomologist 99: 44-46 (European spp.).

maculicoxis (Kriechbaumer). Que. s. to N. C., w. to Alta. and Calif.; Europe. Ecology: In North America the species has been associated with *Rhyssa howdenorum* Townes and *Rhyssa persuasoria* (L.) and is presumably cleptoparasitic on them. Kerrich (1966) has shown that Townes (1960) misidentified the holotype of *Rhyssa approximator* var. *ruficoxis* Kriechbaumer, and Kerrich placed *ruficoxis* as a synonym of *alpestris* (Holmgren), a species which does not occur in North America.

Rhyssa approximator var. *maculicoxis* Kriechbaumer, 1889. Ent. Nachr. 15: 318. ♀.

Kerrich (1966) incorrectly considered the name *maculicoxis* invalid because it was originally proposed as a varietal name that was "used in an aberrational sense."

Pseudorhyssa sternata Merrill, 1915. Amer. Ent. Soc., Trans. 41: 150. ♀.
Rhyssa praealpina Gyorfi, 1946. Fragm. Faunist. Hung. 9: 33. ♀.

Biology: Coutrier, 1949. Soc. Ent. de France, Bul. 54: 62-63. — Spradbury, 1969. Bul. Ent. Res. 59: 291-297.

Morphology: Spradbury, 1970. Roy. Ent. Soc. London, Proc., Ser. A: Biol. 45: 21-23, 24-25. 26, 27.

TRIBE DIACRITINI

This is a very small tribe erected by Townes, Momoi, and Townes (1965) to include only *Diacritus*, a Holarctic genus including three species. A second monotypic Japanese genus was added by Townes (1969).

Genus DIACRITUS Foerster

Diacritus Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 191.

Type-species: *Mesoleptus muliebris* Cresson. By subsequent monotypy from inclusion by Davis, 1895.

Phidias Snellen van Vollenhoven, 1898. Tijdschr. v. Ent. 21: 164. Preocc. by Rafinesque, 1815.

Type-species: *Phidias aciculatus* Snellen van Vollenhoven. Monotypic.

Stenolabis Kriechbaumer, 1894. Ent. Nachr. 20: 58.

Type-species: *Stenolabis cingulata* Kriechbaumer. Monotypic. The type-species is regarded as a synonym of *D. aciculatus* (Snellen van Vollenhoven).

Taxonomy: Townes, 1957. Ent. Soc. Wash., Proc. 59: 16 (Townes here removed the genus from the Neoxoridini [=Poemeniini Townes] and placed it provisionally in the Oxytorinae [=Plectiscinae auct.], and the genus was also excluded from the Pimplinae in the Revision by Townes and Townes [1960]).

muliebris (Cresson). Que. s. to Va. and apparently w. to northwestern U. S.

Mesoleptus? *muliebris* Cresson, 1868. Amer. Ent. Soc., Trans. 2: 102. ♂.

Mesoleptus variabilis Provancher, 1875. Nat. Canad. 7 (4): 115. ♂. Barron (1975) rejected the "lectotype" selected by Gahan and Rohwer (1918) and gave data for the specimen he regarded as the holotype.

Mesostenus rufipes Provancher, 1875. Nat. Canad. 7 (8): 249; 7 (9): 263. ♀.

Echthrus pediculatus Provancher, 1880. Nat. Canad. 12: 99. ♀.

Mesostenus pluricinctus Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 76. ♀.

Plectiscidea (Aperileptus?) contentionis Viereck, 1917 (1916). Conn. State Geol. and Nat. Hist. Survey Bul. 22: 276. ♀.

Taxonomy: Cushman, 1917. Ent. Soc. Wash., Proc. 19: 162-165. —Gahan and Rohwer, 1918. Canad. Ent. 50: 101. —Momoi, 1966. Kontyu 34: 3. —Barron, 1975. Nat. Canad. 102: 528, 534, 552, 580.

TRIBE NEOXORIDINI

The name Neoxoridini Clement (1938) has priority over the names Eugaltini Townes (1949) or Poemeniini Townes (1951).

Revision: Rohwer, 1920. U. S. Natl. Mus., Proc. 57: 444-451 (as part of Xoridini). —Clement, 1938. Festschr. Embrik Strand, v. 4, p. 515-522 (western Palearctic spp.). —Oehlke, 1966 (1965). Beitr. z. Ent. 15: 881-892 (western Palearctic spp.).

Taxonomy: Townes, 1957. Ent. Soc. Wash., Proc. 59: 15-20 (genera of world).

Genus POEMENIA Holmgren

Ophiodes Hartig, 1847. Naturw. Ver. Harz, Ber. 1846-1847, p. 18. Preocc. by Wagler, 1830; Guenee, 1841.

Type-species: *Ophiodes montanus* Hartig. Monotypic. The type-species is regarded as a synonym of *P. hectica* (Gravenhorst).

Poemenia Holmgren, 1859. Svenska Vetensk.-Akad., Ofvers af ... Forhandl. 16: 130.

Type-species: *Poemenia notata* Holmgren. Monotypic.

Calliclisis Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 169.

Type-species: *Ephialtes hecticus* Gravenhorst. Desig. by Viereck, 1914 from three species included by Schmiedeknecht, 1888.

Phthinodes Tschek, 1868. Zool.-Bot. Gesell. Wien, Verh. 18: 272.

Type-species: *Ephialtes hecticus* Gravenhorst. Monotypic.

Eurorides Cresson, 1870. Amer. Ent. Soc., Trans. 3: 167.

Type-species: *Eurorides americanus* Cresson. Monotypic.

Ophiogastra Ashmead, 1900. Canad. Ent. 32: 368. N. name for *Ophiodes* Hartig.

Lissonotopsis Habermehl, 1917. Ztschr. f. Wiss. Insektenbiol. 13: 234, 306.

Type-species: *Lissonotopsis rufa* Habermehl. Monotypic.

Members of this genus may all be parasites of aculeate Hymenoptera which nest in wood, abandoned plant galls, and similar situations.

Revision: Habeck and Townes, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 376-387.

albipes (Cresson). N. S. s. to S. C. and La., w. to B. C. and Calif.

Ephialtes albipes Cresson, 1870. Amer. Ent. Soc., Trans. 3: 143. ♀.

Morphology: Pratt, 1939. Ent. Soc. Amer., Ann. 32: 735.

americana americana (Cresson). N. S. s. to Fla., w. to Great Lakes. Host: *Passaloecus cuspisatus* Sm.

Euxorides americanus Cresson, 1870. Amer. Ent. Soc., Trans. 3: 167. ♀.

americana nebulosa Habeck and Townes. Ont., Colo., Ariz., B. C. s. to Calif. Ecology: This subspecies has been associated with *Passaloecus relativus* Fox, *Osmia* sp., *Paratimia conicola* Fisher, and *Laspeyresia piperana* (Bsk.) in rearings from cones of *Pinus* spp. *Poemenia americana nebulosa* Habeck and Townes, 1960. In Townes and Townes, U. S. Natl. Mus., Bul. 216 (pt. 2): 383. ♂, ♀.

pacifica Habeck and Townes. Wash. s. to Calif. Ecology: This species has been reared from galls of *Disholcaspis truceensis* (Ash.) and also from the galls of another cynipid from which a "chrysid-like bee" also emerged. This species is closely related to *Poemenia notata* Holmgren.

Poemenia pacifica Habeck and Townes, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 385. ♂, ♀.

thoracica (Cresson). Sask. s. to Colo., w. to B. C. and Calif. Host: *Osmia lingnaria propinqua* Cr.

Ephialtes thoracicus Cresson, 1879 (1878). Acad. Nat. Sci. Phila., Proc. 30: 377. ♀.

Euxorides Vancouverensis Provancher, 1888. Addit. Corr. Faune Ent. Canada Hym., p. 369. ♀.

Ephialtes vancouverensis Harrington, 1894. Canad. Ent. 26: 249. ♀.

Genus PODOSCHISTUS Townes

Podoschistus Townes, 1960. Ent. Soc. Wash., Proc. 59: 18.

Type-species: *Xorides vittifrons* Cresson. Orig. desig.

vittifrons (Cresson). Maine s. to Ga., w. to Oreg. and Tex. Ecology: One specimen of this species was reared from *Tetropium velutinum* in *Larix occidentalis*, but otherwise *vittifrons* has been associated with or reared from borers in hardwoods. Host:

Tetropium velutinum LeC., *Graphisurus fasciatus* (DeG.).

Xorides vittifrons Cresson, 1868. Canad. Ent. 1: 37. ♀.

Podoschistus vittifrons schlingeri Townes, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 388. ♀. N. syn.. The description of this synonym was based upon a single female from Utah which shows a minor difference in the coloration of the hind tibia, that difference not being found in the single male known to me from Oregon.

Morphology: Pratt, 1939. Ent. Soc. Amer., Ann. 32: 735.

Genus NEOXORIDES Clement

Neoxorides Clement, 1938. *Festschr. Embrik Strand*, v. 4, p. 517.

Type-species: *Xorides nitens* Gravenhorst. Orig. desig.

Members of this genus are parasites of wood-boring Coleoptera, and are often collected on trunks of dead trees.

borealis (Cresson). Southern Man. s. to Colo. and Ariz., w. to s. B. C. and Calif. Host:

Melanophila drummondi (kby.), *Tetropium velutinum* LeC., *Hylotrupes bajulus* (L.).

The holotype of this species is recorded from "Hudson Bay Territory". *N. borealis* is closely related to the European *N. collaris* (Gravenhorst), and may prove only to be a subspecies of it.

Xorides borealis Cresson, 1870. Amer. Ent. Soc., Trans. 3: 167. ♀.

Xorides occidentalis Cresson, 1879 (1878). Acad. Nat. Sci. Phila., Proc. 30: 380. ♀.

caryae (Harrington). Que. s. to N. C., w. to Mich. Host: *Saperda discoidea* F.

Xorides caryae Harrington, 1891. Canad. Ent. 23: 132. ♂, ♀.

Biology: Harrington, 1891. Canad. Ent. 23: 132. — Blackman and Stage, 1924. N. Y. State Col. Forestry, Syracuse Univ., Tech. Pub. 17: 182.

pilulus Townes. N. B. s. to N. C., w. to n. N. W. T., Yukon, Oreg., and Colo. Ecology: This species appears to be a parasite of wood borers in both hardwoods and conifers. It is anomalous in being the widest ranging, yet least collected, of the Nearctic spp. of *Neoxorides*.

Neoxorides pilulus Townes, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 390. ♂, ♀.

TRIBE RHYSSINI

The North American members of this tribe are all parasites of Siricoidea.

Revision: Rohwer, 1920. U. S. Natl. MUS., Proc. 57: 418-428.

Genus RHYSSA Gravenhorst

Rhyssa Gravenhorst, 1829. Ichn. Europea, v. 3, p. 260.

Type-species: *Ichneumon persuasorius* Linnaeus. Desig. by Westwood, 1840.

Cryptocentrum Kirby, 1837. In Richardson, Swainson, and Kirby, Fauna Bor. Amer., v. 4, p. 260.

Type-species: *Cryptocentrum lineolatum* Kirby. Monotypic.

Pararhyssa Walsh, 1873. Acad. Sci. St. Louis, Trans. 3: 109.

Type-species: *Rhyssa persuasoria* (Linnaeus). Desig. by Viereck, 1914.

alaskensis Ashmead. Alta. s. to N. Mex., w. to s. Alaska and Calif.

Rhyssa alaskensis Ashmead, 1902. Wash. Acad. Sci., Proc. 4: 199. ♀.

Rhyssa skinneri Viereck, 1903. In Skinner, Amer. Ent. Soc., Trans. 29: 87. ♀.

crevieri (Provancher). N. S. s. to N. C., w. to Minn. Host: *Urocerus albicornis* (F.). It remains to be proven that *crevieri* is distinct from *lineolata* (Kirby).

Epirhyssa Crevieri Provancher, 1880. Nat. Canad. 12: 17. ♂.

hoferi Rohwer. Colo., N. Mex., Ariz. Ecology: It appears that this species occurs in the lower reaches of forests of *Pinus ponderosa* and in the pinyon-juniper forest type. Males which are predominantly black with yellow markings (as opposed to red with yellow markings) have been collected since the species was treated in the revision of Townes and Townes (1960). Presumably, females with predominantly black ground color will also be found.

Rhyssa hoferi Rohwer, 1920. U. S. Natl. Mus., Proc. 57: 421. ♀.

howdenorum Townes. Md., Va., N. C., Ga., Ala., Nebr. Ecology: This species parasitizes siricids boring in *Pinus* spp.

Rhyssa howdenorum Townes, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 398. ♂, ♀.

lineolata (Kirby). N. S. s. to Ga., w. to B. C. and Oreg.; New Zealand, Australia. Host:

Urocerus albicornis (F.), *U. gigas flavigornis* (F.), *Sirex cyaneus* F., *S. edwardsii* Brulle,

S. noctilio F., *Xeris* sp. This species is adventive in New Zealand, there parasitizing *Sirex noctilio*, which is adventive from Europe. Subsequently, *R. lineolata* was introduced in Australia for control of *S. noctilio*.

Cryptocentrum lineolatum Kirby, 1837. In Richardson, Swainson, and Kirby, Fauna Bor. Amer., v. 4, p. 260. ♂.

Rhyssa albomaculata Cresson, 1864. Ent. Soc. Phila., Proc. 3: 318. ♀.

Taxonomy: Morley, 1909. Entomologist 42: 133. — Morley, 1910. Entomologist 43: 243. — Zondag and Nuttall, 1961. New Zeal. Ent. 2 (6): 40-44 (identity and origin of New Zealand population).

Biology: Gardiner, 1966. Canad. Ent. 98: 95-97 (oviposition).

Morphology: Pratt, 1939. Ent. Soc. Amer., Ann. 32: 733.

persuasoria *persuasoria* (Linnaeus). Newfoundland (insular) s. to Ga., w. to B. C. and Calif.; Eurasia; New Zealand, Australia. Host: *Sirex areolatus* (Cr.), *S. noctilio* F., *Xeris* sp., *Syntexis liboedrii* Rohwer. *Sirex noctilio* was the target species for the successful introductions of *R. p. persuasoria* into New Zealand and Australia from Europe, but the other host records are North American. Two Himalayan subspecies of *R. persuasoria* are recognized by Kamath and Gupta (1971).

Ichneumon persuasorius Linnaeus, 1758. Syst. Nat., ed. 10, v. 1, p. 562. ♀.

Ichneumon camelus Scopoli, 1763. Ent. Carn., p. 282. sex?

Rhyssa marginalis Brulle, 1846. In Lepeletier, Hist. Nat. Ins. Hym., v. 4, p. 79. ♀.

Rhyssa lineolata Kriechbaumer, 1887. Ent. Nachr. 13: 81. ♀. Uncertain syn. which is preocc. by Kirby, 1837.

Taxonomy: Kamath and Gupta, 1971. Oriental Ins. Monog. 2: 14 (key to subspecies).

— Spradbury and Radkowsky, 1974. Bul. Ent. Res. 64: 653-668 (geog. variation).

Biology: Franke, 1959. Photographie u. Forsch. 8: 1-9 (oviposition). — Ozols, 1962. Latvijas Ent. 5: 29-40. — Klein, 1965. Ztschr. f. Angew. Ent. 56: 224. — Morgan and Stewart, 1966. Roy. Soc. New Zeal. (Zool.), Trans. 8: 31-38 (habits and life history). — Hocking, 1968. Australian Ent. Soc., Jour. 7: 1-5. — Spradbury, 1970. Animal Behavior 18: 103-114 (host finding).

ponderosae Townes. Calif. Host: *Sirex areolatus* (Cr.).

Rhyssa ponderosae Townes, 1960. In Townes and Townes, U. S. Natl. Mus., Bul. 216 (pt. 2): 401. ♂, ♀.

Genus RHYSELLA Rohwer

Rhyssella Rohwer, 1920. U. S. Natl. Mus., Proc. 57: 422.

Type-species: *Rhyssa nitida* Cresson. Orig. desig.

Members of this genus parasitize Siricoidea which bore in hardwood trees or bushes and may be host specific to Xiphidiidae.

humida (Say). Maine s. to Ga., w. to Minn. and Miss. Host: *Xiphidria abdominalis* Say, *X. tibialis* Say.

Pimpla humida Say, 1836. Boston Jour. Nat. Hist. 1: 224. ♀.

nitida (Cresson). Maine s. to Ga., w. to B. C. Host: *Xiphidria canadensis* Prov., *X. maculata* Say.

Rhyssa nitida Cresson, 1864. Ent. Soc. Phila., Proc. 3: 319. ♂.

Rhyssa canadensis Cresson, 1868. Canad. Ent. 1: 35. ♀.

Epirhyssa clavata Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 115.

Biology: Kaston, 1937. Conn. (State) Agr. Expt. Sta., Bul. 396: 359.

Morphology: Pratt, 1939. Ent. Soc. Amer., Ann. 32: 733.

Genus MEGARHYSSA Ashmead

Thalessa Holmgren, 1859. Svenska Vetensk.-Akad., Ofvers af ... Forhandl. 16: 122. Preocc. by Adams, 1853.

Type-species: *Ichneumon clavator* Fabricius. Desig. by Ashmead, 1900. The type-species is regarded as a synonym of *M. gigas* (Laxmann).

Megarhyssa Ashmead, 1900. Canad. Ent. 32: 368. N. name for *Thalessa* Holmgren.

Megalarhyssa Schulz, 1906. Spolia Hym., p. 115. Emend.

Euryhyssa Derksen, 1941. Ztschr. f. Morph. U. Oekol. der Tiere 37: 721. Name invalid; type-species not designated except subsequently by Townes and Townes, 1951 as *Ichneumon superbus* Schrank.

In eastern North America the three species of *Megarhyssa* which are common in hardwood forests—*atrata* (Linnaeus), *macrurus* (Linnaeus), and *greenei* (Viereck)—all show rather marked, more or less clinal, geographic variation in the coloration of the wings, particularly in the females. Specimens from the northern range extremities often have wings which are nearly clear, while the wings of those from the southern range extremities are most deeply or most uniformly infuscate. In *macrurus* and *greenei* subspecific distinctions have been made near the southern extremities of the ranges, and in the case of *atrata* a subspecific distinction has been made near the northern extremity of the range. I do not believe it is meaningful to treat these particular peripheral variants as subspecies.

Revision: Michener, 1939. Pan-Pacific Ent. 15: 126-131.

Biology: Heatwole, Davis, and Wenner, 1962. Ztschr. f. Tierpsychol. 19: 652-664. —Heatwole, Davis, and Wenner, 1964. Amer. Midland Nat. 71: 374-381. —Cameron, 1965. Commonwealth Inst. Biol. Control, Tech. Bul. 5: 22.

atrata (Fabricius). N. S. s. to Ga., w. to Wyo. and Tex. Host: *Tremex columba* (L.).

Ichneumon atratus Fabricius, 1781. Species Insectorum, v. 1, p. 436. ♀.

Ichneumon tenebrator Thunberg, 1822; 1824. Acad. Imp. des Sci. St. Petersburg, Mem. 8: 266; 9: 322. Unnecessarily proposed n. name for *atratus* Fabricius.

Rhyssa laevigata Brulle, 1846. In Lepeletier, Hist. Nat. Ins. Hym., v. 4, p. 78. ♂.

Megarhyssa atrata lineata Porter, 1957. Ent. News 68: 206. ♀. N. syn.

nortoni (Cresson). Newfoundland (Labrador) s. to n. Ga., w. to Alaska and Calif.; New Zealand, Australia. Ecology: Occurs in coniferous forests. Host: *Urocerus albicornis* (F.), *Xeris morrisoni* (Cr.), *Sirex* sp., *S. noctilio* F. These host records are North American, except in the case of *Sirex noctilio*, which was the target species for the successful introductions into New Zealand and Australia. It seems very likely that *nortoni* will, at best, prove to be only subspecifically distinct from the Eurasian *M. gigas* (Laxmann).

Rhyssa nortoni Cresson, 1864. Ent. Soc. Phila., Proc. 3: 317. ♀.

Thalessa Quebecensis Provancher, 1873. Nat. Canad. 5: 447. ♂, ♀. Barron (1975) selected a lectotype.

Genus EPIRHYSSA Cresson

Epirhyssa Cresson, 1865. Ent. Soc. Phila., Proc. 4: 39.

Type-species: *Epirhyssa speciosa* Cresson. Desig. by Viereck, 1914.

Rhyssonota Kriechbaumer, 1890. Wien. Mus. der Naturgesch., Ann. 5 (3): 489.

Type-species: *Rhyssonota tristis* Kriechbaumer. Monotypic. Except for the single species occurring in the southwestern U. S., this genus is Neotropic.

dietrichi Townes. Ariz.

Epirhyssa dietrichi Townes, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 414. ♂, ♀.

SUBFAMILY LABENINAE

Taxonomy: Townes, 1969. Amer. Ent. Inst., Mem. 11: 194-207 (tribes and genera of world; as Labiinae, =Labeninae).

TRIBE LABENINI

This is a small tribe, including five genera, only one of which has Nearctic species.

Genus LABENA Cresson

Labena Cresson, 1864. Ent. Soc. Phila., Proc. 3: 399.

Type-species: *Cryptus grallator* Say. Desig. by Viereck, 1914.

Caryoecus Walsh, 1866. Pract. Ent. 1: 30.

Type-species: *Mesochorus fuscipennis* Brulle. Monotypic.

Microtritus Kriechbaumer, 1889. Ent. Nachr. 15: 307.

Type-species: *Microtritus apicalis* Kriechbaumer. Monotypic.

Dyseidopuss Kriechbaumer, 1890. Wien. Mus. der Naturgesch., Ann. 5: 489.

Type-species: *Dyseidopuss sericeus* Kriechbaumer. Monotypic.

Neonotus Parrot, 1955 (1954). Linn. Soc. N. S. Wales, Proc. 79:230.

Type-species: *Neonotus chadwickii* Parrot. Monotypic and orig. desig.

This is a large Australian, Neotropic, and Nearctic genus.

Revision: Townes and Townes, 1960. U. S. Natl. Mus. Bul. 216 (pt. 2): 531-537.

grallator (Say). Mass. and s.e. Ont. s. to Fla., w. to Wis., Colo., and s.e. Calif.; Mexico? Ecology: Has been reared from insects infesting *Pinus* and *Taxodium*, but is more often reared from borers in various angiosperms (trees, bushes, and vines). Host: *Aneflomorpha* sp.? in *Lycium belandieri*, *cerambycid* in *Baccharis halimifolia*, *Knulliana cincta* (Drury), *Psyrassa unicolor* (Rand.), *Saperda puncticollis* Say, *Stenosphenus notatus* (Oliv.), *Agrius* sp., *A. arcuatus* (Say), *Chrysobothris femorata* (Oliv.), *C. tranquebarica* (Gmelin), *Thrincoptye alacris* LeC., *Lixus scrobicollis* Boh., *Pissodes strobi* (Peck). The geographic variation of *grallator* does not seem conducive to the recognition of subspecies.

Cryptus grallator Say, 1836. Boston Jour. Nat. Hist. 1: 236. ♀.

Mesochorus fuscipennis Brulle, 1846. In Lepetier, Hist. Nat. Ins. Hym., v. 4, p. 250. ♀.

Labena apicalis Cresson, 1864. Ent. Soc. Phila., Proc. 3: 402. ♂.

Labena grallatrix Schulz, 1906. Spolia Hym., p. 116. Emend.

Labena confusa Rohwer, 1920. U. S. Natl. Mus., Proc. 57: 411. ♀.

Labena confusa var. *minor* Rohwer, 1920. U. S. Natl. Mus., Proc. 57: 413. ♀.

Labena grallator ochreata Townes, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 535. ♂, ♀. N. syn.

Labena grallator lutea Townes, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 536. ♂. N. syn.

Labena grallator balteata Townes, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 536. ♂, ♀. N. syn.

tinctipennis Rohwer. Central Ariz., s. B. C., Calif. Host: *Dicerca horni* Crotch.

Labena tinctipennis Rohwer, 1920. U. S. Natl. Mus., Proc. 57: 409. ♀.

TRIBE GROTEINI

The members of this tribe are parasites of bees. Only one of the three genera is represented by North American species.

Genus GROTEA Cresson

Grotea Cresson, 1864. Ent. Soc. Phila., Proc. 3: 397.

Type-species: *Grotea anguina* Cresson. Monotypic.

This is a small Neotropic and Nearctic genus. The hosts are twig-nesting bees of the genus *Ceratina*. More than one *Ceratina* larva is consumed by each *Grotea* larva, and the pollen loaves in the cells of the consumed *Ceratina* larvae are also eaten by larvae of *Grotea*.

Revision: Townes and Townes, 1960. U. S. Natl. Mus. Bul. 216 (pt. 2): 538-541 (Nearctic spp.).
—Slobodchikoff, 1970. Pan-Pacific Ent. 46: 50-60 (Nearctic and Neotropic spp.).

anguina Cresson. Que. w. to Wis. and w. Iowa, s. to n.w. S. C., n. Miss., and s. Tex. Host:

Ceratina calcarata Rbtsn., *C. dupla* Say, *C. metallica* H. S. S.

Grotea anguina Cresson, 1864. Ent. Soc. Phila., Proc. 3: 398. ♂, ♀.

Biology: Graenicher, 1905. Ent. News 16: 43-49. —Rau, 1922. Acad. Sci. St. Louis, Trans. 24: 43. —Rau, 1928. Ent. Soc. Amer., Ann. 21: 383. —Daly, Stage, and Brown, 1967. Ent. Soc. Amer., Ann. 60: 1275.

californica Cresson. Northern Idaho and s. B. C. s. to s. Calif. Host: *Ceratina acantha* Prov., *C. dallatorreana* Friese, *C. gigantea* H. S. S., *C. nanula* Ckll., *C. punctigera* Ckll.

Grotea californica Cresson, 1879 (1878). Acad. Nat. Sci. Phila., Proc. 30: 370. ♀.

Biology: Slobodchikoff. 1967. Pan-Pacific Ent. 43: 161-168. —Daly, Stage, and Brown, 1967. Ent. Soc. Amer., Ann. 60: 1275-1277.

lokii Slobodchikoff. Colo., Ariz.; Mexico. This species was confused with *anguina* and *californica* in the revision of *Grotea* by Townes and Townes (1960).

Grotea lokii Slobodchikoff, 1970. Pan-Pacific Ent. 46: 60. ♂, ♀.

TRIBE BRACHYCYRTINI

Revision: Walkley, 1956. U. S. Natl. Mus., Proc. 106: 315-329.

Genus BRACHYCYRTUS Kriechbaumer

Brachycyrtus Kriechbaumer, 1880. Zool.-Min. Ver. Regensburg, Corresp. Bl. 34: 161.

Type-species: *Brachycyrtus ornatus* Kriechbaumer. Monotypic.

Proterocyrtus Ashmead, 1906. U. S. Natl. Mus., Proc. 30: 174.

Type-species: *Proterocyrtus nawaii* Ashmead. Monotypic.

Xanthocharops Morley, 1912. Linn. Soc. London, Trans. 15: 173.

Type-species: *Xanthocharops primus* Morley. Monotypic.

Vakau Cheesman, 1928. Ann. and Mag. Nat. Hist. (10) 1: 189.

Type-species: *Vakau taitensis* Cheesman. Monotypic and orig. desig.

Brachycyrtomorpha Blanchard, 1940. In Kreibom de la Vega, Tucuman Estac. Expt. Agr., Rev. Indus. y Agr. 3: 170. Nomen nudum (figure only).

Brachycyrtomorpha Blanchard, 1942. Soc. Cient. Argentina, An. 134: 105.

Type-species: *Brachycyrtomorpha crossi* Blanchard. Monotypic and orig. desig.

This is a small genus of worldwide distribution. The hosts are pupae or prépupae of Chrysopidae.

Revision: Townes and Townes, 1960. U. S. Natl. Mus. Bul. 216 (pt. 2): 542-544 (Nearctic spp.).

ornatus Kriechbaumer. Pa., Md., Ohio, Mich., Ariz., s. B. C.; Mexico; Eurasia. Host: Chrysopid.

Brachycyrtus ornatus Kriechbaumer, 1880. Zool.-Min. Ver. Regensburg, Corresp.-Bl. 34: 163. ♀.

Brachycyrtus chrysopae Walley, 1940. Canad. Ent. 72: 86. ♀.

pretiosus Cushman. Central and s. Fla. Host: *Nodita pavida* (Hagen), chrysopid pupae.

Brachycyrtus pretiosus Cushman, 1936. U. S. Nat. Mus., Proc. 84: 19. ♂, ♀.

SUBFAMILY TRYPHONINAE

Species of this subfamily are external parasites of the larvae of sawflies or Lepidoptera. The eggs of Tryphoninae are equipped with a holdfast which is often borne on a stalk or is derived

from coiling of the stalk; it serves to fasten the eggs within the puncture the female makes in the skin of the host larva. According to Mason (1967), in species which parasitize sawflies, eclosion from the egg does not occur until after the host has spun its cocoon.

Taxonomy: Townes, 1969. Amer. Ent. Inst., Mem. 11: 143-193 (genera of world).

Biology: Mason, 1967. Canad. Ent. 99: 376.

TRIBE PHYTODIETINI

Members of this tribe are parasitic on larvae of Lepidoptera. The stalk of the egg is long, slender, and loosely coiled; in newly deposited eggs the stalk is elastic, but later becomes rigid so that its coiling serves to hold it firmly in the skin of the host.

Townes (1969) preferred to group the numerous species of this tribe into two genera, each with a number of subgenera. His use of more subgeneric than generic names seems to make the classification of this tribe discordant with his classification of the rest of the subfamily.

Genus PHYTODIETUS Gravenhorst

This genus is divided into four subgenera, two of which have North American species. The North American species are currently being revised by Dr. C. C. Loan, and publication of his revision may precede the appearance of this catalog.

Revision: Rohwer, 1920. U. S. Natl. Mus., Proc. 57: 460-468.

Genus PHYTODIETUS subgenus NEUCHORUS Uchida

Neuchorus Uchida, 1931. Insecta Matsumurana 5: 143.

Type-species: *Neuchorus longicauda* Uchida. Monotypic and orig. desig.

Doratistes Seyrig, 1932. Acad. Malgache, Mem. 11: 27. Described as a subgenus of

Phytodietus but treated nomenclaturally as a genus.

Type-species: *Doratistes absyrtinus* Seyrig. Orig. desig.

Taxonomy: Krebs, 1969. Canad. Ent. 101: 548-549 (key to Nearctic spp.).

rufipes pulcherrimus (Cresson). Atlantic to Cont. Divide in Transit. and U. Aust. Zones. Host:

Loxostege rontalis (Gn.), *L. sticticalis* (L.), *Ostrinia obliteralis* (Wlk.), *Phlyctaenia coronata tertialis* (Gn.). *P. (N.) rufipes rufipes* Holmgren is European.

Mesoleptus pulcherrimus Cresson, 1868. Amer. Ent. Soc., Trans. 2: 101. ♂.

pleuralis Cresson. Atlantic to Tex., Colo., Ariz. Host: *Acleris minuta* (Rob.).
Phytodietus pleuralis Cresson, 1865. Ent. Soc. Phila., Proc. 4: 266. ♂.
Meniscus 4-cinctus Ashmead, 1894. In Webster, Cincinnati Soc. Nat. Hist., Jour. 17: 50. ♂.
Dr. C. C. Loan found the heretofore lost holotype among specimens he borrowed from
the U. S. Natl. Museum and advised me of the present synonymy.
segmentator (Gravenhorst). Eurasia. Introduced in Ontario in 1956 for control of the native
Choristoneura fumiferana (Clem.). Only a small number of individuals (35 males and 39
females) were released, which would seem to have precluded establishment.
Phytodietus segmentator Gravenhorst, 1829. Ichn. Europaea, v. 2, p. 944. ♂, ♀.
vulgaris Cresson. Transcont. in Transit., Canad., Huds. Zones. Host: *Argyrotaenia pinatubana*
(Kft.), *Archips argyrospilus* (Wlk.).
Phytodietus vulgaris Cresson, 1870. Amer. Ent. Soc., Trans. 3: 166. ♂, ♀.
Mesoleius annulatus Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 106. ♀.
Preocc. by Brischke, 1871.

Biology: Fernald, 1891. Mass. Agr. Expt. Sta., Bul. 12: 9.

Genus NETELIA Gray

Until 1939 the generic name *Paniscus* Schrank (1801) was universally applied to the majority
of species now placed in *Netelia*. The name *Paniscus* is now uniformly treated as an objective
synonym of *Ophion*, thus reversal of this unfortunate change would cause more confusion than it
would eliminate.

Members of this genus are nocturnal or crepuscular and are often attracted to lights. Because
of similar habits and general appearance casual observers often confuse them with species of
Ophioninae. *Netelia* females generally sting more painfully than those of Ophioninae, however.

Revision: Townes, 1939 (1938). Lloydia 1: 168-231.

Biology: Riley, 1869. Insects Mo., Ann. Rpt. 1: 89. —Cushman, 1913. Ent. Soc. Wash., Proc.
15: 155-157. —Vance, 1927. Ent. Soc. Amer., Ann. 20: 405-417. —Schaffner and Griswold,
1934. U. S. Dept. Agr., Misc. Pub. 188: 143-144.

Morphology: Whitmarsh, 1910. Ent. Soc. Amer., Ann. 3: 198, 204-208.

Genus NETELIA Subgenus PAROPHELTES Cameron

Paropheltes Cameron, 1907. Bombay Nat. Hist. Soc., Jour. 17: 1011.

Type-species: *Paropheltes flavolineatus* Cameron. Monotypic.

alaskensis (Ashmead). Alta., Wyo., Alaska.

Paniscus alaskensis Ashmead, 1902. Wash. Acad. Sci., Proc. 4: 237. ♂.

albovariegata (Provancher). Que., N. Y., Ohio, Ill., S. Dak.

Paniscus albovariegatus Provancher, 1874. Nat. Canad. 6: 106. ♂.

barberi (Cushman). N. S. s. to D. C., w. to B. C., Wash.

Paniscus pallens var. *barberi* Cushman, 1924. U. S. Natl. Mus., Proc. 64: 40. ♀, ♂.

ciliata Townes. Calif.

Netelia (*Paropheltes*) *ciliata* Townes, 1939 (1938). Lloydia 1: 180. ♂.

laticeps Townes. Ariz.

Netelia (*Paropheltes*) *laticeps* Townes, 1939 (1938). Lloydia 1: 181. ♂.

macroglossa Townes. B. C., Nev.

Netelia (*Paropheltes*) *macroglossa* Townes, 1939 (1938). Lloydia 1: 179. ♂.

picta Townes. Nev.

Netelia (Paropheltes) picta Townes, 1939 (1938). *Lloydia* 1: 181. ♂.

radiata Townes. Kans., Ariz., Calif.

Netelia (Paropheltes) radiata Townes, 1939 (1938). *Lloydia* 1: 180. ♂.

rimata Townes. B. C., Calif.

Netelia (Paropheltes) rimata Townes, 1939 (1938). *Lloydia* 1: 180. ♂.

serrata Townes. N. Y., Ont., Iowa, S. Dak.

Netelia (Paropheltes) serrata Townes, 1939 (1938). *Lloydia* 1: 180. ♂.

tarsata (Brischke). N. S. s. to S. C., w. to Alta.; Eurasia.

Paniscus tarsatus Brischke, 1880. *Naturf. Gesell. Danzig, Schr. 4* (4): 138. ♂, ♀.

Parabatus terebrator Ulbricht, 1922. *Konowia* 1: 181. ♂, ♀.

Genus NETELIA Subgenus PARABATES Foerster

Parabates Foerster, 1868. *Naturh. Ver. Rheinlande, Verh.* 25: 150.

Type-species: *Parabatus nigricarpus* Thomson. Designated by Enderlein (1912) from four species included by Thomson (1888).

Parabatus Thomson, 1888. *Opusc. Ent.* 12: 1194. Emend. See the discussion pertaining to the subgenus *Bessobates*.

Opheltoideus Ashmead, 1900. U. S. Natl. Mus., *Proc.* 23: 95.

Type-species: *Opheltoideus johnsoni* Ashmead. Monotypic and orig. desig.

This subgenus is small, having one Nearctic and one European species.

johnsoni (Ashmead). N. H., N. C., Tenn., B. C.

Ctenacme monticola Ashmead, 1900. In Slosson, *Ent. News* 11: 320. *Nomen nudum*.

Opheltoideus johnsoni Ashmead, 1900. U. S. Natl. Mus., *Proc.* 23: 95. Sex not specified. No type specimen can be found in the U. S. Natl. Museum collection.

Opheltoideus johnsonii Dalla Torre, 1901. *Cat. Hym.*, v. 3, p. 88. Emend.

Parabates monticola Cushman, 1922. U. S. Natl. Mus., *Proc.* 61 (8): 20. ♀.

Taxonomy: Townes, 1969. *Amer. Ent. Inst., Mem.* 11: 151.

Genus NETELIA Subgenus TOXOCHILUS Townes

Netelia subg. *Toxochilus* Townes, 1939 (1938). *Lloydia* 1: 182.

Type-species: *Paniscus clypeatus* Cushman. Orig. desig.

This subgenus is known only from the Nearctic Region.

caviverticalis (Cushman). Colo.

Paniscus caviverticalis Cushman, 1924. U. S. Natl. Mus., *Proc.* 64 (20): 29. ♀.

clypeata (Cushman). Va., W. Va., Ill., Iowa, S. Dak., Colo., N. Mex.

Paniscus clypeatus Cushman, 1924. U. S. Natl. Mus., *Proc.* 64 (20): 29. ♂.

glabra Townes. Kans.

Netelia (Toxochilus) glabra Townes, 1939 (1938). *Lloydia* 1: 183. ♂, ♀.

magniceps Townes. S. Dak., Mo., Kans., Colo., Ariz.

Netelia (Toxochilus) magniceps Townes, 1939 (1938). *Lloydia* 1: 184. ♂, ♀.

mystace Townes. Ariz.

Netelia (Toxochilus) mystace Townes, 1939 (1938). *Lloydia* 1: 184. ♂.

pulchra (Cushman). N. Mex.

Paniscus pulcher Cushman, 1924. U. S. Natl. Mus., *Proc.* 64 (20): 25. ♀, ♂.

ultima Townes. S. Dak., N. Mex.

Netelia (Toxochilus) ultima Townes, 1939 (1938). *Lloydia* 1: 183. ♂, ♀.

Genus NETELIA Subgenus PROSTHODOCIS Enderlein

Prosthodocis Enderlein, 1912. *Stettin. Ent. Ztg.* 73: 107, 141.

Type-species: *Paniscus antefurcalis* Szepligeti. Monotypic and orig. desig.

exserta (Cushman). R. I., N. Y. s. to Ala., w. to Mo.

Parabates exsertus Cushman, 1924. U. S. Natl. Mus., *Proc.* 64 (20): 47. ♀.

Genus NETELIA Subgenus NETELIA Gray

Netelia Gray, 1860. Ann. and Mag. Nat. Hist. 5 (3): 341.

Type-species: *Paniscus inquinatus* Gravenhorst. Monotypic and orig. desig.
Bucheckerius Schulz, 1906. Spolia Hym., p. 280.

Type-species: *Bucheckerius perforatus* Schulz. Monotypic.

Scammatonotum Enderlein, 1914. In Michaelsen, Beitr. z. Kenn. ... Fauna
Deut.-Sudwestafrikas, v. 1, p. 231.

Type-species: *Scammatonotum herero* Enderlein. Monotypic and orig. desig.
Amebachia Uchida, 1928. Hokkaido Imp. Univ., Fac. Agr., Jour. 21: 198.

Type-species: *Amebachia baibarana* Uchida. Orig. desig.

This subgenus includes three-fourths of the *Netelia* species, and they are distributed throughout the world.

acuminata Townes. Mass. s. to Ala., w. to Minn., s. Calif.

Netelia (*Netelia*) *acuminata* Townes, 1939 (1938). *Lloydia* 1: 206. ♂, ♀.

affinis Townes. Wash., Nev.

Netelia (*Netelia*) *affinis* Townes, 1939 (1938). *Lloydia* 1: 206. ♂.

blantoni Townes. R. I., N. Y., Pa., Va.

Netelia (*Netelia*) *blantoni* Townes, 1939 (1938). *Lloydia* 1: 214. ♂.

brevicornis brevicornis (Cushman). N. S. s. to Ala., w. to Mont., Tex.

Paniscus brevicornis Cushman, 1924. U. S. Natl. Mus., Proc. 64 (20): 27. ♂, ♀.

brevicornis suturalis Townes. Alta. s. to Utah, w. to B. C., Oreg.

Netelia (*Netelia*) *brevicornis suturalis* Townes, 1939 (1938). *Lloydia* 1: 201. ♂, ♀.

brevicornis temporalis (Cushman). Southwestern Calif.

Paniscus temporalis Cushman, 1924. U. S. Natl. Mus., Proc. 64 (20): 30. ♀.

brunnea Townes. N. Y., Pa., Md., Va.

Netelia (*Netelia*) *brunnea* Townes, 1939 (1938). *Lloydia* 1: 209. ♂.

californica (Cushman). Southern B. C. to s. Calif. The species has not been collected more than 80 miles from the Pacific Coast.

Paniscus californicus Cushman, 1924. U. S. Natl. Mus., Proc. 64 (20): 36. ♀.

calva Townes. Va.

Netelia (*Netelia*) *calva* Townes, 1939 (1938). *Lloydia* 1: 210. ♂.

cascadica Townes. Oreg.

Netelia (*Netelia*) *cascadica* Townes, 1939 (1938). *Lloydia* 1: 205. ♂.

caudata Townes. Va., Ill., Okla.

Netelia (*Netelia*) *caudata* Townes, 1939 (1938). *Lloydia* 1: 216. ♂.

chloris (Olivier). Que. s. to N. C., w. to Mont., Tex.

Ophion chloris Olivier, 1811. Encycl. Meth. Hist. Nat. Insectes, v. 8, p. 509. ♀.

Ophion geminatus Say, 1829. Contrib. Maclurian Lycium to Arts and Sci. 1: 76. Sex not stated.

Paniscus texanus Ashmead, 1890 (1889). U. S. Natl. Mus., Proc. 12: 425. ♀.

Taxonomy: Townes, 1961. Ent. Soc. Wash., Proc. 63: 111.

cockerelli (Cushman). N. Mex., Utah, Ariz., Calif.

Paniscus cockerelli Cushman, 1924. U. S. Natl. Mus., Proc. 64 (20): 35. ♀.

cushmani Townes. B. C.

Netelia (*Netelia*) *cushmani* Townes, 1939 (1938). *Lloydia* 1: 206. ♂.

delicate Townes. Que. s. to Ala., w. to Minn., Kans.

Netelia (*Netelia*) *delicata* Townes, 1939 (1938). *Lloydia* 1: 212. ♂, ♀.

densa Townes. N. Mex., Ariz.

Netelia (*Netelia*) *densa* Townes, 1939 (1938). *Lloydia* 1: 204. ♂.

emorsa Townes. Fla.; Bermuda, W. Indies. This species may prove to be a syn. of *subfuscata* (Cresson), which was described from Cuba.

Netelia (*Netelia*) *emorsa* Townes, 1939 (1938). *Lloydia* 1: 197. ♂, ♀.

falcata Townes. Vt., N. Y., Pa.

Netelia (*Netelia*) *falcata* Townes, 1939 (1938). *Lloydia* 1: 210. ♂, ♀.

heroica Townes. N. Y., Mich., Minn., Ariz.; Mexico.

Netelia (Netelia) heroicæ Townes, 1939 (1938). *Lloydia* 1: 213. ♂.

idioctenus Townes. N. Y., Va., S. C., Ala.

Netelia (Netelia) idioctenus Townes, 1939 (1938). *Lloydia* 1: 198. ♀.

inepta Townes. N. J., N. C., S. C., Ga.

Netelia (Netelia) inepta Townes, 1939 (1938). *Lloydia* 1: 215. ♂.

ingrata Townes. Ariz.

Netelia (Netelia) ingrata Townes, 1939 (1938). *Lloydia* 1: 216. ♂.

lativectis Townes. N. Mex.

Netelia (Netelia) lativectis Townes, 1939 (1938). *Lloydia* 1: 212. ♂.

leo arizonensis (Cushman). N. Mex., Ariz., s. Calif.; Mexico.

Paniscus arizonensis Cushman, 1924. U. S. Natl. Mus., Proc. 64 (20): 37. ♀.

leo leo (Cushman). Mass. s. to Ga., w. to Iowa, Tex.

Paniscus leo Cushman, 1924. U. S. Natl. Mus., Proc. 64 (20): 38. ♀.

ligata Townes. Ariz.

Netelia (Netelia) ligata Townes, 1939 (1938). *Lloydia* 1: 205. ♂.

lucens Townes. Colo.

Netelia (Netelia) lucens Townes, 1939 (1938). *Lloydia* 1: 205. ♂, ♀.

macra Townes. Md., Va., Ill., Ariz.; W. Indies, Peru, Argentina.

Netelia (Netelia) macra Townes, 1939 (1938). *Lloydia* 1: 196. ♂.

microdon Townes. Va., S. C., Fla., Ala., Miss., Tex.

Netelia (Netelia) microdon Townes, 1939 (1938). *Lloydia* 1: 211. ♂, ♀.

microtylus Townes. Ariz.

Netelia (Netelia) microtylus Townes, 1939 (1938). *Lloydia* 1: 210. ♂, ♀.

mustela Townes. Ariz.

Netelia (Netelia) mustela Townes, 1939 (1938). *Lloydia* 1: 194. ♂, ♀.

nigripectus (Ashmead). Tex.

Paniscus nigripectus Ashmead, 1890 (1889). U. S. Natl. Mus., Proc. 12: 425. ♀.

nitida Townes. N. Y.

Netelia (Netelia) nitida Townes, 1939 (1938). *Lloydia* 1: 215. ♂.

obrepta Townes. Pa., Mich.

Netelia (Netelia) obrepta Townes, 1939 (1938). *Lloydia* 1: 215. ♂.

ocellata (Viereck). D. C. s. to Ga., w. to Sask., Ariz.; Bermuda, Peru. Host: *Agrotis orthogonia* Morr.

Paniscus ocellatus Viereck, 1909. Ent. Soc. Wash., Proc. 11: 211. ♂, ♀.

Paniscus immaculatus Morley, 1913. Rev. Ichn. Brit. Mus., v. 2, p. 109. ♀.

Paniscus ocellatus var. *microocellatus* Cushman, 1924. U. S. Natl. Mus., Proc. 64 (20): 36. ♂, ♀.

orba Townes. D. C., S. C.

Netelia (Netelia) orba Townes, 1939 (1938). *Lloydia* 1: 193. ♂.

ovalis Townes. R. I. s. to D. C., w. to Wis., Kans.

Netelia (Netelia) ovalis Townes, 1939 (1938). *Lloydia* 1: 212. ♂.

pallens occidentalis Townes. Tex., N. Mex., Ariz., B. C., Nev.

Netelia (Netelia) pallens occidentalis Townes, 1939 (1938). *Lloydia* 1: 208. ♂, ♀.

pallens pallens (Cushman). Atlantic States from N. Y. s. to Ga.

Paniscus pallens Cushman, 1924. U. S. Natl. Mus., Proc. 64 (20): 39. ♂, ♀.

palpalis Townes. Maine, Mass., N. Y., N. C.

Netelia (Netelia) palpalis Townes, 1939 (1938). *Lloydia* 1: 203. ♂.

pardalis (Cushman). Wyo. s. to N. Mex. w. to B. C., Calif.

Paniscus pardalis Cushman, 1924. U. S. Natl. Mus., Proc. 64 (20): 31. ♂.

Paniscus neomexicanus Cushman, 1924. U. S. Natl. Mus., Proc. 64 (20): 33. ♀.

percurrens Townes. Colo.

- trituberculata (Cushman). Ariz., Calif.
Paniscus trituberculatus Cushman, 1924. U. S. Natl. Mus., Proc. 64 (20): 26. ♀.
- turbans Townes. Ariz., Colo.
Netelia (Netelia) turbans Townes, 1939 (1938). Lloydia 1: 209. ♂.
- umbone Townes. Calif.
Netelia (Netelia) umbone Townes, 1939 (1938). Lloydia 1: 207. ♂.
- unguicularis (Cushman). R. I. s. to N. C., w. to Ill., Ala. Ecology: This species occurs in moist bottomland forests.
Paniscus unguicularis Cushman, 1924. U. S. Natl. Mus., Proc. 64 (20): 33. ♂, ♀.

Genus NETELIA Subgenus BESSOBATES Townes

Netelia subg. *Bessobates* Townes, 1961. In Townes, Townes, and Gupta; Amer. Ent. Inst., Mem. 1: 93.

Type-species: *Parabatus deceptor* Morley. Orig. desig.

Because of careless bibliographic work, Bradley (1919) managed to find reason for applying the names *Parabates* Foerster and *Parabatus* Thomson to separate subgenera, the latter to what is now called *Bessobates*. It is evident that Bradley would not have wished to find reason for doing so if he had been aware of Enderlein's (1912) designation of *Parabatus nigricarpus* Thomson as the type-species of *Parabates*. Ironically, it is also quite obvious that if Viereck (1914) had been aware of the Enderlein designation for *parabates*, he would also have

designated *nigricarpus* as the type-species of *Parabatus*, which would have prevented subsequent authors from applying these names to separate subgenera of *Netelia*, as did Townes for more than 20 years (1939 to 1961). Apparently recognizing that it was no longer feasible to treat some of the Thomson emendations of Foerster names as having been newly proposed for separate taxa, Townes (1961) abandoned his earlier stance on the issue with the proposal of *Bessobates* as a "new name for *Parabatus* as defined by Townes, 1939." Not only does it seem incorrect for Townes to have characterized his proposal of *Bessobates* in those terms, it is paradoxical for him to have done so without a word calling attention to or explaining his designation of *Parabatus deceptor* Morley as type-species instead of *Ichneumon virgatus* Geoffroy. Townes (1969) attributes the name *Bessobates* to Townes, Townes, and Gupta, but the wording of the proposal (yet alone the 1939 description) is clearly in the unadulterated style of the senior author, and it seems inappropriate for him to place part of the blame for it upon the junior authors.

Taxonomy: Enderlein, 1912. Stettin. Ent. Ztg. 73: 106. — Viereck, 1914. U. S. Natl. Mus., Bul. 83: 110. — Bradley, 1919. Ann. and Mag. Nat. Hist. (9) 3: 319-324. — Townes, 1969. Amer. Ent. Inst., Mem. 11: 154.

deceptor (Morley). N. S. s. to Pa., w. to Alaska, Calif. Host: *Schizura concinna* (J. E. S.), *Polia legitimata* (Grt.).

Parabatus deceptor Morley, 1913. Rev. Ichn. Brit. Mus., v. 2, p. 129. ♂.

Parabates cristataoides Cushman, 1924. U. S. Natl. Mus., Proc. 64 (20): 46. ♂, ♀.

Parabates crassus Cushman, 1924. U. S. Natl. Mus., Proc. 64 (20): 47. ♀. Uncertain syn.

latungula (Thomson). Que. s. to Va., w. to Ont., Ill.; Eurasia.

Parabatus latungula Thomson, 1888. Opusc. Ent. 12: 1196. ♂, ♀.

longipalpus Townes. Que. s. to Ala., w. to Mich., Ill.

Parabatus smithi Cushman, 1924. U. S. Natl. Mus., Proc. 64 (20): 45. ♀. Preocc. in *Netelia* by Dalla Torre (1902).

Netelia (Parabatus) longipalpus Townes, 1939 (1938). Lloydia 1: 218. N. name for *smithi* Cushman.

rogersi Townes. N. Y., Pa., Md., Va., N. C.

Netelia (Parabatus) rogersi Townes, 1939 (1938). Lloydia 1: 219. ♂, ♀.

sinus Townes. Md., Va., Ill.; Guatemala.

Netelia (Parabatus) sinus Townes, 1939 (1938). Lloydia 1: 220. ♂.

uncata Townes. D. C., S. C.

Netelia (Parabatus) uncata Townes, 1939 (1938). Lloydia 1: 218. ♂, ♀.

UNPLACED TAXON OF NETELIA

appendiculata (Provancher). Que.

Paniscus appendiculatus Provancher, 1874. Nat. Canad. 6: 105. ♂. According to Barron (1975) the holotype is lost.

Taxonomy: Townes, 1939 (1938). Lloydia 1: 222. — Barron, 1975. Nat. Canad. 102: 427-428.

TRIBE OEDEMOPSINI

This is a small tribe with nine genera, seven of which are represented by species in the Nearctic Region. Most of the species are apparently parasitic upon larvae of Lepidoptera, but *Eclytus* spp. parasitize sawfly larvae.

The names *Thymarides* (Thomson, 1883) and *Eclytini* (Townes, 1945) are junior synonyms of *Oedemopsini* (Woldstedt, 1877).

Taxonomy: Townes and Townes, 1945. Bol. Ent. Venezolana 4: 41-53 (out of date generic revision with keys for Neotropic species).

Genus ECLYTUS Holmgren

Eclytus Holmgren, 1857 (1855). Svenska Vetensk.-Akad. Handl. (n. f.) 1: 127.

Type-species: *Eclytus ornatus* Holmgren. Desig. by Viereck, 1912.

Zapedias Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 206.

Type-species: *Mesoleptus exornatus* Gravenhorst. Included and desig. by Townes, Momoi, and Townes, 1965.

Anoplectes Kriechbaumer, 1896. Ent. Nachr. 23: 363.

Type-species: *Anoplectes multicolor* Kriechbaumer. Monotypic.

ornatus Holmgren. Newfoundland (Labrador) s. to N. C., w. to Alaska, Colo.; Europe.

Ecytus ornatus Holmgren, 1857 (1855). Svenska Vetensk.-Akad. Handl. (n. f.) 1: 127. ♂, ♀.

Ecytus perennis Davis, 1898 (1897). Amer. Ent. Soc., Trans. 24: 305. ♂, ♀.

Spanotecnus flavopictus Ashmead, 1902. Wash. Acad. Sci., Proc. 4: 204. ♂.

Genus HERCUS Townes

Hercus Townes, 1969. Amer. Ent. Inst., Mem. 11: 157.

Type-species: *Orthocentrus pleuralis* Provancher. Orig. desig. There are three Nearctic species, one of them undescribed.

fontinalis (Holmgren). Alaska; Europe.

Ecytus fontinalis Holmgren, 1857 (1855). Svenska Vetensk.-Akad. Handl. (n. f.) 1: 128. ♂, ♀.

Ecytus yakutatensis Ashmead, 1902. Wash. Acad. Sci., Proc. 4: 204. ♂.

Himertosoma schmiedeknechti Ashmead, 1902. Wash. Acad. Sci., Proc. 4: 194. ♂.

pleuralis (Provancher). N. S. s. to Va., w. to S. Dak. Host: *Argyrotaenia pinatubana* (Kft.), *A. velutinana* (Wlk.), *Platynota idaealis* (Wlk.) *Acrobasis kearfottella* Dyar.

Orthocentrus pleuralis Provancher, 1875. Nat. Canad. 7: 328. ♀. The syntypes were not located by Barron (1975).

Calliphururus? *taeniogaster* Viereck, 1912. U. S. Natl. Mus., Proc. 43: 585. ♂.

Taxonomy: Barron, 1975. Nat. Canad. 102: 533.

Genus NELIOPISTHUS Thomson

Neliopisthus Thomson, 1883. Opusc. Ent. 9: 907.

Type-species: *Phytodietus elegans* Ruthe. Monotypic.

Polysphinctomorpha Ashmead, 1900. U. S. Natl. Mus., Proc. 23: 59.

Type-species: *Polysphinctomorpha luggeri* Ashmead. Orig. desig.

Revision: Cushman, 1919. U. S. Natl. Mus., Proc. 56: 378-381. — Cushman, 1935. Wash. Acad. Sci., Jour. 25: 553-555.

densatus (Say). Maine s. to Md., w. to S. Dak., Ariz.

Anomalon densatus Say, 1836. Boston Jour. Nat. Hist. 1: 243. ♀.

Neliopisthus similis Cushman, 1919. U. S. Natl. Mus., Proc. 56: 379. ♀.

Taxonomy: Cushman and Gahan, 1921. Ent. Soc. Wash., Proc. 23: 155.

niger Cushman. Colo., Idaho, Ariz., Wash.

Neliopisthus niger Cushman, 1922. U. S. Natl. Mus., Proc. 60 (21): 12. ♀.

Neliopisthus longicauda Cushman, 1935. Wash. Acad. Sci., Jour. 25: 554. ♀.

piceae Cushman. Maine, Minn., Oreg. Host: *Coleotechnites piceella* (Kft.).

Neliopisthus piceae Cushman, 1935. Wash. Acad. Sci., Jour. 25: 555. ♂, ♀.

semirufus (Provancher). Que. s. to Va., w. to Minn. Host: *Psilocoris* sp.

Hemiteles semirufus Provancher, 1874. Nat. Canad. 6: 332. ♀.

Polysphincta erythropleura Ashmead, 1896; 1902. In Slosson, Ent. News 7: 264; 13: 321.

Nomen nudum.

Polysphinctomorpha luggeri Ashmead, 1900. U. S. Natl. Mus., Proc. 23: 59. ♀.

Neliopisthus nigridorsum Cushman, 1919. U. S. Natl. Mus., Proc. 56: 379. ♀.

Genus THYMARIS Foerster

Thymaris Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 151.

Type-species: *Thymaris pulchricornis* Brischke. By subsequent monotypy from inclusion by Brischke, 1880. The Brischke types have been destroyed, and the interpretation of *pulchricornis* is based upon Pfankuch's (1906) placement of it as a synonym of *Mesoleptus tener* Gravenhorst (1829). Pfankuch later (1925) placed

pulchricornis as a synonym of *Hemiteles contaminatus* Gravenhorst (1829), and Perkins (1962) treated *contaminatus* as a junior synonym of *tener* by virtue of page priority but did not state that he had examined the Gravenhorst types in question.

Thymarus Thomson, 1883. Opusc. Ent. 9: 908. Emend.

Townes (1969) says that there are two Nearctic species, one of them undescribed.

Taxonomy: Pfankuch, 1906. Ztschr. System. Hym. Dipt. 6: 82. —Pfankuch, 1925. Deut. Ent. Ztschr. 4: 260. —Perkins, 1962. Brit. Mus. (Nat. Hist.) Ent., Bul. 11: 458. —Townes, 1969. Amer. Ent. Inst., Mem. 11: 158-159.

negligere (Davis). N. J. s. to Ala., w. to Kans.

Eusterinx negligere Davis, 1897. Amer. Ent. Soc., Trans. 24: 246. ♀.

Callidiotes kansensis Brues, 1907. Wis. Nat. Hist. Soc., Bul. 5: 55. ♀.

Thymaris americanus Cushman, 1919. U. S. Natl. Mus., Proc. 56: 381. ♂, ♀.

Genus ZAGRYPHUS Cushman

Zagryphus Cushman, 1919. U. S. Natl. Mus., Proc. 56: 377.

Type-species: *Mesoleptus nasutus* Cresson. Monotypic and orig. desig.

The name *Campothreptus* Foerster has been erroneously applied to this genus by Townes (e.g. 1969) who has treated *Mesoleptus nasutus* Cresson as its type-species. Cushman (1919) correctly argued that it was *Tryphon nasutus* Cresson and not *Mesoleptus nasutus* that Davis (1897) placed in *Campothreptus*. Therefore, *Campothreptus* is a synonym of *Oedemopsis* (which see).

Taxonomy: Davis, 1897. Amer. Ent. Soc., Trans. 24: 247. —Cushman, 1919. U. S. Natl. Mus., Proc. 56: 376-378. —Townes, 1969. Amer. Ent. Inst., Mem. 11: 159.

nasutus (Cresson). Pa. s. to Fla., w. to Minn. and Kans.; Mexico, Guatemala.

Mesoleptus? *nasutus* Cresson, 1868. Amer. Ent. Soc., Trans. 2: 103. ♂, ♀. The variant spelling "nastutus" appears on p. 103, but it is anonymously rejected in the errata (p. 398 [1869]).

Synchnoleter americanus Ashmead, 1896. Amer. Ent. Soc., Trans. 23: 196. ♂.

Genus OEDEMOPSIS Tschech

Oedemopsis Tschech, 1868. Zool.-Bot. Gesell. Wien, Verh. 18: 276.

Type-species: *Oedemopsis rogenhoferi* Tschech. Monotypic. The type-species is considered to be a synonym of *O. scabricularis* (Gravenhorst).

Hybophanes Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 166.

Type-species: *Tryphon scabricularis* Gravenhorst. Desig. by Viereck, 1914 from three species included by Schmiedeknecht, 1888.

Campothreptus Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 201. N. syn.

Type-species: *Tryphon nasutus* Cresson. By subsequent monotypy from inclusion by Davis, 1897. Although Davis (1897) treated *Tryphon?* *nasutus* Cresson as a synonym of *Mesoleptus nasutus* Cresson, his description applies only to the former (see discussion under *Zagryphus*). Davis' error in suppressing *Tryphon nasutus* as synonym of *Mesoleptus nasutus* could only have been inadvertent —i.e. I do not see how it is possible that Davis' error could have been an error of judgement and hence do not believe that it is reasonable to argue that he misidentified *Tryphon nasutus* as *Mesoleptus nasutus*.

Zarhynchus Ashmead, 1900. U. S. Natl. Mus., Proc. 23: 59. Preocc. by Oberholser, 1899.

Type-species: *Tryphon nasutus* Cresson. Monotypic and orig. desig.

Rhynchothyreus Ashmead, 1900. Canad. Ent. 32: 368. N. name for *Zarhynchus* Ashmead. *Oedematopsis* Morley, 1908. Brit. Ichn. 3: 268. Emend. of *Oedemopsis*.

Details regarding my resurrection of the name *Oedemopsis* and its priority over *Hybophanes* will be given elsewhere.

davisi Carlson, n. name. Conn. s. to Va., w. to B. C., N. Mex.

Tryphon? *nasutus* Cresson, 1868. Amer. Ent. Soc., Trans. 2: 107. ♀. Preocc. by Gravenhorst, 1829.

Genus ATOPOTROPHOS Cushman

Atopognathus Cushman, 1919. Ent. Soc. Wash., Proc. 21: 116. Preocc. by Bigot, 1881.

Type-species: *Atopognathus collaris* Cushman. Monotypic and orig. desig.

Atopotrophos Cushman, 1940. U. S. Natl. Mus., Proc. 88: 365. N. name for *Atopognathus* Cushman.

There are two Nearctic species, one undescribed.

bucephalus (Cresson). Md., D. C., Va., N. C., Ala.; Mexico.

Mesoleptus? *bucephalus* Cresson, 1868. Amer. Ent. Soc., Trans. 2: 36. ♂.

Atopognathus collaris Cushman, 1919. Ent. Soc. Wash., Proc. 21: 117. ♂, ♀.

TRIBE TRYPHONINI

Nearly all members of this tribe are parasites of sawflies; *Grypocentrus basalis* Ruthe, a European species, has been reared from an eriocraiid microlepidopteran. Most of the genera are Holarctic.

Revision: Townes and Townes, 1949-1950 (1949). Ent. Soc. Amer., Ann. 42 (3 and 4): 321-396, 397-447 (*Grypocentrus* and *Boethus* excluded). —Kasparyan, 1973. Akad. Nauk, SSSR, Zool. Inst., Fauna SSSR, (n. s.) 106, Hym. v. 3, pt. 1, 320 pp.

Genus GRYPOCENTRUS Ruthe

Grypocentrus Ruthe, 1855. Stettin. Ent. Ztg. 16: 52.

Type-species: *Grypocentrus incisulus* Ruthe. Desig. by Vierick, 1912.

Apimeles Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 205.

Type-species: *Apimeles lusorius* Davis. By subsequent monotypy from inclusion by Davis, 1898 (1897).

Cyrtocentrus Provancher, 1883. Nat. Canad. 14: 6.

Type-species: *Cyrtocentrus quebecensis* Provancher. Monotypic.

Some members of this genus are known to parasitize larvae of *Fenusia* spp., but one European species, *G. basalis* Ruthe, has been reared from an eriocraiid microlepidopteran.

Revision: Townes and Townes, 1951. Ent. Soc. Wash., Proc. 53: 301-307.

albipes Ruthe. Europe. Introduced in insular Newfoundland in 1973, but no recoveries have been reported. Host: *Fenusia pusilla* (Lep.). The host listed was the target species for the release in Newfoundland.

Grypocentrus albipes Ruthe, 1855. Stettin. Ent. Ztg. 16: 56. ♂, ♀.

barbatus Townes. Alta., Calif.

Grypocentrus barbatus Townes, 1951. In Townes and Townes, Ent. Soc. Wash., Proc. 53: 304. ♂, ♀.

crassidens Townes. Idaho, Colo.

Grypocentrus crassidens Townes, 1951. In Townes and Townes, Ent. Soc. Wash., Proc. 53: 304. ♂, ♀.

flavipes (Provancher). Que. s. to N. C., w. to Wash., Calif.

Ctenochira melina Townes, 1949. In Townes and Townes, Ent. Soc. Amer., Ann. 42: 358. N. name for *annulicornis* Provancher.
- niveicola** (Ashmead), revised status. Que. w. to s.e. Alaska, s. to D. C., w. N. C., s. Alta., and n. Calif. In their tribal revision, Townes and Townes (1949) treated *niveicola* as a subspecies of *dilitata* (Provancher) (which see). However, Dr. H. K. Townes said (personal commun., 1976) that Townes and Townes (1949) based their treatment on the "lectotype" selected by Gahan and Rohwer (1918). Barron (1975) rejected the Gahan and Rohwer "lectotype" in favor of the specimen which he regarded as the holotype. According to Barron, the latter specimen does not agree with *dilitata dilitata* (Provancher) sensu Townes and Townes (1949). Therefore, *niveicola* is here raised to species status; its distribution is a composite of the distributions of the two subspecies of *dilitata* sensu Townes and Townes (1949).

Scoprius monticola Brues, 1907. Wis. Nat. Hist. Soc., Bul. 5: 56. ♀.

rubicunda Townes. N. B.

Ctenochira rubicunda Townes, 1949. In Townes and Townes, Ent. Soc. Amer., Ann. 42: 369. ♀.

rufa (Ashmead). N. H. s. to Pa., w. to Colo., Alaska, Wash.

Trophoctonus insularis Ashmead, 1902. Wash. Acad. Sci., Proc. 4: 215. ♂.

Gemophaga rufa Ashmead, 1902. Wash. Acad. Sci., Proc. 4: 223. ♂.

subcrassa (Cresson). Mass., N. Y., N. J., Alta., B. C., Oreg.

Tryphon subcrassus Cresson, 1868. Amer. Ent. Soc., Trans. 2: 109. ♂, ♀.

tetrica Townes. Colo.

Ctenochira tetrica Townes, 1949. In Townes and Townes, Ent. Soc. Amer., Ann. 42: 355. ♀.

Genus ERROMENUS Holmgren

Erromenus Holmgren, 1857 (1855). Svenska Vetensk.-Akad. Handl. (n. f.) 1: 221.

Type-species: *Tryphon brunnicans* Gravenhorst. Desig. by Viereck, 1912.

Aniarophron Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 162.

Type-species: *Aniarophron niger* Szepligeti. Desig. by Perkins, 1962 from three species included by Szepligeti, 1901.

Trichocalymma Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 196.

Type-species: *Trichocalymma bipunctatum* Woldstedt. Desig. by Viereck, 1914 from three species included by Woldstedt, 1877.

Trichocalymmus Thomson, 1883. Opusc. Ent. 9: 903. Emend.

Currania Viereck, 1924. Canad. Ent. 56: 300.

Type-species: *Currania mirabilis* Viereck. Monotypic and orig. desig.

analis Brischke. Que., N. Y., Ont., S. Dak., Colo., Alaska, B. C., Wash.; Europe.

Erromenus analis Brischke, 1871. Phys.-Oekon. Gesell. Koenigsberg, Schr. 11: 95. ♂.

Currania mirabilis Viereck, 1924. Canad. Ent. 56: 301. ♀.

brevipes Townes. Wash.

Erromenus (*Erromenus*) *brevipes* Townes, 1949. In Townes and Townes, Ent. Soc. Amer., Ann. 42: 377. ♂, ♀.

caelator Townes. N. Y., Ont.

Erromenus (*Erromenus*) *caelator* Townes, 1949. In Townes and Townes, Ent. Soc. Amer., Ann. 42: 388. ♀.

defrictus Townes. Md.

Erromenus (*Erromenus*) *defrictus* Townes, 1949. In Townes and Townes, Ent. Soc. Amer., Ann. 42: 383. ♀.

- dimidiatus** (Cresson). N. S. w. to Alaska, s. to N. J., Kans., Calif. Ecology: Occurs in grassy areas. This is the most commonly collected Nearctic species of *Erromenus*.
Tryphon dimidiatus Cresson, 1868. Amer. Ent. Soc., Trans. 2: 108. ♂.
Tryphon atricoxus Walsh, 1873. Acad. Sci. St. Louis, Trans. 3: 104. ♀?
Scopiorus hiatus Davis, 1897. Amer. Ent. Soc., Trans. 24: 258. ♂, ♀.
- dolichops** Townes. Que. s. to Md., w. to Alaska, Ariz.
Erromenus (Erromenus) dolichops Townes, 1949. In Townes and Townes, Ent. Soc. Amer., Ann. 42: 391. ♀, ♂.
- glabrosus** Davis. Man., Wyo., Colo., Oreg., Calif.
Erromenus glabrosus Davis, 1897. Amer. Ent. Soc., Trans. 24: 260. ♂.
- labratus** Townes. Calif.
Erromenus (Erromenus) labratus Townes, 1949. In Townes and Townes, Ent. Soc. Amer., Ann. 42: 390. ♀.
- levis** Townes. N. Y.
Erromenus (Erromenus) levis Townes, 1949. In Townes and Townes, Ent. Soc. Amer., Ann. 42: 378. ♂, ♀.
- marginatus** Provancher. Que. s. to Pa., w. to B. C. and Wash. Host: *Pristiphora bivittata* (Nort.).
Erromenus (!) marginatus Provancher, 1883. Nat. Canad. 14: 10. ♀.
- nasalis** Townes. Que., N. H., R. I., N. Y., Ohio, Colo., Wash.
Erromenus (Erromenus) nasalis Townes, 1949. In Townes and Townes, Ent. Soc. Amer., Ann. 42: 389. ♂, ♀.
- planus** Townes. N. Y., Sask., Alta., Calif.
Erromenus (Erromenus) planus Townes, 1949. In Townes and Townes, Ent. Soc. Amer., Ann. 42: 387. ♂, ♀.
- proteus** Townes. Minn., Sask., Alta., Wash., Calif.
Erromenus (Erromenus) proteus Townes, 1949. In Townes and Townes, Ent. Soc. Amer., Ann. 42: 384. ♂, ♀.
- punctulatus** Holmgren. Que. s. to N. Y., w. to N. Mex., Alaska, and Oreg.; Eurasia.
Erromenus punctulatus Holmgren, 1857 (1855). Svenska Vetensk.-Akad. Handl. (n. f.) 1: 222. ♂.
Tryphon crassus Cresson, 1868. Amer. Ent. Soc., Trans. 2: 107. ♂, ♀.
Tryphon tejonicus Cresson, 1879 (1878). Acad. Nat. Sci. Phila., Proc. 30: 372. ♂.
Polyblastus leviculus Davis, 1897. Amer. Ent. Soc., Trans. 24: 263. ♂.
Aniarophron niger Szepilgeti, 1901. In Mocsary and Szepilgeti, Zool. Erg. drit. asiat. Forschungsreise Grafen E. Zichy, v. 2 (Hym.), p. 141. “♂” = ♀.
- scorteus** Townes. Colo., Wash.
Erromenus (Erromenus) scorteus Townes, 1949. In Townes and Townes, Ent. Soc. Amer., Ann. 42: 379. ♂, ♀.
- tonto** Townes. Ariz.
Erromenus (Erromenus) tonto Townes, 1949. In Townes and Townes, Ent. Soc. Amer., Ann. 42: 390. ♂, ♀.
- ungulatus** Townes. N. Y., N. C., Ont., Wash.
Erromenus (Erromenus) unguilatus Townes, 1949. In Townes and Townes, Ent. Soc. Amer., Ann. 42: 386. ♂, ♀.
- variolae** Townes. N. Y., N. J., Va., Kans.
Erromenus (Erromenus) variolae Townes, 1949. In Townes and Townes, Ent. Soc. Amer., Ann. 42: 393. ♂, ♀.

Genus ADERAEON Townes

Erromenus subg. *Aderaeon* Townes, 1949. In Townes and Townes, Ent. Soc. Amer., Ann. 42: 394.

Type-species: *Erromenus bedardi* Provancher. Monotypic and orig. desig.

Taxonomy: Kasparyan, 1971. Zool. Zhur. 50: 1586-1589 (Russ., Eng. summ.).

bedardi (Provancher). N. S., N. B., Que., Ont., B. C. Host: *Pikonema alaskensis* (Roh.), *P. dimmockii* (Cr.).
Erronemus(!) Bedardi Provancher, 1879. Nat. Canad. 11: 266. ♀.

Genus MONOBLASTUS Hartig

Monoblastus Hartig, 1837. Arch. f. Naturgesch. 3: 155.

Type-species: *Monoblastus caudatus* Hartig. Desig. by Viereck, 1914.

Otoblastus Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 201.

Type-species: *Tryphon luteomarginatus* Gravenhorst. By subsequent monotypy from inclusion by Thomson, 1883.

Cocloconus Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 203.

Type-species: *Ichneumon brachycanthus* Gmelin. By subsequent monotypy from inclusion by Morley, 1911.

Catocentrus Walsh, 1873. Acad. Sci. St. Louis, Trans. 3: 89.

Type-species: *Tryphon philanthoides* Cresson. Monotypic.

Cerda Cameron, 1904. Amer. Ent. Soc., Trans. 30: 255.

Type-species: *Cerda fuscipennis* Cameron. Monotypic.

Iodothrichus Schmiedeknecht, 1907. Hym. Mitteleuropas, p. 619.

Type-species: *Phaeustus sericeus* Brischke. Monotypic.

Pseudopsilage Gregor, 1929. Tsechech. Realgym. Neu Titschein in Maehren, Jahresber. 1928-1929: 6.

Type-species: *Pseudopsilage romani* Gregor. Monotypic.

atroferia Townes. N. Y., Pa., N. C., Mich.

Monoblastus atroferia Townes, 1950 (1949). In Townes and Townes, Ent. Soc. Amer., Ann. 42: 413. ♂, ♀.

davisi (Townes). N. Y., Ont., Mich., Ill., Iowa.

Tryphon nigrum Davis, 1898 (1897). Amer. Ent. Soc., Trans. 24: 281. ♂. Preocc. by Gravenhorst, 1829.

Tryphon davisi Townes, 1944. Amer. Ent. Soc., Mem. 11: 155. N. name for *nigrum* Davis.

dionnei (Provancher). N. S. s. to Pa., w. to Minn.

Tryphon Dionnei Provancher, 1879. Nat. Canad. 11: 256. ♀.

eurus Townes. Md.

Monoblastus eurus Townes, 1950 (1949). In Townes and Townes, Ent. Soc. Amer., Ann. 42: 410. ♂.

favonius Townes. Calif.

Monoblastus favonius Townes, 1950 (1949). In Townes and Townes, Ent. Soc. Amer., Ann. 42: 409. ♂, ♀.

feria feria (Davis). Que. s. to Fla., w. to Man. and Colo.

Otlophorus innumerabilis var. *feria* Davis, 1897. Amer. Ent. Soc., Trans. 24: 276. ♂, ♀.

E pachtes(!) basilicus Davis, 1898 (1897). Amer. Ent. Soc., Trans. 24: 283. ♂, ♀.

feria rossi Townes. Colo., B. C., Oreg., Calif.

Monoblastus feria rossi Townes, 1950 (1949). In Townes and Townes, Ent. Soc. Amer., Ann. 42: 412. ♂, ♀.

fuscipennis (Cameron). Tex.; Mexico.

Cerda fuscipennis Cameron, 1904. Amer. Ent. Soc., Trans. 30: 255. ♂.

Monoblastus phaeopteris Townes, 1950 (1949). In Townes and Townes, Ent. Soc. Amer., Ann. 42: 415. ♂.

Taxonomy: Townes and Townes, 1966. Amer. Ent. Inst., Mem. 8: 46 (syn.).

innumerabilis (Davis). Nev., Wash., Oreg., Calif.

Otlophorus innumerabilis Davis, 1897. Amer. Ent. Soc., Trans. 24: 278. ♂, ♀.

kaniacensis (Hall). Minn., Man., Mont., Wyo., Colo., Idaho, Utah, Ariz., Wash., Oreg. Ecology:

On two separate occasions this species has been collected on *Symporicarpos* bushes; in one instance the bushes were infested with sawfly larvae thought to be of the genus *Blennocampa*. Because *Blennocampa* is not known in N. Amer., it may have been a related genus in *Blennocampinae*.

Polyblastus kaniacensis Hall, 1919. Psyche 26: 156. ♀.

macer Townes. N. Y., N. J., Pa., Md., Va., Ohio.

Monoblastus macer Townes, 1950 (1949). In Townes and Townes, Ent. Soc. Amer., Ann. 42: 405. ♂, ♀.

montezuma (Cameron). Que. s. to N. C., w. to B. C. and Calif.; Mexico.

Tryphon montezuma Cameron, 1886. Biol. Cent.-Amer., Hym., v. 1, p. 286. ♂.
Otlophorus affinis Ashmead, 1901. Psyche 9: 148. ♂.

philanthoides (Cresson). N. H., N. Y., Ill.

Tryphon philanthoides Cresson, 1868. Amer. Ent. Soc., Trans. 2: 110. ♀.

proximus Townes. Idaho, Wash., Oreg., Calif.

Monoblastus proximus Townes, 1950 (1949). In Townes and Townes, Ent. Soc. Amer., Ann. 42: 403. ♂, ♀.

Genus THIBETOIDES Davis

Thibetoides Davis, 1897. Amer. Ent. Soc., Trans. 24: 205.

Type-species: *Thibetoides flosamoris* Davis. Monotypic.

Revision: Viktorov, 1964. Ent. Obozr. 43: 182-184; 91-92 in Ent. Rev. (Palearctic spp.).

flosamoris Davis. Wash., Oreg., Calif.

Thibetoides flosamoris Davis, 1897. Amer. Ent. Soc., Trans. 24: 205. ♂.

Genus LAGOLEPTUS Townes

Lagoleptus Townes, 1969. Amer. Ent. Inst., Mem. 11: 173.

Type-species: *Lagoleptus palans* Townes. Orig. desig.

palans Townes. N. Y., Pa., N. C., S. C.

Lagoleptus palans Townes, 1969. Amer. Ent. Inst., Mem. 11: 174.

Genus BOETHUS Foerster

Boethus Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 210.

Type-species: *Boethus howardi* Davis. Desig. by Viereck, 1914 from three species included by Davis, 1898 (1897).

Diplomorphus Giraud, 1872. Soc. Ent. de France, Ann. 1: 409.

Type-species: *Diplomorphus thoracicus* Giraud. Monotypic.

Aethalodes Kriechbaumer, 1890. Schweiz. Ent. Gesell., Mitt. 8: 207. Preocc. by Gahan, 1888.

Type-species: *Aethalodes mesomelas* Kriechbaumer. Desig. by Viereck, 1914.

Members of this genus parasitize the larvae of Argidae.

alaingens Davis. Calif.

Boethus alaingens Davis, 1898 (1897). Amer. Ent. Soc., Trans. 24: 291. ♀.

glabranotus Davis. Mont.

Boethus glabranotus Davis, 1898 (1897). Amer. Ent. Soc., Trans. 24: 291. ♀.

nigripennis Cushman. N. Y., Ky., Ala. Host: *Arge pectoralis* (Leach).

Boethus nigripennis Cushman, 1922. U. S. Natl. Mus., Proc. 60 (21): 12. ♂, ♀.

schizoceri (Riley and Howard). N. J. s. to Fla., w. to Minn. and La. Host: *Sphacophilus cellularis* (Say).

Eubadizon schizoceri Riley and Howard, 1888. U. S. Dept. Agr., Insect Life 1: 44. ♀ ?
Eubadizon schizoceratis Riley and Howard, 1889. U. S. Dept. Agr., Insect Life 1: XXXI (errata). Emend.

Boethus howardi Davis, 1898 (1897). Amer. Ent. Soc., Trans. 24: 290. ♂, ♀.

Boethus aenigmatus Viereck, 1905. Kans. Acad. Sci., Trans. 19: 314. ♂.

Boethus daeckei Viereck, 1909. Ent. Soc. Wash., Proc. 11: 210. ♂.

Genus DYSPETES Foerster

Dyspetes Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 201.

Type-species: *Tryphon praerogator* Gravenhorst. By subsequent monotypy from inclusion by Thomson, 1883. *Tryphon praerogator* Gravenhorst is a

misidentification of *Ichneumon praerogator* Linnaeus, the available names for which are *Dyspetes arrogator* Heinrich (1949) and *Dyspetes fracticeps* Townes (1950 [1949]).

Dyspetes Thomson, 1883. Opusc. Ent. 9: 899. Emend.

Taxonomy: Townes and Townes, 1950 (1949). Ent. Soc. Amer., Ann. 42: 422. — Perkins, 1962. Brit. Mus. (Nat. Hist.) Ent., Bul. 11 (8): 419. — Townes, Momoi, and Townes, 1965. Amer. Ent. Inst., Mem. 5: 105.

rufus (Provancher). Que.

Exetastes rufus Provancher, 1874. Nat. Canad. 6: 78. ♂, ♀.

Genus COSMOCONUS Foerster

Cosmoconus Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 203.

Type-species: *Ichneumon elongator* Fabricius. By subsequent monotypy from inclusion by Woldstedt, 1877.

Revision: Kasparyan, 1971. Vses. Ent. Obsh., Trudy 54: 286-307 (Palearctic spp.).

arcticus (Brues). Alaska, Wash., Oreg., Calif.

Polyblastus arcticus Brues, 1919. Rpt. Canad. Arctic Exped. 1913-18, v. 3G, p. 22. ♀.

canadensis (Provancher). N. S. s. to N. C., w. to Sask. and Colo.

Tryphon Canadensis Provancher, 1875. Nat. Canad. 7: 117. ♂, ♀.

vallis Townes, n. status. Que., Md., Ill., Iowa, Tex.

Cosmoconus canadensis vallis Townes, 1950 (1949). In Townes and Townes, Ent. Soc. Amer., Ann. 42: 425. ♂, ♀.

Genus TRYPHON Fallen

There are five subgenera, three being strictly Palearctic (including *Tryphon*), one being Holarctic (*Symboethus*), and one being strictly Nearctic (*Noemon*). Species of this genus are chiefly parasitic upon sawflies of the subfamily Dolerinae.

Revision: Kasparyan, 1969. Ent. Obozr. 48: 639-662 and 899-918; 407-419 and 572-584 in Ent. Rev. (Palearctic spp.).

Genus TRYPHON Subgenus NOEMON Foerster

Noemon Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 207.

Type-species: *Noemon palmaris* Davis. Desig. by Viereck, 1914 from three species included by Davis, 1898 (1897).

californicus Cresson. Calif.

Tryphon californicus Cresson, 1879 (1878). Acad. Nat. Sci. Phila., Proc. 30: 373. ♂, ♀.

coquilletti Townes. Calif.

Tryphon (Noemon) coquilletti Townes, 1950 (1949). In Townes and Townes, Ent. Soc. Amer., Ann. 42: 432. ♂, ♀.

hamatus Townes. Calif.

Tryphon (Noemon) hamatus Townes, 1950 (1949). In Townes and Townes, Ent. Soc. Amer., Ann. 42: 432. ♂, ♀.

lusorius Cresson. Calif.

Tryphon lusorius Cresson, 1879 (1878). Acad. Nat. Sci. Phila., Proc. 30: 373. ♂.

machaerus Townes. Calif.

Tryphon (Noemon) machaerus Townes, 1950 (1949). In Townes and Townes, Ent. Soc. Amer., Ann. 42: 431. ♂, ♀.

palmaris (Davis). Southern Calif.

Noemon palmaris Davis, 1898 (1897). Amer. Ent. Soc., Trans. 24: 287. ♂, ♀.

Genus TRYPHON Subgenus TRYPHON Fallen

Tryphon Fallen, 1813. Spec. Nov. Hym. Disp. Meth., p. 16.

Type-species: *Ichneumon rutilator* Linnaeus. Desig. by Curtis, 1832.

Psilosage Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 203.

Type-species: *Tryphon ephippium* Holmgren. By subsequent monotypy from inclusion by Morley, 1911.

Ottochilus Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 203.

Type-species: *Tryphon trochanteratus* Holmgren. By subsequent monotypy from inclusion by Woldstedt, 1877 (1876).

This subgenus is Palearctic.

Genus TRYPHON Subgenus SYMBOETHUS Foerster

Symboethus Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 204.

Type-species: *Tryphon exclamatorius* Gravenhorst. Desig. by Viereck, 1914 from two species included by Morley, 1911.

Quadrigana Davis, 1897. Amer. Ent. Soc., Trans. 24: 280.

Type-species: *Tryphon americanus* Cresson. By subsequent monotypy from inclusion by Davis, 1898 (1897), p. 281.

alaskensis Ashmead. Sask., Alta., Alaska, Wash.

Polyblastus glacialis Ashmead, 1902. Wash. Acad. Sci., Proc. 4: 213. ♀.

Tryphon alaskensis Ashmead, 1902. Wash. Acad. Sci., Proc. 4: 215. ♀.

americanus Cresson. Que. s. to Pa., w. to Minn. and Kans.

Tryphon americanus Cresson, 1864. Ent. Soc. Phila., Proc. 3: 276. ♂.

Tryphon affinis Cresson, 1864. Ent. Soc. Phila., Proc. 3: 277. ♀.

communis Cresson. N. S. s. to Pa., w. to Alaska, Alta., and N. Mex. Two or more species may be confused under this name.

Tryphon communis Cresson, 1868. Amer. Ent. Soc., Trans. 2: 103. ♂, ♀.

Tryphon clypeatus Provancher, 1875. Nat. Canad. 7: 309, 311. ♂. The alternate spelling "clypearis" appeared on p. 309.

Tryphon pediculatus Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 102. ♂.

Tryphon communis var. *atripes* Davis, 1898 (1897). Amer. Ent. Soc., Trans. 24: 282. ♂, ♀. *Grypocentrus rufiterminalis* Hall, 1919. Psyche 26: 157. ♀.

foraminatus Townes, N. status. S. D. s. to Colo., w. to B. C. and Calif. The egg of this species is more elongate than that of *communis*.

Tryphon (Symboethus) communis foraminatus Townes, 1950 (1949). In Townes and Townes, Ent. Soc. Amer., Ann. 42: 442. ♂, ♀.

illotus Townes. Wash.

Tryphon (Symboethus) illotus Townes, 1950 (1949). In Townes and Townes, Ent. Soc. Amer., Ann. 42: 443. ♂.

mystax Townes. N. B. w. to Alaska, s. to N. H., Colo., and Wash.

Tryphon (Symboethus) mystax Townes, 1950 (1949). In Townes and Townes, Ent. Soc. Amer., Ann. 42: 437. ♂, ♀.

rempeli Townes. Sask., Wash., Oreg.

Tryphon (Symboethus) rempeli Townes, 1950 (1949). In Townes and Townes, Ent. Soc. Amer., Ann. 42: 435. ♂, ♀.

seminiger Cresson. N. S. w. to Alaska, s. to Md., Ill., N. Mex., and Calif.

Tryphon seminiger Cresson, 1864. Ent. Soc. Phila., Proc. 3: 278. ♀.

Metopius terminalis Ashmead, 1890 (1889). U. S. Natl. Mus., Proc. 12: 438. ♂.

townesi Walkley. Que., Maine, N. H., Vt., Mich., Colo.

Tryphon (Symboethus) humeralis Townes, 1950 (1949). In Townes and Townes, Ent. Soc. Amer., Ann. 42: 438. ♂, ♀. Preocc. by Gravenhorst, 1829.

Tryphon (Symboethus) townesi Walkley, 1958. In Krombein, et al., U. S. Dept. Agr., Agr. Monog. 2, Sup. 1, p. 41. N. name for *humeralis* Townes.

viator Townes. Que. w. to Alta., s. to Pa., Mo., and Colo.

Tryphon (Symboethus) viator Townes, 1950 (1949). In Townes and Townes, Ent. Soc. Amer., Ann. 42: 443. ♂, ♀.

TRIBE EXENTERINI

The name Cteniscini Woldstedt (1877) is often used for this tribe, but Exenterini Foerster (1868) seems to be favored as much by recent authors; because the latter name has the additional advantage of being oldest, it is used here.

Revision: Davis, 1897. Amer. Ent. Soc., Trans. 24: 227-240. — Kerrich, 1952. Brit. Mus. (Nat. Hist.) Ent., Bul. 2: 307-459. (Old World spp.).

Genus ORTHOMISCUS Mason

Orthomiscus Mason, 1955. Canad. Jour. Zool. 33: 63.

Type-species: *Orthomiscus platyura* Mason. Orig. desig.

Taxonomy: Mason, 1962. Canad. Ent. 94: 1273-1274.

leptura Mason. Que., N. H., Vt., Ont., Calif.

Orthomiscus leptura Mason, 1955. Canad. Jour. Zool. 33: 64. ♂, ♀.

platyura Mason. Que. w. to Mich., s. to Md. and Alta.

Orthomiscus platyura Mason, 1955. Canad. Jour. Zool. 33: 66. ♂, ♀.

Genus EXCAVARUS Davis

Excavarus Davis, 1897. Amer. Ent. Soc., Trans. 24: 233.

Type-species: *Cteniscus annulipes* Cresson. Desig. by Viereck, 1914.

Taxonomy: Mason, 1962. Canad. Ent. 94: 1293-1296.

annulipes (Cresson). N. B. w. to Minn., s. to S. C. and Ill. Host: *Cruesus latitarsus* Nort.

Cteniscus annulipes Cresson, 1868. Amer. Ent. Soc., Trans. 2: 112. "♂" = ♀.

etrocaulus **etrocaulus** Mason. Alta., Colo., B. C., Oreg.

Smicroplectrus etrocaulus etrocaulus Mason, 1956. Canad. Jour. Zool. 34: 149. ♂, ♀.

Smicroplectrus etrocaulus eurus Mason, 1956. Canad. Jour. Zool. 34: 150. ♀.

velox (Walley). Que., Maine, Ont., Sask., N. Mex., Alta., B. C. Host: *Pikonema alaskensis* (Roh.), *P. dimmockii* (Cr.).

Smicroplectrus velox Walley, 1937. Canad. Ent. 69: 132. ♀.

Genus EXYSTON Schiodte

Exyston Schiodte, 1839. Mag. Zool., sect. 3, (ser. 2) 1 (pl. 6-9): 12.

Type-species: *Ichneumon cinctulus* Gravenhorst. Monotypic.

Tricamptus Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 194.

Type-species: *Exenterus pratorum* Woldstedt. By subsequent monotypy from inclusion by Woldstedt, 1877.

Diaborus Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 195.

Type-species: *Cteniscus (Diaborus) sedulus* Woldstedt. Desig. by Viereck, 1912 from two species included by Woldstedt, 1877. The type-species is regarded as a synonym of *Exyston pratorum* (Woldstedt).

Anechphysis Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 195.

Type-species: *Anechphysis curvilinea* Davis. By subsequent monotypy from inclusion by Davis, 1897.

Parexyston Kerrich, 1952. Brit. Mus. (Nat. Hist.) Ent., Bul. 2: 392.

Type-species: *Exyston calcaratus* Thomson. Monotypic and orig. desig.

According to Mason (1959) most of the species are found in grassy places. He presumed that they are mainly parasitic upon "sod-feeding" Dolerinae, but the only North American species so far reared (*maculosum* [Provancher]) parasitizes *Pristiphora* spp. (Nematinae) on *Salix* and *Vaccinium*.

Revision: Mason, 1959. Canad. Jour. Zool. 37: 1067-1115.

atrum Mason. B. C., Wash., Oreg.

Exyston (Anechphysis) ater Mason, 1959. Canad. Jour. Zool. 37: 1095. ♂, ♀.

austelli Mason. Mass. s. to N. C.

Exyston (Anecphysis) austelli Mason, 1959. Canad. Jour. Zool. 37: 1078. ♂, ♀.

boreotis Davis. N. Y., Mich., Sask., Wyo., Colo., N. Mex., Alta.

Exyston boreotis Davis, 1897. Amer. Ent. Soc., Trans. 24: 238. ♂.

Exyston nigroscutum Davis, 1897. Amer. Ent. Soc., Trans. 24: 237. ♂.

Exyston contracta Davis, 1897. Amer. Ent. Soc., Trans. 24: 238. ♂. Uncertain syn.; Mason (1959) suggested that *contracta* might alternatively prove to be a senior synonym of *spinulosum* Mason.

Taxonomy: Mason, 1959. Canad. Jour. Zool. 37: 1082-1084, 1112-1113. — Townes, 1969. Amer. Ent. Inst. Mem. 11: 186.

californicum Mason. Alta. s. to Colo., w. to Alaska and Calif.

Exyston (Anecphysis) californicus Mason, 1959. Canad. Jour. Zool. 37: 1093. ♂, ♀.

chamaeleon Mason. Ont., N. W. T. w. to Yukon, s. to S. Dak., N. Mex. and Calif.

Exyston (Exyston) chamaeleon Mason, 1959. Canad. Jour. Zool. 37: 1099. ♂, ♀.

clavatum (Cresson). N. S. w. to B. C., s. to Va., Ill., Kans., and Calif.

Cteniscus clavatus Cresson, 1864. Ent. Soc. Phila., Proc. 3: 284. ♂.

Cteniscus abdominalis Cresson, 1865. Ent. Soc. Phila., Proc. 4: 264. ♂.

Exyston abdominalis Ashmead, 1896. Amer. Ent. Soc., Trans. 23: 197. ♂. Preocc. by above synonym, *abdominalis* Cresson, 1865.

Rhimphalea erythrogaster Viereck, 1917 (1916). Conn. State Geol. and Nat. Hist. Survey Bul. 22: 296. ♀.

excelsum (Cresson). Wyo., Colo.

Cteniscus excelsus Cresson, 1865. Ent. Soc. Phila., Proc. 4: 262. ♀.

flavens Davis. Mass., N. J., Ga., Tex.

Exyston flavens Davis, 1897. Amer. Ent. Soc., Trans. 24: 237. ♀.

hadrum Mason. Mich., Minn., Sask., Colo., Alta.

Exyston (Anecphysis) hadros Mason, 1959. Canad. Jour. Zool. 37: 1080. ♂, ♀.

humerale Davis. Newfoundland (insular) w. to Sask., s. to Minn., Kans., and Mont.

Exyston humeralis Davis, 1897. Amer. Ent. Soc., Trans. 24: 239. ♂.

Exyston articulatus Davis, 1897. Amer. Ent. Soc., Trans. 24: 239. ♂.

illinoia Mason. Que., Ont., Mich., Ill., Iowa.

Exyston (Exyston) illinoia Mason, 1959. Canad. Jour. Zool. 37: 1103. ♂, ♀.

lophotum Mason. N. W. T., Sask., Alta., B. C., Wash., Calif.

Exyston (Anecphysis) lophotos Mason, 1959. Canad. Jour. Zool. 37: 1091. ♂, ♀.

maculosum (Provancher). N. S. w. to B. C., s. to N. C., Ill., Ariz., and Calif. Host: *Pristiphora bivittata* (Nort.), *P. cincta* Newman, *P. sycophanta* Walsh.

Mesoleptus maculosus Provancher, 1875. Nat. Canad. 7: 114. "♀" = ♂.

Exyston (Anecphysis) tectus Mason, 1959. Canad. Jour. Zool. 37: 1073. ♂, ♀.

Taxonomy: Barron, 1975. Nat. Canad. 102: 502 (syn.).

marginatum (Provancher). Northern Que. w. to Alaska, s. to N. C., Mich., Colo., and Calif.

Exyston marginatum Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 99. ♀.

Anecphysis curvilinea Davis, 1897. Amer. Ent. Soc., Trans. 24: 234. ♀.

Exyston nigreto Davis, 1897. Amer. Ent. Soc., Trans. 24: 236. ♂.

politum Davis. Mont., Wyo., Calif.

Exyston politus Davis, 1897. Amer. Ent. Soc., Trans. 24: 240. ♀.

reniforme Mason. Colo., Alta., B. C., Oreg., Calif.

Exyston (Anecphysis) reniformis Mason, 1959. Canad. Jour. Zool. 37: 1089. ♂, ♀.

speciosum Davis. Alta. s. to Colo., w. to B. C. and Calif.

Exyston speciosus Davis, 1897. Amer. Ent. Soc., Trans. 24: 237. ♂.

spinulosum Mason. N. W. T. w. to Alaska, s. to Iowa, Kans., Wyo., and Wash.; Kamchatka.

Exyston (Anecphysis) spinulosus Mason, 1959. Canad. Jour. Zool. 37: 1086. ♂, ♀.

variatum Provancher. N. S. w. to B. C., s. to N. C., Ill., and N. Dak. Ecology: Occurs at forest edges and along woodland paths, but not in grasslands or meadows.

Exyston variatus Provancher, 1877. Nat. Canad. 9: 15. ♀.

Exyston variatus Provancher, 1879. Nat. Canad. 11: 249. ♀. Preocc. by Provancher, 1877.

Contrary to the discussion of Barron (1975), Provancher indicated this as being a description of a new species. The variant spelling "vaiatus" also appears on p. 249.

Exyston abdominalis var. *rufinus* Davis, 1897. Amer. Ent. Soc., Trans. 24: 239. ♀.

Taxonomy: Barron, 1975. Nat. Canad. 102: 581 (discussion of lectotype).

venustum (Cresson). S. Dak., Sask., Colo., Utah, B. C., Wash.

Cteniscus venustus Cresson, 1865. Ent. Soc. Phila., Proc. 4: 263. ♀.

Genus SMICROPLECTRUS Thomson

Microplectron Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 195. Preocc. by Streubel, 1842 and Dahlbom, 1857.

Type-species: *Exenterus erosus* Holmgren. By subsequent monotypy from inclusion by Woldstedt, 1877 (1876).

Smicroplectrus Thomson, 1883. Opusc. Ent. 9: 888.

Type-species: *Exenterus jucundus* Holmgren. Desig. by Viereck, 1914.

Anderis Davis, 1897. Amer. Ent. Soc., Trans. 24: 233.

Type-species: *Cteniscus albilineatus* Walsh. Desig. by Viereck, 1914.

Auderis Davis, 1898 (1897). Amer. Ent. Soc., Trans. 24: 348 (errata). Emend.

Revision: Mason, 1956. Canad. Jour. Zool. 34: 124-151 (including *Excavarus*).

apicatus (Provancher). Que., Maine, N. Y., Ont., Colo., Alta., B. C. Host: *Nematus currani* Ross.

Cteniscus apicatus Provancher, 1879. Nat. Canad. 11: 263. "♂" = ♀.

californicus (Cresson). Que. w. to B. C., s. to N. C., Minn., Ariz., and Calif.

Ctenistes(*l*) *californicus* Cresson, 1879 (1878). Acad. Nat. Sci. Phila., Proc. 30: 374. ♂.

Smicroplectrus dissepitus Walley, 1933. Canad. Ent. 65: 256. ♀.

eburneus Mason. Ont., Tex.

Smicroplectrus eburneus Mason, 1956. Canad. Jour. Zool. 34: 141. ♀.

incompletus Walley. N. S. w. to Alta., s. to Pa. and Ariz. Host: *Pikonema* sp.

Smicroplectrus incompletus Walley, 1937. Canad. Ent. 69: 134. ♀.

jucundus albilineatus (Walsh). Que. w. to Alaska, s. to Colo. and Calif. *S. jucundus jucundus* (Holmgren) is Palearctic.

Cteniscus albilineatus Walsh, 1873. Acad. Sci. St. Louis, Trans. 3: 107. "♂" = ♀.

robustus Walley. Que. w. to Alta., s. to N. Y., Mich., and Nev. Ecology: Observed on *Populus* ovipositing on *Nematus* sp. Host: *Nematus* sp.

Smicroplectrus robustus Walley, 1937. Canad. Ent. 69: 135. ♀.

takomae Mason. N. W. T., Alaska, Wash.

Smicroplectrus takomae Mason, 1956. Canad. Jour. Zool. 34: 131. ♂, ♀.

walleyi Mason. Que., N. Y., Pa., Md., Va., Ont., Ohio, Ky., Nebr.

Smicroplectrus walleyi Mason, 1956. Canad. Jour. Zool. 34: 132. ♂, ♀.

Genus ACROTOMUS Holmgren

Acrotomus Holmgren, 1857 (1855). Svenska Vetensk.-Akad. Handl. (n. f.) 1: 222.

Type-species: *Tryphon lucidulus* Gravenhorst. Desig. by Viereck, 1912.

Delotomus Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 194, 215. Unnecessary n. name for *Acrotomus* Holmgren.

Taxonomy: Mason, 1962. Canad. Ent. 94: 1285-1287.

succinctus (Gravenhorst). N. Y., Ont., Mich.; Europe. Adventive.

Tryphon succinctus Gravenhorst, 1829. Ichn. Europaea, v. 2, p. 166. ♂, ♀.

Genus CTENISCUS Haliday

Cteniscus Haliday, 1832. In Curtis, Brit. Ent., v. 9, no. 399.

Type-species: *Tryphon sexilitratus* Gravenhorst. Monotypic. The type-species is regarded as a synonym of *Cteniscus pedatorius* (Panzer).

Eudiaborus Kerrich, 1952. Brit. Mus. (Nat. Hist.) Ent., Bul. 2: 415.

Type-species: *Diaborus pallitarsis* Thomson. Orig. desig. The type-species is regarded as a synonym of *Cteniscus scalaris* (Gravenhorst).

The name *Cteniscus* has not traditionally applied to this genus, the change in application being made by Townes, Townes, and Gupta (1965) in compliance with the fact that *Tryphon sexilitatus* Gravenhorst was the only species originally included; (see Townes, 1969); other names mentioned in the original description (e.g. *Cteniscus aurifluus*) were then *nomina nuda*. Prior to the description of *Eudiaborus*, the name *Diaborus* Foerster had been incorrectly applied to this genus.

Revision: Mason, 1955. Canad. Jour. Zool. 33: 21-63 (as *Eudiaborus*).

Taxonomy: Kerrich, 1952. Brit. Mus. (Nat. Hist.) Ent., Bul. 2: 314-316, 415-416. — Townes, Townes, and Gupta, 1965. Amer. Ent. Inst., Mem. 5: 113. — Townes, 1969. Amer. Ent. Inst., Mem. 11: 188-190. — Kerrich, 1975. Polskie Pismo Ent. 40: 125-126.

devius (Mason). Man., Colo., Alaska; Europe.

Eudiaborus devius Mason, 1955. Canad. Jour. Zool. 33: 34. ♀.

dorsalis Cresson. N. S. w. to Alaska, s. to N. Y., Ill., Colo., and Calif.

Cteniscus dorsalis Cresson, 1864. Ent. Soc. Phila., Proc. 3: 282. ♂ = ♀.

Cteniscus mediatus Cresson, 1864. Ent. Soc. Phila., Proc. 3: 282. ♂.

eximius (Mason). N. Y.

Eudiaborus eximius Mason, 1955. Canad. Jour. Zool. 33: 33. ♀.

flavicircus (Mason). Ont., Ohio, S. C., Ind. Host: *Pristiphora* sp.

Eudiaborus flavicircus Mason, 1955. Canad. Jour. Zool. 33: 27. ♂, ♀.

glutiniatus (Roman). Maine, B. C., Alaska; N. Eurasia.

Diaborus glutiniatus Roman, 1909. In Hamburg, Naturw. Unters. Sarekgebirges, v. 4, p. 282. ♂, ♀.

leptonyx (Mason). Newfoundland (Labrador) w. to Alaska, s. to Man., Colo., Ariz., and Calif.

Eudiaborus leptonyx Mason, 1955. Canad. Jour. Zool. 33: 37. ♂, ♀.

luminosus (Mason). N. Y.

Eudiaborus luminosus Mason, 1955. Canad. Jour. Zool. 33: 40. ♀.

maculiventris *maculiventris* (Ashmead). Newfoundland (Labrador) w. to B. C., s. to Mass. and Colo.

Diaborus maculiventris Ashmead, 1896. Amer. Ent. Soc., Trans. 23: 197. ♂.

Diaborus ignipes Davis, 1897. Amer. Ent. Soc., Trans. 24: 231. ♀.

maculiventris sexmaculatus (Ashmead). N. W. T., N. Man., Alaska. More northwestern than the nominate subspecies, *m. sexmaculatus* probably having descended from a Palearctic-Beringian glacial refugium. A third subspecies, *m. boriaalpinus* Kerrich, occurs in Europe and is rather similar to *m. sexmaculatus*.

Diaborus sexmaculatus Ashmead, 1902. Wash. Acad. Sci., Proc. 4: 212. ♂.

nigrocephalus (Davis). Conn., Md., Ga.

Diaborus nigrocephalus Davis, 1897. Amer. Ent. Soc., Trans. 24: 232. ♀.

promediatus arizonicus (Mason). N. Mex., Ariz.

Eudiaborus promediatus arizonicus Mason, 1955. Canad. Jour. Zool. 33: 60. ♀.

promediatus cressoni (Mason). N. Y. w. to s. Ont. and Mich., s. to Va. Host: *Nematus salicisodoratus* Dyar.

Eudiaborus promediatus cressoni Mason, 1955. Canad. Jour. Zool. 33: 59. ♂, ♀.

promediatus promediatus (Mason). Newfoundland (insular) w. to Alaska, s. to N. S., s. Ont., Minn., Colo., and B. C. Host: *Nematus currani* Ross, *Hemicroca crocea* (Geoff.).

Eudiaborus promediatus promediatus Mason, 1955. Canad. Jour. Zool. 33: 56. ♂, ♀.

pulchellus (Mason). Mass., N. J., Pa., Md., Mich.

Eudiaborus pulchellus Mason, 1955. Canad. Jour. Zool. 33: 50. ♂, ♀.

pyelechus (Mason). Mass., N. J., Pa., Md., Mich.

Eudiaborus pyelechus Mason, 1955. Canad. Jour. Zool. 33: 25. ♂, ♀.

scaphuloides (Mason). Que., Maine, R. I., Md., Ont., Mich., Idaho.

Eudiaborus scaphuloides Mason, 1955. Canad. Jour. Zool. 33: 40. ♂, ♀.

- similis* (Davis). Que. w. to Alaska, s. to N. H., Nebr., Colo., and Calif. The division of this species into four subspecies by Mason (1955) is rather unconvincing.
- Diaborus similis* Davis, 1897. Amer. Ent. Soc., Trans. 24: 231. ♀ (♂ misdet.).
- Diaborus nebraskensis* Davis, 1897. Amer. Ent. Soc., Trans. 24: 232. ♂.
- Diaborus citrifrons* Ashmead, 1902. Wash. Acad. Sci., Proc. 4: 212. ♂.
- Cteniscus vitticollis* Cresson, 1868. Amer. Ent. Soc., Trans. 2: 113. “♂” = ♀.

Genus SCAPNETES Townes

Scapnetes Townes, 1969. Amer. Ent. Inst., Mem. 11: 190.

Type-species: *Exenterus ornatus* Walsh. Orig. desig. Enigmatically, Townes (1969) added the qualifying phrase “as interpreted by Mason, 1956” to his type-species designation, but then went on to point out, in effect, that Mason (1956) had confused two species under the name *ornatus*.

ornatus (Walsh). N. S., N. B., Que., N. H., Conn., S. C., Ga., Fla., Ont., Mich.

Exenteron (!) *ornatus* Walsh, 1873. Acad. Sci. St. Louis, Trans. 3: 105. ♂.

Taxonomy: Mason, 1956. Canad. Jour. Zool. 34: 120-124.

rufus (Provancher). Que.

Cteniscus rufus Provancher, 1876. Nat. Canad. 8: 318. ♀.

Taxonomy: Townes, 1969. Amer. Ent. Inst., Mem. 11: 190.

Genus EXENTERUS Hartig

Exenterus Hartig, 1837. Arch. f. Naturgesch. 1: 156.

Type-species: *Ichneumon marginatorius* Fabricius. Monotypic.

Actenonyx Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 195. Preocc. by White, 1846.

Type-species: *Ichneumon marginatorius* Fabricius. By subsequent monotypy from inclusion by Viereck, 1911.

Picroscopus Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 195.

Type-species: *Tryphon ictericus* Gravenhorst. By subsequent monotypy from inclusion by Thomson, 1883.

Members of this genus are parasitic upon the larvae of Diprionidae.

Revision: Cushman, 1940. U. S. Dept. Agr. Misc. Pub. 354: 1-14. —Cushman, 1943. Canad. Ent. 75: 169-174 (additions and corrections to 1940 revision).

Taxonomy: Finlayson, 1963. Canad. Ent. 95: 468-488 (key to final-instar larvae). —Mason, 1967. Canad. Ent. 95: 375-384 (egg structure specializations).

abruptorius (Thunberg). Que., Ont.; Eurasia. Introduced. Host: *Neodiprion sertifer* (Geoff.), *N. lecontei* (Fitch), *N. pratti banksianae* Roh. Dowden (1960) stated that *E. abruptorius* is known to be established in N. J., but no specimens of *abruptorius* from N. J. can be found in the U. S. Natl. Museum collection; lacking evidence to the contrary, I assume that the N. J. record for *abruptorius* is based upon incorrectly identified specimens.

Ichneumon abruptorius Thunberg, 1822; 1824. Acad. Imp. des Sci. St. Petersburg, Mem. 8: 279; 9: 360. ♂ (♀ misdet.).

Exenterus cingulatorius Holmgren, 1857 (1855). Svenska Vetensk.-Akad. Handl. (n. f.) 1: 229. ♀.

Exenterus coreensis Uchida, 1930. Hokkaido Imp. Univ., Faculty Agr., Jour. 25: 270. ♂, ♀.

Taxonomy: Finlayson, 1960. Canad. Ent. 92: 28 (larva).

Biology: Morris, 1937. Bul. Ent. Res. 28: 525-534. —Salt, 1941. Cambridge Phil. Soc., Biol. Rev. 16: 256. —Wilkes, 1942. Ent. Soc. Ontario, Ann. Rpt. for 1941, p. 41-44. —Guryanova, 1972. Zool. Zhur. 51: 845-854 (Russ. with Ent. sum.).

adspersus Hartig. Eurasia. Introduced in N. B. in 1938 and possibly in mixture with other

Exenterus spp. at other Canadian localities between 1933 and 1939, apparently without becoming established. The target host for introductions in Canada was *Gilpinia hercyniae* (Htg.), but I find no record of *adspersus* having been reared from *hercyniae*

during the period in which *hercyniae* has been resurrected from synonymy with *Gilpinia polytoma* (Htg.) (i.e. since 1939).

Exenterus adspersus Hartig, 1838. Jahresber. Fortschr. Forstwiss. Forstl. Naturk. 1: 271. ♂, ♀.

Exenterus lepidus Holmgren, 1857 (1855). Svenska Vetensk.-Akad. Handl. (n. f.) 1: 231. ♂. *Exenterus laricienus* Thomson, 1888. Opusc. Ent. 12: 1254. ♀.

Exenterus oleaceus Uchida, 1931. Insecta Matsumurana 5: 146. ♀.

Taxonomy: Beirne, 1941. Soc. Brit. Ent., Trans. 7: 180-181 (final-instar larva). —Iwata, 1958; 1960. Acta Hym. 1: 69; 163 (egg and ovary).

Biology: Morris, Cameron, and Jepson, 1937. Bul. Ent. Res. 28: 375-376.

affinis Rohwer. Que., Maine, Ont. Host: *Gilpinia hercyniae* (Htg.), *Neodiprion abietis* (Harris). *Exenterus affinis* Rohwer, 1920. U. S. Natl. Mus., Proc. 57: 225. ♀.

Taxonomy: Finlayson, 1960. Canad. Ent. 92: 928 (final-instar larva).

amictorius (Panzer). N. S. s. to n. W. Va., w. to N. Dak.; Europe. Introduced. Host: *Gilpinia hercyniae* (Htg.), *Diprion similis* (Htg.), *Neodiprion lecontei* (Fitch), *N. nanulus* Schedl, *N. sertifer* (Geoff.), *N. swainei* (Midd.).

Ichneumon marginatorius Fabricius, 1793. Ent. System., v. 2, p. 145. (female). Preocc. by Rossi, 1790.

Ichneumon amictorius Panzer, 1801. Faunae Ins. German., fasc. 80, pl. 14. ♀.

Ichneumon sulcatorius Thunberg, 1822; 1824. Acad. Imp. des Sci. St. Petersburg, Mem. 8: 279; 9: 359. ♂, ♀.

Taxonomy: Finlayson, 1960. Canad. Ent. 92: 28-30 (final-instar larva).

Biology: Scheidter, 1934. Ztschr. f. Pflanzenkrank. 44: 369, 500-502. —Wilkes, 1924. Ent. Soc. Ontario, Ann. Rpt. for 1941, p. 41-44. —McLeod, 1972. Canad. Ent. 104: 1313-1330.

canadensis Provancher. Que. s. to Fla., w. to Wis. and La. Host: *Neodiprion abietis* (Harris), *N. excitans* Roh., *N. lecontei* (Fitch), *N. pinetum* (Nort.), *N. swainei* Midd., *N. virginiana* Roh. For many years the name *canadensis* has been erroneously applied to *nigrifrons* Rohwer (which see).

Exenterus Canadensis Provancher, 1883. Nat. Canad. 14: 9. ♂, ♀.

Exenterus diprioni Rohwer, 1915. U. S. Natl. Mus., Proc. 49: 222. ♀. Synonymy according to Barron (1975).

Exenterus diprioni Cushman, 1940. U. S. Dept. Agr. Misc. Pub. 354: 4. Unjustified emend.

Taxonomy: Finlayson, 1963. Canad. Ent. 95: 489-490 (final-instar larva, as *diprioni*).

—Barron, 1975. Nat. Canad. 102: 440.

Biology: Barclay, 1938. Ent. Soc. Ontario, Ann. Rpt. 69: 29-31 (as *diprioni*). —Griffiths, 1969. Canad. Ent. 101: 673-713.

confusus Kerrich. N. B., Que., Ont.; Eurasia. Introduced. Host: *Gilpinia hercyniae* (Htg.), *Neodiprion nanulus* nanulus Schedl. This species was misidentified as *Exenterus claripennis* Thomson in the revision by Cushman (1940).

Exenterus confusus Kerrich, 1952. Brit. Mus. (Nat. Hist.) Ent., Bul. 2: 361. ♂, ♀.

Taxonomy: Finlayson, 1960. Canad. Ent. 92: 926-927 (final-instar larva).

Biology: Reeks, 1952. Canad. Ent. 84: 79-85 (as *claripennis*).

hullensis Provancher. Que., N. H., Ont., Mich.

Exenterus Hullensis Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 104. ♂, ♀.

lophryi Viereck. Nebr., Ariz. Host: *Zadiprion townsendi* (Ckll.).

Exenterus lophryi Viereck, 1911. U. S. Natl. Mus., Proc. 39: 404. ♀.

Biology: Swenk, 1911. Nebr. Agr. Expt. Sta., Ann. Rpt. 24: 26-28.

nigrifrons Rohwer. N. S. to Fla., w. to Minn. and Tex. Host: *Gilpinia hercyniae* (Htg.), *Neodiprion abbotii* (Leach), *N. abietis* (Harris), *N. excitans* Roh., *N. lecontei* (Fitch), *N. nanulus* nanulus Schedl, *N. pratti banksianae* Roh., *N. rugifrons* Midd., *N. sertifer* (Geoff.), *N. swainei* Midd., *N. taedae linearis* Ross. Preceding the work of Barron (1975)

on the Provancher types, authors (most importantly Cushman, 1940) have incorrectly applied the name *canadensis* Provancher to this species; Cushman (1940) based his usage upon the erroneous assertion that there had been a male holotype of *canadensis*, and he applied the name according to the first-revisor principle because only a female specimen had then been found in the Provancher collection under the name *canadensis*. *Exenterus nigrifrons* Rohwer, 1920. U. S. Natl. Mus., Proc. 57: 225. "♀" = ♂. *Exenterus flavissimus* Cushman, 1940. U. S. Dept. Agr. Misc. Pub. 354: 12. ♂, ♀.

Taxonomy: Short, 1959. U. S. Natl. Mus., Proc. 110: 425 (final-instar larva, as *canadensis*). —Finlayson, 1960. Canad. Ent. 92: 26-28 (final-instar larva, as *canadensis*). —Barron, 1975. Nat. Canad. 102: 440.

Taxonomy: Finlayson, 1960. Canad. Ent. 92: 29-30 (final-instar larva).

Genus ERIDOLIUS Foerster

Anisoctenion Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 194.

Type-species: *Acrotomus xanthopus* Holmgren. By subsequent monotypy from inclusion by Schmiedeknecht, 1907. The type-species is considered to be a synonym of *Eridolius alacer* (Gravenhorst).

Eridolius Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 195.

Type-species: *Exenterus pygmaeus* Holmgren. By subsequent monotypy from inclusion by Thomson, 1883.

Until recently the name *Cteniscus* was applied to this genus because *Eridolius aurifluus* (Haliday) was incorrectly regarded as the type-species of *Cteniscus* (see discussion under *Cteniscus*). *Eridolius* is Holarctic with many species of boreal distribution. Many of the species occurring in the Nearctic Region are undescribed.

Taxonomy: Mason, 1962. Canad. Ent. 94: 1291 (generic limits, as *Cteniscus*). —Townes, 1969.

TRIBE IDIOGRAMMATINI

This tribe includes *Idiogramma* and the fossil genus *Urotryphon* described by Townes (1973) from Cretaceous amber (80 to 90 million years old) collected in the U. S. S. R.

Taxonomy: Townes, 1973. Ent. Soc. Wash., Proc. 75: 282-287.

Genus IDIOGRAMMA Foerster

Idiogramma Foerster, 1867. In Kirchner, Cat. Hym. Europae, p. 67. Nomen nudum. The nomen nudum *Idiogramma euryops* Foerster also appears on p. 67.

Idiogramma Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 163.

Type-species: *Idiogramma euryops* Schmiedeknecht. By subsequent monotypy from inclusion by Schmiedeknecht, 1868.

Macrochasmus Thomson, 1888. Opusc. Ent. 12: 1279.

Type-species: *Macrochasmus alysiinus* Thomson. Monotypic.

Lysiognatha Ashmead, 1895. Ent. Soc. Wash., Proc. 3: 276.

Type-species: *Lysiognatha comstockii* Ashmead. Monotypic.

Members of this Holarctic genus parasitize larvae of *Xyela* in the staminate cones of *Pinus*. Oviposition occurs at about the time when the *Xyela* larval development is nearing completion, which apparently just precedes the time the host pine sheds its pollen. The eggs of *Idiogramma* hatch after the host has dropped to the ground and formed its earthen pupal cell.

SUBFAMILY EUROTINAE

Genus EUCEROS Gravenhorst

Euceros Gravenhorst, 1829. Ichn. Europaea, v. 3, p. 368.

Type-species: *Euceros crassicornis* Gravenhorst. Monotypic.

Eumesius Westwood, 1840. Introd. Mod. Classif. Ins., v. 2, p. 153. Unnecessary n. name for *Euceros* Gravenhorst, which is not preocc. by *Eucera* Scopoli, 1770.

Omaloceros Giraud, 1857. Zool.-Bot. Gesell. Wien, Verh. 7: 163. Unnecessary n. name for *Euceros* Gravenhorst.

Tautozelus Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 212.

Type-species: *Euceros egregius* Holmgren. Included and desig. by Perkins, 1962.

The type species is regarded as a synonym of *E. serricornis* Haliday.

Eucerus(!) Verhoeff, 1892. Ent. Nachr. 18: 4.

Pseudasthenara Uchida, 1930. Hokkaido Imp. Univ., Faculty Agr., Jour. 25: 276.

Type-species: *Astheuara rufocincta* Ashmead. Monotypic and orig. desig.

This is the only genus in the Eucerotinae; it is moderate sized, and its distribution is Holarctic, Australian (one undescribed sp.), and Ethiopian (one Madagascan sp.). The genus was placed in the Tryphoninae (as tribe Eucerotini) by Townes (1969), apparently based upon the similarities between the final instar larvae of *Euceros* and *Exenterus* (cf. Finlayson [1960, p. 34]), but the egg, the early larval instars, the adult, and the biology of *Euceros* differ so greatly from those of Tryphoninae or any other Ichneumonidae that the genus is here placed in a subfamily of its own, as was done by Perkins (1959). Barron (1977) has published a revision of the Nearctic species; I regret that it was not feasible for me to revise the present treatment of *Euceros* accordingly.

Euceros eggs are stalked and greatly resemble those of Chrysopidae; they are deposited on foliage near early-instar larvae of a carrier host (defoliating sawflies or Lepidoptera). The planidial first larval instar of *Euceros* remains upon its empty chorion at the top of the egg stalk until it is able to attach to a passing carrier host. Although a *Euceros* planidium obtains enough fluid from the carrier host to sustain itself, it is an obligate hyperparasite and cannot develop further on the carrier host; its chance for completing its development depends upon the host being parasitized (presumably most often subsequently) by another ichneumonid (it seems reasonable to expect rearings from larger Braconidae also). The time at which a *Euceros* planidium enters its true host is not known for certain and may vary according to the true host's mode of parasitism (true hosts include external as well as internal parasites). When the true host is an internal larval parasite (e.g. *Phobocampe* or *Olesicampe*), it appears likely that the first-instar *Euceros* planidium remains externally attached to the carrier host until the mature larva of the

true host has killed the carrier host and emerged from it. When the true host is an internal larval-pupal parasite (a species of Anomaloninae being recorded as a host of *Euceros frigidis* Cresson) it would be necessary for the *Euceros* planidium to bore through the integument of the carrier host in order to reach the true host. There appear to be seven or eight larval instars; during the first four stadia, the *Euceros* larvae are internal parasites, but during the last three or four stadia they are external parasites.

Revision: Barron, 1977 (1976). *Nat. Canad.* 103: 285-375.

SUBFAMILY ADELOGNATHINAE

Genus ADELOGNATHUS Holmgren

Adelognathus Holmgren, 1857 (1855). *Svenska Vetensk.-Akad. Handl. (n. f.)* 1: 196.

Type-species: *Adelognathus brevicornis* Holmgren. Desig. by Viereck, 1912.

Pammicra Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 181.

Type-species: *Hemiteles dorsalis* Gravenhorst. By subsequent monotypy from inclusion by Thomson, 1883.

Synaema Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 201.

Type-species: *Adelognathus brevicornis* Holmgren. Monotypically included and desig. by Viereck, 1914. Perkins (1962) incorrectly stated that species had been included by Szepligeti (1911), but Szepligeti merely placed *Synaema* as a synonym of *Adelognathus*, which does not constitute inclusion of species.

Notomeris Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 201.

Type-species: *Adelognathus difformis* Holmgren. By subsequent monotypy from inclusion by Thomson, 1888. According to Perkins (1943) the species identified as *A. difformis* Holmgren by Thomson is *A. thomsoni* Schmiedeknecht.

Cnemischys Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 201.

Type-species: *Adelognathus (Cnemischys) pilosus* Thomson. Desig. by Townes, 1944 from two species included by Thomson, 1888.

Pammicrus Thomson, 1883. Opusc. Ent. 9: 880. Emend.

Cnemischus Thomson, 1888. Opusc. Ent. 12: 1277. Emend.

Townes (1969) treated *Adelognathus* as the only genus in the Adelognathinae; the genus is Holarctic and of moderate size. Several species have been reared from larvae or sawflies; in one case the *Adelognathus* larvae are known to have fed externally and gregariously.

Taxonomy: Szepligeti, 1911. In Wytsman, Gen. Ins., fasc. 144, p. 50. — Perkins, 1943. Roy. Ent. Soc. London, Trans. 93: 95-97. — Townes and Townes, 1951. In Muesebeck et al., U. S. Dept. Agr., Agr. Platysoma Provancher, 1885. Canad. Ent. 17: 115. Preocc. by Leach, 1817; Lienard, 1832; and Brandt, 1835.

Type-species: *Platysoma tibialis* Provancher. Monotypic.

Aplomerus Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 119. N. name for *Platysoma* Provancher.

Anodontomerus Ashmead, 1900. U. S. Natl. Mus., Proc. 23: 61, 163. Unnecessary n. name for *Aplomerus* Provancher; Ashmead did not state his reason for proposing his n. name for *Aplomerus* (on page 61 he erroneously indicated that he was describing a "new genus"), and one can only suppose that he may have thought *Aplomerus* to be preocc. by *Aplomera* Macquart, 1839.

Haploemerus Dalla Torre, 1901. Cat. Hym., v. 3, p. 392. Invalid name proposed in synonymy.

This is a small Holarctic and Neotropic (one undescribed Mexican sp.) genus.

Revision: Townes (H.) and Townes (G.), 1960. In Townes (H.) and Townes (M.), U. S. Natl. Mus. Bul. 216 (pt. 2): 439-447.

arugosus Townes and G. Townes. Northwestern Wyo. Ecology: The unique holotype was collected at an elevation of 6500 ft. in Shoshone Canyon, Wyo.

Aplomerus arugosus Townes (H.) and Townes (G.), 1960. In Townes (H.) and Townes (M.), U. S. Natl. Mus. Bul. 216 (pt. 2): 446. ♀.

buprestivorus Rohwer. Northwestern Ariz., s.w. Oreg., n.e. and s.w. Calif. Ecology: The holotype and paratype were collected as cocooned pupae or prepupae in a buprestid gallery in *Cercocarpus parvifolius* at Ashland, Oreg.

Aplomerus buprestivorus Rohwer, 1920. U. S. Natl. Mus., Proc. 57: 453. ♀.

lineatulus (Say). Que. s. to e. N. C., w. to Wis., Iowa, and n.e. Kans.

Anomalon lineatulus Say, 1836. Boston Jour. Nat. Hist. 1: 244. ♂.

Aplomerus foutsii Rohwer, 1920. U. S. Natl. Mus., Proc. 57: 454. ♀.

Aplomerus decorus Viereck, 1926. Canad. Ent. 58: 55. ♀.

Taxonomy: Cushman and Gahan, 1921. Ent. Soc. Wash., Proc. 23: 157 (syn.). — Townes, 1944. Amer. Ent. Soc., Mem. 11: 115 (syn.).

robustus Townes and G. Townes. Southwestern B. C., w. Wash., w. Oreg., n. Calif. Ecology: Specimens have been reared from dead coniferous trees infested with *Buprestidae* and Cerambycidae.

Aplomerus robustus Townes (H.) and Townes (G.), 1960. In Townes (H.) and Townes (M.), U. S. Natl. Mus. Bul. 216 (pt. 2): 443. ♂, ♀.

tibialis (Provancher). Southern B. C., Oreg., n. Calif. Ecology: A large series was collected on fallen trunks of *Pinus contorta* which had been killed by *Dendroctonus* and had disintegrated to the point of losing nearly all their bark.

Platysoma tibialis Provancher, 1885. Canad. Ent. 17: 115. ♀.

Genus ODONTOCOLON Cushman

Odontomerus Gravenhorst, 1829. Ichn. Europaea, v. 3, p. 851. Preocc. by Leach, 1819. Type-species: *Ichneumon dentipes* Gmelin. Desig. by Westwood, 1840.

Odontocolon Cushman, 1942. Ent. Soc. Wash., Proc. 44: 179. N. name for *Odontomerus* Gravenhorst.

This is a large Holarctic genus.

Revision: Townes and Townes, 1960. U. S. Natl. Mus. Bul. 216 (pt. 2): 448-489.

abdominale abdominale (Cresson). Southeastern Wyo., Colo., n.w. Mont., n. Idaho, n.e. Utah, Ariz.

Odontomerus abdominalis Cresson, 1865. Ent. Soc. Phila., Proc. 4: 289. ♀.

abdominale fergusoni Townes. Southwestern Alta., s.e. B. C., n.e. Wash.

Odontocolon abdominalis fergusoni Townes, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 464. ♂, ♀.

aethiops (Cresson). Colo., s.w. Alta., n.w. Mont., s.e. B. C., n. Idaho, n. Calif. Host: Cerambycid in *Pinus contorta*.

Odontomerus aethiops Cresson, 1865. Ent. Soc. Phila., Proc. 4: 289. ♂, ♀.

alaskense (Rohwer). South-coastal Alaska. Closely related to the European *O. punctulatum* (Thomson); *alaskense* had been suppressed as a synonym of *punctulatum* by Townes (1944) but was removed from synonymy by Townes and Townes (1960).

Odontomerus alaskensis Rohwer, 1913. U. S. Natl. Mus., Proc. 45: 360. ♀.

Taxonomy: Townes, 1944. Amer. Ent. Soc., Mem. 11: 112-113. —Townes and Townes, 1960. U. S. Natl. Mus. Bul. 216 (pt. 2): 460.

albotibiale (Bradley). N. S. s. to n. Fla., w. to Minn. and Iowa.

Odontomerus albotibialis Bradley, 1918. Brooklyn Ent. Soc., Bul. 13: 103. ♀.

Odontomerus striatus Cushman, 1930. U. S. Natl. Mus., Proc. 77 (3): 14. ♀. Preocc. by Brulle, 1846.

Odontocolon aciculatus Cushman, 1942. Ent. Soc. Wash., Proc. 44: 182. N. name for *Odontomerus striatus* Cushman.

Taxonomy: Cushman, 1942. Ent. Soc. Wash., Proc. 44: 182 (misidentification corrected).

atripes (Rohwer). N. S. w. to w. Alta., s. to e. N. C., n.e. Ala., and n. Ill.

Odontomerus atripes Rohwer, 1913. U. S. Natl. Mus., Proc. 45: 358. ♂, ♀.

bicolor (Cresson). Pa., n. Va., n.w. S. C., n. Ga., n.e. Ala., e. Tex. Ecology: Two specimens from Call, Texas were apparently collected as cocooned pupae or prepupae from beneath the bark of logs and stumps of *Pinus palustris* which had been cut several years before.

Odontomerus bicolor Cresson, 1870. Amer. Ent. Soc., Trans. 3: 169. ♀.

brevicaudum (Cushman). Southwestern Alta., n.w. Mont., n. Idaho, s. B. C., Wash.

Odontomerus brevicaudus Cushman, 1930. U. S. Natl. Mus., Proc. 77 (3): 7. ♀. Because Cushman used the spelling *brevicaudus* instead of *brevicauda*, the name is to be regarded as an adjective rather than a noun.

canadense (Provancher). N. S., Que., Maine, N. H., N. Y., w. N. C., Ont., Mich., n.e. Minn. Host: *Serropalpus* sp. in Fraser fir.

Odontomerus Canadensis Provancher, 1877. Nat. Canad. 9: 16. ♀.

Odontomerus tibialis Cushman, 1930. U. S. Natl. Mus., Proc. 77 (3): 11. ♂, ♀.

- Taxonomy: Cushman, 1942. Ent. Soc. Wash., Proc. 44: 182 (syn. and correction of misidentification of *canadense*).
- ciliipes** Townes. Southeastern Ariz. Ecology: Known only from the holotype which was collected in the Chiricahua Mts., Ariz.
- Odontocolon ciliipes* Townes, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 454. ♀.
- curtum** Townes. Northwestern Calif. Ecology: Two of the paratypes emerged from "Laurel," presumably *Umbellaria californica*.
- Odontocolon curtum* Townes, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 470. ♂, ♀.
- depressum** Townes. Colo. Ecology: Known only from the holotype which was collected at an elevation of 9400 ft. in Rocky Mt. Natl. Park, Colo.
- Odontocolon depressum* Townes, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 459. ♀.
- dichroum** (Rohwer). Northern Idaho, s. B. C., Wash., Oreg., n. Calif.
- Odontomerus dichrous* Rohwer, 1913. U. S. Natl. Mus., Proc. 45: 361. ♀.
- dreisbachi** Townes. Northwestern Mich. Ecology: Known only from the holotype which was collected on Isle Royale, Mich.
- Odontocolon dreisbachi* Townes, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 480. ♀.
- formicoides** Townes. Northern Ariz. Ecology: Known only from the holotype which was collected in a stand of *Populus*, *Picea*, and *Abies* at an elevation of 9700 ft. on Humphreys Peak, Ariz.
- Odontocolon formicoides* Townes, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 458. ♂.
- mellipes** (Say). Mass. w. to S. Dak., s. to e. and w. N. C., n.w. S. C., and n.e. Kans. Host: *Parandra* (*Neandra*) *brunnea* (F.).
- Anomalon mellipes* Say, 1829. Contrib. Maclurian Lyceum to Arts and Sci. 1: 75. ♀.
- Odontomerus errans* Rohwer, 1913. U. S. Natl. Mus., Proc. 45: 360. ♀.
- ochropus** Townes. Que. w. to s. B. C., s. to n.w. S. C., e. Tenn., s. Minn., Ariz. and n. Idaho. Ecology: Three paratypes from Falls Church, Va. emerged from pine infested with *Anoplodera rubrica* (Say) and *A. vagans* (Oliv.); one paratype from Inglenook, Pa. emerged from hemlock infested with *A. rubrica* and *Metacmaeops vittatus* (Swed.); one paratype from D. C. was collected as an adult in its cocoon, which was extracted from rotten beech wood.
- Odontocolon ochropus* Townes, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 482. ♂, ♀.
- parvum** Townes. Northwestern Wyo., n. Colo., n. Idaho, s. B. C., Wash., n.w. Oreg.
- Odontocolon parvum* Townes, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 472. ♂, ♀.
- polymorphum** Cushman. Southwestern B. C., n.w. Wash., w. Oreg. Ecology: Thirteen paratypes were reared from a branch of *Alnus* (presumably *rubra*) infested with Anobiidae, and two other specimens emerged from a board of *Umbellaria californica* infested by *Lyctus carnicollis* LeC. and the anobiid, *Ptilinus basitibialis* LeC. The adults can be wingless, brachypterous (brachypterous male not known), or fully winged.
- Odontocolon polymorphum* Cushman, 1942. Ent. Soc. Wash., Proc. 44: 180. ♂, ♀.
- pullum** Townes. Southern B. C., e. Calif. The four type specimens included one wingless female.
- Odontocolon pullum* Townes, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 456. ♂, ♀.
- punctatum** (Cushman). Northwestern Wyo., n. Idaho, s. B. C., w. Wash., e. Oreg., and e. Calif. Ecology: Notes in the U. S. Natl. Museum indicate that the holotype was "emerging? from [a] wood wasp? burrow in [a] dead grand fir," from which *Leptura obliteratea* Hald. also emerged (cf. Cushman, 1930); one specimen was extracted from *Abies* along with

two immature adults and a larva of a siricid (= "Tremex") and is labeled (incorrectly?) as being a parasite of "Tremex."

Odontomerus punctatus Cushman, 1930. U. S. Natl. Mus., Proc. 77 (3): 12. ♀.

sierrae Townes. Eastern Calif.

Odontocolon sierrae Townes, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 471. ♂, ♀.

strangaliae (Rohwer). Que. s. to N. C., w. to e. Minn. and central Ala. Host: *Strangalina luteicornis* (F.) in grape, "Leptura" sp. in rotten oak branch.

Odontomerus strangaliae Rohwer, 1917. U. S. Natl. Mus., Proc. 53: 158. ♀.

vicinum (Cresson). Que. w. to s.e. B. C., s. to n. Va., s. Ohio, n. Colo., and e. Oreg. Host: *Dicerca divaricata* (Say) in *Alnus* sp., *D. divaricata?* in *Betula nigra*, *D. obscura* F. in hackberry.

Odontomerus vicinus Cresson, 1870. Amer. Ent. Soc., Trans. 3: 168. ♂.

Genus XORIDES Latreille

There are ten subgenera, only two of which have Nearctic species.

Revision: Townes and Townes, 1960. U. S. Natl. Mus. Bul. 216 (pt. 2): 489-530 (subgenera of world and Nearctic spp.).

Genus XORIDES Subgenus EXOMUS Townes

Xorides subg. *Exomus* Townes, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 496.

Type-species: *Anomalon humerale* Say sensu Townes and Townes (1960). Orig. desig.

A single variable species is known.

humeralis (Say). Newfoundland (Labrador) w. to B. C., s. to Fla., Tex., s.e. Ariz., and s. Calif.; Mexico. Host: *Neoclytus acuminatus* (F.) in *Ilex opaca*, *Phymatodes testaceus* (L.) in red oak, *Xylotrechus undulatus* (Say)? in *Abies lasiocarpa*. The six "subspecies" of Townes and Townes (1960) are too poorly defined and based upon too few specimens to be worth recognizing.

Anomalon humerale Say, 1829. Contrib. Maclurian Lyceum to Arts and Sci. 1: 74. ♀.

Xylonomus australis Cresson, 1870. Amer. Ent. Soc., Trans. 3: 167. ♀.

Xylonomus Lavallensis Provancher, 1874. Nat. Canad. 6: 59. ♀.

Xylonomus (Moeropora) piceatus Rohwer, 1913. U. S. Natl. Mus., Proc. 45: 357. N. syn.

Xorides (Exomus) humeralis mexicanus Townes, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 497. ♀. N. syn.

Xorides (Exomus) humeralis sierrae Townes, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 500. ♂, ♀. N. syn.

Xorides (Exomus) humeralis excomptus Townes, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 500. ♂, ♀. N. syn.

Xorides (Exomus) humeralis chiricensis Townes, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 501. ♀. N. syn.

Genus XORIDES Subgenus Xorides Latreille

Xorides Latreille, 1809. Gen. Crust. Ins., v. 4, p. 4.

Type-species: *Ichneumon indicatorius* Latreille. Monotypic.

Xylonomus Gravenhorst, 1829. Ichn. Europaea, v. 3, p. 819.

Type-species: *Ichneumon irrigator* Fabricius. Desig. by Curtis, 1831.

Sterotrichus Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 169.

Type-species: *Xylonomus pilicornis* Gravenhorst. By subsequent monotypy from inclusion by Brischke, 1880. The type-species is regarded as a synonym of *X. fuligator* (Thunberg).

Sichelia Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 169.

Type-species: *Xylonomus filiformis* Gravenhorst. By subsequent monotypy from inclusion by Schmiedeknecht, 1888.

- Rhadina* Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 170. Preocc. by Billberg, 1828.
- Type-species: *Xylonomus ater* Gravenhorst. Monotypically included and desig. by Schmiedeknecht, 1888.
- Rhadinopimpla* Schulz, 1906. Zool. Ann. 4: 23. N. name for *Rhadina* Foerster.
- Xylonomimus* Clement, 1938. Festschr. Embrik Strand, v. 4, p. 539.
- Type-species: *Xylonomus gracilicornis* Gravenhorst. Orig. desig.
- Neoxylonomus* Clement, 1938. Festschr. Embrik Strand, v. 4, p. 566. Preocc. by Szepligeti, 1914.
- Type-species: *Neoxylonomus strandi* Clement. Monotypic.
- Amphixylynomus* Benoit, 1952. Soc. Ent. de Belg., Bul. et Ann. 88: 136. Described as a subgenus, but treated nomenclaturally as a genus.
- Type-species: *Amphixylynomus konduensis* Benoit. Monotypic and orig. desig.
- This is a large subgenus of Holarctic, Oriental, Australian? (one sp. described as being from New Guinea), and Ethiopian (one sp.) distribution.
- albopictus** (Cresson). Que. s. to n. Ga., w. to central N. Dak., e. Nebr., and n.e. Tex. Ecology: Parasite of Coleoptera which bore in hardwoods. Host: *Saperda discoidea* F., *S. tridentata* Oliv., *Scolytus multistriatus* (Mar.)?
- Xylonomus albopictus* Cresson, 1870. Amer. Ent. Soc., Trans. 3: 168. ♀.
- Xorides Canadensis* Provancher, 1875. Nat. Canad. 7: 248. ♂.
- Xylonomus (Moerophora) duplicatus* Rohwer, 1913. U. S. Natl. Mus., Proc. 45: 356. ♂.
- atrox** Townes. Southeastern B. C. Known only from the holotype.
- Xorides (Xorides) atrox* Townes, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 520. ♀.
- boharti** Townes. Northwestern Calif.
- Xorides (Xorides) boharti* Townes, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 508. ♂, ♀.
- calidus** (Provancher). Que. w. to s.e. Sask., s. to e. N. C. and Tex. Host: *Amniscus macula* (Say) in *Castanea dentata*, *Curius dentatus* Newm. in juniper, cerambycid in *Castanea dentata*.
- Xylonomus calidus* Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 119. ♀.
- Xylonomus pulcher* Ashmead, 1890 (1889). U. S. Natl. Mus., Proc. 12: 450. ♀.
- Aplomerus nasonii* Davis, 1895. Amer. Ent. Soc., Trans. 22: 32. ♂.
- Xorides callidus*(!) Townes and Townes, 1951. U. S. Dept. Agr., Agr. Monog. 2: 205.
- californicus** (Cresson). Colo., n. N. Mex., n. Ariz., w. Mont., n. Idaho, s. B. C., Wash., Oreg., n. Calif. Host: *Buprestis viridisuturalis* N. and W. in *Populus trichocarpa*, *Chalcophora angulicollis* (LeC.) in *Pinus ponderosa*, *Alaus oculatus* (L.)?, sesiid? in *Pinus ponderosa*.
- Xylonomus californicus* Cresson, 1879 (1878). Acad. Nat. Sci. Phila., Proc. 30: 380. ♀.
- Xylonomus catomus* Davis, 1898 (1897). Amer. Ent. Soc., Trans. 24: 372. ♀.
- cincticornis cincticornis** (Cresson). Southwestern Alta. and s. B. C., s. to n. N. Mex., n. Idaho, and e. and n.w. Oreg. Host: *Anoplodera chrysocoma* (Kby.)? in *Pinus ponderosa scopulorum*.
- Xylonomus cincticornis* Cresson, 1865. Ent. Soc. Phila., Proc. 4: 288. ♀.
- Xylonomus (Moerophora) modestus* Rohwer, 1913. U. S. Natl. Mus., Proc. 45: 358. ♂.
- cincticornis rufus** Townes. Central Oreg., n.e. Calif.
- Xorides (Xorides) cincticornis rufus* Townes, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 530. ♂, ♀.
- eastoni** (Rohwer). Mass., Conn., Wis., s. B. C.
- Xylonomus (Moerophora) eastoni* Rohwer, 1913. U. S. Natl. Mus., Proc. 45: 356. ♀.
- frigidus** (Cresson). Que., Maine, Vt., Colo., n. Idaho, interior Alaska, s. Yukon, s.w. B. C., n.e. Wash.
- Xylonomus frigidus* Cresson, 1870. Amer. Ent. Soc., Trans. 3: 168. ♀.
- Xylonomus (Xylonomus) plesius* Rohwer, 1913. U. S. Natl. Mus., Proc. 45: 354. ♀.
- Xylonomus (Moerophora) yukoneensis* Rohwer, 1913. U. S. Natl. Mus., Proc. 45: 355. ♀.

- harringtoni** Rohwer. Que., Vt., N. Y., Ont. Host: *Dicerca divaricata* (Say).
Xylonomus canadensis Harrington, 1891. Canad. Ent. 23: 133. ♂, ♀. Preocc. in *Xorides* by Provancher, 1875.
Xorides harringtoni Rohwer, 1920. U. S. Natl. Mus., Proc. 57: 443. N. name for *Xylonomus canadensis* Harrington.
- insularis** (Cresson). Que., Colo., s. N. Mex., s.w. Alta., n. Idaho, n. Utah, s. Ariz., Interior Alaska, s. B. C., Wash., Oreg., n. Calif. Host: "Hylotrupes" sp. in *Thuja plicata*, *Semanotus anethystinus* (LeC.), *S. ligneus amplus* (Casey), *Tetropium* sp. in *Larix occidentalis*, T. sp. in *Picea*, cerambycid in *Abies*, cerambycid in *Pinus monticola*, *Melanophila* sp.?, *M. drummondii* (Kby.), buprestid in *Pseudotsuga menziesii*, "Tenuochila virescens [F.]" in redwood, "scolytid" in *Pseudotsuga menziesii*.
Poemera(!) *insularis* Cresson, 1879 (1878). Acad. Nat. Sci. Phila., Proc. 30: 380. ♀.
- maudae** (Davis). Western Wash., w. Oreg., n.w. Calif. Ecology: One specimen emerged from *Pseudotsuga menziesii*.
Xylonomus maudae Davis, 1895. Amer. Ent. Soc., Trans. 22: 32. ♀.
- medius** Townes. Northern Idaho, n.w. Calif.
Xorides (*Xorides*) *medius* Townes, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 511. ♂, ♀.
- neoclyti** (Rohwer). Colo., N. Mex., Ariz. Host: *Neoclytus caprea* (Say), *Semanotus ligneus conformis* (Casey), *Chrysobothris femorata* (Oliv.).
Moerophora neoclyti Rohwer, 1915. U. S. Natl. Mus., Proc. 49: 223. ♂.
- peniculus** Townes. N. Y., N. J., Pa., e. S. C., e. Tex. Ecology: One paratype was extracted from the wood of *Celtis occidentalis*, and another paratype and the holotype emerged from the same host material.
Xorides (*Xorides*) *peniculus* Townes, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 506. ♂, ♀.
- pictus** Townes. Western Calif.
Xorides (*Xorides*) *pictus* Townes, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 505. ♀.
- planus** Townes. Colo., Ariz.
Xorides (*Xorides*) *planus* Townes, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 511. ♂, ♀.
- rileyi** (Ashmead). N. Y. s. to n. Fla., w. to Minn. and Mo. Host: *Anoplodera nitens* (Forster)?, *Phymatodes aereus* (Newm.), *P. testaceus* (L.), *Physocnemum andreae* (Hald.), *Xylotrechus colonus* (F.), buprestid? in black oak, borer under willow bark.
Xylonomus rileyi Ashmead, 1889. In Fox, U. S. Dept. Agr., Insect Life 2: 197. Nomen nudum.
Xylonomus rileyi Ashmead, 1890 (1889). U. S. Natl. Mus., Proc. 12: 450. ♀. The type-locality is presumably Kirkwood, Mo. because notes in the U. S. Natl. Museum pertaining to the number on the label of the holotype (Bureau of Entomology no. 2384) say: "parasite (and its cocoon) border [sic; presumably borer] under willow bark, April 20, 1880, from Miss Murtfeldt."
- Xylonomus* (*Xylonomus*) *ruficoris* Rohwer, 1913. U. S. Natl. Mus., Proc. 45 (no. 1986): 354. ♀.
Xylonomus (*Xylonomus*) *lepturae* Rohwer, 1913. U. S. Natl. Mus., Proc. 45 (no. 1991): 534. ♀.
- rudis** Townes. Eastern Calif. Known only from the holotype.
Xorides (*Xorides*) *rudis* Townes, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 510. ♀.
- semirufus** Townes. Northern Fla. Known only from the holotype.
Xorides (*Xorides*) *semirufus* Townes, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 506. ♀.
- stigmapterus floridanus** (Ashmead). Northwestern S. C., s.e. Ga., n. Fla., s.e. Tex.
Xylonomus floridanus Ashmead, 1890 (1889). U. S. Natl. Mus., Proc. 12: 451. ♀.

stigmapterus stigmapterus (Say). Newfoundland (Labrador), n. Man., n. B. C., and s. Alaska s. to n.w. S. C., Iowa, e. N. Dak., and central Alta. Host: *Anoplodera proxima* (Say),

Dryobius sexnotatus Linsley?

Acoenitus stigmapterus Say, 1824. In Keating, Narr. Long's 2nd Exped., v. 2 (App.), p. 325. ♀.

Xylonomus tartarus Morley, 1913. Fauna Brit. India, Hym., v. 3, p. 78. ♀. According to Townes (1961) the holotype is erroneously labeled "India," which is presumed to be an error for Indiana.

Taxonomy: Townes, 1961. Ent. Soc. Wash., Proc. 63: 113, 175.

SUBFAMILY CRYPTINAЕ

This is the largest of ichneumonid subfamilies. Townes (1970) recognized 307 genera which he divided among three tribes, the Hemitelini (= Gelini), the Aptesini (= Echthriini), and the Cryptini (= Mesostenini). Most Cryptinae are external parasites.

Taxonomy: Townes, 1970 (1969). Amer. Ent. Inst., Mem. 12, 537 pp. (genera of world).

TRIBE HEMITELINI

This tribe includes most of the smaller Cryptinae. Many of the species oviposit into the egg cocoons of spiders or cocoons of beneficial insects such as Chrysopidae, Braconidae, or other Ichneumonidae. Species of a number of genera attack the puparia or larvae of cyclorrhaphous Diptera.

SUBTRIBE CHIROTICINA

Most of the species of this subtribe occur in the tropics or subtropics. There are 18 genera, but only the worldwide genus *Chirotica* has Nearctic species.

Genus CHIROTICA Foerster

Chirotica Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 173.

Type-species: *Hemiteles insignis* Gravenhorst. By subsequent monotypy from inclusion by Schmiedeknecht, 1897.

Allocota Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 173. Preocc. by Motschulsky, 1860.

Type-species: *Allocota confederatae* Ashmead. By subsequent monotypy from inclusion by Ashmead, 1896.

Spinolia Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 173. Preocc. by Dahlbom, 1854; Costa, 1858; and Robineau-Desvoidy, 1863.

Type-species: *Hemiteles maculipennis* Gravenhorst. By subsequent monotypy from inclusion by Schmiedeknecht, 1897.

Syneches Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 173. Preocc. by Walker, 1852.

Type-species: *Hemiteles thyridopteryx* Riley. By subsequent monotypy from inclusion by Ashmead, 1900.

Diaglypta Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 176.

Type-species: *Diaglypta radiata* Ashmead. By subsequent monotypy from inclusion by Ashmead, 1895.

Deuterospinolia Dalla Torre, 1902. Cat. Hym. v. 3, p. 678. N. name for *Spinolia* Foerster.

Hymenosyneches Viereck, 1912. U. S. Natl. Mus., Proc. 42: 149. N. name for *Syneches*

Foerster.

Aphadnus Cameron, 1907. Ann. and Mag. Nat. Hist. (7) 20: 26.

Type-species: *Aphadnus rufipes* Cameron. Monotypic. *A. rufipes* is regarded as a synonym of *Chirotica decorata* (Tosquinet), which is one of the intermediate species tending to merge *Chirotica* and *Paraphylax* Foerster (see Townes, 1970).

Between 1944 and 1962 the name *Phobetes* Foerster was used for this genus in North America. Perkins' (1962) correction of the type-species of *Phobetes* from *Phobetes albinopennis* Davis to *Tryphon fuscicornis* Holmgren transferred the name *Phobetes* to the Ctenopelmatinae, Eu-

ryproctini. A similar correction also made by Perkins (1962), regarding the type-species of *Chirotica*, resulted in *Chirotica* being removed from synonymy with *Gelis* to take its present application.

Members of this genus parasitize Psychidae.

Taxonomy: Perkins, 1962. Brit. Mus. (Nat. Hist.) Ent., Bul. 11: 389, 413-414, 445. —Townes, 1970 (1969). Amer. Ent. Inst., Mem. 12: 21.

confederata (Ashmead). Fla., Mo., La.; Cuba, Guatemala, Honduras. Host: *Astala confederata* (Grt.), *Cryptothlea nigrita* (B. and M.).

Hemiteles alaeasciatus Riley, 1890. In Riley and Howard, U. S. Dept. Agr., Insect Life 3: 153. Nomen nudum.

Allocota confederata Ashmead, 1896. Amer. Ent. Soc., Trans. 23: 208. ♀.

conspicua (Cresson). N. C., Tex. Host: Psychid.

Hemiteles conspicuus Cresson, 1872. Amer. Ent. Soc., Trans. 4: 161. ♀.

Taxonomy: Walley, 1941. Canad. Ent. 73: 165.

sheppardi (Walley). Que., Ont., Fla., Idaho, B. C., Wash. Host: *Hyaloscotes pithopoera* (Dyar). *Allocota sheppardi* Walley, 1941. Canad. Ent. 73: 165. ♀.

thyridopteryx (Riley). Mass. s. to Fla., w. to S. Dak. and s. Calif.; Mexico. Host: *Astala edwardsii* (Heyl.), *Cryptothlea gloveri* (Pack.), *C. nigrita* (B. and M.), *Oiketicus abbotii* Grt., *Thyridopteryx ephemeraeformis* (Haw.). Three to six individuals emerge from a single host.

Hemiteles? thyridopteryx Riley, 1869. Mo. State Ent., Ann. Rpt. 1: 150. ♀, ♂.

Hemiteles thyridopterigis Riley, 1881. U. S. Ent. Comm., Bul. 6: 65. Emend.

Phobetes albinoensis Davis, 1898 (1897). Amer. Ent. Soc., Trans. 24: 311. ♂.

Hemiteles thyridopterigis var. *leucozonatus* Ashmead, 1890. In Riley and Howard, U. S. Dept. Agr., Insect Life 3: 152. Nomen nudum.

Hemiteles thyridopterigis var. *fuscus* Riley, 1890. In Riley and Howard, U. S. Dept. Agr., Insect Life 3: 152. Nomen nudum.

Biology: Balduf, 1937. Ent. Soc. Wash., Proc. 39: 177-178.

SUBTRIBE ACROLYTINA

Some members of this subtribe commonly oviposit into the cocoons of Braconidae or other Ichneumonidae. It is possible that some species may at least occasionally be primary parasites of cocoon spinning Lepidoptera, but I am not aware of information establishing this as fact.

Genus CORMOBIUS Townes

Cormobius Townes, 1970 (1969). Amer. Ent. Inst., Mem. 12: 32.

Type-species: *Cormobius tenuis* Townes. Monotypic and orig. desig.

There are two undescribed Nearctic species.

tenuis Townes. Md., S. C. Ecology: Two females (holotype and one paratype) were found crawling over the bark of a large standing dead *Quercus*.

Cormobius tenuis Townes, 1970 (1969). Amer. Ent. Inst., Mem. 12: 32. ♀.

Genus ENCRATEOLA Strand

Encrates Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 180. Preocc. by Gistel, 1848.

Type-species: *Hemiteles (Encratis[!?]) subimpressus* Brischke. By subsequent monotypy from inclusion by Brischke, 1892. The type-species is considered to be a synonym of *Encrateola laevigata* (Ratzeburg).

Encrateola Strand, 1916. Arch. f. Naturgesch. (Abt. A) 81 (5): 77. N. name for *Encrates* Foerster.

laevigata longicornis (Provancher). Que., N. H., N. Y., Wash., Oreg. *E. laevigata laevigata* (Ratzeburg) occurs in Europe.

Hemiteles longicornis Provancher, 1882. Nat. Canad. 13: 361. ♀.

Taxonomy: Townes, 1970 (1969). Amer. Ent. Inst., Mem. 12: 34. —Barron, 1975. Nat. Canad. 102: 498 (lectotype selection).

Genus EUDELUS Foerster

Eudelus Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 179.

Type-species: *Hemiteles scabriculus* Thomson. Monotypically included and desig. by Perkins, 1962.

Idemum Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 179.

Type-species: *Hemiteles (Idemum) crassiformis* Viereck. By subsequent monotypy from inclusion by Viereck, 1917.

Calliphurus Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 210.

Type-species: *Calliphurus granulosus* Davis. By subsequent monotypy from inclusion by Davis, 1898.

crassiformis (Viereck). Conn.

Hemiteles (Idemum) crassiformis Viereck, 1917 (1916). Conn. State Geol. and Nat. Hist. Survey Bul. 22: 339-340. ♂.

granulosus (Davis). Ill.

Caliphurus granulosus Davis, 1898 (1897). Amer. Ent. Soc., Trans. 24: 290. ♂.

Genus ISDROMAS Foerster

Phatnacra Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 179.

Type-species: *Hemiteles (Phatnacra) Monterai* Lima. By subsequent monotypy from inclusion by Lima, 1948.

Isdromas Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 179.

Type-species: *Acrolyta aletiae* Ashmead. By subsequent monotypy from inclusion by Ashmead, 1900.

Larsephna Cameron, 1903. Entomologist 36: 97.

Type-species: *Larsephna varipes* Cameron. Desig. by Viereck, 1914.

Dactimorpha Viereck, 1912. U. S. Natl. Mus., Proc. 42: 636.

Type-species: *Dactimorpha peruviana* Viereck. Monotypic and orig. desig.

lycaenae (Howard). Pa. s. to Ala., w. to Iowa and Tex. Host: *Apaneles aletiae* Riley, A.

congregatus (Say), *Meteorus* sp., *Campolexis* sp., *Hyposoter fugitivus* (Say).

Hemiteles lycaenae Howard, 1889. In Scudder, Butterflies East. U. S. and Canada, v. 3, p. 1880. ♀.

Hemiteles aletiae Riley, 1890 (1889). In Ashmead, U. S. Natl. Mus., Proc. 12: 401. Nomen nudum.

Hemiteles bucculatricis Ashmead, 1890 (1889). U. S. Natl. Mus., Proc. 12: 401. ♀.

Hemiteles gracilariae Ashmead, 1890 (1889). U. S. Natl. Mus., Proc. 12: 401. ♀.

Orthopelma bedelliae Ashmead, 1890 (1889). U. S. Natl. Mus., Proc. 12: 415. ♂.

Hemiteles selmae Riley, 1890. In Riley and Howard, U. S. Dept. Agr., Insect Life 3: 153. Nomen nudum.

Acrolyta aletiae Ashmead, 1896. Amer. Ent. Soc., Trans. 23: 209. ♀, ♂.

Sychnoporthus(!) tuckeri Viereck, 1905. Kans. Acad. Sci., Trans. 19: 315. ♀.

Genus ACROLYTA Foerster

Acrolyta Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 174.

Type-species: *Acrolyta empretiae* Ashmead. Desig. by Viereck, 1914 from three species included by Ashmead, 1896.

Rhadinocera Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 177.

Type-species: *Hemiteles (Rhadinocera) algonginus* Viereck. By subsequent monotypy from inclusion by Viereck, 1917.

Mosia Seyrig, 1952. Acad. Malgache, Mem. 39: 69.

Type-species: *Mosia crassicornis* Seyrig. Monotypic and orig. desig.

Parhemiteles Seyrig, 1952. Acad. Malgache, Mem. 39: 82.

Type-species: *Parhemiteles flaviger* Seyrig. Orig. desig.

alticola (Ashmead). Colo., Wash. Host: *Apanteles* sp.

Hemiteles alticola Ashmead, 1890. Colo. Biol. Assoc., Bul. 1: 22. ♀.

mesochori Ashmead. Conn., Pa., N. C., S. C., Ark. Host: *Apanteles congregatus* (Say).

Ashmead gave D. C. as the type locality, but the syntypes were actually sent to Riley from Norwalk, Conn. by D. N. Couch.

Hemiteles mesochoridis Riley, 1890. In Riley and Howard, U. S. Dept. Agr., Insect Life 3: 153. Nomen nudum.

Acrolyta mesochori Ashmead, 1896. Amer. Ent. Soc., Trans. 23: 208. ♀.

nigricapitata (Cook and Davis). Que. s. to Tenn., w. to Iowa. Host: *Apanteles melanoscelus* (Ratz.), *Meteorus communis* (Cr.).

Hemiteles minutus Riley, 1890. In Riley and Howard, U. S. Dept. Agr., Insect Life 3: 153. Nomen nudum.

Hemiteles laticinctus Riley, 1890. In Riley and Howard, U. S. Dept. Agr., Insect Life 3: 153. Nomen nudum.

Mesochorus microgasteris Riley, 1890. In Riley and Howard, U. S. Dept. Agr., Insect Life 3: 156. Nomen nudum.

Ischnocerus nigricapitatus Cook and Davis, 1891. Mich. Agr. Expt. Sta., Bul. 73: 11. ♀.

Acrolyta emprettiae Ashmead, 1896. Amer. Ent. Soc., Trans. 23: 209. ♀.

Hemiteles laticinctus Ashmead, 1896. Amer. Ent. Soc., Trans. 23: 210. ♂.

Hemiteles (Rhadinocera) algonquinus Viereck, 1917 (1916). Conn. State Geol. and Nat. Hist. Survey Bul. 22: 340. ♂.

Biology: Muesebeck and Dohanian, 1927. U. S. Dept. Agr. Bul. 1487: 15.

washingtonensis (Cushman). Maine, N. H., N. Y., Mich. Townes (1970) placed this species as a synonym of *alticola*, but I have examined the holotypes of both and doubt that he is correct.

Stiboscopus washingtonensis Ashmead, 1906. In Slosson, Ent. News 17: 324. Nomen nudum.

Hemiteles (Isdromas) washingtonensis Cushman, 1922. U. S. Natl. Mus., Proc. 61 (8): 14. ♀.

Taxonomy: Townes, 1970 (1969). Amer. Ent. Inst., Mem. 12: 40.

Genus INDOVIA Seyrig

Indovia Seyrig, 1952. Acad. Malgache, Mem. 39: 132.

Type-species: *Indovia decorata* Seyrig. Orig. desig.

Townes (1970) synonymized *Indovia* with *Stiboscopus* Foerster, but a correction of the type-species of *Stiboscopus* from *Stiboscopus thoracicus* Ashmead to *Hemiteles mandibularis* Provancher makes *Stiboscopus* a synonym of *Lysibia* (which see). *Hemiteles pinifoliae* Cushman and *Alegina laricellae* Mason, which were placed in *Stiboscopus* by Townes, do not belong in *Indovia* and are here left in the subtribe *Mastrina* where they are placed provisionally in *Mastrus*.

Taxonomy: Townes, 1970 (1969). Amer. Ent. Inst., Mem. 12: 65-66.

maculithorax (Ashmead), n. comb. Fla.; Puerto Rico, Virgin Isls., Lesser Antilles. Host:

Apanteles sp. There is a specimen in the U. S. Natl. Mus. collection which was reared from an *Apanteles* cocoon in 1927 at Sanford, Fla. by W. E. Stone.

Hemiteles maculithorax Ashmead, 1895. Zool. Soc. London, Proc. 65: 780. ♂.

Stiboscopus thoracicus Ashmead, 1890. Ent. Soc. London, Trans. 48: 267. ♀, ♂.

Taxonomy: Townes and Townes, 1966. Amer. Ent. Inst., Mem. 8: 55 (syn.).

Genus NEOPIMPLA Ashmead

Neopimpla Ashmead, 1900. U. S. Natl. Mus., Proc. 23: 56.

Type-species: *Neopimpla abbotti* Ashmead. Monotypic and orig. desig.

Cyrtobasis Cushman, 1919. Ent. Soc. Wash., Proc. 21: 114. N. syn.

Type-species: *Cyrtobasis rogae* Cushman. Monotypic and orig. desig.

Microceratops Seyrig, 1952. Acad. Malgache, Mem. 39: 88. N. syn.

Type-species: *Microceratops dentifrons* Seyrig. Monotypic and orig. desig.

Townes (1971) erroneously placed *Neopimpla* as a synonym of *Astomaspis* Foerster and declared that the type locality of *N. abbotti* Ashmead is Zululand in South Africa by virtue of his synonymizing *abbotti* with *Caenopimpla crassa* Morley (1926). However, the handwritten manuscript of Ashmead's (1900) classification of the Ichneumonoidea shows that his parenthetical citation "Africa" was intended for *Hemipimpla* Saussure and not *Neopimpla*. Ashmead's use of the name *abbotti* for the type-species of *Neopimpla* was apparently a lapsus for the name he really intended and was caused by his confusion with his genus *Erythropimpla* (type-species: *E. abbotti* Ashmead). The only specimens ever to be found bearing a label with the name *Neopimpla* in Ashmead's handwriting are two of Cushman's paratypes of *Cyrtobasis rogae*. As noted by Cushman, these specimens run to *Neopimpla* in Ashmead's key to the Pimplini.

Taxonomy: Cushman, 1919. Ent. Soc. Wash., Proc. 21: 116. — Townes, 1971. Ent. Soc. Wash., Proc. 73: 445.

bicarinata (Riley), n. comb. Ill. , Mo., Kans., Colo. Host: *Rogas* sp.

Polyphincta bicarinata Riley, 1871. Mo. State Ent., Ann. Rpt. 3: 71. ♂.

Neopimpla abbotti Ashmead, 1900. U. S. Natl. Mus., Proc. 23: 56. ♀. N. syn.

Cyrtobasis rogae Cushman, 1919. Ent. Soc. Wash., Proc. 21: 115. ♀.

Genus DIAGLYPTIDEA Viereck

Diaglyptidea Viereck, 1913. U. S. Natl. Mus., Proc. 46: 371.

Type-species: *Diaglyptidea roepkei* Viereck. Monotypic and orig. desig.

lavoei (Provancher). Que., Maine, N. H., N. Y., Mich., Wis.

Phyadeon Lavoei Provancher, 1882. Nat. Canad. 13: 353. ♀.

Hemiteles pallipennis Provancher, 1882. Nat. Canad. 13: 360. ♀, ♂.

Genus LYSIBIA Foerster

Pemon Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 174.

Type-species: *Pemon proximum* Perkins. Monotypically included and desig. by Perkins, 1962.

Lysibia Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 175.

Type-species: *Hemiteles fulvipes* Gravenhorst. Desig. by Townes, Momoi, and Townes, 1965 from three species included by Townes, Townes, and Gupta, 1961.

The type-species is regarded as a junior synonym of *Lysibia nana* (Gravenhorst).

The designation of *nana* as type-species by Perkins (1962) is invalid because *nana* was not among the species included by Townes, Townes, and Gupta (1961).

Stiboscopus Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 182. N. syn.

Type-species: *Hemiteles mandibularis* Provancher. By subsequent monotypy from inclusion by [Ashmead in] Slosson, 1896. Viereck (1911, 1914) and Perkins (1962) incorrectly believed Ashmead (1900) to be the oldest inclusion of species in *Stiboscopus*; consequently, Viereck's designation of *Stiboscopus thoracicus* Ashmead as the type-species of *Stiboscopus* is invalid.

Haplaspis Townes, 1944. Amer. Ent. Soc., Mem. 11: 190. N. syn.

Type-species: *Hemiteles mandibularis* Provancher. Orig. desig.

Between 1914 and 1944 the name *Astomaspis* Foerster was applied to this genus in the belief that *Hemiteles fulvipes* Gravenhorst was its type-species. In 1944 Townes corrected this error, but he made another in describing *Astomaspis* of authors as the new genus *Haplaspis* while overlooking the fact that the name *Stiboscopus* should have been applied instead; it should have occurred to him to investigate this possibility because of the fact that the combination "*Stiboscopus mandibularis* Slosson, ... 1896" is given in his synonymy for *mandibularis* (Provancher). Since 1961 the name *Lysibia* has been applied to this genus, and I here suppress *Stiboscopus* as a synonym of *Lysibia* because I have been urged not to suppress *Lysibia*. *Stiboscopus* sensu Townes (1970) and Townes and Townes (1973) was a confused mixture of species; the two Nearctic species, *Hemiteles pinifoliae* Cushman and *Alegina laricellae* Mason, belong in the subtribe Mastrina (i.e. where Townes had placed *Stiboscopus*) where I am placing them provisionally in the genus *Mastrus*; the other three species belong in *Indovia*, which is here placed in the subtribe Acrolytina.

Taxonomy: Slosson, 1896. Ent. News 7: 264 (the combination "*Stiboscopus mandibularis* Prov." was almost certainly provided by Ashmead rather than Davis and was the first inclusion of a species in *Stiboscopus*). — Viereck, 1911. U. S. Natl. Mus., Proc. 40: 193 (incorrect designation of *Stiboscopus thoracicus* Ashmead as type-species of *Stiboscopus*). — Viereck, 1914. U. S. Natl. Mus., Bul. 83: 138 (oversight of first inclusion of species in *Stiboscopus* as well as type-species designation by Viereck, 1911). — Townes, Townes, and Gupta, 1961. Amer. Ent. Inst., Mem. 1: 123 (first inclusion of species in *Lysibia*). — Perkins, 1962. Brit. Mus. (Nat. Hist.) Ent., Bul. 11: 436, 453. — Townes, 1970 (1969). Amer. Ent. Inst., Mem. 12: 65. — Townes and Townes, 1973. Amer. Ent. Inst., Mem. 19: 76.

mandibularis (Provancher). Que. s. to N. C., w. to Oreg. and Calif. Host: *Apanteles glomeratus* (L.), *A. longicornis* (Prov.), *A. melanoscelus* (Ratz.), *A. scitulus* Riley, *A. xylinus* (Say), *A. yakutensis* Ash., *Microplitis gortynae* Riley. According to Townes and Townes (1951) the Gravenhorst names *fulvipes* and *nana* have been erroneously applied to this Nearctic species (*L. nana* being Palearctic).

Hemiteles mandibularis Provancher, 1875. Nat. Canad. 7: 315. ♀.

Acrolyta smerinthi Ashmead, 1900. In Smith, N. J. State Bd. Agr., Ann. Rpt. 27, sup., p. 569. Nomen nudum.

Taxonomy: Townes and Townes, 1951. U. S. Dept. Agr., Agr. Monog. 2: 238.

Biology: Muesebeck and Dohanian, 1927. U. S. Dept. Agr., Bul. 1487: 14 (as *fulvipes*, misdet.). — Cushman, 1928. N. Y. (Cornell) Agr. Expt. Sta., Mem. 101: 929 (as *nana*, misdet.).

SUBTRIBE HEMITELINA

Genus PLEUROGYRUS Townes

Pleurogyrus Townes, 1970 (1969). Amer. Ent. Inst., Mem. 12: 44.

Type-species: *Hemiteles hungerfordi* Cushman. Orig. desig.

Members of this genus parasitize Gyrinidae which attach their pupal cases to the stems of aquatic plants a few inches above the water line.

Biology: Butcher, 1933. Ent. Soc. Amer., Ann. 26: 79-82.

cheboyganensis (Butcher). Mich. Host: *Gyrinus* sp.

Hemiteles cheboyganensis Butcher, 1933. Ent. Soc. Amer., Ann. 26: 77. ♀.

hungerfordi (Cushman). Mich. Host: *Gyrinus* sp.

Hemiteles hungerfordi Cushman, 1930 (1929). U. S. Natl. Mus., Proc. 76 (25): 4. ♂, ♀.

Taxonomy: Butcher, 1933. Ent. Soc. Amer., Ann. 26: 79.

Genus OBISIPHAGA Morley

Obisiphaga Morley, 1907. Brit. Ichn., v. 2, p. 59.

Type-species: *Aptesis stenoptera* Marshall. Monotypic.

According to Townes (1970) an undescribed species apparently belonging to this genus occurs in the northwestern U. S. The European *O. stenoptera* has been reared from the egg nests of a pseudoscorpion, *Obisium* sp.

Genus AROTREPES Townes

Arotrepes Townes, 1970 (1969). Amer. Ent. Inst., Mem. 12: 45.

Type-species: *Cryptus pusillus* Cresson. Orig. desig.

mitralis (Provancher). Que.

Platylabus mitralis Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 37. ♀.

pusillus (Cresson). Mass., N. Y., Md., Ill. Ecology: Occurs in marshy meadows.

Cryptus pusillus Cresson, 1864. Ent. Soc. Phila., Proc. 3: 302.

Genus XIPHULCUS Townes

Xiphulcus Townes, 1970 (1969). Amer. Ent. Inst., Mem. 12: 46.

Type-species: *Hemiteles longulus* Thomson. Orig. desig. The type-species is regarded as a synonym of *x. floriculator* (Gravenhorst).

Townes said "this is a moderate sized genus [he knew 15 species], of Holarctic distribution," but the Nearctic species known to him are apparently undescribed.

Taxonomy: Horstmann, 1974. Mus. Natl. Hungarici, Ann. Hist.-Nat. 66: 344 (European spp.).

Genus HEMITELES Gravenhorst

Hemiteles Gravenhorst, 1829. Ichn. Europaea, v. 2, p. 780.

Type-species: *Hemiteles tristator* Gravenhorst. Desig. by Westwood, 1840. The type-species is considered to be a synonym of *H. bipunctator* (Thunberg).

Ocymorus Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 180.

Type-species: *Hemiteles cingulator* Gravenhorst. Monotypically included and desig. by Townes, 1944. The type-species is considered to be a synonym of *H. bipunctator* (Thunberg).

Members of this genus apparently parasitize spider egg cocoons.

humeralis Provancher. Que. w. to Minn., s. to Tex.

Hemiteles humeralis Provancher, 1874. Nat. Canad. 6: 333. ♀.

Stilpnus appendiculatus Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 44. ♂.

Genus ACLASTUS Foerster

Microplex Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 175.

Type-species: *Aclastus rufipes* Ashmead. By subsequent monotypy from inclusion by Roman, 1909.

Daetora Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 175.

Type-species: *Hemiteles solutus* Thomson. Monotypically included and desig. by Perkins, 1962.

Aclastus Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 175.

Type-species: *Aclastus rufipes* Ashmead. By subsequent monotypy from inclusion by Ashmead, 1902.

Opisthostenus Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 175.

Type-species: *Hemiteles (Opisthostenus) etorofuensis* Uchida. By subsequent monotypy from inclusion by Uchida, 1936.

flagellatus (Davis). Colo., Alta., Wash.

Proctlius flagellatus Davis, 1897. Amer. Ent. Soc., Trans. 24: 246. ♂.

gracilis (Thomson). Greenland: Eurasia.

Hemiteles gracilis Thomson, 1884. Opusc. Ent. 10: 989. ♀, ♂.

Hemiteles solutus Thomson, 1884. Opusc. Ent. 10: 990. ♂, ♀.

Hemiteles minutus Bridgman, 1886. Ent. Soc. London, Trans. 34: 340. ♂, ♀.

Taxonomy: Roman, 1916. Arkiv. for Zool. 10 (7): 6-7. —Roman, 1925 (1924). Arkiv. for Zool. 17A (4): 14-15. —Jussila, 1965. Univ. Turku, Ann. (A, II) 34: 153.

karlukensis (Ashmead). Alaska.

Acrolyta karlukensis Ashmead, 1902. Wash. Acad. Sci., Proc. 4: 186. ♀.

nigritus (Ashmead). Alaska; e. U. S. S. R.

Stibeutes nigrita Ashmead, 1899 (1898). In Jordan, Fur Seals and Fur-seal Isls. No. Pacific, v. 4, p. 338. ♀.

Spinolia minuta Ashmead, 1902. Wash. Acad. Sci., Proc. 4: 186. ♀. Preocc. in *Aclastus* by Bridgman, 1886.

rufipes (Ashmead). Alaska.

Stiboscopus alaskensis Ashmead, 1902. Wash. Acad. Sci., Proc. 4: 171. ♀.

Acrolyta aciculata Ashmead, 1902. Wash. Acad. Sci., Proc. 4: 186. ♂.

Aclastus rufipes Ashmead, 1902. Wash. Acad. Sci., Proc. 4: 187. ♀.

Genus POLYAUOLON Foerster

Polyaulon Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 171.

Type-species: *Polyaulon incertus* Foerster. Desig. by Viereck, 1914 from 12 species included by Foerster, 1871.

Myersia Viereck, 1912. U. S. Natl. Mus., Proc. 43: 575.

Type-species: *Myersia laminata* Viereck. Monotypic and orig. desig.

Thaumatotypidea Viereck, 1912. U. S. Natl. Mus., Proc. 43: 577.

Type-species: *Cremnoides tuberculatus* Ashmead. Orig. desig.

Rhacodopteron Capek, 1956. Zool. Listy 5: 285. The author placed the genus in the Braconidae.

Type-species: *Rhacodopteron stiavnicense* Capek. Monotypic and orig. desig.

bimaculatus (Ashmead). Ind.

Orthopelma bimaculatum Ashmead, 1890 (1889). U. S. Natl. Mus., Proc. 12: 416. ♂.
canadensis (Harrington). B. C.

Cremnoides canadensis Harrington, 1894. Canad. Ent. 26: 213. ♀.

Taxonomy: Strickland, 1912. Ent. Soc. Amer., Ann. 5: 115.

erythropa Ashmead. Va.

Orthopelma erythropa Ashmead, 1890 (1889). U. S. Natl. Mus., Proc. 12: 416. ♂.

grandis (Cushman). B. C.

Myersia grandis Cushman, 1921. Ent. Soc. Wash., Proc. 23: 110. ♀.

koebelei (Cushman). Wash., Oreg.

Thaumatotypidea koebelei Cushman, 1921. Ent. Soc. Wash., Proc. 23: 112. ♂.

laminatus (Viereck). Que. s. to Fla., w. to Ohio and Ala.

Myersia laminata Viereck, 1912. U. S. Natl. Mus., Proc. 43: 576. ♀.

Myersia pallida Cushman, 1919. U. S. Natl. Mus., Proc. 55: 522. ♀.

Myersia johnsoni Cushman, 1921. Ent. Soc. Wash., Proc. 23: 110. ♀.

Myersia harringtoni Viereck, 1925. Canad. Ent. 57: 73. ♀.

Taxonomy: Cushman, 1921. Ent. Soc. Wash., Proc. 23: 110.

niger (Viereck). B. C.

Myersia nigra Viereck, 1925. Canad. Ent. 57: 73. ♂.

spinulatus (Strickland). Conn.

Thaumatotypus spinulatus Strickland, 1912. Ent. Soc. Amer., Ann. 5: 116. ♀.

tuberculatus (Ashmead). Mont., Alaska, Calif. Host: Spider egg cocoon.

Cremnoides tuberculatus Ashmead, 1896. Amer. Ent. Soc., Trans. 23: 211. ♀.

Cremnoides alaskensis Ashmead, 1896. Amer. Ent. Soc., Trans. 23: 211. ♀.

Taxonomy: Strickland, 1912. Ent. Soc. Amer., Ann. 5: 115.

SUBTRIBE GNYPETOMORPHINA

Genus ANUROTROPUS Cushman

Anurotropus Cushman, 1924. U. S. Natl. Mus., Proc. 64 (4): 4.

Type-species: *Anurotropus minutus* Cushman. Monotypic and orig. desig.

minutus Cushman. Conn., Ga., Mich., Ill., Minn.

Anurotropus minutus Cushman, 1924. U. S. Natl. Mus., Proc. 64 (4): 5. ♂, ♀.

SUBTRIBE GELINA

Genus XENOLYTUS Foerster

Xenolytus Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 174.

Type-species: *Xenolytus rufipes* Cameron. By subsequent monotypy from inclusion by Cameron, 1906.

Sternocryptus Roman, 1925 (1924). Arkiv for Zool. 17A (4): 12.

Type-species: *Cryptus bitinctus* Gravenhorst. Monotypic and orig. desig. *Cryptus bitinctus* Gravenhorst is an identification of *Ichneumon bitinctus* Gmelin.

bitinetus (Gmelin). Maine, Ont., B. C., Calif.; Eurasia, New Zealand, Australia, Africa. Ecology: In England commonly found in warehouses, granaries, feedstores, and flour mills where it was most frequently associated with *Tinea pallescentella* Stainton, *Endrosis sarcitrella* (L.), and *Hofmannophila pseudospretella* (Stainton); a series was also reared from a birds nest (Richards, 1949). Adventive.

Ichneumon bitinctus Gmelin, 1790. In Linnaeus, Syst. Nat., ed. 13, v. 1, pt. 5, p. 2719. ♀.
Ichneumon expulsor Thunberg, 1922; 1924. Acad. Imp. des Sci. St. Petersburg, Mem. 8: 263; 9: 316. ♀.

Cryptus apicalis Gravenhorst, 1829. Ichn. Europaea, v. 2, p. 574. ♀.

Phygadeuon limatus Cresson, 1879 (1878). Acad. Nat. Sci. Phila., Proc. 30: 358. ♀.

Hemiteles occidentalis Harrington, 1894. Canad. Ent. 26: 213. ♀.

Hemiteles destructivus Cameron, 1898. Manchester Lit. and Phil. Soc., Mem. and Proc. 42 (1): 26. ♀.

Bathymetis antipoda Ashmead, 1900. Ent. News 11: 624. ♀.

Xenolytus rufipes Cameron, 1906. So. African Mus., Ann. 5: 154. ♀.

Taxonomy: Roman, 1912. Zool. Bidr. Uppsala 1: 254 (syn.). —Schmiedeknecht, 1932. Opusc. Ichn., Sup., fasc. 14, p. 41 (syn.). —Townes, Townes, and Gupta, 1961. Amer. Ent. Inst., Mem. 1: 125 (syn.). —Townes, 1970 (1969). Amer. Ent. Inst., Mem. 12: 52 (syn.).

Biology: Richards, 1949. Roy. Ent. Soc. London, Proc. (Ser. B [Taxonomy]) 18: 25-28 (speculation concerning hosts).

subspinosis (Provancher). Que., N. Y., Alta.

Hemiteles subspinosis Provancher, 1874. Nat. Canad. 6: 333. ♀.

Genus DICHROGASTER Doumerc

Dichrogaster Doumerc, 1955. Soc. Ent. de France, Bul. (in Ann.) (3) 3: LXXXVIII.

Type-species: *Microgaster perlæ* Doumerc: Monotypic. The type-species is considered to be a synonym of *D. aestivalis* (Gravenhorst).

Otacustes Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 174.

Type-species: *Otacustes atriceps* Ashmead. Desig. by Viereck, 1914 from two species included by Ashmead, 1894.

Microtorus Foerster, 1868. Naturh. Verh. Rheinlande, Verh. 25: 178.

Type-species: *Microtorus kichijoi* Uchida. Desig. by Townes, 1957 from two species included by Uchida, 1940.

Xenobrachys Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 179.

Type-species: *Hemiteles longicaudatus* Thomson. Monotypically included and desig. by Perkins, 1962.

Brachycephalus Foerster, 1868. aturh. Ver. Rheinlande, Verh. 25: 179. Preocc. by Fitzinger, 1826; Hollard, 1857; and Signoret, 1866.

Type-species: *Hemiteles aestivalis* Gravenhorst. Desig. by Townes, 1944 from four species included by Roman, 1925.

Brachycranium Ashmead, 1900. Canad. Ent. 32: 368. N. name for *Brachycephalus* Foerster.

Chrysopoconthus Cushman, 1919. U. S. Natl. Mus., Proc. 55: 518.

Type-species: *Otacustes atriceps* Ashmead. Orig. desig.

Members of this genus parasitize cocoons of Chrysopidae and Hemerobiidae.

Revision: Horstmann, 1973. Ent. Scand. 4: 65-72 (European spp.).

Taxonomy: Cushman, 1924. U. S. Natl. Mus., Proc. 64 (4): 1 (key to N. Amer. spp.).

bicolor (Cushman). Fla. Host: *Nodita pavida* (Hagen).

Chrysopoconthus bicolor Cushman, 1924. U. S. Natl. Mus., Proc. 64 (4): 1. ♂, ♀.

chrysopae chrysopae (Ashmead). rev. status. Del., N. C., S. C., Fla., Miss. Host: *Chrysopa bimaculata* McCl., *C. cubana* Hagen, *C. oculata* Say, *C. rufilabris* Burm., *C. sanchezi* Navas.

Otacustes chrysopae Ashmead, 1894. U. S. Dept. Agr., Insect Life 7: 243. ♂.

Otacustes atriceps Ashmead, 1894. U. S. Dept. Agr., Insect Life 7: 244. ♀.

- chrysopae patruelis* (Cushman). Ariz., B. C. s. to Calif. Host: *Chrysopa plorabunda* Fitch.
Chrysopoctonus patruelis Cushman, 1919. U. S. Natl. Mus., Proc. 55: 520. ♂, ♀.
- crassa* (Provancher). Que. s. to D. C., w. to Oreg. Host: *Chrysopa harrisii* Fitch, *C. nigricornis* Burm., *C. plorabunda* Fitch, *C. rufilabris* Burm., *Hemerobius* sp. I believe that Townes and Townes (1951) were incorrect in treating *chrysopae* (Ashmead) and *chrysopae patruelis* (Cushman) as subspecies of *crassa*.
- Hemiteles crassus* Provancher, 1882. Nat. Canad. 13: 361. ♂.
- Hemiteles rileyi* Ashmead, 1890 (1889). U. S. Natl. Mus., Proc. 12: 402. ♂.
- Hemiteles hemerobi* Ashmead, 1890 (1889). U. S. Natl. Mus., Proc. 12: 404. ♂.
- Hemiteles hemerobiicola* (!) Riley and Howard, 1890. U. S. Dept. Agr., Insect Life 3: 153.
- Hemiteles rufiventris* Riley, 1890. In Riley and Howard, U. S. Dept. Agr., Insect Life 3: 153. Nomen nudum.
- Hemiteles euryptychiae* Ashmead, 1896. Amer. Ent. Soc., Trans. 23: 210. ♀. The correct data for the holotype of *euryptychiae* were cited by Riley under the above nomen nudum, *rufiventris*.
- Hemiteles (Otaeutes) cressoniformis* Viereck, 1917 (1916). Conn. State Geol. and Nat. Hist. Survey Bul. 22: 339, 340. ♀.

Taxonomy: Cushman, 1919. U. S. Natl. Mus., Proc. 55: 520. —Townes and Townes, 1951. U. S. Dept. Agr., Agr. Monog. 2: 235.

Genus GELIS Thunberg

- Gelis* Thunberg, 1827. Soc. Sci. Upsala, Nov. Acta 9: 199.
- Type-species: *Mutilla acarorum* Linnaeus. Desig. by Viereck, 1914.
- Pezomachus* Gravenhorst, 1829. Ichn. Europaea, v. 2, p. 867.
- Type-species: *Mutilla acarorum* Linnaeus. Desig. by Curtis, 1835.
- Pezolochus* Foerster, 1850. Arch. f. Naturgesch. 16 (1): 71.
- Type-species: *Pezolochus rufipes* Foerster. Monotypic.
- Hemimachus* Ratzburg, 1852. Ichn. d. Forstins., v. 3, p. 157.
- Type-species: *Hemimachus fasciatus* Ratzburg. Desig. by Viereck, 1914.
- Thaumatotypus* Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 172.
- Type-species: *Thaumatotypus femoralis* Brischke. By subsequent monotypy from inclusion by Brischke, 1881.
- Plesiomma* Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 176. Preocc. by Macquart, 1838. Placed as a synonym of *Gelis* by Townes (1970), but no species have ever been included.
- Alegina* Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 176.
- Type-species: *Algina(!) alaskensis* Ashmead. By subsequent monotypy from inclusion by Ashmead, 1902.
- Rhadiogus* Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 177. Preocc. by Loew, 1849.
- Type-species: *Hemiteles bicolorinus* Gravenhorst. By subsequent monotypy from inclusion by Uchida, 1933 (June). The type-species is considered to be a synonym of *Gelis cinctus* (Linnaeus).
- Aschistus* Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 177.
- Type-species: *Hemimachus variabilis* Ratzburg. Desig. by Viereck, 1914 from two species included by Brischke, 1891. The type-species is considered to be a synonym of *Gelis cursitans* (Fabricius).
- Blapsidotes* Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 177.
- Type-species: *Hemiteles melanarius* Gravenhorst. Monotypically included and desig. by Perkins, 1962.
- Philonygmus* Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 177.
- Type-species: *Philonygus(!) alaskensis* Ashmead. Desig. by Viereck, 1914 from two species included by Ashmead, 1902.
- Barydotira* Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 178.
- Type-species: *Barydotira hammari* Viereck. By subsequent monotypy from inclusion by Viereck, 1912.
- Ilapinastes* Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 179.

Type-species: *Hemiteles davidsonii* Ashmead. By subsequent monotypy from inclusion by Ashmead, 1896.

Uirthreptus Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 180. According to Perkins (1962) a male specimen of *Gelis* (species still unidentified) in the Foerster collection bears the name *Uirthreptus*. No species included.

Teriphora Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 185.

Type-species: *Alegina alaskensis* Ashmead. Monotypically included and desig. by Viereck, 1914.

Micromeson Strickland, 1912. Ent. Soc. Amer., Ann. 5: 137.

Type-species: *Micromeson annulatum* Strickland. Desig. by Viereck, 1914.

Pezomachus subg. *Myrmicomorpha* Viereck, 1913. U. S. Natl. Mus., Proc. 44: 566.

Type-species: *Pezomachus (Myrmicomorpha) perniciosus* Viereck. Monotypic and orig. desig.

Gelis subg. *Leptogelis* Ceballos, 1925. Eos 1: 155.

Type-species: *Gelis (Leptogelis) ariasi* Ceballos. Desig. by Townes, 1944.

Thaumatogelis Kupka, 1933. In Schmiedeknecht, Opusc. Ichn., Sup., fasc. 17, p. 7-8. Name invalid; type-species not designated.

Gelis subg. *Cryptogelis* Hellen, 1944. Notulae Ent. 24: 2. Name invalid; type-species not designated.

Gelis subg. *Holcogelis* Aubert, 1957. Muenchen. Ent. Gesell., Mitt. 47: 226.

Type-species: *Pezomachus corruptor* Foerster. Orig. desig.

Arctodeon Hellen, 1967. Notulae Ent. 47: 100.

Type-species: *Hemiteles glacialis* Holmgren. Monotypic and orig. desig.

Rhadiurginus Hellen, 1967. Notulae Ent. 47: 109. N. name for *Rhadiurus* Foerster.

Members of this genus are particularly well known as hyperparasites which attack the cocoons of Braconidae or other Ichneumonidae, but there are also many species which attack the egg cocoons of spiders. Apparently, some species of *Gelis* can sometimes be primary parasites in the cocoons of sawflies or small Lepidoptera.

Revision: Strickland, 1912. Ent. Soc. Amer., Ann. 5: 113-140 (of very limited use).

Taxonomy: Perkins, 1962. Brit. Mus. (Nat. Hist.) Ent., Bul. 11: 462. —Townes, 1970 (1969). Amer. Ent. Inst., Mem. 12: 53-55.

aciculatus (Strickland). Tex.

Pezomachus foersteri Brues, 1910. Wis. Nat. Hist. Soc., Bul. 8: 69. ♀. Preocc. by Bridgman, 1886.

Pezomachus aciculatus Strickland, 1912. Ent. Soc. Amer., Ann. 5: 136. N. name for *foersteri* Brues.

alegininus Carlson, n. name. Alaska.

Stiboscopus solitarius Ashmead, 1902. Wash. Acad. Sci., Proc. 4: 172. ♂. Preocc. in *Gelis* by Foerster, 1850. Because all of its known synonyms are also preocc., *solitarius* Ashmead is here given the new name *alegininus* in reference to its synonymy with the type-species of *Alegina*.

Alegina(!) alaskensis Ashmead, 1902. Wash. Acad. Sci., Proc. 4: 188. ♀. Preocc. in *Gelis* by Ashmead, 1890.

Philonygus(!) alaskensis Ashmead, 1902. Wash. Acad. Sci., Proc. 4: 189. ♂. Preocc. in *Gelis* by Ashmead, 1890 and Ashmead, 1902, p. 188.

Ilapinastes incertus Ashmead, 1902. Wash. Acad. Sci., Proc. 4: 190. ♂. Preocc. in *Gelis* by Foerster, 1850.

Taxonomy: Townes, 1970 (1969). Amer. Ent. Inst., Mem. 12: 53.

alogus (Viereck). Kans.

Pezomachus allogus Viereck, 1905. Kans. Acad. Sci., Trans. 19: 321. ♂.

alternatus (Cresson). Ill.

Pezomachus alternatus Cresson, 1872. Canad. Ent. 4: 64. ♀.

annulatus (Strickland). Pa., Md., Tex. Host: Spider eggs.

Micromeson annulatum Strickland, 1912. Ent. Soc. Amer., Ann. 5: 137. ♀.

apantelis Cushman. N. H., Mass., N. Y. Host: *Apanteles melanoscelus* (Ratz.).

papilionid, *Zerynthia hypermnestra* (Scop.), which was known to Rudow by the synonymous name "Thais polyxena."

Pezomachus dimidiaventris Rudow, 1917. Ent. Ztschr. 30: 102. ♀.

Taxonomy: Townes and Townes, 1973. Amer. Ent. Inst., Mem. 19: 362.
delumbis (Brues). Wash.

Pezomachus delumbis Brues, 1910. Wis. Nat. Hist. Soc., Bul. 8: 75. ♀.

dispar (Strickland). Pa., Md. Host: Spider eggs.

Pezomachus dispar Strickland, 1912. Ent. Soc. Amer., Ann. 5: 125. ♂, ♀.

drassi (Riley). Ohio, Kans., Ariz. Host: Eggs of Gnaphosidae.

Hemiteles drassi Riley, 1892. In Howard, Ent. Soc. Wash., Proc. 2: 296. ♂.

Pezomachus homalommoides Viereck, 1905. Kans. Acad. Sci., Trans. 19: 294. ♂.

Pezomachus testaceicorus Viereck, 1905. Kans. Acad. Sci., Trans. 19: 322. ♂.

fenestralis (Brues). N. H.

Pezomachus fenestralis Brues, 1910. Wis. Nat. Hist. Soc., Bul. 8: 71. ♂.

ferruginosus (Strickland). B. C., Wash., Oreg. Ecology: Secondary parasite of *Neodiprion tsugae* Midd. according to Furniss and Dowden (1941).

Pezomachus insolens Brues, 1910. Wis. Nat. Hist. Soc., Bul. 8: 74. ♀. Preocc. by Foerster, 1850.

Pezomachus ferruginosus Strickland, 1912. Ent. Soc. Amer., Ann. 5: 136. N. name for *insolens* Brues.

Biology: Furniss and Dowden, 1941. Jour. Econ. Ent. 34: 49.

foveatus (Brues). Mass.

Pezomachus foveatus Brues, 1910. Wis. Nat. Hist. Soc., Bul. 8: 73. ♂.

gelechiae (Ashmead). Calif. Ecology: Data files in the U. S. Natl. Museum indicate that *gelechiae* was associated with *Gnorimoschema operculella* (Zell.) which were infesting potato tubers.

Exolytus gelechiae Ashmead, 1890 (1889). U. S. Natl. Mus., Proc. 12: 397. ♂.

gracillimus (Dalla Torre). R. I., N. Y., Pa., Tex.

Pezomachus gracilis Cresson, 1872. Canad. Ent. 4: 63. ♀. Preocc. by Foerster, 1850.

Pezomachus gracillimus Dalla Torre, 1902. Cat. Hym., v. 3, p. 624. N. name for *gracilis* Cresson.

Pezomachus angularis Brues, 1903. Amer. Ent. Soc., Trans. 29: 122. ♀.

Pezomachus cressonii Strickland, 1912. Ent. Soc. Amer., Ann. 5: 136. N. name for *gracilis* Cresson; *cressonii* Strickland preocc. by Dalla Torre, 1902.

habilis (Brues). Mass.

Pezomachus habilis Brues, 1910. Wis. Nat. Hist. Soc., Bul. 8: 72. ♀.

hammarri (Viereck). Mass., Ark. Host: Casebearer on wild grape. Also reared as a secondary parasite of *Acrobasis indigenella* (Zell.).

Barydotira hammari Viereck, 1912. U. S. Natl. Mus., Proc. 43: 584. ♀.

Taxonomy: Townes, 1970 (1969). Amer. Ent. Inst., Mem. 12: 54.

inermis (Viereck). N. Mex.

Chirotica inermis Viereck, 1903. In Skinner, Amer. Ent. Soc., Trans. 29: 83. ♂.

insolitus (Howard). D. C. Ecology: Secondary parasite of *Orgyia leucostigma* (J. E. S.).

Pezomachus insolitus Howard, 1897. U. S. Dept. Agr. Bur. Ent. Tech. Ser. 5: 54. ♂.

inutilis Cushman. Mass., Ohio, Ill. Host: *Apanteles melanoscelus* (Ratz.).

Gelis inutilis Cushman, 1927. Jour. Agr. Res. 34: 455. ♂, ♀.

Biology: Muesebeck and Dohanian, 1927. U. S. Dept. Agr. Bul. 1487: 16.

keenii (Harrington). B. C.

Pezomachus Keenii Harrington, 1894. Canad. Ent. 26: 214. ♀.

kukakensis (Ashmead). Alaska.

Theroscopus kukakensis Ashmead, 1902. Wash. Acad. Sci., Proc. 4: 191. ♀.

longipes (Strickland). Calif.

Pezomachus longipes Strickland, 1912. Ent. Soc. Amer., Ann. 5: 123. ♀.

longipes (Rudow). Iowa.

Pezomachus longipes Rudow, 1917. Ent. Ztschr. 30: 103. ♀. Preocc. by Strickland, 1912; not renamed because of taxonomic uncertainties.

Taxonomy: Townes and Townes, 1973. Amer. Ent. Inst., Mem. 19: 362.

longistylus (Strickland). N. Amer.? Described from an unlabeled specimen.

Pezomachus longistylus Strickland, 1912. Ent. Soc. Amer., Ann. 5: 120. ♀.

lymensis (Strickland). Conn. Host: Eggs of Gnaphosidae.

Micromeson lymense Strickland, 1912. Ent. Soc. Amer., Ann. 5: 138. ♀.

macer (Cresson). Mass., N. Y., Pa., Md., Ohio, Ill., Tex. Host: Eggs of *Epeira foliata* (Geoff.), *Argiope* sp.

Pezomachus macer Cresson, 1872. Canad. Ent. 4: 64. ♂.

Pezomachus flavocinctus Ashmead, 1890 (1889). U. S. Natl. Mus., Proc. 12: 421. ♀.

maculatus (Strickland). Calif.

Pezomachus maculatus Strickland, 1912. Ent. Soc. Amer., Ann. 5: 121. ♀.

manni (Strickland). Calif.

Pezomachus manni Strickland, 1912. Ent. Soc. Amer., Ann. 5: 132. ♂.

meabilis (Cresson). Mass. s. to Va., w. to Iowa and Kans. Host: Eggs of *Agelenopsis naevia* (Walck.).

Pezomachus meabilis Cresson, 1872. Canad. Ent. 4: 62. ♀.

Pezomachus dimidiatus Cresson, 1872. Canad. Ent. 4: 63. ♀.

Pezomachus similis Strickland, 1912. Ent. Soc. Amer., Ann. 5: 127. ♂, ♀.

Pezomachus nodosus Strickland, 1912. Ent. Soc. Amer., Ann. 5: 128. ♀.

micariae (Howard). Mass., Pa., D. C. Host: Eggs of *Micaria* sp.

Pezomachus micariae Howard, 1892. Ent. Soc. Wash., Proc. 2: 294. ♂, ♀.

Hemiteles micarivora Riley, 1892. In Howard, Ent. Soc. Wash., Proc. 2: 295. ♂.

minimus (Walsh). Ill., Okla., Tex. Host: *Apanteles militaris* (Walsh).

Pezomachus minimus Walsh, 1861. Ill. State Agr. Soc., Trans. 4: 368. ♂, ♀.

Biology: Riley, 1870. Mo. State Ent., Ann. Rpt. 2: 52.

nigerrimus (Dalla Torre). Calif.

Pezomachus niger Provancher, 1888. Addit. Corr. Faune Ent. Canada Hym., p. 362. ♀.

Preocc. by Brischke, 1878.

Pezomachus nigerrimus Dalla Torre, 1902. Cat. Hym., v. 3, p. 630. N. name for *niger* Provancher.

nigriventris (Brues). Tex.

Pezomachus texanus var. *nigriventris* Brues, 1903. Amer. Ent. Soc., Trans. 29: 122. ♀.

nigrofuscus (Strickland). Pa.

Pezomachus nigrofuscus Strickland, 1912. Ent. Soc. Amer., Ann. 5: 133. ♂.

nocuus Cushman. Mass., N. Y., N. J., Pa., Ohio, N. C. Host: *Apanteles melanoscelus* (Ratz.), Ichneumonidae.

Gelis nocuus Cushman, 1927. Jour. Agr. Res. 34: 455. ♂, ♀.

Biology: Muesebeck and Dohanian, 1927. U. S. Dept. Agr. Bul. 1487: 16.

obesus (Ashmead). Alaska; Sweden.

Theroscopus rufipes Ashmead, 1902. Wash. Acad. Sci., Proc. 4: 191. ♂, ♀. Preocc. in *Gelis* by Bridgman, 1883.

Pezomachus obesus Ashmead, 1902. Wash. Acad. Sci., Proc. 4: 193. ♀.

Pezomachus auripes Strickland, 1912. Ent. Soc. Amer., Ann. 5: 134. ♂.

Pezomachus insularis Strickland, 1912. Ent. Soc. Amer., Ann. 5: 136. N. name for *T. rufipes* Ashmead.

Taxonomy: Roman, 1909. In Hamberg, Naturw. Untersuch. Sarekgebirges Schwedisch-Lappland, v. 4, p. 230.

obscurus (Cresson). Maine s. to Va., w. to Kans. Host: *Bucculatrix canadensisella* Chamb., *Coleophora laricella* (Hbn.), *C. salmania* Heinr., *Apanteles canarsiae* Ash., *A. lacteicolor* Vier., *A. melanoscelus* (Ratz.), *Heterarthrus nemoratus* (Fall.).

Pezomachus obscurus Cresson, 1872. Canad. Ent. 4: 62. ♀.

Pezolochus bucculatricis Ashmead, 1890 (1889). U. S. Natl. Mus., Proc. 12: 240. ♂, ♀.
Theroscopus americanus Ashmead, 1896. Amer. Ent. Soc., Trans. 23: 211. ♂.
Hemiteles ashmeadii Dalla Torre, 1902. Cat. Hym., v. 3, p. 643. N. name for *T. americanus*
 Ashmead, which was temporarily preocc. in *Hemiteles*.

Taxonomy: Muesebeck and Dohanian, 1927. U. S. Dept. Agr. Bul. 1487: 16, 17.

Biology: Muesebeck and Dohanian, 1927. U. S. Dept. Agr. Bul. 1487: 16, 17. — Friend, 1927.
 Comm. [State] Agr. Expt. Sta. Bul. 288: 449, 450.

Taxonomy: Cushman, 1927. Jour. Agr. Res. 34: 456. — Muesebeck and Dohanian, 1927. U. S.
 Dept. Agr. Bul. 1487: 16.

ottawaensis (Harrington). Conn., Ont., W. Va. Host: Eggs of Gnaphosidae?

Pezomachus ottawaensis Harrington, 1896. Canad. Ent. 28: 77. ♀.

Hemiteles ottawaensis Harrington, 1896: Canad. Ent. 28: 78. ♂. Preocc. in *Gelis* by
 Harrington, 1896, p. 77.

pennsylvanicus (Strickland). Pa.

Pezomachus pennsylvanicus Strickland, 1912. Ent. Soc. Amer., Ann. 5: 126. ♀.

perniciosus (Viereck). Tex. Host: *Apanteles militaris* (Walsh), *Meteorus laphygmae* Vier.,
Rogas laphygmae Vier.

Pezomachus (Myrmicomorpha) perniciosa Viereck, 1913. U. S. Natl. Mus., Proc. 44: 566.
 ♀.

pettiti (Cresson). Que., R. I., Ont.

Pezomachus Pettiti Cresson, 1872. Canad. Ent. 4: 61. ♀.

Pezomachus sulcatus Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 77. ♀.

popofensis (Ashmead). Alaska.

Theroscopus popofensis Ashmead, 1902. Wash. Acad. Sci., Proc. 4: 192. ♂.

prosthesimae (Riley). Mass. Host: Eggs of *Zelotes subterraneus* (Koch).

Hemiteles prosthesimae Riley, 1892. In Howard, Ent. Soc. Wash., Proc. 2: 294. ♂.

pumilis (Foerster). Alaska; Europe.

Pezomachus pumilus Foerster, 1850. Arch. f. Naturgesch. 16 (1): 131. ♀.

Pezomachus alaskenensis Ashmead, 1890 (1889). U. S. Natl. Mus., Proc. 12: 421. ♀.

Pezomachus nigrellus Ashmead, 1902. Wash. Acad. Sci., Proc. 4: 192. ♂, ♀.

Pezomachus minutus Strickland, 1912. Ent. Soc. Amer., Ann. 5: 119. ♀.

Taxonomy: Roman, 1909. In Hamberg, Naturw. Untersuch. Sarekgebirges
 Schwedisch-Lappland, v. 4, p. 232.

robustus (Strickland). Ariz.

Pezomachus robustus Strickland, 1912. Ent. Soc. Amer., Ann. 5: 120. ♀.

rotundiceps (Cresson). Tex.

Mesoleptus? rotundiceps Cresson, 1872. Amer. Ent. Soc., Trans. 4: 167. ♂.

Hemiteles pallidus Ashmead, 1890 (1889). U. S. Natl. Mus., Proc. 12: 406. ♂. N. syn. The
 holotype of *pallidus* has not been found, and it is my belief that its holotype is actually
 the same specimen as the holotype of *rotundiceps*. Although Ashmead's description of
 the propodeum does not agree perfectly with the holotype of *rotundiceps*, Ashmead is
 not renounced for his accuracy. There are at least two cases where it is known with
 certainty that Ashmead redescribed unique specimens from the Belfrage Collection
 which had already been described by Cresson.

sessilis (Provancher). Que., N. Y., S. C., Ohio, Oreg.

Hemiteles sessilis Provancher, 1874. Nat. Canad. 6: 334. ♀.

Taxonomy: Townes, 1970 (1969). Amer. Ent. Inst., Mem. 12: 55.

spiraculus (Strickland). N. Y., N. C. Host: *Microplitis gortynae* Riley.

Pezomachus spiraculus Strickland, 1912. Ent. Soc. Amer., Ann. 5: 124. ♀.

Gelis microplitidis Gahan, 1922. U. S. Natl. Mus., Proc. 61: 5. ♂, ♀.

stanfordensis (Strickland). Calif.

Pezomachus stanfordensis Strickland, 1912. Ent. Soc. Amer., Ann. 5: 123. ♀.

stigmaterus (Cresson). Tex.

Mesoleptus? stigmaterus Cresson, 1872. Amer. Ent. Soc., Trans. 4: 167. ♂.

stigmatus (Ashmead). Colo.

Hemiteles stigmatus Ashmead, 1890. Colo. Biol. Assoc., Bul. 1: 21. ♂.

stricklandi Townes. Calif.

Cremnodes californicus Ashmead, 1890 (1889). U.S. Natl. Mus., Proc. 12: 420. ♀. Preocc. in
Gelis by Ashmead, 1890 (1889), p. 421.

Pezomachus ashmeadii Strickland, 1912. Ent. Soc. Amer., Ann. 5: 135. N. name for *C. californicus* Ashmead. Preocc. in *Gelis* by Dalla Torre, 1902.

Gelis stricklandi Townes, 1944. Amer. Ent. Soc., Mem. 11: 202. N. name for *P. ashmeadii* Strickland.

tantillus (Cresson). R. I., Pa., Ill.

Pezomachus gentilis Cresson, 1872. Canad. Ent. 4: 61. ♂, ♀. Preocc. by Foerster, 1850.

Pezomachus tantillus Cresson, 1872. Canad. Ent. 4: 62. ♀.

Pezomachus cressonii Dalla Torre, 1902. Cat. Hym., v. 3, p. 621. N. name for *P. gentilis* Cresson.

tenellus (Say). Que. s. to Ga., w. to s. Alaska and Calif.; Argentina; Hawaii. Host: *Apanteles lacteicolor* Vier., *A. melanoscelus* (Ratz.), *Bracon pygmaeus* Prov., *Meteorus acronyctae* Mues., *M. communis* Cr.?, *M. datanae* Mues., *M. hyphantriae* Riley, *M. versicolor* (Wesm.), *Microplitis gorytinae* Riley, *Casinaria orgyiae* (How.), *Diadegma insulare* (Cr.), *Enicospilus americanus* (Chirst.), *Gambrus extrematis* (Cr.), *Hyposoter fugitivus* (Say), *H. rivalis* (Cresson), *Oresbius tsugae* Cush., *Phobocampe clisiocampae* (Weed), *Neodiprion abietis* (Harris), *N. sertifer* (Geoff.), *N. swainei* Midd., *N. tsugae* Midd., *Diprion similis* (Htg.), *Chrysopa harrisi* Fitch, *C. nigricornis* Burm., *C. rufilabris* Burm., *Bucculatrix* sp., *Coleophora frischella* (L.), *C. laricella* Hbn., *C. malivorella* Riley, *C. pruniella* Clem., *C. salmoni* Heinr., *C. serratella* (L.).

Cryptus tenellus Say, 1836. Boston Jour. Nat. Hist. 1: 233. ♀.

Hemiteles nemativorus Walsh, 1869. Canad. Ent. 2: 11. ♀.

Hemiteles nemativorus var. *fuscatus* Walsh, 1869. Canad. Ent. 2: 12. ♀.

Hemiteles utilis Norton, 1869. Amer. Ent. Soc., Trans. 2: 326. ♀.

Hemiteles depresso Provancher, 1874. Nat. Canad. 6: 334. ♀.

Hemiteles melitaeae Ashmead, 1890 (1889). U. S. Natl. Mus., Proc. 12: 399. ♀.

Hemiteles coleophorae Ashmead, 1890 (1889). U. S. Natl. Mus., Proc. 12: 400. ♀.

Hemiteles variegatus Ashmead, 1890 (1889). In Riley and Howard, U. S. Dept. Agr., Insect Life 3: 153. Nomen nudum.

Hemiteles sordidus Riley, 1890. In Riley and Howard, U. S. Dept. Agr., Insect Life 3: 153. Nomen nudum.

Hemiteles periliti Riley, 1890. In Riley and Howard, U. S. Dept. Agr., Insect Life 3: 153. Nomen nudum.

Hemiteles scolyti Ashmead, 1893. In Hopkins, W. Va. Agr. Expt. Sta. Bul. 31: 144. Nomen nudum.

Otacustes orgyiae Ashmead, 1896. Amer. Ent. Soc., Trans. 23: 209. ♀.

Otacustes periliti Ashmead, 1896. Amer. Ent. Soc., Trans. 23: 210. ♀.

Otacustes nigro-oruatus Cameron, 1908. Amer. Ent. Soc., Trans. 34: 244. ♀.

Taxonomy: Cushman and Gahan, 1923. Ent. Soc. Wash., Proc. 23: 163.

Biology: Muesebeck and Dohanian, 1927. U. S. Dept. Agr. Bul. 1487: 12-14. — Doner, 1934. Ent. Soc. Amer., Ann. 27: 442. — Doner, 1926. Ent. Soc. Amer., Ann. 29: 228.

Morphology: Dustan, 1923 (1922). Acadian Ent. Soc., Proc. 8: 75-78 (larva).

terebrator (Ratzeburg). Greenland; Europe. Host: *Microplitis coactus* Lundb.

Pezomachus terebrator Ratzeburg, 1848. Ichn. d. Forstins., v. 2, p. 126. ♀.

Taxonomy: Roman, 1916. Arkiv for Zool. 10 (22): 8.

texanus (Cresson). Tex.

Pezomachus texanus Cresson, 1872. Canad. Ent. 4: 64. ♀.

uniformis (Dalla Torre). N. H. s. to Md., w. to Iowa. Host: Spider eggs.

Pezomachus unicolor Cresson, 1872. Canad. Ent. 4: 64. ♀. Preocc. by Foerster, 1850.

Pezomachus uniformis Dalla Torre, 1902. Cat. Hym., v. 3, p. 635. N. name for *P. unicolor* Cresson.

urbanus (Brues). N. Y.

Pezomachus urbanus Brues, 1910. Wis. Nat. Hist. Soc., Bul. 8: 70. ♂.

virginensis (Ashmead), n. comb. Va., Ark. Ecology: Associated with *Acrobasis indigenella* (Zell.). This species had been incorrectly placed in the genus *Mastrus* since 1944.

Hemiteles virginensis Ashmead, 1890 (1889). U. S. Natl. Mus., Proc. 12: 404. ♀.

wheeleri (Brues). Ill.

Pezomachus wheeleri Brues, 1903. Amer. Ent. Soc., Trans. 29: 123. ♀.

yakutatensis (Ashmead). Alaska.

Atractodes yakutatensis Ashmead, 1902. Wash. Acad. Sci., Proc. 4: 169. ♂.

Genus AGASTHENES Foerster

Asthenoptera Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 175.

Type-species: *Hemiteles stagnalis* Thomson. Included and desig. by Hellen, 1967.

Agasthenes Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 178.

Type-species: *Hemiteles varitarsus* Gravenhorst. Included and desig. by Perkins, 1962.

Arachnoleter Cushman, 1924. U. S. Natl. Mus., Proc. 64 (4): 2.

Type-species: *Arachnoleter swazeyi* Cushman. Monotypic and orig. desig.

Townes (1970) says that there are two undescribed Nearctic species. In the U. S. Natl. Museum collection there are specimens of one of them from Mich., Ind., and Minn.; this species parasitizes spider eggs, as does *A. swazeyi* (Cushman), which is known from India, Malaya, the Philippines, and Hawaii.

Taxonomy: Townes, 1970 (1969). Amer. Ent. Inst., Mem. 12: 57.

SUBTRIBE MASTRINA

Genus PYGOCRYPTUS Roman

Pygocryptus Roman, 1925 (1924). Arkiv for Zool. 17 A (4): 9.

Type-species: *Phygadeuon grandis* Thomson. Monotypic and orig. desig.

Revision: Torgerson, 1974. Canad. Ent. 106: 889-896 (Holarctic spp.).

coryopsis Torgerson. Calif.

Pygocryptus coryopsis Torgerson, 1974. Canad. Ent. 106: 895. ♀.

cruentus Torgerson, n. status. Alta., B. C.

Pygocryptus echthrooides cruentus Torgerson, 1974. Canad. Ent. 106: 893. ♀.

echthrooides echthrooides (Townes). Que., Mich., Alaska, B. C., Oreg., Calif.

Cryptus brevicornis Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 67. ♀.

Preocc. by Gravenhorst, 1829 and Provancher, 1875.

Cryptus brevicinctus (!) Provancher, 1889. Addit. Corr. Faune Ent. Canada Hym., p. 452 (index).

Amydraulax echthrooides Townes, 1944. Amer. Ent. Soc., Mem. 11: 174. N. name for *C. brevicornis* Provancher.

echthrooides oribasus Torgerson. Colo., Ariz.

Pygocryptus echthrooides oribasus Torgerson, 1974. Canad. Ent. 106: 893. ♂, ♀.

erugatus Torgerson. Que. s. to N. C., w. to Mich.

Pygocryptus erugatus Torgerson, 1974. Canad. Ent. 106: 894. ♂, ♀.

exilis Torgerson. Calif.

Pygocryptus exilis Torgerson, 1974. Canad. Ent. 106: 896. ♂.

exochus Torgerson. Que., N. Y., Md., S. C., Mich.

Pygocryptus exochus Torgerson, 1974. Canad. Ent. 106: 895. ♂, ♀.

Genus MASTRUS Foerster

Perosis Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 169.

Type-species: *Echthrus armatus* Gravenhorst. Desig. by Viereck, 1914 from two species included by Schmiedeknecht, 1888.

Daictes Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 176.

Type-species: *Phygadeuon (Daictes) fukai* Viereck. By subsequent monotypy from inclusion by Viereck, 1911.

Aenoplex Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 176.

Type-species: *Aenoplex betulaecola* Ashmead. By subsequent monotypy from inclusion by Ashmead, 1896.

Mastrus Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 176.

Type-species: *Phygadeuon (Mastrus) neodiprioni* Viereck. By subsequent monotypy from inclusion by Viereck, 1911.

Isadelphus Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 177.

Type-species: *Hemiteles inimicus* Gravenhorst. Monotypically included and desig. by Viereck, 1914.

Zoophthora Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 180.

Type-species: *Hemiteles (Zoophthora) nigricaniformis* Viereck. By subsequent monotypy from inclusion by Viereck, 1917.

Micromonodon Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 195.

Type-species: *Hemicryptus tener* Kriechbaumer. By subsequent monotypy from inclusion by Ashmead, 1900. Ashmead (1900) suppressed the monotypic genus *Hemicryptus* Kriechbaumer as a synonym of *Micromonodon*, which inferred inclusion of *Hemicryptus tener* Kriechbaumer in *Micromonodon* (cf. Perkins, 1962).

Cecidonomus Bridgman, 1880. Entomologist 13: 264.

Type-species: *Cecidonomus gallicola* Bridgman. Desig. by Viereck, 1914.

Hemicryptus Kriechbaumer, 1893. Ent. Nachr. 19: 152. Preocc. by Zittel, 1885.

Type-species: *Hemicryptus tener* Kriechbaumer. Monotypic.

Chaetomastrus Hellen, 1967. Notulae Ent. 47: 105.

Type-species: *Hemiteles hirticeps* Thomson. Monotypic and orig. desig.

Mastrus seems to be an extraordinarily heterogeneous assemblage of species, some of which may prove to belong in the subtribe Phygadeuontina. Dr. Klaus Horstmann will have significantly modified the generic synonymy prior to the appearance of this catalog.

Taxonomy: Ashmead, 1900. U. S. Natl. Mus., Proc. 23: 173, 212. —Perkins, 1962. Brit. Mus. (Nat. Hist.), Bul. 11: 436.

aciculatus (Provancher). N. B. s. to Va., w. to s. Alaska and Calif. Host: *Coccygomimus sanguinipes erythropus* (Vier.). *Itoplectis behrensi* (Cr.), *Meteorus niveitarsis* (Cr.), *Arge* sp., *Gilpinia hercyniae* (Htg.), *Zadiprion townsendi* (Cock.), *Neodiprion nanulus* Schedl, *N. pinetum* (Nort.), *N. pratti pratti* (Dyar), *N. rugifrons* Midd., *N. sertifer* (Geoff.), *N. swainei* Midd., *N. taedae linearis* Ross, *N. tsugae* Midd., *Lambdina fiscellaria fiscellaria* (Gn.), *Protoboarmia porcelaria* (Gn.). The observations by Cushman (1919) cast suspicion upon records for *aciculatus* as a primary parasite of Lepidoptera.

Hemiteles aciculatus Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 60. ♂.

Hemiteles ashmeadii Riley, 1890. In Riley and Howard, U. S. Dept. Agr., Insect Life 3: 153. Nomen nudum.

Hypocryptus vancouverensis Harrington, 1894. Canad. Ent. 26: 248. ♂.

Phygadeuon phryganidae Ashmead, 1896. Amer. Ent. Soc., Trans. 23: 207. ♀.

Phygadeuon (Aenoplex) argeae Viereck, 1911. U. S. Natl. Mus., Proc. 39: 405. ♀.

Phygadeuon (Mastrus) neodiprioni Viereck, 1911. U. S. Natl. Mus., Proc. 40: 195. ♀.

Taxonomy: Townes, 1970 (1969). Amer. Ent. Inst., Mem. 12: 65 (syn.).

Biology: Cushman, 1919. U. S. Natl. Mus., Proc. 55: 524. —Reeks, 1938. Ent. Soc. Ont., Ann. Rpt. 69: 27.

Morphology: Finlayson, 1960. Canad. Ent. 92: 30-31 (final-instar larva).

albiscapus (Ashmead). Tex.

Hemiteles albiscapus Ashmead, 1890 (1889). U. S. Natl. Mus., Proc. 12: 403. ♂.

annulatus (Ashmead). Calif. Host: Pupa of microlepidopteran.

Hemiteles annulatus Ashmead, 1890 (1889). U. S. Natl. Mus., Proc. 12: 402. ♂.

Taxonomy: Townes, 1970 (1969). Amer. Ent. Inst., Mem. 12: 65.

autumnalis (Provancher). Que., R. I., N. Y.

Atractodes autumnalis Provancher, 1882. Nat. Canad. 13: 367. ♂, ♀.

carpocapsae (Cushman). Pa. s. to Fla., w. to Oreg. and Calif. Host: *Grapholita molesta* (Bsk.), *Laspeyresia caryana* (Fitch), *L. pomonella* (L.).

Aenoplex carpocapsae Cushman, 1915. U. S. Natl. Mus., Proc. 48: 509. ♀.

Taxonomy: Cushman, 1917. U. S. Natl. Mus., Proc. 53: 461 (male described).

Biology: Flanders, 1926. Pan-Pacific Ent. 3: 44-45. — McClure, 1933. Ent. News 44: 48-49 (effects of sting on host). — McClure, 1933. Ent. Soc. Amer., Ann. 26: 345-347 (variation in life cycle). — McClure, 1937. Nature Notes 4: 38-40. — Lloyd, 1956. Canad. Ent. 88: 80-89 (oviposition behavior).

caudatus (Provancher). Que., N. Y., Ont.

Echthrus caudatus Provancher, 1875. Nat. Canad. 7: 313. ♀.

Aenoplex longicauda Walley, 1934. Canad. Ent. 66: 240. ♀.

cressoni (Riley). N. H., Mich., Ill., Mo. Host: *Microgaster gelechiae* Riley?, *Gambrus nuncius* (Say).

Hemiteles (?) *Cressoni* Riley, 1869. Mo. State Ent., Ann. Rpt. 1: 177. ♂.

Hemiteles compactus Ashmead, 1890 (1889). U. S. Natl. Mus., Proc. 12: 398. ♀. Described by virtue of Ashmeads' inclusion of "compactus Cresson" in a key; Ashmead did not realize *compactus* was a manuscript name on a specimen Cresson had identified for Riley (see Cushman, 1919).

Hemiteles cressonii Dalla Torre, 1902. Cat. Hym., v. 3, p. 647. Emend.

Taxonomy: Cushman, 1919. U. S. Natl. Mus., Proc. 55: 525-526. — Townes, 1970 (1969). Amer. Ent. Inst., Mem. 12: 65.

extensor (Cushman). Calif.

Isadelphus extensor Cushman, 1919. U. S. Natl. Mus., Proc. 55: 527. ♀.

gigas (Provancher). Que., Ont., Mass., Conn., N. Y., N. J., Alta.

Hemiteles gigas Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 59. ♂.

Platylabus giganticus Dalla Torre, 1902. Cat. Hym., v. 3, p. 783. Unnecessarily proposed n. name for *H. gigas* Provancher (April, 1886) which was not preocc. in *Platylabus* by Kriechbaumer (August, 1886).

Phygadeuon (Bachia?) tumidiformis Viereck, 1917 (1916). Conn. State Geol. and Nat. Hist. Survey Bul. 22: 335, 336. ♂.

Hemiteles (Zooiphorus) nigricaniformis Viereck, 1917 (1916). Conn. State Geol. and Nat. Hist. Survey Bul. 22: 338, 340. ♂.

hydropilus (Ashmead). N. S., Maine, N. Y. Host: *Epinotia nanana* (Treit.).

Hemiteles hydropilus Ashmead, 1890 (1889). U. S. Natl. Mus., Proc. 12: 401. ♀.

intermedius (Cresson). Tex.

Phygadeuon intermedius Cresson, 1874. Amer. Ent. Soc., Trans. 4: 160. ♀.

Taxonomy: Townes, 1970 (1969). Amer. Ent. Inst., Mem. 12: 65.

laplantei Mason. Newfoundland (insular) s. to Maine, w. to Alaska and Oreg. Host: *Meteorus niveitarsis* (Cr.), *Gilpinia hercyniae* (Htg.), *Neodiprion nanulus* nanulus Schedl, *N. pratti banksianae* Roh., *N. scutellae* Midd., *N. tsugae* Midd., *Heterarthrus nemoratus* (Fall.), *Pikonema alaskensis* (Roh.), *Pristiphora erichsonii* (Htg.), *Acleris gloverana* (Wlshm.), *A. variana* (Fern.), *Choristoneura fumiferana* (Clem.), *Lambdina fiscellaria* fiscellaria (Gn.), *L. f. lugubrosa* (Hulst), *Rheumaptera hastata* (L.).

Mastrus laplantei Mason, 1968. Canad. Ent. 100: 19. ♂, ♀.

laricella (Mason), n. comb. N. B., P. E. I., Ont., Wis., n.e. Calif. Host: *Argyresthia laricella* Kft. This species is placed provisionally in *Mastrus* (see foregoing discussion under *Lysibia*).

Alegina laricella Mason, 1961. Canad. Ent. 97: 4. ♂, ♀.

Morphology: Eidt, 1962. Canad. Ent. 94: 32 (final-instar larva).

mucronatus (Provancher). N. H., Ont., Mass., Conn., N. J., Ga. Host: *Gambrus* sp.

Hemiteles mucronatus Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 58. ♂.

Taxonomy: Townes, 1970 (1969). Amer. Ent. Inst., Mem. 12: 65.

pilifrons (Provancher). Que. s. to N. C., w. to B. C. and Calif. Host: *Acronicta betulae* (Riley), *Grapholitha molesta* (Bsk.), *Laspeyresia pomonella* (L.).

Orthocentrus pilifrons Provancher, 1879. Nat. Canad. 11: 279. "♀" = ♂.

Hemiteles cryptiformis Riley, 1890. In Riley and Howard, U. S. Dept. Agr., Insect Life 3: 153. Nomen nudum.

Aenoplex betulaecola Ashmead, 1896. Amer. Ent. Soc., Trans. 23: 208. ♀.

Aenoplex plesiotypus Cushman, 1915. U. S. Natl. Mus., Proc. 48: 510. ♀.

Taxonomy: Cushman, 1917. U. S. Natl. Mus., Proc. 53: 460.

pinifoliae (Cushman), n. comb. Mass., La. Host: *Eroteleia* sp., *E. pinifoliella* (Chamb.). As with *M. lariellae* (Mason), this species is placed provisionally in *Mastrus* (see foregoing discussion under *Lysibia*).

Hemiteles pinifoliae Cushman, 1933. U. S. Natl. Mus., Proc. 82 (14): 5. ♂, ♀.

polychrosidiae (Cushman). R. I., N. Y., Pa. Host: *Paralobesia viteana* (Clem.).

Aenoplex polychrosidiae Cushman, 1919. U. S. Natl. Mus., Proc. 55: 524. ♂, ♀.

rubricornis (Ashmead). Va.

Hemiteles rubricornis Ashmead, 1890 (1889). U. S. Natl. Mus., Proc. 12: 405. ♀.

Taxonomy: Townes, 1970 (1969). Amer. Ent. Inst., Mem. 12: 65.

rufipes (Ashmead). Alaska.

Aenoplex rufipes Ashmead, 1902. Wash. Acad. Sci., Proc. 4: 188. ♂.

Taxonomy: Townes, 1970 (1969). Amer. Ent. Inst., Mem. 12: 65.

smithii (Packard). Que. w. to Wash., s. to N. J., Ill., Colo., and Oreg. Host: *Gambrus extrematis* (Cr.), *Ametastegia glabratra* (Fall.).

Cryptus Smithii Packard, 1865. Boston Soc. Nat. Hist., Proc. 9: 346. ♂, ♀.

Echthrus rubripes Provancher, 1883. Nat. Canad. 14: 16. ♀.

Phaeogenes crassitelus Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 41. ♀.

Aenoplex nigrosoma Cushman, 1917. U. S. Natl. Mus., Proc. 53: 460. ♂, ♀.

Taxonomy: Townes, 1970 (1969). Amer. Ent. Inst., Mem. 12: 65.

subspinosus (Provancher). Que., R. I., N. Y.

Phygadeuon subspinosus Provancher, 1882. Nat. Canad. 13: 336. ♂.

Genus AMYDRAULAX Cushman

Amydraulax Cushman, 1922. U. S. Natl. Mus., Proc. 60 (21): 4.

Type-species: *Amydraulax pulchra* Cushman. Monotypic and orig. desig.

There is an undescribed species which apparently occurs in northern Mexico as well as in the southwestern U. S.; it has been reared from cones of *Pinus ponderosa*. The genus is not known to occur outside of the southwestern part of the Nearctic region.

pulchra Cushman. Calif. Ecology: The only host known for *pulchra* is a cerambycid which bores in the branches of *Sequoia gigantea*. Host: *Callidium sequarium* Fisher.

Amydraulax pulchra Cushman, 1922. U. S. Natl. Mus., Proc. 60 (21): 5. ♀.

Genus APOTEMNUS Cushman

Apotemnus Cushman, 1940. U. S. Natl. Mus., Proc. 88: 359.

Type-species: *Cryptus truncatus* Cushman. Monotypic and orig. desig.

Only the type-species is known.

truncatus Cushman. Oreg., Calif. Ecology: Reared from cones of *Cupressus macrocarpa*.

Apotemnus truncatus Cushman, 1940. U. S. Natl. Mus., Proc. 88: 360. ♀.

Genus HELICOSTIZUS Foerster

Brachycentrus Taschenberg, 1865. Ztschr. f. die Gesam. Naturw. Halle 25: 106. Preocc. by Curtis, 1834.

Type-species: *Cryptus pimplarius* Taschenberg. Monotypic. The type-species is regarded as a synonym of *H. restaurator restaurator* (Fabricius).

Helcostizus Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 186.

Type-species: *Cryptus brachycentrus* Gravenhorst. By subsequent monotypy from inclusion by Schmiedeknecht, 1888. The type-species is regarded as a synonym of *H. restaurator restaurator* (Fabricius).

Cyrtocryptus Marshall, 1872. Cat. Brit. Hym., v. 3, p. 41.

Type-species: *Cryptus brachycentrus* Gravenhorst. Monotypic.

Mesocryptus Thomson, 1873. Opusc. Ent. 5: 519, 521.

Type-species: *Cryptus brachycentrus* Gravenhorst. Monotypic and orig. desig.

Heterocryptus Woldstedt, 1873. Bidr. till Kann. af Finlands Natur och Folk 21: 73.

Type-species: *Cryptus brachycentrus* Gravenhorst. Desig. by Viereck, 1914.

Asternaulax Viereck, 1912. U. S. Natl. Mus., Proc. 42: 632.

Type-species: *Asternaulax fiskei* Viereck. Monotypic and orig. desig.

Chenbergus Navas, 1930. Soc. Ent. de Espana, Bol. 13: 43. N. name for *Brachycentrus* Taschenberg.

This genus was formerly placed by Townes in the Cryptini, where it was a member of his now defunct subtribe Echthrina. Townes (1970) said little concerning his placement of *Helcostizus* in the Hemitelinini, which leads me to suppose that he placed it here because he did not know what else to do with it. He mentioned *Helcostizus* as one of a number of genera showing "convergence toward" his newly erected subtribe Gabuniina (Cryptini), but said that in certain cases (without saying which cases) it is uncertain whether these genera should be placed in the Gabuniina or elsewhere.

Revision: Cushman, 1919. U. S. Natl. Mus., Proc. 55: 531-535. —Townes and Townes, 1962. U. S. Natl. Mus. Bul. 216 (pt. 3): 513-522.

Taxonomy: Townes, 1970 (1969). Amer. Ent. Inst., Mem. 12: 326.

annulicornis (Walsh). N. Y., Md., Va., Mich., Ill.?, Okla. Host: *Elaphidionoides parallelus* (Newm.)?

Echthrus annulicornis Walsh, 1873. Acad. Sci. St. Louis, Trans. 3: 159. ♀.

Helcostizus bicarinatus Cushman, 1919. U. S. Natl. Mus., Proc. 55: 532. ♀.

Taxonomy: Cushman, 1924. U. S. Natl. Mus., Proc. 64 (4): 8.

collinus (Provancher). Que. Not included in the revision by Townes and Townes (1962) and probably synonymous with one of the taxa included.

Mesostenus collinus Provancher, 1879. Nat. Canad. 11 (no. 126): 111. ♂.

Taxonomy: Barron, 1975. Nat. Canad. 102: 453-454 (lectotype selected).

oxyura Townes. Ont., Mich.

Helcostizus oxyura Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 517. ♀.

restaurator canadensis (Provancher). Que. s. to N. C., w. to Mich. Host: *Atimia confusa* (Say). *H. restaurator restaurator* (Fabricius) is Eurasian; its synonymy is listed by Townes, Momoi, and Townes (1965).

Mesochorus Canadensis Provancher, 1874. Nat. Canad. 6: 299. ♀.

Asternaulax fiskei Viereck, 1912. U. S. Natl. Mus., Proc. 42: 632. ♀.

Taxonomy: Townes, Momoi, and Townes, 1965. Amer. Ent. Inst., Mem. 5: 204-205.

restaurator yukonensis (Ashmead). Northwestern N. W. T. w. to Alaska, s. to Ariz. and Calif.

Host: *Plectura spinicauda* Mann. Townes and Townes (1962) distinguished *rufiscutum* Cushman as a separate subspecies, but the material they studied included nearly as many specimens which they classified as intermediate between *rufiscutum* and *yukonensis* as there were specimens identified as *rufiscutum*; therefore, I feel it is not practical to recognize *rufiscutum* as a distinct subspecies.

Pimpla yukonensis Ashmead, 1890 (1889). U. S. Natl. Mus., Proc. 12: 445. ♀.

Helcostizus rufiscutum Cushman, 1919. U. S. Natl. Mus., Proc. 55: 533. ♀. N. syn.

subrectus Townes. Ariz.

Helcostizus subrectus Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 517. ♀.

tibialis Townes, Ont., N. Y., Pa., Mich., Wis.

Helcostizus tibialis Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 516. ♂, ♀.

Genus LOCHETICA Kriechbaumer

Lochetica Kriechbaumer, 1892. Ent. Nachr. 18: 340.

Type-species: *Phygadeuon pimplarius* Thomson. Monotypic. The type-species is regarded as a synonym of *L. Westoni* (Bridgman).

This small Holarctic genus includes three Palearctic species and one undescribed species which occurs in the western U. S. (Townes, 1970).

Taxonomy: Townes, 1970 (1969). Amer. Ent. Inst., Mem. 12: 70.

SUBTRIBE ETHELURGINA

Genus RHEMBOBIUS Foerster

Rhembobius Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 184.

Type-species: *Phygadeuon quadrispinus* Gravenhorst. Monotypically included and desig. by Ashmead, 1900.

Ulothymus Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 185.

Type-species: *Ichneumon perscrutator* Thunberg. Monotypically included and desig. by Perkins, 1962.

Acanthocryptus Thomson, 1873. Opusc. Ent. 5: 520, 521.

Type-species: *Phygadeuon quadrispinus* Gravenhorst. Monotypic and orig. desig.

This small Holarctic genus was removed from the Aptesini by Townes (1970), who discussed his reasons for transferring it to the Hemitelini. No other genus of Hemitelini is known to have species in which the adult females overwinter, but it is apparently not known if any *Rhembobius* sp. overwinters exclusively in this way. The known hosts are saprophagous Syrphidae.

Revision: Townes and Gupta, 1962. Amer. Ent. Inst., Mem. 2: 272-278.

Taxonomy: Townes, 1970 (1969). Amer. Ent. Inst., Mem. 12: 112.

abdominalis (Provancher). N. S. s. to Conn., w. to n. Alaska and Calif.; Hawaii. Host: *Eumerus strigatus* (Fall.), *Merodon equestris* (F.), *Xylota* sp. Townes and Gupta (1962) recognized three broadly overlapping subspecies.

Phygadeuon abdominalis Provancher, 1874. Nat. Canad. 6: 280. ♂, ♀.

Phygadeuon 4-carinatus Provancher, 1875. Nat. Canad. 7: 180, 183. ♂.

Platylabus pacificus Harrington, 1894. Canad. Ent. 26: 210. ♀.

Rhembobius abdominalis montanus Townes and Gupta, 1962. Amer. Ent. Inst., Mem. 2: 275. ♂, ♀.

Taxonomy: Cushman, 1930 (1929). U. S. Natl. Mus., Proc. 76 (25): 3.

parcus Townes. Mich., Man., Sask.

Rhembobius parcus Townes, 1962. In Townes and Gupta, Amer. Ent. Inst., Mem. 2: 273. ♂, ♀.

Genus ETHELURGUS Foerster

Tolmerus Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 177. Preocc. by Loew, 1849.

Type-species: *Phygadeuon sodalis* Taschenberg. Monotypically included and desig. by Townes and Townes, 1966.

Ethelurgus Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 180.

Type-species: *Hemiteles (Ethelurgus) lonicerae* Viereck. By subsequent monotypy from inclusion by Viereck, 1917.

Nuneches Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 186.

Type-species: *Phygadeuon sodalis* Taschenberg. Monotypically included and desig. by Perkins, 1962.

Zamicrotoridea Viereck, 1917 (1916). Conn. State Geol. and Nat. Hist. Survey Bul. 22: 340.

Type-species: *Hemiteles (Zamicrotoridea) orbiformis* Viereck. Monotypic.

I have seen one undescribed Nearctic species in the U. S. Natl. Museum collection, but suppose that there are other undescribed Nearctic species because Townes (1970) said that *Ethelurgus* is a moderate sized genus. Males of *Ethelurgus* will not key to the subtribe Ethelurgina in Townes (1970) because only the females have the apical margin of the clypeus impressed.

Taxonomy: Townes, 1970 (1969). Amer. Ent. Inst., Mem. 12: 7, 72.

- syphicola* (Ashmead). Conn. s. to S. C., w. to Oreg. Host: *Allogrampta obliqua* (Say), *Baccha (Ocyptamus) fascipennis* Wied., *Mesogrampta polita* (Say), *Syrphus rectus* O. S. *Hemiteles syphicola* Ashmead, 1890 (1889). U. S. Natl. Mus., Proc. 12: 399. ♀.
Hemiteles (Ethelurgus) lonicerae Viereck, 1917 (1916). Conn. State Geol. and Nat. Hist. Survey Bul. 22: 340. ♀.
Hemiteles (Zamicrotoridae) orbiformis Viereck, 1917 (1916). Conn. State Geol. and Nat. Hist. Survey Bul. 22: 340. ♂.

SUBTRIBE ENDASEINA

Genus CHARITOPES Foerster

Charitopes Foerster, 1868. Naturh. Verh. Rheinlande, Verh. 25: 181.

Type-species: *Hemiteles (Charitopes) chrysopae* Brischke. By subsequent monotypy from inclusion by Brischke, 1890.

Fianonia Seyrig, 1952. Acad. Malgache, Mem. 39: 31.

Type-species: *Fianonia problematica* Seyrig. Monotypic and orig. desig.

The species of this genus which have been reared are parasites of Hemerobiidae.

gastricus (Holmgren). Calif.

Hemiteles gastricus Holmgren, 1869 (1868). Eug. Resa, pt. 2 (Zool.), sect. 1 (Ins.), p. 401. ♀.

Taxonomy: Townes, 1961. Ent. Soc. Wash., Proc. 63: 106.

mellicornis (Ashmead), n. comb. Mass. s. to S. C., w. to Minn. and Iowa. Host: *Micromus posticus* (Wlk.).

Hemiteles mellicornis Ashmead, 1890 (1889). U. S. Natl. Mus., Proc. 12: 404. ♀.

Charitopes mellicornis Townes, 1970 (1969). Amer. Ent. Inst., Mem. 12: 383. Nomen nudum.

piceiventris (Harrington). B. C.

Hemiteles piceiventris Harrington, 1894. Canad. Ent. 26: 213. ♀.

Taxonomy: Townes, 1970 (1969). Amer. Ent. Inst., Mem. 12: 80.

plectiscinus (Roman). Greenland.

Phygadeux plectiscinus Roman, 1916. Arkiv for Zool. 10 (22): 5. ♂, ♀.

Taxonomy: Townes, 1961. Ent. Soc. Wash., Proc. 63: 111.

Genus ADIASTOLA Foerster

Adiastola Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 180.

Type-species: *Adiastola americana* Howard. By subsequent monotypy from inclusion by Howard, 1897.

Townes (1970) incorrectly treated *Adiastola* as a synonym of *Mastrus*.

Taxonomy: Townes, 1970 (1969). Amer. Ent. Inst., Mem. 12: 64.

columbiae (Viereck). D. C. Host: *Iseropus coelebs* (Walsh)?

Adiastola americana Howard, 1897. U. S. Dept. Agr., Div. Ent., Tech. Ser. 5: 54. ♂, ♀.

Temporarily preoc. in *Hemiteles* by *Theroscopus americanus* Ashmead, 1896.

Hemiteles columbiae Viereck, 1910. In Smith, N. J. State Mus., Ann. Rpt. for 1909, p. 631. N. name for *A. americana* Howard.

Genus MEDOPHRON Foerster

Baryntica Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 184.

Type-species: *Stylocryptus elegans* Schmiedeknecht. Monotypically included and desig. by Perkins, 1962.

Medophron Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 185.

Type-species: *Medophron niger* Brischke. By subsequent monotypy from inclusion by Brischke, 1881. The type-species is regarded as a synonym of *M. afflitor* (Gravenhorst).

caudatus (Provancher). Que., s. Alaska.

Cryptus caudatus Provancher, 1875. Nat. Canad. 7: 314. ♀.

Bathymetis bicolor Ashmead, 1902. Wash. Acad. Sci., Proc. 4: 182. ♂, ♀.

dytiscivorus Mason. Ont. Host: *Dyticus fasciventris* Say.

Medophron dytiscivorus Mason, 1968. Canad. Ent. 100: 21. ♂, ♀.

Genus ENDASYS Foerster

Endasys Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 184.

Type-species: *Stylocryptus analis* Thomson. Desig. by Viereck, 1914 from two species included by Roman, 1909.

Scinascopus Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 185.

Type-species: *Phygadeuon cuemarginus* Gravenhorst. By subsequent monotypy from inclusion by Brischke, 1891. The type-species is regarded as a synonym of *E. parviventris* (Gravenhorst).

Bachia Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 186. Preocc. by Gray, 1845.

Type-species: *Phygadeuon (Bachia) testaceipes* Brischke. By subsequent monotypy from inclusion by Brischke, 1891.

Stylocryptus Thomson, 1873. Opusc. Ent. 5: 520, 521.

Type-species: *Phygadeuon brevis* Gravenhorst. Monotypic.

Bachiana Strand, 1928 (1926). Arch. f. Naturgesch. (A) 92 (8): 52. N. name for *Bachia* Foerster.

auriculiferus (Viereck). Conn., N. Y.

Phygadeuon (Bachia?) auriculiferus Viereck, 1917 (1916). Conn. State Geol. and Nat. Hist. Survey Bul. 22: 336. ♂.

bicolor (Lundbeck). Greenland.

Phygadeuon bicolor Lundbeck, 1897 (1896). Dansk Naturhist. For. Kjobenhavn, Vidensk. Meddel., p. 227. ♀.

Taxonomy: Roman, 1916. Arkiv for Zool. 10 (22): 4, 5.

maculatus (Provancher). Que. s. to Md., w. to Mich. and Ohio.

Phygadeuon maculatus Provancher, 1875. Nat. Canad. 7: 178, 182. ♀.

monticola (Dalla Torre). Colo.

Phygadeuon montanus Cresson, 1864. Ent. Soc. Phila., Proc. 3: 309. ♀. Preocc. (presently?) in *Phygadeuon* by *Cryptus montanus* Gravenhorst, 1829.

Phygadeuon monticola Dalla Torre, 1902. Cat. Hym., v. 3, p. 689. N. name for *P. montanus* Cresson.

mucronatus (Provancher). Que. s. to Va., w. to Mich. Host: *Arge clavicornis* (F.), *A. pectoralis* (Leach).

Phygadeuon mucronatus Provancher, 1879. Nat. Canad. 11: 73. ♀.

Melophron (!) abdominalis Ashmead, 1906. In Slosson, Ent. News 17: 324. Nomen nudum.

paludicola (Brues). Colo.

Oxytorus paludicola Brues, 1908. Wis. Nat. Hist. Soc., Bul. 6: 50. ♂.

pubescens (Provancher). Que. s. to Ga., w. to Alta. and Colo.

Phygadeuon pubescens Provancher, 1874. Nat. Canad. 6: 282. ♂.

Phygadeuon dubius Provancher, 1874. Nat. Canad. 6: 283. ♀.

Alomya pulchra Provancher, 1875. Nat. Canad. 7: 120. ♂.

Phygadeuon pallicoxus Provancher, 1879. Nat. Canad. 11: 75. ♂.

Phygadeuon pallidicoxus Dalla Torre, 1902. Cat. Hym., v. 3, p. 690. Emend.

rotundiceps (Provancher). Que.

Phygadeuon rotundiceps Provancher, 1877. Nat. Canad. 9: 12. ♀.

Taxonomy: Provancher, 1879. Nat. Canad. 11: 74.

- subclavatus* (Say). N. B. s. to Fla., w. to Oreg. and Calif. Host: *Gilpinia hercyniae* (Htg.), *Neodiprion excitanus* Roh., *N. lecontei* (Fitch), *N. nanulus nanulus* Schedl, *N. pratti banksianae* Roh., *N. pratti pratti* (Dyar), *N. rugifrons* Midd., *N. serifer* (Geoff.), *N. swainei* Midd., *N. taedae linearis* Ross, *N. tsugae* Midd., *N. virginiana* Roh., *Zadiprion townsendi* (Cock.).

- Phygadeuon (Bathynetus) patulus* Viereck, 1911. U. S. Natl. Mus., Proc. 40: 193. ♂.
- Phygadeuon (Bachiat?) brittoni* Viereck, 1917 (1916). Conn. State Geol. and Nat. Hist. Survey Bul. 22: 336. ♂.

Taxonomy: Cushman and Gahan, 1921. Ent. Soc. Wash., Proc. 23: 162. — Finlayson, 1960. Canad. Ent. 92: 25, 32 (final-instar larva).

Biology: Tripp, 1961. Canad. Ent. 93: 53. — Finlayson, 1963. Canad. Ent. 95: 491.

texanus (Cresson). Tex.

Phygadeuon texanus Cresson, 1872. Amer. Ent. Soc., Trans. 4: 160. ♂.

Genus GLYPHICNEMIS Foerster

Glypticnemis Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 181.

Type-species: *Phygadeuon vagabundus* Gravenhorst. Monotypically included and desig. by Ashmead, 1900.

Guathocryptus Thomson, 1873. Opusc. Ent. 5: 520, 521.

Type-species: *Phygadeuon vagabundus* Gravenhorst. Monotypic and orig. desig. *Semiodes* Harrington, 1894. Canad. Ent. 26: 247.

Type-species: *Semiodes seminiger* Harrington. Monotypic.

I have seen specimens representing what appear to be several undescribed Nearctic species.

mandibularis (Cresson). Que. s. to Md., w. to B. C. and Calif.

Phygadeuon mandibularis Cresson, 1864. Ent. Soc. Phila., Proc. 3: 311. ♀.

Ischnus ruficornis Provancher, 1875. Nat. Canad. 7 (4): 110. ♂.

Phygadeuon ruficornis Provancher, 1875. Nat. Canad. 7 (6): 179. ♂. Preocc. in *Phygadeuon* by Gravenhorst, 1829 and in *Glypticnemis* by Provancher, 1875, no. 4, p. 110.

Phygadeuon crassipes Provancher, 1875. Nat. Canad. 9: 11. ♀.

Phygadeuon californicus Cresson, 1879 (1878). Acad. Nat. Sci. Phila., Proc. 30: 358. ♂.

Semiodes seminiger Harrington, 1894. Canad. Ent. 26: 247. ♂.

SUBTRIBE BATHYTRICHINA

This subtribe includes six genera, but only *Bathytrix*, which is nearly worldwide in distribution, occurs in the Nearctic fauna.

Genus BATHYTRIX Foerster

Ischnurgops Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 175.

Type-species: *Cryptus claviger* Taschenberg. Monotypically included and desig. by Viereck, 1914.

Steganops Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 175.

Type-species: *Cryptus claviger* Taschenberg. Monotypically included and desig. by Viereck, 1914.

Bathytrix Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 175.

Type-species: *Bathytrix meteori* Howard. Desig. by Viereck, 1914 from two species included by Howard, 1897.

Panargyrops Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 182.

Type-species: *Cryptus claviger* Taschenberg. Desig. by Viereck, 1914 from two species included by Schmiedeknecht, 1888.

Gausocentrus Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 198.

Type-species: *Gausocentrus gyriini* Ashmead. By subsequent monotypy from inclusion by Ashmead, 1894.

Stenoschema Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 220. Nomen nudum.

Leptoeryptus Thomson, 1873. Opusc. Ent. 5: 521.

Type-species: *Cryptus claviger* Taschenberg. Desig. by Viereck, 1914 from nine species included by Thomson, 1884.

Agenora Cameron, 1909. Bombay Nat. Hist. Soc., Jour. 19: 722.

Type-species: *Agenora hirticeps* Cameron. Monotypic.

Members of this genus oviposit into cocoons of various insects, often those of Braconidae or other Ichneumonidae.

Revision: Thomson, 1884. Opusc. Ent. 10: 963-966 (European spp.). —Cushman, 1920. U. S. Natl. Mus., Proc. 58: 261-264. —Viereck, 1925. Canad. Ent. 57: 77-78.

areolaris (Cushman). Alaska, Oreg., Calif. Host: *Neodiprion tsugae* Midd.

Panargyrops areolaris Cushman, 1939. Wash. Acad. Sci., Jour. 29: 397. ♂, ♀.

claviger (Taschenberg). Que., Maine, Tex., Alta., Colo., B. C., Wash.; Eurasia. Host:

Ametastegia glabrate (Fall.).

Cryptus claviger Taschenberg, 1865. Ztschr. f. die Gesam. Naturw. Halle 25: 76. ♂.

Cryptus (Chaeretymma[!]) ater Brischke, 1880. Naturf. Gesell. Danzig, Schr. (n. f.) 5: 338. ♂, ♀.

Mesostenus sericeus Provancher, 1875. Nat. Canad. 7: 264. ♂.

Cryptus sericeifrons Provancher, 1879. Nat. Canad. 11 (no. 125): 132. ♀.

Agenora hirticeps Cameron, 1909. Bombay Nat. Hist. Soc., Jour. 19: 722. ♂.

Bathythrix tibialis Cushman, 1917. U. S. Natl. Mus., Proc. 53: 458. ♂, ♀.

Panargyrops texanus Cushman, 1920. U. S. Natl. Mus., Proc. 58: 262. ♀. Preocc. in *Bathythrix* by Ashmead, 1890.

Panargyrops pacificus Cushman, 1920. U. S. Natl. Mus., Proc. 58: 262. ♀.

Thysiotorus (Panargyrops) tegularis Viereck, 1925. Canad. Ent. 57: 78. ♀.

Thysiotorus (Panargyrops) conjunctus Viereck, 1925. Canad. Ent. 57: 78. ♂, ♀.

Taxonomy: Oehlke, 1966 (1965). Beitr. z. Ent. 15: 845-846.

fragilis (Viereck). N. Mex.

Plesiognathus (?) *fragilis* Viereck, 1903. In Skinner, Amer. Ent. Soc., Trans. 29: 82. ♂.

gyrinophaga (Cushman). N. Y., Ont., Mich., Iowa. Host: *Gyrinus* sp.

Gausocentrus gyriini Ashmead, 1894. Canad. Ent. 26: 25. ♂. Preocc. in *Bathythrix* by *Hemiteles gyriini* Parfitt, 1881.

Hemiteles gyrinophagus Cushman, 1930 (1929). U. S. Natl. Mus., Proc. 76 (25): 5. N. name for *G. gyriini* Ashmead.

Panargyrops insula DeGant, 1933. U. S. Natl. Mus., Proc. 82: 2. ♂, ♀.

Taxonomy: Townes, 1970 (1969). Amer. Ent. Inst., Mem. 12: 90 (syn.).

latifrons (Cushman). Southern Alaska, Wash., Oreg. Host: *Neodiprion tsugae* Midd., *Meteorus* sp.?

Thysiotorus latifrons Cushman, 1939. Wash. Acad. Sci., Jour. 29: 396. ♂, ♀.

meteori (Howard). R. I. and N. Y. s. to Ga. and Miss. Host: *Meteorus communis* (Cr.), *Iseropus coelebs* (Walsh)?

Bathythrix meteori Howard, 1897. U. S. Dept. Agr., Div. Ent., Tech. Ser. 5: 53. ♂, ♀.

peregrina (Cresson). Que. s. to Va., w. to Iowa and Kans.

Mesoleptus? *peregrinus* Cresson, 1868. Amer. Ent. Soc., Trans. 2: 102. ♂, ♀.

Panargyrops thoracicus Cushman, 1919. U. S. Natl. Mus., Proc. 55: 528. ♀.

pimplae Howard. N. Y. s. to Va., w. to S. Dak. Host: *Gambrus extrematis* (Cr.), *Iseropus coelebs* (Walsh)?, *Gyrinus* sp.?

Bathythrix pimplae Howard, 1897. U. S. Dept. Agr., Div. Ent., Tech. Ser. 5: 54. ♀.

Biology: Butcher, 1933. Ent. Soc. Amer., Ann. 26: 82.

subargentea (Cresson). Pa., Alta., Idaho, Wash.

Cryptus subargenteus Cresson. 1864. Ent. Soc. Phila., Proc. 3: 302. ♀.

Exolytus sericeifrons Davis, 1898 (1897). Amer. Ent. Soc., Trans. 24: 355. ♀. Preocc. in
Bathythrix by *Cryptus sericeifrons* Provancher.

Thysiotorus (Panargyrops) seamansi Viereck, 1925. Canad. Ent. 57: 77. ♀.

texana (Ashmead). Tex.

Stilpnus texanus Ashmead, 1890 (1889). U. S. Natl. Mus., Proc. 12: 397. ♀.

triangularis (Cresson). Maine w. to Wis., s. to Ala. Host: *Aparteles melanoscelus* (Ratz.),
Meteorus versicolor (Wesm.), *Hyposoter* sp., *Phobocampe geometrae* (Ash.), *Diprion similis* (Htg.).

Mesoleptus triangularis Cresson, 1868. Amer. Ent. Soc., Trans. 2: 101. ♂.

Mesostenus pallipes Provancher, 1875. Nat. Canad. 7: 264. ♀.

Thysiotorus? smithi Cushman, 1920. U. S. Natl. Mus., Proc. 58: 263. ♂, ♀.

Taxonomy: Cushman, 1939. Wash. Acad. Sci., Jour. 29: 396 (syn.).

SUBTRIBE PHYGADEUONTINA

Genus OECOTELMA Townes

Oecotela Townes, 1970 (1969). Amer. Ent. Inst., Mem. 12: 94.

Type-species: *Hemiteles cushmani* Butcher. Monotypic and orig. desig.

cushmani (Butcher). Mich. Host: *Gyrinus* sp.

Hemiteles cushmani Butcher, 1933. Ent. Soc. Amer., Ann. 26: 76. ♂, ♀.

Genus SULCARIUS Townes

Sulcarius Townes, 1970 (1969). Amer. Ent. Inst., Mem. 12: 95.

Type-species: *Hemiteles hellbachii* Schmiedeknecht. Orig. desig.

Species of this genus apparently parasitize larvae of caddisflies whose cases are left exposed by the receding waters of vernal ponds or intermittent streams.

biannulatus (Gravenhorst). Minn.? Ill.?? Europe. Host: *Limnephilus indivisus* Walker. North American specimens were identified as *biannulatus* by Roman (1925) and Mickel and Milliron (1939), but the question of conspecificity of Nearctic and Palaearctic specimens has apparently not been readdressed; therefore, the occurrence of *biannulatus* in North America remains unsubstantiated.

Hemiteles biannulatus Gravenhorst, 1829. Ichn. Europa, v. 2, p. 846. ♀.

Hemiteles Hellbachii Schmiedeknecht, 1905. Opusc. Ichn., v. 2, p. 851. ♀. Syn. verified by Dr. Klaus Horstmann (personal commun., 1976).

Hemiteles bianulatus (?) Oehlke and Townes, 1969. Beitr. z. Ent. 19: 400.

Taxonomy: Roman, 1925 (1924). Arkiv for Zool. 17 A (4): 16. — Hellen, 1967. Notulae Ent. 47: 107. — Oehlke and Townes, 1969. Beitr. z. Ent. 19: 400. — Townes, 1970 (1969). Amer. Ent. Inst., Mem. 12: 96.

Biology: Mickel and Milliron, 1939. Ent. Soc. Amer., Ann. 42: 578-580.

bicornutus (Ashmead). Mo.

Hemiteles bicornutus Ashmead, 1890 (1889). U. S. Natl. Mus., Proc. 12: 403. ♂.

Taxonomy: Townes, 1970 (1969). Amer. Ent. Inst., Mem. 12: 96.

glacialis (Ashmead). B. C. The type-locality (Lowe Inlet, B. C.) was erroneously recorded by Townes (1944) as an Alaskan locality.

Philonygus (?) *glacialis* Ashmead, 1902. Wash. Acad. Sci., Proc. 4: 189. ♂.

Taxonomy: Townes, 1944. Amer. Ent. Soc., Mem. 11: 186. — Townes, 1970 (1969). Amer. Ent. Inst., Mem. 12: 96.

Genus ORTHIZEMA Foerster

Orthizema Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 178.

Type-species: *Hemiteles (Orthizema) ornatus* Brischke. By subsequent monotypy from inclusion by Brischke, 1890. The type-species is regarded as a synonym of *O. subannulatum* (Bridgman).

Naetes Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 185.

Type-species: *Hemiteles (Naites[!]) rufus* Brischke. By subsequent monotypy from inclusion by Brischke, 1892. The type-species is regarded as a synonym of *O. hadrocerus* (Thomson).

Phyzelus Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 185.

Type-species: *Phyzelus fasciatus* Brischke. By subsequent monotypy from inclusion by Brischke, 1888. Townes and Gupta (1962) disputed Perkins' (1962) synonymy of *fasciatus* with *Aptesis flagitator* (Rossi) on the premise that *A. flagitator* does not agree with the original description of *fasciatus* (the holotype of *fasciatus* having been destroyed), and Townes (1970) placed *fasciatus* as a synonym of *O. hadrocerus* (Thomson).

Townes (1970) stated that *Orthizema* is a large genus of Holarctic distribution, but did not state how many undescribed Nearctic species he has seen.

Taxonomy: Perkins, 1962. Brit. Mus. (Nat. Hist.) Ent., Bul. 11: 446. — Townes and Gupta, 1962. Amer. Ent. Inst., Mem. 2: 247. — Townes, 1970 (1969). Amer. Ent. Inst., Mem. 12: 97-98.

testaceipes (Cushman). N. H., N. Y., Pa.

Adiastola testaceipes Ashmead, 1906. In Slosson, Ent. News 17: 324. Nomen nudum.

Lymeon! *testaceipes* Cushman, 1922. U. S. Natl. Mus., Proc. 61 (8): 17. ?.

Genus UCHIDELLA Townes

Itamus Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 179. Preocc. by Schmidt-Goebel, 1846.

Type-species: *Hemiteles (Itamus) okamotoi* Uchida. By subsequent monotypy from inclusion by Uchida, 1936. The type-species is regarded as a synonym of *U. marginata* (Uchida).

Uchidella Townes, 1957. Ent. Soc. Wash., Proc. 59: 109. N. name for *Itamus* Foerster.

Except for one species known from Taiwan, *Uchidella* is said to be a Holarctic genus of moderate size (see Townes, 1970). There are no described Nearctic species.

Taxonomy: Townes, 1970 (1969). Amer. Ent. Inst., Mem. 12: 99.

Genus GNOTUS Foerster

Gnotus Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 179.

Type-species: *Hemiteles tenuicornis* Gravenhorst. Included and desig. by Perkins, 1962. The type-species is regarded as a synonym of *G. tenuipes* (Gravenhorst).

chionops (Gravenhorst). N. Y., Pa., Md., Mich.; Japan; Europe. Townes (1970) stated that *chionops* is Holarctic without mentioning specific localities outside Europe; these he communicated to me personally and stated that he regards the European, Japanese, and Nearctic specimens he has seen as belonging to three separate subspecies.

Hemiteles chionops Gravenhorst, 1829. Ichn. Europaea, v. 2, p. 797. ♂.

Taxonomy: Townes, 1970 (1969). Amer. Ent. Inst., Mem. 12: 100.

Genus HEDYLUS Foerster

Hedylus Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 183.

Type-species: *Hedylus crassicornis* Ashmead. By subsequent monotypy from inclusion by Ashmead, 1899.

This genus is transferred from the Endaseina where Townes (1970) placed it as a synonym of *Medophrone*. Although the type-species of *Hedylus* somewhat resembles *Medophrone* species in the structure of the head and ovipositor, it differs from *Medophrone* species so greatly in wing venation and petiolar structure that it seems illogical to suggest any close phyletic relationship.

between *Hedylus* and *Medophron*. In *Hedylus crassicornis* the nervellus is reclivous, the discoidella is absent, the apical portion of the mediella is very strongly curved, and the petiole has the apex of the sternite opposite the spiracles. In Townes' (1970) key to the genera of Phygadeuontina *H. crassicornis* runs to *Stibeutes*.

Taxonomy: Townes, 1970 (1969). Amer. Ent. Inst., Mem. 12: 81, 92-94.

brooksi (Brooks), n. comb. W. Va. Host: *Craponius inaequalis* (Say). This species was placed in *Stibeutes* by Townes (1970); it seems more a misfit in *Stibeutes* than in *Hedylus*.

Stiboscopus brooksi Ashmead, 1906. In Brooks, W. Va. Agr. Expt. Sta., Bul. 100: 240.
Nomen nudum.

Stiboscopus brooksi Brooks 1918. U. S. Dept. Agr., Bul. 730: 14. ♀.

Taxonomy: Townes, 1970 (1969). Amer. Ent. Inst., Mem. 12: 100, 395.

crassicornis Ashmead. N. H., Wis.; e. U. S. S. R.

Hedylus crassicornis Ashmead, 1899 (1898). In Jordan, Fur Seals and Fur Seal Isls. No. Pacific, v. 4, p. 339. ♀.

Genus STIBEUTES Foerster

Stibeutes Foerster, 1850. Arch. f. Naturgesch. 16 (1): 76.

Type-species: *Stibeutes gravenhorstii* Foerster. Desig. by Ashmead, 1900.

Chamaezelus Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 181.

Type-species: *Stibeutes heinemanni* Foerster. Monotypically included and desig. by Perkins, 1962.

Schizopleuron subg. *Schizopleuron* Aubert, 1968. Soc. Ent. de Mulhouse, Bul. 24: 6.

Described as *Schizopleuron* n. genus or *Medophron* subg. *Schizopleuron* n. subg.

Type-species: *Medophron (Schizopleuron) tricinctor* Aubert. Monotypic. The type-species was alternatively described as *Schizopleuron tricinctor* Aubert.

yuasai (Bradley), N. Y.

Phygadeuon (Stibeutes) yuasai Bradley, 1918. Brooklyn, Ent. Soc., Bul. 13: 99. ♀.

Genus THEROSCOPEUS Foerster

Theroscopus Foerster, 1850. Arch. f. Naturgesch. 16 (1): 72.

Type-species: *Pezomachus pedestris* Gravenhorst. Desig. by Viereck, 1914. *P. pedestris* Gravenhorst is an identification of *Ichneumon pedestris* Fabricius.

Chamerpes Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 172.

Type-species: *Pezomachus hemipterus* Gravenhorst. Monotypically included and desig. by Viereck, 1914. *P. hemipterus* Gravenhorst is an identification of *Ichneumon hemipterus* Fabricius which Viereck referred to as "Hemiteles hemipterus Gravenhorst."

Eriplanus Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 180.

Type-species: *Hemiteles (Eriplanus) metacomet* Viereck. By subsequent monotypy from inclusion by Viereck, 1917.

Phyrthus Foerster, 1868. Naturh. Verh. Rheinlande, Verh. 25: 181.

Type-species: *Pezomachus hemipterus* Gravenhorst. Monotypically included and desig. by Ashmead, 1900. *P. hemipterus* Gravenhorst is an identification of *Ichneumon hemipterus* Fabricius which Ashmead referred to as "Hemiteles hemipterus Gravenhorst."

Thysiotorus Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 181.

Type-species: *Hemiteles (Physiotorus[!]) brevipennis* Brischke. Desig. by Viereck, 1914 from two species included by Dalla Torre, 1902. Dalla Torre made the apparently erroneous assumption that *Physiotorus* was a typographical error for *Thysiotorus*. Cushman (1939) and Perkins (1962) suggest that *Physiotorus* was a lapsus Brischke made for *Phyrthus* instead of a typographical error for *Thysiotorus*.

Odonotoneura Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 185. N. syn.

Type-species: *Phygadeuon annulicornis* Thomson. Monotypically included and desig. by Perkins, 1962. The systematic position of the type-species is discussed by Frilli (1973).

Aenoplegimorpha Viereck, 1912. U. S. Natl. Mus., Proc. 42: 147.

Type-species: *Aenoplegimorpha phytonomi* Viereck. Monotypic and orig. desig.

Townes (1970) said that *Theroscopus* "is a large genus of Holarctic distribution; the hosts are probably various small cocoons."

Taxonomy: Cushman, 1939. Wash. Acad. Sci., Jour. 29: 395-396. —Perkins, 1962. Brit. Mus. (Nat. Hist.) Ent., Bul. 11: 392. —Townes, 1970 (1969). Amer. Ent. Inst., Mem. 12: 101.

—Frilli, 1973. Entomologica 9: 95.

nigriceps (Ashmead). Calif.

Hemiteles nigriceps Ashmead, 1890 (1889). U. S. Natl. Mus., Proc. 12: 400. ♀.

Taxonomy: Townes, 1970 (1969). Amer. Ent. Inst., Mem. 12: 101.

ruficoxus (Provancher). Que. s. to Conn., w. to Alta. and Utah.; Eurasia. Adventive? Host:

Hypera postica (Gyll.). The name which has most frequently been applied to this species is *micator* (Gravenhorst), but the original description of *Ichneumon micator* Gravenhorst (1807) cannot apply to this species primarily because Gravenhorst specifically described the female (male not described) as having the scape yellowish-brown and only the apices of abdominal tergites 1 and 2 yellowish-brown; in addition, the *micator* female apparently has black coxae. Cushman (1922) apparently based his suppression of *Aenoplegimorpha phytonomi* as a synonym of *micator* upon a specimen in the U. S. Natl. Museum collection identified as *micator* by Schmiedeknecht. The European concept of *micator* apparently had evolved from Gravenhorst's (1829) expanded definition of the species. Dr. Klaus Horstmann told me (personal commun., 1976) that Gravenhorst (1829) described a senior synonym of *ruficoxus*, and its identity will probably be published prior to the appearance of this catalog.

Hemiteles ruficoxus Provancher, 1874. Nat. Canad. 6: 331. ♂, ♀.

Phygadeuon cornutus Provancher, 1882. Nat. Canad. 13 (no. 155): 334 (key); 13 (no. 156): 356. ♀.

Hemiteles politus Bridgman, 1883. Ent. Soc. London, Trans. 31: 146. ♀. Uncertain syn.; placed as a synonym of *micator* by Horstmann (1972).

Phaeogenes recticornis Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 42. ♂, ♀.

Aenoplegimorpha phytonomi Viereck, 1912. U. S. Natl. Mus., Proc. 42: 147. ♂.

Hemiteles (Eriplanus) metacomet Viereck, 1917 (1916). Conn. State Geol. and Nat. Hist. Survey Bul. 22: 340. ♀.

Phygadeuon silesiacus Habermehl, 1919. Ztschr. f. Wiss. Insectenbiol. 15: 104. ♀.

Uncertain syn.; placed as a synonym of *micator* by Habermehl (1926).

Taxonomy: Gravenhorst, 1807. Vergl. Uebers. Zool. Systeme, p. 260. —Gravenhorst, 1829. Ichn. Europaea, v. 2, p. 832. —Cushman, 1922. Ent. Soc. Wash., Proc. 24: 64. —Roman, 1925 (1924). Genus CERATOPHYGADEUON Viereck

Ceratophygaedeon Viereck, 1924. Canad. Ent. 56: 110.

Type-species: *Ceratophygaedeon taeniatus* Viereck. Monotypic.

Remonzia Seyrig, 1952. Aead. Malgache, Mem. 39: 21.

Type-species: *Remonzia impostor* Seyrig. Monotypic.

Remonzia subg. *Euremonzia* Aubert, 1965. Soc. Ent. Mulhouse, Bul. 21: 17.

Type-species: *Remonzia (Euremonzia) parvicandator* Aubert. Monotypic and orig. desig.

Townes' (1970) description and key characters for this genus are partly inaccurate and misleading. In making his description and choosing the characters to use in his key to the genera of the Phygadeuontina, Townes appears to have neglected the type-species of *Ceratophygaedeon* and based his description and key mainly upon a group of species (which I will call the *perditus* group) whose members are at least in part parasitic upon the larvae of Stratiomyidae. However, even the males of the *perditus* group (and occasionally the females as well) often have two median apical teeth on the clypeus instead of the "single median tooth" described by Townes. Viereck described *Ceratophygaedeon* as having the "clypeus bituberculate at [the] apex," which roughly agrees with the two specimens of the type-species I have seen and with Townes' figure of that species (One of the specimens is like Townes figure in having what could be described as a single bifid clypeal tooth). In addition to its sharp facial tubercle (whence the name *Ceratophygaedeon*), the type-species has a rather unusual mandible which is short, very broad basally, narrowed very little from base to apex, and transversely concave on its outer surface; in the two examined specimens, both of the mandibular teeth have been worn down, but probably were almost equal in length. In species of the *perditus* group, the mandible is long, narrow, rather strongly tapered somewhat internal to the upper tooth, which seems to agree with what little Townes says concerning the mandible of *Ceratophygaedeon*. I do not know if either of the names *Remonzia* or *Euremonzia* would be applicable to members of the *perditus* group.

Taxonomy: Townes, 1970 (1969). Amer. Ent. Inst., Mem. 12: 94, 104, 399.

brevacus (Townes). Que., N. Y., Mich., Minn., Sask.

Platylabus aciculatus Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 36, 37.

♀. Formerly preocc. in *Phygadeon* by Provancher, 1882. The variant spelling "aciculatus" which appears on p. 37 of the "Additions" was rejected in favor of *aciculatus* by Provancher (1889) in the errata (p. 476) of the same work.

Phygadeon brevacus Townes, 1944. Amer. Ent. Soc., Mem. 11: 220. N. name for *Platylabus aciculatus* Provancher.

Stilpnus anthomyiidipera Viereck, 1912. U. S. Natl. Mus., Proc. 42: 644. ♂, ♀.

Stilpnus gagates var. *Robinsoni* Roman, 1922. In Skottsberg, Nat. Hist. Juan Fernandez and Easter Isl., v. 3, p. 293. ♀.

Taxonomy: Townes and Townes, 1966. Amer. Ent. Inst., Mem. 8: 56 (syn.). —Townes, 1970 (1969). Amer. Ent. Inst., Mem. 12: 106 (syn.).

Biology: Legner, 1966. Jour. Econ. Ent. 59: 999.

laevis Provancher. Que.

Stilpnus laevis Provancher, 1882. Nat. Canad. 13: 332. ♀.

Stilpnus levis Dalla Torre, 1902. Cat. Hym., v. 3, p. 738. Emend.

tenebricosus (Gravenhorst). Greenland, Alaska; Europe.

Hemiteles tenebricosus Gravenhorst, 1829. Ichn. Europaea, v. 2, p. 785. ♂.

Ichneumon nitidulator Zetterstedt, 1838. Insecta Lapponica ... Hym., p. 362. “♂” = ♀.

Taxonomy: Roman, 1918. Arkiv for Zool. 12 (2): 30-31 (syn.).

Genus MESOLEPTUS Gravenhorst

Mesoleptus Gravenhorst, 1829. Ichn. Europaea, v. 2, p. 3.

Type-species: *Ichneumon laevigatus* Gravenhorst. Desig. by Curtis, 1837.

Exolytus Holmgren, 1859 (1858). Svenska Vetensk.-Akad., Ofvers af ... Forhandl. 15: 328.

Type-species: *Ichneumon laevigatus* Gravenhorst. Monotypic and orig. desig.

Exolytus Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 189. Preocc. by Holmgren, 1858.

Type-species: *Ichneumon laevigatus* Gravenhorst. Included and desig. by Foerster, 1876.

Gravenhorst's concept of *Mesoleptus* included elongate Ichneumonidae of diverse affinities. The species placed in *Mesoleptus* by Provancher and Cresson were of comparable diversity, but most European authors restricted the application of the name to a group of species now in the Ctenopelmatinae: Euryproctini.

borealis (Davis). “Hudson Bay Territory.”

Exolytus borealis Davis, 1898 (1897). Amer. Ent. Soc., Trans. 24: 355. “♂” = ♀.

davisii (Dalla Torre). Colo.

Exolytus petiolaris Davis, 1898 (1897). Amer. Ent. Soc., Trans. 24: 355. ♂. Preocc. in *Mesoleptus* by Thomson, 1884.

Exolytus davisii Dalla Torre, 1902. Cat. Hym., v. 3, p. 727. N. name for *E. petiolaris* Davis. *declivus* (Provancher). Que., Ont., N. Y., Oreg. Host: *Sepedon fuscipennis* Loew, *Pherbiella schoenherri maculata* (Cr.).

Hemiteles declivus Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 60. ♂, ♀.

Atractodes sepodontis Ashmead, 1901. In Needham and Betten, N. Y. State Mus. Bul. 47: 588. ♀.

Taxonomy: Barron, 1975. Nat. Canad. 102: 459 (lectotype selected).

glaucus (Davis). N. Y., Mich.

Exolytus glaucus Davis, 1898 (1897). Amer. Ent. Soc., Trans. 24: 354. ♂, ♀.

ignotus Cresson. N. Y., Ohio, W. Va.

Mesoleptus? ignotus Cresson, 1868. Amer. Ent. Soc., Trans. 2: 103. ♀.

Exolytus melanoscelis DeGant, 1933. U. S. Natl. Mus., Proc. 83: 3. ♀.

ithacae (Ashmead). Que., Ont., Conn., N. Y., N. J.

Pyracmon incompletum Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 90.

♀. Preocc. in *Mesoleptus* by Provancher, 1875.

Exolytus ithacae Ashmead, 1896. Amer. Ent. Soc., Trans. 23: 206. ♀.

Genus ATRACTODES Gravenhorst

Atractodes Gravenhorst, 1829. Ichn. Europaea, v. 3, p. 739.

Type-species: *Atractodes bicolor* Gravenhorst. Desig. by Westwood, 1840.

Zetesima Foerster, 1876. Naturh. Ver. Rheinlande, Verh. 33: 27.

Type-species: *Zetesima rufipes* Foerster. Monotypic and orig. desig. The name of the type-species is preocc. in *Atractodes* by Provancher, 1874.

Asyncrita Foerster, 1876. Naturh. Ver. Rheinlande, Verh. 33: 29.

Type-species: *Atractodes foveolatus* Gravenhorst. Orig. desig.

aciculatus (Davis). N. H., N. Y.

Exolytus aciculatus Davis, 1898 (1897). Amer. Ent. Soc., Trans. 24: 354. ♂, ♀.

alamagnus (Davis). Colo.

Exolytus alamagnus Davis, 1898 (1897). Amer. Ent. Soc., Trans. 24: 355. ♂.

alaskensis (Ashmead). Alaska, Wash., Oreg.

Exolytus alaskensis Ashmead, 1902. Wash. Acad. Sci., Proc. 4: 167. ♀.

Exolytus seldoviae Ashmead, 1902. Wash. Acad. Sci., Proc. 4: 168. ♂.

Taxonomy: Townes, 1970 (1969). Amer. Ent. Inst., Mem. 12: 107 (syn.).

ambiguus Ruthe. Alaska; n. Eurasia. Ecology: Occurs in moist biotypes (see Petersen, 1956).

Atractodes ambiguus Ruthe, 1859. Stettin. Ent. Ztg. 20: 377. ♀.

Exolytus ungae Ashmead, 1902. Wash. Acad. Sci., Proc. 4: 167. ♂, ♀.

Exolytus insularis Ashmead, 1902. Wash. Acad. Sci., Proc. 4: 168. ♀.

Atractodes truncator Roman, 1909. In Hamberg, Naturw. Untersuch. Sarekgebirges Schwedisch-Lappland, v. 4, p. 228. ♂, ♀.

Taxonomy: Roman, 1928. In Lindroth, Goteborgs K. Vetensk. Vitterhets-Samhalles Handl. (5B) 1 (4): 20 (syn.). —Townes, 1944. Amer. Ent. Soc., Mem. 11: 229 (syn.).

Biology: Petersen, 1956. In Fridriksson and Tuxen, Zool. Iceland, v. 3, pt. 49-50, p. 70.

americanus (Ashmead). N. H., N. Y., N. C., S. C., Tenn., Kans. Ecology: Found in late fall at carriion.

Ischnus americanus Ashmead, 1890 (1889). U. S. Natl. Mus., Proc. 12: 394. ♀.

arcticus Holmgren. Greenland; n. Eurasia.

Atractodes arcticus Holmgren, 1872. Svenska Vetensk.-Akad., Ofvers af ... Forh. 29 (6): 99. ♂.

Taxonomy: Roman, 1916. Arkiv for Zool. 10 (22): 8. —Roman, 1934. Ann. and Mag. Nat. Hist. (10) 14: 607-608.

ashmeadi Cushman. N. H.

Asyncrita compressa Ashmead (?), 1897. In Slosson, Ent. News 8: 237. Lapsus for and misidentification of *Stilpnus? compressus* Cresson (compare Ashmead, 1900 with Cushman, 1922).

Atractodes ashmeadi Cushman, 1922. U. S. Natl. Mus., Proc. 61 (8): 6. ♀.

Taxonomy: Ashmead, 1900. In Smith, N. J. State Bd. Agr., Ann. Rpt. 27, sup., p. 568.

aterrimus Holmgren. Greenland.

Atractodes aterrimus Holmgren, 1872. Svenska Vetensk.-Akad., Ofvers af ... Forh. 29 (6): 98. ♂.

Taxonomy: Roman, 1916. Arkiv for Zool. 10 (22): 9. —Roman, 1934. Ann. and Mag. Nat. Hist. (10) 14: 607 (description of female).

SUBTRIBE CREMNODEINA

Genus CREMNODES Foerster

Cremnodes Foerster, 1850. Arch. f. Naturgesch. 16 (1): 72.

Type-species: *Ichneumon atricapillus* Gravenhorst. Orig. desig.

Caenomeris Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 174.

Type-species: *Xestophya nigripes* Ashmead. Monotypically included and desig. by Townes, 1944.

Stygera Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 176.

Type-species: *Stygera rufipes* Perkins. Monotypically included and desig. by Perkins, 1962.

Cremnias Roman, 1939. Ent. Tidskr. 60: 186. Unnecessary n. name for *Cremnodes* Foerster, which is not preocc. by Gerst, 1858. Roman thought *Cremnodes* was described by Foerster in 1868.

Taxonomy: Perkins, 1962. Brit. Mus. (Nat. Hist.) Ent., Bul. 11: 397-398, 411, 415, 454.

nigripes (Ashmead). Alaska.

Xestophya polita Ashmead, 1902. Wash. Acad. Sci., Proc. 4: 162. ♂, ♀.

Xestophya nigripes Ashmead, 1902. Wash. Acad. Sci., Proc. 4: 163. ♂.

UNPLACED TAXA OF HEMITELINI

Hemiteles nigricans Provancher, 1882. Nat. Canad. 13: 360. ♂. Que.

Taxonomy: Barron, 1975. Nat. Canad. 102: 514.

TRIBE APTESINI

In transferring the genus *Echthrus* to the group he formerly called the Hemigastrini, Townes (1970) changed the name of the group to Echthriini because of his preference to base supergeneric group names upon the oldest included genus rather than upon the oldest suprageneric name; following the latter practice would have resulted in his retention of the name Hemigastrini. Because of my belief that *Hemigaster* actually belongs in the group Townes (1970) called the subtribe Baryceratina (tribe Cryptini), the name Hemigastrina is here applied to that subtribe.

Most Aptesini oviposit into the cocoons of sawflies, but the species of *Echthrus* and *Demopheles* parasitize wood boring Coleoptera, and *Polytribax* parasitizes Lepidoptera.

Revision: Townes and Gupta, 1962. Amer. Ent. Inst., Mem. 2: 1-305.

Taxonomy: Townes, 1970(1969). Amer. Ent. Inst., Mem. 12: 111-140 (genera of world).

Genus DEMOPHELES Foerster

Demopheles Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 186.

Type-species: *Phygadeuon caliginosus* in the sense of Thomson (1873). By subsequent monotypy from inclusion by Ashmead, 1900. Ashmead (1900) suppressed the monotypic genus *Mecocryptus* as a synonym of *Demopheles*, thereby including the type-species of *Mecocryptus* (which see) in *Demopheles* (cf. Perkins, 1962).

Mecocryptus Thomson, 1873. Opusc. Ent. 5: 520, 521.

Type-species: *Phygadeuon caliginosus* Gravenhorst, not as restricted by Taschenberg and Frilli. Monotypic and orig. desig. Thomson did not say that he was applying the name *caliginosus* to Gravenhorst's female, but this is implied by the fact that on the same two pages he described a new genus and species, *Stenoeryctus nigriventris*, for what he believed to be *Phygadeuon caliginosus*

"Taschenberg;" Taschenberg applied the name *caliginosus* to Gravenhorst's male and validated the name *Phygadeuon corruptor* for Gravenhorst's female. Frilli (1975) selected Gravenhorst's male as the lectotype of *caliginosus*, leaving *corruptor* as the valid name for *P. caliginosus* in the sense of Thomson.

A single species of Holarctic distribution is known; it was revised by Townes (1963) to include four subspecies: the European *D. corruptor corruptor*, the Japanese *D. corruptor atripes* Townes, and two Nearctic ones.

Revision: Townes, 1963. Ent. Soc. Wash., Proc. 65: 47-50.

Taxonomy: Gravenhorst, 1829. Ichn. Europaea, v. 2, pp. 645-646. —Taschenberg, 1865. Ztsch. f. die Gesam. Naturw. Halle 25: 22, 49. —Ashmead, 1900. U. S. Natl. Mus., Proc. 23: 177, 214. —Perkins, 1962. Brit. Mus. (Nat. Hist.) Ent., Bul. 11: 416. —Frilli, 1975 (1974). Soc. Ent. Ital., Mem. 53: 127-129.

corruptor maturus (Provancher). Que. s. to Ga., w. to w. Ont. and possibly Alta. Host: *Clytus ruricola* (Oliv.). The Alta. record is based upon a male from Edmonton, and the distinction between the Nearctic subspecies is so far based only upon females.

Phygadeuon maturus Provancher, 1879. Nat. Canad. 11: 68. ♀.

corruptor rufatus Townes. Colo., N. Mex., Wash.

Demopheles corruptor rufatus Townes, 1963. Ent. Soc. Wash., Proc. 65: 49. ♀.

Genus JAVRA Cameron

Cnemocryptus Cameron, 1903. Manchester Lit. and Phil. Soc., Mem. and Proc. 47 (14): 38.

Type-species: *Cnemocryptus validicornis* Cameron. Monotypic. The type-species is regarded as a synonym of *J. parviceps* Cameron.

Javra Cameron, 1903. Manchester Lit. and Phil. Soc., Mem. and Proc. 47 (14): 47.

Type-species: *Javra parviceps* Cameron. Monotypic.

Finchra Cameron, 1907. Ztschr. System. Hym. Dipt. 7: 463.

Type-species: *Finchra gracilis* Cameron. Monotypic.

Monocryptus Hellen, 1956. Notulae Ent. 36: 135.

Type-species: *Cratocryptus opacus* Thomson. Monotypic.

This genus is Holarctic and Oriental, with most of the species occurring in Asia.

glaesaria Townes. R. I., N. Y., Ont.

Javra glaesaria Townes, 1962. In Townes and Gupta, Amer. Ent. Inst., Mem. 2: 13. ♀.

rugata Townes. Va., Ohio.

Javra rugata Townes, 1962. In Townes and Gupta, Amer. Ent. Inst., Mem. 2: 12. ♀.

Genus PARMORTHA Townes

Parmortha Townes, 1962. In Townes and Gupta, Amer. Ent. Inst., Mem. 2: 14.

Type-species: *Parmortha pleuralis atripes* Townes. Orig. desig. *P. pleuralis atripes* is regarded as a synonym of *P. pleuralis albonaculata* (Ashmead).

This is a small genus of Holarctic distribution. The hosts are allantine sawflies which pupate in the stems of weeds and shrubs.

circumcineta circumcineta (Provancher). Que. w. to e. B. C., s. to n. S. C. and Colo.

Cryptus circumcinetus Provancher, 1879. Nat. Canad. 11 (no. 125): 132. ♂.

circumcineta flavipes (Harrington). Alta. s. to Colo., w. to B. C. and Calif. Host: *Ametastegia glabratula* (Fall.).

Cryptus flavipes Harrington, 1894. In Townes and Gupta, Amer. Ent. Inst., Mem. 26: 212. ♀.

parvula (Gravenhorst). N. S. and n. Ont. w. to Alaska, s. to N. J. and Oreg; Eurasia. Host: *Ametastegia glabratula* (Fall.).

Cryptus parvulus Gravenhorst, 1829. Ichn. Europaea, v. 2, p. 459. ♀ (♂ misdet.).

Cryptus erythropus Gravenhorst, 1829. Ichn. Europaea, v. 2, p. 469. ♂.

Cryptus velox Harris, 1835. In Hitchcock, Rpt. Geol. Mineral. Bot. Zool. Mass., ed. 2, p. 584. Nomen nudum.

Cryptus velox Cresson, 1864. Ent. Soc. Phila., Proc. 3: 293. ♀.

Cryptus osculatus Provancher, 1874. Nat. Canad. 6: 178. ♂.

Isotina(!) tibialis Ashmead, 1897. In Slosson, Ent. News 8: 237. Nomen nudum.

pleuralis arctica Townes. Northern Que., N. W. T., Alaska. *P. pleuralis pleuralis* (Thomson) occurs in Europe, and *P. pleuralis albomaculata* (Ashmead) occurs in Japan.

Parmortha pleuralis arctica Townes, 1962. In Townes and Gupta, Amer. Ent. Inst., Mem. 2: 19. ♂, ♀.

pleuralis signata (Provancher). Southern Que. w. to s. Alaska, s. to N. C. and Wash. Host: *Ametastegia glabrata* (Fall.).

Cryptus quebecensis Provancher, 1874. Nat. Canad. 6: 179. ♀.

Cryptus signatus Provancher, 1874. Nat. Canad. 6: 179. ♀.

Parmortha pleuralis alpina Townes, 1962. In Townes and Gupta, Amer. Ent. Inst., Mem. 2: 22. ♀. N. syn.

Taxonomy: Barron, 1975. Nat. Canad. 102: 540, 566-567 (discussion of Provancher types).

Genus CRATOCRYPTUS Thomson

Cratocryptus Thomson, 1873. Opusc. Ent. 5: 521.

Type-species: *Cryptus furcator* Gravenhorst. Desig. by Viereck, 1914.

This genus includes only two species which Townes (1970) said "might better be treated as subspecies."

Taxonomy: Townes, 1970 (1969). Amer. Ent. Inst., Mem. 12: 128.

petilus Townes. Que., Ont., Mich., B. C. Host: *Cephacia* sp.

Cratocryptus petilus Townes, 1962. In Townes and Gupta, Amer. Ent. Inst., Mem. 2: 26. ♂, ♀.

Genus CUBOCEPHALUS Ratzeburg

Cubocephalus Ratzeburg, 1848. Ichn. d. Forstins., v. 2, p. 121.

Type-species: *Cryptus fortipes* Gravenhorst. Monotypic. The type-species is regarded as a synonym of *Cubocephalus distinctor* (Thunberg).

Ecporthetor Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 184.

Type-species: *Cryptus fortipes* Gravenhorst. Monotypically included and desig. by Ashmead, 1900.

Pammachus Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 184.

Type-species: *Stenocryptus nigriventris* Thomson. By subsequent monotypy from inclusion by Ashmead, 1900. Ashmead (1900) suppressed the monotypic genus *Stenocryptus* as a synonym of *Pammachus*, thereby including *S. nigriventris* (cf. Perkins, 1962).

Chaeretymma Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 187.

Type-species: *Cryptus anatorius* Gravenhorst. Monotypically included and desig. by Schmiedeknecht, 1890.

Stenocryptus Thomson, 1873. Opusc. Ent. 5: 520, 521.

Type-species: *Stenocryptus nigriventris* Thomson. Monotypic and orig. desig.

Microcryptus Thomson, 1873. Opusc. Ent. 5: 520, 521.

Type-species: *Cryptus erythrinus* Gravenhorst. Monotypic.

Planocryptus Heinrich, 1949. Muenchner Ent. Gesell., Mitt. 35-39: 56.

Type-species: *Planocryptus mirabilis* Heinrich. Orig. desig.

This is a large Holarctic genus. The few available rearing records indicate that the species parasitize sawflies which pupate in plant tissue, under bark, etc.

Taxonomy: Ashmead, 1900. U. S. Natl. Mus., Proc. 23: 31, 186, 218. —Perkins, 1962. Brit. Mus. (Nat. Hist.) Ent., Bul. 11: 442.

alaericus (Cresson). Newfoundland (Labrador) s. to n.w. S. C., w. to Alaska and Calif. Host: *Ametastegia glabrata* (Fallen). In the tribal revision of Townes and Gupta (1962),

Townes recognized four subspecies, three of which were sympatric.

Cryptus alacris Cresson, 1864. Ent. Soc. Phila., Proc. 3: 306. ♀.

Leptobatus Canadensis Provancher, 1875. Nat. Canad. 7 (5): 145. ♀. N. syn.

- Mesostenus nigricornis* Provancher, 1875. Nat. Canad. 7 (9): 264. ♂. Temporarily preocc. in *Cryptus* by Brulle, 1846.
- Cryptus eburneifrons* Provancher, 1879. Nat. Canad. 11 (no. 125): 133. ♂.
- Cryptus mellipes* Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 68. ♀.

- aquilonius* Townes and Gupta. Newfoundland (Labrador) w. to n. B. C., Yukon, and Alaska; also Colo.
- Cubocephalus aquilonius* Townes and Gupta, 1962. Amer. Ent. Inst., Mem. 2: 53. ♂, ♀.
- ardens* Townes. N. H., Ont., Mich., Wis., Colo., Alaska.
- Cubocephalus ardens* Townes, 1962. In Townes and Gupta, Amer. Ent. Inst., Mem. 2: 109. ♂, ♀.
- armillatus* Walkley. Que.
- Cryptus collaris* Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 71. Preocc. by Rudow, 1883.
- Cubocephalus armillatus* Walkley, 1958. In Krombein et al., U. S. Dept. Agr., Agr. Monog. 2, Sup. 1, p. 45. N. name for *Cryptus collaris* Provancher.
- ashmeadii* (Harrington). Mont., Ariz., B. C., Wash., Oreg., Calif. Host: *Ametastegia glabratula* (Fall.), *Trypoxyylon* sp.
- Chaerettymma ashmeadii* Harrington, 1894. Canad. Ent. 26: 212. ♀.
- atriclunis* Townes and Gupta. Maine w. to B. C., s. to N. J. and s. Mich.
- Cubocephalus atriclunis* Townes and Gupta, 1962. Amer. Ent. Inst., Mem. 2: 56. ♂, ♀.
- baldaufii* (Dalla Torre). Que. w. to Sask., s. to N. Y., Ind., and Minn.
- Cryptus scutellatus* Provancher, 1877. Nat. Canad. 9: 12. ♂. Preocc. by Smith, 1858.
- Cryptus baldaufii* Dalla Torre, 1902. Cat. Hym., v. 3, p. 563. N. name for *Cryptus scutellatus* Provancher.
- brevicornis* (Taschenberg). Northern Que., n. Mich., Colo., n. Yukon, Alaska; Europe.
- Phygadeuon brevicornis* Taschenberg, 1865. Ztschr. f. die Gesam. Naturw. Halle 25: 48. ♀.
- caligneus* Townes. N. C.
- Cubocephalus caligneus* Townes, 1962. In Townes and Gupta, Amer. Ent. Inst., Mem. 2: 109. ♀.
- callicerus* Townes. N. S., Que., N. Y., Ont., Mich., Ohio.
- Cubocephalus callicerus* Townes, 1962. In Townes and Gupta, Amer. Ent. Inst., Mem. 2: 115. ♂, ♀.
- carnosus* Townes. Que., N. H., Mich., Ohio.
- Cubocephalus carnosus* Townes, 1962. In Townes and Gupta, Amer. Ent. Inst., Mem. 2: 114. ♂, ♀.

- cincticornis** (Cresson). Que. s. to Pa., w. to Mich. and Ill.
Phygadeuon cincticornis Cresson, 1864. Ent. Soc. Phila., Proc. 3: 309. ♀.
- contractus** Townes and Gupta. Newfoundland (Labrador) w. to n. Yukon and Alaska, s. to N. Y., Mich., Colo., and Wash.
Cubocephalus contractus Townes and Gupta, 1962. Amer. Ent. Inst., Mem. 2: 46. ♂, ♀.
- denticulatus denticulatus** Townes. Que., Maine, Vt., N. Y., Mich.
Cubocephalus denticulatus denticulatus Townes, 1962. In Townes and Gupta, Amer. Ent. Inst., Mem. 2: 43. ♂, ♀.
- denticulatus obscuripes** Townes. Alaska.
Cubocephalus denticulatus obscuripes Townes, 1962. In Townes and Gupta, Amer. Ent. Inst., Mem. 2: 42. ♂.
- dreisbachi** Townes. Que. s. to Conn., w. to Alta. and Kans. Townes (1962) said this species "is very close to *C. ashmeadii* and may prove to be an eastern subspecies of it."
Cubocephalus dreisbachi Townes, 1962. In Townes and Gupta, Amer. Ent. Inst., Mem. 2: 94. ♂, ♀.
- eryops** Townes. Vt., Ont., Mich., Minn.
Cubocephalus eryops Townes, 1962. In Townes and Gupta, Amer. Ent. Inst., Mem. 2: 64. ♂, ♀.
- flavipes** Townes. N. Y., Mich.
Cubocephalus flavipes Townes, 1962. In Townes and Gupta, Amer. Ent. Inst., Mem. 2: 72. ♂, ♀.
- hebes** Townes. Sask., Mont.
Cubocephalus hebes Townes, 1962. In Townes and Gupta, Amer. Ent. Inst., Mem. 2: 66. ♂, ♀.
- hirtipes hirtipes** Townes. Alta. s. to N. Mex., w. to Wash. and Calif.
Cubocephalus hirtipes hirtipes Townes, 1962. In Townes and Gupta, Amer. Ent. Inst., Mem. 2: 122. ♂, ♀.
- hirtipes trachodes** Townes. N. H. Ecology: Occurs above timberline on Mt. Washington.
Cubocephalus hirtipes trachodes Townes, 1962. In Townes and Gupta, Amer. Ent. Inst., Mem. 2: 122. ♂, ♀.
- impressus** (Provancher). Que. s. to n. Ga., w. to Minn. and Colo.
Ischnus impressus Provancher, 1875. Nat. Canad. 7: 112. ♂.
- incisus atriventris** Townes and Gupta. Ariz.
Cubocephalus incisus atriventris Townes and Gupta, 1962. Amer. Ent. Inst., Mem. 2: 44. ♀.
- incisus incisus** Townes and Gupta. N. Y., Mich.
Cubocephalus incisus incisus Townes and Gupta, 1962. Amer. Ent. Inst., Mem. 2: 45. ♂, ♀.
- incognitus** (Provancher). Que., Vt., Mass., N. Y., Ont., Mich., Wyo.
Cryptus incognitus Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 70. ♂.
- inhabitabilis** (Provancher). Que. w. to Alta. and Wash., s. to e. Tenn., Colo., and Calif.
Phygadeuon inhabitabilis Provancher, 1877. Nat. Canad. 9: 11. ♀.
- laticeps** (Cresson). N. B. s. to S. C., w. to Minn., S. Dak., Tex., and Calif.
Cryptus laticeps Cresson, 1872. Amer. Ent. Soc., Trans. 4: 157. ♂.
- lissopleuris** Townes and Gupta. Maine, N. Y., Pa., s. w. N. C.
Cubocephalus lissopleuris Townes and Gupta, 1962. Amer. Ent. Inst., Mem. 2: 59. ♂.
- longicaudus** (Provancher). Que. s. to Ga., w. to Minn.
Cryptus longicaudus Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 68. ♀.
Cryptus schinuckii Dalla Torre, 1902. Cat. Hym., v. 3, p. 588. Unnecessary n. name for
Cryptus longicaudus Provancher; the latter not preocc. by *Cryptus longicauda* Brulle.
- maurus** (Cresson). Que., ont., Mich., N. W. T., Alta., B. C., Calif.
Echthrus? maurus Cresson, 1879 (1878). Acad. Nat. Sci. Phila., Proc. 30: 381. ♀.

- marius** Townes and Gupta. Maine, N. H., N. Y., n.w. S. C., Mich., Wis.
Cubocephalus marius Townes and Gupta, 1962. Amer. Ent. Inst., Mem. 2: 54. ♂, ♀.
- micans** Townes. P. E. I. s. to N. Y., w. to Minn.
Cubocephalus micans Townes, 1962. In Townes and Gupta, Amer. Ent. Inst., Mem. 2: 112. ♂, ♀.
- molaris** Townes and Gupta. Que., N. Y., Ont., Minn., Wyo., Colo., N. Mex., Yukon, B. C., Oreg., Calif.
Cubocephalus molaris leechi Townes and Gupta, 1962. Amer. Ent. Inst., Mem. 2: 50. ♂. N. syn.
Cubocephalus molaris molaris Townes and Gupta, 1962. Amer. Ent. Inst., Mem. 2: 50. ♂, ♀.
Cubocephalus molaris cervinus Townes and Gupta, 1962. Amer. Ent. Inst., Mem. 2: 51. ♂, ♀. N. syn.
- nigriventris** (Thomson). Que. w. to B. C., s. to s.w. N. C., Mich., Colo., and Oreg; Eurasia. In describing *nigriventris* Thomson stated that it is the species for which Taschenberg (1865) had used the name *Phygadeuon caliginosus* Gravenhorst (1829). Apparently Thomson was mistaken because Taschenberg applied the name *caliginosus* to Gravenhorst's male, and a male which was selected as lectotype of *caliginosus* by Frilli (1975) was identified by Frilli as a species of *Phygadeuon*.
Stenocryptus nigriventris Thomson, 1874. Opusc. Ent. 6: 604. ♂, ♀.
- Taxonomy: Gravenhorst, 1829. Ichn. Europaea, v. 2, p. 645-646. — Taschenberg, 1865. Ztschr. f. die Gesam. Naturw. Halle 25: 22, 49. — Frilli, 1975 (1974). Soc. Ent. Ital., Mem. 53: 127-129.
- nitidus nitidus** (Provancher). N. S. w. to Alta., s. to Pa. and Mich.
Mesostenus nitidus Provancher, 1874. Nat. Canad. 6: 301. ♂.
Cryptus occidentalis Provancher, 1875. Nat. Canad. 7: 314. ♀.
Phygadeuon nitidulus Provancher, 1879. Nat. Canad. 11: 70. Unnecessarily proposed n. name for *M. nitidus*; although *nitidus* was preocc. in *Phygadeuon* by Gravenhorst, 1829, Provancher could have used the name *ruficoxus* for the species because he suppressed *Mesostenus ruficoxus* (as "ruficornis [!]"') Provancher and *Cryptus ruficoxus* Provancher as synonyms of *nitidulus*.
Cryptus ignotus Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 73. ♂.
Cryptus nellicoxus Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 75. ♂.
- nitidus totus** Townes. Western Wyo., Alaska, B. C., Wash., Oreg., n. Calif.
Cubocephalus nitidus totus Townes, 1962. In Townes and Gupta, Amer. Ent. Inst., Mem. 2: 79. ♂, ♀.
- pallidus** (Cresson). Que. w. to B. C., s. to n.w. S. C., Ark., and Kans. In the tribal revision of Townes and Gupta (1962), Townes recognized two subspecies which were largely sympatric.
Mesoleptus vultus Cresson, 1864. Ent. Soc. Phila., Proc. 3: 268. ♂.
Cryptus pallidus Cresson, 1864. Ent. Soc. Phila., Proc. 3: 307. ♀.
Cryptus spissicornis Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 68. ♂, ♀. N. syn.
- pentagonalis** (Provancher). Ont. According to Barron (1975) *pentagonalis* was incorrectly suppressed as a synonym of *Cubocephalus alacris canadensis* (Provancher) (= *alacris* Cresson) by Townes (1962), the latter author apparently having erroneously disregarded the lectotype selected by Gahan and Rohwer (1917).
Cryptus pentagonalis Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 66. ♂, ♀.
- Taxonomy: Gahan and Rohwer, 1917. Canad. Ent. 49: 394. — Townes, 1962. In Townes and Gupta, Amer. Ent. Inst., Mem. 2: 89-91. — Barron, 1975. Nat. Canad. 102: 528-529.
- personatus** Townes. Wash., Oreg., Calif.
Cubocephalus personatus Townes, 1962. In Townes and Gupta, Amer. Ent. Inst., Mem. 2: 105. ♂, ♀.

pictus Townes. Mich., ?n.w. S. C. Townes said that "the correlation of the males [from Mich.] and the female [from S. C.] of this species involves much conjecture, and may not be correct."

Cubocephalus pictus Townes, 1962. In Townes and Gupta, Amer. Ent. Inst., Mem. 2: 111. ♂, ♀.

prolixus phaeolepis Townes and Gupta. B. C., Oreg., Calif.

Cubocephalus prolixus phaeolepis Townes and Gupta, 1962. Amer. Ent. Inst., Mem. 2: 48. ♂, ♀.

prolixus prolixus Townes and Gupta. Que. s. to N. Y., w. to Man. and S. Dak.

Cubocephalus prolixus prolixus Townes and Gupta, 1962. Amer. Ent. Inst., Mem. 2: 49. ♂, ♀.

rectus (Provancher). Que. s. to N. Y., w. to Minn.

Cryptus rectus Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 75. ♂.

rufibasis Townes and Gupta. Mich.

Cubocephalus rufibasis Townes and Gupta, 1962. Amer. Ent. Inst., Mem. 2: 63. ♀.

scorteus Townes. Northern Que., Yukon.

Cubocephalus scorteus Townes, 1962. In Townes and Gupta, Amer. Ent. Inst., Mem. 2: 70. ♂, ♀.

semifulvus Townes. Alaska, Wash.

Cubocephalus semifulvus Townes, 1962. In Townes and Gupta, Amer. Ent. Inst., Mem. 2: 71. ♂, ♀.

semirufus (Brulle). Mass. s. to N. C., w. to Mich. Ecology: One male specimen was reared in association with *Macremphytus* sp.

Cryptus semi-rufus Brulle, 1846. In Lepetier, Hist. Nat. Ins. Hym., v. 4, p. 195. ♀.

Mesoleptus eximus Cresson, 1868. Amer. Ent. Soc., Trans. 2: 100. ♂.

sternolophus Townes. N. Y., Pa., Ohio, Mich., N. Mex., Alaska, Calif.

Cubocephalus sternolophus Townes, 1962. In Townes and Gupta, Amer. Ent. Inst., Mem. 2: 74. ♂, ♀.

subpolitus Townes. Que., Conn., N. Y., Minn.

Cubocephalus subpolitus Townes, 1962. In Townes and Gupta, Amer. Ent. Inst., Mem. 2: 120. ♂, ♀.

tincticoxis Townes. Colo., B. C., Oreg., Calif.

Cubocephalus tincticoxis Townes, 1962. In Townes and Gupta, Amer. Ent. Inst., Mem. 2: 55. ♂.

Genus ORESBIUS Marshall

Oresbius Marshall, 1867. Ent. Monthly Mag. 3: 193.

Type-species: *Oresbius castaneus* Marshall. Monotypic.

Opidnus Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 185.

Type-species: *Aptesis (Pezoporus) tsugae* Cushman. Included and desig. by Townes and Townes, 1951.

Townes (1970) said that this large Holarctic genus has the most northerly distribution of any aptesine genus. He said that about half of the arctic species have brachypterous females, which contributes to their scarcity in collections.

Taxonomy: Townes, Momoi, and Townes, 1965. Amer. Ent. Inst., Mem. 5: 157 (syn.).

—Townes, 1970 (1969). Amer. Ent. Inst., Mem. 12: 131.

albicoxus (Provancher). Que., N. W. T., and Alaska, s. to Md., Mich., Ariz., and Calif. Host:

Pristiphora erichsonii (Htg.). In the tribal revision of Townes and Gupta (1962), Townes recognized two subspecies which were largely sympatric.

Cryptus brevicornis Provancher, 1875. Nat. Canad. 7 (6): 176. ♂. Preocc. by Gravenhorst, 1829.

Mesostenus albicoxus Provancher, 1975. 1875. 7 (6): 266. ♂.

Cryptus ferrugineus Ashmead, 1890 (1889). U. S. Natl. Mus., Proc. 12: 412. ♀. Preocc. by Smith, 1861 and 1879. N. syn.

Cryptus Schöberi Dalla Torre, 1902. Cat. Hym., v. 3, p. 588. N. name for *C. ferrugineus* Ashmead. N. syn.

Cryptus koebelei Rohwer, 1917. U. S. Natl. Mus., Proc. 53: 158. Unnecessarily proposed n. name for *C. ferrugineus* Ashmead. N. syn.

Taxonomy: Barron, 1975. Nat. Canad. 102: 419-420, 436 (n. comb. and lectotype selection).

Alexanderi (Townes), n. comb. Que., Vt., Alta.

Opidinus alexanderi Townes, 1962. In Townes and Gupta, Amer. Ent. Inst., Mem. 2: 145. ♂, ♀.

aniptus (Townes), n. comb. Colo., Alaska, Calif.

Opidinus aniptus Townes, 1962. In Townes and Gupta, Amer. Ent. Inst., Mem. 2: 151. ♂, ♀.

arridens (Gravenhorst). N. H., Mass., N. Y., Ont., Mich., B. C.; Eurasia. Adventive? The species is not known to have been collected in North America before 1946.

Phygadeuon arridens Gravenhorst, 1829. Ichn. Europaea, v. 2, p. 654. ♂.

ciliatus (Townes), n. comb. Que.

Opidinus ciliatus Townes, 1962. In Townes and Gupta, Amer. Ent. Inst., Mem. 2: 164. ♀.

cognatus (Townes), n. comb. Northern que. s. to N. Y., w. to B. C. and Calif.

Opidinus cognatus Townes, 1962. In Townes and Gupta, Amer. Ent. Inst., Mem. 2: 148. ♂, ♀.

dorsator (Ashmead), n. comb. Alaska.

Centeterus dorsator Ashmead, 1902. Wash. Acad. Sci., Proc. 4: 161.

fulvibasis (Townes), n. comb. Que. s. to s.e. N. C., w. to Minn.

Opidinus fulvibasis Townes, 1962. In Townes and Gupta, Amer. Ent. Inst., Mem. 2: 144. ♂.

lindrothi (Townes), n. comb. Alaska.

Opidinus lindrothi Townes, 1962. In Townes and Gupta, Amer. Ent. Inst., Mem. 2: 158. ♀.

major (Townes), n. comb. Northern Que., N. H. Ecology: In N. H. this species occurs above timberline on Mt. Washington.

Opidinus major Townes, 1962. In Townes and Gupta, Amer. Ent. Inst., Mem. 2: 156. ♂.

mucronatus (Townes), n. comb. Maine, Mass., N. Y., Mich.

Opidinus mucronatus Townes, 1962. In Townes and Gupta, Amer. Ent. Inst., Mem. 2: 150. ♂, ♀.

nivarius (Brues), n. comb. Alaska.

Aptesis nivarius Brues, 1919. Rpt. Canad. Arctic Exped. 1913-18, v. 3G, p. 21. ♀.

orbitus (Townes), n. comb. N. H., n. Yukon. Ecology: In N. H. this species occurs above timberline on Mt. Washington.

Opidinus orbitus Townes, 1962. In Townes and Gupta, Amer. Ent. Inst., Mem. 2: 157. ♂.

oresbius (Townes), n. comb. B. C., Wash.

Opidinus oresbius Townes, 1962. In Townes and Gupta, Amer. Ent. Inst., Mem. 2: 136. ♂.

parallelus (Townes), n. comb. Que., N. H., N. Y., Man., Colo.

Opidinus parallelus Townes, 1962. In Townes and Gupta, Amer. Ent. Inst., Mem. 2: 165. ♂, ♀.

quadriiceps (Townes), n. comb. Northwestern N. W. T., Alaska.

Opidinus quadriiceps Townes, 1962. In Townes and Gupta, Amer. Ent. Inst., Mem. 2: 168. ♂, ♀.

rufinotum (Townes), n. comb. Northern Alaska. Townes (1962) said that *rufinotum* "may prove to be a subspecies of *O. tumulus*."

Opidinus rufinotum Townes, 1962. In Townes and Gupta, Amer. Ent. Inst., Mem. 2: 161. ♂.

shumaginensis Carlson, n. name. Alaska.

Stiboscopus ferrugineus Ashmead, 1902. Wash. Acad. Sci., Proc. 4: 173. ♀. Preocc. in *Oresbius* by *Cryptus ferrugineus* Ashmead, 1890; in the tribal revision of Townes and Gupta (1962), Townes did not rename *Stiboscopus ferrugineus* because *Cryptus ferrugineus* Ashmead is an unavailable primary homonym which could not interfere with the use of the name *Stiboscopus ferruginosus*; *S. ferrugineus* is renamed here

because if it were to have had a junior synonym one would not be at liberty to use the name *S. ferrugineus* until such time as it was placed in a different genus than *C. ferrugineus* Ashmead.

sublaevis (Townes), n. comb. Wyo., Colo., Wash. Ecology: Occurs on mountains near timberline.

Opidnus sublaevis sublaevis Townes, 1962. In Townes and Gupta, Amer. Ent. Inst., Mem. 2: 134. ♂, ♀.

Opidnus sublaevis miltonerus Townes, 1962. In Townes and Gupta, Amer. Ent. Inst., Mem. 2: 135. ♂. N. syn.

taeniatus (Townes), n. comb. Northern Que., N. H., N. W. T., n. Yukon. Ecology: In N. H. this species occurs above timberline on Mt. Washington.

Phygadeuon alticola Ashmead, 1897 In Slosson, Ent. News 8: 237. Nomen nudum.

Opidnus taeniatus Townes, 1962. In Townes and Gupta, Amer. Ent. Inst., Mem. 2: 154. ♂, ♀.

tegularis (Provancher). N. S. s. to Pa., w. to Wyo. and Colo. Host: *Pristiphora erichsonii* (Htg.).

Phygadeuon tegularis Provancher, 1874. Nat. Canad. 6: 282. ♀.

Ichneumon decoratus Provancher, 1875. Nat. Canad. 7 (1): 25 (key); 7 (3): 83. ♂.

Ischnus placidus Provancher, 1875. Nat. Canad. 7 (4): 110. ♂.

Phygadeuon orbitalis Provancher, 1882. Nat. Canad. 13 (no. 155): 335 (key); 13 (no. 156): 354. ♂.

Phygadeuon nigriceps Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 52. ♀.

Phygadeuon (Scinascopus?) orbitaliformis Viereck, 1917 (1916). Conn. State Geol. and Nat. Hist. Survey Bul. 22: 336. ♂.

Taxonomy: Barron, 1975. Nat. Canad. 102: 459, 514, 522, 532, 573 (Provancher types revised).

teres (Townes), n. comb. Northern Yukon, Alaska.

Opidnus teres Townes, 1962. In Townes and Gupta, Amer. Ent. Inst., Mem. 2: 167. ♂, ♀.

tibialis (Townes), n. comb. Northern Que., n.e. N. W. T., n. Yukon, Alaska.

Opidnus tibialis Townes, 1962. In Townes and Gupta, Amer. Ent. Inst., Mem. 2: 163. ♂, ♀.

trifasciatus (Ashmead), n. comb. Northern Que., N. W. T., n. Yukon, Alaska.

Microcryptus trifasciatus Ashmead, 1902. Wash. Acad. Sci., Proc. 4: 184. ♂.

tsugae (Cushman). Newfoundland (Labrador) w. to s. Alaska, s. to N. C., Colo., Ariz. and Calif.

Host: *Neodiprion tsugae* Midd. The characters used by Townes (1962) for subspecific differentiation are neither strong nor entirely in agreement with the material he studied.

Aptesis (Pezoporus) tsugae Cushman, 1939. Wash. Acad. Sci., Jour. 29: 394. ♂, ♀.

Opidnus tsugae ruficoxa Townes, 1962. In Townes and Gupta, Amer. Ent. Inst., Mem. 2: 138. ♂, ♀. N. syn.

Opidnus tsugae interior Townes, 1962. In Townes and Gupta, Amer. Ent. Inst., Mem. 2: 139. ♂, ♀. N. syn.

Opidnus tsugae inflatus Townes, 1962. In Townes and Gupta, Amer. Ent. Inst., Mem. 2: 140. ♂, ♀. N. syn.

Biology: Furniss and Dowden, 1941. Jour. Econ. Ent 34: 49, 51.

tumulus (Townes), n. comb. N. W. T., Yukon, Alaska.

Opidnus tumulus Townes, 1962. In Townes and Gupta, Amer. Ent. Inst., Mem. 2: 160. male, female.

vockerothi (Townes), n. comb. Northern Que.

Opidnus vockerothi Townes, 1962. In Townes and Gupta, Amer. Ent. Inst., Mem. 2: 166. ♂, ♀.

vultuosus (Townes), n. comb. Newfoundland (Labrador), Que., n. Mich., N. W. T., Alaska.

Opidnus vultuosus Townes, 1962. In Townes and Gupta, Amer. Ent. Inst., Mem. 2: 152. ♂, ♀.

Genus POLYTRIBAX Foerster

Polytribax Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 183.

Type-species: *Phygadeon (Polytribax) pallescens* Viereck. By subsequent monotypy from inclusion by Viereck, 1911.

Plesignathus Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 183.

Type-species: *Phygadeon fulvescens* Cresson. By subsequent monotypy from inclusion by Ashmead (1900) as "*Plesiognathus flavescentis* Cress." Ashmead's N. J. record for this species is apparently based upon a misidentified female of *Polytribax contiguus* (Cresson).

Neleophron Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 184.

Type-species: *Cryptus arrogans* Gravenhorst. Monotypically included and designated by Perkins, 1962.

Epiphobus Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 185.

Type-species: *Cryptus rufipes* Gravenhorst. Monotypically included and desig. by Townes and Gupta, 1962.

Steriphocryptus cameron, 1903. Entomologist 36: 233.

Type-species: *Steriphocryptus luteus* Cameron. Monotypic.

Chasmocryptus Uchida, 1936. Insecta Matsumurana 11: 16.

Type-species: *Plectocryptus hokkaidensis* Uchida. Monotypic and orig. desig. The type-species is regarded as a synonym of *P. penetrator* (Smith).

Members of this Holarctic genus parasitize the pupae and possibly prepupae of Lepidoptera.

Taxonomy: Ashmead, 1900. In Smith, N. J. State Bd. Agr., Ann. Rpt. 27, Sup., p. 568 (first inclusion of a species in *Plesignathus*).

contiguus (Cresson). N. S. w. to N. Dak., s. to N. C., n. Ga., and Kans. The coloration of the male is similar to that of the males in some species of *Cratichneumon*.

Ischnus contiguus Cresson, 1864. Ent. Soc. Phila., Proc. 3: 190. ♂.

Phygadeon major Cresson, 1864. Ent. Soc. Phila., Proc. 3: 308. ♀.

crotchii crotchii (Cresson). Newfoundland (insular) w. to Alaska, s. to Pa., S. Dak., and s. B. C. *Phygadeon Crotchii* Cresson, 1879 (1878). Acad. Nat. Sci. Phila., Proc. 30: 357. ♀.

crotchii fumipennis Townes and Gupta. Colo., N. Mex., Ariz., s.e. B. C. and Calif.

Polytribax crotchii fumipennis Townes and Gupta, 1962. Amer. Ent. Inst., Mem. 2: 179. ♂.

crotchii hesperus Townes and Gupta. Southern B. C., w. Oreg., Calif.

Polytribax crotchii hesperus Townes and Gupta, 1962. Amer. Ent. Inst., Mem. 2: 180. ♂.

fulvescens (Cresson). B. C. s. to Calif.

Phygadeon fulvescens Cresson, 1879 (1878). Acad. Nat. Sci. Phila., Proc. 30: 359. ♀.

pallescens (Viereck). Que. s. to n.w. S. C., w. to Minn., Kans., and Ariz.; Mexico. Host:

Heterocampa guttivitta (Wlk.), *Lambdina pellucidaria* (G. and R.), *Epargyreus clarus* (Cramer).

Phygadeon (Polytribax) pallescens Viereck, 1911, U. S. Natl. Mus., Proc. 39: 406. ♂, ♀.

Genus GIRAUDIA Foerster

Giraudia Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 184.

Type-species: *Cryptus congruens* Gravenhorst. Monotypically included and desig. by Ashmead, 1900.

Calocryptus Thomson, 1873. Opuse. Ent. 5: 519, 521.

Type-species: *Cryptus congruens* Gravenhorst. Monotypic.

Pseudocryptus Kriechbaumer, 1893. Ent. Nachr. 19: 120.

Type-species: *Cryptus grisescens* Gravenhorst. Monotypic.

This is a Holarctic genus of moderate size.

ferruginea (Cushman). R. I., N. Y., Md., D. C., Ont., Mich. Host: *Tomostethus multicinctus* (Roh.).

Aptesis ferruginea Cushman, 1935. Wash. Acad. Sci., Jour. 25: 550. ♂, ♀.

fulva fulva Townes and Gupta. Western Wash., w. Oreg., n.w. Calif.

Giraudia fulva fulva Townes and Gupta, 1962. Amer. Ent. Inst., Mem. 2: 190. ♂, ♀.

fulva nigrithorax Townes and Gupta. Colo., N. Mex., Alta., Idaho, Utah, s.e. B. C., e. Oreg.

Giraudia fulva nigrithorax Townes and Gupta, 1962. Amer. Ent. Inst., Mem. 2: 190. ♂, ♀.

leucospis Townes and Gupta. Calif.

Giraudia leucospis Townes and Gupta, 1962. Amer. Ent. Inst., Mem. 2: 196. ♂.

minor Townes and Gupta. N. C., S. C.

Giraudia minor Townes and Gupta, 1962. Amer. Ent. Inst., Mem. 2: 196. ♂, ♀.

plana (Provancher). Que. s. to n.e. Ga., w. to Minn. and Iowa.

Phygadeon planus Provancher, 1874. Nat. Canad. 6: 283. ♀.

Mesostenus ruficoxus Provancher, 1875. Nat. Canad. 7: 266. ♂. Uncertain syn.

Phygadeon robustus Provancher, 1879. Nat. Canad. 11: 75. ♀.

Mesostenus provancheri Dalla Torre, 1902. Cat. Hym., v. 3, p. 546. Unnecessary n. name for *M. ruficoxus*; the latter not preocc. by *Mesostenus ruficoxis* Brulle.

punctifera Townes and Gupta. Que. s. to Ga., w. to Wis.

Giraudia punctifera Townes and Gupta, 1962. Amer. Ent. Inst., Mem. 2: 194. ♂, ♀.

rufa (Provancher). Que. s. to w. N. C., w. to Minn.

Cryptus rufus Provancher, 1874. Nat. Canad. 6 (6): 177 (key); 6 (7): 202. ♂.

semiflava Townes and Gupta. Que., Maine, N. Y., Mich., N. Mex.

Giraudia semiflava Townes and Gupta, 1962. Amer. Ent. Inst., Mem. 2: 191. ♂, ♀.

subaequalis Townes and Gupta. N. Y., s.w. N. C., n.w. S. C., n.e. Ga.

Giraudia subaequalis Townes and Gupta, 1962. Amer. Ent. Inst., Mem. 2: 197. ♂, ♀.

Genus SCHENKIA Foerster

Schenkia Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 184.

Type-species: *Phygadeon graminicola* Gravenhorst. Monotypically included and desig. by Ashmead, 1900.

Ecpaglus Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 185.

Type-species: *Cryptus brevicornis* Gravenhorst. Monotypically included and desig. by Ashmead, 1900.

Schenkia Dalla Torre, 1901. Wien. Ent. Ztg. 20: 51. Emend.

This is a Holarctic genus of moderate size.

amphileuca Townes and Gupta. N. Y., Mich., Minn.

Schenkia amphileuca Townes and Gupta, 1962. Amer. Ent. Inst., Mem. 2: 201. ♂, ♀.

graminicola (Gravenhorst). Que. s. to N. Y., w. to n. Yukon, Oreg., and Colo.; Europe. Townes and Gupta (1962) recognized three subspecies.

Cryptus brevicornis Gravenhorst, 1829. Ichn. Europaea, v. 2, p. 511. ♂.

Cryptus humilis Gravenhorst, 1829. Ichn. Europaea, v. 2, p. 604. ♂.

Phygadeon graminicola Gravenhorst, 1829. Ichn. Europaea, v. 2, p. 673. ♀.

Phygadeon rectus Provancher, 1875. Nat. Canad. 7: 178. ♂.

Phaeogenes tuberculifer Provancher, 1882. Nat. Canad. 13: 331. "♀" = ♂.

Cryptus pubescens Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 72. Preocc. by Fonscolombe, 1850.

Cryptus Hechfellneri Dalla Torre, 1902. Cat. Hym., v. 3, p. 574. N. name for *C. pubescens* Provancher.

Schenkia graminicola hesperus Townes and Gupta, 1962. Amer. Ent. Inst., Mem. 2: 207. ♂, ♀. N. syn.

iridescent (Cresson). Newfoundland (Labrador) w. to Alaska, s. to S. C., Ill., Colo., and Oreg.

Ischnus iridescent Cresson, 1864. Ent. Soc. Phila., Proc. 3: 193. ♂.

Cryptus brevicauda Ashmead, 1890 (1889). U. S. Natl. Mus., Proc. 12: 412. ♀.

Schenkia iridescent pumila Townes and Gupta, 1962. Amer. Ent. Inst., Mem. 2: 211. ♂, ♀. N. syn.

Schenkia iridescent oreas Townes and Gupta, 1962. Amer. Ent. Inst., Mem. 2: 212. ♂, ♀. N. syn.

Schenkia iridescent melanops Townes and Gupta, 1962. Amer. Ent. Inst., Mem. 2: 216. ♂, ♀. N. syn.

leucopus Townes and Gupta. N. Y., N. J., n.w. S. C., Ohio, Mich.

Schenkia leucopus Townes and Gupta, 1962. Amer. Ent. Inst., Mem. 2: 217. ♂, ♀.

lonchura Townes and Gupta. Yukon.

Schenkia lonchura Townes and Gupta, 1962. Amer. Ent. Inst., Mem. 2: 217. ♀.

parallela evittata Townes and Gupta. Wash.

Schenkia parallela evittata Townes and Gupta, 1962. Amer. Ent. Inst., Mem. 2: 209. ♀.

parallela parallela Townes and Gupta. N. H. s. to s.w. S. C. w. to Sask.

Schenkia parallela parallela Townes and Gupta, 1962, Amer. Ent. Inst., Mem. 2: 208. ♂.
♀.

Genus MEGAPLECTES Foerster

Megaplectes Foerster, 1868 Naturh. Ver. Rheinlande, Verh. 25: 186.

Type-species: *Ichnemon monticola* Gravenhorst. By subsequent monotypy from inclusion by Schmiedeknecht, 1890.

Iocryptus Thomson, 1873. Opusc. Ent. 5: 472.

Type-species: *Phygadeuon regius* Taschenberg. Monotypic. The type-species is regarded as a synonym of *M. monticola monticola* (Gravenhorst).

Megaloplectes Schulz, 1906. Spolia Hym., p. 124. Emend.

There is a single Holarctic species.

monticola blakei (Cresson). Newfoundland (Labrador) w. to Yukon, s. to w. N. C., Mich., Man., and Oreg. *M. monticola monticola* (Gravenhorst) is European.

Ichnemon Blakei Cresson, 1864 Ent. Soc. Phila., Proc. 3: 139. ♂.

Cryptus insignis Provancher, 1874. Nat. Canad. 6: 178. ♀.

Hoplismenus stygius Provancher, 1886. Addit. Corr. Faune Ent. Canada. Hym., p. 34. ♂.

monticola dentatus Uchida. Yukon, Alaska; n. Asia.

Megaplectes monticola var. *dentata* Uchida, 1930. Hokkaido Imp. Univ., Faculty Agr., Jour. 25: 304. ♂, ♀.

Genus PLEOLOPHUS Townes

Pleolophus Townes, 1962. In Townes and Gupta, Amer. Ent. Inst., Mem. 2: 223.

Type-species: *Phygadeuon basizonus* Gravenhorst (sensu Townes). Orig. desig.

This is a Holarctic genus of moderate size.

annulosus Townes. Maine, N. Y., Mich.

Pleolophus annulosus Townes, 1962. In Townes and Gupta, Amer. Ent. Inst., Mem. 2: 226. ♂.

astrictus Townes. Maine, N. H., Mass., Conn., N. Y., Mich., Alaska.

Pleolophus astrictus Townes, 1962. In Townes and Gupta, Amer. Ent. Inst., Mem. 2: 242. ♂, ♀.

basizonus (Gravenhorst). N. B., Que., N. J., Ont., Mich., Ohio; Eurasia. Introduced from Europe. Host: *Gilpinia hercyniae* (Htg.), *Neodiprion lecontei* (Fitch), *N. nanulus* *nanulus* Schedl, *N. pratti banksianae* Roh., *N. sertifer* (Geoff.), *N. swainei* Midd.

Cryptus varicolor Gravenhorst, 1829. Ichn. Europaea, v. 2, p. 603. ♂.

Phygadeuon basizonus Gravenhorst, 1829. Ichn. Europaea, v. 2, p. 748. ♀.

Phygadeuon pteronorum Hartig, 1838. Jahresber. Fortschr. Forstwiss. Forstl. Naturk. 1: 273. ♂, ♀.

Microcryptus basizonius (!) Thomson, 1883. Opusc. Ent. 9: 863.

Microcryptus curtulus Kriechbaumer, 1891. Ent. Nachr. 17: 171. ♂.

Taxonomy: Oehlke, 1966 (1965). Beitr. z. Ent. 15: 829-831 (syn. and description).

Biology: Seyrig, 1932 Soc. Ent. de France, Ann. 101: 111-112. —Finlayson and Reeks, 1936. Canad. Ent. 68: 164, 166. —Morris, Cameron, and Jepson, 1937. Bul. Ent. Morphology: Finlayson, 1960. Canad. Ent. 92: 33, 35, 44 (final-instar larva).

borrori Townes. Maine.

Pleolophus borrori Townes, 1962. In Townes and Gupta, Amer. Ent. Inst., Mem. 2: 228. ♀.

clypealis Townes. Alaska.

Pleolophus clypealis Townes, 1962. In Townes and Gupta, Amer. Ent. Inst., Mem. 2: 242 ♂.

contractus Townes. B. C. s. to Calif. Host: *Pristiphora erichsonii* (Htg.).

Pleolophus contractus Townes, 1962. In Townes and Gupta, Amer. Ent. Inst., Mem. 2: 237. ♂, ♀.

coriaceus Townes. Sask., Alta.

Pleolophus coriaceus Townes, 1962. In Townes and Gupta, Amer. Ent. Inst., Mem. 2: 229. ♂.

furvus Townes. Colo.

Pleolophus furvus Townes, 1962. In Townes and Gupta, Amer. Ent. Inst., Mem. 2: 228. ♂.

grossus Townes. N. Y., Mich., N. Dak., and B. C., s. to w. N. C., Kans., and Oreg.

Pleolophus grossus Townes, 1962. In Townes and Gupta, Amer. Ent. Inst., Mem. 2: 229. ♂, ♀.

indistinctus (Provancher). N. B. s. to w. N. C., w. to Sask. and Iowa. Host: *Neodiprion abbotii* (Leach), *N. abietis* (Harris), *N. lecontei* (Fitch), *N. nanulus nanulus* Schedl, *N. pratti banksiana* Roh., *N. serifer* (Geoff.), *N. swainei* Midd., *Gilpinia hercyniae* (Htg.), *Pristiphora erichsonii* (Htg.), *Pikonema alaskensis* (Roh.).

Cryptus micropterus Say, 1836. Boston Jour. Nat. Hist. 1: 238. ♀. Preocc. in *Pleolophus* by *Ichneumon micropterus* Gravenhorst.

Phaeogenes indistinctus Provancher, 1886. Addit. Corr. Faune Ent. Canad. Hym., p. 43. ♂.

Cryptus segregatus Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 73. ♂.

Aptesis pterigia Bradley, 1918. Brooklyn Ent. Soc., Bul. 13: 100. N. name for *C. micropterus* Say.

Biology: Price, 1970. Science 170: 546-547. —Price, 1970. Ecology 51: 445-454. —Price, 1970. Ent. Soc. Amer., Ann. 63: 1502-1509. —Price, 1971. Ecology 52: 587-596.

Morphology: Finlayson, 1960. Canad. Ent. 92: 31-33, 44 (final-instar larva).

nigribasis Townes. Colo., N. Mex.

Pleolophus nigribasis Townes, 1962. In Townes and Gupta, Amer. Ent. Inst., Mem. 2: 237. ♂.

pilatus Townes. Newfoundland (Labrador), Mich., Minn.

Pleolophus pilatus Townes, 1962. In Townes and Gupta, Amer. Ent. Inst., Mem. 2: 227. ♂, ♀.

rubrocinctus rubrocinctus (Provancher). Que. s. to N. Y., w. to Mich.

Phygadenon rubrocinctus Provancher, 1874. Nat. Canad. 6: 280. ♀.

Phaeogenes aterrimus Provancher, 1882. Nat. Canad. 13: 330. ♂.

rubrocinctus rufifemur Townes. Sask. s. to Colo., w. to Alaska and Calif.

Pleolophus rubrocinctus rufifemur Townes, 1962. In Townes and Gupta, Amer. Ent. Inst., Mem. 2: 233. ♂, ♀.

Genus RHYTURA Townes

Rhytura Townes, 1962. In Townes and Gupta, Amer. Ent. Inst., Mem. 2: 244.

Type-species: *Rhytura pendens* Townes. Monotypic and orig. desig.

Only one species is known.

pendens Townes. Que. s. to n. Ga., w. to Minn.

Rhytura pendens Townes, 1962. In Townes and Gupta, Amer. Ent. Inst., Mem. 2: 244. ♂,
♀.

Genus APTESIS Foerster

Aptesis Foerster, 1850. Arch. f. Naturgesch. 16 (1): 71, 82.

Type-species: *Ichneumon sudeticus* Gravenhorst. Desig. by Viereck, 1914. The type-species is regarded as a synonym of *A. nigrocincta* (Gravenhorst).

Pezoporus Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 181. Preocc. by Illiger, 1811 and Klug, 1842.

Type-species: *Pezomachus nigrocinctus* (Gravenhorst). Monotypically included and desig. by Ashmead, 1900. The type-species designation is Gravenhorst's 1929 identification of *Ichneumon nigrocinctus* Gravenhorst, 1815.

Aptesis subg. *Clypeodiodon* Aubert, 1968. Soc. Ent. Mulhouse, Bul. 24: 7.

Type-species: *Aptesis (Clypeodiodon) flavifaciator* Aubert. Monotypic. As "Aptesis *Clypeodion* subg nov. *flavifaciator* sp. nov."

This is a large Holarctic genus. Townes (1970) said that "the species occur mostly in natural meadows."

Taxonomy: Townes, 1970 (1969). Amer. Ent. Inst., Mem. 12: 139.

albifrons Townes. N. Y.

Aptesis albifrons Townes, 1962. In Townes and Gupta, Amer. Ent. Inst., Mem. 2: 267. ♂.

alpestris Townes. Colo., Idaho., Ariz., B. C., Wash., Oreg., Calif.

Aptesis alpestris Townes, 1962. In Townes and Gupta, Amer. Ent. Inst. Mem. 2: 255. ♂, ♀.

anaula Townes. S. C.

Aptesis anaulus Townes, 1962. In Townes and Gupta, Amer. Ent. Inst., Mem. 2: 272. ♂.

atrox Townes. Ohio.

Aptesis atrox Townes, 1962. In Townes and Gupta, Amer. Ent. Inst., Mem. 2: 269. ♀.

breviaria Townes. N. Y., Mich., Ohio, Minn.

Aptesis breviaria Townes, 1962. In Townes and Gupta, Amer. Ent. Inst., Mem. 2: 253. ♂,

♀.

catulus Townes. N. Y., N. J., Md., Va., N. C., Kans.

Aptesis catulus Townes, 1962. In Townes and Gupta, Amer. Ent. Inst., Mem. 2: 263. ♂, ♀.

fastigata Townes. Alta., Wyo., Oreg., Calif.

Aptesis fastigata Townes, 1962. In Townes and Gupta, Amer. Ent. Inst., Mem. 2: 267. ♂,

♀.

fuscitibia Townes. Maine, Mass., R. I., N. Y., w. N. C., Mich.

Aptesis fuscitibia Townes, 1962. In Townes and Gupta, Amer. Ent. Inst., Mem. 2: 262. ♂,

♀.

gracilis Townes. Northern Mich., Alta.

Aptesis gracilis Townes, 1962. In Townes and Gupta, Amer. Ent. Inst., Mem. 2: 251. ♂.

incompta Townes. Northwestern S. C.

Aptesis incompta Townes, 1962. In Townes and Gupta, Amer. Ent. Inst., Mem. 2: 265. ♂,

♀.

inculta Townes. Que. s. to w. N. C., w. to Mich.

Aptesis inculta Townes, 1962. In Townes and Gupta, Amer. Ent. Inst., Mem. 2: 257. ♂, ♀.

lissopleuris Townes. Western N. C. Ecology: Between altitudes of 4600 ft. and 5750 ft.

Aptesis lissopleuris Townes, 1962. In Townes and Gupta, Amer. Ent. Inst., Mem. 2: 257. ♀.

scabra Townes. Md.

Aptesis scabra Townes, 1962. In Townes and Gupta, Amer. Ent. Inst., Mem. 2: 266. ♀.

segnis femorata Townes. Sask., Alta., Wyo., Colo., Calif.

Aptesis segnis femorata Townes, 1962. In Townes and Gupta, Amer. Ent. Inst., Mem. 2:

260. ♂, ♀.

segnis segnis (Provancher). Que., Maine, N. H. N. Y., n.w. S. C., Mich. Ecology: I have seen a long series of males collected in Malaise traps placed in the crowns of *Abies balsamifera*. Host: *Profenus canadensis* (Marl.).
Phygadeuon segnis Provancher, 1877. Nat. Canad. 9: 11. ♀.
Pezoporus (Schenkia) tenthredinarum Rohwer, 1915. U. S. Natl. Mus., Proc. 49: 216. ♂, ♀.

Biology: Parrott and Fulton, 1915. N. Y. Agr. Expt. Sta., Bul. 411: 552, 572.

subguttata (Gravenhorst). Europe. Introduced in N. B., Que., and Ont. in 1937 and 1938, apparently without becoming established. Host: *Gilpinia hercyniae* (Htg.). The host listed was the target species for the introductions in North America, although a small number of individuals was released in an infestation of *Neodiprion lecontei* (Fitch). Although the number of individuals released against *G. hercyniae* at some places was large (as many as 6108 males and 10974 females) *A. subguttata* has not been found in North America since 1939 when it was recovered from *G. hercyniae* in Parke Reserve, Kamouraska Co., Que.

Cryptus subguttatus Gravenhorst, 1829. Ichn. Europaea, v. 2, p. 610. ♂.

Cryptus contractus Gravenhorst, 1829. Ichn. Europaea, v. 2, p. 617. ♂.

Taxonomy: Oehlke, 1966 (1965). Beitr. z. Ent. 15: 835-836 (syn.).

Morphology: Finlayson, 1960. Canad. Ent. 92: 931, 932, 939 (final-instar larva).

verrucata Townes. Maine, N. H., N. Y., Ohio, Mich.

Aptesis verrucata Townes, 1962. In Townes and Gupta, Amer. Ent. Inst., Mem. 2: 252. ♂, ♀.

yosemite Townes. Wyo., Calif.

Aptesis yosemite Townes, 1962. In Townes and Gupta, Amer. Ent. Inst., Mem. 2: 254. ♂, ♀.

Genus OXYTAENIA Foerster

Oxytaenia Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 182.

Type-species: *Oxytaenia rufolineata* Cameron. By subsequent monotypy from inclusion by Cameron, 1904.

Townes (1970) said that he saw 13 species, all of which are Neotropic except for the fact that one of them has a Nearctic subspecies.

Taxonomy: Townes, 1970 (1969). Amer. Ent. Inst., Mem. 12: 140.

barda carolina (Townes). Que. s. to w. N. C., w. to Mich. and Kans. *O. barda barda* (Cresson) occurs in Mexico.

Aptesis barda carolina Townes, 1962. In Townes and Gupta, Amer. Ent. Inst., Mem. 2: 271. ♂, ♀.

Genus ECHTHRUS Gravenhorst

Echthrus Gravenhorst, 1829. Ichn. Europaea, v. 3, p. 861.

Type-species: *Ichneumon reluctator* Linnaeus. Desig. by Westwood, 1840.

Sphaetes Bremi, 1849 Stettin. Ent. Ztg. 10: 95.

Type-species: *Sphaetes crassicrus* Bremi. Monotypic.

Karaechthrus Uchida, 1929. Insecta. Matsumurana 3: 176.

Type-species: *Karaechthrus tuberculatus* Uchida. Monotypic and orig. desig.

Biolete Meyer, 1930. Zool. Mus. Akad. Nauk. SSSR, Ezheg. 31: 169.

Type-species: *Biolete eous* Meyer. Monotypic and orig. desig.

Townes and Townes (1962) placed this small Holarctic genus in the Cryptini (=Mesostenini), subtribe Echthrina along with four other genera, but only *Echthrus* was transferred to the present tribe by Townes (1970).

Revision: Townes and Townes, 1962. U. S. Natl. Mus., Bul. 216 (pt. 3): 486-501.

Taxonomy: Townes, 1970 (1969). Amer. Ent. Inst., Mem. 12: 112, 113, 130.

abdominalis Cresson. N. S. w. to B. C., s. to N. Y., Minn., N. Mex., and Calif. Townes and Townes (1962) recognized four subspecies.

Echthrus abdominalis Cresson, 1868. Canad. Ent. 1: 37. ♀.

Mesochorus Saint-Cyri Provancher, 1874. Nat. Canad. 6: 299. ♀.

Dysoidopus vancouverensis Bradley, 1902. Ent. News 13: 307. ♂. N. syn.

Echthrus abdominalis dimidiatus Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 491. ♂, ♀. N. syn.

Echthrus abdominalis infuscus Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 492. ♂, ♀. N. syn.

adillae adillae Davis. Newfoundland (Labrador), n. Ont., Alta., Mont., Wyo., Idaho, Alaska, B. C., Wash., n. Oreg. Host: *Paranthrene robiniae* (Hy. Edwards).

Echthrus adillae Davis, 1895. Amer. Ent. Soc., Trans. 22: 32. ♂.

Echthrus adillae nigriventris Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 497. ♂, ♀. N. syn.

Echthrus adillae semiruber Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 498. ♂, ♀. N. syn.

adillae rubidus Townes. Nev., s. Oreg., Calif.

Echthrus adillae rubidus Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 499. ♂, ♀.

adillae tibialis Townes. Que., Maine, N. Y., Ont., Va.

Echthrus adillae tibialis Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 500. ♂, ♀.

Echthrus adillae brunneus Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 501. ♂, ♀. N. syn.

niger Cresson. N. S. w. to n. B. C., s. to N. C., Ohio, Minn., and s. Alta. Host: *Anoplodera proxima* (Say)?, *Saperda candida* F., *S. discoidea* F. Townes and Townes (1962) recognized three subspecies, two of which were almost completely sympatric and had ranges which broadly overlapped that of the third subspecies.

Echthrus niger Cresson, 1868. Canad. Ent. 1: 37. ♀.

Echthrus rufopeditus Harrington, 1893. Canad. Ent. 25: 31. ♀. N. syn.; name invalid because it is in the dative case.

Echthrus niger emaculatus Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 494. ♂, ♀. N. syn.

TRIBE CRYPTINI

Just as the Cryptinae is the largest of ichneumonid subfamilies, the Cryptini is the largest tribe in the subfamily. Although the greatest numbers of genera and species of Cryptini occur in the tropics, the tribe is well represented in North America. Townes (1970) implies that the species of Cryptini search for their hosts primarily among foliage rather than in the soil or ground litter and differ from the species of Aptesini and Hemitelini in this respect as well as in having larger average size.

Townes (1970) divided the Cryptini (=Mesostenini) into subtribes which are partly for convenience and partly to show what he believed to be some of the natural groupings of genera. In the hope that this classification is actually an improvement over that of Townes and Townes (1962), the former is adopted here with little modification.

Revision: Townes and Townes, 1962. U. S. Natl. Mus. Bul. 216 (pt. 3): 1-602.

Taxonomy: Townes, 1970 (1969). Amer. Ent. Inst., Mem. 12: 141-346 (genera of world).

SUBTRIBE AGROTHEREUTINA

Genus APSILOPS Foerster

Apsilops Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 182.

Type-species: *Cryptus hirtifrons* Ashmead. By subsequent monotypy from inclusion by Ashmead, 1896.

Heterotypus Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 183.

Type-species: *Ichneumon cinctorius* Fabricius. Monotypically included and desig. by Townes, Townes, and Gupta, 1961.

Dapanus Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 183.

Type-species: *Ichneumon cinctorius* Fabricius. Monotypically included and desig. by Ashmead, 1900.

Sobas Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 187. Preocc. by Pascoe, 1863.

Type-species: *Ichneumon cinctorius* Fabricius. Monotypically included and desig. by Schmiedeknecht, 1890.

Trichocryptus Thomson, 1873. Opusc. Ent. 5: 520, 521.

Type-species: *Cryptus cinctorius* Gravenhorst. Monotypic. The type-species is Gravenhorst's identification of *Ichneumon cinctorius* Fabricius.

Neostricklandia Viereck, 1925. Canad. Ent. 57: 75.

Type-species: *Neostricklandia sericata* Viereck. Monotypic. and orig. desig.

Trichestema Cushman, 1927. U. S. Natl. Mus., Proc. 72 (13): 9.

Type-species: *Trichestema helcostizoides* Cushman. Monotypic and orig. desig.

The members of this small Holarctic genus parasitize aquatic or subaquatic Pyraloidea. There is an undescribed species which is known from Fla. and Cuba; it has been reared from *Samea multiplicalis* Gn.

bicolor (Cushman). Ont. and Mass., s. to Md., w. to Alta., Wash. and Calif. Host: *Schoenobius melinellus* (Clem.).

Trichocryptus bicolor Cushman, 1927. U. S. Natl. Mus., Proc. 72 (13): 8. ♀.

Trichocryptus atlanticus Cushman, 1930 (1929). U. S. Natl. Mus., Proc. 76 (25): 3. ♀.

hirtifrons (Ashmead). Ont. and Mass. s. to Fla., w. to Minn. and Tex. Host: *Nymphula* sp.

Cryptus hirtifrons Ashmead, 1890 (1889). U. S. Natl. Mus., Proc. 12: 411. ♂.

Cryptus cyaniventris Riley, 1890. In Riley and Howard, U. S. Dept. Agr., Insect Life 3: 154. Nomen nudum.

Taxonomy: Cushman, 1927. U. S. Natl. Mus., Proc. 72 (13): 7.

Biology: Hart, 1895. Ill. Nat. Hist. Survey, Bul. 4: 178-179.

sericata (Viereck). Que. w. to Alta., s. to Mass., Mich., and S. Dak. Host: *Occidentalia computulalis* (Hulst), *Stenochilo forbesellus* (Fern.).

Neostricklandia sericata Viereck, 1925. Canad. Ent. 57: 75. ♀.

Trichestema helcostizoides Cushman, 1927. U. S. Natl. Mus., Proc. 72 (13): 9. ♀.

Biology: Frohne, 1939. Amer. Micros. Soc., Trans. 58: 234, 325, 347.

Genus AGROTHEREUTES Foerster

Agrotphereutes Foerster, 1850. Arch. f. Naturgesch. 16 (1): 71.

Type-species: *Pezomachus abbreviator* Gravenhorst. Desig. by Viereck, 1914. The type-species is Gravenhorst's identification of *Ichneumon abbreviator* Fabricius.

Spilocryptus Thomson, 1873. Opusc. Ent. 5: 472, 501.

Type-species: *Spilocryptus zygaenarum* Thomson. Desig. by Viereck, 1914. The type-species is regarded as a synonym of *A. fumipennis* (Gravenhorst).

Dayro Cameron, 1902. Ann. and Mag. Nat. Hist. (7) 9: 209.

Type-species: *Dayro pilosus* Cameron. Monotypic.

This Holarctic genus has a greater number of species in Eurasia than in North America.

abbreviator iridescent (Cresson). Northern Que. w. to Alaska, s. to N. C., La., Kans., Sask., and Alta. Host: *Gilpinia hercyniae* (Htg.), *Heterarthrus nemoratus* (Fall.), *Neodiprion abietis* (Harris), *N. lecontei* (Fitch), *N. sertifer* (Geoff.), *Pristiphora erichsonii* (Htg.), *Paraclemencia acerifolia* (Fitch), *Paralobesia viteana* (Clem.). *A. abbreviator abbreviator* (Fabricius) occurs in Europe. In their tribal revision, Townes and Townes (1962) divided *iridescent* into two arbitrarily and unnaturally separated subspecies supposedly based upon a combination of color and female wing length (normal versus brachypterus).

Cryptus iridescent Cresson, 1864. Ent. Soc. Phila., Proc. 3: 296. ♂.

Cryptus soror Cresson, 1864. Ent. Soc. Phila., Proc. 3: 296. ♂.

Phygadeuon similaris Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 57. ♂.

N. syn.

Cryptus albonotatus Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 75. ♂.

Aptesis major Davis, 1893. Ent. News 4: 32. ♀. N. syn.

Spilocryptus propodeum Cushman, 1920. U. S. Natl. Mus., Proc. 58: 253. ♂.

Agrothereutes microalatus Cushman, 1927. U. S. Natl. Mus., Proc. 72 (13): 4. ♀. N. syn.

Agrothereutes slossonae Cushman, 1927. U. S. Natl. Mus., Proc. 72 (13): 4. ♀. N. syn.

Morphology: Finlayson, 1960. Canad. Ent. 92: 931, 932, 939 (final-instar larva).

abbreviator rufopectus Cushman. Alta. s. to N. Mex., w. to B. C. and Calif. Host: *Neodiprion tsugae* Midd., *Pristiphora erichsonii* (Htg.), *Laspeyresia nigricana* (Steph.).

Agrothereutes rufopectus Cushman, 1927. U. S. Natl. Mus., Proc. 72 (13): 4. ♀.

alutarius Townes. N. W. T., Yukon, Alaska.

Agrothereutes alutarius Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 47. ♂, ♀.

cimbicivorus (Cushman). Que. w. to B. C., s. to N. H., Mich., S. Dak., Colo., and Calif. Host: *Cimex americanus* Leach.

Spilocerptus(!) cimbicivorus Cushman, 1924. U. S. Natl. Mus., Proc. 64(4): 8. ♂, ♀.

Agrothereutes cimbicivorus Walkley, 1958. In Krombein et al., U. S. Dept. Agr., Agr. Monog. 2, Sup. 1, p. 46. Unjustified emendation.

grandis Townes. Conn. s. to n.w. S. C., w. to Ohio.

Agrothereutes grandis Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 46. ♂, ♀.

lophyri (Norton). Newfoundland (insular) w. to B. C., s. to Fla., Ala., Ill., and Minn. Host:

Neodiprion abietis (Harris), *N. excitans* Roh., *N. lecontei* (Fitch), *N. nanulus nanulus* Schedl, *N. nigroscutatum* Midd., *N. pratti banksianae* Roh., *Diprion similis* (Htg.).

Cryptus Lophyri Norton, 1869. Amer. Ent. Soc., Trans. 2: 326. ♂, ♀.

Agrothereutes lophyri ontariensis Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 60. ♂, ♀. N. syn.

Agrothereutes lophyri obscurus Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 61. ♂, ♀. N. syn.

mandator americanus Townes. Que. w. to B. C., s. to N. J., Mich., Colo., and Wash. Host:

Cimex americanus Leach, *Trichosoma triangulum* Kirby. *A. mandator mandator* (Linnaeus) is European. About eight individuals of *manducator americanus* emerge from a single host cocoon.

Agrothereutes mandator americanus Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 68. ♂, ♀.

montanus Townes. Colo. Ecology: The unique holotype was collected at an elevation of 11,000 ft. in Rocky Mountain National Park.

Agrothereutes montanus Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 48. ♀.

neodiprionis (Cushman). Wash., Oreg., Calif. Host: *Neodiprion tsugae* Midd.

Spilocerptus neodiprionis Cushman, 1939. Wash. Acad. Sci., Jour. 29: 393. ♂, ♀.

pallipennis Townes. Calif. Ecology: The species is known from two specimens which were swept from *Artemesia* foliage at elevations of 8000 and 8500 ft.

Agrothereutes pallipennis Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 49. ♂, ♀.

Genus GAMBRUS Foerster

Kaltenbachia Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 187.

Type-species: *Cryptus ornatus* Gravenhorst. By subsequent monotypy from inclusion by Brischke, 1888? The type-species is regarded as a synonym of *G. incubitor* (Linnaeus).

Gambrus Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 188.

Type-species: *Gambrus* (*Cryptus*) *maculatus* Brischke. By subsequent monotypy from inclusion by Brischke, 1888. The type-species is regarded as a synonym of *G. incubitor* (Linnaeus).

Hygrocyptus Thomson, 1873. Opusc. Ent. 5: 513.

Type-species: *Cryptus carnifex* Gravenhorst. Desig. by Viereck, 1914.

Allocryptus Viereck, 1917. Conn. State Geol. and Nat. Hist. Survey Bul. 22: 333.

Type-species: *Agrothereutes (Allocryptus) hyslopi* Viereck. Monotypic.

This is a Holarctic genus which is rather arbitrarily distinguished from *Agrothereutes* and *Aritranis*.

apicatus (Provancher). N. S., Que., Maine, Vt., N. Y., Ont., Ohio, Sask. Ecology: This species has been reared from galls of *Euura* on Salix, but appears to be too large to be a parasite of *Euura* and may parasitize Lepidoptera which occupy the galls secondarily.

Cryptus apicatus Provancher, 1874. Nat. Canad. 6 (6): 178 (key); 6 (7): 204. ♀.

Cryptus cinctus Provancher, 1875. Nat. Canad. 7: 175. ♂. Preocc. by Fabricius, 1805.

bituminosus (Cushman). Mass., Conn., N. Y., N. J., Ga., Ill., Minn., La., Calif. Ecology: This species has been collected on *Spartina* in salt marshes. Host: *Diatraea* sp., *Ostrinia nubilalis* (Hbn.), *O. obumbratalis* (Led.), *O. penitalis* (Grt.), *Sphenophorus pertinax* (Oliv.).

Cryptoidens bituminosus Cushman, 1924. U. S. Natl. Mus., Proc. 64 (4): 6. ♀.

canadensis burkei (Viereck). California. Host: *Orgyia leucostigma* (J. E. S.), *O. vetusta* (Bdv.). *Malacosoma californicum californicum* (Pack.).

Cryptus (Gambrus) burkei Viereck, 1909. Ent. News 20: 291. ♂, ♀.

canadensis canadensis (Provancher). N. S. w. to B. C., s. to N. C., Kans., Ariz., and Oreg. Host: *Malacosoma americanum* (F.), *M. californicum fragile* (Stretch), *M. disstria* Hbn., *Laspeyresia pomonella* (L.), *Archips cerasivoranus* (Fitch), *Thyneutes lineola* (Ochs.). In their tribal revision, Townes and Townes (1962) divided this subspecies into two with very broadly overlapping ranges.

Nematopodius Canadensis Provancher, 1875. Nat. Canad. 7: 268. ♂.

Spilocryptus exareolatus Viereck, 1903. In Skinner, Amer. Ent. Soc., Trans. 29: 81. ♂. N. syn.

extrematis (Cresson). N. S. w. to B. C., s. to D. C., Kans., Utah, and Calif. Host: *Hyalophora cecropia* (L.), *H. columbia* (S. I. S.), *H. euryalus* (Bdv.), *H. gloveri* (Stkr.).

Cryptus extrematis Cresson, 1864. Ent. Soc. Phila., Proc. 3: 404. ♀.

Cryptus samiae Packard, 1865. Boston Soc. Nat. Hist., Proc. 9: 345. ♂, ♀.

Echthrus Provancheri Provancher, 1885. Canad. Ent. 17: 116. ♂, ♀. The evidence given by Barron (1975) does not seem sufficient for attributing authorship to Brodie (in Provancher) rather than to Provancher.

Spilocryptus cecropiae Habermehl, 1919. Ztschr. f. Wiss. Insekten-Biol. 14: 239. ♀.

Taxonomy: Barron, 1975. Nat. Canad. 102: 536.

Biology: Riley, 1872. Mo. State Ent., Ann. Rpt. 4: 110-111. — Harrington, 1891. Ent. Soc. Ontario, Ann. Rpt. 21: 67. — Smith, 1908. Jour. Econ. Ent. 1: 294-297. — Marsh, 1937. Ecology 18: 107-111. — Marsh, 1937. Ent. Soc. Amer., Ann. 30: 40-42. — Marsh, 1938. N. Y. Ent. Soc., Jour. 46: 27.

Morphology: Riederer, 1890. N. Y. Micros. Soc., Jour. 46: 27.

nuncius (Say). N. B. w. to w. N. W. T., s. to Ala. and La. Host: *Callosamia angulifera* (Wlk.), *C. prometheia* (Drury), *Antheraea polyphemus* (Cramer), *Samia cynthia* (Drury).

Cryptus nuncius Say, 1836. Boston Jour. Nat. Hist. 1: 237. ♀.

polyphemi Townes. N. S. w. to B. C., s. to Fla., Tex., N. Mex. and Oreg. Host: *Antheraea polyphemus* (Cramer).

Cryptus sordidus Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 67. ♀. Preocc. by Tschek, 1870.

Gambrus polyphemi Townes, 1945. Amer. Ent. Soc., Mem. 11: 809. N. name for *C. sordidus* Provancher.

tunicularuba (Fyles). Southern Que. Host: *Gnorimoschema gallaeasteriella* (Kell.). The lectotype is apparently the only remaining specimen reared by Fyles. Fyles mentioned having encountered this ichneumonid repeatedly in his work on the biology of the host,

but apparently the host has not been reared frequently since then. Perhaps *tunicularubra* will prove to be a melanic variant of *G. ultimus* (Cresson).

Trychosis tunicula-rubra Fyles, 1896. Canad. Ent. 28: 148. ♂, ♀.

ultimus (Cresson). N. S. w. to Oreg., s. to Fla., Tex., Ariz., and Calif.; Hawaii. Host: *Acrobasis caryaef* Grt., *Herpetogramma bipunctalis* (F.), *Loxostege sticticalis* (L.), *Ostrinia nubilalis* (Hbn.), *Phlyctaenia coronata tertialis* (Gn.), *Udea rubigalis* (Gn.), *Astala confederata* (Grt.), *Hyaloscotes pithopoera* (Dyar), *Thyridopteryx ephemeraeformis* (Haw.), *Platynota flavedana* Clem., *Ancylis comptana* (Froel.), *Grapholitha molesta* (Bsk.), *Paralobesia viteana* (Clem.), *Coleophora* sp., *Pectinophora gossypiella* (Sdr.), *Exyra semicrocea* (Gn.), *Neogalea esula* (Druce), *Simyra henrici* (Grt.), *Trichoplusia ni* (Hbn.), *Bathylectes curculionis* (Thom.).

Cryptus ultimus Cresson, 1864. Ent. Soc. Phila., Proc. 3: 305. ♀.

Cryptus incertus Cresson, 1864. Ent. Soc. Phila., Proc. 3: 306. ♀. Preocc. by Ratzeburg, 1852.

Pygadeuon longicornis Provancher, 1886. Addit Corr. Faune Ent. Canada Hym., p. 52. ♀. *Hemiteles annulicornis* Ashmead, 1890 (1889). U. S. Natl. Mus., Proc. 12: 403. ♀.

Agrothereutes (Allocreptus) hyslopi Viereck, 1917 (1916). Conn. State Geol. and Nat. Hist. Survey Bul. 22: 333. ♀.

Spilocryptus exannulatus Cushman, 1919. U. S. Natl. Mus., Proc. 55: 529. ♂, ♀.

Hoplocryptus incertulus Cushman, 1925. Wash. Acad. Sci., Jour. 15: 390. N. name for *C. incertus* Cresson.

Biology: Fink, 1932. Jour. Agr. Res. 44: 555, 556. — Haden, 1935. Del. Univ. Agr. Expt. Sta., Bul. 194: 33-35.

yukonensis Townes. N. W. T., Yukon, Alaska.

Gambrus yukonensis Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 79. ♂, ♀.

Genus ARITRANIS Foerster

Aritranis Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 187.

Type-species: *Cryptus explorator* Tschech. Desig. by Viereck, 1914. from two species included by Tschech, 1870.

Hoplocryptus Thomson, 1873. Opusc. Ent. 5: 508.

Type-species: *Hoplocryptus binotulus* Thomson. Desig. by Viereck, 1914. The type-species is regarded as a synonym of *A. fugitiva* (Gravenhorst).

This Holarctic genus is arbitrarily distinguished from *Gambrus*.

affabilis (Provancher). Que. s. to w. N. C., w. to Minn. and Kans. Host: *Cephus pygmaeus* (L.), *Trachelus tabidus* (F.), *Phlyctaenia coronata tertialis* (Gn.).

Cryptus affabilis Provancher, 1877. Nat. Canad. 9: 13. ♀.

albicollaris albicollaris (Cresson). Que. s. to N. C., w. to Mont. and Tex. Host: *Phlyctaenia coronata tertialis* (Gn.).

Cryptus albicollaris Cresson, 1872. Amer. Ent. Soc., Trans. 4: 158. ♀.

albicollaris clypeata Townes. Wash., Calif.

Aritranis albicollaris clypeata Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 114. ♂, ♀.

barberi Townes. Md.

Aritranis barberi Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 111. ♂.

byrsina Townes. Que. s. to Ga., w. to Wis., Kans., and La. Host: *Achatodes zeae* (Harris), *Papaipeoma* sp. in *Sambucus* pith, "Oberea sp." in raspberry stem. It does not seem likely that *A. byrsina* would be a primary parasite of *Oberea*.

Aritranis byrsina Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 102. ♂, ♀.

imitator (Provancher). Que. w. to n. Yukon, s. to R. I., Ohio, Colo., and Calif. Host: *Hoplitis (Cyrtosmia) hypocrita* (Ckll.).

Cryptus imitator Provancher, 1877. Nat. Canad. 9: 13. ♀.

- Aritranis imitator nigriventris* Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 121. ♂, ♀. N. syn.
- Aritranis imitator monticola* Townes, 1962. In Townes and Townes, U. S. Natl. Mus., Bul. 216 (pt. 3): 124. ♂, ♀. N. syn.
- Aritranis imitator ruficauda* Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 125. ♂, ♀. N. syn.
- linnae linnae** Townes, Que., N. Y., Ont., Mich., Minn., Sask., Alta.
Aritranis linnae linnae Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 105. ♂, ♀.
- linnae pacifica** Townes, Calif.
Aritranis linnae pacifica Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 106. ♂, ♀.
- notata newcomeri** (Cushman). Mont., Ida., B. C., Wash., Oreg. Host: *Ametastegia glabrata* (Fall.), *Allantus cinctus* (L.).
Caenocryptus newcomeri Cushman, 1917. U. S. Natl. Mus., Proc. 53: 463. ♂, ♀..
- notata notata** (Provancher). Que. s. to w. N. C., w. to Alaska, Alta, and Colo. Host:
Ametastegia glabrata (Fall.), *Ancistrocerus birenimaculatus* (Sauss.), "Odnerus" sp. in *Rhus* stem.
Cryptus Belangeri Provancher, 1874. Nat. Canad. 6 (6): 177 (key); 6 (7): 201. ♀. The holotype was not located by Barron (1975).
- Cryptus notatus* Provancher, 1874. Nat. Canad. 6 (6): 177 (key); 6 (7): 202. ♂. A specimen presumed to be the holotype was located by Barron (1975).
- Cryptus elongatus* Provancher, 1882 (Dec.). Nat. Canad. 13: 362. ♂. Preocc. by Rudow, 1882 (Nov.).
Oronotus albomaculatus Ashmead, 1896. Amer. Ent. Soc., Trans. 23: 205. ♂.
- Taxonomy: Barron, 1975. Nat. Canad. 102: 433, 466, 520.
- notata sierrae** Townes. Calif. Host: *Ancistrocerus spilogaster* Cam., *Leptochilus tetradymia* Parker, *Megachile gentilis* Cr.
Aritranis notata sierrae Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 120. ♂, ♀.
- nubecula** Townes. R. I., Fla., Mich., Tex.
Aritranis nubecula Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 109. ♂, ♀.
- zoesmairi** (Dalla Torre). Que. s. to w. N. C., w. to Wis. Host: *Ceratina dupla* Say. Individual larvae consume two to five host larvae.
Cryptus ornatus Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 63 (key). ♀. Preocc. by Gravenhorst, 1829.
Cryptus scutellatus Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 69. ♀. Preocc. by Smith, 1858 and Provancher, 1877. This is species number 39 in Provancher's treatment of *Cryptus*; the same number is used by Provancher for *C. ornatus* in his key to the species of *Cryptus*; the fact that the synonymy between the two names pertaining to species number 39 is objective was substantiated by Provancher (1889).
Cryptus gracilis Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 74. ♂. Preocc. by Gravenhorst, 1829.
Cryptus Zoesmairi Dalla Torre, 1902. Cat. Hym., v. 3, p. 595. N. name for *C. scutellatus* Provancher and *C. ornatus* Provancher.
Habrocyptus graenicheri Viereck, 1904. Ent. News 15: 333. ♀.
- Taxonomy: Provancher, 1889. Addit. Corr. Faune Ent. Canada Hym., p. 452.
- Biology: Graenicher, 1905. Ent. News 16: 43-49.

Genus PYCNOCRYPTUS Thomson

Pycnocryptus Thomson, 1873. Opusc. Ent. 5: 500.

Type-species: *Cryptus peregrinator* Gravenhorst. Monotypic. The type-species is Gravenhorst's misidentification of *Ichneumon peregrinator* Linnaeus; the specimens which Gravenhorst identified as *peregrinator* are now identified as *P. director* (Thunberg).

Cylindrocryptus Ceballos, 1921. Soc. Espan. de Hist. Nat., Bol. 21: 50.

Type-species: *Cylindrocryptus nitidus* Ceballos. Monotypic and orig. desig.

This is a small Holarctic genus.

alexanderi Townes. Vt.

Pycnocryptus alexanderi Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 128. ♂.

director (Thunberg). P. E. I. s. to N. C., w. to Mont. and Colo.; Europe. Adventive.

Ichneumon director Thunberg, 1822. Acad. Imp. des Sci. St. Petersburg, Mem. 8: 270. ♂.

freemani Townes. N. B., Alta., Alaska.

Pycnocryptus freemani Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 127. ♀.

platyaspis Townes. Northern Que., n. Man., Wyo.

Pycnocryptus platyaspis Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 127. ♀.

Genus HIDRYTA Foerster

Hidryta Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 187.

Type-species: *Brachycryptus erythrocerus* Thomson. Desig. by Viereck, 1914 from four species included by Dalla Torre, 1902.

Brachycryptus Thomson, 1873. Opusc. Ent. 5: 487.

Type-species: *Brachycryptus erythrocerus* Thomson. Desig. by Viereck, 1914.

Euthycryptus Jussel, 1907. Vorarlberger Landes-Mus., Jahresber. 44: 71.

Type-species: *Euthycryptus scrobiculifer* Jussel. Monotypic.

This is a small Holarctic genus.

frater (Cresson). Newfoundland (Labrador) s. to Va., w. to Oreg. and Calif.; Eurasia. Ecology:

Adults occur among the coarse grasses and sedges of wet meadows.

Cryptus frater Cresson, 1864. Ent. Soc. Phila., Proc. 3: 303. ♀.

Cryptus sordidus Tschech, 1870. Zool.-Bot. Gesell. Wien, Verh. 20: 409. ♀.

Brachycryptus erythrocerus Thomson, 1873. Opusc. Ent. 5: 488. ♀.

nigricoxa (Provancher). N. S. s. to w. N. C., w. to Minn.

Cryptus nigricoxus Provancher, 1888. Addit. Corr. Faune Ent. Canada Hym., p. 361. ♂.

Brachycryptus niger Cushman, 1926. U. S. Natl. Mus., Proc. 67 (23): 7. ♂.

Genus IDIOLISPA Foerster

Idiolispa Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 188.

Type-species: *Bassus analis* Gravenhorst. Desig. by Viereck, 1914 from two species included by Tschech, 1870.

Lioeryptus Thomson, 1873. Opusc. Ent. 5: 489.

Type-species: *Bassus analis* Gravenhorst. Monotypic.

Paracryptus Szeppligeti, 1916. Mus. Natl. Hungarici, Ann. 14: 251.

Type-species: *Paracryptus hungaricus* Szeppligeti. Monotypic.

This is a small Holarctic genus.

aestivalis Townes. Que. s. to Ga. w. to Iowa, Kans., and Tex.

Idiolispa aestivalis Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 331. ♂, ♀.

albsoleata (Walsh). Que., Maine, N. H., Va., Ont., Mich., Minn., Iowa, Ariz., n.w. N. W. T., Alaska.

Cryptus albsoleatus Walsh, 1873. Acad. Sci. St. Louis, Trans. 3: 80. ♂.

analis analis (Gravenhorst). Newfoundland (Labrador) s. to Va., w. to Yukon, e. B. C., and Colo.; Eurasia. In their tribal revision, Townes and Townes (1962) divided this

subspecies into two, with the nominate form occupying nearly the entire range of the other segregate.

Bassus analis Gravenhorst, 1807. Vergl. Uebers. Zool. Systeme, p. 266. Sex not indicated. In their tribal revision, Townes and Townes (1962) point out that the original description of *analis* does not fit the taxon for which the name has traditionally been used; lacking other evidence to indicate that Gravenhorst's original type material did not include specimens of this taxon, they selected a lectotype which preserves the traditional usage.

Ichneumon cursor Thunberg, 1822; 1824. Acad. Imp. des Sci. St. Petersburg, Mem. 8: 256; 9: 298. ♀. Preocc. by Schrank, 1780.

Cryptus elevatus Zetterstedt, 1838. Insecta Lapponica, sect. 2, p. 370. ♀.

Cryptus limatus Cresson, 1864. Ent. Soc. Phila., Proc. 3: 298. ♀. N. syn.

Ischnus lentus Provancher, 1875. Nat. Cand. 7: 110. ♂, ♀.

analis ignea Townes. Southern Sask. s. to N. Mex. w. to s. B. C. and Calif.

Idiolispia analis ignea Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 329. ♂, ♀.

Genus TRYCHOSIS Foerster

Trychosis Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 187.

Type-species: *Cryptus titillator* Gravenhorst. Included and desig. by Schmiedeknecht, 1890. The type-species is Gravenhorst's misidentification of *Ichneumon titillator* Linnaeus; the specimens which Gravenhorst identified as *titillator* are now identified as *T. mesocastana* (Tschech) (see van Rossem, 1967).

Phaedrophadnus Cameron, 1906. Bombay Nat. Hist. Soc., Jour. 17: 285.

Type-species: *Phaedrophadnus striatus* Cameron. Monotypic.

Ethaempha Viereck, 1913. U. S. Natl. Mus. Proc. 44: 565.

Type-species: *Cryptus similis* Cresson. Monotypic and orig. desig.

Orthocryptus Viereck, 1913. U. S. Natl. Mus. Proc. 44: 567.

Type-species: *Cryptus monticola* Ashmead. Monotypic and orig. desig.

There are a few species of this moderately large genus in the Oriental Region and one known from the Neotropic Region, but *Trychosis* is otherwise Holarctic. Some of the species have been reared from spider egg cocoons, and records of rearings from Lepidoptera may be erroneous.

Revision: van Rossem, 1966. Zool. Verh. 79, 40 pp. (European spp.).

Taxonomy: van Rossem, 1965. Bul. Zool. Nomencl. 22: 259-260 (proposal for use of plenary powers). —Perkins, 1966. Bul. Zool. Nomencl. 23: 8 (comment on lack of need for use of plenary powers). —van Rossem, 1966. Bul. Zool. Nomencl. 23: 8 (rebuttal of Perkins). —Sabrosky, 1967. Bul. Zool. Nomencl. 24: 73-74 (suggested changes for proposal of van Rossem). —International Commission on Zoological Nomenclature, 1974. Bul. Zool. Nomencl. 31: 22-23 (unnecessary use of plenary powers).

albicaligata (Walsh). Conn. s. to Va. w. to Mich., Kans., and Tex. In their tribal revision, Townes and Townes (1962) suggest that *albicaligata* may prove to be a junior synonym of *T. exulans* (Cresson).

Cryptus albicaligatus Walsh, 1873. Acad. Sci. St. Louis, Trans. 3: 82. ♂.

anagma Townes. Que. w. to B. C., s. to R. I., Ohio, S. Dak., and Calif.

Trychosis anagmus Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 376. ♂, ♀.

apicalis Townes. R. I. s. to Fla., w. to Minn.

Trychosis apicalis Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 347. ♂, ♀.

atrorubens Townes. Colo., Ariz., Nev., Calif.

Trychosis atrorubens Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 369. ♂, ♀.

coxalis Townes. R. I. s. to S. C., w. to Mich. and Ala.

Trychosis coxalis Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 346. ♂, ♀.

- cyperia** Townes. Newfoundland (Labrador) w. to w. N. W. T., s. to N. Y., Ohio, Colo., and n. Calif. Ecology: Adults occur among sedges in wet meadows.
- Trychosis cyperia* Townes, 1962. *In* Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 373. ♂, ♀.
- depilis** Townes. Wyo., Idaho, Utah, s. B. C., Wash., Oreg., Calif. Townes suggests that *depilis* may be only "subspecifically distinct" from the sympatric *T. reflexa* Townes.
- Trychosis depilis* Townes, 1962. *In* Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 368. ♂, ♀.
- exulans** (Cresson). Mass. s. to N. C., w. to Mich., Kans., and Tex. See text for *T. albicaligata*.
- Cryptus exulans* Cresson, 1872. Amer. Ent. Soc., Trans. 4: 157. "♂" = ♀.
- fuseata** Townes. Newfoundland (Labrador), Que., Maine.
- Trychosis fuseata* Townes, 1962. *In* Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 356. ♂, ♀.
- kathrynae** Townes. Que. w. to Sask., s. to N. J., W. Va., Mich. and Minn.
- Trychosis kathrynae* Townes, 1962. *In* Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 363. ♂, ♀.
- latidens** Townes. Que. w. to Yukon, s. to Mass., Mich., Colo., and Oreg.
- Trychosis latidens* Townes, 1962. *In* Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 355. ♂, ♀.
- montivaga austrina** Townes. N. Mex.
- Trychosis montivaga austrina* Townes, 1962. *In* Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 341. ♂, ♀.
- montivaga montivaga** (Provancher). N. S. w. to Yukon, s. to Va., Ill., Minn., and s. B. C.
- Cryptus montivagus* Provancher, 1877. Nat. Canad. 9: 12. ♀.
- Phygadeuon fusiformis* Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 51. ♀.
- nigripes** Townes. Tex.
- Trychosis nigripes* Townes, 1962. *In* Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 345. ♂, ♀.
- peratra** Townes, n. status. Newfoundland (insular) w. to B. C., s. to Va., Tex., and Calif.
- Cryptus albitaris* Cresson, 1864. Ent. Soc. Phila., Proc. 3 (Sept.): 300. ♂. Preocc. in *Cryptus* by Cresson, 1864 (June). *T. peratra* is not sufficiently well collected to make it worthwhile proposing a new name for *C. albitaris* in order to treat the eastern and western populations as separate subspecies. N. syn.
- Trychosis albitaris peratra* Townes, 1962. *In* Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 359. ♂, ♀.
- reflexa** Townes. S. Dak., Mont., and s. B. C., s. to Utah and Calif. Townes says *reflexa* "is very close to *T. atrorubens* and is likely to prove [to be] a subspecies of it;" see also the text for *T. depilis*, above.
- Trychosis reflexa* Townes, 1962. *In* Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 371. ♂, ♀.
- sanderi** (Dalla Torre). Colo. Known only from the holotype.
- Cryptus monticola* Ashmead, 1890 (1889). U. S. Natl. Mus., Proc. 12: 410. ♀. Preocc. by Cameron, 1885.
- Cryptus Sanderi* Dalla Torre, 1902. Cat. Hym., v. 3, p. 587. N. name for *monticola* Ashmead.
- semirubra** Townes. Que. w. to n.w. N. W. T., s. to R. I., Ohio, Minn., N. Mex., and Calif.
- Ecology: Has been reared from spider egg cocoons collected under rocks. Host: Eggs of drassid spider. The subspecies recognized by Townes and Townes (1962) suffer from being based upon too few specimens and, in two cases, from being based upon different characters in each sex (hind tarsal coloration in males and flagellar coloration in females). If the white banding on the female hind tarsus (contrary to the description of Townes and Townes [1962], in at least one female they placed in their nominate subspecies tarsal segments 2 through 4 are entirely white) does not correlate well with the extent of white coloration on the female flagellum, it does not seem logical to

suppose that there could be a good correlation between the coloration of the male hind tarsus and the female flagellum.

Phygadeuon annulatus Provancher, 1875. Nat. Canad. 7: 179. ♀. Preocc. by Cresson, 1864.
Trychosis semiruber Townes, 1944. Amer. Ent. Soc., Mem. 11: 254. N. name for *P. annulatus* Provancher.

Trychosis semiruber pulla Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 352. ♂, ♀. N. syn.

Trychosis semiruber arizonica Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 354. ♂, ♀. N. syn.

similis (Cresson). N. S. s. to S. C., w. to Minn., Kans., and Tex. The two subspecies recognized by Townes and Townes (1962) were almost completely sympatric.

Cryptus similis Cresson, 1864. Ent. Soc. Phila., Proc. 3: 299. ♀.

Trychosis similis badiarius Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 343. ♂, ♀. N. syn.

subgracilis (Cresson). P. E. I. s. to Fla., w. to Colo. and Tex. Ecology: One specimen was reared from a head of *Rudbeckia amplex*.

Cryptus subgracilis Cresson, 1864. Ent. Soc. Phila., Proc. 3: 303. ♀.

Cryptus rufounannulus Provancher, 1874. Nat. Canad. 6 (6): 177 (key); 6 (7): 202.

sulcata Townes. Mass. s. to N. C., w. to Mich. and Kans.

Trychosis sulcata Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 349. ♂, ♀.

SUBTRIBE CRYPTINA

Townes (1970) says that this is the dominant subtribe in the Holarctic Region. Most of the species appear to be parasites of the pupae or prepupae of Lepidoptera or Symphyta.

Taxonomy: Townes, 1970 (1969). Amer. Ent. Inst., Mem. 12: 158-159 (genera of world).

Genus CAMERA Townes

Camera Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 432.
 Type-species: *Mesostenus euryaspis* Cameron. Orig. desig.

Except for the species which ranges into Texas, this small genus is Neotropic.

euryaspis (Cameron). Tex.; Mexico.

Mesostenus euryaspis Cameron, 1885. Biol. Cent.-Amer., Hym., v. 1, p. 226. ♀.

Genus ISCHNUS Gravenhorst

Ischnus Gravenhorst, 1829. Ichn. Europaea, v. 1, p. 638.

Type-species: *Ichneumon porrectorius* Fabricius. Desig. by Westwood, 1840. The type-species is regarded as a synonym of *I. inquisitorius inquisitorius* (Mueller).
Habrocyptus Thomson, 1873. Opusc. Ent. 5: 498.

Type-species: *Cryptus assertorius* Gravenhorst. Desig. by Viereck, 1914. The type-species is Gravenhorst's identification of *Ichneumon assertorius* Fabricius and is regarded as a synonym of *I. inquisitorius inquisitorius* (Mueller).

Aglaocryptus Cameron, 1903. Manchester Lit. and Phil. Soc., Mem. and Proc. 47 (14): 31.
 Type-species: *Aglaocryptus curvimanulatus* Cameron. Desig. by Viereck, 1914.

Erythrocyptus Cameron, 1905. Invertebrata Pacifica 1: 126.

Type-species: *Erythrocyptus rufus* Cameron. Monotypic.

This moderately large genus is almost worldwide in distribution. The species are pupal parasites of Lepidoptera.

cinctipes (Walsh). Que. s. to Fla., w. to Minn. and Tex. Host: *Ancylis comptana* (Froel.), *A. divisana* Wlk., *Paralobesia viteana* (Clem.).

Cryptus cinctipes Walsh, 1873. Acad. Sci. St. Louis, Trans. 3: 72. ♂, ♀.

Phygadeuon fraterculus Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 55. ♀.
Spilocryptus polychrosidis Cushman, 1917. U. S. Natl. Mus., Proc. 53: 461. ♂, ♀.

- inquisitorius assimilis** (Uchida). Alaska; n.e. Asia. *I. inquisitorius inquisitorius* (Mueller) occurs in Europe.
- Habrocyptus assimilis* Uchida, 1930. Hokkaido Imp. Univ., Faculty Agr., Jour. 25: 313. ♀.
- inquisitorius atricollaris** (Walsh). N. S. s. to w. N. C., w. to Alaska and Calif. Host: *Archips argyrospilus* (Wlk.), *Choristoneura conflictana* (Wlk.), *C. fumiferana* (Clem.), *C. rosaceana* (Harris), orange tortriid on azalea, *Malacosoma disstria* Hbn. Townes and Townes (1962) split this subspecies into three which were very arbitrarily separated and had broadly overlapping ranges.
- Cryptus atricollaris* Walsh, 1873. Acad. Sci. St. Louis, Trans. 3: 72. ♂, ♀.
- Cryptus varius* Provancher, 1874. Nat. Canad. 6 (6): 177 (key); 6 (7): 200. ♂.
- Ischnus exilis* Provancher, 1875. Nat. Canad. 7: 111. ♂.
- Cryptus atriceps* Cresson, 1879 (1878). Acad. Nat. Sci. Phila., Proc. 30: 361. ♀. N. syn.
- Spiloecryptus neomexicana* Viereck, 1903. In Skinner, Amer. Ent. Soc., Trans. 29: 81. ♂.
- Erythrocyptus rufus* Cameron, 1905. Invertebrata Pacifica 1: 126. ♀. N. syn.
- Gambrus venablesi* Viereck, 1924. Canad. Ent. 56: 65. ♀.
- Ischnus inquisitorius pectoralis* Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 146. ♂, ♀. N. syn.
- laevifrons** Townes. Ariz.
- Ischnus laevifrons* Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 156. ♂, ♀.
- latus** (Provancher). Que., Maine, N. H., Ont., Mich., Sask., Alta.
- Cryptus latus* Provancher, 1874. Nat. Canad. 6 (6): 178 (key); 6 (7): 204. ♀. The holotype of this species was not located by Barron (1975); the original description seems to show that Townes and Townes (1962) were correct in removing *latus* from *Cubocephalus* where it had been placed by virtue of the incorrect synonymy of Provancher (1879).
- Phygadeuon j-annulatus* Provancher, 1882. Nat. Canad. 13 (no. 155): 335 (key); 13 (no. 156): 355. ♀. Preocc. by *P. triannulatus* Gravenhorst, 1829.
- Cryptus j-annulatus* Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 74. ♂.
- Preocc. in *Ischnus* by Provancher, 1882.
- Ischnus fraterculus tricircularis* Walkley, 1958. In Krombein, U. S. Dept. Agr., Agr. Monog. 2, Sup. 1, p. 46. N. name for *P. j-annulatus* Provancher.
- Taxonomy: Provancher, 1879. Nat. Canad. 11: 69 (incorrect syn.). — Townes and Townes, 1962. U. S. Natl. Mus. Bul. 216 (pt. 3): 135-136. — Barron, 1975. Nat. Canad. 102: 494, 575.
- laurae** Townes. S. C., Fla.
- Ischnus laurae* Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 140. ♂, ♀.
- lautus** Townes. Southern B. C., Calif. Host: *Grapholitha molesta* (Bsk.).
- Ischnus laetus* Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 163. ♂, ♀.
- minor** Townes. Northern Que. w. to Alaska, s. to n. Ga., Minn., Ariz., and Calif. Host: *Epinotia aceriella* (Clem.), *Paralobesia viteana* (Clem.), *Acleris variana* (Fern.), *Choristoneura fumiferana* (Clem.).
- Ischnus minor* Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 159. ♂, ♀.
- pinguis** (Provancher), revised status. Que. s. to w. N. C., w. to Minn. Townes and Townes (1962) placed *pinguis* as a subspecies of *latus*; the fact that they saw "no real intergrades" between *pinguis* and *latus* leaves the status of *pinguis* in doubt because most of the *latus* specimens they studied were collected within the northern portion of the range of *pinguis*.
- Phaeogenes pinguis* Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 43. ♀. A lectotype was selected by Barron (1975).
- Taxonomy: Townes and Townes, 1962. U. S. Natl. Mus. Bul. 216 (pt. 3): 136-137. — Barron, 1975. Nat. Canad. 102: 531.
- politus** Townes. Colo. Ecology: Occurs in the Rocky Mountains at timberline.
- Ischnus politus* Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 162. ♀.

rhomboidalis (Walsh). Que. s. to e. Tenn., w. to N. Dak. and Colo. Host: *Laspeyresia pomonella* (L.).

Cryptus rhomboidalis Walsh, 1873. Acad. Sci. St. Louis, Trans. 3: 72. ♀.

Cryptus amblytelarius Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 70. ♀.

sparsus Townes. Que. s. to w. N. C., w. to Minn.

Ischnus sparsus Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 141. ♂, ♀.

velutinus Townes. Ariz. Ecology: Occurs in moist deciduous forests of mountains in central Ariz.

Ischnus velutinus Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 155. ♂, ♀.

Genus GLABRIDORSUM Townes

Glabridorsum Townes, 1970 (1969). Amer. Ent. Inst., Mem. 12: 174.

Type-species: *Gambrus stokesii* Cameron. Monotypic and orig. desig.

The eleven species (ten undescribed) known to Townes (1970) occur between Japan and Australia.

stokesii (Cameron). Australia. Introduced in N. J. and Va. in 1932 and in Idaho (date unknown to me) apparently without becoming established. Host: *Grapholita molesta* (Bsk.),

Laspeyresia pomonella (L.). The hosts listed were the target species for introductions in North America.

Gambrus Stokesii Cameron, 1912. Linn. Soc. N. S. Wales, Proc. 37 (1): 180. ♀.

Biology: Allen, Holloway, and Haeussler, 1940. U. S. Dept. Agr., Cir. 561: 50-51.

Genus CHROMOCRYPTUS Ashmead

Chromocryptus Ashmead, 1900. U. S. Natl. Mus., Proc. 23: 41.

Type-species: *Chromocryptus albopictus* Ashmead. Monotypic and orig. desig.

Mesostenimorpha Viereck, 1913. U. S. Natl. Mus., Proc. 44: 566.

Type-species: *Cryptus nebrascensis* Ashmead. Monotypic and orig. desig.

Neocryptopteryx Blanchard, 1947. Mus. Hist. Nat. Montevideo, Commun. Zool. 2 (no. 42): 1.

Type-species: *Neocryptopteryx orientalis* Blanchard. Monotypic and orig. desig.

Nothischnus Porter, 1967. Studia Ent. 10: 396.

Type-species: *Nothischnus riverai* Porter. Monotypic and orig. desig.

Periplasma Porter, 1967. Studia Ent. 10: 404.

Type-species: *Periplasma tananae* Porter. Monotypic and orig. desig.

Townes (1970) said his reasons for regarding *Chromocryptus* as distinct from *Trachysphyrus* are not compelling. Because Townes and Townes (1962) had treated *Chromocryptus* as distinct from *Trachysphyrus* in their revision of the Nearctic Cryptini, it seems logical to do likewise here, thereby restricting the application of the name *Trachysphyrus* to Neotropic species. Except for four species which occur in the Nearctic region, *Chromocryptus* is also Neotropic; the South American species are numerous.

Revision: Porter, 1967. Amer. Ent. Inst., Mem. 10: 1-168, in part (Neotropic spp. treated as part of genus *Trachysphyrus*).

Taxonomy: Townes, 1970. Amer. Ent. Inst., Mem. 12: 179-181.

mesorufus Cushman, revised status. Fla.; Mexico. In the U. S. Natl. Mus. collection there is a female collected in a blacklight trap at Miami, Fla. In their tribal revision, Townes and Townes (1962) treated *mesorufus* as a subspecies of *planosae* (Fitch).

Chromocryptus mesorufus Cushman, 1930. U. S. Natl. Mus., Proc. 76 (25): 2. ♀.

planosae (Fitch). Mass., Conn., N. Y., Pa., Ohio, Mich., Ind., Ill., Nebr. Host: *Epicnaptera americana* (Harris), *Tolype laricis* (Fitch), *T. vellella* (Stoll), *Halisidota tessellaris* (J. E. S.). Apparently, a number of adults may emerge from a single host.

Phygadeuon Planosae Fitch, 1856. N. Y. State Agr. Soc., Trans. 15: 501. ♀.

Cryptus nebrascensis Ashmead, 1890 (1889). U. S. Natl. Mus., Proc. 12: 412. ♀.

Chromocryptus albopictus Ashmead, 1900. U. S. Natl. Mus., Proc. 23: 41. ♀.

Agrothereutes (Itamoplex) cressoni Viereck, 1917 (1916). Conn. State Geol. and Nat. Hist. Survey Bul. 22: 332. ♀.

Taxonomy: Porter, 1974. Fla. Ent. 57: 335.

vandykei Townes, n. status. Calif.

Chronocyrptus planosae vandykei Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 258. ♀.

weemsi (Porter), n. comb. Fla.

Trachysphyrus weemsi Porter, 1974. Fla. Ent. 57: 331. ♂, ♀.

Genus JOPPIDIUM Cresson

Joppidium Cresson, 1872. Amer. Ent. Soc., Trans. 4: 160.

Type-species: *Joppidium rubriceps* Cresson. Desig. by Viereck, 1914.

Joppidium Walsh, 1873. Acad. Sci. St. Louis, Trans. 3: 69. Preocc. by Cresson, 1872.

Type-species: *Joppidium ruficeps* Walsh. Monotypic.

Joppoceras Ashmead, 1900. U. S. Natl. Mus., Proc. 23: 39, 40.

Type-species: "Cryptus" *dubiosum* Cresson. Monotypic and orig. desig. The type-species designation is an error for *Joppidium dubiosum* Cresson.

Opisoxestus Ashmead, 1900. U. S. Natl. Mus., Proc. 23: 40.

Type-species: *Opisoxestus ferrugineus* Ashmead. Monotypic and orig. desig. The type-species is regarded as a synonym of *J. caeruleipenne* Cameron.

Isocryptus Brethes, 1927. Ent. Mitt. 16: 308.

Type-species: *Isocryptus azureus* Brethes. Monotypic. The type-species is regarded as a synonym of *J. moerens* (Perty).

This Nearctic and Neotropic genus is of moderate size.

apicale Cresson. Pa. s. to Ga., w. to Kans. and Tex.

Joppidium apicale Cresson, 1872. Amer. Ent. Soc., Trans. 4: 160. ♀.

Joppidium ruficeps Walsh, 1873. Acad. Sci. St. Louis, Trans. 3: 70. ♂, ♀.

arizonicum Townes. Ariz.

Joppidium arizonicum Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 312. ♂.

brochum *brochum* Townes. Okla., Tex.; Mexico.

Joppidium brochum brochum Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 309. ♂, ♀.

brochum *fattigi* Townes. Ky., N. C., Ga.

Joppidium brochum fattigi Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 309. ♂, ♀.

densus Townes. Ariz.; Mexico.

Joppidium densus Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 312. ♂, ♀.

discolor Townes. Ariz.

Joppidium discolor Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 313. ♂.

dubiosum Cresson. Va., S. C., Ga., Ala.; Mexico.

Joppidium dubiosum Cresson, 1873. Acad. Nat. Sci. Phila., Proc. 25: 138. ♂, ♀.

Opisoxestus (?) *ruficeps* Szpligeti, 1916. Mus. Natl. Hungarici, Ann. 14: 240. ♂. Preocc. in *Joppidium* by Walsh, 1873.

fuscipenne (Brulle). Ariz.; Mexico.

Cryptus fuscipennis Brulle, 1846. In Lepeletier, Hist. Nat. Ins. Hym., v. 4, p. 189. ♀.

Joppidium donabilis Cresson, 1873. Acad. Nat. Sci. Phila., Proc. 25: 139. ♂, ♀.

Joppidium yucatanense Cameron, 1885. Biol. Cent.-Amer., Hym., v. 1, p. 211. ♀.

rubriceps Cresson. N. J. s. to Ga., w. to Mo. and Tex.

Joppidium rubriceps Cresson, 1872. Amer. Ent. Soc., Trans. 4: 160. ♂, ♀.

Genus CAENOCRYPTUS Thomson

Caenocryptus Thomson, 1873. Opusc. Ent. 5: 494.

Type-species: *Cryptus rufiventris* Gravenhorst, Desig. by Viereck, 1914.

Habrocyptoides Uchida, 1952. Insecta Matsumurana 18: 19.

Type-species: *Habrocyptoides shikokuensis* Uchida, Orig. desig.

Pseudischnus Walkley, 1954. Wash. Acad. Sci. Jour. 44: 219.

Type-species: *Ischnus oregonensis* Cushman. Monotypic and orig. desig.

The members of this moderate-sized Holarctic genus apparently parasitize sawflies and cocoon spinning Lepidoptera.

Taxonomy: Townes, 1970 (1969). Amer. Ent. Inst., Mem. 12: 189 (generic syn.).

erasus (Townes). Alta.

Habrocyptoides erasmus Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 175. ♀.

inflexus (Townes). Calif.

Habrocyptoides inflexus Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 177. ♀.

lumbarius Townes. Calif.

Habrocyptoides lumbarius Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 174. ♀.

luctuosus luctuosus (Cresson). Que. w. to s. Yukon, s. to N. Y., S. Dak., Colo., Calif. Host:

Trichiosoma triangulum Kirby, *Zaraea inflata* Nort., sawfly on *Tsuga heterophyla*. *C. luctuosus atrifemur* (Townes) occurs in Japan and *C. luctuosus holalpinus* (Heinrich) occurs in Europe. In the tribal revision of Townes and Townes (1962), the latter was treated as a synonym of *Cryptus luctuosus subquadratus* Thomson. A bizarre situation developed when van Rossem (1969) treated *holalpinus* as an alpine subspecies of *Cryptus luctuosus* distinct from *luctuosus subquadratus*, followed by Townes (1970) treatment of *subquadratus* as a species not congeneric with *luctuosus holalpinus*; Townes (1970) placed *subquadratus* in *Itamoplex* (=*Cryptus*), while placing *luctuosus* and its subspecies in *Caenocryptus*. Both van Rossem (1969) and Townes (1970) had studied the lectotype of *Cryptus subquadratus*.

Cryptus luctuosus Cresson, 1864. Ent. Soc. Phila., Proc. 3: 290. ♀.

Agrothereutes (Itamoplex) ebenus Viereck, 1917 (1916). Conn. State Geol. and Nat. Hist. Survey Bul. 22: 333. ♀.

Cryptus caligatus Cushman, 1927. U. S. Natl. Mus., Proc. 72 (13): 2. ♀.

Taxonomy: van Rossem, 1969. Tijdschr. v. Ent. 112: 364-366. —Townes, 1970. Amer. Ent. Inst., Mem. 12: 190.

nitens (Townes). Calif.

Habrocyptoides nitens Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 176. ♀.

oregonensis (Cushman). S. Dak., Wyo., Idaho, B. C., Wash., Oreg., Calif. Host: *Neodiprion tsugae* Midd.

Ischnus oregonensis Cushman, 1939. Wash. Acad. Sci., Jour. 29: 392. ♂, ♀.

Habrocyptoides oregonensis coerulea Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 167. ♀. N. syn. Described from a single female.

pietus Townes). Ariz.

Habrocyptoides pietus Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 173. ♂.

rufifrons (Walsh). R. I. s. to s. Fla., w. to Mich., Kans., and Tex.

Cryptus rufifrons Walsh, 1873. Acad. Sci. St. Louis, Trans. 3: 75. ♀.

virgeus ardalus (Townes). Colo., Ariz. Ecology: Occurs in relatively moist deciduous forests.

Habrocyptoides virgeus ardalus Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 172. ♂, ♀.

virgeus virgeus (Townes). Mass. s. to S. C., w. to Wis. Host: *Harrisina americana* (G.-M.),

Laspeyresia pomonella (L.)?

Habrocyptoides virgeus virgeus Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 171. ♂, ♀.

Genus LANUGO Townes

Lanugo Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 259.
Type-species: *Cryptus retentor* Brulle. Orig. design.

This small genus is Nearctic and Neotropic. The type-species has been reared from cocoons of Megalopygidae.

bicincta Townes. Kans.

Lanugo bicincta Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 270. ♀.

brunnipennis Townes. Southern B. C., Wash., Calif.

Lanugo Brunnipennis Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 275. ♂, ♀.

cestus (Say). Southern Indiana, Tenn.

Cryptus cestus Say, 1836. Boston Jour. Nat. Hist. 1: 234. ♀.

deserti Townes. Utah, Ariz., Calif. Ecology: One specimen was apparently reared as a secondary parasite of a sawfly on *Pinus*.

Lanugo deserti Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 268. ♂, ♀.

excineta Townes. Northwestern Kans., Colo., N. Mex., Utah, Ariz.

Lanugo excineta Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 272. ♂, ♀.

ferrugata Townes. Tex.

Lanugo ferrugata Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 263. ♂, ♀.

flavipennis Townes. Ariz.

Lanugo flavipennis Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 271. ♂, ♀.

longurius Townes. Ariz.

Lanugo longurius Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 269. ♀.

picta Townes. Tex., Ariz.; Mexico.

Lanugo picta Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 266. ♂, ♀.

polita Townes. Ariz.

Lanugo polita Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 271. ♀.

retentor (Brulle). Va. s. to Fla., w. to Ind. and Tex. Host: *Lagoa pyridifera* (J. E. S.), *Megalopuge opercularis* (J. E. S.).

Cryptus retentor Brulle, 1846. In Lepeletier, Hist. Nat. Ins. Hym., v. 4, p. 192. ♀.

Cryptus comalensis Cresson, 1872. Amer. Ent. Soc., Trans. 4: 159. ♀.

Cryptus nigripennis Ashmead, 1890 (1889). U. S. Natl. Mus., Proc. 12: 411. ♀.

schlingeri Townes. Calif.

Lanugo schlingeri Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 262. ♀.

sororia (Cresson). Tex., Ariz., Calif.; Mexico.

Cryptus sororius Cresson, 1872. Amer. Ent. Soc., Trans. 4: 159. ♂.

Genus BUATHRA Cameron

Buathra Cameron, 1903. Ent. Soc. London, Trans. 51: 233.

Type-species: *Buathra rufiventris* Cameron. Monotypic.

Bathycrisis Cameron, 1905. Spolia Zeylanica (Ceylon Jour. Sci., Sect. B) 3: 96.

Type-species: *Bathycrisis striaticollis* Cameron. Monotypic.

This is a Holarctic and Oriental genus of small or moderate size. According to van Rossem (1971) the separation between *Buathra* and *Meringopus* is rather difficult and arbitrary; he believed that *Buathra* could be merged into *Meringopus*.

Revision: van Rossem, 1971. Tijdschr. v. Ent. 114: 201-208 (European spp.).

Taxonomy: van Rossem, 1969. Tijdschr. v. Ent. 112: 167, 169 (fig. and key to distinguish from *Meringopus*). — Townes, 1970 (1969). Amer. Ent. Inst., Mem. 12: 192-193 (referred additional spp. to genus). — Townes, 1971. Amer. Ent. Inst., Mem. 17: 239 (syn. corrected).

crassifemur (Pratt). Idaho, s. B. C., Wash., Oreg., Calif.

Cryptus crassifemur Pratt, 1945. Amer. Midland Nat. 34: 582. ♂, ♀.

dorsicarinata (Pratt). Alta. s. to Colo. and Ariz., w. to Alaska and Calif.

Cryptus dorsicarinatus Pratt, 1945. Amer. Midland Nat. 34: 612. ♂, ♀.

laborator (Thunberg). Greenland; Newfoundland (Labrador) w. to Alaska, s. to N. Y., Wis., S. Dak., N. Mex., and Calif.; n. Eurasia. Host: *Melanolophia imitata* (Wlk.). The description of *laborator* given by van Rossem (1971) shows that *Cryptus altonii* Dalla Torre should be suppressed as a synonym rather than being recognized as a subspecies of *laborator* on the basis of the distinguishing characters used in the tribal revision of Townes and Townes (1962).

Ichneumon laborator Thunberg, 1822; 1824. Acad. Imp. des Sci. St. Petersburg, Mem. 8: 273 (key); 9: 344. [male].

Cryptus fabricii Schiodte, 1857. In Rink, Gronland Geog. og Statis. Beskrevet, v. 2, pt. 3, p. 62. ♂, ♀. Placed as a synonym by van Rossem (1971).

Cryptus proximus Cresson, 1864. Ent. Soc. Phila., Proc. 3: 290. ♀. Preocc. by Fonscolombe, 1850. N. syn.

Cryptus fulvipes Magretti, 1884. Soc. Ent. Ital., Bol. 16: 99. ♂.

Cryptus Altonii Dalla Torre, 1902. Cat. Hym., v. 3, p. 560. N. name for *C. proximus* Cresson.

Cryptus sachalinensis Matsumura, 1911. Tohoku Imp. Univ., Col. Agr., Jour. 4 (1): 95. ♀.

Cryptus tarsoleucus var. *takagii* Uchida, 1930. Hokkaido Imp. Univ., Faculty Agr., Jour. 25: 306. ♂.

Trachysphyrus laborator satoi Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 209. ♀. N. syn. Described from a single specimen from Korea.

Taxonomy: Townes, Momoi, and Townes, 1965. Amer. Ent. Inst., Mem. 5: 180-181 (syn.).

lochmaia (Townes). Ariz. Ecology: Occurs in chaparral areas.

Trachysphyrus lochmatus Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 216. ♂, ♀.

perplexa (Cresson), revised status. Idaho, w. Nev., s. B. C., Wash., Oreg., Calif. Townes and Townes (1962) treated *perplexa* as a subspecies of *laborator*. In one paragraph they stated that "intergrades between [*perplexa*] ... and *altonii* [now a syn. of *laborator*] are moderately common where the ranges of the two are adjacent or overlap." In a subsequent paragraph they stated that *perplexa* "intergrades with the subspecies *altonii* rather freely in western Idaho and near the crest of the Sierra Nevada." The kinds of localities from which they record both taxa lead me to believe that the specimens they regarded as intergrades actually were not.

Cryptus proximus var.? *perplexus* Cresson, 1879 (1878). Acad. Nat. Sci. Phila., Proc. 30: 359. ♀.

Taxonomy: Townes and Townes, 1962. U. S. Natl. Mus. Bul. 216 (pt. 3): 213-214.

strigosa (Pratt). Wash., Oreg., Calif.

Cryptus strigosus Pratt, 1945. Amer. Midland Nat. 34: 583. ♂, ♀.

Genus CRYPTUS Fabricius

Cryptus Fabricius, 1804. Systema Piezatorum, p. 70. Preocc. by Jurine, 1801 and Panzer, 1804.

Type-species: *Cryptus viduatorius* Fabricius. Desig. by Curtis, 1837.

Eucryptus Haldeman, 1842. Acad. Nat. Sci. Phila., Proc. 1: 191. N. name for *Cryptus* ("Hal.") presumably Haliday. Haliday (1839) used the name *Cryptus* for Ichneumonidae in a paper describing insects whose names had been published as *nominis nuda* by Curtis (1837), who used the abbreviation "Hal." for Haliday and suppressed "*Cryptus* B. E." as a synonym of the sawfly name *Scizocerus* and used *Cryptus* "F[abricius]" for Ichneumonidae.

Itamoplex Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 188.

Type-species: *Cryptus americanus* Cresson. Desig. by Viereck, 1914 from three species included by Ashmead, 1900.

. *Plesiocryptus* Cameron, 1903. Ztschr. f. System. Hym. Dipt. 3: 299.

Type-species: *Plesiocryptus carinifrons* Cameron. Monotypic.

This large genus is Holarctic, Oriental, and Ethiopian. The controversy regarding the name *Cryptus* remains unsettled. Even if Opinion 135 (see Hemming, 1939) were valid, *Cryptus Fabricius* (1804) would still be preoccupied by *Cryptus Panzer* (1804) (a subjective synonym of *Argo*), and *Eucryptus* Haldeman may be a valid replacement name for *Cryptus Fabricius*. Hemming's (1945) conclusion that "suspension [of the Rules] would not be essential in the case of *Cryptus Panzer* [1804]" is incorrect because Panzer's fascicle 88 (1804) of *Fauna Insectorum Germaniae* is shown to predate Fabricius's *Systema Piezatorum* by virtue of the fact that the former is cited on page 35 of the latter. *Cryptus* is used here because I feel that it is virtually certain that the majority of specialists presently studying Ichneumonidae would choose to suppress *Cryptus Jurine* (1801), *Cryptus Panzer* (1804), and *Eucryptus* Haldeman (if the latter is valid).

Revision: Pratt, 1945. Amer. Midland Nat. 34: 562-661. —van Rossem, 1969. Tijdschr. v. Ent. 112: 229-375 (western Palearctic spp.).

Taxonomy: Jurine, 1801. In Panzer, Intell. Blatt. Litt.-Ztg. Erlangen 21: 163. —Panzer, 1804.

Fauna Ins. German. fasc. 88, pl. 17. —Curtis, 1837. Guide Arrang. Brit. Ins., ed. 2, columns 81-115. —Haliday, 1839 (1838). Ann. Nat. Hist. 2: 114-116. —Hemming, 1939; 1945.

Internat. Comm. Zool. Nomencl. Opinions and Declarations Rendered 2: 7-12 (Opinion 135); 2: 256 (Opinion 157).

albitarsis (Cresson). Newfoundland (Labrador) w. to w. N. W. T., s. to S. C., Ala., Tex., and Calif.; Mexico, Costa Rica. Host: *Heliothis zea* (Bod.), *Macronotua onusta* Grt., *Grapholita molesta* (Bsk.), *Psorosina hammondi* (Riley), *Tetralopha robustella* Zell. According to van Rossem (1969), *albitarsis* may be conspecific with the Eurasian *C. dianae* Gravenhorst.

Ichneumon vinctus Say, 1829. Contrib. Maclurian Lyceum to Arts and Sci. 1: 70. ♂. Preocc. by Schrank, 1781.

Ischnus albitarsis Cresson, 1864. Ent. Soc. Phila., Proc. 3 (June): 194. ♂.

Taxonomy: van Rossem, 1969. Tijdschr. v. Ent. 112: 333, 336.

arcticus Schiodte. Greenland, n.e. N. W. T., Alaska, B. C., Calif.; Europe?

Cryptus arcticus Schiodte, 1857. In Rink, Gronland Geog. og Statis. Beskrevet, v. 2, pt. 3, p. 57. ♂, ♀.

Cryptus lutescens Tschek, 1872. Zool.-Bot. Gesell. Wien, Verh. 22: 234. ♀.

- Taxonomy: Mason, 1968. Canad. Ent. 100: 17, 18 (fig. and differences from *leechi* Mason).
 —van Rossem, 1969. Tijdschr. v. Ent. 112: 368 (syn.).
- aridus** Pratt. Colo., B. C., Idaho, Oreg., Calif.
Cryptus aridus Pratt, 1945. Amer. Midland Nat. 34: 618. ♀.
- crassulus** Pratt. Que., Mich.
Cryptus crassulus Pratt, 1945. Amer. Midland Nat. 34: 586. ♀.
- krombeini** (Townes). W. Va.
Trachysphyrus krombeini Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 243. ♀.
- latigenalis** Pratt. Mont., Colo. Host: *Loxostege sticticalis* (L.).
Cryptus latigenalis Pratt, 1945. Amer. Midland Nat. 34: 611. ♀.
- Biology: Ulyett, 1949; 1950. Canad. Ent. 81: 285-299; 82: 1-11 (misidentified as *inornatus* Pratt).
- leechi** Mason. Northeastern N. W. T.; n. Greenland.
Cryptus leechi Mason, 1968. Canad. Ent. 100: 17. ♂, ♀.
- mentigus** Townes. Colo., N. Mex., Ariz., Alaska, Yukon, Wash., Oreg., Calif.
Trachysphyrus mentigus mentigus Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 234. ♂, ♀. Described from eight specimens from two localities in Arizona.
Trachysphyrus mentigus rufator Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 235. ♀. Described from one specimen from California. N. syn.
- Trachysphyrus mentigus rhodomerus* Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 235. ♂, ♀. Because this form had by far the largest range (including Ariz. and Calif.) of the three forms of *mentigus* described by Townes it seems unusual that he did not make it the nominate form. N. syn.
- minimus** Pratt. Sask. s. to N. Mex., w. to Alta., e. Wash., e. Oreg., and Nev.
Cryptus minimus Pratt, 1945. Amer. Midland Nat. 34: 619. ♀.
- moschator iroquois** (Viereck). Que. s. to N. J., w. to Mich. and Ohio. *C. moschator moschator* (Fabricius) is European.
Agrotherentes (Iamoplex) iroquois Viereck, 1917 (1916). Conn. State Geol. and Nat. Hist. Survey Bul. 22: 333. ♀.
- mutatus** Pratt, revised status. Western Minn., e. S. Dak., Colo., s. Alta., Idaho, s. B. C., Wash., Oreg., Calif. In their tribal revision, Townes and Townes (1962) treated *mutatus* as one of three sympatric western subspecies of *albitarsis* (Cresson).
Cryptus curticaudus Pratt, 1945. Amer. Midland Nat. 34: 627. ♀.
Cryptus mutatus Pratt, 1945. Amer. Midland Nat. 34: 634. ♂, ♀.
- ocellaris** Pratt, revised status. Western Nev., Oreg., Calif. In the tribal revision of Townes and Townes (1962), *ocellaris* was treated as a sympatric subspecies of *aridus* Pratt. Because these authors said that they had not seen any intergrades between the two taxa, *ocellaris* is here treated as a distinct species instead of being suppressed as a synonym of *aridus*.
Cryptus ocellaris Pratt, 1945. Amer. Midland Nat. 34: 617. ♀.
- persimilis** Cresson. N. S. w. to s. B. C., s. to S. C., Tex., s. Ariz., and s. Calif.
Cryptus persimilis Cresson, 1864. Ent. Soc. Phila., Proc. 3: 298. ♀.
Cryptus picticorpus Walsh, 1873. Acad. Sci. St. Louis, Trans. 3: 82. ♂.
Cryptus citrinimaculatus Viereck, 1905. Kans. Acad. Sci., Trans. 19: 320. ♂.
Cryptus associatus Pratt, 1945. Amer. Midland Nat. 34: 633. ♀.
- recurvatus** Pratt. Tex., Ariz., Calif.; Mexico.
Cryptus recurvatus Pratt, 1945. Amer. Midland Nat. 34: 616. ♀.
- rufovinctus** Pratt, revised status. Idaho, Utah, Nev., s. B. C., Wash., Oreg., Calif. Host: *Synanthedon bibionipennis* (Bdv.), *S. exitiosa* (Say), *Etiella zinckenella* (Treit.), *Autoplusia egena* (Gn.), *Trichoplusia ni* (Hbn.). In the tribal revision of Townes and Townes (1962), *rufovinctus* was treated as one of three sympatric western subspecies of *albitarsis* (Cresson).
Cryptus rufovinctus Pratt, 1945. Amer. Midland Nat. 34: 620. ♂, ♀.

rugifrons (Townes). Ariz., Calif.

Trachysphyrus rugifrons Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 255. ♂, ♀.

ruralis Pratt. Southern Man., s. Sask., n. Colo., s. Alta., Ida., s. B. C.

Cryptus ruralis Pratt, 1945. Amer. Midland Nat. 34: 637. ♀.

scapulatus (Townes). Calif.

Trachysphyrus scapulatus Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 241. ♂, ♀.

sodalis rugosiscutum Pratt. Southern Oreg., Calif.

Cryptus rugosiscutum Pratt, 1945. Amer. Midland Nat. 34: 572. ♀.

Taxonomy: Townes, 1970 (1969). Amer. Ent. Inst. Mem. 12: 194.

sodalis sodalis Cameron. Tex., Colo., N. Mex., Ariz.; Mexico.

Cryptus sodalis Cameron, 1885. Biol. Cent.-Amer., Hym., v. 1, p. 204. [female].

Cryptus crassiscutulus Pratt, 1945. Amer. Midland Nat. 34: 573. ♂, ♀. N. syn.

Cryptus flagellatus Pratt, 1945. Amer. Midland Nat. 34: 574. ♀. N. syn.

Trachysphyrus rugosiscutum binarius Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 226. ♀.

Taxonomy: Townes and Townes, 1966. Amer. Ent. Inst. Mem. 8: 70, 73. —Townes, 1970 (1969). Amer. Ent. Inst., Mem. 12: 194.

Genus XYLOPHRURUS Foerster

Xylophrurus Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 169.

Type-species: *Echthrus lancifer* Gravenhorst. By subsequent monotypy from inclusion by Schmiedeknecht, 1888. The name of the type-species has been incorrectly suppressed as a synonym of *Ichneumon dispar* Thunberg; the latter is preocc. by Gmelin, 1790.

Nyxeophilus Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 187.

Type-species: *Cryptus bimaculatus* Gravenhorst. Included and desig. by Thomson (1885). In placing species in *Nyxeophilus*, Thomson (1885) said "Nyxeophilus mihi," and Thomson (1897) said "Nyxeophilus Thomson," which led Perkins (1962) to treat *Nyxeophilus* Thomson as a proposal of a new genus, and this seems inconsistent with his p. 387 discussion of Thomson's use of the Foerster names. The type-species is regarded as a synonym of *X. angustus* (Dalman).

Macrocyptus Thomson, 1873. Opusc. Ent. 5: 486.

Type-species: *Echthrus lancifer* Gravenhorst. Monotypic.

Xylophruridea Viereck, 1912. U. S. Natl. Mus., Proc. 42: 646.

Type-species: *Xylophruridea agrili* Viereck. Monotypic and orig. desig.

Revision: Cushman, 1919. U. S. Natl. Mus., Proc. 55: 536-540 (as *Cryptoideus*).

Taxonomy: Thomson, 1885. Soc. Ent. France, Ann. (6) 5: 18. —Thomson, 1897. Opusc. Ent. 11: 2363. —Perkins, 1962. Brit. Mus. (Nat. Hist.) Ent., Bul. 11: 387, 439.

agrili (Viereck). Ont., W. Va., Mich., Kans. Host: *Agrilus horni* Kerr, *A. vittaticollis* Rand.

Both of these hosts are root borers and pupate a short distance above the ground in the stems of their hosts.

Xylophruridea agrili Viereck, 1912. U. S. Natl. Mus., Proc. 42: 646. ♀.

Biology: Brooks, 1914. Jour. Agr. Res. 3: 184. —Brooks, 1923. U. S. Dept. Agr., Bur. Ent., Monthly Let. 108: 3. —Carlson, 1969. Amer. Ent. Inst., Contrib. 4 (3): 39.

bicolor bicolor (Cushman). Colo., Alta., Idaho, Alaska, B. C. Host: *Oberea* sp. on *Salix*,

Saperda moesta LeC. The type locality is Fort Collins, Colo. (Holotype collected in May, [1896?] by C. F. Baker).

Cryptoideus bicolor Cushman, 1919. U. S. Natl. Mus., Proc. 55: 537. ♀.

bicolor maurus Townes. Que., Ont., Mich., Man. Host: *Agrilus horni* Kerr.

Xylophrurus bicolor maurus Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 483. ♂, ♀.

Biology: Carlson, 1969. Amer. Ent. Inst., Contrib. 4 (3): 39.

- fasciatus fasciatus* (Ashmead). Que., N. Y., Pa., Md., Mich., Tex. Host: *Agrilus corylicola* Fisher, *A. horni* Kerr.
Brachycentrus fasciatus Ashmead, 1890 (1889). U. S. Natl. Mus., Proc. 12: 413. ♀.
Cryptoideus rufus Cushman, 1919. U. S. Natl. Mus., Proc. 55: 538. ♀.
- fasciatus hesperus* Townes. Colo., Ariz., Calif. Host: *Agrilus angelicus* Horn.
Xylophrurus fasciatus hesperus Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 481. ♂, ♀.
- nubilipennis abdominalis* Townes. Sask., Utah, B. C.
Xylophrurus nubilipennis abdominalis Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 484. ♂, ♀.
- nubilipennis luctuosus* (Provancher). Que., N. H., Conn., N. Y., W. Va., Fla., Ont., Mich. Host: *Agrilus champlaini* Frost, *Oberea paelonga* Casey, *Saperda candida* F., borer in *Populus*.
Mesochorus luctuosus Provancher, 1874. Nat. Canad. 6: 299. ♀.
Cryptoideus anthracinus Cushman, 1924. U. S. Natl. Mus., Proc. 64 (4): 7. ♀.
- nubilipennis nubilipennis* (Cresson). Colo. Host: *Dicerca divaricata* (Say).
Cryptus nubilipennis Cresson, 1864. Ent. Soc. Phila., Proc. 3: 291. ♀.
- sitkensis* (Ashmead). Alaska, B. C., Wash., Oreg., Calif.
Cryptoideus sitkensis Ashmead, 1902. Wash. Acad. Sci., Proc. 4: 193. ♀.
Xylophrurus atroruber Townes, 1944. Amer. Ent. Soc., Mem. 11: 290. ♀. Validated as a "new name" for *Cryptoideus purpuripennis* "Ashmead" (1900) and "Cushman" (1919), misidentifications of *Cryptus purpuripennis* Cresson (see discussion under *Cryptoideus* Ashmead).
- Taxonomy: Ashmead, 1900. U. S. Natl. Mus., Proc. 23: 42 (validation of name *Cryptoideus* and misidentification of its type-species). —Cushman, 1919. U. S. Natl. Mus., Proc. 55: 539 (redescription of specimen misidentified as *purpuripennis* [Cresson] by Ashmead under the assumption that Ashmead's identification had been correct).

Genus REPTATRIX Townes

- Reptatrix* Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 276.
 Type-species: *Cryptus crassipes* Pratt. Monotypic and orig. desig.

A single species is known.

- crassipes* (Pratt). Wyo., Idaho, Utah, Wash., Oreg., Calif.
Cryptus crassipes Pratt, 1945. Amer. Midland Nat. 34: 585. ♀.

Genus MERINGOPUS Foerster

- Meringopus* Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 186.
 Type-species: *Cryptus recreator* Fabricius. By subsequent monotypy from inclusion by Tschek, 1870. The type-species is regarded as a synonym of *M. titillator* (Linnaeus).

- Goniocryptus* Thomson, 1973. Opusc. Ent. 5: 490.
 Type-species: *Ichneumon titillator* Linnaeus. Desig. by Viereck, 1914.

This Holarctic genus is of moderate size.

- Revision: van Rossem, 1969. Tijdschr. v. Ent. 112: 165-199 (European spp. plus some Asian ones).

Taxonomy: Townes, 1970.(1969). Amer. Ent. Inst., Mem. 12: 201-202 (list of Nearctic spp.).

- asymmetricus asymmetricus* (Pratt). Sask. w. to B. C., s. to Colo., n. Ariz., and n. Calif.
Cryptus asymmetricus Pratt, 1945. Amer. Midland Nat. 34: 587. ♂, ♀.

- asymmetricus mirabilis* (Pratt). Southern Calif.

- Cryptus mirabilis* Pratt, 1945. Amer. Midland Nat. 34: 589. ♀.

- calescens robustus* (Cresson). Northern Man. w. to Alaska, s. to n. N. Mex., Utah, and n. Calif.
 Ecology: Occurs near timberline in grassy areas with scattered conifers. *M. c. calescens*

(Gravenhorst) occurs in Europe and part of Asia and *M. c. alaicus* (Townes) occurs in Tadzhik S. S. R. and Kirgiz S. S. R., U. S. S. R.

Cryptus robustus Cresson, 1864. Ent. Soc. Phila., Proc. 3: 289. ♀.

Cryptus crassicornis Cresson, 1864. Ent. Soc. Phila., Proc. 3: 292. ♂.

dirus (Cresson). Southern B. C. s. to Calif., e. to Idaho., Colo., and Ariz.

Cryptus dirus Cresson, 1879 (1878). Acad. Nat. Sci. Phila., Proc. 30: 359. ♀.

fasciatus (Townes). Ariz.

Trachysphyrus fasciatus Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 188. ♂, ♀.

genatus (Pratt). Southern Sask. and s. Alta., s. to N. Mex., Ariz., Nev. and n. Calif. Host:

Malacosoma californicum fragile (Stretch), *M. dissistria* Hbn.

Cryptus genatus Pratt, 1945. Amer. Midland Nat. 34: 570. ♂, ♀.

nigerrimus murorum (Tschech.). Northern Man., Calif.; n. Europe. *M. nigerrimus nigerrimus* (Fonscolombe) is known from southern Europe and central Asia.

Cryptus murorum Tschech., 1872. Zool.-Bot. Gesell. Wien, Verh. 22: 234. ♂, ♀.

Cryptus serratus Thomson, 1873. Opuse. Ent. 5: 478. ♀.

Taxonomy: van Rossem, 1969. Tijdschr. v. Ent. 112: 190, 191-193.

pacificus (Cresson). Southern B. C., Oreg., Calif.

Cryptus pacificus Cresson, 1879 (1878). Acad. Nat. Sci. Phila., Proc. 30: 361. ♂.

punicus (Cresson), revised status. Southern B. C., Wash., Oreg., Calif. The discussion in the tribal revision of Townes and Townes (1962) indicates that there was not sufficient evidence to treat *punicus* as a subspecies or synonym of *relativus*.

Cryptus punicus Cresson, 1879 (1878). Acad. Nat. Sci. Phila., Proc. 30: 364. ♀.

Cryptus californicus Ashmead, 1890 (1889). U. S. Natl. Mus., Proc. 12: 411. ♀.

relativus (Cresson). Southern Alta. s. to N. Mex., w. to s. B. C. and Calif. Host: *Sesia tibialis* (Harris). This taxon was divided into two sympatric subspecies in the tribal revision of Townes and Townes (1962); intermediate specimens which I have seen among the material they studied contradict their discussion and indicate the need for placing *Cryptus nitschei* Dalla Torre as a synonym of *relativus* rather than giving it species status.

Cryptus relativus Cresson, 1879 (1878). Acad. Nat. Sci. Phila., Proc. 30: 359. ♀.

Cryptus pictifrons Cresson, 1879 (1878). Acad. Nat. Sci. Phila., Proc. 30: 360. ♂.

Cryptus violaceipennis Ashmead, 1890 (1889). U. S. Natl. Mus., Proc. 12: 408. ♂, ♀. Preocc. by Brulle, 1846. N. syn.

Cryptus leucopus Ashmead, 1890 (1889). U. S. Natl. Mus., Proc. 12: 409. ♂. Apparently preocc. in *Cryptus* by *Ichneumon leucopus* Gmelin, 1790. *I. leucopus* Gmelin was placed as a synonym of *Cryptus tarsoleucus* (Schrank) by Gravenhorst (1829), and Townes (1970) placed *tarsoleucus* in *Itamoplex* (=*Cryptus*). Neither *tarsoleucus* nor *I. leucopus* Gmelin was mentioned by van Rossem (1969) in his revision of the European species of *Cryptus*. N. syn.

Cryptus Nitschei Dalla Torre, 1902. Cat. Hym., v. 3, p. 581. N. name for *C. violaceipennis* Ashmead. N. syn.

Cryptus eleucopus Walkley, 1958. In Krombein et al., U. S. Dept. Agr., Agr. Monog. 2, sup. 1, p. 46. N. name for *C. leucopus* Ashmead. N. syn.

Taxonomy: Gravenhorst, 1829. Ichn. Europaea, v. 2, p. 449.—Townes, 1970 (1969). Amer. Ent. Inst., Mem. 12: 192.

serraticaudus (Pratt). Colo., Idaho, Utah., s. B. C., Wash., Oreg., Calif.

Cryptus serraticaudus Pratt, 1945. Amer. Midland Nat. 34: 594. ♂, ♀.

symmetricus bilobatus (Pratt). Northern Calif.

Cryptus bilobatus Pratt, 1945. Amer. Midland Nat. 34: 592. ♀.

symmetricus symmetricus (Pratt). Colo., s. Alta., Utah, s. B. C.

Cryptus symmetricus Pratt, 1945. Amer. Midland Nat. 34: 590. ♂, ♀.

tejonensis (Cresson). Alta. s. to N. Mex., w. to Alaska and Calif. In the tribal revision of Townes and Townes (1962) two subspecies with broadly overlapping ranges were recognized.

Cryptus tejonensis Cresson, 1879 (1878). Acad. Nat. Sci. Phila., Proc. 30: 360. ♀.

Cryptus rufopedibus Pratt, 1945. Amer. Midland Nat. 34: 597. ♀. Name invalid; dative grammatical case.

Cryptus mimicus Pratt, 1945. Amer. Midland Nat. 34: 607. ♂, ♀. N. syn.

Cryptus temporalis Pratt, 1945. Amer. Midland Nat. 34: 609. ♂, ♀. N. syn.

Cryptus rugulosus Pratt, 1945. Amer. Midland Nat. 34: 615. ♀. N. syn.

vancouverensis (Harrington). Southwestern B. C., w. Oreg., w. Calif. Host: *Malacosoma* sp.
Cryptus vancouverensis Harrington, 1894. Canad. Ent. 26: 211. ♀.

Genus COMPSOCRYPTUS Ashmead

Cryptoideus Ashmead, 1900. U. S. Natl. Mus., Proc. 23: 42.

Type-species: *Cryptus purpuripennis* Cresson. Monotypic and orig. desig. The type-species was misidentified by Ashmead; the specimen Ashmead misidentified as *purpuripennis* is the holotype of *Xylophrurus atroruber* Townes (= *X. sitkensis* [Ashmead]).

Compsocryptus Ashmead, 1900. U. S. Natl. Mus., Proc. 23: 43.

Type-species: *Cryptus calipterus* Say. Monotypic and orig. desig.

Callicryptus Ashmead, 1900. U. S. Natl. Mus., Proc. 23: 43.

Type-species: *Cryptus fasciatus* (?) Brulle. Monotypic and orig. desig. Dalla Torre (1902) regarded the type-species citation as a typographical error for *C. fuscofasciatus* Brulle, while Viereck (1914) regarded it as a lapsus for *C. fasciipennis* Brulle. It seems that Viereck is probably correct, but both *fuscofasciatus* and *fasciipennis* are presently placed in *Compsocryptus*.

Stictocryptus Cameron, 1908. Amer. Ent. Soc., Trans. 34: 243. Preocc. by Cameron, 1907.

Type-species: *Cryptus fasciipennis* Brulle. Monotypic and orig. desig. Cameron made the type-species designation as *Cryptus "fasciatipennis"* Brulle, which is certainly a lapsus for *fasciipennis*.

Sophocryptus Mallo, 1961. Idia 165: 17. Nomen nudum.

This moderate sized genus is Nearctic and Neotropic.

Taxonomy: Dalla Torre, 1902. Cat. Hym., v. 3, p. 556. — Viereck, 1914. U. S. Natl. Mus., Bul. 83: 25.

apicalis Townes. Northwestern B. C. s. to Calif., e. to Idaho, Colo., and N. Mex.

Compsocryptus apicalis Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 291. ♂, ♀.

aridus Townes. Wyo., Colo., Idaho, Utah, Ariz., Nev., Calif.

Compsocryptus aridus Townes, 1962. In Townes and Townes, U. S. Nalt. Mus. Bul. 216 (pt. 3): 289. ♂, ♀.

buceatus (Cresson). Tex.; Mexico.

Cryptus buceatus Cresson, 1872. Amer. Ent. Soc., Trans. 4: 159. ♂, ♀.

calipterus (Say). Northwestern Okla., Tex., N. Mex., Ariz., Calif.; Mexico. In their tribal revision, Townes and Townes (1962) treated the majority of specimens from Calif. as subspecifically distinct, but because the differences seem to be more or less clinal the subspecies are not recognized here.

Cryptus calipterus Say, 1836. Boston Jour. Nat. Hist. 1: 234. ♀.

Cryptus fulvus Taschenberg, 1876. Ztschr. f. Gesam. Naturw. 48: 66. ♂.

Ichneumon numerosus Cameron, 1885. Biol. Cent.-Amer., Hym., v. 1, p. 159. ♂.

Campsocryptus(?) brevicornis Cameron, 1905. Invertebrata Pacifica 1: 127. ♀.

Cryptus (Mansta?) politalypterus Viereck, 1905. Kans. Acad. Sci., Trans. 19: 293. ♂.

crotchii (Cresson). Calif.

Cryptus crotchii Cresson, 1879 (1878). Acad. Nat. Sci. Phila., Proc. 30: 362. ♂, ♀.

fasciipennis (Brulle). Southern Fla.; Cuba.

Cryptus fasciipennis Brulle, 1846. In Lepeletier, Hist. Nat. Ins. Hym., v. 4, p. 191. ♂, ♀.

fletcheri (Provancher). Western Idaho, n. Utah, s. B. C., Oreg., n. Calif. *C. fletcheri* may not be distinct from *C. turbatus* (Cresson) (see Townes and Townes [1962]).

Cryptus Fletcheri Provancher, 1888. Addit. Corr. Faune Ent. Canada Hym., p. 361. ♀.

Taxonomy: Townes and Townes, 1962. U. S. Natl. Mus. Bul. 216 (pt. 3): 298.

pallens Townes. Idaho, Utah, Oreg., Calif.

Compsoscyrtus pallens Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 293. ♂, ♀.

purpuripennis (Cresson). Western Idaho, n. Utah, s. B. C., Wash., Oreg., Calif.

Cryptus purpuripennis Cresson, 1879 (1878). Acad. Nat. Sci. Phila., Proc. 30: 364. ♀.

resolutus (Cresson). Southern Alta. s. to Colo., w. to Wash. and Calif.

Cryptus resolutus Cresson, 1879 (1878). Acad. Nat. Sci. Phila., Proc. 30: 363. ♂.

Cryptus Edwardii Cresson, 1879 (1878). Acad. Nat. Sci. Phila., Proc. 30: 363. ♀.

Compsoscyrtus resolutus subfasciatus Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 303. ♂, ♀. Overlapped and intergraded with more than half of the Calif. population Townes and Townes treated as the nominate subspecies. N. syn.

texensis Townes. Kans., Okla., Tex.; Mexico.

Compsoscyrtus texensis Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 283. ♂, ♀.

tricinctus Townes. Ga.?, Calif. Townes studied a specimen labeled Dewitt, Ga. and Thought that those data may be erroneous.

Compsoscyrtus tricinctus Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 295. ♂, ♀.

turbatus (Cresson). Western Idaho, n. Utah, Oreg., Calif.

Cryptus turbatus Cresson, 1879 (1878). Acad. Nat. Sci. Phila., Proc. 30: 363. ♀.

unicolor Townes. Central Calif.

Compsoscyrtus unicolor Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 297. ♂, ♀.

SUBTRIBE HEMIGASTRINA

It is my belief that the Old World genera *Hemigaster*, *Litochila*, and *Mansa* are unrelated to the genera here placed in the Aptesini and are most likely related to some of the eleven genera placed in the subtribe Baryceratina by Townes (1970) (compare Townes and Townes [1962]). Townes (1970) said it is almost certain that the genera he has grouped in the Baryceratina are not all related but are associated for convenience partly on convergent characters resulting from the habit of attacking cocoons of Limacodidae. Only three of the genera of Hemigastrina occur in the New World, and only two of these have North American species.

Taxonomy: Townes and Townes, 1962. U. S. Natl. Mus. Bul. 216 (pt. 3): 12 (list of genera placed in Baryceratina). —Townes, 1970 (1969). Amer. Ent. Inst., Mem. 12: 120-121, 205-215.

Genus BARYCEROS Gravenhorst

Baryceros Gravenhorst, 1829. Ichn. Europaea, v. 2, p. 777.

Type-species: *Baryceros guttatus* Gravenhorst. Monotypic.

Christolia Brulle, 1846. In Lepeletier, Hist. Nat. Ins. Hym., v. 4, p. 246.

Type-species: *Christolia punctata* Brulle. Monotypic.

Crypturoopsis Ashmead, 1900. U. S. Natl. Mus., Proc. 23: 45.

Type-species: *Crypturus texanus* Ashmead. Monotypic and orig. desig.

Neochristolia Blanchard, 1936. Rev. Argentina de Ent. 1: 40.

Type-species: *Neochristolia eucleidis* Blanchard. Monotypic and orig. desig.

Most of the species of this large genus are Neotropic.

audax (Cresson). Que. s. to Ala., w. to Wis. and Kans. In the tribal revision of Townes and Townes (1962) part of the specimens from the northern end of the distribution were distinguished as a separate subspecies.

Mesostenus audax Cresson, 1878. Canad. Ent. 10: 207. ♀.

Mesostenus exaptus Cresson, 1878. Canad. Ent. 10: 208. ♀. N. syn.

Mesostenus Saundersi Cresson, 1878. Canad. Ent. 10: 208. ♀. N. syn.

Mesostenus armatus Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 76. ♀. N. syn.

Mesostenus saundersii Dalla Torre, 1902. Cat. Hym., v. 3, p. 546. Emend.

candidus (Cresson). Mass. s. to Fla., w. to Mich. and Kans.

Mesostenus candidus Cresson, 1878. Canad. Ent. 10: 206. ♂.

Crypturus albomaculatus Ashmead, 1890 (1889). U. S. Natl. Mus., Proc. 12: 414. ♂.

Crypturopis abdominalis Cushman, 1929. U. S. Natl. Mus., Proc. 74 (16): 28. ♀. Preocc. in *Baryceros* by Cresson, 1873.

Christolia dumetorum Townes, 1944. Amer. Ent. Soc., Mem. 11: 271. N. name for *Crypturopis abdominalis* Cushman.

fortis (Cresson). Pa., Md., W. Va., n. Ga., s. Mich., Ohio, Ky., e. Kans., e. Okla.

Mesostenus fortis Cresson, 1878. Canad. Ent. 10: 206. ♀.

halli Townes. Ariz.

Baryceros halli Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 30. ♂.

texanus (Ashmead). Md. s. to Fla., w. to n. Mich. and e. Tex.; n.w. Mexico. Host: *Alarodia slossonae* Pack.

Crypturus texanus Ashmead, 1890 (1889). U. S. Natl. Mus., Proc. 12: 413. ♂.

Crypturus Dyari Ashmead, 1897. Canad. Ent. 29: 113. ♂, ♀.

Genus WHYMPERIA Cameron

Whymperia Cameron, 1903. Entomologist 36: 122.

Type-species: *Whymperia carinifrons* Cameron. Monotypic.

Protocryptus Schmiedeknecht, 1904. Opusc. Ichn., v. 2, p. 414.

Type-species: *Protocryptus grandis* Schmiedeknecht. Desig. by Viereck, 1914.

Zamansa Viereck, 1912. U. S. Natl. Mus., Proc. 42: 647.

Type-species: *Cryptus aztecus* Cresson. Monotypic and orig. desig.

Eleven species and subspecies are known, ten of them Neotropic.

tricolor Townes. Southern Ariz.

Whymperia tricolor Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul 216 (pt. 3): 22. ♀.

SUBTRIBE MESOSTENINA

Genus CRYPTANURA Brulle

Cryptanura Brulle, 1846. In Lepeletier, Hist. Nat. Ins. Hym., v. 4, p. 242.

Type-species: *Cryptanura nigripes* Brulle. Desig. by Viereck, 1914.

Mesostenus subg. *Polyaenus* Cresson, 1873. Acad. Nat. Sci. Phila., Proc. 25: 149.

Type-species: [*Mesostenus*] *Polyaenus ectypus* Cresson. Desig. by Viereck, 1914.

Polyaenidea Viereck, 1913. U. S. Natl. Mus., Proc. 46: 381.

Type-species: *Polyaenidea pretiosa* Viereck. Monotypic and orig. desig.

Except for the three species known to occur in North America, this very large genus is Neotropic.

Revision: Cushman, 1945. U. S. Natl. Mus., Proc. 96: 139-176.

banchiformis (Megerle). Mass. s. to Fla., w. to Mich., Kans., and Tex. In their tribal revision,

Townes and Townes (1962) say that "the sting of this species is moderately severe and of long duration; one sting received by the senior author [while collecting] was still painful on the night of the third day."

Ichneumon Banchiformis Megerle, 1802. App. ad Cat. Ins., Quae Mense Novembrio 1802 Vienne Austriae Auctionis Legi Vendita Fuere, p. 16. [male].

Mesostenus spinarius Brulle, 1846. In Lepeletier, Hist. Nat. Ins. Hym., v. 4, p. 227. ♀.

Mesostenus albopictus Cresson, 1864. Ent. Soc. Phila., Proc. 3: 312. ♂. Preocc. by Smith, 1858.

Mesostenus Delawarensis Dalla Torre, 1901. Cat. Hym., v. 3, p. 540. N. name for *M. albopictus* Cresson.

compacta (Cresson). Southern Tex.; Mexico, Honduras.

Mesostenus (*Mesostenus*) *compactus* Cresson, 1873. Acad. Nat. Sci. Phila., Proc. 25: 153. ♀.

Cryptanura planiscutellata Cushman, 1945. U. S. Natl. Mus., Proc. 96: 152. ♀.

septentrionalis Cushman. Southern N. Y. s. to S. C., w. to Mo. and La.

Cryptanura septentrionalis Cushman, 1945. U. S. Natl. Mus., Proc. 96: 156. ♀.

Genus MESOSTENUS Gravenhorst

Mesostenus Gravenhorst, 1829. Ichn. Europaea, v. 2, p. 750.

Type-species: *Mesostenus transfuga* Gravenhorst. Desig. by Westwood, 1840. *Stenaraeus* Thomson, 1896. Opusc. Ent. 21: 2380.

Type-species: *Mesostenus transfuga* Gravenhorst, Desig. by Viereck, 1914.

Ulinma Cameron, 1902. Ann. and Mag. Nat. Hist. (7) 9: 208.

Type-species: *Ulinma penetralis* Cameron. Monotypic.

Derocontrus Cushman, 1919. Ent. Soc. Wash., Proc. 21: 113.

Type-species: *Coleocentrus texanus* Ashmead. Orig. desig.

This genus is of moderate size and nearly worldwide distribution.

Revision: Cushman, 1929. U. S. Natl. Mus., Proc. 74 (16): 40-50. — Porter, 1973. Acta Zool.

Lilloana [Tucuman] 30: 227-267 (South American spp.).

Taxonomy: Porter, 1974. Acta Zool. Lilloana [Tucuman] 31: 27-46 (additions to 1973 revision).

albinotatus promptus Cresson. N. B. w. to B. C., s. to w. N. C., S. Dak., Colo., and n. Calif. *M. albinotatus albinotatus* Gravenhorst is European.

Mesostenus promptus Cresson, 1878. Canad. Ent. 10: 209. ♂.

americanus Cresson. Que. s. to Va., w. to S. Dak. Barron (1975) resurrected the name *brevipennis* from synonymy with *albinotatus promptus* and placed *temporalis* as a synonym of *brevipennis*; he failed to note that Townes (1970) had placed *temporalis* as a synonym of *americanus*.

Mesostenus tarsatus Provancher, 1875. Nat. Canad. 7: 265. ♂. Preocc. by Cresson, 1865.

The syntypes were not found by Barron (1975).

Mesostenus americanus Cresson, 1878. Canad. Ent. 10: 209. ♀.

Eretastes brevipennis Provancher, 1882. Nat. Canad. 13: 363. Nomen nudum.

Eretastes brevipennis Provancher, 1883. Petite Faune Ent. Canada Hym., p. 386. ♂, ♀. N. syn.

Mesostenus temporalis Townes, 1962. In Townes and Townes, U. S. Natl. Mus., Bul. 216 (pt. 3): 441. ♂, ♀.

Taxonomy: Townes, 1970 (1969). Amer. Ent. Inst., Mem. 12: 224 (syn.). — Barron, 1975. Nat. Canad. 102: 436-437, 572-573.

angustus Townes. R. I. s. to N. C., w. to e. Kans.

Mesostenus leucopus Ashmead, 1890 (1889). U. S. Natl. Mus., Proc. 12: 406. ♂. Preocc. by Brulle, 1846.

Mesostenus angustus Townes, 1944. Amer. Ent. Soc., Mem. 11: 284. N. name for *leucopus* Ashmead.

clitellatus Townes. N. S., w. to s. B. C., s. to Va. and n.e. Tex. Host: *Saucrobotys futilalis* (Led.).

Mesostenus clitellatus Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 447. ♂, ♀.

Morphology: Short, 1959. U. S. Natl. Mus., Proc. 110: 440, fig. 22B (final-instar larva).

eisenii Ashmead. Md. s. to Ga., w. to Ohio and Tex.; Mexico.

Mesostenus eisenii Ashmead, 1894. Calif. Acad. Sci., Proc. (2) 4: 129. ♀.

gracilis Cresson. N. S. s. to Ga., w. to s. B. C. and Calif.; Bermuda, Mexico. Host: *Anagasta kuehniella* (Zell.), *Cadra figulilella* (Greg.), *Ephestia elutella* (Hbn.), *Euzophera semifuneralis* (Wlk.), *Homoeosoma electellum* (Hulst), *Laetilia coccidivora* (Comst.), *Ozamia fuscomaculella* clarefacta Dyar, *Laspeyresia caryana* (Fitch).

Mesostenus gracilis Cresson, 1864. Ent. Soc. Phila., Proc. 3: 315. ♂.

Nematopodius orbitalis Ashmead, 1890. Colo. Biol. Assoc., Bul. 1: 21. ♀.

Biology: Bare, 1942. Jour. Econ. Ent. 35: 186-187.

liogaster Townes. Western N. W. T., Sask., Wyo., Idaho, B. C., Oreg., Calif.; Mexico.

Mesostenus liogaster Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 440. ♂, ♀.

longicaudis Cresson. N. Y., Minn., Nebr., and n. Calif., s. to S. C., Tex., and s. Calif.; Mexico.
Host: *Loxostege sticticalis* (L.).

Mesostenus longicaudis Cresson, 1872. Amer. Ent. Soc., Trans. 4: 164. ♀.

Mesostenus macilentus Cresson, 1878. Canad. Ent. 10: 210. ♂.

Mesostenus gracilipes Cresson, 1879 (1878). Acad. Nat. Sci. Phila., Proc. 30: 365. ♀.

Coleocentrus texanus Ashmead, 1890 (1889). U. S. Natl. Mus., Proc. 12: 444. ♀.

Mesostenus macrurus Dalla Torre, 1901. Cat. Hym., v. 3, p. 544. Unnecessary n. name for *M. longicaudis* Cresson, which is not preocc. by *M. longicauda* Brulle, 1846.

Nematopodius exclamans Viereck, 1905. Kans. Acad. Sci., Trans. 19: 318. ♀.

melanurus Cushman. Alta. Known only from the holotype.

Mesostenus melanurus Cushman, 1929. U. S. Natl. Mus., Proc. 74 (16): 47. ♀.

sicarius Townes. N. C., Tex., s. Alta., Mont., Colo., Ariz., Calif.; Mexico. Ecology: Distribution seems to correlate with that of cacti of the genus *Opuntia*; one specimen emerged from a cocoon found in a cactus stem.

Mesostenus sicarius Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 448. ♂, ♀.

thoracicus Cresson. Que. w. to B. C., s. to Fla., Tex., and s. Calif. Host: *Acrobasis betulella* Hulst, *A. caryivorella* Rag., *Macrobots theseusalis* (Wlk.), *Phylacteania extricalis* (Gn.).

Mesostenus thoracicus Cresson, 1864. Ent. Soc. Phila., Proc. 3: 314. ♂, ♀.

Mesostenus erythrogaster Ashmead, 1890 (1889). U. S. Natl. Mus., Proc. 12: 406. ♂.

Genus POLYCYRTUS Spinola

Polygyrus Spinola, 1840. Soc. Ent. de France, Ann. 9: 154.

Type-species: *Polygyrus histrio* Spinola. Desig. by Viereck, 1914.

Cryptanuridimorpha Viereck, 1913. U. S. Natl. Mus., Proc. 46: 369.

Type-species: *Cryptanuridimorpha elegans* Viereck. Monotypic and orig. desig. *C. elegans* is a synonym of *Polygyrus vierecki* Townes, 1966.

Cryptopterygimorpha Viereck, 1913. U. S. Natl. Mus., Proc. 46: 371.

Type-species: *Cryptopterygimorpha tubulifera* Viereck. Monotypic and orig. desig.

Polygyrtimorpha Viereck, 1913. U. S. Natl. Mus., Proc. 46: 383.

Type-species: *Polygyrtimorpha amoenus* Viereck. Monotypic and orig. desig.

Polygyrus is a very large genus of the New World. Only one species is known from the Nearctic Region, but in view of the number of species known from Mexico and Cuba, it seems likely that additional species will be found in the southern U. S.

Revision: Cushman, 1931. U. S. Natl. Mus., Proc. 78 (14): 1-62.

neglectus Cushman. Mass. s. to Fla., w. to Wis. and e. Tex. Ecology: Occurs in moist forests.
Polygyrus neglectus Cushman, 1926. U. S. Natl. Mus., Proc. 67 (23): 5. ♂, ♀.

Taxonomy: Cushman, 1929. U. S. Natl. Mus., Proc. 74 (16): 2, 4, 5, 51.

SUBTRIBE GORYPHINA

This subtribe includes 33 genera, 29 of which are restricted to the Old World. Only three of the genera occurring in the New World have Nearctic species.

Genus DIAPETIMORPHA Viereck

Diapetimorpha Viereck, 1913. U. S. Natl. Mus., Proc. 44: 564.

Type-species: *Cryptus armatus* Ashmead. Monotypic and orig. desig.

This is a large Nearctic and Neotropic genus.

Revision: Cushman, 1929. U. S. Natl. Mus., Proc. 74 (16): 29-37 (Nearctic spp.).

acadia Cushman. Md. s. to Fla., w. to Mo. and Tex.; Mexico.

Diapetimorpha acadia Cushman, 1929. U. S. Natl. Mus., Proc. 74 (16): 35. ♂, ♀.

- alabama Cushman. Southern N. Y. s. to S. C., w. to e. Kans. and Ala.
Diapetimorpha alabama Cushman, 1929. U. S. Natl. Mus., Proc. 74 (16): 34. ♂, ♀.
- brunnea Townes. Southern Ga., Fla.
Diapetimorpha brunnea Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 382. ♂, ♀.
- introita (Cresson). N. C. s. to Fla., w. to Tex.; Mexico.
Mesostenus introitus Cresson, 1872. Amer. Ent. Soc., Trans. 4: 162. ♂.
Mesostenus dejectus Cresson, 1872. Amer. Ent. Soc., Trans. 4: 163. ♀.
Cryptus armatus Ashmead, 1890 (1889). U. S. Natl. Mus., Proc. 12: 411. ♂. Preocc. by Lucas, 1846.
Cryptus ashmeadii Dalla Torre, 1902. Cat. Hym., v. 3, p. 562. N. name for *C. armatus* Ashmead.
- macula confederata Cushman. Northern Va. s. to mid Fla., w. to e. Tex. Host: *Pilocrosis tripunctata* (F.). *D. macula macula* (Cameron) is Mexican.
Diapetimorpha confederata Cushman, 1929. U. S. Natl. Mus., Proc. 74 (16): 34. ♀.
- macula ustulata Townes. Southern Fla. One would expect *m. ustulata* to be found in Cuba, particularly if the taxon really deserves being distinguished from *m. confederata*.
Diapetimorpha macula ustulata Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 386. ♂, ♀.
- picta Townes. Southeastern Ga., s. Fla.
Diapetimorpha picta Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 387. ♂, ♀.
- rufigaster Cushman. Md. s. to Fla., w. to s.e. Wis. and Tenn.
Diapetimorpha rufigaster Cushman, 1929. U. S. Natl. Mus., Proc. 74 (16): 33. ♀.
- rugosa Townes. N. J. s. to S. C., w. to s.w. Wis., e. Kans., and Tex.
Diapetimorpha rugosa Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 392. ♂, ♀.

Genus LISTROGNATHUS Tschek

Townes (1970) recognized five subgenera, two of which have Nearctic species. In their tribal revision, Townes and Townes (1962) erroneously treated the name *Listrognathus* as being of feminine gender. If one chooses to ignore the provision in the Code (art. 30, [a], [i], [3]) regarding the genders of Greek generic names latinized with a change in termination, it is inconsistent to also ignore the scholarly work of Hopper (1959). Hopper regarded *Listrognathus* as masculine, which is apparently explained by his statement that "a large proportion of the compounds of Greek nouns are adjectives by Greek grammar and may be either masculine or feminine ... , and in such cases the gender must be considered to be determined by the first species included whose name is of definite gender" (in this case *L. cornutus* Tschek).

Revision: Cushman, 1929. U. S. Natl. Mus., Proc. 74 (16): 15-22.

Taxonomy: Hopper, 1959. Ent. Soc. Wash., Proc. 61 (4): 158, 166 (nomenclature). —Townes, 1970 (1969). Amer. Ent. Soc., Mem. 12: 259-262.

Genus LISTROGNATHUS Subgenus FENESTULA Townes

Listrognathus subg. *Fenestula* Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 408.

Type-species: *Mesostenus paludatus* Cresson. Orig. desig.

Townes (1970) said that there are three species, one Nearctic, one Japanese, and one Korean (undescribed).

paludatus californicus Townes. Calif. Host: Lepidopteran on Salix.

Listrognathus (*Fenestula*) *paludata californica* Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 410. ♂, ♀.

paludatus ocularis Townes. Ariz. Described from one specimen from the Chiricahua Mts.

Listrognathus (*Fenestula*) *paludata ocularis* Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 411. ♀.

paludatus *paludatus* (Cresson). Mich., w. Ohio, Ill., Minn., Man., Tex., Wyo., Colo., N. Mex., Yukon, Alaska, B. C., Oreg. Host: *Cerura cinerea* Wlk.

Mesostenus paludatus Cresson, 1872. Amer. Ent. Soc., Trans. 4: 162. ♂.

Listrognathus agnatus Cushman, 1929. U. S. Natl. Mus., Proc. 74 (16): 21. ♀.

Genus LISTROGNATHUS Subgenus LISTROGNATHUS Tschek

Listrognathus Tschek, 1870. Zool.-Bot. Gesell. Wien, Verh. 20: 153.

Type-species: *Listrognathus cornutus* Tschek. Monotypic. *L. cornutus* is regarded as a synonym of *L. pubescens* (Fonscolombe).

Mesostenoides Ashmead, 1900. U. S. Natl. Mus., Proc. 23: 45.

Type-species: *Mesostenus albomaculatus* Cresson. Monotypic and orig. desig.

This is apparently the largest subgenus; it is Neotropic (species unidentified or undescribed), Holarctic, and Oriental. I have seen one undescribed species from southern Calif.

achelomas Townes. Md., Fla.

Listrognathus (*Listrognathus*) *acheloma* Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 425. ♀.

albomaculatus *albomaculatus* (Cresson). R. I., s. Ont., Mich., and Kans. s. to Fla. and Tex. Host: *Gretchenia bolliana* (Sling.).

Mesostenus albomaculatus Cresson, 1864. Ent. Soc. Phila., Proc. 3: 313. ♀.

Mesostenus leucocorax Ashmead, 1890 (1889). U. S. Natl. Mus., Proc. 12: 407. ♂.

albomaculatus *sagax* (Provancher). Southern Que., Ont., and Alta. s. to W. Va. and Wis.

Mesostenus sagax Provancher, 1879. Nat. Canad. 11 (no. 126): 112. ♀.

bicolor Townes. Ariz. Known only from the holotype, which was collected in Oak Creek Canyon.

Listrognathus (*Listrognathus*) *bicolor* Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 414. ♀.

femoratus Townes. P. E. I., Que., Ont., Va., W. Va., Mich.

Listrognathus (*Listrognathus*) *femorata* Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 415. ♂, ♀.

glomeratus Townes. N. J. s. to Fla., w. to Pa., W. Va., and Tex.

Listrognathus (*Listrognathus*) *glomerata* Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 424. ♂, ♀.

multimaculatus Cushman. Maine s. to N. J., w. to Minn. and Mo. Host: Tortricid on *Gleditsia*. *Listrognathus albomaculatus* var. *multimaculatus* Cushman, 1929. U. S. Natl. Mus., Proc. 74 (16): 18. ♀.

nigrescens Townes. Wyo., N. Mex., Alta., Utah.

Listrognathus (*Listrognathus*) *nigrescens* Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 416. ♂, ♀.

nubilipennis (Cresson). N. C. Ga. Ecology: According to Porter (1963) this species occurs in cypress swamps. *L. nubilipennis* was known to Townes and Townes (1962) only from the female holotype; Porter (1963) discussed two males and two females collected on the North Carolina coastal plain.

Mesostenus nubilipennis Cresson, 1878. Canad. Ent. 10: 205. ♀.

Taxonomy: Townes and Townes, 1962. U. S. Natl. Mus. Bul. 216 (pt. 3): 416. —Porter, 1963. Ent. News 74: 19-21.

rufitibialis Cushman. N. J., Md., S. C., Ind., Okla., Tex.

Listrognathus albomaculatus var. *rufitibialis* Cushman, 1929. U. S. Natl. Mus., Proc. 74 (16): 18. ♂, ♀.

rufus Townes. N. Y., Kans.

Listrognathus (*Listrognathus*) *rufa* Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 419. ♂.

victoriensis (Harrington). Southern B. C., n. Calif.

Cryptus victoriensis Harrington, 1894. Canad. Ent. 26: 211. ♀.

Listrognathus multicolor Cushman, 1929. U. S. Natl. Mus., Proc. 74 (16): 20. ♀.

Genus HYLOPHASMA Townes

Hylophasma Townes, 1970 (1969). Amer. Ent. Inst., Mem. 12: 275.

Type-species: *Hemisphragia debilis* Townes. Monotypic and orig. desig.

According to Townes (1970) this genus is Neotropic, Nearctic, and eastern Palearctic and included seven undescribed species.

debile (Townes). Md., Va., Ohio, Tenn., La., Kans.

Hemisphragia debilis Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 378. ♂, ♀.

SUBTRIBE LYMEONINA

Genus MALLOCHIA Viereck

Mallochia Viereck, 1912. U. S. Natl. Mus., Proc. 43: 591.

Type-species: *Mallochia agenoides* Viereck. Monotypic and orig. desig.

This New World genus is of moderate size; there are fewer Nearctic species than Neotropic ones (most of which are undescribed).

Revision: Cushman, 1929. U. S. Natl. Mus., Proc. 74 (16): 13-15.

agenoides Viereck. R. I. s. to Fla., w. to Mich., e. Kans., and Ala.; Mexico.

Mallochia agenoides Viereck, 1912. U. S. Natl. Mus., Proc. 43: 591. ♀.

frontalis Townes. N. J., Md., Va., N. C., e. Kans., Tex.

Mallochia frontalis Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 96. ♂, ♀.

laevis Townes. Southeastern Ga., n.e. Fla.

Mallochia laevis Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 97. ♂, ♀.

strigosa (Cresson). Tex., Ariz.? In their tribal revision, Townes and Townes (1962) were uncertain that the female from Ariz. which they identified as *strigosa* was really conspecific with the male holotype from Texas.

Mesoleptus strigosus Cresson, 1872. Amer. Ent. Soc., Trans. 4: 167. ♂.

Genus LYMEON Foerster

Lymeon Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 176.

Type-species: *Lymeon annulicornis* Ashmead. By subsequent monotypy from inclusion by Ashmead, 1894.

Neomesostenus Schmiedeknecht, 1904. Opusc. Ichn., v. 2, p. 562.

Type-species: *Neomesostenus tuheitensis* Brues and Richardson. Desig. by Townes and Townes, 1966 from three species included by Brues and Richardson, 1913.

Christolimorpha Viereck, 1913. U. S. Natl. Mus., Proc. 44: 564.

Type-species: *Christolimorpha plesius* Viereck. Monotypic and orig. desig. The type-species is regarded as a synonym of *L. fuscipennis* (Brulle).

Zamastrus Viereck, 1913. U. S. Natl. Mus., Proc. 46: 385.

Type-species: *Zamastrus photopsis* Viereck. Monotypic and orig. desig.

Neogoryphus Roman, 1936. Ent. Tidskr. 57: 3.

Type-species: *Ichneumon ariolator* Linnaeus. Monotypic and orig. desig.

Nasutocryptus Pratt, 1945. Amer. Midland Nat. 34: 560.

Type-species: *Nasutocryptus nasutus* Pratt. Monotypic and orig. desig.

Except for four Nearctic species, this very large genus is Neotropic. The females oviposit into cocoons of various sorts, including the egg cocoons of spiders.

bicinctus (Cresson). Southern Fla.; Cuba.

Hemiteles bicinctus Cresson, 1865. Ent. Soc. Phila., Proc. 4: 24. ♀.

Lymeon leiponeuron Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 397. ♂, ♀.

Taxonomy: Townes and Townes, 1966. Amer. Ent. Inst., Mem. 8: 89 (syn.).

cinctiventris (Cushman). Md. s. to Fla., w. to Tex.

Mesostenus laticinctus Cresson, 1878. Canad. Ent. 10: 208. ♀. Preocc. by *Mesostenus laticinctus* Walker, 1874.

Mesostenus Cressoni Dalla Torre, 1901. Cat. Hym., v. 3, p. 539. N. name for *M. laticinctus* Cresson; preocc. by Ashmead, 1900.

Diapetimorpha cinctiventris Cushman, 1929. U. S. Natl. Mus., Proc. 74 (16): 32. N. name for *M. cressoni* Dalla Torre.

nasutus (Pratt). N. Mex.

Nasutocryptus nasutus Pratt, 1945. Amer. Midland Nat. 34: 561. ♀.

orbis (Say). Southern N. Y. s. to Fla., w. to s. Wis., Kans., and Tex. Host: *Coleophora* sp., *Homaledra sabalella* (Chamb.), *Phereoeca walsinghami* (Bsk.), *Grapholitha molesta* (Bsk.), *Astala confederata* (G. and R.), *Lineodes vulnifica* Dyar, eggs of *Zelotes* sp., *Hyposoter fugitivus* (Say).

Cryptus orbis Say, 1836. Boston Jour. Nat. Hist. 1: 231. [female].

Mesostenus diligens Cresson, 1878. Canad. Ent. 10: 207. ♀.

Lymeon annulicornis Ashmead, 1894. U. S. Dept. Agr., Insect Life 7: 243. ♀.

Genus ACERASTES Cushman

Acerastes Cushman, 1929. U. S. Natl. Mus., Proc. 74 (16): 53.

Type-species: *Mesostenus pertinax* Cresson. Monotypic and orig. desig.

Except for the widely distributed type-species which ranges into the Nearctic Region, this moderately large genus is Neotropic.

pertinax (Cresson). Md. s. to Fla., w. to Tex.; Mexico, West Indies, Honduras, Panama, Venezuela, Brazil, Paraguay. Townes and Townes (1962) said that *pertinax* "appears to overwinter in southern Florida and near Brownsville, Tex., and to work northward each season."

Mesostenus pertinax Cresson, 1872. Amer. Ent. Soc., Trans. 4: 163. ♀.

Phytodietus ornatus Provancher, 1888. Addit. Corr. Faune Ent. Canada Hym., p. 431. ♀.

Taxonomy: Townes and Townes, 1966. Amer. Ent. Inst., Mem. 8: 98 (syn.).

Biology: Townes and Townes, 1962. U. S. Natl. Mus. Bul. 216 (pt. 3): 405.

Genus POLCYRTIDEA Viereck

Polygyrtidea Viereck, 1913. U. S. Natl. Mus., Proc. 46: 382.

Type-species: *Polygyrtidea gracilis* Viereck. Monotypic and orig. desig.

Except for one species that ranges into the southern tip of Texas and one that occurs in Fla., this small genus is restricted to America south of the U. S.

Taxonomy: Townes, 1970 (1969). Amer. Ent. Inst., Mem. 12: 288.

floridana Porter. Northern Fla. Known only from the holotype.

Polygyrtidea floridana Porter, 1975. Fla. Ent. 58: 250. ♀.

limitis Cushman. Southern Tex.; Mexico, Costa Rica. In their tribal revision, Townes and Townes (1962) said that *limitis* may prove to be only subspecifically distinct from *P. flavopicta* (Ashmead) which is known from Grenada and South America.

Polygyrtidea limitis Cushman, 1929. U. S. Natl. Mus., Proc. 74: (16): 52. ♀.

Taxonomy: Porter, 1975. Fla. Ent. 58: 248-250.

Genus PACHYSOMOIDES Strand

Pachysoma Szepligeti, 1916. Mus. Natl. Hungarici, Ann. 14: 290. Preocc. by Macleay, 1821 and five additional authors.

Type-species: *Pachysoma albopictum* Szepligeti. Monotypic.

Pachysomoides Strand, 1917. Internat. Ent. Ztschr. 10: 137. N. name for *Pachysoma* Szepligeti.

Polistiphaga Cushman, 1925. Wash. Acad. Sci., Jour. 15: 391.

Type-species: *Mesostenus arvalis* Cresson. Monotypic and orig. desig.

The species of this small New World genus are parasites of *Polistes* larvae.

Revision: Cushman, 1929. U. S. Natl. Mus., Proc. 74 (16): 55-57.

fulvus (Cresson). N. Y. s. to Fla., w. to s. B. C. and Calif.; Cuba, Mexico. Host: *Polistes annularis* (L.), *P. apachus* Sauss., *P. carolina* (L.), *P. cubensis* Lep., *P. fuscatus fuscatus* (F.).

Mesostenus! *fulvus* Cresson, 1864. Ent. Soc. Phila., Proc. 3: 316. ♂.

Mesostenus arvalis Cresson, 1872. Amer. Ent. Soc., Trans. 4: 163. ♀.

[*Mesostenus*] *Mesostenus collaris* Cresson, 1873. Acad. Nat. Sci. Phila., Proc. 25: 162. ♂.

Taxonomy: Townes and Townes, 1966. Amer. Ent. Inst., Mem. 8: 96 (syn.).

Biology: Dow, 1932. Psyche 39: 16. —Gaul, 1940. Canad. Ent. 70: 240-242. —Rau, 1941. Ent. Soc. Amer., Ann. 34: 364.

stupidus (Cresson). N. C. s. to Fla., w. to s. Ill. and Tex.; West Indies and Mexico s. to South America; Hawaii. Host: *Polistes annularis* (L.), *P. canadensis* (L.), *P. exclamans* Vier., *P. fuscatus fuscatus* (F.).

[*Mesostenus*] *Mesostenus stupidus* Cresson, 1873. Acad. Nat. Sci. Phila., Proc. 25: 162. ♂.

Pachysoma albopictum Szeppligeti, 1916. Mus. Nat. Hungarici, Ann. 14: 290. ♀.

Polistiphaga zonata Cushman, 1929. U. S. Natl. Mus., Proc. 74 (16): 56. ♀.

SUBTRIBE CERATOCRYPTINA

Of the 18 genera, 16 are confined to the Old World tropics.

Chamula Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 430.

Type-species: [*Mesostenus*] *Polycrytus reliquus* Cresson. Monotypic and orig. desig.

This genus includes the type-species and an undescribed species from Venezuela.

reliquia (Cresson). Southwestern La.; Mexico. The female is unknown.

[*Mesostenus*] *Polycrytus reliquus* Cresson, 1873. Acad. Nat. Sci. Phila., Proc. 25: 146. ♂.

SUBTRIBE OSPRYNCHOTINA

Most of the nine genera are tropical, and the hosts are larvae of wasps which make nests entirely or partly of mud.

Genus MESSATOPORUS Cushman

Messatoporus Cushman, 1929. U. S. Natl. Mus., Proc. 74 (16): 8.

Type-species: *Mesostenus discoidalis* Cresson. Orig. desig.

This is a rather large genus of the New World; most of the species are Neotropic.

Revision: Cushman, 1929. U. S. Natl. Mus., Proc. 74 (16): 8-13.

compressicornis Cushman. Conn. s. to Fla., w. to Ohio and Ala. Host: *Ancistrocerus tuberculoccephalus sutterianus* (Sauss.), *Trypargilum collinum rubrocinctum* (Pack.). In their tribal revision, Townes and Townes (1962) said that *compressicornis* may prove to be a subspecies of *M. arcuatus* (Cresson) which is known from Mexico.

Messatoporus compressicornis Cushman, 1929. U. S. Natl. Mus., Proc. 74 (16): 12. ♂, ♀.

Messatoporus major Cushman, 1929. U. S. Natl. Mus., Proc. 74 (16): 13. ♀.

discoidalis (Cresson). Que. s. to S. C., w. to Minn. and Tex. Host: *Auplopus mellipes mellipes* (Say), *Phanagenia bombycina* (Cr.).

Mesostenus ferrum-equinum Walsh and Riley, 1869. Amer. Ent. 1: 133. Sex not indicated.
Preocc. by Brulle, 1846.

Mesostenus discoidalis Cresson, 1872. Amer. Ent. Soc., Trans. 4: 162. ♀.

Mesostenus jocosus Provancher, 1874. Nat. Canad. 6: 300. ♀.

rufiventris Cushman. Que. w. to s. B. C., s. to Fla., s. Tex., Ariz., and n. Calif. Host: *Auplopus* sp., *Phanagenia bombycina* (Cr.)?, *Trypoxylon* sp.

Messatoporus rufiventris Cushman, 1929. U. S. Natl. Mus., Proc. 74 (16): 11. ♀.

Genus ACRORICNUS Ratzeburg

Acroricnus Ratzeburg, 1852. Ichn. d. Forstinsecten, v. 3, p. 92.

Type-species: *Acroricnus schaumii* Ratzeburg. Monotypic.

Xenodocon Foerster, 1855. Naturh. Ver. Rheinlande, Verh. 12: 237.

Type-species: *Xenodocon ruficornis* Foerster. Monotypic. The type-species is regarded as a synonym of *A. seductor* (Scopoli).

Macrobatus Holmgren, 1856 (1854). Svenska Vetensk.-Akad. Handl. 75: 50.

Type-species: *Cryptus macrobatus* Gravenhorst. Monotypic.

Linoceras Taschenberg, 1865. Ztschr. f. die Gesam. Naturw. Halle 25: 105.

Type-species: *Cryptus macrobatus* Gravenhorst. Desig. by Viereck, 1914.

Leptobatides Buysson, 1896. In Andre, Spec. Hym. Eur. Alg., v. 6, p. 678, pl. 3.

Type-species: *Leptobatides abeillei* Buysson. Monotypic.

Agathobanchus Ashmead, 1900. U. S. Natl. Mus. Proc. 23: 97.

Type-species: *Banchus aequatus* Say. Monotypic and orig. desig. The type-species was misidentified by Ashmead, who based his description of *Agathobanchus* upon specimens of *Agathilla bradleyi* (Viereck) (see Cushman and Gahan, 1921).

This small genus is widely distributed in the northern hemisphere. The hosts are larvae of Eumenidae and Sphecidae.

Revision: Mitchell, 1950. Ent. Soc. Amer., Ann. 43: 249-261.

Taxonomy: Cushman and Gahan, 1921. Ent. Soc. Wash., Proc. 23: 158-159.

stylator aequatus (Say). N. S. s. to S. C., w. to Man. and Mo. Host: *Aucistrocerus bireniuvariolatus* (Sauss.), *A. adiabatus* (Sauss.), *Eunenes fraterulus* Say, *Sceliphron caementarium* (Drury).

The gradual south-to-north reduction in the amount of yellow pigmentation led Townes (1944) to divide this subspecies into two. The name *aequatus* was applied to the northern population, presumably to agree with Say's color description. Mitchell (1950) and Townes and Townes (1962) applied the name *aequatus* in the same manner. The inconsistencies in Say's color description of *aequatus* indicate that it would not be accurate enough to show that it applies to a specimen collected north of the type-locality (which was indicated as "Indiana," but which presumably would have been southwestern Indiana). Therefore, those wishing to recognize an arbitrary division of *A. s. aequatus* into two subspecies should apply the name *aequatus* to the southern population.

Banchus aequatus Say, 1836. Boston Jour. Nat. Hist. 1: 247. [male].

Cryptus junceus Cresson, 1864. Ent. Soc. Phila., Proc. 3: 295. ♀. N. syn.

Atractodes Cloutieri Provancher, 1874. Nat. Canad. 6: 150. ♂, ♀.

Taxonomy: Cushman and Gahan, 1921. Ent. Soc. Wash., Proc. 23: 158. —Townes, 1944. Amer. Ent. Soc., Mem. 11: 296-297. —Mitchell, 1950. Ent. Soc. Amer., Ann. 43: 258-259. —Townes and Townes, 1962. U. S. Natl. Mus. Bul. 216 (pt. 3): 474.

Biology: Walsh and Riley, 1869. Amer. Ent. 1: 137.

stylator edwardsii (Cresson). Western Oreg., Calif. Host: *Sceliphron caementarium* (Drury).

Linoceras Edwardsii Cresson, 1879 (1878). Acad. Nat. Sci. Phila., Proc. 30: 365. ♂.

stylator excelsus (Cresson). Western S. Dak., Colo. The range of this form is almost entirely overlapped by the southern end of the range of *s. niger*, which casts doubt upon the validity of the distinction between them.

Cryptus excelsus Cresson, 1864. Ent. Soc. Phila., Proc. 3: 293. ♂, ♀.

Acroricnus stylator axilaris Mitchell, 1950. Ent. Soc. Amer., Ann. 43: 259. ♀. Synonymy based upon data in the tribal revision of Townes and Townes (1962). N. syn.

stylator niger Mitchell. Alta. s. to Colo. w. to B. C., e. Wash., e. Oreg., and Utah.

Acroricnus stylator niger Mitchell, 1950. Ent. Soc. Amer., Ann. 43: 253. ♂, ♀.

stylator stylator (Thunberg). Western N. W. T., n. B. C.; Eurasia.

Ichneumon stylator Thunberg, 1822; 1824. Acad. Imp. des Sci. St. Petersburg, Mem. 8: 265 (key); 9: 320. [male].

Cryptus macrobatus Gravenhorst, 1829. Ichn. Europa, v. 2, p. 440. ♂, ♀.

Acroricnus Schaumii Ratzeburg, 1852. Ichn. d. Forstinsecten, v. 3, p. 92. ♂.

Xenodocon ruficornis Foerster, 1855. Naturh. Ver. Rheinlande, Verh. 12: 237. ♀.

Macrobatus clarator Holmgren, 1856 (1854). Svenska Vetensk.-Akad. Handl. 75: 50.

Unnecessary n. name for *Cryptus macrobatus* Gravenhorst.

stylator townesi Mitchell. N. Mex., Ariz.

Acroicnus stylator townesi Mitchell, 1950. Ent. Soc. Amer., Ann. 43: 256. ♂, ♀.

SUBTRIBE GABUNIINA

The members of this subtribe are all thought to be parasitic upon wood-boring Coleoptera and Lepidoptera. Only two of the 23 genera have Nearctic species.

Genus AGONOCRYPTUS Cushman

Agonoeryptus Cushman, 1929. U. S. Natl. Mus., Proc. 74 (16): 6.

Type-species: *Mesostenus discoidaloides* Viereck. Orig. desig.

This moderately large New World genus is Neotropic except for the one species which occurs in eastern North America.

discoidaloides (Viereck). Southern N. H. s. to Fla., w. to s. Wis., e. Kans., and Tex. Host:

Podoslesia syringae (Harris), *Eupogonius vestitus* (Say), *Psyrassa unicolor* (Rand).

Mesostenus discoidaloides Viereck, 1905. Kans. Acad. Sci., Trans. 19: 319. ♀.

Genus CRYPTOHELCOSTIZUS Cushman

Cryptohelcostizus Cushman, 1919. U. S. Natl. Mus., Proc. 55: 534.

Type-species: *Cryptohelcostizus rufigaster* Cushman. Monotypic and orig. desig.

This is a small Nearctic genus.

Revision: Cushman, 1940. U. S. Natl. Mus., Proc. 88: 357-359.

alamensis (Ashmead). Western Tex., Utah, s. B. C., Oreg., Calif. Host: *Agrilus angelicus* Horn, *Chrysobothris mali* Horn, *Myrmex arizonicus* (Schaeff.).

Cryptus alamedensis Ashmead, 1890 (1889). U. S. Natl. Mus., Proc. 12: 409. ♀.

Cryptohelcostizus rufigaster Cushman, 1919. U. S. Natl. Mus., Proc. 55: 534. ♂, ♀.

caudatus Townes, Calif.

Cryptohelcostizus caudatus Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 511. ♀.

chrysobothridis Cushman, Okla. Host: *Chrysobothris* sp. in *Malus pumila*.

Cryptohelcostizus chrysobothridis Cushman, 1940. U. S. Natl. Mus., Proc. 88: 358. ♀.

dichrous Viereck. N. J., Va., N. C., Ga., Mo., Tex.

Cryptohelcostizus dichrous Viereck, 1921. Psyche 28: 73. ♂, ♀.

fumipennis Townes, Ariz.

Cryptohelcostizus fumipennis Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 507. ♀.

genalis Townes, Calif.

Cryptohelcostizus genalis Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 507. ♀.

leiomerus Townes, Calif.

Cryptohelcostizus leiomerus Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 506. ♀.

maculosus Townes, Calif. Ecology: The holotype emerged from *Prosopis*.

Cryptohelcostizus maculosus Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 512. ♂, ♀.

nigricans Townes, Ariz.

Cryptohelcostizus nigricans Townes, 1962. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 3): 508. ♂, ♀.

ornatus Cushman. Southern Ariz., Calif. Host: *Chrysobothris deserta* Horn. The type locality is Death Valley.

Cryptohelcostizus ornatus Cushman, 1940. U. S. Natl. Mus., Proc. 88: 359. ♀.

SUBTRIBE SPHECOPHAGINA

This subtribe includes the Holarctic genus *Sphecophaga* and two other genera which are restricted to the Old World. The hosts are pupae of Vespinae or Polistinae.

Genus SPHECOPHAGA Westwood

Sphecophaga Westwood, 1840. *Introduct. Mod. Classif. Ins.*, v. 2, Synopsis Genera Brit. Ins., p. 57.

Type-species: *Anomalon vesparum* Curtis. Monotypic and orig. desig.

Chryonomon Desvignes, 1856. *Cat. Brit. Ichn.*, p. 47.

Type-species: *Anomalon vesparum* Curtis. Monotypic.

Cacotropa Foerster, 1868. *Naturh. Ver. Rheinlande*, Verh. 25: 208.

Type-species: *Cacotropa sericea* Thomson. By subsequent monotypy from inclusion by Thomson, 1888. The type-species is regarded as a synonym of *S. vesparum resparum* (Curtis).

There is a single species.

vesparum burra (Cresson). N. H. w. to B. C., s. to S. C., Ariz., and Calif. Host: *Vespa arenaria* (F.), *V. maculata* (L.), *V. maculifrons* (Buyss.). *S. vesparum vesparum* occurs in Europe. Both diapausing and nondiapausing larvae may develop on the same host pupa presumably from eggs deposited by a single *v. burra* female. Only females develop from nondiapausing larvae, and they usually differ somewhat in coloration from females which develop from diapausing larvae. Nondiapausing larvae spin a delicate, white cocoon, while diapausing larvae spin a tough, brown one.

Euceros burrus Cresson, 1869. *Canad. Ent.* 1: 104. ♀.

Sphecophagus[!]? praedator Zabriskie, 1894. *N. Y. Ent. Soc., Jour.* 2: 84. ♂, ♀.

Biology: Couper, 1870. *Canad. Ent.* 2: 52-53. — Zabriskie, 1894. *N. Y. Ent. Soc., Jour.* 2: 81, 86. — Cushman, 1933. *Ent. Soc. Wash., Proc.* 35: 10-11. — Schmieder, 1939. *Ent. News* 50: 92-97, 125-131. — Leech, 1954. *Pan-Pacific Ent.* 30: 80.

UNPLACED TAXA OF CRYPTINI

Cryptus mundus Provancher, 1874. *Nat. Canad.* 6 (6): 177 (key); 6 (7): 203. “♂” = ♂, ♀. Que. Barron (1975) said that the lectotype (no. 245 in second collection of Provancher) keyed to *Cryptus ruralis* Pratt, a species not known from Quebec. Townes' (1944) placement of *mundus* as a synonym of *C. persimilis* Cresson was based upon specimen no. 189 in Provancher's first collection (personal commun., Dr. H. K. Townes, 1975).

Taxonomy: Townes, 1944. *Amer. Ent. Soc., Mem.* 11: 280. — Barron, 1975. *Nat. Canad.* 102: 511-512.

SUBFAMILY ACAENITINAE

Revision: Cushman and Rohwer, 1920. *U. S. Natl. Mus., Proc.* 57: 503-523. — Townes and Townes, 1960. *U. S. Natl. Mus. Bul.* 216 (pt. 2): 544-579.

Taxonomy: Townes, 1971. *Amer. Ent. Inst., Mem.* 17: 159-179 (genera of world).

TRIBE COLEOCENTRINI

This Holarctic and Oriental tribe includes six genera, only two of which have North American species.

Genus COLEOCENTRUS Gravenhorst

Coleocentrus Gravenhorst, 1829. *Ichn. Europaea*, v. 3, p. 437.

Type-species: *Ichneumon excitator* Poda. Desig. by Westwood, 1840.

Macrocoleus Desvignes, 1850. *Ent. Soc. London, Trans. (n. s.)* 1: 13.

Type-species: *Macrus longiventris* Gravenhorst. Desig. by Viereck, 1914. The type-species is regarded as a synonym of *C. excitator* (Poda).

This is a moderately large Holarctic and Oriental genus.

- flavipes** (Provancher). N. S. s. to w. N. C. and e. Tenn., w. to n. and w. Ont. Host: *Leptura* sp.? *Acoenites flavipes* Provancher, 1874. Nat. Canad. 6: 80. ♀.
Acoenites Canadeensis Provancher, 1880. Nat. Canad. 12: 10. ♂.
Coleocentrus minor Cushman, 1920. In Cushman and Rohwer, U. S. Natl. Mus., Proc. 57: 507. ♀.
Coleocentrus niger Cushman, 1920. In Cushman and Rohwer, U. S. Natl. Mus., Proc. 57: 508. ♀.
- harringtoni** Cushman. N. B., Que., N. H., Mass., N. Y., Pa., Ont., n.w. Mich., Minn.
Coleocentrus canadensis Harrington, 1892. Canad. Ent. 25: 29. ♀. Preocc. in *Coleocentrus* by Provancher, 1880.
Coleocentrus harringtoni Cushman, 1920. In Cushman and Rohwer, U. S. Natl. Mus., Proc. 57: 509. N. name for *C. canadensis* Harrington.
- manni** Cushman. Colo., B. C., Wash., Oreg.
Coleocentrus manni Cushman, 1920. In Cushman and Rohwer, U. S. Natl. Mus., Proc. 57: 512. ♂, ♀.
Coleocentrus manni coloradensis Townes, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 556. ♂. N. syn.; described from only two specimens.
- occidentalis** **occidentalis** Cresson. Northwestern Mont., n. Idaho, s. B. C., Wash., Oreg.
Coleocentrus occidentalis Cresson, 1879 (1978). Acad. Nat. Sci. Phila., Proc. 30: 376. ♀.
- occidentalis** **pulchripennis** Cushman. Northeastern Calif.
Coleocentrus pulchripennis Cushman, 1920. In Cushman and Rohwer, U. S. Natl. Mus., Proc. 57: 512. ♀.
- pettiti** Cresson. N. S. s. to w. N. C., w. to Minn. and Colo.
Coleocentrus Pettitti Cresson, 1868. Canad. Ent. 1: 35. ♀.
Coleocentrus Pettitti(!) Provancher, 1880. Nat. Canad. 12: 8.
Xenoschesis alpinensis Davis, 1894. In Slosson, Ent. News 5: 4. Nomen nudum.
Coleocentrus Pettitti Dalla Torre, 1901. Cat. Hym., v. 3, p. 530. Emend.
- quebecensis** Provancher. N. S., N. B., Que., Maine, Ont., Mich., Minn., s.w. Mont.

Coleocentrus rufocoxatus Pratt, 1936. Brooklyn Ent. Soc., Bul. 31: 11. ♀.
- rufus** Provancher. N. S. w. to e. N. Dak., s. to e. N. C., n.w. S. C., n. Ga., and central Iowa.
Coleocentrus rufus Provancher, 1876. Nat. Canad. 8: 316. ♀.
Coleocentrus similis Cushman, 1920. In Cushman and Rohwer, U. S. Natl. Mus., Proc. 57: 514. ♂, ♀.

Genus MESOCLISTUS Foerster

Mesoclistus Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 168.
 Type-species: *Acaeutes rufipes* Gravenhorst. By subsequent monotypy from inclusion by Schmiedeknecht, 1888.

Only the European type-species and one North American species are known.

cushmani Townes. Interior Alaska.

Mesoclistus cushmani Townes, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 560. ♂, ♀.

TRIBE ACAENITINI

This tribe includes eighteen genera; only three of these occur in the New World, and none occur in South America.

Genus AROTES Gravenhorst

Arotes Gravenhorst, 1829. Ichn. Europaea, v. 3, p. 446.
 Type-species: *Arotes albicinctus* Gravenhorst. Monotypic.
Asthenomeris Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 168.
 Type-species: *Asthenomeris nigricoxis* Schmiedeknecht. By subsequent monotypy from inclusion by Schmiedeknecht, 1888.

Sphalerus Kriechbaumer, 1878. Ent. Nachr. 4: 41.

Type-species: *Sphalerus bifasciatus* Kriechbaumer. Monotypic. The type-species is regarded as a synonym of *A. albicinctus* Gravenhorst.

Retanisia Cameron, 1886. Biol. Cent.-Amer., Hym., v. 1, p. 299.

Type-species: *Retanisia facialis* Cameron. Monotypic.

This moderate sized genus is Holarctic and Neotropic (mountains of Mexico and Guatemala). The known hosts include Cerambycidae, Melandryidae, Buprestidae, and Mordellidae.

amoenus Cresson. Que. w. to Minn., s. to w. N. C. and n. Ga. Host: *Melandrya striata* Say.

Acaenitus amoenus Harris, 1835. In Hitchcock, Rpt. Geol. Mineral. Bot. Zool. Mass., ed. 2, p. 586. Nomen nudum.

Arotes amoenus Cresson, 1868. Canad. Ent. 1: 34. ♀.

Tropistes elegans Provancher, 1874. Nat. Canad. 6: 80. ♂.

decorus (Say). Mann. s. to Ga., w. to Wis., e. Kans., and e. Tex. Host: *Tomoxia bidentata* (Say).

Acaenitus decorus Say, 1836. Boston Jour. Nat. Hist. 1: 248. ♀ (♂ misdet.).

maurus Rohwer. Northern Minn., w. Sask., central Alta., s.w. B. C. May be only subspecifically distinct from *A. amoenus* Cresson.

Arotes maurus Rohwer, 1920. In Cushman and Rohwer, U. S. Natl. Mus., Proc. 57: 517. ♀.

melleus (Say). N. Y., N. J., Pa., Md., D. C., w. N. C., s. Mich., s.w. Ind. Host: *Metacmaeops vittatus* (Swed.).

Acaenitus melleus Say, 1836. Boston Jour. Nat. Hist. 1: 249. ♀.

Genus SPILOPTERON Townes

Spilopteron Townes, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 568.

Type-species: *Spilopteron franclemonti* Townes. Orig. desig.

This is a small Holarctic and Oriental genus.

formosum (Cresson). Que. w. to s.w. Man., s. to s.e. Ga. Host: *Bellamira scalaris* (Say).

Arotes formosus Cresson, 1868. Canad. Ent. 1: 34. ♂.

Spilopteron formosum australe Townes, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 573. ♂, ♀. N. syn.

franclemonti Townes. N. B. w. to s. Man., s. to N. Y., s. Ohio, and Minn.

Spilopteron franclemonti Townes, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 569. ♂, ♀.

occiputale (Cresson). Mass. w. to Mich., s. to e. N. C., n.w. S. C., and s. Ind. Host: *Strangalia bicolor* (Swed.).

Arotes occipitalis Cresson, 1869. Amer. Ent. Soc., Trans. 2: 260. ♂.

Arotes apicalis Davis, 1898 (1897). Amer. Ent. Soc., Trans. 24: 366. ♀.

vicinum (Cresson). N. S. w. to s.w. N. W. T., s. to Va., Tex., Colo., and n.w. Oreg. Host:

Anoplodera nigrella (Say), *A. rubrica* (Say)?, *A. vagans* (Oliv.)?, *Metacmaeops vittatus* (Swed.). The two "subspecies" recognized by Townes and Townes (1960) were largely sympatric.

Arotes vicinus Cresson, 1869. Amer. Ent. Soc., Trans. 2: 260. ♂.

Arotes venustus Cresson, 1869. Amer. Ent. Soc., Trans. 2: 260. ♂, ♀.

Arotes superbus Provancher, 1874. Nat. Canad. 6: 81. ♂, ♀.

Spilopteron vicinum melanderi Townes, 1960. In Townes and Townes, U. S. Natl. Mus. Bul. 216 (pt. 2): 575. ♂, ♀. N. syn.

Genus YEZOCERYX Uchida

Yezoceryx Uchida, 1928. Hokkaido Imp. Univ., Faculty Agr., Jour. 25: 36.

Type-species: *Yezoceryx scutellaris* Uchida. Monotypic and orig. desig.

This is a large Holarctic and Oriental genus; the majority of the species are Oriental.

rupinsulensis (Cresson). Central Mich., Ill., s.e. Minn.

Acoenitus rupinsulensis Cresson, 1870. Amer. Ent. Soc., Trans. 3: 143. ♀.

SUBFAMILY LYCORININAE

This is a small subfamily including three closely related genera, only one of which occurs in the New World.

Genus TOXOPHOROIDES Viereck

Toxophoroides Cresson, 1874 (1873). Acad. Nat. Sci. Phila., Proc. 25: 406. Manuscript name cited in synonymy (i.e. nomen nudum). Townes (1970) regarded the name *Toxophoroides* as being validated by Viereck (1911); Townes' opinion is (personal communication, 1975) that because Cresson did not adopt this name (Cresson said that it was an MS name which he had intended to use for the species he described on the following page as *Lycorina? apicalis*) it should be regarded as having been published in synonymy by Cresson. Those who agree with the present Code regarding the publication date and authorship of names which have been accepted as having been validated in synonymy, possibly could regard *Toxophoroides* as having been validated by Cresson.

Toxophoroides Viereck, 1911. U. S. Natl. Mus., Proc. 40: 195.

Type-species: *Lycorina? apicalis* Cresson. Monotypic and orig. desig.

Chlorolyccorina Cushman, 1920. U. S. Natl. Mus., Proc. 58: 9.

Type-species: *Glypta scitula* Cresson. Orig. desig.

This is a small Neotropic and Nearctic genus.

Revision: Cushman, 1920. U. S. Natl. Mus., Proc. 58: 7-13.

Taxonomy: Townes, 1970 (1969). Amer. Ent. Inst., Mem. 13: 3.

albomarginatus *albomarginatus* (Cresson). Maine w. to Man., s. to N. C., Ark., Kans., and Colo. Host: *Psorosina hammondi* (Riley), *Anarsia lineatella* Zell, *Dichomeris bipunctella* (Wlschm.), *Archips rosaceana* (Harris), *Acleris minuta* (Rob.), *Grapholita molesta* (Bsk.).

Glypta albomarginata Cresson, 1870. Amer. Ent. Soc., Trans. 3: 157. ♀.

albomarginatus *soror* (Cushman). N. Mex., Ariz., Calif. Host: *Acrobasis nuxvorella* Neun.

Chlorolyccorina soror Cushman, 1920. U. S. Natl. Mus., Proc. 58: 10. ♀.

glaucomatus Cushman. N. J., Pa., Md., N. C., Ohio, Mich.

Toxophoroides glaucomatus Cushman, 1920. U. S. Natl. Mus., Proc. 58: 12. ♀.

scitulus (Cresson). N. Y., N. J., Md., D. C., Va., N. C., Fla., Ind., Ky., Tenn. Host: *Acrobasis juglandis* (LeB.), *Nephopteryx uvinella* (Rag.), *Tetralopha subcanalis* (Wlk.), *Argalea cristifasciella* (Chamb.), *Gelechia albisparsella* (Chamb.), *Ancylis comptana* (Froel.), "tineid" on apple, leaf feeder on *Rubus allegheniensis*.

Glypta scitula Cresson, 1870. Amer. Ent. Soc., Trans. 3: 155. ♀.

xanthozonatus (Ashmead). Southeastern N. C., s. Fla., Mo. Host: Tortricid on oak,

Antaeotricha humilis (Zell), leaf roller on *Vaccinium australe*.

Glypta xanthozonata Ashmead, 1890 (1889). U. S. Natl. Mus., Proc. 12: 449. ♂.

Taxonomy: Viereck, 1911. U. S. Natl. Mus., Proc. 40: 195 (syn.). —Cushman, 1920. U. S. Natl. Mus., Proc. 58: 11-12. —Walkley, 1967. In Krombein *et al.*, U. S. Dept. Agr., Agr. Monog. 2, sup. 2, p. 85 (syn.).

SUBFAMILY COLLYRIINAE

Genus COLLYRIA Schiodte

Pachymerus Gravenhorst, 1829. Ichn. Europaea, v. 3, p. 721. Preocc. by Thunberg, 1805 and Serville, 1825.

Type-species: *Bassus calcitrator* Gravenhorst. Desig. by Westwood, 1840.

Collyria Schiodte, 1839. Mag. Zool. (Ser. 2, sect. 3) 9 (insectes, pl. 6-10): 10. N. name for *Pachymerus* Gravenhorst.

This is a small Palearctic genus. The hosts are Cephidae. The eggs are inserted into the eggs of the host and the *Collyria* adults emerge from the cocoon of the host.

coxator (Villers). N. Y., N. J., Pa., Del., Md., n. Va., Ont., Ohio; Eurasia; n. Africa. Introduced.

Host: *Cephus pygmaeus* (L.), *Janus integer* (Nort.). Despite repeated attempts to establish *coxator* in western Canada in the 1930's on the native *Cephus cinctus* Nort., it apparently no longer occurs there. Townes, Momoi, and Townes (1965) were apparently the first authors to suppress *Collyria calcitrator* (Gravenhorst) as a synonym of *coxator*, but Gravenhorst had placed *calcitrator* as a definite synonym of *coxator* in 1829 and uncharacteristically neglected to use the senior name.

Ichneumon coxator Villers, 1789. Caroli Linnaei Ent., v. 3, p. 193. Sex not indicated.

Bassus calcitrator Gravenhorst, 1807. Vergl. Uebers. Zool. Systeme, p. 266. ♀.

Pachymerus puncticeps Thomson, 1877. Opusc. Ent. 8: 734. ♀.

Collyria calcitratrix Schulz, 1906. Spolia Hym., p. 122. Emend.

Taxonomy: Gravenhorst, 1829. Ichn. Europaea, v. 3, p. 727-729. — Kerrich, 1936. Soc. Brit. Ent., Trans. 3: 63. — Kerrich, 1936. Soc. Brit. Ent., Jour. 1: 124. — Townes, Momoi, and Townes, 1965. Amer. Ent. Inst., Mem. 5: 397-398.

Biology: Salt, 1931; 1932. Bul. Ent. Res. 22: 506; 23: 211-216. — Salt, 1934. Roy. Soc. London, Proc. (Ser. B) 114: 457-460. — Salt and Laing, 1935. Nature [London] 135: 792. — Walker, 1937. Parasitology 29: 477-503. — Walker, 1940. Bul. Ent. Res. 3: 551-573. — Smith, 1948. Ent. Soc. Ont., Ann. Rpt. 78: 39-44. — Smith, 1959. Canad. Ent. 91: 697-700.

SUBFAMILY ORTHOPELMATINAE

Genus ORTHOPELMA Taschenberg

Orthopelma Taschenberg, 1865. Ztschr. f. die Gesam. Naturw. [Halle] 25: 137.

Type-species: *Hemiteles luteolator* Gravenhorst. Desig. by Viereck, 1914.

Proedrus Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 147.

Type-species: *Hemiteles luteolator* Gravenhorst. By subsequent monotypy from inclusion by Thomson, 1889.

This is the only genus in the subfamily; it is medium sized and Holarctic. The species are internal larval parasites of Cynipidae which make galls on *Rosa*, *Rubus*, and *Ribes*. Dr. John Barron has completed a revision of *Orthopelma* which will probably be published prior to the appearance of this catalog.

californicum Ashmead. Northern Calif. Host: Cynipid gallmaker on wild currant. According to Ashmead, the syntypes were "reared in May, 1887, from a Rose gall," but the Koebele notes in the U. S. Natl. Museum say that they were reared from a cynipid which makes galls on wild currant and that the parasites of the cynipids emerged in May, 1888, from galls collected near Alameda, Calif. in March, 1888.

Orthopelma californicum Ashmead, 1890 (1889). U. S. Natl. Mus., Proc. 12: 417. ♂, ♀.

coloradense Ashmead. Colo. Host: *Diplolepis tuberculator* (Ckll.).

Orthopelma coloradense Ashmead, 1890 (1889). U. S. Natl. Mus., Proc. 12: 418. ♀.

Orthopelma americanum Riley, 1890. In Riley and Howard, U. S. Dept. Agr., Insect Life 3: 154. Nomen nudum (also on same page as "americanum").

diastrophi Ashmead. Conn., Ind.? Host: *Diastrophus radicum* Bass., *Diplolepis radicum* (O. S.). Apparently parasitizes cynipids which make galls on the roots of both *Rosa* and *Rubus*.

Orthopelma diastrophi Ashmead, 1890 (1889). U. S. Natl. Mus., Proc. 12: 418. ♂, ♀. The syntypes from the Riley collection are not likely to be from Mo. as Ashmead thought because the specimens do not appear to have been mounted by Riley and because the numbers they bear do not appear to be Riley numbers. Small circular labels bearing a "W" might indicate that these specimens came from F. M. Webster, who was then in Indiana. I recently learned that Webster's notes are in the U. S. Natl. Archives.

luteolator (Gravenhorst). Que., Mass., R. I., N. Y., Pa., Ont., Ind., Ariz.; Europe. Host: *Diastrophus turgidus* Bass., *Diplolepis ignota* (O. S.), *D. rosae* (L.), *D. rosaefolii* (Ckll.).

Ichneumon mediator Thunberg, 1822: 1824. Acad. Imp. des Sci. St. Petersburg, Mem. 8: 269; 9: 332. ♀. Unavailable by virtue of preoccupation in *Ichneumon* by *Pimpla mediator* Fabricius, which was unnecessarily renamed *Ichneumon modulator* by

Thunberg on key p. 271 (v. 8, 1822) and text p. 340 (v. 9, 1824). Although Thunberg never indicated that any of his names were replacement names until he cited the names being replaced in his 1824 text, it is imperative that we accept the fact that the renamed species (such as *P. mediator* Fabricius) were included in *Ichneumon* by Thunberg in his 1822 key. Otherwise, the numerous replacement names proposed in the key must instead be treated as proposals of new species. The only practical course is to continue to treat Thunberg's (1822; 1824) replacement names as such, particularly in view of the fact that most of them have been unavailable because they were unnecessarily proposed. Without having heard the foregoing argument, Dr. H. K. Townes informed me (personal commun., 1975) that he would consider *I. mediator* Thunberg to be available were it not for the fact that the combination *I. mediator* (Fabricius) had been published by Jurine in 1807. I am not certain that the latter would have any bearing on the question.

Hemiteles luteolator Gravenhorst, 1829. *Ichn. Europaea*, v. 2, p. 826. ♂, ♀.

Orthopelma minutum Ashmead, 1890 (1889). U. S. Natl. Mus., Proc. 12: 416. ♀. The type locality is Jamaica Plain, Mass. (not "Jamaica Plains, New York," as stated by Ashmead). *Orthopelma rosaceola* Ashmead, 1890 (1889). U. S. Natl. Mus., Proc. 12: 417. ♂, ♀. Notes in the U. S. Natl. Museum indicate that the syntypes were reared from a cynipid gall on rose sent to Washington, D. C. by H. K. Morrison, Ft. Grant, Ariz.

Orthopelma thompsoni Brues, 1907. *Wis. Nat. Hist. Soc., Bul.* 5: 157. ♂, ♀.

Taxonomy: Roman, 1912. *Zool. Bidr. Uppsala* 1: 267, 292.

occidentale Ashmead. Southwestern Wyo. Host: *Diptolepis similis* (Ash.).

Orthopelma occidentale Ashmead, 1890 (1889). U. S. Natl. Mus., Proc. 12: 417. ♂.

ovale (Provancher). Que., Alta.

Hemiteles ovalis Provancher, 1874. *Nat. Canad.* 6: 332. ♂, ♀.

SUBFAMILY ICHNEUMONINAE

The Ichneumoninae is the second largest of ichneumonid subfamilies (only the Cryptinae being larger). The species are all internal parasites of Lepidoptera. The females of some species oviposit into larvae and some into fresh pupae, but the progeny always emerge from the pupa. The sexual dimorphism in structure and color is often marked, but the differences between species often are subtle, which not infrequently causes difficulty in identification and association of the sexes.

Historically, the Ichneumoninae have been divided into categories having names that were not derived from those of included genera. The names cyclopneusticæ and particularly stenopneusticæ are two which persist to some extent in current literature. The cyclopneusticæ is composed of the Alomyini and Phaeogenini, while the stenopneusticæ includes the remainder of the tribes of Ichneumoninae. The species of cyclopneusticæ are parasites of microlepidoptera, while those of stenopneusticæ generally parasitize macrolepidoptera. Accordingly, the species of cyclopneusticæ are generally smaller than those of stenopneusticæ.

Heinrich (1961-1962) published a revision of the stenopneusticæ which applies mostly to northeastern North America. Many of the subspecies recognized or described in that work or its supplements (Heinrich, 1969-1976) are not recognized here, often because they merely represent ends and intermediate portions of clines. In some cases synonymy of these subspecific names is based upon specimens in the U. S. National Museum collection. In a few cases, subspecies are placed in synonymy because they are based upon too few specimens to demonstrate that they deserve recognition (particularly when there is no zoogeographical reason for expecting sub-speciation).

Revision: Heinrich, 1961-1962 (Phaeogenini excluded). *Canad. Ent. Sup.* 15: 1-87 (1961 [1960]); 18: 89-205 (1961 [1960]); 21: 207-368 (1961); 23: 369-505 (1961); 26: 507-671 (1962); 27: 675-802 (1962); 29: 803-886 (1962). —Peck, 1964. *Ent. Soc. Canada, Mem.* 35: 887-925 (addenda, corrigenda, host-parasite list, and indices for Heinrich, 1961-1962). —Heinrich, 1969-1976. *Nat. Canad.* 96: 935-963 (1969); 98: 959-1026 (1971); 99: 173-211 (1972); 100: 461-465 (1973); 102: 753-782 (1976) (supplements to Heinrich, 1961-1962).

Taxonomy: Dasch, 1971. *Ohio Jour. Sci.* 71: 279-283 (key to stenopneusticæ found overwintering as adult females, particularly in Ohio).

Biology: Dasch, 1971. Ohio Jour. Sci. 71: 270-279 (overwintering sites preferred by stenopneusticæ found overwintering as adult females, particularly in Ohio).

TRIBE PHAEOGENINI

The members of this tribe are parasites of microlepidoptera. Townes and Townes (1973) persisted in suppressing the name Phaeogenini as a synonym of Alomyini. Because this seems inconsistent with their recognition of a tribe Heterischnini, the Phaeogenini are here regarded as tribally distinct from the Alomyini.

Taxonomy: Perkins, 1959. Handb. Ident. Brit. Ins., v. 7, pt. 2 (ai), p. 68-111. —Townes and Townes, 1973. Amer. Ent. Inst., Mem. 19: 219-221 (Ethiopian cat.).

SUBTRIBE HETERISCHNINA

Genus HETERISCHNUS Wesmael

Heterischnus Wesmael, 1859. [Brussels] Acad. Roy. de Belg., Mem. 8: 83.

Type-species: *Ichneumon pulex* Mueller. Monotypic.

Rhexidermus Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 192.

Type-species: *Rhexidermus japonicus* Ashmead. By subsequent monotypy from inclusion by Ashmead, 1906.

Posocentrus Provancher, 1875. Nat. Canad. 7: 272.

Type-species: *Posocentrus huardi* Provancher. Monotypic.

Ischnopsisidea Viereck, 1914. U. S. Natl. Mus. Bul. 83: 77.

Type-species: *Ichneumon thoracicus* Gravenhorst. Monotypic and orig. desig.

Aethiopischnus Heinrich, 1936. Paris, Mus. d'Hist. Nat., Mem. (n. s.) 4: 244. Name invalid as of 1936 because neither of the two species names validated was designated as type-species.

Aethiopischnus Heinrich, 1938. Acad. Malgache, Mem. 25: 127.

Type-species: *Aethiopischnus olsoufieffi* Heinrich. Monotypic and orig. desig.

Species of this genus are known from the Holarctic and Ethiopian Regions.

coloradensis (Cushman), n. comb. Colo. According to notes pertaining to the C. F. Baker collection, the holotype was collected by C. F. Baker on July 21, 1896 at an elevation of 10,000 ft. in Rabbit Ear's Pass, Colo.

Ischuopsidea coloradensis Cushman, 1920. U. S. Natl. Mus., Proc. 58: 253. ♀.

huardi (Provancher). Que. s. to N. Y., w. to Alaska and Oreg.

Posocentrus Huardi Provancher, 1875. Nat. Canad. 7: 273. ♀.

Posocentrus Huarti(?) Provancher, 1879. Nat. Canad. 11: 251.

Phaeogenes recticaudus Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 42. ♀.
Ischuopsidea alberta Cushman, 1927. U. S. Natl. Mus., Proc. 72 (13): 1. ♀.

SUBTRIBE PHAEOGENINA

Taxonomy: Townes, Momoi, and Townes, 1965. Amer. Ent. Inst., Mem. 5: 415-423, 592-593 (cat. of E. Palearctic spp. and key to genera).

Genus STENODONTUS Berthoumieu

Gnathoxys Wesmael, 1845 (1844). [Brussels] Acad. Roy. de Belg., Nouveaux Mem. 18: 168. Preocc. by Westwood, 1842.

Type-species: *Ichneumon marginellus* Gravenhorst. Monotypic. The type-species was identified with a query by Berthomieu.

Stenodontus Berthoumieu, 1896. Soc. Ent. de France, Ann. 65: 346. N. name for *Gnathoxys* Wesmael.

This is a small Holarctic genus with two undescribed species occurring in North America. The known ranges of these species are: (1) Newfoundland (insular) s. to N. C., w. to Mich. and (2) Idaho and Wash.

Genus DICAELOTUS Wesmael

Dicaelotus Wesmael, 1845 (1844). [Brussels] Acad. Roy. de Belg., Nouveaux Mem. 18: 175.

Type-species: *Ichnaeumon pumilis* Gravenhorst, Desig. by Ashmead, 1900.

Leptodemas Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 182.

Type-species: *Leptodemas cariniscutis* Cameron. By subsequent monotypy from inclusion by Cameron, 1906.

Deloglyptus Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 193.

Type-species: *Deloglyptus punctiventris* Thomson. By subsequent monotypy from inclusion by Thomson, 1891.

Cinxaelotus Holmgren, 1890 (1889). Ichn. Suecica, v. 3, p. 367.

Type-species: *Cinxaelotus erythrogaster* Holmgren. Monotypic.

Euryptilus Holmgren, 1890 (1889). Ichn. Suecica, v. 3, p. 375.

Type-species: *Euryptilus kriechbaumeri* Holmgren. Monotypic.

This is apparently a moderate sized genus of the Holarctic and Ethiopian Regions. Perkins (1959) placed *Deloglyptus* as a synonym of *Dicaelotus* because he thought the differences between them were rather weak. He said that if a division is made between them, other groups of species should also be split off as genera distinct from *Dicaelotus*. I assume, therefore, that Perkins's (1969) treatment of *Deloglyptus* as distinct from *Dicaelotus* was for the purpose of making the first revisor decision to suppress *Leptodemas* as a synonym of *Deloglyptus*. Consequently, I have not followed Townes and Townes (1973), who treated *Deloglyptus* as a distinct genus.

Taxonomy: Perkins, 1959. Handb. Ident. Brit. Ins., v. 7, pt. 2 (ai), p. 83. —Perkins, 1962. Brit. Mus. (Nat. Hist.) Ent., Bul. 11: 416, 435. —Townes and Townes, 1973. Amer. Ent. Inst., Mem. 19: 220.

attenuatus (Provancher). Que., Conn., w. B. C. Because the range, "Atlantic to Cont. Divide in Transit. and U. Austr. Zones," given by Townes and Townes (1951) conflicts with the type-localities of two of their synonyms, one is inclined to doubt the correctness of their synonymy and to wonder about the sort of data they generally used to make their sweeping generalizations about the ranges of species.

Phygadeuon attenuatus Provancher, 1882. Nat. Canad. 13 (no. 155): 334 (key); 13 (no. 156): 359. ♀. Barron (1975) said that the lectotype selected by Rohwer and Gahan (1918) is now represented only by the pin and labels.

Phaeogenes sectus Provancher, 1888. Addit. Corr. Faune Ent. Canada Hym., p. 358. ♂.
Herpestomus flavicoxae Harrington, 1894. Canad. Ent. 26: 210. ♂.

Phygadeuon (Plesignathus) taeniatus Viereck, 1917 (1916). Conn. State Geol. and Nat. Hist. Survey Bul. 22: 335, 336. ♂.

Taxonomy: Gahan and Rohwer, 1918. Canad. Ent. 50: 135. —Townes and Townes, 1951. In Muesebeck et al., U. S. Dept. Agr., Agr. Monog. 2: 279. —Barron, 1975. Nat. Canad. 102: 430, 563.

clypeatus (Cresson). Maine s. to N. C., w. to Ill.

Stilpnus clypeatus Cresson, 1868. Amer. Ent. Soc., Trans. 2: 95. ♂.

gelechiae (Ashmead). N. H., N. Y., Ont., Ohio. Host: *Guromoschema gallaesolidaginis* (Riley).

Phaeogenes gelechiae Ashmead, 1890 (1889). U. S. Natl. Mus., Proc. 12: 392. ♂, ♀.

missouriensis (Ashmead). D. C., Mo. Ecology: The holotype of the synonym *Phaeogenes hemitelooides* was reared together with the type series of *Emphytina pallidiscapa* Rohwer (1911) (a synonym of *Ametastegia recens* [Say]) from beneath the bark at the base of a black birch (*Betula nigra*).

Phaeogenes missouriensis Ashmead, 1890 (1889). U. S. Natl. Mus., Proc. 12: 393. ♀.

Phaeogenes hemitelooides Ashmead, 1890 (1889). U. S. Natl. Mus., Proc. 12: 393. ♀.

Taxonomy: Rohwer, 1911. U. S. Natl. Mus., Proc. 41: 401 (discussion of Bureau of Entomology notes).

pacificus (Ashmead). Md., W. Va., Alta., Calif.

Ischyrocnemis pacificus Ashmead, 1896. Amer. Ent. Soc., Trans. 23: 199. ♀ (male misdet.).

ruficornis (Ashmead). Mo.? The holotype bears a label with what is apparently the illegible name of a collector and another label reading "Collection C. V. Riley," as often as not, Ashmead was incorrect concerning localities for specimens in the Riley collection.
Phaeogenes ruficornis Ashmead, 1890 (1889). U. S. Natl. Mus., Proc. 12: 394. ♀.

Genus ORONOTUS Wesmael

Oronotus Wesmael, 1845 (1844). [Brussels] Acad. Roy. de Belg., Nouveaux Mem. 18: 213.

Type-species: *Oronotus coarctus* Wesmael. Monotypic. The type-species is regarded as a synonym of *O. binotatus* (Gravenhorst).

Fedalma Cameron, 1903. Ann. and Mag. Nat. Hist. (7) 13: 318.

Type-species: *Fedalma tricolor* Cameron. Monotypic.

Pramha Cameron, 1903. Ent. Soc. London, Trans. 51: 231.

Type-species: *Pramha mandibularis* Cameron. Monotypic.

Takanona Uchida, 1926. Hokkaido Imp. Univ., Faculty Agr., Jour. 18: 163.

Type-species: *Takanona ishiyamana* Uchida. Monotypic and orig. desig.

Taxonomy: Townes, Momoi, and Townes, 1965. Amer. Ent. Inst., Mem. 5: 420 (syn.).

vincibilis (Cresson), n. comb. N. H. s. to D. C., w. to Iowa and Ark.

Ichneumon vincibilis Cresson, 1867. Amer. Ent. Soc., Trans. 1: 312. ♀.

Phaeogenes decoloratus Cresson, 1877. Amer. Ent. Soc., Trans. 6: 203. ♀.

Phaeogenes discus Cresson, 1877. Amer. Ent. Soc., Trans. 6: 203. ♂.

Taxonomy: Townes, 1957. Ent. Soc. Wash., Proc. 59: 119 (generic transfer).

Genus DIADROMUS Wesmael

Diadromus Wesmael, 1845 (1844). [Brussels] Acad. Roy. de Belg., Nouveaux Mem. 18: 207.

Type-species: *Ichneumon troglodytes* Gravenhorst. Desig. by Ashmead, 1900.

Thyreella Holmgren, 1890 (1889). Ichn. Suecica, v. 3, p. 402.

Type-species: *Ischnus collaris* Gravenhorst. Monotypic.

erythrostomus (Cameron). Calif.

Stiboscopus erythrostomus Cameron, 1908. Amer. Ent. Soc., Trans. 34: 244. ♀.

Taxonomy: Townes, 1961. Ent. Soc. Wash., Proc. 63: 113.

helvolus (Cresson). Eastern Que. s. to Va., w. to Sask., Colo., and Tex. Host: *Sparganothis sulfureana* (Clem.), *Eudothenia hebesana* (Wlk.).

Ichneumon helvolus Cresson, 1867. Amer. Ent. Soc., Trans. 1: 312. ♀.

Ichneumon Magdalensis Provancher, 1890. Nat. Canad. 19: 248. ♂.

Taxonomy: Cresson, 1877. Amer. Ent. Soc., Trans. 6: 205.

marginatus (Provancher). N. Y., N. J., Md., Ont., Alta.

Phygadeuon marginatus Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 56. ♂.

subtilicornis (Gravenhorst). Ont., Ohio, Ind., N. Dak., Kans., Utah, Wash., Oreg.; Eurasia. Host: *Plutella xylostella* (L.). Cushman (1935) suppressed *Herpestomus plutellae* Ashmead as a synonym of *subtilicornis*, and, after comparing North American and European specimens, I have concluded that Townes (1944) was incorrect in resurrecting *plutellae* from synonymy. *Phaeogenes japonicus* Ashmead was erroneously suppressed as a synonym of *subtilicornis* by Townes, Momoi, and Townes (1965).

Ichneumon subtilicornis Gravenhorst, 1829. Ichn. Europaea, v. 1, p. 592. ♀.

Diadromus imbellis Wesmael, 1845 (1844). [Brussels] Acad. Roy. de Belg., Nouveaux Mem. 18: 209. ♀.

Herpestomus plutellae Ashmead, 1890 (1889). U. S. Natl. Mus., Proc. 12: 396. ♂.

Taxonomy: Cushman, 1935. Wash. Acad. Sci., Jour. 25: 548. —Townes, 1944. Amer. Ent. Soc., Mem. 11: 305. —Townes, Momoi, and Townes, 1965. Amer. Ent. Inst., Mem. 5: 420.

Biology: Lloyd, 1942. Rev. Canad. de Biol. 1: 633-645. —Harcourt, 1963. In LeRoux *et al.*, Ent. Soc. Canada, Mem. 32: 61.

Genus TEREBRAELLA Heinrich

Terebraella Heinrich, 1972. Nat. Canad. 99: 211.

Type-species: *Terebraella culiclops* Heinrich. Monotypic and orig. desig.
culiclops Heinrich. Fla.

Terebraella culiclops Heinrich, 1972. Nat. Canad. 99: 211. ♂, ♀.

Genus COLPOGNATHUS Wesmael

Colpognathus Wesmael, 1845 (1844). [Brussels] Acad. Roy. de Belg., Nouveaux Mem. 18: 174.

Type-species: *Ichneumon celerator* Gravenhorst. Monotypic.

helvus (Cresson). Que. s. to Ga., w. to Calif. Host: *Platyptilia carduidactyla* (Riley).

Ichneumon fungor Cresson, 1867. Amer. Ent. Soc., Trans. 1: 306. ♂.

Ichneumon helvus Cresson, 1867. Amer. Ent. Soc., Trans. 1: 312. ♀.

Cryptus certus Provancher, 1874. Nat. Canad. 6 (6): 177 (key); 6 (7): 200. ♂.

Phygadeuon hilaris Provancher, 1874. Nat. Canad. 6: 284. "♂" = ♀.

Cryptus ruficornis Provancher, 1879. Nat. Canad. 11 (no. 125): 139. ♂. Preocc. by Gravenhorst, 1829.

Taxonomy: Cresson, 1877. Amer. Ent. Soc., Trans. 6: 204, 206.

Genus CENTETERUS Wesmael

Centeterus Wesmael, 1845 (1844). [Brussels] Acad. Roy. de Belg., Nouveaux Mem. 18: 176.
Type-species: *Centeterus major* Wesmael. Desig. by Ashmead, 1900.

euryptychia (Ashmead). N. Y., Mich. Host: *Epiblema scudderianum* (Clem.). Ashmead erroneously stated that the two syntypes were from Washington, D. C. Notes made by T. Pergande show that he reared these specimens from galls (on *Solidago*) sent by D. S. Kellicott of Buffalo, N. Y.

Colpognathus euryptychia Ashmead, 1890 (1889). U. S. Natl. Mus., Proc. 12: 395. ♀.

linearis (Provancher). Que., N. J., N. Mex. Host: *Epiblema scudderianum* (Clem.).

Cryptus linearis Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 72. ♂.

Phaeogenes beulaensis Viereck, 1903. In Skinner, Amer. Ent. Soc., Trans. 29: 80 ♂.

quadriceps (Cresson). Que. s. to Va., w. to Mich.

Ichneumon quadriceps Cresson, 1867. Amer. Ent. Soc., Trans. 1: 312. ♂, ♀.

Taxonomy: Cresson, 1877. Amer. Ent. Soc., Trans. 6: 204.

tuberculifrons (Provancher). Que., Maine, N. Y., S. C., Ont.

Phygadeuon tuberculifrons Provancher, 1874. Nat. Canad. 6: 284. ♀.

Phygadeuon fasciatus Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 55. ♀.

Genus AETHECERUS Wesmael

Aethecerus Wesmael, 1845 (1844). [Brussels] Acad. Roy. de Belg., Nouveaux Mem. 18: 213.

Type-species: *Aethecerus dispar* Wesmael. Desig. by Ashmead, 1900.

parvus (Provancher). Que., Maine, R. I., N. Y.

Ischnus parvus Provancher, 1875. Nat. Canad. 7: 112. ♂. Barron (1975) rejected the "lectotype" selected by Gahan and Rohwer (1917) because it is a specimen which Provancher used only for his 1879 redescription; Barron gave label data for the specimen he regarded as the holotype.

Phaeogenes Farladeani Provancher, 1882. Nat. Canad. 13: 331. ♀.

Phaeogenes Falardeani(?) Townes, 1944. Amer. Ent. Soc., Mem. 11: 302.

Taxonomy: Provancher, 1879. Nat. Canad. 11: 121. —Gahan and Rohwer, 1917. Canad. Ent. 49: 428. —Mason, 1960. Canad. Ent. 92: 145. —Barron, 1975. Nat. Canad. 102: 469, 527-528.

pinifolii Mason. Alta., Calif. Host: *Coleotechnites milleri* (Bsk.), *C. starki* (Free.).

Aethecerus pinifolii Mason, 1960. Canad. Ent. 92: 145. ♂, ♀.

Genus JETHSURA Cameron

Jethsura Cameron, 1902. Amer. Ent. Soc., Trans. 28: 373.

Type-species: *Jethsura ferruginea* Cameron. Monotypic.

pyriformis (Provancher). Que., N. H., Mass., R. I., N. Y., N. Mex.

Ischnus pyriformis Provancher, 1875. Nat. Canad. 7: 109. ♀.

Jethsura ferruginea Cameron, 1902. Amer. Ent. Soc., Trans. 28: 374. ♀.

Taxonomy: Provancher, 1879. Nat. Canad. 11: 40. — Townes, 1961. Ent. Soc. Wash., Proc. 63: 109.

Genus PHAEOGENES Wesmael

Phaeogenes Wesmael, 1845 (1844). [Brussels] Acad. Roy. de Belg., Nouveaux Mem. 18: 180.

Type-species: *Phaeogenes primarius* Wesmael. Desig. by Ashmead, 1900. The type-species is regarded as a synonym of *P. semivulpinus* (Gravenhorst).

Dirophanes Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 183.

Type-species: *Phygadeuon (Dirophanes) plesius* Viereck. By subsequent monotypy from inclusion by Viereck, 1912.

Tycherus Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 192.

Type-species: *Phaeogenes elongatus* Thomson. Monotypically included and desig. by Perkins, 1962.

Proscus Holmgren, 1890 (1889). Ichn. Suecica, v. 3, p. 420.

Type-species: *Phaeogenes cephalotes* Wesmael. Desig. by Ashmead, 1900.

Townes, Momoi, and Townes (1965) distinguished *Dirophanes* from *Phaeogenes*, but the characters they ascribed to *Dirophanes* in their key do not fit the type-species very well. Their key also distinguishes *Phaeogenes* in the strict sense from "species placed in *Phaeogenes* with a query," but because the latter category includes most of the species presently in *Phaeogenes* it does not seem practical to adopt that classification here.

Taxonomy: Perkins, 1959. Handb. Ident. Brit. Ins., v. 7, pt. 2 (ai), p. 99-111. — Perkins, 1962. Brit. Mus. (Nat. Hist.) Ent., Bul. 11: 461. — Townes, Momoi, and Townes, 1965. Amer. Ent. Inst., Mem. 5: 593.

acaodus (Provancher). Que.

Phygadeuon acaodus Provancher, 1882. Nat. Canad. 13 (no. 155): 334 (key); 13 (no. 156): 358. ♀.

arcticus Cushman. N. C.? Alta., Alaska, B. C., Wash., Calif.? Host: *Acleris gloverana* (Wlshm.), *A. variana* (Fern.).

Phaeogenes arcticus Cushman, 1920. U. S. Natl. Mus., Proc. 58: 251. ♂, ♀.

Biology: Prebble and Graham, 1945. Brit. Columbia Lumberman 29: 38, 39, 88.

arogae Gittens and Henry. Idaho, Oreg. Host: *Aroga websteri* Clarke.

Phaeogenes arogae Gittens and Henry, 1966. Biol. Soc. Nev., Occas. Papers 12: 1. ♂, ♀.

ater Cresson. Que. s. to Miss., w. to Oreg. Host: *Podosesia syringae* (Harris), *Synanthedon exitiosa* (Say), *S. pyri* (Harris), *S. scitula* (Harris), *S. tipuliformis* (Clerck).

Phaeogenes ater Cresson, 1877. Amer. Ent. Soc., Trans. 6: 202. ♀.

Amblyteles macrocephalus Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 34. ♂.

cacoeciae Viereck. N. Y., Mich., Sask., Colo., N. Mex., Utah, Alaska, B. C. Host: *Archips argyrosphilus* (Wlk.), *Choristoneura conflictana* (Wlk.).

Phaeogenes cacoeciae Viereck, 1924. Canad. Ent. 56: 66. ♂, ♀.

Taxonomy: Allen, 1968. Ent. Soc. Amer., Ann. 61: 625, 626-627.

cynarae Bragg. N. H. w. to Wash., s. to Va., Mo., and Calif. Host: *Platyptilia* sp., *P. carduidactyla* (Riley).

Phaeogenes cynarae Bragg, 1971. Pan-Pacific Ent. 47: 58. ♂, ♀.

Biology: Lange, 1941. Calif. Agr. Expt. Sta., Bul. 653: 24, 67.

epinotiae Cushman. Maine. Host: *Epinotia nanana* (Treit.), *Coleotechnites piceaella* (Kft.).

Phaeogenes epinotiae Cushman, 1935. Wash. Acad. Sci., Jour. 25: 547. ♂, ♀.

gaspesianus Provancher. N. S., Que., Maine, Ont., Ohio, Alaska, B. C., Oreg. Host: *Acleris variana* (Fern.).

Phaeogenes Gaspesianus Provancher, 1882. Nat. Canad. 13: 331. ♀.

Phaeogenes pinoploides Bradley, 1918. Brooklyn Ent. Soc., Bul. 13: 98. ♀.

Morphology: Peck, 1937. Canad. Jour. Res., Sect. D (Zool. Sci.) 15: 246, 251.

gilvibrabis Allen. N. Y., Pa., Mich., Wis. Host: *Archips rosana* (L.), *A. semifervana* (Wlk.), *Sparganothis pettitana* (Rob.).

Phaeogenes gilvibrabis Allen, 1968. Ent. Soc. Amer., Ann. 61: 627. ♂, ♀.

haeussleri Uchida. Sakhalin, Japan. Introduced in Conn., N. J., Md., N. C., S. C., and Ind.

between 1934 and 1939, apparently without becoming established. Host: *Grapholitha molesta* (Bsk.). *G. molesta* was the target host for introductions of *P. haeussleri* in the U. S. Uchida (1933) gave a redescription for what he believed to be *Phaeogenes japonicus* Ashmead, and after learning that he had misidentified *P. japonicus* he published the name *haeussleri* in reference to his misidentification.

Phaeogenes haeussleri Uchida, 1935. Insecta Matsumurana 9: 82-83. ♂, ♀.

Taxonomy: Uchida, 1933. Insecta Matsumurana 7: 155-156.

Biology: Haeussler, 1940. U. S. Dept. Agr., Tech. Bul. 728: 42-43. —Iwata, 1961. Acta Hym. 1: 316.

Morphology: Iwata, 1958. Acta Hym. 1: 71 (ovarian egg). —Iwata, 1961. Acta Hym. 1: 137 (ovary and egg).

hebe (Cresson). N. Y., Ill.

Ichneumon Hebe Cresson, 1867. Amer. Ent. Soc., Trans. 1: 306. ♂, ♀.

hebrus (Cresson). Que. s. to Fla., w. to Wash.

Ichneumon hebrus Cresson, 1867. Amer. Ent. Soc., Trans. 1: 306. ♂, ♀.

Phygadeuon insignis Provancher, 1875. Nat. Canad. 7: 179. ♀. Barron (1975) gave label data for the holotype.

Ichneumon ustus Provancher, 1882. Nat. Canad. 13 (no. 154): 305 (key); 13 (no. 155): 324. ♂ (♀ misdet.). A lectotype was selected by Barron (1975).

Taxonomy: Allen, 1968. Ent. Soc. Amer., Ann. 61: 625-626. —Barron, 1975. Nat. Canad. 102: 490-491, 579.

laevigatus (Cresson). Colo.

Ichneumon laevigatus Cresson, 1864. Ent. Soc. Phila., Proc. 3: 176. ♀. Preocc. by Gravenhorst, 1820; not renamed here because of taxonomic uncertainties.

Phaeogenes levigatus Dalla Torre, 1902. Cat. Hym., v. 3, p. 746. Unjustified emend.; preocc. in *Phaeogenes* by I. *laevigatus* Cresson.

laricellae Mason. N. B., Ont., Wis., Oreg. Host: *Argyresthia laricella* Kft.

Phaeogenes laricellae Mason, 1961. Canad. Ent. 93: 3. ♂, ♀.

Morphology: Eidt, 1962. Canad. Ent. 94: 32 (final-instar larva).

maculicornis hariolus (Cresson), n. status. N. S. w. to Alaska, s. to Mass., Mich., N. Mex., and Oreg. Host: *Acleris variana* (Fern.), *Argyrotaenia dorsolana* Dyar, *Choristoneura conflictana* (Wlk.), *C. fumiferana* (Clem.), *C. occidentalis* Free., *C. pinus* Free., *Croesia semipurpurana* (Kft.).

Ichneumon hariolus Cresson, 1867. Amer. Ent. Soc., Trans. 1: 305. ♀.

Phygadenon (Bathymetis) spinicorpus Viereck, 1905. Kans. Acad. Sci., Trans. 19: 289. ♀. N. syn.

Phygadeuon (Dirophanes) plesius Viereck, 1912. U. S. Natl. Mus., Proc. 42: 148. ♀.

Morphology: Goidanich, 1931. R. Ist. Super. Agr., Lab. di Ent., Bol. 4: 85-90. —Smith, 1932. U. S. Dept. Agr., Tech. Bul. 331: 5-21.

ophthalmicus americanus Allen. Colo., Wash. *P. ophthalmicus ophthalmicus* Wesmael occurs in Europe.

Phaeogenes ophthalmicus americanus Allen, 1968. Ent. Soc. Amer., Ann. 61: 627. ♂, ♀.

orbus Provancher. Que.

Phaeogenes orbus Provancher, 1882. Nat. Canad. 13: 332. ♂.

Taxonomy: Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 41 (female described).

osrufus (Davis). Ill.

Eurylabus osrufus Davis, 1898 (1897). Amer. Ent. Soc., Trans. 24: 353. ♀.

Eurylabus varufus(!) Nason, 1905. Ent. News 16: 148.

phycidis Ashmead, Que., N. H., Mass., Conn., N. Y., Minn. Host: *Acrobasis betulella* Hst., *A. rubrifasciella* Pack., *A. silviella* Ely.

Phaeogenes phycidis Ashmead, 1898. In Dimmock and Ashmead, Ent. Soc. Wash., Proc. 4: 169. ♀.

Biology: Daviault, 1935. Nat. Canad. 62: 318, 319.

sitkensis (Ashmead). Southeastern Alaska. Known only from the holotype which has the thyridia only faintly indicated.

Eriplatys sitkensis Ashmead, 1902. Wash. Acad. Sci., Proc. 4: 162.

Taxonomy: Townes, 1944. Amer. Ent. Soc., Mem. 11: 302.

soriculatus (Provancher). Que., N. Y., N. C.

Cryptus soriculatus Provancher, 1881. Nat. Canad. 13: 362. ♂.

testaceicornis (Cameron). Nev.

Bathymetis testaceicornis Cameron, 1908. Amer. Ent. Soc., Trans. 34: 245. ♀.

Taxonomy: Morley, 1914. Ann. and Mag. Nat. Hist. (8) 14: 409. —Townes, 1961. Ent. Soc. Wash., Proc. 63: 104.

walshiae Ashmead. N. J. s. to Fla., w. to Ill., Kans., and Miss. Host: *Walshia "amorphella"* Clem., *Ancylis comptana* (Froel.), *Epiblema strenuum* (Wlk.), *Grapholita molesta* (Bsk.), *Laspeyresia caryana* (Fitch), *Rhyacionia frustrana* (Comst.), Phalonidae. In the U. S. Natl. Museum collection there is a female specimen from Shady, Fla. having the

apical tergites of the abdomen black; it demonstrates the impracticality of recognizing a northern and southern subspecies.

Phygadeuon walshiae Riley, 1890. In Riley and Howard, U. S. Dept. Agr., Insect Life 3: 153. Nomen nudum.

Phaeogenes walshiae Ashmead, 1896. Amer. Ent. Soc., Trans. 23: 205. ♂, ♀.

Phaeogenes (Centeterus) ineptifrons Gahan, 1919. U. S. Natl. Mus., Proc. 55: 113. ♂, ♀.

Proscus walshiae var. *australis* Cushman, 1933. U. S. Natl. Mus., Proc. 82: 5. ♂, ♀. N. syn.

Biology: Haden, 1935. Univ. Del. Agr. Expt. Sta., Bul. 194: 20-35.

TRIBE GYRODONTINI

This is the Ichneumonini in the sense of Heinrich and, in part, the Joppini in the sense of Townes. It is a very large tribe of worldwide distribution. Heinrich (1967) divided the tribe into five subtribes, four of which are represented in North America.

Taxonomy: Heinrich, 1967. Synopsis and Reclassif. Ichneumoninae Stenopneusticae Africa So. of Sahara, v. 1, p. 26-27; v. 3, p. 486-487 (keys to subtribes).

SUBTRIBE GYRODONTINA

Genus CRATICHNEUMON Thomson

Cratichneumon Thomson, 1893. Opusc. Ent. 18: 1945.

Type-species: *Ichneumon luteiventris* Gravenhorst. Desig. by Ashmead, 1900. *Lareiga* Cameron, 1903. Ztschr. System. Hym., Dipt. 3: 13.

Type-species: *Lareiga rufofemorata* Cameron. Monotypic.

Belargea Cameron, 1903. Ztschr. System. Hym., Dipt. 3: 15.

Type-species: *Belargea albomaculata* Cameron. Monotypic. The type-species is regarded as a synonym of *C. rufofemorata* (Cameron).

Odontojoppa Cameron, 1903. Ztschr. System., Dipt. 3: 16, 177.

Type-species: *Odontojoppa metallica* Cameron. Monotypic.

Sycaonia Cameron, 1903. Ent. Soc. London, Trans. 51: 224.

Type-species: *Sycaonia rufofacies* Cameron. Monotypic.

Leptotheucus Cameron, 1903. Entomologist 36: 240.

Type-species: *Leptotheucus rufomaculatus* Cameron. Monotypic.

Tanyjoppa Cameron, 1904. Ztschr. System. Hym., Dipt. 4: 217.

Type-species: *Tanyjoppa sanguineoplagiata* Cameron. Monotypic.

Lissichneumon Cameron, 1906. Entomologist 39: 227.

Type-species: *Lissichneumon levis* Cameron. Monotypic.

Nimbulareiga Heinrich, 1969 (1968). Synopsis and Reclassif. Ichneumoninae

Stenopneusticae Africa So. of Sahara, v. 4, p. 933.

Type-species: *Nimbulareiga merucapitis* Heinrich. Monotypic and orig. desig.

This is a very large and widely distributed genus which is particularly difficult taxonomically.

Taxonomy: Townes and Townes, 1973. Amer. Ent. Inst., Mem. 19: 304 (generic syn.).

acronictae Heinrich. Que., Maine, N. Y., N. C. Host: *Acronicta* sp.

Cratichneumon acronictae Heinrich, 1961 (1960). Canad. Ent. Sup. 18: 125. ♂, ♀.

Taxonomy: Heinrich, 1971. Nat. Canad. 98: 984.

alternans (Provancher). Que., Maine.

Phygadeuon alternans Provancher, 1882. Nat. Canad. 13 (no. 155): 335 (key); 13 (no. 156): 358. ♀.

Taxonomy: Heinrich, 1971. Nat. Canad. 98: 986-989 (male described and included in key).

anisotae Heinrich. Que. s. to Va., w. to Wis. Host: *Anisota senatoria* (J. E. S.), *Dryocampa rubricunda* (F.).

Cratichneumon anisotae Heinrich, 1961 (1960). Canad. Ent. Sup. 18: 119. ♂, ♀.

annulatipes (Provancher). Que. s. to D. C., w. to Mich. and Mo.

Phaeogenes annulatipes Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 43. ♀.

Amblyteles (Pterocormus) quintilis Viereck, 1917 (1916). Conn. State Geol. and Nat. Hist. Survey Bul. 22: 354, 357. ♂.
Cratichneumon annulatipes facetops Heinrich, 1961 (1960). Canad. Ent. Sup. 18: 147. ♂. N. syn.

Taxonomy: Heinrich, 1959. Ent. News 70: 214 (syn.).

annulatus (Provancher). Que. s. to Pa., w. to Mich.

Mesostenus annulatus Provancher, 1875. Nat. Canad. 7: 265. ♂.

arizonensis (Viereck). Ariz. According to Heinrich (1961) this species is closely related to *takomae* Heinrich.

Ichneumon (Eurylabus) arizonensis Viereck, 1905. Kans. Acad. Sci., Trans. 19: 295. ♀.

ashmeadi (Schulz). Que., Maine, N. H., Colo., Alaska, B. C., Wash., Oreg.

Ichneumon imitator Ashmead, 1902. Wash. Acad. Sci., Proc. 4: 151. ♂. Preocc. by Villers, 1789.

Ichneumon Ashmeadi Schulz, 1906. Spolia Hym., p. 128. N. name for *I. imitator* Ashmead.

astutus (Holmgren). Calif.

Ichneumon astutus Holmgren, 1869 (1868). Eug. Resa, pt. 2 (Zool.), sect. 1 (Ins.), p. 394.

Taxonomy: Townes, 1961. Ent. Soc. Wash., Proc. 63: 106.

austropiceipes Heinrich. Ga., Miss.

Cratichneumon austropiceipes Heinrich, 1971. Nat. Canad. 98: 992. ♂, ♀.

borealpinus Heinrich. Newfoundland (insular), N. H.

Cratichneumon borealpinus Heinrich, 1961 (1960). Canad. Ent. Sup. 18: 168. ♀.

boreovagans Heinrich. Que., Maine. According to Heinrich, this may be a northern variant of *C. paraparatus* Heinrich.

Cratichneumon boreovagans Heinrich, 1962. Canad. Ent. Sup. 29: 870. ♀.

brevipennis (Cresson). Maine, N. H., Mass., R. I., Pa., Md., Va., Fla., Ont., Iowa, Mo., Colo.

Host: *Faronta diffusa* (Wlk.).

Ichneumon brevipennis Cresson, 1864. Ent. Soc. Phila., Proc. 3: 174. ♀.

Ischnus volens Cresson, 1864. Ent. Soc. Phila., Proc. 3: 192. ♂.

Ichneumon brevipennis var. *obsoletus* Riley, 1877. Mo. State Ent., Ann. Rpt. 9: 55. ♀.

Preocc. by Gmelin, 1790 and Fabricius, 1798; Heinrich (1961) erroneously stated that the holotype is lost.

Taxonomy: Heinrich, 1959. Ent. News 70: 214 (syn.). — Heinrich, 1961 (1960). Canad. Ent. Sup. 18: 170.

broweri Heinrich. Maine.

Cratichneumon broweri Heinrich, 1971. Nat. Canad. 98: 998. ♀.

caroliniae Heinrich. N. C., Ga.

Cratichneumon caroliniae Heinrich, 1971. Nat. Canad. 98: 991. ♀.

citrinops kincaidi (Ashmead). Sask., Alaska. *C. citrinops citrinops* (Wesmael) is European.

Ichneumon kincaidi Ashmead, 1902. Wash. Acad. Sci., Proc. 4: 152. ♂.

Cratichneumon alaskensis Ashmead, 1902. Wash. Acad. Sci., Proc. 4: 157. ♂.

Taxonomy: Heinrich, 1959. Ent. News 70: 213 (status).

duplicatus (Say). Mass. s. to Va., w. to Wis.

Ichneumon duplicatus Say, 1836. Boston Jour. Nat. Hist. 1: 230. ♂.

Taxonomy: Townes and Townes, 1951. In Muesebeck et al., U. S. Dept. Agr., Agr. Monog. 2: 288.

erythroscuta Heinrich. Mass. Heinrich supposed that *erythroscuta* may prove to be the female of *C. vaccinii* Heinrich.

Cratichneumon erythroscuta Heinrich, 1961 (1960). Canad. Ent. Sup. 18: 142. ♀.

expers Heinrich. N. C., n. Fla., Miss.

Cratichneumon expers Heinrich, 1972. Nat. Canad. 99: 178. ♂, ♀.

Cratichneumon expers circumflavidus Heinrich, 1972. Nat. Canad. 99: 180. ♀. N. syn.

facetus (Cresson). R. I. s. to N. C., w. to Mich. and Ky.

Ichneumon facetus Cresson, 1867. Amer. Ent. Soc., Trans. 1: 311. ♂.

ferrugops Heinrich. Que., Ont., Mich.

Cratichneumon ferrugops Heinrich, 1961 (1960). Canad. Ent. Sup. 18: 124. ♀.

flaschkai Heinrich. Colo.

Cratichneumon flaschkai Heinrich, 1973. Nat. Canad. 100: 461, 463. ♂, ♀.

flavipectus (Provancher). Que. s. to Ga., w. to Mich. and Miss.

Cryptus flavipectus Provancher, 1879. Nat. Canad. 11 (no. 125): 134. "♀" = ♂.

Ichneumon pygmaeus Davis, 1898 (1897). Amer. Ent. Soc., Trans. 24: 350. ♀. Preocc. by Poda, 1761.

Cratichneumon ericaeus Townes, 1944. Amer. Ent. Soc., Mem. 11: 335. N. name for *I. pygmaeus* Davis.

Cratichneumon flavipectus mississippi Heinrich, 1971. Nat. Canad. 98: 989. N. syn.

floridensis Heinrich. Fla.

Cratichneumon floridensis Heinrich, 1972. Nat. Canad. 99: 181. ♂, ♀.

fuscior Heinrich. Ga.

Cratichneumon fuscior Heinrich, 1971. Nat. Canad. 98: 996. ♀.

georgius Heinrich. Southern Ga.

Cratichneumon georgius Heinrich, 1971. Nat. Canad. 98: 995. ♀.

horani Heinrich. Northern Fla., Miss.

Cratichneumon horani Heinrich, 1972. Nat. Canad. 99: 180. ♂, ♀.

howdeni Heinrich. N. C.

Cratichneumon howdeni Heinrich, 1961 (1960). Canad. Ent. Sup. 18: 172. ♀.

insulae Heinrich. R. I., N. J.

Cratichneumon insulae Heinrich, 1961 (1960). Canad. Ent. Sup. 18: 151. ♀.

involutus (Cresson). Colo.

Ichneumon involutus Cresson, 1864. Ent. Soc. Phila., Proc. 3: 183. ♀.

naumannii Heinrich. Ga.

Cratichneumon naumannii Heinrich, 1971. Nat. Canad. 98: 994. ♀.

nigritarius acerbus (Cresson). Newfoundland (Labrador) s. to N. Y., w. to S. Dak. and Colo.

Host: *Isturgia truncataria* (Wlk.), *Protobaeomia porcelaria* (Gn.), *Semiothisa sexmaculata* (Pack.). *C. nigritarius nigritarius* (Gravenhorst) is Eurasian.

Ichneumon acerbus Cresson, 1867. Amer. Ent. Soc., Trans. 1: 293. ♂.

Ichneumon corrinus Cresson, 1877. Amer. Ent. Soc., Trans. 6: 145. ♀.

Taxonomy: Heinrich, 1953. Wash. Acad. Sci., Jour. 43: 149-150.

paraparatus Heinrich. N. Y., N. J., Md., N. C., S. C. Heinrich's description of *paraparatus* was based upon 12 female specimens, apparently including the specimen ("neallotype") upon which Heinrich (1961) based his description of what was presumed to be the female of *C. viennulus* (Cresson). Because the description of *paraparatus* was not accompanied by the description of a female which could more definitely be associated with *vienulus* males, the status of the name *paraparatus* seems dubious.

Cratichneumon paraparatus Heinrich, 1962. Canad. Ent. Sup. 29: 869. ♀.

Taxonomy: Heinrich, 1961 (1960). Canad. Ent. Sup. 18: 100, 138-140. — Heinrich, 1971. Nat. Canad. 98: 988 (key including male thought possibly to be conspecific with *paraparatus*).

paratus (Say). Que. s. to Fla., w. to N. Dak. and Mo. Host: *Lambdina pellucidaria* (G. and R.), *Heterocampa guttivitta* (Wlk.), *H. manteo* (Dbldy.).

Ichneumon parata Say, 1829. Contrib. Maclurian Lyceum to Arts and Sci. 1: 68. ♂.

Ichneumon annulipes Cresson, 1864. Ent. Soc. Phila., Proc. 3: 170. ♀.

Ichneumon pusillus Cresson, 1864. Ent. Soc. Phila., Proc. 3: 171. ♀.

Cratichneumon paratus pseudoviennulus Heinrich, 1961 (1960). Canad. Ent. Sup. 18: 137. ♂, ♀. N. syn.

pertenuis Heinrich. Maine, N. Y.

Cratichneumon pertenuis Heinrich, 1961 (1960). Canad. Ent. Sup. 18: 169. ♀.

petuleus (Cresson). Southern Calif.

Ichneumon petuleus Cresson, 1877. Amer. Ent. Soc., Trans. 6: 185. ♀.

piceipes Heinrich. Que., Maine, Mich.

Cratichneumon piceipes Heinrich, 1961 (1960). Canad. Ent. Sup. 18: 130. ♂, ♀.

- Taxonomy: Heinrich, 1971. Nat. Canad. 98: 993.
- pilosulus** (Provancher). Newfoundland (insular), Que., Maine, N. H., Pa., Mich., S. Dak.
Ichneumon pilosulus Provancher, 1875. Nat. Canad. 7: 25. ♀.
- popofensis** Ashmead. Que., Alaska. Although this species was recorded from Que. by Townes and Townes (1951), Heinrich (1961) did not mention the species in his revision of the stenopneusticidae of the Northeast. Ashmead appears to have correctly associated the sexes of *popofensis*, and the suppression of *popofensis* as a synonym of *yakutatensis* Ashmead by Heinrich (1959) appears to be incorrect.
- Cratichneumon popofensis* Ashmead, 1902. Wash. Acad. Sci., Proc. 4: 159. ♂, ♀.
- Taxonomy: Townes and Townes, 1951. U. S. Dept. Agr., Agr. Monog. 2: 288. — Heinrich, 1959. Ent. News 70: 214.
- promptus** (Cresson). Que., Maine, N. H., Man. Host: *Protoboarmia porcelaria* (Gn.).
Ichneumon promptus Cresson, 1877. Amer. Ent. Soc., Trans. 6: 152. ♂, ♀.
- proximus** (Cresson). N. Y. s. to Ala., w. to Ill. Host: *Symmerista canicosta* Franel.
Ischnus proximus Cresson, 1864. Ent. Soc. Phila., Proc. 3: 187. ♂.
Ichneumon sagus Cresson, 1867. Amer. Ent. Soc., Trans. 1: 294. ♀ (male misdet.).
- pseudanisotae** Heinrich. N. Y., N. J., Md.
Cratichneumon pseudanisotae Heinrich, 1961 (1960). Canad. Ent. Sup. 18: 133. ♀.
- pteridis** Townes. Newfoundland (insular), Que., Maine, N. H., N. Y., Pa., Ont., Mich., Man., Alaska. Host: *Ectropis crepuscularia* (D. and S.), *Protoboarmia porcelaria* (Gn.), *Seniothisa* sp., *Heterocampa guttivitta* (Wlk.).
Phygadeuon proximus Provancher, 1874. Nat. Canad. 6: 283. ♀. Preocc. in *Cratichneumon* by Cresson, 1864.
Cratichneumon pteridis Townes, 1944. Amer. Ent. Soc., Mem. 11: 339. N. name for *P. proximus* Provancher.
- puncticoxa** Heinrich. Que., Maine, Mass., N. Y., Pa., Mich.
Cratichneumon puncticoxa Heinrich, 1961 (1960). Canad. Ent. Sup. 18: 133. ♂, ♀.
- Taxonomy: Heinrich, 1971. Nat. Canad. 98: 986 (amendments to description).
- remanens** Heinrich. Maine, N. Y., Md., N. C., Ont.
Cratichneumon remanens Heinrich, 1961 (1960). Canad. Ent. Sup. 18: 157. ♂.
- Taxonomy: Heinrich, 1971. Nat. Canad. 98: 988 (inclusion in revised key).
- ritus** Heinrich. Maine, Va., N. C., Ont., Mich., Ind., Iowa. Host: *Phigalia titea* (Cramer).
Cratichneumon ritus Heinrich, 1961 (1960). Canad. Ent. Sup. 18: 143. ♂, ♀.
- rubricoides** Heinrich. Que., Maine, N. Y., N. C., Mich.
Cratichneumon rubricoides Heinrich, 1961 (1960). Canad. Ent. Sup. 18: 165. ♂, ♀.
- Taxonomy: Heinrich, 1971. Nat. Canad. 98: 990-991 (additional differences from *rubricus* [Provancher]).
- rubricops** Heinrich. Que., Maine, N. Y., Ont.
Cratichneumon rubricops Heinrich, 1961 (1960). Canad. Ent. Sup. 18: 167. ♂, ♀.
- Taxonomy: Heinrich, 1971. Nat. Canad. 98: 988 (inclusion of male in revised key).
- rubricus** (Provancher). P. E. I., Que., Maine, N. Y., Mich.
Phygadeuon rubricus Provancher, 1882. Nat. Canad. 13 (no. 155): 335 (key); 13 (no. 156): 358. ♀.
- Taxonomy: Heinrich, 1971. Nat. Canad. 98: 989 (inclusion of male in revised key).
- russatus** (Cresson). Colo., Ariz., Idaho, B. C., Wash., Oreg., Calif. Townes (1961) said that *russatus* is probably a synonym of *astutus* (Holmgren).
Ichneumon russatus Cresson, 1877. Amer. Ent. Soc., Trans. 6: 183. ♀.
Ichneumon (Barichneumon) citrinifacialis Viereck, 1905. Kans. Acad. Sci., Trans. 19: 297. ♂.
- Taxonomy: Townes, 1961. Ent. Soc. Wash., Proc. 63: 106.
- seitulus** (Cresson). Que. s. to Va., w. to Ill.
Ischnus seitulus Cresson, 1864. Ent. Soc. Phila., Proc. 3: 193. ♂.

Ichneumon nanus Cresson, 1877. Amer. Ent. Soc., Trans. 4: 184. ♀. Preocc. by Ratzeburg, 1848.

Amblyteles nanodes Cushman, 1925. Wash. Acad. Sci., Jour. 15: 388. N. name for *I. nanus* Cresson.

Taxonomy: Heinrich, 1971. Nat. Canad. 98: 989 (inclusion of male in revised key).

signatipes (Cresson). Que. s. to D. C., w. to Kans. Townes and Townes (1951) said that *signatipes* males had often been misidentified as *C. duplicatus* (Say), and Heinrich (1961, 1962) erroneously suppressed *signatipes* as a synonym of *C. w-album* (Cresson) (which see).

Ichneumon signatipes Cresson, 1867. Amer. Ent. Soc., Trans. 1: 308. ♀.

Ichneumon lobatus Provancher, 1875. Nat. Canad. 7 (1): 23 (key); 7 (3): 77. ♂.

Ichneumon? (Stiboscopus?) oryxicornis Viereck, 1905. Kans. Acad. Sci., Trans. 19: 324. ♂.
Amblyteles (Barichneumon?) duplicatiformis Viereck, 1917 (1916). Conn. State Geol. and Nat. Hist. Survey, Bul. 22: 354, 360. ♂.

Taxonomy: Townes and Townes, 1951. In Muesebeck et al., U. S. Dept. Agr., Agr. Monog. 2: 289.—Heinrich, 1961 (1960); 1962. Canad. Ent. Sup. 18: 126-130; 29: 868.

suadus (Cresson). Que., Maine, R. I., Conn., N. Y., Pa., Ont., Wis.

Ichneumon suadus Cresson, 1877. Amer. Ent. Soc., Trans. 6: 160. ♂.

Taxonomy: Heinrich, 1971. Nat. Canad. 98: 988 (inclusion of male in revised key).

subfilatus Heinrich. Que. s. to N. C., w. to Mich. Host: *Lambdina pellucidaria* (G. and R.).
Cratichneumon subfilatus Heinrich, 1961 (1960). Canad. Ent. Sup. 18: 131. ♂, ♀.

sublatus (Cresson). Que. s. to Va., w. to Ill. Host: *Heterocampa biundata* Wlk., *H. guttivitta* (Wlk.), *Hydra pruinivora* (Ferg.).

Ischnus sublatus Cresson, 1864. Ent. Soc. Phila., Proc. 3: 186. ♂.

Ichneumon pravus Cresson, 1877. Amer. Ent. Soc., Trans. 6: 151. ♀.

Biology: Patch, 1908. Maine Agr. Expt. Sta., Bul. 161: 340.

takomae Heinrich. Southern Maine?, Md.

Cratichneumon takomae Heinrich, 1961 (1960). Canad. Ent. Sup. 18: 116. ♂.

Taxonomy: Heinrich, 1971. Nat. Canad. 98: 984.

tyloidifer Heinrich. Maine, N. Y., N. J., Pa., Md., Va., N. C., Ont., Mich.

Cratichneumon tyloidifer Heinrich, 1961 (1960). Canad. Ent. Sup. 18: 115. ♂.

unifasciarius (Say). Que. w. to s. B. C., s. to Fla., Utah, and Oreg. Host: *Orygia antiqua* (L.), *O. leucostigma* (J. E. S.), *Hemileuca* sp., *Diacrista virginica* (F.), *Halisidota argentata* (Pack.), *H. caryae* (Harris), *H. tessellaris* (J. E. S.), *Acronicta oblinita* (J. E. S.).

Ichneumon unifasciarius Say, 1825. Amer. Ent. 2: 48. ♂.

Ichneumon malacus Say, 1829. Contrib. Maclurian Lyceum to Arts and Sci. 1: 72. ♀.

Ichneumon niger Brulle, 1846. In Lepeletier, Hist. Nat. Ins. Hym., v. 4, p. 302. ♂, ♀.

Preocc. by Gmelin, 1790 and Fabricius, 1798.

Ichneumon Afer Cresson, 1864. Ent. Soc. Phila., Proc. 3: 138. ♀.

Ichneumon scriptifrons Cresson, 1877. Amer. Ent. Soc., Trans. 6: 144. ♂.

Ichneumon Vancouveriensis Provancher, 1885. Canad. Ent. 17: 114. ♂.

Ichneumon aterrimus Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 30. ♀.
Preocc. by Foerster, 1771.

vaccinii Heinrich. Que., Maine, Pa., Ont., Mich.

Cratichneumon vaccinii Heinrich, 1961 (1960). Canad. Ent. Sup. 18: 141. ♂.

valdefuscus Heinrich. N. Y. s. to n. Fla., w. to La.

Cratichneumon valdefuscus Heinrich, 1972. Nat. Canad. 99: 177. ♂, ♀.

vescus (Provancher). Que., Maine, N. H., Vt., N. Y., Pa., Ont., Mich., N. Mex., Alta., B. C. Host: *Protoboarmia poreilaria* (Gn.).

Ichneumon vescus Provancher, 1877. Nat. Canad. 9: 9. ♂.

vinnulus (Cresson). Que. s. to N. C., w. to Wis. and Ky.

Ischnus vinnulus Cresson, 1864. Ent. Soc. Phila., Proc. 3: 189. ♂.

Cratichneumon gracilior Heinrich, 1961 (1960). Canad. Ent. Sup. 18: 147. ♀ (male misdet.).

Taxonomy: Heinrich, 1962. Canad. Ent. Sup. 29: 868 (syn.).

vockerothi Heinrich. N. H. Ecology: The holotype was collected on the summit of Mt. Washington, N. H. (elevation 6100 to 6288 ft.).

Cratichneumon vockerothi Heinrich, 1961 (1960). Canad. Ent. Sup. 18: 158. ♀.
w-album (Cresson). Que. s. to Ga., w. to Wis. and Ala. Host: *Heterocampa guttivitta* (Wlk.), *Dryocampa rubicunda rubicunda* (F.). Heinrich (1959, 1961) erroneously applied the name *w-album* to *C. signatipes* (Cresson) because of the fact that Cresson's (1916) lectotype for *w-album* does not agree in decisive respects with the original description. Although Cresson made no mention of variation to indicate that he used more than one of his syntypes in writing his original description of *w-album*, the fact that he had more than one type-specimen is indicated by his statement: "Hab[itat]- Pennsylvania (C. A. Blake); Delaware (Dr. Wilson); New Jersey (Cresson)." Unless it can be shown that Cresson's (1916) lectotype from Pa. was not the specimen from C. A. Blake, there is no basis for disregarding it as the legitimate lectotype. Although it is possible that Cresson's lectotype is not one of the original syntypes, but instead a specimen acquired later and used in making his 1867 expanded description of *w-album*, lack of agreement with the original description is not proof of this.

Ischnus W-album Cresson, 1864. Ent. Soc. Phila., Proc. 3: 191. ♂.

Ischnus variegatus Provancher, 1875. Nat. Canad. 7: 250. ♂.

Cratichneumon variegatus insignitus Heinrich, 1971. Nat. Canad. 98: 985. ♂, ♀. N. syn.

Taxonomy: Cresson, 1867. Amer. Ent. Soc., Trans. 1: 309. — Cresson, 1877. Amer. Ent. Soc., Trans. 6: 179-180 (redescription based on specimens from Canada, N. H., and Mass.). — Cresson, 1916. Amer. Ent. Soc., Mem. 1: 63 (lectotype selection). — Heinrich, 1959. Ent. News 70: 190. — Heinrich, 1961 (1960). Canad. Ent. Sup. 18: 122-124, 126-127, 129.

yakutatensis Ashmead. Alaska.

Cratichneumon yakutatensis Ashmead, 1902. Wash. Acad. Sci., Proc. 4: 157. ♂.

Genus CRYPTEFFIGIES Heinrich

Aculichneumon subg. *Crypteffigies* Heinrich, 1961 (1960). Canad. Ent. Sup. 15: 17.

Type-species: *Cratichneumon confusus* Ashmead. Monotypic and orig. desig.

According to Heinrich (1969) *Crypteffigies* is Holarctic.

Taxonomy: Heinrich, 1961 (1960). Canad. Ent. Sup. 18: 178-180. — Heinrich, 1969 (1968).

Synopsis and Reclassif. Ichneumoninae Stenopneustiae Africa So. of Sahara, v. 5, p. 1106.

confusa (Ashmead). Que., N. Y., Alaska, B. C.

Cratichneumon confusus Ashmead, 1902. Wash. Acad. Sci., Proc. 4: 158. ♂.

Plectocryptus popofensis Ashmead, 1902. Wash. Acad. Sci., Proc. 4: 183. ♀.

Plectocryptus yakutatensis Ashmead, 1902. Wash. Acad. Sci., Proc. 4: 183. ♀.

megalura Heinrich. Maine, Ont. Specimens in the U. S. Natl. Museum collection appear to indicate that *megalurus* will not likely prove to be deserving of anything more than suppression as a synonym of *confusus*.

Aculichneumon (Crypteffigies) confusus megalurus Heinrich, 1961 (1960). Canad. Ent. Sup. 18: 180, 205. ♀. The alternate spelling "mogalurus" appears on p. 205.

Taxonomy: Heinrich, 1971. Nat. Canad. 98: 1003-1004 (description of male and elevation to species status).

Genus HOMOTHERUS Foerster

Homotherus Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 185.

Type-species: *Ichneumon locutor* Thunberg. Monotypically included and desig. by Perkins, 1960.

This is a small genus of Holarctic distribution.

Taxonomy: Perkins, 1960. Handb. Ident. Brit. Ins., v. 7, pt. 2 (aii), p. 153. — Heinrich, 1971. Nat. Canad. 98: 1000 (key for some males).

erythromelas (MacLachlan). Northern N. W. T.; w. Greenland. Dr. W. R. M. Mason informed me that there are specimens from Greenland in the Canadian National Collection, but

none from Canada. The holotype, which is from northern Ellesmere Island is apparently the only Canadian specimen known.

Ichneumon erythromelas MacLachlan, 1879 (1878). Linn. Soc. Zool., Jour. 14: 106. ♀.

Taxonomy: Strand, 1905. Rpt. Second Norwegian Arctic Exped. in the "Fram" 1898-1902, no. 3, p. 6. —Roman, 1930. Ann. and Mag. Nat. Hist. (10) 5: 282. —Heinrich, 1962. Canad. Ent. Sup. 29: 871-872.

magus (Wesmael). Newfoundland (insular); Greenland; Europe.

Ichneumon magus Wesmael, 1855. [Brussels] Acad. Roy. de Belg., Bul. 22: 389. ♂, ♀.

Homotherus magus nearcticus Heinrich, 1976 (1975). Nat. Canad. 102: 753, 766. ♀. N. syn.

Based upon a single female from insular Newfoundland. The variant spelling "nearcticus" which appears on p. 583 (French resume and English abstract) is here rejected in favor of *nearcticus*.

Phaeogenes nitidus Bridgman, 1886. Ent. Soc. London, Trans. 34: 337. ♂.

Taxonomy: Roman, 1938. In Carpenter, Ann. and Mag. Nat. Hist. (11) 1: 538. —Perkins, 1953. Brit. Mus. (Nat. Hist.) Ent., Bul. 3: 116, 134, 136. —Perkins, 1960. Handb. Ident. Brit. Ins., v. 7, pt. 2 (aii), p. 121, 138, 145, 147.

porcelariae Heinrich. Newfoundland (Labrador), N. B., Maine, Ont., Mich., Man. Host:

Eufidonia notataria (Wlk.), *Protoboarmia porcelaria* (Gn.), *Semiothisa* sp. ·

Homotherus porcelariae Heinrich, 1961 (1960). Canad. Ent. Sup. 18: 173. ♂, ♀.

pseudoporcelariae Heinrich. Newfoundland (insular), Maine.

Homotherus pseudoporcelariae Heinrich, 1971. Nat. Canad. 98: 1001. ♂, ♀.

semiaoplus Heinrich. Newfoundland (insular), Que., Maine, W. Va., Mich.

Homotherus semiaoplus Heinrich, 1961 (1960). Canad. Ent. Sup. 18: 173. ♂, ♀.

smileyi Heinrich. N. Y.

Homotherus smileyi Heinrich, 1968. Nat. Canad. 95: 717. ♂, ♀.

townesi Heinrich. Newfoundland (insular), Que., Maine, N. Y., N. C., Ont., Mich.

Homotherus townesi Heinrich, 1961 (1960). Canad. Ent. Sup. 18: 175. ♂, ♀.

Genus EUPALAMUS Wesmael

Eupalamus Wesmael, 1845 (1844). [Brussels] Acad. Roy. de Belg., Nouveaux Mem. 18: 14.

Type-species: *Eupalamus oscillator* Wesmael. Monotypic.

Lagenesta Cameron, 1901. Ann. and Mag. Nat. Hist. (7) 7: 376.

Type-species: *Lagenesta ferruginea* Cameron. Monotypic.

Xestojoppa Cameron, 1901. Ann. and Mag. Nat. Hist. (7) 7: 379.

Type-species: *Xestojoppa olivacea* Cameron. Monotypic.

Cosmijoppa Cameron, 1902. Ztschr. System. Hym. Dipt. 2: 395.

Type-species: *Cosmijoppa violaceipennis* Cameron. Monotypic.

Lynteria Cameron, 1904. Ztschr. System. Hym. Dipt. 4: 220.

Type-species: *Lynteria violaceipevnius* Cameron. Monotypic. The type-species is a synonym of *E. cyanopteryx* Townes, Townes, and Gupta.

Faesula Cameron, 1904. Ztschr. System. Hym. Dipt. 4: 338.

Type-species: *Faesula maculata* Cameron. Monotypic.

Mesophadnus Cameron, 1907. Tijdschr. v. Ent. 50: 75.

Type-species: *Mesophadnus spilopterus* Cameron. Monotypic.

Taxonomy: Townes, Momoi, and Townes, 1965. Amer. Ent. Inst., Mem. 5: 447 (syn.).

andersoni Heinrich. B. C.

Eupalamus andersoni Heinrich, 1961. Canad. Ent. Sup. 23: 385. ♀.

melacneme Heinrich. Que., Ont.

Eupalamus melacneme Heinrich, 1961. Canad. Ent. Sup. 23: 386. ♂, ♀.

Genus ANISOPYGUS Kriechbaumer

Anisopygus Kriechbaumer, 1888. Wien. Mus. der Naturgesch., Ann. 3: 36.

Type-species: *Amblyteles pseudonymus* Wesmael. Monotypic.

americanus Heinrich. Newfoundland (insular) w. to s. B. C., s. to Maine, Wis., and Calif. Host:

Ichthyura apicalis Wlk.

Anisopygus americanus Heinrich, 1961. Canad. Ent. Sup. 23: 379. ♂, ♀.

pseudonymus nearcticus Heinrich. Colo., Alta., B. C. Host: Notodontid. *A. pseudonymus*

pseudonymus (Wesmael) is Eurasian. Heinrich's description of *p. nearcticus* seems to indicate that the difference from the nominate form are so slight as to make the distinction of dubious worth.

Anisopygus pseudonymus nearcticus Heinrich, 1961. Canad. Ent. Sup. 23: 378. ♂, ♀.

Genus MELANICHNEUMON Thomson

Melanichneumon Thomson, 1893. Opusc. Ent. 18: 1954.

Type-species: *Ichneumon spectabilis* Holmgren. Desig. by Ashmead, 1900.

Taxonomy: Heinrich, 1972. Nat. Canad. 99: 201-203 (key to spp. of southeastern U. S.).

absconditus (Provancher). Newfoundland (insular), Maine, N. H., N. C.?, Mich., Colo., Alta., Wash.

Ichneumon absconditus Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 31. ♂.

disparilis (Cresson). Maine s. to n. Fla., w. to Mich. and La.

Ichneumon disparilis Cresson, 1867. Amer. Ent. Soc., Trans. 1: 307. ♀.

Melanichneumon disparilis flavidops Heinrich, 1972. Nat. Canad. 99: 203. ♂, ♀. N. syn.

dreisbachi Heinrich. Maine, Mich.

Melanichneumon (*Melanichneumon*) *dreisbachi* Heinrich, 1962. Canad. Ent. Sup. 26: 585. ♂, ♀.

flavicarina Heinrich. Que., Maine, Ont., Mich., Man. Host: *Protoboarmia porcelaria* (Gn.).

Melanichneumon (*Melanichneumon*) *flavicarina* Heinrich, 1962. Canad. Ent. Sup. 26: 594. ♂, ♀. The variant spelling "flavocarina" is on p. 583, but Peck (1964) made the first revisor decision in favor of *flavicarina*.

Melanichneumon (*flavocarina*!) Heinrich, 1973. Nat. Canad. 100: 465.

Taxonomy: Peck, 1964. Ent. Soc. Canada, Mem. 35: 892.

foxleei Heinrich. Southern B. C.

Melanichneumon (*Melanichneumon*) *foxleei* Heinrich, 1962. Canad. Ent. Sup. 26: 586. ♂.

heiligbrodtii (Cresson). Fla., Tex.; Mexico.

Ichneumon Heiligbrodtii Cresson, 1877. Amer. Ent. Soc., Trans. 6: 168. ♂.

Taxonomy: Heinrich, 1962. Canad. Ent. Sup. 26: 597-598 (redescription of male). — Heinrich, 1972. Nat. Canad. 99: 202, 204, 207 (inclusion of both sexes in keys).

honestus (Cresson). Md. s. to Fla., w. to s. Mich. and La.

Ichneumon honestus Cresson, 1867. Amer. Ent. Soc., Trans. 6: 170. ♂.

Melanichneumon honestus milleri Heinrich, 1972. Nat. Canad. 99: 205. ♂, ♀. N. syn.

indecoratus Heinrich. P. E. I., Que., Maine, N. Y.?, Ont.

Melanichneumon (*Melanichneumon*) *indecoratus* Heinrich, 1962. Canad. Ent. Sup. 26: 589. ♂, ♀.

leviculops Heinrich. Newfoundland (insular), Que., Maine, Ont.

Melanichneumon (*Melanichneumon*) *leviculops* Heinrich, 1962. Canad. Ent. Sup. 26: 600. ♀.

Taxonomy: Heinrich, 1976 (1975). Nat. Canad. 102: 767-768 (male described).

leviculus (Cresson). Que. s. to N. C., w. to Mich. Host: *Coryphista meadi* (Pack.).

Ichneumon leviculus Cresson, 1877. Amer. Ent. Soc., Trans. 6: 170. ♂.

lissorufus Heinrich. Newfoundland (Labrador and insular), Que., Maine, N. Y., Ont., Mich.

Melanichneumon (*Melanichneumon*) *lissorufus* Heinrich, 1962. Canad. Ent. Sup. 26: 591. ♂, ♀.

Melanichneumon lissorufus radtkei Heinrich, 1976 (1975). Nat. Canad. 102: 768. ♂, ♀. N. syn. Described from five specimens from one locality in insular Newfoundland.

margaritae Heinrich. Tenn., Ark.

Melanichneumon margaritae Heinrich, 1973. Nat. Canad. 100: 464. ♂, ♀.

mystificans Heinrich. Ga.

Melanichneumon mystificans Heinrich, 1972. Nat. Canad. 99: 207. ♂, ♀.

neoleviculops Heinrich. Maine, Ohio.

Melanichneumon neoleviculops Heinrich, 1971. Nat. Canad. 98: 1015. ♂, ♀.

pluto (Viereck), revised status. N. Y., Ont., Mich., Ohio, N. Mex. The name *pluto* has been erroneously suppressed in synonymy since 1944, most recently by Heinrich (1959, 1962), who did not realize that *Ichneumon nigripes* Provancher is preoccupied.

Ichneumon nigripes Provancher, 1882. Nat. Canad. 13 (no. 154): 310 (key); 13 (no. 155): 324. ♂. Preocc. by Gravenhorst, 1829.

Cratichneumon pluto Viereck, 1903. In Skinner, Amer. Ent. Soc., Trans. 29: 79. ♂.

Amblyteles ohioensis DeGant, 1933. U. S. Natl. Mus., Proc. 82 (11): 1. ♂, ♀.

Taxonomy: Townes, 1944. Amer. Ent. Soc., Mem. 11: 325. — Heinrich, 1959. Ent. News 70: 212. — Heinrich, 1962. Canad. Ent. Sup. 26: 601-602.

texanus (Cresson). Maine, R. I., N. Y., Mich., Tex., Alta. Discovery of the female of this species may show that it belongs in *Vulgichneumon* instead of *Melanichneumon* (see Heinrich, 1962).

Ichneumon texanus Cresson, 1877. Amer. Ent. Soc., Trans. 6: 159. ♂.

Taxonomy: Heinrich, 1962. Canad. Ent. Sup. 26: 632-633.

townesi Heinrich. R. I., N. Y., Mich.

Melanichneumon (Melanichneumon) townesi Heinrich, 1962. Canad. Ent. Sup. 26: 596. ♂, ♀.

xanthogrammus (Ashmead). Kans., Tex.

Ichneumon xanthogrammus Ashmead, 1890 (1889). U. S. Natl. Mus., Proc. 12: 390. ♂.

Genus BARICHNEUMON Thomson

Barichneumon Thomson, 1893. Opusc. Ent. 18: 1959.

Type-species: *Ichneumon anator* Fabricius. Desig. by Ashmead, 1900.

Gurfyia Cameron, 1903. Ztschr. System. Hym. Dipt. 3: 178.

Type-species: *Gurfyia albipilosa* Cameron. Monotypic.

Harsaces Cameron, 1903. Entomologist 36: 238.

Type-species: *Harsaces nigripes* Cameron. Monotypic.

Darpasus Cameron, 1904. Ztschr. System. Hym. Dipt. 4: 344.

Type-species: *Darpasus pilosus* Cameron. Monotypic.

Stictichneumon Cameron, 1905. Spolia Zeylanica (Ceylon Jour. Sci., Sect. B) 3: 105.

Type-species: *Stictichneumon macariae* Cameron. Monotypic.

Taxonomy: Townes and Townes, 1966. Amer. Ent. Inst., Mem. 8: 261 (generic syn.).

— Heinrich, 1972. Nat. Canad. 99: 184-190 (keys to spp. of e. N. Amer.).

anator (Fabricius). Que. s. to Pa., w. to Minn. and Ill.; Europe. Host: *Ostrinia nubilalis* (Hbn.)?

Ichneumon anator Fabricius, 1793. Ent. System., v. 2, p. 169. Sex not indicated.

Ichneumon femoratorius Thunberg, 1822; 1824. Acad. Imp. des Sci. St. Petersburg, Mem. 8: 253; 9: 289. [female].

Ichneumon bulimorioides Thunberg, 1822; 1824. Acad. Imp. des Sci. St. Petersburg, Mem. 8: 255; 9: 295. [female].

Ichneumon dealbator Thunberg, 1822; 1824. Acad. Imp. des Sci. St. Petersburg, Mem. 8: 272; 9: 341. Unnecessary n. name for *I. anator* Fabricius, which was not preocc. in *Ichneumon* by *Bracon anator* Fabricius.

Ichneumon retusorius Thunberg, 1922; 1924. Acad. Imp. des Sci. St. Petersburg, Mem. 8: 278; 9: 355. [male].

Ichneumon helvipes Cresson, 1867. Amer. Ent. Soc., Trans. 1: 310. ♂.

Phygadeuon niger Provancher, 1876. Nat. Canad. 8: 317. ♀. Preocc. by Provancher, 1874.

Phygadeuon ater (!) Provancher, 1878. Nat. Canad. 10: 299. Lapsus for *P. niger* Provancher, 1876.

Phygadeuon electus Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 51. "♀" = ♂.

Taxonomy: Roman, 1912. Zool. Bidr. Uppsala 1: 240, 249, 255, 277 (syn.). — Heinrich, 1953. Wash. Acad. Sci. Jour. 43: 149. — Heinrich, 1959. Canad. Ent. 91: 806. — Heinrich, 1962. Canad. Ent. Sup. 26: 621-622.

archboldi Heinrich. Fla.

Barichneumon archboldi Heinrich, 1972. Nat. Canad. 99: 196. ♂, ♀.

californicus Heinrich. Calif., Hawaii.

Barichneumon californicus Heinrich, 1971. Nat. Canad. 98: 1013. ♀.

carolinensis Heinrich. N. C., Ga., Fla., La.

Barichneumon neosorex Heinrich, 1972. Nat. Canad. 99: 195. ♂, ♀.

peramoenus calliandros Heinrich. Fla.

Barichneumon peramoenus calliandros Heinrich, 1972. Nat. Canad. 99: 193. ♂, ♀.

peramoenus peramoenus (Heinrich). Que. s. to Ga., w. to Mich. and La.

Melanichneumon peramoenus Heinrich, 1962. Canad. Ent. Sup. 26: 631. ♂. Heinrich was uncertain as to the subgeneric placement of this species.

Taxonomy: Heinrich, 1972. Nat. Canad. 99: 192-193 (female described).

seticornutus Heinrich. Ga.

Barichneumon seticornutus Heinrich, 1971. Nat. Canad. 98: 1011. ♂, ♀.

sorex (Heinrich). Que. s. to Ga., w. to Mich. Heinrich (1972) said that *sorex* is "probably [a] synonym or subspecies of *libens* [(Cresson)]," and that the allotype male may actually be *B. sphageti* Heinrich.

Melanichneumon (*Barichneumon*) *sorex* Heinrich, 1962. Canad. Ent. Sup. 26: 624. ♀ (♂ misdet.?).

Taxonomy: Heinrich, 1972. Nat. Canad. 99: 186, 190, 191, 194.

soror (Cresson). Que. s. to Del., w. to Mich.

Ichneumon soror Cresson, 1864. Ent. Soc. Phila., Proc. 3: 185. ♀.

Ichneumon bimaculatus Provancher, 1888. Addit. Corr. Faune Ent. Canada Hym., p. 357.

♂. Preocc. by Schrank, 1776; Gmelin, 1790; Christ, 1791; and Fabricius, 1793.

Ichneumon bimacularis Dalla Torre, 1902. Cat. Hym., v. 3, p. 863. N. name for *I. bimaculatus* Provancher.

sphageti Heinrich. Maine, N. Y., Miss. Ecology: The holotype was collected in a spruce (*Picea mariana*) bog.

Barichneumon sphageti Heinrich, 1971. Nat. Canad. 98: 1008. ♀.

Taxonomy: Heinrich, 1972. Nat. Canad. 99: 194-195.

Genus VULGICHNEUMON Heinrich

Melanichneumon subg. *Vulgichneumon* Heinrich, 1961 (1960). Canad. Ent. Sup. 15: 17.
Type-species: *Ichneumon brevicinctus* Say. Monotypic and orig. desig.

Taxonomy: Heinrich, 1968 (1967). Synopsis and Reclassif. Ichneumoninae Stenopneusticae Africa So. of Sahara, v. 3, p. 615-616 (placement in Pterocormina [=Ichneumonina sensu Heinrich]). — Heinrich, 1971. Nat. Canad. 98: 1014 (placement in Gyrodontina [=Cratichneumonina]).

albomarginatus (Cresson). Que., Maine, N. H., Vt., N. Y., N. J., Ont., Mich., Ohio, Ind., Miss. *Ichneumon albomarginatus* Cresson, 1867. Amer. Ent. Soc., Trans. 1: 297. ♂.

brevicinctus (Say). Que. w. to B. C., s. to Fla., Tex., and Calif. Host: *Achatodes zae* (Harris), *Bleptina* sp., *Callopistria floridensis* (Gn.), *Lascoria ambigualis* (Wlk.), *Macronoctua onusta* (Grt.), *Plathypena scabra* (F.), *Pseudaletia unipuncta* (Haw.), *Trichoplusia ni* (Hbn.), *Ostrinia nubilalis* (Hbn.), *Hyphantria cunea* (Drury).

Ichneumon brevicinctus Say, 1825. Amer. Ent. 2: 49. ♂.

Ichneumon extrematus Cresson, 1864. Ent. Soc. Phila., Proc. 3: 149. ♀.

Ichneumon extrematalis (?) Cresson, 1867. Amer. Ent. Soc., Trans. 1: 290.

Phygadeuon niger Provancher, 1874. Nat. Canad. 6: 280. ♀.

heleiobatos (Porter). N. J., Mich. Ecology: This species has been collected only in and around swamps where the vegetation was predominantly grasses interspersed with *Salix* bushes.

Melanichneumon (Vulgichneumon) heleiobatos Porter, 1964. Psyche 71: 130. ♂, ♀.

mimicus (Cresson). Newfoundland (insular), Que., Maine, Mass., Conn., N. Y., Mich., S. Dak., Idaho, Oreg.

Ichneumon mimicus Cresson, 1867. Amer. Ent. Soc., Trans. 1: 300. ♂.

phaeogenops Heinrich. N. C., Fla., Miss.

Vulgichneumon phaeogenops Heinrich, 1972. Nat. Canad. 99: 209. ♂, ♀.

saevus (Cresson). Maine, N. Y., R. I., Ill.

Ichneumon saevus Cresson, 1867. Amer. Ent. Soc., Trans. 1: 296. ♀.

subcyaneus (Cresson). Que. s. to Ga., w. to B. C. and Calif.; Mexico? Host: *Diacrisia virginica* (F.), *Hyphantria cunea* (Drury), *Tyria jacobaeae* (L.).

Ichneumon pullatus Cresson, 1864. Ent. Soc. Phila., Proc. 3: 146. ♂.

Ichneumon solitus Cresson, 1877. Amer. Ent. Soc., Trans. 6: 144. ♀. N. syn.

Ichneumon odiosus Cresson, 1877. Amer. Ent. Soc., Trans. 6: 145. ♂. N. syn.

Ichneumon neutralis Cresson, 1877. Amer. Ent. Soc., Trans. 6: 149. ♂. N. syn.

Taxonomy: Heinrich, 1959. Ent. News 70: 212. — Townes and Townes, 1966. Amer. Ent. Inst., Mem. 8: 264 (oversight of Heinrich [1959]).

terminalis (Cresson). Que. s. to N. C., w. to Minn. and Mo.

Ichneumon terminalis Cresson, 1864. Ent. Soc. Phila., Proc. 3: 184. ♀.

Ichneumon finalis Cresson, 1867. Amer. Ent. Soc., Trans. 1: 302. “♀” = ♂.

Mesostenus apicalis Provancher, 1875. Nat. Canad. 7: 266. ♂.

Phygadeuon brevicaudus Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 54. ♀.

Melanichneumon (Vulgichneumon) terminalis carolinensis Heinrich, 1962. Canad. Ent. Sup. 26: 619. ♀. N. syn.

zebratus (Cresson). N. Y. w. to s. B. C., s. to Ga., Tex., and Calif. Host: *Prochoerodes forficaria* (Gn.).

Ichneumon zebratus Cresson, 1867. Amer. Ent. Soc., Trans. 1: 299. ♀.

Genus RICHTICHNEUMON Heinrich, n. status?

Melanichneumon subg. *Richtichneumon* Heinrich, 1961 (1960). Canad. Ent. Sup. 15: 17.
Type-species: *Ichneumon residuus* Say. Monotypic and orig. desig.

belfragei (Cresson), n. comb. La., Tex., e. Wyo., s. w. Utah. The discovery of two females in the collection of the U. S. Natl. Museum shows that this species should be removed from *Melanichneumon* (see Heinrich, 1959) and placed in *Richtichneumon* by virtue of general agreement with Heinrich's definition of the latter.

Ichneumon Belfragei Cresson, 1872. Amer. Ent. Soc., Trans. 4: 156. ♂.

residuus (Say). Mass. s. to Md., w. to N. Dak. and Kans. Host: *Alsophila pometaria* (Harris).

Ichneumon residuus Say, 1829. Contrib. Maclurian Lyceum to Arts and Sci. 1: 73. ♀.

Ichneumon utilis Cresson, 1867. Amer. Ent. Soc., Trans. 1: 311. ♂.

Platylabus (Colocnema?) omniferrugineus Viereck, 1905. Kans. Acad. Sci., Trans. 19: 322. ♀.

Taxonomy: Cushman and Gahan, 1921. Ent. Soc. Wash., Proc. 23: 167.

virginicus (Cresson). W. Va.

Ichneumon virginicus Cresson, 1864. Ent. Soc. Phila., Proc. 3: 165. ♂.

Ichneumon ornatipes Cresson, 1867. Amer. Ent. Soc., Trans. 1: 294. ♂.

Genus STENOBARICHNEUMON Heinrich

Stenobarichneumon Heinrich, 1961 (1960). Canad. Ent. Sup. 15: 16.

Type-species: *Ichneumon citator* Thunberg. Monotypic and orig. desig.

This is a small genus of Holarctic and Neotropic distribution.

agitator Heinrich. Que., Maine, Ont., Mich.

Stenobarichneumon agitator Heinrich, 1962. Canad. Ent. Sup. 26: 639. ♂, ♀.

duplicans Heinrich. Maine.

Stenobarichneumon duplicans Heinrich, 1962. Canad. Ent. Sup. 26: 638. ♂, ♀.

melanocephalus Heinrich. Newfoundland (insular).

Stenobarichneumon melanocephalus Heinrich, 1976 (1975). Nat. Canad. 102: 770. ♂.

pergracilis Heinrich. Newfoundland (insular), Que., Maine, Ont., Mich.

Stenobarichneumon pergracilis Heinrich, 1962. Canad. Ent. Sup. 26: 635. ♂, ♀.

pygmaeops Heinrich. Newfoundland (insular), Que., Maine, Ont., Mich.

Stenobarichneumon pygmaeops Heinrich, 1962. Canad. Ent. Sup. 26: 637. ♂, ♀.

Stenobarichneumon pygmaeops insulanus Heinrich, 1976 (1975). Nat. Canad. 102: 771. ♂, ♀. N. syn. The specimens in the type series, which are from two localities in insular Newfoundland, were described as showing, "on the average, a markedly increased melanism in comparison with populations from the type locality ([Dryden], Maine)."

saunderi (Cresson). Que., Maine, N. Y., Alta.

Ichneumon Saunderi Cresson, 1877. Amer. Ent. Soc., Trans. 6: 141 (key), 177, 211 (index).

♂. The spelling *Saunderii* appears on pages 177 and 211, but Walkley (1958) appears to have chosen the alternate spelling *Saunderi*.

Taxonomy: Walkley, 1958. In Krombein et al., U. S. Dept. Agr., Agr. Monog. 2, sup. 1, p. 49.

Genus MENKOKIA Heinrich

Melanichneumon subg. *Menkokia* Heinrich, 1934. Berlin Zool. Mus., Mitt. 20: 209.

Type-species: *Melanichneumon (Menkokia) major* Heinrich. Orig. desig.

This genus is Oriental and Nearctic. Heinrich (1969, 1971) placed the genus in the Pterocorina, but I doubt that he is correct.

Taxonomy: Heinrich, 1969 (1968). Synopsis and Reclassif. Ichneumoninae Stenopneusticae

Africa So. of Sahara, v. 5, p. 1147. — Heinrich, 1971. Nat. Canad. 98: 971-973.

blandii (Cresson). N. Y. s. to N. C., w. to Mich., Kans., and Ark.

Ischnus blandii Cresson, 1864. Ent. Soc. Phila., Proc. 3: 188. ♂.

Genus RUBICUNDIELLA Heinrich

Rubicundiella Heinrich, 1961 (1960). Canad. Ent. Sup. 15: 15.

Type-species: *Ichneumon mucronatus* Provancher. Monotypic and orig. desig.

annulicornis (Ashmead). N. J., Ga., Fla., Mich., La. Host: *Plathypena scabra* (F.), *Hellula rogatalis* (Hulst), *Herpetogramma* sp., *Udea rubigalis* (Gn.).

Colpognathus annulicornis Ashmead, 1890 (1889). U. S. Natl. Mus., Proc. 12: 396. ♀.
blanchardi (Davis). Que., Maine, N. H., Mass., Mich.

Ichneumon blanchardi Davis, 1898 (1897). Amer. Ent. Soc., Trans. 24: 350. ♀.

Ichneumon blanchardii Dalla Torre, 1902. Cat. Hym., v. 3, p. 865. Emend.

deuteromelas Heinrich. Maine, Mich., Yukon.

Rubicundiella deuteromelas Heinrich, 1962. Canad. Ent. Sup. 26: 573. ♂.

mucronata (Provancher). Que., Md., Kans.

Ichneumon mucronatus Provancher, 1875. Nat. Canad. 7 (1): 24 (key); 7 (3): 81. "♀" = ♂.

perturbatrix Heinrich. Maine w. to Oreg. s. to Ga., s. Tex., and Calif.; Bermuda; Hawaii. Host: *Ostrinia nubilalis* (Hbn.), *Macrococtua onusta* Grt., *Spodoptera exigua* (Hbn.).

Ichneumon rubicundus Cresson, 1864. Ent. Soc. Phila., Proc. 3: 176. ♀. Preocc. by Geoffroy, 1785.

Rubicundiella perturbatrix Heinrich, 1962. Canad. Ent. Sup. 26: 577. N. name for *I. rubicundus* Cresson.

Rubicundiella perturbans(!) Heinrich, 1972. Nat. Canad. 99: 195.

Biology: Wishart, 1949 (1948). Canad. Ent. 80: 118-137.

simplicior Heinrich. Southern Sask., s. w. B. C., w. Oreg. Host: *Fishia discors* (Grt.), *Heliothis ononis* (D. and S.), *Synanthedon bibionipennis* (Bdv.).

Rubicundiella simplicior Heinrich, 1962. Canad. Ent. Sup. 26: 575. ♂, ♀.

Genus LIMONETHE Townes

Limonethe Townes, 1946. Bol. Ent. Venezolana 5: 56.

Type-species: *Ichneumon insolens* Cresson. Orig. desig.

maurator (Brulle). Que. s. to Fla., w. to Minn. and Tex.

Joppa maurator Brulle, 1846. In Lepeletier, Hist. Nat. Ins. Hym., v. 4, p. 287. ♂, ♀.

Ichneumon insolens Cresson, 1867. Amer. Ent. Soc., Trans. 1: 302. ♂, ♀.

Joppa Canadensis Provancher, 1874. Nat. Canad. 6: 336. ♀.

Tetragonochora mauratrix Schulz, 1906. Spolia Hym., p. 129. Emend.

Genus CARINODES Hancock

Carinodes Hancock, 1926. Entomologist 59: 189.

Type-species: *Carinodes spinosus* Hancock. Monotypic and orig. desig.

Ditremops Townes, 1946. Bol. Ent. Venezolana 5: 52.

Type-species: *Ichneumon abjectus* Cresson. Orig. desig.

This is a very large genus. Except for the two species with ranges that extend into the United States, *Carinodes* is Neotropic.

Taxonomy: Walkley, 1958. In Krombein et al., U. S. Dept. Agr., Agr. Monog. 2, Sup. 1, p. 48-49 (syn.). —Fitton, 1975. Stud. Ent. 18: 381 (holotype of *C. spinosus* Hancock found).

albipectus (Brulle). Fla.; Cuba, Jamaica.

Ichneumon albipectus Brulle, 1846. In Lepeletier, Hist. Nat. Ins. Hym., v. 4, p. 306. ♂.

Ichneumon burrus Cresson, 1865. Ent. Soc. Phila., Proc. 4: 14. ♀.

Taxonomy: Townes and Townes, 1966. Amer. Ent. Inst., Mem. 8: 255 (syn.).

havanensis (Cameron). Fla.; Cuba, Puerto Rico, St. Croix. Host: *Anticarsia gemmatalis* Hbn.

The host record pertains to a Cuban specimen in the U. S. Natl. Museum collection.

Ichneumon(?) *havanensis* Cameron, 1906. Cuba, Estac. Expt. Agron., Informe, p. 277. ♂.

Taxonomy: Heinrich, 1937. Ann. and Mag. Nat. Hist. (10) 20: 262.

Genus AOPLUS Tischbein

Aoplus Tischbein, 1874. Stettin. Ent. Ztg. 35: 137.

Type-species: *Aoplus inermis* Tischbein. Monotypic.

Trachichneumon Viereck, 1912. U. S. Natl. Mus., Proc. 42: 645.

Type-species: *Ichneumon confirmatus* Cresson. Monotypic and orig. desig.

- cestus** (Cresson). Idaho, B. C., Wash., Oreg. Host: *Lambdina fiscellaria lugubrosa* (Hulst), *Melanolophia imitata* (Wlk.).
Ichneumon cestus Cresson, 1877. Amer. Ent. Soc., Trans. 6: 182. ♀.
Platylabus opacitus Davis, 1898 (1897). Amer. Ent. Soc., Trans. 24: 353. ♂.
- confirmatus** (Cresson). Que. s. to Ga., w. to Colo.
Ichneumon confirmatus Cresson, 1877. Amer. Ent. Soc., Trans. 6: 178. ♀.
Phygadeuon potens Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 47. ♀.
Phygadeuon jocosus Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 53. ♀.
 This name was based upon the same type-specimen or specimens as was *P. potens*
 Provancher, the latter being the name Provancher used in his key.
- groenlandicus** (Lundbeck). Greenland.
Ichneumon groenlandicus Lundbeck, 1897 (1896). Dansk Naturhist. For. Kjøbenhavn,
 Vidensk. Meddel., p. 223. ♀.
- Taxonomy: Townes, 1961. Ent. Soc. Wash., Proc. 63: 108 (generic placement).
- limbatae** Heinrich. Mich., B. C. Host: *Nematoecampa filimentaria* Gn.
Aoplus limbatae Heinrich, 1962. Canad. Ent. Sup. 26: 542. ♂, ♀.
- mathewi** (Cameron). Southwestern B. C.
Ichneumon mathewi Cameron, 1907. Entomologist 40: 277. ♂.
- melanicus** Heinrich. Ont., Yukon.
Aoplus melanicus Heinrich, 1962. Canad. Ent. Sup. 26: 547. ♀.
- moilietti** Heinrich. Alta. Host: *Enypia griseata* Grossb.
Aoplus moilietti Heinrich, 1962. Canad. Ent. Sup. 26: 544, 671. ♀. The name is a misspelling
 of a host name now in synonymy with *E. griseata*; the name appears as "moiletti
 Cress." on p. 671 (index).
- monotonus** Heinrich. Colo., Alta., B. C., Wash., Oreg., Calif. Host: Geometrid on *Polygonum*.
Aoplus monotonus Heinrich, 1962. Canad. Ent. Sup. 26: 548. ♂, ♀.
- ochropis** coloradensis Heinrich. Newfoundland (insular), Que., Colo., Alta.
Aoplus ochropis coloradensis Heinrich, 1962. Canad. Ent. Sup. 26: 556. ♂, ♀.
- ochropis ochropis** (Gmelin). Alaska; Eurasia.
Ichneumon ochropis Gmelin, 1790. In Linnaeus, Syst. Nat., ed. 13, p. 2679. Sex not
 indicated.
Melanichneumon seldoviae Ashmead, 1902. Wash. Acad. Sci., Proc. 4: 155. ♂.
- permutabilis** Heinrich. Newfoundland (insular), s. to Md., w. to Mich. and Mo.
Aoplus permutabilis permutabilis Heinrich, 1962. Canad. Ent. Sup. 26: 541. ♂, ♀.
Aoplus permutabilis leucorbis Heinrich, 1962. Canad. Ent. Sup. 26: 542. ♀.
- pseudovelox** Heinrich. Que., Maine, N. H., N. Y., Pa., Ont., Mich., Alta.
Aoplus pseudovelox Heinrich, 1962. Canad. Ent. Sup. 26: 556. ♂, ♀.
- rarior** Heinrich. Que., Ont.
Aoplus rarior Heinrich, 1962. Canad. Ent. Sup. 26: 546. ♀.
- ruficeps sitkensis** (Ashmead). Newfoundland (insular) w. to Alaska, s. to Maine, Mich., Colo.,
 and Wash. Host: *Macaria* sp., *Rheumaptera hastata* (L.). *A. ruficeps ruficeps*
 (Gravenhorst) is Eurasian.
Ichneumon vagans Provancher, 1875. Nat. Canad. 7 (1): 22 (key); 7 (2): 51. ♂. N. syn.;
 preocc. by Olivier, 1792.
Ichneumon sitkensis Ashmead, 1902. Wash. Acad. Sci., Proc. 4: 152. ♂.
Ichneumon simulator Ashmead, 1902. Wash. Acad. Sci., Proc. 4: 153. ♂. Uncertain syn.;
 preocc. by Olivier, 1792.
- Taxonomy: Heinrich, 1959. Ent. News 70: 211 (syn.).
- thujarum** Heinrich. Que., Ont.
Aoplus thujarum Heinrich, 1962. Canad. Ent. Sup. 26: 543. ♀.
- torpidus** (Wesmael). Newfoundland (insular), Que., Maine, Ont., Mich., Alta.; Europe.
Ichneumon torpidus Wesmael, 1857. [Brussels] Acad. Roy. de Belg., Bul. 24: 385. ♀.

velox (Cresson). Newfoundland (insular) w. to Alaska, s. to Pa., Ill., Colo., and Calif. Host: *Lambdina fervidaria athasaria* (Wlk.), *L. fiscellaria fiscellaria* (Gn.), *L. fiscellaria lugubrosa* (Hulst), *Nepytia canosaria* (Wlk.), *Symmerista leucitys* Franel. *Ichneumon velox* Cresson, 1864. Ent. Soc. Phila., Proc. 3: 185. ♀. *Ichneumon puerilis* Cresson, 1867. Amer. Ent. Soc. Trans. 1: 296. ♂. *Ichneumon mellicorus* Provancher, 1875. Nat. Canad. 7 (1): 21 (key); 7 (2): 48. ♂. *Phygadeuon apicatus* Provancher, 1875. Nat. Canad. 7 (6): 180. ♀. *Phygadeuon cressoni* Provancher, 1876. Nat. Canad. 8: 318. ♀. *Ichneumon occidentalis* Harrington, 1894. Canad. Ent. 26: 210. ♀.

Biology: Schedl, 1931. Ztschr. f. Angew. Ent. 8: 270-273.

Genus HEMIHOPLIS Heinrich

Hemihoplis Heinrich, 1961 (1960). Canad. Ent. Sup. 15: 15.

Type-species: *Hoplismenus teres* Swift. Monotypic and orig. desig. **teres** (Swift). N. Y. s. to Fla., w. to Mich., Ill., and La. Host: *Precis lavinia* Cr. *Hoplismenus teres* Swift, 1946. Ent. Soc. Amer., Ann. 39: 409.

Genus PLATYLABOPS Heinrich

Platylabops Heinrich, 1950. Naturw. Mus. Aschaffenburg, Mitt. d. Sammelstelle f.

Schmarotzerbestimmung 27: 4.

Type-species: *Platylabops hinzi* Heinrich. Monotypic.

This is a small Holarctic genus.

apricus nearcticus Heinrich. Maine, N. Y. P. *apricus apricus* (Gravenhorst) is European. *Platylabops apricus nearcticus* Heinrich, 1962. Canad. Ent. Sup. 26: 648. ♂, ♀.

eupitheciarum Heinrich. Alta., B. C. Host: *Eupithecia oruata* (Hulst), *E. placidata* Tay., *E. unicolor* (Hulst).

Platylabops eupitheciarum Heinrich, 1962. Canad. Ent. Sup. 26: 648. ♂.

fraterculus Heinrich. Newfoundland (insular), Maine, Vt., N. Y.

Platylabops fraterculus Heinrich, 1962. Canad. Ent. Sup. 26: 644. ♂, ♀.

holoerythrus Heinrich. Newfoundland (insular), B. C. Host: *Eupithecia transcanadata* MacK. *Platylabops holoerythrus* Heinrich, 1962. Canad. Ent. Sup. 26: 645. ♀.

Taxonomy: Heinrich, 1976 (1975). Nat. Canad. 102: 771-772 (male described).

leucopsis (Ashmead). Wash., Oreg., Calif. According to Riley and Howard (1890), the holotype was reared from a "Tortricid pupa on oak."

Ichneumon leucopsis Ashmead, 1890 (1889). U. S. Natl. Mus., Proc. 12: 391. ♂.

Biology: Riley and Howard, 1890. U. S. Dept. Agr., Insect Life 3: 152.

novaescotiae Heinrich. Newfoundland (insular), N. S. Heinrich (1976) made a subspecific distinction between the two specimens from which this species is known.

Platylabops pecki novaescotiae Heinrich, 1962. Canad. Ent. Sup. 26: 643. ♀.

Platylabops novaescotiae (?) Peck, 1964. In Heinrich, Ent. Soc. Canada, Mem. 35: 918.

Platylabops novaescotiae nigrimembris Heinrich, 1976 (1975). Nat. Canad. 102: 773. ♀. N. syn.

pecki Heinrich. Sask.

Platylabops pecki pecki Heinrich, 1962. Canad. Ent. Sup. 26: 642. ♂, ♀.

Taxonomy: Heinrich, 1976 (1975). Nat. Canad. 102: 773.

UNPLACED TAXA OF GYRODONTINA

Ichneumon limbifrons Cresson, 1864. Ent. Soc. Phila., Proc. 3: 182. ♂. Colo.

Taxonomy: Townes, 1944. Amer. Ent. Soc., Mem. 11: 326.

Ichneumon pectoralis Say, 1829. Contrib. Maclurian Lyceum to Arts and Sci. 1: 72. ♂.

Southwestern Ind. Heinrich (1961) misinterpreted Say's use of the term pectus. In his writings on Hymenoptera, Say used both the terms pectus and postpectus, and it

consequently seems evident that his usage of pectus is essentially synonymous with mesosternum. In his statement that the pectus of *pectoralis* is "black with a large yellow spot between the intermediate and posterior feet," Say presumably intended to write: intermediate and anterior feet.

Taxonomy: Say, 1836. Boston Jour. Nat. Hist. 1: 231 (coloration of propodeum). —Cushman and Gahan, 1921. Ent. Soc. Wash., Proc. 23: 166. —Heinrich, 1961 (1960). Canad. Ent. Sup. 18: 172-173.

Ichneumon vultus Cresson, 1864. Ent. Soc. Phila., Proc. 3: 165. ♂. Colo.

Taxonomy: Townes, 1944. Amer. Ent. Soc., Mem. 11: 332.

SUBTRIBE AMBLYTELESINA

All available evidence seems to indicate that the females of species in this subtribe oviposit into the host larva rather than the pupa. In some of the genera, inseminated adult females are apparently the only overwintering life stage.

Genus ECTOPIMORPHA Viereck

Ectopimorpha Viereck, 1912. U. S. Natl. Mus., Proc. 43: 589

Type-species: *Ichneumon anceps* Cresson. Monotypic and orig. desig.

This genus is apparently restricted to the Nearctic Region.

boops Heinrich. Calif.

Ectopimorpha boops Heinrich, 1961. Canad. Ent. Sup. 23: 494. ♂.

californica Heinrich. Calif.

Ectopimorpha californica Heinrich, 1961. Canad. Ent. Sup. 23: 486. ♀.

hiulea (Cresson). B. C. Known only from the holotype which, according to Cresson (1879), was collected at "Lake Lahache" (i.e. Lac la Hache), B. C.

Amblyteles hiuleus Cresson, 1877. Amer. Ent. Soc., Trans. 6: 172. "♂" = ♀.

Taxonomy: Cresson, 1879 (1878). Acad. Nat. Sci. Phila., Proc. 30: 355-356.

hiuliceps Heinrich. Sask., B. C.

Ectopimorpha hiuliceps Heinrich, 1961. Canad. Ent. Sup. 23: 486. ♀.

indemnis (Cresson). Sask., B. C.

Ichneumon indenensis Cresson, 1877. Amer. Ent. Soc., Trans. 6: 172. "♂" = ♀.

limerodops Heinrich. Calif.

Ectopimorpha limerodops Heinrich, 1961. Canad. Ent. Sup. 23: 487. ♀.

luperinae Cushman. Newfoundland (insular), Maine, Mass., N. Y., Mich., Ohio, Iowa, Sask.? Host: *Luperina stipata* (Morr.).

Ectopimorpha luperinae Cushman, 1931. U. S. Natl. Mus., Proc. 79 (14): 1. ♂, ♀.

Biology: Decker, 1930. Iowa Agr. Expt. Sta., Res. Bul. 125: 159. —Decker, 1935. Iowa State Col. Jour. Sci. 9: 571.

scibilis (Cresson). Ill.

Ichneumon scibilis Cresson, 1877. Amer. Ent. Soc., Trans. 6: 183. ♂.

utahensis Heinrich. Utah.

Ectopimorpha utahensis Heinrich, 1961. Canad. Ent. Sup. 23: 493. ♂.

wilsoni (Cresson). Que. s. to Ga., w. to Iowa and Mo.

Ischnus wilsoni Cresson, 1864. Ent. Soc. Phila., Proc. 3: 188. ♂.

Ichneumon anceps Cresson, 1867. Amer. Ent. Soc., Trans. 1: 309. ♀, "♂" = ♀. Preocc. by Villers, 1789.

Ichneumon wilsonii Dalla Torre, 1902. Cat. Hym., v. 3, p. 1017. Emend.

Genus EXEPHANES Wesmael

Exephanes Wesmael, 1845 (1844). [Brussels] Acad. Roy. de Belg., Nouveaux Mem. 18: 17.

Type-species: *Ichneumon hilaris* Gravenhorst. Desig. by Ashmead, 1900.

Octatomus Tischbein, 1881. Stettin. Ent. Ztg. 42: 186.

Type-species: *Octatomus tricolor* Tischbein. Monotypic. The type-species is regarded as a synonym of *E. femoralis* Brischke.

Heinrich (1976) placed *Exephanes* in the Pterocormina, but did not indicate his rationale for doing so.

Taxonomy: Heinrich, 1976 (1975). Nat. Canad. 102: 763.

californicus Heinrich. Colo., Utah, Ariz., Calif.

Exephanes californicus Heinrich, 1961. Canad. Ent. Sup. 23: 480. ♂, ♀.

subfulvus (Cresson). Que.?, Sask., Colo., Alta.

Ichneumon subfulvus Cresson, 1865. Ent. Soc. Phila., Proc. 4: 258. ♀.

terminalis (Provancher). Newfoundland (insular). Que., Maine, Conn., Ont., Mich., Minn., s. N. W. T., Colo.

Phygadeuon terminalis Provancher, 1874. Nat. Canad. 6: 284. ♀.

Ichneumon caudatus Provancher, 1875. Nat. Canad. 7 (1): 24 (key); 7 (3): 82. ♀.

Ichneumon ponilius Provancher, 1877. Nat. Canad. 9: 9. ♂.

Phygadeuon Geddessii Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 54. ♀.

Amblyteles Cookii Ashmead, 1890 (1889). U. S. Natl. Mus., Proc. 12: 392. ♀.

Exephanes terminalis immaculatus Heinrich, 1961. Canad. Ent. Sup. 23: 479. ♂, ♀. N. syn.

Genus LIMERODOPS Heinrich

Limerodops Heinrich, 1949. Muenchner Ent. Gesell., Mitt. 35-39: 44.

Type-species: *Amblyteles subsericans* var. *elongatus* Brischke? Monotypic and, in part, orig. desig. Heinrich's original designation was "*Amblyteles elongatus* Brischke = *A. subsericans* Gr[avenhorst] partim = *A. fossorius* L[innaeus] (nach Roman [1932])." See discussion of type-species of *Probolus*.

This is a small genus of Holarctic distribution.

Taxonomy: Roman, 1932. Ent. Tidskr. 53: 6. — Heinrich, 1953. Wash. Acad. Sci., Jour. 43: 150. — Perkins, 1953. Brit. Mus. (Nat. Hist.) Ent., Bul. 3: 106. — Townes, Momoi, and Townes, 1965. Amer. Ent. Inst., Mem. 5: 503.

belangeri (Cresson). N. S. w. to Alaska, s. to N. Y., Mich., Colo., Wash. Host: *Euxoa divergens* (Wlk.).

Amblyteles Belangeri Cresson, 1877. Amer. Ent. Soc., Trans. 6: 190. ♀.

Cryptus dubius Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 71. "♂" = ♀. Preocc. by Taschenberg, 1865.

Taxonomy: Heinrich, 1953. Wash. Acad. Sci., Jour. 43: 150.

mariannae Heinrich. N. S., Maine, Mass., Ont., Mich.

Limerodops mariannae Heinrich, 1961. Canad. Ent. Sup. 23: 383. ♂, ♀.

Genus NEAMBLYMORPHA Heinrich

Neamblymorphe Heinrich, 1961 (1960). Canad. Ent. Sup. 15: 19.

Type-species: *Ichneumon milvus* Cresson. Monotypic and orig. desig.

A single species is known.

milva (Cresson). Newfoundland (insular) s. to N. C., w. to Mich.

Ichneumon (Ichneumon) milvus Harris, 1835. In Hitchcock, Rpt. Geol. Mineral. Bot. Zool. Mass., Ed. 2, p. 585. Nomen nudum.

Ichneumon milvus Cresson, 1867. Amer. Ent. Soc., Trans. 1: 305. ♂.

Ichneumon Clopini Provancher, 1875. Nat. Canad. 7: 250. ♂.

Genus EUTANYACRA Cameron

Eutanyacra Cameron, 1903. Ent. Soc. London, Trans. 51: 227.

Type-species: *Eutanyacra pallidicoxis* Cameron. Monotypic.

This large genus is Neotropic, Holarctic, and Oriental.

chilcotti Heinrich. Northern Que., N. W. T.

Eutanyacra chilcotti Heinrich, 1956. Canad. Ent. 88: 478. ♂, ♀.

consignata (Cresson). Maine, Mass., N. Y., N. J., Md., W. Va., Ohio, Wis., Ill., Kans.

Ichneumon consignatus Cresson, 1867. Amer. Ent. Soc., Trans. 1: 298. ♂.

hiemans Heinrich. Que., Maine, Pa., Ont., Ohio, Mich.

Eutanyacra hiemans Heinrich, 1961. Canad. Ent. Sup. 23: 436. ♀.

improvisa (Cresson). N. S. s. to Md., w. to B. C. and Oreg. Host: *Anomogyna perquiritata* (Morr.), *Ceramica picta* (Harris).

Ichneumon improvisus Cresson, 1867. Amer. Ent. Soc., Trans. 1: 296. ♂.

Amblyteles tetricus Provancher, 1877. Nat. Canad. 9: 10. ♂, ♀.

Eutanyacra improvisa columbiana Heinrich, 1961. Canad. Ent. Sup. 23: 428. ♂, ♀. N. syn.

melanotarsis Heinrich. Fla., La.

Eutanyacra melanotarsis Heinrich, 1972. Nat. Canad. 99: 173, 176. ♂, ♀. I here reject the alternate spelling *nigritarsis* which appears on p. 173 (abstract).

miraculosa Heinrich. Maine.

Eutanyacra miraculosa Heinrich, 1961. Canad. Ent. Sup. 23: 434. ♀.

munifica (Cresson). N. S. s. to Va., w. to Sask.

Ichneumon nobilis Cresson, 1864. Ent. Soc. Phila., Proc. 3: 155. ♂. Preocc. by Wesmael, 1857.

Ichneumon munificus Cresson, 1867. Amer. Ent. Soc., Trans. 1: 290. N. name for *I. nobilis* Cresson.

Taxonomy: Heinrich, 1971. Nat. Canad. 98: 979-980.

perannulata (Hopper). Que., Maine, N. Y., Pa., W. Va.

Amblyteles perannulatus Hopper, 1938. Amer. Ent. Soc., Trans. 64: 98. ♀.

pycnopus Heinrich. D. C., Ont., Ohio, Iowa, Ark.

Eutanyacra pycnopus Heinrich, 1961. Canad. Ent. Sup. 23: 435. ♂, ♀.

saguenayensis (Provancher). Que., Maine, Mich.

Ichneumon saguenayensis Provancher, 1888. Addit. Corr. Faune Ent. Canada Hym., p. 356. ♂.

solitaria Heinrich. Que., Maine, N. Y., Ont., Mich.

Eutanyacra solitaria Heinrich, 1961. Canad. Ent. Sup. 23: 442. ♂, ♀.

succincta (Brulle). N. Y. s. to Tenn., w. to S. Dak. and Colo. Host: "*Amathes c-nigrum* (L.)."

Ichneumon succinctus Brulle, 1846. In Lepeletier, Hist. Nat. Ins. Hym., v. 4, p. 301. ♂.

Ichneumon sandix Cresson, 1864. Ent. Soc. Phila., Proc. 3: 174. ♀.

suturalis (Say). Newfoundland (Labrador) w. to N. W. T. and B. C., s. to N. J., Iowa, Colo., and Calif. Host: *Actebia fennica* (Tausch.).

Ichneumon (Ichneumon) suturalis Harris, 1835. In Hitchcock, Rpt. Geol. Mineral. Bot. Zool. Mass., Ed. 2, p. 585. Nomen nudum.

Ichneumon suturalis Say, 1836. Boston Jour. Nat. Hist. 1: 226. ♀.

Ichneumon Grotei Cresson, 1864. Ent. Soc. Phila., Proc. 3: 154. ♂.

Ichneumon propinquus Cresson, 1864. Ent. Soc. Phila., Proc. 3: 172. ♀.

Morphology: Peck, 1937. Canad. Jour. Res., Sect. D (Zool. Sci.) 15: 246, 251.

trivittata Heinrich. Que.

Eutanyacra trivittata Heinrich, 1961. Canad. Ent. Sup. 23: 448. ♂, ♀.

valdenigra Heinrich. Northern Que.

Eutanyacra valdenigra Heinrich, 1958. Canad. Ent. 90: 740. ♂.

validiceps Heinrich. Que., Maine, Ont., Mich.

Eutanyacra validiceps Heinrich, 1961. Canad. Ent. Sup. 23: 443. ♂, ♀.

vilissima Heinrich. Que., Maine, Mass., N. Y., Md., W. Va., Ont., Mich.

Eutanyacra vilissima vilissima Heinrich, 1961. Canad. Ent. Sup. 23: 440. ♂, ♀.

Eutanyacra vilissima rubricosa Heinrich, 1961. Canad. Ent. Sup. 23: 441. ♂, ♀. N. syn.

vilissimops Heinrich. Que.

Eutanyacra vilissimops Heinrich, 1971. Nat. Canad. 98: 980. ♀.

Genus SETANTA Cameron

Setanta Cameron, 1901. Ann. and Mag. Nat. Hist. (7) 7: 483.

Type-species: *Setanta rufipes* Cameron. Monotypic.

This genus is apparently Oriental, Neotropic, and Nearctic.

Taxonomy: Townes and Townes, 1966. Amer. Ent. Inst., Mem. 8: 322, 323 (inclusion in key).
compta (Say), n. comb. Que. s. to Ga., w. to S. Dak. and Tex. I am grateful for the advice of

Dr. H. K. Townes regarding the generic placement of this species.

Ichneumon comptus Say, 1836. Boston Jour. Nat. Hist. 1: 229. ♂, ♀.

Ichneumon atrifrons Cresson, 1864. Ent. Soc. Phila., Proc. 3: 157. ♀.

Amblyteles marginatus Provancher, 1882. Nat. Canad. 13: 328. ♀.

Genus NETANYACRA Heinrich

Netanyacra Heinrich, 1968. Nat. Canad. 95: 709.

Type-species: *Netanyacra nuevoleoni* Heinrich. Orig. desig.

This genus is Nearctic and Neotropic. Since *Netanyacra* was described females of at least one of the species have been discovered, but no female of this genus has yet been described in the literature.

arizonae Heinrich. Ariz.

Netanyacra arizonae Heinrich, 1968. Nat. Canad. 95: 716. ♂.

dakotae Heinrich. S. Dak., Alta.

Netanyacra dakotae Heinrich, 1968. Nat. Canad. 95: 714. ♂.

leucopus Heinrich. Va., S. C., Ga., Fla., Ohio, Ky., Tenn., Mo., Ark., Kans., Tex. Host:

Lacinipolia renigera (Steph.).

Eutanyacra leucopus Heinrich, 1968. Nat. Canad. 95: 712. ♂.

Genus DIPHYUS Kriechbaumer

Diphyus Kriechbaumer, 1890. Ent. Nachr. 16: 184. *Diphyus* was probably a typographical error for "Diphyses," a variant spelling which also appeared on page 184 of Kriechbaumer's paper (*Diphyses* appeared subsequently in both the author index [p. IV] and the taxonomic index [p. VIII], but no choice between the two spellings was made in the errata [p. VIII]). Sharp (1892) and Berthoumieu (1896) accepted the spelling *Diphyses*, but Ashmead (1900) appears to have been the first author to have made a choice between the two spellings. It is fortunate that Ashmead selected *Diphyus* instead of *Diphyses* as the latter is preoccupied by Cuvier, 1817.

Type-species: *Diphyus tricolor* Kriechbaumer. Monotypic.

Pseudamblyteles Ashmead, 1900. U. S. Natl. Mus., Proc. 23: 18.

Type-species: *Ichneumon palliatorius* Gravenhorst. Monotypic and orig. desig.

Physcoletes Berthoumieu, 1904. In Wytsman, Gen. Ins., fasc. 18, p. 51.

Type-species: *Ichneumon palliatorius* Gravenhorst. Desig. by Viereck, 1914.

Antelca Morley, 1914. Ann. and Mag. Nat. Hist. (8) 14: 407. Nomen nudum.

This large genus is apparently Neotropic, Holarctic, and Oriental.

Taxonomy: Sharp, 1892 (1890). Zool. Rec. 27: 194. — Berthoumieu, 1896. Soc. Ent. de France, Ann. 65: 291. — Ashmead, 1900. U. S. Natl. Mus., Proc. 23: 17, 210. — Heinrich, 1968 (1967).

Ichneumoninae Stenopneusticae Africa So. of Sahara, v. 3, p. 649-651 (syn.).

allapsus (Cresson), n. comb. Colo., Alta., B. C.

Ichneumon allapsus Cresson, 1865. Ent. Soc. Phila., Proc. 4: 256. ♂.

amoenipes (Heinrich), n. comb. Que., Maine.

Pseudamblyteles amoenipes Heinrich, 1961. Canad. Ent. Sup. 23: 413. ♀.

animosus (Cresson), n. comb. Colo., Alta.

Ichneumon animosus Cresson, 1864. Ent. Soc. Phila., Proc. 3: 164. ♂.

apiculatus (Walkley), n. comb. Colo., Alta., Mont., Wyo., Idaho, Oreg. Host: *Euxoa ochrogaster* (Gn.).

Ichneumon apicalis Cresson, 1864. Ent. Soc. Phila., Proc. 3: 152. ♂. Preocc. by Wiedeman, 1824.

Pseudamblyteles apiculatus Walkley, 1958. In Krombein et al., U. S. Dept. Agr., Agr. Monog. 2, sup. 1, p. 50. N. name for *I. apicalis* Cresson.

bizonatus (Cresson). Que. w. to Alta., s. to Md., Ky., and Colo. Ecology: Labels on four female specimens in the U. S. Natl. Museum collection indicate that they were collected in caves in late July, October, and November in Ky. and Pa.; Dasch (1971) collected a specimen in flight in Ohio during January or February.

Ichneumon bizonatus Cresson, 1864. Ent. Soc. Phila., Proc. 3: 160. ♀.

Biology: Dasch, 1971. Ohio Jour. Sci. 71: 277.

carbo (Heinrich), n. comb. Que., Maine, Ont.

Pseudamblyteles carbo Heinrich, 1961. Canad. Ent. Sup. 23: 407. ♂, ♀.

cockerelli (Viereck), n. comb. Colo., N. Mex.

Cratichneumon cockerelli Viereck, 1903. In Skinner, Amer. Ent. Soc., Trans. 29: 76. ♂.

Cratichneumon skinneri Viereck, 1903. In Skinner, Amer. Ent. Soc., Trans. 29: 78. ♂.

comes (Cresson), n. comb. N. Y., Pa., Del., Mich., Ill. Heinrich failed to include this species in his 1961 treatment of *Pseudamblyteles*; in a supplement to that work, Heinrich (1969) gave a redescription of the male of *comes* based upon the "holotype" from "no locality," and a specimen from Pa.; in the original description Cresson indicated that he had specimens from Ill. and Del., and Cresson (1916) selected a lectotype from Illinois which was "in good condition." The specimen referred to as the "holotype" by Heinrich (1969) had the "Sternites and hypopygium destroyed by dermestids."

Ichneumon comes Cresson, 1864. Ent. Soc. Phila., Proc. 3: 158. ♂.

Taxonomy: Cresson, 1916. Amer. Ent. Soc., Mem. 1: 24. — Heinrich, 1969. Nat. Canad. 96: 956-957.

discus (Cresson), n. comb. Colo.

Ichneumon discus Cresson, 1864. Ent. Soc. Phila., Proc. 3: 168. ♂.

distinctipes (Heinrich). Que., Maine, N. Y., Md., N. C., Ont., Mich., Ohio, Ark. Ecology: Dasch (1971) collected a female in flight during January or February in Ohio.

Pseudamblyteles distinctipes Heinrich, 1961. Canad. Ent. Sup. 23: 409. ♀.

effigialis (Heinrich), n. comb. N. B., Que., Maine, Ont., Mich.

Pseudamblyteles effigialis Heinrich, 1961. Canad. Ent. Sup. 23: 407. ♂, ♀.

euxoae Heinrich, n. status. Maine, Colo., N. Mex., Alta., B. C., Wash. Host: *Euxoa messoria* (Harris), *E. ochrogaster* (Gn.).

Ichneumon variegatus Cresson, 1864. Ent. Soc. Phila., Proc. 3: 153. ♂. Preocc. by Schrank, 1785 and Gmelin, 1790.

Diphyus variegatus euxoae Heinrich, 1969. Nat. Canad. 96: 960. ♂, ♀. N. syn.; because Heinrich's treatment of *euxoae* as a subspecies of *variegatus* was tentative, this synonymy is also tentative.

Diphyus variegatus orientis Heinrich, 1969. Nat. Canad. 96: 962. ♀. N. syn.; based upon a single female with "only slight" differences from females in the type series of *euxoae*.

Morphology: Peck, 1937. Canad. Jour. Res., Sect. D. (Zool. Sci.) 15: 246, 249, 251.

ferrugator (Swederus), n. comb. N. Amer.

Ichneumon ferrugator Swederus, 1787. Svenska Vetensk.-Akad., Handl. 8: 280. ♀ ("male" misdet., = *Spilichneumon* female).

Taxonomy: Townes, 1961. Ent. Soc. Wash., Proc. 63: 107.

flebilis (Cresson). Que., Maine, N. H., Ont., Mich.

Ichneumon flebilis Cresson, 1877. Amer. Ent. Soc., Trans. 6: 181. ♀.

interstinctus (Heinrich). Que., Maine, N. H., Ont., Mich.

Pseudamblyteles interstinctus Heinrich, 1961. Canad. Ent. Sup. 23: 410. ♀.

Pseudamblyteles interdistinctus (!) Walkley, 1967. In Krombein et al., U. S. Dept. Agr., Agr. Monog. 2, sup. 2, p. 154.

macilentus (Cresson), n. comb. Mich., Colo., Alta. Although this species had been recorded from Mich. by Townes and Townes (1951), it was not included in Heinrich's (1961-1962) treatment of the stenopneusticæ of the Northeast.

Ichneumon macilentus Cresson, 1865. Ent. Soc. Phila., Proc. 4: 249. ♂.

Taxonomy: Townes and Townes, 1951. In Muesebeck et al., U. S. Dept. Agr., Agr. Monog. 2: 293.

mieramoenus (Heinrich), n. comb. Maine.

Pseudamblyteles mieramoenus Heinrich, 1961. Canad. Ent. Sup. 23: 420. ♀.

nigrotergops (Heinrich), Que., Maine, Ont.

Pseudamblyteles nigrotergops Heinrich, 1961. Canad. Ent. Sup. 23: 417. ♀.

Diphysa nigritergops (?) Heinrich, 1969. Nat. Canad. 96: 955.

nuncius (Cresson), n. comb. Oreg., Calif. Host: *Euxoa (Chorizagrotis) auxiliaris* (Grote).

Ichneumon nuncius Cresson, 1877. Amer. Ent. Soc., Trans. 6: 176. ♂.

ontariensis (Provancher), n. comb. Ont. This species was not included in Heinrich's (1961-1962) treatment of the stenopneusticæ of the Northeast.

Ichneumon Ontariensis Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 30.
"♀" = ♂.

ormenus (Cresson). Newfoundland (insular) w. to Alaska, s. to Pa., Mich., N. Mex., and Wash.

Ichneumon Ormenus Cresson, 1864. Ent. Soc. Phila., Proc. 3: 141. ♀.

Ichneumon tenebrosus Cresson, 1864. Ent. Soc. Phila., Proc. 3: 145. ♂. Preocc. by Wesmael, 1845.

Ichneumon luctus Cresson, 1865. Ent. Soc. Phila., Proc. 4: 250. N. name for *I. tenebrosus* Cresson.

Ichneumon mellipes Cresson, 1867. Amer. Ent. Soc., Trans. 1: 295. ♂.

Ichneumon Quebecensis Provancher, 1875. Nat. Canad. 7 (1): 24 (key); 7 (3): 77. ♂.

Pseudamblyteles neomexicanus Ashmead, 1901. Psyche 9: 147. ♂.

populorum (Heinrich), n. comb. Sask., Alta. Host: *Brachylonia populi* (Stkr.).

Pseudamblyteles populorum Heinrich, 1961. Canad. Ent. Sup. 23: 418. ♂, ♀.

provancheri (Cushman), n. comb. Que., Maine, Md., Va., Ont., Mich., Mo.

Ichneumon bifasciatus Provancher, 1875. Nat. Canad. 7 (1): 23 (key); 7 (3): 75. ♀. Preocc. by Geoffroy, 1785 and Say, 1829.

Amblyteles provancheri Cushman, 1925. Wash. Acad. Sci., Jour. 15: 388. N. name for *I. bifasciatus* Provancher.

robustus (Cresson). Que. w. to Alaska, s. to Maine, Mich., Colo., and Idaho.

Ichneumon robustus Cresson, 1867. Amer. Ent. Soc., Trans. 1: 298. ♀.

rubellus (Cresson). Colo., Alta., Wash., Calif.

Ichneumon rubellus Cresson, 1865. Ent. Soc. Phila., Proc. 2: 254. ♂. Preocc. by Gmelin, 1790; not renamed here because of the very great likelihood that other Cresson names will prove to be synonyms.

Taxonomy: Heinrich, 1959. Ent. News 70: 211.

subfuscus (Cresson), n. comb. Colo.

Ichneumon subfuscus Cresson, 1864. Ent. Soc. Phila., Proc. 3: 173. ♀.

taylorii (Harrington), n. comb. B. C., Oreg.

Ichneumon Taylorii Harrington, 1894. Canad. Ent. 26: 209. ♂.

walleyi (Heinrich), n. comb. Ont.

Pseudamblyteles walleyi Heinrich, 1961. Canad. Ent. Sup. 23: 416. ♀.

zebraticolor (Heinrich). Que., Maine, Ont.

Pseudamblyteles zebraticolor Heinrich, 1962. Canad. Ent. Sup. 29: 882. ♂.

Genus CTENICHNEUMON Thomson

Ctenichneumon Thomson, 1894. Opusc. Ent. 19: 2082.

Type-species: *Ichneumon funereus* Gravenhorst. Desig. by Ashmead, 1900. The type-species is Gravenhorst's identification of *Ichneumon funereus* Geoffroy.

Dochytes Berthoumieu, 1904. In Wytsman, Gen. Ins., fasc. 18, p. 50.

Type-species: *Ichneumon funereus* Geoffroy. Desig. by Viereck, 1914.

Naenaria subg. *Neonaenaria* Uchida, 1956. Insecta Matsumurana 20: 60.

Type-species: *Naenaria (Neonaenaria) albomaculata* Uchida. Orig. desig.

This rather large genus is Neotropic, Holarctic, and Oriental.

Taxonomy: Townes, Momoi, and Townes, 1965. Amer. Ent. Inst., Mem. 5: 505 (syn.).

caeruleops Heinrich. Sask., B. C.

Ctenichneumon caeruleops Heinrich, 1961. Canad. Ent. Sup. 23: 461. ♂, ♀.

columbianus Heinrich. N. Mex., Yukon, Alaska, B. C.

Ctenichneumon columbianus Heinrich, 1961. Canad. Ent. Sup. 23: 457. ♂, ♀.

excultus (Cresson). Que. w. to Alaska, s. to Va., Mich., Idaho, and Oreg.

Ichneumon excultus Cresson, 1867. Amer. Ent. Soc., Trans. 1: 293. ♀.

Ichneumon Stadoconensis Provancher, 1875. Nat. Canad. 7 (1): 22 (key); 7 (2): 50. ♂.

gracilior Heinrich. Que., Maine, Mich.

Ctenichneumon gracilior Heinrich, 1961. Canad. Ent. Sup. 23: 470. ♂, ♀.

heteropus Heinrich. B. C.

Ctenichneumon heteropus Heinrich, 1961. Canad. Ent. Sup. 23: 454. ♂, ♀.

holomelas Heinrich. Man.

Ctenichneumon holomelas Heinrich, 1961. Canad. Ent. Sup. 23: 460. ♀.

minor Heinrich. N. S. s. to W. Va., w. to Sask.

Ctenichneumon minor Heinrich, 1961. Canad. Ent. Sup. 23: 458. ♂, ♀.

puncticuta Heinrich. Mich., Man., B. C.

Ctenichneumon puncticuta Heinrich, 1961. Canad. Ent. Sup. 23: 463. ♀.

rufibasis Heinrich. Que., Maine.

Ctenichneumon rufibasis Heinrich, 1961. Canad. Ent. Sup. 23: 469. ♀.

ruidosensis (Cockerell). N. Mex., Calif.

Ichneumon ruidosensis Cockerell, 1898. Ann. and Mag. Nat. Hist. (7) 2: 456. ♂.

semitaeruleus (Cresson). Maine w. to Alta., s. to s.e. N. C., Ky., Kans., and S. Dak.

Ichneumon semitaeruleus Cresson, 1867. Amer. Ent. Soc., Trans. 1: 302. ♀.

syphax (Cresson). Que. w. to Alta., s. to n. Ga. and Kans.

Ichneumon Syphar Cresson, 1864. Ent. Soc. Phila., Proc. 3: 181. ♀.

Ichneumon rufizonatus Cresson, 1864. Ent. Soc. Phila., Proc. 3: 183. ♀.

Ichneumon electus Cresson, 1867. Amer. Ent. Soc., Trans. 1: 304. ♂.

Ichneumon nitidus Provancher, 1875. Nat. Canad. 7 (1): 24 (key); 7 (3): 79. ♂. Barron (1975) gave particulars concerning the specimen he regarded as holotype, which is a different specimen than Heinrich (1961) accepted as type.

Ichneumon Marianopolitanus Provancher, 1875. Nat. Canad. 7 (1): 24 (key). ♀.

Ichneumon Marianopolitanus (?) Provancher, 1875. Nat. Canad. 7 (3): 81.

Taxonomy: Heinrich, 1959. Ent. News 70: 208, 210. — Heinrich, 1961. Canad. Ent. Sup. 23: 472 (uncertainty about synonymy of *I. electus* Cresson). — Barron, 1975. Nat. Canad. 102: 505, 520.

townesi Heinrich. Maine, N. Y., Mich.

Ctenichneumon townesi Heinrich, 1961. Canad. Ent. Sup. 23: 453. ♂, ♀.

ultus (Cresson). Que. s. to S. C., w. to Mich. and Kans.

Ichneumon ultus Cresson, 1867. Amer. Ent. Soc., Trans. 1: 295. ♂.

Ichneumon rogalis Cresson, 1867. Amer. Ent. Soc., Trans. 1: 295. ♂.

Genus PROBOLUS Wesmael

Probolus Wesmael, 1845 (1844). [Brussels] Acad. Roy. de Belg., Nouveaux Mem. 18: 150.

Type-species: *Ichneumon fossorius* Gravenhorst. Monotypic. The type-species is Gravenhorst's (1829) apparently deliberate misidentification of *P. culpatorius* Linnaeus; the type-species is regarded as a synonym of *P. culpatorius* (Linnaeus). See also the type-species citation for *Limerodops*.

This is a small genus of Holarctic distribution.

Taxonomy: Gravenhorst, 1829. Ichn. Europaea, v. 1, p. 163-166 (use of name *I. fassorius*). —Roman, 1932. Ent. Tidskr. 53: 5, 6 (identity of Linnaean types of *I. culptatorius* and *I. fassorius*). —Perkins, 1953. Brit. Mus. (Nat. Hist) Ent., Bul. 3: 106 (correction of Roman's misidentification of the type-specimen of *I. fassorius* Linnaeus).

detritus (Brulle). Que. s. to Ga., w. to Mich. and Ark.

Ichneumon detritus Brulle, 1846. In Lepeletier, Hist. Nat. Ins. Hym., v. 4, p. 302. ♀.

Ichneumon indistinctus Provancher, 1875. Nat. Canad. 7 (1): 23 (key); 7 (3): 75. ♀.

Ichneumon illaetabilis Cresson, 1877. Amer. Ent. Soc., Trans. 6: 190. ♂.

Ichneumon innotabilis! Ashmead, 1900. In Smith, N. J. Bd. Agr., Ann. Rpt. 27, sup., p. 567. Lapsus for *I. illaetabilis*.

Taxonomy: Townes, 1961. Ent. Soc. Wash., Proc. 63: 107 (syn.). —Barron, 1975. Nat. Canad. 102: 487.

expunctus (Cresson). Newfoundland (insular), Que., Maine, N. Y., Ont., Ohio, Mich., Man., Colo., Alaska?, B. C.

Ichneumon oblitteratus Cresson, 1864. Ent. Soc. Phila., Proc. 3: 147. ♂. Preocc. by Wesmael, 1855.

Ichneumon expunctus Cresson, 1867. Amer. Ent. Soc., Trans. 1: 290. N. name for *I. oblitteratus* Cresson.

Trogus Provancheri Burque, 1879. Nat. Canad. 11 (no. 124): 128. ♂.

Genus TRICHLABUS Thomson

Tricholabus Thomson, 1894. Opusc. Ent. 19: 2113.

Type-species: *Tricholabus femoralis* Thomson. Desig. by Viereck, 1914.

Epiopeltioides Viereck, 1913. U. S. Natl. Mus., Proc. 46: 374.

Type-species: *Epiopeltioides erythrogaster* Viereck. Monotypic and orig. desig.

Otohimea Uchida, 1926. Hokkaido Imp. Univ., Faculty Agr., Jour. 18: 146.

Type-species: *Otohimea nigra* Uchida. Orig. desig.

This is a Holarctic and Neotropic genus of moderate size.

Taxonomy: Townes and Townes, 1966. Amer. Ent. Inst., Mem. 8: 254 (syn.).

adventicus (Hopper). N. Y. s. to Fla. and Ala.

Ichneumon adventicus Hopper, 1938. Amer. Ent. Soc., Trans. 64: 101. ♂.

citatus (Provancher). Que., Maine, Mich., S. Dak., Colo., Alaska.

Ichneumon citatus Provancher, 1877. Nat. Canad. 9: 8. ♂.

Amblyteles tricolor Davis, 1898 (1897). Amer. Ent. Soc., Trans. 24: 351. ♀ (male misdet. ?).

Ichneumon apicator Hopper, 1938. Amer. Ent. Soc., Trans. 64: 100. ♂.

foxleei Heinrich. B. C., Oreg., Calif.

Tricholabus foxleei Heinrich, 1961. Canad. Ent. Sup. 23: 396. ♂, ♀.

mitchelli Heinrich. Mass., N. Y., N. J., Del., Md., Va., N. C., S. C., Ga., Miss., Ark. Ecology:

Occurs in marshes, particularly salt marshes along the Atlantic coast and Gulf of Mexico.

Tricholabus mitchelli Heinrich, 1961. Canad. Ent. Sup. 23: 395. ♂, ♀.

nortonii (Cresson). Que. w. to Alaska, s. to Va., Ohio, S. Dak., and Alta.

Ichneumon Nortonii Cresson, 1867. Amer. Ent. Soc., Trans. 1: 304. ♀.

Ichneumon merus Cresson, 1877. Amer. Ent. Soc., Trans. 6: 148. ♂.

pax (Dalla Torre). Wash.

Ichneumon pacificus Davis, 1898 (1897). Amer. Ent. Soc., Trans. 24: 350. ♂. Preocc. by Cameron, 1887.

Ichneumon pax Dalla Torre, 1902. Cat. Hym., v. 3, p. 964. N. name for *I. pacificus* Davis.

Genus SPILICHNEUMON Thomson

Spilichneumon Thomson, 1894. Opusc. Ent. 19: 2087.

Type-species: *Ichneumon occisorius* Gravenhorst. Desig. by Ashmead, 1900. The type-species is Gravenhorst's identification of *I. occisorius* Fabricius.

Spiloteles Berthoumieu, 1904. In Wytsman, Gen. Ins., fasc. 18, p. 54.

Type-species: *Ichneumon occisorius* Fabricius. Desig. by Viereck, 1914.

Pseudichneumon Kokujev, 1909. Acad. Imp. des Sci. St. Petersburg, Mus. Zool., Ann. 14:

12.

Type-species: *Pseudichneumon primarius* Kokujev. Monotypic.

This Holarctic and Oriental genus is apparently of moderate size.

borealis (Provancher). Newfoundland (insular), Que., Maine, Ont. Ecology: Heinrich (1971) said that "this species is confined to peat bogs, where it appears in the latter part of summer."

Amblyteles borealis Provancher, 1882. Nat. Canad. 13: 328. ♀.

Taxonomy: Heinrich, 1971. Nat. Canad. 98: 974-975.

brontaeus (Cresson). Newfoundland (insular), Que., Maine, Pa., Ont., Mich., Colo., B. C.?

Ichneumon Brontaeus Cresson, 1864. Ent. Soc. Phila., Proc. 3: 144. ♂.

Ichneumon citrinus Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 31. ♂. N. syn.; preocc. by Cresson, 1873; the information given by Heinrich (1968) indicates that this is the best disposition for the name *I. citrinus* Provancher until such time as it can be proven that the lectotype represents a valid species.

Taxonomy: Heinrich, 1968. Nat. Canad. 95: 722. — Heinrich, 1971. Nat. Canad. 98: 975-977.

inconstans (Cresson). revised status. Newfoundland (insular) w. to N. W. T., s. to Va., Mich., Colo., and Ariz. Host: *Crymodes devastator* (Brace).

Ichneumon (Ichneumon) aleatorius Harris, 1835. In Hitchcock, Rpt. Geol. Mineral. Bot. Zool. Mass., Ed. 2, p. 585. Nomen nudum.

Ichneumon inconstans Cresson, 1864. Ent. Soc. Phila., Proc. 3: 153. ♂.

Ichneumon subrufus Cresson, 1864. Ent. Soc. Phila., Proc. 3: 168. ♀. Preocc. by Gmelin, 1790.

Ichneumon comes var. *aleatorius* Cresson, 1867. Amer. Ent. Soc., Trans. 1: 301. ♂.

Taxonomy: Heinrich, 1959. Ent. News 70: 209 (syn.).

kodiakensis (Ashmead). Alaska.

Craticheumon kodiakensis Ashmead, 1902. Wash. Acad. Sci., Proc. 4: 157. ♂.

Taxonomy: Walkley, 1967. In Krombein et al., U. S. Dept. Agr., Agr. Monog, 2, sup. 2, p. 155.

nubivagus (Cresson). Newfoundland (Labrador) w. to B. C., s. to N. Y. and Colo.

Ichneumon consimilis Cresson, 1864. Ent. Soc. Phila., Proc. 3: 163. ♂. Preocc. by Wesmael, 1845.

Ichneumon nubivagus Cresson, 1867. Amer. Ent. Soc., Trans. 1: 291. N. name for *I. consimilis* Cresson.

Ichneumon aequalis Provancher, 1875. Nat. Canad. 7 (1): 23 (key); 7 (3): 76. ♂.

Amblyteles fraternus Cresson, 1877. Amer. Ent. Soc., Trans. 6: 192. ♂.

Taxonomy: Heinrich, 1971. Nat. Canad. 98: 975-977 (female described and distinguished from female of *S. brontaeus*).

pernigricornis Heinrich. Mont., Wyo., Utah.

Spilichneumon pernigricornis Heinrich, 1971. Nat. Canad. 98: 977. ♂, ♀.

physcoteloides Heinrich. Que., Maine, Mass., Mich.

Spilichneumon physcoteloides Heinrich, 1961 (1960). Canad. Ent. Sup. 18: 191. ♂, ♀.

superbus (Provancher). Newfoundland (insular) w. to N. W. T. and B. C., s. to Tex., N. Mex., and Calif.; Hawaii. Host: *Euxoa (Chorizagrotis) auxiliaris* (Grote), *E. flavidollis* (Smith), *E. messoria* (Harris), *E. ochrogaster* (Gn.), *E. scandens* (Riley), *Feltia ducens* Wlk., *Pseudaletia unipuncta* (Haw.).

Amblyteles superbus Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 35. ♀.

Ichneumon koebeliae Swezey, 1909. Hawaii Sugar Planters' Assoc. Expt. Sta., Div. Ent., Bul. 7: 30. ♂, ♀.

Taxonomy: Heinrich, 1959. Ent. News 70: 209 (syn.).

taos (Cresson). Que., Maine, Mass., N. Mex., Alta.

Amblyteles Taos Cresson, 1877. Amer. Ent. Soc., Trans. 6: 191. ♀.

valdetypicus Heinrich. Maine, Man.

Spilichneumon valdetypicus Heinrich, 1961 (1960). Canad. Ent. Sup. 18: 186. ♀.

Taxonomy: Heinrich, 1971. Nat. Canad. 98: 975 (variation).

Genus OBTUSODONTA Heinrich

Obtusodonta Heinrich, 1962. Canad. Ent. Sup. 29: 872.

Type-species: *Spilichneumon obscuricolor* Heinrich. Orig. desig.

This is a small genus of Holarctic distribution.

foxleei Heinrich. B. C.

Obtusodonta foxleei Heinrich, 1962. Canad. Ent. Sup. 29: 874. ♀.

manitobae Heinrich. Man., Alta.

Obtusodonta manitobae Heinrich, 1962. Canad. Ent. Sup. 29: 874. ♀.

obscuricolor (Heinrich). Que., Maine, Conn., N. Y., Ont., Sask.

Spilichneumon? *obscuricolor* Heinrich, 1961 (1960). Canad. Ent. Sup. 18: 195. ♂, ♀.

restricta (Cresson). Que., Maine, N. Y.

Ichneumon restrictus Cresson, 1877. Amer. Ent. Soc., Trans. 6: 169. ♂.

Obtusodonta montana Heinrich, 1962. Canad. Ent. Sup. 29: 875. ♂, ♀.

Taxonomy: Heinrich, 1971. Nat. Canad. 98: 983 (syn.).

UNPLACED TAXA OF AMBLYTELESINA

The following species were not included in Heinrich's (1961-1962) work on the stenopneustiae of northeastern North America.

Amblyteles hudsonicus Cresson, 1877. Amer. Ent. Soc., Trans. 6: 192. ♀. "Hudsons Bay Territory."

Ichneumon crudosus Cresson, 1877. Amer. Ent. Soc., Trans. 6: 175. ♂. Calif.

Ichneumon Dakotae Cresson, 1867. Amer. Ent. Soc., Trans. 1: 302. ♂. "Dakota Territory."

Ichneumon delicatus Cresson, 1865. Ent. Soc. Phila., Proc. 4: 253. ♂. Colo.

Ichneumon dictiosus Cresson, 1877. Amer. Ent. Soc., Trans. 6: 164. ♂. Kans.

Ichneumon (Barichneumon) Humphreyi Viereck, 1905. Kans. Acad. Sci., Trans. 19: 296. ♂.

Ariz.

Ichneumon juxtus Cresson, 1864. Ent. Soc. Phila., Proc. 3: 163. ♂. Colo.

Ichneumon semissus Cresson, 1877. Amer. Ent. Soc., Trans. 6: 183. ♀. Calif. According to Cresson (1879), the type locality is Mohave Desert, Calif.

Taxonomy: Cresson, 1879 (1878). Acad. Nat. Sci. Phila., Proc. 30: 354.

Ichneumon sequax Cresson. 1877. Amer. Ent. Soc., Trans. 61: 181. ♀. Southern B. C.

Ichneumon ventralis Cresson, 1865. Ent. Soc. Phila., Proc. 4: 250. ♂. Colo.

SUBTRIBE PTEROCORMINA

Genus STENICHNEUMON Thomson

Stenichneumon Thomson, 1893. Opusc. Ent. 18: 1964.

Type-species: *Ichneumon pistorioides* Gravenhorst. Desig. by Schmiedeknecht, 1902.

The type-species is regarded as a synonym of *S. militarius militarius* (Thunberg).

Myerma Cameron, 1901. Ann. and Mag. Nat. Hist. (7) 7: 523.

Type-species: *Myerma rufipes* Cameron. Monotypic. The type-species is regarded as a synonym of *S. appropinquans* (Cameron).

Chiaglas Cameron, 1902. Ann. and Mag. Nat. Hist. (7) 9: 152.

Type-species: *Chiaglas nigripes* Cameron. Monotypic.

Bolbomychus Tosquinet, 1903. Soc. Ent. de Belg., Mem. 10: 342.

Type-species: *Bolbomychus albipictus* Tosquinet. Monotypic.

The type-species is regarded as a synonym of *S. nigripes* (Cameron).

Stenichneumonoides Uchida, 1930. Insecta Matsumurana 9: 95.

Type-species: *Ichneumon posticalis* Matsumura. Orig. desig.

This is a moderate-sized genus of Neotropic, Holarctic, and Oriental distribution.

Taxonomy: Townes and Townes, 1966. Amer. Ent. Inst., Mem. 8: 263. (syn.).
culpator cincticornis (Cresson). Newfoundland (insular), Que., N. W. T., Yukon, and Alaska, s. to n. Ga., Ill., Colo., and Wash. Host: *Trichoplusia ni* (Hbn.). *S. culpator culpator* (Schrank) is Eurasian.

Ichneumon cincticornis Cresson, 1864. Ent. Soc. Phila., Proc. 3: 139. ♀.

Ichneumon galenus Cresson, 1867. Amer. Ent. Soc., Trans. 1: 292. ♂.

Ichneumon mathewi Cameron, 1907. Entomologist 40: 277. ♂.

Taxonomy: Heinrich, 1953. Wash. Acad. Sci., Jour. 43: 149. —Townes, 1961. Ent. Soc. Wash., Proc. 63: 109 (syn.).

militarius leucopus Heinrich. N. B. w. to Alaska, s. to Maine, Mich., and B. C. Host: "Plusia" sp. *S. militarius militarius* (Thunberg) is Eurasian.

Stenichneumon militarius leucopus Heinrich, 1962. Canad. Ent. Sup. 26: 525. ♂, ♀.

pallidipennis (Viereck). N. W. T., S. Dak., and N. Mex., w. to B. C. and Calif.

Cratichneumon pedalis var. *pallidipennis* Viereck, 1902. Ent. News 13: 87. ♂.

salvus (Cresson). P. E. I. w. to B. C., s. to N. H., Mich., and Oreg. This species appears to vary clinally from east to west. Heinrich (1962) recognized two subspecies; he used the name *bioculatus* for a transcontinental form; his nominate form apparently consisted only of some of the extreme variants from the western end of the range.

Ichneumon bioculatus Cresson, 1877. Amer. Ent. Soc., Trans. 6: 158. ♂, ♀. N. syn.

Ichneumon salvus Cresson, 1877. Amer. Ent. Soc., Trans. 6: 166. ♂.

Cratichneumon rubicundus Bradley, 1904. Ztschr. System. Hym. Dipt. 4: 106. ♀.

Genus PATROCLOIDES Heinrich

Patrocloides Heinrich, 1961 (1960). Canad. Ent. Sup. 15: 16.

Type-species: *Amblyteles perluctuosus* Provancher. Monotypic and orig. desig.

This is a small Holarctic genus.

montanus (Cresson). Newfoundland (insular) w. to Wash., s. to n. Ga., N. Mex., and Calif. Host: *Syngrapha* sp., *Trichoplusia ni* (Hbn.).

Ichneumon montanus Cresson, 1864. Ent. Soc. Phila., Proc. 3: 141. ♂, ♀.

Patrocloides montanus occidentalis Heinrich, 1962. Canad. Ent. Sup. 26: 517. ♀. N. syn.

perluctuosus (Provancher). Newfoundland (insular), w. to B. C., s. to Mass. and Mich. Host: *Syngrapha epigaea* (Grt.), *S. selecta* (Wlk.).

Amblyteles perluctuosus Provancher, 1877. Nat. Canad. 9: 10. "♂" = ♀.

walleyi (Heinrich). Que., Ont., Wis., N. W. T., Alta.

Patroclus walleyi Heinrich, 1956. Canad. Ent. 88: 486. ♂, ♀.

Genus PATROCLUS Cresson

Patroclus Cresson, 1873. Acad. Nat. Sci. Phila., Proc. 25: 104.

Type-species: *Patroclus nigrocaeruleus* Cresson. Desig. by Ashmead, 1900.

Pseudoamblyteles Heinrich, 1926. Deut. Ent. Ztschr. (1926), p. 255.

Type-species: *Amblyteles homocerus* Wesmael. Monotypic.

Ctenamblyteles Heinrich, 1928. Deut. Ent. Ztschr. (1928), p. 141. Unnecessary n. name for *Pseudoamblyteles* Heinrich (*Pseudoamblyteles* not preocc. by *Pseudamblyteles* Ashmead).

This is a small Neotropic and Holarctic genus.

Taxonomy: Townes and Townes, 1966. Amer. Ent. Inst., Mem. 8: 263 (syn.).

homocerus homocerus (Wesmael). Que. w. to Alaska, s. to Colo. and Utah; Eurasia. Townes, Momoi, and Townes (1965) recognized *P. homocerus karafutonis* (Uchida) as a distinct subspecies from Sakhalin.

Amblyteles homocerus Wesmael, 1854. [Brussels] Acad. Roy. de Belg., Bul. 21, Annexe aux Bul. 1853-1854, p. 120. ♂, ♀.

Taxonomy: Townes, Momoi, and Townes, 1965. Amer. Ent. Inst., Mem. 5: 455.

Genus PROTOPELMUS Heinrich

Protopelmus Heinrich, 1959. Ent. Soc. Wash., Proc. 61: 200.

Type-species: *Trogus atrocaeruleus* Cresson. Monotypic and orig. desig.

A single species is known.

atrocaeruleus (Cresson). Northeastern Md., Fla., La.; Mexico. Host: *Ecpanteria muzina* Oberthur, *E. scribonia* (Stoll).

Trogus atrocaeruleus Cresson, 1868. Amer. Ent. Soc., Trans. 2: 92. ♀.

Trogus atrocaeruleus Dalla Torre, 1902. Cat. Hym., v. 3, p. 1032. Emend.

Genus ORGICHNEUMON Heinrich

Orgichneumon Heinrich, 1961 (1960). Canad. Ent. Sup. 15: 15.

Type-species: *Ichneumon calcatorius* Thunberg. Monotypic and orig. desig.

This is a small genus of Holarctic and Oriental distribution.

calcatorius (Thunberg). N. S. w. to B. C., s. to S. C., Tex., and Oreg.; Europe. Host: *Dasytchira grisefacta* (Dyar)?, *D. plagiata* (Wlk.), *Orgyia antiqua* (L.), *O. leucostigma* (J. E. S.), *O. pseudotsugata* McD.

Ichneumon calcatorius Thunberg, 1822; 1824. Acad. Imp. des Sci. St. Petersburg, Mem. 8: 254; 9: 291. ♀.

Ichneumon otiosus Say, 1829 Contrib. Maclurian Lyceum to Arts and Sci. 1: 69. ♀.

Ichneumon infidelis Cresson, 1867. Amer. Ent. Soc., Trans. 1: 296. ♂.

Ichneumon sylvanus Holmgren, 1880. Ent. Tidskr. 1: 27. ♀ (male misdet.).

Ichneumon (*Cratichneumon*) *burkei* Viereck, 1910. U. S. Natl. Mus., Proc. 38: 383. ♂.

Ichneumon (*Stenichneumon*) *calcatorius* var. *nigritarsis* Schmiedeknecht, 1928. Opuse. Ichn., Sup., fasc. 4, p. 219. Syn.? Preocc. by Kriechbaumer, 1889.

Taxonomy: Roman, 1912. Zool. Bidr. Uppsala 1: 240 (syn.). — Heinrich, 1953. Wash. Acad. Sci., Jour. 43: 148. — Heinrich, 1957 (1956). Canad. Ent. 88: 647-648. — Heinrich, 1959. Ent. News 70: 211.

Genus THYRATELES Perkins

Thyrateles Perkins, 1953. Brit. Mus. (Nat. Hist.) Ent., Bul. 3: 149.

Type-species: *Amblyteles camelinus* Wesmael. Monotypic and orig. desig.

This is a small Holarctic genus which is rather arbitrarily separated from *Pterocormus*.

Taxonomy: Townes and Townes, 1973. Amer. Ent. Inst., Mem. 19: 263 (syn.).

amoenapex Heinrich. N. W. T.

Thyrateles amoenapex Heinrich, 1961. Canad. Ent. Sup. 21: 357. ♀.

caliginops Heinrich. Que. w. to Minn., s. to W. Va. and Ohio. Host: *Vanessa atalanta* (L.).

Thyrateles caliginops Heinrich, 1961. Canad. Ent. Sup. 21: 351. ♂, ♀.

camelinops Heinrich. Alta., B. C. Host: *Nymphalis milberti* (Goed.), *Polygonia* sp.

Thyrateles camelinops Heinrich, 1961. Canad. Ent. Sup. 21: 349. ♂, ♀.

instabilis (Cresson). Maine, N. H., N. Y., N. J., Ont., Ohio, Mich., Ind., S. Dak., Calif. Host:

Colias eurytheme Bois., *C. philodice* Godt., *Satyrus* sp.

Ichneumon instabilis Cresson, 1867. Amer. Ent. Soc., Trans. 1: 303. ♂, ♀.

Biology: Dasch, 1971. Ohio Jour. Sci. 71: 278 (hibernation sites). — Heinrich, 1971. Nat. Canad. 98: 973 (hibernation site).

lugubrator (Gravenhorst). N. S. w. to B. C., s. to central Ga., Tex., and Calif.; Hawaii. Host:

Cynthia cardui (L.), *C. virgininiensis* (Drury), *Nymphalis milberti* (Godt.), *Polygonia comma* (Harris).

Ichneumon lugubrator Gravenhorst, 1807. Vergl. Uebers. Zool. Systeme, p. 256. [male].

Ichneumon rufiventris Brulle, 1846. In Lepeletier, Hist. Nat. Ins. Hym., v. 4, p. 301. ♂, ♀.

Ichneumon incertus Cresson, 1864. Ent. Soc. Phila., Proc. 3: 180. ♀. Preocc. by Sulzer, 1776 and Christ, 1791.

Ichneumon californicus Cresson, 1864. Ent. Soc. Phila., Proc. 3: 180. ♂.

Ichneumon hunterae Packard, 1881. Boston Soc. Nat. Hist., Proc. 21: 22. ♂, ♀.

Ichneumon vulviventris (!) Nason, 1905. Ent. News 16: 148. Lapsus for *I. rufiventris* Brulle.

Taxonomy: Kriechbaumer, 1875. Stettin. Ent. Ztg. 36: 41. — Townes, 1961. Ent. Soc. Wash., Proc. 63: 108, 109, 169-170.

mormonus (Cresson). Que., Ont., Colo., Alta., Utah. Host: *Polygonia* sp.
Amblyteles mormonus Cresson, 1877. Amer. Ent. Soc., Trans. 6: 190. ♀. According to Cresson (1879) the type locality is "Great Salt Lake, Utah."
Ichneumon adjunctus Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 29. ♀.
Cratichneumon pedalis var. *varitarsis* Viereck, 1902. Ent. News 13: 87. ♀.

Taxonomy: Cresson, 1879 (1878). Acad. Nat. Sci. Phila., Proc. 30: 355.

procax (Cresson). Ont., Alaska. Host: *Nymphalis antiopa* (L.).

Ichneumon procax Cresson, 1877. Amer. Ent. Soc., Trans. 6: 170. ♂.

Amblyteles torontosus Davis, 1898 (1897). Amer. Ent. Soc., Trans. 24: 351. ♀.

Genus PTEROCORMUS Foerster

Brachypterus Gravenhorst, 1829. Ichn. Europaea, v. 1, p. 673. Preocc. by Kugelman, 1794.

Type-species: *Brachypterus means* Gravenhorst. Monotypic. The type-species is regarded as a synonym of *P. latrator* (Fabricius).

Pterocormus Foerster, 1850. Arch. f. Naturgesch. 16: 71. N. name for *Brachypterus* Gravenhorst.

Colobacis Cameron, 1900. New Zeal. Inst., Trans. 33: 110.

Type-species: *Colobacis forticornis* Cameron. Monotypic. The type-species is regarded as a synonym of *P. lotatorius* (Fabricius).

Tyanites Cameron, 1903. Entomologist 36: 95.

Type-species: *Tyanites rufipes* Cameron. Monotypic.

Vabsaris Cameron, 1903. Entomologist 36: 96.

Type-species: *Vabsaris forticornis* Cameron. Monotypic. The type-species is regarded as a synonym of *P. rufipes* (Cameron).

Euichneumon Berthoumieu, 1904. Gen. Ins., fasc. 18, p. 33.

Type-species: *Ichneumon sarcitorius* Linnaeus. Desig. by Townes, 1944.

Matsumuraius Ashmead, 1906; U. S. Natl. Mus., Proc. 30: 169.

Type-species: *Matsumuraius grandis* Ashmead. Monotypic. The type-species is regarded as a subspecies of *P. primatorius* (Forster).

Coreojoppa Uchida, 1926. Hokkaido Imp. Univ., Faculty Agr., Jour. 18: 63.

Type-species: *Coreojoppa flavamaculata* Uchida. Monotypic and orig. desig.

Bureschias Heinrich, 1936. K. Naturw. Inst. Sofia, Mitt. 9: 82.

Type-species: *Bureschias balcanicus* Heinrich. Orig. desig. The type-species is regarded as a synonym of *P. tuberosus* (Berthomieu).

This is a very large genus with species occurring throughout the Old and New World, but apparently with greater numbers of species in temperate areas.

Taxonomy: Townes and Townes, 1973. Amer. Ent. Inst., Mem. 19: 263 (syn.).

adonis (Viereck). N. Mex.

Cratichneumon adonis Viereck, 1903. In Skinner, Amer. Ent. Soc., Trans. 29: 77. ♂.

alpestriformis (Viereck). Western Alaska.

Amblyteles (Pterocormus) alpestriformis Viereck, 1923. North Amer. Faune 46: 234. ♀.

Taxonomy: Heinrich, 1957 (1956). Canad. Ent. 88: 690-691.

amauropus (Heinrich), n. comb. Northern N. W. T.

Ichneumon amauropus Heinrich, 1956. Canad. Ent. 88: 481. ♀.

ambulatorius (Fabricius). Newfoundland (nsular) w. to B. C., s. to Ga., Kans., N. Mex., and Oreg. Host: *Crymodes devastator* (Brace), *Faronta diffusa* (Wlk.), *Luperina stipata* (Morr.), *Macronoctua onusta* Grt., *Papaipema circumlucens* (Smith), *P. nebris* (Gn.), *Pseudaletia unipuncta* (Haw.).

Ichneumon ambulatorius Fabricius, 1775. Systema Ent., p. 329. [female].

Ichneumon multor Harris, 1833. In Hitchcock, Rpt. Geol. Mineral. Bot. Zool. Mass., p. 587.

Nomen nudum; uncertain syn.

- Ichneumon jucundus* Brulle, 1846. In Lepeletier, Hist. Nat. Ins. Hym., v. 4, p. 305. ♀.
- Ichneumon flavizonatus* Cresson, 1864. Ent. Soc. Phila., Proc. 3: 156. ♂.
- Ichneumon multor* Cresson, 1867. Amer. Ent. Soc., Trans. 1: 299. ♂.

canadicola (Heinrich), n. comb. Newfoundland (insular), Que., Maine, Mass., Ont., Ohio, Mich.

Ichneumon canadicola Heinrich, 1961. Canad. Ent. Sup. 21: 293. ♀.

centrator (Say). Que. w. to B. C., s. to N. C., Mo., and Oreg. Host: *Isia isabella* (J. E. S.).

Ichneumon centrator Say, 1825. Amer. Ent. 2: 49. ♂.

Ichneumon flavicornis Cresson, 1864. Ent. Soc. Phila., Proc. 3: 140. ♂.

Ichneumon fortis Provancher, 1875. Nat. Canad. 7 (1): 24 (key); 7 (3): 83. ♂.

cervulus (Provancher). Newfoundland (insular), Que., Maine, Ont., Mich., Alta. Ecology: Occurs in peat bogs. Although the specimen which Heinrich (1961, 1976) regarded as the "holotype" is not the valid lectotype selected by Gahan and Rohwer (1917), Barron (1975) indicated that the former specimen is conspecific with the lectotype.

Ichneumon cervulus Provancher, 1875. Nat. Canad. 7 (1): 24 (key); 7 (3): 83. ♂.

Phygadeuon terminatus Provancher, 1882. Nat. Canad. 13 (no. 155): 335 (key); 13 (no. 156): 357. ♀. Preocc. by Gravenhorst, 1829.

Taxonomy: Gahan and Rohwer, 1917. Canad. Ent. 49: 430. — Heinrich, 1961. Canad. Ent. Sup. 21: 271. — Barron, 1975. Nat. Canad. 102: 448. — Heinrich, 1976 (1975). Nat. Canad. 102: 758-760 (syn.).

Biology: Heinrich, 1969. Nat. Canad. 96: 943 (habitat).

cessatorops (Heinrich), n. comb. Que., Alta., Yukon.

Ichneumon cessatorops Heinrich, 1956. Canad. Ent. 88: 484. ♀.

Ichneumon cessatorops Kazubazuae Heinrich, 1956. Canad. Ent. 88: 485. ♀.

Taxonomy: Heinrich, 1961. Canad. Ent. Sup. 21: 319-320 (male described).

chasmodops (Heinrich), n. comb. Que., Maine, N. H., N. Y., Ont., Mich., Minn., Man.

Ichneumon chasmodops Heinrich, 1961. Canad. Ent. Sup. 21: 259. ♀ (♂ misdet.). Heinrich (1962) stated that the male he had misidentified as *chasmodops* is 1961 is actually the male of *feralis* (Cresson), and another male was associated with *chasmodops* and described.

Taxonomy: Heinrich, 1962. Canad. Ent. Sup. 29: 977-978.

citrifrons (Cresson). N. J., Pa., Ont., Mich., Ill.

Ichneumon citrifrons Cresson, 1867. Amer. Ent. Soc., Trans. 1: 307. ♂.

clarimontis (Cameron). Calif.

Ichneumon clarimontis Cameron, 1908. Amer. Ent. Soc., Trans. 34: 241. ♂.

Taxonomy: Townes, 1961. Ent. Soc. Wash., Proc. 63: 107.

clasma Carlson, n. sp. Newfoundland (insular) s. to N. Y., w. to Mich. and Ill. Host:

Pseudaleitia unipuncta (Haw.). Heinrich (1961) gave a description of both the males and females of this species, but erroneously applied the name *canadensis* (Cresson) by virtue of his (1959) invalid selection of a new lectotype for *canadensis* (which see); Heinrich's new lectotype for *I. canadensis* Cresson is the holotype of *P. clasma*.

Ichneumon canadensis Cresson sensu Heinrich, 1961. Canad. Ent. Sup. 21: 238-240. ♂, ♀.

Taxonomy: Heinrich, 1959. Ent. News 70: 104.

commodus (Davis). Utah, Wash.

Eurylabus commodus Davis, 1898 (1897). Amer. Ent. Soc., Trans. 24: 354. ♂.

compar (Cresson). Southwestern B. C.

Ichneumon compar Cresson, 1877. Amer. Ent. Soc., Trans. 6: 175. ♀.

conscopa (Heinrich), n. comb. Maine.

Ichneumon conscopa Heinrich, 1961. Canad. Ent. Sup. 21: 250. ♀.

Taxonomy: Heinrich, 1971. Nat. Canad. 98: 969.

contractus (Ashmead). Alaska.

Amblyteles contractus Ashmead, 1890 (1889). U. S. Natl. Mus., Proc. 12: 393. ♀.

creperus (Cresson). Que., Ont., w. N. W. T., and Alaska, s. to Conn., Ohio, Colo., and s. B. C.

Host: *Actebia fennica* (Tausch.).

Ichneumon creperus Cresson, 1867. Amer. Ent. Soc., Trans. 1: 298. ♂.

Amblyteles (Pterocornus) footei Viereck, 1917 (1916). Conn. State Geol. and Nat. Hist.

Survey Bul. 22: 353, 357. ♂.

cupitus (Cresson). Idaho, Wash., Oreg., Calif.; Hawaii.

Ichneumon cupitus Cresson, 1877. Amer. Ent. Soc., Trans. 6: 175. ♂.

Taxonomy: Cresson, 1879 (1878). Acad. Nat. Sci. Phila., Proc. 30: 350 (redescription).

—Townes, Townes, and Gupta, 1961. Amer. Ent. Inst., Mem. 1: 383.

curtius (Provancher). Que., Man.

Phygadeuon curticrus Provancher, 1888. Addit. Corr. Faune Ent. Canada Hym., p. 360. ♀.

devinctor (Say). Que. w. to s.w. N. W. T. and B. C., s. to Ga., Mo., and Colo. Host: *Cossus* sp., *Prionoxystus robiniae* (Peck), *Sthenopis thule* (Stkr.).

Ichneumon devinctor Say, 1825. Amer. Ent. 2: 48. ♀.

Ichneumon tibialis Brulle, 1846. In Lepeletier, Hist. Nat. Ins. Hym., v. 4, p. 300. ♀. Preocc. by Geoffroy, 1785.

Ichneumon montivagus Cresson, 1865. Ent. Soc. Phila., Proc. 4: 255. ♂.

difficilis (Cresson). Wash., Calif.

Ichneumon difficilis Cresson, 1877. Amer. Ent. Soc., Trans. 6: 176. ♂.

Taxonomy: Cresson, 1879 (1878). Acad. Nat. Sci. Phila., Proc. 30: 351.

dillerorum (Heinrich), n. comb. Maine.

Ichneumon dillerorum Heinrich, 1968. Nat. Canad. 95: 720. ♀.

dionymus Carlson, n. name. Que. w. to Mich., s. to Va. and Ohio.

Ichneumon anonymous Heinrich, 1961. Canad. Ent. Sup. 21: 255. ♂, ♀. Preocc. by Cuvier, 1833.

dioryctiae (Heinrich), n. comb. N. B. Que., Maine, Ont., Mont. Host: *Dioryctria reniculella* (Grt.).

Ichneumon dioryctiae Heinrich, 1961. Canad. Ent. Sup. 21: 341. ♂, ♀.

Ichneumon dioryctriae Walkley, 1967. In Krombein et al., U. S. Dept. Agr., Agr. Monog. 2, sup. 2, p. 160. Unjustified emend. (Heinrich had spelled the host name "Dioryctia").

discoensis (Fox). Greenland. This species has not been treated in any of the papers on North American Ichneumoninae by Heinrich.

Ichneumon discoensis Fox, 1892. Acad. Nat. Sci. Phila., Proc. 44: 134. ♂.

dorsalis (Cresson). Colo.

Ichneumon dorsalis Cresson, 1864. Ent. Soc. Phila., Proc. 3: 177. ♀. Preocc. by Fabricius, 1798; not renamed here because the species has not been included in any recent revision, and therefore may prove to have synonyms.

egregiafacialis (Viereck). Colo.

Ichneumon (Barichneumon) egregiafacialis Viereck, 1905. Kans. Acad. Sci., Trans. 19: 291. ♂.

eurypus (Heinrich), n. comb. Que., Maine, Ont., s.w. N. W. T., Alta.

Ichneumon eurypus Heinrich, 1961. Canad. Ent. Sup. 21: 325. ♀.

faciens (Davis). Alta., Idaho, Wash.

Ichneumon faciens Davis, 1898 (1897). Amer. Ent. Soc., Trans. 24: 350. ♂.

feralis (Cresson). Newfoundland (Labrador) s. to N. Y., w. to Alta. Host: *Hepialus mustelinus* Pack.? The male of this species was misidentified as that of *chasmodes* by Heinrich (1961); the error was corrected by Heinrich (1962).

Ichneumon feralis Cresson, 1867. Amer. Ent. Soc., Trans. 1: 301. ♀.

Taxonomy: Heinrich, 1961. Canad. Ent. Sup. 21: 230, 260-261. —Heinrich, 1962. Canad. Ent. Sup. 29: 877, 879-880.

feriens (Heinrich), n. comb. Newfoundland (insular) w. to Alaska, s. to N. Y., Mich., and s. B. C. *Ichneumon feriens* Heinrich, 1961. Canad. Ent. Sup. 21: 321. ♂, ♀.

Taxonomy: Heinrich, 1969. Nat. Canad. 96: 944 (additional characters for distinguishing male).

festus (Cresson). Colo.

Ichneumon bipunctatus Cresson, 1865. Ent. Soc. Phila., Proc. 4: 253. ♂. Preocc. by Gmelin, 1790; Schrank, 1802, and Cuvier, 1833.

Ichneumon festus Cresson, 1865. Ent. Soc. Phila., Proc. 4: 257. ♂.

- flavofacialis** (Viereck). Colo.
Ichneumon (Probolus) flavofacialis Viereck, 1905. Kans. Acad. Sci., Trans. 19: 291. ♂.
- foxleei** (Heinrich), n. comb. Wyo., Yukon, B. C.
Ichneumon foxleei Heinrich, 1961. Canad. Ent. Sup. 21: 309. ♀. Preocc. secondarily by *Ichneumon foxleei* (Heinrich), 1961.
- fuscifrons** (Cresson). Que. w. to Minn., s. to Ill.
Ichneumon fuscifrons Cresson, 1864. Ent. Soc. Phila., Proc. 3: 166. ♀.
- gavisicolor** (Heinrich), n. comb. Northern Que.
Ichneumon gavisicolor Heinrich, 1956. Canad. Ent. 88: 485. ♀.
- gestuosus** (Cresson), n. comb. Maine, N. H., Ont. Host: *Choristoneura fumiferana* (Clem.).
Ichneumon gestuosus Cresson, 1877. Amer. Ent. Soc., Trans. 6: 156. ♀.
- Taxonomy: Heinrich, 1959. Ent. News 70: 207.
- glacialis** (Ashmead). Southeastern Alaska.
Ichneumon glacialis Ashmead, 1902. Wash. Acad. Sci., Proc. 4: 154. ♂.
- glaucopygos** (Heinrich), n. comb. Que., Maine, Mass., N. Y.
Ichneumon glaucopygos Heinrich, 1961. Canad. Ent. Sup. 21: 248. ♀.
- Taxonomy: Heinrich, 1971. Nat. Canad. 98: 969.
- gracilicornops** (Heinrich), n. comb. Newfoundland (Labrador) s. to Maine, w. to Alta.
Ichneumon gracilicornops Heinrich, 1961. Canad. Ent. Sup. 21: 278. ♀.
- grandisops** (Heinrich), n. comb. Conn., N. Y., w. N. C., Ohio.
Ichneumon grandisops Heinrich, 1961. Canad. Ent. Sup. 21: 305. ♀.
- Taxonomy: Heinrich, 1971. Nat. Canad. 98: 970-971 (male described).
- hemimelanarius** (Viereck). Ariz.
Ichneumon hemimelanarius Viereck, 1906. Amer. Ent. Soc., Trans. 32: 226. ♂.
- heterocampae** (Cushman). Que. s. to Md., w. to Mich. and Ohio. Host: *Heterocampa guttivitta* (Wlk.).
Amblyteles heterocampae Cushman, 1933. U. S. Natl. Mus., Proc. 82: 2. ♀.
- Taxonomy: Heinrich, 1969. Nat. Canad. 96: 942.
- heterodon** (Heinrich), n. comb. N. Y., Ont., Ohio.
Ichneumon heterodon Heinrich, 1961. Canad. Ent. Sup. 21: 306. ♀.
- hiemalis** (Cresson). Southwestern Alaska.
Ichneumon hiemalis Cresson, 1877. Amer. Ent. Soc., Trans. 6: 180. ♀.
- hiltoni** (Heinrich), n. comb. Maine. Ecology: Collected in a mountain meadow.
Ichneumon hiltoni Heinrich, 1969. Nat. Canad. 96: 952. ♀.
- hippisleyae** (Heinrich), n. comb. Mich., s. Man.
Ichneumon hippisleyae Heinrich, 1961. Canad. Ent. Sup. 21: 264. ♀.
- homoiodes** (Heinrich), n. comb. N. J., Mich.
Ichneumon homoiodes Heinrich, 1961. Canad. Ent. Sup. 21: 311. ♀.
- homorus** (Heinrich), n. comb. Newfoundland (insular), N. B., Que., Maine, Vt., Ont., Mich.
Ichneumon homorus Heinrich, 1961. Canad. Ent. Sup. 21: 322. ♀.
- Taxonomy: Heinrich, 1969. Nat. Canad. 96: 945-946 (male described).
- hospitus** (Cresson). Maine, "Canada," Ill.
Ichneumon hospitus Cresson, 1867. Amer. Ent. Soc., Trans. 1: 306. ♂, ♀.
- Taxonomy: Heinrich, 1969. Nat. Canad. 96: 950.
- hypermelanos** (Heinrich), n. comb. Ont.
Ichneumon hypermelanos Heinrich, 1961. Canad. Ent. Sup. 21: 259. ♀.
- infucatus** (Cresson). Colo.
Ichneumon infucatus Cresson, 1865. Ent. Soc. Phila., Proc. 4: 252. ♂.
- inurbanus** (Cresson). W. Va., Ohio, Colo.
Ichneumon inurbanus Cresson, 1867. Amer. Ent. Soc., Trans. 1: 302. ♀.

klagesi (Viereck). Pa.

Ichneumon flavofacialis Viereck, 1906. Amer. Ent. Soc., Trans. 32: 245. ♂. Preocc. by Viereck, 1905.

Ichneumon klagesi Viereck, 1912. U. S. Natl. Mus., Proc. 43: 591. N. name for *I. flavofacialis* Viereck, 1905.

kodiakensis (Ashmead). Southwestern Alaska.

Ichneumon kodiakensis Ashmead, 1902. Wash. Acad. Sci., Proc. 4: 153. ♂.

lacrymans (Provancher). Newfoundland (insular), Que., Maine, N. H., Mass., N. Y., Ont., Mich. *Phygadeuon dorsalis* Provancher, 1874. Nat. Canad. 6: 285. ♀. Preocc. in *Pterocormus* by Cresson, 1864.

Ichneumon lacrymans Provancher, 1875. Nat. Canad. 7 (1): 24 (key); 7 (3): 78. ♂. Barron (1975) did not prove that the lectotype selected by Gahan and Rohwer (1917) was not one of Provancher's two syntypes. Therefore, the new lectotype selected by Barron has no validity.

Taxonomy: Gahan and Rohwer, 1917. Canad. Ent. 49: 431. — Barron, 1975. Nat. Canad. 102: 463, 492-493.

lacunae (Heinrich), n. comb. Maine.

Ichneumon lacunae Heinrich, 1969. Nat. Canad. 96: 948. ♀.

laetus (Brulle). Que. w. to Alaska, s. to Va., and Iowa. Host: *Pseudaletia unipuncta* (Haw.).

Ichneumon laetus Brulle, 1846. In Lepeletier, Hist. Nat. Ins., Hym., v. 4, p. 303. ♂.

Ichneumon leucaniae Fitch, 1861. Boston Cultivator 23: 276. ♀.

Ichneumon seminiger Cresson, 1864. Ent. Soc. Phila., Proc. 3: 167. ♀.

lariae (Curtis), n. comb. Newfoundland (coastal Labrador), n. Que., N. H., N. W. T., n. Man.; Greenland.

Ichneumon Lariae Curtis, 1835. In Ross, Narrative of Second Voyage in Search of a No.-W. Passage 1829-33, App., p. lxi. ♀.

Cratichneumon Aurivillii Roman, 1916. Arkiv for Zool. 10 (22): 5. ♀.

Ichneumon lariae subarcticus Heinrich, 1957 (1956). Canad. Ent. 88: 689. ♀. N. syn.

Ichneumon lariae labradoris Heinrich, 1957 (1956). Canad. Ent. 88: 690. ♀. N. syn.

leucocoalis (Heinrich), n. comb. Maine, Pa.

Ichneumon leucocoalis Heinrich, 1961. Canad. Ent. Sup. 21: 266. ♀.

lewisii (Cresson), n. comb. N. Y. s. to n. Ga., w. to Iowa and Mo. Host: *Apantesis* sp.

Ichneumon Lewisii Cresson, 1864. Ent. Soc. Phila., Proc. 3: 177. ♀.

Ichneumon fulvopictus Ashmead, 1890 (1889). U. S. Natl. Mus., Proc. 12: 391. ♂. Heinrich (1961) erroneously stated that the holotype is from Mont.; it is from Mo.

Taxonomy: Heinrich, 1959. Ent. News 70: 207. — Heinrich, 1961. Canad. Ent. Sup. 21: 300-302.

longulus (Cresson). Colo.

Ichneumon longulus Cresson, 1864. Ent. Soc. Phila., Proc. 3: 171. ♂.

mainensis (Heinrich), n. comb. Maine.

Ichneumon mainensis Heinrich, 1962. Canad. Ent. Sup. 29: 880. ♀.

maius (Cresson). N. B., Que., Maine, Mass., Ont., Mich. Host: *Tigroides bicolor* (Grt.).

Ichneumon maius Cresson, 1867. Amer. Ent. Soc., Trans. 1: 307. ♀.

masoni (Heinrich), n. comb. Southwestern Alaska.

Ichneumon masoni Heinrich, 1956. Canad. Ent. 88: 479. ♀.

melanarecticus (Heinrich), n. comb. Newfoundland (n. Labrador), e. Que.

Ichneumon melanarecticus Heinrich, 1961. Canad. Ent. Sup. 21: 331. ♀.

mendax (Cresson). Que. s. to s. S. C., w. to Colo. and Tex.

Ichneumon mendax Cresson, 1877. Amer. Ent. Soc., Trans. 6: 149. ♀.

Phygadeuon Guiguardi Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 50. ♀.

microferiens (Heinrich), n. comb. Newfoundland (insular), Ont., Man., Alta., Alaska.

Ichneumon microferiens Heinrich, 1961. Canad. Ent. Sup. 21: 323. ♀.

Taxonomy: Heinrich, 1976 (1975). Nat. Canad. 102: 758 (male described).

mystificans (Heinrich), n. comb. Newfoundland (Labrador and insular), Maine, Mich.

Ichneumon mystificans Heinrich, 1961. Canad. Ent. Sup. 21: 342. ♂.

nanusniger (Heinrich), n. comb. Newfoundland (insular).

Ichneumon nanusniger Heinrich, 1976 (1975). Nat. Canad. 102: 760. ♂, ♀.

nearctivernus (Heinrich), n. comb. Maine, Ont., Mich., N. W. T., Sask., Alta., Yukon, Alaska.

Ichneumon computatorius nearctivernus Heinrich, 1957 (1956). Canad. Ent. 88: 648. ♀.

Taxonomy: Heinrich, 1961. Canad. Ent. Sup. 21: 339.

nebularum (Heinrich), n. comb. Newfoundland (Labrador), N. H.?

Ichneumon nebularum Heinrich, 1956. Canad. Ent. 88: 483. ♀.

neomolitor (Heinrich), n. comb. Newfoundland (insular), Maine, Alta. Ecology: Occurs in spruce (*Picea mariana*) bogs.

Ichneumon neomolitor Heinrich, 1961. Canad. Ent. Sup. 21: 329. ♀.

Biology: Heinrich, 1969. Nat. Canad. 96: 946-947.

neosarcitor (Heinrich), n. comb. Maine.

Ichneumon neosarcitor Heinrich, 1961. Canad. Ent. Sup. 21: 244. ♂, ♀.

nereni emigrator (Heinrich), n. comb. Newfoundland (insular), P. E. I., Que., Maine, Ont. *P.*

nereni nereni (Thomson) is Eurasian.

Ichneumon nereni emigrator Heinrich, 1961. Canad. Ent. Sup. 21: 289. ♂, ♀. *Ichneumon emigrator* Walkenaer, 1802 is apparently a lapsus for *I. migrator* Fabricius, 1785 and, therefore, would not preoccupy *emigrator* Heinrich.

nigrotergus (Davis). S. Dak.

Ichneumon nigrotergus Davis, 1898 (1897). Amer. Ent. Soc., Trans. 24: 350. ♀.

Taxonomy: Heinrich, 1961. Canad. Ent. Sup. 23: 417.

nigrovariegatus (Provancher). Newfoundland (insular) s. to S. C., w. to Mich.

Ichneumon humilis Provancher, 1875. Nat. Canad. 7 (1): 24 (key); 7 (3): 82. "♂" = ♀.

Preocc. by Wesmael, 1857.

Phygadeuon nigrovariegatus Provancher, 1875. Nat. Canad. 7 (6): 182. ♀.

Ichneumon humillimus Dalla Torre, 1902. Cat. Hym., v. 3, p. 923. N. name for *Ichneumon humilis* Provancher. Townes (1944) regarded *I. humilis* as replacing *Phygadeuon dorsalis* Provancher (formerly a synonym of *humilis*), but I do not think this view is tenable. *I. humilis* is the name which had been in use for the species most immediately preceding Dalla Torre's proposal of *humillimus*; therefore, it is logical to conclude that Dalla Torre proposed *humillimus* to replace *humilis*.

Taxonomy: Townes, 1944. Amer. Ent. Soc., Mem. 11: 399-400.

oblitus (Heinrich), n. comb. Que., Maine, N. Y., Ont., Mich., S. Dak.

Ichneumon oblitus oblitus Heinrich, 1961. Canad. Ent. Sup. 21: 234. ♂, ♀.

Ichneumon oblitus polyglaukos Heinrich, 1961. Canad. Ent. Sup. 21: 236. ♂, ♀.

ormsbyensis (Cameron). Nev.

Pseudamblyteles ormsbyensis Cameron, 1908. Amer. Ent. Soc., Trans. 34: 242. ♂.

palaearctops (Heinrich), n. comb. Newfoundland (insular).

Ichneumon palaearctops Heinrich, 1976 (1975). Nat. Canad. 102: 761. ♂.

paramajops (Heinrich), n. comb. Newfoundland (insular).

Ichneumon paramajops Heinrich, 1976 (1975). Nat. Canad. 102: 757. ♀.

parvus (Cresson). Ill., Mo., Kans.

Ichneumon parvus Cresson, 1864. Ent. Soc. Phila., Proc. 3: 159. ♂.

Ichneumon xanthopsis Ashmead, 1890 (1889). U. S. Natl. Mus., Proc. 12: 390. ♂. Heinrich (1961) erroneously stated that the holotype of *I. xanthopsis* is from Mont.; it is a specimen from the C. V. Riley collection bearing no locality label; Ashmead probably just assumed (perhaps correctly) that it is from "St. Louis, Mo."

Taxonomy: Heinrich, 1961. Canad. Ent. Sup. 21: 345 (syn. questioned).

patroclus (Viereck). N. Mex.

Cratichneumon patroclus Viereck, 1903. In Skinner, Amer. Ent. Soc., Trans. 29: 78. ♂.

pedalis (Cresson). Sask., Colo., Alta.

Ichneumon pedalidis Cresson, 1864. Ent. Soc. Phila., Proc. 3: 141. ♂.

Taxonomy: Heinrich, 1961. Canad. Ent. Sup. 21: 313, 347.

perlugubris (Heinrich), n. comb. Que., Sask.

Ichneumon perlugubris Heinrich, 1961. Canad. Ent. Sup. 21: 306. ♀.

peroratus (Cameron). Nev.

Pseudamblyteles peroratus Cameron, 1908. Amer. Ent. Soc., Trans. 34: 242. ♂.

Taxonomy: Townes, 1961. Ent. Soc. Wash., Proc. 63: 112.

perretti (Heinrich), n. comb. Newfoundland (n. Labrador).

Ichneumon perretti Heinrich, 1956. Canad. Ent. 88: 482. ♀.

pictifrons (Cresson). Alta., Mont., Colo.

Ichneumon pictifrons Cresson, 1864. Ent. Soc. Phila., Proc. 3: 160. ♂.

placidus (Provancher). Que., Maine, N. Y., Ont., Ohio, Alta., Utah.

Ichneumon placidus Provancher, 1875. Nat. Canad. 7 (1): 23 (key); 7 (3): 76. ♂.

polargus (Heinrich), n. comb. Newfoundland (n. Labrador), n. Ont., n. Man., Colo.?

Ichneumon polargus Heinrich, 1961. Canad. Ent. Sup. 21: 327. ♀.

popofensis (Ashmead). Alta., Alaska.

Ichneumon popofensis Ashmead, 1902. Wash. Acad. Sci., Proc. 4: 154. ♂.

propitius (Cresson), n. comb. Que. w. to Sask., s. to Ga. and Tex.; s. Mexico. Host: *Melitaea harrisii* Seud., *Phyciodes tharos* (Drury).

Ichneumon propitius Cresson, 1872. Amer. Ent. Soc., Trans. 4: 156. ♂.

Ichneumon tharotis Packard, 1881. Boston Soc. Nat. Hist., Proc. 21: 22. ♀.

Taxonomy: Heinrich, 1959. Ent. News 70: 207-208.

Biology: Swift, 1946. Ent. Soc. Amer., Ann. 39: 407-409.

pseudomaius (Heinrich), n. comb. Mass.

Ichneumon pseudomaius Heinrich, 1961. Canad. Ent. Sup. 21: 280. ♀.

pseudovivax (Heinrich), n. comb. Maine.

Ichneumon pseudovivax Heinrich, 1961. Canad. Ent. Sup. 21: 286. ♀.

pseudowinkleyi (Heinrich), n. comb. Que., Maine, N. Y., Ont., Man., Alta.

Ichneumon pseudowinkleyi Heinrich, 1961. Canad. Ent. Sup. 21: 252. ♀.

pumiliops (Heinrich), n. comb. Que., Maine, Mass., N. Y., Ohio.

Ichneumon pumiliops Heinrich, 1961. Canad. Ent. Sup. 21: 276. ♀.

Taxonomy: Heinrich, 1971. Nat. Canad. 98: 970 (variation).

purripennis (Cresson). Calif.

Ichneumon purripennis Cresson, 1877. Amer. Ent. Soc., Trans. 6: 175. ♀.

Taxonomy: Cresson, 1879 (1878). Acad. Nat. Sci. Phila., Proc. 30: 350.

pusillamoenus (Heinrich), n. comb. Newfoundland (insular), Que., Maine, Ont.

Ichneumon pusillamoenus Heinrich, 1961. Canad. Ent. Sup. 21: 272. ♀.

Taxonomy: Heinrich, 1976 (1975). Nat. Canad. 102: 762-763 (male described).

putus (Cresson). Newfoundland (insular) s. to D. C., w. to Iowa. Host: *Itame sulphurea* (Pack.).

Ichneumon putus Cresson, 1877. Amer. Ent. Soc., Trans. 6: 173. ♀.

pycnocephalus (Heinrich), n. comb. Yukon, B. C.

Ichneumon pycnocephalus Heinrich, 1961. Canad. Ent. Sup. 21: 223 (key), 261. ♀ The variant spelling "pycnocephalos" which appeared on p. 261 was rejected in favor of *pycnocephalus* by Peck (1964).

Taxonomy: Peck, 1964. Ent. Soc. Canada, Mem. 35: 892.

saucius (Cresson), n. comb. Que. w. to Mont., s. to N. C. and Ill. Host: *Paranthrene perlucida*

(Bsk.), *P. simulans* (Grt.). In the U. S. Natl. Museum collection there are three males from Missoula, Mont. reared together with the type material of *Paranthrene perlucida*. I have seen several females which were collected in hibernation in Nov. and Dec. in Va.

Ichneumon saucius Cresson, 1864. Ent. Soc. Phila., Proc. 3: 137. ♀.

Ichneumon torvinus Cresson, 1867. Amer. Ent. Soc., Trans. 1: 292. ♂.

Taxonomy: Heinrich, 1959. Ent. News 70: 209 (syn.). — Heinrich, 1961. Canad. Ent. Sup. 21: 335-336; 23: 373.

seditiosus (Cresson). Colo.

Ichneumon seditus Cresson, 1877. Amer. Ent. Soc., Trans. 6: 172. ♀.

semicoccineus (Cresson). N. Y., Del., Va., S. C. Heinrich (1961) erroneously stated that the "holotype" of *semicoccineus* is from "Western Territory" (= Western U. S. A.); in the original description Cresson said "Hab..—Delaware and Virginia," and Cresson (1916) selected a lectotype from Virginia. Heinrich (1961) identified paralectotype from Del. as *semicoccineus*, but the identity of the lectotype seems to remain an open question if the specimen Heinrich thought to be the "holotype" actually was labeled "Western Territory."

Ichneumon semicoccineus Cresson, 1864. Ent. Soc. Phila., Proc. 3: 179. ♂.

Taxonomy: Cresson, 1867. Amer. Ent. Soc., Trans. 1: 291 (syn.). —Cresson, 1916. Amer. Ent. Soc., Mem. 1: 54. —Heinrich, 1959. Ent. News 70: 207 (syn.). —Heinrich, 1961. Canad. Ent. Sup. 21: 311-312.

similaris (Provancher). Newfoundland (n. Labrador) w. to Alaska, s. to Que. and Oreg.

Ichneumon similaris Provancher, 1875. Nat. Canad. 7: 26. ♂.

Automalus nigropilosus Ashmead, 1902. Wash. Acad. Sci., Proc. 4: 148. ♂.

stagnophilus (Heinrich), n. comb. Newfoundland (insular), N. Y., Ont.

Ichneumon stagnophilus Heinrich, 1961. Canad. Ent. Sup. 21: 249. ♀.

Taxonomy: Heinrich, 1969. Nat. Canad. 96: 940 (male described).

subdolus (Cresson). N. S. w. to Alta., s. to w. N. C. and s. Mich.

Ichneumon subdolus Cresson, 1867. Amer. Ent. Soc., Trans. 1: 298. ♀.

Amblyteles (Pterocormus) quadzironatus Viereck, 1917 (1916). Conn. State Geol. and Nat. Hist. Survey Bul. 22: 352, 357. ♂.

subrestrictus (Viereck). N. Mex.

Cratichneumon restrictus var. *subrestrictus* Viereck, 1903. In Skinner, Amer. Ent. Soc., Trans. 29: 77. ♂.

substituens (Heinrich), n. comb. Mass., Ohio.

Ichneumon substituens Heinrich, 1961. Canad. Ent. Sup. 21: 265. ♀.

suburbanus (Heinrich), n. comb. N. S. w. to Alta., s. to Conn. and Mich.

Ichneumon suburbanus Heinrich, 1961. Canad. Ent. Sup. 21: 307. ♂, ♀.

subversatus (Heinrich), n. comb. Que., Maine, Ont.

Ichneumon subversatus Heinrich, 1961. Canad. Ent. Sup. 21: 283. ♀.

trigemellus (Heinrich), n. comb. N. W. T., Man.

Ichneumon trigemellus Heinrich, 1956. Canad. Ent. 88: 484. ♀.

tritus (Heinrich), n. comb. Que., Maine, N. Y., Ont.

Ichneumon tritus Heinrich, 1961. Canad. Ent. Sup. 21: 256. ♀.

truculentus (Cresson). Que., N. H., Mich.

Ichneumon truculentus Cresson, 1877. Amer. Ent. Soc., Trans. 6: 150. ♀.

tumidifrons (Cresson). Mich., Ill.

Ichneumon tumidifrons Cresson, 1867. Amer. Ent. Soc., Trans. 1: 311. ♀.

Taxonomy: Townes and Townes, 1951. In Muesebeck et al., U. S. Dept. Agr., Agr. Monog. 2: 297 (syn.). —Heinrich, 1961. Canad. Ent. Sup. 21: 267-268.

ultimus (Cresson). Que. s. to Md., w. to Mich. and Ohio.

Ichneumon ultimus Cresson, 1877. Amer. Ent. Soc., Trans. 6: 178. ♀.

unalaskae (Ashmead). Southwestern Alaska.

Stenichneumon unalaskae Ashmead, 1902. Wash. Acad. Sci., Proc. 4: 148. ♂.

uncinatus (Cresson). Ont., Mich., Alta., Alaska.

Ichneumon uncinatus Cresson, 1877. Amer. Ent. Soc., Trans. 6: 159. ♀.

valdopacus (Heinrich), n. comb. Maine, N. Y.

Ichneumon valdopacus Heinrich, 1961. Canad. Ent. Sup. 21: 286. ♀.

vecors (Cresson). "Hudson's Bay Territory." This species has not been included in any of the publications of Heinrich, not even those dealing with arctic and subarctic Ichneumoninae (Heinrich [1956, 1958]).

Ichneumon ventralis Cresson, 1867. Amer. Ent. Soc., Trans. 1: 308. ♀. Preocc. by Cresson, 1865.

Ichneumon vecors Cresson, 1877. Amer. Ent. Soc., Trans. 6: 172. N. name for *I. ventralis* Cresson, 1867.

Taxonomy: Heinrich, 1956. Canad. Ent. 88: 477-487. — Heinrich, 1958. Canad. Ent. 90: 739-741.

versabilis (Cresson). Que., Maine, Vt., Mass., Conn., N. Y., Pa., Ohio, Mich. At least one and probably all of the host records quoted from the literature by Heinrich (1961) are based upon misidentifications.

Ichneumon versabilis Cresson, 1877. Amer. Ent. Soc., Trans. 6: 161. ♂.

Amblyteles (Pterocormus) brittoni Viereck, 1917 (1916). Conn. State Geol. and Nat. Hist. Survey Bul. 22: 347, 348, 358. ♀.

Taxonomy: Townes, 1944. Amer. Ent. Soc., Mem. 11: 397-398 (syn.). — Heinrich, 1959. Ent. News 70: 208. — Heinrich, 1961. Canad. Ent. Sup. 21: 281-283.

vicinus (Cresson). Mich.? Ill. Heinrich (1961) knew this species only from the holotype and was uncertain whether it should be placed in *Pterocormus* or *Cratichneumon*.

Ichneumon vicinus Cresson, 1864. Ent. Soc. Phila., Proc. 3: 169. ♀. Preocc. by Cuvier, 1833 and Fonscolombe, 1847; not renamed here because of taxonomic uncertainties.

vinulentus (Cresson). Wyo., Colo., Alaska, Wash.

Ichneumon vinulentus Cresson, 1864. Ent. Soc. Phila., Proc. 3: 162. ♂.

vivax (Cresson). N. H., Ont., Ohio.

Ichneumon vivax Cresson, 1877. Amer. Ent. Soc., Trans. 6: 178. ♀.

volesus (Cresson). N. S. w. to Alta., s. to N. Y., Mich., and Colo.

Ichneumon volesus Cresson, 1867. Amer. Ent. Soc., Trans. 1: 304. ♀.

Amblyteles balteatus Hopper, 1938. Amer. Ent. Soc., Trans. 64: 97. ♂. Preocc. in *Pterocormus* by Wesmael, 1845.

walleyi (Heinrich), n. comb. Maine, Ont.

Ichneumon walleyi Heinrich, 1961. Canad. Ent. Sup. 21: 338. ♀. Preocc. secondarily by *Ichneumon walleyi* (Heinrich), 1961.

weemsi (Heinrich), n. comb. Fla. Host: *Leucania latiuscula* H.-S.

Ichneumon weemsi Heinrich, 1972. Nat. Canad. 99: 175. ♂, ♀.

winkleyi (Viereck). N. B., Que., Maine, Conn., Ont., Ohio, Mich., Mo.?

Amblyteles (Pterocormus) winkleyi Viereck, 1917 (1916). Conn. State Geol. and Nat. Hist. Survey Bul. 22: 347, 348, 358. ♀.

Taxonomy: Heinrich, 1959. Ent. News 70: 208.

zelotypus (Cresson). Que., Maine, N. H., N. Y., N. J., W. Va., Ont., Ohio, Mich., Alta.

Ichneumon zelotypus Cresson, 1867. Amer. Ent. Soc., Trans. 1: 299. ♂.

Ichneumon lividulus Provancher, 1877. Nat. Canad. 9: 10. ♀.

Taxonomy: Heinrich, 1959. Ent. News 70: 209 (syn.).

Genus CHASMIAS Ashmead

Chasmodes Wesmael, 1845 (1844). [Brussels] Acad. Roy. de Belg., Nouveaux Mem. 18: 15. Preocc. by Cuvier and Valenciennes, 1836.

Type-species: *Ichneumon motatorius* Gravenhorst. Desig. by Ashmead, 1900. The type-species is Gravenhorst's identification of *I. motatorius* Fabricius.

Chasmias Ashmead, 1900. U. S. Natl. Mus., Proc. 23: 17. N. name for *Chasmodes* Wesmael.

This is a very small Holarctic genus.

Taxonomy: Heinrich, 1961. Canad. Ent. Sup. 21: 211, 212, 336; 23: 373. — Townes, Momoi, and Townes, 1965. Amer. Ent. Inst., Mem. 5: 458 (syn.).

scelestus (Cresson). Maine s. to N. C., w. to Wis., Iowa, and La. Host: *Achatodes zeae* (Harris), *Arzama* sp., *Papaipema cataphracta* (Grt.), *P. impecuniosa* (Grt.), *Parapamea buffalensis* (Grt.).
Ichneumon scelestus Cresson, 1864. Ent. Soc. Phila., Proc. 3: 148. ♀.

SUBTRIBE HOPLISMENINA

Genus HYBOPHORELLUS Schulz

Hybophorus Tischbein, 1875. Stettin. Ent. Ztg. 36: 281. Preocc. by Waterhouse, 1853.

Type-species: *Ichneumon aulicus* Gravenhorst. Monotypic.

Hybophorellus Schulz, 1911 (1909). Zool. Ann. 4: 38. N. name for *Hybophorus* Tischbein.

This is a very small Holarctic genus.

baffinensis Heinrich. Northeastern N. W. T.

Hybophorellus baffinensis Heinrich, 1962. Canad. Ent. Sup. 26: 565. ♂.

injucundus nearcticus Heinrich. N. W. T. *H. injucundus injucundus* (Wesmael) is European.

Hybophorellus injucundus nearcticus Heinrich, 1957 (1956). Canad. Ent. 88: 650. ♂, ♀.

townesi Heinrich. Southern Sask.

Hybophorellus townesi Heinrich, 1957 (1956). Canad. Ent. 88: 649. ♂, ♀.

Genus HOPLISMENUS Gravenhorst

Hoplismenus Gravenhorst, 1829. Ichn. Europaea, v. 2, p. 409.

Type-species: *Hoplismenus moestus* Gravenhorst. Desig. by Westwood, 1840. The type-species is regarded as a synonym of *H. albifrons* Gravenhorst.

Peritaenius Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 190.

Type-species: *Peritaenius bavaricus* Clement. Included and desig. by Clement, 1927.

The type-species is regarded as a synonym of *H. istrianus* (Clement).

Rhysaspis Tischbein, 1874. Stettin. Ent. Ztg. 35: 139.

Type-species: *Rhysaspis rugosus* Tischbein. Monotypic.

Zanthojoppa Cameron, 1901. Ann. and Mag. Nat. Hist. (7) 7: 378.

Type-species: *Zanthojoppa trilineata* Cameron. Monotypic.

Xanthojoppa (?) Cameron, 1903. Ann. and Mag. Nat. Hist. (7) 11: 182.

Xanthojoppa Morley, 1915. Rev. Ichn. Brit. Mus., v. 4, p. 89. Emend.

Taeniaspis Clement, 1927. Konowia 6: 72.

Type-species: *Taeniaspis flavitarsis* Clement. Monotypic.

This is a moderate sized genus of Neotropic, Holarctic, and Oriental distribution.

Revision: Swift, 1946. Ent. Soc. Amer., Ann. 39: 397-407.

arizonensis Swift. Ariz.

Hoplismenus arizonensis Swift, 1946. Ent. Soc. Amer., Ann. 39: 404. ♀.

morulus flavitarsis (Cresson). Colo., N. Mex., Utah.

Trogus flavitarsis Cresson, 1865. Ent. Soc. Phila., Proc. 4: 264. ♂.

morulus morulus (Say). P. E. I. s. to Va., w. to s.w. N. W. T. and Kans. Host: *Cynthia cardui* (L.)?, *Nymphalis antiopa* (L.), *Polygonia comma* (Harris), *P. interrogationis* (F.).

Ichneumon morulus Say, 1829. Contrib. Maclurian Lyceum to Arts and Sci. 1: 73. ♀.

Ichneumon calcaratus Provancher, 1875. Nat. Canad. 7 (1): 21 (key); 7 (3): 49. ♂. Preocc. by Rossi, 1794.

morulus pacificus Cresson. Mont., Ida., s. B. C., Wash., Oreg., Calif. Host: *Nymphalis californica* (Bdv.).

Hoplismenus pacificus Cresson, 1877. Amer. Ent. Soc., Trans. 6: 186. ♂, ♀.

polyleucus Heinrich. Southern Ont.

Hoplismenus polyleucus Heinrich, 1962. Canad. Ent. Sup. 26: 659. ♂.

praeruptus Swift. Conn., N. Y., Ont.?, Wash.

Hoplismenus praeruptus Swift, 1946. Ent. Soc. Amer., Ann. 39: 407. ♀.

rutilus borealis Heinrich. Man., Sask., w. N. W. T.

Hoplismenus rutilus borealis Heinrich, 1962. Canad. Ent. Sup. 26: 657. ♂, ♀.

rutilus rutilus (Cresson). P. E. I., Que., Maine, Mass., R. I., Conn., Pa., Va., Ont.

Ichneumon rutilus Cresson, 1864. Ent. Soc. Phila., Proc. 3: 169. ♀.

Ichneumon scutellatus Provancher, 1875. Nat. Canad. 7 (1): 24 (key); 7 (3): 78. ♂ (?) misdet.?). Preocc. by Geoffroy, 1785. Barron (1975) has shown that the specimen selected as lectotype by Gahan and Rohwer (1917) had been erroneously labeled, and Barron selected a valid lectotype.

Taxonomy: Gahan and Rohwer, 1917. Canad. Ent. 49: 432. — Barron, 1975. Nat. Canad. 102: 562.

rutilus transversus Davis. Wyo., Colo., Ida., Oreg.

Hoplismenus transversus Davis, 1898 (1897). Amer. Ent. Soc., Trans. 24: 351. ♂.

Hoplismenus rutilus Swift, 1946. Ent. Soc. Amer., Ann. 39: 407. ♀.

TRIBE ICHNEUMONINI

With exception of the Old-World genus *Lymantrichneumon*, females of this tribe do not hibernate.

SUBTRIBE ICHNEUMONINA

Genus SYSPASIS Townes

Syssasis Townes, 1965. In Townes, Momoi, and Townes, Amer. Ent. Inst., Mem. 5: 429, 595, 603.

Type-species: *Ichneumon scutellator* Gravenhorst. Orig. desig.

This is a small Holarctic genus.

tauma (Heinrich). Que., Maine, N. Y., n.w. S. C., Ont., Mich., Minn.; Europe. Host: *Tigroides bicolor* (Grt.), *Paraphia* sp.?, *Choristoneura fumiferana* (Clem.).
Coelichneumon tauma Heinrich, 1951. Bonner Zool. Beitr. 2: 253. ♀.

Taxonomy: Heinrich, 1953. Wash. Acad. Sci., Jour. 45: 148. — Heinrich, 1969. Nat. Canad. 96: 939-940.

Genus ICHNEUMON Linnaeus

Ichneumon Linnaeus, 1758. Syst. Nat., ed. 10, p. 560.

Type-species: *Ichneumon comitator* Linnaeus. Desig. by Curtis, 1839.

Coelichneumon Thomson, 1893. Opusc. Ent. 18: 1901.

Type-species: *Ichneumon lineator* Gravenhorst. Desig. by Ashmead, 1900. The type-species is Gravenhorst's misidentification of *I. lineator* Fabricius; the latter is a species of *Syssasis* while *I. lineator* in the sense of Gravenhorst is regarded as a synonym of *I. comitator* Linnaeus.

Cyanojoppa Cameron, 1902. Ztschr. System. Hym. Dipt. 2: 398.

Type-species: *Cyanojoppa rufo-femorata* Cameron. Desig. by Viereck, 1914 from four species included by Cameron, 1903.

Taphanes Cameron, 1903. Entomologist 36: 239. Heinrich (1966) gave *Taphanes* subgeneric status.

Type-species: *Taphanes rufiventris* Cameron. Monotypic.

Spilojoppa Cameron, 1904. Entomologist 37: 208.

Type-species: *Spilojoppa fulvipes* Cameron. Monotypic. The type-species is a synonym of *I. fulvimanus* Townes, Townes, and Gupta.

Shalisa Cameron, 1904. Ztschr. System. Hym. Dipt. 4: 221.

Type-species: *Shalisa fulvipes* Cameron. Monotypic.

Lodryca Cameron, 1904. Ztschr. System. Hym. Dipt. 4: 223.

Type-species: *Lodryca lineaticeps* Cameron. Monotypic.

Eugyrus Townes, 1946. Bol. Ent. Venezolana 5: 57.

Type-species: *Ichneumon alvarado* Cresson. Monotypic and orig. desig.

This is a large genus of Neotropic, Holarctic, and Oriental distribution.

Taxonomy: Townes and Townes, 1966. Amer. Ent. Inst., Mem. 8: 284-285 (syn.). — Heinrich, 1966. Ent. Tidskr. 87: 188-192.

albicoxa (Heinrich), n. comb. N. Y., N. C., Ont., Mich., Wis.

Coelichneumon albicoxa Heinrich, 1961 (1960). Canad. Ent. Sup. 15: 81. ♂.

Taxonomy: Heinrich, 1971. Nat. Canad. 98: 964-965 (variation and female description).

ater Cresson. Que. w. to s.e. Alaska, s. to N. C., Ill., and Wash.

Ichneumon ater Cresson, 1864. Ent. Soc. Phila., Proc. 3: 138. ♀.

azotus Cresson. Que. s. to Ala., w. to Mich., Kans., and Tex.

Ichneumon Azotus Cresson, 1864. Ent. Soc. Phila., Proc. 3: 150. ♂.

Ichneumon agnitus Cresson, 1864. Ent. Soc. Phila., Proc. 3: 151. ♀.

barnstoni (Morley). Newfoundland (insular), Pa., Md., "Hudson Bay", Ont., Mich., Wis., Alta.

Coelichneumon barnstoni Morley, 1915. Rev. Ichn. Brit. Mus., v. 4, p. 130. ♂ (female misdet.).

Taxonomy: Townes, 1961. Ent. Soc. Wash., Proc. 63: 105.

brunneri Rohwer. Maine w. to Idaho, s. to Va., Iowa, w. Nebr., and Utah. Host: *Dioryctria auranticella* (Grt.), *D. disclusa* Heinr., *D. zimmermannii* (Grt.).

Ichneumon brunneri Rohwer, 1914. Ent. Soc. Wash., Proc. 15: 180. ♂, ♀.

chalybeus Cresson. Mass., Mich.

Ichneumon chalybeus Cresson, 1877. Amer. Ent. Soc., Trans. 6: 146. ♀.

Ichneumon chalybaeus (?) Dalla Torre, 1902. Cat. Hym., v. 3, p. 873.

Coelichneumon chalybaeus Morley, 1915. Rev. Ichn. Brit. Mus., v. 4, p. 128. Emend.

citimus Cresson. N. H. Known only from the holotype.

Ichneumon citimus Cresson, 1877. Amer. Ent. Soc., Trans. 6: 144. ♂.

columbianus (Heinrich), n. comb. Mich., B. C.

Coelichneumon columbianus Heinrich, 1961 (1960). Canad. Ent. Sup. 15: 38. ♀.

delitorius *cinctitarsis* Provancher. P. E. I. w. to s. B. C., s. to N. C., Mich., and S. Dak.

Ichneumon varipes Provancher, 1875. Nat. Canad. 7 (1): 22 (key); 7 (2): 50. ♂. Preocc. by Gravenhorst, 1829.

Ichneumon signatipes Provancher, 1875. Nat. Canad. 7 (1): 22 (key); 7 (2): 52. ♀. Preocc. by Cresson, 1867.

Ichneumon cinctitarsis Provancher, 1877. Nat. Canad. 9: 7. N. name for *I. varipes* Provancher.

Ichneumon stygicus Cresson, 1877. Amer. Ent. Soc., Trans. 6: 151. N. name for *I. signatipes* Provancher.

Taxonomy: Heinrich, 1959. Wash. Acad. Sci., Jour. 43: 149. — Heinrich, 1959. Canad. Ent. 91: 806. — Heinrich, 1961. Canad. Ent. Sup. 21: 331. — Heinrich, 1971. Nat. Canad. 98: 967.

duffieldi (Heinrich), n. comb. N. Y.

Coelichneumon duffieldi Heinrich, 1971. Nat. Canad. 98: 965. ♀.

eximiops (Heinrich), n. comb. Maine, N. Y., Wis., Ill., Iowa, Kans. Host: *Achatodes zeae* (Harris).

Coelichneumon eximiops Heinrich, 1961 (1960). Canad. Ent. Sup. 15: 49. ♂, ♀.

eximius Stephens. Newfoundland (insular) w. to Oreg., s. to Ga., Miss., Tex., and n. Mex.

Host: Arctiid?, *Datana ministra* (Drury), *Abagrotis placida* (Grt.), *Acronicta* sp.

Ichneumon eximius Stephens, 1833. Nomencl. Brit. Ins., ed. 2, app. Nomen nudum.

Ichneumon eximius Stephens, 1835. Illus. Brit. Ent., v. 7, p. 186. [female].

Ichneumon caeruleus Cresson, 1864. Ent. Soc. Phila., Proc. 3: 149. ♀.

Taxonomy: Morley, 1902. Ent. Monthly Mag. 38: 120 (attempt to place from description).

— Perkins, 1953. Brit. Mus. (Nat. Hist.) Ent., Bul. 3: 107, 110 (located specimen presumed to be *eximius* holotype). — Townes, 1961. Ent. Soc. Wash., Proc. 63: 107, 169 (confirmation of identity of presumed holotype of *eximius*). — Heinrich, 1969. Nat. Canad. 96: 939 (variation).

flagellator (Heinrich), n. comb. Colo., Calif. The holotype was collected in July at Fort Collins, Colo. in the 1890's by C. F. Baker.

Coelichneumon flagellator Heinrich, 1961 (1960). Canad. Ent. Sup. 15: 71. ♀. Preocc. in

Ichneumon by *I. flagellator* Fabricius, apparently a forgotten species which would not be a species of Ichneumoninae.

- foxleei** (Heinrich), n. comb. Southern B. C. Not to be confused nomenclaturally with *Pterocormus foxleei* (Heinrich).
- Coelichneumon foxleei* Heinrich, 1961 (1960). Canad. Ent. Sup. 15: 52. ♀.
- histicus** Cresson. P. E. I. w. to B. C., s. to w. N. C., Kans., and Idaho.
- Ichneumon histicus* Cresson, 1867. Amer. Ent. Soc., Trans. 1: 294. ♂.
- Ichneumon germanus* Cresson, 1877. Amer. Ent. Soc., Trans. 6: 143. ♀.
- jejunus** Cresson. Que. w. to B. C., s. to Fla. and Ariz. Host: *Alypia octomaculata* (F.).
- Ischnus jejonus* Cresson, 1864. Ent. Soc. Phila., Proc. 3: 186. ♂.
- Ichneumon apertus* Cresson, 1867. Amer. Ent. Soc., Trans. 1: 293. ♀.
- leucographus** (Heinrich), n. comb. Maine, Ont.
- Coelichneumon leucographus* Heinrich, 1961 (1960). Canad. Ent. Sup. 15: 39. ♂, ♀.
- magniscpa** (Heinrich), n. comb. Maine, Mass., N. Y., N. C., Fla., Ont.
- Coelichneumon magniscpa* Heinrich, 1961 (1960). Canad. Ent. Sup. 15: 37. ♂, ♀.
- masoni** (Heinrich), n. comb. Southwestern B. C. Not to be confused nomenclaturally with *Pterocormus masoni* (Heinrich), 1956.
- Coelichneumon masoni* Heinrich, 1961 (1960). Canad. Ent. Sup. 15: 43. ♀.
- maurus** Cresson. Que. w. to N. W. T. and B. C., s. to Ga., Mo., and Utah.
- Ichneumon Maurus* Cresson, 1864. Ent. Soc. Phila., Proc. 3: 135. ♀.
- navus** Say. Que. s. to Fla., w. to Mich., Kans., and Tex. Host: *Hyphantria cunea* (Drury), looper defoliating cypress, noctuid.
- Ichneumon navus* Say, 1836. Boston Jour. Nat. Hist. 1: 229. ♂, ♀.
- Ichneumon cinctipes* Provancher, 1875. Nat. Canad. 7 (1): 22 (key); 7 (2): 51. ♀. Preocc. by Retzius, 1783.
- neocitimus** (Heinrich), n. comb. Southern N. W. T., s.w. Yukon.
- Coelichneumon neocitimus* Heinrich, 1961 (1960). Canad. Ent. Sup. 15: 79. ♂, ♀.
- neocretatus** (Heinrich), n. comb. Newfoundland (insular), Que., Maine, N. Y., Ont., Mich., Kans.?, Sask.
- Coelichneumon neocretatus* Heinrich, 1961 (1960). Canad. Ent. Sup. 15: 51. ♂, ♀.
- neomexicanus** (Heinrich), n. comb. N. Mex. The holotype was collected on Sept. 12 (not 13), 1916 by C[arl] Heinrich.
- Coelichneumon neomexicanus* Heinrich, 1961 (1960). Canad. Ent. Sup. 15: 40. ♀.
- nigraticolor** (Viereck). Que., Maine, Mass., R. I., Conn., Pa., Ont., Ohio, Mich.
- Amblyteles (Chasmias ?) nigraticolor* Viereck, 1917 (1916). Conn. State Geol. and Nat. Hist. Survey Bul. 22: 344, 355. ♀.
- nigrosignatus** Viereck. Ariz. A brief redescription of the holotype is given by Heinrich (1961), but *nigrosignatus* was not included in his key; Heinrich said that it would run to *pervagus* Cresson.
- Ichneumon (Barichneumon) nigrosignatus* Viereck, 1905. Kans. Acad. Sci., Trans. 19: 297. ♂.
- Taxonomy: Heinrich, 1961 (1960). Canad. Ent. Sup. 15: 82.
- nudus** (Heinrich), n. comb. Maine, Ga. The holotype (from Summerville, Ga.) is apparently the specimen identified as *Ichneumon* sp. by Fattig (1950).
- Coelichneumon nudus* Heinrich, 1961 (1960). Canad. Ent. Sup. 15: 40. ♂.
- Taxonomy: Fattig, 1950. Emory Univ. Mus. Bul. 9: 40. — Heinrich, 1969. Nat. Canad. 96: 937-939 (male described).
- obscuratus** (Heinrich), n. comb. Southern B. C.
- Coelichneumon obscuratus* Heinrich, 1961 (1960). Canad. Ent. Sup. 15: 45. ♀. Preocc. secondarily in *Ichneumon* by Habermehl, 1916 (*Pterocormus subquadratus* var. *obscuratus* [Habermehl]).
- orpheus** Cresson. Que. w. to B. C., s. to Va., Mo., Utah, and Oreg. Host: *Epantheria scribonia* (Stoll), notodontid.
- Ichneumon Orpheus* Cresson, 1864. Ent. Soc. Phila., Proc. 3: 136. ♀.
- pepticus** Cresson. N. J.?, Mich., Ill., Iowa, Mo., Colo., Wash., Oreg.
- Ichneumon pepticus* Cresson, 1877. Amer. Ent. Soc., Trans. 6: 148. ♂.

pervagus Cresson. Newfoundland (Labrador), N. S., Maine, N. H., Conn., N. Y., Mich., B. C.

Host: *Scoliopteryx libatrix* (L.).

Ichneumon pervagus Cresson, 1877. Amer. Ent. Soc., Trans. 6: 148. ♂.

Amblyteles (Chasmias ?) pequoitorum Viereck, 1917 (1916). Conn. State Geol. and Nat. Hist. Survey Bul. 22: 345, 355. ♀.

Taxonomy: Heinrich, 1959. Ent. News 70: 207 (syn.).

phaenomenon (Heinrich), n. comb. Maine, N. Y., Alta., Alaska.

Coelichneumon phaenomenon Heinrich, 1961 (1960). Canad. Ent. Sup. 15: 35. ♂, ♀.

Taxonomy: Heinrich, 1971. Nat. Canad. 98: 962-963 (variation).

pomilioaeneus (Heinrich), n. comb. Maine.

Coelichneumon pomilioaeneus Heinrich, 1961 (1960). Canad. Ent. Sup. 15: 29, 50. ♀. The alternate spelling "pomiloaeneus" (p. 29) was rejected in favor of *pomilioaeneus* by Peck, 1964.

Taxonomy: Peck, 1964. Ent. Soc. Canada, Mem. 35: 891.

pulcher Brulle. Maine, R. I., Conn., N. Y., D. C., n. Ga., s. Fla., Ont., Ark., La.; Mexico.

Ichneumon pulcher Brulle, 1846. In Lepeletier, Hist. Nat. Ins. Hym., v. 4, p. 304. ♀ (male misdet.).

Taxonomy: Townes, 1961. Ent. Soc. Wash., Proc. 63: 109.

pulcherior (Heinrich), n. comb. Mont., Colo., Ariz., B. C. Host: *Phaeoura mexicanaria* (Grt.).

Coelichneumon pulcherior Heinrich, 1961 (1960). Canad. Ent. Sup. 15: 36. ♀.

pumilionobilis (Heinrich), n. comb. Newfoundland (insular), Maine, Ont., Mich.; Europe.

Coelichneumon pumilionobilis Heinrich, 1951. Bonner Zool. Beitr. 2: 251. ♂, ♀.

Coelichneumon pumiliostimilis (?) Heinrich, 1953. Wash. Acad. Sci., Jour. 43: 148.

punctifer (Heinrich), n. comb. N. Y., Md., Va., Tex.

Coelichneumon punctifer Heinrich, 1961 (1960). Canad. Ent. Sup. 15: 77. ♂, ♀.

quadraticeps (Heinrich), n. comb. Md., Va., W. Va., Mich.

Coelichneumon quadraticeps Heinrich, 1961 (1960). Canad. Ent. Sup. 15: 78. ♂, ♀.

rubricoxa (Heinrich), n. comb. Calif.

Coelichneumon rubricoxa Heinrich, 1961 (1960). Canad. Ent. Sup. 15: 72. ♂, ♀.

rubroaeneus (Heinrich), n. comb. Northeastern Calif.

Coelichneumon rubroaeneus Heinrich 1961 (1960). Canad. Ent. Sup. 15: 44. ♀.

sassacoides (Heinrich), n. comb. Southern B. C. s. to s. Calif.

Coelichneumon sassacoides Heinrich, 1961 (1960). Canad. Ent. Sup. 15: 42. ♀.

sassacus (Viereck). Que. s. to w. N. C., w. to Mich.

Amblyteles (Coelichneumon) sassacus Viereck, 1917 (1916). Conn. State Geol. and Nat.

Hist. Survey Bul. 22: 349, 360. ♀.

semilaevis Cresson. Eastern Que., N. W. T., B. C., Calif.

Ichneumon semilaevis Cresson, 1864. Ent. Soc. Phila., Proc. 3: 142. ♀.

Ichneumon semilevis Dalla Torre, 1902. Cat. Hym., v. 3, p. 989. Emend.

similior (Heinrich), n. comb. Maine, Ont.

Coelichneumon similior Heinrich, 1961 (1960). Canad. Ent. Sup. 15: 44. ♀.

terebratus (Heinrich), n. comb. Colo.

Coelichneumon terebratus Heinrich, 1961 (1960). Canad. Ent. Sup. 15: 70. ♀.

terebrifer (Heinrich), n. comb. Va.

Coelichneumon terebrifer Heinrich, 1961 (1960). Canad. Ent. Sup. 15: 71. ♀.

viola Cresson. N. Y. s. to Fla., w. to Wis., Nebr., and Ariz.

Ichneumon viola Cresson, 1864. Ent. Soc. Phila., Proc. 3: 137. ♀.

Ichneumon vittifrons Cresson, 1864. Ent. Soc. Phila., Proc. 3: 143. ♂.

Ichneumon recens Cresson, 1877. Amer. Ent. Soc., Trans. 6: 153. ♂.

vitalis Cresson. Maine w. to Oreg., s. to Ga., Ala., Colo., and Utah.

Ichneumon vitalis Cresson, 1877. Amer. Ent. Soc., Trans. 6: 149. ♀.

walleyi (Heinrich), n. comb. Ont., B. C. Not to be confused with *Pterocormus walleyi* (Heinrich).

Coelichneumon walleyi Heinrich, 1961 (1960). Canad. Ent. Sup. 15: 77. ♂, ♀.

Genus COELICHNEUMONOPS Heinrich

Coelichneumonops Heinrich, 1958. Canad. Ent. 90: 739.

Type-species: *Coelichneumonops vockerothi* Heinrich. Orig. desig.

This is a small genus of Holarctic distribution.

cashmani Heinrich. Northern Yukon.

Coelichneumonops cashmani Heinrich, 1958. Canad. Ent. 90: 740. ♀.

occidentalis (Roman). Northern Que., n.e. N. W. T.; Greenland.

Coelichneumon solitus var. *occidentalis* Roman, 1934. Ann. and Mag. Nat. Hist. (10) 14: 606. ♂.

Taxonomy: Heinrich, 1961 (1960). Canad. Ent. Sup. 15: 85. — Townes, 1961. Ent. Soc. Wash., Proc. 63: 105.

solutus (Holmgren). Northern Que., N. H.; n. Europe.

Ichneumon solitus Holmgren, 1864. Ichn. Suecica, v. 1, p. 145. ♀.

Coelichneumonops vockerothi Heinrich, 1958. Canad. Ent. 90: 739. ♂, ♀.

Taxonomy: Heinrich, 1961 (1960). Canad. Ent. Sup. 15: 83-84.

walkleyae Heinrich. Southwestern B. C. Apparently known only from the holotype which was collected at Vancouver, B. C. on May 1, [19]04 (not 1940).

Coelichneumonops walkleyae Heinrich, 1961 (1960). Canad. Ent. Sup. 15: 85. ♀.

Genus PROTICHNEUMON Thomson

Protichneumon Thomson, 1893. Opusc. Ent. 18: 1899.

Type-species: *Ichneumon fusorius* Linnaeus. Desig. by Ashmead, 1900.

Protichneumon subg. *Metopichneumon* Uchida, 1935. Insecta Matsumurana 10: 13.

Type-species: *Protichneumon (Metopichneumon) superomediae* Uchida. Monotypic and orig. desig.

This is a moderate sized Holarctic and Oriental genus which is rather arbitrarily separated from *Ichneumon*. The usual hosts are Sphingidae.

Taxonomy: Townes, Momoi, and Townes, 1965. Amer. Ent. Inst., Mem. 5: 530-531 (syn.).

effigies Heinrich. Newfoundland (insular) w. to s. B. C., s. to Ga., Miss., Kans., and Colo.

Protichneumon effigies Heinrich, 1961 (1960). Canad. Ent. Sup. 15: 26. ♂, ♀.

Protichneumon sartoris Heinrich, 1971. Nat. Canad. 98: 961. ♀. N. syn.; this synonymy is based upon the comparison of 19 females of *effigies* from throughout much of the range with a female from Ark. identified as *sartoris* by Mr. Heinrich through comparison with the holotype.

grandis (Brulle). Que. w. to s. B. C., s. to Fla., Kans., N. Mex., and Oreg. Host: *Dryocampa rubicunda rubicunda* (F.). Heinrich (1961) recognized three subspecies, all of which were raised to species status by Heinrich (1971). The specimens in the U. S. Natl. Museum collection show that variation of *grandis* throughout eastern North America does not permit the recognition of well defined northern and southern subspecies, yet alone species. Specimens also in the U. S. Natl. Museum collection from Colo., N. Mex., Utah, and Oreg. seem to indicate that *victoriae* Heinrich cannot be recognized as a distinct subspecies either.

Ichneumon grandis Brulle, 1846. In Lepeletier, Hist. Nat. Ins. Hym., v. 4, p. 300. ♀.

Ichneumon ambiguus Cresson, 1864. Ent. Soc. Phila., Proc. 3: 161. ♂.

Ichneumon regnatrix Cresson, 1864. Ent. Soc. Phila., Proc. 3: 178. ♀.

Protichneumon grandis victoriae Heinrich, 1961 (1960). Canad. Ent. Sup. 15: 25. ♂, ♀. N. syn.

Taxonomy: Heinrich, 1961. Canad. Ent. Sup. 15: 22-26. — Townes, 1961. Ent. Soc. Wash., Proc. 63: 108. — Heinrich, 1962. Canad. Ent. Sup. 29: 862. — Heinrich, 1971. Nat. Canad. 98: 962.

polytropus Heinrich. Southeastern N. C. Ecology: The host pupa from which the holotype was reared was found in a bark crevice on *Taxodium distichum*. Host: Sphingid. The

species is apparently known only from the holotype, which may not be an entirely normal specimen; it emerged in the laboratory on Jan. 12, 1905 (host pupa collected Nov. 1, 1904) and was apparently killed before it had completely hardened and darkened because the pupal skin had not been completely shed from either antenna.

Protichneumon polytropus Heinrich, 1961 (1960). Canad. Ent. Sup. 15: 22, 27. ♂. The variant spelling "polytropos" which appeared on page 22 was rejected in favor of *polytropus* by Heinrich (1962).

Taxonomy: Heinrich, 1962. Canad. Ent. Sup. 29: 862.

radtkeorum Heinrich. N. Y., Pa., Md., Va., Fla., Kans.

Prolichneumon radtkeorum Heinrich, 1971. Nat. Canad. 98: 962. Nomen nudum.

Protichneumon radtkeorum Heinrich, 1972. Nat. Canad. 99: 174. ♂, ♀.

Genus AMBLYJOPPA Cameron

Amblyjoppa Cameron, 1902 (Apr.). Entomologist 35: 108.

Type-species: *Amblyjoppa rufo-balteata* Cameron. Desig. by Viereck, 1914.

Hadrojoppa Cameron, 1902 (Nov.). Ztschr. System. Hym. Dipt. 2: 396.

Type-species: *Hadrojoppa annulitarsis* Cameron. Monotypic.

Glyptojoppa Cameron, 1906. Entomologist 39: 229.

Type-species: *Glyptojoppa sulcata* Cameron. Monotypic.

Cnemojoppa Cameron, 1907. Tijdschr. v. Ent. 50: 77. Nomen nudum.

Cnemojoppa Heinrich, 1937. Ann. and Mag. Nat. Hist. (10) 20: 261, 277.

Type-species: *Amblyjoppa rufipes* Cameron. Monotypic and orig. desig.

This is a moderate sized genus of Oriental and Holarctic distribution.

Taxonomy: Townes, Momoi, and Townes, 1965. Amer. Ent. Inst., Mem. 5: 533 (syn.).

magna (Cresson). Nebr., Colo.

Ichneumon magnus Cresson, 1865. Amer. Ent. Soc., Trans. 6: 191. ♂.

Genus CATADELPHOPS Heinrich

Catadelphops Heinrich, 1962. Canad. Ent. Sup. 29: 863.

Type-species: *Trogus buccatus* Cresson. Monotypic and orig. desig.

buccatus (Cresson). Idaho, Nev., B. C., Wash., Oreg., Calif.

Trogus buccatus Cresson, 1877. Amer. Ent. Soc., Trans. 6: 199. ♀.

Genus NEAMBLYJOPPA Heinrich

Neamblyjoppa Heinrich, 1962. Canad. Ent. Sup. 29: 865.

Type-species: *Neamblyjoppa nasuta* Heinrich. Monotypic and orig. desig.

nasuta Heinrich. Ariz.

Neamblyjoppa nasuta Heinrich, 1962. Canad. Ent. Sup. 29: 866. ♀.

Genus CATADELPHUS Wesmael

Catadelphus Wesmael, 1854. [Brussels] Acad. Roy. de Belg., Bul. 22, App., p. 134.

Type-species: *Ichneumon arrogator* Fabricius. Monotypic.

This is a small Holarctic genus.

Taxonomy: Heinrich, 1971. Nat. Canad. 98: 967-968.

atrox (Cresson). S. Dak., Kans., Okla., Tex., Wyo., Colo., Alta., Calif. Host:

Proserpinus juanita (Stkr.). Specimens with uniformly infuscated wings have been recorded from all above listed localities except Alta., while specimens with banded wings ("var. *marginipennis*") are known from "Dakota Territory," Kans., Wyo., N. Mex., and Alta.

Trogus marginipennis Cresson, 1868. Amer. Ent. Soc., Trans. 2: 93. ♂. N. syn.

Trogus atrox Cresson, 1868. Amer. Ent. Soc., Trans. 2: 93. ♀.

ochraceus Heinrich. Okla.

Catadelphus ochraceus Heinrich, 1962. Canad. Ent. Sup. 29: 813. ♂.

ruberior Heinrich. Miss.

Catadelphus ruberius Heinrich, 1971. Nat. Canad. 98: 968. ♂, ♀.

semiruber Hopper. Mich., w. Ont., Wyo., B. C.

Catadelphus semiruber Hopper, 1939. Amer. Ent. Soc., Trans. 65: 342. ♀.

TRIBE TROGUSINI

Revision: Hopper, 1939. Amer. Ent. Soc., Trans. 65: 307-339, 344-345.

SUBTRIBE CALLAJOPPINAE

All species are thought to be parasites of Sphingidae.

Taxonomy: Heinrich, 1967. Synopsis and Reclassif. Ichneumoninae Stenopneusticae Africa So. of Sahara, v. 1, p. 230, 233.

Genus GNAMPTOPELTA Hopper

Gnamptopelta Hopper, 1939. Amer. Ent. Soc., Trans. 65: 333.

Type-species: *Trogus obsidianator* Brulle. Orig. desig.

obsidianator austrina (Cresson). N. C., S. C., Ga., Fla.

Trogus austrinus Cresson, 1868. Amer. Ent. Soc., Trans. 2: 92. ♂, ♀.

obsidianator obsidianator (Brulle). Que. w. to Man., s. to Ga., s. La., Tex., and N. Mex.

Trogus obsidianator Brulle, 1846. In Lepeletier, Hist. Nat. Ins. Hym., v. 4, p. 299. "♀" = ♂.

Taxonomy: Townes, 1961. Ent. Soc. Wash., Proc. 63: 113 (lectotype selection).

Genus CALLAJOPPA Cameron

Callajoppa Cameron, 1903. Entomologist 36: 236.

Type-species: *Callajoppa bilineata* Cameron. Monotypic. The type-species is regarded as a subspecies of *C. cirrogaster* (Schrank).

cirrogaster cirrogaster (Schrank). Ont.?; Europe. Townes, Momoi, and Townes (1965) seem to have implied that the two specimens in the Canadian National Collection which are labeled as being collected at Toronto, Ont. by A. Gibson are mislabeled. *C. cirrogaster bilineata* Cameron occurs in eastern Asia.

Ichneumon cirrogaster Schrank, 1781. Enum. Ins. Austriae, p. 348. ♂.

Ichneumon nigro-caudatus Retzius, 1783. Genera and Species Insectorum, p. 68. Sex not indicated.

Ichneumon crocatus Geoffroy, 1785. In Fourcroy, Ent. Parisiensis, v. 2, p. 399. ♂, ♀.

Ichneumon lutorius Fabricius, 1787. Mantissa Insectorum, v. 1, p. 262. ♂, ♀.

Ichneumon cirrhogaster (?) Gmelin, 1790. In Linnaeus, Syst. Nat., ed. 13, v. 1, p. 2683.

Ichneumon rubricornutus Christ, 1791. Naturgesch. Class. Nomencl. Ins., p. 347. Sex not indicated.

Ichneumon dessinator Olivier, 1792. Encycl. Meth., Dict. Ins., v. 7, p. 174. Sex not indicated.

Ichneumon scutellaris Olivier, 1792. Encycl. Meth., Dict. Ins., v. 7, p. 198. Sex not indicated.

Ichneumon imperatorius Panzer, 1804. D. J. C. Schaefferi Iconum Ins. ... Syst., p. 201. Sex not indicated.

Ichneumon obscuratorius Gravenhorst, 1807. Vergl. Uebers. Zool. Systeme, p. 255. Sex not indicated. Possibly preocc. by Panzer, 1806-1809.

Trogus Atropos Curtis, 1828. Brit. Ent., v. 5, no. 234. Sex not indicated.

Ichneumon nigricaudatus Stephens, 1829. Nomencl. Brit. Ins., pt. 1, p. 349. Nomen nudum.

Trogus atrocaudatus Stephens, 1835. Illus. Brit. Ent., v. 7, p. 271. Sex not indicated.

Trogus excellens Tischbein, 1882. Stettin. Ent. Ztg. 43: 485. ♂.

Callajoppa cirrogastra Perkins, 1953. Brit. Mus. (Nat. Hist.) Ent., Bul. 3: 112. Emend.

Taxonomy: Hopper, 1939. Amer. Ent. Soc., Trans. 65: 331-332. — Heinrich, 1962. Canad. Ent. Sup. 29: 814-815. — Townes, Momoi, and Townes, 1965. Amer. Ent. Inst. Mem. 5: 539-540.

Genus TRICYPHUS Kriechbaumer

Tricyphus Kriechbaumer, 1898. Ent. Nachr. 24: 4, 30.

Type-species: *Tricyphus cuspidiger* Kriechbaumer. Desig. by Viereck, 1914.

This small genus is Nearctic and Neotropic.

apicalis (Cresson). Vt. s. to Fla., w. to Mich. and Ill. Host: *Sphinx kalmiae* J. E. S.

Trogus apicalis Cresson, 1877. Amer. Ent. Soc., Trans. 6: 197. ♀.

ater Hopper. Fla., Ill.

Tricyphus ater Hopper, 1939. Amer. Ent. Soc., Trans. 65: 339. ♂.

elegans (Cresson). P. E. I. s. to Fla., w. to Kans. Host: *Darapsa myron* (Cramer). Specimens with banded wings have been treated as subspecifically distinct under the name *elegans elegans*, but specimens with uniformly infuscated wings have been collected in the following states or provinces where banded winged specimens are also found (in some instances at the same localities): Mass., Conn., N. Y., Pa., D. C., Fla., Ont., and Ill.

Trogus elegans Cresson, 1868. Amer. Ent. Soc., Trans. 2: 94. ♀.

Tricyphus vulpinus Szepligeti, 1900. Termes. Fuzetek 23: 288. ♀. N. syn.

Tricyphus elegans floridanus Heinrich, 1962. Canad. Ent. Sup. 29: 842. ♂. N. syn.

Taxonomy: Townes, 1961. Ent. Soc. Wash., Proc. 63: 113.

Genus TMETOGASTER Hopper

Conocalama subg. *Tmetogaster* Hopper, 1939. Amer. Ent. Soc., Trans. 65: 321.

Type-species: *Trogus nubilipennis* Haldeman. Monotypic and orig. desig.

Taxonomy: Heinrich, 1962. Canad. Ent. Sup. 29: 836, 861.

nubilipennis (Haldeman). Maine s. to Ga., w. to Ill. Host: *Darapsa myron* (Cramer), *Sphecodina abbottii* (Swainson).

Trogus nubilipennis Haldeman, 1846. Acad. Nat. Sci. Phila., Proc. 3. 127. Sex not indicated.

Genus CONOCALAMA Hopper

Conocalama Hopper, 1939. Amer. Ent. Soc., Trans. 65: 319.

Type-species: *Trogus brullei* Cresson. Orig. desig.

This genus is Nearctic and Neotropic.

bolteri (Cresson). N. H., N. Y., Ont., Alta., w. N. W. T., B. C.

Trogus Bolteri Cresson, 1868. Amer. Ent. Soc., Trans. 2: 94. ♂.

brullei (Cresson). N. H. s. to Ga., w. to Mich., Colo., and Tex. Host: *Dolba hyloeus* (Drury), *Manduca sexta* (L.), *Paonias astylus* (Drury).

Trogus Brullei Cresson, 1877. Amer. Ent. Soc., Trans. 6: 196. ♂, ♀.

canadensis (Provancher). Que. w. to Alta., s. to Ga. and Ill. Host: *Paonias myops* (J. E. S.).

Possibly a color phase of *C. brullei* according to Heinrich (1962).

Trogus Canadensis Provancher, 1877. Nat. Canad. 9: 2. ♀.

Trogus nigrocinctus Hasey, 1925. Ent. News 36: 306. ♂.

Taxonomy: Heinrich, 1959. Ent. News 70: 206, 207. — Heinrich, 1962. Canad. Ent. Sup. 29: 822-823.

catalinarum Heinrich. Ariz.

Conocalama catalinarum Heinrich, 1957. Canad. Ent. 89: 334. ♂.

copei (Cresson). Que., Maine, Pa., W. Va., Ont.

Trogus Copei Cresson, 1868. Amer. Ent. Soc., Trans. 2: 94. ♂.

Conocalama copei heteropteryx Heinrich, 1962. Canad. Ent. Sup. 29: 822. ♂, ♀. N. syn.

fuscalata Hopper. N. Y., Pa., Ont.

Conocalama (*Conocalama*) *fuscalata* Hopper, 1939. Amer. Ent. Soc., Trans. 65: 330. ♂, ♀.

galbinata Hopper. N. Mex.

Conocalama (*Conocalama*) *galbinata* Hopper, 1939. Amer. Ent. Soc., Trans. 65: 328. ♂.

manitobae Heinrich. Southern Man.

Conocalama manitobae Heinrich, 1962. Canad. Ent. Sup. 29: 834. ♂.

- occidentalis* (Cresson). "Dakota Territory," Mont., Colo., s.e. Alaska, B. C., Oreg., Calif. Host: *Smerinthus cerisyi* Kby.
Trogus occidentalis Cresson, 1868. Amer. Ent. Soc., Trans. 2: 92. ♂.
Conocalama (Conocalama) occidentalis var. *luteata* Hopper, 1939. Amer. Ent. Soc., Trans. 65: 326. ♂, ♀.
Conocalama orientalis (!) Heinrich, 1962. Canad. Ent. Sup. 29: 818 (key). Lapsus for *occidentalis*.
quebecensis (Provancher). N. S., Que., Maine, Ont., Minn., Man., Alta., B. C., Oreg. Host: *Eacles imperialis imperialis* (Drury).
Trogus Quebecensis Provancher, 1874. Nat. Canad. 6: 335. ♀.
rileyi (Cresson). Ill., S. Dak., Nebr., Kans., Colo., N. Mex. Heinrich (1962) and Walkley (1967) recognized two subspecies, and incorrectly gave species status to the junior synonym *T. melloso* Cresson.
Trogus Rileyi Cresson, 1868. Amer. Ent. Soc., Trans. 2: 95. ♀. An unlabeled specimen in the U. S. Natl. Museum collection appears to be the holotype.
Trogus melloso Cresson, 1876 (1875). In Wheeler, Rept. Geog. and Geol. Explor. and Surveys W. of Hundredth Merid., v. 5 (zool.), p. 708. "♂" = ♀. N. syn.
Taxonomy: Heinrich, 1962. Canad. Ent. Sup. 29: 829-830. —Walkley, 1967. In Krombein et al., U. S. Dept. Agr., Agr. Monog. 2, sup. 2, p. 169-170.
violipennis Hopper, Calif.
Conocalama (Conocalama) violipennis Hopper, 1939. Amer. Ent. Soc., Trans. 65: 327. ♂, ♀.

SUBTRIBE TROGUSINA

Genus MACROJOPPA Kriechbaumer

- Macrojoppa* Kriechbaumer, 1898. Ent. Nachr. 24: 21.
Type-species: *Trogus blandita* Cresson. Desig. by Ashmead, 1900.
Aglaojoppidea Viereck, 1913. U. S. Natl. Mus., Proc. 46: 368.
Type-species: *Trogus fascipennis* Cresson. Orig. desig.

This genus is mostly Neotropic, with one Nearctic species.

Taxonomy: Heinrich, 1962. Canad. Ent. Sup. 29: 845-846. —Townes and Townes, 1966. Amer. Ent. Inst., Mem. 8: 275 (syn.).

- fascipennis* (Cresson). Tex.
Trogus fascipennis Cresson, 1877. Amer. Ent. Soc., Trans. 6: 196. ♀.
Trogus fascipennis Dalla Torre, 1902. Cat. Hym., v. 3, p. 1033. Emend.

Genus TROGUS Panzer

- Trogus* Panzer, 1806. Krit. Rev. Insektenf. Deutschlands, v. 2, p. 80.
Type-species: *Ichneumon coeruleator* Fabricius. Monotypic.
Dinotomus Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 188.
Type-species: *Ichneumon lapidator* Fabricius. Desig. by Ashmead, 1900 from three species included by Berthoumieu, 1896.

This genus is Neotropic, and Oriental.

- edwardsii* Cresson. Mont., Idaho, s. B. C., Wash. Host: *Papilio eurymedon* Lucas. A specimen in the U. S. Natl. Museum collection appearing to be intermediate between *edwardsii* and *pennator* (Fabricius) indicates that *edwardsii* is probably a subspecies or possibly only a color phase of the partially sympatric *pennator*.
Trogus Edwardsii Cresson, 1877. Amer. Ent. Soc., Trans. 6: 195. ♂.
Trogus Fletcherii Harrington, 1894. Canad. Ent. 26: 245. "♀" = ♂.

- flavipennis* Cresson. Colo., N. Mex., Utah, Ariz.
Trogus flavipennis Cresson, 1864. Ent. Soc. Phila., Proc. 3: 287. ♂.
lapidator brevicaudae Heinrich. Southern Newfoundland (insular). Host: *Papilio brevicauda* Sdr. Doubtfully distinct from *lapidator panzeri* Carlson.
Trogus lapidator brevicaudae Heinrich, 1976 (1975). Nat. Canad. 102: 755. ♂, ♀.

lapidator panzeri Carlson. Yukon; n. Eurasia. Host: *Papilio machaon* L. *T. lapidator* (*lapidator* (Fabricius) occurs in southern Europe and North Africa.

Ichneumon coeruleator Fabricius, 1804. *Systema Piezatorum*, p. 68. ♂. Preocc. by Weber, 1795. When I proposed the replacement name *T. lapidator panzeri*, I stated that *I. coeruleator* Fabricius, 1804 was preocc. by Fabricius, 1796, but I have since discovered that Weber (1795) preceded Fabricius (1796) in validating *coeruleator* as an unnecessary replacement name for *T. lapidator* Fabricius, 1787 (instead of 1793).

Trogus panzeri Carlson, 1975. Ent. Soc. Wash., Proc 77: 305. N. name for *I. coeruleator* Fabricius.

Taxonomy: Weber, 1795. *Nomencl. Ent. Secundum Ent. System. Fabricii*, p. 73. —Fabricius, 1796. *Ent. System., Index Alphabeticus*, p. 83, 84.

pennator (Fabricius). Que. w. to Wash., s. to Fla., Kans., Nev., and Calif. Host: *Papilio brevicauda* Sdrs., *P. eurymedon* Lucas, *P. glaucus* L., *Papilio polyxenes asterius* Stoll, *P. rutulus* Lucas, *P. troilus* L., *P. zelicaon* Lucas, *Graphium marcellus* (Cramer).

Ichneumon pennator Fabricius, 1793. *Ent. System.*, v. 2, p. 155. [female].

Trogus vulpinus Gravenhorst, 1829. *Ichn. Europaea*, v. 2, p. 389. [female].

Trogus exesorius Brulle, 1846. In *Lepeletier, Hist. Nat. Ins. Hym.*, v. 4, p. 298. ♂, ♀.

Ichneumon asteriae Jaeger, 1859. *Life of No. Amer. Insects*, p. 240. Sex not indicated.

Macrojoppa californica Cameron, 1911. Soc. Ent. 26: 35. Sex not indicated.

Taxonomy: Townes, 1961. Ent. Soc. Wash., Proc. 63: 109, 110, 113.

pennator var. *fulvipes* Cresson, n. status. Newfoundland (insular), Que., Maine, N. H., Vt., Mass., N. Y., Ont., Mich., Man., Sask., Colo., B. C., Oreg. Host: *Papilio brevicauda* Sdrs., *P. glaucus* L., *P. eurymedon* Lucas. Because *fulvipes* appears to be a color phase (sympatric) rather than a subspecies of *pennator*, I have chosen to treat it as a "variety." Heinrich (1962) does not seem to have been objective in arguing that *fulvipes* is a species distinct from *pennator*. In collecting "dozens of specimens" of *pennator* and *fulvipes* in Maine he claimed to have seen only one "looking like an intergrade." He said "I would guess that the specimen is an erythristic *fulvipes* rather than a melanistic *pennator*; both types of variation are to be expected anyway, and would create the impression of intergrades without actually being such." In the U. S. Natl. Museum collection there are only five *fulvipes* specimens, while there are six (from Maine, Vt., Mass., Pa., and Wash.) which impress me as being intergrades between *pennator* and var. *fulvipes*.

Trogus fulvipes Cresson, 1868. Amer. Ent. Soc., Trans. 2: 93. ♂.

Trogus apicatus Davis, 1898 (1897). Amer. Ent. Soc., Trans. 24: 352. ♂.

Taxonomy: Heinrich, 1962. Canad. Ent. Sup. 29: 849-850.

TRIBE JOPPOCRYPTINI

Genus PLAGIOTRYPES Ashmead

Plagiotrypes Ashmead, 1900. U. S. Natl. Mus., Proc. 23: 20.

Type-species: *Ichneumon concinnus* Say. Monotypic and orig. desig.

Neopyga Heinrich, 1930. Zool. Mus. Berlin, Mitt. 15: 545.

Type-species: *Neopyga armata* Heinrich. Desig. by Townes, 1944.

This small genus is Neotropic and Nearctic.

concinnus (Say). Southern N. H. s. to Fla., w. to Ill. and Tex.

Ichneumon concinnus Say, 1829. Contrib. Maclurian Lyceum to Arts and Sci. 1: 68. ♀ (not second female described).

Taxonomy: Cresson, 1877. Amer. Ent. Soc., Trans. 6: 194. —Cushman and Gahan, 1921. Ent. Soc. Wash., Proc. 23: 164.

Genus NARTHECURA Townes

Narthecura Townes, 1946. Bol. Ent. Venezolana 5: 50.

Type-species: *Hoplismenus munitus* Cresson. Orig. desig.

This is a moderate sized Neotropic and Nearctic genus.

invadens Heinrich. N. Mex., Ariz.

Narthecura invadens Heinrich, 1962. Canad. Ent. Sup. 27: 682. ♂, ♀.

Genus LOBAEGIS Townes

Lobaegis Townes, 1946. Bol. Ent. Venezolana 5: 54.

Type-species: *Ichneumon maritus* Cresson. Orig. desig.

This is apparently a moderate sized Neotropic and Nearctic genus.

septentrionalis Heinrich. N. Y., Md., W. Va., S. C., Tenn., Ala.

Lobaegis septentrionalis Heinrich, 1962. Canad. Ent. Sup. 27: 684. ♂, ♀.

Genus PSEUDOPLATYLABUS Smits van Burgst

Pseudoplatylabus Smits van Burgst, 1920. Ent. Ber. 5: 282.

Type-species: *Pseudoplatylabus caudatus* Smits van Burgst. Monotypic.

This is a small Holarctic and Oriental genus.

townesi Heinrich. R. I., N. Y., Md.

Pseudoplatylabus townesi Heinrich, 1962. Canad. Ent. Sup. 27: 686. ♂, ♀.

violentus (Gravenhorst). Mich.; Europe.

Ichneumon violentus Gravenhorst, 1829. Ichn. Europea, v. 1, p. 613. [male].

Hoplismenus infastus Wesmael, 1845 (1844). [Brussels] Acad. Roy. de Belg., Nouveaux Mem. 18: 110. ♂, ♀.

Pseudoplatylabus caudatus Smits van Burgst, 1920. Ent. Ber. 5: 282. ♀.

TRIBE LISTRODROMINI

SUBTRIBE LISTRODROMINA

Species of *Trogomorpha* apparently parasitize Hesperiidae, but the normal hosts for other genera in this subtribe are Lycaenidae.

Genus TROGOMORPHA Ashmead

Trogomorpha Ashmead, 1900. U. S. Natl. Mus., Proc. 23: 15.

Type-species: *Ichneumon trogiformis* Cresson. Monotypic and orig. desig.

This is a small Neotropic and Nearctic genus.

arrogans (Cresson). Southern Texas; Mexico, Honduras, El Salvador, Costa Rica, Panama, Colombia, Peru. Probably only a subspecies of *T. trogiformis* (Cresson).

Ichneumon arrogans Cresson, 1873. Acad. Nat. Sci. Phila., Proc. 25: 115. ♂, ♀.

Ichneumon panamensis Cameron, 1885. Biol. Cent.-Amer., Hym., v. 1, p. 158. ♂.

trogiformis (Cresson). Central N. Y., s. Ohio, and Mo. s. to Fla. and Tex.; Puerto Rico. Host: *Ephyriades brunneus floridensis* (B. and C.).

Ichneumon ferrugator Fabricius, 1793. Ent. System., v. 2, p. 154. Sex not indicated. Preocc. by Swederus, 1787. Townes (1961) apparently was unable to locate any type specimen and accepted Brulle (1846) as the first revisor of this name.

Ichneumon trogiformis Cresson, 1864. Ent. Soc. Phila., Proc. 3: 175. ♂.

Taxonomy: Brulle, 1846. In Lepetier, Hist. Nat. Ins. Hym., v. 4, p. 295. —Townes, 1961.

Ent. Soc. Wash., Proc. 63: 107.

Genus NEOTYPUS Foerster

Neotypus Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 194.

Type-species: *Ichneumon lapidator* Fabricius, 1793 (not 1787). Desig. by Ashmead, 1900 from two species included by Holmgren, 1871. The type-species is regarded as a synonym of *N. coreensis* Uchida.

Cillimus Tosquinet, 1896. Soc. Ent. de Belg., Mem. 5: 122.

Type-species: *Cillimus adornatus* Tosquinet. Desig. by Ashmead, 1900.

This is a small Palearctic, Oriental, and Ethiopian genus.

nobilitor nobilitator (Gravenhorst). Conn., N. J., Md., D. C., Va., Ohio, Ill., Mo., Wyo., Alta., Oreg.; Europe. Adventive. Host: *Everes comyntas* (Godt.). *N. nobilitator orientalis* Uchida occurs in eastern Asia.

Ichneumon nobilitator Gravenhorst, 1807. Vergl. Uebers. Zool. Systeme, p. 235. ♀.
Neotypus americanus Cushman, 1926. U. S. Natl. Mus., Proc. 67 (23): 1. ♂.

Taxonomy: Heinrich, 1933. Zool. Mus. Berlin, Mitt. 19: 155, 157.

Genus ANISOBAS Wesmael

Anisobas Wesmael, 1845 (1844). [Brussels] Acad. Roy de Belg., Nouveaux Mem. 18: 145.

Type-species: *Ichneumon cingulatorius* Gravenhorst. Desig. by Ashmead, 1900.

Lycaeniphilus Heinrich, 1933. Zool. Mus. Berlin, Mitt. 19: 158.

Type-species: *Anisobas cephalotes* Kriechbaumer. Monotypic and orig. desig.

This is a small Holarctic and Oriental genus.

angustior Heinrich. Newfoundland (insular), w. Tenn.

Anisobas angustior Heinrich, 1976 (1975). Nat. Canad. 102: 780. ♀.

bicolor Cushman. Idaho, Utah, Nev., Ariz., B. C., Wash., Oreg., Calif. Host: *Strymon adenostomatis* (Hy. Edw.).

Anisobas bicolor bicolor Cushman, 1926. U. S. Natl. Mus., Proc. 67 (23): 2. ♂, ♀.

bicolor boreoaustralis Heinrich. Newfoundland (insular).

Anisobas bicolor boreoaustralis Heinrich, 1976 (1975). Nat. Canad. 102: 780. ♀.

coloradensis (Cresson). S. Dak., Colo., Idaho, Ariz.

Amblyteles coloradensis Cresson, 1877. Amer. Ent. Soc., Trans. 6: 193. ♀.

luzernensis (Bradley). Que., Maine, N. Y., Pa., Ont., Mich. Host: Limacodid.

Platylabus luzernensis Bradley, 1903. Canad. Ent. 35: 282. ♀.

Anisobas nearcticus Cushman, 1926. U. S. Natl. Mus., Proc. 67 (23): 2. ♀.

separatus (Davis). Ill., Tex., Ariz.

Eurylabus separatus Davis, 1898 (1897). Amer. Ent. Soc., Trans. 24: 353. "♂" = ♀.

texensis (Ashmead). Conn., Man., Nebr., Tex. Host: *Incisalia niphon* (Hbn.), *Strymon falacer* (Godt.).

Cryptus texensis Ashmead, 1890 (1889). U. S. Natl. Mus., Proc. 12: 410. "♂" = ♀.

Taxonomy: Townes and Townes, 1951. In Krombein et al., U. S. Dept. Agr., Agr. Monog. 2: 282 (syn.). — Heinrich, 1962. Canad. Ent. Sup. 27: 694-695.

Genus DIACANTHARIUS Schmiedeknecht

Diacantharius Schmiedeknecht, 1902. Opusc. Ichn., v. 1, p. 20.

Type-species: *Diacantharius elegans* Schmiedeknecht. Monotypic.

Lausoba Cameron, 1910 (1909). Amer. Ent. Soc., Trans. 35: 438.

Type-species: *Lausoba forticeps* Cameron. Monotypic.

Oedicephalopsis Heinrich, 1930. Zool. Mus. Berlin, Mitt. 15: 548.

Type-species: *Oedicephalopsis peruvensis* Heinrich. Monotypic.

An undescribed species occurs in southern Texas. It has been reared from *Strymon melinus melinus* (Hbn.).

Taxonomy: Townes and Townes, 1966. Amer. Ent. Inst., Mem. 8: 272 (syn.).

Genus DILOPHARIUS Townes

Dilopharius Townes, 1966. In Townes and Townes, Amer. Ent. Inst., Mem. 8: 332.

Type-species: *Hoplismenus otomitus* Cresson. Monotypic and orig. desig.

An undescribed species occurs in southern Texas.

TRIBE PLATYLABINI

The members of this tribe are principally parasites of Geometridae.

Genus APAELETICUS Wesmael

Apaeleticus Wesmael, 1845 (1844). [Brussels] Acad. Roy. de Belg., Nouveaux Mem. 18: 166.
Type-species: *Apaeleticus bellicosus* Wesmael. Desig. by Ashmead, 1900.

americanus Cushman. Maine, Md., D. C., Alta.?, Ariz.

Apaeleticus americanus Cushman, 1926. U. S. Natl. Mus., Proc. 67 (23): 4. ♀.

brunnescens Heinrich. Maine, Mich.

Apaeleticus brunnescens Heinrich, 1962. Canad. Ent. Sup. 27: 793. ♂, ♀.

Genus CARLSONIA Heinrich

Carlsonia Heinrich, 1971. Nat. Canad. 100: 461.

Type-species: *Linycus perturbator* Heinrich. Monotypic and orig. desig.

perturbator (Heinrich). Maine, Mich. Known from two males from Maine and one female from Mich.; the latter was collected with a Malaise trap situated at the edge of a rather large area of muskeg which there was rather dry.

Linycus perturbator Heinrich, 1971. Nat. Canad. 98: 1022. ♂.

Genus LINYCUS Cameron

Linycus Cameron, 1903. Entomologist 36: 234.

Type-species: *Linycus rufipes* Cameron. Monotypic.

Erythroischnus Cameron, 1904. Amer. Ent. Soc., Trans. 30: 252.

Type-species: *Erythroischnus annulicornis* Cameron. Monotypic.

This small genus is Neotropic, Holarctic, and Oriental.

barbarae Heinrich. Newfoundland (insular). Known from a single specimen. Heinrich made no direct comparison with the male specimens of *Carlsonia perturbator* (Heinrich) in his collection (holotype and paratype); his descriptions of the males of the two species seem to differ with respect to the tyloids. If the species actually differ, it remains to be determined whether the female presumed by Heinrich to be that of *Carlsonia perturbator* may not actually be that of *Linycus barbarae*.

Linycus barbarae Heinrich, 1976 (1975). Nat. Canad. 102: 779. ♂.

exhortator montanus Heinrich. Colo. L. *exhortator exhortator* (Fabricius) is Eurasian.

Linycus exhortator montanus Heinrich, 1962. Canad. Ent. Sup. 27: 781. ♂.

exhortator thoracicus (Cresson). Maine s. to Va., w. to Wis. and Mo.

Hoplismenus thoracicus Cresson, 1864. Ent. Soc. Phila., Proc. 3: 288. "♂" = ♀.

nigriceps Heinrich. Ariz., Alaska, B. C., Wash., Oreg. Males with the thorax extensively or completely black are known from Alpine, Ariz. (types of syn. *arizonensis*), Palmer, Alaska (types of syn. *niger*), and Juneau, Alaska.

Linycus nigriceps nigriceps Heinrich, 1962. Canad. Ent. Sup. 27: 782. ♂, ♀.

Linycus nigriceps arizonensis Heinrich, 1962. Canad. Ent. Sup. 27: 782. ♂. N. syn.

Linycus nigriceps alaskae Heinrich, 1962. Canad. Ent. Sup. 27: 782. ♂, ♀. N. syn.

Linycus nigriceps niger Heinrich, 1962. Canad. Ent. Sup. 27: 783. ♂. N. syn.

temporalis Heinrich. Maine.

Linycus temporalis Heinrich, 1971. Nat. Canad. 98: 1024. ♂.

Genus NEOLINYCUS Heinrich

Neolinycus Heinrich, 1971. Nat. Canad. 98: 1025.

Type-species: *Neolinycus michaelis* Heinrich. Monotypic and orig. desig.

michaelis Heinrich. Central Ga., n. Miss., La.

Neolinycus michaelis Heinrich, 1971. Nat. Canad. 98: 1025. ♀.

Neolinycus michaelis georgianus Heinrich, 1972. Nat. Canad. 99: 210. ♀. N. syn.

Genus CYCLOLABUS Heinrich

Cyclolabus Heinrich, 1936 (1935). Deut. Ent. Ztschr., p. 198.

Type-species: *Platylabus nigricollis* Wesmael. Orig. desig.

This is a moderate sized genus of Holarctic and Oriental distribution.

albicinctus Heinrich. Newfoundland (insular), N. S. Host: *Acasis viridata* (Pack.).

Cyclolabus albicinctus Heinrich, 1962. Canad. Ent. Sup. 27: 771. ♂, ♀.

arizonae Heinrich. Ariz.

Cyclolabus arizonae Heinrich, 1962. Canad. Ent. Sup. 27: 765. ♂, ♀.

carolinensis Heinrich. Northwestern S. C., Mich.

Cyclolabus carolinensis Heinrich, 1962. Canad. Ent. Sup. 27: 764. ♀.

dubiosus Perkins. Newfoundland (insular), N. S., Mich., Man., Colo., Alta., B. C., Wash., Calif.;

Europe. Host: *Eupithecia annulata* (Hulst), *E. filimata* Pear., *E. luteata* Pack., *E.*

palpata Pack. This species has been confused with *C. pactor* (Wesmael), which is not known to occur in the Nearctic region.

Cyclolabus dubiosus Perkins, 1953. Brit. Mus. (Nat. Hist.) Ent., Bul. 3: 156. ♂, ♀.

gibsoniae Heinrich. Ont., B. C. Host: *Eupithecia gibsonata* Taylor.

Cyclolabus gibsonatae Heinrich, 1962. Canad. Ent. Sup. 27: 764. ♀.

gracilicornis **gracilicornis** Provancher. Newfoundland (Labrador and insular), Que., Maine, N.

H., N. Y., N. C., Ont., Mich.

Phygadeuon gracilicornis Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 56.
♀.

gracilicornis **subdentatus** (Ashmead). Colo., Idaho, Alaska, B. C., Wash., Oreg., Calif.

Probolus subdentatus Ashmead, 1902. Wash. Acad. Sci., Proc. 4: 160. ♂.

Taxonomy: Heinrich, 1959. Ent. News 70: 216.

impressus **impressus** (Provancher). Newfoundland (insular), Que., Maine, N. H., Mass., N. Y., Ont., Mich.

Phygadeuon impressus Provancher, 1874. Nat. Canad. 6: 281. ♀.

Ichneumon erythropygus Provancher, 1875. Nat. Canad. 7 (1): 24 (key); 7 (3): 79. "♀" = ♂.

impressus **infuscatus** Heinrich. Southern Alta., s. B. C., Wash.

Cyclolabus impressus infuscatus Heinrich, 1962. Canad. Ent. Sup. 27: 760. ♂, ♀.

linycops Heinrich. Newfoundland (insular).

Cyclolabus linycops Heinrich, 1976 (1975). Nat. Canad. 102: 778. ♂.

lobatus Heinrich. Que., Maine, N. Y., Mich., Alta.

Cyclolabus lobatus lobatus Heinrich, 1962. Canad. Ent. Sup. 27: 761. ♂, ♀.

Cyclolabus lobatus occidentalis Heinrich, 1962. Canad. Ent. Sup. 27: 761. ♀. N. syn.

signatus (Provancher). Que., Maine, N. H.

Phygadeuon signatus Provancher, 1874. Nat. Canad. 6: 282. ♀.

Genus PLATYLABUS Wesmael

Platylabus Wesmael, 1845 (1844). [Brussels] Acad. Roy. de Belg., Nouveaux Mem. 18: 166.

Type-species: *Platylabus rufus* Wesmael. Desig. by Ashmead, 1900.

Lamprojoppa Cameron, 1901. Ann. and Mag. Nat. Hist. (7) 7: 482.

Type-species: *Lamprojoppa caerulea* Cameron. Monotypic.

Pagarenes Cameron, 1903. Ztschr. System. Hym. Dipt. 3: 183.

Type-species: *Pagarenes erythropus* Cameron. Monotypic.

Chlorojoppa Cameron, 1907. Ztschr. System. Hym. Dipt. 7: 466.

Type-species: *Chlorojoppa viridis* Cameron. Monotypic.

This large genus is very widely distributed, although only one species is known from the Ethiopian region and none of the described Neotropic species have been recorded from South America.

abbreviatus Heinrich. Southern B. C.

Platylabus abbreviatus Heinrich, 1962. Canad. Ent. Sup. 27: 753. ♀.

alaskae Heinrich. Southwestern Alaska.

Platylabus alaskae Heinrich, 1962. Canad. Ent. Sup. 27: 721. ♀.

arizonae Heinrich. Ariz., Calif.

Platylabus arizonae Heinrich, 1962. Canad. Ent. Sup. 27: 715. ♂, ♀.

berndi Heinrich. Que., Maine, Ont., Mich. Host: Geometrid.

Platylabus berndi Heinrich, 1962. Canad. Ent. Sup. 27: 731. ♂, ♀.

Platylabus albidorsus Heinrich, 1962. Canad. Ent. Sup. 27: 740. ♀.

Taxonomy: Heinrich, 1971. Nat. Canad. 98: 1018-1019 (syn. and variation).

clarus (Cresson). Que. s. to S. C., w. to Colo. and N. Mex. Host: *Abbottana clemataria* (J. E. S.).

Ichneumon clarus Cresson, 1867. Amer. Ent. Soc., Trans. 1: 297. ♀.

Platylabus magnificus Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 36. ♀.

columbiae Heinrich. B. C., Calif.

Platylabus columbiae Heinrich, 1962. Canad. Ent. Sup. 27: 716. ♀.

dilleri Heinrich. Maine.

Platylabus dilleri Heinrich, 1971. Nat. Canad. 98: 1021. ♂.

divisatae Heinrich. Newfoundland (insular), Que., B. C., Oreg. Host: *Caripeta divisata* Wlk.

Platylabus divisatae Heinrich, 1962. Canad. Ent. Sup. 27: 709. ♂, ♀.

duplicifans Heinrich. Colo. Ecology: In Mountains at elevations between 9500 and 11000 ft.

Platylabus duplicifans Heinrich, 1962. Canad. Ent. Sup. 27: 726. ♂, ♀.

erythrocoxa Heinrich. Newfoundland (insular), N. S., Maine, Mich., N. W. T., B. C., Calif.

Platylabus erythrocoxa Heinrich, 1962. Canad. Ent. Sup. 27: 719. ♂, ♀.

foxleei *foxleei* Heinrich. Southeastern Alaska, s. B. C.

Platylabus foxleei Heinrich, 1962. Canad. Ent. Sup. 27: 723. ♂, ♀.

foxleei orientis Heinrich. Newfoundland (insular), Maine.

Platylabus foxlei(?) orientis Heinrich, 1976 (1975). Nat. Canad. 102: 777. ♂, ♀.

gracilicornis (Viereck). N. Mex., Calif.

Cratichneumon gracilicornis Viereck, 1903. In Skinner, Amer. Ent. Soc., Trans. 29: 79. ♀.

hyperetis Heinrich. Maine, B. C. Host: *Hyperetis amicaria* (H.-S.).

Platylabus hyperetis Heinrich, 1962. Canad. Ent. Sup. 27: 707. ♂, ♀.

imitans Heinrich. Que., Maine, B. C., Wash., Calif. Host: *Eupithecia sp.*

Platylabus imitans Heinrich, 1962. Canad. Ent. Sup. 27: 725. ♂, ♀.

incabus Davis. Ariz., Alaska, B. C., Oreg., Calif.

Platylabus incabus Davis, 1898 (1897). Amer. Ent. Soc., Trans. 24: 352. ♀.

lissosculptus Heinrich. Calif.

Platylabus lissosculptus Heinrich, 1962. Canad. Ent. Sup. 27: 742. ♂.

luteatae Heinrich. Newfoundland (insular), Que., Maine, Pa., Ont., Man., B. C., Oreg. Host:

Eupithecia sp., *E. luteata* Pack.

Platylabus luteatae Heinrich, 1962. Canad. Ent. Sup. 27: 715. ♂, ♀.

Taxonomy: Heinrich, 1971. Nat. Canad. 98: 1018 (variation).

melanocoxa Heinrich. Mont., Colo., B. C., Wash., Calif. Host: *Eupithecia annulata* (Hulst).

This species has been misidentified as *P. pedatorius* (Fabricius), a Eurasian species.

Platylabus melanocoxa Heinrich, 1962. Canad. Ent. Sup. 27: 727. ♂, ♀.

metallicus Bradley. Newfoundland (insular), Que., Maine, N. H., N. Y., Ont., Mich., B. C., Wash.

Platylabus metallicus Bradley, 1903. Canad. Ent. 35: 280. ♂, ♀.

Taxonomy: Heinrich, 1959. Ent. News 70: 215.

micheneri Heinrich. Calif.

Platylabus micheneri Heinrich, 1962. Canad. Ent. Sup. 27: 746. ♀.

monotonops Heinrich. Mass., N. Y.

Platylabus monotonops Heinrich, 1962. Canad. Ent. Sup. 27: 744. ♀.

Taxonomy: Heinrich, 1971. Nat. Canad. 98: 1020.

monotonus Heinrich. N. H., N. Y., Alta., Ariz., Alaska, B. C. Host: *Epirrita autumnata* (Bork.).

Itame anataria (Swett), *I. quadrilinearia* (Pack.).

Platylabus monotonus Heinrich, 1962. Canad. Ent. Sup. 27: 741. ♂, ♀.

montanus Cresson. Newfoundland (insular), N. H., Mass., Mich., Wash.

Ichneumon vafer Cresson, 1877. Amer. Ent. Soc., Trans. 6: 178. "♀" = ♂. Preocc. by Gmelin, 1790.

- Platylabus montanus* Cresson, 1877. Amer. Ent. Soc., Trans. 6: 200. ♀.
- Platylabus perkinsi* Walkley, 1958. In Krombein et al., U. S. Dept. Agr., Agr. Monog. 2, sup. 1, p. 48. N. name for *I. vafer* Cresson.
- opaculus americanus* Heinrich. Newfoundland (insular), Que., Maine, N. Y., Ont., Mich., Alta., B. C., Wash., Oreg. *P. opaculus opaculus* Thomson occurs in Europe.

Genus DENTILABUS Heinrich

Dentilabus Heinrich, 1975 (1974). Ann. Zool. 32: 147.

Type-species: *Platylabus variegatus* Wesmael. Orig. desig.

This is a small Holarctic and Oriental genus. I am not altogether convinced that it is worthy of distinction from *Platylabus*, but include the single Nearctic species treated below on advice received from Mr. Gerd Heinrich.

rufipes consors (Cresson), n. comb. Alta., Ariz., Alaska, B. C., Oreg., Calif. Host: *Hydriomena* sp., *H. renunciata* (Wlk.).

Platylabus consors Cresson, 1877. Amer. Ent. Soc., Trans. 6: 200. ♂.

Platylabus californicus Cresson, 1877. Amer. Ent. Soc., Trans. 6: 201. ♀.

rufipes rufipes (Provancher), n. comb. Newfoundland (insular), Que., Maine.

Phygadeuon rufipes Provancher, 1875. Nat. Canad. 7: 181. ♀.

Taxonomy: Heinrich, 1976 (1975). Nat. Canad. 102: 776-777 (male described).

Genus ASTHENOLABUS Heinrich

Stenolabus Heinrich, 1936 (1935). Deut. Ent. Ztschr., p. 197. Preocc. by Rechberg, 1910.

Type-species: *Platylabus laticampus* Thomson. Orig. desig.

Asthenolabus Heinrich, 1951. Bonner Zool. Beitr. 2: 240. N. name for *Stenolabus* Heinrich.

This small genus is Holarctic and Oriental.

agilis (Cresson). N. S., P. E. I., Que., and N. W. T., s. to Pa., Mich., Colo., and Oreg.

Eurylabus agilis Cresson, 1877. Amer. Ent. Soc., Trans. 6: 201. ♂, ♀.

Taxonomy: Heinrich, 1959. Ent. News 70: 215.

canadensis (Cresson). Maine, Pa., N. C., Mich., B. C., Wash.

Platylabus canadensis Cresson, 1877. Amer. Ent. Soc., Trans. 6: 200. ♀.

scutellatus (Provancher). Que., N. Y., Ont., Mich.

Ischnus scutellatus Provancher, 1875. Nat. Canad. 7: 111. ♂.

Genus PRISTICEROS Gravenhorst

Pristiceros Gravenhorst, 1829. Ichn. Europa, v. 1, p. 635.

Type-species: *Pristiceros serrarius* Gravenhorst. Monotypic.

Neopristiceros Heinrich, 1961 (1960). Canad. Ent. Sup. 15: 13.

Type-species: *Ichneumon lascivus* Cresson. Monotypic and orig. desig.

Pristicerops Heinrich, 1962. Canad. Ent. Sup. 27: 786.

Type-species: *Platylabus bakeri* Davis. Orig. desig.

This is a small Holarctic and Oriental genus.

Taxonomy: Townes, Momoi, and Townes, 1965. Amer. Ent. Inst., Mem. 5: 514 (syn.).

—Heinrich, 1975 (1974). Ann. Zool. 32: 165-167 (description of Oriental sp. in *Pristicerops*)

bakeri (Davis). Newfoundland (insular), Que., Maine, N. H., N. Y., Mich., Minn., Alta., B. C., Wash. Host: *Deiliina* sp.

Platylabus bakeri Davis, 1898 (1897). Amer. Ent. Soc., Trans. 24: 352. ♂.

Pristicerops bakeri townesi Heinrich, 1962. Canad. Ent. Sup. 27: 789. ♂, ♀. N. syn.

lascivus (Cresson). Que., Maine, N. Y., Md., W. Va., Ont. Mich., Ill., Wash.

Ichneumon lascivus Cresson, 1867. Amer. Ent. Soc., Trans. 1: 309. “♂” = ♀.

Genus TROPICOLABUS Heinrich

Tropicolabus Heinrich, 1959. Ent. News 70: 216.

Type-species: *Platylabus foxi* Davis. Monotypic and orig. desig.

This genus is Nearctic and presumably Neotropic.

foxi (Davis). N. J. Only the holotype is known.

Platylabus foxi Davis, 1898 (1897). Amer. Ent. Soc., Trans. 24: 353. ♂.

Platylabus foxii Dalla Torre, 1902. Cat. Hym., v. 3, p. 783. Emend.

Genus AMBLOPLISUS Heinrich

Ambloplisus Heinrich, 1930. Zool. Mus. Berlin, Mitt. 15: 551.

Type-species: *Ambloplisus primus* Heinrich. Monotypic.

Thaumatoteles Hopper, 1938. Amer. Ent. Soc., Trans. 68: 103.

Type-species: *Hoplismenus ornatus* Cresson. Monotypic and orig. desig.

This is a small Nearctic and Neotropic genus.

ornatus (Cresson). N. Y., Md., w. N. C., Iowa. Heinrich (1962) stated that there is a specimen in the U. S. Natl. Museum collection from "Idaho," but that specimen is from Iowa.

Hoplismenus ornatus Cresson, 1869. Amer. Ent. Soc., Trans. 2: 92. ♀.

Hoplismenus ovatus(!) Berthoumieu, 1904. In Wytsman, Gen. Ins., fasc. 18, p. 30.

Taxonomy: Heinrich, 1962. Canad. Ent. Sup. 27: 790-791 (male described).

Genus HYPOMECUS Wesmael

Hypomecus Wesmael, 1945 (1844). [Brussels] Acad. Roy. de Belg., Nouveaux Mem. 18: 147.

Type-species: *Hypomecus albitalaris* Wesmael. Monotypic.

This is a small Holarctic and Oriental genus.

quadriannulatus (Gravenhorst). Que., Colo., B. C., Wash., Calif.; Europe, n. Burma.

Mesoleptus quadriannulatus Gravenhorst, 1829. Ichn. Europaea, v. 2, p. 13. ♂.

Hypomecus albitalaris Wesmael, 1845 (1844). [Brussels] Acad. Roy. de Belg., Nouveaux Mem. 18: 147. ♂, ♀.

Hypomecus albitalaris var. *carens* Berthoumieu, 1896. Soc. Ent. de France, Ann. 65: 299. ♀.

SUBFAMILY METOPIINAE

The members of this subfamily are internal parasites of Lepidoptera. Invariably, metopiines oviposit into the host larva and emerge as adults from the host pupa.

Revision: Townes and Townes, 1959. U. S. Natl. Mus. Bul. 216 [pt. 1]: 3-318.

Taxonomy: Townes, 1971. Amer. Ent. Inst., Mem. 17: 89-122 (genera of world).

Genus PSEUDOMETOPIUS Davis

Pseudometopius Davis, 1897. Amer. Ent. Soc., Trans. 24: 202.

Type-species: *Metopius hagenii* Cresson. Monotypic.

Tylocommoides Uchida, 1940. Sapporo Nat. Hist. Soc., Trans. 16: 178.

Type-species: *Tylocommoides egawai* Uchida. Monotypic and orig. desig.

Odontotylocommus Uchida, 1940. Sapporo Nat. Hist. Soc., Trans. 16: 179.

Type-species: *Tylocommoides pilosus* Uchida. Monotypic and orig. desig.

The only species known are the one Nearctic and two Japanese species cited in the generic synonymy above.

hagenii (Cresson). Mass., Conn., Mich., Kans., Okla., Tex.

Metopius Hagenii Cresson, 1872. Amer. Ent. Soc., Trans. 4: 168. ♀.

Genus CHORINAEUS Holmgren

Chorinaeus Holmgren, 1858 (1856). Svenska Vetensk.-Akad. Handl. (n. f.) 1: 320.

Type-species: *Erochus funebris* Gravenhorst. Desig. by Viereck, 1912.

Polyrhabdus Walsh, 1873. Acad. Sci. St. Louis, Trans. 3: 98.

Type-species: *Polyrhabdus cariniger* Walsh. Monotypic.

This is a Holarctic genus of moderate size.

Revision: Aeschlimann, 1976 (1975). Soc. Ent. de France, Ann. (n. s.) 11: 723-744 (Western Palearctic spp.).

aequalis Townes. Que., Ont., and Alta. s. to n. Va., w. N. C., and Mich.

Chorinaeus aequalis Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 21. ♂, ♀.

californicus Ashmead. Alaska, B. C., Wash., Calif. Host: *Acleris gloverana* (Wlsm.).

Chorinaeus californicus Ashmead, 1896. Amer. Ent. Soc., Trans. 23: 200. "♂" = ♀.

constrictus Davis. N. H., N. Y., Md., Va., w. N. C., e. Tenn., Ga. *C. constrictus* may prove to be a synonym of *C. funebris carinatus* (Cresson); compare Townes and Townes (1959, p. 27).

Chorinaeus constrictus Davis, 1897. Amer. Ent. Soc., Trans. 24: 209. ♀.

Taxonomy: Townes and Townes, 1959. U. S. Natl. Mus. Bul. 216 [pt. 1]: 26, 27.

emorsus Townes. N. S., N. H., Mich.

Chorinaeus emorsus Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 33. ♀.

excessorius Davis. Maine, Ont., and Minn. s. to Ala. and Kans.; also n. Utah and n. Calif. Host: *Choristoneura fumiferana* (Clem.), *Ancylis comptana* (Froel.).

Chorinaeus excessorius Davis, 1897. Amer. Ent. Soc., Trans. 24: 209. ♀.

funebris carinatus (Cresson). N. S., Que., Ont., s. Man., e. Alta., and s. B. C. s. to Md., Ala., and Tex. Host: *Ancylis comptana* (Froel.)?, *Strepsicrates smithiana* (Wlsm.), *Archips semiferanus* (Wlk.), *Argyrotaenia velutinana* (Wlk.), *Anacampsis rhoifructella* (Clem.), *Tetralopha asperatella* (Clem.), *Acrobasis betulella* Hulst.

Tryphon carinatus Cresson, 1864. Ent. Soc. Phila., Proc. 3: 273. ♂.

Polyrhadbus cariniger Walsh, 1873. Acad. Sci. St. Louis, Trans. 3: 98. ♂, ♀.

funebris funebris (Gravenhorst). Colo., Ariz., Idaho, Nev.; Eurasia. Host: *Grapholitha conversana* Wlsm. The neotype designated by Aeschlimann in his 1976 revision of *Chorinaeus* has no validity for a number of reasons, one of which is the fact that it is from Swedish Lappland.

Exochus funebris Gravenhorst, 1829. Ichn. Europaea, v. 1, p. 695. ♂?

Chorinaeus funebris a. *femoratus* Hellen, 1937. Notulae Ent. 17: 56. ♀. N. syn. (uncertain).

Chorinaeus funebris a. *nigripes* Hellen, 1937. Notulae Ent. 17: 56. ♀. N. syn. (uncertain).

Chorinaeus funebris *clarus* Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 30. ♀. N. syn.

Chorinaeus funebris *divisus* Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 31. ♀. N. syn.

Taxonomy: Kusigemati, 1967. Insecta Mastsumurana 30: 20-21 (no subspecies recognized).

Biology: Aeschlimann, 1974. Ent. Exp. Appl. 17: 488-489 (overwintering).

labiosus Townes. Western N. C., Mich.?

Chorinaeus labiosus Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 32. ♀.

longicalcar Thomson. Que. w. to B. C., s. to N. C., s. Wis., and Calif.; Eurasia. Host: *Caripeta angustiorata* Wlk.?, *C. divisata* Wlk., *Hypagrytis piñiata* (Pack.), *Protobaeornia porcelaria* (Gn.), *Semiothisa "granitata"* auct., *Choristoneura fumiferana* (Clem.). Specimens with black hind femora (sometimes all femora black) are known from Que., Ont., Mich., Wash., Oreg., and Calif. The correct name for this species may be *subcarinatus* Holmgren. Roman (1925) suppressed *longicalcar* as a synonym of *subcarinatus*; he stated that Holmgren's type was lost, but that it appeared certain from the description that Holmgren's "male" of *subcarinatus* was a *longicalcar* female. It seems quite likely that Roman was correct, and I was prepared to accept Roman as first revisor. However, Dr. J.-P. Aeschlimann pointed out to me (personal commun., August, 1976) that Holmgren (1873) had in fact been first revisor and had suppressed *subcarinatus* as a synonym of *C. cristator* (Gravenhorst). A search is to be made for the *subcarinatus* type in places to which Holmgren is known to have sent material; if it is not found, and if no specimens of *cristator* having a black face are found, *longicalcar* must be suppressed as a synonym of *subcarinatus*.

Chorinaeus subcarinatus Holmgren, 1858 (1856). Svenska Vetensk.-Akad. Handl. (n. f.) 1: 321. ♀? Syn.?

Chorinaeus longicalcar Thomson, 1887. Deut. Ent. Ztschr. 31: 201. ♀.

Chorinaeus pleturnus Davis, 1897. Amer. Ent. Soc., Trans. 24: 211. ♀. N. syn.

Chorinaeus longicalcar talaris Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 18. ♂, ♀. N. syn.

Chorinaeus longicalcar flavicrus Townes, 1959. In Townes and Townes, U. S. Natl. Mus.

Bul. 216 [pt. 1]: 19. ♂, ♀. N. syn.

Chorinaeus longicalcar suralis Townes, 1959. In Townes and Townes, U. S. Natl. Mus.

Bul. 216 [pt. 1]: 20. ♂, ♀. N. syn.

Taxonomy: Holmgren, 1873. Svenska Vetensk.-Akad., Ofvers. af ... Forhandl. 30 (4): 78.

—Roman, 1925 (1924). Arkiv for Zool. 17A (4): 27 (syn.). —Aeschlimann, 1976 (1975). Soc.

Ent. de France, Ann. (n. s.) 11: 725, 737-738.

opacitus Davis. Ariz., Nev., Calif.

Chorinaeus opacitus Davis, 1897. Amer. Ent. Soc., Trans. 24: 210. ♀.

recurvus Townes. N. H., N. Y.

Chorinaeus recurvus Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 31. ♂, ♀.

Genus TRIECEES Townes

Trieees Townes, 1946. Bol. Ent. Venezuela 5: 60.

Type-species: *Erochus texanus* Cresson. Orig. desig.

According to Townes (1971), "this is a large genus of worldwide distribution." Described species occur in the Neotropic (Mexico), Holarctic, and Ethiopian regions.

Revision: Kusigemati, 1971. Kagoshima Univ., Faculty Agr., Mem. 8: 218-221 (Japanese spp.).

—Aeschlimann, 1973. Soc. Ent. de France, Ann. (n. s.) 9: 975-987 (western Palearctic spp.).

Taxonomy: Townes, 1971. Amer. Ent. Inst., Mem. 17: 97.

aquilus Townes. Western N. C.

Trieees aquilus Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 50. ♀.

arcuatus Townes. Md., w. N. C., Ont., Man. Host: *Bomolocha bijugalis* (Wlk.)?, *B. deceptalis* (Wlk.), noctuid on *Cornus*.

Trieees arcuatus Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 56. ♀ (male misdet.).

Taxonomy: Walley, 1969. Canad. Ent. 101: 1100-1101.

bradleyi Townes. Maine, N. Y., Md.

Trieees bradleyi Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 52. ♀.

calvatus Townes. Md., N. C., Tex.

Trieees calvatus Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 54. ♂, ♀.

ciliosus Townes. Md., Va.

Trieees ciliosus Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 53. ♂, ♀.

confusus Walley. Que., N. Y., Pa., Md., Va., w. N. C., Ont., Mich., Man. Host: *Agonopteryx argillacea* (Wlsm.).

Trieees confusus Walley, 1969. Canad. Ent. 101: 1098. ♂, ♀.

costatus (Davis). N. B. w. to s. B. C., s. to N. Y., Minn., Colo., and n. Calif.

Chorinaeus costatus Davis, 1897. Amer. Ent. Soc., Trans. 24: 211. ♂, ♀.

Chorinaeus pusillus Davis, 1897. Amer. Ent. Soc., Trans. 24: 211. ♂, ♀.

crassipes Walley. Ont., Sask., s. B. C. Host: *Meroptera pravella* (Grt.), *Anacampsis inocuella* (Zell.), *Compsolechia niveopulverella* (Chamb.).

Trieees crassipes Walley, 1969. Canad. Ent. 101: 1102. ♂, ♀.

densus Townes. Mich.

Trieees densus Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 42. ♂, ♀.

dentatus Townes. R. I., N. Y., Md., Ont. Host: Geometrid.

Trieees dentatus Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 55. ♂, ♀.

diffidens Townes. Que., N. Y., Ont., Mich.

Trieces diffidens Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 57. ♂, ♀.

Taxonomy: Walley, 1969. Canad. Ent. 101: 1105-1106.

ejectus Townes. Northern Utah.

Trieces ejectus Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 46. ♂.

epinotiae Walley. Ont., Man., Colo., n. B. C. Host: *Epinotia solandriana* (L.), *Pseudexentera oregonana* (Wlsm.).

Trieces epinotiae Walley, 1969. Canad. Ent. 101: 1104. ♂, ♀.

flavifrons (Ashmead). Conn., Mich., Wis., Minn., S. Dak., Kans., Colo.

Chorinaeus flavifrons Ashmead, 1890 (1889). U. S. Natl. Mus. Proc. 12: 444. ♀.

flexus Walley. N. C.-Tenn. Ecology: The unique holotype was collected at an elevation of 5200 ft. in Great Smoky Mts. Nat. Park.

Trieces flexus Walley, 1969. Canad. Ent. 101: 1102. ♀.

fusus Townes. Mass., N. Y., Pa., N. J., Ont., Minn.

Trieces fusus Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 49. ♂, ♀.

integer Townes. Mass., R. I., N. Y., Va., w. N. C., Mich., Sask.

Trieces integer Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 48. ♂, ♀.

marlatti (Ashmead). R. I., e. N. C., Kans.

Chorinaeus marlatti Ashmead, 1896. Amer. Ent. Soc., Trans. 23: 200. ♀.

Chorinaeus marlatti Dalla Torre, 1901. Cat. Hym., v. 3, p. 221. Emend.

masoni Townes. Interior Alaska.

Trieces masoni Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 37. ♂, ♀.

onitis (Davis). N. S., Que., Maine, N. H., Ont., Man. Host: *Nites betulella* (Bsk.), *Psilocorsis querucicella* Clem., *P. reflexella* Clem., *Tetralopha* sp. on *Fagus*, *Pseudexentera* sp. on *Quercus rubra*, *Acleris* sp. on *Quercus rubra*.

Chorinaeus onitis Davis, 1897. Amer. Ent. Soc., Trans. 24: 210. ♂, ♀.

Taxonomy: Walley, 1969. Canad. Ent. 101: 1095-1098.

ruficoxa Walley. Southern Mich.

Trieces ruficoxa Walley, 1969. Canad. Ent. 101: 1101. ♂, ♀.

sapineus litus Townes. Colo., Alta., B. C., Wash., Calif.

Trieces sapineus litus Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 44. ♀.

sapineus sapineus Townes. Que., N. H., w. N. C., Mich., Minn.

Trieces sapineus sapineus Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 43. ♀.

sparsus Townes. Vt. s. to e. S. C., w. to Minn.

Trieces sparsus Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 50. ♂, ♀.

tegularis Townes. Eastern Calif. Ecology: Known only from the holotype, which was collected in an area of desert scrub at Lee Vining, Calif.

Trieces tegularis Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 40. ♀.

teres Townes. Southern Man., Colo., n.e. Calif.

Trieces teres Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 41. ♂, ♀.

texanus (Cresson). N. J., Md., Fla., Kans., Tex.

Erochus texanus Cresson, 1872. Amer. Ent. Soc., Trans. 4: 168. "♂" = ♀.

truncatus Walley. Tenn.

Trieces truncatus Walley, 1969. Canad. Ent. 101: 1101. ♀.

walleyi Townes. Que., Ont. Host: *Herculia thymetusalis* (Wlk.).

Trices walleyi Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 47. ♂, ♀.

Genus METOPIUS Panzer

Genus METOPIUS Subgenus METOPIUS Panzer

Metopius Panzer, 1806. Krit. Rev. Insektenf. Deutschlands, v. 2, p. 78

Type-species: *Sphex vespooides* Scopoli. Desig. by Viereck, 1912.

Peltastes Illiger, 1807. In Rossi, Fauna Etrusca, ed. 2, v. 2, p. 55.

Type-species: *Ichneumon necatorius* Fabricius. Desig. by Curtis, 1824. The type-species is regarded as a synonym of *M. vespooides* (Scopoli).

Metopius subg. *Peltopius* Clement, 1927. In Schmiedeknecht, Opuse. Ichn., v. 5, p. 3461, 3465.

Type-species: *Sphex vespooides* Scopoli. Desig. by Clement, 1930.

This is a large subgenus of Neotropic (Mexico), Holarctic, Oriental, Australian, and Ethiopian distribution.

galbaneus Townes. Southern Oreg. s. to s. Calif.

Metopius (*Metopius*) *galbaneus* Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 74. ♂, ♀.

krombeini *epixanthus* Townes. Tex., Colo., Ariz.

Metopius (*Metopius*) *krombeini* *epixanthus* Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 71. ♂, ♀.

krombeini *krombeini* Townes. Southern N. Y., N. J., Md., Va., n. Ga., n. Mich., Wis., Ark., Okla. Ecology: Occurs in open stands of scrubby oaks.

Metopius (*Metopius*) *krombeini* *krombeini* Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 70. ♂, ♀.

mimicus Townes. Central Ariz.

Metopius (*Metopius*) *mimicus* Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 68. ♂, ♀.

pulchellus Cresson. Southeastern Wyo., Colo., N. Mex., n. Utah, Ariz.

Metopius pulchellus Cresson, 1865. Ent. Soc. Phila., Proc. 4: 271. ♀.

Metopius montanus Cresson, 1879. Amer. Ent. Soc., Trans. 7: xxviii in Proc. ♂. N. syn.

Metopius (*Metopius*) *pulchellus* *sonora* Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 73. ♂, ♀. N. syn.

robustus concinnus Cresson. Nev., n.w. Calif.

Metopius concinnus Cresson, 1879. Amer. Ent. Soc., Trans. 7: xxviii in Proc. ♂.

robustus mirandus Cresson. Western Kans., Colo.

Metopius mirandus Cresson, 1879. Amer. Ent. Soc., Trans. 7: xxviii in Proc. ♀.

Metopius grandior Viereck, 1905. Kans. Acad. Sci., Trans. 19: 314. ♀.

robustus robustus Cresson. Southern N. Y. s. to Ga., w. to e. Kans.

Metopius robustus Cresson, 1879. Amer. Ent. Soc., Trans. 7: xxvii in Proc. ♀.

Metopius harbecki Skinner, 1906. Ent. News 17: 150. ♂.

vittatus Townes. Utah, n. Ariz., s. B. C., Oreg., Calif.

Metopius (*Metopius*) *vittatus* Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 76. ♂, ♀.

Genus METOPIUS Subgenus CULTRARIUS Davis

Cultrarius Davis, 1897. Amer. Ent. Soc., Trans. 24: 197.

Type-species: *Metopius rileyi* Marlatt. Monotypic.

This subgenus is not known to occur outside the Nearctic region.

birkmani Brues. Tex., s. Ariz., s. Calif.

Metopius birkmani Brues, 1907. Wis. Nat. Hist. Soc., Bul. 5: 56. ♂ (♀ misdet.).

comptus Cresson. Ga., S. Dak., Colo.

Metopius comptus Cresson, 1879. Amer. Ent. Soc., Trans. 7: xxviii in Proc. ♀.

Metopius laticinctus Cresson, 1879. Amer. Ent. Soc., Trans. 7: xxix in Proc. ♀.

consector Townes. Va., s. Minn., Mo., s. S. Dak., Nebr., Kans., Colo.

Metopius (Cultrarius) consector Townes, 1959. In Townes and Townes, U. S. Natl. Mus.

Bul. 216 [pt. 1]: 83. ♂, ♀.

pectoralis Townes. Mo., Tex.?

Metopius (Cultrarius) pectoralis Townes, 1959. In Townes and Townes, U. S. Natl. Mus.

Bul. 216 [pt. 1]: 85. ♂, ♀?

rileyi Marlatt. S. Dak., e. Nebr., n.e. Kans.

Metopius rileyi Marlatt, 1891. Ent. Soc. Wash., Proc. 2: 103. ♀.

rufipes Cresson. Eastern Nebr., Colo.

Metopius rufipes Cresson, 1865. Ent. Soc. Phila., Proc. 4: 270. ♀.

scapulatus Townes. Tex.

Metopius (Cultrarius) scapulatus Townes, 1959. In Townes and Townes, U. S. Natl. Mus.

Bul. 216 [pt. 1]: 81. ♂.

scitulus Cresson. Nev.

Metopius scitulus Cresson, 1879. Amer. Ent. Soc., Trans. 7: xxix in Proc. ♂.

secundus Townes. N. Mex. The type locality is San Ignacio, not "San Janacia" as misquoted from the label of the unique holotype by Townes and Townes.

Metopius (Cultrarius) secundus Townes, 1959. In Townes and Townes, U. S. Natl. Mus.

Bul. 216 [pt. 1]: 89. ♀.

ultimus Davis. N. J. w. to e. Nebr., s. to Miss. and e. Tex.

Metopius ultimus Davis, 1897. Amer. Ent. Soc., Trans. 24: 199. ♂.

xanthostigma Ashmead. Md., Va., N. C., S. C., s.w. Minn., N. Dak.

Metopius xanthostigma Ashmead, 1890 (1889). U. S. Natl. Mus., Proc. 12: 438. ♂.

Genus METOPIUS Subgenus PELTALES Townes

Metopius subg. *Peltales* Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 91.

Type-species: *Metopius errantia* Davis. Orig. desig.

This is a moderate sized subgenus of Neotropic and Nearctic distribution.

errantia arizonicus Townes. Southern Ariz.

Metopius (Peltales) errantius arizonicus Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 94. ♀.

errantia californicus Townes. Oreg., Calif.

Metopius (Peltales) errantius californicus Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 95. ♂, ♀.

errantia errantia Davis. N. J., n. Va., Ont., n. Mich., n. Minn. Host: Geometrid.

Metopius errantia Davis, 1897. Amer. Ent. Soc., Trans. 24: 199. ♀.

Metopius (Peltales) errantius errantius Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 93. Unjustified emend.

errantia floridanus Townes. Northern Fla.

Metopius (Peltales) errantius floridanus Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 94. ♀.

notatus Townes. Ala. .

Metopius (Peltales) notatus Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 96. ♀.

Genus METOPIUS Subgenus TYLOPIUS Townes

Metopius subg. *Tylopius* Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 97.

Type-species: *Metopius pinatorius* Brulle. Orig. desig.

Tylopius is a Holarctic subgenus of moderate size.

basalis basalis Cresson. Ga.?, Fla.

Metopius basalis Cresson, 1879. Amer. Ent. Soc., Trans. 7: xxvii in Proc. 9.

Metopius medianus Morley, 1912. Rev. Ichn. Brit. Mus., v. 1, p. 78. ♂. Syn.?

basalis heinrichi Townes. N. B., Maine, w. Ont., Wis. s.w. B. C. Host: Saturniid.

Metopius (Tylopius) basalis heinrichi Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 104. ♂, ♀.

bellus Cresson. Nev., s.w. Oreg., n.e. Calif.

Metopius bellus Cresson, 1879. Amer. Ent. Soc., Trans. 7: xxviii in Proc. 9.

edwardsii Cresson. Alta., Wash.

Metopius edwardsii Cresson, 1879 (1878). Acad. Nat. Sci. Phila., Proc. 30: 376. ♂.

pollinctorius nevadensis Cresson. Nev., w. Wash., n.e. Calif. Host: *Acronicta* sp.

Metopius nevadensis Cresson, 1879. Amer. Ent. Soc., Trans. 7: xxviii in Proc. 9, ♀.

pollinctorius pollinctorius (Say). N. S. w. to s. B. C., s. to n. Fla. and Ill. Host: *Glaphisia septentrionalis* Wlk., *Actias luna* (L.)?, *Acronicta obliqua* (J. E. S.).

Peltastes pollinctorius Say, 1826. Boston Jour. Nat. Hist. 1: 245. ♂, ♀.

Metopius cordiger Brulle, 1846. In Lepetier, Hist. Nat. Ins. Hym., v. 4, p. 120. ♂.

Genus TRICLISTUS Foerster

Triclistus Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 161.

Type-species: *Erochus podagricus* Gravenhorst. Desig. by Morley, 1913 from five species included by Holmgren, 1873.

This is a large genus of worldwide distribution. Some species are often abundant. The interspecific differences are often somewhat obscure, and the males of some species cannot be distinguished.

Revision: Kusigemati, 1971. Kagoshima Univ., Faculty Agr., Mem. 8: 228-240 (Japanese spp.).

—Aeschlimann, 1973. Schweiz. Ent. Gesell., Mitt. 46: 219-252 (western Palearctic spp.).

adustus Townes. Colo., Wash., Oreg., Calif.

Triclistus adustus Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 119. ♀.

brunnipes (Cresson). Northern Man. w. to Yukon, s. to w. Iowa, N. Mex., Ariz., and Calif.

Erochus brunnipes Cresson, 1879 (1878). Acad. Nat. Sci. Phila., Proc. 30: 374. ♀.

Triclistus brunneipes Dalla Torre, 1901. Cat. Hym., v. 3, p. 218. Emend.

chosis Townes. Mass., N. Y., N. J., Pa., Md., D. C., Va., Ont.

Triclistus chosis Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 121. ♀.

crassus Townes. P. E. I. w. to Yukon and Alaska, s. to N. Y., Wis., Colo., Ariz., and Calif.; e. U. S. R., n. Japan.

Triclistus crassus Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 110. ♂, ♀.

Taxonomy: Kusigemati 1971. Kagoshima Univ., Faculty Agr., Mem. 8: 234-235.

emarginatus (Say). P. E. I. w. to s. B. C., s. to Fla., e. Kans., N. Mex., and n. Calif. Host:

Phlyctaenia extricalis (Gn.), *Tetralopha robustella* Zell., *Tholeria reversalis* (Gn.), *pyralid* on *Alnus incana*, *Archips argyrospilus* (Wlk.), *Argyrotaea velutinana* (Wlk.), *Croesia albicomana* (Clem.), *Platynota idaealis* (Wlk.), *Bucculatrix* sp., *Anthophila pariana* (Clerck).

Ophion emarginatus Say, 1829. Contrib. Maclurian Lyceum to Arts and Sci. 1: 76. Sex not indicated.

Erochus fulvipes Cresson, 1864. Ent. Soc. Phila., Proc. 3: 285. ♂, ♀.

Taxonomy: Davis, 1897. Amer. Ent. Soc., Trans. 24: 222. —Ashmead, 1902. Wash. Acad. Sci., Proc. 4: 230. —Cushman and Gahan, 1921. Ent. Soc. Wash., Proc. 23: 169. —Townes and Townes, 1959. U. S. Natl. Mus. Bul. 216 [pt. 1]: 113-116.

everus Townes. N. H. s. to Md., w. to s. Sask. and Colo. Host: *Archips cerasivoranus* (Fitch), *Acrobasis comptoniella* Hulst.

Triclistus everus Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 118. ♂, ♀.

melanocephalus (Cameron). Que. w. to w. S. Dak., s. to e. N. C. and Ariz.; n. Mexico.

Erochus melanocephalus Cameron, 1886. In Wytsman, Biol. Cent.-Amer., Hym., v. 1, p. 280. "♂" = ♀.

Triclistus thoracicus Ashmead, 1896. Amer. Ent. Soc., Trans. 23: 210. ♀.

minutus Carlson. Northwestern Va., s. Mich. Ecology: In Mich. seven specimens were collected with sweep nets on an upland field (abandoned farm site) with gravelly soil and a grass-herb plant cover; the field is surrounded by oak-hickory woodlands which are encroaching upon it at its edges.

Triclistus minutus Carlson, 1966. Mich. Ent. 1: 20. ♂, ♀.

occidentis Townes. Western Alta., w. Wash., e. Calif.

Triclistus occidentis Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 116. ♀.

podagricus (Gravenhorst). N. S., Que., Ont., Sask., Alta., Idaho, s.e. Alaska; Eurasia. Host: *Zeiraphera fortunana* (Kft.).

Erochus podagricus Gravenhorst, 1829. Ichn. Europaea, v. 2, p. 336. ♂, ♀.

Triclistus nigritellus Holmgren, 1873. Svenska Vetensk.-Akad., Ofvers. af ... Forhandl. 30 (4): 60. ♀.

Taxonomy: Aeschlimann, 1973. Schweiz. Ent. Gesell., Mitt. 46: 233-235.

Biology: Baltensweiler, 1958. Schweiz. Anst. f. d. Forstl. Versuchsw., Mitt. 34: 121.

— Aeschlimann, 1974. Ent. Exp. Appl. 17: 488, 489-490 (overwintering).

propinquus (Cresson). Conn. s. to n. Ga., w. to Mich. and Ala.

Erochus propinquus Cresson, 1868. Amer. Ent. Soc., Trans. 2: 114. ♀, (♂ misdet.?).

pygmaeus (Cresson). N. S. w. to s. Alaska, s. to S. C., Ala., n.e. Kans., Colo., and Calif.; Eurasia.

Host: *Paralobesia viteana* (Clem.), *Acleris variana* (Fern.). This is *T. pallipes* Holmgren (1873) in the sense of 20th Century European authors preceding Aeschlimann (1973). Overlooking the priority of *pygmaeus*, Townes and Townes (1959) erroneously suppressed it as a synonym of *pallipes*. Aeschlimann (1973) has shown that the *pallipes* "lectotype" selected by Aubert (1968) (= *pygmaeus*) is invalid, and selected a valid lectotype which is not conspecific with *pygmaeus*.

Erochus pygmaeus Cresson, 1864. Ent. Soc. Phila., Proc. 3: 285. "♂" = ♀.

Triclistus taiwanensis Uchida, 1932. Hokkaido Imp. Univ., Faculty Agr., Jour. 25: 267. ♂.

N. syn. Placed as a syn. of *T. pallipes* Holmgren by Townes, Townes, and Gupta (1961).

Taxonomy: Townes and Townes, 1959. U. S. Natl. Mus. Bul. 216 [pt. 1]: 124-125. — Townes, Townes, and Gupta, 1961. Amer. Ent. Inst., Mem. 1: 303 (syn.). — Aubert, 1968. Schweiz. Ent. Gesell., Mitt. 41: 188 (invalid lectotype selected for *pallipes*). — Aeschlimann, 1973. Schweiz. Ent. Gesell., Mitt. 46: 236-239.

Biology: Aeschlimann, 1974. Ent. Exp. Appl. 17: 488, 490-491 (overwintering). — Aeschlimann, 1975. Schweiz. Ent. Gesell., Mitt. 48: 165-171.

rectus Townes. Ariz., Calif.

Triclistus rectus Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 117. ♀.

Genus COLPOTROCHIA Holmgren

There are two subgenera, one of which has no Nearctic species.

Genus COLPOTROCHIA Subgenus COLPOTROCHIA Holmgren

Colpotrochia Holmgren, 1856 (1854). Svenska Vetensk.-Akad. Handl. 75: 80.

Type-species: *Ichneumon elegantulus* Schrank. Monotypic. The type-species is regarded as a synonym of *C. cincta* (Scopoli).

Alcocerus Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 161.

Type-species: *Tryphon trifasciatus* Cresson. By subsequent monotypy from inclusion by Davis, 1897.

Erochoides Cresson, 1868. Amer. Ent. Soc., Trans. 2: 37.

Type-species: *Erochoides mexicana* Cresson. Desig. by Viereck, 1914.

Ischyrocnemopsis Ashmead, 1900. U. S. Natl. Mus., Proc. 23: 81.

Type-species: *Erochoides texana* Cresson. Monotypic and orig. desig.

Aithris Cameron, 1900. Manchester Lit. and Phil. Soc., Mem. and Proc. 44 (15): 106.

Type-species: *Aithris coenulus* Cameron. Monotypic.

Inoresa Cameron, 1909. Bombay Nat. Hist. Soc., Jour. 19: 724.

Type-species: *Inoresa pilosa* Cameron. Monotypic.

Sychnoleteroides Brethes, 1909. Buenos Aires Mus. Nac. de Hist. Nat., An. 19: 229.

Type-species: *Sychnoleteroides flavus* Brethes. Monotypic.

This is a large subgenus of Neotropic, Holarctic, and Oriental distribution.

crassipes (Provancher). Maine s. to S. C., w. to Wis.

Cteniscus crassipes Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 109. ♀.

Barron (1975) was unable to locate any syntype.

Taxonomy: Barron, 1975. Nat. Canad. 102: 456.

fultoni Townes. Eastern Va., e. N. C., e. S. C.

Colpotrochia (*Colpotrochia*) *fultoni* Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 132. ♀.

texana (Cresson). N. C., S. C., Ga., Fla.

Exochodes (!) *texana* Cresson, 1872. Amer. Ent. Soc., Trans. 4: 167. ♂.

Ischyrocnemis carolina Ashmead, 1890 (1889). U. S. Natl. Mus., Proc. 12: 443. ♂.

trifasciata (Cresson). N. S. s. to Ga., w. to Minn. and e. Kans.

Tryphon *trifasciatus* Cresson, 1864. Ent. Soc. Phila., Proc. 3: 276. ♂.

Genus PERIOPE Haliday

Periope Haliday, 1838. Ann. Nat. Hist. 2: 114.

Type-species: *Periope auscultator* Haliday. Monotypic.

Monoplectron Holmgren, 1856 (1854). Svenska Vetensk.-Akad. Handl. 75: 81.

Type-species: *Monoplectron zygaeuator* Holmgren. Monotypic. The type-species is regarded as a synonym of *P. auscultator* Haliday.

Oligoplectron Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 161, 218, 219.

Unnecessary n. name for *Periope* Haliday. The variant spelling *Oligoplectrum* appeared on p. 218.

Monoplectrochus Heinrich, 1949. Muenchen. Ent. Gesell., Mitt. 35-39: 109.

Type-species: *Monoplectrochus hoerhammeri* Heinrich. Monotypic and orig. desig.

This is a small Holarctic genus.

aethiops (Cresson). Que. w. to e. Alta., s. to n.w. S. C. and e. Nebr. Ecology: Occurs in late summer and early fall and is often found on flowers of *Aster*.

Tryphon aethiops Cresson, 1868. Amer. Ent. Soc., Trans. 2: 106. ♀.

Chorinaeus pulchripes Provancher, 1883. Nat. Canad. 14: 12. ♀.

Genus SPUDAEUS Gistel

Trachyderma Gravenhorst, 1829. Ichn. Europaea, v. 3, p. 283. Preocc. by Latreille, 1829 (April).

Type-species: *Trachyderma scabra* Gravenhorst. Monotypic.

Spudaeus Gistel, 1848. Naturgesch. Thierr. f. Hoeh. Schul., p. xi. N. name for *Trachyderma* Gravenhorst.

Tylocomnus Holmgren, 1873. Svenska Vetensk.-Akad., Ofvers. af ... Forh. 30 (4): 76 N. name for *Trachyderma* Gravenhorst.

This is a small Holarctic genus.

indigus (Davis). N. S. w. to B. C., s. to N. H., Mich., and Colo.

Tylecomnus (!) *indigus* Davis, 1897. Amer. Ent. Soc., Trans. 24: 204. ♂, ♀.

scaber umbrosus (Davis). Southern Alta. s. to Ariz., w. to s. B. C. and Calif. *S. scaber scaber* (Gravenhorst) is European.
Tylecomnus (!) *umbrosus* Davis, 1897. Amer. Ent. Soc., Trans. 24: 203. ♀.

Genus BOTHROMUS Townes

Bothromus Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 142.
 Type-species: *Tylecomnus* (!) *minoris* Davis. Orig. desig.

This is a small Nearctic genus.

Revision: Walley, 1966. Canad. Ent. 98: 1272-1275.

bicolor Walley. Que., S. Dak., Alta., B. C., Wash.

Bothromus bicolor Walley, 1966. Canad. Ent. 98: 1273. ♀.

cruralis Townes. Northeastern Calif.

Bothromus minoris cruralis Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 144. ♀.

gibbus Townes. Ont., w. Colo., Alta., B. C. Host: *Eupithecia ravocostaliata* Pack. on willow, geometrid on willow.

Bothromus gibbus Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 145. ♂, ♀.

minoris (Davis). Que., Maine, N. H., N. Y., Ont., Mich., Sask.? s. B. C. Host: *Eupithecia* sp. on *Ceanothus sanguineus*, *E. castigata* Hbn.? on *Betula papyrifera*, geometrid on *Alnus*.
Tylecomnus (!) *minoris* Davis, 1897. Amer. Ent. Soc., Trans. 24: 204. ♀.

Genus APOLOPHUS Townes

Apolophus Townes, 1971. Amer. Ent. Inst. Mem. 17: 111.

Type-species: *Apolophus borealis* Townes. Monotypic and orig. desig.

This is a small Neotropic and Holarctic genus.

borealis Townes. Northern Mich., w. Oreg., n.w. Calif.; Germany.

Apolophus borealis Townes, 1971. Amer. Ent. Inst. Mem. 17: 112. ♀.

Genus LEURUS Townes

Leurus Townes, 1946. Bol. Ent. Venezolana 5: 59.

Type-species: *Exochus caeruliventris* Cresson. Monotypic and orig. desig.

This is a small Neotropic and Nearctic genus. I have seen an undescribed species from eastern N. C.; hopefully, it will soon be described by Mr. T. P. Nuhn.

caeruliventris borealis Townes. Southeastern Mass. s. to Fla., w. to s. Mich., e. Kans. and La.
 Host: *Desmia funeralis* (Hbn.). *L. caeruliventris caeruliventris* is Neotropic.

Leurus caeruliventris borealis Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 149. ♂, ♀.

Genus SETICORNUTA Morley

Megatrema Cameron, 1907. Ztschr. System. Hym. Dipt. 7: 468. Preocc. by Leach, 1825 and Mayr, 1865.

Type-species: *Megatrema albopilosa* Cameron. Monotypic.

Seticornuta Morley, 1913. Fauna Brit. India, Hym., v. 3, pt. 1, p. 310.

Type-species: *Seticornuta albicalcar* Morley. Monotypic and orig. desig. The type-species is regarded as a synonym of *S. albopilosa* (Cameron).

This is a small Oriental and Holarctic genus.

apicalis (Cresson). R. I. s. to n. Fla., w. to Wis., Nebr., and Ala. Host: *Acrobasis betulella* Hulst, *A. caryivorella* Rag., *A. indigenella* (Zell.), *A. juglandis* (LeB.), *A. sylviella* Ely.
Exochus apicalis Cresson, 1864. Ent. Soc. Phila., Proc. 3: 285. "♂" = ♀.

terminalis (Ashmead). Que. s. to w. N. C., w. to e. Kans. Host: Tortricid, *Nephopteryx virgatella* (Clem.) on *Robinia pseudoacacia*, *N. subcaesiella* (Clem.).

Triclistus terminalis Ashmead, 1896. Amer. Ent. Soc., Trans. 23: 201. ♂.

Genus CARRIA Schmiedeknecht

Carria Schmiedeknecht, 1924. Ent. Monthly Mag. 60: 112.

Type-species: *Carria paradoxa* Schmiedeknecht. Monotypic.

This is a small Holarctic and Australian genus.

dreisbachi californica Townes. Northeastern Calif.

Carria dreisbachi californica Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 157. ♂, ♀.

dreisbachi dreisbachi Townes. Que. w. to Sask., s. to w. N. C. and Ill.

Carria dreisbachi dreisbachi Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 155. ♂, ♀.

dreisbachi montana Townes. Colo., N. Mex., Ariz., w. Wash.

Carria dreisbachi montana Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 156. ♂, ♀.

inculcata Townes. N. J., Md., s.e. N. C., e. S. C.

Carria inculcata Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 158. ♂, ♀.

Genus MACROMALON Townes

Macromalon Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 118.

Type-species: *Macromalon montanum* Townes. Monotypic and orig. desig.

Only two species are known; one from India has been reared from *Plutella xylostella* (L.).

montanum Townes. Colo. Ecology: The type specimens were collected at elevations of 9400, 9500, and 11000 ft. in the Rocky Mountains.

Macromalon montanum Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 159. ♂, ♀.

Genus HYPsicERA Latreille

Hypsicera Latreille, 1829. In Cuvier, Le Regne Anim., ed. 2, v. 5, p. 288.

Type-species: *Ichneumon femoralis* Gravenhorst. Monotypically included and desig. by Viereck, 1914. The type-species designation is Gravenhorst's 1820 identification of *Ichneumon femoralis* Geoffroy.

Metacoelus Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 161.

Type-species: *Exochus femoralis* Gravenhorst. Desig. by Viereck, 1914 from four species included by Holmgren, 1873. The type-species designation is Gravenhorst's 1829 identification of *Ichneumon femoralis* Geoffroy.

Polyclistus Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 161.

Type-species: *Ichneumon femoralis* Geoffroy. Desig. by Viereck, 1912 from three species included by Thomson, 1887.

Plesioexochus Cameron, 1905. So. African Phil. Soc., Trans. 15: 202.

Type-species: *Plesioexochus rufipes* Cameron. Monotypic.

This large genus is Ethiopian, Oriental, and Holarctic. The largest number of species occur in the tropics of the Old World.

Revision: Kusigemati, 1971. Kagoshima Univ., Faculty Agr., Mem. 8: 253-261 (Japanese spp.).

cuneata Townes. Maine, R. I., N. Y., Ont., Ohio, Alta., Ariz., Alaska, Calif.

Hypsicera cuneata cuneata Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 165. ♂, ♀.

Hypsicera cuneata opaca Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 166. ♂, ♀. N. syn.

curvator (Fabricius). N. S. w. to s. B. C., s. to Pa., Colo., and Wash.; Europe. Adventive. Host: *Tinea pellionella* (L.). Also occurs adventively in the Neotropic region according to Townes and Townes (1959). Only females are known.

Ichneumon curvator Fabricius, 1793. Ent. System., v. 2, p. 177. [female].

Ichneumon mansuetor Gravenhorst, 1807. Vergl. Uebers. Zool. Systeme, p. 254. [female].

Hyperacmus tineae Riley, 1890. U. S. Dept. Agr., Insect Life 2: 213. ♀.

Hyperacmus ovatus Davis, 1897. Amer. Ent. Soc., Trans. 24: 218. ♀.

Taxonomy: Townes and Townes, 1959. U. S. Natl. Mus. Bul. 216 [pt. 1]: 161, 163-164 (syn. distribution).

femoralis (Geoffroy). Que. w. to Wash., s. to e. N. C., Ark., Kans., and Calif.; Eurasia; S. Africa, Madagascar; Australia; Hawaii; Brazil, Argentina, Chile. Ecology: Often collected on windows in buildings. Adventive. Presumably a parasite of Lepidoptera which feed upon stored products.

Ichneumon femoralis Geoffroy, 1785. In Fourcroy, Ent. Parisiensis, v. 2, p. 396. [female?]

Exochus laevis Cresson, 1864. Ent. Soc. Phila., Proc. 3: 286. ♂, ♀.

Metacaelus levis Dalla Torre, 1901. Cat. Hym., v. 3, p. 217. Emend.

Crypturus bonaerensis Schrottky, 1902. Buenos Aires Mus. Nac. de Hist. Nat., An. 8: 100. "♂" = ♀.

Plesioexochus rufipes Cameron, 1905. So. African Phil. Soc., Trans. 15: 203. "♂" = ♀.

Exochus platensis Brethes, 1924. Nunquam Otiosus-II (Buenos Aires), p. 10. [female].

Taxonomy: Townes and Townes, 1966. Amer. Ent. Inst., Mem. 8: 195-196 (syn.).

fulviceps Townes. Southwestern Va.

Hypsicerat fulviceps Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 164. ♀.

Genus STETHONCUS Townes

Stethoncus Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 167.

Type-species: *Stethoncus arcticus* Townes. Monotypic and orig. desig.

This is a small Holarctic genus.

arcticus Townes. Newfoundland (Labrador), n. Que., N. H., n. Man., interior Alaska. This is a subarctic species with a relict population on Mt. Washington, N. H.; the holotype is labeled as being from Fort Chimo, Labrador, which is now in Quebec.

Stethoncus arcticus Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 168. ♂, ♀.

Genus SYNOSIS Townes

Synosis Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 168.

Type-species: *Synopsis clepsydra* Townes. Monotypic and orig. desig.

This is a small Holarctic and Neotropic genus.

Revision: Kusigemati, 1971. Kagoshima Univ., Faculty Agr., Mem. 8: 262-263 (Japanese spp.).

clepsydra Townes. Que., Vt., Mass., N. Y., Mich., s. Ind., Wis., s. B. C., n.e. Calif.

Synopsis clepsydra Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 169. ♂, ♀.

Genus EXOCHUS Gravenhorst

Exochus Gravenhorst, 1829. Ichn. Europaea, v. 2, p. 328.

Type-species: *Ichneumon gravipes* Gravenhorst. Desig. by Viereck, 1912.

Amesolytus Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 161.

Type-species: *Amesolytus ferrugineus* Ashmead. By subsequent monotypy from inclusion by Ashmead, 1896.

Mima Davis, 1895. In Slosson, Ent. News 6: 317. Nomen nudum.

Mima Davis, 1897. Amer. Ent. Soc., Trans. 24: 206, 219. Preocc. by Meigen, 1820 and Westerlund, 1886.

Type-species: *Mima washingtonensis* Davis. Monotypic.

Xantherochus Morley, 1913. Fauna Brit. India, Hym., v. 3, pt. 1, p. 292.

Type-species: *Xantherochus scutellatus* Morley. Monotypic and orig. desig.

This is a very large genus, apparently of worldwide distribution, although no species have been described from the Australian region.

Revision: Kusigemati, 1971. Kagoshima Univ., Faculty Agr., Mem. 8: 263-285 (Japanese spp.).

albiceps Walsh. N. J., S. C., Ill.?, La.; Venezuela?

Exochus albiceps Walsh, 1873. Acad. Sci. St. Louis, Trans. 3: 96. "♂" = ♀.

Exochus sulcatus Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 211. ♂.

Taxonomy: Townes, 1972. Ent. Soc. Wash., Proc. 74: 259 (syn.).

albifrons Cresson. P. E. I. w. to Alta. and Wash., s. to Ala., N. Mex., and Calif. Host: *Archips cerasivoranus* (Fitch), *A. fervidanus* (Clem.), *A. rileyanus* (Grt.), *Argyrotaenia velutinana* (Wlk.), *Choristoneura rosaceana* (Harris), *Platynota idaeusalis* (Wlk.).

Exochus albifrons Cresson, 1868. Amer. Ent. Soc. Trans. 2: 114. ♀.

annulicrus Walsh. N. B. w. to B. C., s. to w. N. C., Ill.?, Colo., and Ariz.

Exochus annulicrus Walsh, 1873. Acad. Sci. St. Louis, Trans. 3: 95. ♂.

armillosus Townes. P. E. I., Mass., N. Y., N. J., Wis., Alta.

Exochus armillosus Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 226. ♂, ♀.

atriceps Walsh. N. B. w. to Man., s. to Fla. and Tex.

Exochus atriceps Walsh, 1873. Acad. Sci. St. Louis, Trans. 3: 95. ♂.

Exochus rufomaculatus Provancher. 1886. Addit. Corr. Faune Ent. Canada Hym., p. 113. ♀.

Exochus atriceps atricorpus Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 208. ♂, ♀. N. syn.

brutus Townes. Que., Ont., N. Y., Pa., Md., w. N. C., Sask., Alta. Host: Phycitine pyralid on *Tilia*.

Exochus brutus Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 228. ♂, ♀.

bryanti Townes. N. S., Ont., Alta.

Exochus bryanti Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 191. ♂, ♀.

canidens Townes. N. Y., Pa., Mich., Alta.

Exochus canidens Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 250. ♀.

capnodes Townes. Northwestern Calif.

Exochus capnodes Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 239. ♂.

cnemidotus Townes. Que., Mass., R. I., N. Y., Ont., Sask., Alta., Yukon, B. C.

Exochus cnemidotus Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 237. ♂, ♀.

cuneatus Townes. Maine. The holotype is labeled as being reared from *Heterarthrus nemoratus* (Fall.), but this host record is almost certainly incorrect.

Exochus cuneatus Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 255. ♂.

decoratus hebes Townes. Colo., Ariz., s.e. Alaska, B. C. Host: *Acleris variana* (Fern.). *E. decoratus* Holmgren is Eurasian.

Exochus decoratus hebes Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 264. ♀.

decoratus scitulus Provancher. N. S. s. to Fla., w. to Minn. and Kans. Host: *Acleris variana* (Fern.), *Argyrotaenia* sp. on *Abies*, Tortricid on *Abies*, *Epinotia aceriella* (Clem.).

Exochus scitulus Provancher, 1877. Nat. Canad. 9: 15. ♀.

- denotatus** Townes. Que. s. to s.e. N. C., w. to Minn. Host: *Zomaria* sp., *Z. interruptolineana* (Fern.).
Exochus denotatus Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 206. ♂, ♀.
- dentifrons** Townes. Que., Colo., N. Mex., Ariz., Oreg., Calif.
Exochus dentifrons Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 206. ♂, ♀.
- dorsalis** Cresson. Que. w. to s.e. Wash., s. to S. C. and Ala. Host: *Meroptera pravella* (Grt.) on sumac.
Exochus dorsalis Cresson, 1864. Ent. Soc. Phila., Proc. 3: 286. "♂" = ♀.
Amesolytus pictus Fyles, 1904. Canad. Ent. 36: 207. ♀. N. syn.; preocc. in *Exochus* by Holmgren, 1858.
Exochus pictilis Walkley, 1958. In Krombein et al., U. S. Dept. Agr., Agr. Monog. 2, sup. 1, p. 59. N. name for *Amesolytus pictus* Fyles.
Exochus dorsalis fylesi (?) Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 247. Lapsus for *E. dorsalis pictilis* Walkley.
- elimatus** Townes. Colo. Ecology: The type series was collected at an elevation of 9400 ft. in the Rocky Mts.
Exochus elimatus Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 194. ♂, ♀.
- enodis** Townes. S. Dak., Colo., Ariz.
Exochus enodis Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 189. ♂, ♀.
- evetriae** Rohwer. Northern Idaho, w. Wash., w. Oreg., n.w. Calif. Host: *Barbara colfaxiana siskiyouana* (Kft.), *B. colfaxiana taxifoliella* (Bsk.).
Exochus (Triclistus) evetriae Rohwer, 1920. U. S. Natl. Mus., Proc. 57: 223. ♀.
- externus** Townes. Oreg.
Exochus externus Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 238. ♀.
- fastigatus** Townes. Maine, Mass., R. I. Host: *Ancylis comptana* (Froel.) on *Arctostaphylos*.
Exochus fastigatus Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 249. ♂, ♀.
- ferrugineus** (Ashmead). Mass., Pa., Md., Fla., Iowa, S. Dak., Tex. Ecology: Possibly nocturnal.
Amesolytus ferrugineus Ashmead, 1896. Amer. Ent. Soc., Trans. 23: 201. ♂, ♀.
- flavifrontalis** Davis. N. B., N. W. T., and Yukon s. to N. Y., Mich., Ariz., and Calif. Host: Tortricid.
Exochus flavifrontalis Davis, 1897. Amer. Ent. Soc., Trans. 24: 217. ♂, ♀.
Amerolytus (?) *flavifrons* Ashmead, 1906. In Slosson, Ent. News 17: 324. Nomen nudum.
Exochus alpinus Cushman, 1922. U. S. Natl. Mus., Proc. 61 (8): 13. ♂. Formerly preocc. in *Exochus* by *Tryphon alpinus* Zetterstedt, 1838.
Exochus montanus Walkley, 1958. In Krombein et al., U. S. Dept. Agr., Agr. Monog. 2, sup. 1, p. 59. N. name for *E. alpinus* Cushman.
- genualis** Townes. N. J., Md., W. Va., Va., n. Ga., Ohio.
Exochus genualis Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 233. ♂.
- gravipes** (Gravenhorst). N. S., Ont., Mich.; Eurasia. The "subspecies" *E. gravipes rufiantennalis* Uchida (1942) was described from a single male specimen from northeastern China; as it has not been included in any revision, its status as a subspecies of *gravipes* remains dubious.
Ichneumon gravipes Gravenhorst, 1820. R. Accad. delle Sci. Torino, Mem. 24: 384. ♂, ♀.
- Taxonomy: Uchida, 1942. Insecta Matsumurana 16: 126-127.
- hiuleus** Townes. Southeastern B. C.
Exochus hiuleus Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 216. ♀.

- litus** Townes. N. S., s.w. Alaska, w. Wash., w. Oreg., Nev., Calif.
Exochus litus Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 196. ♂, ♀.
- mandibularis** Cushman. N. H., Mich.
Polyclistus frontalis Ashmead, 1902. In Slosson, Ent. News 13: 321. Nomen nudum.
Exochus mandibularis Cushman, 1922. U. S. Natl. Mus., Proc. 61 (8): 13. "♂" = ♀.
- megadon** Townes. R. I., N. Y., N. J., Mich., Colo.
Exochus megadon Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 259. ♀.
- mesodon** Townes. R. I., Conn., N. Y.
Exochus mesodon Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 258. ♀.
- mesorufus** Townes. N. B., N. Y., Del., Ala.
Exochus mesorufus Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 232. ♂, ♀.
- mitratus atrocoxalis** Cresson. N. B. w. to s. Man., s. to W. Va. and Tex. Host: Tortricid on *Kalmia*. According to Townes and Townes (1959) *E. mitratus mitratus* Gravenhorst and two other "subspecies" occur in Europe; they regarded a specimen from Japan as belonging to an undescribed subspecies.
Exochus atrocoxalis Cresson, 1868. Amer. Ent. Soc., Trans. 2: 114. ♀.
- Taxonomy: Townes and Townes, 1959. U. S. Natl. Mus. Bul. 216 [pt. 1]: 181.
- mitratus orias** Townes. Wyo., Alta., Utah, B. C., Wash., Oreg., Nev., Calif.
Exochus mitratus orias Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 182. ♂, ♀.
- montivagus** Townes. Colo. Ecology: Known only from the holotype, which was collected at an elevation of 9400 ft. in the Rocky Mts.
Exochus montivagus Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 201. ♀.
- nigripalpis subobscurus** Townes. Calif. Host: *Argyrotaenia citrana* (Fern.), *A. franciscana* (Wlshm.), *Platynota stultana* (Wlshm.), rose leaf tier. *E. nigripalpis nigripalpis* Thomson is European.
Exochus nigripalpis subobscurus Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 219. ♂, ♀.
- nigripalpis tectulum** Townes. N. S. w. to B. C., s. to w. N. C., s. Wis., Colo., and n. Oreg. Host: *Archips argyrospilus* (Wlk.), *A. rosanus* (L.), *Choristoneura fumiferana* (Clem.), *C. lambertiana ponderosana* Obraz, *C. occidentalis* Free.
Exochus nigripalpis tectulum Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 218. ♂, ♀.
- ochreatus** Townes. Ariz.
Exochus ochreatus Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 202. ♂.
- ostentatus** Davis. N. Y., N. J., Pa., Md., D. C., Ont., Ala., Minn., e. Alta.
Exochus ostentatus Davis, 1897. Amer. Ent. Soc., Trans. 24: 217. ♂.
- peroniae** Townes. N. S., N. B., Que., Maine, N. H., Vt., N. Y., s.w. Va., Ont., Mich., Colo., s. B. C., Wash., Oreg. Host: *Acleris variana* (Fern.), *Archippus packardianus* (Fern.) on *Abies*, *Argyrotaenia* sp.? on *Abies*, *Clepsis metaleucana* (Wlk.), *Croesia albicomana* (Clem.) on scarlet oak.
Exochus peroniae Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 235. ♂, ♀.
- pictus xanthopsis** Ashmead. N. S., Que., Maine, N. H., N. Y., w. N. C., e. Tenn. Ont., Colo., s. B. C., Wash., Oreg., n. Calif., *E. pictus pictus* Holmgren is European. One specimen in the U. S. Natl. Museum collection is labeled as being reared from *Heterarthrus nemoratus* (Fall.), but this host record is almost certainly incorrect (see *E. cuneatus* Townes).
Exochus xanthopsis Ashmead, 1896. Amer. Ent. Soc., Trans. 23: 201. ♂.

- pleuralis** Cresson. Mass., N. Y., Man., and Yukon s. to Md., Ill., Tex., and Ariz. Host: *Ancylis comptana* (Froel.), *Anacampsis agrimonella* (Clem.), *Acleris* sp. on *Viburnum*.
Exochus pleuralis Cresson. 1864. Ent. Soc. Phila., Proc. 3: 286. ♂.
Exochus pallipes Cresson. 1864. Ent. Soc. Phila., Proc. 3: 287. ♂. Preocc. by *Exochus pallipes* (Motchulsky), 1863.
Exochus erectus Cresson. 1872. Amer. Ent. Soc., Trans. 4: 168. ♀.
Exochus pallidipes Dalla Torre, 1901. Hym. Cat., v. 3, p. 213. Emend.; Preocc. in *Exochus* by Dalla Torre, 1901, p. 48.
- postfurcalis** Townes. N. S. w. to Man., s. to N. C., Kans., and Colo. Host: *Episimus argutanus* (Clem.), *Acleris oxycoccana* (Pack.).
Exochus postfurcalis Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 242. ♂, ♀.
- pullatus** Townes. Northern Man., interior Alaska.
Exochus pullatus Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 197. ♂, ♀.
- quadradens** Townes. Md.
Exochus quadradens Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 254. ♀.
- russeus** Townes. Pa.?, N. Mex., Ariz.
Exochus russeus Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 188. ♂, ♀.
- rutilatus** Townes. N. S., P. E. I., Que., Mass., N. Y., Pa., Md., e. N. C., Ont., Wis., s. B. C.
Exochus rutilatus Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 225. ♂, ♀.
- semirufus** Cresson. N. S. s. to S. C., w. to Sask., e. Kans., and Tex.
Exochus semirufus Cresson, 1868. Amer. Ent. Soc., Trans. 2: 114. ♂, ♀.
Mesoleius inflatifrons Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 107. ♀.
Exochus rufigaster Ashmead, 1890 (1889). U. S. Natl. Mus., Proc. 12: 443. ♀.
Exochus solitarius Davis, 1897. Amer. Ent. Soc., Trans. 24: 216. ♂. Davis described *solitarius* from a composite specimen; this synonymy is based upon the abdomen, which was selected as lectotype by Townes (1945); the head and thorax are those of another *Exochus* sp. which Townes did not identify.
- Taxonomy: Townes, 1945. Amer. Ent. Soc., Mem. 11: 587.
- signifer** Townes. Maine, N. Y., n. Ohio, Mich., Wis., Minn., Utah, Alaska, B. C.
Exochus signifer Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 240. ♀.
- silus** Townes. Northern Idaho, n. Utah, e. Calif. The type locality is River Heights (Cache Co.), Utah.
Exochus silus Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 261. ♂, ♀.
- spilotus** Townes. Coastal Maine, w. Ont., w. Wash. Host: Tortricid.
Exochus spilotus Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 245. ♀.
- spinialis** Townes. Central and s.w. Calif.; Honduras? Host: *Clepsis peritana* (Clem.).
Exochus spinialis Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 202. ♀.
- stenostoma** Townes. Ariz., s. B. C., Wash., Oreg., Calif. Host: *Cadra figulilella* (Greg.).
Exochus stenostoma Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 179. ♂, ♀.
- tenebrosus** Townes. Northwestern Wyo., Colo., w. Wasn. Ecology: This species has been collected at elevations between 8850 ft. and 11600 ft. in the Rocky Mts. and at 4700 ft. in the Cascade Range.
Exochus tenebrosus Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 220. ♂, ♀.

transversus Townes. Ont., Sask.

Erochus transversus Townes, 1959. In Townes and Townes, U. S. Natl. Mus. Bul. 216 [pt. 1]: 241. ♀.

turgidus Holmgren. Ont., Sask., and Mont. s. to n. Fla., La., N. Mex., and s. Calif.; Eurasia.

Host: *Petrova albicapitana* (Bsk.), *Diotryctria amatella* (Hulst), *D. auranticella* (Grt.), *D. disclosa* Hein., *D. reniculella* (Grt.).

Erochus turgidus Holmgren, 1858 (1856). Svenska Vetensk.-Akad. Handl. (n. f.) 1: 312. ♀.

SUBFAMILY BANCHINAE

The distribution of this large subfamily is worldwide. The species are all thought to be internal larval parasites of Lepidoptera.

TRIBE STILBOPINI

This small tribe includes three genera, only one of which is known from the Nearctic region.

Genus STILBOPS Foerster

Stilbops Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 163.

Type-species: *Pimpla vetula* Gravenhorst. Desig. by Ashmead, 1900 from two species included by Schmiedeknecht, 1888.

Aphanoroptrum Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 168.

Type-species: *Lissonota ruficornis* Gravenhorst. By subsequent monotypy from inclusion by Thomson, 1877. The type-species is regarded as a synonym of *S. abdominalis* (Gravenhorst).

Aphanoroptra Thomson, 1877. Opusc. ent. 8: 736. Emend.

Aphanorrhoptrum Dalla Torre, 1901. Cat. Hym., v. 3, p. 528. Emend.

Eritrachynus Schmiedeknecht, 1913. Opusc. Ichn. v. 5, fasc. 24, p. 2709.

Type-species: *Eritrachynus asper* Schmiedeknecht. By subsequent monotypy from inclusion by Schmiedeknecht, 1913 (fasc. 25, p. 2724).

According to Townes (1970) this is a moderate sized genus of Holarctic and Oriental distribution. An undescribed species is known from Maryland. The European *S. abdominalis* (Gravenhorst) has been reared from the incurvaroid lepidopteran *Adela reamurella* (L.); its life cycle is apparently analogous to that of pionine Ctenopelmatinae, the egg being deposited inside that of the host and the adult emerging from the host after the latter has spun its cocoon.

Taxonomy: Short, 1957. Roy. Ent. Soc. London, Proc., Ser. B: Taxonomy 26: 175-176
(final-instar larva). —Perkins, 1962. Brit. Mus. (Nat. Hist.) Ent., Bul. 11: 405-406, 453.

—Townes, 1970 (1969). Amer. Ent. Inst., Mem. 13: 7.

TRIBE GLYPTINI

Ten genera are known. Three occur in the Nearctic region.

Revision: Momoi, 1963. Insecta Matsumurana 25: 98-117 (Japanese spp.).

Genus SPHELODON Townes

Spheledon Townes, 1966. Amer. Ent. Inst., Mem. 8: 328.

Type-species: *Glypta phoxopteridis* Weed. Orig. desig.

Only three species have been described, but according to Townes this is a moderately large genus. It is principally Neotropic, but two species are Nearctic.

nomene (Davis). N. Y., Colo.

Glypta nomene Davis, 1898 (1897). Amer. Ent. Soc., Trans. 24: 370. ♀.

phoxopteridis (Weed). N. H. w. to B. C., s. to s.e. Ga., Ala., and n. Tex. Host: *Ancylis comptana* (Froel.), *Grapholitha interstitiana* (Clem.), *G. molesta* (Bsk.), *Amorbia humerosana* Clem., *Choristoneura rosaceana* (Harris), *Platynota flavedana* Clem.? on *Solanum*, *P. rostrana* (Wlk.), tortricid on *Gleditsia*, *Psilocorsis quercicella* Clem., pyralid on ragweed.

Glypta phoxopteridis Weed, 1888. Ent. Amer. 4: 151. ♀.

Glypta leucozonata Ashmead, 1890 (1888). U. S. Natl. Mus., Proc. 12: 449. ♂.

Genus APOPHUA Morley

Apophua Morley, 1913. Fauna Brit. India, Hym., v. 3, pt. 1, p. 213.

Type-species: *Apophua carinata* Morley. Orig. desig.

Although only one Nearctic species is known, this is a fairly large Holarctic, Oriental, and Ethiopian genus.

Taxonomy: Cushman, 1933. Insecta Matsumurana 8: 20-23. —Momoi, 1965. Insecta Matsumurana 28: 80-81.

simplicipes (Cresson). Maine w. to s. B. C., s. to D. C., Tex., Utah, and Wash. Host: *Acleris minutula* (Rob.), *Archips argyrospilus* (Wlk.), *Choristoneura rosaceana* (Harris), *Sparganothis putmanana* Free, tortricid on *Gleditsia*, *Ancylis comptana* (Froel.), *Exartema footianum* Clem., *E. inornatum* Clem., *Ennomos subsignarius* (Hbn.), *Malacosoma americanum* (F.), *Heterocampa bilineata* (Pack.), *Symmerista albifrons* (J. E. S.), *Zothecea tranquila* (Grt.), *Hemileuca* sp.

Glypta simplicipes Cresson, 1870. Amer. Ent. Soc., Trans. 3: 156. ♂, ♀.

Glypta aldrichi Davis, 1898 (1897). Amer. Ent. Soc., Trans. 24: 370. ♂, ♀.

Glypta (*Glypta*) *rosaceanae* Viereck, 1926. Canad. Ent. 58: 55. ♂, ♀.

Genus GLYPTA Gravenhorst

Glypta Gravenhorst, 1829. Ichn. Europaea, v. 3, p. 3.

Type-species: *Glypta sculpturata* Gravenhorst. Desig. by Westwood, 1840.

Conoblasta Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 165.

Type-species: *Glypta ceratites* Gravenhorst. Desig. by Viereck, 1914 from two species included by Woldstedt, 1877.

Diblastomorpha Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 165.

Type-species: *Glypta bicornis* Desvignes. By subsequent monotypy from inclusion by Woldstedt, 1877. The type-species is homonymous with *Glypta bicornis* Boie, which is regarded as a senior synonym.

Hemiephialtes Ashmead, 1906. U. S. Natl. Mus., Proc. 30: 177.

Type-species: *Hemiephialtes glyptus* Ashmead. Monotypic.

Glypta subg. *Foveoglypta* Hellen, 1915. Soc. pro Fauna et Flora Fenn., Acta 40 (6): 57.

Type-species: *Glypta* (*Foveoglypta*) *monstrosa* Hellen. Monotypic.

This is a very large genus. The greatest number of species is found in the Holarctic region and a few species occur in the Neotropic and Oriental regions. The hosts are larvae of Lepidoptera which conceal themselves when feeding, such as in leaf rolls, buds, cones, stems, etc.

Taxonomy: Momoi, 1965. Insecta Matsumurana 28: 81-82.

albiscutellaris Walsh. Ill.? The holotype was destroyed in the 1871 Chicago fire, and apparently no concerted effort has been made to identify the species since it was described.

Glypta albiscutellaris Walsh, 1873. Acad. Sci. St. Louis, Trans. 3: 127. ♂.

animosa Cresson. Conn. s. to N. C., w. to Mich.

Glypta animosa Cresson, 1870. Amer. Ent. Soc., Trans. 3: 154. ♀.

aprilis Viereck. Northeastern Kans.

Glypta aprilis Viereck, 1905. Kans. Acad. Sci., Trans. 19: 316. ♀.

areolata Viereck. Northern N. Mex.

Glypta areolata Viereck, 1903. In Skinner, Amer. Ent. Soc., Trans. 29: 89. ♀.

borealis Cresson. "Canada," Colo.

Glypta borealis Cresson, 1870. Amer. Ent. Soc., Trans. 3: 158. ♂.

brunneisigna Viereck. Northeastern Kans.

Glypta brunneisigna Viereck, 1905. Kans. Acad. Sci., Trans. 19: 316. ♀.

californica Provancher. Calif.

Glypta californica Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 117. ♀.

canadensis Cresson. Que., Maine, N. H., Vt., N. Y., Pa., Mich.

Glypta canadensis Cresson, 1870. Amer. Ent. Soc., Trans. 3: 157. ♀.

caulicola Cushman. N. J., s. Ont., and s.e. S. Dak. s. to Ga. and Kans. Host: *Gnorimoschema gallaesolidaginis* (Riley), *Epiblema scudderianum* (Clem.), *E. strenuum* (Wlk.).

Glypta caulicola Cushman, 1933. U. S. Natl. Mus., Proc. 82 (14): 9. ♂, ♀.

dakota Cresson. "Dakota [Territory]."

Glypta Dakota Cresson, 1870. Amer. Ent. Soc., Trans. 3: 158. ♂, ♀.

davisi Dalla Torre. Northern Idaho.

Glypta longicauda Davis, 1898 (1897). Amer. Ent. Soc., Trans. 24: 370. ♀. Preocc. by Hartig, 1838.

Glypta Davisi Dalla Torre, 1901. Cat. Hym., v. 3, p. 410. N. name for *longicauda* Davis.

divaricata (Say). Fla. The holotype was destroyed, and apparently no concerted effort has been made to identify the species from the original description.

Anomalon divaricatus Say, 1836. Boston Jour. Nat. Hist. 1: 244. Sex not indicated.

Taxonomy: Cushman and Gahan, 1921. Ent. Soc. Wash., Proc. 23: 155.

diversipes Walsh. Ill.? The holotype was destroyed in the 1871 Chicago fire, and apparently no concerted effort has been made to identify the species since it was described.

Glypta diversipes Walsh, 1873. Acad. Sci. St. Louis, Trans. 3: 125. ♀.

egregiafovea Viereck. Ariz.

Glypta egregiafovea Viereck, 1905. Kans. Acad. Sci., Trans. 19: 292. ♀.

erratica Cresson. Vt. s. to n. Ga., w. to e. S. Dak.

Glypta erratica Cresson, 1870. Amer. Ent. Soc., Trans. 3: 152. ♂, ♀.

evetriae Cushman. Western Mont., Wash., Oreg., w. Calif. Host: *Barbara colfaxiana taxifoliella* (Bsk.).

Glypta evetriae Cushman, 1917. U. S. Natl. Mus., Proc. 53: 469. ♂, ♀.

exartemae Walley. N. Y., Ont. Host: *Exartema viburnana* McD.

Glypta exartemae Walley, 1934. Canad. Ent. 66: 235. ♂, ♀.

fumiferanae (Viereck). N. B. w. to B. C., s. to Pa., Wis., N. Mex., Ariz., and n.w. Calif. Host:

Sciaphila duplex (Wlsm.), *Dioryctria reniculella* (Grt.)?, *Acleris variana* (Fern.)?, *Choristoneura fumiferana* (Clem.), *C. lambertiana* (Bsk.), *C. occidentalis* Free., *C. pinus* Free., *C. retinana* (Wlsm.), *Orgyia pseudotsugata* McD.?, *Melanolophia imitata* (Wlk.)? The few published records for this species as a parasite of *Choristoneura conflictana* (Wlk.) appear to be erroneous; all *Glypta* specimens I have seen which were reared from *C. conflictana* are *G. inversa* (Cresson), a few of which were misidentified as *G. fumiferanae*.

Conoblasta fumiferanae Viereck, 1912. U. S. Natl. Mus., Proc. 42: 148. ♂, ♀.

Biology: Brown, 1947 (1946). Canad. Ent. 78: 138. —Jaynes, 1954. Jour. Econ. Ent. 47: 355.

—Dodge, 1961. Canad. Ent. 93: 224.

Morphology: Peck, 1937. Canad. Jour. Res., Sect. D (Zool. Sci.) 15: 245, 246, 248, 249, 251.

haesitator Gravenhorst. Southern B. C.; Eurasia. Introduced between 1937 and 1944 in N. S.,

P. E. I., Que., B. C. and Wash.; established according to McLeod (1962), but apparently only in B. C. Host: *Laspeyresia nigricana* (Steph.). The host listed was the target species for releases in North America.

Glypta haesitator Gravenhorst, 1829. Ichn. Europaea, v. 3, p. 12. ♂, ♀.

Glypta haesitatrix Schulz, 1906. Spolia Hym., p. 103. Emend.

Biology: Cameron, 1938. Bul. Ent. Res. 29: 282-296. —Wishart, 1939. Ent. Soc. Ontario, Ann.

Rpt. 70: 69-71. —Fulton, 1947. Ent. Soc. Brit. Columbia, Proc. 43: 25.

idahoensis Davis. Northern Idaho, s.e. Wash., w. Oreg.

Glypta idahoensis Davis, 1898 (1897). Amer. Ent. Soc., Trans. 24: 370. ♀.

impressa Davis. Northeastern Ill.

Glypta impressa Davis, 1898 (1897). Amer. Ent. Soc., Trans. 24: 371. ♂, ♀.

infumata Walley. Que., Alta.

Glypta infumata Walley, 1934. Canad. Ent. 66: 236. ♀.

- inversa* Cresson. Vt. w. to interior Alaska, s. to Conn., mich., N. Mex., and n.e. Calif. Host: *Archips argyrospilus* (Wlk.), *Choristoneura conflictana* (Wlk.), *Sparganothis putmanana* Free., *Malacosoma disstria* (Hbn.), *M. californicum fragile* (Str.).
Glypta inversa Cresson, 1870. Amer. Ent. Soc., Trans. 3: 153. ♀.
- kukakensis* Ashmead. Southwestern Alaska.
Glypta kukakensis Ashmead, 1902. Wash. Acad. Sci., Proc. 4: 201. ♀.
- longiventris* Cresson. Que., N. Y., Ill.
Glypta longiventris Cresson, 1870. Amer. Ent. Soc., Trans. 3: 154. ♂.
- macra* Cresson. Que., Maine, N. Y., Ont., Colo., Alta.
Glypta macra Cresson, 1870. Amer. Ent. Soc., Trans. 3: 158. ♀.
Glypta coloradensis Cresson, 1870. Amer. Ent. Soc., Trans. 3: 158. ♂.
Glypta ruficornis Provancher, 1873 (Dec.). Nat. Canad. 5: 473. ♂. Preocc. by Walsh, 1873 (June?).
- militaris* Cresson. Ill.
Glypta militaris Cresson, 1870. Amer. Ent. Soc., Trans. 3: 154. ♀.
- monita* Cresson. W. Va.
Glypta monita Cresson, 1870. Amer. Ent. Soc., Trans. 3: 155. ♀.
- mutica* Cushman. Conn. s. to N. C., w. to Iowa. Host: *Paralobesia viteana* (Clem.), *Janus integer* (Nort.)?
Glypta mutica Cushman, 1919. U. S. Natl. Mus., Proc. 55: 540. ♂, ♀.
- popofensis* Ashmead. Southwestern Alaska. The male syntype represents a different species than the female syntype.
Glypta popofensis Ashmead, 1902. Wash. Acad. Sci., Proc. 4: 201. ♂, ♀.
- pulchripes* Cresson. W. Va.
Glypta pulchripes Cresson, 1870. Amer. Ent. Soc., Trans. 3: 153. ♀.
- rubripes* Cresson. N. Y., N. J., w. N. C., "Canada" Mo.
Glypta rubripes Cresson, 1870. Amer. Ent. Soc., Trans. 3: 156. ♂, ♀.
- ruficornis* Walsh. Ill.? The holotype was destroyed in the 1871 Chicago fire, and apparently no concerted effort has been made to identify the species since it was described.
Glypta ruficornis Walsh, 1873. Acad. Sci. St. Louis, Trans. 3: 129. ♂.
- rufipleuralis* Walsh. Ill.? The holotype was destroyed in the 1871 Chicago fire, and apparently no concerted effort has been made to identify the species since it was described.
Glypta rufipleuralis Walsh, 1873. Acad. Sci. St. Louis, Trans. 3: 125. ♂.
- rufiscutellaris* Cresson. Mass., Ont., Alta., and Wash. s. to Ga., Tex., Utah., and s.w. Calif.; Brazil?, Uruguay?; Australia? Host: *Epiblema strenuum* (Wlk.), *Grapholitha molesta* (Bsk.), *G. packardi* (Zell.), *G. prunivora* (Walsh), *Laspeyresia caryana* (Fitch), *L. pononella* (L.), *Melissopus latiferreanus* (Wlsm.), *Croesia semipurpurana* (Kft.).

xanthogastra Cameron, Colo., N. Mex., Ariz.

Glypta xanthogastra Cameron, 1905. Invertebrata Pacifica 1: 128. ♀.

Genus CEPHALOGLYPTA Obrtel

Cephaloglypta Obrtel, 1956. Zool. Listy 5: 139.

Type-species: *Cephaloglypta excavata* Obrtel. Monotypic and orig. desig.

This genus is Palearctic; only two species are known.

laricis Momoi. Northern Japan. Introduced in N. B. in 1973; the fact that only 29 adults were released would seem to have precluded establishment. Host: *Choristoneura diversana* (Hbn.), *Ptycholomoides aeriferanus* (H.-S.). The target species for the release in N. B. was *Choristoneura fumiferana* (Clem.).

Cephaloglypta laricis Momoi, 1963. Insecta Matsumurana 25: 104. ♂, ♀.

murinanae (Franz). Europe. Introduced in Ont. in 1950, 1955, and 1956, apparently without becoming established. Host: *Choristoneura murinana* (Hbn.). The target species for releases in Ont. was *Choristoneura fumiferana* (Clem.).

Glypta murinanae Franz, 1941. Ztschr. f. Angew. Ent. 27: 594. ♂, ♀.

Glypta murinanae Bauer, 1942. Mitt. aus der Ent. Gesell. zu Halle 19: 11. ♂, ♀. Preocc. by Franz, 1941; n. syn.

Cephaloglypta excavata Obrtel, 1956. Zool. Listy 5: 140. ♂, ♀. N. syn.

Biology: Bucher, 1953. Canad. Jour. Agr. Sci. 33: 463. — Franz and Wellenstein, 1958. Ztschr. f. Pflanzenkrank. 65: 21. — Capek, 1961. Ztschr. f. Angew. Ent. 48: 88. — Capek, 1963. Ztschr. f. Angew. Ent. 51: 138. — Zweölfer, 1963. Ztschr. f. Angew. Ent. 51: 348.

TRIBE LISSONOTANINI

This is a very large tribe. Twenty-six genera were recognized by Townes (1970); ten of them are represented by Nearctic species. The majority of the Nearctic species parasitize larvae of Lepidoptera which conceal themselves when feeding, such as in cones, buds, stems, leaf rolls, etc. Drs. H. K. and M. C. Townes expect to publish a revision of the Nearctic species in 1978.

Taxonomy: Townes, 1970 (1969). Amer. Ent. Inst., Mem. 13: 17-45 (genera of world).

Genus MNIOES Townes

Mnioes Townes, 1946. Bol. Ent. Venezolana 5: 58.

Type-species: *Lampronota jucunda* Cresson. Monotypic and orig. desig.

This is a large genus which is restricted to the New World; all but one of the species are Neotropic.

lunatus Kennedy, Md., D. C., Va., e. N. C., S. C., s. Ind., Ky., Tenn., s.e. Okla., Colo.

Mnioes lunatus Kennedy, 1966. Mich. Ent. 1: 17. ♂, ♀.

Genus LISSONOTA Gravenhorst

Lissonota Gravenhorst, 1829. Ichn. Europaea, v. 3, p. 30.

Type-species: *Ichneumon setosus* Geoffroy. Desig. by Curtis, 1932. Curtis designated *I. setosus* as the type-species of *Lampronota*, his replacement name for *Lissonota*.

- Lampronota* Curtis, 1832. Brit. Ent., v. 9, pl. 407. Unnecessary n. name for *Lissonota* Gravenhorst, which is not preocc. by *Lissonotus* Dalman, 1817.
- Stilbonota* Stephens, 1835. Illus. Brit. Ent., v. 7, p. 126.
Type-species: *Lissonota sulphurifera* Gravenhorst. Desig. by Viereck, 1914.
- Menicus* Schiodte, 1839. Mag. Zool., Ins. 9: 10
Type-species: *Ichneumon catenator* Panzer. Desig. by Viereck, 1914.
- Asynida* Gistel, 1848. Naturgesch. Thierr. f. hoeh. Schul., p. ix. N. name for "Lissonotus Grav[enor]horst".
- Bothynophrys* Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 166.
Type-species: *Ichneumon catenator* Panzer. By subsequent monotypy from inclusion by Woldstedt, 1877.
- Ensimus* Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 167. Preocc. by Thomson, 1859.
Type-species: *Lissonota dubia* Holmgren. Desig. by Viereck, 1914 from four species included by Schmiedeknecht, 1888.
- Amersibia* Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 167, 214, 218. N. name for *Menicus* Schiodte.
- Bathycetes* Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 167.
Type-species: *Ichneumon catenator* Panzer. Monotypically included and desig. by Schmiedeknecht, 1888.
- Opisorrhysa* Kriechbaumer, 1890. Wien. Mus. der Naturgesch., Ann. 5: 488.
Type-species: *Opisorrhysa flavopicta* Kriechbaumer. Monotypic. The type-species was described from "Amer. Sept. (?)," but is actually not a Nearctic species (personal commun., Dr. H. K. Townes, 1977).
- Ctenopimpla* Cameron, 1899. Manchester Lit. and Phil. Soc., Mem. and Proc. 43 (3): 189. Preocc. by Kriechbaumer, 1898.
Type-species: *Ctenopimpla albomaculata* Cameron. Monotypic.
- Pimplopterus* Ashmead, 1900. U. S. Natl. Mus., Proc. 23: 52.
Type-species: *Pimplopterus alaskensis* Ashmead. Monotypic and orig. desig.
- Harrimaniella* Ashmead, 1900. U. S. Natl. Mus., Proc. 23: 52. Transfer from synonymy with *Cryptopimpla* was advised by H. K. Townes (1976, personal communication).
- Echthrodoeca* Schmiedeknecht, 1900. Zool. Jahrb., Abt. f. System., Geog., u. Biol. Tiere 13: 328.
Type-species: *Lissonota conflagrata* Gravenhorst. Desig. by Viereck, 1914.
- Anarthronota* Schmiedeknecht, 1900. Zool. Jahrb., Abt. f. System., Geog., u. Biol. Tiere 13: 330.
Type-species: *Lissonota manca* Brauns. Desig. by Viereck, 1914.
- Campocineta* Schmiedeknecht, 1900. Zool. Jahrb., Abt. f. System., Geog., u. Biol. Tiere 13: 343.
Type-species: *Campocineta varicornis* Schmiedeknecht. Monotypic.
- Adelopimpla* Schulz, 1906. Spolia Hym., p. 116. N. name for *Ctenopimpla* Cameron.
- Stilbopoides* Rohwer, 1913. Ent. Soc. Wash., Proc. 15: 183.
Type-species: *Stilbopoides maculiventris* Rohwer. Orig. desig.
- Lophantium* Clement, 1925. Konowia 4: 400.
Type-species: *Lissonota clypealis* Thomson. Orig. desig.
- Gibbonota* Heinrich, 1937. Polskie Pismo Ent. 14-15: 354.
Type-species: *Gibbonota duplanae* Heinrich. Monotypic and orig. desig.
- Lissonotooides* Benoit, 1955. Mus. du Congo Belge, Ann. Zool. 38: 29.
Type-species: *Lissonotooides pectinatus* Benoit. Monotypic and orig. desig.

This is a very large genus. According to Townes (1970) it is best represented in the Holarctic region, but has a nearly worldwide distribution.

Taxonomy: Townes, 1970 (1969). Amer. Ent. Inst., Mem. 13: 25-27 (new generic synonyms). *acrobasisidis* (Ashmead). Southwestern Ind.

Polysphincta phycitis Riley, 1891. In Riley and Howard, U. S. Dept. Agr., Insect Life 3: 464. Nomen nudum.

Eusimus(!) *acrobasisidis* Ashmead, 1896. Amer. Ent. Soc., Trans. 23: 212. ♂. The type-locality is Paxtons, Sullivan Co., Ind. (not "Paxton, Ohio").

aleutiana (Cresson), n. comb. Southwestern Alaska.

Mesoleius? *aleutianus* Cresson, 1879 (1878). Acad. Nat. Sci. Phila., Proc. 30: 371. ♂.

argyresthiae (Walley), n. comb. N. S., N. B., Que., Ont., Wis. Host: *Argyresthia laricella* Kft.

Pimplopterus argyresthiae Walley, 1961. Canad. Ent. 93: 1. ♂, ♀.

brevicincta (Davis). N. Y., Mich.

Lampronota brevicincta Davis, 1895. Amer. Ent. Soc., Trans. 22: 31. ♀.

breviventris (Walsh). Ill.? The synonymy and transfer from unplaced species of Ichneumonidae is based upon advice received from Drs. M. C. and H. K. Townes, (personal communications, 1977).

Lampronota pictiventris Walsh, 1873. Acad. Sci. St. Louis, Trans. 3: 119. ♂.

Lampronota breviventris Walsh, 1873. Acad. Sci. St. Louis, Trans. 3: 120. ♂.

brunnea Cresson. Maine w. to Oreg., s. to Va., Kans., and Calif. Host: *Achatodes zaea* (Harris),

Luperina stipata (Morr.), *Papaipema cataphracta* Grt., *P. nebris* (Gn.).

Lissonota brunnea Cresson, 1868. Canad. Ent. 1: 37. ♀.

Nadia apalachia Viereck, 1902. Canad. Ent. 34: 68. ♂.

Biology: Decker, 1930; 1931. Iowa Agr. Expt. Sta., Res. Bul. 125: 160; 143: 345. —Decker, 1935. Iowa State Col. Jour. Sci. 9: 572.

coloradensis (Cresson). Man., Sask., Colo., Alta., B. C.

Lampronota coloradensis Cresson, 1870. Amer. Ent. Soc., Trans. 3: 165. ♀.

conocola Rohwer, restored comb. Nebr., Ariz., B. C., Oreg., Calif. Host: *Tinea defectella* Zell., *Eucosma recissoriana* Heinr., *Rhyacionia neomexicana* (Dyar).

Lissonota conocola Rohwer, 1920. U. S. Natl. Mus., Proc. 57: 222. ♂, ♀.

dakrumae (Ashmead), n. comb. Calif. Host: *Cisthene faustinula* f. *fusca* Str., *Holcocera* sp., *Dioryctria xanthaenobares* Dyar.

Meniscus dakrumae Riley, 1890. In Riley and Howard, U. S. Dept. Agr., Insect Life 3: 464. Nomen nudum.

Meniscus dakrumae Ashmead, 1896. Amer. Ent. Soc., Trans. 23: 212. ♀. According to notes on file in the U. S. Natl. Museum the syntypes were reared from a species of *Holcocera* feeding on *Lecanium* and from *Cisthene faustinula* f. *fusca* Str. feeding on lichens.

Lissonota dioryctriae Rohwer, 1920. U. S. Natl. Mus., Proc. 57: 221. ♀.

davisi (Townes), n. comb. Southern Mich.

Lampronota angusta Davis, 1895. Amer. Ent. Soc., Trans. 22: 30. ♀. Preocc. by Taschenberg, 1863.

Pimplopterus davisi Townes, 1944. Amer. Ent. Soc., Mem. 11: 452. N. name for *Lampronota angusta* Davis.

electra Viereck, restored comb. Northern N. Mex.

Lissonota electra Viereck, 1903. In Skinner, Amer. Ent. Soc., Trans. 29: 84. ♀.

evetriae Rohwer, restored comb. Central Colo. Host: *Holcocera* sp.?, *Barbara colfaxiana taxifoliella* (Bsk.).

Lissonota evetriae Rohwer, 1920. U. S. Natl. Mus., Proc. 57: 220. ♂, ♀. The type-locality is Cheyenne Mountain, Colo. (not "Cheyenne, Mountains, Colorado").

exigua (Cresson), n. comb. W. Va.

Lampronota exiguia Cresson, 1870. Amer. Ent. Soc., Trans. 3: 164. ♀.

fenella Viereck, n. comb. Northern N. Mex.

Lissonota fenella Viereck, 1903. In Skinner, Amer. Ent. Soc., Trans. 29: 83. ♀.

Harrimaniella minor Viereck, 1903. In Skinner, Amer. Ent. Soc., Trans. 29: 87. ♂.

frigida Cresson. Que. w. to s.w. Alaska, s. to Va. and Tex. Host: *Crambus vulgivagellus* Clem.

Lissonota frigida Cresson, 1868. Canad. Ent. 1: 36. ♀.

Lampronota exilis Cresson, 1870. Amer. Ent. Soc., Trans. 3: 165. ♂, ♀.

Lampronota imitatrix Walsh, 1873. Acad. Sci. St. Louis, Trans. 3: 121. ♀.

Pimplopterus alaskensis Ashmead, 1900. U. S. Natl. Mus., Proc. 23: 52. ♀.

Lissonota alaskensis Ashmead, 1902. Wash. Acad. Sci., Proc. 4: 197. ♀. Preocc. in

Lissonota by Ashmead, 1900.

Harrimaniella paeneimitatrix Viereck, 1905. Kans. Acad. Sci., Trans. 19: 317. ♀.

- Lissonota sakala* Cushman, 1942. U. S. Natl. Mus., Proc. 92: 287. N. name for *L. alaskensis* Ashmead.
- hilaris* (Cresson), n. comb. Calif.
Lampronota hilaris Cresson, 1879 (1878). Acad. Nat. Sci. Phila., Proc. 30: 378. ♀.
- inconstans* Cushman, restored comb. Western Oreg., s.w. Calif. Host: *Melissopus latiferreanus* (Wlsm.).
Lissonota inconstans Cushman, 1940. Ent. Soc. Wash., Proc. 42: 157. ♂, ♀.
- interpellata* (Walsh), n. comb. Ill.? The holotype was destroyed in the 1871 Chicago fire.
Lampronota interpellata Walsh, 1873. Acad. Sci. St. Louis, Trans. 3: 118. ♂.
- jacobi* (Walley), n. comb. Southern B. C.
Asphragis jacobi Walley, 1942. Canad. Ent. 74: 234. ♂, ♀.
- laevigata* (Cresson). Que., N. Y., Ont., Alta.
Lampronota laevigata Cresson, 1870. Amer. Ent. Soc., Trans. 3: 162. ♀.
Lampronota levigata Dalla Torre, 1901. Cat. Hym., v. 3, p. 516. Emend.
- macra* (Cresson), n. comb. Del.
Lampronota macra Cresson, 1870. Amer. Ent. Soc., Trans. 3: 163. ♂.
- maculiventris* (Rohwer), n. comb. Western Mont.
Stilbopoides maculiventris Rohwer, 1914. Ent. Soc. Wash., Proc. 15: 183. ♂, ♀.
- montana* (Cresson). Newfoundland (Labrador) w. to Alaska, s. to Va., N. Mex., and Nev. Host:
Crymodes devastator (Brace), *Protagrotis obscurus* (B. and M.).
Lampronota montana Cresson, 1865. Ent. Soc. Phila., Proc. 4: 267. ♀.
Exelastes consimilis Cresson, 1865. Ent. Soc. Phila., Proc. 4: 278. ♂.
Lampronota varia Cresson, 1870. Amer. Ent. Soc., Trans. 3: 164. ♂. N. syn.
Lampronota americana Cresson, 1870. Amer. Ent. Soc., Trans. 3: 164. ♀. N. syn.
Lampronota amphimilaena Walsh, 1873. Acad. Sci. St. Louis, Trans. 3: 117. ♂. N. syn.
Lampronota gelida Cresson, 1879 (1878). Acad. Nat. Sci. Phila., Proc. 30: 377. ♂. N. syn.
Lampronota vivida Cresson, 1879 (1878). Acad. Nat. Sci. Phila., Proc. 30: 378. ♂. N. syn.
Lampronota Edwardsii Cresson, 1879 (1878). Acad. Nat. Sci. Phila., Proc. 30: 379. ♀. N. syn.
Lampronota puritana Ashmead, 1890 (1889). U. S. Natl. Mus., Proc. 12: 450. ♀. N. syn.
Hammaniella(?) relativa Viereck, 1902. Canad. Ent. 34: 67. ♂. N. syn.
Echthrodoca clypearia Ashmead, 1902. Wash. Acad. Sci., Proc. 4: 199. ♂.
Harrimaniella ariel Viereck, 1903. In Skinner, Amer. Ent. Soc., Trans. 29: 86. ♂.
- nigricornis* (Provancher). Que., N. Y., N. Mex., Oreg. Host: *Eucosma bobana* Kft.
Lampronota nigricornis Provancher, 1873. Nat. Canad. 5: 476. ♀.
- nigripes* (Provancher). Southeastern Ont.
Lampronota nigripes Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 118. ♀.
- parallela* Gravenhorst. Newfoundland (Labrador); Eurasia.
Lissonota parallela Gravenhorst, 1829. Ichn. Europaea, v. 3, p. 79. ♂, ♀.
- parva* (Cresson). Maine w. to B. C., s. to D. C., Colo., and Calif.
Lampronota parva Cresson, 1870. Amer. Ent. Soc., Trans. 3: 163. ♀.
- penuria* (Davis), n. comb. "Canada."
Aperileptus penuria Davis, 1897. Amer. Ent. Soc., Trans. 24: 244. ♂.
- prionoxysti* (Rohwer), n. comb. Northern Va. Host: *Prionoxystus* sp. in *Castanea dentata*.
Amersibia prionoxysti Rohwer, 1915. U. S. Natl. Mus., Proc. 49: 224. ♂, ♀.
- punctata* (Cresson). Que. s. to N. C., w. to Colo.
Lampronota punctata Cresson, 1870. Amer. Ent. Soc., Trans. 3: 160 (key), 163. ♀. The alternate spelling "punctulata" which appeared on p. 163 was rejected in favor of *punctata* by Cushman (1925).
Lampronota albifacies Provancher, 1873. Nat. Canad. 5: 475. ♂.
- recurvariae* Cushman, restored comb. Maine, N. Y.
Lissonota recurvariae Cushman, 1935. Wash. Acad. Sci., Jour. 25: 552. ♂, ♀.
- rubrica* (Cresson). Que. s. to Ga., w. to Iowa.
Lampronota rubrica Cresson, 1870. Amer. Ent. Soc., Trans. 3: 165. ♀.
Lampronota humeralis Provancher, 1873. Nat. Canad. 5: 476. "♀" = ♂.

Lissonota philipi Viereck, 1917 (1916). Conn. State Geol. and Nat. Hist. Survey Bul. 22: 314. ♂.

scutellaris (Cresson). Que., Mass., N. Y., N. J., Ont., W. Va., Ill., Minn., Mo., Kans., n. N. Mex.
Host: *Synantheson tipuliformis* (Clerck), *Filatima pseudoacaciella* (Chamb.).

Lampronota scutellaris Cresson, 1870. Amer. Ent. Soc., Trans. 3: 161. ♀.

Meniscus Crevieri Provancher, 1874. Nat. Canad. 6: 29. ♀.

Bathycetes nidia Viereck, 1903. In Skinner, Amer. Ent. Soc., Trans. 29: 85. ♀.

segnis (Cresson), n. comb. Southwestern B. C.

Lampronota segnis Cresson, 1879 (1878). Acad. Nat. Sci. Phila., Proc. 30: 378. ♂.

sesiavora (Rohwer), n. comb. R. I., N. Y., N. J., Md., Va. Host: *Synantheson pyri* (Harris),
Grapholitha molesta (Bsk.)?

Stilbopoides sesiavora Rohwer, 1914. Ent. Soc. Wash., Proc. 15: 184. ♂, ♀.

sexincta (Ashmead), n. comb. Colo.

Pimpla sexincta Ashmead, 1900. Colo. Biol. Assoc., Bul. 1: 24. ♂.

Taxonomy: Walkley, 1967. In Krombein et al., U. S. Dept. Agr., Agr. Monog. 2, sup. 2, p. 172.

tegularis (Cresson). Que. s. to N. C., w. to Minn., Kans., and Tex. Ecology: Occurs in fall on flowers of *Solidago*. Host: Tortricid leaf roller on *Solidago*?, *Oligia fractilinea* (Grt.)?
Incorrectly placed in *Alloplasta* by Barron (1975).

Lissonota rufipes Cresson, 1868. Canad. Ent. 1: 36. ♀. Preocc. by Brischke, 1867.

Lampronota tegularis Cresson, 1870. Amer. Ent. Soc., Trans. 3: 163. ♂.

Areneta Quebecensis Provancher, 1875. Nat. Canad. 7: 141. ♂.

Lampronota Provancheri Dalla Torre, 1901. Cat. Hym., v. 3, p. 518. N. name for *Lampronota rufipes* Provancher; because *Lampronota rufipes* Provancher is Provancher's (1880 and 1883) lapsus for *Lampronota rufipes* (Cresson) (cf. Provancher, 1873), the name *provancheri* is unavailable.

Taxonomy: Provancher, 1873. Nat. Canad. 5: 476. — Barron, 1975. Nat. Canad. 102: 539.

tropica (Davis), n. comb. Colo., s. Calif.

Aperileptus tropicus Davis, 1897. Amer. Ent. Soc., Trans. 24: 244. ♂.

yakutatensis Ashmead, n. comb. Southeastern Alaska.

Pimplopterus yakutatensis Ashmead, 1902. Wash. Acad. Sci., Proc. 4: 197. ♀.

yukakensis (Ashmead). Southwestern Alaska.

Harrimaniella yukakensis Ashmead, 1900. U. S. Natl. Mus., Proc. 23: 52. ♂.

Harrimaniella kukakensis(!) Ashmead, 1902. Wash. Acad. Sci., Proc. 4: 198.

Lissonota kukakensis Cushman, 1942. U. S. Natl. Mus., Proc. 92: 287. Unjustified emend.

Genus LOXODOCUS Townes

Loxodocus Townes, 1970 (1969). Amer. Ent. Inst., Mem. 13: 27.

Type-species: *Lampronota pallorana* Davis. Orig. desig.

This is a moderate sized genus of Nearctic and Neotropic (Mexico and probably Central America) distribution. Most of the species are Neotropic; at least half of them are undescribed.

palloranus (Davis). Mass., N. J., Pa., N. C.

Lampronota pallorana Davis, 1895. Amer. Ent. Soc., Trans. 22: 31. ♀.

Genus ALLOPLASTA Foerster

Alloplasta Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 167.

Type-species: *Lissonota murina* Gravenhorst. By subsequent monotypy from inclusion by Woldstedt, 1877. The type-species is regarded as a synonym of *A. piceator piceator* (Thunberg).

Asymmictus Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 200.

Type-species: *Asymmictus iridescentis* Davis. Desig. by Viereck, 1914 from two species included by Davis, 1898.

Trysicampe Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 207.

Type-species: *Ichneumon piceator* Thunberg. Monotypically included and desig. by Perkins, 1962.

Trichopimpla Cameron, 1903. Ztschr. System. Hym. Dipt. 3: 303.

Type-species: *Trichopimpla pilosa* Cameron. Monotypic.

This is a small Holarctic and Oriental genus.

piceator bullata (Davis). Pa., Alta., Mont., Idaho, Wash. A. *piceator piceator* (Thunberg) is Eurasian. Treatment of *bullata* as a subspecies of *piceator* is based upon unpublished information provided by Dr. H. K. Townes.

Lampronota bullata Davis, 1895. Amer. Ent. Soc., Trans. 22: 30. ♀.

superba iridescens (Davis). Nev.

Asymmictus iridescentis Davis, 1898 (1897). Amer. Ent. Soc., Trans. 24: 325. "♀" = ♂.

Taxonomy: Townes, 1970 (1969). Amer. Ent. Inst., Mem. 13: 29.

superba superba (Provancher). Que., Maine, N. H., Vt., Conn., N. Y., Wis., Tex.?, Sask.?, Colo.? *Meniscus superbus* Provancher, 1874. Nat. Canad. 6: 30. ♀.

Genus ARENETRA Holmgren

Lasiosps Holmgren, 1856 (1854). Svenska Vetensk.-Akad. Handl. 75: 68. Preocc. by Meigen, 1838.

Type-species: *Tryphon pilosella* Gravenhorst. Monotypic.

Arenetra Holmgren, 1859. Svenska Vetensk.-Akad., Ofvers. af ... Forhandl. 16: 127. N. name for *Lasiosps* Holmgren.

This is a moderate sized Holarctic genus. The adults occur in late winter through mid-spring or in mid to late fall.

Taxonomy: Townes and Townes, 1951. In Muesebeck et al., U. S. Dept. Agr., Agr. Monog. 2: 310.

canadensis Cresson. Southeastern Ont., Wis., w. Iowa, e. S. Dak., e. Wyo., Colo., N. Mex., s. Idaho, e. Wash.

Arenetra canadensis Cresson, 1868. Canad. Ent. 1: 36. ♂.

hirsutula Walley, revised status. Southern Mich., s.e. Minn., s. Sask. Resurrection from synonymy with *canadensis* based upon unpublished information provided by Dr. H. K. Townes.

Arenetra hirsutula Walley, 1931. Canad. Ent. 63: 169. ♂.

leucotaenia Viereck, revised status. Mass., N. Y., Md., D. C., n. Va., n.e. Kans. Resurrection from synonymy with *nigrita* based upon unpublished information provided by Dr. H. K. Townes.

Arenetra leucotaenia Viereck, 1905. Kans. Acad. Sci., Trans. 19: 318. ♀.

nigrita Cresson. N. H., Mass., Conn., N. J., Pa., n. Va., s. Wis., n. Miss., Iowa, e. S. Dak.

Arenetra nigrita Cresson, 1870. Amer. Ent. Soc., Trans. 3: 159. ♂, ♀.

pallipes Harrington, revised status. Southeastern and n. Idaho, s.w. B. C., e. Wash., w. Oreg. Resurrection from synonymy with *nigrita* based upon unpublished information provided by Dr. H. K. Townes.

Arenetra pallipes Harrington, 1894. Canad. Ent. 26: 250. ♂.

Arenetra pallidipes Dalla Torre, 1901. Cat. Hym., v. 3, p. 313. Unjustified emend.

rufipes Cresson, revised status. Que. w. to Alaska, s to s.e. N. Y., S. Dak., N. Mex., s. Idaho, and s. Oreg. Host: *Euxoa* sp. Resurrection from synonymy with *nigrita* based upon unpublished information provided by Dr. H. K. Townes.

Arenetra rufipes Cresson, 1870. Amer. Ent. Soc., Trans. 3: 159. ♀.

Arenetra vernalis Walley, 1931. Canad. Ent. 63: 171. ♀. N. syn.; identification labels of Dr. H. K. Townes on specimens in the U. S. Natl. Museum collection indicate that he will be treating *vernalis* as a sympatric subspecies of *rufipes*.

UNPLACED TAXA OF ARENETRA

In the forthcoming revision of Drs. H. K. and M. C. Townes, the names below will presumably be suppressed as synonyms of one or two of the *Arenetra* species listed above (cf. Townes and Townes, 1951).

Taxonomy: Townes and Townes, 1951. In Muesebeck *et al.*, U. S. Dept. Agr., Agr. Monog. 2: 310.

Arenetra occulta Walley, 1931. Canad. Ent. 63: 170. ♂. Southwestern B. C.

Arenetra ventralis Cresson, 1870. Amer. Ent. Soc., Trans. 3: 160. ♂. N. Y.

Genus CRYPTOPIMPLA Taschenberg

Cryptopimpla Taschenberg, 1863. Ztschr. f. die Gesam. Naturw. [Halle] 21: 292.

Type-species: *Phytodietus blandus* Gravenhorst. Desig. by Viereck, 1914.

Aphanodon Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 166.

Type-species: *Phytodietus errabundus* Gravenhorst. By subsequent monotypy from inclusion by Schmiedeknecht, 1888.

Xenacis Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 167.

Type-species: *Lissonota caligata* Gravenhorst. By subsequent monotypy from inclusion by Brischke, 1880.

Xenocornia Schmiedeknecht, 1900. Zool. Jahrb., Abt. f. System. 13: 334.

Type-species: *Xenocornia solitaria* Schmiedeknecht. Monotypic.

Trevoria Ashmead, 1900. U. S. Natl. Mus., Proc. 23: 50.

Type-species: *Trevoria yukatatenensis* Ashmead. Monotypic and orig. desig.

Fintonia Cameron, 1909. Bombay Nat. Hist. Soc., Jour. 19: 726.

Type-species: *Fintonia nigripalpis* Cameron. Monotypic.

This is a moderate-sized genus of Holarctic, Oriental, and Ethiopian distribution. It is best represented in the Palearctic Region.

blanda jocosa (Cresson), n. status. Que. s. to W. Va., w. to Ill. *C. blanda blanda* (Gravenhorst) is European; treatment of *jocosa* as a subspecies of *blanda* is based upon unpublished information provided by Dr. H. K. Townes.

Lampronota? *jocosa* Cresson, 1870. Amer. Ent. Soc., Trans. 3: 162. ♂.

Lampronota agilis Cresson, 1870. Amer. Ent. Soc., Trans. 3: 164. ♀.

Mesoleptus angustus Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 96. ♂, ♀.

Tryphon fractus Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 101. ♂.

Polyblastus decoratus Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 107.

"♀" = ♂.

Polyblastus inornatus Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 108. ♀.

genalis obscurella (Cresson), n. status. Que., w. N. C., Wash., Calif. *C. genalis genalis* (Thomson) is European; treatment of *obscurella* as a subspecies of *genalis* is based upon unpublished information provided by Dr. H. K. Townes.

Phytodietus obscurellus Cresson, 1879 (1878). Acad. Nat. Sci. Phila., Proc. 30: 379. ♀.

Aphanodon luctuosus Walley, 1934. Canad. Ent. 66: 237. ♂, ♀.

pleuralis (Cresson). Que. s. to N. C., w. to Minn., Mo., and Tex. Host: *Argyrotaenia velutinana* (Wlk.). Generic placement on advise from H. K. Townes (1976, personal commun.).

Lampronota pleuralis Cresson, 1870. Amer. Ent. Soc., Trans. 3: 161. ♂, ♀.

Lampronota occidentalis Cresson, 1870. Amer. Ent. Soc., Trans. 3: 161. ♂.

Lampronota insita Cresson, 1870. Amer. Ent. Soc., Trans. 3: 162. ♀.

Lampronota pulchella Cresson, 1870. Amer. Ent. Soc., Trans. 3: 162. ♂.

Lissonota cressoni Viereck, 1917 (1916). Conn. State Geol. and Nat. Hist. Survey Bul. 22: 314. Unnecessarily proposed n. name for *Lampronota occidentalis* Cresson.

yukatatenensis (Ashmead). Southeastern Alaska.

Trevoria yukatatenensis Ashmead, 1900. U. S. Natl. Mus., Proc. 23: 50. ♂.

Trevoria yakutatensis(!) Ashmead, 1902. Wash. Acad. Sci., Proc. 4: 198.

Trevoria yukatatenensis Cushman, 1942. U. S. Natl. Mus., Proc. 92: 287. Unjustified emend.

Genus ISOMERIS Townes

Isomeris Townes, 1970 (1969). Amer. Ent. Inst., Mem. 13: 35.

Type-species: *Lampronota marginata* Provancher. Monotypic and orig. desig.

This is a small Neotropic and Nearctic genus.

marginata (Provancher). Que., R. I., N. Y., Pa., Ont., W. Va. Host: *Trichotaphe levisella* Fyles.
Lampronota marginata Provancher, 1873. Nat. Canad. 5: 474. ♀.

Genus SYZEUCTUS Foerster

Diceratops Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 167.

Type-species: *Pimpla bicornis* Gravenhorst. Monotypically included and desig. by Schmiedeknecht, 1888.

Syzeuctus foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 167.

Type-species: *Ichneumon maculatorius* Fabricius. Monotypically included and desig. by Schmiedeknecht, 1888.

Syzeucta Thomson, 1889. Opusc. Ent. 13: 1415. Emend.

Meyva Cameron, 1899. Manchester Lit. and Phil. Soc., Mem. and Proc. 43 (3): 191.

Type-species: *Meyva villosa* Cameron. Monotypic.

Rhynchotrevoria Cameron, 1906. So. African Mus., Ann. 5: 125.

Type-species: *Rhynchotrevoria rostrata* Cameron. Monotypic.

Ephialtina Szepligeti, 1908. In Sjostedt, Kilimandjaro-Meru Exped., v. 8, p. 74.

Type-species: *Ephialtina apicalis* Szepligeti. Monotypic.

Leptoglyphis Brethes, 1927. Ent. Mitt. 16: 39.

Type-species: *Leptoglyphis minasensis* Brethes. Monotypic.

Paratanera Rao, 1953. Indian Forest Rec., New Ser., Ent. 8: 171.

Type-species: *Paratanera indica* Rao. Monotypic and orig. desig.

This is a large genus of Neotropic, Holarctic, Oriental, and Ethiopian distribution. Most of the species are tropical.

comptus (Davis). Que. w. to Iowa, s. to n. Ga. and e. Kans.

Meniscus comptus Davis, 1894. Canad. Ent. 26: 322. ♀.

elegans (Cresson). Maine s. to Fla., w. to Minn. and Mo. Host: *Tetralopha aplastella* (Hulst), *T. asperatella* (Clem.), *T. robustella* Zell.

Meniscus elegans Cresson, 1870. Amer. Ent. Soc., Trans. 3: 165. ♂, ♀.

Meniscus Slossonae Davis, 1894. Canad. Ent. 26: 322. ♀.

epischniae epischniae Cushman. Southern Oreg., n. Calif. Host: *Pima granitella* (Rag.).

Syzeuctus epischniae Cushman, 1926. U. S. Natl. Mus., Proc. 67 (23): 9. ♂, ♀.

epischniae sigmoidalis Cushman, n. status. Eastern Que. Treatment of *sigmoidalis* as a subspecies of *epischniae* is based upon unpublished information supplied by Dr. H. K. Townes.

Syzeuctus sigmoidalis Cushman, 1926. U. S. Natl. Mus., Proc. 67 (23): 8. ♂, ♀.

eximus Walley. Northwestern Iowa, s. Man., Colo., n.e. Oreg., Nev.; Mexico.

Syzeuctus eximus Walley, 1934. Canad. Ent. 66: 238. ♂, ♀.

Genus EUDELEBOEA Lopez Cristobal

Eudeleboea Lopez Cristobal, 1935. La Plata Univ. Nac., Facultad de Agron., Rev. 20: 156.

Type-species: *Eudeleboea lopezi* Lopez Cristobal. Monotypic.

Austrolissonota Blanchard, 1941. Dir. Sanid. Veg., Bol. Informativo 4 (14): 16. Nomen nudum.

This large genus is restricted to the New World. Most of the species are Neotropic.

Taxonomy: Townes, 1970 (1969). Amer. Ent. Inst., Mem. 13: 43-44 (N. Amer. spp. referred to genus).

michiganensis (Davis). Northern Va., n.w. S. C., s. Mich., Mo., n.e. Kans. Host: *Stenoma schlaegeri* Zell, *Psilocorsis reflexella* Clem.

Meniscus Michiganensis Davis, 1894. Canad. Ent. 26: 323. ♀.

mirabilis (Cresson). Newfoundland (insular) s. to N. C., w. to Mich., e. Kans., and Ariz. Host: *Aroga trialbamaculella* (Chamb.), *Filatima pseudoacaciella* (Chamb.)?, tortricid on

Myrica asplenifolia.

Meniscus mirabilis Cresson, 1870. Amer. Ent. Soc., Trans. 3: 166. ♀.

Clistopyga pleuralis Ashmead, 1890 (1889). U. S. Natl. Mus., Proc. 12: 448. ♂. Notes on file in the U. S. Natl. Museum indicate that the syntypes were possibly reared from *Filatima pseudoacaciella* (Chamb.).

Meniscus ostentarius Davis, 1894. Canad. Ent. 26: 321. ♂, ♀.

Asphragis pulcherrimus Ashmead, 1898. In Dimmock and Ashmead, Ent. Soc. Wash., Proc. 4: 170. ♂, ♀.

subflava (Davis). N. C., S. C., Ga., Mo., Tex. Host: Caterpillar in *Reullia* sp.

Meniscus subflavus Davis, 1898 (1897). Amer. Ent. Soc., Trans. 24: 371. ♂, ♀.

Genus DIRADOPS Townes

Diradops Townes, 1946. Bol. Ent. Venezolana 5: 59.

Type-species: *Meniscus bethunei* Cresson. Orig. desig.

This large genus is restricted to the New World. All but one of the species are Neotropic.

bethunei (Cresson). Ont. s. to central Ga., w. to n.e. Kans. Host: *Heterocampa manteo* (Dbldy.).

Meniscus Bethunei Cresson, 1869. Canad. Ent. 1: 105. ♀.

Meniscus? Johnsonii Davis, 1894. Canad. Ent. 26: 323. ♀.

TRIBE BANCHINI

This is a small tribe of worldwide distribution. Four of the nine currently recognized genera are represented by Nearctic species. The hosts are caterpillars of Lepidoptera which expose themselves when feeding. Drs. H. K. and M. C. Townes have essentially completed a revision of the Nearctic species and expect to publish it in 1978.

Genus EXETASTES Gravenhorst

Exetastes Gravenhorst, 1829. Ichn. Europaea, v. 3, p. 395.

Type-species: *Ichneumon fornicator* Fabricius. Desig. by Westwood, 1840.

* *Leptobatus* Gravenhorst, 1829. Ichn. Europaea, v. 3, p. 432.

Type-species: *Leptobatus ziegleri* Gravenhorst. Desig. by viereck, 1914.

Semnophrys Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 158.

Type-species: *Exetastes notatus* Holmgren. Monotypically included and desig. by Perkins, 1962.

Rhimpahlea Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 202. Preocc. by Lerder, 1863.

Type-species: *Rhimpahlea brevicorpa* Davis. By subsequent monotypy from inclusion by Davis, 1897.

Iconya Cameron, 1903. Ztschr. System. Hym. Dipt. 3: 340.

Type-species: *Iconya rufipes* Cameron. Monotypic. The type-species is an objective synonym of *E. cameroni* Townes.

Exetastes subg. *Allexetastes* Kokujev, 1904. Rev. Russe d'Ent. 4: 106.

Type-species: *Exetastes (Allexetastes) komarovi* Kokujev. Desig. by Viereck, 1914.

Rhynchexetastes Cameron, 1906. So. African Mus., Ann. 5: 102.

Type-species: *Rhynchexetastes violaceipennis* Cameron. Monotypic.

Tegona Morley, 1913. Fauna Brit. India, Hym., v. 3, p. 251.

Type-species: *Tegona rufipes* Morley. Monotypic. The type-species is regarded as a synonym of *E. cameroni* Townes.

Pseudexetastes Meyer, 1927. Konowia 6: 308.

Type-species: *Pseudexetastes diakonovi* Meyer. Monotypic and orig. desig.

This is a large genus of Neotropic, Holarctic, Oriental (except East Indies), and Ethiopian distribution. Most of the species occur in unforested terrain or in ecotones between forest and grassland.

Revision: Cushman, 1937. U. S. Natl. Mus., Proc. 84: 243-312.

abdominalis Cresson. Minn., Colo., Alta.

Exetastes abdominalis Cresson, 1865. Ent. Soc. Phila., Proc. 4: 276. ♀.

affinis Cresson. Mich., Colo., Oreg.

Exetastes affinis Cresson, 1865. Ent. Soc. Phila., Proc. 4: 277. ♀.

- albitarsis albitarsis** Provancher. N. S. w. to interior Alaska, s. to Pa and Minn.
Exetastes albitarsis Provancher, 1874. Nat. Canad. 6: 78. ♀.
Exetastes rugosus Cushman, 1937. U. S. Natl. Mus., Proc. 84: 280. Unnecessary n. name for
albitarsis Provancher, which is not preocc. by *albitarsus* Gravenhorst, 1829.
- albitarsis concavus** Cushman, n. status. Colo., Ariz.
Exetastes concavus Cushman, 1937. U. S. Natl. Mus., Proc. 84: 281. ♂, ♀.
- albitarsis crassisculptus** Cushman, n. status. Alta.?, s.e. Alaska, s. B. C., e. Wash., w. Oreg.
Exetastes crassisculptus Cushman, 1937. U. S. Natl. Mus., Proc. 84: 278. ♂, ♀.
- alternatives** Cushman. Central N. Mex.
Exetastes alternatives Cushman, 1937. U. S. Natl. Mus., Proc. 84: 299. ♀.
- alticola** Cushman. Southwestern Colo., Wash?
Exetastes alticola Cushman, 1937. U. S. Natl. Mus., Proc. 84: 284. ♂, ♀.
- angustoralis** Cushman. Que. s. to n. Ga., w. to n. Wyo. and Nebr.
Exetastes angustoralis Cushman, 1937. U. S. Natl. Mus., Proc. 84: 291. ♂, ♀.
- bifenestratus** Cushman. D. C., s. Ind., and Kans. s. to s. Fla. and s. Tex.; Cuba, Mexico. Host:
Agrotis malefida Gn.
Ichneumon bifasciatus Say, 1829. Contrib. Maclurian Lyceum to Arts and Sci. 1: 72. ♀.
 Preocc. by Geoffroy, 1785.
Exetastes bifenestratus Cushman, 1937. U. S. Natl. Mus., Proc. 84: 274. N. name for *I. bifasciatus* Say.
- bioculatus** Cresson. D. C., n. Va., Ky., n. Ill., n.e. Kans., Tex.
Exetastes bioculatus Cresson, 1872. Amer. Ent. Soc., Trans. 4: 169. ♂.
Rhimphelea brevicorpa Davis, 1897. Amer. Ent. Soc., Trans. 24: 274. ♀.
- bituminosus** Cushman. Mass., n. Minn., and B. C. s. to central S. C., n. Ga., Mo., and N. Mex.
 Host: *Abagrotis alternata* (Grt.).
Exetastes bituminosus Cushman, 1937. U. S. Natl. Mus., Proc. 84: 300. ♂, ♀.
- brevicornis** Cushman. Eastern S. Dak., Sask., s. Alta.
Exetastes brevicornis Cushman, 1937. U. S. Natl. Mus., Proc. 84: 273. ♂, ♀.
- buccatus** Cushman. Colo., Utah, s.w. Calif.
Exetastes buccatus Cushman, 1937. U. S. Natl. Mus., Proc. 84: 271. ♂, ♀.
- caeruleus** Cresson. Mont., Colo., s. Yukon, s.e. Alaska.
Exetastes caeruleus Cresson, 1865. Ent. Soc. Phila., Proc. 4: 276. ♀.
- caliginosus** (Walley). Southern Sask., e. Wyo.?, Alta. This species was not included in the
 revision of Cushman (1937).
Areneta caliginosa Walley, 1931. Canad. Ent. 63: 168. ♂.
- callipterus** Cushman. Southern Ariz.
Exetastes callipterus Cushman, 1937. U. S. Natl. Mus., Proc. 84: 277. ♀.
- carinatifrons** Cushman. Southwestern Tex., N. Mex., Ariz.; Mexico.
Exetastes carinatifrons Cushman, 1937. U. S. Natl. Mus., Proc. 84: 255. ♀.
- carinatus** Cushman. Southern Tex.
Exetastes carinatus Cushman, 1937. U. S. Natl. Mus., Proc. 84: 258. ♀.
- coloradensis** Cushman. Colo. Cushman did not give complete data for the holotype; according
 to C. F. Baker's notebook it was collected at Fort Collins, Colo. on June 2, 1894 by R. C.
 Stephenson.
Exetastes coloradensis Cushman, 1937. U. S. Natl. Mus., Proc. 84: 298. ♀.
- convergens** Cushman. Ont., w. S. Dak., Wyo., Colo., s.w. Alta., w. Mont., Alaska, s. B. C., w.
 Oreg.
Exetastes subimpressus Cushman, 1937. U. S. Natl. Mus., Proc. 84: 288. ♂, ♀. N. syn.
Exetastes nigribasis Cushman, 1937. U. S. Natl. Mus., Proc. 84: 289. ♂, ♀. N. syn.
Exetastes rufobalteatus Cushman, 1937. U. S. Natl. Mus., Proc. 84: 290. ♂, ♀. N. syn.
Exetastes angustus Cushman, 1937. U. S. Natl. Mus., Proc. 84: 290. ♀. N. syn.
Exetastes convergens Cushman, 1937. U. S. Natl. Mus., Proc. 84: 291. ♀.
- corvinus** Cushman. Western Wash., w. Nev., Calif.
Exetastes corvinus Cushman, 1937. U. S. Natl. Mus., Proc. 84: 303. ♀.

deuteromaurus Dalla Torre. Calif.

Exetastes maurus Cresson, 1879 (1878). Acad. Nat. Sci. Phila., Proc. 30: 370. ♀. Preocc. by Desvignes, 1856.

Exetastes deuteromaurus Dalla Torre, 1901. Cat. Hym., v. 3, p. 71. N. name for *maurus* Cresson.

dichrous Cushman. Colo., n.e. Calif.

Exetastes dichrous Cushman, 1937. U. S. Natl. Mus., Proc. 84: 302. ♀.

dilutipes Cushman. Northwestern Wyo., s.w. Alta., s.w. B. C. Cushman failed to give complete data for the holotype; it was collected on Mt. Norquay, Banff Natl. Park, Alta. in a mountain meadow at an elevation between 5000 and 6000 ft.

Exetastes dilutipes Cushman, 1937. U. S. Natl. Mus., Proc. 84: 285. ♂, ♀.

erythrogaster Cushman. Northern Colo., s.w. Alta., s. B. C., w. Oreg.

Exetastes erythrogaster Cushman, 1937. U. S. Natl. Mus., Proc. 84: 297. ♂, ♀.

Exetastes concoloripes Cushman, 1937. U. S. Natl. Mus., Proc. 84: 298. ♂, ♀. N. syn. Cushman did not give complete data for the holotype; it was collected at North Park, Colo. in July by C. F. Baker.

fascipennis Cresson. Colo., N. Mex., Alta., Ariz.

Exetastes flavitarsis Cresson, 1865. Ent. Soc. Phila., Proc. 4: 277. ♂.

Exetastes fascipennis Cresson, 1865. Ent. Soc. Phila., Proc. 4: 278. ♀.

Exetastes Cressoni Dalla Torre, 1901. Cat. Hym., v. 3, p. 70. Unnecessary n. name for *flavitarsis* Cresson, which is not preocc. by *E. flavitarsus* Gravenhorst, 1829.

flavipennis Cresson. Mass., s. Mich., and w. Idaho s. to w. N. C., s. Ga., and Colo.; Mexico.

Incorrectly treated as a subspecies of the Eurasian *E. fornicator* (Fabricius) by Townes and Townes (1966).

Exetastes flavipennis Cresson, 1865. Ent. Soc. Phila., Proc. 4: 275. ♀.

Exetastes anthracinus Cushman, 1937. U. S. Natl. Mus., Proc. 84: 305. ♂, ♀. N. syn.

Exetastes geminus Cushman, 1937. U. S. Natl. Mus., Proc. 84: 306. ♀. N. syn.

Taxonomy: Townes and Townes, 1966. Amer. Ent. Inst., Mem. 8: 137.

flavus Cushman. Northeastern Colo., N. Mex.

Exetastes flavus Cushman, 1937. U. S. Natl. Mus., Proc. 84: 265. ♀.

igneipennis Cushman. Northeastern Colo., N. Mex., Ariz.; Mexico.

Exetastes igneipennis Cushman, 1937. U. S. Natl. Mus., Proc. 84: 270. ♂, ♀.

illinoiensis (Walsh). Southern Mich., Ill., Minn., w. Iowa, Sask., Colo., Alta. Host: Cutworm.

Leptobatus illinoiensis Walsh, 1873. Acad. Sci. St. Louis, Trans. 3: 148. ♀.

infumatus Cushman. B. C., w. Wash.

Exetastes infumatus Cushman, 1937. U. S. Natl. Mus., Proc. 84: 283. ♀.

Taxonomy: Cushman, 1940. U. S. Natl. Mus., Proc. 88: 364.

scutellaris Cresson. Western S. Dak., Colo., N. Mex., s. Alta., n. Utah, s.w. Calif.; n.w. Mexico?

Exetastes scutellaris Cresson, 1865. Ent. Soc. Phila., Proc. 4: 279. ♂, ♀.

Banchus caudatus Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 121. ♀.

septum Cushman. Southwestern Oreg., w. Calif. Host: *Catabena lineolata* Wlk.

Exetastes septum Cushman, 1937. U. S. Natl. Mus., Proc. 84: 257. ♂, ♀.

suaveolens Walsh. N. B. s. to n. Ga., w. to s. Alta. Host: *Cucullia asteroides* Gn.

Exetastes suaveolens Walsh, 1873. Acad. Sci. St. Louis, Trans. 3: 146. ♂, ♀.

Paniscus Quebecensis Provancher, 1874. Nat. Canad. 6: 106. “♀” = ♂ ? (♂ misdet.).

Provancher's description of the "female" agrees with *suaveolens*, but according to Barron (1975) the only *suaveolens* female in the Provancher collections was collected too recently to be a syntype of *E. Quebecensis*. Because there are five *suaveolens* males in the Provancher collections which cannot be otherwise excluded as possible syntypes, it would seem logical to conclude that Provancher misdetermined the sex of his *E. Quebecensis* "female."

Taxonomy: Provancher, 1879. Nat. Canad. 11: 212 (syn.). —Barron, 1975. Nat. Canad. 102: 541-542.

zelotypus Cresson. Western Calif.

Exetastes zelotypus Cresson, 1879 (1878). Acad. Nat. Sci. Phila., Proc. 30: 370. ♂, ♀.

Genus AGATHILLA Westwood

Agathilla Westwood, 1882. Tijdschr. v. Ent. 25: 23.

Type-species: *Agathilla fulvopicta* Westwood. Monotypic.

Three species are known. The type-species is Mexican, and an undescribed species occurs in Arizona.

bradleyi (Viereck). N. J., n. Va., n. Ohio, s. Ill., n.e. Kans. Host: *Cirrophanus triangulifer* Grt.

This is obviously the species upon which Ashmead (1900) based his description of

Agathobanchus; however, because Ashmead misidentified *bradleyi* as *Banchus aequatus* Say, *Agathobanchus* is placed as a synonym of *Acroricnus* (which see) rather than *Agathilla*.

Agathobanchus bradleyi Viereck, 1905. Kans. Acad. Sci., Trans. 19: 303. ♂, ♀.

Taxonomy: Ashmead, 1900. U. S. Natl. Mus., Proc. 23: 97. — Cushman and Gahan, 1921. Ent. Soc. Wash., Proc. 23: 158-159.

Genus CERATOGASTRA Ashmead

Ceratosoma Cresson, 1865. Ent. Soc. Phila., Proc. 4: 281. Preocc. by Adams and Reeve, 1850.

Type-species: *Ceratosoma fasciata* Cresson. Desig. by Viereck, 1914.

Ceratogastra Ashmead, 1900. Canad. Ent. 32: 368. N. name for *Ceratosoma* Cresson.

Two species are known, *C. pulchricolor* Aubert having been recently described from Turkestan.

ornata (Say). Mass., s. Ont., s. Wis., and n.e. Calif., s. to n. Fla., s. La., s. N. Mex., and s.e. Calif.; Mexico. Ecology: Numerous specimens in the U. S. Natl. Museum collection were collected by J. C. Bridwell and many of them are labeled as ovipositing in flowers of *Ambrosia artemisiifolia*; a few of them are labeled as ovipositing in flowers of *Eupatorium*. Bridwell collected numerous specimens on *Solidago*, but none of these are labeled as ovipositing in the flowers. According to Dr. H. K. Townes (personal communication, 1976) the information on *ornata* given by Townes (1970) was in part personally communicated to him by Bridwell. According to Bridwell, *ornata* oviposits in newly hatched larvae of a species of *Feltia* (generic identification in need of confirmation) which oviposits in flowers of Compositae but whose larvae feed terrestrially (i.e. as cutworms on or in the ground). This account appears to be supported by a number of specimens labeled as being reared from cutworms. Host: *Feltia* sp.?, cutworm.

Agathis polita Say, 1836. Boston Jour. Nat. Hist. 1: 225. ♂, ♀.

Agathis ornata Say, 1836. Boston Jour. Nat. Hist. 1: 226. ♂.

Ceratosoma apicalis Cresson, 1865. Ent. Soc. Phila., Proc. 4: 282. ♂, ♀. N. syn.

Ceratosoma fasciata Cresson, 1865. Ent. Soc. Phila., Proc. 4: 283. ♀.

Ceratosoma rubyata Davis, 1898 (1897). Amer. Ent. Soc., Trans. 24: 366. ♀.

Ceratogastra trifasciata Cushman, 1927. U. S. Natl. Mus., Proc. 72 (13): 21. ♀. N. syn.

Taxonomy: Cushman, 1927. U. S. Natl. Mus., Proc. 72 (13): 21-22. — Townes and Townes, 1951. In Muesebeck et al., U. S. Dept. Agr., Agr. Monog. 2: 319-320.

Biology: Townes, 1970 (1969). Amer. Ent. Inst., Mem. 13: 51.

Genus BANCHUS Fabricius

Banchus Fabricius, 1798. Sup. Ent. System., p. 209, 233.

Type-species: *Banchus pictus* Fabricius. Desig. by Curtis, 1836.

Corynephanus Wesmael, 1849. [Brussels] Acad. Roy. de Belg., Bul. de Cl. des Sci. 16 (1): 631.

Type-species: *Banchus monileatus* Gravenhorst. Monotypic.

Cidaphurus Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 159.

Type-species: *Ichneumon volutatorius* Linnaeus. By subsequent monotypy from inclusion by Woldstedt, 1877.

Corynephanes(!) Marschall, 1873. Nomencl. Zool., p. 258.

Nawaia Ashmead, 1906. U. S. Natl. Mus., Proc. 30: 184.

Type-species: *Nawaia japonica* Ashmead. Monotypic.

This is a moderate sized genus of Neotropic (Sonora, Mexico), Holarctic, and Oriental distribution. About half of the Nearctic species are undescribed. Dr. Michael Fitton is preparing a revision of the western Palearctic species.

borealis Cresson. Ont.

Banchus borealis Cresson, 1868. Canad. Ent. 1: 33. "♂" = ♀.

canadensis Cresson. Maine w. to e. Wash., s. to n. Ga.

Banchus canadensis Cresson, 1868. Canad. Ent. 1: 34. ♂, ♀.

cressonii (Viereck). Mass. s. to e. N. C., w. to Ill.

Banchus inermis Provancher, 1874. Nat. Canad. 6: 62. ♀.
Banchus polychromus Provancher, 1888. Addit. Corr. Faune Ent. Canada Hym., p. 366.
 "♀" = ♂.
Banchus tricolor Cameron, 1905. Invertebrata Pacifica 1: 130. ♂. Preocc. in *Banchus* by Schrank, 1802.
Banchus reparandus Schulz, 1906. Spolia Hym., p. 95. N. name for *tricolor* Cameron.

Taxonomy: Townes, 1961. Ent. Soc. Wash., Proc. 63: 104 (syn.).

- monileatus alticola* (Ashmead). Colo., N. Mex.

Cidaphurus alticola Ashmead, 1901. Psyche 9: 148. ♂.

Banchus alticulus Townes, 1944. Amer. Ent. Soc., Mem. 11: 474. Unjustified emend.

- monileatus monileatus* Gravenhorst. Que., s.w. Alta, Alaska; Greenland; Eurasia.

Banchus monileatus Gravenhorst, 1829. Ichn. Europea, v. 3, p. 393. ♂, ♀.

Banchus formidabilis Provancher, 1874. Nat. Canad. 6: 61. ♀.

Banchus (Corynephantes) groenlandicus Aurivillius, 1890. Svenska Vetensk.-Akad., Bihang til Handl. 15: 30. ♂, ♀.

- nigrolineatus* (Cameron). Southern Idaho, w. Nev., s.e. and w. Calif.

Cidaphurus nigrolineatus Cameron, 1905. Invertebrata Pacifica 1: 129. ♂.

Taxonomy: Townes, 1961. Ent. Soc. Wash., Proc. 63: 105.

- pallescens* Provancher. Que. w. to s.w. B. C., s. to n. Ga. and w. Oreg.

Banchus pallescens Provancher, 1874. Nat. Canad. 6: 62. ♀.

Banchus insignis Provancher, 1874. Nat. Canad. 6: 63. ♂? Provancher (1879) stated that what he had described as *insignis* in 1874 was actually a female; Barron (1975) failed to discuss Provancher's (1879) correction and regarded a male specimen as being the holotype of *insignis*.

Corynephantes tarsalis Ashmead, 1902. In Slosson, Ent. News 13: 321. Nomen nudum.

Taxonomy: Provancher, 1879. Nat. Canad. 11: 218. — Barron, 1975. Nat. Canad. 102: 490, 525.
spinosus Cresson. Colo.

Banchus spinosus Cresson, 1865. Ent. Soc. Phila., Proc. 4: 274. "♂" = ♀.

- superbus* Cresson. Colo., N. Mex., s.w. Utah, n.w. Ariz., s.e. Oreg.

Banchus superbus Cresson, 1865. Ent. Soc. Phila., Proc. 4: 273. ♂.

SUBFAMILY NEORHACODINAE

This small subfamily includes two genera, only one of which occurs in the Nearctic region.

Genus NEORHACODES Hedicke

Rhacodes Ruschka, 1922. Arch. f. Naturgesch. (ser. A) 88 (5): 138. Preocc. by Koch, 1856.

Type-species: *Rhacodes enslini* Ruschka. Monotypic.

Neorhacodes Hedicke, 1922. Deut. Ent. Ztschr. (for 1922), p. 427. New name for *Rhacodes* Ruschka.

This is a small Holarctic and Neotropic genus. There appear to be several undescribed Nearctic species. The type-species, which is European, has been reared from the pemphredonine sphecid *Spilomena troglodytes* (V. d. L.). An undescribed species from W. Va. was reared from a pemphredonine in the galleries of an anobiid in a house timber.

Taxonomy: Horstmann, 1968. Ent. Nachr. 12: 33-36 (final-instar larva and adult of type-species). — Townes, 1971. Amer. Ent. Inst. Mem. 17: 240.

brevicauda Cushman. Ariz.; s. Mexico.

Neorhacodes brevicauda Cushman, 1940. U. S. Natl. Mus., Proc. 88: 526. ♂, ♀.

longicauda Cushman. Colo., Ariz.

Neorhacodes longicauda Cushman. 1940. U. S. Natl. Mus., Proc. 88: 526. ♀.

SUBFAMILY CTENOPELMATINAE

This is a large subfamily; its distribution is worldwide, but it is best represented in the Holarctic Region. The vast majority of the species are thought to be internal parasites of sawfly larvae; however, two species of *Lathrolestes* (one Nearctic and one European) have been reared from primitive microlepidoptera of the family Eriocraniidae. The unreliable nature of Townes' (1970) keys to the genera appears to indicate that this subfamily is very difficult taxonomically.

Taxonomy: Townes, 1970 (1969). Amer. Ent. Inst., Mem. 13: 53-143 (genera of world).

TRIBE CTENOPELMATINI

Five genera are included in this small Holarctic tribe; four of them have nearctic species. The known hosts are Pamphiliidae.

Genus CTENOPELMA Holmgren

Ctenopelma Holmgren 1857 (1855). Svenska Vetensk.-Akad. Handl. 1: 117.

Type-species: *Ctenopelma nigrum* Holmgren. Desig. by Viereck, 1912.

Xaniopelma Tschek, 1868. Zool.-Bot. Gesell. Wien., Verh. 18: 443.

Type-species: *Xaniopelma sericans* Tschek. Monotypic. The type-species is regarded as a synonym of *C. nigrum* Holmgren.

Zachresta Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 151.

Type-species: *Zachresta insignis* Woldstedt. By subsequent monotypy from inclusion by Woldstedt, 1877. The type-species is regarded as a synonym of *C. lucifer* (Gravenhorst).

Diedrus Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 200.

Type-species: *Diedrus areolatus* Davis. Desig. by Viereck, 1914 from two species included by Davis, 1898.

Eryma Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 202. Preocc. by Meyer, 1840 and Albers, 1854.

Type-species: *Eryma stygium* Kriechbaumer. By subsequent monotypy from inclusion by Kriechbaumer, 1891. The type-species is regarded as a synonym of *C. nigrum* Holmgren.

Holmgrenia Kriechbaumer, 1877. Zool.-Mineral. Ver. Regensburg, Corresp.-Bl. 31: 146. Preocc. by Foerster, 1868.

Type-species: *Holmgrenia pulchra* Kriechbaumer. Monotypic. The type-species is regarded as a synonym of *C. xanthostigma* Holmgren.

Kriechbaumeria Dalla Torre, 1885. Naturf. Gesell. Graubuendens, Jahresber. 28: 52. N. name for *Holmgrenia* Kriechbaumer.

Polyomorus Kriechbaumer, 1894. Ent. Nachr. 20: 60.

Type-species: *Polyomorus gagatinus* Kriechbaumer. Monotypic. The type-species is regarded as a synonym of *C. luteum* Holmgren.

Neoeryma Ashmead, 1898. Ent. Soc. Wash., Proc. 4: 169. N. name for *Eryma* Foerster.

Pseudobanchus Szeppligeti, 1911. In Wytsman, Gen. Ins., fasc. 114, p. 79.

Type-species: *Exetastes nigripennis* Gravenhorst. Monotypic.

Polyhomorus Schulz, 1906. Spolia Hym., p. 99. Emend. of *Polyomorus* Kriechbaumer.

This is a Holarctic genus of moderate size.

areolatum (Davis). N. H.

Diedrus areolatus Davis, 1898 (1897). Amer. Ent. Soc., Trans. 24: 324. ♀.

crassicornе Walley. Northern Ont.

Diedrus labradorensis Davis, 1898 (1897). Amer. Ent. Soc., Trans. 24: 324. ♀.

nigrincorne (Provancher). Maine, N. Y., Pa., Md., Ont., Alta.

Mesoleptus nigricornis Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 99. ♀.
sanguineum (Provancher). Que., N. Y., N. J., Alta.

Tryphon sanguineus Provancher, 1875. Nat. Canad. 7: 118. ♂. A lectotype was selected by Townes (1939); Barron's (1975) rejection of it is invalid because Provancher stated that he had three males, and lack of agreement with the original description is not by itself sufficient proof that the lectotype selected by Townes (1939) was not one of Provancher's original syntypes.

Taxonomy: Townes, 1939. Canad. Ent. 71: 93. — Barron, 1975. Nat. Canad. 102: 560.

Genus XENOSCHESIS Foerster

There are two small Holarctic subgenera

Taxonomy: Walley, 1935. Canad. Ent. 62: 180 (key to spp.).

Genus XENOSCHESIS Subgenus XENOSCHESIS Foerster

Xenoschesis Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 158.

Type-species: *Exetastes fulvipes* Gravenhorst. By subsequent monotypy from inclusion by Jemiller, 1894.

Homobia Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 198.

Type-species: *Colpotrochia cinctiventris* Ashmead. By subsequent monotypy from inclusion by Davis, 1897.

Glyptocentrus Kriechbaumer, 1894. Ent. Nachr. 20: 61.

Type-species: *Exetastes fulvipes* Gravenhorst. Monotypic.

cinctiventris (Ashmead). Newfoundland (insular), Maine, N. H., Mass., Pa., w. Calif. Host: *Acantholyda* sp.?, pamphilid on *Pinus rigida*.

Colpotrochia? *cinctiventris* Ashmead, 1896. Amer. Ent. Soc., Trans. 23: 200. "♀" = ♂.

Pyracmon clypeatum Ashmead, 1897. In Slosson, Ent. News 8: 237. Nomen nudum.

Exetastes abbreviatus Davis, 1898 (1897). Amer. Ent. Soc., Trans. 24: 366, ♂, ♀.

Erigloea longitarsis Ashmead, 1906. In Slosson, Ent. News 17: 324. Nomen nudum.

Xenoschesis slossonae Cushman, 1915. Ent. Soc. Wash., Proc. 17: 140. ♀.

Genus XENOSCHESIS Subgenus POLYCINETIS Foerster

Polycentis Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 198.

Type-species: *Notopygus resplendens* Holmgren. By subsequent monotypy from inclusion by Woldstedt, 1877.

Prosmorus Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 198.

Type-species: *Notopygus resplendens* Holmgren. By subsequent monotypy from inclusion by Thomson, 1895.

Erigloea Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 202.

Type-species: *Erigloea polita* Kriechbaumer. Desig. by Viereck, 1914 from three species included by Kriechbaumer, 1891. The type-species is regarded as a synonym of *X. (P.) resplendens* (Holmgren).

Polycentetus Thomson, 1894. Opusc. Ent. 19: 1983. Emend.; preocc. by Gistel, 1848.

crassitarsus Walley. Southwestern Ont.

Genus NOTOPYGUS Holmgren

Notopygus Holmgren, 1857 (1855). Svenska Vetensk.-Akad. Handl. (n.f.) 1: 115.

Type-species: *Notopygus emarginatus* Holmgren. Desig. by Viereck, 1912.

Antipygus Tschek, 1868. Zool.-Bot. Gesell. Wien, Verh. 18: 438.

Type-species: *Antipygus megerlei* Tschek. Monotypic.

This is a small Holarctic genus.

Taxonomy: Cushman, 1915. U. S. Natl. Mus., Proc. 48: 511.

cultus (Cresson). N. Y., N. J., Ill., s.e. S. Dak.

Mesoleptus cultus Cresson, 1868. Amer. Ent. Soc., Trans. 2: 99. "♂" = ♀.

Prosmosus(!) cymbiformis Davis, 1898 (1897). Amer. Ent. Soc., Trans. 24: 309. ♀.

Prosmorus cymbiformis Dalla Torre, 1901. Cat. Hym., v. 3, p. 371. Emend.

excavatus Davis. Nev. w. Wash.

Notopygus excavatus Davis, 1898 (1897). Amer. Ent. Soc., Trans. 24: 309. ♀.

scutellatus Cushman. Northern Idaho.

Notopygus scutellatus Cushman, 1915. Ent. Soc. Wash., Proc. 17: 134. ♀.

virginiensis Cushman. N. H., N. Y., Md., Va., e. N. C.

Notopygus virginiensis Cushman, 1915. U. S. Natl. Mus., Proc. 48: 511. ♀.

Genus HOMASPIS Foerster

Homaspis Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 198.

Type-species: *Mesoleptus rufinus* Gravenhorst. Desig. by Viereck, 1914 from four species included by Thomson, 1894.

Nehomaspis Heinrich, 1949. Muenchen. Ent. Gesell., Mitt. 35-39: 15, 81. Name invalid; type-species not desig. except subsequently by Townes, Momoi, and Townes, 1965.

albipes Davis. N. Y., w. Calif?

Homaspis albipes Davis, 1898 (1897). Amer. Ent. Soc., Trans. 24: 308. ♀.

interruptus (Provancher). Que.

Paniscus interruptus Provancher, 1874. Nat. Canad. 6: 107. ♀.

nigripes Cushman. N. Y., Colo., Wash.

Homaspis nigripes Cushman, 1915. Ent. Soc. Wash., Proc. 17: 134. ♀.

rhadinus Davis. N. H.

Homaspis rhadinus Davis, 1898 (1897). Amer. Ent. Soc., Trans. 24: 308. ♀.

slossonae Cushman. Que., N. H., N. Y., Ont., Wash.

Homaspis slossonae Ashmead, 1897. In Slosson, Ent. News 8: 237. Nomen nudum.

Homaspis slossonae Cushman, 1922. U. S. Natl. Mus., Proc. 61 (8): 15. ♂.

TRIBE PIONINI

Sixteen genera are currently recognized. Only six of them have Nearctic species. It is thought that all members of this tribe oviposit into the egg or early larval instar of their sawfly hosts. The host larva is not killed until after it has reached the prepupal stage and spun its cocoon.

Genus LETHADES Davis

Lethades Davis, 1897. Amer. Ent. Soc., Trans. 24: 204.

Type-species: *Adelognathus texanus* Ashmead. Monotypic.

Townes (1970) said that this Holarctic genus includes ten Nearctic species, eight of which are undescribed.

Taxonomy: Townes, 1970 (1969). Amer. Ent. Inst., Mem. 13: 70.

kukakensis (Ashmead). Southwestern Alaska.

Trematopygus kukakensis Ashmead, 1902. Wash. Acad. Sci., Proc. 4: 212. ♀.

texanus (Ashmead). Tex.

Adelognathus texanus Ashmead, 1890 (1889). U. S. Natl. Mus., Proc. 12: 442. ♀.

Genus HODOSTATES Foerster

Gnesia Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 202. Preocc. by Doubleday, 1848.

Type-species: *Gnesia caliroae* Rohwer. Monotypically included and desig. by Rohwer, 1915.

Hodostates Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 202.

Type-species: *Hodostatus brevis* Thomson. By subsequent monotypy from inclusion by Thomson, 1883.

Hodostatus Thomson, 1883. Opusc. Ent. 9: 929. Emend.

Esigna Perkins, 1962. Brit. Mus. (Nat. Hist.) Ent., Bul. 11: 425. N. name for *Gnesia* Foerster.

One Nearctic and one European species are known.

rotundatus (Davis). N. H., N. J., n. Va. Host: *Caliroa lorata* MacG.?

Trematopygus rotundatus Davis, 1897. Amer. Ent. Soc., Trans. 24: 277. ♂, ♀.

Gnesia caliroae Rohwer, 1915. U. S. Natl. Mus., Proc. 49: 220. ♀. Rohwer erroneously stated that notes under Hopkins' number 11381 pertaining to the holotype record the species as being reared from a species of *Caliroa* which feeds on *Nyssa sylvatica*. Actually the notes record the holotype as having emerged on Aug. 10, 1913 from a larva of *Caliroa* ("= *Eriocampoides*") collected on July 7, 1913 feeding on *Castanea dentata*. D. R. Smith has informed me (personal commun., 1976) that *Caliroa lorata* is the only species of its genus which he knows to feed on *Castanea*.

Taxonomy: Townes, 1970 (1969). Amer. Ent. Inst., Mem. 13: 70-71 (syn.).

Genus TREMATOPYGUS Holmgren

Trematopygus Holmgren, 1857 (1855). Svenska Vetensk.-Akad. Handl. (n. f.) 1: 179.

Type-species: *Trematopygus ruficornis* Holmgren. Desig. by Viereck, 1912.

Amorphogauthon Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 203.

Type-species: *Tryphon melanocerus* Gravenhorst. By subsequent monotypy from inclusion by Kriechbaumer, 1897.

Rhigelus Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 208.

Type-species: *Trematopygus kriechbaumeri* Thomson. Monotypically included and desig. by Perkins, 1962. The type-species is regarded as a synonym of *Trematopygus melanocerus* (Gravenhorst).

Aselasma Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 209.

Type-species: *Tryphon vellincans* Gravenhorst. Monotypically included and desig. by Townes, Momoi, and Townes, 1965.

Campoporus Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 210.

Type-species: *Ichnaeumon dictator* Thunberg. Monotypically included and desig. by Perkins, 1962. The name of the type-species is preocc. by Geoffroy, 1785; *I. dictator* Thunberg is regarded as a synonym of *T. nigricornis* (Holmgren).

Volucris Davis, 1897. Amer. Ent. Soc., Trans. 24: 269.

Type-species: *Tryphon semirufus* Cresson. By subsequent monotypy from inclusion by Davis, 1898.

This is a Holarctic genus of moderate size.

semirufus (Cresson). Que. w. to s.w. B. C., s. to N. J., Ill., Colo., and w. Oreg.

Tryphon semirufus Cresson, 1864. Ent. Soc. Phila., Proc. 3: 278. ♀.

Tryphon rufocinctus Cresson, 1864. Ent. Soc. Phila., Proc. 3: 280. ♀.

Tryphon tuberculifer Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 103. "♀" = ♂.

Taxonomy: Davis, 1898 (1897). Amer. Ent. Soc., Trans. 24: 287, 332.

Genus GLYPTORHAESTUS Thomson

Rhaestus subg. *Glyptorhaestus* Thomson, 1894. Opusc. Ent. 19: 1976.

Type-species: *Rhaestus punctatus* Thomson. Desig. by Viereck, 1914.

Loxoneurus Schmiedeknecht, 1913. Opusc. Ichn., v. 5, fasc. 34, p. 2711.

Type-species: *Loxoneurus thuringiacus* Schmiedeknecht. By subsequent monotypy from inclusion by Schmiedeknecht, 1913 (fasc. 35, p. 2752).

Oocenteter Cushman, 1935. Wash. Acad. Sci., Jour. 25: 556.

Type-species: *Oocenteter tomostethi* Cushman. Monotypic and orig. desig.

This is a Holarctic genus of moderate size.

tomostethi (Cushman). Mass., Md., s.w. Iowa. Host: *Tomostethus multicinctus* (Roh.).

Ocenteter tomostethi Cushman, 1935. Wash. Acad. Sci., Jour. 25: 556. ♂, ♀.

Biology: McConnell, 1938. Ent. Soc. Wash., Proc. 40: 23.

Genus RHORUS Foerster

Rhorus Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 195.

Type-species: *Tryphon mesoxanthus* Gravenhorst. By subsequent monotypy from inclusion by Woldstedt, 1877.

Monoblastus subg. *Dolichoblastus* Strobl, 1903 (1902) Naturw. Ver. f. Steiermark, Mitt. 39: 52.

Type-species: *Monoblastus (Dolichoblastus) flavopictus* Strobl. Monotypic.

Cyphanza Cameron, 1909. Bombay Nat. Hist. Soc., Jour. 19: 723.

Type-species: *Cyphanza nigra* Cameron. Monotypic. The name of the type-species is preocc. in *Rhorus* by Provancher, 1883 and Ashmead, 1902. Townes' (1970) proposal of the replacement name *cameroni* was apparently unnecessary because he did not indicate that the synonymy of *Monoblastus orientalis* Cameron (1909, p. 727) and *Cyphanza nigra* Cameron (1909, p. 723) by Townes, Townes, and Gupta (1961) had been incorrect. Therefore, *R. cameroni* Townes should be presumed to be a synonym of *R. orientalis* (Cameron).

This is a large genus of Holarctic distribution. The tryphonine name *Monoblastus* was incorrectly applied to some species of *Rhorus*, particularly before World War II.

Taxonomy: Cameron, 1909. Bombay Nat. Hist. Soc., Jour. 19: 723, 727. —Townes, Townes, and Gupta, 1961. Amer. Ent. Inst., Mem. 1: 217. —Townes, 1970 (1969). Amer. Ent. Inst., Mem. 13: 73.

clapini (Provancher). Que., Maine, Wash. Host: *Trichiosoma triangulum* Kirby.

Tryphon Clapini Provancher, 1876. Nat. Canad. 8: 327. "♀" = ♂.

Tryphon clapinii Dalla Torre, 1901. Cat. Hym., v. 3, p. 293. Emend.

dufresnei (Provancher). Que., Md., N. C.

Tryphon Dufresnei Provancher, 1875. Nat. Canad. 7: 309. ♂, ♀.

extirpatorius obscurellus (Cresson). Calif. *R. extirpatorius extirpatorius* (Gravenhorst) is European.

Erromenus obscurellus Cresson, 1879 (1878). Acad. Nat. Sci. Phila., Proc. 30: 373. ♀.

extirpatorius punctifrons (Davis). Tex.

Monoblastus punctifrons Davis, 1897. Amer. Ent. Soc., Trans. 24: 261. ♀.

extirpatorius varifrons (Cresson). Que. s. to Va., w. to Alta.

Tryphon varifrons Cresson, 1868. Amer. Ent. Soc., Trans. 2: 104. ♂.

Tryphon scutellaris Cresson, 1868. Amer. Ent. Soc., Trans. 2: 104. ♀.

Tryphon frontalis Cresson, 1868. Amer. Ent. Soc., Trans. 2: 109. ♀.

Tryphon variifrons Dalla Torre, 1901. Cat. Hym., v. 3, p. 303. Emend.

haemorrhicus borealis (Ashmead). Southeastern Alaska. *R. haemorrhicus haemorrhicus* (Hartig) is Eurasian.

Monoblastus niger Ashmead, 1902. Wash. Acad. Sci., Proc. 4: 213. ♂. Preocc. in *Rhorus* by Provancher, 1883.

Phtorina(?) borealis Ashmead, 1902. Wash. Acad. Sci., Proc. 4: 225. ♂.

haemorrhicus fusculosus (Davis). Que. s. to n. Va., w. to Mich. Host: *Caliroa cerasi* (L.).

Mesoleius niger Provancher, 1883. Nat. Canad. 14: 9. "♀" = ♂. Formerly preocc. in *Mesoleius* by Gravenhorst, 1829.

Trematopygus fusculosus Davis, 1897. Amer. Ent. Soc., Trans. 24: 277. ♂.

Mesoleius nigritus Dalla Torre, 1901. Cat. Hym., v. 3, p. 263. N. name for *M. niger* Provancher.

Monoblastus caliroae Viereck, 1912. U. S. Natl. Mus., Proc. 42: 151. ♂, ♀.

Trematopygus eriocampoididis Cushman, 1915. Ent. Soc. Wash., Proc. 17: 135. ♂, ♀.

hervieuxii (Provancher). Que.

Tryphon hervieuxii Provancher, 1879. Nat. Canad. 11: 254. ♀.

pilosus (Davis). Mont., w. Wash.

Erynia pilosa Davis, 1897. Amer. Ent. Soc., Trans. 24: 274. ♂.

tristis (Provancher). Que., Maine, Conn., Ont. Host: *Arge clavicornis* (F.), *Nematus ventralis* Say, sawfly on poplar.

Erronemus(!) *tristis* Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 110. ♀.

Genus SYMPHERTA Foerster

Symphertha Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 196.

Type-species: *Tryphon burrus* Cresson. Desig. by Viereck, 1914 from two species included by Davis, 1897.

Stiphrosomus Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 198. preocc. by Fieber, 1858.

Type-species: *Mesoleptus fuscicornis* Gravenhorst. Desig. by Viereck, 1914 from six species included by Thomson, 1895. The type-species is Gravenhorst's identification of *Ichneumon fuscicornis* Gmelin, 1790, p. 2701 (not p. 2684).

Trapezocora Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 208.

Type-species: *Mesoleptus antilope* Gravenhorst. Included and desig. by Perkins, 1962.

Atrestes Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 209.

Type-species: *Catoglyptus* (*Stiphrosomus*) *sulcatus* Thomson. Monotypically included and desig. by Perkins, 1962.

Campogenes Foerster, 1868. Naturh. Ver. Rheinlande Verh. 25: 209.

Type-species: *Mesoleptus antilope* Gravenhorst. Monotypically included and desig. by Perkins, 1962.

Provancherella Dalla Torre, 1901. Cat. Hym., v. 3, p. 305.

Type-species: *Baryceros rhopalocerus* Provancher. Monotypic.

Eustiphrosomus Hincks, 1944. Roy. Ent. Soc. London, Proc. (ser. B) 13: 34. N. name for *Stiphrosomus* Foerster.

According to Townes (1970) this is a moderately large genus of Holarctic distribution.

Taxonomy: Townes, Momoi, and Townes, 1965. Amer. Ent. Inst., Mem. 5: 245 (syn.).

—Townes, 1970 (1969). Amer. Ent. Inst., Mem. 13: 81-82 (spp. referred to genus).

aciculata (Davis). Mont.

Monoblastus aciculatus Davis, 1897. Amer. Ent. Soc., Trans. 24: 262. ♂.

burra (Cresson). Que. s. to s.e. Ga., w. to e. Iowa.

Tryphon burrus Cresson, 1868. Amer. Ent. Soc., Trans. 2: 108. ♀.

Baryceros rhopalocerus Provancher, 1875. Nat. Canad. 7: 269. Barron (1975) appears to have had valid grounds for rejecting the lectotype selected by Gahan and Rohwer (1918).

Mesoleptus largus Provancher, 1886. Addit. Corr. Faune Ent. Canada Hym., p. 98. ♀.

Taxonomy: Gahan and Rohwer, 1918. Canad. Ent. 50: 33. —Barron, 1975. Nat. Canad. 102: 493, 545.

clinata (Walley). Southwestern Alta.

Stiphrosomus clinatus Walley, 1937. Canad. Ent. 69: 190. ♀.

fucata *fucata* (Cresson). Que. w. to s.w. Alta., s. to N. C., Colo., and n. Ariz.

Mesoleptus fucatus Cresson, 1868. Amer. Ent. Soc., Trans. 2: 99.

Mesoleptus erectus Provancher, 1875. Nat. Canad. 7: 317. ♀.

Mesoleptus laetus Provancher, 1879. Nat. Canad. 11: 231. “♀” = ♂. Preocc. by Gravenhorst, 1829.

Syndipnus erythrogaster Viereck, 1908. Amer. Ent. Soc., Trans. 33: 385. ♂.

fucata nigropleuralis (Davis). Nev.

Mesoleptus nigropleuralis Davis, 1898 (1897). Amer. Ent. Soc., Trans. 24: 317. ♂.

TRIBE PERILISSINI

Eighteen genera are currently recognized; eleven of them are represented by native Nearctic species and a twelfth genus is represented by an introduced species. The tribe is apparently not known from the Australian Region.

Genus SYNOECETES Foerster

Synagrypnus Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 203.

Type-species: *Synagrypnus blaneoburgensis* Schmiedeknecht. By subsequent monotypy from inclusion by Schmiedeknecht, 1914.

Synoecetes Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 203.

Type-species: *Mesoleptus sedulus* Cresson. Desig. by Viereck, 1914 from three species included by Davis, 1897.

Polyrhysia Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 204.

Type-species: *Tryphon tenuicornis* Gravenhorst. Desig. by Viereck, 1914 from two species included by Thomson, 1894.

Polyrhysius Thomson, 1894. Opusc. Ent. 19: 1999. Emend.

This is a small Holarctic genus.

festivus (Cresson). N. H. w. to s. Alta., s. to Md., Ill., and Colo.

Tryphon festivus Cresson, 1864. Ent. Soc. Phila., Proc. 3: 279. "♂" = ♀.

Mesoleptus sedulus Cresson, 1868. Amer. Ent. Soc., Trans. 2: 97. "♂" = ♀.

Genus COELORHACHIS Townes

Coelorrhachis Townes, 1966. In Townes and Townes, Amer. Ent. Inst., Mem. 8: 329.

Type-species: *Mesoleptus decorosus* Cresson. Monotypic and orig. desig.

According to Townes this is a moderately large genus which is Neotropic; at least one undescribed species occurs in Texas.

Genus ZAPLETHOCORNIA Schmiedeknecht

Zaplethocornia Schmeideknecht, 1912. Opusc. Ichn., v. 5, p. 2519.

Type-species: *Ichneumon procurator* Gravenhorst. By subsequent monotypy from inclusion by Schmiedeknecht, 1913.

Nictula Burks, 1952. Ent. Soc. Amer., Ann. 45: 88.

Type-species: *Westwoodia fumipennis* Provancher. Monotypic and orig. desig.

Parastadus Burks, 1952. Ent. Soc. Amer., Ann. 45: 92.

Type-species: *Erigloea opulenta* Davis. Monotypic and orig. desig.

This is a small Holarctic genus.

Taxonomy: Townes, 1970 (1969). Amer. Ent. Inst., Mem. 13: 88 (syn.).

fumipennis (Provancher). Que., N. H., N. Y.

Westwoodia fumipennis Provancher, 1875. Nat. Canad. 7: 329. ♀.

longipes (Davis). Tex.

Syndipnus longipes Davis, 1898 (1897). Amer. Ent. Soc., Trans. 24: 288. ♀.

opulenta (Davis). N. H., Mass., N. Y., N. J., Md.

Erigloea opulenta Davis, 1897. Amer. Ent. Soc., Trans. 24: 275. ♀.

Genus NANUM Townes

Nanum Townes, 1967. In Walkley, in Krombein *et al.*, U. S. Dept. Agr., Agr. Monog. 2, sup. 2, p. 174.

Type-species: *Tryphon capitatus* Cresson. Monotypic and orig. desig.

This is a small Neotropic and Nearctic genus.

capitatum (Cresson). N. H. s. to n. Fla., w. to Tex.

Tryphon capitatus Cresson, 1864. Ent. Soc. Phila., Proc. 3: 281. ♂.

Genus TREMATOPYGODES Aubert

Trematopygodes Aubert, 1968. Soc. Ent. de Mulhouse, Bul. 24: 69.

Type-species: *Trematopygus aprilinus* Giraud. Monotypic.

This is a small Holarctic genus.

Taxonomy: Townes, 1970 (1969). Amer. Ent. Inst., Mem. 13: 92-93 (redescription and additional spp. referred).

frontosus (Davis), n. comb. Wash. Dr. Henry K. Townes kindly informed me (personal commun., 1976) that his most recent notes on the lectotype indicate that this species belongs in *Trematopygodes*.

Labrossyta frontosa Davis, 1898 (1897). Amer. Ent. Soc., Trans. 24: 275. ♀ (♂ misdet.?).

oculatus (Davis). Md., Tex.

Oetophorus oculatus Davis, 1897. Amer. Ent. Soc., Trans. 24: 252. ♀.

osflavus (Davis). N. Y., Pa., Mich.

Oetophorus osflavus Davis, 1897. Amer. Ent. Soc., Trans. 24: 252. ♀.

Genus AECHMETA Townes

Aechmeta Townes, 1970 (1969). Amer. Ent. Inst., Mem. 13: 93.

Type-species: *Ctenopelma indotata* Davis. Orig. desig.

This is a Nearctic genus; only two species are known.

indotata (Davis). N. Y., Va., Ind., Ill., Iowa, Mo., n.e. Kans., Tex.

Ctenopelma indotata Davis, 1897. Amer. Ent. Soc., Trans. 24: 250. ♂, ♀.

Taxonomy: Burks, 1952. Ent. Soc. Amer., Ann. 45: 82, 84, 90.

primosa (Davis). N. H., Tex.

Ctenopelma primosa Davis, 1897. Amer. Ent. Soc., Trans. 24: 250. ♂.

Taxonomy: Burks, 1952. Ent. Soc. Amer., Ann. 45: 82-83.

Genus OETOPHORUS Foerster

Oetophorus Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 196.

Type-species: *Mesoleius stretchii* Cresson. Desig. by Viereck, 1914 from four species included by Davis, 1897.

Symplobus Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 199.

Type-species: *Tryphon pleuralis* Cresson. By subsequent monotypy from inclusion by Davis, 1898.

This is a small holarctic genus.

Taxonomy: Burks, 1952. Ent. Soc. Amer., Ann. 45: 97-98.

nasoni (Davis). Mich., Ill.

Oetophorus nasoni Davis, 1897. Amer. Ent. Soc., Trans. 24: 251. ♀.

Oetophorus nasonii Dalla Torre, 1901. Cat. Hym., v. 3, p. 329. Emend.

Taxonomy: Burks, 1952. Ent. Soc. Amer., Ann. 45: 97-98. —Townes, 1970 (1969). Amer. Ent. Inst., Mem. 13: 94.

pleuralis (Cresson). Que.?, Mass., N. Y., N. J., Pa., Md., Va.?, B. C.?

Tryphon pleuralis Cresson, 1864. Ent. Soc. Phila., Proc. 3: 275. ♀.

stretchii (Cresson). Colo., s.w. B. C., n. Calif.

Mesoleius Stretchii Cresson, 1879 (1878). Acad. Nat. Sci. Phila., Proc. 30: 371. ♀.

Genus PERILISSUS Holmgren

Perilissus Holmgren, 1856 (1855). Svenska Vetensk.-Akad. Handl. 75: 63.

Type-species: *Ichneumon filicornis* Gravenhorst. Monotypic.

Spanotecus Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 197.

Type-species: *Ichneumon filicornis* Gravenhorst. Desig. by Viereck, 1914 from four species included by Thomson, 1883.

Ichneoops Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 197.

Type-species: *Perilissus lutescens* Holmgren. Monotypically included and desig. by Perkins, 1962.

Polygoncus Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 197.

Type-species: *Tryphon erythrocephalus* Gravenhorst. Desig. by Viereck, 1914 from three species included by Thomson, 1883.

Udenia Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 202.

Type-species: *Perilissus (Udenia) herrichii* Kriechbaumer. By subsequent monotypy from inclusion by Kriechbaumer, 1892.

Exacrodus Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 210.

Type-species: *Exacrodus populans* Morley. By subsequent monotypy from inclusion by Morley, 1913. The type-species is regarded as a synonym of *P. cingulator* (Morley).

Daugna Seyrig, 1935. Paris, Mus. d'Hist. Nat., Mem. (n. s.) 4: 29.

Type-species: *Daugna alluandi* Seyrig. Monotypic and orig. desig. The type-species is regarded as a synonym of *P. testaceoides* (Morley).

Pseudochorus Rao, 1953. Indian Forest Rec., New Ser., Ent. 8: 95.

Type-species: *Pseudochorus kuriani* Rao. Monotypic and orig. desig.

This large genus is known from the Holarctic, Oriental, and Ethiopian Regions, but is represented by only a few species in the latter two regions.

Revision: Burks, 1952. Ent. Soc. Amer., Ann. 45: 94-103.

araicus Burks. N. H., Conn., N. Y., N. J., e. S. C., Ont., Mich., Tenn., Colo.

Perilissus araius Burks, 1952. Ent. Soc. Amer., Ann. 45: 101. ♂, ♀.

bicolor (Cresson). Que. s. to S. C., w. to Mich. and Ala.

Mesoleptus bicolor Cresson, 1864. Ent. Soc. Phila., Proc. 3: 269. ♂. Erroneously suppressed as a synonym of *Prionopoda ruficornis* Ashmead in the revision of Burks (1952); *P. bicolor* (Cresson) is not preocc. in *Perilissus* by *P. bicolor* Brischke, 1878.

Prionopoda ruficornis Ashmead, 1896. Amer. Ent. Soc., Trans. 23: 198. ♂.

coloradensis (Ashmead). Ont., N. Dak., Sask., Colo., Utah, Ariz., Calif.

Prionopoda coloradensis Ashmead, 1896. Amer. Ent. Soc., Trans. 23: 198. ♀.

concolor (Cresson). N. B. s. to Va., w. to Mich., Iowa, and Colo. Host: *Dolerus* sp. Townes (1970) placed *concolor* as a subspecies of *P. filicornis* (Gravenhorst); I have compared specimens of *concolor* and *P. filicornis decoloratus* (which see) and believe that *concolor* is specifically distinct.

Mesoleptus concolor Cresson, 1864. Ent. Soc. Phila., Proc. 3: 270. ♀.

Cteniscus concolor Provancher, 1875. Nat. Canad. 7: 139. Preocc. in *Perilissus* by Cresson, 1864.

Taxonomy: Townes, 1970 (1969). Amer. Ent. Inst., Mem. 13: 95.

discolor (Cresson). Que. w. to Sask. and Idaho, s. to D. C., Kans., and Colo. Host: *Empria coryli* (Dyar).

Mesoleptus unicolor Cresson, 1864. Ent. Soc. Phila., Proc. 3: 271. [female].

Mesoleptus discolor Cresson, 1864. Ent. Soc. Phila., Proc. 3: 271. ♂. In his revision, Burks (1952) incorrectly suppressed *discolor* as a synonym of *unicolor*, apparently having regarded page priority as grounds for disregarding Townes' (1945) first revisor decision. Townes (1970) placed *discolor* as a subspecies of *P. filicornis* (Gravenhorst), but Townes (1976, personal commun.) has confirmed my supposition that this was an error; it had been his intention to place *Mesoleptus decoloratus* Cresson (which see) as a subspecies of *P. filicornis*.

Pyracmon rufum Provancher, 1882. Nat. Canad. 13: 365. ♀.

Taxonomy: Townes, 1945. Amer. Ent. Soc., Mem. 11: 498. — Townes, 1970 (1969). Amer. Ent. Inst., Mem. 13: 95.

filicornis decoloratus (Cresson), n. status. N. S. w. to interior Alaska, s. to Pa., Ill., Colo., and B. C. *P. filicornis filicornis* (Gravenhorst) is European.

Mesoleptus decoloratus Cresson, 1864. Ent. Soc. Phila., Proc. 3: 265. ♂.

Perilissus southwickii Ashmead, 1896. Amer. Ent. Soc., Trans. 23: 196. ♂.

Genus ABSYRTUS Holmgren

Absyrtus Holmgren, 1859 (1858). Svenska Vetensk.-Akad., Ofvers af ... Forh. 15: 323.

Type-species: *Absyrtus luteus* Holmgren. Monotypic. The type-species is regarded as a synonym of *A. vicinator* (Thunberg).

Eczetesis Foerster, 1868. Naturh. Ver. Rheinlande, Verh. 25: 196.

Type-species: *Perilissus paniscoides* Ashmead. By subsequent monotypy from inclusion by Davis, 1897.

This is a small Holarctic genus.
