**ABSTRACT**

The distributions of planthoppers occurring in the United States east of the Mississippi River are listed.

---

Metcalf's catalogue of the Fulgoroidea [Fascicle IV of the catalogue of the Homoptera (Hemiptera)] was published in 18 parts between 1932 and 1958. Those parts dealing with the eastern U. S. species of the Fulgoroidea (or planthoppers) were published between 1936 and 1958 (i.e., 1936; 1943; 1945; 1946; 1947a, b; 1954a, b; 1957; 1958) and have served as the basic source of information (e.g., synonyms, distributions, references) for these species. However, the distributions of these species as listed in Metcalf's catalogue have become increasingly outdated because of subsequent faunal lists, revisions of higher taxa, and descriptions of new species. Presented here are the updated distributions of the eastern U.S. species. These consist of the distributions given by Metcalf, supplemented with more recent records. We have omitted Metcalf's distributions for those taxa that have undergone revisions subsequent to publication of his catalogue. Only 1 reference is listed per state even though several authors may have provided records. The eastern U. S., as defined here, is that area east of the Mississippi River, and includes Louisiana and Minnesota which lie partially east of the River.

The present list includes 394 species in 89 genera and 10 families (Table 1). The sequence of taxa follows, where possible, that given in Metcalf's catalogue. *Delphacodes* has been split into several new genera by European workers [e.g., Fennah (29)] but we have elected to use the name *Delphacodes* because, apparently, few of the ca. 120 North American species were examined by these authors when they erected the new genera.

Table 1., List of the Fulgoroidea of the eastern United States.

*acutus* (Uhler), GA, FL (50).  
*punctatus* (Walker), GA, FL (50).  
*scabrosus* (Melichar), GA (50).

Family *ACANALONIIDAE* Amyot and Serville

*Acanalonia* Spinola  
*bivittata* (Say), ME, MA, CT, NY, NJ, PA, MD, DC, VA, WV, NC, SC, GA, FL, MS, AL, LA, KY, OH, IN, IL, MI, WI, MN (49).  
*concinnulla* Fowler, FL (49).  
*conica* (Say), DE, MD, VA, NC, GA, FL, MS, AL, LA, TN, KY, OH, IN, IL (49).  
*latifrons* (Walker), PA, NC, SC, GA, FL, MS, LA (49).

*pumila* (Van Duzee), NC, FL (49).  
*servillei* Spinola, NY, PA, FL, LA (49).  
*virescens* (Stål), FL (49).

Family *ISSIDAE* Spinola

*Fitchiella* Van Duzee

*robertsonii* (Fitch), NY, PA, MD, FL, MS, OH, IN, IL (51).

*Bruchomorpha* Newman

*abrupta* Ball, FL (51).

*dorsata* Fitch, CT, NY, NJ, PA, NC, MS, OH, IL, WI (51).

*jocosa* Stål, NJ, DC, VA, NC, SC, FL, MS (51); IL (64); WI (51).

*minima* Metcalf, NC, FL (51).

*mormo* Kirkaldy, NC<sup>d</sup> (51).

*nodosa* Doering, LA (51).

*oculata* Newman, ME, NH, VT, CT, NY, NJ, PA, MD, VA, NC, FL, MS, OH, IN, IL, WI, MN (51).

*pallidipes* Stål, DC, VA, SC, FL, MS, AL, LA (51); IL (64).

*suturalis* Melichar, NC<sup>d</sup>, FL<sup>d</sup>, MS<sup>d</sup> (51).

*tenebrosa* Doering, FL (51).

*tristis* Stål, CT, NY, NJ, DC, NC, FL (51); IL (64); WI, MN (51).

*Aphelonema* Uhler

*decorata* (Van Duzee), NJ, FL (51).

*histrionica* (Stål), NH, MA, NY (51); IL (61); MI, WI, MN (51).

*nigriviridia* Ball, FL (51).

*obscura* Van Duzee, GA, FL, MS (51).

*rugosa* (Ball), MD<sup>d</sup>, MN (51).

*simplex* Uhler, CT, NJ, MD, VA, FL, MS, OH (51); IL (64).

*viridis* Dozier, MS (51).

*Hysteropterum* Amyot and Serville

*fuscomaculosum* Doering, FL (51).

*punctiferum* Walker, NJ, GA, FL (51).

*Thionia* Stål

*bullata* (Say), NY, NJ, PA, DC, NC, SC, GA, FL, MS, AL, LA, TN, OH, IN (51); IL (64).

*elliptica* (Germar), NJ, DC, NC, GA, KY, OH (51); IL (64).

*quinquata* Metcalf, NC, GA (51).

*simplex* (Germar), NJ, MD, DC, VA, NC, SC, FL, MS, AL, TN, KY, OH (51); IL (64).

---

<sup>a</sup>plus 1 unpublished new species [see Mead (38)].

<sup>b</sup>synonym of *C. basalis* Van Duzee [see Beirne (19)].

<sup>c</sup>this species was placed in *Pseudocixius* by Caldwell (25). *Cixius* is currently being revised by J.P. Kramer (pers. comm.) and his review may change the placement of this species.

<sup>d</sup>record possibly in error.

<sup>e</sup>Morgan and Beamer (52) state that this species "is not a *Pissonotus*" but do not indicate in which genus it belongs.

<sup>f</sup>record in error [see reference listed in Metcalf (43)].

<sup>g</sup>may not be *D. magna* [see Wilson (61)].

<sup>h</sup>plus 6 unpublished new species [see Flynn (30)].

<sup>i</sup>Metcalf (50) listed locality as "Carolina".

## ACKNOWLEDGMENTS

We wish to thank Dr. Lois B. O'Brien, Department of Entomology, Florida A & M University, Tallahassee, for suggesting this project, and for providing us with a list of planthoppers which facilitated completion of this paper.
