## CONTENTS

### History, Morphology, Taxonomy, Faunistics

Geological history of Auchenorrhyncha . . . . .	3
<i>D.E. Shcherbakov</i>	
Chromosome numbers in the Auchenorrhyncha and their taxonomic significance . . . . .	5
<i>V.G. Kuznetsova</i>	
A Molecular Approach to Planthopper Systematics . . . . .	7
<i>Philippa Jones, Peter Gacesa and Roger Butlin</i>	
Brochosomes of Australian Cicadelloidea . . . . .	10
<i>M.F. Day</i>	
Brochosomes as an outstanding specialization of Membracoidea . . . . .	12
<i>R.A. Rakitov</i>	
Caducity in the tegmina of Flatidae (Fulgoroidea). . . . .	14
<i>John T. Medler</i>	
Taxonomic remarks on some species of <i>Cixidia</i> (Homoptera, Auchenorrhyncha) . . . . .	18
<i>Vera D'Urso and Adalgisa Guglielmino</i>	
The genus <i>Agallia</i> in Greece : distribution, polymorphism and taxonomic problems . . . . .	19
<i>A. Pythoula and S. Drosopoulos</i>	

### Phylogenetics

Cladistic analysis of the Meenoplidae-Kinnaridae genera: the Kinnaridae, a paraphyletic family (Homoptera, Fulgoromorpha) . . . . .	22
<i>Th. Bourgoïn</i>	
Phylogeny of fulgoromorpha nymphs, first results . . . . .	25
<i>Chung-Tu Yang and Shang-Jen Fang</i>	
Phylogenetic analysis of leafhopper (Homoptera: Cicadellidae) family-groups: Problems and prospects . . . . .	27
<i>Christopher H. Dietrich</i>	
Zoogeography, vector status and host associations as character states in the classification and phylogeny of Cicadellidae . . . . .	29
<i>M.W. Nielson</i>	
Primary studies of phylogenetic relationships of leafhoppers in Oman's tribe Deltocephalini based on mitochondrial DNA sequences . . . . .	30
<i>Q. Fang<sup>1</sup>, H. D. Blocker<sup>2</sup>, W. C. Black IV<sup>3</sup> and R. F. Whitcomb</i>	
Utility of ovipositor and associated structures in the higher classification of Cicadellidae with special reference to Indian Idiocerinae . . . . .	32
<i>C.A. Viraktamath and C. Parvathî</i>	
A generic revision of the Austro-oriental Selenocephalinae (Homoptera:Cicadellidae): work in progress . . . . .	35
<i>Zhang Yalin &amp; M.D. Webb</i>	
The habitat and hind legs of the early Membracoidea (=Cicadelloidea) . . . . .	36
<i>M.D. Webb</i>	
Characters of the cicadellid leg and their use in classifications . . . . .	39
<i>Webb, M.D. &amp; Zhang Yalin</i>	

An annotated checklist of the Australian Cicadelloidea . . . . .	41
<i>M.J. Fletcher</i>	

## Ecology, Biodiversity

Influence of host plant architecture on the dispersal capability of Delphacid planthoppers . . . . .	44
<i>Robert F. Denno</i>	
Investigations about leafhopper communities in a gradient of pollution . . . . .	46
<i>Sabine Wlegand</i>	
Development of facilities to mass rear <i>Cicadulina</i> leafhoppers to screen for maize streak virus resistance in Ghana, Cameroun and Cote d' Ivoire . . . . .	48
<i>N. A. Bosque-Percez, S. O. Olojede , M. Owusu-Akyaw , D. Acle and I. Tabi</i>	
Biological and ecological notes on Delphacidae and Cicadellidae of cereals in Italy . . . . .	49
<i>Alessandra Arzone &amp; Alberto Alma</i>	
Consequences of plant-soil habitat transformation by Homoptera-Auchenorrhyncha . . . . .	51
<i>Lucyna Andrzejewska</i>	
A sex attractant of <i>Synophropsis lauri</i> (HORVATH): ecological and behavioral role . . . . .	53
<i>Panos V. Petrakis &amp; B.E. Mazomenos</i>	
Hygic (osmotic) dormancy of the embryos in <i>Euscelis incisus</i> (Kbm.) (Homoptera Auchenorrhyncha) - a possibility to survive adverse hygic conditions . . . . .	58
<i>Witsack, W.</i>	
Effect of maize variety and presence of maize streak virus on the feeding behavior of <i>Cicadulina storeyi</i> . . . . .	60
<i>T. Mesfin and N. A. Bosque-Perez</i>	
Water deficit: One of the limiting factors of the embryogenesis in <i>Javesella pellucida</i> (F.) and <i>Macrosteles sexnotatus</i> (Fall.) (Homoptera: Auchenorrhyncha) . . . . .	61
<i>Schopke, H. &amp; W. Witsack</i>	

## Natural Enemies

Elenchus japonicus (Strepsiptera: Elenchidae), a parasitoid of the rice planthoppers, <i>Nilaparvata lugens</i> (Stal) and <i>Sogatella furcifera</i> (Horvath) in southeast Asia . . . . .	64
<i>Jeyaraney Kathirithamby</i>	
A quantitative field study on egg parasitism of the brown planthopper in Indonesia . . . . .	65
<i>Anja E. Steenkiste, Michael F. Claridge and John C. Morgan</i>	
Diversity of leafhoppers and their hymenopteran parasitoids in maize, teosinte and gamagrass . . . . .	67
<i>G. Moya-Raygoza</i>	

## Insect - Plant Relationships

Stippling vs. burning: understanding and quantifying the feeding damage from <i>Empoasca</i> spp. Leafhoppers . . . . .	70
<i>Elaine A. Backus</i>	
Use of videomicrography to standardize potato leafhopper probing in the study of hopperburn . . . . .	72

<i>Carol L. Ecale &amp; Elaine A. Backus</i>	
Response of <i>Empoasca fabae</i> to diversification of alfalfa with varying densities of oats . . .	74
<i>William O. Lamp &amp; Limin Zhao</i>	
Empoasca and other Auchenorrhyncha species on light traps in cotton fields in Greece . .	77
<i>I. Kyriakidou and S. Drosopoulos</i>	
Biological control of <i>Empoasca decipiens</i> , a new leafhopper pest in british glasshouses . .	79
<i>Kay Steacy and Annick Pouchot-Lermans</i>	
Characterization of two variants of the <i>Circulifer tenellus</i> complex in Israel . . . . .	80
<i>M. Klein , Lynett Almeida and B. Raccah</i>	
Comparative analysis of the effects provoked by injecting purified MRFV in adults of <i>Dalbulus maidis</i> and <i>D.elimatus</i> . . . . .	82
<i>Nora E. Galindo Miranda</i>	
<i>Dalbulus maidis</i> & <i>D. elimatus</i> nymphal stage, an ecophysiological view . . . . .	84
<i>Julieta Ramos-Elorduy B. &amp; Nora E. Galindo-Miranda.</i>	

## Bioacoustics

Biological Species and Acoustic Signals in Planthoppers . . . . .	87
<i>M.F. Claridge &amp; J.C. Morgan</i>	
Acoustic differentiation and reproductive isolation between reed feeding <i>Chloriona</i> planthoppers . . . . .	89
<i>P.W.F. de Vrijer and M.C. Gillham</i>	
Acoustic signals and life history of <i>Machaerota rastrata</i> . . . . .	91
<i>J.C. Morgan and M.F. Claridge</i>	
Biosystematic studies on some Auchenorrhyncha in Portugal . . . . .	93
<i>J. A. Quartau</i>	

## Evolution, Population Genetics

Novel New Zealand populations of the meadow spittlebug <i>Philaenus spumarius</i> (Cercopidae) . . . . .	95
<i>D.R. Lees</i>	
Population studies of the spittlebug genus <i>Philaenus</i> in the Mediterranean . . . . .	98
<i>S. Drosopoulos and M. Loukas</i>	
Hybrid zones between <i>Zyginidia pullula</i> (Boh.) and <i>Z.Ribauti</i> Dwor. in the Ligurian Alps and Apennines (Rhynchota Auchenorrhyncha). A first survey . . . . .	100
<i>Peter J. Mazzoglio &amp; Alessandra Arzone</i>	
Evolution of cavernicolous planthoppers (Homoptera, Fulgoroidea) on oceanic islands : A comparison between Hawaii and the Canary Islands . . . . .	103
<i>Hannelore Hoch</i>	
Modes of speciation in planthoppers, leafhoppers and froghoppers : A review based on biosystematic data . . . . .	106
<i>S. Drosopoulos</i>	
The plant phenology hypothesis of speciation through host plant shifts : A test . . . . .	108
<i>T.K. Wood and K.J. Tilmon</i>	
The wild and wonderful Fulgoridae: what little we know about their biology . . . . .	110
<i>Louis B.O'Brien</i>
