

LIST OF INSECTS COLLECTED ON NIUE ISLAND DURING FEBRUARY AND MARCH, 1959

*B. B. GIVEN,
Entomology Division, D.S.I.R., Nelson.

The following list is not comprehensive. Many groups were not collected at all and none are listed which did not occur as adults during the period of the visit. It was feared at one period, when, following the 1959 hurricane, collected material remained in sodden condition in cardboard boxes for some ten days, that only specimens in alcohol would be of any use. However, although some boxes were externally covered with mould when examined, none was affected inside and no specimens were damaged to a significant extent. This was probably due to the presence in each container of chlorocresol (2-chloro-5-hydroxy-toluene) crystals.

COLEOPTERA

Carabidae	<i>Gnathaphanus impressipennis</i> Cast.
Histeridae	<i>Platysoma urvillei</i> Le Guill.
Nitidulidae	<i>Carpophilus maculatus</i> Murray.
Mycetophagidae	<i>Litargus vestitus</i> Sharp.
Colydiidae	<i>Pycnomerus</i> sp.
Coccinellidae	<i>Coelophora inaequalis</i> (F.), <i>Epilachna sparsa</i> (Hbst.) ssp. 26 - <i>punctata</i> (Boisd.).
Hydrophilidae	<i>Dactylosternum abdominalis</i> (F.).
Lyctidae	<i>Lyctus brunneus</i> (Steph.).
Cleridae	<i>Tarsostenus univittatus</i> Rossi.
Bostrichidae	<i>Xylothrips religiosae</i> Boisd.
Elateridae	<i>Monocrepidius pallipes</i> Esch., <i>Simodactylus cinnamomeus</i> Boisd.
Lucanidae	<i>Figulus foveicollis</i> Boisd.
Aphodiidae	<i>Trichiorhysemus hirsutus</i> Clouët., <i>Aphodius lividus</i> Olivier.
Tenebrionidae	<i>Uloma cavicollis</i> Fairm.
Oedemeridae	<i>Sessinia livida</i> F., <i>Pselaphanca ad pictata</i> Fairm.
Curculionidae	<i>Rhabdoscelus obscurus</i> Boisd., <i>Diocalandra frumenti</i> F., <i>Elytrurus niuei</i> Zimm.
Platypodidae	<i>Crossotarsus exter nedentatus</i> Fairm.
Anthribidae	<i>Araecerus fasciculatus</i> Deg.
Cerambycidae	<i>Ceresium guttaticollis</i> Fairm.
Lamiidae	<i>Sybra</i> s.p., ? <i>Oopsis</i> sp.
Galerucidae	<i>Aulacophora fabricii</i> Baly, <i>Aulacophora quadrimaculata</i> Fabr.

*Address now: Ruakura Agricultural Research Centre, Hamilton.

HYMENOPTERA

Apidae	<i>Megachile deligens</i> Sm., <i>Lithurgus scabrosus</i> Sm.
Sphegidae	<i>Pison tahitiense</i> Sss., <i>Pison</i> sp.
Vespidae	<i>Odynerus bicinctus</i> Sss., <i>Rhygchium rufipes</i> F., <i>Polistes hebraeus</i> F.
Formicidae	<i>Camponotus</i> sp.
Ichneumonidae	<i>Echthromorpha immaculata</i> Kreig.
Braconidae	<i>Apanteles</i> sp. ? <i>ruficrus</i> Hal., <i>Agathis</i> (<i>Microdus</i>) sp.
Evaniidae	<i>Evania appendigaster</i> L.

LEPIDOPTERA

Nymphalidae	<i>Euploea lewinii perryi</i> Butler, <i>Hypolymnas bolina</i> L.
Pieridae	<i>Anophaeis java</i> ssp. near <i>schmettei</i> Hopk.
Lycaenidae	<i>Lampides boeticus</i> L., <i>Jamides</i> sp.
Arctiidae	<i>Utetheisa</i> sp. ? <i>salmonis</i> Rths.
Geometridae	<i>Cleora samoana</i> Butler.
Thyrididae	<i>Rhodoneura</i> sp. (near <i>clathrula</i> Gn.).
Pyralidae	<i>Margaronia buxtoni</i> Tams., <i>Margaronia marginata</i> Hmps., <i>Margaronia</i> sp., <i>Margaronia multilinealis</i> Kenrick, <i>Piletocera</i> sp., <i>Piletocera signiferalis</i> Walk., <i>Endotricha mesenterialis</i> Walk., gen. et spp. indet.
Sphingidae	<i>Herse convolculi</i> L., <i>Chromis erotus</i> Cram., <i>Cephalodes rothschildi</i> Rebel.
Noctuidae	<i>Orthreis fullonica</i> Clerck, <i>Chasmina tibialis</i> F., <i>Achaea serva</i> F., <i>Parallelia aritotaenia</i> Gn., <i>Parallelia anetica</i> F., <i>Tiracula grisescens</i> Warr. <i>Hyblaea puera</i> Cram., <i>Anigraea rubida</i> Walm., <i>Anua coronata</i> F., <i>Catephia sericea</i> Butler, <i>Eriopus recurvata</i> Moore, <i>Spodoptera acronyctoides</i> Guen., <i>Plusia chalcites</i> Esp., ? <i>Plusia</i> sp.

HEMIPTERA

Delphacidae	<i>Ugyops samoensis</i> Muir, <i>Tarophagus proserpina</i> (Kirk).
Derbidae	<i>Swezeyia Maurellei</i> Muir.
Cydnidae	<i>Geotomus pygmaeus</i> Dall.
Pentatomidae	<i>Paracoleotichus</i> sp., <i>Paracoleotichus</i> sp., <i>Epicoleotichus</i> sp. near <i>bulowi</i> Schout.
Lygaeidae	<i>Pachybrachius limbata</i> Stal., <i>Pachybrachius nigriceps</i> Dall., ? <i>Altomarus</i> sp., <i>Rhyparochromus insularis</i> Kirk.
Pyrrhocoridae	<i>Dystercus oceanicus</i> Boisd.
Cicadellidae	<i>Jassoidula</i> sp.

ORTHOPTERA

Blattidae	<i>Periplaneta australasiae</i> (Fab.), <i>Periplaneta americana</i> (L.), <i>Pelmatosilpha vagabunda</i> Princis, <i>Pycnoscelus surinamensis</i> (L.), Gen. et. sp. indet. (adults), Gen. et. sp., indet. (Nymph).
Gryllidae	<i>Acheta oceanicus</i> (Le Guillou), Gen. et. sp. indet.
Tettigoniidae	<i>Caedicia</i> sp.
Acrididae	<i>Austracris guttulosa</i> Walk.

DERMAPTERA

Chelisochidae	<i>Chelisoches morio</i> Fab.
---------------	-------------------------------

DIPTERA

Phoridae	<i>Megaselia scalaris</i> (Loew).
Syrphidae	Undetermined sp.
Dolichopodidae	<i>Chrysosoma</i> sp.
Stratiomyidae	<i>Microchrysa maxima</i> Bezzi, <i>Chromatopoda annulipes</i> Walk.
Drosophilidae	<i>Drosophila nasuta</i> Lamb.
Sapromyzidae	<i>Trypanoides caniventris</i> Bezzi, <i>Homoneura acrostichalis</i> de Meij.
Trypetidae	<i>Dacus</i> sp.
Ortalidae	<i>Pseudorichardia flavitarsis</i> Macq., <i>Scholastes bimaculatus</i> Hendel.
Chloropidae	Undetermined sp.
Muscidae	<i>Dichaetomyia rufa</i> (Stein), <i>Atherigona trilineata</i> Stein, <i>Musca domestica</i> L., <i>Musca sorbens</i> Wied.
Sarcophagidae	<i>Sarcophaga dux</i> Thom., Undetermined sp.
Calliphoridae	Undetermined sp., Undetermined sp.

ACKNOWLEDGEMENTS

Thanks are due to the following authorities for determinations of material—Coleoptera: R. D. Pope, E. A. J. Duffy, C. M. F. von Hayek, R. T. Thompson, B. J. Solman; Hymenoptera: G. E. J. Nixon, G. J. Kerrich, R. D. Eady; Lepidoptera: T. G. Howarth, R. J. Collins, D. S. Fletcher, P. E. S. Whalley; Hemiptera: R. G. Fenah, M. S. K. Ghauri; Orthoptera: P. M. Stock, D. R. Ragge, V. M. Dirsh; Dermaptera: P. M. Stock; Diptera: R. A. Harrison.
